MANAGED DISTRIBUTION POLICY

The Blue Chip Value Fund, Inc. (the "Fund") has a Managed Distribution Policy. This policy is to make quarterly distributions of at least 2.5% of the Fund's net asset value ("NAV") to stockholders. This is the quarterly payment that Fund investors elect to receive in cash or reinvest in additional shares through the Fund's Dividend Reinvestment Plan. The Board of Directors believes this policy creates a predictable level of quarterly cash flow to Fund shareholders.

The table on the next page sets forth the estimated amounts of the most recent quarterly distribution and the cumulative distributions paid this fiscal year to date from the following sources: net investment income; net realized short term capital gains; net realized long term capital gain; and return of capital.

You should not necessarily draw any conclusions about the Fund's investment performance from the amount of the distributions, as summarized in the table on the next page, or from the terms of the Fund's Managed Distribution Policy.

The Fund estimates that it has distributed more than its income and capital gains; therefore, a portion of the distributions, as summarized in the table on the next page, may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." It is important to note that the Fund's investment adviser, Denver Investment Advisors LLC, seeks to minimize the amount of net realized capital gains, if consistent with the Fund's investment objective, to reduce the amount of income taxes incurred by our stockholders. This strategy can lead to greater levels of return of capital being paid out under the Managed Distribution Policy.

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Fund's Managed Distribution Policy may be changed or terminated at the discretion of the Fund's Board of Directors without prior notice to stockholders. If, for example, the Fund's total distributions for the year result in taxable return of capital, the Fund's Board of Directors would consider that factor, among others, in determining whether to retain, alter or eliminate the Managed Distribution Policy. It is possible, that the Fund's market price may decrease if the Managed Distribution Policy is terminated. At this time, the Board has no intention of making any changes or terminate the Managed Distribution Policy.

The Investment Adviser's Commentary included in this report contains certain forward-looking statements about the factors that may affect the performance of the Fund in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Fund, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Fund. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

INVESTMENT ADVISER'S COMMENTARY

Dear Fellow Stockholders:

August 16, 2007

Your Blue Chip Value Fund Semi-Annual Report has a new format. Inside the front cover of this report, there is a detailed explanation of our managed distribution policy and the estimated sources of your quarterly distributions. We believe it is critical that all shareholders understand our "managed distribution" policy. This is the policy your Board of Directors has approved which results in your receiving quarterly payouts of 2.5% of the Fund's net asset value.

Turning now to the portfolio, for the six-month period ended June 30, 2007, the Blue Chip Value Fund's net asset value gained 7.11% compared to 6.96% for its benchmark the S&P 500 Index and 7.33% for its peer group the Lipper Large-Cap Core Index. After a difficult first quarter, the Fund delivered a strong second-quarter performance.

The Fund maintained its strategy of investing in companies we believe have attractive fundamentals for growth and improving returns on capital, where the value of the free cash flows generated by the business is not currently recognized by the market. We continued to employ fundamental research with a combination of quantitative screening and fundamental valuation tools to identify companies we believe have improved chances of outperforming their peers.

The Fund's first-quarter weakness was driven entirely by the direct and indirect effects of the "sub-prime" fallout among financial stocks. While our interest rate-sensitive holdings performed in-line during the second quarter, they remained the largest detractor from the Fund's performance for the six-month period. Specifically, our holdings in Countrywide Financial, one of the largest national mortgage lenders, and Washington Mutual, a large, national thrift, have some sub-prime exposure, which threatened to cause near-term disruption to their otherwise strong free cash flow and outlooks. Freddie Mac, a government sponsored housing entity that helps create orderly mortgage markets, has relatively modest sub-prime exposure; nonetheless, our holdings declined on concerns of broader effects on housing. As we write this letter, we are beginning to see signs that the sub-prime "disruption" may result in more rational lending and in better pricing of credit risk, which we believe should result in an improved outlook for Freddie Mac over the next 12 months. In addition, our holdings in investment banks Morgan Stanley and Merrill Lynch showed weakness on concerns of profitability disruptions from difficult mortgage trading. These concerns proved overstated, and both companies continue to report strong cash flow growth.

Relative to the S&P 500 Index, the Fund held an overweight position in the interest rate-sensitive group during the period. We believe these companies have very attractive absolute valuations, coupled with dividend yields above 2.5% and defensive characteristics for the portfolio in certain market environments. We believe that the sub-prime issues are contained and will not materially disrupt some otherwise positive financial market characteristics.

