Common Stock, \$.0001 par value per share	416,000(2)(4)	\$ 12.20 (5)	\$ 5,075,200	\$ 543.05
Common Stock, \$.0001 par value per share	104,000(6)	\$ 10.00 (7)	\$ 1,040,000	\$ 111.28
Common Stock, \$.0001 par value per share	26,000	\$ 7.49 (8)	\$ 194,740	\$ 20.84
Common Stock, \$.0001 par value per share	400,000(9)	\$ 10.00 (3)	\$ 4,000,000	\$ 428.00
Common Stock, \$.0001 par value per share	208,000(9)	\$ 12.20 (5)	\$ 2,537,600	\$ 271.52
Common Stock, \$.0001 par value per share	52,000(9)	\$ 10.00 (3)	\$ 520,000	\$ 55.64
TOTALS	2,006,000		\$ 21,367,540	\$ 2,286.33(10)

(1) Represents the shares of our common stock issuable upon conversion of convertible debentures due March 13, 2009.

(2) Pursuant to Rule 416 of the Securities Act of 1933, as amended, the shares of common stock offered hereby also include such presently indeterminate number of shares of our common stock as shall be issued by us to the selling shareholders as a result of stock splits, stock dividends or similar transactions.

(3) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(g) under the Securities Act of 1933, as amended, based on the higher of (a) the conversion price of the convertible debentures, (b) the offering price of securities of the same class included in this Registration Statement, or (c) the price of securities of the same class as determined using the average of the high and low prices, as reported on The Nasdaq National Market, within five business days of the filing of this Registration Statement.

(4) Represents shares of our common stock issuable upon the exercise of outstanding warrants.

(5) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(g) under the Securities Act of 1933, as amended, based on the higher of (a) the exercise price of the warrants, (b) the offering price of securities of the same class included in this Registration Statement, or (c) the price of securities of the same class as determined using the average of the high and low prices, as reported on The Nasdaq National Market, within five business days of the filing of this Registration Statement.

(6) Represents shares of our common stock that may be issued in the form of the payment of interest on the convertible debentures due March 13, 2009.

(7) Assuming the debentures remain outstanding for three years and based upon the higher of (a) the highest conversion price at which shares issuable as interest on the convertible debentures will be issued, (b) the offering price of securities of the same class included in this Registration Statement, or (c) the price of securities of the same class as determined using the average of the high and low prices, as reported on The Nasdaq National Market, within five

business days of the filing of this Registration Statement.

(8) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(c) under the Securities Act of 1933, as amended based on the average of the high and low prices, as reported on The Nasdaq National Market, within five business days of the filing of this Registration Statement.

(9) Under the terms of the registration rights agreement, we are required to register 150% of the shares of common stock issuable upon conversion of the debentures, the warrants, and interest on the convertible debentures.

(10) Previously paid.

Pursuant to Rule 429 under the Securities Act of 1933, the prospectus included in this registration statement is a combined prospectus relating also to Registration Statement No. 333-121792 previously filed by the registrant on Form SB-2 and declared effective on February 4, 2005. This Registration Statement, upon effectiveness, also constitutes Post-Effective Amendment No. 1 to Registration Statement No. 333-121792, and such post-effective amendment shall hereafter become effective concurrently with the effectiveness of this Registration Statement and in accordance with Section 8(c) of the Securities Act of 1933.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Commission, acting pursuant to said section 8(a), may determine.

THE INFORMATION IN THIS PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. THE SELLING STOCKHOLDERS MAY NOT SELL THESE SECURITIES PUBLICLY UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PROSPECTUS IS NOT AN OFFER TO SELL THESE SECURITIES AND IT IS NOT SOLICITING AN OFFER TO BUY THESE SECURITIES IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

SUBJECT TO COMPLETION, DATED December 7, 2006

PROSPECTUS

PACIFICNET INC.

3,152,228 Shares of Common Stock

This prospectus relates to the resale of up to 3,152,228 shares of our common stock being offered by the selling stockholders. Of the shares covered by this prospectus, 602,310 shares have been issued, 800,000 shares are issuable upon the conversion of convertible debentures, 985,918 shares are issuable upon the exercise of warrants, 104,000 shares may be issued for the payment of interest on the convertible debentures and 660,000 shares have been registered pursuant to our obligation in our registration rights agreement to register 150% of the shares of common stock issuable upon conversion of the debentures, warrants and interest on the debentures. Of the shares of common stock included in this prospectus, 1,152,228 of the shares were previously registered. We will not receive any proceeds from the sale of the shares of common stock by the selling stockholders. Assuming that all of the warrants held by the selling stockholders are exercised for cash, we will realize proceeds of approximately \$10,606,647.

Our shares of common stock are traded on The Nasdaq Global Market under the symbol "PACT." The last reported sale price of our common stock on December 5, 2006, was \$4.74.

THIS INVESTMENT INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD PURCHASE SHARES ONLY IF YOU CAN AFFORD A COMPLETE LOSS OF YOUR INVESTMENT. SEE "RISK FACTORS" BEGINNING ON PAGE 5 FOR A DISCUSSION OF RISKS APPLICABLE TO US AND AN INVESTMENT IN OUR COMMON STOCK.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED THESE SECURITIES, OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is December __, 2006.

PROSPECTUS SUMMARY

This summary highlights selected information appearing elsewhere in this prospectus. While this summary highlights what we consider to be the most important information about us, you should carefully read this prospectus and the registration statement of which this prospectus is a part in their entirety before investing in our common stock, especially the risks of investing in our common stock, which we discuss later in “Risk Factors,” and our financial statements and related notes beginning on page F-1. Unless the context requires otherwise, the words “we,” “us” and “our” refer to PacificNet Inc.

About PacificNet Inc.

We were incorporated in the state of Delaware in 1987. We are a leading provider of customer relationship management (CRM) and telecom services, e-commerce and gaming technology in China. Our business consists of three groups, all of which operate within the outsourcing and telecommunications industries in Asia, primarily greater China, which includes the People's Republic of China (PRC), or mainland China, Hong Kong Special Administrative Region (HKSAR), Macau Special Administrative Region, and Taiwan, and one group that focuses on primarily administrative and corporate related matters. Through our subsidiaries we provide outsourcing services, telecom (VAS) services, and products (telecom & gaming) services. Our business process outsourcing (BPO) services include call centers providing CRM and telemarketing services, and our information technology outsourcing (ITO) includes software programming and development. We are value-added resellers and providers of telecom VAS, which comprises interactive voice response (IVR) systems, call center management systems, and VOIP, as well as mobile phone VAS, such as short messaging services (SMS) and multimedia messaging services (MMS). In 2004, we commenced our communication products distribution service, through wholesale and, to a lesser extent, retail sale and distribution of mobile phones, software and hardware, mobile accessories, and calling cards in Hong Kong and China. In 2005, we invested in Take1Technologies (formerly known as Cheer Era), a company that designs, manufactures, and distributes multimedia interactive self-service kiosks, bingo and gaming machines for the casino and slot machine operators Europe and Asia.

Our BPO services generate revenue from call center services, call center management software sales, and training and consulting. We invoice our call center clients monthly at per seat monthly rates, a base price plus commission per call, or a per hour charge rate, depending on the client's preference. Our call center software clients pay per license, for which there is usually a one-time charge on sale of the software and annual maintenance fees for service. We charge per project for our consulting and training services and for our telecom VAS, which are invoiced throughout the project. Our telecom VAS often includes a post-sale service contract for systems integration and consulting services for which we bill separately. Our communication products such as calling cards, kiosks and cell phones are sold cash-on-delivery. Our gaming center operations generate revenue through the sale of gaming machines to casinos, or through resellers who sell to casinos.

Our clients include the leading telecom operators, banks, insurance, travel, marketing, and service companies, as well as telecom consumers, in Greater China. Clients include China Telecom, China Netcom, China Mobile, China Unicom, PCCW, Hutchison Telecom, CSL, SmarTone, Sunday, Swire Travel, Coca-Cola, SONY, Samsung, Motorola, Nokia, TNT Express, Huawei, TCL, Dun & Bradstreet, American Express, Bank of China, DBS, Hong Kong Government, and Hongkong Post. PacificNet employs over 2,300 staff in our various subsidiaries in China with offices in Hong Kong, Beijing, Shanghai, Shenzhen, and Guangzhou.

PacificNet's operations include the following four groups:

- (1) Outsourcing Services: including BPO, call center, IT Outsourcing (ITO) and software development services.
- (2) Telecom Value-added Services: including Content Providing (CP), IVR, Platform Providing (PP) and Service Providing (SP).
- (3) Products (Telecom & Gaming): including communication and gaming products, GSM/CDMA/3G Products and Multimedia Communication Kiosks.
- (4) Other Business: including internal administrative matters, other related corporate items, and other businesses.

Private Placement of Convertible Debentures and Warrants

On March 13, 2006, we completed a private placement in which we sold \$8,000,000 in convertible debentures and issued warrants to purchase up to an aggregate of 400,000 shares of common stock. The debentures are convertible at any time into shares of our common stock at an initial fixed conversion price of \$10.00 per share, subject to adjustments for certain dilutive events. The debentures are due March 13, 2009. The warrants are exercisable for a period of five years at an exercise price of \$12.20 per share. At the closing of the private placement, we prepaid the first year's interest on debentures equal to 5% of the aggregate principal amount of debentures. We will pay interest in cash or shares, provided that certain conditions are met, at the rate of 6% for the second year the debentures are outstanding and then 7% for the third. Beginning January 1, 2007, we are obligated to redeem up to \$320,000 every month, plus accrued, but unpaid interest, liquidated damages and penalties. We also have the option to prepay the debentures at any time, provided that certain conditions have been met, after the 12 month anniversary of the effective date of the registration statement of which this prospectus is part, some or all of the outstanding debentures for cash in an amount equal to 120% of the principal amount outstanding, plus accrued, but unpaid interest, liquidated damages and penalties outstanding. At any time after the six month anniversary of the effective date, we may force the holders to convert up to 50% of the then outstanding principal amount of the debentures, subject to certain trading conditions being met. If any event of default occurs under the debentures or other related documents, the holders may elect to accelerate the payment of the outstanding principal amount of the debenture, plus accrued, but unpaid interest, liquidated damages and penalties, which shall become immediately due and payable.

Under the terms of the registration rights agreement, dated February 28, 2006, entered into among the Company and the holders, we are obligated to register for resale 150% of the shares of common stock issuable upon conversion of the debentures and the warrants, and interest on the convertible debentures. We are currently in default under the private placement transaction documents for the untimely filing of the registration statement, of which this prospectus is part, and for the failure to have the registration statement declared effective prior to the effectiveness date set forth in the registration rights agreement. As of November 1, 2006, we could be liable for liquidated damages of approximately \$800,000 as a result of the foregoing. As of the date of this prospectus, we have paid \$35,000 in liquidated damages to one holder. As of the date of this prospectus the holders have not elected to accelerate the payment of the outstanding principal and interest owing on the debenture.

Also in connection with the private placement, Messrs. Tony Tong, Victor Tong and Shaojian Wang and Sino Mart Management Ltd., and its sole officer and director, Mr. Cho Sam Tong, entered into lock-up agreements restricting the disposition of shares of our common stock beneficially owned by them until the earlier of 30 days from the effective date of the registration statement, or February 28, 2008.

Messrs. Tony and Victor Tong, Wang and Sino Mart Management Ltd. each executed letter agreements to the holders of the convertible debentures and warrants, in which they each agreed to vote all of the shares of the Company over which they have voting control in favor of any resolutions presented to the stockholders of the Company to approve the issuance, in the aggregate, of more than 19.999% of the number of shares of common stock of the Company outstanding on the closing date of the private placement. They executed each letter agreement in consideration of, and as a condition to the consummation of the private placement.

C.E. Unterberg, Towbin L.L.C. acted as Placement Agent and received a cash fee in the amount of \$449,500 and a warrant to purchase up to 16,000 shares. Maxim Group also acted as Placement Agent and received a cash fee in the amount of \$50,000.

RECENT DEVELOPMENTS

Unwinding of Business Acquisition

On December 19, 2005, we announced the execution by our wholly-owned subsidiary, PacificNet Strategic Investment Holdings Limited ("PacInvest"), of an Agreement for the Sale and Purchase of 100% of Lion Zone Holdings Limited (the "Sale and Purchase Agreement"). Pursuant to the terms of the Sale and Purchase Agreement, PacInvest acquired a 51% interest in Lion Zone Holdings Limited ("Lion Zone"), which holds a 100% interest in Shenzhen GuHaiGuanChao Investment Consultant Co., Ltd. ("ChinaGoHi"), a wholly-owned foreign enterprise (WOFE) registered in China and a provider of DRTV infomercial marketing company for financial advisory services in China.

On November 20, 2006, PacInvest executed an agreement to terminate (the "Termination Agreement"), the Sale and Purchase Agreement with Lion Zone, ChinaGoHi and Mr. Wang Wenming (collectively, the "Sellers"). The Termination Agreement was effective as of November 1, 2006. As a result of the Termination Agreement, Mr. Wang Wenming and Lion Zone agreed to return to PacInvest, (1) HKD\$3,000,000, (2) USD\$100,000 in cash, and (3) 275,000 of our restricted shares, and PacInvest returned its 51% interest in Lion Zone to Mr. Wang. Additionally, the Sellers agreed to waive PacInvest's obligation during the term of the Sale and Purchase Agreement to issue the restricted shares and to provide certain loans to the Sellers. PacInvest reserved its right to re-purchase the 51% interest within 2 years of the date of signing the Termination Agreement for a purchase price of 5 times net profit based on U.S. GAAP audited financials for a period of 12 months after signing. All of the parties to the Termination Agreement agreed to waive any liabilities of each party which may result from the Termination Agreement.

The decision to terminate the Sale and Purchase Agreement was due to ChinaGoHi's inability to obtain the approval of, and get the necessary license to operate from, the China Securities Regulatory Commission ("CSRC"). We have previously disclosed in our periodic reports filed with the Securities and Exchange Commission that in the past, the Chinese government has stopped the distribution of information that it believes violates PRC law over the Internet or through VAS. We have disclosed the risk that if the PRC government were to take any action to limit or prohibit the distribution of information through our networks or via our VAS, or to limit or regulate any current or future content or services available to users on our network, our business could be significantly harmed. In July 2006, the Chinese Broadcasting Bureau along with the CSRC banned the TV membership sales model, which was the model ChinaGoHi employed in its business. The Sale and Purchase Agreement provided that if ChinaGoHi or Lion Zone was banned or in any way restricted from conducting business under the existing or new PRC laws or legislation during the period from signing the Sale and Purchase Agreement to July 1, 2006, and ChinaGoHi failed to change its business model in good faith to adapt to the new regulations, and such failure resulted in any shortcoming of the accumulated net profit, ChinaGoHi and Lion Zone would return to PacInvest all the cash and shares they obtained under the Agreement.

Business Acquisition

In August 2006, PacificNet Games Limited (PacGames) completed the acquisition of 100% of Able Entertainment Technology Ltd, a leading provider of Asian multi-player electronic gaming machines, gaming technology solutions and gaming related maintenance, IT and distribution services for the leading hotel, casino and slot hall operators based in Macau, China and other Asian gaming markets. Macau is expected to surpass Las Vegas in total revenues by 2006. Currently, table games make up the bulk of Macau casino revenues, which is in sharp contrast to other areas such as Las Vegas. With this acquisition, PacGames is a leading developer of electronic versions of these popular table games which are less expensive to run resulting in higher casino profits with great appeal to the mass market players. Further, the growing market in Macau is for Asian table games such as Baccarat, Roulette, Fan Tan, Fish-Prawn-Crab and Sic-Bo Cussec as these games have wider acceptance in the Asian market than Western games such as poker or slots. The development, manufacturing, maintenance, and service of electronic Asian table games are underserved areas which are predicted to grow considerably as Macau's gaming market matures. PacGames products include multi-play

electronic gaming machines such as Baccarat, Fish-Prawn-Crab, Sib-Bo Cussec, Roulette, and Video Lottery Terminals (VLT) such as Keno and Bingo, as well as other traditional slot machines. We intend to continue to grow our business by acquiring and managing growing technology and network communications businesses with established products and customers in Asia.

SUMMARY CONSOLIDATED FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which appear elsewhere in this prospectus.

RISK FACTORS

Investing in our securities involves a great deal of risk. Careful consideration should be made of the following factors as well as other information included in this prospectus before deciding to purchase our common stock. You should pay particular attention to the fact that we conduct a majority of our operations in China and are governed by a legal and regulatory environment that in some respects differs significantly from the environment that may prevail in other countries. Our business, financial condition or results of operations could be affected materially and adversely by any or all of these risks.

THE FOLLOWING MATTERS MAY HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, FINANCIAL CONDITION, LIQUIDITY, RESULTS OF OPERATIONS OR PROSPECTS, FINANCIAL OR OTHERWISE. REFERENCE TO THIS CAUTIONARY STATEMENT IN THE CONTEXT OF A FORWARD-LOOKING STATEMENT OR STATEMENTS SHALL BE DEEMED TO BE A STATEMENT THAT ANY ONE OR MORE OF THE FOLLOWING FACTORS MAY CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE IN SUCH FORWARD-LOOKING STATEMENT OR STATEMENTS.

RISKS RELATED TO OUR BUSINESS

WE HAVE A LIMITED OPERATING HISTORY AND RECENTLY EXPERIENCED A SIGNIFICANT INCREASE IN REVENUE THAT MAY NOT BE SUSTAINED.

Our business operations commenced in 1994, and subsequently the business was incorporated as a Delaware corporate entity in 1999. Our operating history may be insufficient to evaluate our business and future prospects. Although our revenue have grown rapidly in the past two years, primarily as a result of our increased acquisition activity, we cannot assure investors that we will maintain our profitability or that we will not incur net losses in the future. We expect that our operating expenses will increase as we expand. Any significant failure to realize anticipated revenue growth could result in significant operating losses. We will continue to encounter risks and difficulties in implementing our business model, including our potential failure to:

- increase awareness of our brands, protect our reputation and develop customer loyalty;
- manage our expanding operations and service offerings, including the integration of any future acquisitions;
- maintain adequate control of our expenses; and
- anticipate and adapt to changing conditions in the markets in which we operate as well as the impact of any changes in government regulation, mergers and acquisitions involving our competitors, technological developments and other significant competitive and market dynamics.

If we are not successful in addressing any or all of these risks, our business may be materially and adversely affected.

THE ACQUISITION OF NEW BUSINESSES IS COSTLY AND SUCH ACQUISITIONS MAY NOT ENHANCE OUR FINANCIAL CONDITION.

Our growth strategy is to acquire companies and identify and acquire assets and technologies from businesses in greater China that have services, products, technologies, industry specializations or geographic coverage that extend or complement our existing business. The process to undertake a potential acquisition is time-consuming and costly. We expend significant resources to undertake business, financial and legal due diligence on our potential acquisition target and there is no guarantee that we will acquire the company after completing due diligence. Any future acquisitions will be subject to a number of challenges, including:

- the diversion of management time and resources and the potential disruption of our ongoing business;
 - difficulties in maintaining uniform standards, controls, procedures and policies;
 - potential unknown liabilities associated with acquired businesses;
- the difficulty of retaining key alliances on attractive terms with partners and suppliers; and
- the difficulty of retaining and recruiting key personnel and maintaining employee morale.

Our acquisitions could result in the use of substantial amounts of cash, potentially dilutive issuances of equity securities and exposure to undisclosed or potential liabilities of acquired companies. During the fiscal year ended December 31, 2005, we acquired a controlling interest in Guangzhou 3G Information Technology Co. Ltd. (“Guangzhou3G-WOFE”), Guangzhou Clickcom Digit-net Science and Technology Ltd. (“Clickcom-WOFE”) and Shenzhen GuHaiGuanChao Investment Consultant Company Limited (“ChinaGoHi”), a wholly owned foreign enterprise (WOFE) registered in China. We expect that acquisitions will strengthen our position as a provider of outsourced call center, VAS and communication products in Asia. Although our agreements provide that the consideration is payable upon the acquired company attaining certain income milestones annually, there is no guarantee that these milestones will be reached. If they are not reached as anticipated, the time, cost and capital to acquire the company may outweigh the anticipated benefits from consolidation of their income. At December 31, 2005, PacificNet's consolidated balance sheet reflects approximately \$14.8 million of goodwill, primarily as a result of several acquisitions that is not subject to amortization in the ordinary course of business. To the extent that the businesses acquired in these transactions do not remain competitive, some or all of the goodwill related to that acquisition could be charged against future earnings.

A SUBSTANTIAL PORTION OF OUR BUSINESS DEPENDS ON MOBILE TELECOMMUNICATIONS OPERATORS IN CHINA AND ANY LOSS OR DETERIORATION OF SUCH RELATIONSHIPS MAY RESULT IN SEVERE DISRUPTIONS TO OUR BUSINESS OPERATIONS.

We rely entirely on the networks and gateways of China Mobile and China Unicom to provide our wireless value-added services. Thus, we face certain risks in conducting our wireless value-added services business, such as the following:

- (1) Currently, China Mobile and China Unicom are the only mobile telecommunications operators in China that have platforms for wireless value-added services. Our agreements with them are generally for a period of less than one year and generally do not have automatic renewal provisions. If neither of them is willing to continue to cooperate with us, we will not be able to conduct our existing wireless value-added services business.
- (2) Our agreements with China Mobile and China Unicom are subject to negotiation upon expiration. If any of the mobile telecommunications operators decides to change its content or transmission fees or its share of revenue, or does not comply with the terms of the agreement, our revenue and profitability could be materially adversely affected.

THE MOBILE TELECOMMUNICATIONS OPERATORS MAY LAUNCH AND MAY HAVE ALREADY LAUNCHED COMPETING SERVICES OR COULD DISCONTINUE THE USE OF EXTERNAL CONTENT AGGREGATORS SUCH AS OURSELVES ENTIRELY AT ANY TIME.

Due to our reliance on the mobile telecommunications operators for our wireless value-added services, any loss or deterioration of our relationship with any of the mobile telecommunications operators may result in severe disruptions to our VAS business operations and the loss of a significant portion of our revenue.

OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS MAY BE MATERIALLY AFFECTED BY THE CHANGES IN POLICIES OR GUIDELINES OF THE MOBILE TELECOMMUNICATIONS OPERATORS.

The mobile telecommunications operators in China may, from time to time, issue certain operating policies or guidelines, requesting or stating its preference for certain actions to be taken by all wireless value-added service providers using their platforms. Due to our reliance on the mobile telecommunications operators, a significant change in their policies or guidelines may have a material adverse effect on us. For example, some mobile

telecommunications operators recently revised their billing policies to request all wireless value-added service providers to confirm the subscription status of those users who have not been active for three months. Such change in policies or guidelines may result in lower revenue or additional operating costs for us, and we cannot assure investors that our financial condition and results of operations will not be materially adversely affected by any policy or guideline change by the mobile telecommunications operators in the future.

WE MAY BE SUBJECT TO ADVERSE ACTIONS FOR ANY BREACH OR PERCEIVED BREACH BY US OF THE POLICIES OR GUIDELINES IMPOSED BY THE MOBILE TELECOMMUNICATIONS OPERATOR WITH RESPECT TO CONTENT PROVIDED ON OR LINKED THROUGH OUR WEBSITES.

