FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the fiscal year ended October 31, 2016

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-12803

URSTADT BIDDLE PROPERTIES INC.
(Exact name of registrant as specified in its charter)

Maryland 04-2458042
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification Number)

321 Railroad Avenue, Greenwich, CT 06830
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (203) 863-8200

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
Common Stock, par value \$.01 per share	New York Stock Exchange
Class A Common Stock, par value \$.01 per share	New York Stock Exchange
7.125% Series F Cumulative Preferred Stock	New York Stock Exchange
6.75% Series G Cumulative Preferred Stock	New York Stock Exchange
Preferred Share Purchase Rights	New York Stock Exchange

Securities registered pursuant to Section 12 (g) of
the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes ☐ No ☐

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or 15 (d) of the Act.

Yes ☐ No ☐

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☐ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer ☐ Accelerated filer ☐
Non-accelerated filer ☐ Smaller reporting company ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes ☐ No ☐

The aggregate market value of the voting common stock held by non-affiliates of the Registrant as of April 30, 2016 (price at which the common equity was last sold as of the last business day of the Registrant's most recently completed second fiscal quarter): Common Shares, par value \$.01 per share, \$41,769,387; Class A Common Shares, par value \$.01 per share, \$596,259,676.

Indicate the number of shares outstanding of each of the Registrant's classes of Common Stock and Class A Common Stock, as of January 5, 2017 (latest date practicable): 9,660,073 Common Shares, par value \$.01 per share, and 29,729,545 Class A Common Shares, par value \$.01 per share.

DOCUMENTS INCORPORATED BY REFERENCE

Proxy Statement for Annual Meeting of Stockholders to be held on March 22, 2017 (certain parts as indicated herein) (Part III).

Special Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K of Urstadt Biddle Properties Inc. (the "Company") contains certain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Such statements can generally be identified by such words as "anticipate", "believe", "can", "continue", "could", "estimate", "expect", "intend", "may", "plan", "seek", "should", "will" or variations of such words or other similar expressions and the negatives of such words. All statements included in this report that address activities, events or developments that we expect, believe or anticipate will or may occur in the future, including such matters as future capital expenditures, dividends and acquisitions (including the amount and nature thereof), business strategies, expansion and growth of our operations and other such matters, are forward-looking statements. These statements are based on certain assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate. Such statements are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance or achievements, financial and otherwise, may differ materially from the results, performance or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

- economic and other market conditions that could impact us, our properties or the financial stability of our tenants;
 - financing risks, such as the inability to obtain debt or equity financing on favorable terms, as well as the level and volatility of interest rates;
 - any difficulties in renewing leases, filling vacancies or negotiating improved lease terms;
 - the inability of the Company's properties to generate revenue increases to offset expense increases;
 - environmental risk and regulatory requirements;
 - risks of real estate acquisitions and dispositions (including the failure of transactions to close);
 - risks of operating properties through joint ventures that we do not fully control;
- as well as other risks identified in this Annual Report on Form 10-K under Item 1A. Risk Factors and in the other reports filed by the Company with the Securities and Exchange Commission (the "SEC").

Item 1. Business.

Organization

We are a real estate investment trust, organized as a Maryland corporation, engaged in the acquisition, ownership and management of commercial real estate. We were organized as an unincorporated business trust (the "Trust") under the laws of the Commonwealth of Massachusetts on July 7, 1969. In 1997, the shareholders of the Trust approved a plan of reorganization of the Trust from a Massachusetts business trust to a Maryland corporation. As a result of the plan of reorganization, the Trust was merged with and into the Company, the separate existence of the Trust ceased, the Company was the surviving entity in the merger and each issued and outstanding common share of beneficial interest of the Trust was converted into one share of Common Stock, par value \$.01 per share, of the Company.

Tax Status – Qualification as a Real Estate Investment Trust

We elected to be taxed as a real estate investment trust ("REIT") under Sections 856-860 of the Internal Revenue Code of 1986, as amended (the "Code"), beginning with its taxable year ended October 31, 1970. Pursuant to such provisions of the Code, a REIT which distributes at least 90% of its real estate investment trust taxable income to its shareholders each year and which meets certain other conditions regarding the nature of its income and assets will not be taxed on that portion of its taxable income which is distributed to its shareholders. Although we believe that we qualify as a real estate investment trust for federal income tax purposes, no assurance can be given that we will continue to qualify as a REIT.

Description of Business

Our sole business is the ownership of real estate investments, which consist principally of investments in income-producing properties, with primary emphasis on properties in the metropolitan New York tri-state area outside of the City of New York. Our properties consist primarily of neighborhood and community shopping centers and seven small office buildings near our headquarters. We seek to identify desirable properties for acquisition, which we acquire in the normal course of business. In addition, we regularly review our portfolio and, from time to time, may sell certain of our properties.

We do not consider our real estate business to be seasonal in nature.

At October 31, 2016, the Company owned or had equity interests in seventy-five properties comprised of neighborhood and community shopping centers, office buildings, single tenant retail or restaurant properties and office/retail mixed use properties located in four states throughout the United States, containing a total of 5.0 million square feet of gross leasable area ("GLA"). For a description of the Company's individual investments, see Item 2. Properties.

Table of Contents

Investment and Operating Strategy

Our investment objective is to increase the cash flow and the value of our properties. We seek growth through (1) the strategic re-tenanting, renovation and expansion of our existing properties, and (2) the selective acquisition of income-producing properties, primarily neighborhood and community shopping centers, in our targeted geographic region. We may also invest in other types of real estate in the targeted geographic region. For a discussion of key elements of our growth strategies and operating policies, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

We invest in properties where cost effective renovation and expansion programs, combined with effective leasing and operating strategies, can improve the properties' values and economic returns. Retail properties are typically adaptable for varied tenant layouts and can be reconfigured to accommodate new tenants or the changing space needs of existing tenants. In determining whether to proceed with a renovation or expansion, we consider both the cost of such expansion or renovation and the increase in rent attributable to such expansion or renovation. We believe that certain of our properties provide opportunities for future renovation and expansion.

When evaluating potential acquisitions, we consider such factors as (1) economic, demographic, and regulatory conditions in the property's local and regional market; (2) the location, construction quality, and design of the property; (3) the current and projected cash flow of the property and the potential to increase cash flow; (4) the potential for capital appreciation of the property; (5) the terms of tenant leases, including the relationship between the property's current rents and market rents and the ability to increase rents upon lease rollover; (6) the occupancy and demand by tenants for properties of a similar type in the market area; (7) the potential to complete a strategic renovation, expansion or re-tenanting of the property; (8) the property's current expense structure and the potential to increase operating margins; (9) competition from comparable properties in the market area; and (10) vulnerability of the property's tenants to competition from e-commerce.

We may, from time to time, enter into arrangements for the acquisition of properties with property owners through the issuance of units of limited partnership (or units of limited liability company) interests in entities that we control. These units may be redeemable for cash or for shares of our Common stock or Class A Common stock. We believe that this acquisition method may permit us to acquire properties from property owners wishing to enter into tax-deferred transactions.

At October 31, 2016, our properties collectively had 862 leases with tenants providing a wide range of products and services. Tenants include regional supermarkets, national and regional discount department stores, other local retailers and office tenants. At October 31, 2016, the sixty-eight consolidated properties were 93.3% leased (see Results of Operations discussion in Item 7). At October 31, 2016, we had equity investments in seven properties which we do not consolidate; those properties were 98.4% leased. We believe the properties are adequately covered by property and liability insurance.

A substantial portion of our operating lease income is derived from tenants under leases with terms greater than one year. Certain of the leases provide for the payment of monthly fixed base rentals and for the payment by the tenant of a pro-rata share of the real estate taxes, insurance, utilities and common area maintenance expenses incurred in operating the properties.

For the fiscal year ended October 31, 2016, no single tenant comprised more than 7.4% of the total annual base rents of our properties. The following table sets forth a schedule of our ten largest tenants by percent of total annual base rent of our properties to total annual base rent for the year ended October 31, 2016.

Tenant	Number	% of Total
--------	--------	------------

		of Stores Annual Base Rent of Properties
Stop & Shop Supermarkets	7	7.4%
CVS	9	4.9%
ACME Supermarkets	4	4.2%
TJX Companies	5	3.3%
Bed Bath & Beyond	3	3.2%
Staples	3	1.6%
BJ's	1	1.4%
Rite Aid	4	1.4%
King's Supermarkets	2	1.3%
ShopRite Supermarkets	2	1.3%
	40	30.0%

See Item 2. Properties for a complete list of the Company's properties.

The Company's single largest real estate investment is its 100% ownership of the general and limited partnership interests in the Ridgeway Shopping Center ("Ridgeway").

Ridgeway is located in Stamford, Connecticut and was developed in the 1950's and redeveloped in the mid 1990's. The property contains approximately 374,000 square feet of GLA. It is the dominant grocery anchored center and the largest non-mall shopping center located in the City of Stamford, Fairfield County, Connecticut. For the year ended October 31, 2016, Ridgeway revenues represented approximately 11.3% of the Company's total revenues and approximately 7.6% of the Company's total assets at October 31, 2016. As of October 31, 2016, Ridgeway was 98% leased. The property's largest tenants (by base rent) are: The Stop & Shop Supermarket Company (19%), Bed, Bath & Beyond (14%) and Marshall's Inc., a division of the TJX Companies (11%). No other tenant accounts for more than 10% of Ridgeway's annual base rents.

The following table sets forth a schedule of the annual lease expirations for retail leases at Ridgeway as of October 31, 2016 for each of the next ten years and thereafter (assuming that no tenants exercise renewal or cancellation options and that there are no tenant bankruptcies or other tenant defaults):

Year of Expiration	Number of Leases Expiring	Square Footage of Expiring Leases	Minimum Base Rentals	Percentage of Total Annual Base Rent that is Represented by the Expiring Leases	
2017	4	62,900	\$2,158,300	20.4	%
2018	8	86,700	3,078,400	29.1	%
2019	3	9,400	428,200	4.0	%
2020	4	34,800	628,400	5.9	%
2021	3	43,400	926,500	8.7	%
2022	3	22,400	875,800	8.3	%
2023	5	60,300	1,871,700	17.7	%
2024	1	6,500	259,900	2.5	%
2025	-	-	-	-	%

Edgar Filing: URSTADT BIDDLE PROPERTIES INC - Form 10-K

2026	2	10,300	363,700	3.4	%
Thereafter	-	-	-	-	%
Total	33	336,700	\$ 10,590,900	100	%

For further financial information about Ridgeway see Item 8 included in this Annual Report on Form 10-K.

Financing Strategy

We intend to continue to finance acquisitions and property improvements and/or expansions with the most advantageous sources of capital which we believe are available to us at the time, and which may include the sale of common or preferred equity through public offerings or private placements, the incurrence of additional indebtedness through secured or unsecured borrowings, investments in real estate joint ventures and the reinvestment of proceeds from the disposition of assets. Our financing strategy is to maintain a strong and flexible financial position by (1) maintaining a prudent level of leverage, and (2) minimizing our exposure to interest rate risk represented by floating rate debt.

Compliance with Governmental Regulations

We, like others in the commercial real estate industry, are subject to numerous environmental laws and regulations. We may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under our properties, as well as certain other potential costs relating to hazardous or toxic substances (including government fines and penalties and damages for injuries to persons and adjacent property). These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages and our liability therefore could exceed the value of the property and/or our aggregate assets. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent that property or to borrow using that property as collateral, which, in turn, would reduce our revenues and ability to make distributions.

Our existing properties, as well as properties we may acquire, as commercial facilities, are required to comply with Title III of the Americans with Disabilities Act of 1990. The requirements of this Act, or of other federal, state or local laws or regulations, also may change in the future and restrict further renovations of our properties with respect to access for disabled persons. Future compliance with this Act may require expensive changes to the properties.

Competition

The real estate investment business is highly competitive. We compete for real estate investments with investors of all types, including domestic and foreign corporations, financial institutions, other real estate investment trusts, real estate funds, individuals and privately owned companies. In addition, our properties are subject to local competitors from the surrounding areas. Our shopping centers compete for tenants with other regional, community or neighborhood shopping centers in the respective areas where our retail properties are located. In addition, the retail industry is seeing greater competition from internet retailers who do not need to establish "brick and mortar" retail locations for their businesses. This reduces the demand for traditional retail space in shopping centers like ours and other grocery-anchored shopping center properties. Our office buildings compete for tenants principally with office buildings throughout the respective areas in which they are located. Leasing decisions are generally determined by prospective tenants on the basis of, among other things, rental rates, location, and physical quality of the property and availability of space.

Property Management

We actively manage and supervise the operations and leasing at all of our properties.

Employees

Our executive offices are located at 321 Railroad Avenue, Greenwich, Connecticut. We have 51 employees and believe that our relationship with employees is good.

Company Website

All of the Company's filings with the SEC, including the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, are available free of charge at the Company's website at www.ubproperties.com as soon as reasonably practicable after the Company electronically files such material with, or furnishes it to, the SEC. These filings can also be accessed through the SEC's website at www.sec.gov.

Table of Contents

Item 1A. Risk Factors

Risks Related to our Operations and Properties

There are risks relating to investments in real estate and the value of our property interests depends on conditions beyond our control. Yields from our properties depend on their net income and capital appreciation. Real property income and capital appreciation may be adversely affected by general and local economic conditions, neighborhood values, competitive overbuilding, zoning laws, weather, casualty losses and other factors beyond our control. Since substantially all of our income is rental income from real property, our income and cash flow could be adversely affected if a large tenant is, or a significant number of tenants are, unable to pay rent or if available space cannot be rented on favorable terms.

Operating and other expenses of our properties, particularly significant expenses such as interest, real estate taxes and maintenance costs, generally do not decrease when income decreases and, even if revenues increase, operating and other expenses may increase faster than revenues.

We may be unable to sell properties when appropriate because real estate investments are illiquid. Real estate investments generally cannot be sold quickly. In addition, there are some limitations under federal income tax laws applicable to real estate and to REITs in particular that may limit our ability to sell our assets. We may not be able to alter our portfolio promptly in response to changes in economic or other conditions. Our inability to respond quickly to adverse changes in the performance of our investments could have an adverse effect on our ability to meet our obligations and make distributions to our stockholders.

Our business strategy is mainly concentrated in one type of commercial property and in one geographic location. Our primary investment focus is neighborhood and community shopping centers located in the northeastern United States, with a concentration in the metropolitan New York tri-state area outside of the City of New York. For the year ended October 31, 2016, approximately 98.2% of our total revenues were from properties located in this area. Various factors may adversely affect a shopping center's profitability. These factors include circumstances that affect consumer spending, such as general economic conditions, economic business cycles, rates of employment, income growth, interest rates and general consumer sentiment, as well as weather patterns and natural disasters that could have a more significant localized effect in the areas where our properties are concentrated. Changes to the real estate market in our focus areas, such as an increase in retail space or a decrease in demand for shopping center properties, could adversely affect operating results. As a result, we may be exposed to greater risks than if our investment focus was based on more diversified types of properties and in more diversified geographic areas.

The Company's single largest real estate investment is its ownership of the Ridgeway Shopping Center ("Ridgeway") located in Stamford, Connecticut. For the year ended October 31, 2016, Ridgeway revenues represented approximately 11.3% of the Company's total revenues and approximately 7.6% of the Company's total assets at October 31, 2016. The loss of this center or a material decrease in revenues from the center could have a material adverse effect on the Company.

We are dependent on anchor tenants in many of our retail properties. Most of our retail properties are dependent on a major or anchor tenant, often a supermarket anchor. If we are unable to renew any lease we have with the anchor tenant at one of these properties upon expiration of the current lease on favorable terms, or to re-lease the space to another anchor tenant of similar or better quality upon departure of an existing anchor tenant on similar or better terms, we could experience material adverse consequences such as higher vacancy, re-leasing on less favorable economic terms, reduced net income, reduced funds from operations and reduced property values. Vacated anchor space also could adversely affect an entire shopping center because of the loss of the departed anchor tenant's customer drawing power. Loss of customer drawing power also can occur through the exercise of the right that some

anchors have to vacate and prevent re-tenanting by paying rent for the balance of the lease term. In addition, vacated anchor space could, under certain circumstances, permit other tenants to pay a reduced rent or terminate their leases at the affected property, which could adversely affect the future income from such property. There can be no assurance that our anchor tenants will renew their leases when they expire or will be willing to renew on similar economic terms. See Item 1. Business in this Annual Report on Form 10-K for additional information on our ten largest tenants by percent of total annual base rent of our properties.

Similarly, if one or more of our anchor tenants goes bankrupt, we could experience material adverse consequences like those described above. Under bankruptcy law, tenants have the right to reject their leases. In the event a tenant exercises this right, the landlord generally may file a claim for unpaid and future lost rent. Actual amounts received in satisfaction of those claims, however, are typically very limited and will be subject to the tenant's final plan of reorganization and the availability of funds to pay its creditors. In July 2015, The Great Atlantic and Pacific Tea Company ("A&P"), an anchor at nine of our shopping centers, filed for bankruptcy, resulting in lost rent, vacancies of various duration at several of our shopping centers and other negative consequences. We can provide no assurance that we will not experience similar bankruptcies by other anchor tenants. See Item 1. Business in this Annual Report on Form 10-K for additional information.

Table of Contents

We face potential difficulties or delays in renewing leases or re-leasing space. We derive most of our income from rent received from our tenants. Although substantially all of our properties currently have favorable occupancy rates, we cannot predict that current tenants will renew their leases upon expiration of their terms. In addition, current tenants could attempt to terminate their leases prior to the scheduled expiration of such leases or might have difficulty in continuing to pay rent in full, if at all, in the event of a severe economic downturn. If this occurs, we may not be able to promptly locate qualified replacement tenants and, as a result, we would lose a source of revenue while remaining responsible for the payment of our obligations. Even if tenants decide to renew their leases, the terms of renewals or new leases, including the cost of required renovations or concessions to tenants, may be less favorable than current lease terms.

In some cases, our tenant leases contain provisions giving the tenant the exclusive right to sell particular types of merchandise or provide specific types of services within the particular retail center, or limit the ability of other tenants within the center to sell that merchandise or provide those services. When re-leasing space after a vacancy in a center with one of these tenants, such provisions may limit the number and types of prospective tenants for the vacant space. The failure to re-lease space or to re-lease space on satisfactory terms could adversely affect our results from operations. Additionally, properties we may acquire in the future may not be fully leased and the cash flow from existing operations may be insufficient to pay the operating expenses and debt service associated with that property until the property is fully leased. As a result, our net income, funds from operations and ability to pay dividends to stockholders could be adversely affected.

