## THE COMPANY

Integrated BioPharma, Inc., a Delaware corporation is engaged primarily in manufacturing, marketing and sales of vitamins, nutritional supplements and herbal products, including vitamins sold as single entity supplements, in multi-vitamin combinations and in varying potency levels and in different packaging sizes. We were previously known as Integrated Health Technologies, Inc. and, prior to that, as Chem International, Inc. We are also engaged in other lines of business, including the development and sale of nutritional formulations based on plant-derived minerals through patented hyperaccumulation technology, and the manufacture and distribution of Paclitaxel, which is the primary chemotherapeutic agent in the treatment of breast cancer.

We maintain our executive offices at 225 Long Avenue, Hillside, New Jersey 07205. Our telephone number is (973) 926-0816.

## FORWARD-LOOKING INFORMATION

Some of the statements contained in or incorporated by reference in this prospectus discuss our plans and strategies for our respective businesses or state other forward-looking statements, as this term is defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "plan," "intend," "should," "seek," "will," and similar expressions are intended to identify these forward-looking statements, but are

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

not the exclusive means of identifying them. These forward-looking statements reflect the current views of our management. However, various risks, uncertainties and contingencies could cause our actual results, performance or achievements to differ materially from those expressed in, or implied by, these statements, including the following:

- \* our success or failure to implement our business strategies;
- \* our potential inability to raise additional capital;
- \* the approval of our pending patent applications;
- \* our ability to produce Paclitaxel on a commercial scale; and
- \* other factors discussed under the heading "Risk Factors" and elsewhere in this prospectus.

We assume no obligation to update any forward-looking statements contained in this prospectus, whether as a result of new information, future events or otherwise. For a discussion of important risks of an investment in our securities, including factors that could cause actual results to differ materially from results referred to in the forward-looking statements, see "Risk Factors" below. You should carefully consider the information set forth under the caption "Risk Factors." In light of these risks, uncertainties and assumptions, the forward-looking events discussed in or incorporated by reference in this prospectus might not occur.

### RISK FACTORS

You should carefully consider the risks described below before deciding whether to invest in shares of our common stock. Any investment in our common stock involves a high degree of risk. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business.

If we do not successfully address any of the risks described below, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline and you may lose all or part of your investment. We cannot assure you that we will successfully address these risks.

Over 366,000 of our shares are eligible for sale and their sale or potential to sell may depress the market price of our common stock.

Sales of a significant number of shares of our common stock in the public market could harm the market price of our common stock. This prospectus covers 366,085 shares of our common stock, which represents 3.0% of the total of 12,565,790 shares issued and outstanding as of December 17, 2004. As additional shares of our common stock become available for resale in the public market pursuant to this registration of shares and future registrations of shares and thereby increase the supply of our common stock, the price of the common stock could decrease as a result. Some or all of the shares of our common stock also may be offered from time to time in the open market pursuant to Rule 144, and these sales may have a depressive effect on the market for our common stock. 103,085 of the 203,085 shares of common stock held by Aloe Commodities International, Inc. included in this prospectus are currently being held in escrow pending the resolution of a trademark infringement action against us for which we will be indemnified by Aloe Commodities. The 100,000 shares of common stock issuable upon exercise of a warrant by Wolfe Axelrod Weinberger Associates

LLC are subject to a so-called "lock-up" agreement, which limits open market sales by that warrant holder in any calendar week to the greater of 5,000 shares of our common stock or 12% of the average daily volume of the common stock

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

during the preceding calendar week. In general, a person who has held restricted shares for a period of one year may, upon the filing with the SEC of a notification on Form 144, sell into the market common stock in an amount equal to the greater of 1% of the outstanding shares or the average weekly number of shares sold in the last four weeks prior to such sale. These sales may be repeated once each three months, and any of the restricted shares may be sold by a non-affiliate after they have been held two years.

The inability to obtain necessary additional capital in the future on acceptable terms could delay us from executing our business plan or prevent us from doing so entirely.

We expect to need additional capital in the future to fund our operations, finance investments in equipment and corporate infrastructure, increase the range of products we offer and respond to competitive pressures and perceived opportunities. Cash flow from operations, and cash on hand may not be sufficient to cover our operating expenses and capital investment needs. We cannot assure you that additional financing will be available on terms acceptable to us, if at all. A failure to obtain additional funding could prevent us from making expenditures that are needed to allow us to grow or maintain our operations. Increases in business can temporarily reduce our working capital due to cash flow lags.

If we raise additional funds by selling equity securities, the relative equity ownership of our existing investors could be diluted or the new investors could obtain terms more favorable than previous investors. If we raise additional funds through debt financing, we could incur significant borrowing costs. The failure to obtain additional financing when required could result in us being unable to grow as required to maintain profitable operations.

Our revenue would decline significantly if we lose one or more of our most significant customers, which could have a significant adverse impact on us.