The mobile telecommunications operators in China may impose policies or guidelines to govern or restrict the content provided by all wireless value-added service providers, including content developed by us or content supplied by others to us. The mobile telecommunications operators from time to time have requested wireless value-added services providers, including us, to remove objectionable content or links to or from websites with certain categories of content, including content that they may deem to be sexually explicit. We aggregate and develop content that we consider attractive to our targeted user base, and we cannot assure investors that the mobile telecommunications operators will not from time to time find certain portions of our content to be objectionable. In the case of a breach or perceived breach of such policies or guidelines, the mobile telecommunications operators may require us to reduce or curtail the content on our Internet portal, which may reduce our portal traffic, and the mobile telecommunications operators may have the right to impose monetary fines upon us, or terminate our cooperation with them. In addition, we would be liable to the mobile telecommunications operators for their economic losses pursuant to our agreements with these operators if we were found to be in breach of the policies or guidelines promulgated by them. As a result of the occurrence of any of the above, our financial condition and results of operations may be materially adversely affected.

OUR DEPENDENCE ON THE SUBSTANCE AND TIMING OF THE BILLING SYSTEMS OF THE MOBILE TELECOMMUNICATIONS OPERATORS MAY REQUIRE US TO ESTIMATE PORTIONS OF OUR REPORTED REVENUE FOR WIRELESS VALUE-ADDED SERVICES FROM TIME TO TIME. AS A RESULT, SUBSEQUENT ADJUSTMENTS MAY HAVE TO BE MADE TO OUR WIRELESS VALUE-ADDED SERVICES REVENUE IN OUR FINANCIAL STATEMENTS.

As we do not bill our wireless value-added services users directly, we depend on the billing systems and records of the mobile telecommunications operators to record the volume of our wireless value-added services provided, charge our users through mobile telephone bills and collect payments from our users and pay us. In addition, we do not generally have the ability to independently verify or challenge the accuracy of the billing systems of the mobile telecommunications operators. Generally, within 20 to 60 days after the end of each month, a statement from each of the mobile telecommunications operators confirming the value of wireless value-added services they bill to users in that month will be delivered to us, and generally within 60 days after such delivery, we will be paid by the mobile telecommunications operators for the wireless value-added services, net of their revenue share, transmission fees and applicable business taxes, for that month based on such statements.

OUR COMMUNICATION PRODUCTS ARE PROVIDED CASH-ON-DELIVERY, WHICH LEAVES US VULNERABLE TO THEFT AND EMPLOYEE EMBEZZLEMENT.

The purchase of calling cards, SIM cards and other mobile phone products are made with cash. Although there is a low risk that clients will not pay for these services when delivered, our retail stores maintain cash on hand which might make them robbery targets. We also face the risk that employees who collect the cash and others who may be aware that cash is available at these sites might embezzle the money. Theft or embezzlement could have a material adverse effect on the revenue generated and the financial condition of our business operations.

WE INTEND TO OPERATE EACH OF OUR ACQUIRED BUSINESSES ON A STANDALONE BASIS.

We do not intend to integrate the information or communications systems, management, or other aspects of the businesses we acquire. If we integrated the businesses, we might be able to reduce expenses by eliminating duplicative personnel, facilities, or technology and other costs. In addition, facilities and technology integration might make inter-company communications and transactions more efficient. By declining to integrate the acquired businesses, we might forego opportunities to operate more profitably. Furthermore, our decision not to integrate these businesses might result in difficulties in evaluating the effectiveness of our internal control over financial reporting, which could complicate compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

BECAUSE WE DO NOT HAVE EMPLOYMENT AGREEMENTS WITH MANAGEMENT OF THE ACQUIRED COMPANIES, OUR BUSINESS OPERATIONS MIGHT BE INTERRUPTED IF THEY WERE TO RESIGN AND SEEK EMPLOYMENT WITH COMPETITORS.

As part of our acquisition strategy, we do not use our own employees or members of our management team to operate the acquired companies. Key management at these companies has been in place for several years and has established solid relationships with their customers. Competition in our industry for executive-level personnel is strong and we can make no assurance that we will be able to retain the highly effective executive employees. Although we provide incentives to management to stay with the acquired business, we have not entered into employment agreements with them. If such key persons were to resign we might face impairment of relationships with remaining employees or customers, which might result in further resignation by employees, and might cause long-term clients to terminate their relationship with us. Furthermore, we have not entered into any non-competition and confidentiality agreements with these employees and management. Due to the limited enforceability of these types of agreements in China, we face the risk that employees of the acquired subsidiaries might divulge our software and other protected intellectual property secrets to competitors.

OUR CUSTOMERS ARE CONCENTRATED IN A LIMITED NUMBER OF INDUSTRIES.

Our clients are concentrated primarily in the telecommunications, telemarketing and technology industries, and to a lesser extent, the insurance and financial services industries, where the current trend is to outsource certain CRM and VAS. Our ability to generate revenue depends on the demand for our services in these industries. An economic downturn, or a slowdown or reversal of the tendency in any of these industries to rely on outsourcing could have a material adverse effect on our business, results of operations or financial condition.

8

THE MARKET IN WHICH WE COMPETE IS HIGHLY COMPETITIVE AND FRAGMENTED AND WE MAY NOT BE ABLE TO MAINTAIN MARKET SHARE.

We expect competition to persist and intensify in the future. Our competitors are mainly leaders in the CRM services market, such as PCCW Teleservices (Hong Kong) Limited, China Motion Telecom International Limited, and Teletech (Hong Kong) Limited. Our competitors also include small firms offering specific applications, divisions of large entities and other large independent firms. We face the risk that new competitors with greater resources than ours will enter our market. Furthermore, increasing competition among telecom companies in greater China has led to a reduction in telecommunication services fees that can be charged by such companies. If a reduction in telecommunication services fees negatively impacts revenue generated by our clients, they may require us to reduce the price of our services, or seek competitors of ours that charge less. If we must significantly reduce the price of our services, the decrease in revenue could adversely affect our profitability.

KEY EMPLOYEES ARE ESSENTIAL TO GROWING OUR BUSINESS.

Tony Tong, our Chairman and Chief Executive Officer, and Victor Tong, our President, are essential to our ability to continue to grow through acquisitions. Messrs. Tong and Tong have established relationships within our industry. Their business contacts have been critical in identifying and negotiating with acquisition candidates. If either of them were to leave our employ, our growth strategy might be hindered, which could limit our ability to increase revenue.

THE ESTABLISHMENT AND EXPANSION OF INTERNATIONAL OPERATIONS REQUIRES SIGNIFICANT MANAGEMENT ATTENTION.

All of our current, as well as any anticipated future revenue, are or are expected to be derived from Asia. Our international operations are subject to risks, including the following, which, if not planned and managed properly, could materially adversely affect our business, financial condition and operating results:

- legal uncertainties or unanticipated changes regarding regulatory requirements, liability, export and import restrictions, tariffs and other trade barriers;
- longer customer payment cycles and greater difficulties in collecting accounts receivable;
- uncertainties of laws and enforcement relating to the protection of intellectual property; and
- potentially uncertain or adverse tax consequences.

OUR OPERATIONS COULD BE CURTAILED IF WE ARE UNABLE TO OBTAIN REQUIRED ADDITIONAL FINANCING.

Since inception our investments and operations primarily have been financed through sales of our common stock. In the first quarter of 2006 we completed a financing of convertible debentures for \$8,000,000. In the future we may need to raise additional funds through public or private financing, which may include the sale of equity securities, including securities convertible into our common stock. The issuance of these equity securities could result in dilution to our stockholders. If we are unable to raise capital when needed, our business growth strategy may slow, which could severely limit our ability to increase revenue.

FLUCTUATIONS IN THE VALUE OF THE HONG KONG DOLLAR OR RMB RELATIVE TO FOREIGN CURRENCIES COULD AFFECT OUR OPERATING RESULTS.

We have historically conducted transactions with customers outside the United States in United States dollars. Payroll and other costs of foreign operations are payable in foreign currencies, primarily Hong Kong dollars and Chinese renminbi. To the extent future revenue is denominated in foreign currencies, we would be subject to increased risks relating to foreign currency exchange rate fluctuations that could have a material adverse affect on our business, financial condition and operating results. The value of Hong Kong dollars and Chinese renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. As our operations are primarily in Asia, any significant revaluation of Hong Kong dollars or the Chinese renminbi may materially and adversely affect our cash flows, revenue and financial condition. For example, to the extent that we need to convert U.S. dollars into Hong Kong dollars or Chinese renminbi for our operations, appreciation of either currency against the U.S. dollar could have a material adverse effect on our business, financial condition and results of operations. Conversely, if we decide to convert our Hong Kong dollars or Chinese renminbi into U.S. dollars for other business purposes and the U.S. dollar appreciates against either currency, the U.S. dollar equivalent of the respective currency we convert would be reduced. To date, we have not engaged in any hedging transactions in connection with our international operations.

WE HAVE NEVER PAID CASH DIVIDENDS AND ARE NOT LIKELY TO DO SO IN THE FORESEEABLE FUTURE.

We have never declared or paid any cash dividends on our common stock. We currently intend to retain any future earnings for use in the operation and expansion of our business. We do not expect to pay any cash dividends in the foreseeable future but will review this policy as circumstances dictate.

RISKS ASSOCIATED WITH DOING BUSINESS IN GREATER CHINA

There are substantial risks associated with doing business in greater China, as set forth in the following risk factors.

OUR OPERATIONS AND ASSETS IN GREATER CHINA ARE SUBJECT TO SIGNIFICANT POLITICAL AND ECONOMIC UNCERTAINTIES.

Changes in laws and regulations, or their interpretation, or the imposition of confiscatory taxation, restrictions on currency conversion, imports and sources of supply, devaluations of currency or the nationalization or other expropriation of private enterprises could have a material adverse effect on our business, results of operations and financial condition. Under its current leadership, the Chinese government has been pursuing economic reform policies that encourage private economic activity and greater economic decentralization. There is no assurance, however, that the Chinese government will continue to pursue these policies, or that it will not significantly alter these policies from time to time without notice.

CURRENCY FLUCTUATIONS AND RESTRICTIONS ON CURRENCY EXCHANGE MAY ADVERSELY AFFECT OUR BUSINESS, INCLUDING LIMITING OUR ABILITY TO CONVERT CHINESE RENMINBI INTO FOREIGN CURRENCIES AND, IF CHINESE RENMINBI WERE TO DECLINE IN VALUE, REDUCING OUR REVENUE IN U.S. DOLLAR TERMS.

Our reporting currency is the U.S. dollar and our operations in China and Hong Kong use their respective local currencies as their functional currencies. The majority of our revenue derived and expenses incurred are in Chinese renminbi with a relatively small amount in Hong Kong dollars and U.S. dollars. We are subject to the effects of exchange rate fluctuations with respect to any of these currencies. For example, the value of the renminbi depends to a large extent on Chinese government policies and China's domestic and international economic and political developments, as well as supply and demand in the local market. Since 1994, the official exchange rate for the conversion of renminbi to U.S. dollars had generally been stable and the renminbi had appreciated slightly against the U.S. dollar. However, on July 21, 2005, the Chinese government changed its policy of pegging the value of Chinese renminbi to the U.S. dollar. Under the new policy, Chinese renminbi may fluctuate within a narrow and managed band against a basket of certain foreign currencies. As a result of this policy change, Chinese renminbi appreciated approximately 2.5% against the U.S. dollar in 2005. It is possible that the Chinese government could adopt a more flexible currency policy, which could result in more significant fluctuation of Chinese renminbi against the U.S. dollar. We can offer no assurance that Chinese renminbi will be stable against the U.S. dollar or any other foreign currency.

The income statements of our international operations are translated into U.S. dollars at the average exchange rates in each applicable period. To the extent the U.S. dollar strengthens against foreign currencies, the translation of these foreign currencies denominated transactions results in reduced revenue, operating expenses and net income for our international operations. Similarly, to the extent the U.S. dollar weakens against foreign currencies, the translation of these foreign currency denominated transactions results in increased revenue, operating expenses and net income for our international operations. We are also exposed to foreign exchange rate fluctuations as we convert the financial statements of our foreign subsidiaries into U.S. dollars in consolidation. If there is a change in foreign currency exchange rates, the conversion of the foreign subsidiaries' financial statements into U.S. dollars will lead to a

translation gain or loss which is recorded as a component of other comprehensive income. In addition, we have certain assets and liabilities that are denominated in currencies other than the relevant entity's functional currency. Changes in the functional currency value of these assets and liabilities create fluctuations that will lead to a transaction gain or loss. We have not entered into agreements or purchased instruments to hedge our exchange rate risks, although we may do so in the future. The availability and effectiveness of any hedging transaction may be limited and we may not be able to successfully hedge our exchange rate risks.

Although Chinese governmental policies were introduced in 1996 to allow the convertibility of Chinese renminbi into foreign currency for current account items, conversion of Chinese renminbi into foreign exchange for capital items, such as foreign direct investment, loans or securities, requires the approval of the State Administration of Foreign Exchange, or SAFE, which is under the authority of the People's Bank of China. These approvals, however, do not guarantee the availability of foreign currency. We cannot be sure that we will be able to obtain all required conversion approvals for our operations or that Chinese regulatory authorities will not impose greater restrictions on the convertibility of Chinese renminbi in the future. Because a significant amount of our future revenue may be in the form of Chinese renminbi, our inability to obtain the requisite approvals or any future restrictions on currency exchanges could limit our ability to utilize revenue generated in Chinese renminbi to fund our business activities outside China, or to repay foreign currency obligations, including our debt obligations, which would have a material adverse effect on our financial condition and results of operation.

WE ARE REQUIRED TO OBTAIN LICENSES TO EXPAND OUR BUSINESS INTO MAINLAND CHINA.

Our activities must be reviewed and approved by various national and local agencies of the Chinese government before they will issue business licenses to us. There can be no assurance that the current Chinese government, or successors, will continue to approve and renew our licenses. If we are unable to obtain licenses or renewals we will not be able to continue our business operations in mainland China, which would have a material adverse effect on our business, financial condition and results of operations.

WE MAY HAVE LIMITED LEGAL RECOURSE UNDER PRC LAW IF DISPUTES ARISE UNDER OUR CONTRACTS WITH THIRD PARTIES.

The Chinese government has enacted some laws and regulations dealing with matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. However, their experience in implementing, interpreting and enforcing these laws and regulations is limited, and our ability to enforce commercial claims or to resolve commercial disputes is unpredictable. If our new business ventures are unsuccessful, or other adverse circumstances arise from these transactions, we face the risk that the parties to these ventures may seek ways to terminate the transactions, or, may hinder or prevent us from accessing important information regarding the financial and business operations of these acquired companies. The resolution of these matters may be subject to the exercise of considerable discretion by agencies of the Chinese government, and forces unrelated to the legal merits of a particular matter or dispute may influence their determination. Any rights we may have to specific performance, or to seek an injunction under PRC law, in either of these cases, are severely limited, and without a means of recourse by virtue of the Chinese legal system, we may be unable to prevent these situations from occurring. The occurrence of any such events could have a material adverse effect on our business, financial condition and results of operations.

WE MUST COMPLY WITH THE FOREIGN CORRUPT PRACTICES ACT.

We are required to comply with the United States Foreign Corrupt Practices Act, which prohibits United States companies from engaging in bribery or other prohibited payments to foreign officials for the purpose of obtaining or retaining business. Foreign companies, including some of our competitors, are not subject to these prohibitions. Corruption, extortion, bribery, pay-offs, theft and other fraudulent practices occur from time-to-time in mainland China. If our competitors engage in these practices they may receive preferential treatment from personnel of some companies, giving our competitors an advantage in securing business or from government officials who might give them priority in obtaining new licenses, which would put us at a disadvantage. Although we inform our personnel that such practices are illegal, we can not assure that our employees or other agents will not engage in such conduct for which we might be held responsible. If our employees or other agents are found to have engaged in such practices, we could suffer severe penalties.

PRC LAWS AND REGULATIONS RESTRICT FOREIGN INVESTMENT IN CHINA'S TELECOMMUNICATIONS SERVICES INDUSTRY AND SUBSTANTIAL UNCERTAINTIES EXIST WITH RESPECT TO OUR CONTRACTUAL AGREEMENTS WITH DIANXUN-DE, SUNROOM-DE, WANRONG-DE AND IMOBILE-DE TO UNCERTAINTIES REGARDING THE INTERPRETATION AND APPLICATION OF CURRENT OR FUTURE PRC LAWS AND REGULATIONS.

Since we are deemed to be foreign persons or foreign funded enterprises under PRC laws and cannot directly invest in telecommunications companies, we operate our IVR, call center and telecom value-added services business in China through operating companies or variable interest entities (VIEs) owned by PRC citizens. We control these companies and operate these businesses through contractual arrangements with the respective operating companies and their individual shareholders, but we have no equity control over these companies. Although we believe we are in compliance with current PRC regulations, we cannot be sure that the PRC government would view these operating arrangements to be in compliance with PRC licensing, registration or other regulatory requirements, with existing

policies or with requirements or policies that may be adopted in the future. In the opinion of our in-house PRC legal counsel, our current ownership structure, the contractual arrangements among our wholly owned subsidiaries and the operating company and their shareholders comply with all existing applicable PRC laws, rules and regulations. Because this structure has not been challenged or examined by PRC authorities, they have not commented on it and uncertainties exist as to whether the PRC government may interpret or apply the laws governing these arrangements in a way that is contrary to the opinion of our in-house PRC counsel. If we, or the operating companies, were found to be in violation of any existing PRC laws or regulations, the relevant regulatory authorities would have broad discretion to deal with such violation, including, but not limited to the following:

11

levying fines;
confiscating income;
revoking licenses;
shutting down servers or blocking websites;
requiring a restructure of ownership or operations; and/or
requiring the discontinuance of wireless VAS and online advertising businesses.

We may also encounter difficulties in obtaining performance under or enforcement of related contracts. Any of these or similar actions could cause significant disruption to our business operations or render us unable to conduct a substantial portion of our business operations and may materially adversely affect our business, financial condition and results of operations.

OUR CONTRACTUAL AGREEMENTS WITH DIANXUN-DE, SUNROOM-DE, WANRONG-DE AND IMOBILE-DE MAY NOT BE AS EFFECTIVE IN PROVIDING OPERATIONAL CONTROL AS DIRECT OWNERSHIP OF THESE BUSINESSES.

We depend on operating companies in which we have little or no equity ownership interest and must rely on contractual agreements to control and operate these businesses. Our contractual agreements with each of the operating companies may not be as effective in providing and maintaining control over the operating companies and their business operations as direct ownership of these businesses. For example, we may not be able to take control of the operating company upon the occurrence of certain events, such as the imposition of statutory liens, judgments, court orders, death or capacity. Furthermore, if the operating companies fail to perform as required under those contractual agreements, we will have to rely on the PRC legal system to enforce those agreements and due to the uncertainties that exist under PRC Law about the structure of our acquisition, and there is no guarantee that we will be successful in an enforcement action. In addition, the PRC government may propose new laws or amend current laws that may be detrimental to our current contractual agreements with our operating companies, which may in turn have a material adverse effect on our business operations.

THE PRC GOVERNMENT MAY PREVENT US FROM ADVERTISING OR DISTRIBUTING CONTENT THAT IT BELIEVES IS INAPPROPRIATE

China has enacted regulations governing Internet access and the distribution of news and other information. In the past, the Chinese government has stopped the distribution of information over the Internet or through VAS that it believes to violate PRC law, including content that it believes is obscene, incites violence, endangers national security, is contrary to the national interest or is defamatory. In addition, we may need the permission of the Chinese government prior to publishing certain news items, such as news relating to national security. Furthermore, the Ministry of Public Security has the authority to cause any local Internet service provider to block any website maintained outside China at its sole discretion. If the PRC government were to take any action to limit or prohibit the distribution of information through our network or via our VAS, or to limit or regulate any current or future content or services available to users on our network, our business could be significantly harmed. We are also subject to potential liability for content on our website that is deemed inappropriate and for any unlawful actions of our subscribers and other users of our systems. Furthermore, we are required to delete content that clearly violates the laws of China and report content that we suspect may violate PRC law. It is difficult to determine the type of content that may result in liability for us, and if we are wrong, we may be prevented from operating our website.

POTENTIAL VIOLATION OF THE PRC REGULATION DUE TO INSUFFICIENT REGISTERED CAPITAL OF VIE

Through GuangZhou DianXun Company Limited (the “Dianxun-DE”), a Chinese variable interest entity (‘VIE’) controlled through business agreement, we are able to provide indirectly to China’s telecom operators, a wide variety of wireless internet services for mobile phones, such as SMS, Wireless Application Protocol, or WAP, which allows users to access information instantly via handheld wireless devices, and Java mobile applications. The registered capital of Dianxun-DE was approx. US\$1.25million, 90% of which was funded by borrowed assets at the inception of the company in order to obtain the operating license for the regulated VAS industry in which the VIE operates. The borrowed assets were returned to lenders subsequent to obtaining the necessary regulatory approval for the registered capital. On consolidation of this VIE for the year ended December 31, 2005, we reduced the registered capital of the VIE to \$125,000 to reflect the fair value of its net asset value at the time of acquisition. We will not be able to continue our business operations through this VIE if the regulatory authorities do not renew the licenses due to insufficient registered capital. For indicative purposes according to the PRC Telecommunication Rules, all telecommunication value added service providers can only carry on business if a Company maintains a minimum capital requirement of at least RMB10,000,000. The minimum capital requirement required in Shanghai, China, in order to get a provincial VAS license is Rmb1,000,000 (or US\$125,000).

RISKS RELATED TO OUR TECHNOLOGY AND EQUIPMENT

OUR INSURANCE MAY NOT BE SUFFICIENT TO RESTORE OUR CALL CENTER IF OPERATIONS ARE INTERRUPTED BY NATURAL DISASTER OR OTHER DESTRUCTION OF OUR FACILITIES OR EQUIPMENT.

Our operations depend on our ability to protect our call centers, data centers, CRM information, customer database, data warehouse, computer and telecommunications equipment and software systems against damage from fire, power loss, telecommunications interruption or failure, hacker attacks, natural disaster, epidemic, terrorism, act of war and other similar events. In the event we experience a temporary or permanent interruption at one or more of our call centers, through casualty, operating malfunction or otherwise, our business could be materially adversely affected and we may be required to pay contractual damages to some clients or allow some clients to terminate or renegotiate their contracts with us. While we maintain certain property and business interruption insurance, such insurance may not adequately compensate us for all losses that we may incur and may not be adequate to cover the costs of rebuilding these centers. If we are unable to restore our operations, our business activities would cease.

WE MUST RESPOND QUICKLY AND EFFECTIVELY TO NEW TECHNOLOGICAL DEVELOPMENTS.

Our VAS business is highly dependent on our computer and telecommunications equipment and software systems. Our failure to maintain the superiority of our technological capabilities or to respond effectively to technological changes could adversely affect our business, results of operations or financial condition. Our future success also depends on our ability to enhance existing software and systems and to respond to changing technological developments. If we are unable to successfully develop and bring to market new software and systems in a timely manner, our competitors technologies or services may render our products or services noncompetitive or obsolete.

RISKS RELATED TO OUR COMMON STOCK

EFFORTS TO COMPLY WITH RECENTLY ENACTED CHANGES IN SECURITIES LAWS AND REGULATIONS WILL INCREASE OUR COSTS AND REQUIRE ADDITIONAL MANAGEMENT RESOURCES. OUR FAILURE TO COMPLY COULD ADVERSELY AFFECT OUR STOCK PRICE.

