Explanatory Note

The purpose of this Amendment No. 1 to the Quarterly Report on Form 10-QSB of Argan Inc. (the "Company") for the quarter ended October 31, 2003 (the "Original Form 10-QSB") is to restate our consolidated financial statements for the quarter ended October 31, 2003 and to correspondingly modify related disclosures. This restatement is described in detail in note 8 of the notes to the consolidated financial statements.

On March 11, 2004, we determined that there was an error in the calculation and classification of the deferred income tax liability associated with the identifiable intangible assets recorded in the purchase accounting of our acquisition of SMC. The error resulted in the overstatement of the customer contractual relationships, trade name and the deferred income tax liability and the understatement of goodwill. The consolidated financial statements and accompanying notes for the three and nine months ended October 31, 2003, have been restated to correct this error.

Details of the impact of the restatement on the accompanying balance sheet and statements of operations for October 31, 2003 is described in Note 8 to the consolidated financial statements.

We have amended and restated in its entirety each item of the Original Form 10-QSB that has been affected by the restatement and reclassifications. This Amendment No. 1 to Form 10-QSB does not reflect events occurring after the filing of the Original Form 10-QSB, or modify or update those disclosures (including disclosures relating to risks, uncertainties and other factors that may affect our future performance) in any way, except as required to reflect the effects of the restatement and reclassifications.

ARGAN, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1- ORGANIZATION AND BASIS OF PRESENTATION

SALE OF SUBSIDIARY

Prior to October, 2003, Argan, Inc. (AI or the Company), operated under the name "Puroflow Incorporated". On October 23, 2003 the shareholders of the Company approved a plan whereby the Company became a holding company and its operating assets and liabilities were assigned to a wholly owned operating subsidiary. Accordingly, the Company transferred substantially all of its Puroflow Incorporated operating assets and liabilities to a newly-formed, wholly owned subsidiary of the Company, and the Company changed its name to "Argan, Inc.". The subsidiary then adopted the name "Puroflow Incorporated" (PI). The Company's other wholly owned operating subsidiary is Southern Maryland Cable, Inc. (SMC) which it acquired in July, 2003. (See note 3 for details.)

On October 31, 2003, the Company completed the sale of PI to Western Filter Corporation (WFC) for approximately \$3.5 million in cash of which \$300,000 is being held in escrow for one year to indemnify WFC from any damages resulting from the breach of representations and warranties under the Stock Purchase Agreement.

BASIS OF PRESENTATION

The condensed consolidated balance sheet as of October 31, 2003 and the condensed consolidated statements of operations for the three and nine months ended October 31, 2003 and 2002, respectively, and the condensed consolidated statements of cash flows for the nine months ended October 31, 2003 and 2002 are unaudited. In the opinion of management, the accompanying financial statements contain all adjustments, which are of a normal and recurring nature, considered necessary to present fairly the financial position of the Company as of October 31, 2003 and the results of its operations and its cash flows for the periods presented. The Company prepares its interim financial information using the same accounting principles as it does for its annual financial statements.

These financial statements do not include all disclosures associated with annual financial statements and, accordingly, should be read in conjunction with the footnotes contained in the Company's consolidated financial statements for the year ended January 31, 2003, together with the auditors' report, included in the Company's Annual Report contained in Form 10-KSB, as filed with the Securities and Exchange Commission. The results of operations for any interim period are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Cash and equivalents - Cash and equivalents include cash balances on deposit in banks, overnight investments in mutual funds, and other financial instruments having an original maturity of three months or less. For purposes of the condensed consolidated financial statements of cash flow, the Company considers these amounts to be cash equivalents.

Revenue recognition - Revenues on unit-price contracts are recognized when the related service is provided to the customer. Revenues on fixed price contracts are recognized using an efforts expended method. "Estimated earnings in excess of billings", which aggregated \$1,074,000 at October 31, 2003, represents revenues recognized in excess of amounts billed.

Cost Recognition - Direct contract costs includes all direct material, labor, subcontractor costs and those indirect costs related to contract performance, such as equipment, supplies and tools where a reasonable allocation of such costs to contracts can be made. Selling, general and administrative costs are charged to expense when incurred. Provisions for estimated losses on uncompleted contracts are recognized in the period in which losses are determined. At October 31, 2003, the Company did not have uncompleted contracts for which it anticipated a loss.