A significant portion of our revenues are concentrated among one customer, Herbalife International of America, Inc. For the year ended June 30, 2004, Herbalife represented approximately 58% of total revenue. The loss of Herbalife as a customer could have a significant adverse impact on us.

We depend on our senior management, the loss of whom would have an adverse effect on us.

We presently are dependent upon the executive abilities of our Chairman of the Board, President and Chief Executive Officer, E. Gerald Kay, and our other executive officers. Our business and operations to date chiefly have been implemented under the direction of these individuals, who presently are, and in the future will be, responsible for the implementation of our anticipated plans and programs. While we have obtained key-man life insurance in the amount of \$1,000,000 on the life of Mr. Kay, with our company as the named beneficiary, the loss or unavailability of the services of one or more of our principal executives would have an adverse effect on us. Given our present financial condition, we may encounter difficulty in our ability to recruit and ultimately hire any replacement or additional executive officers having similar background, experience and qualifications as those of our current executive officers.

There is no assurance that we will remain listed on an active trading market.

Although our common stock is quoted on the American Stock Exchange, there can be no assurance that we will, in the future, be able to meet all the requirements for continued quotation on that exchange. In the absence of an active trading market or if our common stock cannot be traded on the American Stock Exchange, our common stock could instead be traded on the OTC Bulletin Board or in the Pink Sheets. In such event, the liquidity and stock price in the

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

secondary market may be adversely affected. In addition, in the event our common stock was delisted, broker-dealers have certain regulatory burdens imposed upon them which may discourage broker-dealers from effecting transactions in our common stock, further limiting the liquidity of our common stock.

We may not receive approval for our pending patent applications for nutritional supplements, which could enable our competitors to use similar methods and processes.

We are the registered owner of a patent granted for a method of producing nutritional formulations based on plant-derived minerals. We also have five patent applications pending before the U.S. Patent and Trademark Office for methods and processes relating to nutritional supplements containing

2

methylselenocysteine, production of pharmaceutically active proteins in sprouted seedlings, a system for transient express of genes in plants, improved plant transformation and floral transformation. We can give no assurance that we will be granted such patents. To the extent we are not granted such patents, our competitors could more easily produce nutritional supplements similar to ours.

We have entered into several transactions with entities controlled by some of our officers and directors, which could pose a conflict of interest.

We have entered into several agreements and arrangements described in our SEC public filings incorporated by reference in this prospectus, including the lease of real property from Vitamin Realty Associates, L.L.C., the merger with NuCycle Acquisition Corp., and the acquisition of the Paxis business from Trade Investment Services, LLC, that all involved transactions with entities significantly owned by members of the Kay family, who collectively own a majority of our shares of common stock. Although we believe that these transactions were advantageous to us and were on terms no less favorable to us than could have been obtained from unaffiliated third parties, transactions with related parties can potentially pose a conflict of interest.

Our executive officers and directors have majority voting power and may take actions that may not be in the best interest of other stockholders, but in their own interest.

Our executive officers and directors beneficially own approximately 71% of our outstanding shares. If these stockholders act together, they may be able to exert significant control over our management and affairs requiring stockholder approval, including approval of significant corporate transactions. This concentration of ownership may have the effect of delaying or preventing a change in control and might adversely affect the market price of our common stock. This concentration of ownership may not be in the best interests of all our stockholders.

We have a staggered board of directors, which could impede an attempt to acquire us or remove our management.

Our board of directors is divided into three classes, each of which serves for a staggered term of three years. This division of our board of directors could have the effect of impeding an attempt to take over our company or change or remove management, since only one class will be elected annually. Thus, only approximately one-third of the existing board of directors could be replaced at any election of directors.

Our product liability insurance may be insufficient to cover possible claims against us.

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

In view of the nature of our nutritional supplements business, we are subject to the inherent risk of product liability claims in the event that among other things, the use or ingestion of any of our products results in sickness or injury. We currently maintain product liability insurance under an umbrella policy in the amount of \$5 million per occurrence and \$5 million in the aggregate, which we deem adequate to cover risks associated with such use. However, there can be no assurance that existing or future insurance coverage will be sufficient to cover any possible product liability risks or that such insurance will continue to be available to us on economically feasible terms.

There is no assurance that we will be able to produce Paclitaxel on a commercial scale.

Our Paxis Pharmaceuticals, Inc. subsidiary uses botanical materials derived from the yew tree, or *taxus baccata*, to produce Paclitaxel, a cancer therapy drug. Yew trees are in limited supply. Paxis has formed a joint venture with Chatham Biotec, Ltd. to produce extract and intermediate precursor Paclitaxel from Canadian *Taxus* trees. We can give no assurance that the joint venture will be successful in producing such Paclitaxel or that we can locate alternate sources of yew trees.