We may acquire properties or acquire other real estate related companies, and this may create risks. We may acquire properties or acquire other real estate related companies when we believe that an acquisition is consistent with our business strategies. We may not succeed in consummating desired acquisitions on time or within budget. When we do pursue a project or acquisition, we may not succeed in leasing newly acquired properties at rents sufficient to cover the costs of acquisition and operations. Acquisitions in new markets or industries where we do not have the same level of market knowledge may result in poorer than anticipated performance. We may also abandon acquisition or opportunities that management has begun pursuing and consequently fail to recover expenses already incurred and will have devoted management's time to a matter not consummated. Furthermore, our acquisitions of new properties or companies will expose us to the liabilities of those properties or companies, some of which we may not be aware of at the time of the acquisition. In addition, redevelopment of our existing properties presents similar risks.

Newly acquired properties may have characteristics or deficiencies currently unknown to us that affect their value or revenue potential. It is also possible that the operating performance of these properties may decline under our management. As we acquire additional properties, we will be subject to risks associated with managing new properties, including lease-up and tenant retention. In addition, our ability to manage our growth effectively will require us to successfully integrate our new acquisitions into our existing management structure. We may not succeed with this integration or effectively manage additional properties, particularly in secondary markets. Also, newly acquired properties may not perform as expected.

Competition may adversely affect our ability to acquire new properties. We compete for the purchase of commercial property with many entities, including other publicly traded REITs. Many of our competitors have substantially greater financial resources than ours. In addition, our competitors may be willing to accept lower returns on their investments. If we are unable to successfully compete for the properties we have targeted for acquisition, we may not be able to meet our growth and investment objectives. We may incur costs on unsuccessful acquisitions that we will not be able to recover. The operating performance of our property acquisitions may also fall short of our expectations, which could adversely affect our financial performance.

Competition may limit our ability to generate sufficient income from tenants and may decrease the occupancy and rental rates for our properties. Our properties consist primarily of neighborhood shopping centers and other retail

properties. Our performance, therefore, is generally linked to economic conditions in the market for retail space. In the future, the market for retail space could be adversely affected by:

- weakness in the national, regional and local economies;
- the adverse financial condition of some large retailing companies;
- the impact of internet sales on the demand for retail space;
- ongoing consolidation in the retail sector; and
- the excess amount of retail space in a number of markets.

In addition, numerous commercial developers and real estate companies compete with us in seeking tenants for our existing properties. If our competitors offer space at rental rates below our current rates or the market rates, we may lose current or potential tenants to other properties in our markets and we may need to reduce rental rates below our current rates in order to retain tenants upon expiration of their leases. Increased competition for tenants may require us to make tenant and/or capital improvements to properties beyond those that we would otherwise have planned to make. As a result, our results of operations and cash flow may be adversely affected.

In addition, our tenants face increasing competition from internet commerce, outlet malls, discount retailers, warehouse clubs and other sources which could hinder our ability to attract and retain tenants and/or cause us to reduce rents at our properties, which could have an adverse effect on our results of operations and cash flows. We may fail to anticipate the effects of changes in consumer buying practices, particularly of growing online sales and the resulting retailing practices and space needs of our tenants or a general downturn in our tenant's businesses, which may cause tenants to close their stores or default in payment of rent.

Property ownership through joint ventures could limit our control of those investments, restrict our ability to operate and finance the property on our terms, and reduce their expected return. As of October 31, 2016, we owned three of our operating properties through consolidated joint ventures and seven through unconsolidated joint ventures. Our joint ventures, and joint ventures we may enter into in the future, may involve risks not present with respect to our wholly-owned properties, including the following:

We may share decision-making authority with our joint venture partners regarding certain major decisions affecting the ownership or operation of the joint venture and the joint venture property, such as, but not limited to,

- (i) additional capital contribution requirements, (ii) obtaining, refinancing or paying off debt, and (iii) obtaining consent prior to the sale or transfer of our interest in the joint venture to a third party, which may prevent us from taking actions that are opposed by our joint venture partners;

Our joint venture partners might become bankrupt or fail to fund their share of required capital contributions, which may delay needed capital expenditures at a property or increase our financial commitment to the joint venture;

Our joint venture partners may have business interests or goals with respect to the property that conflict with our

- business interests and goals, which could increase the likelihood of disputes regarding the ownership, management or disposition of the property;

Disputes may develop with our joint venture partners over decisions affecting the property or the joint venture, which may result in litigation or arbitration that would increase our expenses and distract our officers and/or trustees from focusing their time and effort on our business, and possibly disrupt the day-to-day operations of the property such as by delaying the implementation of important decisions until the conflict is resolved; and

- The activities of a joint venture could adversely affect our ability to qualify as a REIT.

In addition, with respect to our three consolidated joint ventures, Ironbound, McLean and Orangeburg, we have additional obligations to the limited partners and non-managing members and additional limitations on our activities with respect to those joint ventures. The limited partners and non-managing members of each of these joint ventures are entitled to receive annual or quarterly cash distributions payable from available cash of the joint venture, with the Company required to provide such funds if the joint venture is unable to do so. The limited partners and non-managing members of these joint ventures have the right to require the Company to repurchase all or a portion of

their limited partner or non-managing member interests at prices and on terms set forth in the partnership or operating agreements. We also have the right to redeem all or a portion of the limited partner and non-managing member interests at our election, under certain circumstances, at prices and on terms set forth in the partnership or operating agreements. The right of these limited partners and non-managing members to put their equity interest to us could require us to expend cash at a time or under circumstances that are not beneficial to us.

In addition, the partnership agreement or operating agreements with our partners in Ironbound, McLean and Orangeburg include restrictions on our ability to pay off the mortgage debt on these properties before their maturity, although refinancings are generally permitted. These restrictions could prevent us from taking advantage of favorable interest rate environments and limit our ability to best manage the debt on these properties.

Although we have historically used moderate levels of leverage, if we employed higher levels of leverage, it would result in increased risk of default on our obligations and in an increase in debt service requirements, which could adversely affect our financial condition and results of operations and our ability to pay dividends and make distributions. In addition, the viability of the interest rate hedges we use is subject to the strength of the counterparties. We have incurred, and expect to continue to incur, indebtedness to advance our objectives. The only restrictions on the amount of indebtedness we may incur are certain contractual restrictions and financial covenants contained in our unsecured revolving credit agreement. Accordingly, we could become more highly leveraged, resulting in increased risk of default on our financial obligations and in an increase in debt service requirements. This, in turn, could adversely affect our financial condition, results of operations and our ability to make distributions.

Using debt to acquire properties, whether with recourse to us generally or only with respect to a particular property, creates an opportunity for increased return on our investment, but at the same time creates risks. Our goal is to use debt to fund investments only when we believe it will enhance our risk-adjusted returns. However, we cannot be sure that our use of leverage will prove to be beneficial. Moreover, when our debt is secured by our assets, we can lose those assets through foreclosure if we do not meet our debt service obligations. Incurring substantial debt may adversely affect our business and operating results by:

- requiring us to use a substantial portion of our cash flow to pay interest and principal, which reduces the amount available for distributions, acquisitions and capital expenditures;
- making us more vulnerable to economic and industry downturns and reducing our flexibility to respond to changing business and economic conditions;
- requiring us to agree to less favorable terms, including higher interest rates, in order to incur additional debt, and otherwise limiting our ability to borrow for operations, working capital or to finance acquisitions in the future; or
- limiting our flexibility in conducting our business, which may place us at a disadvantage compared to competitors with less debt or debt with less restrictive terms.

In addition, variable rate debt exposes us to changes in interest rates. Interest expense on our variable rate debt as of October 31, 2016 would increase by \$80,000 annually for a 100 basis point increase in interest rates. This exposure would increase if we seek additional variable rate financing based on pricing and other commercial and financial terms. We enter into interest rate hedging transactions, including interest rate swaps. There can be no guarantee that the future financial condition of these counterparties will enable them to fulfill their obligations under these agreements.

We are obligated to comply with financial and other covenants in our debt that could restrict our operating activities, and failure to comply could result in defaults that accelerate the payment under our debt. Our mortgage notes payable contain customary covenants for such agreements including, among others, provisions:

- restricting our ability to assign or further encumber the properties securing the debt; and
- restricting our ability to enter into certain new leases or to amend or modify certain existing leases without obtaining consent of the lenders.

Our unsecured revolving credit agreement contains financial and other covenants which may limit our ability, without our lenders' consent, to engage in operating or financial activities that we may believe desirable. Our unsecured revolving credit facility contains, among others, provisions restricting our ability to:

- permit unsecured debt to exceed \$400 million;
- create certain liens;
- increase our overall secured and unsecured borrowing beyond certain levels;
- consolidate, merge or sell all or substantially all of our assets;
- permit secured debt to be more than 40% of gross asset value, as defined in the agreement; and
- permit unsecured indebtedness excluding preferred stock to exceed 60% of eligible real estate asset value as defined in the agreement.

Table of Contents

In addition, covenants included in our unsecured revolving credit facility (i) limit the amount of debt we may incur, excluding preferred stock, as a percentage of gross asset value, as defined in the agreement, to less than 60% (leverage ratio), (ii) require earnings before interest, taxes, depreciation and amortization to be at least 150% of fixed charges, (iii) require net operating income from unencumbered properties to be at least 200% of unsecured interest expenses, (iv) require not more than 15% of gross asset value and unencumbered asset pool, each term as defined in the agreement, to be attributable to the Company's pro rata share of the value of unencumbered properties owned by non-wholly owned subsidiaries or unconsolidated joint ventures, and (v) require at least 10 unencumbered properties in the unencumbered asset pool, with at least 10 properties owned by the company or a wholly-owned subsidiary.

If we were to breach any of our debt covenants and did not cure the breach within any applicable cure period, our lenders could require us to repay the debt immediately, and, if the debt is secured, could immediately begin proceedings to take possession of the property securing the loan. As a result, a default under our debt covenants could have an adverse effect on our financial condition, our results of operations, our ability to meet our obligations and the market value of our shares.

We may be required to incur additional debt to qualify as a REIT. As a REIT, we must generally make annual distributions to shareholders of at least 90% of our taxable income. We are subject to income tax on amounts of undistributed taxable income and net capital gain. In addition, we would be subject to a 4% excise tax if we fail to distribute sufficient income to meet a minimum distribution test based on our ordinary income, capital gain and aggregate undistributed income from prior years. We intend to make distributions to shareholders to comply with the Code's distribution provisions and to avoid federal income and excise tax. We may need to borrow funds to meet our distribution requirements because:

- our income may not be matched by our related expenses at the time the income is considered received for purposes of determining taxable income; and
- non-deductible capital expenditures, creation of reserves, or debt service requirements may reduce available cash but not taxable income.

In these circumstances, we might have to borrow funds on terms we might otherwise find unfavorable and we may have to borrow funds even if our management believes the market conditions make borrowing financially unattractive. Current tax law also allows us to pay a portion of our distributions in shares instead of cash.

Our ability to grow will be limited if we cannot obtain additional capital. Our growth strategy includes the redevelopment of properties we already own and the acquisition of additional properties. We are required to distribute to our stockholders at least 90% of our taxable income each year to continue to qualify as a REIT for federal income tax purposes. Accordingly, in addition to our undistributed operating cash flow, we rely upon the availability of debt or equity capital to fund our growth, which financing may or may not be available on favorable terms or at all. The debt could include mortgage loans from third parties or the sale of debt securities. Equity capital could include our common stock or preferred stock. Additional financing, refinancing or other capital may not be available in the amounts we desire or on favorable terms.

Our access to debt or equity capital depends on a number of factors, including the general state of the capital markets, the markets perception of our growth potential, our ability to pay dividends, and our current and potential future earnings. Depending on the outcome of these factors, we could experience delay or difficulty in implementing our growth strategy on satisfactory terms, or be unable to implement this strategy.

We cannot assure you we will continue to pay dividends at historical rates. Our ability to continue to pay dividends on our shares of Class A Common stock or Common stock at historical rates or to increase our dividend rate, and our ability to pay preferred share dividends will depend on a number of factors, including, among others, the following:

- our financial condition and results of future operations;
- the performance of lease terms by tenants;
- the terms of our loan covenants; and
- payment obligations on debt;
- our ability to acquire, finance or redevelop and lease additional properties at attractive rates.

If we do not maintain or increase the dividend on our common shares, it could have an adverse effect on the market price of our shares of Class A Common stock or Common stock and other securities. Any preferred shares we may offer may have a fixed dividend rate that would not increase with any increases in the dividend rate of our common shares. Conversely, payment of dividends on our common shares may be subject to payment in full of the dividends on any preferred shares and payment of interest on any debt securities we may offer.

Market interest rates could adversely affect the share price of our stock and increase the cost of refinancing debt. A variety of factors may influence the price of our common equities in the public trading markets. We believe that investors generally perceive REITs as yield-driven investments and compare the annual yield from dividends by REITs with yields on various other types of financial instruments. An increase in market interest rates may lead purchasers of stock to seek a higher annual dividend rate from other investments, which could adversely affect the market price of the stock. In addition, we are subject to the risk that we will not be able to refinance existing indebtedness on our properties. We anticipate that a portion of the principal of our debt will not be repaid prior to maturity. Therefore, we likely will need to refinance at least a portion of our outstanding debt as it matures. A change in interest rates may increase the risk that we will not be able to refinance existing debt or that the terms of any refinancing will not be as favorable as the terms of the existing debt.

If principal payments due at maturity cannot be refinanced, extended or repaid with proceeds from other sources, such as new equity capital or sales of properties, our cash flow will not be sufficient to repay all maturing debt in years when significant "balloon" payments come due. As a result, our ability to retain properties or pay dividends to stockholders could be adversely affected and we may be forced to dispose of properties on unfavorable terms, which could adversely affect our business and net income.

Construction and renovation risks could adversely affect our profitability. We currently are renovating some of our properties and may in the future renovate other properties, including tenant improvements required under leases. Our renovation and related construction activities may expose us to certain risks. We may incur renovation costs for a property which exceed our original estimates due to increased costs for materials or labor or other costs that are unexpected. We also may be unable to complete renovation of a property on schedule, which could result in increased debt service expense or construction costs. Additionally, some tenants may have the right to terminate their leases if a renovation project is not completed on time. The time frame required to recoup our renovation and construction costs and to realize a return on such costs can often be significant.

We are dependent on key personnel. We depend on the services of our existing senior management to carry out our business and investment strategies. We do not have employment agreements with any of our existing senior management. As we expand, we may continue to need to recruit and retain qualified additional senior management. The loss of the services of any of our key management personnel or our inability to recruit and retain qualified personnel in the future could have an adverse effect on our business and financial results.

Uninsured and underinsured losses may affect the value of, or return from, our property interests. We maintain insurance on our properties, including the properties securing our loans, in amounts which we believe are sufficient to permit replacement of the properties in the event of a total loss, subject to applicable deductibles. There are certain types of losses, such as losses resulting from wars, terrorism, earthquakes, floods, hurricanes or other acts of God that may be uninsurable or not economically insurable. Should an uninsured loss or a loss in excess of insured limits occur, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while

remaining obligated for any mortgage indebtedness or other financial obligations related to the property. In addition, changes in building codes and ordinances, environmental considerations and other factors might make it impracticable for us to use insurance proceeds to replace a damaged or destroyed property. If any of these or similar events occur, it may reduce our return from an affected property and the value of our investment.

Properties with environmental problems may create liabilities for us. Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, as an owner of real property, we may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under our properties, as well as certain other potential costs relating to hazardous or toxic substances (including government fines and penalties and damages for injuries to persons and adjacent property). These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages and our liability therefore could exceed the value of the property and/or our aggregate assets. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent that property or to borrow using that property as collateral, which, in turn, would reduce our revenues and ability to make distributions.

A property can be adversely affected either through direct physical contamination or as the result of hazardous or toxic substances or other contaminants that have or may have emanated from other properties. Although our tenants are primarily responsible for any environmental damages and claims related to the leased premises, in the event of the bankruptcy or inability of any of our tenants to satisfy any obligations with respect to the property leased to that tenant, we may be required to satisfy such obligations. In addition, we may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

Prior to the acquisition of any property and from time to time thereafter, we obtain Phase I environmental reports and, when deemed warranted, Phase II environmental reports concerning the Company's properties. There can be no assurance, however, that (i) the discovery of environmental conditions that were previously unknown, (ii) changes in law, (iii) the conduct of tenants, or (iv) activities relating to properties in the vicinity of the Company's properties, will not expose the Company to material liability in the future. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of our tenants, which could adversely affect our financial condition and results of operations.

We face risks relating to cybersecurity attacks that could cause loss of confidential information and other business disruptions. We rely extensively on computer systems to process transactions and manage our business, and our business is at risk from and may be impacted by cybersecurity attacks. These could include attempts to gain unauthorized access to our data and computer systems. Attacks can be both individual and/or highly organized attempts organized by very sophisticated hacking organizations. We employ a number of measures to prevent, detect and mitigate these threats, which include password encryption, frequent password change events, firewall detection systems, anti-virus software in-place and frequent backups; however, there is no guarantee such efforts will be successful in preventing a cyber attack. A cybersecurity attack could compromise the confidential information of our employees, tenants and vendors. A successful attack could disrupt and otherwise adversely affect our business operations.

The Americans with Disabilities Act of 1990 could require us to take remedial steps with respect to existing or newly acquired properties. Our existing properties, as well as properties we may acquire, as commercial facilities, are required to comply with Title III of the Americans with Disabilities Act of 1990. Investigation of a property may reveal non-compliance with this Act. The requirements of this Act, or of other federal, state or local laws or regulations, also may change in the future and restrict further renovations of our properties with respect to access for disabled persons. Future compliance with this Act may require expensive changes to the properties.

Table of Contents

Risks Related to our Organization and Structure

We will be taxed as a regular corporation if we fail to maintain our REIT status. Since our founding in 1969, we have operated, and intend to continue to operate, in a manner that enables us to qualify as a REIT for federal income tax purposes. However, the federal income tax laws governing REITs are complex. The determination that we qualify as a REIT requires an analysis of various factual matters and circumstances that may not be completely within our control. For example, to qualify as a REIT, at least 95% of our gross income must come from specific passive sources, such as rent, that are itemized in the REIT tax laws. In addition, to qualify as a REIT, we cannot own specified amounts of debt and equity securities of some issuers. We also are required to distribute to our stockholders at least 90% of our REIT taxable income (excluding capital gains) each year. Our continued qualification as a REIT depends on our satisfaction of the asset, income, organizational, distribution and stockholder ownership requirements of the Internal Revenue Code on a continuing basis. At any time, new laws, interpretations or court decisions may change the federal tax laws or the federal tax consequences of qualification as a REIT. If we fail to qualify as a REIT in any taxable year and do not qualify for certain Internal Revenue Code relief provisions, we will be subject to federal income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates. In addition, distributions to stockholders would not be deductible in computing our taxable income. Corporate tax liability would reduce the amount of cash available for distribution to stockholders which, in turn, would reduce the market price of our stock. Unless entitled to relief under certain Internal Revenue Code provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT.

