NOTES TO THE CONDENSED FINANCIAL STATEMENTS

January 31, 2015

NOTE 1. CONDENSED FINANCIAL STATEMENTS

The accompanying condensed financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at January 31, 2015 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's July 31, 2014 audited financial statements. The results of operations for the period ended January 31, 2015 are not necessarily indicative of the operating results for the full year.

The accompanying condensed financial statements have been revised to reclassify an item previously recorded at July 31, 2014 as an expense to prepaid as the amount was refunded in the following year. The Company deems the revision was not significant to trigger a restatement.

NOTE 2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As of January 31, 2015, the Company has never generated any revenues and has accumulated operating losses of approximately \$ 3,001,004 since inception.

At January 31, 2015, the Company has limited cash resources and will likely require new financing, either through loans from officers, debt financing, equity offerings or business combinations to continue the development of its business; however, there can be no assurance that management will be successful in raising the funds necessary to maintain operations, or that a self-supporting level of operations will ever be achieved. The likely outcome of these future events is indeterminable. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations and the attainment of profitable operations.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

The adoption of this ASU allows the Company to remove the inception to date information and all references to development stage.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

The Company may from time to time make written or oral "forward-looking statements" including statements contained in this report and in other communications by the Company, which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements of the Company's plans, objectives, expectations, estimates and intentions, which are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, in addition to others not listed, could cause the Company's actual results to differ materially from those expressed in forward looking statements: the strength of the domestic and local economies in which the Company conducts operations, the impact of current uncertainties in global economic conditions and the ongoing financial crisis affecting the domestic and foreign banking system and financial markets, including the impact on the Company's suppliers and customers, changes in client needs and consumer spending habits, the impact of competition and technological change on the Company, the Company's ability to manage its growth effectively, including its ability to successfully integrate any business which it might acquire, and currency fluctuations. All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

In this Form 10-Q references to "MeeMee", "the Company", "we", "us" and "our" refer to MeeMee Media Inc.

Limited Operating History

There is limited historical financial information about our company upon which to base an evaluation of our future performance. We are a development stage corporation and have not generated any revenues from operations. We cannot guarantee that we will be successful in our business operations. We are subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible delays in the exploitation of business opportunities. We may fail to adopt a business model and strategize effectively or fail to revise our business model and strategy should industry conditions and competition change.

We have limited resources and there is no assurance that future financing will be available to us on acceptable terms. Additional equity financing could result in dilution to existing shareholders.

Overview of Operations

We were incorporated in the State of Nevada on August 23, 2005. We maintain our statutory registered agent's office at 311 W. Third Street, Carson City, NV 89703 and our business office is located at 6630 West Sunset Boulevard, Los Angeles, CA 90027. Our telephone number is (310) 460-9215.

Our original business was to involve the design and marketing of women's intimate apparel. Emphasis was on utilizing fabric and stitch design which would not show through regular clothing as undergarments. We were unsuccessful in our efforts to locate a suitable fabric, and as a result ventured into the development of skin care products built around "catechin", the naturally occurring bioflavonoid that detoxifies cell-damaging free radicals in the body and is considered to have a range of potential health benefits to help combat arthritis, vascular disease and certain cancers. Unfortunately we were unable to secure and develop working relationships with third party subcontractors needed to execute our business plan and we have been seeking other viable business opportunities for the Company.

On April 24, 2013, we issued a press release announcing that we had entered into an Exclusivity Agreement and Non-Binding Letter of Intent ("LOI") with one of Latin America's largest and most profitable mobile content and services companies (the "Target"), to purchase 100% of the interests of the Target (the "Acquisition"). Under the terms of the LOI, the Acquisition would primarily be paid for with cash consideration, a component of which is structured as a three-year earn-out, and conditioned on the achievement of certain EBITDA hurdles. The Target would receive common stock, valued on the same basis as the equity component of the Company's intended financing. During the year ended July 31, 2014, the LOI expired. On August 22, 2014 we entered into a revised Corporate Acquisition Letter of Intent and Exclusivity Agreement with the Target, whereby the Acquisition as previously disclosed under the LOI of April 24, 2013, would be carried out under a two-stage acquisition. As of the date of this Quarterly Report on Form 10-Q, the August 22, 2014 Corporate Acquisition Letter of Intent is no longer in effect as the terms and conditions were not met.