### USE OF PROCEEDS AND EXPENSES OF THE OFFERING

We will not receive any of the proceeds from the sale of the shares offered by the selling stockholders. We will receive a maximum of approximately \$650,500 from the exercise of all of the warrants, assuming all of the warrants are exercised for cash and in full, of which there can be no assurance. Any proceeds received by us in connection with the exercise of the warrants will be used for working capital and general corporate purposes. With the exception of any brokerage fees and commission which are the obligation of the selling stockholders, we are responsible for the fees, costs and expenses of this offering which are estimated to be \$9,000, inclusive of our legal and accounting fees, printing costs, "blue sky" filing and other miscellaneous fees and expenses.

3

### SELLING STOCKHOLDERS

The following table sets forth, in the first column, the names of the selling stockholders and the number of shares being registered for sale as of the date of the prospectus and sets forth, in the second column, the number of shares of common stock known by us to be beneficially owned by each of the selling stockholders as of February 6, 2005. None of the selling stockholders has had a material relationship with us within the past three years other than as a result of the ownership of our shares or other securities, except as set forth below. The shares offered by this prospectus may be offered from time to time by the selling stockholders.

The third column lists the shares of common stock being offered by this prospectus by the selling stockholders. Because the exercise price of the warrants may be adjusted, the number of shares that will actually be issued may be more or less than the number of shares being offered by this prospectus. The fourth column assumes the sale of all of the shares offered by the selling stockholders pursuant to this prospectus. Unless otherwise noted below, none of the selling stockholders is a broker-dealer. The selling stockholders may sell all, some or none of their shares in this offering. See "Plan of Distribution."

### PLAN OF DISTRIBUTION

We are registering the shares of common stock issued and issuable upon exercise of the warrants to permit the resale of these shares of common stock by the holders of the shares of common stock and the warrants from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling stockholders may sell all or a portion of the shares of common stock beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions,

- \* on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- \* in the over-the-counter market;
- \* in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- \* through the writing of options, whether such options are listed on an options exchange or otherwise;
- \* ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- \* block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- \* purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- \* an exchange distribution in accordance with the rules of the applicable exchange;
- \* privately negotiated transactions;
- \* short sales;
- \* pursuant to Rule 144 under the Securities Act;

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

- \* broker-dealers may agree with the selling securityholders to sell a specified number of such shares at a stipulated price per share;
- \* a combination of any such methods of sale; and
- \* any other method permitted pursuant to applicable law.

5

If the selling stockholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling stockholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions. The selling stockholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling stockholders may pledge or grant a security interest in some or all of the preferred shares, warrants or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933, as amended, amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders and any broker-dealer participating in the distribution of the shares of common stock will be deemed to be "underwriters" within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the shelf registration statement, of which this prospectus forms a part.

## Edgar Filing: INTEGRATED BIOPHARMA INC - Form S-3/A

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, estimated to be \$9,000 in total, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or "blue sky" laws; provided, however, that a selling stockholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling stockholders against liabilities, including some liabilities under the Securities Act, in accordance with the registration rights agreements, or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the related registration rights agreements, or we may be entitled to contribution.

Once sold under the shelf registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

### ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Section 145 of the Delaware General Corporation Law, or the DGCL, generally provides that all directors and officers (as well as other employees and individuals) may be indemnified against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with certain specified actions, suits or proceedings, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation -- a "derivative action"), if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe their conduct was unlawful. A similar standard of care is applicable in the case of derivative actions, except that indemnification extends only to expenses (including attorneys' fees) actually and reasonably incurred in connection with defense or settlement of an action and the DGCL requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. Section 145 of the DGCL also provides that the rights conferred thereby are not exclusive of any other right that any person may be entitled to under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, and permits a corporation to advance expenses to or on behalf of a person to be indemnified upon receipt of an undertaking to repay the amounts advanced if it is determined that the person is not entitled to be indemnified.

The registrant's certificate of incorporation and bylaws provide that each person who was or is made a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a director or officer of the registrant (or is or was serving at the request of the registrant as a director or officer of another entity), shall be indemnified and held harmless by the registrant against all expenses (including attorneys' fees), judgments, fines and amounts paid or to be paid in settlement actually and reasonably incurred or suffered by such person in connection therewith, if such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the registrant.

The certificate of incorporation and bylaws also provide that the rights conferred thereby are contract rights, that they are not exclusive of any other rights that an officer or director may have or hereafter acquire under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, and that they include the right to be paid by the registrant the expenses incurred in defending any specified action, suit or proceeding in advance of its final disposition provided that, if the DGCL so requires, such payment shall only be made upon delivery to the registrant by the officer or director of an undertaking to repay all amounts so advanced if it shall ultimately be

determined that such director or officer is not entitled to be indemnified under the bylaws or otherwise.

### ITEM 17. UNDERTAKINGS.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high and of the estimated maximum offering range may be reflected on the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in

the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement; provided, however, that paragraph (1)(i) and (1)(ii) above do not apply if information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934, as amended, that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

II-2

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions set forth in response to Item 15, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