We will pay federal taxes if we do not distribute 100% of our taxable income. To the extent that we distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any year are less than the sum of:

- 85% of our ordinary income for that year;
- 95% of our capital gain net income for that year; and
- 100% of our undistributed taxable income from prior years.

We have paid out, and intend to continue to pay out, our income to our stockholders in a manner intended to satisfy the distribution requirement and to avoid corporate income tax and the 4% nondeductible excise tax. Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of our taxable income to satisfy the distribution requirement and to avoid corporate income tax and the 4% excise tax in a particular year.

Gain on disposition of assets deemed held for sale in the ordinary course of business is subject to 100% tax. If we sell any of our assets, the IRS may determine that the sale is a disposition of an asset held primarily for sale to customers in the ordinary course of a trade or business. Gain from this kind of sale generally will be subject to a 100% tax. Whether an asset is held "primarily for sale to customers in the ordinary course of a trade or business" depends on the particular facts and circumstances of the sale. Although we will attempt to comply with the terms of safe-harbor provisions in the Internal Revenue Code prescribing when asset sales will not be so characterized, we cannot assure you that we will be able to do so.

Our ownership limitation may restrict business combination opportunities.

To qualify as a REIT under the Internal Revenue Code, no more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals during the last half of each taxable year. To preserve our REIT qualification, our charter generally prohibits any person from owning shares of any class with a value of more than 7.5% of the value of all of our outstanding capital stock and provides that:

- a transfer that violates the limitation is void;
- shares transferred to a stockholder in excess of the ownership limitation are automatically converted, by the terms of our charter, into shares of "Excess Stock;"
- a purported transferee receives no rights to the shares that violate the limitation except the right to designate a transferee of the Excess Stock held in trust; and
 - the Excess Stock will be held by us as trustee of a trust for the exclusive benefit of future transferees to whom the shares of capital stock ultimately will be transferred without violating the ownership limitation.

We may also redeem Excess Stock at a price which may be less than the price paid by a stockholder. Pursuant to authority under our charter, our board of directors has determined that the ownership limitation does not apply to Mr. Charles J. Urstadt, our Chairman, who, as of October 31, 2016, beneficially owns 46.4% of our outstanding Common Stock and 0.5% of our outstanding Class A common stock or to Mr. Willing L. Biddle, our CEO, who beneficially owns 29.6% of our outstanding Common Stock and 0.1% of our outstanding Class A Common Stock. Such holdings represent approximately 65.8% of our outstanding voting interests. Together as a group Messrs. Urstadt, Biddle, and the other directors and executive officers hold approximately 66.3% of our outstanding voting interests through their beneficial ownership of our Common Stock and Class A common stock. The ownership limitation may delay or discourage someone from taking control of us, even though a change of control might involve a premium price for our stockholders or might otherwise be in their best interest.

Certain provisions in our charter and bylaws and Maryland law may prevent or delay a change of control or limit our stockholders from receiving a premium for their shares. Among the provisions contained in our charter and bylaws and Maryland law are the following:

- Our board of directors is divided into three classes, with directors in each class elected for three-year staggered terms. Our directors may be removed only for cause upon the vote of the holders of two-thirds of the voting power of our common equity securities.
- Our stockholders may call a special meeting of stockholders only if the holders of a majority of the voting power of our common equity securities request such a meeting in writing.
- Any consolidation, merger, share exchange or transfer of all or substantially all of our assets must be approved by (i) a majority of our directors who are currently in office or who are approved or recommended by a majority of our directors who are currently in office (the "Continuing Directors") and (ii) the holders of two-thirds of the voting power of our common equity securities.
- Certain provisions of our charter may only be amended by (i) a vote of a majority of our Continuing Directors and (ii) the holders of a majority of the voting power of our common equity securities. These provisions relate to the election and classification of directors, the ownership limit and the stockholder vote required for certain business combination transactions. An action by stockholders to remove a director would require a vote of at least two-thirds of the voting power of our outstanding common equity securities.
- The number of directors may be increased or decreased by a vote of our board of directors.

In addition, we are subject to various provisions of Maryland law that impose restrictions and require affected persons to follow specified procedures with respect to certain takeover offers and business combinations, including combinations with persons who own 10% or more of our outstanding shares. These provisions of Maryland law could delay, defer or prevent a transaction or a change of control that our stockholders might deem to be in their best interests. Furthermore, shares acquired in a control share acquisition have no voting rights, except to the extent approved by the affirmative vote of two-thirds of all votes entitled to be cast on the matter, excluding all interested shares. Under Maryland law, "control shares" are those which, when aggregated with any other shares held by the acquiror, allow the acquiror to exercise voting power within specified ranges. The control share provisions of Maryland law also could delay, defer or prevent a transaction or a change of control which our stockholders might deem to be in their best interests. As permitted by Maryland law, our charter and bylaws provide that the "control shares" and "business combinations" provisions of Maryland law described above will not apply to acquisitions of those shares by Mr. Charles J. Urstadt or Mr. Willing L. Biddle or to transactions between the Company and Mr.

Urstadt or Mr. Biddle or any of their respective affiliates. Consequently, unless such exemptions are amended or repealed, we may in the future enter into business combinations or other transactions with Mr. Urstadt, Mr. Biddle or any of their respective affiliates without complying with the requirements of Maryland anti-takeover laws. In view of the common equity securities controlled by Messrs. Urstadt and Biddle, either may control a sufficient percentage of the voting power of our common equity securities to effectively block approval of any proposal which requires a vote of our stockholders.

Our stockholder rights plan could deter a change of control. We have adopted a stockholder rights plan. This plan may deter a person or a group from acquiring more than 10% of the combined voting power of our outstanding shares of common stock and Class A common stock because, after (i) the person or group acquires more than 10% of the combined voting power of our outstanding Common stock and Class A Common stock, or (ii) the commencement of a tender offer or exchange offer by any person (other than us, any one of our wholly owned subsidiaries or any of our employee benefit plans, or certain exempt persons), if, upon consummation of the tender offer or exchange offer, the person or group would beneficially own 30% or more of the combined voting power of our outstanding shares of Common stock and Class A Common stock, all other stockholders will have the right to purchase securities from us at a price that is less than their fair market value. This would substantially reduce the value of the stock owned by the acquiring person. Our board of directors can prevent the plan from operating by approving the transaction and redeeming the rights. This gives our board of directors significant power to approve or disapprove of the efforts of a person or group to acquire a large interest in us. The rights plan exempts acquisitions of Common stock and Class A Common stock by Mr. Charles J. Urstadt, Willing L. Biddle, members of their families and certain of their affiliates.

The concentration of our stock ownership or voting power limits our stockholders' ability to influence corporate matters. Each share of our Common Stock entitles the holder to one vote. Each share of our Class A Common Stock entitles the holder to 1/20 of one vote per share. Each share of Common Stock and Class A Common Stock have identical rights with respect to dividends except that each share of Class A Common Stock will receive not less than 110% of the regular quarterly dividends paid on each share of Common Stock. As of October 31, 2016, Charles J. Urstadt, our Chairman, and Willing Biddle, our President and Chief Executive Officer, beneficially owned approximately 19.0% of our outstanding Common Stock and Class A Common Stock, which together represented approximately 65.8% of the voting power of our outstanding common stock. Messrs. Urstadt and Biddle therefore have significant influence over management and affairs and over all matters requiring stockholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of our company or our assets, for the foreseeable future. This concentrated control limits or restricts our stockholders' ability to influence corporate matters.

(1) Two wholly owned subsidiaries of the Company own an 11.642% economic ownership interest in Midway. The Company accounts for this joint venture under the equity method of accounting and does not consolidate the entity owning the property.

(2) A wholly owned subsidiary of the Company has a 50% tenant in common interest in the property. The Company accounts for this joint venture under the equity method of accounting and does not consolidate its interest in the property.

(3) A wholly owned subsidiary of the Company has a 66.67% tenant in common interest in the property. The Company accounts for this joint venture under the equity method of accounting and does not consolidate its interest in the property.

(4) The Company vacated all tenants from the property to allow for the sale of the property.

(5) A wholly owned subsidiary of the Company is the sole general partner of a partnership that owns this property (84% ownership interest)

(6) A wholly owned subsidiary of the Company is the sole managing member of a limited liability company that owns this property (34.0% ownership interest)

(7) The Company owns five separate free standing properties, three of which are occupied 100% by a Friendly's Restaurant. The properties are located in New York, New Jersey and Connecticut.

(8) A wholly owned subsidiary of the Company is the sole managing member of a limited liability company that owns this property (53.0% ownership interest)

Table of ContentsLease Expirations – Total Portfolio

The following table sets forth a summary schedule of the annual lease expirations for the consolidated properties for leases in place as of October 31, 2016, assuming that none of the tenants exercise renewal or cancellation options, if any, at or prior to the scheduled expirations.

Year of Expiration	Number of Leases Expiring	Square Footage of Expiring Leases	Minimum Base Rentals	Percentage of Total Annual Base Rent that is Represented by the Expiring Leases	
2017 (1)	154	365,300	\$ 10,106,300	12	%
2018	106	566,000	12,269,900	15	%
2019	101	382,700	8,893,700	11	%
2020	78	388,000	8,554,500	10	%
2021	93	359,600	9,201,000	11	%
2022	67	435,300	8,758,300	10	%
2023	34	209,900	6,284,700	7	%
2024	32	169,000	4,647,600	6	%
2025	38	221,500	4,636,600	5	%
2026	31	97,500	2,716,500	3	%
Thereafter	37	503,500	8,559,200	10	%
	771	3,698,300	\$ 84,628,300	100	%

(1) Represents lease expirations from November 1, 2016 to October 31, 2017 and month-to-month leases.

(a) Market Information

Shares of Common Stock and Class A Common Stock of the Company are traded on the New York Stock Exchange under the symbols "UBP" and "UBA," respectively. The following table sets forth the high and low closing sales prices for the Company's Common Stock and Class A Common Stock during the fiscal years ended October 31, 2016 and 2015 as reported on the New York Stock Exchange:

	Fiscal Year Ended October 31, 2016		Fiscal Year Ended October 31, 2015	
Common Shares:	Low	High	Low	High
First Quarter	\$16.63	\$19.01	\$11.73	\$20.00
Second Quarter	\$17.42	\$19.19	\$17.33	\$20.09
Third Quarter	\$18.25	\$22.37	\$16.53	\$17.92
Fourth Quarter	\$17.16	\$21.50	\$16.23	\$19.95

	Fiscal Year Ended October 31, 2016		Fiscal Year Ended October 31, 2015	
Class A Common Shares:	Low	High	Low	High
First Quarter	\$18.57	\$20.47	\$21.56	\$24.22
Second Quarter	\$19.51	\$21.46	\$20.75	\$24.01
Third Quarter	\$20.47	\$25.13	\$18.68	\$21.03
Fourth Quarter	\$21.11	\$24.50	\$17.43	\$20.52

(b) Approximate Number of Equity Security Holders

At December 31, 2016 (latest date practicable), there were 653 shareholders of record of the Company's Common Stock and 656 shareholders of record of the Class A Common Stock.

(c) Dividends Declared on Common Stock and Class A Common Stock and Tax Status

Table of Contents

The following tables set forth the dividends declared per Common share and Class A Common share and tax status for Federal income tax purposes of the dividends paid during the fiscal years ended October 31, 2016 and 2015:

Dividend Payment Date	Common Shares				Class A Common Shares

	\$0.90	\$0.34	\$0.455	\$ 0.105	\$1.02	\$0.385	\$0.515	\$ 0.12

The Company has paid quarterly dividends since it commenced operations as a real estate investment trust in 1969. During the fiscal year ended October 31, 2016, the Company made distributions to stockholders aggregating \$0.92 per Common share and \$1.04 per Class A Common share. On December 15, 2016, the Company's Board of Directors approved the payment of a quarterly dividend payable January 20, 2017 to stockholders of record on January 6, 2017. The quarterly dividend rates were declared in the amounts of \$0.235 per Common share and \$0.265 per Class A Common share.

Although the Company intends to continue to declare quarterly dividends on its Common shares and Class A Common shares, no assurances can be made as to the amounts of any future dividends. The declaration of any future dividends by the Company is within the discretion of the Board of Directors and will be dependent upon, among other things, the earnings, financial condition and capital requirements of the Company, as well as any other factors deemed relevant by the Board of Directors. Two principal factors in determining the amounts of dividends are (i) the requirement of the Internal Revenue Code that a real estate investment trust distribute to shareholders at least 90% of its real estate investment trust taxable income, and (ii) the amount of the Company's available cash.

Each share of Common Stock entitles the holder to one vote. Each share of Class A Common Stock entitles the holder to 1/20 of one vote per share. Each share of Common Stock and Class A Common Stock have identical rights with respect to dividends except that each share of Class A Common Stock will receive not less than 110% of the regular quarterly dividends paid on each share of Common Stock.

The Company has a Dividend Reinvestment and Share Purchase Plan ("DRIP") that allows shareholders to acquire additional shares of Common Stock and Class A Common Stock by automatically reinvesting dividends. Shares are acquired pursuant to the DRIP at a price equal to the higher of 95% of the market price of such shares on the dividend payment date or 100% of the average of the daily high and low sales prices for the five trading days ending on the day of purchase without payment of any brokerage commission or service charge. As of October 31, 2016, 1,202,361 shares of Common Stock and 245,685 shares of Class A Common Stock have been issued under the DRIP.

(d) Issuer Repurchase

The Board of Directors of the Company has approved a share repurchase program ("Program") for the repurchase of up to 2,000,000 shares, in the aggregate, of Common stock, Class A Common stock and Series F Cumulative Preferred stock in open market transactions. For the three month period ended October 31, 2016, the Company did not repurchase shares of any class of stock under the Program.

Funds from Operations (Note ¹)	\$43,603	\$38,056	\$33,032	\$29,506	\$30,627

Note ¹: The Company has adopted the definition of Funds from Operations (FFO) suggested by the National Association of Real Estate Investment Trusts (NAREIT) and defines FFO as net income (computed in accordance

with generally accepted accounting principles), excluding gains (or losses) from sales of properties plus real estate related depreciation and amortization and after adjustments for unconsolidated joint ventures. For a reconciliation of net income and FFO, see Management's Discussion and Analysis of Financial Condition and Results of Operations on page 16. FFO does not represent cash flows from operating activities in accordance with generally accepted accounting principles and should not be considered an alternative to net income as an indicator of the Company's operating performance. The Company considers FFO a meaningful, additional measure of operating performance because it primarily excludes the assumption that the value of its real estate assets diminishes predictably over time and industry analysts have accepted it as a performance measure. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of the Company's operating performance. However, comparison of the Company's presentation of FFO, using the NAREIT definition, to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs. For a further discussion of FFO, see Management's Discussion and Analysis of Financial Condition and Results of Operations on page 16.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this report, the "Special Note Regarding Forward-Looking Statements" in Part I and "Item 1A. Risk Factors."

Executive Summary

Overview

We are a fully integrated, self-administered real estate company that has elected to be a REIT for federal income tax purposes, engaged in the acquisition, ownership and management of commercial real estate, primarily neighborhood and community shopping centers located in the northeastern part of the United States with a concentration in the metropolitan New York tri-state area outside of the City of New York. Other real estate assets include office properties. Our major tenants include supermarket chains and other retailers who sell basic necessities.

At October 31, 2016, we owned or had equity interests in 75 properties, which include equity interests we own in three consolidated joint ventures and seven unconsolidated joint ventures, containing a total of 5.0 million square feet of Gross Leasable Area ("GLA"). Of the properties owned by wholly-owned subsidiaries or joint venture entities that we consolidate, approximately 93.3% was leased (95.8% at October 31, 2015). Of the properties owned by unconsolidated joint ventures, approximately 98.4% was leased (98.1% at October 31, 2015). The drop in our leased rate at October 31, 2016, when compared with the leased rate at October 31, 2015, is predominantly related to the bankruptcy of Great Atlantic and Pacific Tea Company, Inc. ("A&P"). During the first quarter of fiscal 2016, three of the nine spaces that A&P occupied became vacant. Those spaces totaled 132,000 square feet or about 3.3% of our consolidated property square footage. Two of the aforementioned three spaces were re-leased in the second quarter of fiscal 2016, but one former A&P space, totaling approximately 63,000 square feet, remains vacant at October 31, 2016 (1.6% of consolidated portfolio square footage). For more information about the impact of the A&P bankruptcy, see "Leasing—Significant Events with Impacts on Leasing" below in this Item 7.

The above percentages exclude our White Plains property. In November 2014, a zoning change was obtained from the City of White Plains that will allow this property to be converted to a higher and better use. On this basis, we have completely vacated the property to make potential redevelopment possible. This included the expiration of two leases at the property totaling 90,000 square feet in February 2015, for which the average base rent per square foot was approximately \$24.69 per annum. In April 2015, we entered into a contract to sell this property to a third party, with the closing date scheduled to be fifteen days after the property is completely vacated of all tenants, which was accomplished in April 2016. In February 2016, the sale contract was amended to allow the purchaser to extend the closing. The amendment provided the purchaser six one-month options to extend the closing date for a payment of \$461,000 per one-month extension option exercised. The purchaser exercised all of the six options, and we recorded the \$2.8 million received as base rent revenue as of October 31, 2016. In addition, in October 2016, we granted the purchaser an additional extension option to extend the closing until March 2017. In exchange for granting the extension, we received an additional \$2 million, which we have recorded as base rent revenue as of October 31, 2016. Furthermore, the extension agreement required the purchaser to deposit a total of \$11.9 million with us and an additional \$3 million with a third-party agent to be applied to the purchase price of the shopping center at closing. The \$11.9 million is recorded in other liabilities at October 31, 2016.

We have paid quarterly dividends to our shareholders continuously since our founding in 1969 and have increased the level of dividend payments to our shareholders for 22 consecutive years.

We derive substantially all of our revenues from rents and operating expense reimbursements received pursuant to long-term leases and focus our investment activities on community and neighborhood shopping centers, anchored principally by regional supermarket chains. We believe that because consumers need to purchase food and other types of staple goods and services generally available at supermarket-anchored shopping centers, the nature of our investments provides for relatively stable revenue flows even during difficult economic times.

We have a conservative capital structure and do not have any secured debt maturing until October 2017, for which we have entered into a commitment to refinance in July 2017. See "Significant Financings and Debt Transactions in Fiscal 2016" below in this Item 7.

