ITEM 12. Results of Operations and Financial Condition.

In the following table, we set forth our cash operating costs for our International and U.S. Floater Contract Drilling Services business segment for the three month periods ended December 31, 2003, September 30, 2003 and December 31, 2002 and the twelve month periods ended December 31, 2003 and December 31, 2002. The most directly comparable GAAP financial measure to cash operating costs, operating and maintenance expense, and information reconciling the GAAP and non-GAAP measures are also included in the table. We utilize cash operating costs as an additional drilling rig performance measure and to identify variances between periods and comparable rig types. We believe investors will utilize operating cost information as additional performance measures.