We are a "shell company" whose sole purpose at this time is to locate and consummate a merger and/or acquisition with an operating entity.

We have no employees and own no property. We currently maintain office space located at 6630 West Sunset Boulevard, Los Angeles, CA 90027. There is no lease arrangement for the office space. We are on a month-by-month, as needed basis. We do not intend to perform any further operations until a merger or acquisition candidate is located and a merger or acquisition consummated.

Liquidity and Capital Resources

At January 31, 2015, we had total assets of \$89,063 (\$8,223 in cash and \$80,840 in loan receivable) against total liabilities of \$1,798,850 compared to total assets of \$248,594 and total liabilities of \$1,621,826 at July 31, 2014. Net working capital was \$(1,709,787) compared to \$(1,398,232) at July 31, 2014. We incurred a net loss of \$(360,979) for the six months ending January 31, 2015 and an aggregate deficit since inception of \$(3,001,004).

Since inception, we have used our common stock to raise money to fund our business operations, for corporate expenses and to repay outstanding indebtedness. During the six months ended January 31, 2015 we did not issue any common stock.

During the next twelve months we expect to incur indebtedness for administrative and professional charges associated with preparing, reviewing, auditing and filing our financial statements and our periodic and other disclosure documents to maintain the Company in good standing. Our management is exploring a variety of options to meet our cash requirements and future capital requirements, including the possibility of equity offerings, debt financing and business combinations.

As at January 31, 2015, an aggregate of \$485,013 is owed to our officers and other related parties for services rendered.

- 10 -

On February 3, 2014, the Company entered into a Secured Promissory Note in the principal amount of \$1,000,000 (the "Note"), a Security Agreement (the "Security Agreement") and Common Stock Purchase Warrant (the "February Warrant") with an accredited investor (the "Investor"). The Note provides that all unpaid principal, together with the then accrued interest and any other amounts payable thereunder, shall be due and payable on the date which is the first to occur between (i) the closing of the Company's previously announced acquisition of a Latin American mobile services target; or (ii) six (6) months after the date of the Note. The Company will repay the note through proceeds generated from private placements upon future rounds of financings.

The amount of outstanding principal under the Note bears interest at a rate of one percent (1%) per month; provided, however, upon the occurrence of an uncured event of default under the Note, the outstanding principal at the time of such uncured event of default shall accrue at the rate of seventeen percent (17%) per annum during the period of time which the event of default is continuing and not cured, and the amount of any and all such default interest shall be payable on demand by the Investor. The obligations of the Company under this Note are secured pursuant to the terms of the Security Agreement which grants the Investor a first-priority security interest and lien against the Company's assets.

Effective October 9, 2014, the Company amended the Note so that (i) the maturity date of the Note was extended from August 3, 2014 to August 3, 2015 and (ii) all interest due under the Note as of August 3, 2014 was capitalized.

On February 5, 2014, the Company advanced \$150,000 as a loan to a non-related party. The loan bore an interest amount equal to \$2,000 plus an administration fee of \$1,500 which was due on March 4, 2014. To date \$100,000 CDN (\$90,000 USD) was repaid. The balance of \$60,000 USD was extended to June 30, 2014 (the "Due Date") and bears an amended interest rate of 2% principal per month, effective from February 5, 2014 and is payable in full together with the balance of the principal on the Due Date. Interest of 2% per month will continue to accrue on any and all sums (principal, interest and penalties) outstanding after the Due Date. Furthermore, the loan is subject to an additional late payment penalty of \$2,500 on the Due Date. As of the date of this Quarterly Report on Form 10-Q, the loan is in default and the Company intends to undertake the appropriate actions to collect the funds.

Our ability to meet our financial liabilities and commitments is primarily dependent upon the continued financial support of our management and stockholders, the continued issuance of equity to new stockholders, and our ability to achieve and maintain profitable operations. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. There can be no assurance that we will be able to raise additional capital, and if we are unable to raise additional capital, we will unlikely be able to continue as a going concern.

Plan of Operation

Currently, we are a development stage corporation. A development stage corporation is one engaged in the search of business opportunities, successful negotiation and closing of a business acquisition and furthering its business plan.