We focus on increasing cash flow, and consequently the value of our properties, and seek continued growth through strategic re-leasing, renovations and expansions of our existing properties and selective acquisitions of income-producing properties. Key elements of our growth strategies and operating policies are to:

- acquire quality neighborhood and community shopping centers in the northeastern part of the United States with a concentration on properties in the metropolitan New York tri-state area outside of the City of New York, and unlock further value in these properties with selective enhancements to both the property and tenant mix, as well as improvements to management and leasing fundamentals;
- selectively dispose of underperforming properties and re-deploy the proceeds into potentially higher performing properties that meet our acquisition criteria;
- invest in our properties for the long term through regular maintenance, periodic renovations and capital improvements, enhancing their attractiveness to tenants and customers, as well as increasing their value;
- leverage opportunities to increase GLA at existing properties, through development of pad sites and reconfiguring of existing square footage, to meet the needs of existing or new tenants;
- proactively manage our leasing strategy by aggressively marketing available GLA, renewing existing leases with strong tenants, and replacing weak ones when necessary, with an eye towards securing leases that include regular or fixed contractual increases to minimum rents, replacing below-market-rent leases with increased market rents when possible and further improving the quality of our tenant mix at our shopping centers;
- maintain strong working relationships with our tenants, particularly our anchor tenants;
- maintain a conservative capital structure with low leverage levels; and
- control property operating and administrative costs.

Table of Contents

Highlights of Fiscal 2016; Recent Developments

Set forth below are highlights of our acquisitions, other investments, dispositions and financings during fiscal 2016:

In July 2016, we purchased, for \$45.3 million, the 72,000 square foot Newfield Green shopping center located in Stamford, CT.

In July 2016, we completed a follow-on Class A Common stock offering, raising proceeds of \$73.7 million, of which we used \$60.1 million to repay borrowings on our Unsecured Revolving Credit Facility (the "Facility").

In July 2016, we entered into a commitment to refinance our \$44 million mortgage secured by our Ridgeway shopping center in Stamford, CT on July 17, 2017, the first day the current Ridgeway mortgage can be repaid without penalty. The new mortgage will be in the amount of \$50 million and will have a term of ten years and will require payment of principal and interest at the rate of LIBOR plus 1.9%. Concurrent with entering into the commitment, we also entered into an interest rate swap contract which will convert the variable interest rate (based on LIBOR) to a fixed rate of 3.398% per annum.

In August 2016, we refinanced our existing Facility, increasing the capacity to \$100 million from \$80 million, with the ability under certain conditions to additionally increase the capacity to \$150 million.

In September 2016, we refinanced our \$7.2 million mortgage secured by two Greenwich, CT. properties with the existing lender. The new mortgage principal balance will be \$11 million and have a term of ten years and will require payments of principal and interest at the rate of LIBOR plus 2.0%. Concurrent with entering into the mortgage, we also entered into an interest rate swap contract which will convert the variable interest rate (based on LIBOR) to a fixed rate of 3.475% per annum.

In October 2016, we purchased, for \$13.3 million, the 27,000 square foot 970 High Ridge Road shopping center located in Stamford, CT.

In October 2016, we originated a loan in the amount of \$13.5 million, bearing interest at one-month LIBOR plus 3.25% per annum, secured by a first mortgage on a shopping center located in Rockland County, NY, and maturing October 10, 2017.

Known Trends; Outlook

We believe that shopping center REITs face opportunities and challenges that are both common to and unique from other REITs and real estate companies. As a REIT, we are susceptible to changes in interest rates, the lending environment, the availability of capital markets and the general economy. For example, some experts are predicting an increased interest rate environment, which could negatively impact the attractiveness of REIT stock to investors and our borrowing activities. It is also possible, however, that higher interest rates could signal a stronger economy, resulting in greater spending by consumers. The impact of such changes are difficult to predict.

As a shopping center REIT, we are focused on certain challenges that are unique to the retail industry. In particular, we recognize the challenges presented by e-commerce to brick-and-mortar retail establishments, including our tenants. However, we believe that because consumers prefer to purchase food and other staple goods and services available at supermarkets in person, the nature of our properties makes them less vulnerable to the encroachment of e-commerce than other properties whose tenants may more directly compete with the internet. Moreover, we believe the nature of our properties makes them less susceptible to economic downturns than other retail properties whose anchor tenants are not supermarkets or other staple goods providers. We continue to be sensitive to these

considerations, however, when we establish the tenant mix at our shopping centers, and believe that our strategy of focusing on supermarket anchors is a strong one.

In the metropolitan tri-state area outside of New York City, demographics (income, density, etc.) remain strong and opportunities for new development, as well as acquisitions, are competitive, with high barriers to entry. We believe that this will remain the case for the foreseeable future, and have focused our growth strategy accordingly.

Leasing

Rollovers

For the fiscal year 2016, we signed leases for a total of 418,400 square feet of retail space in our consolidated portfolio. New leases for vacant spaces were signed for 187,600 square feet at an average rental increase of 6.04% on a cash basis, excluding 6,800 square feet of new leases for which there was no prior rent history available. Renewals for 224,000 square feet of space previously occupied were signed at an average rental increase of 3.41% on a cash basis.

Tenant improvements and leasing commissions averaged \$28.02 per square foot for new leases and \$4.45 per square foot for renewals for the fiscal year ended October 31, 2016. The average term for new leases was 7.6 years and the average term for renewal leases was 4 years.

The rental increases/decreases associated with new and renewal leases generally include all leases signed in arms-length transactions reflecting market leverage between landlords and tenants during the period. The comparison between average rent for expiring leases and new leases is determined by including minimum rent paid on the expiring lease and minimum rent to be paid on the new lease in the first year. In some instances, management exercises judgment as to how to most effectively reflect the comparability of spaces reported in this calculation. The change in rental income on comparable space leases is impacted by numerous factors including current market rates, location, individual tenant creditworthiness, use of space, market conditions when the expiring lease was signed, the age of the expiring lease, capital investment made in the space and the specific lease structure. Tenant improvements include the total dollars committed for the improvement (fit-out) of a space as it relates to a specific lease but may also include base building costs (i.e. expansion, escalators or new entrances) that are required to make the space leasable. Incentives (if applicable) include amounts paid to tenants as an inducement to sign a lease that do not represent building improvements.

The leases signed in 2016 generally become effective over the following one to two years. There is risk that some new tenants will not ultimately take possession of their space and that tenants for both new and renewal leases may not pay all of their contractual rent due to operating, financing or other matters. However, these increases/decreases do provide information about the tenant/landlord relationship and the potential increase we may achieve in rental income over time.

In 2017, we believe our leasing volume will be in-line with our historical averages with overall positive increases in rental income for renewal leases and flat to slightly positive increases for new leases. However, changes in rental income associated with individual signed leases on comparable spaces may be positive or negative, and we can provide no assurance that the rents on new leases will continue to increase at the above described levels, if at all.

Table of Contents

Significant Events with Impacts on Leasing

In July 2015, one of our largest tenants, A&P, filed a voluntary petition under Chapter 11 of Title 11 of the United States Bankruptcy Code (the "Bankruptcy Code"). Subsequently, A&P determined that it would be liquidating the company. As of October 31, 2015, A&P leased and occupied nine spaces totaling 365,000 square feet in our portfolio. The total base rent per annum for these nine spaces totaled \$5,540,000 at October 31, 2015. The bankruptcy process relating to our nine spaces is complete. As of October 31, 2016, eight of the nine A&P leases have been assumed by new operators in the bankruptcy process or re-leased by the Company to new operators (see Notes 1, 2 and 3 below). The remaining lease was rejected by A&P in bankruptcy (see Note 4 below), and we are in the process of re-leasing that space. The table below details information about the nine former A&P leases in our portfolio prior to the transactions described above:

Property	Location	Square Feet	Base Rent Per Annum	Base Rent Per Square Foot	Lease Expiration	Note
Pompton Lakes Town Square	Pompton Lakes, NJ	63,000	\$ 1,244,000	\$ 19.80	Rejected by A&P	4
Ferry Plaza Shopping Center	Newark, NJ	63,000	1,215,000	\$ 19.15	Nov 2020*	1
Village Shopping Center	New Providence, NJ	46,000	990,000	\$ 21.75	Feb 2029*	1
Boonton Shopping Center	Boonton, NJ	49,000	950,000	\$ 19.21	Oct 2024*	1
Valley Ridge Shopping Center	Wayne, NJ	36,000	540,000	\$ 15.00	Terminated	3
Harrison Shopping Center	Harrison, NY	12,000	264,000	\$ 22.00	Sept 2024*	2
Bloomfield Shopping Center	Bloomfield, NJ	31,000	154,000	\$ 5.00	Terminated	3
						1 and
Shoppes at Eastchester	Eastchester, NY	30,000	110,000	\$ 3.71	Oct 2019	5
McLean Plaza Shopping Center	Yonkers, NY	35,000	73,000	\$ 2.09	Oct 2034*	1
		365,000	\$ 5,540,000			

* Subject to further tenant renewal options

Note 1 – Lease purchased by Acme, a division of Albertson's.

Note 2 – Lease purchased by Key Food.

Note 3 – Lease purchased by Urstadt Biddle Properties Inc. Lease subsequently terminated and re-leased to new supermarket operator at increased base rent per square foot.

Note 4 – Rejected by A&P in the bankruptcy process; in process of re-leasing.

Note 5 – We have amended the lease to increase the base rent per square foot from \$3.71 to \$10.00 per square foot through 10/31/19 and to provide tenant with an option to extend the lease term through 10/31/24 at a base rent of \$25.00 per square foot.

In the second quarter of fiscal 2016, we completed the re-leasing of both the Bloomfield and Wayne A&P spaces to new regional supermarket operators (see Note 3 above). The new leases will generate annual base rent of \$1.07 million as compared with \$694,000 that A&P was previously paying on those two spaces, which is an aggregate increase of \$372,000 per annum. The Bloomfield A&P lease had twenty years of remaining term (including tenant options) with no base rental rate increases. Both new leases provide for the tenant to pay its proportionate share of common area maintenance and real estate taxes as additional rent. The Bloomfield space was delivered to the tenant in early February 2016, and the Wayne space was delivered to the tenant at the beginning of March 2016. We are still marketing the Pompton Lakes location for lease.

Impact of Inflation on Leasing

Our long-term leases contain provisions to mitigate the adverse impact of inflation on our operating results. Such provisions include clauses entitling us to receive (a) scheduled base rent increases and (b) percentage rents based upon tenants' gross sales, which generally increase as prices rise. In addition, many of our non-anchor leases are for terms of less than ten years, which permits us to seek increases in rents upon renewal at then current market rates if rents provided in the expiring leases are below then existing market rates. Most of our leases require tenants to pay a share of operating expenses, including common area maintenance, real estate taxes, insurance and utilities, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation.

Critical Accounting Policies

Critical accounting policies are those that are both important to the presentation of the Company's financial condition and results of operations and require management's most difficult, complex or subjective judgments. For a further discussion about the Company's critical accounting policies, please see Note 1 to the consolidated financial statements of the Company included in Item 8 of this Annual Report on Form 10-K.

Table of Contents

Liquidity and Capital Resources

Overview

At October 31, 2016, we had cash and cash equivalents of \$7.3 million, compared to \$6.6 million at October 31, 2015. Our sources of liquidity and capital resources include operating cash flow from real estate operations, proceeds from bank borrowings and long-term mortgage debt, capital financings and sales of real estate investments. Substantially all of our revenues are derived from rents paid under existing leases, which means that our operating cash flow depends on the ability of our tenants to make rental payments. In fiscal 2016, 2015 and 2014, net cash flow provided by operations amounted to \$60.1 million, \$51.1 million and \$50.9 million, respectively.

Our short-term liquidity requirements consist primarily of normal recurring operating expenses and capital expenditures, debt service, management and professional fees, cash distributions to certain limited partners and non-managing members of our consolidated joint ventures, dividends paid to our preferred stockholders and regular dividends paid to our Common and Class A Common stockholders, which we expect to continue. Cash dividends paid on Common and Class A Common stock totaled \$37.1 million in fiscal 2016, compared to \$35.4 million in fiscal 2015 and \$32.1 million in fiscal 2014. Historically, we have met short-term liquidity requirements, which is defined as a rolling twelve month period, primarily by generating net cash from the operation of our properties. We believe that our net cash provided by operations will continue to be sufficient to fund our short-term liquidity requirements, including payment of dividends necessary to maintain our federal income tax REIT status.

Our long-term liquidity requirements consist primarily of obligations under our long-term debt, dividends paid to our preferred stockholders, capital expenditures and capital required for acquisitions. In addition, the limited partners and non-managing members of our three consolidated joint venture entities, Ironbound, McLean and Orangeburg, have the right to require the Company to repurchase all or a portion of their limited partner or non-managing member interests at prices and on terms as set forth in the governing agreements. See Note 6 to the financial statements included in Item 8 of this Annual Report on Form 10-K. Historically, we have financed the foregoing requirements through operating cash flow, borrowings under our Facility, debt refinancings, new debt, equity offerings and other capital market transactions, and/or the disposition of under-performing assets, with a focus on keeping our leverage low. We expect to continue doing so in the future. We cannot assure, however, that these sources will always be available to us when needed, or on the terms we desire.

Capital Expenditures

We invest in our existing properties and regularly make capital expenditures in the ordinary course of business to maintain our properties. We believe that such expenditures enhance the competitiveness of our properties. In fiscal 2016, we paid approximately \$21.5 million for property improvements, tenant improvements and leasing commission costs (approximately \$6.2 million representing property improvements and approximately \$15.3 million related to new tenant space improvements, leasing costs and capital improvements as a result of new tenant spaces). The amount of these expenditures can vary significantly depending on tenant negotiations, market conditions and rental rates. We expect to incur approximately \$5.3 million predominantly for anticipated capital improvements and leasing costs related to new tenant leases and property improvements during fiscal 2017. These expenditures are expected to be funded from operating cash flows, bank borrowings or other financing sources.

Significant Financings and Debt Transactions in Fiscal 2016

Our strategy is to maintain a conservative capital structure with low leverage levels by commercial real estate standards. Mortgage notes payable and other loans of \$273.0 million consist entirely of fixed-rate mortgage loan indebtedness with a weighted average interest rate of 4.5% at October 31, 2016. These mortgages are secured by 22 properties with a net book value of \$483 million and have fixed rates of interest ranging from 2.78% to 6.6%. We

may refinance our mortgage loans, at or prior to scheduled maturity, through replacement mortgage loans. The ability to do so, however, is dependent upon various factors, including the income level of the properties, interest rates and credit conditions within the commercial real estate market. Accordingly, there can be no assurance that such re-financings can be achieved.

At October 31, 2016, we had \$8 million of variable-rate debt consisting of draws on our Facility (see below) that was not fixed through an interest rate swap or otherwise. See "Item 7.A. Quantitative and Qualitative Disclosures about Market Risk" included in this Annual Report on Form 10-K for additional information on our interest rate risk.

We currently maintain a ratio of total debt to total assets below 31% and a fixed charge coverage ratio of over 2.68 to 1, which we believe will allow us to obtain additional secured mortgage loans or other types of borrowings, if necessary. We own 46 properties in our consolidated portfolio that are not encumbered by secured mortgage debt. At October 31, 2016, we had borrowing capacity of \$91 million on our Facility. Our Facility includes financial covenants that limit, among other things, our ability to incur unsecured and secured indebtedness. See "Note 5 in our consolidated financial statements included in Item 8 of this Annual Report on Form 10-K" for additional information on these and other restrictions.

In 2016, we engaged in various financing activities and debt transactions, as follows:

Until it was terminated on August 23, 2016, we had an \$80 million unsecured revolving credit facility with a syndicate of four banks led by The Bank of New York Mellon, as administrative agent. The syndicate also included Wells Fargo Bank N.A. (syndication agent), Bank of Montreal and Regions Bank (co-documentation agents). The facility gave us the option, under certain conditions, to increase the Facility's borrowing capacity up \$125 million, subject to lender approval. The maturity date of the facility was September 21, 2016 with a one-year extension at our option.

In August 2016, we refinanced our existing Facility with a syndicate of three banks, increasing the capacity to \$100 million from \$80 million, with the ability under certain conditions to additionally increase the capacity to \$150 million, subject to lender approval. The maturity date of the new Facility is August 23, 2020 with a one-year extension at our option. Borrowings under the Facility can be used for general corporate purposes and the issuance of up to \$10 million of letters of credit. Borrowings will bear interest at our option of Eurodollar rate plus 1.35% to 1.95% or The Bank of New York Mellon's prime lending rate plus 0.35% to 0.95%, based on consolidated indebtedness, as defined. We pay a quarterly commitment fee on the unused commitment amount of 0.15% to 0.25%, based on outstanding borrowings during the year. As of October 31, 2016, \$92 million was available to be drawn on the Facility. The Company's ability to borrow under the Facility is subject to its compliance with the covenants and other restrictions on an ongoing basis. The principal financial covenants limit the Company's level of secured and unsecured indebtedness and additionally require the Company to maintain certain debt coverage ratios. The Company was in compliance with such covenants at October 31, 2016.

During the fiscal years ended October 31, 2016 and 2015, we borrowed \$52 million and \$104.8 million, respectively, on our Facility to fund a portion of the equity for property acquisitions and capital improvements to our properties. During the fiscal years ended October 31, 2016 and 2015, we re-paid \$66.8 million and \$97.6 million, respectively, on our Facility with proceeds from a combination of non-recourse mortgage financings, secured mortgage financings and available cash.

In September 2016, we refinanced our \$7.2 million mortgage secured by two properties with the existing lender. The new mortgage has a principal balance of \$11 million, a term of ten years and requires payments of principal and interest at the rate of LIBOR plus 2.0%. Concurrent with entering into the mortgage, we also entered into an interest rate swap contract which converts the variable interest rate (based on LIBOR) to a fixed rate of 3.475% per annum.

In July 2016, we entered into a commitment to refinance our \$44 million mortgage secured by our Ridgeway shopping center in Stamford, CT on July 17, 2017, the first day the current Ridgeway mortgage can be repaid without penalty. The new mortgage will be in the amount of \$50 million, have a term of ten years and require payment of principal and interest at the rate of LIBOR plus 1.9%. Concurrent with entering into the commitment, we also entered into an interest rate swap contract which will convert the variable interest rate (based on LIBOR) to a fixed rate of 3.398% per annum.

In July 2016, we placed a \$22.7 million mortgage secured by our newly acquired Newfield Green shopping center located in Stamford, CT. The new mortgage has a term of fifteen years and requires payments of principal and interest at the fixed rate of 3.89% per annum.

In July 2016, we sold 2,750,000 shares of Class A Common Stock in an underwritten follow-on common stock offering for \$23.29 per share and raised net proceeds of \$64.1 million. In August 2016, the underwriters exercised their over-allotment option and purchased an additional 412,500 shares of Class A Common Stock that raised additional net proceeds of \$9.6 million.

In May 2016, we repaid a \$7.5 million mortgage that was secured by our Bloomfield, NJ property.