Trucks, Machinery and Equipment - Trucks, machinery and equipment are stated at cost. Depreciation is provided principally using the straight-line method over the estimated useful lives of the assets, which are generally from three to seven years.

Goodwill and Other Intangible Assets - In June 2001, FASB issued SFAS No. 142 "Goodwill and Other Intangible Assets", which supersedes APB Opinion No.17, "Intangible Assets". SFAS No. 142 establishes new standards for goodwill and other intangible assets acquired in a business combination, eliminates amortization of goodwill, and sets forth methods to periodically evaluate goodwill and other intangible assets for impairment. The Company adopted SFAS No. 142 during the year ended January 31, 2003. In accordance with SFAS No. 142, the Company will conduct on at least an annual basis a review of its intangible assets to determine whether their carrying value exceeds their fair market value. Should this be the case, a detailed analysis will be performed to determine if the goodwill and other intangible assets are impaired.

Segment Information - SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information" establishes standards for reporting information about operating segments in interim financial reports issued to stockholders. It also establishes standards for related disclosures about products and services and geographic areas. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and assessing performance.

After the disposition of PI, the Company's operates in one reportable segment. The Company conducts its telecom infrastructure services operations through its wholly owned subsidiary, SMC, which it acquired in July, 2003. The Company provides telecommunications and other infrastructure services, including project management, construction and maintenance through SMC for the Federal Government, telecommunications and broadband service providers as well as electric utilities. Senior management evaluates SMC's performance and makes decisions with respect to capital resource allocations and business strategies using enterprise level information.

Income Taxes- The Company files a consolidated federal income tax return. Deferred income taxes are provided for the temporary differences between the financial reporting basis and the tax basis of its assets and liabilities.

Seasonality - The Company's telecom infrastructure services operations are expected to have seasonally weaker results in the first and fourth quarters of the year, and may produce stronger results in the second and third quarters. This seasonality is primarily due to the effect of winter weather on outside plant activities as well as reduced daylight hours and customer budgetary constraints. Certain customers tend to complete budgeted capital expenditures before the end of the year, and postpone additional expenditures until the subsequent fiscal period.

Edgar Filing: ARGAN INC - Form 10QSB/A

Stock Issued to Employees -The Company follows Accounting Principles Board Opinion 25, *Accounting for Stock Issued to Employees*, to account for stock option plans, which generally does not require income statement recognition of options granted at the market price on the date of issuance.

The following table illustrates the effect on net income and earnings per share as if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) 123, *Accounting for Stock-Based Compensation*.

	For the three months ended October 31, 2003	For the nine months ended October 31, 2003
Net Loss:	\$(31,000)	\$(433,000)
Less: Stock-based employee compensation cost included in the determination of net loss as reported if the fair value method had been applied	----	----
Pro forma stock based compensation expense	46,000	138,000
Pro forma net loss	\$(77,000)	\$(571,000)
Basic earnings per share:		
As reported	\$ (.02)	\$ (.32)
Pro forma	\$ (.04)	\$ (.42)

Prior to the nine months ended October 31, 2003, stock options issued did not have a material effect on the Company's pro forma net income and earnings per share.

NOTE 3- ACQUISITION OF SOUTHERN MARYLAND CABLE, INC.

The Company is actively pursuing acquisitions in the telecom infrastructure services industry. On July 17, 2003, the Company acquired all of the common stock of Southern Maryland Cable, Inc. ("SMC"), a provider of telecommunications and other infrastructure services including project management, construction and maintenance to the Federal Government, telecommunications and broadband service providers as well as electric utilities. The Company's purchase of SMC was focused on acquiring long-standing customer relationships and the well established reputation in a strategic geographic area, which supported the premium paid over the fair value of the tangible assets.

The results of operations of the acquired company are included in the consolidated results of the Company from July 17, 2003, the date of the acquisition. The estimated purchase price was approximately \$4 million in cash, plus the assumption of approximately \$971,000 in debt. The purchase price is also based on SMC achieving a pro forma net worth of \$950,000 as of the July 17, 2003 acquisition date. Funds aggregating \$260,000 have been held in escrow and classified as a current asset. If SMC does not have the minimum pro forma net worth, the purchase price will be reduced by amount of the shortfall. The Company leases the SMC headquarters at an annual rent of \$72,000 from the former owners. The lease term is through January, 2006.