We have rapidly grown by acquisition since 2004. We do not integrate the business operations of our target companies and therefore have separate administration and accounting personnel at each subsidiary location. We have sought to improve our existing disclosure controls and procedures and to that end, have substantially increased our accounting and administrative resources. Due to the number of new subsidiaries we have acquired, we have faced significant challenges with the timely reporting of information necessary to complete the financial statements to be filed with the Securities and Exchange Commission. Our failure to timely file our annual and quarterly reports may have an adverse affect on our stock price and may put our common stock in jeopardy of being delisted.

As directed by Section 404 of the Sarbanes-Oxley Act of 2002, public companies are required to include a report of management on the company's internal controls over financial reporting in their annual reports on Form 10-K and the public accounting firm auditing a company's financial statements must attest to and report on management's assessment of the effectiveness of the company's internal controls over financial reporting. This requirement will first apply to our annual report on Form 10-K for our fiscal year ending December 31, 2007. We have only recently begun to evaluate our internal controls over financial reporting. Given the status of our efforts, coupled with the fact that guidance from regulatory authorities in the area of internal controls continues to evolve, substantial uncertainty exists regarding our ability to comply by applicable deadlines. If we are unable to conclude that we have effective internal controls over financial reporting, or if our independent auditors are unable to provide us with an unqualified report as to the effectiveness of our internal controls over financial reporting as of December 31, 2007 and future year ends, as required by Section 404 of the Sarbanes-Oxley Act, we could experience delays or inaccuracies in our reporting of

financial information, or non-compliance with SEC reporting and other regulatory requirements. This could subject us to regulatory scrutiny and result in a loss of public confidence in our management, which could, among other things, adversely affect our stock price.

WE ISSUED \$8,000,000 IN CONVERTIBLE DEBENTURES DUE IN 2009, OR POSSIBLY EARLIER, WHICH WE MAY NOT BE ABLE TO REPAY IN CASH AND COULD RESULT IN DILUTION OF OUR BASIC EARNINGS PER SHARE.

In March 2006, we issued \$8 million in convertible debentures due March 2009. The debentures are convertible at any time into shares of our common stock at an initial fixed conversion price of \$10.00 per share, subject to adjustments for certain events. If any event of default occurs under the debentures or other related documents (including, but not limited to the payment of liquidated damages under the terms of the registration rights agreement, which as of the date of this prospectus, \$35,000 of such liquidated damages has been paid), the holders may elect to accelerate the payment of the outstanding principal amount of the debenture, plus accrued, but unpaid interest, liquidated damages or other amounts, which shall become immediately due and payable. Beginning January 1, 2007, we are obligated to redeem \$320,000 every month, plus accrued, but unpaid interest, liquidated damages and penalties. We may choose to pay such redemption amount in cash, or, subject to meeting certain conditions, we may pay all or a part of the redemption amount in shares of common stock. We may not have enough cash on hand or have the ability to access cash to pay the redemption amount, or upon acceleration of the debenture in the case of an event of default, or at maturity. In addition, the redemption of the debentures with our shares or the conversion of the debentures into shares of common stock could result in dilution of our basic earnings per share.

THE PRICE OF OUR STOCK HAS FLUCTUATED IN THE PAST AND MAY CONTINUE TO DO SO.

Our stock price has fluctuated dramatically. There is a significant risk that the market price of our common stock will decrease in the future in response to any of the following factors, some of which are beyond our control:

- variations in our quarterly operating results;
- announcements that our revenue or income are below analysts' expectations;
- general economic slowdowns;
- changes in market valuations of similar companies;
- sales of large blocks of our common stock;
- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments; and
- fluctuations in stock market prices and volumes, which are particularly common among highly volatile securities of companies with primarily international-based operations.

FUTURE SALES OF SHARES COULD HAVE AN ADVERSE EFFECT ON THE MARKET PRICE OF OUR COMMON STOCK

As of November 17, 2006, we had 14,008,497 shares of common stock issued, of which 11,671,836 shares were outstanding, which shares will be available to be sold in the public market in the near future, subject to, with respect to shares of common stock held by affiliates and shares issued between 12 and 24 months ago, the volume restrictions and/or manner of sale requirements of Rule 144 under the Securities Act. On February 4, 2005, a registration statement on Form SB-2 was declared effective with respect to 2,702,230 shares of our common stock. These shares are freely tradable without restriction or further registration, subject to the related prospectus delivery requirements. Sales by our current shareholders of a substantial number of shares could significantly reduce the market price of our common stock.

As of November 17, 2006, we had stock options outstanding to purchase an aggregate of 1,026,000 shares of common stock, of which 526,000 stock options were exercisable and warrants outstanding to purchase 1,007,138 shares of our common stock. To the extent that the options and warrants are exercised, they may be exercised at prices below the price of our shares of common stock on the public market, resulting in a significant number of shares entering the public market and the dilution of our common stock. Further, in March 2006, we completed a private placement of \$8,000,000 in convertible debentures. The debentures are convertible into shares of common stock at an initial fixed conversion price of \$10.00, subject to adjustments. In the event that any future financing should also be in the form of securities convertible into, or exchangeable for, equity securities, investors may experience additional dilution upon the conversion or exchange of such securities.

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by certain selling stockholders. There will be no proceeds to us from the sale of shares of common stock in this offering. Assuming that all of the warrants held by selling stockholders are exercised for cash, we will realize proceeds of approximately \$10,606,647. We would use these funds for general corporate purposes.

SELLING STOCKHOLDERS

We are registering for resale shares of our common stock (i) held by the selling stockholders identified below and (ii) issuable to the selling security holders upon the conversion of outstanding debentures or exercise of outstanding warrants, or that may be issued in the form of interest payments on such debentures. We are registering the shares to permit the securityholders and their pledgees, donees, transferees and other successors-in-interest that receive their shares from a stockholder as a gift, partnership distribution or other non-sale related transfer after the date of this prospectus to resell the shares when and as they deem appropriate.

The following table set forth:

the name of the securityholders,

- the number and percent of shares of our common stock that the securityholders beneficially owned prior to the offering for resale of the shares under this prospectus,
- the number of shares of our common stock that may be offered for resale for the account of the securityholders under this prospectus, and
- the number and percent of shares of our common stock to be beneficially owned by the security holders after the offering of the resale shares (assuming all of the offered resale shares are sold by the securityholders).

The number of shares in the column “Maximum Number of Shares to be Sold” represents all of the shares that each security holder may offer under this prospectus. We do not know how long the security holders will hold the shares before selling them or how many shares they will sell, and we currently have no agreements, arrangements or understandings with any of the security holders regarding the sale of any of the resale shares. The shares offered by this prospectus may be offered from time to time by the securityholders listed below.

This table is prepared solely based on information supplied to us by the listed securityholders, any Schedules 13D or 13G and Forms 3 and 4, and other public documents they have filed with the SEC, and assumes the sale of all of the shares offered hereby. The applicable percentages of beneficial ownership are based on an aggregate of 11,671,836 shares of our common stock issued and outstanding on November 1, 2006 or subject to issuance upon exercise of the warrants, adjusted as may be required by rules promulgated by the SEC.

On March 13, 2006, we completed a private placement in which we sold \$8,000,000 in convertible debentures, convertible into shares of common stock at an initial fixed conversion price of \$10.000, subject to adjustment, and issued warrants to purchase up to an aggregate of 416,000 shares of common stock. Under the terms of the registration rights agreement, we are required to register 150% of the maximum number of shares of our common stock issuable upon (i) conversion of the convertible debentures, (ii) exercise of the warrants and (iii) the payment of interest assuming the debentures remain outstanding for three years. Accordingly we have registered for resale an additional 660,000 shares. The number of shares included below in the columns entitled “Shares Beneficially Owned Prior to the Offering” and the “Maximum Number of Shares to be Sold” do not include the 104,000 interest shares issuable if the Company elects to issue such shares in lieu of cash and the additional 660,000 shares as these share amounts are not beneficially owned by the selling stockholders who participated in the March 2006 private placement. The 104,000 interest shares and 660,000 additional shares if issued, will be allocated to the investors from the convertible debenture financing on a pro rata basis.

On June 8, 2005, we entered into a consulting agreement with CEOCast, Inc., our current investor relations and public relations firm. Pursuant to the terms of the agreement, part of the compensation to CEOCast consisted of the issuance of 26,000 shares of our common stock. We granted CEOCast piggyback registration rights with respect to those shares.

1,152,228 of the shares being offered by certain of the selling shareholders set forth below were previously registered on a Registration Statement of Form SB-2 (Registration No. 333-121792), that was declared effective on February 4, 2005.

No selling stockholder listed below has held any position nor had any material relationship with the us or our affiliates during the past three years, except that C.E. Unterberg, Towbin LLC acted as placement agent in the convertible debenture financing consummated in March 2006. C.E. Unterberg, Towbin Capital Partners I, L.P. is an entity

associated with C.E. Unterberg, Towbin LLC. CEOCast is our investor and public relations firm.

(1) Includes 35,000 shares of common stock issuable upon exercise of a warrant.

(2) Includes 11,667 shares of common stock issuable upon exercise of a warrant. Bluegrass Growth Fund Partners is the managing partner of Bluegrass Growth Fund LP. By virtue of such relationship, Bluegrass Growth Fund Partners may be deemed to have voting and dispositive power over the shares owned by Bluegrass Growth Fund LP. Bluegrass Growth Fund Partners disclaims beneficial ownership of such shares. Mr. Brian Shatz has delegated authority from the partners of Bluegrass Growth Fund Partners with respect to the shares of common stock owned by Bluegrass Growth Fund LP. As such, Mr. Shatz is deemed to have voting and dispositive power over the shares of common stock owned by Bluegrass Growth Fund LP. Mr. Shatz disclaims beneficial ownership of such shares

of our common stock and has no legal right to maintain such delegated authority..

- (3) Includes 11,667 shares of common stock issuable upon exercise of a warrant. Mr. Brian Shatz is a director of Bluegrass Growth Fund, Ltd. and has delegated authority from the shareholders of Bluegrass Growth Fund, Ltd. with respect to the shares of common stock owned by Bluegrass Growth Fund, Ltd. As such, Mr. Shatz is deemed to have voting and dispositive power over the shares of common stock owned by Bluegrass Growth Fund, Ltd. Mr. Shatz disclaims beneficial ownership of such shares of our common stock and has no legal right to maintain such delegated authority.
- (4) Includes 33,515 shares of common stock issuable upon exercise of a warrant. Omicron Capital, L.P., a Delaware limited partnership (“Omicron Capital”), serves as investment manager to Omicron Master Trust, a trust formed under the laws of Bermuda (“Omicron”), Omicron Capital, Inc., a Delaware corporation (“OCI”), serves as general partner of Omicron Capital, and Winchester Global Trust Company Limited (“Winchester”) serves as the trustee of Omicron. By reason of such relationships, Omicron Capital and OCI may be deemed to share dispositive power over the shares of our common stock owned by Omicron, and Winchester may be deemed to share voting and dispositive power over the shares of our common stock owned by Omicron. Omicron Capital, OCI and Winchester disclaim beneficial ownership of such shares of our common stock. As of the date of this prospectus, Mr. Olivier H. Morali, an officer of OCI, and Mr. Bruce T. Bernstein, a consultant to OCI, have delegated authority from the board of directors of OCI regarding the portfolio management decisions with respect to the shares of our common stock owned by Omicron. By reason of such delegated authority, Messrs. Morali and Bernstein may be deemed to share dispositive power over the shares of our common stock owned by Omicron. Messrs. Morali and Bernstein disclaim beneficial ownership of such shares of our common stock and nether of such persons has any legal right to maintain such delegated authority. No other person has sole or shared voting or dispositive power with respect to the shares of our common stock being offered by Omicron, as those terms are used for purposes under Regulation 13D-G of the Securities exchange Act of 1934, as amended. Omicron and Winchester re not “affiliates” of one another, as that term is used for purposes of the Exchange Act or of any other person named in this prospectus as a selling stockholder. No person or “group” (as that term is used in Section 13(d) of the Exchange Act or the SEC’s Regulation 13D-G) controls omicron and Winchester.
- (5) Includes (i) 300,000 shares of common stock issuable upon conversion of the convertible debenture; (ii) 266,667 shares of common stock issuable upon exercise of warrants.
- (6) Includes 23,333 shares of common stock issuable upon exercise of a warrant. . Highbridge Capital Management, LLC is the trading manager of Smithfield Fiduciary LLC and has voting control and investment discretion over the securities held by Smithfield Fiduciary LLC. Glenn Dubin and Henry Swieca control Highbridge Capital Management, LLC and have voting control and investment discretion over the securties held by Smithfield Fiduciary LLC. Each of Highbridge Capital Management, LLC, Glenn Dubin and Henry Swieca disclaims beneficial ownership of the securities held by Smithfield Fiduciary LLC.

- (7) Includes 23,333 shares of common stock issuable upon exercise of a warrant. Ramius Capital Group, L.L.C (“Ramius Capital”) is the investment adviser of Portside Growth and Opportunity Fund (“Portside”) and consequently has voting control and investment discretion over securities held by Portside. Ramius Capital disclaims beneficial ownership of the shares held by Portside. Peter A. Cohen, Morgan B. Stark, Thomas W. Strauss and Jeffrey M. Solomon are the sole managing members of C4S & Co., L.L.C., the sole managing member of Ramius Capital. As a result, Messrs. Cohen, Stark, Strauus and Solomon may be considered beneficial owners of any shares deemed to be beneficially owned by Ramius Capital. Messrs. Cohen, Stark, Strauss and Solomon disclaim beneficial ownership of these shares.
- (8) Includes 105,000 shares of common stock issuable upon exercise of a warrant.
- (9) Includes 64,308 shares of common stock issuable upon exercise of a warrant.
- (10) Includes 32,154 shares of common stock issuable upon exercise of a warrant.
- (11) Includes 50,000 shares of common stock issuable upon conversion of the convertible debenture and 25,000 shares of common stock issuable upon exercise of a warrant.
- (12) Includes 100,000 shares of common stock issuable upon conversion of the convertible debenture and 75,720 shares of common stock issuable upon exercise of a warrant.
- (13) Includes 100,000 shares of common stock issuable upon conversion of the convertible debenture and 50,000 shares of common stock issuable upon exercise of a warrant.
- (14) Includes 25,000 shares of common stock issuable upon conversion of the convertible debenture and 12,500 shares of common stock issuable upon exercise of a warrant.
- (15) Includes 20,000 shares of common stock issuable upon conversion of the convertible debenture and 10,000 shares of common stock issuable upon exercise of a warrant.
- (16) Includes 55,000 shares of common stock issuable upon conversion of the convertible debenture and 27,500 shares of common stock issuable upon exercise of a warrant.
- (17) Includes 150,000 shares of common stock issuable upon conversion of the convertible debenture and 75,000 shares of common stock issuable upon exercise of a warrant. The investment manager of DKR SoundShore Oasis Holding Fund Ltd. (the “Fund”) is DKR Oasis Management Company LP (the “Investment Manager”). The Investment Manager has the authority to do any and all acts on behalf of the Fund, including voting any shares held by the Fund. Mr. Seth Fischer is the managing partner of Oasis Management Holdings LLC, one of the general partners of the Investment Manager. Mr. Fischer has ultimate responsibility for trading with respect to the Fund. Mr. Fischer disclaims beneficial ownership of the shares.
- (18) Includes shares of common stock issuable upon exercise of warrants.
- (19) Includes shares of common stock issuable upon exercise of warrants.
- (20) Includes shares of common stock issuable upon exercise of warrants.
- (21) Includes shares of common stock issuable upon exercise of warrants.

- (22) Includes shares of common stock issuable upon exercise of warrants.
- (23) Includes shares of common stock issuable upon exercise of warrants.

17

PLAN OF DISTRIBUTION

Each Selling Stockholder (the “Selling Stockholders”) of the common stock and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on the Nasdaq National Market or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
 - purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
 - an exchange distribution in accordance with the rules of the applicable exchange;
 - privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- broker-dealers may agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
 - a combination of any such methods of sale; or
 - any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares under Rule 144 under the Securities Act of 1933, as amended (the “Securities Act”), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with NASDR Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASDR IM-2440.

In connection with the sale of the common stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of the common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus,

which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the Common Stock. In no event shall any broker-dealer receive fees, commissions and markups which, in the aggregate, would exceed eight percent (8%).

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the shares. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Stockholders may be deemed to be “underwriters” within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act including Rule 172 thereunder. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the Selling Stockholders without registration and without regard to any volume limitations by reason of Rule 144(k) under the Securities Act or any other rule of similar effect or (ii) all of the shares have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

SELECTED FINANCIAL DATA

The selected financial data presented below summarizes certain financial data which has been derived from and should be read in conjunction with our consolidated financial statements and footnotes thereto included in the section beginning on page F-1. The information for the nine months ended September 30, 2005 and 2006 was derived from our unaudited financial statements but, in the opinion of management, reflects all adjustments necessary for a fair presentation of the results of such periods. You should read this data together with our financial statements and related notes included elsewhere in this prospectus and the information under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FACTORS THAT COULD AFFECT FUTURE RESULTS

Factors that might cause actual results, performance or achievements to differ materially from those projected or implied in such forward-looking statements include, among other things:

- 1 the impact of competitive products;
- 1 changes in laws and regulations;
- 1 adequacy and availability of insurance coverage;
- 1 limitations on future financing;

- 1 increases in the cost of borrowings and unavailability of debt or equity capital;
- 1 the inability of the Company to gain and/or hold market share;
- 1 exposure to and expense of resolving and defending liability claims and other litigation;
- 1 consumer acceptance of the Company's products;

- 1 managing and maintaining growth;
- 1 customer demands;
- 1 market and industry conditions,
- 1 the success of product development and new product introductions into the marketplace;

- 1 the departure of key members of management, and
- 1 the effect of the United States War on Terrorism, as well as other risks and uncertainties that are described from time to time in the Company's filings with the Securities and Exchange Commission.

Regarding one of our subsidiaries, for example, Epro is engaged in the business of providing outsourced call center services with over 15 years of field experience in Hong Kong and China. The factors that could affect current and future results are as follows:

- 1 insufficient sales forces for business development & account servicing;
- 1 lack of PRC management team in operation;
- 1 less familiarity on partners' product knowledge;
- 1 deployment costs of a new HR application and the costs to upgrade the call center computer system;

- 1 increasing operations costs (cost of salaries, rent, interest rates & inflation) under rising economy in Hong Kong;
- 1 insufficient brand awareness initiatives in the market;
- 1 salary increases due to an active labor market in Hong Kong and GuangZhou; and
- 1 increasing competition of call center solutions in the Hong Kong and PRC markets.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis or plan of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets,

liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

On an on-going basis, we evaluate our estimates, including those related to accounts receivable reserves, provisions for impairment losses of affiliated companies and other intangible assets, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

Allowance For Doubtful Accounts

We evaluate the collectibility of our trade receivables based on a combination of factors. We regularly analyze our significant customer accounts, and, when we become aware of a specific customer's inability to meet its financial obligations to us, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, we record a specific reserve for bad debt to reduce the related receivable to the amount we reasonably believe is collectible. We also record reserves for bad debt for all other customers based on a variety of factors including the length of time the receivables are past due, the financial health of the customer, macroeconomic considerations and historical experience. If circumstances related to specific customers change, our estimates of the recoverability of receivables could be further adjusted. In the event that our trade receivables become uncollectible, we would be forced to record additional adjustments to receivables to reflect the amounts at net realizable value. The accounting effect of this entry would be a charge to earnings, thereby reducing our net earnings. Although we consider the likelihood of this occurrence to be remote based on past history and the current status of our accounts, there is a possibility of this occurrence.

In the beginning of the third quarter of 2006, the Chinese government announced that it would implement several new policies regarding mobile phone value-added service providers effective from July 10, 2006. These policies include a "double confirmation" policy and the requirement that value-added service providers provide one-month trial subscriptions. By requiring that mobile phone customers "double-confirm" their intention to purchase services, and by requiring free subscriptions, the Chinese government has negatively affected value-added service providers.

Since the Company does business with several value-added service providers that have been negatively affected by the new mobile phone policies, during the three months ended September 30, 2006, the Company decided to incur a bad debt charge of approximately \$657,000. This amount is listed as a separate line item in the consolidated statement of operations. The write down was considered prudent after an assessment by the Company's internal control team that several customer accounts may be uncollectible as a result of Chinese government pressure on value-added service providers.

Although the Chinese government appeared to lessen restrictions by the end of the third quarter, the negative affect on the ability of certain of the Company's customers to pay on accounts receivable already necessitated a provision for uncollectible accounts.

Inventory

Our inventory purchases and commitments are made in order to build inventory to meet forecasted demand for our products. We perform a detailed assessment of inventory for each period, which includes a review of, among other factors, demand requirements, product life cycle and development plans, component cost trends, product pricing and quality issues. Based on this analysis, we record adjustments to inventory for excess, obsolescence or impairment, when appropriate, to reflect inventory at net realizable value. Revisions to our inventory adjustments may be required if actual demand, component costs or product life cycles differ from our estimates. In the event we were unable to sell our products, the demand for our products diminished, and/or other competitors offered similar or better products, we would be forced to record an adjustment to inventory for impairment or obsolescence to reflect inventory at net realizable value. The accounting effect of this entry would be a charge to earnings, thereby reducing our net earnings.

In the beginning of the third quarter of 2006, the Chinese government announced that it would implement several new policies regarding mobile phone value-added service providers effective July 10, 2006. These policies include a "double confirmation" policy and the requirement that value-added service providers provide one-month trial

subscriptions. By requiring that mobile phone customers “double-confirm” their intention to purchase services, and by requiring free subscriptions, the Chinese government has negatively affected value-added service providers.

Since the Company sells hardware to value-added service providers that have been negatively affected by the new mobile phone policies, during the three months ended September 30, 2006, we recorded an adjustment to inventory of \$486,000. The write down was considered prudent after an assessment by the Company’s internal control team determined that the inventory was considered not readily saleable as a result of the recent government policy restrictions.

Although the Chinese government appeared to lessen restrictions by the end of the third quarter, the effect of lesser demand already necessitated a write-down of inventory.

Income Taxes

We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. We have considered future market growth, forecasted earnings, future taxable income, and the mix of earnings in the jurisdictions in which we operate and prudent and feasible tax planning strategies in determining the need for a valuation allowance. We currently have recorded a full valuation allowance against net deferred tax assets as we currently believe it is more likely than not that the deferred tax assets will not be realized. In the event we determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to earnings in the period such determination is made. Likewise, if we later determine that it is more likely than not that the net deferred tax assets would be realized, the previously provided valuation allowance would be reversed.

Contingencies

We may be subject to certain asserted and unasserted claims encountered in the normal course of business. It is our belief that the resolution of these matters will not have a material adverse effect on our financial position or results of operations, however, we cannot provide assurance that damages that result in a material adverse effect on our financial position or results of operations will not be imposed in these matters. We account for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

Valuation of Long-Lived Assets Including Goodwill and Purchased Intangible Assets

We review property, plant and equipment, goodwill and purchased intangible assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Our asset impairment review assesses the fair value of the assets based on the future cash flows the assets are expected to generate. An impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. This approach uses our estimates of future market growth, forecasted revenue and costs, expected periods the assets will be utilized and appropriate discount rates. Such evaluations of impairment of long-lived assets including goodwill arising on a business combination and purchased intangible assets are an integral part of, but not limited to, our strategic reviews of our business and operations performed in conjunction with restructuring actions. When an impairment is identified, the carrying amount of the asset is reduced to its estimated fair value. Deterioration of our business in a geographic region or within a business segment in the future could also lead to impairment adjustments as such issues are identified. The accounting effect of an impairment loss would be a charge to earnings, thereby reducing our net earnings.