Table of Contents

Net Cash Flows from Operating Activities

Increase from fiscal 2015 to fiscal 2016:

The increase was primarily due to an increase in operating income at various properties in fiscal 2016 when compared with fiscal 2015, resulting from new leasing completed in fiscal 2015 and fiscal 2016 and \$4.8 million in extension fees collected from the entity under contract to purchase our White Plains property. In addition, the increase was further aided by an increase in the collection of tenant receivables in fiscal 2016 when compared with fiscal 2015.

Increase from fiscal 2014 to fiscal 2015:

The increase was due primarily to an increase in the operating income generated by our properties in the year ended October 31, 2015 versus fiscal 2014 offset by an increase in receivable and other assets and other liabilities.

Net Cash Flows from Investing Activities

Decrease in cash used from fiscal 2015 to fiscal 2016:

The decrease in cash flows used in investing activities in fiscal 2016 when compared to the prior fiscal year was the result of the purchase of two properties totaling \$58.6 million in fiscal 2016 versus purchasing six properties totaling \$138.5 million in fiscal 2015, offset by the Company receiving \$42.9 million in fiscal 2015 in proceeds from the sale of the Meriden property. In addition, we initiated a first mortgage loan in the amount of \$13.5 million in fiscal 2016.

Increase in cash used from fiscal 2014 to fiscal 2015:

The increase in cash flows used in investing activities in fiscal 2015 when compared to the prior fiscal year was the result of the purchase of six properties totaling \$138.5 million in fiscal 2015, versus purchasing eight properties in fiscal 2014 totaling \$81.7 million.

We regularly make capital investments in our properties for property improvements, tenant improvements costs and leasing commissions.

Net Cash Flows from Financing Activities

Cash generated:

Fiscal 2016: (Total \$159.5 million)

- Proceeds from issuance of Class A Common Stock in the amount of \$73.7 million.
- Proceeds from revolving credit line borrowings in the amount of \$52.0 million.
- Proceeds from mortgage financings in the amount of \$34.7 million.

Fiscal 2015: (Total \$237.6 million)

- Proceeds from mortgage financings in the amount of \$68.2 million.
- Proceeds from revolving credit line borrowings in the amount of \$104.8 million.
- Proceeds from the issuance of Series G Preferred Stock in the amount of \$4.6 million.
- Proceeds from the issuance of Class A Common stock in the amount of \$59.8 million.

Fiscal 2014: (Total \$198.8 million)

- Proceeds from revolving credit line borrowings of \$65.1 million.
- Proceeds from unsecured term loan borrowing of \$25 million.
- Proceeds from mortgage financings of \$40.7 million.
- Proceeds from issuance of Series G preferred stock of \$67.8 million.

Cash used:

Fiscal 2016: (Total \$138.9 million)

- Dividends to shareholders in the amount of \$51.4 million.
- Repayment of mortgage notes payable in the amount of \$21.7 million.
- Repayment of revolving credit line borrowings in the amount of \$66.8 million.

Fiscal 2015: (Total \$250.1 million)

- Dividends to shareholders in the amount of \$50.0 million.
- Repayment of mortgage notes payable in the amount of \$12.9 million.
- Repayment of revolving credit line borrowings in the amount of \$97.6 million.
- Repayment of the unsecured term loan in the amount of \$25 million.
- Redemption of preferred stock in the amount of \$61.3 million.
- Repurchase of Class A Common stock in the amount of \$3.4 million.

Fiscal 2014: (Total \$125.0 million)

- Dividends to shareholders in the amount of \$45.9 million.
- Repayments of mortgage notes payable in the amount of \$20.3 million.
- Repayments of revolving credit line borrowings in the amount of \$58.8 million.

Results of Operations

Fiscal 2016 vs. Fiscal 2015

The following information summarizes our results of operations for the years ended October 31, 2016 and 2015 (amounts in thousands):

	Year Ended						<u>Change Attributable</u>	
	October 31,						to:	
								Properties
								Held In
								Both
								Periods
								(Notes)
	<u>2016</u>	<u>2015</u>	<u>Increase</u>	<u>%</u>	<u>Property</u>	<u>Acquisition</u>	<u>Periods</u>	
			<u>(Decrease)</u>	<u>Change</u>				
Revenues								
Base rents	\$87,172	\$83,885	\$ 3,287	3.9 %	\$ (1,556)	\$ 4,843		
Recoveries from tenants	25,788	28,703	(2,915)	-10.2 %	(516)	(2,399)		
Other income	3,213	2,252	961	42.7 %	(114)	1,075		
Operating Expenses								
Property operating	18,717	21,267	(2,550)	-12.0 %	(690)	(1,860)		
Property taxes	18,548	18,224	324	1.8 %	33	291		
Depreciation and amortization	23,025	22,435	590	2.6 %	403	187		
General and administrative	9,284	8,576	708	8.3 %	n/a	n/a		
Non-Operating Income/Expense								
Interest expense	12,983	13,475	(492)	-3.7 %	497	(989)		
Interest, dividends, and other investment income	242	228	14	6.1 %	n/a	n/a		

Note 1 – Properties held in both periods includes only properties owned for the entire periods of 2016 and 2015 including the Company's White Plains Property (see Executive Summary above). All other properties are included in the property acquisition/sales column. There are no properties excluded from the analysis.

Revenues

Base rents increased by 3.9% to \$87.2 million in fiscal 2016, as compared with \$83.9 million in the comparable period of 2015. The increase in base rents and the changes in other income statement line items were attributable to:

Property Acquisitions and Properties Sold:

In fiscal 2015, the Company purchased equity interests in six properties totaling approximately 409,000 square feet of GLA and sold two properties totaling approximately 320,000 square feet and in fiscal 2016, the Company purchased two properties totaling 99,000 square feet. These properties accounted for all of the revenue and expense changes attributable to property acquisitions and sales in fiscal 2016 when compared with fiscal 2015.

Properties Held in Both Periods:

Revenues

Base rents increased by \$4.8 million in fiscal 2016 as compared to fiscal 2015 primarily as a result of the Company receiving \$4.8 million in extension fees from the entity in contract to purchase our White Plains property. In fiscal

2015, the Company entered into contract to sell our White Plains property and that closing was scheduled to occur in April 2016. In February the purchaser approached the Company and asked for an extension of the closing to October 2016. In exchange for granting the extension the Company received \$2.8 million. In October, the purchaser approached us again and asked for an additional extension, and in exchange for granting that extension the Company received an additional \$2 million. The Company has recorded the entire \$4.8 million in base rent on the accompanying consolidated income statements, as the fees collected for the extensions essentially amounted to the purchaser renting the shopping center until the closing of the sale, which is now scheduled for March of 2017. In addition the increase was caused by an increase in base rents billed at several of our other shopping centers in excess of the prior year for new leasing done in the portfolio in fiscal 2015 and 2016 offset by a reduction in base rents at the three shopping centers which were leased to A&P and were not assumed in the A&P bankruptcy process (see leasing - significant events with impact on leasing section earlier in this Item 7). Two of those three spaces have been re-leased and are now paying rent.

In fiscal 2016, the Company leased or renewed approximately 418,400 square feet (or approximately 10.4% of total consolidated property leasable area). At October 31, 2016, the Company's consolidated properties were approximately 93.3%. The above percentages exclude the Company's White Plains property which is being held vacant for sale.

For the year ended October 31, 2016, recoveries from tenants for properties owned in both periods (which represent reimbursements from tenants for operating expenses and property taxes) decreased by a net \$2.4 million. This decrease was primarily the result of incurring \$1.9 million less in operating expenses for properties owned in both periods, predominantly attributable to a significant reduction in snow removal costs during fiscal 2016 as compared with fiscal 2015. In addition, this decrease was also the result of having two anchor stores formerly occupied by A&P vacant for most of the first and second quarters of fiscal 2016, which reduced the Company's recovery rate for operating costs at these properties.

Expenses

Property operating expenses for properties owned in both fiscal year 2016 and 2015 decreased by \$1.9 million. This decrease was primarily the result of having \$1.9 million less in operating expenses in the portfolio, predominantly attributable to a significant reduction in snow removal costs during fiscal 2016 as compared with fiscal 2015.

Real estate taxes for properties owned in both fiscal year 2016 and 2015 increased by \$291,000 as a result of normal tax assessment increases at some of our properties.

Interest expense for properties owned in both fiscal year 2016 and 2015 decreased by \$989,000 as a result of the Company having less outstanding on its Facility in fiscal 2016 as compared with fiscal 2015 and the Company repaying two mortgages totaling \$14.8 million in fiscal 2015 and 2016 and the Company repaying its \$25 million term loan in August 2015.

Depreciation and amortization expense from properties owned in the year ended October 31, 2016 as compared to the corresponding prior period, increased by \$187,000 as a result of an increase in capital improvements on properties held in both periods.

General and administrative expense for the year ended October 31, 2016, when compared with the year ended October 31, 2015 increased by \$708,000, as a result of increased compensation expense for additional staffing at the Company, increased bonus compensation for our employees and an increase in restricted stock amortization as a result of newer tranches of restricted stock grants being valued at a higher stock price than that of expiring tranches of restricted stock.

White Plains property after January 31, 2015. The Company is in the process of selling this property and in order to accomplish this we had to vacate the remaining tenants from the property. The negative base rent variance for White Plains property for the year ended October 31, 2015 when compared with fiscal 2014 was \$2.0 million. This decrease was mostly offset by an increase in base rents billed to tenants as our leased rate increased from the year ended 2014 to the year ended 2015.

In fiscal 2015, the Company leased or renewed 507,000 square feet (or approximately 12.9% of total consolidated property leasable area). At October 31, 2015, the Company's consolidated properties were approximately 95.8% leased (excluding the White Plains property), an increase of 1.00% from the end of fiscal 2014. Overall property occupancy increased to 95.0% at October 31, 2015, up from 94.2% at the end of fiscal 2014.

For the year ended October 31, 2015, recoveries from tenants for properties owned in both periods (which represents reimbursements from tenants for operating expenses and property taxes) increased by a net \$868,000. This increase was a result of an increase in the percentage of the portfolio that is leased, which allows the Company to bill and collect a higher percentage of operating costs from its tenants and an actual increase in operating costs incurred in properties held in both periods. This operating expense increase was predominantly the result of an increase in snow removal costs and parking lot repairs.

Expenses

Property operating expenses for properties held in both periods increased for the year ended October 31, 2015, when compared with fiscal 2014, by \$682,000, as a result of an increase in expenses relating to snow removal costs and parking lot repairs.

Real estate taxes for properties held in both periods were relatively unchanged for the year ended October 31, 2015 when compared with fiscal 2014, as a result of normal property tax assessment increases at a majority of the properties held in both periods, offset by a reduction in tax expense at the Company's White Plains property caused by a property tax assessment reduction.

Depreciation and amortization for properties held in both fiscal 2015 and 2014 increased as a result of tenant improvements being completed at several properties that had significant leasing activity in 2014 and 2015.

General and administrative expense increased in the year ended October 31, 2015 when compared with fiscal 2014 by \$560,000, as a result of increased compensation expense for additional staffing at the Company over the last quarter of fiscal 2014 and the first three quarters of fiscal 2015.

Interest expense for properties owned in the year ended October 31, 2015 when compared with fiscal 2014 decreased by \$212,000, as a result of normal amortization on the Company's fixed rate mortgages and the repayment of a \$4.5 million mortgage in July 2015.

Table of Contents

Funds from Operations

We consider Funds from Operations ("FFO") to be an additional measure of our operating performance. We report FFO in addition to net income applicable to common stockholders and net cash provided by operating activities. Management has adopted the definition suggested by The National Association of Real Estate Investment Trusts ("NAREIT") and defines FFO to mean net income (computed in accordance with GAAP) excluding gains or losses from sales of property, plus real estate-related depreciation and amortization and after adjustments for unconsolidated joint ventures.

Management considers FFO a meaningful, additional measure of operating performance because it primarily excludes the assumption that the value of the Company's real estate assets diminishes predictably over time and industry analysts have accepted it as a performance measure. FFO is presented to assist investors in analyzing the performance of the Company. It is helpful as it excludes various items included in net income that are not indicative of our operating performance, such as gains (or losses) from sales of property and depreciation and amortization. However, FFO:

· does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); and

· should not be considered an alternative to net income as an indication of our performance.

FFO as defined by us may not be comparable to similarly titled items reported by other real estate investment trusts due to possible differences in the application of the NAREIT definition used by such REITs. The table below provides a reconciliation of net income applicable to Common and Class A Common Stockholders in accordance with GAAP to FFO for each of the three years in the period ended October 31, 2016 (amounts in thousands):

	<u>Year Ended October 31,</u>		
	<u>2016</u>	<u>2015</u>	<u>2014</u>
Net Income Applicable to Common and Class A Common Stockholders	\$19,436	\$34,659	\$49,469
Real property depreciation	18,866	18,750	15,361
Amortization of tenant improvements and allowances	3,517	3,161	3,298
Amortization of deferred leasing costs	557	449	520
Depreciation and amortization on unconsolidated joint ventures	1,589	1,414	1,255
(Gain)/loss on sale of properties	<u>(362)</u>	<u>(20,377)</u>	<u>(36,871)</u>
Funds from Operations Applicable to Common and Class A Common Stockholders	<u>\$43,603</u>	<u>\$38,056</u>	<u>\$33,032</u>
Net Cash Provided by (Used in):			
Operating Activities	<u>\$60,062</u>	<u>\$51,100</u>	<u>\$50,915</u>
Investing Activities	<u>\$(80,053)</u>	<u>\$(105,034)</u>	<u>\$(54,624)</u>
Financing Activities	<u>\$20,639</u>	<u>\$(12,472)</u>	<u>\$73,793</u>

FFO amounted to \$43.6 million in fiscal 2016, compared to \$38.1 million in fiscal 2015 and \$33.0 million in fiscal 2014.

The net increase in FFO in fiscal 2016 when compared with fiscal 2015 was predominantly attributable, among other things, to: a) a decrease in acquisition costs of \$1.7 million in fiscal 2016 when compared to fiscal 2015; b) a decrease in preferred stock dividends as a result of issuing a new series of preferred stock in fiscal 2015 with a lower interest rate than the series it replaced; c) extension fees received from the entity in contract to purchase our Westchester Pavilion property that gave them the right to delay the closing of the property to 2017 in the amount of \$4.8 million (included in base rent); d) an increase in operating income at several of our properties from new leasing completed in fiscal 2015 and fiscal 2016; offset by e) a decrease in rental income relating to tenant vacancies at several properties, most notably three spaces formerly occupied by A&P. See "Leasing—Significant Events with Impacts on Leasing" in this Item 7.

The net increase in FFO in fiscal 2015 when compared with fiscal 2014 was predominantly attributable, among other things, to: a) the additional net operating income generated from properties acquired in fiscal 2014 and fiscal 2015; b) an overall increase in net operating income at properties owned in both fiscal 2014 and 2015; offset by c) an increase in acquisition costs of \$1.4 million in fiscal 2015 when compared with fiscal 2014 and d) an increase in interest expense of \$3.2 million as a result of the Company's secured mortgage borrowings increasing when we assumed the mortgage encumbering two properties we acquired in fiscal 2014 and when the Company placed a new \$62.7 million combined mortgage on the four properties it acquired in fiscal 2015.

Off-Balance Sheet Arrangements

We have seven off-balance sheet investments in real property through unconsolidated joint ventures:

- a 66.67% equity interest in the Putnam Plaza Shopping Center,
- an 11.642% equity interest in the Midway Shopping Center L.P.,
- a 50% equity interest in the Chestnut Ridge Shopping Center and Plaza 59 Shopping Centers,
- a 50% equity interest in the Gateway Plaza shopping center and the Riverhead Applebee's Plaza, and
- a 20% economic interest in a partnership that owns a suburban office building with ground level retail.

These unconsolidated joint ventures are accounted for under the equity method of accounting, as we have the ability to exercise significant influence over, but not control of, the operating and financial decisions of these investments. Our off-balance sheet arrangements are more fully discussed in Note 7, "Investments in and Advances to Unconsolidated Joint Ventures" in our financial statements in Item 8. Although we have not guaranteed the debt of these joint ventures, we have agreed to customary environmental indemnifications and nonrecourse carve-outs (e.g. guarantees against fraud, misrepresentation and bankruptcy) on certain loans of the joint ventures. The below table details information about the outstanding non-recourse mortgage financings on our unconsolidated joint ventures (amounts in thousands):

<u>Joint Venture Description</u>	<u>Location</u>	<u>Principal Balance</u>		Fixed Interest	
		<u>Original Balance</u>	At October 31, 2016	Rate Per <u>Annum</u>	<u>Maturity Date</u>
Midway Shopping Center	Scarsdale, NY	\$32,000	\$29,212	4.80	% Dec-2027
Putnam Plaza Shopping Center	Carmel, NY	\$21,000	\$19,470	4.17	% Oct-2024

Edgar Filing: URSTADT BIDDLE PROPERTIES INC - Form 10-K

Gateway Plaza	Riverhead, NY	\$14,000	\$13,110	4.18	% Feb-2024
Applebee's Plaza	Riverhead, NY	\$1,300	\$1,080	5.98	% Aug-2026
Applebee's Plaza	Riverhead, NY	\$1,000	\$998	3.38	% Aug-2026

Contractual Obligations

Our contractual payment obligations as of October 31, 2016 were as follows (amounts in thousands):

Payments Due by Period

	<u>Total</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>Thereafter</u>
Mortgage notes payable and other loans	\$273,016	\$55,580	\$5,221	\$31,840	\$4,506	\$4,808	\$171,061
Interest on mortgage notes payable	80,775	12,732	9,912	9,015	7,918	7,616	33,582
Revolving Credit Lines	8,000	-	-	-	8,000	-	-
Property acquisitions	17,100	17,100	-	-	-	-	-
Tenant obligations*	<u>5,300</u>	<u>5,300</u>	<u>=</u>	<u>=</u>	<u>=</u>	<u>=</u>	<u>=</u>
Total Contractual Obligations	<u>\$384,191</u>	<u>\$90,712</u>	<u>\$15,133</u>	<u>\$40,855</u>	<u>\$20,424</u>	<u>\$12,424</u>	<u>\$204,643</u>

*Committed tenant-related obligations based on executed leases as of October 31, 2016.

We have various standing or renewable service contracts with vendors related to property management. In addition, we also have certain other utility contracts entered into in the ordinary course of business which may extend beyond one year, which vary based on usage. These contracts include terms that provide for cancellation with insignificant or no cancellation penalties. Contract terms are generally one year or less.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to interest rate risk primarily through our borrowing activities, which include fixed-rate mortgage debt and, in limited circumstances, variable rate debt. As of October 31, 2016, we had total mortgage debt and other notes payable of \$273 million, of which 100% was fixed-rate, inclusive of variable rate mortgages that have been swapped to fixed interest rates using interest rate swap derivatives contracts.