Edgar Filing: ARGAN INC - Form 10QSB/A

The Company accounted for the acquisition of SMC using the purchase method of accounting whereby the excess of cost over the net amounts assigned to assets acquired and liabilities assumed is allocated to goodwill and intangible assets based on their estimated fair values. Such intangible assets include \$1,600,000 and \$680,000 allocated to Contractual Customer Relationships ("CCR") and Trade Name, respectively, and \$1,607,000 to Goodwill. The Company is amortizing the CCR over seven years. Amortization expense for the three months ended October 31, 2003 was approximately \$61,000. As of October 31, 2003, accumulated amortization was \$61,000. The Trade Name was determined to have an indefinite useful life and is not being amortized.

The following unaudited pro forma statements of operations summarizes the results of operations for the nine months ended October 31, 2003 and 2002, respectively, as if the acquisition of SMC had been completed on February 1, 2002. The unaudited pro forma statements of operations do not include the operating results of PI which have been reflected as discontinued operations in the condensed consolidated statements of operations. The unaudited pro forma statements of operations do not purport to be indicative of the results that would have actually been obtained if the aforementioned acquisition had occurred on February 1, 2002, or that may be obtained in the future.

Pro Forma Statement of Operations	Nine Months Ended	
	October 31,	
	2003	2002
Net sales	\$ 8,574,000	\$ 6,504,000

- basic	1,798,000	1,798,000
- diluted	1,801,000	1,798,000

NOTE 4- DISCONTINUED OPERATIONS

On October 31, 2003, AI, as part of its plan to reallocate its capital to its acquisition program, sold PI to WFC. The sales price of approximately \$3,500,000 was satisfied in cash of which \$300,000 is being held in escrow for one year to indemnify WFC from any damages resulting from a breach of representation and warranties under the Stock Purchase Agreement. AI recognized a gain on sale of approximately \$167,000, net of income taxes of \$506,000. The Company utilized net operating losses to offset the gain on sale and thus, has no current tax liability. The \$506,000 is the amount of the deferred tax assets related to the PI which has been sold. In accordance with SFAS No. 144 "Accounting for the impairment or disposal of Long-Lived Assets", the Company classified the operating results of PI as discontinued operations in the accompanying statements of operations.

The results of the discontinued operations are as follows for the nine months ended October 31,

	<u>2003</u>	<u>2002</u>
Net sales	\$ 5,050,000	\$ 4,999,000
Cost of goods sold	3,834,000	3,233,000
Gross profit	1,216,000	1,766,000
Selling, general and administrative expenses	1,701,000	1 335,000
Operating income (loss) from discontinued operations	(485,000)	431,000
Other income (expense)		
Other income	----	57,000
Interest expense	(11,000)	(22,000)
Pretax income (loss) from discontinued operations	(496,000)	466,000
Income tax expense	245,000	18,000
Income (loss) from discontinued operations	(741,000)	448,000
Net gain on disposal of discontinued operations, net of income tax expense of \$506,000	167,000	----
Net loss from discontinued operations	\$ (574,000)	\$ 448,000

The results of the discontinued operations are as follows for the three months ended October 31,

	<u>2003</u>	<u>2002</u>
Net sales	\$ 1,447,000	\$ 1,642,000
Cost of goods sold	1,317,000	1,051,000
Gross profit	130,000	591,000

NOTE 5 - EARNINGS PER SHARE:

Basic earnings per share are computed by dividing income (loss) from continuing operations, income (loss) from discontinued operations and net income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share are computed by dividing income (loss) from continuing operations, income (loss) from discontinued operations and net income (loss) by the weighted average number of common shares and all dilutive securities. Outstanding stock options were anti-dilutive during the three and nine months ended October 31, 2002 due to the Company's net loss position.

NOTE 6 - PRIVATE OFFERING OF COMMON STOCK

On April 29, 2003, the Company completed a private offering of approximately 1,304,000 shares of common stock at a price of \$7.75 per share. The proceeds of approximately \$10,106,000 were reduced by offering costs of \$472,000. A portion of the net proceeds of the private placement was used in the acquisition of SMC. The remaining net proceeds will be used for acquisitions in growth-oriented industries and for working capital. The private offering was approved by shareholder vote on April 15, 2003.