During the period, energy was the strongest performing sector in both the market and the Fund. Exceptional Fund holdings in this group included Transocean Inc. (a leading offshore drill rig company), which surged 31% during the period. Concerns about oil supplies continued to lead to new multi-year contracts for drill rig usage at attractive prices. Our investment thesis for Transocean was based in part on our belief that these strong levels of drilling activity and rates will persist further into the future, an opportunity the market is just beginning to recognize. Marathon Oil Corp (integrated exploration, production and refining) gained more than 30%. Marathon benefited from strong refining spreads in the first half. We continue to see value as the growing cash flows from the company's exploration and production portfolio become more evident.

Following up on themes we have discussed in recent reports, both the communications and technology sectors outperformed the overall market for the six-month period. In both sectors, our stock selection added value. Our positions in Nokia, a wireless equipment provider, and Verisign, an internet security software company, were both portfolio leaders. Nokia continued to take market share in the global handset market, and is doing so at better-than-expected profitability levels. Verisign had experienced some management turmoil surrounding the handling of stock options and related financial reporting. With these issues resolved, the focus returned to Verisign's core business, which renewed its major contract on better terms than expected and where underlying growth appears to remain strong. We expect the new management team to be more focused on the core business (and less on acquisitions), which we believe will drive further value creation for shareholders. As a specific example, the company's board of directors has authorized a \$1 billion stock buyback as a vote of confidence in future cash flows and the value of the company.

As this letter is being written, the stock market is going through a meaningful correction. The major causes of the sell-off appear to come from the problems with low quality mortgages and the highly leveraged hedge funds. We believe the Federal Reserve Bank, the US Treasury and large US financial institutions will deal with these problems successfully in the weeks ahead as they have with financial problems in the past. We also believe that we have a well diversified portfolio of "blue chip" companies which should help us to weather this current financial storm.

We continue to remain confident about the long term future of the US stock market and the Blue Chip Value Fund portfolio. Thank you for your commitment to the Fund.

Sincerely,

Todger Anderson, CFA
President, Blue Chip Value Fund, Inc.

Past performance is no guarantee of future results. Share prices will fluctuate, so that a share may be worth more or less than its original cost when sold. Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Please note that the Fund's total return shown above does not reflect the deduction of taxes that a stockholder would pay on Fund distributions or the sale of Fund shares. Current performance may be higher or lower than the total return shown above. Please visit our website at www.blu.com to obtain the most recent month end returns. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

Please Note: Performance calculations are as of the end of December each year and the current period end. Past performance is not indicative of future results. This chart assumes an investment of \$10,000 on 1/1/97. This chart does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

S&P 500 Index is a broad-based measurement of changes in stock market conditions based on the average performance of 500 widely held common stocks. It is an unmanaged index.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund's Dividend Reinvestment and Cash Purchase Plan offers stockholders the opportunity to reinvest dividends and capital gain distributions in additional shares of the Fund. A stockholder may also make additional cash investments under the Plan. There is no service charge for participation.

Participating stockholders will receive additional shares issued at a price equal to the net asset value per share as of the close of the New York Stock Exchange on the record date ("Net Asset Value"), unless at such time the Net Asset Value is higher than the market price of the Fund's common stock, plus brokerage commission. In this case, the Fund will attempt, generally over the next 10 business days (the "Trading Period"), to acquire shares of the Fund's common stock in the open market at a price plus brokerage commission which is less than the Net Asset Value. In the event that prior to the time such acquisition is completed, the market price of such common stock plus commission equals or exceeds the Net Asset Value, or in the event that such market purchases are unable to be completed by the end of the Trading Period, then the balance of the distribution shall be completed by issuing additional shares at Net Asset Value.

Participating stockholders may also make additional cash investments (minimum \$50 and maximum \$10,000 per month) by check or money order (or by wire for a \$10 fee) to acquire additional shares of the Fund. Please note, however, that these additional shares will be purchased at market value plus brokerage commission (without regard to net asset value) per share.

A stockholder owning a minimum of 50 shares may join the Plan by sending an Enrollment Form to the Plan Agent at BNY Mellon Shareowner Services, 480 Washington Blvd., Jersey City, NJ 07310.