Convertible Debt

In accordance with recent FASB accounting guidance, due to certain factors, including a liquidated damages provision in the registration rights agreement and an indeterminate amount of shares to be issued upon conversion of the debentures, the Company values and accounts for the embedded conversion feature related to the Debentures, the Investors' warrants, and the registration rights as derivative liabilities. Accordingly, these derivative liabilities are measured at fair value with changes in fair value reported in earnings as long as they remain classified as liabilities. The Company reassesses the classification at each balance sheet date. If the classification required under EITF No. 00-19 changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification.

The fair value of these derivative instruments, as determined by applying the Black-Scholes valuation model, is adjusted quarterly. The Black-Scholes valuation model requires the input of highly subjective assumptions, including

the expected stock price volatility. Additionally, although the Black-Scholes model meets the requirements of SFAS 133, the fair values generated by the model may not be indicative of the actual fair values as our derivative instruments have characteristics significantly different from traded options. Accordingly, the results obtained could be significantly different if other assumptions were used. The effect of this entry would be a charge to net earnings, thereby either increasing or reducing our net earnings based upon the assumptions used and the results obtained.

NATURE OF THE OPERATIONS OF THE COMPANY

NATURE OF BUSINESS.

PacificNet Inc. is a leading provider of CRM and telecom services, ecommerce and gaming technology in China. We were incorporated in the state of Delaware in 1987. Our business consists of three groups, all of which operate within the outsourcing and telecommunications industries in Asia, primarily greater China, which includes the People's Republic of China (PRC), or mainland China, Hong Kong Special Administrative Region (HKSAR), Macau Special Administrative Region, and Taiwan and one group that focuses on primarily administrative and corporate related matters. Through our subsidiaries we provide outsourcing services, telecom (VAS) services, and products (telecom & gaming) services. Our business process outsourcing (BPO) services include call centers providing customer relationship management (CRM) and telemarketing services, and our information technology outsourcing (ITO) includes software programming and development. We are value-added resellers and providers of telecom VAS, which comprises interactive voice response (IVR) systems, call center management systems, and VOIP, as well as mobile phone VAS, such as short messaging services (SMS) and multimedia messaging services (MMS). In 2004, we commenced our communication products distribution service, through wholesale and, to a lesser extent, retail sale and distribution of mobile phones, software and hardware, mobile accessories, and calling cards in Hong Kong and China. In 2005, we invested Take1 Technologies (Cheer Era), a company that designs, manufactures, and distributes multimedia interactive self-service kiosks, bingo and gaming machines for the casino and slot machine operators Europe and Asia.

In August 2006, PacificNet Games Limited (PacGames) acquired 100% of Able Entertainment Technology Ltd., a leading provider of Asian multi-player electronic gaming machines, gaming technology solutions and gaming related maintenance, IT and distribution services for the leading hotel, casino and slot hall operators based in Macau, China and other Asian gaming markets. Macau is expected to surpass Las Vegas in total revenues by 2006. Currently, table games make up the bulk of Macau casino revenues, which is in sharp contrast to other areas such as Las Vegas. With this acquisition, PacGames is a leading developer of electronic versions of these popular table games which are less expensive to run resulting in higher casino profits with great appeal to the mass market players. Further, the growing market in Macau is for Asian table games such as Baccarat, Roulette, Fan Tan, Fish-Prawn-Crab and Sic-Bo Cussec as these games have wider acceptance in the Asian market than Western games such as poker or slots. The development, manufacturing, maintenance, and service of electronic Asian table games are underserved areas which are predicted to grow considerably as Macau's gaming market matures. PacGames products include multi-play electronic gaming machines such as Baccarat, Fish-Prawn-Crab, Sib-Bo Cussec, Roulette, and Video Lottery Terminals (VLT) such as Keno and Bingo, as well as other traditional slot machines. We intend to continue to grow our business by acquiring and managing growing technology and network communications businesses with established products and customers in Asia.

Our business process outsourcing services generate revenue from call center services, call center management software sales, and training and consulting. We invoice our call center clients monthly at per seat monthly rates, a base price plus commission per call, or a per hour charge rate, depending on the client's preference. Our call center software clients pay per license, for which there is usually a one-time charge on sale of the software and annual maintenance fees for service. We charge per project for our consulting and training services and for our telecom VAS, which are invoiced throughout the project. Our telecom VAS often includes a post-sale service contract for systems integration and consulting services for which we bill separately. Our communication products such as calling cards, kiosks and cell phones are sold cash-on-delivery. Our gaming center operations generate revenue through the sale of gaming machines to casinos, or through resellers who sell to casinos. Currently we do not consolidate gaming operations as we do not currently hold a controlling interest in the gaming operations, but a 45% interest.

Our clients include the leading telecom operators, banks, insurance, travel, marketing, and service companies, as well as telecom consumers, in Greater China. Clients include China Telecom, China Netcom, China Mobile, China Unicom, PCCW, Hutchison Telecom, CSL, SmarTone, Sunday, Swire Travel, Coca-Cola, SONY, Samsung, Motorola, Nokia, TNT Express, Huawei, TCL, Dun & Bradstreet, American Express, Bank of China, DBS, Hong Kong Government, and Hongkong Post. PacificNet employs over 2,300 staff in our various subsidiaries in China with offices in Hong Kong, Beijing, Shanghai, Shenzhen, and Guangzhou.

PacificNet's operations include the following four groups:

- (1) Outsourcing Services: including Business Process Outsourcing (BPO), call center, IT Outsourcing (ITO) and software development services.
- (2) Telecom Value-added Services: including Content Providing (CP), Interactive Voice Response (IVR), Platform Providing (PP) and Service Providing (SP).
- (3) Products (Telecom & Gaming): including communication and gaming products, GSM/CDMA/3G Products, Multimedia Communication Kiosks. This Group includes the following subsidiaries: PacificNet Communications Limited, iMobile, Allink, Take1 and PacificNet Games. PacificNet Games Limited (PacGames) is a leading developer of Asian electronic gaming machines, multi-player electronic gaming technology solutions and gaming related maintenance, IT, and distribution services for the leading hotel and casino operators based in the Macau and other Asian gaming markets.

(4) Other Business: including internal administrative matters, other related corporate items, and other business such as PacificNet Power. PacificNet Power Limited (PacPower) has enjoyed significant growth beginning in late 2005 and early 2006. PacPower was founded in Hong Kong on January 10, 2005 as a subsidiary of PacificNet Limited with 51% ownership by PacificNet. Headquartered in Hong Kong, PacPower invests in, develops, markets, distributes, resells, and manufactures energy saving products for use in commercial, residential and industrial settings. PacPower also engages in energy management services (EMS), energy savings consultation, analysis and solutions implementation, outsourcing energy management services, energy savings performance contract (ESPC). PacPower's energy management services include electrical power management for lighting, air conditioning, elevators and escalators, buildings and roads, and energy related engineering services.

PacPower recognizes revenue from product sales under the following two types of contracts:

1) Equipment sale contract - Under the Equipment sale contract, we recognize revenue when persuasive evidence of an arrangement exists, the sales price to the buyer is fixed or determinable, collectability is reasonably assured, delivery has occurred and accepted by the buyers.

2) Energy Management Contract (EMC) or Energy Savings Sharing Contract - Under this contract, we grant customers extended payment terms under contracts of sale. These contracts are generally for a period of one to six years at prevailing interest rates and are collateralized by the related equipment, which if repossessed, may be less than the receivable balance outstanding. We recognize revenue under profit sharing agreements when the amounts are fixed and determinable and collectability is reasonably assured. Amounts received by us in excess of the original estimated cost savings on the contract is recorded as interest income.

RESULTS OF OPERATIONS

The following table sets forth selected consolidated income statement data as a percentage of revenues for the periods indicated.

	THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
	2006 (%)	2005 (%)	2006 (%)	2005 (%)
Revenues	100	100	100	100
Cost of Revenues	(80.7)	(80.1)	(70.6)	(79.8)
Gross Margin	19.3	19.9	29.4	20.2
Selling, general and administrative expense	(19.3)	(9.1)	(21.1)	(10.0)
Earnings / (Loss) from operations	(13.9)	(7.9)	3.0	8.7
Earnings / (Loss) before income taxes, minority interest and discontinued operations	(12.5)	(10.9)	4.7	11.0
NET EARNINGS / (LOSS)	(8.7)	5.5	1.3	5.0

THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2006 COMPARED TO THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2005

REVENUES. Revenues for the three and nine months ended September 30, 2006 were \$12,875,000 and \$47,239,000, an increase of 17% and 45% from \$11,047,000 and \$32,539,000 for the three and nine months ended September 30, 2005, respectively. During the third quarter and first nine months of 2006, revenues of \$3,733,000, \$2,350,000, \$6,411,000 and \$10,312,000, \$14,907,000, \$18,262,000 were derived from the services rendered by the Company's

three operating units: Outsourcing Services, Telecom Value-Added Services, and Products (Telecom & Gaming), respectively. The revenues in product sales during the third quarter of 2006 increased by 21% and 37% compared to the same periods of 2005. The revenues in services sales during the third quarter of 2006 increased by 11% and 56% compared to the same periods of 2005.

The increase in revenue was mainly due to the following:

- (1) Outsourcing services: The year-over-year increase in outsourcing services for the three and nine months ended September 30, 2006 was primarily due to 44% and 30% growth in Epro compared to the same period in 2005. During the first nine months of 2006, the outsourcing contract center in Hong Kong was at nearly full utilization. Driven by strong gains in outbound services, insourcing services and facilities management services, Epro recorded double digit gains in revenue. As salaries continue to rise in Hong Kong and China, companies are under greater pressure to manage their labor costs. Outsourcing has become an attractive tool for companies in the region to manage these costs. Additionally, the Company signed deals with several new clients, including a deal to provide customer service operation management training for NanJing Airlines. The McDonalds Corporation selected the Company to provide web-based quality management services and supplier quality management services.
- (2) Separately, stricter guidelines established by the China Securities Regulatory Commission (CSRC) led to a decrease in the Company's ability to market its investment consulting services to retail audiences, which resulted in revenue underperformance. Nevertheless, although barriers remain on marketing through television, the Company has successfully expanded its use of stored-value cards to maintain its market position. Due to its large and loyal retail following, the Company believes it can work through the current regulatory environment. Additionally, the Company has shifted its marketing emphasis to the internet and to magazines.
- (3) Products (Telecom & Gaming): iMobile added approximately \$863,000 and \$1,326,000, or accounted for 13% and 7% in this segments revenues for the three and nine months ended September 30, 2006, respectively, in which its major business included internet sales of mobile phone and accessories. The revenues from the sales of Motorola and Nokia contributed 95% of iMobile's total revenues during the third quarter of 2006. The Company's 18900.com website has now become one of the leading Internet e-commerce distributor of mobile products in China, covering 1,572 cities throughout the nation. Additionally, during the third quarter, PacificNet iMobile entered into a new agreement with Motorola to become a designated after-sales service provider for Motorola's mobile products and accessories in China.

Continued strength in the Company's Hong Kong mobile phone wholesaler subsidiary drove sales gains. The Company believes its Hong Kong mobile phone wholesale subsidiary is now one of the top five largest wholesalers of mobile phones in Hong Kong, and its position has attracted numerous overseas wholesale buyers.

- (4) The remaining incremental revenues for the three and nine months ended September 30, 2006 as compared to respective period was derived from organic growth from existing subsidiaries, such as PacPower (\$176,000 and \$2,650,000) and PacificNet Limited (\$124,000 and \$949,000).

Acquisitions during the first nine month of 2006 expanded PacificNet's position as a leading provider of e-commerce, customer services and CRM in China's mobile distribution market, and increased our e-commerce and VAS revenues and our nationwide CRM service coverage. Several of our businesses experienced fluctuations in quarterly performance.

Edgar Filing: PACIFICNET INC - Form S-1/A

Summarized financial information concerning each of our main operating units is set forth in the following table. The "Other Business" column included our other insignificant subsidiaries and corporate related items.

FOR THE THREE MONTHS ENDED

	Group 1 Outsourcing Services	Group 2. Telecom Value-Added Services	Group 3 Products (Telecom & Gaming)	Group 4 Other Business	TOTAL
SEPTEMBER 30, 2006	(\$)	(\$)	(\$)	(\$)	(\$)
Revenues	3,733,000	2,350,000	6,411,000	381,000	12,875,000
Earnings / (Loss) from Operations	113,000	(833,000)	(191,000)	(881,000)	(1,792,000)

FOR THE NINE MONTHS ENDED

	Group 1 Outsourcing Services	Group 2 Telecom Value-Added Services	Group 3 Products (Telecom & Gaming)	Group 4 Other Business	TOTAL
SEPTEMBER 30, 2006	(\$)	(\$)	(\$)	(\$)	(\$)
Revenues	10,312,000	14,907,000	18,262,000	3,758,000	47,239,000
Earnings / (Loss) from Operations	515,000	2,011,000	74,000	(1,163,000)	1,437,000

COST OF REVENUES. Cost of revenues for the three and nine months ended September 30, 2006 was \$10,392,000 and \$33,352,000, an increase of 17% and 28% from \$8,852,000 and \$25,979,000 for the three and nine months ended September 30, 2005, respectively. The cost of revenues in services sales for the three and nine months ended September 30, 2006 increased by 8% and 14%, respectively, and cost of revenues in product sales for the three and nine months ended September 30, 2006 increased by 23% and 36%, respectively, in each case compared with the respective period in 2005. The increase is directly associated with the corresponding increase in revenues. In comparison to the same period last year, the majority of the costs associated with revenues were from Shanghai Classic, PacCom and Epro. Cost of goods sold increased as sales at the Company's mobile phone subsidiaries increased.

GROSS PROFIT. Gross profit for the three and nine months ended September 30, 2006 was \$2,483,000 and \$13,887,000, a significant increase of 13% and 112% as compared to \$2,195,000 and \$6,560,000 for the three and nine months ended September 30, 2005, respectively. Gross margin was 19% and 29% of total revenues for the three and nine months ended September 30, 2006, compared to 20% and 20% for the three and nine months ended September 30, 2005, respectively. As explained above, the improvement in gross margin for three and nine months periods from the prior periods was primarily due to increased contributions from higher margin subsidiaries. As a result of the shift in operations, we had lower revenue and higher than normal profit margin for project outsourcing during the three and nine months ended September 30, 2006. We believe that our overall gross margins approximate the industry standards and we expect our gross margin percentage to increase gradually as a result of cost reduction and greater efficiencies in our utilization of assets.

As part of its strategy of shifting to higher-margin businesses, the Company is increasingly focusing on the gaming businesses. Gross profit margins from the company's new PacGames subsidiary are currently more than 50%.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses totaled \$2,482,000 and \$9,982,000 for the three and nine months ended September 30, 2006, an increase of 147% and 206% from \$1,004,000 and \$3,261,000 for the three and nine months ended September 30, 2005, respectively. Selling, general and administrative expenses consist primarily of staff salaries, rent, insurance and traveling costs. The year-over-year increase in total general and administrative expenses during the three and nine months ended September 30, 2006 was mainly due to the increase in staff costs as well as rent and electricity expenses for the expansion of its call center (Epro accounted for 11% of total selling, general and administrative expenses). The marketing expenses and staff cost from the new 3G service and Wanrong's services also significantly affected the total expenses during the third quarter of 2006 accounting for approximately 9% of the total selling, general and administrative expenses. Additionally, Linkhead accounted for 9% of the total selling, general and administrative expenses.

The significant increase for general and administrative expenses from PacificNet Inc. year-over-year for the first nine months of 2006 was also partly due to \$120,043 of vesting option expense for compensation cost amortization, \$92,740 amortization cost from \$8 million convertible debt issuance cost (3 years amortization) and depreciation cost from Beijing Time court (USD1.6m depreciated through 40 years). Additionally, there is approximately \$127,532 financial expense for PacificNet Inc. Such expense consists of (1) convertible debt interest, in which 5% is prepaid interest expense, \$100,000 is expensed in Q3 2006 and the following three quarters (Q4 2006 and Q1 2007); and (2) the bank loan interest for Beijing Time Court (\$14,347) in which the total amount of its bank loan is \$1,082,000.

EARNINGS/ (LOSS) FROM OPERATIONS. On a year-over-year basis, loss from operations decreased 304% and 49% for the three months and nine months ended September 30, 2006, respectively. Operating earnings/(loss) of \$113,000, \$(833,000), and \$(191,000) for the three months ended September 30, 2006 were generated from the Company's three business units: (1) CRM Outsourcing Services, (2) Telecom Value-Added Services, and (3) Products (Telecom & Gaming) Services, respectively. This compares to operating earnings/(loss) of \$217,000, \$824,000 and

\$172,000 for the three months ended September 30, 2005, respectively. Various factors affected operating earnings during the third quarter of 2006, including increased capital expenditures resulting in greater non-cash charges such as depreciation and amortization expenses. As the Company expanded its call center sites in Hong Kong, amortization and depreciation expenses related to the new leasehold improvement, furniture & fixtures, computer equipment and software incurred in the first nine months of 2006 also increased. The increase in fixed assets also included a recorder monitor system, DVCAM, computer equipment. We continued to shift our business from our traditional lower-margin distribution business (B2B services) to higher margin value-added telecom services and B2C e-commerce. We believe that the Company has made substantial progress in a relatively short period of time which has been demonstrated by our increase in both gross and operating margins in the third quarter. Furthermore, the acquisition of majority interests in both iMobile and Guangzhou Wanrong during the first quarter enhanced our position in the rapidly growing B2C market in China.

INCOME TAXES. Income tax provision was \$(119,000) and \$(319,000) for the three and nine months ended September 30, 2006, as compared to \$13,000 and \$(51,000) for the three and nine months ended September 30, 2005. Interim income tax provisions are based upon management's estimate of taxable income and the resulting consolidated effective income tax rate for the full year. As a result, such interim estimates are subject to change as the year progresses and more information becomes available. We expect our income taxes to increase as our net earnings increase and the tax holidays we have benefited from in Hong Kong and the PRC expire.

MINORITY INTERESTS. Minority interests for the three and nine months ended September 30, 2006 totaled \$529,000 and \$(1,405,000) compared with \$(612,000) and \$(1,916,000) for the same period in the prior year, representing outside ownership interests in subsidiaries that is consolidated with the parent for financial reporting purposes.

NET EARNINGS / (LOSS). Overall net loss year-over-year increased 282% and 62% during the three and nine months ended September 30, 2006, respectively. The Company's results for the nine months ended September 30, 2006 included a total of \$2,400,000 in non-cash expenses, including depreciation and amortization expense of \$994,000 and \$179,000 non-cash stock-based compensation expense recognized during 2006 as a result of the implementation of SFAS 123(R), which we adopted effective on January 1, 2006. The Company's quarterly results also included a total of \$1,341,000 in non-cash expenses, including depreciation and amortization expense of \$388,000. Each of our subsidiaries and investments, including Epro, Smartime, Guangzhou 3G, Clickcom, ChinaGoHi, iMobile, PacificNet Communications, PacificNet Limited and PacificNet Power were profitable.

RESULTS OF OPERATIONS

The following table sets forth selected statement of operations data as a percentage of revenue for the periods indicated.

	Year Ended December 31 2005 (%)	Year Ended December 31 2004 (%)	Year Ended December 31 2003 (%)
Revenue	100	100	100
Cost of revenue	(75.4)	(81.0)	(57.4)
Gross margin	24.6	19.0	42.6
Selling, general and administrative	(13.2)	(11.6)	(129.2)
Depreciation and amortization	(0.7)	(0.3)	(6.2)
Earnings from operations	10.3	6.5	(109.8)
Interest (expenses) income, net	0.1	0.3	2.2
Sundry income	1.9	1.4	4.4
Provision for income taxes	(0.5)	(0.1)	(2.6)
Share of profit of associated companies	(0.00)	0.1	--
Minority interest	(6.6)	(5.5)	5.8
Discontinued operations	—	(0.1)	--
Net earnings	5.6	2.6	(105.3)

REVENUE. Revenue for the year ended December 31, 2005 was \$44,341,000, an increase of 49% as compared to \$29,709,000 for the year ended December 31, 2004. The increase in revenue was mainly due to revenue derived from the value-added telecom services rendered by the Company's newly acquired subsidiaries, Guangzhou3G (\$3,143,000), Clickcom (\$365,000) and Lion Zone (\$1,194,000). In the aggregate, the three newly acquired subsidiaries contributed to 11% of the total revenue. Revenue from the VAS and IVR segment can vary from quarter to quarter due to new product launches and the seasonality of certain product lines. The "Other Business" column includes the revenue and earnings/(loss) from operations of our other insignificant subsidiaries. Summarized financial information for each of our four business operating segments is set forth in the table below.

YEAR ENDED DECEMBER 31, 2005 COMPARED TO YEAR ENDED DECEMBER 31, 2004

For the year ended December 31, 2005	Group 1	Group 2 VAS	Group 3	Group 4	Total (\$)
	Outsourcing Business (\$)	Business (\$)	Communications Distribution Business (\$)	Other Business (\$)	
Revenue	13,505,000	13,834,000	16,201,000	801,000	44,341,000
(%) of Total	(30.5%)	(31.2%)	(36.5%)	(1.8%)	(100%)
Earnings/(Loss) from Operations	1,360,000	3,899,000	558,000	(1,248,000)	4,569,000

(1) OUTSOURCING SERVICES

Revenue for the year ended December 31, 2005 was \$13,505,000, an increase of 44% as compared to \$9,385,000 for the year ended December 31, 2004. Outsourcing services revenue made up 26.54% of the Company's total revenue for the fourth quarter of the year due to its subsidiary being selected by China's State Administration of Taxation to provide integrated call center services training for the tax bureau's "123661" customer services center in Shenzhen and it is believed that the contact center expansion in Guangzhou will lead to over 40% annual revenue growth in the coming years. One of the reasons the revenue increased is due to the continuous rapid growth on computer software product and the company provides a seamless solution and multi-media channels for clients to communicate with their customers for building better customer relationship and generating more sales revenue. The combination of its innovative infomercials along with our growing call center operations will allow us to support significant future growth. It is a strong vote of confidence in our future development in China's growing CRM call center market due to our expansion from B2B outsourced call center services into B2C infomercial services market for vertical industries which a growing number of domestic and multinational companies across a number of industries are selecting us to enhance customer services. This demand for CRM services reflects the increasingly competitive nature of the Chinese marketplace where customers choose a provider not solely based upon price, but also on customer services. We believe that our CRM contact center has emerged as the new competitive advantage for the market leaders in China and we are well positioned to benefit from this trend.