In connection with consummation of the private offering, the Company granted warrants to purchase an aggregate of 230,000 shares of the Company's common stock at a strike price of \$7.75 per share. The warrants have an estimated value of \$849,000, are fully vested and have been recorded as a reduction of the proceeds from the offering.

NOTE 7 - DEBT

In August, 2003, the Company entered into a financing arrangement with Bank of America (" Bank") aggregating \$2,950,000 in available financing in two tranches - a revolving line of credit with \$1,750,000 in availability, expiring July 31, 2004 and bearing interest at LIBOR plus 2.75%, and a three year term note with an original outstanding balance of \$1,200,000, expiring July 31, 2006 and bearing interest at LIBOR plus 2.95%. The proceeds from the term note were used to payoff the SMC lines of credit and for working capital. As of October 31, 2003 the Company had \$1,100,000 outstanding under the term note. AI has not drawn on the revolving line of credit. The financing arrangement contains financial as well as nonfinancial covenants including the ratios of debt to pro forma earnings before interest, taxes, depreciation and amortization of 2.5 to 1, liabilities to tangible net worth of 1.5 to 1, fixed charge coverage ratio of 1.25 to 1, as well as requirements for bank consent for acquisitions and divestitures. At October 31, 2003, the Company was not in compliance with the fixed charge coverage ratio and received a waiver from the Bank with respect to the breach of the covenant. The Company is in discussions with the Bank to either adjust the ratio or to establish a new financial measurement. Subsequent to October 31, 2003, because of the disposition of PI, the Company deposited \$300,000 as additional collateral in a restricted cash account with the Bank.

NOTE 8 - RESTATEMENT OF QUARTERLY RESULTS

On March 11, 2004, we determined that there was an error in the calculation and classification of the deferred income tax liability associated with the identifiable intangible assets recorded in the purchase accounting of our acquisition of SMC. The error resulted in the overstatement of the customer contractual relationships, trade name and the deferred income tax liability and the understatement of goodwill. The consolidated financial statements and accompanying notes for the three and nine months ended October 31, 2003, have been restated to correct this error. The following table represents the impact of the restatement on the consolidated financial statements.

Edgar Filing: ARGAN INC - Form 10QSB/A

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This Form 10-QSB contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. These statements relate to future events or our future financial performance, including statements relating to our products, customers, suppliers, business prospects, financings, investments and effects of acquisitions. In some cases, forward looking statements can be identified by terminology such as "may," "will," "should," "expect," "anticipate," "intend," "plan," "believe," "estimate," "potential," or "continue," the negative of these terms or other comparable terminology. These statements involve a number of risks and uncertainties, including preliminary information; the effects of future acquisitions and/or investments; competitive factors; business and economic conditions generally; changes in government regulations and policies, our dependence upon third-party suppliers; continued acceptance of our products in the marketplace; technological changes; and other risks and uncertainties that could cause actual events or results to differ materially from any forward-looking statement.

Prior to October, 2003, Argan, Inc. (AI or Company), operated under the name "Puroflow Incorporated". On October 23, 2003, the shareholders of the Company approved a plan whereby the Company became a holding company and its operating assets and liabilities were assigned to a wholly owned operating subsidiary. Accordingly, the Company transferred substantially all of its Puroflow Incorporated operating assets and liability to a newly-formed, wholly owned subsidiary of the Company, and the Company changed its name to "Argan, Inc.". The subsidiary then adopted the name "Puroflow Incorporated" (PI). Prior to the disposition of PI described below, the Company's other wholly owned operating subsidiary was Southern Maryland Cable, Inc. (SMC) which it acquired in July, 2003.

On October 31, 2003, AI, as part of its plan to reallocate its capital to its acquisition program, sold PI to WFC. The sales price of approximately \$3,500,000 was received in cash of which \$300,000 is being held in escrow for one year to indemnify WFC from any damages resulting from a breach of representation and warranties under the Stock Purchase Agreement. AI recognized a gain of \$167,000, net of income taxes of \$506,000. The Company utilized net operating losses to offset the gain on sale and thus, has no current tax liability. The \$506,000 is the amount of the deferred tax assets related to the PI which has been sold in accordance with SFAS No. 144 "Accounting for the impairment or disposal of Long-Lived Assets", the Company classified the operating results of PI as discontinued operations in the accompanying statements of operations.