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends or distributions, even though the stockholder does not receive the cash. Participants must own at least 50 shares at all times.

A stockholder may elect to withdraw from the Plan at any time on 15-days' prior written notice, and receive future dividends and distributions in cash. There is no penalty for withdrawal from the Plan and stockholders who have withdrawn from the Plan may rejoin in the future.

The Fund may amend the Plan at any time upon 30-days prior notice to participants.

Additional information about the Plan may be obtained from Blue Chip Value Fund, Inc. by writing to 1225 17th Street, 26th Floor, Denver, CO 80202, by telephone at (800) 624-4190 or by visiting us at www.blu.com.

If your shares are registered with a broker, you may still be able to participate in the Fund's Dividend Reinvestment Plan. Please contact your broker about how to participate and to inquire if there are any fees which may be charged by the broker to your account.

BLUE CHIP VALUE FUND BOARD CONSIDERATIONS RELATING TO THE ADVISORY CONTRACT RENEWAL

The Board of Directors of the Fund determined on February 7, 2007 to renew the Advisory Agreement with DenverIA (the "Agreement"). Prior to making its determination, the Board received detailed information from DenverIA, including, among other things, information provided by Lipper, Inc. ("Lipper") comparing the performance, advisory fee and other expenses of the Fund to that of a relevant peer group identified by Lipper, a Lipper report on investment management profitability and information responsive to requests by the Fund's independent counsel for certain information to assist the Board in its considerations, including DenverIA's Form ADV. In addition, the Board reviewed a memorandum from its independent counsel detailing the Board's duties and responsibilities in considering renewal of the Agreement.

In reaching its decision to renew the Agreement, the Board, including a majority of the Directors who are not interested persons under the Investment Company Act of 1940 (the "Independent Directors"), considered, among other things: (i) the nature, extent and quality of DenverIA's services provided to the Fund, DenverIA's compliance culture and resources committed to its compliance program; (ii) the experience and qualifications of the portfolio management team; (iii) DenverIA's investment philosophy and process; (iv) DenverIA's assets under management and client descriptions; (v) DenverIA's reports on brokerage and research paid with Fund commissions; (vi) current advisory fee arrangement with the Fund and DenverIA's other similarly managed mutual fund client, noting that DenverIA did not provide advisory fee information on its other separate account clients, because those clients are not managed similarly to the Fund's large cap value style; (vii) Lipper information comparing the Fund's performance, advisory fee, DenverIA's co-administration fee and the Fund's expense ratio to that of comparable funds and information provided by DenverIA on the Fund's performance in relation to its benchmark index; (viii) DenverIA's financial statements, Form ADV, profitability analysis related to providing advisory and administrative services to the Fund and Lipper report on investment management profitability; (ix) the level of DenverIA's insurance coverage; (x) compensation and possible benefits to DenverIA and its affiliates arising from their advisory, administrative and other relationships with the Fund; and (xi) the extent to which economies of scale are relevant to the Fund.

During the course of its deliberations, the Board, including a majority of Independent Directors, reached the following conclusions, among others, regarding DenverIA and the Agreement: that DenverIA had the capabilities, resources and personnel necessary to manage the Fund; that the performance of the Fund over the last 1, 3 and 5 year periods, the time period over which the current portfolio management team has been in place, was competitive with that of its Lipper peer group and benchmark index; the advisory fee is competitive with that of its Lipper peer group, consistent with DenverIA's other similarly managed mutual fund client and is fair and reasonable; that the combined advisory and co-administration fee payable to DenverIA is also competitive with that of its Lipper peer group; the Fund's expense ratio is favorable compared to the Lipper peer group averages, and the expected profit to DenverIA for advisory and administrative services seemed reasonable based on the data Denver IA provided and the Lipper report on investment management profitability; that the benefits derived by DenverIA from managing the Fund, including how DenverIA uses Fund commissions to pay for brokerage and research services, and the ways in which it conducts portfolio transactions for the Fund and selects brokers are reasonable; and that the breakpoints in the advisory and administrative fees payable to DenverIA allow shareholders to benefit from economies of scale as the Fund's asset level increases, noting that the asset level breakpoints have been reached under the agreements.

Based on the factors considered, the Board, including a majority of the Independent Directors, concluded that it was appropriate to renew the Agreement.