(2) VALUE-ADDED SERVICES

VAS revenue for the year ended December 31, 2005 was \$13,834,000, a significant increase of 142% as compared to \$5,724,000 for the year ended December 31, 2004. Our acquisition of 3G, Clickcom and Lion Zone in 2005 contributed to the increase in revenue for this business segment and helped us enter the mobile Internet market in China. VAS revenue made up 49.1% of the Company's total revenue for the fourth quarter of the year. Presently, approximately 80% of mobile phone users use VAS in China. The Company's revenue in the sales of voice cards continued to grow through Linkhead-generated NMS cards and with the cards increasing use in voice hardware equipment, based on CPCT industry control machines and Media Server which supports access from both PSTN and VoIP, softswitch and 3G networks. These phone cards sold through the VAS segment differ from the calling cards sales in the Communication Distribution Business as described below in that those phone cards are geared towards the end user and include prepaid calling cards, IDD long distance calling cards, internet access cards, bundled cross-selling insurance cards, shopping discount cards, travel and hotel reservation cards, entertainment cards, and customer loyalty membership cards. For example, the Bank of China Shanghai selected PacificNet Epro to provide CRM and call center management training, to enhance agent productivity, to improve call center service quality, and to revise the strategic market positioning for the bank.

(3) COMMUNICATION PRODUCTS DISTRIBUTION

Revenue for the year ended December 31, 2005 was \$16,201,000, an increase of 37% as compared to \$11,790,000 for the year ended December 31, 2004. Its revenue remained steady growth during the year due to the increasing market

growth in communication products distribution services. Communication products distribution revenue made up 20.3% of the Company's total revenue for the fourth quarter of the year. In FY2005, sales mix of high-margin products such as number cards and IP cards increased whereas substantial portion of FY2004 revenue were derived from low-margin prepaid stored-value cards. This improved sales mix was achieved through sales incentive scheme. Furthermore, we believe that our Take1 and My Memory Maker Kiosks are a natural fit in the self-service vending machine, party, amusement, and casino market, and we also believe there are strong opportunities for growth in high-traffic tourist and amusement destinations. Recently, the Company had entered into a definitive agreement to acquire iMobile in order to enhance our position in this rapidly growing B2C market in China.

COST OF REVENUE AND GROSS MARGIN. Cost of revenue for the year ended December 31, 2005 was \$33,439,000 an increase of 38% from \$24,074,000 for the year ended December 31, 2004. The slight increase in the cost of revenue was directly associated with the increase in revenue. Cost of revenue, as a percentage of revenue, was 75% for the year ended December 31, 2005 as compared with 81% for the year ended December 31, 2004. The decrease in percentage cost of revenue was attributable to the changes in operations, from supplying systems integration and software applications in 2004 to becoming value-added telecom services and product providers in 2005. Gross profit for the year ended December 31, 2005 was \$10,902,000 an increase of 93% as compared to \$5,635,000 for the year ended December 31, 2004, resulting from gross margin contributions from our newly acquired subsidiaries in 2005. Gross profit for the fourth quarter of the year was \$5,047,000, a significant increase of 265% as compared to \$1,379,000 for the same period in 2004; or a significant increase of 153% as compared to the third quarter of 2005.

We believe that our gross margin overall approximates the industry standards. The significant increase in gross margin came primarily from, our phone card business, which has higher gross margins, typical for that industry. We expect our gross margin percentage to increase gradually as a result of cost reduction and efficient utilization of assets.

(1) OUTSOURCING SERVICES

As compared to prior year, cost of revenue for outsourcing services increased by 55% to \$10,095,000 (2004: \$6,491,000). Gross profit was 4% lower at \$3,409,000 (2004: \$3,543,000). Gross profit of \$1,069,000 for the fourth quarter had a significant increase of 56% as compared to \$682,000 for the third quarter of 2005 due to the increasing demand for outsourcing contact center services, especially from the industries of telecom, banking, market research and fast-moving consumer goods, among others. The slightly decline year over year was primarily due to the enhanced Hong Kong market competition.

However, from the perspective of high-margin IT Solutions, EPRO enjoyed growth in FY2005 from its self-developed Contact Center System - WISE-xb Contact Center System and TNT Hong Kong selected this contact center solution with customer management capabilities to improve efficiency and enhance customer satisfaction.

(2) VALUE-ADDED SERVICES

As compared to prior year, cost of revenue for VAS increased by 75% to \$7,715,000 (2004: \$4,403,000). Gross profit was 262% much higher at \$6,119,000 (2004: \$1,688,000). Gross profit of \$3,241,000 for the fourth quarter also had a significant increase of 471% as compared to the same period in 2004; or an increase of 184% as compared to \$1,141,000 for the third quarter of 2005. Throughout the new acquisitions in 2005 such as Lion Zone with higher gross margin, it moved our strategic consolidation in China's CRM and VAS market, and increased our customer base and improved our gross margin. The increasing gross profit is also derived from the continued profitability in the sale of phone cards. Furthermore, Company increased market share in the voice/IVR supplier market.

(3) COMMUNICATION PRODUCTS DISTRIBUTION

As compared to prior year, cost of revenue for communication products distribution slightly increased by 17% to \$15,347,000 (2004: \$13,106,000). Gross profit was 194% higher at \$854,000 (2004: \$290,000). The fourth quarter is normally the strongest due to holiday-related promotions which increase the spending of our customers with us and therefore higher margin was expected. Furthermore, since revenue made up the highest rate of 36.5% of the Company's total revenue and cost of revenue had only slightly increased in 2005, its gross profit relatively increased more to reach our future expectation. As one of its subsidiaries, Shanghai Classic Group Limited (Yueshen) signed an agreement to become a designated integrated services distributor of China Mobile in 2005, it increased the Company's overall distribution revenue and profit margin. The improved gross margin was mainly due to increased sales mix from higher margin products such as number cards with average gross margin of 8 to 15% and IP calling cards with

average gross margin of 30% instead of low-margin prepaid stored-value cards with just around 2% gross margin.

(4) OTHER BUSINESS

Cost of revenue and gross profit for PacificNet Power for the year ended December 31, 2005 was \$269,000 and \$67,000. PacificNet Power did not exist in 2004, so no comparison is available for 2004.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, General and Administrative expenses totaled \$5,811,000 for the year ended December 31, 2005, an increase of 69% from \$3,435,000 for the year ended December 31, 2004. As our fourth quarter results included several one-time charges or expenses such as the \$103,250 NASDAQ National Market Entry Fee, quarterly SG&A had significant increase of 183% as compared to the third quarter of the year. The increase in selling, general and administrative expenses reflected the expansion of our operations of which expenses were incurred by our newly acquired subsidiaries and the expansion of the management team. In addition to making several key acquisitions in 2005, we laid the foundation for a strong future, by hiring additional personnel in key areas to support our accounting and back-office functions, as well as implemented the systems to allow the Company to better measure the performance of each of its units.

(1) OUTSOURCING SERVICES

Selling, General and Administrative expenses for outsourcing services were \$1,628,000 for the year ended December 31, 2005, a reduction of \$502,000 from \$2,130,000 for the year ended December 31, 2004. Due to the increase in the demand for telemarketing and call center services, one of the subsidiaries purchased a new 250-seat call center facility in China, to support the rapidly growing business of the company. It caused an increase of 103% to \$482,000 for SG&A for the fourth quarter of the year. However, a wide array of supporting services are provided, including professional inbound services, outbound services, facilities management and IVRS support services, to meet clients' diversified needs.

(2) VALUE-ADDED SERVICES

Selling, General and Administrative expenses for VAS were \$2,159,000 for the year ended December 31, 2005, an increase of \$2,072,000 as compared to \$87,000 in 2004. The increase of SG&A resulted from increasing the size of our operations which included premises costs and staff costs from the three new acquisitions.

(3) COMMUNICATION PRODUCTS DISTRIBUTION

Selling, General and Administrative expenses for communication products distribution were \$271,000 for the year ended December 31, 2005, an increase of 188% as compared to \$94 for the year ended December 31, 2004. This business is easily scalable depending on the availability of working capital, since one of the subsidiaries, Shanghai Classic, needs to pay the telephone operators/suppliers cash upfront.

(4) OTHER BUSINESS

Selling, General and Administrative expenses were \$167,000 for the year ended December 31, 2005.

DEPRECIATION AND AMORTIZATION EXPENSES. Depreciation and amortization expenses were \$1,126,000 for the year ended December 31, 2005, which represented 1344% increase as compared to the year ended December 31, 2004 of which depreciation and amortization expenses was \$78,000.

EARNINGS FROM OPERATIONS. Operating profit of \$4,569,000 for the year ended December 31, 2005, a significant increase of 136% as compared to \$1,937,000 from the year ended December 31, 2004. Operating margins nearly doubled to 10.3% from 6.5% in the previous year. Quarterly operating profit was \$1,702,000, an increase of 66% as compared to \$1,026,000 from Q3 2005. Quarterly operating profit of \$380,000, \$1,470,000, and \$254,000 generated from the Company's three business units: (1) CRM Outsourcing Services, (2) Value-Added Services (VAS) and (3) Telecom Distribution Services, represented an increase of 75%, 50% and 47% respectively. These are compared to \$217,000, \$974,000, and \$172,000 respectively for Q3 2005. Operating profit of \$1,360,000, \$3,899,000 and \$558,000 generated from business units (1), (2) and (3) for the year ended December 31, 2005 represented an increase of 36%, 110% and 556% respectively, as compared to \$1,000,000, \$1,859,000, and \$85,000 respectively for the year ended December 31, 2004. The increase in operating margin reflects Company's continuous shift away from our traditional lower-margin phone card distribution business (B2B services) to higher margin value-added telecom services and B2C e-commerce. We believe that in 2006 this strategy will result in increased profitability. This strategy is beginning to work, as our operating margin increased from 6.5% in 2004 to 10.3% in 2005.

INTEREST EXPENSES / INCOME. Interest income was \$246,000 for the year ended December 31, 2005, an increase of 211% as compared to \$79,000 for the year ended December 31, 2004. The increase is due to 62% of interest income generated from PacificNet Communications. Interest income was mainly generated from \$152,000 of PacificNet Communications from lending and fixed-rate bank deposits (62% of total interest income) and \$45,000 of PacificNet Strategic Investment Holdings Limited from bank deposits. Interest expenses were \$229,000 for the year

ended December 31, 2005, an increase of 24% as compared to \$185,000 for the year ended December 31, 2004. Most of the interest expenses were attributed to bank loans by PacificNet Strategic Investment Holdings (\$34,000) and Linkhead (\$26,000), and bank loans and bank overdraft by Epro (\$133,000).

SUNDRY INCOME/EXPENSE. Sundry income known as non-operating income is defined as the external income (miscellaneous income) that results from factors outside of our operating subsidiaries' control and such income does not related to each subsidiaries' core operating business. Income from the sale of various investments is one of the typical examples. (See Note 11 for details)

For the year ended December 31, 2004, the non-operating income or sundry income was mainly derived from Linkhead's consulting services income from system integration services totaling \$380,000.

For the year ended December 31, 2005, the non-operating income or sundry income was \$830,000 included in Statement of Operations was mainly derived from the consulting services income of \$116,000, software service income of \$375,000, investment income of \$113,000, leasehold income of \$75,000 and various other totaling \$151,000.

For the year ended December 31, 2003	1.Outsourcing Business (\$)	Business (\$)	Distribution Business (\$)	4. Other Business (\$)	(\$)
Revenues	1,048	39	-	130	1,217
(% of Total Rev)	(86.1%)	(3.3%)	-	(10.6%)	(100%)
Earnings / (Loss) from Operations	15	10	(18)	(1,344)	(1,337)

32

COST OF REVENUES AND GROSS MARGIN. Cost of revenues for the year ended December 31, 2004 were \$24,074,000, an increase of \$23,376,000 from \$698,000 for the year ended December 31, 2003. The significant increase in cost of revenues was directly associated with the increase in revenues. Cost of revenues, as a percentage of revenues, was 81% for the year ended December 31, 2004 compared with 57% for the year ended December 31, 2003. The increase in percentage cost of revenues was attributable to the changes in operations, from supplying systems integration and software application in 2003 to becoming value-added telecom services and product providers in 2004. Gross margin for the year ended December 31, 2004 was \$5,635,000, an increase of \$5,116,000 from \$519,000 for the year ended December 31, 2003, resulting from gross margin contributions from our newly acquired subsidiaries in 2004. We believe that our gross margin overall approximates the industry standards. The decrease in gross margin came primarily from Yueshen, our calling card business, which, typically for that industry, has lower gross margins. However, we expect our gross margin percentage to increase gradually as a result of cost reduction and efficient utilization of assets.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, General and Administrative expenses, including interest expense, totaled \$3,620,000 for the year ended December 31, 2004, an increase of \$1,840,000 from \$1,780,000 for the year ended December 31, 2003. The increase in selling, general and administrative expenses reflected the expansion of our operations of which expenses were incurred by our newly acquired subsidiaries.

DEPRECIATION AND AMORTIZATION EXPENSES. Depreciation and amortization expenses amounted to \$78,000 for the year ended December 31, 2004, which was approximately the same as the year ended December 31, 2003 of which depreciation and amortization expenses was \$76,000.

INTEREST INCOME. Interest income was \$79,000 for the year ended December 31, 2004, as compared to an interest income of \$27,000 for the year ended December 31, 2003. The increase in income was due to increase in cash and bank balance during 2004 as a result of cash flow from funding activities.

SHARE OF PROFIT OF ASSOCIATED COMPANIES. For the year ended 2004, we recorded income of \$32,000 with respect to our 30% ownership interest in Cheer Era Limited, acquired in April 2004.

INCOME TAXES. The income taxes expenses for the Company's subsidiaries were \$30,000 for the year ended December 31, 2004. The provision of income taxes was the result of the operating profit generated by YueShen and Smartime, the subsidiaries we acquired in 2004. During the year ended December 31, 2004, YueShen, Smartime and Epro provided income taxes expenses of \$8,000, \$12,000 and \$10,000, respectively.

MINORITY INTERESTS. Minority interests for the year ended December 31, 2004 totaled (\$1,623,000) compared to \$7,000 for the year ended December 31, 2005. Minority interest represented the interests of third parties in our subsidiaries' results.

OFF-BALANCE SHEET ARRANGEMENTS. We had no outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts. We did not engage in trading activities involving non-exchange traded contracts during 2004.

LIQUIDITY AND CAPITAL RESOURCES

CASH AND CASH EQUIVALENTS.

As of September 30, 2006, cash and cash equivalents were \$7,439,000, compared to \$9,579,000 at December 31, 2005 as a result of the decrease of cash and cash equivalents of more than \$2.3 million for Lion Zone. The significant reduction for Lion Zone was primarily attributed to a loan to a related party of approximately \$2.3million, acquisition of property and equipment, and taxes paid. The loan for Lion Zone is a related party advance with no fixed maturity

date and captioned under “Loans receivable from related Parties” in the consolidated balance sheet.

WORKING CAPITAL.

The Company’s working capital increased to \$28,106,000 at September 30, 2006, as compared to \$20,510,000 at December 31, 2005. When compared to balances at December 31, 2005, an increase of 37.04% in working capital at September 30, 2006 was primarily due to the increases in current assets and the decrease in current liabilities accounts. The increase of current assets was mainly the result of significant increase in accounts receivable which was attributable to our existing subsidiaries and a significant increase in loan receivable from related parties. The decrease of current liabilities was primarily due to the decrease of accrual expense and other payable. The increase of accounts receivable at September 30, 2006 was mainly driven from the increase of \$2,020,000 from PacPower (due to the revenues from Light Eco and Pure Air projects), the increase of \$2,224,000 from PacCom, and the increase of \$523,000 from Epro.

CASH FLOWS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2006

NET CASH FROM OPERATING ACTIVITIES.

Net cash (used in) operating activities was \$(6,416,000) for the nine months ended September 30, 2006 as compared to net cash provided by operating activities of \$133,000 for the nine months ended September 30, 2005. Net cash used in operating activities in the nine months ended September 30, 2006 was primarily due to net earnings of \$604,000 offset by noncash items such as minority interest of \$1,405,000, depreciation and amortization of \$1,173,000, decrease in charge in fair value of derivatives of 1,212,000, provision for allowance for doubtful accounts of \$657,000, inventory write down of \$486,000, equity profit of associated company of \$129,000, provision for income tax of \$(183,000), amortization of interest discount of \$307,000, and liquidated damages expense of \$800,000 offset by a net decrease in working capital items of \$10,444,000. The decrease in working capital was mainly due to a decrease in accounts receivable and other current assets of \$8,281,000 and a decrease in inventories of \$572,000 which mainly resulted from higher revenues and a net decrease in account payables and accrued expenses of \$1,591,000 which was primarily due to the decrease in accrued expenses and income tax payable.

NET CASH FROM INVESTING ACTIVITIES.

Net cash used in investing activities was \$(4,811,000) for the nine months ended September 30, 2006 compared to \$(3,250,000) for the comparative prior period. Net cash used in investing activities in the nine months ended September 30, 2006 was primarily due to the acquisition of property and equipment from the company, PACT strategic and PACT Limited totaling \$(3,806,000), and a decrease in acquisition of subsidiaries and affiliated companies of \$419,000, offset by the release of the restricted cash of \$1,420,000, an increase of \$353,000 for loan receivables from third parties and an decrease of \$2,359,000 for loan receivables from related parties.

NET CASH FROM FINANCING ACTIVITIES.

Net cash provided by financing activities for the nine months ended September 30, 2006 was \$8,805,000, which was mainly due to the proceeds from issuance of convertible debenture of \$7,500,000 and the exercise of the share options and warrants of \$174,000, an increase in bank loan of \$1,152,000 and an increase in loans payable to related party of \$4,000 and repurchase of treasury shares of \$(124,000), an increase in amount borrowed under capital lease obligations of \$77,000 and bank line of credit of \$22,000. Net cash provided by financing activities for the nine months ended September 30, 2005 was \$1,521,000 which was primarily a result of an increase in proceeds from exercise of stock options and warrants of \$981,000, increase in loans from related party of \$513,000, and an increase in amount borrowed under capital lease obligations of \$29,000.

CONTRACTUAL OBLIGATIONS

The Company has convertible debt which obligates the Company to file a registration statement with respect to the shares issuable under the convertible debt note. Due to various factors, as of September 30, 2006, the Company had filed the registration statement, but it has not gone effective. Accordingly, the terms of the convertible note obligate the Company to pay liquidated damages to the convertible debenture investors at the rate of 2% of the principal amount of the convertible per month, or \$160,000. As of September 30, 2006, the Company has determined to accrue five months of liquidated damages or approximately \$800,000, although it is possible that the Company may not ultimately need to pay the full amount of liquidated damages. The amount has been reflected in the consolidated financial statements as a separate line item on the consolidated balance sheet as "liquidated damages liability" and as a separate line item on the consolidated statement of operations as "liquidated damages expense".

We have significant cash resources to meet our contractual obligations as of September 30, 2006, as detailed below:

Payments Due by Period

Contractual Obligations	Total	Less than 1 year	1-5 years	After 5 years
Line of credit	\$ 1,082,000	\$ 1,082,000	0	0
Bank Loans	\$ 2,428,000	\$ 992,000	\$ 470,000	\$ 966,000
Operating leases	\$ 775,000	\$ 463,000	\$ 312,000	0
Capital leases	\$ 281,000	\$ 133,000	\$ 148,000	0
Total cash contractual obligations	\$ 4,566,000	\$ 2,670,000	\$ 930,000	\$ 966,000

34

OFF-BALANCE SHEET ARRANGEMENTS. We had no off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts. We did not engage in trading activities involving non-exchange traded contracts during the third quarter of 2006.

INFLATION. Inflation has not had a material impact on the Company's business in recent years.

CURRENCY EXCHANGE FLUCTUATIONS. All of the Company's revenues are denominated either in U.S. dollars or Hong Kong dollars, while its expenses are denominated primarily in Hong Kong dollars and Renminbi ("RMB"), the currency of the People's Republic of China. The value of the RMB-to-U.S. dollar or Hong Kong dollar-to-United States dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous day's interbank foreign exchange market rates and current exchange rates on the world financial markets. Since 1994, the official exchange rate generally has been stable. Recently there has been increased political pressure on the Chinese government to decouple the RMB from the United States dollar. Although a devaluation of the Hong Kong dollar or RMB relative to the United States dollar would likely reduce the Company's expenses (as expressed in United States dollars), any material increase in the value of the Hong Kong dollar or RMB relative to the United States dollar would increase the Company's expenses, and could have a material adverse effect on the Company's business, financial condition and results of operations. The Company has never engaged in currency hedging operations and has no present intention to do so.

CONCENTRATION OF CREDIT RISK. Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed completely to perform as contracted. Concentrations of credit risk (whether on or off balance sheet) that arise from financial instruments exist for groups of customers or counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions as described below:

- The Company's business is characterized by rapid technological change, new product and service development, and evolving industry standards and regulations. Inherent in the Company's business are various risks and uncertainties, including the impact from the volatility of the stock market, limited operating history, uncertain profitability and the ability to raise additional capital.
- All of the Company's revenue is derived from Asia and Greater China. Changes in laws and regulations, or their interpretation, or the imposition of confiscatory taxation, restrictions on currency conversion, devaluations of currency or the nationalization or other expropriation of private enterprises could have a material adverse effect on our business, results of operations and financial condition.
- If the Company is unable to derive any revenue from Greater China, it would have a significant, financially disruptive effect on the normal operations of the Company.

A substantial portion of the operations of business operations depend on mobile telecommunications operators {operators) in China and any loss or deterioration of such relationship may result in severe disruptions to their business operations and the loss of a significant portion of the Company's revenue. The VIEs rely entirely on the networks and gateways of these operators to provide its wireless value-added services. Specifically these operators are the only entities in China that have platforms for wireless value-added services. The Company's agreements with these operators are generally for a period of less than one year and generally do not have automatic renewal provisions. If neither of them is willing to continue to cooperate with the Company, it would severely affect the Company's ability to conduct its existing wireless value-added services business.

COMPREHENSIVE INCOME (LOSS). Comprehensive income (loss) consists of net earnings and other gains (losses) affecting stockholders' equity that, under generally accepted accounting principles are excluded from net earnings in accordance with Statement of Financial Accounting Standards ("SFAS") 130, Reporting Comprehensive Income. Additionally, the translation adjustment is recorded as component of comprehensive income (loss) in stockholders' equity section of balance sheet.

SEASONALITY AND QUARTERLY FLUCTUATIONS Several of our businesses experience fluctuations in quarterly performance. Traditionally, the first quarter from January to March is a low season for our call center business due to the long Lunar New Year holidays in China. Revenue and income from operations for the call center and VAS tend to be higher in the fourth quarter due to special holiday promotions. Internet/Direct Commerce revenue also tends to be higher in the fourth quarter due to increased consumer spending during that period. Revenue from the VAS and IVR segment can vary from quarter to quarter due to new product launches and the seasonality of certain product lines.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

We are exposed to various market risks arising from adverse changes in market rates and prices, such as foreign exchange fluctuations and interest rates, which could impact our results of operations and financial position. We do not currently engage in any hedging or other market risk management tools, and we do not enter into derivatives or other financial instruments for trading or speculative purposes.