For our fixed-rate debt, there is inherent rollover risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and the Company's future financing requirements.

To reduce our exposure to interest rate risk on variable-rate debt, we use interest rate swap agreements, for example, to convert some of our variable-rate debt to fixed-rate debt. As of October 31, 2016, we had seven open derivative financial instruments. These interest rate swaps are cross collateralized with mortgages on properties in Rye, NY, Ossining, NY, Yonkers, NY, and Greenwich CT. The Rye swaps expire in October 2019, the Ossining and Yonkers swaps expire in October 2024, and the Greenwich swaps expire in September 2026, all concurrent with the maturity of the respective mortgages. All of the aforementioned derivatives contracts are adjusted to fair market value at each reporting period. The Company has concluded that all of the aforementioned derivatives contracts are effective cash flow hedges as defined in ASC Topic 815. We are required to evaluate the effectiveness at inception and at each reporting date. As a result of the aforementioned derivatives contracts being effective cash flow hedges all changes in fair market value are recorded directly to stockholders equity in accumulated comprehensive income and have no effect on the earnings of the Company.

The following table sets forth the Company's long-term debt obligations by principal cash payments and maturity dates, weighted average fixed interest rates and estimated fair value at October 31, 2016 (amounts in thousands, except weighted average interest rate):

For the Fiscal Year Ended October 31,

	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>Thereafter</u>	<u>Total</u>	<u>Estimated Fair Value</u>
Mortgage notes payable and other loans	\$55,580	\$5,221	\$31,840	\$4,506	\$4,808	\$171,061	\$273,016	\$286,694
Weighted average interest rate for debt maturing	5.18 %	n/a	6.11 %	n/a	n/a	4.09 %	4.51 %	

At October 31, 2016, the Company had \$8 million in outstanding variable rate debt (based on LIBOR). If LIBOR were to increase or decrease by 1%, the Company's interest expense would increase or decrease by approximately \$80,000 annually.

Table of Contents

Item 8. Financial Statements and Supplementary Data.

The consolidated financial statements required by this Item, together with the reports of the Company's independent registered public accounting firm thereon and the supplementary financial information required by this Item, are included under Item 15 of this Annual Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

There were no changes in, or any disagreements with, the Company's independent registered public accounting firm on accounting principles and practices or financial disclosure during the years ended October 31, 2016 and 2015.

Item 9A. Controls and Procedures.

At the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective. During the fourth quarter of 2016, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

(a) Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed by, or under the supervision of, the Company's Chief Executive Officer and Chief Financial Officer and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles.

The Company's internal control over financial reporting includes policies and procedures that: relate to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets of the Company; provide reasonable assurance of the recording of all transactions necessary to permit the preparation of the Company's consolidated financial statements in accordance with generally accepted accounting principles and the proper authorization of receipts and expenditures in accordance with authorization of the Company's management and directors; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the Company's consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of October 31, 2016. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control – Integrated Framework (2013). Based on its assessment, management determined that the Company's internal control over financial reporting was effective as of October 31, 2016. The Company's independent registered public accounting firm, PKF O'Connor Davies, LLP has audited the effectiveness of the Company's internal control over financial reporting, as indicated in their attestation report which is included in (b) below.

Table of Contents

(b) Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of Urstadt Biddle Properties Inc.

We have audited Urstadt Biddle Properties Inc.'s internal control over financial reporting as of October 31, 2016, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") (2013 Framework). Urstadt Biddle Properties Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles; (3) receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (4) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Urstadt Biddle Properties Inc. maintained, in all material respects, effective internal control over financial reporting as of October 31, 2016 based on criteria established in Internal Control – Integrated Framework issued by COSO (2013 Framework).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Urstadt Biddle Properties Inc. as of October 31, 2016 and 2015, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended October 31, 2016 and our report dated January 12, 2017 expressed an unqualified opinion thereon.

New York, New York

URSTADT BIDDLE PROPERTIES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
October 31, 2016

(1) ORGANIZATION, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

Urstadt Biddle Properties Inc. ("Company"), a real estate investment trust (REIT), is engaged in the acquisition, ownership and management of commercial real estate, primarily neighborhood and community shopping centers in the northeastern part of the United States with a concentration in the metropolitan New York tri-state area outside of the City of New York. The Company's major tenants include supermarket chains and other retailers who sell basic necessities. At October 31, 2016, the Company owned or had equity interests in 75 properties containing a total of 5.0 million square feet of gross leasable area ("GLA").

Principles of Consolidation and Use of Estimates

The accompanying consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries, and joint ventures in which the Company meets certain criteria of a sole general partner in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 810, "Consolidation," and ASC Topic 970-810 "Real Estate-General-Consolidation". The Company has determined that such joint ventures should be consolidated into the consolidated financial statements of the Company. In accordance with ASC Topic 970-323 "Real Estate-General-Equity Method and Joint Ventures," joint ventures that the Company does not control but otherwise exercises significant influence in, are accounted for under the equity method of accounting. See Note 6 for further discussion of the unconsolidated joint ventures. All significant intercompany transactions and balances have been eliminated in consolidation.

The accompanying financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the disclosure of contingent assets and liabilities, the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the periods covered by the financial statements. The most significant assumptions and estimates relate to the valuation of real estate, depreciable lives, revenue recognition, fair value measurements and the collectability of tenant receivables. Actual results could differ from these estimates.

Federal Income Taxes

The Company has elected to be treated as a real estate investment trust under Sections 856-860 of the Internal Revenue Code ("Code"). Under those sections, a REIT that, among other things, distributes at least 90% of real estate trust taxable income and meets certain other qualifications prescribed by the Code will not be taxed on that portion of its taxable income that is distributed. The Company believes it qualifies as a REIT and intends to distribute all of its taxable income for fiscal 2016 in accordance with the provisions of the Code. Accordingly, no provision has been made for Federal income taxes in the accompanying consolidated financial statements.

The Company follows the provisions of ASC Topic 740, "Income Taxes," that, among other things, defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Based on its evaluation, the Company determined that it has no uncertain tax positions and no unrecognized tax benefits as of October 31, 2016. As of October 31, 2016, the fiscal tax years 2013 through and including 2015 remain open to examination by the Internal Revenue Service. There are currently no federal tax examinations in progress.

Real Estate Investments

All costs related to the improvement or replacement of real estate properties are capitalized. Additions, renovations and improvements that enhance and/or extend the useful life of a property are also capitalized. Expenditures for ordinary maintenance, repairs and improvements that do not materially prolong the normal useful life of an asset are charged to operations as incurred.

Upon the acquisition of real estate properties, the fair value of the real estate purchased is allocated to the acquired tangible assets (consisting of land, buildings and building improvements), and identified intangible assets and liabilities (consisting of above-market and below-market leases and in-place leases), in accordance with ASC Topic 805, "Business Combinations." The Company utilizes methods similar to those used by independent appraisers in estimating the fair value of acquired assets and liabilities. The fair value of the tangible assets of an acquired property considers the value of the property "as-if-vacant." The fair value reflects the depreciated replacement cost of the asset. In allocating purchase price to identified intangible assets and liabilities of an acquired property, the value of above-market and below-market leases are estimated based on the difference between contractual rentals and the estimated market rents over the applicable lease term discounted back to the date of acquisition utilizing a discount rate adjusted for the credit risk associated with the respective tenants. The aggregate value of in-place leases is measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property "as-if-vacant," determined as set forth above.

Above and below-market leases acquired are recorded at their fair value. The capitalized above-market lease values are amortized as a reduction of rental revenue over the remaining term of the respective leases and the capitalized below-market lease values are amortized as an increase to rental revenue over the remaining term of the respective leases. The value of in-place leases is based on the Company's evaluation of the specific characteristics of each tenant's lease. Factors considered include estimates of carrying costs during expected lease-up periods, current market conditions, and costs to execute similar leases. The value of in-place leases are amortized over the remaining term of the respective leases. If a tenant vacates its space prior to its contractual expiration date, any unamortized balance of their related intangible asset is recorded in the consolidated statement of income.

Table of Contents**Depreciation and Amortization**

The Company uses the straight-line method for depreciation and amortization. Real estate investment properties are depreciated over the estimated useful lives of the properties, which range from 30 to 40 years. Property improvements are depreciated over the estimated useful lives that range from 10 to 20 years. Furniture and fixtures are depreciated over the estimated useful lives that range from 3 to 10 years. Tenant improvements are amortized over the shorter of the life of the related leases or their useful life.

Property Held for Sale and Discontinued Operations

The Company reports properties that are either disposed of or are classified as held for sale in continuing operations in the consolidated statement of income if the removal, or anticipated removal, of the asset(s) from the reporting entity does not represent a strategic shift that has or will have a major effect on an entity's operations and financial results when disposed of.

In September 2014, the Company sold, for \$31 million, its property located in Springfield, MA, as that property no longer met the Company's investment objectives. In conjunction with the sale, the Company realized a gain on sale of property in the amount of \$24.3 million, which is included in continuing operations in the consolidated statement of income for the year ended October 31, 2014. The revenue and expenses of this property are included in continuing operations in the consolidated statements of income for the year ended October 31, 2014.

In August 2015, the Company sold, for \$44.5 million, its property located in Meriden, CT, as that property no longer met the Company's investment objectives. In conjunction with the sale, the Company realized a gain on sale of property in the amount of \$20.4 million, which is included in continuing operations in the consolidated statement of income for the year ended October 31, 2015. The revenue and expenses of this property are included in continuing operations in the consolidated statements of income for the years ended October 31, 2015 and 2014.

In addition, the Company had previously entered into a contract to sell its White Plains property and in April 2016, the Company satisfied the remaining contingency under the sale contract and expects to close on the sale of the property in March 2017. In accordance with ASC 360-10-45, the White Plains asset met all of the criteria to be classified as held for sale beginning in April 2016, but because the net book value of the White Plains asset is insignificant to financial statement presentation, the Company will not include the asset as held for sale on the consolidated balance sheet for all periods presented.

The combined operating results of the Springfield property, the Meriden property and the White Plains property, which are included in continuing operations, were as follows (amounts in thousands):

	Year Ended October 31,		
	2016	2015	2014
Revenues	\$5,638	\$6,126	\$12,411
Property operating expense	(1,340)	(3,244)	(5,689)
Depreciation and amortization	(476)	(1,787)	(2,767)
Net Income	\$3,822	\$1,095	\$3,955

In December 2013 (fiscal 2014), prior to the adoption of ASU 2014-08, which changed the criteria for reporting discontinued operations, the Company sold its two distribution service facilities in its non-core portfolio and one core property for \$18.1 million, resulting in a gain on sale of properties of \$12.5 million. In accordance with ASC 360 and 205 (prior to the accounting change) the operating results of the distribution service facilities are shown as discontinued operations on the consolidated statements of income for the fiscal year ended October 31, 2014. The operating results of the other property were insignificant to financial statement presentation and are not shown as discontinued operations.

The following table summarizes revenues and expenses for the Company's discontinued operations (amounts in thousands):

	Year Ended October 31,		
	2016	2015	2014
Revenues	\$-	\$ -	\$141
Property operating expense	-	-	-
Depreciation and amortization	-	-	-
Income from discontinued operations	\$-	\$ -	\$141

Cash flows from discontinued operations for the fiscal years ended October 31, 2016, 2015 and 2014 are combined with the cash flows from operations within each of the three categories presented. Cash flows from discontinued operations are as follows (amounts in thousands):

	Year Ended October 31,		
	2016	2015	2014
Cash flows from operating activities	\$-	\$ -	\$(13,131)
Cash flows from investing activities	\$-	\$ -	\$14,314
Cash flows from financing activities	\$-	\$ -	\$-

Deferred Charges

Deferred charges consist principally of leasing commissions (which are amortized ratably over the life of the tenant leases) and financing fees (which are amortized over the terms of the respective agreements). Deferred charges in the accompanying consolidated balance sheets are shown at cost, net of accumulated amortization of \$3,703,000 and \$3,108,000 as of October 31, 2016 and 2015, respectively.

Asset Impairment

On a periodic basis, management assesses whether there are any indicators that the value of its real estate investments may be impaired. A property value is considered impaired when management's estimate of current and projected operating cash flows (undiscounted and without interest) of the property over its remaining useful life is less than the net carrying value of the property. Such cash flow projections consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the loss is measured as the excess of the net carrying amount of the property over the fair value of the asset. Changes in estimated future cash flows due to changes in the Company's plans or market and economic conditions could result in recognition of impairment losses which could be substantial. Management does not believe that the value of any of its real estate investments is impaired at October 31, 2016.

Revenue Recognition

Our leases with tenants are classified as operating leases. Rental income is generally recognized based on the terms of leases entered into with tenants. In those instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin. Minimum rental income from leases with scheduled rent increases is recognized on a straight-line basis over the lease term. At October 31, 2016 and 2015, approximately \$16,829,000 and \$15,570,000, respectively, has been recognized as straight-line rents receivable (representing the current net cumulative rents recognized prior to when billed and collectible as provided by the terms of the leases), all of which is included in tenant receivables in the accompanying consolidated financial statements.

Percentage rent is recognized when a specific tenant's sales breakpoint is achieved. Property operating expense recoveries from tenants of common area maintenance, real estate taxes and other recoverable costs are recognized in the period the related expenses are incurred. Lease incentives are amortized as a reduction of rental revenue over the respective tenant lease terms. Lease termination amounts are recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company. There is no way of predicting or forecasting the timing or amounts of future lease termination fees. Interest income is recognized as it is earned. Gains or losses on disposition of properties are recorded when the criteria for recognizing such gains or losses under GAAP have been met.

The Company provides an allowance for doubtful accounts against the portion of tenant receivables (including an allowance for future tenant credit losses of approximately 10% of the deferred straight-line rents receivable) which is estimated to be uncollectible. Such allowances are reviewed periodically. At October 31, 2016 and 2015, tenant receivables in the accompanying consolidated balance sheets are shown net of allowances for doubtful accounts of \$4,097,000 and \$3,668,000, respectively.

Table of Contents

Cash Equivalents

Cash and cash equivalents consist of cash in banks and short-term investments with original maturities of less than three months.

Restricted Cash

Restricted cash consists of those tenant security deposits and replacement and other reserves required by agreement with certain of the Company's mortgage lenders for property level capital requirements that are required to be held in separate bank accounts.

Derivative Financial Instruments

The Company occasionally utilizes derivative financial instruments, such as interest rate swaps, to manage its exposure to fluctuations in interest rates. The Company has established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instruments. Derivative financial instruments must be effective in reducing the Company's interest rate risk exposure in order to qualify for hedge accounting. When the terms of an underlying transaction are modified, or when the underlying hedged item ceases to exist, all changes in the fair value of the instrument are marked-to-market with changes in value included in net income for each period until the derivative instrument matures or is settled. Any derivative instrument used for risk management that does not meet the hedging criteria is marked-to-market with the changes in value included in net income. The Company has not entered into, and does not plan to enter into, derivative financial instruments for trading or speculative purposes. Additionally, the Company has a policy of entering into derivative contracts only with major financial institutions.

As of October 31, 2016, the Company believes it has no significant risk associated with non-performance of the financial institutions that are the counterparty to its derivative contracts. At October 31, 2016, the Company had approximately \$34.8 million in secured mortgage financings subject to interest rate swaps. Such interest rate swaps converted the LIBOR-based variable rates on the mortgage financings to a fixed annual rate of 3.79% per annum. As of October 31, 2016 and 2015, the Company had a deferred liability of \$1,726,000 and \$1,230,000, respectively (included in accounts payable and accrued expenses on the consolidated balance sheets) relating to the fair value of the Company's interest rate swaps applicable to secured mortgages.

In addition, in June 2016, the Company entered into a \$50 million mortgage loan commitment (see Note 5) with a lender to refinance the Company's secured mortgage on its Ridgeway property located in Stamford, CT in July 2017. In conjunction with entering into the mortgage commitment, the Company simultaneously executed with the same lender an interest rate swap contract with a \$50 million notional amount that will take effect on July 17, 2017 and will be co-terminus with the new Ridgeway mortgage loan. Such interest rate swap will convert the LIBOR-based variable rate on the new Ridgeway mortgage loan to a fixed annual rate of 3.398%. As of October 31, 2016, the Company had a deferred asset of \$422,000 (included in prepaid expenses and other assets on the consolidated balance sheets) relating to the fair value of the Company's interest rate swap applicable to the Ridgeway mortgage loan.

Charges and/or credits relating to the changes in fair values of such interest rate swap are made to other comprehensive (loss) as the swap is deemed effective and is classified as a cash flow hedge.

Comprehensive Income

Comprehensive income is comprised of net income applicable to Common and Class A Common stockholders and other comprehensive income (loss). Other comprehensive income (loss) includes items that are otherwise recorded directly in stockholders' equity, such as unrealized gains or losses on marketable securities and unrealized gains and losses on interest rate swaps designated as cash flow hedges. At October 31, 2016 and 2015, accumulated other comprehensive loss consisted of net unrealized losses on interest rate swap agreements of approximately \$1,304,000 and \$1,230,000, respectively. Unrealized gains and losses included in other comprehensive (loss) will be reclassified into earnings as gains and losses are realized.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, and tenant receivables. The Company places its cash and cash equivalents in excess of insured amounts with high quality financial institutions. The Company performs ongoing credit evaluations of its tenants and may require certain tenants to provide security deposits or letters of credit. Though these security deposits and letters of credit are insufficient to meet the terminal value of a tenant's lease obligation, they are a measure of good faith and a source of funds to offset the economic costs associated with lost rent and the costs associated with re-tenanting the space. There is no dependence upon any single tenant.

Table of Contents**Earnings Per Share**

The Company calculates basic and diluted earnings per share in accordance with the provisions of ASC Topic 260, "Earnings Per Share." Basic earnings per share ("EPS") excludes the impact of dilutive shares and is computed by dividing net income applicable to Common and Class A Common stockholders by the weighted average number of Common shares and Class A Common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue Common shares or Class A Common shares were exercised or converted into Common shares or Class A Common shares and then shared in the earnings of the Company. Since the cash dividends declared on the Company's Class A Common stock are higher than the dividends declared on the Common Stock, basic and diluted EPS have been calculated using the "two-class" method. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock according to the weighted average of the dividends declared, outstanding shares per class and participation rights in undistributed earnings.