Edgar Filing: ARGAN INC - Form 10QSB/A

Income (loss) from discontinued operations	(518,000)	<u>122,000</u>
Net gain on disposal of discontinued operations, net of income tax expense of \$506,000	167,000	----
Net loss from discontinued operations	<u>\$ (351,000)</u>	<u>\$ 122,000</u>

The aggregate loss from discontinued operations for the nine and three months ended October 31, 2003, respectively, was \$574,000 and \$351,000. The loss was due to the rapid softening of sales to PI's traditional customer base.

The Company is actively pursuing acquisitions in the telecom infrastructure services industry. On July 17, 2003, the Company acquired all of the common stock of Southern Maryland Cable, Inc. ("SMC"), a provider of telecommunications and other infrastructure services including project management, construction and maintenance to the Federal Government, telecommunications and broadband service providers as well as electric utilities. The Company's purchase of SMC was focused on acquiring long-standing customer relationships and well established reputation in a strategic geographic area, which supported the premium paid over the fair value of the tangible assets.

The results of operations of the acquired company are included in the consolidated results of the Company from July 17, 2003, the date of the acquisition. The estimated purchase price was approximately \$4 million in cash, plus the assumption of approximately \$971,000 in debt. The purchase price is also based on SMC achieving a pro forma net worth of \$950,000 as of the July 17, 2003 acquisition date. Funds aggregating \$260,000 have been held in escrow and classified as a current asset. If SMC does not have the minimum pro forma net worth, the purchase price will be reduced by amount of the shortfall. The Company leases the SMC headquarters at an annual rent of \$72,000 from the former owners. The lease term is through January, 2006.

The Company accounted for the acquisition of SMC using the purchase method of accounting whereby the excess of cost over the net amounts assigned to assets acquired and liabilities assumed is allocated to goodwill and intangible assets based on their estimated fair values. Such intangible assets include \$1,600,000 and \$680,000 allocated to Contractual Customer Relationships ("CCR") and Trade Name, respectively, and \$1,607,000 to Goodwill. The Company is amortizing the CCR over seven years. Amortization expense for the three months ended October 31, 2003 was approximately \$61,000. As of October 31, 2003, accumulated amortization was \$61,000. The Trade Name was determined to have an indefinite useful life and is not being amortized.

The Company conducts its telecom services operations through its wholly owned subsidiary, SMC. The Company provides telecommunications infrastructure services including project management, construction and maintenance through SMC for the Federal Government, telecommunications and broadband service providers as well as electric utilities.

On September 2, 2003, the Company entered into a letter of intent with Dinsmore Communications Corp. (DCC) to acquire all of the common stock of DCC. The consummation of the transaction was contingent upon the completion of the Company's due diligence, the signing of a definitive purchase and sale agreement, approval of both companies' boards of directors and other conditions. At present, the Company does not believe the transaction contemplated in the letter of intent will be consummated.

Results of Operations for the Nine Months Ended October 31, 2003 Compared to the Nine Months ended October 31, 2002

The following unaudited pro forma statements of operations summarizes the results of operations for the nine months ended October 31, 2003 and 2002, respectively, as if the acquisition of SMC had been completed on February 1, 2002. The unaudited pro forma statements of operations do not include the operating results of PI which have been reflected as discontinued operations in the condensed consolidated statements of operations (See Note 4). The unaudited statements of operations do not purport to be indicative of the results that would have actually been obtained if the aforementioned acquisition had occurred on February 1, 2002, or that may be obtained in the future.

Pro Forma Statement of Operations	Nine Months Ended	
	2003	2002
	October 31,	
	2003	2002
Net sales	\$ 8,574,000	\$ 6,504,000
Cost of goods sold	6,543,000	5,072,000
Gross profit	2,031,000	1,432,000
Selling general and administrative expenses	1,686,000	1,312,000
Operating income from continuing operations	345,000	120,000
Other expense	-----	(53,000)
Pretax income from continuing operations	345,000	67,000
Provision for income taxes	138,000	27,000
Net income from continuing operations	\$ 207,000	\$ 40,000
Net income per share		
- basic	\$.12	\$.02
- diluted	\$.12	\$.02
Weighted average shares		
Outstanding		
-basic	1,798,000	1,798,000
-diluted	1,801,000	1,798,000

We have restated our previously issued financial statements to reflect, as discontinued operations, the disposition of our wholly owned subsidiary, PI. Because of the reclassification of PI as a discontinued operation, we are required to retroactively restate our financial statements for the nine months ended October 31, 2003 and 2002.