Foreign Currency Exchange Rate Risk. Fluctuations in the rate of exchange between the U.S. dollar and foreign currencies, primarily the Hong Dollar and the Chinese Renminbi, could adversely affect our financial results. Approximately all of our sales are denominated in foreign currencies. We expect that foreign currencies will continue to represent a similarly significant percentage of our sales in the future. Selling, marketing and administrative costs related to these sales are largely denominated in the same respective currency, thereby mitigating our transaction risk exposure. We therefore believe that the risk of a significant impact on our operating income from foreign currency fluctuations is not substantial. However, for sales not denominated in U.S. dollars, if there is an increase in the rate at which a foreign currency is exchanged for U.S. dollars, it will require more of the foreign currency to equal a specified amount of U.S. dollars than before the rate increase. In such cases and if we price our products in the foreign currency, we will receive less in U.S. dollars than we did before the rate increase went into effect. If we price our products in U.S. dollars and competitors price their products in local currency, an increase in the relative strength of the U.S. dollar could result in our price not being competitive in a market where business is transacted in the local currency. All of our sales denominated in foreign currencies are denominated in the Hong Dollar and the Chinese Renminbi. Our principal exchange rate risk therefore exists between the U.S. dollar and these two currencies. Fluctuations from the beginning to the end of any given reporting period result in the re-measurement of our foreign

currency-denominated receivables and payables, generating currency transaction gains or losses that impact our non-operating income/expense levels in the respective period and are reported in other (income) expense, net in our combined consolidated financial statements. We do not currently hedge our exposure to foreign currency exchange rate fluctuations. We may, however, hedge such exposure to foreign currency exchange rate fluctuations in the future.

All of our sales denominated in foreign currencies are denominated in the Hong Dollar and the Chinese Renminbi. Our principal exchange rate risk therefore exists between the U.S. dollar and these two currencies. Fluctuations from the beginning to the end of any given reporting period result in the re-measurement of our foreign currency-denominated receivables and payables, generating currency transaction gains or losses that impact our non-operating income/expense levels in the respective period and are reported in other (income) expense, net in our combined consolidated financial statements. We do not currently hedge our exposure to foreign currency exchange rate fluctuations. We may, however, hedge such exposure to foreign currency exchange rate fluctuations in the future.

Interest Rate Risk. Changes in interest rates may affect the interest paid (or earned) and therefore affect our cash flows and results of operations. We are exposed to interest rate change risk with respect to our subsidiary, Epros' credit facility with a commercial lender. However, we do not believe that this interest rate change risk is significant.

BUSINESS

We were incorporated in the state of Delaware in 1987. We are a leading provider of CRM and telecom services, ecommerce and gaming technology in China. Our business consists of three groups, all of which operate within the outsourcing and telecommunications industries in Asia, primarily greater China, which includes the People's Republic of China (PRC), or mainland China, Hong Kong Special Administrative Region (HKSAR), Macau Special Administrative Region, and Taiwan and one group that focuses on primarily administrative and corporate related matters. Through our subsidiaries we provide outsourcing services, telecom (VAS) services, and products (telecom & gaming) services. Our business process outsourcing (BPO) services include call centers providing customer relationship management (CRM) and telemarketing services, and our information technology outsourcing (ITO) includes software programming and development. We are value-added resellers and providers of telecom VAS, which comprises interactive voice response (IVR) systems, call center management systems, and VOIP, as well as mobile phone VAS, such as short messaging services (SMS) and multimedia messaging services (MMS). In 2004, we commenced our communication products distribution service, through wholesale and, to a lesser extent, retail sale and distribution of mobile phones, software and hardware, mobile accessories, and calling cards in Hong Kong and China. In 2005, we invested Take1 Technologies (Cheer Era), a company that designs, manufactures, and distributes multimedia interactive self-service kiosks, bingo and gaming machines for the casino and slot machine operators Europe and Asia.

In August 2006, PacGames completed the acquisition of 100% of Able Entertainment Technology Ltd., a leading provider of Asian multi-player electronic gaming machines, gaming technology solutions and gaming related maintenance, IT and distribution services for the leading hotel, casino and slot hall operators based in Macau, China and other Asian gaming markets. Macau is expected to surpass Las Vegas in total revenues by 2006. Currently, table games make up the bulk of Macau casino revenues, which is in sharp contrast to other areas such as Las Vegas. With this acquisition, PacGames is a leading developer of electronic versions of these popular table games which are less expensive to run resulting in higher casino profits with great appeal to the mass market players. Further, the growing market in Macau is for Asian table games such as Baccarat, Roulette, Fan Tan, Fish-Prawn-Crab and Sic-Bo Cussec as these games have wider acceptance in the Asian market than Western games such as poker or slots. The development, manufacturing, maintenance, and service of electronic Asian table games are underserved areas which are predicted to grow considerably as Macau's gaming market matures. PacGames products include multi-play electronic gaming machines such as Baccarat, Fish-Prawn-Crab, Sib-Bo Cussec, Roulette, and Video Lottery Terminals (VLT) such as Keno and Bingo, as well as other traditional slot machines. We intend to continue to grow our business by acquiring and managing growing technology and network communications businesses with established products and customers in Asia.

Our BPO services generate revenue from call center services, call center management software sales, and training and consulting. We invoice our call center clients monthly at per seat monthly rates, a base price plus commission per call, or a per hour charge rate, depending on the client's preference. Our call center software clients pay per license, for which there is usually a one-time charge on sale of the software and annual maintenance fees for service. We charge per project for our consulting and training services and for our telecom VAS, which are invoiced throughout the project. Our telecom VAS often includes a post-sale service contract for systems integration and consulting services for which we bill separately. Our communication products such as calling cards, kiosks and cell phones are sold cash-on-delivery. Our gaming center operations generate revenue through the sale of gaming machines to casinos, or through resellers who sell to casinos. Currently we do not consolidate gaming operations as we do not currently hold a controlling interest in the gaming operations, but a 45% interest.

Our clients include the leading telecom operators, banks, insurance, travel, marketing, and service companies, as well as telecom consumers, in Greater China. Clients include China Telecom, China Netcom, China Mobile, China Unicom, PCCW, Hutchison Telecom, CSL, SmarTone, Sunday, Swire Travel, Coca-Cola, SONY, Samsung, Motorola, Nokia, TNT Express, Huawei, TCL, Dun & Bradstreet, American Express, Bank of China, DBS, Hong Kong Government, and Hongkong Post. PacificNet employs over 2,300 staff in our various subsidiaries in China with offices in Hong Kong, Beijing, Shanghai, Shenzhen, and Guangzhou.

Our operations include the following four groups:

- (1) Outsourcing Services: includes Business Process Outsourcing (BPO), call center, IT Outsourcing (ITO) and software development services.
- (2) Telecom Value-added Services: includes Content Providing (CP), Interactive Voice Response (IVR), Platform Providing (PP) and Service Providing (SP).
- (3) Products (Telecom & Gaming): includes communication and gaming products, GSM/CDMA/3G Products, Multimedia Communication Kiosks. This Group includes the following subsidiaries: PacificNet Communications Limited, iMobile, Allink, Take1 and PacificNet Games.
- (4) Other Business: including internal administrative matters, other related corporate items, and other business such as PacificNet Power.

CORPORATE STRUCTURE

We conduct our business operations through the following business units and subsidiaries:

(I) OUTSOURCING SERVICES GROUP

1) PACIFICNET EPRO HOLDINGS LIMITED (FORMERLY KNOWN AS: EPRO TELECOM HOLDINGS LIMITED)

PacificNet Epro Holdings Limited (referred to herein as “Epro”), a company incorporated in the Hong Kong Special Administrative Region of the PRC, is engaged in the business of providing call center and customer relationship management (CRM) services, mobile marketing and promotion services, call center training, management and consulting services, call center software, IVR systems, mobile payment and mobile point of sale (POS) solutions, Internet e-commerce and mobile commerce, mobile applications based on short messaging services (SMS), multimedia messaging services (MMS), outsourced telemarketing and customer support services, and other mobile value-added services (VAS). Epro’s business serves Hong Kong and the PRC’s telecom operators, banks, insurance, and other financial services companies in the PRC. Epro’s clients include major telecom operators, banks, insurance and financial services companies in Greater China, such as China Telecom (NYSE: CHA), China Unicom (NYSE: CHU), PCCW (NYSE: PCW), CSL, SmarTone Telecom, Sunday Communications (NASDAQ: SDAY), Hutchison Whampoa Limited (HKSE: 0013.HK), Swire Coca-Cola, Samsung, Dun & Bradstreet, DBS, Dao Heng Insurance, Shenzhen Development Bank, Hong Kong Government Housing Authority and Hong Kong Post.

2) PACIFIC SMARTIME SOLUTIONS LIMITED / PACIFIC SOLUTIONS TECHNOLOGY (SHENZHEN) CO. LTD.

Pacific Smartime Solutions Limited (referred to herein as “Smartime”) is an IT outsourcing company incorporated in Hong Kong that operates through its China subsidiary Pacific Solutions Technology (Shenzhen) Co. Ltd. (referred to herein as: Soluteck Shenzhen), which is a leading provider of outsourcing services including software development, R&D, and project management services in China. Smartime employs over 280 staff and provides outsourcing services to the leading telecom, banking and financial services companies in China, including Huawei, IBM, Bank of East Asia. In December 2004, Smartime launched a new software development outsourcing center in Shenzhen, located in a Grade A office building, currently occupying two floors (total 26,000 square feet) with the capacity to expand to two additional floors. Each of the two floors will have the capacity to house about 200 employees. The new outsourcing development center will serve its existing clients, which includes some of the world’s leading telecom and IT companies.

3) PACIFICNET SOLUTIONS LIMITED (Incorporated in Hong Kong)

PacificNet Solutions Ltd. (referred to herein as “PacSo”), incorporated in Hong Kong, is a subsidiary that specializes in systems integration, software application, and e-business solutions services in Hong Kong and Greater China. The scope of PacSo’s products and services includes smart card solutions, web based front-end applications and web based connections to backend enterprise planning systems.

(II) VALUE-ADDED TELECOM SERVICES (VAS) GROUP

PLATFORM PROVIDER COMPANY

BEIJING LINKHEAD TECHNOLOGIES COMPANY LIMITED (Incorporated in the PRC)

Beijing Linkhead Technologies Company Limited, (referred to herein as “Linkhead”), a PRC limited liability corporation, is engaged in the business of providing value-added services (VAS), interactive voice response (IVR) system development and integration, voice Internet portals, computer telephony integration (CTI), VoIP, Internet and mobile application development, telecom customer relationship management (CRM) services for China’s telecom operators, telecom related management and consulting services, mobile consumer analytics, mobile data-mining, Internet e-commerce and mobile commerce, mobile applications based on WAP, K-Java, BREW, EMS, short messaging services (SMS), multimedia messaging services (MMS), outsourced software development, and other mobile value-added services (VAS) in the PRC. Linkhead’s major clients and profit-sharing partners include some of the leading telecom operators such as China Telecom, China Mobile, China Unicom. Linkhead is also channel partner, or a master reseller, of NMS Communications (NASDAQ: NMSS), a leading provider of communications technologies and solutions which enable new enhanced services and efficient networks that help customers grow their profits and revenue.

SERVICE PROVIDER COMPANIES

1) PACIFICNET CLICKCOM LIMITED (INCORPORATED IN THE PRC)

We own a controlling interest in Guangzhou Clickcom Digit-net Science and Technology Ltd. (“Clickcom-WOFE”) through the purchase of a 51% interest of Clickcom-WOFE’s parent company, PacificNet Clickcom Limited, a British Virgin Islands Company (“Clickcom-BVI”). Clickcom-WOFE conducts its VAS operations with Guangzhou DianXun Company Limited (“Dianxun-DE”), a PRC registered Domestic Enterprise (DE), through a series of contractual agreements. Under these agreements, the shareholders of Dianxun-DE are required to transfer their ownership in these entities to our subsidiaries when permitted by PRC laws and regulations and all voting rights are assigned to us. Through Clickcom-WOFE, we have also entered into a consulting and services agreements with Dianxun-DE, under which Clickcom-WOFE provides technical services and other services to Dianxun-DE in exchange for all of the net income of Dianxun-DE. In addition, the shareholders of Dianxun-DE have pledged their shares in Dianxun-DE as collateral for non-payment of fees for the services we provide. Through Clickcom-WOFE we provide directly to China’s telecom operators a wide variety of wireless Internet services for mobile phones, such as SMS, Wireless Application Protocol (WAP), which allows users to access information instantly via handheld wireless devices and Java mobile applications. The acquisition of Clickcom-WOFE is our first step in entering the VAS service provider market in which we will be able to design our own mobile phone VAS for distribution directly to telecom operators.

2) GUANGZHOU 3G INFORMATION TECHNOLOGY CO. LIMITED (Incorporated in the PRC)

We own a controlling interest in Guangzhou 3G Information Technology Co. Ltd. (“Guangzhou3G-WOFE”), a PRC registered wholly owned foreign enterprise (WOFE), through the purchase of a 51% interest in Guangzhou 3G’s parent company, Pacific 3G Information & Technology Co. Limited, a British Virgin Islands Company (“Guangzhou3G-BVI”). Guangzhou3G-WOFE conducts its VAS operations with Guangzhou Sunroom Information Industrial Co., Ltd. (“Sunroom-DE”), a PRC registered Domestic Enterprise (DE), through a series of contractual agreements. Under these agreements, the shareholders of Sunroom-DE are required to transfer their ownership in these entities to our subsidiaries when permitted by PRC laws and regulations and all voting rights are assigned to us. Through Guangzhou3G-WOFE, we have also entered into a consulting and services agreements with Sunroom-DE, under which Guangzhou3G-WOFE provides technical services and other services to Sunroom-DE in exchange for all of the net income of Sunroom-DE. In addition, the shareholders of Sunroom-DE have pledged their shares in Sunroom

DE as collateral for non-payment of fees for the services we provide. Sunroom-DE is one of the largest value-added telecom and information services providers in China with both voice (IVR and call center) and data (SMS, MMS, WAP, JAVA, GPRS) connection to the four major telecom operators in Asia, China Mobile, China Unicom, China Telecom, and China Netcom, covering both mobile and fixed-line networks. Guangzhou 3G-DE also offers a wide variety of IVR and other wireless and fixed-line, value-added telecom services including color ring back tone (CRBT) services, background music (BGM) services, video ICQ (VICQ) mobile instant messaging services, sports and soccer news, weather forecasts, stock prices, jokes, short stories, dramas, songs and mobile karaoke, mobile TV, games, entertainment, as well as community-oriented services, such as chatline and dating services. Mobile and fixed-line phone users can access Guangzhou 3G-DE's IVR services through one of the four major telecom operators' networks. Guangzhou 3G-DE currently employs 280 staff, and has offices in 26 provinces in China including Guangdong, Guangxi, Hubei, Hunan, Jiangsu, Zhejiang, Shanghai, Henan, Anhui, Yunnan, Gansu, Ningxia, Inner Mongolia, Guizhou, Tianjin, Qinghai, Hainan, Heilongjiang, Shanxi, Shandong, Chongqing, Jiangxi, Beijing, Hebei, Liaoning, and Jilin. Guangzhou 3G's market covers all the major regions of China with over 3 million accumulated fee paying customers.

3) GUANGZHOU WANRONG INFORMATION TECHNOLOGY CO., LIMITED (Incorporated in the PRC)

On January 31, 2006, we consummated an agreement to acquire a 51% majority interest in Guangzhou Wanrong Information Technology Co., Ltd. (“Guangzhou Wanrong”), one of the leading value-added telecom service providers in China. Since its inception in 2003, Guangzhou Wanrong has achieved strong growth in its VAS including SMS, WAP, JAVA, MMS, IVR, multimedia entertainment download services, media interactive products, mobile email services, life, sports, entertainment, and business information services. Guangzhou Wanrong was granted nationwide SMS service numbers “2388” for China Mobile and “9928” for China Unicom.

4) IPACT INTERNATIONAL INVESTMENT LIMITED (Incorporated in the BVI)

Our subsidiary, PacificNet Strategic Investment Holdings Limited holds an 80% equity interest in IPACT International Investment Limited (“IPACT”). IPACT is a newly formed business entity in October 2005. Its primary business will be to sign up qualified Voice-VAS and IVR service providers as profit sharing members in China under a unified brand “iPACT”. We will provide to qualified VAS-Alliance partners, on a profit sharing basis, all of the hardware, software, application, and content for VAS, including a variety of IVR and other wireless and fixed-line VAS content, including color ring back tone (CRBT) services, background music (BGM) services, VICQ mobile instant messaging services, sports news, weather forecasts, stock market, humor, songs and mobile karaoke, mobile TV, games, entertainment, as well as community-oriented services, such as chatline and dating services. Mobile and fixed-line phone users can access PacificNet’s VAS-Alliance services through Guangzhou 3G presence in 26 provinces in China.

5) PACIFICNET AD. LIMITED (Incorporated in Hong Kong)

PacificNet Ad. Limited was incorporated in Hong Kong in December 2005 and 68% of its outstanding equity shares are held by PacificNet Limited. Its principle business is advertising and media services.

(III) PRODUCTS (TELECOM & GAMING) GROUP

1) SHANGHAI CLASSIC GROUP LIMITED (“SHANGHAI CLASSIC”)

Shanghai Classic Group Limited (referred to herein as “Shanghai Classic”) is a subsidiary of PacificNet. Shanghai Classic is a leading distributor of telecom services including mobile phones, phone cards, mobile SIM cards, prepaid stored-value cards, re-chargeable phone cards, VoIP and IDD calling cards, Internet access cards, and bundled cross-selling insurance cards, travel and hotel reservation cards and customer loyalty membership cards in Hong Kong and China. Shanghai Classic is a leading wholesaler and distributor for the major telecom operators in Hong Kong and China.

2) PACIFICNET IMOBILE (BEIJING) TECHNOLOGY CO., LIMITED (Incorporated in the PRC)

On February 06, 2006, we entered into an agreement to acquire a 51% majority interest in PacificNet iMobile (Beijing) Technology Co., Ltd (“iMobile”), one of the leading Internet information portal and e-commerce distributors for mobile phone and accessories and mobile related value-added service providers in China. iMobile operates its e-commerce business via two Internet portals, “http://www.iMobile.com.cn” and “http://www.18900.com” and one WAP portal “17wap.com” for mobile phone browsing. In addition, iMobile’s 18900.com operation is the designated Internet distributor for Motorola, Nokia, and NEC’s mobile products in China. 18900.com is the leading Internet e-commerce distributor of mobile products in China, and provides Internet, email, customer service centers, pre-sale and post-sale services, logistics and cash-on-delivery (COD) services to mobile related products in China. iMobile’s 18900.com e-commerce operations combines both online Internet services with its offline customer services network composed of a nationwide chain of logistic and customer centers covering 22 provinces and 40 major cities in China, including

Beijing, Shanghai, Chongqing, Tianjin, Chengdu, Dalian, Qingdao, Guangzhou, Shenzhen, Zhuhai, Dongguan, Hangzhou, Suzhou, Ningbo, Wenzhou, Nanjing, Wuhan, Xi'an, Harbin, Qiqihaer, Hunan and Changsha. iMobile's Internet portal has been one of the top ranked traffic sites and has achieved about 2.3 million registered online users and over 400,000 active users, with 5 million daily page views and 20,000 blog postings per day, which makes iMobile the top ranked site in its category in China. It is expected this acquisition was structured in the same manner as our other acquisitions, with operation and services agreements between Beijing Xing Chang Xin Science and Technology Development Co. Limited Incorporated DE and PacificNet Imobile (Beijing) Technology, Co. Ltd. WOFE.

3) PACIFICNET COMMUNICATIONS LIMITED

PacificNet Communications Limited (referred to herein as "PacCom"), incorporated in Hong Kong, is a wholly owned subsidiary of PacificNet that specializes in telecom related services in Hong Kong and Greater China.

4) TAKE1 TECHNOLOGIES GROUP LIMITED (“TAKE1”, FORMERLY KNOWN AS: CHEER ERA LIMITED)

Take1 (<http://www.take1technologies.com/>) is a leading designer, developer and manufacturer of multimedia entertainment and communication kiosk products including photo and video entertainment kiosks, digital camera photo development stations, multimedia messaging services (MMS) and mobile content download, payment and delivery stations for mobile phones, and other coin-operated kiosks and kiosk consumables. Take1 markets and distributes its multimedia communication stations around the world including the USA, Canada, Mexico, Europe, Korea, China, India and SE Asia. Take1 is headquartered in Hong Kong with operations in China, Canada, and USA.

5) PACIFICNET GAMES LIMITED (Incorporated in the BVI)

PacificNet Games Limited incorporated in the British Virgin Islands (BVI), is a wholly owned subsidiary of PacificNet Strategic Investment Holdings Limited. Its primary purpose is to design and distribute Internet online games and offline gaming machines. On August 3, 2006, PacGames completed the acquisition of 100% of Able Entertainment Technology Ltd., by exchanging 65% of the share ownership of PacGames and by the issuing of 200,000 restricted shares of PacificNet Inc. Upon completion of this transaction, PacificNet Inc. owns 35% of PacGames, and we subsequently acquired an additional 10% of PacGames.

6) ALLINK HONG KONG LIMITED (Incorporated in the HKSARI)

On August 11, 2006, PacificNet’s wholly owned subsidiary PacificNet Communications Limited (“PacCom”) agreed to the acquisition of 80% of Allink Hong Kong Limited (“Allink”), a leading provider of security and surveillance technology and services based in the Hong Kong Special Administrative Region of China, through the issuance of 200,000 restricted shares of PacificNet Inc. If the transaction is completed, PacificNet Inc. will own 80% of Allink. Under the purchase agreement, Allink has committed to generate an annual profit of HKD\$3,000,000 (approx USD\$385,000) and will provide for an adjustment to the purchase price if the Allink does not achieve an annual net profit of HKD\$3,000,000. Allink operates one of the leading CCTV communication and security surveillance technology and services provider utilizing extra low voltage technology for property management companies in Hong Kong and Macau, China. The transaction was originally expected to be completed in the third quarter of 2006, however since the necessary due diligence has not been completed, the Company has been unable to consummate the merger.

(IV) OTHER BUSINESS ENTITIES

1) PACIFICNET LIMITED (INCORPORATED IN HONG KONG)

PacificNet Limited is incorporated in Hong Kong as a wholly owned subsidiary of PacificNet Inc. Its primary purpose is to handle the general administrative operations of PacificNet in Hong Kong.

2) PACIFICNET STRATEGIC INVESTMENT HOLDINGS LIMITED (Incorporated in the BVI)

PacificNet Strategic Investment Holdings Limited (referred to herein as “PacInvest”), incorporated in the British Virgin Islands (BVI), is a wholly owned subsidiary of PacificNet that specializes in strategic investment, direct investment, mergers and acquisitions, joint venture development, and other financial and investment services in Hong Kong and Greater China. Its primary purpose is to help PacificNet identify strategic investment opportunities, process deal flow, conduct due diligence, negotiate terms and valuation, monitor investment performance and conduct synergy development, with a focus in Chinese investment opportunities related to PacificNet’s business.

3) PACIFICNET POWER LIMITED (Incorporated in Hong Kong)

PacificNet Power Ltd. (referred to herein as “PacPower”), has enjoyed significant growth beginning in late 2005 and early 2006. PacPower was founded in Hong Kong on January 10, 2005 as a subsidiary of PacificNet Limited with 51% ownership by PacificNet. Headquartered in Hong Kong, PacPower invests in, develops, markets, distributes, resells, and manufactures energy saving products for use in commercial, residential and industrial settings. PacPower also engages in energy management services (EMS), energy savings consultation, analysis and solutions implementation, outsourcing energy management services, energy savings performance contract (ESPC). PacPower’s energy management services include electrical power management for lighting, air conditioning, elevators and escalators, buildings and roads, and energy related engineering services.

4) PERPETUAL GROWTH INVESTMENTS LIMITED (Incorporated in the BVI)

Perpetual Growth Investments Limited incorporated in the British Virgin Islands (BVI), is a wholly owned subsidiary of PacificNet Communications Limited.