The following table sets forth the reconciliation between basic and diluted EPS (in thousands):

	Year Ended October 31,		
	2016	2015	2014
Numerator			
Net income applicable to common stockholders – basic	\$4,142	\$7,412	\$11,401
Effect of dilutive securities:			
Restricted stock awards	236	431	723
Net income applicable to common stockholders – diluted	\$4,378	\$7,843	\$12,124
Denominator			
Denominator for basic EPS-weighted average common shares	8,241	8,059	7,801
Effect of dilutive securities:			
Restricted stock awards	669	669	735

Numerator			
Net income applicable to Class A common stockholders – basic	\$15,294	\$27,247	\$38,068
Effect of dilutive securities:			
Restricted stock awards	(236)	(431)	(723)
Net income applicable to Class A common stockholders – diluted	\$15,058	\$26,816	\$37,345
Denominator			
Denominator for basic EPS – weighted average Class A common shares	26,921	26,141	23,208
Effect of dilutive securities:			
Restricted stock awards	191	191	219
Denominator for diluted EPS – weighted average Class A common equivalent shares	27,112	26,332	23,427

Stock-Based Compensation

The Company accounts for its stock-based compensation plans under the provisions of ASC Topic 718, "Stock Compensation," which requires that compensation expense be recognized based on the fair value of the stock awards less estimated forfeitures. The fair value of stock awards is equal to the fair value of the Company's stock on the grant date.

Segment Reporting

The Company's primary business is the ownership, management, and redevelopment of retail properties. The Company reviews operating and financial information for each property on an individual basis and therefore, each

property represents an individual operating segment. The Company evaluates financial performance using property operating income, which consists of base rental income and tenant reimbursement income, less rental expenses and real estate taxes. Only one of the Company's properties, located in Stamford, CT ("Ridgeway"), is considered significant as its revenue is in excess of 10% of the Company's consolidated total revenues and accordingly is a reportable segment. The Company has aggregated the remainder of our properties as they share similar long-term economic characteristics and have other similarities including the fact that they are operated using consistent business strategies, are typically located in the same major metropolitan area, and have similar tenant mixes.

Ridgeway is located in Stamford, Connecticut and was developed in the 1950's and redeveloped in the mid 1990's. The property contains approximately 374,000 square feet of GLA. It is the dominant grocery anchored center and the largest non-mall shopping center located in the City of Stamford, Fairfield County, Connecticut.

Segment information about Ridgeway as required by ASC Topic 280 is included below:

	Year Ended October 31,		
	2016	2015	2014
Ridgeway Revenues	11.3%	11.7%	13.3%
All Other Property Revenues	88.7%	88.3%	86.7%
Consolidated Revenue	100.0%	100.0%	100.0%

	Year Ended	
	October 31,	
	2016	2015
Ridgeway Assets	7.6%	8.4%
All Other Property Assets	92.4%	91.6%
Consolidated Assets (Note 1)	100.0%	100.0%

Note 1- Ridgeway did not have any significant expenditures for additions to long lived assets in any of the fiscal years ended October 31, 2016, 2015 and 2014.

	Year Ended		
	October 31,		
	2016	2015	2014
Ridgeway Percent Leased	98%	97%	99%

<u>Ridgeway Significant Tenants (by base rent):</u>	Year Ended		
	October 31,		
	2016	2015	2014
The Stop & Shop Supermarket Company	19%	19%	19%
Bed, Bath & Beyond	14%	14%	14%
Marshall's Inc., a division of the TJX Companies	11%	11%	11%
All Other Tenants at Ridgeway (Note 2)	56%	56%	56%
Total	100%	100%	100%

Note 2 - No other tenant accounts for more than 10% of Ridgeway's annual base rents in any of the three years presented. Percentages are calculated as a ratio of the tenants' base rent divided by total base rent of Ridgeway.

Table of Contents

Reclassification

Certain fiscal 2014 and 2015 amounts have been reclassified to conform to current period presentation.

New Accounting Standards

In May 2014, the FASB issued Accounting Standards Update ("ASU") ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09"). The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying ASU 2014-09, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB's ASC. ASU 2014-09 is effective for annual reporting periods (including interim periods within that reporting period) beginning after December 15, 2016 and shall be applied using either a full retrospective or modified retrospective approach. Early application is not permitted. In August 2015, FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 for all public companies for all annual periods beginning after December 15, 2017 with early adoption permitted only as of annual reporting periods beginning after December 31, 2016, including interim periods within the reporting period. In March 2016, the FASB issued ASU 2016-08 as an amendment to ASU 2014-09, the amendment clarifies how to identify the unit of accounting for the principal versus agent evaluation, how to apply the control principle to certain types of arrangements, such as service transaction, and reframed the indicators in the guidance to focus on evidence that an entity is acting as a principal rather than as an agent. The Company is currently assessing the potential impact that the adoption of ASU 2014-09 and ASU 2016-08 will have on its consolidated financial statements.

During April 2015, the FASB issued ASU No. 2015-03, "Interest - Imputation of Interest - Simplifying the Presentation of Debt Issuance Costs." ASU 2015-03 modifies the treatment of debt issuance costs from a deferred charge to a deduction of the carrying value of the financial liability. ASU 2015-03 is effective for annual periods beginning after December 15, 2015, with early adoption permitted and retrospective application. ASU 2015-03 is not expected to have a material impact on the Company's consolidated financial statements when adopted.

In February 2016, the FASB issued ASU 2016-02, "Leases." ASU 2016-02 significantly changes the accounting for leases by requiring lessees to recognize assets and liabilities for leases greater than 12 months on their balance sheet. The lessor model stays substantially the same; however, there were modifications to conform lessor accounting with the lessee model, eliminating real estate specific guidance, further defining certain lease and non-lease components, and changing the definition of initial direct costs of leases requiring significantly more leasing related costs to be expensed upfront. ASU 2016-02 is effective for the Company in the first quarter of fiscal 2020, and we are currently assessing the impact this standard will have on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation." ASU 2016-09 simplifies the accounting for share-based payment transactions, including a policy election option with respect to accounting for forfeitures either as they occur or estimating forfeitures (as is currently required), as well as increasing the amount an employer can withhold to cover income taxes on equity awards. ASU 2016-09 is effective for us in the first quarter of fiscal 2018, and we are currently assessing the impact this standard will have on the Company's consolidated financial statements.

The Company has evaluated all other new Accounting Standards Updates issued by FASB and has concluded that these updates do not have a material effect on the Company's consolidated financial statements as of October 31, 2016.

Table of Contents

(2) REAL ESTATE INVESTMENTS

The Company's investments in real estate, net of depreciation, were composed of the following at October 31, 2016 and 2015 (in thousands):

	Consolidated Investment Properties	Unconsolidated Joint Ventures	Mortgage Note Receivable	2016 Totals	2015 Totals
Retail	\$ 820,323	\$ 38,469	\$ 13,500	\$872,292	\$804,954
Office	10,417	-	-	10,417	10,381
	\$ 830,740	\$ 38,469	\$ 13,500	\$882,709	\$815,335

The Company's investments at October 31, 2016 consisted of equity interests in 75 properties and one mortgage note receivable. The 75 properties and the property securing the mortgage note receivable are located in various regions throughout the northeastern part of the United States with a concentration in the metropolitan New York tri-state area outside of the City of New York. The Company's primary investment focus is neighborhood and community shopping centers located in the region just described. Since a significant concentration of the Company's properties are in the northeast, market changes in this region could have an effect on the Company's leasing efforts and ultimately its overall results of operations.

Table of Contents

(3) PROPERTIES

The components of the properties consolidated in the financial statements are as follows (in thousands):

	October 31,	
	2016	2015
Land	\$187,676	\$175,952
Buildings and improvements	829,162	765,738
	1,016,838	941,690
Accumulated depreciation	(186,098)	(165,660)
	\$830,740	\$776,030

Space at the Company's properties is generally leased to various individual tenants under short and intermediate-term leases which are accounted for as operating leases.

Minimum rental payments on non-cancelable operating leases for the Company's consolidated properties totaling \$491.5 become due as follows (in millions): 2017- \$82.1; 2018- \$71.6; 2019- \$63.0; 2020- \$53.8; 2021- \$44.5; and thereafter – \$176.5.

Certain of the Company's leases provide for the payment of additional rent based on a percentage of the tenant's revenues. Such additional percentage rents are included in operating lease income and were less than 1.00% of consolidated revenues in each of the three years ended October 31, 2016.

Significant Investment Property Transactions

The Company is currently under contract to purchase three grocery or pharmacy anchored shopping centers located in its primary marketplace. The Company's equity needed to close the transactions will amount to approximately \$17.1 million, which it plans on funding with available cash, borrowings on its Unsecured Revolving Credit Facility (the "Facility") or proceeds from the sale of its White Plains shopping center.

In October 2016, the Company purchased, for \$13.3 million, the 27,000 square foot 970 High Ridge Road shopping center located in Stamford, CT ("High Ridge Road Property"). The Company funded the purchase with available cash. In conjunction with the purchase, the Company incurred acquisition costs totaling \$61,000, which have been expensed in the year ended October 31, 2016 consolidated statement of income.

In July 2016, the Company purchased, for \$45.3 million, the 72,000 square foot Newfield Green shopping center located in Stamford, CT ("Newfield Property"). The Company funded the purchase with a combination of available cash, borrowings on its Facility and proceeds generated by placing a non-recourse first mortgage on the property in the approximate amount of \$22.7 million (see Note 5). In conjunction with the purchase, the Company incurred acquisition costs totaling \$185,000, which have been expensed in the year ended October 31, 2016 consolidated statement of income.

The Company is currently in contract to sell its White Plains property to an unrelated entity. The sale was originally scheduled to close in fiscal 2016 but the purchaser requested, and the Company granted, several extensions in fiscal 2016 that postponed the closing to later in fiscal 2017. In consideration for granting the extensions, the Company received \$4.8 million to compensate the Company for carrying the property vacant. The Company has recorded the \$4.8 million as base rental income in the accompanying consolidated statement of income for the year ended October 31, 2016. In addition, in further consideration for the Company granting the extension to the purchaser the Company required that the purchaser deposit \$11.9 million of the purchased price with the Company. The Company has

recorded the \$11.9 million deposit in other liabilities on the consolidated balance sheet at October 31, 2016.

In December 2014 (fiscal 2015), the Company, through four wholly-owned subsidiaries, purchased, for \$124.6 million, four retail properties totaling 375,000 square feet located in Northern New Jersey ("NJ Retail Properties"). The Company funded the acquisition with a combination of available cash remaining from the sale of Class A Common Stock and the sale of its Series G Preferred Stock (see Note 8), borrowings under its Facility and a non-recourse mortgage secured by the properties (see Note 5). In conjunction with the purchase, the Company incurred acquisition costs totaling \$1,867,000, which have been expensed in the year ended October 31, 2015 consolidated statement of income.

In June 2015, the Company, through a wholly-owned subsidiary, purchased, for \$4.0 million, a 7,000 square foot retail property located in Fort Lee (Bergen County), New Jersey (the "Fort Lee Property"). The Company funded the acquisition with a combination of available cash and borrowings under its Facility. In conjunction with the purchase, the Company incurred acquisition costs totaling \$24,000, which have been expensed in the year ended October 31, 2015 consolidated statement of income.

In July 2015, the Company, through a wholly-owned subsidiary purchased, for \$10.0 million, a 26,000 square foot grocery anchored shopping center located in Harrison (Westchester County), New York (the "Harrison Property"). The acquisition was funded with a borrowing on the Company's Facility. In conjunction with the purchase, the Company incurred acquisition costs totaling \$68,000, which have been expensed in the year ended October 31, 2015 consolidated statement of income.

The Company is in the process of evaluating the purchase price allocation of its High Ridge Road and Newfield Green Properties acquired in fiscal 2016 in accordance with ASC Topic 805; consequently the purchase price allocation is preliminary and may be subject to change.

In fiscal 2015, the Company completed evaluating the fair value of the in-place leases for its NJ Retail Properties, its Harrison property and its Fort Lee property, all acquired in fiscal 2015. In addition, the Company completed its evaluation of the Greenwich properties and its McLean Plaza property (see note 6), all acquired in fiscal 2014. As a result of its evaluation, the Company has allocated \$964,000 to a liability associated with the fair value assigned to the acquired leases at the McLean Plaza Property, a \$166,000 liability associated with the fair value assigned to the acquired leases at the Greenwich Properties, a \$113,000 asset associated with the fair value assigned to the acquired leases at the NJ Retail Properties, a \$69,000 asset associated with the leases at its Fort Lee Property and a \$48,000 asset associated with the fair value assigned to the acquired leases at its Harrison Property, all of which amounts represent a non-cash investing activity and are therefore not included in the accompanying consolidated statement of cash flows for the fiscal year ended October 31, 2015.

For the years ended October 31, 2016, 2015 and 2014, the net amortization of above-market and below-market leases amounted to \$157,000, \$415,000 and \$410,000, respectively, which amounts are included in base rents in the accompanying consolidated statements of income.

In fiscal 2016, the Company incurred costs of approximately \$21.5 million related to capital improvements, tenants improvements and leasing costs to its properties.

Table of Contents

(4) MORTGAGE NOTE RECEIVABLE

In October 2016, the Company, through a wholly-owned subsidiary originated a loan in the amount of \$13.5 million secured by a first mortgage on a shopping center located in Rockland County, NY. The loan requires payments to the Company of interest only recognized on the effective yield method at the rate of one-month LIBOR plus 3.25% per annum. The loan has a maturity date of October 10, 2017. The Company funded the mortgage loan with available cash.

Principal payments on the mortgage note receivable become due as follows (In thousands):

Fiscal Year Ended	
October 31,	Amount
2017	\$ 13,500
2018	-
2019	-
2020	-
2021	-
Thereafter	-

Table of Contents

(5) MORTGAGE NOTES PAYABLE, BANK LINES OF CREDIT AND OTHER LOANS

At October 31, 2016, the Company has mortgage notes payable and other loans that are due in installments over various periods to fiscal 2031. The loans bear interest at rates ranging from 2.8% to 6.6% and are collateralized by real estate investments having a net carrying value of approximately \$482.8 million.

Combined aggregate principal maturities of mortgage notes payable during the next five years and thereafter are as follows (in thousands):

	Principal Repayments	Scheduled Amortization	Total
2017	\$ 49,524	\$ 6,057	\$55,581
2018	-	5,221	5,221
2019	26,880	4,960	31,840
2020	-	4,506	4,506
2021	-	4,808	4,808
Thereafter	163,127	7,933	171,060
	\$ 239,531	\$ 33,485	\$273,016

The fiscal 2017 principal repayment amount above includes the \$43.4 million mortgage balance that will be due on the Company's Ridgeway property, located in Stamford, CT, when that loan becomes prepayable in July 2017. The Company has already entered into a mortgage commitment to refinance the note with a new lender (see below).

Until it was terminated on August 23, 2016, the Company had an \$80 million unsecured revolving credit facility with a syndicate of four banks led by The Bank of New York Mellon, as administrative agent. The syndicate also included Wells Fargo Bank N.A. (syndication agent), Bank of Montreal and Regions Bank (co-documentation agents). The Facility gave the Company the option, under certain conditions, to increase the Facility's borrowing capacity up \$125 million (subject to lender approval). The maturity date of the Facility was September 21, 2016 with a one-year extension at the Company's option.

In August 2016, the Company refinanced its existing Facility with a syndicate of three banks led by The Bank of New York Mellon, as administrative agent. The syndicate also included Wells Fargo Bank N.A. and Bank of Montreal (co-syndication agents), increasing the capacity to \$100 million from \$80 million, with the ability under certain conditions to additionally increase the capacity to \$150 million (subject to lender approval). The maturity date of the new Facility is August 23, 2020 with a one-year extension at the Company's option. Borrowings under the Facility can be used for general corporate purposes and the issuance of letters of credit (up to \$10 million). Borrowings will bear interest at the Company's option of Eurodollar rate plus 1.35% to 1.95% or The Bank of New York Mellon's prime lending rate plus 0.35% to 0.95% based on consolidated indebtedness, as defined. The Company pays a quarterly commitment fee on the unused commitment amount of 0.15% to 0.25% based on outstanding borrowings during the year. The Company's ability to borrow under the Facility is subject to its compliance with the covenants and other restrictions on an ongoing basis. The principal financial covenants limit the Company's level of secured and unsecured indebtedness and additionally require the Company to maintain certain debt coverage ratios. The Company was in compliance with such covenants at October 31, 2016.

As of October 31, 2016, \$92 million was available to be drawn on the Facility.

During the fiscal years ended October 31, 2016 and 2015, the Company borrowed \$52.0 million and \$104.8 million, respectively, on its Facility to fund a portion of the equity for property acquisitions and capital improvements to its properties. During the fiscal years ended October 31, 2016 and 2015, the Company re-paid \$66.8 million and \$97.6 million, respectively, on its Facility with proceeds from a combination of non-recourse mortgage financings and

available cash.

In September 2016, the Company refinanced its \$7.2 million mortgage secured by 2 properties with the existing lender. The new mortgage principal balance will be \$11 million and have a term of 10 years and will require payments of principal and interest at the rate of LIBOR plus 2.00%. Concurrent with entering into the mortgage, the Company also entered into an interest rate swap contract which will convert the variable interest rate (based on LIBOR) to a fixed rate of 3.475% per annum.

In July 2016, the Company entered into a commitment to refinance its \$44 million mortgage secured by its Ridgeway shopping center in Stamford, CT on July 17, 2017, the first day the current Ridgeway mortgage can be repaid without penalty. The new mortgage will be in the amount of \$50 million and will have a term of 10 years and will require payment of principal and interest at the rate of LIBOR plus 1.90%. Concurrent with entering into the commitment, the Company also entered into an interest rate swap contract which will convert the variable interest rate (based on LIBOR) to a fixed rate of 3.398% per annum.

In July 2016, the Company placed a \$22.7 million mortgage secured by its newly acquired Newfield Green shopping center located in Stamford, CT. The new mortgage has a term of fifteen years and requires payments of principal and interest at the fixed rate of 3.89% per annum.

In May 2016, the Company repaid a \$7.5 million mortgage that was secured by its Bloomfield, NJ property.

In December 2014, through four wholly-owned subsidiaries, the Company placed a \$62.7 million non-recourse first mortgage loan secured by the NJ Retail Properties that were purchased in December 2014. The mortgage loan requires monthly payments of principal and interest in the amount of \$294,000 at a fixed interest rate of 3.85% per annum. The mortgage matures in January 2027. Proceeds from the mortgage were used to repay the Facility.

In July 2015, the Company repaid at maturity its \$4.5 million non-recourse first mortgage loan that was secured by its Fairfield Plaza property. The Company funded this repayment with a borrowing on its Facility.

During fiscal 2014, the Company, through a wholly-owned subsidiary, assumed an existing non-recourse first mortgage loan encumbering the McLean Plaza Property at its estimated fair value of \$2.8 million. The mortgage matured in December 2014 and was refinanced with a new lender. The new \$5 million mortgage matures in November 2024 and requires monthly payments of interest only at a fixed rate of interest of 3.7% per annum.