Our plan of operation for the next twelve months will be (i) consider guidelines of industries in which we may have an interest; (ii) adopt a business plan regarding engaging in business in any selected industry; and (iii) commence such operations through funding and/or the acquisition of an operating entity engaged in any industry selected.

- 11 -

Results of Operations

For the three months ended January 31, 2015 and 2014

We did not generate any revenues during the periods ended January 31, 2015 and 2014.

During the three month periods ended January 31, 2015 and 2014, much of the Company's resources were directed at maintaining the Company in good standing and identifying new business opportunities. We currently have no definitive agreements or understanding with any prospective business combination candidates.

We had a net loss of \$(74,402) for the three months ended January 31, 2015 compared to a net loss of \$(535,411) for the three month period ended January 31, 2014. During the three months ended January 31, 2015, we incurred expenses of \$15,000 (\$322,433 – January 31, 2014) for consulting and related fees owed to our officers and various consultants for professional services rendered to the Company. We incurred \$21,771 in general and administrative expenses (\$37,919 – January 31, 2014) which included administrative and professional charges associated with preparing, reviewing, auditing and filing our financial statements and our periodic and other disclosure documents to maintain the Company in good standing, transfer agent fees, travel and entertainment, bank and general office expenses. Operating expenses were greater during the three months ended January 31, 2014 due to shareholder relations fees for press releases disseminated by the Company (\$8,100) and due diligence fees of \$164,837 in connection with the investigation of a former prospective merger with a Latin American mobile content and services company.

During the three months ended January 31, 2015 the Company recorded \$(37,906) in interest expense and financing costs related to a promissory note entered into during fiscal 2014 (\$Nil – January 31, 2014). Interest income was \$3,810 comprised of interest fees charged against a loan receivable and foreign currency translation loss was \$(3,535).

As of the date of this report, we have not generated any revenues. As a result, we have generated significant operating losses since our formation and expect to incur substantial losses and negative operating cash flows for the foreseeable future as we attempt to expand our infrastructure and development activities and carry on with the due diligence process of the proposed acquisition. Our ability to continue may prove more expensive than we currently anticipate and we may incur significant additional costs and expenses.

We are subject to risks inherent in the establishment of a new business enterprise. We may fail to adopt a business model and strategize effectively or fail to revise our business model and strategy should industry conditions and competition change. We have limited resources and there is no assurance that future financing will be available to our Company on acceptable terms. These conditions could further impact our business and have an adverse effect on our financial position, results of operations and/or cash flows.

Going Concern Uncertainties

As of the date of this quarterly report, there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flow to fund our business operations. The financial statements included in this quarterly report have been prepared on the going concern basis, which assumes that we will be able to realize our assets and discharge our obligations in the normal course of business. If we are not to continue as a going concern, we would likely not be able to realize our assets at values comparable to the carrying value or the fair value estimates reflected in the balances set out in the preparation of the financial statements.

Our future success and viability, therefore, are dependent upon our ability to generate capital financing. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon us and our shareholders.

Off-Balance Sheet Arrangements

At January 31, 2015, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results or operations, liquidity, capital expenditures or capital resources that is material to investors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Quarterly Report on Form 10-Q, an evaluation was carried out by our management, with the participation of our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of January 31, 2015.

- 13 -

Based on that evaluation, our principal executive officer and our principal financial officer have concluded that, as of January 31, 2015, our disclosure controls and procedures were not effective to detect the inappropriate application of US GAAP rules. This was due to deficiencies that existed in the design or operation of our internal control over financial reporting that adversely affected our disclosure controls and procedures resulting in material weaknesses.

Such material weaknesses include: (1) lack of a functioning audit committee due to a lack of a majority of independent members and a lack of a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; (2) inadequate segregation of duties consistent with control objectives; and (3) ineffective controls over period end financial disclosure and reporting practices.

As of January 31, 2015 the deficiencies have not been remedied due to our lack of sufficient capital resources. We are working to remedy our deficiencies.

Changes in Internal Control Over Financial Reporting

During the period ended January 31, 2015, there have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that materially affected, or are reasonably likely to materially affect, our company's internal control over financial reporting.

We are not presently a party to any material litigation, nor to the knowledge of management is any litigation threatened against us, which may materially affect us.