5) PACIFIC FINANCIAL SERVICES LIMITED (Incorporated in Hong Kong)

Pacific Financial Services Limited incorporated in Hong Kong in November 2005, is a wholly owned subsidiary of PacificNet Inc. Its primary purpose is to provide financial services in Hong Kong.

6) PACIFICNET TECHNOLOGY (SHENZHEN) LIMITED (Incorporated in the PRC)

PacificNet Technology (Shenzhen) Limited (referred to herein as “PacSZ”) is incorporated in the PRC as a wholly owned foreign enterprise (WOFE) , is a wholly owned subsidiary of PacificNet Limited Hong Kong. Its primary purpose is to provide administrative support back-office, IT support and software development services, to support PacificNets' operations in China, and to conduct the general administrative operations of PacificNet in China.

7) PACIFICNET BEIJING LIMITED (Incorporated in the PRC)

PacificNet Beijing Limited (referred to herein as “PacBJ”) incorporated in the PRC as a wholly owned foreign enterprise (WOFE) is a wholly owned subsidiary of PacificNet Limited Hong Kong. Its primary purpose is to provide administrative back-office support, IT support and software development services, to support PacificNet’s operations in China, and to conduct the administrative operations of PacificNet in China.

OUR ACQUISITION MODEL FOR TELECOM VALUE- ADDED SERVICES COMPANIES IN CHINA

CORPORATE OWNERSHIP STRUCTURE

Set forth below is an illustration of our acquisition model using Clickcom as an example.

PRC laws and regulations restrict us, as a foreign entity, from having a direct controlling interest in entities such as Dianxun-DE Sunroom-DE, Wanrong-DE, and Imobile-DE that hold operating licenses to engage in domestic telecom value-added services and online ecommerce in China. As a result, we conduct substantially all of our operations through Clickcom-WOFE, Guangzhou3G-WOFE, Wanrong-WOFE and Imobile-WOFE. We own 51% of the shares in each of the WOFEs. Clickcom-WOFE, Guangzhou3G-WOFE, Wanrong-WOFE and Imobile-WOFE each signed Consulting and Services Agreements respectively with Dianxun-DE Sunroom-DE Wanrong-DE and Imobile-DE (the entities that actually carry out the operating activities). These agreements provide that all of the DE profits will flow through to the respective WOFEs. Pursuant to these agreements, we guarantee any obligations undertaken by these companies under their contractual agreements with third parties, and we are entitled to receive service fees in an amount equal to 51% of the net income of these companies. Accordingly, we bear the risks of, and enjoy the rewards associated with, the investments in Clickcom-WOFE, Guangzhou3G-WOFE, Wanrong-WOFE and Imobile-WOFE . The operations of DEs are managed by their original management teams. We do not put our own management in place, nor do we integrate current management of the DEs with management from other subsidiaries. According to the operating agreements between the DEs and WOFEs, each DEs board of directors has the power to appoint the General Manager of the DE who in turn has the power to appoint other members of the management. We do not directly participate in the daily operations DE, however, we have the power to appoint or change directors and senior management because PacificNet indirectly ultimately controls the voting power of the shareholders of each DE through the Power of Attorney given to our President, Mr. Victor Tong.

In the opinion of our internal PRC legal counsel, the ownership structures of, and contractual agreements between Clickcom-WOFE, Guangzhou3G-WOFE, Wanrong-WOFE and Imobile-WOFE with Dianxun-DE Sunroom-DE Wanrong-DE and Imobile-DE, respectively, and their shareholders, and the businesses and operations of the DEs as, respectively, described in this Annual Report, comply with all existing PRC laws, rules and regulations and are fully enforceable in accordance with their terms and conditions. In addition, our internal PRC legal counsel is of the opinion that no consent, approval or license, other than those already obtained, is required under any of the existing PRC laws, rules and regulations for the effectiveness and enforceability of the ownership structures, contractual agreements and businesses and operations of the WOFEs and those DE's. However, there may be uncertainties regarding the interpretation and implementation of current PRC laws and regulations. See "Risk Factors — Risks Relating to Our Business."

BUSINESS OPERATIONS OF THE WOFES

The business of each of Clickcom, Guangzhou3G, Wanrong and Imobile WOFE's are conducted through a series of contractual agreements with their affiliated PRC-incorporated Domestic Enterprise (DE) value-added service (VAS) or ecommerce providers, Dianxun-DE, Sunroom-DE, Wanrong-DE and Imobile-DE, respectively, and their respective shareholders. We do not have any ownership interests in Dianxun-DE, Sunroom-DE, Wanrong-DE and Imobile-DE.

WIRELESS DATA SERVICES

Dianxun-DE, Sunroom-DE and Wanrong-DE have established cooperation arrangements with mobile telecommunications operators, mobile phone producers and other wireless data service providers in the wireless VAS business. They provide wireless data services through China Mobile's Monternet and China Unicom's UNI-Info platforms pursuant to revenue sharing agreements that they have entered into with these mobile telecommunications operators. These services include color ring back tone (CRBT) services, background music (BGM) services, VICQ mobile instant messaging services, sports and soccer news, weather forecasts, stock prices, jokes, short stories, dramas, songs and mobile karaoke, mobile TV, games and entertainment.

China Mobile and China Unicom control the two mobile telecommunications networks through which all wireless data services are currently provided to mobile phone users in China. Close working relationships with China Mobile and China Unicom are critical to the operation and continued development of wireless data services business. See "Risk Factors — Risks Relating to Our Business." A substantial portion of Dianxun-DE, Sunroom-DE and Wanrong-DE business depends on mobile telecommunications operators in China, and any loss or deterioration of such relationship may result in severe disruptions to their business operations and the loss of a significant portion of our revenue. As of the end of 2005, Dianxun-DE, Sunroom-DE and Wanrong-DE had entered into approximately 25 cooperation and revenue sharing agreements with various provincial subsidiaries of China Mobile, as well as China Unicom, to provide wireless data services to mobile phone users, to research and develop new wireless data technologies and to promote the use of wireless data services in China.

Dianxun-DE, Sunroom-DE and Wanrong-DE established the fees for data services in consultation with telecommunications operators in China. They share the revenue from these fees with the telecommunications operators, content providers and mobile phone producers. They also pay a transmission fee to the appropriate telecommunications operator with respect to messages that they send through its value-added services platform.

The mobile telecommunications operators establish standards within which wireless data services providers are able to set the fees for their services. These standards are filed with the Ministry of Information Industry by the mobile telecommunications operators. In accordance with these standards, they charge the users content fees on either a per-message or a monthly subscription basis. Both per-message and monthly subscription content fees vary for the different wireless data products and services.

WIRELESS INTERACTIVE VOICE RESPONSE (IVR) SERVICES

In May 2003, China Mobile launched its wireless IVR services nationwide. Mobile phone users access Sunroom-DE's wireless IVR services through China Mobile's network. Sunroom-DE's wireless IVR services include weather forecasts, stock prices, jokes, short stories, dramas, songs and other entertainment topics, as well as community-oriented services, such as chat and dating services.

We believe that demand for wireless IVR services in China, like demand for other wireless value-added services, has been driven by the rapid increase in mobile phone ownership, the rise in average income and the emergence of a youth culture that rapidly adopts new modes of affordable entertainment.

CONSULTING AND SERVICE AGREEMENTS

The Consulting and Service Agreement signed between each WOFE and their respective DE is similar. Pursuant to the terms of the agreement, the WOFE ("Party A") agrees to be the exclusive provider of telecom consulting services to the DE ("Party B"). During the term of the agreement, Party B shall not accept technical and consulting services provided by any third party. Party B agrees to pay a fee to Party A equal to 100% of its monthly net income for the services provided. Payment of the service fees has been secured through a share pledge agreement with the

shareholders of each of the DEs, whereby they pledged all of their shares to the respective WOFE. In addition, each of the shareholders of the DEs has granted to our President, Mr. Victor Tong, a Power of Attorney which gives him the full power and authority to exercise all of the rights of the shareholders of the DEs.

(1) Each of the DEs, by design, is thinly capitalized because a substantial portion of PacificNet's invested amounts or consideration were paid or payable directly to previous owners of Sunroom-DE and Dianxun-DE for entering into the acquisition transactions while none of the investment consideration was injected into the DEs. Therefore, additional funding from PacificNet is needed to support the DEs' business development and working capital.

(2) Fees from Service Contracts - Fees from these service contracts are substantial, but are not commensurate with the level of service provided by the WOFEs to the DEs. The contractual and funding arrangements with the DEs evidence that PacificNet has closely participated in the majority of the DEs' economics. PacificNet is the primary beneficiary through its WOFE subsidiaries since PacificNet is the only enterprise with a sufficiently large interest in the VIEs. Accordingly, we conclude that going forward PacificNet should consolidate the DEs' financial interests.

BUSINESS OPERATION HIGHLIGHTS OF 2005

During the three months ended December 31, 2005, we continued to win business from high-profile Chinese and multinational companies conducting business in China such as China Mobile, China Unicom, China Telecom, Bank of China, Ping An Insurance, TCL, TNT Express, Watsons, Hutchison. All of our business units remain strong, and we continue to focus on penetrating the CRM and VAS/IVR markets through organic growth and by acquisition. With the launch of the 'iPACT' IVR-Alliance program, we hope to sign up new local IVR service providers to join our unified brand and strong IVR content and service offerings, under a chain of unified service standard under the iPACT brand. We look forward to revenue growth, market share improvement, and stronger partnerships with all the major telecom operators and local IVR service providers in China. With business activity increasing across all of our units, we are excited about the prospects for the Company in the coming quarters. We believe that our fundamentals are stronger than ever and that market opportunities for sustainable growth and profitability in China's CRM and VAS sector are vast. The following are some of the highlights of 2005:

In January, Watsons Water selected PacificNet Epro's WISE-xb Multimedia Contact Center System as its customer services initiative for its customer services center.

In January, PacificNet Linkhead, a leading provider of interactive voice response (IVR), voice chatline, mobile QQ, and other voice based value-added services in China, launched the Color Ring-back Tone (CRBT) services for China Unicom (NYSE:CHU) in Shandong and Henan. We partnered with North Tech, a leading system integrator and channel partner, in deploying the customized Color Ring-back Tone (CRBT) service for China Unicom Henan Province, with over 200,000 users based on both CDMA and GSM networks. With the CRBT service (“Cai-Ling”), subscribers can customize the ring tone from a wide selection of commercial music, personalized messages, celebrity greetings, or voice advertisements to replace the monotonous ring connecting tone that the caller would hear.

In February, we successfully deployed WISE-xb Interactive Voice Response System (IVRS) Contact Center Solution for TNT Hong Kong, a division of TPG NV and the world’s leading business to business express delivery company, as TNT’s key customer relationship management (CRM) initiative to enhance its customer services.

In March, we expanded our operations by acquiring entities that operate as service providers in the VAS & IVR industries, which have grown rapidly in China in recent years and to further develop products and services organically. On the acquisition front, the purchase of Guangzhou 3G Information Technology Co. Ltd. in April was a significant event. We purchased a 51% controlling interest, which is expected to help expand PacificNet’s value-added service coverage to all of China through Guangzhou 3G’s experienced operation team of 280 staff and sales offices in 26 provinces in China. Guangzhou 3G is one of the largest value-added telecom and information services providers in China with both voice and data connections to the four major telecom operators (China Mobile, China Unicom, China Telecom, and ChinaNetcom), covering both mobile and fixed-line networks.

In April, we were selected by Ping An Insurance (“Ping An”), the second largest life insurance company in China, to provide CRM consulting and call center training services to Ping An’s main customer service center located in Suzhou with 300 seats and 500 customer service representatives.

In April, we have formed an alliance with the largest Call Center in Japan, under which we became designated agent for Bellsystem24, Inc. in China and Hong Kong. Bellsystem24 is Japan’s largest telemarketing, call center and CRM services company with over 4,300 clients, 22,135 communication service representatives, 9,500 workstations, 160 system engineers, and 31 offices in Japan.

In June, we formed a partnership with Epicor Software Corporation (NASDAQ:EPIC), a recognized global leader of software solutions for middle-market companies, to provide Customer Relationship Management (CRM) for Chinese companies.

In July, we announced the launch of a new IVR-Alliance program called “iPACT” at the 2005 Voice Value-Added Service (VAS) Conference. Under this iPACT program, PacificNet plans to sign up qualified Voice-VAS and IVR service providers as profit sharing members in China under a unified brand “iPACT”. PacificNet will provide to qualified VAS-Alliance partners, on a profit sharing basis, all of the hardware, software, application, and content for VAS, including a variety of IVR and other wireless and fixed-line VAS content. Mobile and fixed-line phone users can access PacificNet’s VAS-Alliance services through Guangzhou 3G presence in 26 provinces in China.

In August, PacificNet Clickcom, reached an agreement with China Unicom’s Guangdong Branch to launch a new Mobile Mailbox Service called “UMAIL” for Unicom’s CDMA users on its WAP Portal website. Guangdong is one of the largest and most affluent provinces in China and represents a significant opportunity for PacificNet to offer value-added telecom services. As of June 2005, China Unicom has 30.47 million CDMA users and 8.5 million WAP users nationwide. China Unicom’s CDMA users in Guangdong may go to its WAP Portal, enter UMAIL service, and be able to send and receive e-mail by mobile phone.

In October, PacificNet Epro acquired a 70% ownership interest in Guangzhou JunFeng Network Technology Co. Ltd. (JunFeng). The acquisition is expected to be additive to Epro’s 2006 earnings.

In November, PacificNet Linkhead was awarded an open project tender by Industrial and Commercial Bank of China (“ICBC”), the largest commercial bank in China with over 21,000 domestic branches, to develop its integrated IVR telephone banking system.

In December, we continued to win high-profile government and private sector projects. We won a project tender by the City of Guangzhou, one of the largest and most affluent cities in China, to develop an Internet and intranet based e-business platform for Guangzhou Metro.

RECENT DEVELOPMENTS

Unwinding of Business Acquisition

On December 19, 2005, we announced the execution by our wholly-owned subsidiary, PacificNet Strategic Investment Holdings Limited ("PacInvest"), of an Agreement for the Sale and Purchase of 51% of Lion Zone Holdings Limited (the "Sale and Purchase Agreement"). Pursuant to the terms of the Sale and Purchase Agreement, PacInvest acquired a 51% interest in Lion Zone Holdings Limited ("Lion Zone"), which holds a 100% interest in Shenzhen GuHaiGuanChao Investment Consultant Co., Ltd. ("ChinaGoHi"), a wholly-owned foreign enterprise (WFOE) registered in China and a provider of DRTV infomercial marketing company for financial advisory services in China.

On November 20, 2006, PacInvest executed an agreement to terminate (the "Termination Agreement"), the Sale and Purchase Agreement with Lion Zone, ChinaGoHi and Mr. Wang Wenming (collectively, the "Sellers"). The Termination Agreement was effective as of November 1, 2006. As a result of the Termination Agreement, Mr. Wang Wenming and Lion Zone agreed to return to PacInvest, (1) HKD\$3,000,000, (2) USD\$100,000 in cash, and (3) 275,000 of our restricted shares, and PacInvest returned its 51% interest in Lion Zone to Mr. Wang. Additionally, the Sellers agreed to waive PacInvest's obligation during the term of the Sale and Purchase Agreement to issue the restricted shares and to provide certain loans to the Sellers. PacInvest reserved its right to re-purchase the 51% interest within 2 years of the date of signing the Termination Agreement for a purchase price of 5 times net profit based on U.S. GAAP audited financials for a period of 12 months after signing. All of the parties to the Termination Agreement agreed to waive any liabilities of each party which may result from the Termination Agreement.

The decision to terminate the Sale and Purchase Agreement was due to ChinaGoHi's inability to obtain the approval of, and get the necessary license to operate from, the China Securities Regulatory Commission ("CSRC"). We have previously disclosed in our periodic reports filed with the Securities and Exchange Commission that in the past, the Chinese government has stopped the distribution of information that it believes violates PRC law over the Internet or through VAS. We have disclosed the risk that if the PRC government were to take any action to limit or prohibit the distribution of information through our networks or via our VAS, or to limit or regulate any current or future content or services available to users on our network, our business could be significantly harmed. In July 2006, the Chinese Broadcasting Bureau along with the CSRC banned the TV membership sales model, which was the model ChinaGoHi employed in its business. The Sale and Purchase Agreement provided that if ChinaGoHi or Lion Zone was banned or in any way restricted from conducting business under the existing or new PRC laws or legislation during the period from signing the Sale and Purchase Agreement to July 1, 2006, and ChinaGoHi failed to change its business model in good faith to adapt to the new regulations, and such failure resulted in any shortcoming of the accumulated net profit, ChinaGoHi and Lion Zone would return to PacInvest all the cash and shares they obtained under the Agreement.

BUSINESS ACQUISITIONS

ACQUISITION OF GUANGZHOU WANRONG

In January 2006, we completed the acquisition of a 51% interest in Guangzhou Wanrong Information Technology Co., Ltd. ("Guangzhou Wanrong", <http://www.my2388.com>), one of the leading value-added telecom service providers in China. The acquisition is expected to be accretive to the Company's earnings in 2006. Since its inception in 2003, Guangzhou Wanrong has achieved strong growth in its VAS including SMS, WAP, JAVA, MMS, IVR, multimedia entertainment download services, media interactive products, mobile email services, life, sports, entertainment, and business information services. Guangzhou Wanrong was granted nationwide SMS service numbers "2388" for China Mobile and "9928" for China Unicom. Wanrong's integrated value-added mobile services system is valuable for the implementation of PacificNet's "iPACT program", a standard service-mark for PacificNet's VAS profit-sharing alliance partnership program. See "Product and Service Offerings: Value-Added Telecom Services" above for a detailed description of the iPACT program.

We paid approximately US\$1.75million for the equity interest in Guangzhou Wanrong, which payable 21% in cash and 79% in restricted shares of PacificNet common stock payable in restricted shares of PacificNet valued at \$8 per share, or about 173,000 restricted shares. The purchase price is payable upon achievement of certain quarterly earn-out targets based on net income. Under the purchase agreement, Guangzhou Wanrong is obligated to generate \$500,000 in annual net income. In the event of a shortfall, the purchase price will be adjusted accordingly. PacificNet will also invest approximately \$370,000 (or about RMB 3 million) in Guangzhou Wanrong for general corporate purposes.

ACQUISITION OF IMOBILE IN Q1 2006

iMobile operates its e-commerce business via two Internet portals (“<http://www.iMobile.com.cn>” and <http://www.18900.com>) and one WAP portal (“17wap.com”) for mobile phone browsing. In addition, iMobile’s 18900.com operation is the designated Internet distributor for Motorola, Nokia, and NEC’s mobile products in China. 18900.com is the leading Internet e-commerce distributor of mobile products in China, and provides Internet, email, customer service centers, pre-sale and post-sale services, logistics and cash-on-delivery (COD) services to mobile related products in China. iMobile’s 18900.com e-commerce operations combines both online Internet services with its offline customer services network composed of a nationwide chain of logistic and customer centers covering 21 provinces and 40 major cities in China, including Beijing, Shanghai, Chongqing, Tianjin, Chengdu, Dalian, Qingdao, Guangzhou, Shenzhen, Zhuhai, Dongguang, Hanzhou, Suzhou, Ningbo, Wenzhou, Nanjing, Wuhan, Xian, Harbin, Qiqihaer, Hunan and Changsha.

iMobile's Internet portal has been one of the top ranked traffic sites and has achieved about 2.3 million registered online users and over 400,000 active users, with 5 million daily page views and 20,000 blog postings per day, which makes iMobile the top ranked site in its category in China. The purchase consideration for 51% of the equity interest of iMobile is approximately US\$1.8 million, which represents approximately seven times the anticipated future annual net income of iMobile. The purchase consideration is payable 14% in cash and 86% in restricted shares of PacificNet valued at \$8 per share, or about 191,875 restricted shares. The purchase price is payable upon achievement of certain quarterly earn-out targets based on net income. Under the purchase agreement, iMobile has committed to generate \$500,000 in annual net income. In the event of a shortfall, the purchase price will be adjusted accordingly. PacificNet will also invest approximately \$250,000 (about RMB 2 million) in iMobile for general corporate and working capital purposes to support growth.

ACQUISITION OF ABLE ENTERTAINMENT TECHNOLOGY LTD.

On August 3, 2006, PacificNet's wholly owned subsidiary PacGames completed the acquisition of 100% of Able Entertainment Technology Ltd., by exchanging 65% of the share ownership of PacGames and by the issuing of 200,000 restricted shares of PacificNet Inc. Upon completion of this transaction, PacificNet Inc. owned 35% of PacGames. PacificNet subsequently acquired an additional 10% share ownership.

Under the purchase agreement, Able Entertainment Technology Ltd. has committed to generate an audited annual profit of USD\$1,600,000 and will provide for an adjustment to the purchase price if it does not achieve an annual net profit of USD\$1,600,000 during the first 12-month period and USD\$3,000,000 during the second 12-month period.

ACQUISITION OF ALLINK HONG KONG LIMITED

On August 11, 2006, PacificNet's wholly owned subsidiary PacificNet Communications Limited ("PacCom") agreed to the acquisition of 80% of Allink Hong Kong Limited ("Allink"), a leading provider of security and surveillance technology and services based in the Hong Kong Special Administrative Region of China, through the issuance of 200,000 restricted shares of PacificNet Inc. If the transaction is completed, PacificNet Inc. will own 80% of Allink. Under the purchase agreement, Allink has committed to generate an annual profit of HKD\$3,000,000 (approx USD\$385,000) and will provide for an adjustment to the purchase price if the Allink does not achieve an annual net profit of HKD\$3,000,000. Allink operates one of the leading CCTV communication and security surveillance technology and services provider utilizing extra low voltage technology for property management companies in Hong Kong and Macau, China. The transaction was originally expected to be completed in the third quarter of 2006, however since the necessary due diligence has not been completed, the Company has been unable to consummate the merger.

The consideration to be paid follows:

- (1) The purchase consideration for 80% of the equity interest of the Company is payable entirely (100%) in restricted shares of PACT, equivalent to 200,000 restricted PACT shares.
- (2) The purchase price is payable upon achievement of certain quarterly earn-out targets based on net profits.

CAPITAL RAISING TRANSACTIONS

Private Placement of Convertible Debentures and Warrants

On March 13, 2006, we completed a private placement in which we sold \$8,000,000 in convertible debentures and issued warrants to purchase up to an aggregate of 400,000 shares of common stock. The debentures are convertible at any time into shares of our common stock at an initial fixed conversion price of \$10.00 per share, subject to adjustments for certain dilutive events. The debentures are due March 13, 2009. The warrants are exercisable for a period of five years at an exercise price of \$12.20 per share. At the closing of the private placement, we prepaid the first year's interest on the debentures equal to 5% of the aggregate principal amount of debentures. We will pay interest in cash or shares, provided that certain conditions are met, at the rate of 6% for the second year the debentures are outstanding and then 7% for the third. Beginning January 1, 2007, we are obligated to redeem \$320,000 every month, plus accrued, but unpaid interest, liquidated damages and penalties. We also have the option to prepay at any time, provided that certain conditions have been met, after the 12 month anniversary of the effective date of the registration statement of which this prospectus is part, some or all of the outstanding debentures for cash in an amount equal to 120% of the principal amount outstanding, plus accrued, but unpaid interest, liquidated damages and penalties outstanding. At any time after the six month anniversary of the effective date, we may force the holders to convert up to 50% of the then outstanding principal amount of the debentures, subject to certain trading conditions being met. If any event of default occurs under the debentures or other related documents, the holders may elect to accelerate the payment of the outstanding principal amount of the debenture, plus accrued, but unpaid interest, liquidated damages and penalties, which shall become immediately due and payable.