(4) Total investment return is calculated assuming a purchase of common stock on the opening periods where there is an increase in the discount or a decrease in the premium of the market value to distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Generally, total investment return based on net asset value will be higher than total

investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease

BLUE CHIP VALUE FUND, INC.

NOTES TO FINANCIAL STATEMENTS

June 30, 2007 (Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation All securities of the Fund are valued as of the close of regular trading on the New York Stock Exchange ("NYSE"), currently 4:00 p.m. (Eastern Time), on each day that the NYSE is open. Listed securities are generally valued at the last sales price as of the close of regular trading on the NYSE. Securities traded on the National Association of Securities Dealers Automated Quotation ("NASDAQ") are generally valued at the NASDAQ Official Closing Price ("NOCP"). In the absence of sales and NOCP, such securities are valued at the mean of the bid and asked prices.

Securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Factors which may be considered when determining the fair value of a security include (a) the fundamental data relating to the investment; (b) an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; (c) the market value at date of purchase; (d) information as to any transactions or offers with respect to the security or comparable securities; and (e) any other relevant matters.

Investment Transactions Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investments are determined on the "specific identification" basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

Federal Income Taxes The Fund intends to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no provision has been made for federal income taxes.

The tax character of the distributions paid was as follows:

	Six Months Ended June 30, 2007	Year Ended December 31, 2006
Distributions paid from:		
Ordinary income	\$ 113,062	\$ 960,443
Long-term capital gain	□	3,064,915
Return of capital	□	12,139,609
Undesignated	3,825,297	□
Total	\$ 3,938,359	\$ 16,164,967

The tax character of the distributions paid as □undesignated□ will be determined at the fiscal year ending December 31, 2007.

As of June 30, 2007, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$ 90,616
Accumulated net realized gain	4,334,246
Net unrealized appreciation/(depreciation)	37,542,829
Total	\$ 41,967,691

The difference between book basis and tax basis is attributable to the tax deferral of losses on wash sales.

Distributions to Stockholders □ Distributions to stockholders are recorded on the ex-dividend date.

The Fund currently maintains a □managed distribution policy□ which distributes at least 2.5% of its net asset value quarterly to its stockholders. These fixed distributions are not related to the amount of the Fund□s net investment income or net realized capital gains or losses and will be classified to conform to the tax reporting requirements of the Internal Revenue Code.

Denver Investment Advisors LLC (□DenverIA□) generally seeks to minimize realized capital gain distributions without generating capital loss carryforwards. As such, if the Fund□s total distributions required by the fixed quarterly payout policy for the year exceed the Fund□s □current and accumulated earnings and profits,□ the excess will be treated as non-taxable return of capital, reducing the stockholder□s adjusted basis in his or her shares. Although capital loss carryforwards may offset any current year net realized capital gains, such amounts do not reduce the Fund□s □current earnings and profits.□ Therefore, to the extent that current year net realized capital gains are offset by capital loss carryforwards, such excess distributions would be classified as taxable ordinary income rather than non-taxable return of capital. In this situation, the Fund□s Board of Directors would consider that factor, among others, in determining whether to retain, alter or eliminate the □managed distribution policy.□ The Fund□s

distribution policy may be changed or terminated at the discretion of the Fund's Board of Directors. At this time, the Board of Directors has no plans to change the current policy.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

2. UNREALIZED APPRECIATION AND DEPRECIATION OF INVESTMENTS (TAX BASIS)

As of June 30, 2007:

Gross appreciation (excess of value over tax cost)	\$ 38,492,912
Gross depreciation (excess of tax cost over value)	(950,083)
Net unrealized appreciation/(depreciation)	\$ 37,542,829
Cost of investments for income tax purposes	\$ 146,348,763

3. INVESTMENT ADVISORY AND ADMINISTRATION SERVICES

The Fund has an Investment Advisory Agreement with Denver Investment Advisors LLC (‘‘DenverIA’’), whereby a management fee is paid to DenverIA based on an annual rate of 0.65% of the Fund's average weekly net assets up to \$100,000,000 and 0.50% of the Fund's average weekly net assets in excess of \$100,000,000. The management fee is paid monthly based on the average of the net assets of the Fund computed as of the last business day the New York Stock Exchange is open each week. Certain officers and a director of the Fund are also officers of DenverIA.