As disclosed above, we acquired SMC on July 17, 2003. Because of the sale of PI, substantially all of the Company's historical business has been reclassified as discontinued operations. As a consequence, the Company has compared the pro forma operations of AI for the nine months ended October 31, 2003 to October 31, 2002 as presented above.

Pro forma net sales

AI through its wholly owned subsidiary, SMC, had pro forma net sales of \$8,574,000 for the nine months ended October 31, 2003 compared to pro forma net sales of \$6,504,000 for the nine months ended October 31, 2002. The increase in pro forma net sales of \$2,070,000 or 32% is due primarily to the increase in volume of infrastructure services provided to SMC's customers under fixed-priced contracts.

Pro forma gross margin

For the nine months ended October 31, 2003, pro forma gross margin was \$2,031,000 or 24% of pro forma net sales compared to \$1,432,000 or 22% of pro forma net sales for the nine months ended October 31, 2002. Improved pro forma gross margin percent is due to efficiencies of scale realized as the Company's volume and number of fixed-priced contracts increased during the nine months ended October 31, 2003.

Pro forma selling general and administrative expenses

Pro forma selling, general and administrative expenses were \$1,686,000 or 20% of pro forma net sales for the nine months ended October 31, 2003 compared to \$1,312,000 or 20% of pro forma net sales for the nine months ended October 31, 2002 an increase of \$374,000. General and administrative expenses incurred for general corporate expenses and for the new corporate management team whose efforts are focused on expansion into infrastructure services aggregated \$482,000 for the nine months ended October 31, 2003 compared to \$148,000 in corporate costs for the nine months ended October 31, 2002.

Pro forma operating income from continuing operations

Pro forma operating income from continuing operations was \$345,000 for the nine months ended October 31, 2003 compared to \$120,000 for the nine months ended October 31, 2002. The increase in operating income from continuing operations is due to the improving margins as the Company increased net sales.

Income Taxes

The Company recorded an income benefit of \$25,000 for the nine months ended October 31, 2003 as compared to no provision for the nine months ended October 31, 2002. The income tax benefit was due to the acquisition of SMC. In connection with the acquisition, an intangible asset for Customer Contractual Relationships was recorded, the amortization of which is the tax benefit identified above established in purchase accounting. The Company currently estimates that it will not have a current tax liability for the year ended January 31, 2004.

Results of Operations for the Three Months Ended October 31, 2003 Compared to the Three Months Ended October 31, 2002

The following unaudited pro forma statements of operations summarizes the results of operations for the three months ended October 31, 2003 and 2002, respectively, as if the acquisition of SMC had been completed on February 1, 2002. The unaudited pro forma statements of operations do not include the operating results of PI which has been reflected as discontinued operations in the condensed consolidated statements of operations. The unaudited statements of operations do not purport to be indicative of the results that would have actually been obtained if the aforementioned acquisition had occurred on February 1, 2002, or that may be obtained in the future.

Edgar Filing: ARGAN INC - Form 10QSB/A

Pro Forma Statement of Operations	Three Months Ended	
	October 31, 2003	2002
Net sales	\$ 3,734,000	\$ 2,434,000
Cost of goods sold	2,779,000	1,876,000
Gross profit	955,000	558,000
Selling general and administrative expenses	652,000	438,000
Operating income from continuing operations	303,000	120,000
Other expense	(8,000)	(4,000)
Pretax income from continuing operations	295,000	116,000
Provision for income taxes (benefit)	118,000	46,000
Net income from continuing operations	\$ 177,000	\$ 70,000
Net income per share		
- basic	\$.10	\$.04
- diluted	\$.10	\$.04
Weighted average shares		
Outstanding		
-basic	1,798,000	1,798,000
- diluted	1,801,000	1,801,000

The Company has restated its previously issued financial statements to reflect, as discontinued operations, the disposition of its wholly owned subsidiary, PI. Because of the reclassification of PI as a discontinued operation, the Company is required to retroactively restate our financial statements for the three months ended October 31, 2002.