Under the terms of the registration rights agreement, dated February 28, 2006, entered into among the Company and the holders, we are obligated to register for resale 150% of the shares of common stock issuable upon conversion of the debentures and the warrants, and interest on the convertible debentures. We are currently in default under the private placement transaction documents for the untimely filing of the registration statement, of which this prospectus is part, and for the failure to have the registration statement declared effective prior to the effectiveness date set forth in the registration rights agreement. As of November 1, 2006, we could be liable for liquidated damages of approximately \$800,000 as a result of the foregoing. As of the date of this prospectus, we paid \$35,000 in liquidated damages to one holder. As of the date of this prospectus, the holders have not elected to accelerate the payment of the outstanding principal and interest owing on the debenture.

Also in connection with the private placement, Messrs. Tony Tong, Victor Tong and Shaojian Wang and Sino Mart Management Ltd., and its sole officer and director, Mr. Cho Sam Tong, entered into lock-up agreements restricting the disposition of shares of our common stock beneficially owned by them until the earlier of 30 days from the effective date of the registration statement, or February 28, 2008.

Messrs. Tony and Victor Tong, Wang and Sino Mart Management Ltd. each executed letter agreements to the holders of the convertible debentures and warrants, in which they each agreed to vote all of the shares of the Company over which they have voting control in favor of any resolutions presented to the stockholders of the Company to approve the issuance, in the aggregate, of more than 19.999% of the number of shares of common stock of the Company outstanding on the closing date of the private placement. They executed each letter agreement in consideration of, and as a condition to the consummation of the private placement.

C.E. Unterberg, Towbin LLC acted as Placement Agent and received a cash fee in the amount of \$449,500 and a warrant to purchase up to 16,000 shares. Maxim Group also acted as Placement Agent and received a cash fee in the amount of \$50,000.

PRODUCTS AND SERVICES OFFERED

Our goal is to take a leading role in providing information technology services and network communications, which are rapidly expanding business sectors in Asia. The services offered by each of our subsidiaries can be classified within one of the following three business groups:

1. OUTSOURCING SERVICES

BUSINESS PROCESS OUTSOURCING (BPO)

PACIFICNET EPRO HOLDINGS Limited (“Epro”) operates our call center offering 24 hour staff-answering and automatic-answering service hotlines in our service areas, handling customer inquiries regarding services, billing, and technical support, as well as customer complaints. We offer services targeted at high-value and corporate customers. We provide them with dedicated account executives, on-site visits, and systems for collecting comments and handling complaints.

Epro is a leading provider of outsourced call-center services with over 15 years of field experience in greater China. Epro’s business consists of the following three major categories:

(1) **OUTSOURCED CALL CENTER SERVICES** Epro’s ISO 9001 certified outsourcing contact center hosts over 1,000 workstations and 1,200 agents, processing over 100,000 calls daily and provides multi-lingual inbound and outbound CRM services. The call center is the largest outsourced call center in Hong Kong. Epro permits its clients to recruit and hire their own personnel to work in its call center, for which Epro provides managerial services, call center seats, and equipment. Our inbound call center services include sales inquiry hotline, telephone orders, technical

helpdesk, and customer service. Certain of our clients also engage us to provide telemarketing and telesales for their products and for promotions, to conduct market surveys, and to provide administrative functions, such as appointment setting.

(2) **TRAINING AND CONSULTING SERVICES** The Epro Call Center Training Institute (ECCTI) is a leading provider of Contact Center Management Consulting and Training services, which helps clients to maximize the return on investment of their CRM operations. Through ECCTI, we provide on-site training and consulting services, and we offer courses and seminars for call center managers and professionals, sales representatives, customer service representatives and telemarketing service representatives and in-house trainers.

(3) **CALL CENTER MANAGEMENT SOFTWARE PRODUCTS AND SOLUTIONS WISE-xb** Call Center agent performance management and reporting software is Epro's proprietary call center management software. Wise-xb has been installed in over 60 customer sites in the PRC. Epro's products also include Automatic Call Distribution (ACD) System, Unified Messaging System (UMS), SMS, and VAS.

INFORMATION TECHNOLOGY OUTSOURCING (ITO)

PACIFIC SMARTIME SOLUTIONS LIMITED (“Smartime”) - Through Pacific Solutions Technology (Shenzhen) Company Limited, its operating subsidiary in Shenzhen, China, Smartime provides outsourced consulting services and programming services, including software development, R&D, and project management to leading telecom, banking and financial services companies including Huawei, IBM, Bank of East Asia and others.

PACIFICNET SOLUTIONS LIMITED (“PacSo”) - PacSo specializes in systems integration, software application, and e-business solutions services in Hong Kong and Greater China. The scope of PacSo’s products and services includes smart card solutions, web based front-end applications and web based connections to backend enterprise planning systems.

2. VALUE-ADDED TELECOM SERVICES (VAS)

LINKHEAD - Linkhead is a value-added reseller and provider of VAS, such as IVR system development and integration, SMS, and voice-portal services. Linkhead is also a channel partner, or a master reseller, of NMS Communications system hardware, a leading provider of communications technologies. Linkhead also acts as a mobile phone systems integrator for service providers in China, providing the hardware, know-how, and software for mobile phone VAS, such as mobile chat, mobile karaoke, and color ring back tone. The service providers ultimately provide the Linkhead systems to telecom operators, such as China Unicom and China Netcom.

CLICKCOM-WOFE - Through Clickcom-WOFE and its affiliated company Dianxun-DE we can offer, directly to China’s telecom operators, a wide variety of wireless Internet services for mobile phones, such as SMS, Wireless Application Protocol (WAP), which allows users to access information instantly via handheld wireless devices, and Java mobile applications. The acquisition of Clickcom-WOFE was our first step in entering the VAS service provider market where we anticipate designing our own mobile phone VAS for distribution directly to telecom operators.

GUANGZHOU3G-WOFE - Guangzhou3G-WOFE is one of the largest value-added telecom and information services providers in China with both voice (IVR and call center) and data (SMS, MMS, WAP, JAVA, GPRS) connections to the four major telecom operators: China Mobile, China Unicom, China Telecom, and China Netcom, covering both mobile and fixed-line networks. Guangzhou 3G also offers a wide variety of IVR and other wireless and fixed-line, value-added telecom services including color ring back tone (CRBT) services, background music (BGM) services, VICQ mobile instant messaging services, sports and soccer news, weather forecasts, stock prices, jokes, short stories, dramas, songs and mobile karaoke, mobile TV, games, entertainment, as well as community-oriented services, such as chatline and dating services. Mobile and fixed-line phone users can access Guangzhou 3G IVR services through one of the four major telecom operators’ networks.

IPACT INTERNATIONAL INVESTMENT LIMITED - IPACT plans to sign up qualified Voice-VAS and IVR service providers as profit sharing members in China under a unified brand “iPACT.” We will provide to qualified VAS-Alliance partners, on a profit sharing basis, all of the hardware, software, application, and content for VAS, including a variety of IVR and other wireless and fixed-line VAS content, including color ring back tone (CRBT) services, background music (BGM) services, VICQ mobile instant messaging services, sports news, weather forecasts, stock market, humor, songs and mobile karaoke, mobile TV, games, entertainment, as well as community-oriented services, such as chatline and dating services. Mobile and fixed-line phone users can access PacificNet’s VAS-Alliance services through Guangzhou 3G presence in 26 provinces in China.

PACIFICNET AD. LIMITED - PacificNet Ad. Limited was newly formed in December 2005 in Hong Kong and provides advertising and media services.

3. PRODUCTS (TELECOM AND GAMING)

SHANGHAI CLASSIC - Shanghai Classic distributes telecom services for mobile phones, such as mobile phones, calling cards, mobile SIM cards, prepaid stored-value cards, wireless broadband and Internet services for mobile phones. We sell mobile phones and calling cards wholesale to distributors who in turn sell to retail shops and newsstands. IMOBILE - iMobile's Internet portal has been one of the top ranked traffic sites and has achieved about 2.3 million registered online users and over 400,000 active users, with 5 million daily page views and 20,000 blog postings per day, which makes iMobile the top ranked site in its category in China.

PACIFICNET COMMUNICATIONS LIMITED - PacCom specializes in telecom related services in Hong Kong and Greater China.

PACIFICNET IMOBILE (BEIJING) TECHNOLOGY CO., LIMITED - iMobile operates its e-commerce business via two Internet portals, "http://www.iMobile.com.cn" and "http://www.18900.com" and one WAP portal "17wap.com" for mobile phone browsing. In addition, iMobile's 18900.com operation is the designated Internet distributor for Motorola, Nokia, and NEC's mobile products in China. 18900.com is the leading Internet e-commerce distributor of mobile products in China, and provides Internet, email, customer service centers, pre-sale and post-sale services, logistics and cash-on-delivery (COD) services to mobile related products in China. iMobile's 18900.com e-commerce operations combines both online Internet services with its offline customer services network composed of a nationwide chain of logistic and customer centers covering 22 provinces and 40 major cities in China.

TAKE1 - Take1 manufactures multimedia entertainment and communication kiosk products including photo and video entertainment kiosks, digital camera photo development stations, multimedia messaging services (MMS) and mobile content download, payment and delivery stations for mobile phones, and other coin-operated kiosks and kiosk consumables.

PACIFICNET GAMES LIMITED - PacGames designs and distributes Asian electronic gaming machines, multi-player electronic gaming technology solutions and gaming related maintenance, IT, and distribution services for the leading hotel and casino operators based in Macau and other Asian gaming markets.

ALLINK HONG KONG LIMITED - Allink provides security and surveillance technology and services.

PRINCIPAL CUSTOMERS

Our principal customers in each of our business groups are located in Hong Kong, mainland China and other regions of Asia. Our key clients consist of leading telecom operators, banks, insurance, travel, marketing, government, services companies and telecom consumers.

1. OUTSOURCING SERVICES (INCLUDING BPO, ITO, CALL CENTER SERVICES) CUSTOMERS

The following is a brief description of some of the Company's customers in the outsourcing services group:

HUTCHISON TELECOM - A subsidiary of Hutchison Whampoa Ltd, is one of the world's leading owners and operators of telecommunications, offering a wide range of communication services in Hong Kong and around the globe including mobile telephony (voice and multimedia), paging, trunked radio, fixed-line services, Internet services, fiber optic broadband networks and radio broadcasting.

PCCW LIMITED - A leading telecommunications carrier and service provider in Hong Kong.

SUNDAY COMMUNICATIONS LIMITED - One of the six mobile operators in Hong Kong, SUNDAY was granted a mobile carrier license in Hong Kong to construct and operate a 3G network. SUNDAY offers its mobile subscribers basic airtime services, value-added services, enhanced services, short messaging services, wireless data services, roaming services and international long distance calling services, and sells accessories.

BANK OF CHINA GROUP INSURANCE COMPANY (BOCGI) - BOCGI owns 6 branches and one wholly owned subsidiary life insurance company (Bank of China Group Life Assurance Company Ltd.) in Hong Kong and Mainland China.

AMERICAN EXPRESS BANK (HONG KONG) - A diversified worldwide travel, financial and network services company founded in 1850. It is a world leader in charge and credit cards, Travelers Cheques, financial planning, business services, insurance and international banking.

ACNIELSEN (CHINA) LTD. - The world's leading provider of market research, information and analysis to the consumer products and services industries, primarily in retail measurement, consumer panel research, customized research and media measurement, as well as to government and social services.

HSBC - One of the largest banking and financial services organizations in the world. HSBC's international network comprises over 9,500 offices in 76 countries and territories in Europe, the Asia-Pacific region, the Americas, the Middle East and Africa.

SO-NET, HONG KONG - A wholly owned subsidiary of Sony Corporation of Hong Kong Limited. So-net was granted a sub-license from Sony Communication Network Corporation (SCN) to create a broadband service under the So-net brand. So-net has become the third largest Internet Service Provider in Japan with a subscriber base of 1.7 million. Sony is a leading manufacturer of audio, video, game, communications and information technology products for the consumer and professional markets

TCL CORPORATION - A leading consumer electronics brand in China that runs its business from multimedia to mobile phones, from personal computers to home appliances, from electric lighting to digital products.

HONG KONG GOVERNMENT - Hong Kong Housing Authority - The Hong Kong Housing Authority (HA) was established as a statutory body in April 1973 under Hong Kong's Housing Ordinance. Within the Government's overall

housing policy framework, the HA determines and implements public housing programs.

2. VALUE-ADDED TELECOM SERVICES (VAS) CUSTOMERS

CHINA TELECOM - The largest fixed service telecommunications provider in China, which includes data, Internet, and the XiaoLingTong PAS wireless system.

CHINA NETCOM - One of the four major telecom carriers in China, which includes fixed line, data, Internet, and the XiaoLingTong wireless system.

CHINA MOBILE - The largest mobile operator in China.

CHINA UNICOM - One of the major mobile operators in China operating both GSM and CDMA mobile networks, long-distance call, local call, data communication including Internet service and IP phone, value-added telecom service, wireless paging and a variety of relevant services.

3. PRODUCTS (TELECOM AND GAMING)

China Telecom, China Netcom, China Mobile and China Unicom are our primary customers of our telecom products.

MOTOROLA - A world leader in wireless and broadband communications.

NOKIA - Nokia is a world leader in mobile communications, with products like mobile phones, devices and solutions for imaging, games, media and businesses. Nokia provides equipment, solutions and services for network operators and corporations.

SALES AND MARKETING

We do not engage in any significant marketing activities. We advertise our services by attending various CRM and VAS trade shows and conferences in China. There are a limited number of competitors in our industry; accordingly, new business opportunities are generated mainly through business contacts and by word of mouth. We rely on our reputation for quality and efficiency among our customers and leveraging our strategic investors to obtain new business.

GOVERNMENT REGULATION

We operate our business in China under a legal regime that consists of the State Council, which is the highest authority of the executive branch of the PRC central government, and several ministries and agencies under its leadership, including:

the Ministry of Information Industry (MII);

the China Securities Regulatory Commission (CSRC);

the Ministry of Culture;

the General Administration of Press and Publication of the P.R. China;

the State Copyright Bureau;

the State Administration of Industry and Commerce (SAIC);

the Ministry of Public Security; and

the Ministry of Commerce.

The State Council and these ministries and agencies have issued a series of rules that regulate a number of different substantive areas of our business, which are discussed below.

FOREIGN OWNERSHIP RESTRICTION ON BUSINESSES ENGAGED IN PROVIDING INTERNET CONTENT

PRC regulations currently limit foreign ownership of companies that provide Internet content services to 50%. This limitation extends to our IVR, call center and telecom VAS. There are substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations with respect to our acquisition model. In the opinion of our in-house PRC legal counsel, our current ownership structure, the contractual arrangements among

our wholly owned subsidiaries and the operating company and their shareholders comply with all existing applicable PRC laws, rules and regulations. We cannot assure that the PRC regulatory authorities will not ultimately take a view that is contrary to the opinion of our PRC legal counsel. If the PRC government finds that the agreements that establish the structure of our operations in China do not comply with PRC government restrictions on foreign investment in our industry, we could be subject to severe penalties. Under PRC law, we cannot hold the licenses and obtain the approvals necessary to operate a website because those licenses and approvals can not be held by foreign entities or majority foreign-owned entities.

LICENSES AND PERMITS

There are a number of aspects of our business which require us to obtain licenses from a variety of PRC regulatory authorities. For example, in order to host a website, we are required to hold an Internet content provider, or ICP, license issued by the Ministry of Information Industry or its local offices. A recent regulation issued by the Ministry of Information Industry requires short message, or SMS, content providers to obtain an SMS license from the Ministry of Information Industry or its local offices. Furthermore, the Ministry of Information Industry has promulgated rules requiring ICP license holders that provide online bulletin board services to register with, or obtain an approval from, the relevant telecommunications authorities.

REGULATION OF INTERNET CONTENT

The PRC government has promulgated measures relating to Internet content through a number of ministries and agencies, including the Ministry of Information Industry, the Ministry of Culture and the State Press and Publications Administration. These measures specifically prohibit Internet activities that result in the publication of any content which is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites. Specifically, Shenzhen, Beijing and Guangzhou branches of the General Administration of Press and Publication of the PRC, the government authority regulating news publication, confirmed with us that so long as we do not provide general news on politics, society or culture, or establish a “news column,” or provide such information under express heading of “news,” we are not required to obtain a license to publish financial or economic related news content.

REGULATION OF INFORMATION SECURITY

Internet content in China is also regulated and restricted by the PRC government to protect State security. The National People’s Congress, China’s national legislative body, has enacted a law that may subject to criminal punishment in China any effort to: (1) gain improper entry into a computer or system of strategic importance; (2) disseminate politically disruptive information; (3) leak State secrets; (4) spread false commercial information; or (5) infringe intellectual property rights.

The Ministry of Public Security has promulgated measures that prohibit use of the Internet in ways which, among other things, result in a leakage of State secrets or a spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection rights in this regard and we may be subject to the jurisdiction of the local security bureaus. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

INTELLECTUAL PROPERTY RIGHTS

The State Council and the State Copyright Bureau have promulgated various regulations and rules relating to protection of software in China. Under these regulations and rules, software owners, licensees and transferees should register their rights in software with the State Copyright Bureau or its local offices and obtain software copyright registration certificates. Although such registration is not mandatory under PRC law, software owners, licensees and transferees are encouraged to go through the registration process. Therefore persons with registered software rights may receive better protection. We have registered all of our self-developed software with the State Copyright Bureau.

PRC law requires owners of Internet domain names to register their domain names with qualified domain name registration agencies approved by the Ministry of Information Industry and obtain a registration certificate from such registration agencies. A registered domain name owner has an exclusive use right over its domain name. Unregistered domain names may not receive proper legal protections and may be misappropriated by unauthorized third parties. We

have registered another domain name, www.FMM88.com, with the Internet Corporation for Assigned Names and Numbers, or ICANN, an internationally organized, non-profit corporation that has responsibility for Internet Protocol (IP) address space allocation.

PRIVACY PROTECTION

PRC law does not prohibit Internet content providers from collecting and analyzing personal information from their users. On our website, our users are required to accept a user agreement whereby they agree to provide certain personal information to us. PRC law prohibits Internet content providers from disclosing to any third parties any information transmitted by users through their networks unless otherwise permitted by law. If an Internet content provider violates these regulations, the Ministry of Information Industry or its local offices may impose penalties and the Internet content provider may be liable for damages caused to its users.

ADVERTISING REGULATION

PRC law requires entities conducting advertising activities to obtain an advertising permit from the SAIC's local offices. Entities conducting advertising activities without such permit may be charged a fine or imposed other penalties by the SAIC's local offices. Currently, foreign investors cannot own more than 70% equity interest in an advertising agency in China.

COMPETITION

We expect competition to persist and intensify in the future. Our competitors include small firms offering specific applications, divisions of large entities and large independent firms. A number of competitors have or may develop greater capabilities and resources than ours. We face the risk that new competitors with greater resources than ours will enter our market. Our competitors are mainly leaders in the CRM and VAS markets. Competitive pressures from current or future competitors could cause our services to lose market acceptance or require a significant reduction in the price of our services.

1. OUTSOURCING SERVICES (INCLUDING BPO, ITO, CALL CENTER SERVICES) COMPETITORS:

PCCW is one of Asia's leading integrated communications services companies, providing local telephony and broadband services to businesses.

Chinasoft International Limited, or ICSS, is a leading e-government solution provider and software developer in the PRC, and has entered the software outsourcing, interrelated systems integration, consultancy and training services industry.

2. VALUE-ADDED TELECOM SERVICES (VAS) COMPETITORS:

China Finance Online Co. Ltd., (NASDAQ:JRJC), is one of the leading companies that specialize in providing online financial and listed company data and information in China. They offer subscription-based services based on a single information platform that integrates data and information from multiple sources with features and functions such as data and information search, retrieval, delivery, storage and analysis.

TOM Online Inc. (NASDAQ:TOMO), is a leading wireless Internet company in China providing value-added multimedia products and services, targeting the young and trendy demographics. The company's primary business activities include wireless value-added services and online advertising. The company offers an array of services such as SMS, MMS, WAP, wireless IVR (interactive voice response) services, content channels, search and classified information, and free and fee-based advanced email.

SINA Corporation (NASDAQ:SINA) is a leading online media company and value-added information service (VAS) provider for China and for Chinese communities worldwide offering Internet users and government and business clients an array of services.

3. PRODUCTS (TELECOM AND GAMING) COMPETITORS.

There are several major players in the gaming machine industry, including ShuffleMaster and International Gaming Technology. Both of these companies are publicly-traded and provide gaming technology to the casino industry.

There are various smaller regional players in the communications distribution industry.

RESEARCH AND DEVELOPMENT

We place great emphasis on the continued enhancement of our existing products and solutions, including designing, developing and supporting a portfolio of converged voice and data enhanced services, products and solutions to help wireless, fixed-line and Internet service providers offer unprecedented access to communications, information and commerce. We have ongoing research and development activities with respect to the following products and solutions:

52

- multi-media information on demand systems, which integrates the dynamics of the Internet with voice-based communication applications, including text-to-speech and voice recognition capabilities;
- web-based multimedia call center/customer relationship management for service providers and corporations;
- WISE-xb, which is a call center agent performance management and reporting software. It provides intelligent routing, comprehensive ACD/PBX capabilities, Email, IVR, Voice Mail, Messaging, Conference, Recording, Coaching/Supervising, Reporting and Interface;
- voice mail systems;
- color ringback tone systems; and
- value-added services for mobile users.

Fiona Yee-Chong Cheuk	31	Marketing and PR Manager, CRM & Call Center Services

Our executive officers are appointed at the discretion of our board of directors with no fixed term. There are no family relationships between or among any of our executive officers or our directors other than the relationship between Mr. Tony Tong and Mr. Victor Tong.

The following is a brief description of each board of director, key positions and brief biography:

Mr. Tony Tong, age 37, is the Chairman, CEO, Executive Director, and founder of PacificNet. From 1995 to 1997, Mr. Tong served as the Chief Information Officer of DDS Inc., a leading SAP-ERP consulting company in the USA, which was later acquired by CIBER, Inc. (NYSE: CBR). From 1993 to 1994, Mr. Tong worked for Information Advantage, Inc. (NASDAQ:IACO), a leading business intelligence, Data-Mining and CRM technology provider serving Fortune 500 clients. IACO consummated an IPO on NASDAQ in 1997 and was later acquired by Sterling Software and Computer Associates (NYSE: CA). From 1992 to 1993, Mr. Tong worked as a Business Process Re-engineering Consultant at Andersen Consulting (now Accenture, NYSE:ACN). From 1990 to 1991, Mr. Tong worked for ADC Telecommunications (NASDAQ:ADCT), a global supplier of telecom equipment. Mr. Tong's R&D achievements include being the inventor and patent holder of US Patent Number 6,012,066 (granted by the US Patent and Trademark Office) titled "Computerized Work Flow System, an Internet-based workflow management system for automated web creation and process management." Mr. Tong also serves on the board of advisors of Fortune Telecom (listed on Hong Kong Stock Exchange: 0110.HK), a leading distributor of mobile phones, PDAs, telecom services,

and accessories in China and Hong Kong. Mr. Tong is a frequent speaker on technology i