ALPS Fund Services, Inc. (‘‘ALPS’’) and DenverIA serve as the Fund's co-administrators. The Administrative Agreement includes the Fund's administrative and fund accounting services. The administrative services fee is based on an annual rate for ALPS and DenverIA, respectively, of 0.0855% and 0.01% of the Fund's average daily net assets up to \$75,000,000, 0.04%, and 0.005% of the Fund's average daily net assets between \$75,000,000 and \$125,000,000, and 0.02% and 0.005% of the Fund's average daily net assets in excess of \$125,000,000 plus certain out-of-pocket expenses. The administrative service fee is paid monthly.

The Directors have appointed a Chief Compliance Officer who is also Treasurer of the Fund and an employee of DenverIA. The Directors agreed that the Fund would reimburse DenverIA a portion of his compensation for his services as the Fund's Chief Compliance Officer.

4. LOAN OUTSTANDING

The Fund has a line of credit with The Bank of New York Mellon (["BONY"]) in which the Fund may borrow up to the lesser of \$15,000,000 or the maximum amount the Fund is permitted to borrow under the Investment Company Act of 1940. The interest rate resets daily at overnight Federal Funds Rate plus 0.825%. The borrowings under the BONY loan are secured by a perfected security interest on all of the Fund's assets.

Details of the loan outstanding are as follows:

	As of June 30, 2007	Average for the Six Months Ended June 30, 2007
Loan outstanding	\$ 14,450,000	\$ 11,326,630
Interest rate	6.13%*	6.10%
% of Fund's total assets	7.85%	6.16%
Amount of debt per share outstanding	\$ 0.51	\$ 0.40
Number of shares outstanding (in thousands)	28,232	28,170**

*Annualized

**Weighted average

5. NEW ACCOUNTING PRONOUNCEMENTS

Effective January 2, 2007, the Fund adopted FASB Interpretation No. 48 (["FIN 48"]) ["Accounting for Uncertainty in Income Taxes,"] which requires that the financial statement effects of a tax position taken or expected to be taken in a tax return be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Management has concluded that the Fund has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of FIN 48. The Fund files income tax returns in the U.S. federal jurisdiction and the State of Colorado. For the years ended December 31, 2002 through December 31, 2006, the Fund's federal and Colorado returns are still open to examination by the appropriate taxing authority. However, to our knowledge there are currently no federal or Colorado income tax returns under examination.

In September 2006, the Financial Accounting Standards Board (["FASB"]) issued Statement of Financial Accounting Standards No. 157, ["Fair Value Measurements"] (["SFAS No. 157"]). SFAS No. 157 defines fair value for securities in the Fund's portfolio, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure about fair value measurement. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact adoption of SFAS No. 157 will have on the Fund's financial statement disclosures.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, (SFAS No. 159), "The Fair Value Option for Financial Assets and Financial Liabilities" including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact adoption of SFAS No. 159 will have on the Fund's financial statement disclosures.

6. RESULTS OF ANNUAL MEETING OF STOCKHOLDERS

The Annual Meeting of Stockholders of the Fund (the "Annual Meeting") was held May 8, 2007 pursuant to notice given to all stockholders of record at the close of business on March 27, 2007. At the Annual Meeting, stockholders were asked to approve the following:

Proposal 1.

To elect Todger Anderson, as Class I director to serve until the Annual Meeting in the year 2010. The number of shares voting for the election of Mr. Anderson was 24,911,240 and the number of shares withholding authority was 426,606.

Proposal 2.

To ratify the appointment by the Board of Directors of Deloitte & Touche LLP as the Fund's independent registered public accounting firm for its fiscal year ending December 31, 2007. The number of shares voting for Proposal 2 was 24,973,883, the number of shares voting against was 213,318 and the number of shares abstaining was 147,549.

7. SUBSEQUENT EVENT

The Fund declared a distribution of \$0.15 per share on July 2, 2007. The distribution is payable on July 27, 2007. Of the total distribution, approximately \$0.0032 represents net investment income for the second quarter and the remaining undesignated portion is paid from capital surplus. If the Fund's total distributions for the year exceed its net investment income and net realized capital gains for the year, all or a portion of the undesignated distributions may constitute a non-taxable return of capital. A return of capital distribution would not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." As of June 30, 2007, the undesignated portion of the distribution would include approximately 61.35% from net realized capital gains and 38.65% from paid in capital. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of the year and may be subject to changes based on tax regulations.