As disclosed above, AI acquired SMC on July 17, 2003. Because of the sale of PI substantially all of the Company's historical business has been reclassified as a discontinued operation. As a consequence, the Company has compared the actual operations of AI for the three months ended October 31, 2003 to the pro forma operations for the three months ended October 31, 2002 as presented above.

Pro Forma Net sales

AI through its wholly owned subsidiary, SMC, had net sales of \$3,734,000 for the three months ended October 31, 2003 compared to pro forma net sales of \$2,434,000 for the three months ended October 31, 2002. The increase in pro forma net sales of \$1,300,000 or 53% is due to the increase in volume of infrastructure services provided to SMC's customers under fixed-priced contracts.

Pro Forma Gross margin

For the three months ended October 31, 2003, the Company's gross margin was \$955,000 or 26% of net sales compared to \$558,000 or 23% of pro forma net sales for the three months ended October 31, 2002. Improved pro forma gross margin percent is due to efficiencies of scale realized as the Company's volume and number of fixed-priced contracts increased during the nine months ended October 31, 2003.

Pro Forma Selling general and administrative expenses

Edgar Filing: ARGAN INC - Form 10QSB/A

Selling, general and administrative expenses were \$652,000 or 17% of net sales for the three months ended October 31, 2003 compared to pro forma selling, general and administrative expenses of \$438,000 or 18% of pro forma net sales for the three months ended October 31, 2002 an increase of \$214,000. General and administrative expenses incurred for general corporate expenses and for the new corporate management team whose efforts are focused on expansion into infrastructure services aggregated \$251,000 for the three months ended October 31, 2003 compared to \$48,000 in corporate costs for the three months ended October 31, 2002.

Pro Forma Operating income from continuing operations

Operating income from continuing operations was \$303,000 for the three months ended October 31, 2003 compared to \$120,000 for the three months ended October 31, 2002. The positive trend in operating income from continuing operations is due to the improving margins as the Company increased net sales as well as slowed incremental increases in administrative costs which reduced the relationship of administrative expenses as a percentage of net sales.

Income Taxes

The Company recorded an income benefit of \$25,000 for the three months ended October 31, 2003 as compared to no provision for the three months ended October 31, 2002. The income tax benefit was due to the acquisition of SMC. In connection with the acquisition, an intangible asset for Customer Contractual Relationships was recorded, the amortization of which is the tax benefit identified above established in purchase accounting. The Company currently estimates that it will not have a current tax liability for the year ended January 31, 2004.

Liquidity and Capital Resources

At October 31, 2003 and January 31, 2003, the Company had \$8,518,000 and \$265,000 respectively available in cash and cash equivalents. On April 29, 2003, the Company completed a private offering of approximately 1,304,000 shares of common stock at a price of \$7.75 per share. The net proceeds from the private placement aggregated approximately \$9,634,000. A portion of the proceeds were used in the acquisition of SMC. The Company plans to use the remaining proceeds for acquisitions in growth-oriented industries and for working capital.

On October 31, 2003, AI sold its subsidiary, PI, to Western Filter Corporation (WFC). The sale price of approximately \$3,500,000 was satisfied in cash of which \$300,000 is being held in escrow for one year.

Net cash used in operations for the nine months ended October 31, 2003 was \$86,000 compared with \$209,000 cash provided by operations for the nine months ended October 31, 2002. The decrease in cash provided by operations is primarily due to ramping up of SMC's revenue with the related increase in accounts receivable and estimated earnings in excess of billings.

Cash used for investing activities was \$1,086,000 for the nine months ended October 31, 2003 compared to \$160,000 from the discontinued operations for the nine months ended October 31, 2002. Cash used for investing activities for the nine months ended October 31, 2003 consisted of approximately \$3,705,000 used in the acquisition of SMC and approximately \$3,500,000 in proceeds from the sale of PI, net of \$300,000 held in escrow.

Net cash provided by financing activities was \$9,690,000 for the nine months ended October 31, 2003 compared to net cash used for financing activities of \$49,000 for the same period one year ago for the discontinued operation. The increase is due to the aforementioned private placement and proceeds from the credit line offset by, the Company paying off \$300,000 in debt, primarily bank debt of the discontinued manufacturing operation.

In August, 2003, the Company entered into a financing arrangement with Bank of America ("Bank") aggregating \$2,950,000 in available financing in two tranches - a revolving line of credit with \$1,750,000 in availability, expiring July 31, 2004 and bearing interest at LIBOR plus 2.75% and a three year term note with an original outstanding balance of \$1,200,000, expiring July 31, 2006 and bearing interest at LIBOR plus 2.95%. The proceeds from the term note were used to payoff the SMC lines of credit and for working capital. As of October 31, 2003 the Company had \$1,100,000 outstanding under the term note. AI has not drawn on the revolving line of credit. The financing arrangement contains financial as well as nonfinancial covenants including the ratios of debt to pro forma earnings before interest, taxes, depreciation and amortization of 2.5 to 1, liabilities to tangible net worth of 1.5 to 1, fixed charge coverage ratio of 1.25 to 1 as well as requirements for bank consent for acquisitions and divestitures. At October 31, 2003, the Company was not in compliance with the fixed charge coverage ratio and received a waiver from the Bank with respect to the breach of the covenant. The Company is in discussions with the Bank to either adjust the ratio or to establish a new financial measurement. Subsequent to October 31, 2003, because of the disposition of PI, the Company deposited \$300,000 as additional collateral in a restricted cash account with the Bank.

With its present capital resources and cash flow from operations, the Company believes it should have sufficient resources to meet its operating needs for the next twelve months and to provide for debt maturities and capital expenditures. At October 31, 2003, the Company was in compliance, with the exception of the covenant with respect to the fixed charge coverage ratio for which the Bank granted a waiver, with all of its existing debt covenants. The Company is in discussions with the Bank to adjust or change the financial measurement.

Seasonality

The Company's telecom infrastructure services operations are expected to have seasonally weaker results in the first and fourth quarters of the year, and may produce stronger results in the second and third quarters. This seasonality is primarily due to the effect of winter weather on outside plant activities as well as reduced daylight hours and customer budgetary constraints. Certain customers tend to complete budgeted capital expenditures before the end of the year, and postpone additional expenditures until the subsequent fiscal period.

Critical Accounting Policies

Management is required to make judgments, assumptions and estimates that affect the amounts reported when we prepare financial statements and related disclosures in conformity with generally accepted accounting principles. Note 1 to the consolidated financial statements in our Annual Report on Form 10-KSB for the fiscal year ended January 31, 2003 describes the significant accounting policies and methods used in the preparation of our condensed consolidated financial statements. Estimates are used for, but not limited to, our accounting for contingencies, allowance for doubtful accounts, valuation allowances for deferred tax assets and inventory reserves. Actual results could differ from these estimates. The following critical accounting policies are impacted significantly by judgments, assumptions, and estimates used in the preparation of our condensed consolidated financial statements.

Revenue Recognition

Net sales are primarily derived from construction and installation of telecom and utility infrastructure for a wide range of customers. The infrastructure services revenue is recognized in accordance with contract provisions which are typically either unit-price contracts or fixed-price contracts. Revenues on unit-price contracts are recognized when the related service is provided to the customer. Revenues on fixed-price contracts are recognized using an efforts expended method, measured using contractual pricing schedules which detail unit prices for individual services performed. The asset, "Estimated earnings in excess of billings", which aggregated \$1,074,000 at October 31, 2003, represents revenues recognized in excess of amounts billed.

Long Lived Assets

The Company periodically evaluates the net realizable value of long lived assets including property and equipment, relying on a number of factors including operating results, economic projections, and anticipated cash flows. In connection with the Company's acquisition, the excess of cost over the net amounts assigned to tangible assets acquired and liabilities assumed is allocated to goodwill and discrete intangible assets recognized as separate from acquired goodwill. Such intangible assets include Contractual Customer Relationships ("CCR") and Trade name. The Company amortizes CCR over seven years. The Company evaluates net realizable value for such intangibles on an ongoing basis for impairment.

Valuation Allowance for Deferred Tax Assets

The Company accounts for income taxes under the asset and liability method. The approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities. Developing the Company's provision for income taxes requires significant judgment and expertise in federal and state income tax laws, regulations and strategies, including the determination of deferred tax assets and liabilities and, if necessary, any valuation allowances that may be required for deferred tax assets.

ITEM 3. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as of the end of the period covered by this report. Based upon this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in timely alerting them to material information required to be included in the Company's periodic SEC reports. There have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