Interest paid in the years ended October 31, 2016, 2015, and 2014 was approximately \$13.1 million, \$13.4 million and \$10.3 million, respectively.

Table of Contents

(6) CONSOLIDATED JOINT VENTURES AND REDEEMABLE NONCONTROLLING INTERESTS

The Company has an investment in three joint ventures, UB Ironbound, LP ("Ironbound"), Orangeburg and McLean Plaza, each of which owns a commercial retail real estate property. The Company has evaluated its investment in these three joint ventures and has concluded that the ventures are not Variable Interest Entities ("VIE or VIE's"). However the joint venture investments meet certain criteria of a sole general partner (or limited liability member) in accordance with ASC Topic 970-810 "Real Estate-Consolidation". The Company has determined that such joint ventures are fully controlled by the Company and that the presumption of control is not offset by any rights of any of the limited partners or non-controlling members in the ventures and that the joint ventures should be consolidated into the consolidated financial statements of the Company. The Company's investments in the consolidated joint ventures are more fully described below:

Ironbound (Ferry Plaza)

The Company, through a wholly-owned subsidiary, is the general partner and owns 84% of one consolidated limited partnership, Ironbound, which owns a grocery-anchored shopping center.

The Ironbound limited partnership has a defined termination date of December 31, 2097. The partners in Ironbound are entitled to receive an annual cash preference payable from available cash of the partnership. Any unpaid preferences accumulate and are paid from future cash, if any. The balance of available cash, if any, is distributed in accordance with the respective partner's interests. The limited partners in Ironbound currently have the right to require the Company to repurchase all or a portion of their remaining limited partner interests at prices as defined in the Ironbound partnership agreement. Upon liquidation of Ironbound, proceeds from the sale of partnership assets are to be distributed in accordance with the respective partnership interests. The limited partners are not obligated to make any additional capital contributions to the partnership.

Orangeburg

The Company, through a wholly-owned subsidiary, is the managing member and owns an approximate 34.0% interest in Orangeburg, which owns a CVS Pharmacy anchored shopping center in Orangeburg, NY. The other member (non-managing) of Orangeburg is the prior owner of the contributed property who, in exchange for contributing the net assets of the property, received units of Orangeburg equal to the value of the contributed property less the value of the assigned first mortgage payable. The Orangeburg operating agreement provides for the non-managing member to receive an annual cash distribution equal to the regular quarterly cash distribution declared by the Company for one share of the Company's Class A Common stock for each unit of Orangeburg ownership. The annual cash distribution will be paid from available cash, as defined, of Orangeburg. Upon liquidation, proceeds from the sale of Orangeburg assets are to be distributed in accordance with the operating agreement. Orangeburg has a defined termination date of December 31, 2097. Since purchasing this property, the Company has made additional investments in the amount of \$4.2 million in Orangeburg and as a result as of October 31, 2016 its ownership percentage has increased to 34.0% from approximately 2.92% at inception.

McLean Plaza

The Company, through a wholly-owned subsidiary, is the managing member and owns a 53% interest in McLean Plaza Associates, LLC, a limited liability company ("McLean"), which owns a grocery-anchored shopping center. The McLean operating agreement provides for the non-managing members to receive a fixed annual cash distribution equal to 5.05% of their invested capital. The annual cash distribution is paid from available cash, as defined, of McLean. The balance of available cash, if any, is fully distributable to the Company. Upon liquidation, proceeds from the sale of McLean assets are to be distributed in accordance with the operating agreement. The non-managing

members are not obligated to make any additional capital contributions to the entity.

Noncontrolling interests:

The Company accounts for non-controlling interests in accordance with ASC Topic 810, "Consolidation". Because the limited partners or non-controlling members in Ironbound, Orangeburg and McLean Plaza have the right to require the Company to redeem all or a part of their limited partnership or limited liability company units at prices as defined in the governing agreements, the Company reports the noncontrolling interests in the consolidated joint ventures in the mezzanine section, outside of permanent equity, of the consolidated balance sheets at redemption value which approximates fair value as the limited liability members have the right to force redemption of their units by the Company. The value of the Orangeburg and McLean redemption is based solely on the price of the Company's Class A Common stock on the date of redemption. For the years ended October 31, 2016 and 2015, the Company adjusted the carrying value of the non-controlling interests by \$2.3 million and \$(2.3) million, respectively, with the corresponding adjustment recorded in stockholders' equity.

The following table sets forth the details of the Company's redeemable non-controlling interests (amounts in thousands):

	October 31,	
	2016	2015
Beginning Balance	\$ 15,955	\$ 18,864
Initial McLean Plaza Noncontrolling Interest-Net	-	(615)
Change in Redemption Value	2,298	(2,294)
Ending Balance	\$ 18,253	\$ 15,955

Table of Contents

(7) INVESTMENTS IN AND ADVANCES TO UNCONSOLIDATED JOINT VENTURES

At October 31, 2016 and 2015, investments in and advances to unconsolidated joint ventures consisted of the following (with the Company's ownership percentage in parentheses) (amounts in thousands):

	October 31,	
	2016	2015
Chestnut Ridge and Plaza 59 Shopping Centers (50.0%)	\$18,200	\$18,248
Gateway Plaza (50%)	7,160	7,186
Putnam Plaza Shopping Center (66.67%)	5,970	6,686
Midway Shopping Center, L.P. (11.642%)	4,856	5,144
Applebee's at Riverhead (50%)	1,560	1,318
81 Pondfield Road Company (20%)	723	723
Total	\$38,469	\$39,305

Gateway Plaza and Applebee's at Riverhead

The Company, through two wholly owned subsidiaries, owns a 50% undivided equity interest in the Gateway Plaza Shopping Center ("Gateway") and Applebee's at Riverhead ("Applebee's"). Both properties are located in Riverhead, New York (together the "Riverhead Properties"). Gateway, a 198,500 square foot shopping center anchored by a 168,000 square foot Walmart which also has 27,000 square feet of in-line space that is partially leased and a newly constructed 3,500 square foot outparcel that is leased. Applebee's has a 5,400 square foot free standing Applebee's restaurant with an additional newly constructed 7,200 square foot pad site of which 7,200 square feet is leased.

Gateway is subject to a \$13.1 million non-recourse first mortgage. The mortgage has a term of ten years and requires payments of principal and interest at a fixed rate of interest of 4.2% per annum.

Chestnut Ridge and Plaza 59 Shopping Centers

The Company, through two wholly owned subsidiaries, owns a 50% undivided equity interest in the 76,000 square foot Chestnut Ridge Shopping Center located in Montvale, New Jersey ("Chestnut"), which is anchored by a Fresh Market grocery store, and the 24,000 square foot Plaza 59 Shopping Center located in Spring Valley, New York ("Plaza 59"), which is anchored by a local food grocer.

Midway Shopping Center, L.P.

The Company, through a wholly owned subsidiary, owns an 11.642% equity interest in Midway Shopping Center L.P. ("Midway"), which owns a 247,000 square foot grocery-anchored shopping center in Westchester County, New York. Although the Company only has an approximate 12% equity interest in Midway, it controls 25% of the voting power of Midway, and as such, has determined that it exercises significant influence over the financial and operating decisions of Midway but does not control the venture and accounts for its investment in Midway under the equity method of accounting.

The Company has allocated the \$6.2 million excess of the carrying amount of its investment in and advances to Midway over the Company's share of Midway's net book value to real property and is amortizing the difference over the property's estimated useful life of 39 years.

Midway currently has a non-recourse first mortgage payable in the amount of \$29.3 million. The loan requires payments of principal and interest at the rate of 4.80% per annum and will mature in 2027.

Putnam Plaza Shopping Center

The Company, through a wholly owned subsidiary, owns a 66.67% undivided equity interest in the 189,000 square foot Putnam Plaza Shopping Center ("Putnam Plaza"), which is anchored by a grocery store.

Putnam Plaza has a first mortgage payable in the amount of \$19.5 million. The mortgage requires monthly payments of principal and interest at a fixed rate of 4.17% and will mature in 2019.

81 Pondfield Road Company

The Company's other investment in an unconsolidated joint venture is a 20% economic interest in a partnership which owns a retail and office building in Westchester County, New York.

The Company accounts for the above investments under the equity method of accounting since it exercises significant influence, but does not control the joint ventures. The other venturers in the joint ventures have substantial participation rights in the financial decisions and operation of the ventures or properties, which preclude the Company from consolidating the investments. The Company has evaluated its investment in the joint ventures and has concluded that the joint ventures are not VIE's. Under the equity method of accounting the initial investment is recorded at cost as an investment in unconsolidated joint venture, and subsequently adjusted for equity in net income (loss) and cash contributions and distributions from the venture. Any difference between the carrying amount of the investment on the Company's balance sheet and the underlying equity in net assets of the venture is evaluated for impairment at each reporting period.

Table of Contents

(8) STOCKHOLDERS' EQUITY

Authorized Stock

The Company's Charter authorizes up to 200,000,000 shares of various classes of stock. The total number of shares of authorized stock consists of 100,000,000 shares of Class A Common Stock, 30,000,000 shares of Common Stock, 50,000,000 shares of Preferred Stock, and 20,000,000 shares of Excess Stock.

Preferred Stock

The Series F Cumulative Preferred Stock is non-voting, has no stated maturity and is redeemable for cash at \$25 per share at the Company's option on or after October 24, 2017. The holders of our Series F Preferred Stock have general preference rights with respect to liquidation and quarterly distributions. Except under certain conditions, holders of the Series F Preferred Stock will not be entitled to vote on most matters. In the event of a cumulative arrearage equal to six quarterly dividends, holders of Series F Preferred Stock, together with all of the Company's other series of preferred stock (voting as a single class without regard to series) will have the right to elect two additional members to serve on the Company's Board of Directors until the arrearage has been cured. Upon the occurrence of a Change of Control, as defined in the Company's Articles Supplementary to the Charter, the holders of the Series F Preferred Stock will have the right to convert all or part of the shares of Series F Preferred Stock held by such holders on the applicable conversion date into a number of the Company's shares of Class A Common Stock. Underwriting commissions and costs incurred in connection with the sale of the Series F Preferred Stock are reflected as a reduction of additional paid in capital.

The Series G Cumulative Preferred Stock is nonvoting, has no stated maturity and is redeemable for cash at \$25 per share at the Company's option on or after October 28, 2019. The holders of our Series G Preferred Stock have general preference rights with respect to liquidation and quarterly distributions. Except under certain conditions, holders of the Series G Preferred Stock will not be entitled to vote on most matters. In the event of a cumulative arrearage equal to six quarterly dividends, holders of Series G Preferred Stock, together with all of the Company's other Series of preferred stock (voting as a single class without regard to series) will have the right to elect two additional members to serve on the Company's Board of Directors until the arrearage has been cured. Upon the occurrence of a Change of Control, as defined in the Company's Articles Supplementary to the Charter, the holders of the Series G Preferred Stock will have the right to convert all or part of the shares of Series G Preferred Stock held by such holders on the applicable conversion date into a number of the Company's shares of Class A Common stock. Underwriting commissions and costs incurred in connection with the sale of the Series G Preferred Stock are reflected as a reduction of additional paid in capital.

In November 2014, we redeemed all of the outstanding shares of our 7.5% Series D Cumulative Preferred Stock with a liquidation preference \$25 per share. As a result we recognized a loss of \$1.87 million on our consolidated statement of income for the fiscal year ended October 31, 2014, which represents the difference between redemption value and carrying value net of original deferred issuance costs.

Common Stock

In July and August 2016, the Company sold 3,162,500 shares of Class A Common Stock in an underwritten follow-on common stock offering for \$23.29 per share and raised net proceeds of \$73.7 million.

In November 2014, the Company sold 2,875,000 shares of Class A Common Stock in an underwritten follow-on common stock offering for \$20.82 per share and raised net proceeds of \$59.7 million.

The Class A Common Stock entitles the holder to 1/20 of one vote per share. The Common Stock entitles the holder to one vote per share. Each share of Common Stock and Class A Common Stock have identical rights with respect to dividends except that each share of Class A Common Stock will receive not less than 110% of the regular quarterly

dividends paid on each share of Common Stock.

The Company has a Dividend Reinvestment and Share Purchase Plan (as amended, the "DRIP"), that permits stockholders to acquire additional shares of Common Stock and Class A Common Stock by automatically reinvesting dividends. During fiscal 2016, the Company issued 4,988 shares of Common Stock and 5,854 shares of Class A Common Stock (5,326 shares of Common Stock and 6,104 shares of Class A Common Stock in fiscal 2015) through the DRIP. As of October 31, 2016, there remained 347,639 shares of Common Stock and 404,315 shares of Class A Common Stock available for issuance under the DRIP.

The Company has a stockholder rights agreement that expires on November 11, 2018. The rights are not currently exercisable. When they are exercisable, the holder will be entitled to purchase from the Company one one-hundredth of a share of a newly-established Series A Participating Preferred Stock at a price of \$65 per one one-hundredth of a preferred share, subject to certain adjustments. The distribution date for the rights will occur 10 days after a person or group either acquires or obtains the right to acquire 10% ("Acquiring Person") or more of the combined voting power of the Company's Common Shares, or announces an offer, the consummation of which would result in such person or group owning 30% or more of the then outstanding Common Shares. Thereafter, shareholders other than the Acquiring Person will be entitled to purchase original common shares of the Company having a value equal to 2 times the exercise price of the right.

If the Company is involved in a merger or other business combination at any time after the rights become exercisable, and the Company is not the surviving corporation or 50% or more of the Company assets are sold or transferred, the rights agreement provides that the holder other than the Acquiring Person will be entitled to purchase a number of shares of common stock of the acquiring company having a value equal to two times the exercise price of each right.

The Company's articles of incorporation provide that if any person acquires more than 7.5% of the aggregate value of all outstanding stock, except, among other reasons, as approved by the Board of Directors, such shares in excess of this limit automatically will be exchanged for an equal number of shares of Excess Stock. Excess Stock has limited rights, may not be voted and is not entitled to any dividends.

Stock Repurchase

The Board of Directors of the Company has approved a share repurchase program ("Program") for the repurchase of up to 2,000,000 shares, in the aggregate, of Common stock, Class A Common stock and Series F Cumulative Preferred stock in open market transactions.

The Company has repurchased 4,600 shares of Common Stock and 913,331 shares of Class A Common Stock under the Program. For the year ended October 31, 2016, the Company did not repurchase any shares under the Program.

Table of Contents

(9) STOCK COMPENSATION AND OTHER BENEFIT PLANS

Restricted Stock Plan

The Company has a Restricted Stock Plan that provides a form of equity compensation for employees of the Company. In March 2016, the Stockholders of the Company approved an increase in the number of shares available for grant under the plan, as amended by 750,000 shares. The Plan, which is administered by the Company's compensation committee, authorizes grants of up to an aggregate of 4,500,000 shares of the Company's common equity consisting of 350,000 Common shares, 350,000 Class A Common shares and 3,800,000 shares, which at the discretion of the compensation committee, may be awarded in any combination of Class A Common shares or Common shares.

In accordance with ASC Topic 718, the Company recognizes compensation expense for restricted stock awards upon the earlier of the explicit vesting period or the date a participant first becomes eligible for retirement unless a waiver was received by an employee over the retirement age, waving his right to continued vesting after retirement.

In fiscal 2016, the Company awarded 152,100 shares of Common Stock and 95,600 shares of Class A Common Stock to participants in the Plan. The grant date fair value of restricted stock grants awarded to participants in 2016 was approximately \$4.5 million. As of October 31, 2016, there was \$12.7 million of unamortized restricted stock compensation related to non-vested restricted stock grants awarded under the Plan. The remaining unamortized expense is expected to be recognized over a weighted average period of 4.7 years. For the years ended October 31, 2016, 2015 and 2014, amounts charged to compensation expense totaled \$4,426,000, \$4,121,000 and \$4,088,000, respectively.

A summary of the status of the Company's non-vested restricted stock awards as of October 31, 2016, and changes during the year ended October 31, 2016 is presented below:

	Common Shares		Class A Common Shares	
		Weighted-Average Grant Date		Weighted-Average Grant Date
	Shares	Fair Value	Shares	Fair Value
Non-vested at October 31, 2015	1,281,850	\$ 16.58	373,850	\$ 19.37
Granted	152,100	\$ 17.95	95,600	\$ 18.84
Vested	(175,950)	\$ 16.35	(84,200)	\$ 18.64
Forfeited	-	\$ -	(650)	\$ 19.31
Non-vested at October 31, 2016	1,258,000	\$ 16.77	384,600	\$ 19.40

Profit Sharing and Savings Plan

The Company has a profit sharing and savings plan (the "401K Plan"), which permits eligible employees to defer a portion of their compensation in accordance with the Internal Revenue Code. Under the 401K Plan, the Company made contributions on behalf of eligible employees. The Company made contributions to the 401K Plan of approximately \$187,000, \$150,000 and \$150,000 in each of the three years ended October 31, 2016, 2015 and 2014, respectively. The Company also has an Excess Benefit and Deferred Compensation Plan that allows eligible employees to defer benefits in excess of amounts provided under the Company's 401K Plan and a portion of the employee's current compensation.

Table of Contents

(10) FAIR VALUE MEASUREMENTS

ASC Topic 820, "Fair Value Measurements and Disclosures," defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants.

ASC Topic 820's valuation techniques are based on observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1- Quoted prices for identical instruments in active markets
- Level 2- Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant value drivers are observable
- Level 3- Valuations derived from valuation techniques in which significant value drivers are unobservable

The Company calculates the fair value of the redeemable noncontrolling interests based on either quoted market prices on national exchanges for those interests based on the Company's Class A Common stock or unobservable inputs considering the assumptions that market participants would make in pricing the obligations. The inputs used include an estimate of the fair value of the cash flow generated by the limited partnership or limited liability company in which the investor owns the joint venture units capitalized at prevailing market rates for properties with similar characteristics or located in similar areas.

The fair values of interest rate swaps are determined using widely accepted valuation techniques, including discounted cash flow analysis, on the expected cash flows of each derivative. The analysis reflects the contractual terms of the swaps, including the period to maturity, and uses observable market-based inputs, including interest rate curves ("significant other observable inputs.") The fair value calculation also includes an amount for risk of non-performance using "significant unobservable inputs" such as estimates of current credit spreads to evaluate the likelihood of default. The Company has concluded, as of October 31, 2016 and 2015, that the fair value associated with the "significant unobservable inputs" relating to the Company's risk of non-performance was insignificant to the overall fair value of the interest rate swap agreements and, as a result, the Company has determined that the relevant inputs for purposes of calculating the fair value of the interest rate swap agreements, in their entirety, were based upon "significant other observable inputs".

The Company measures its redeemable noncontrolling interests and interest rate swap derivatives at fair value on a recurring basis. The fair value of these financial assets and liabilities was determined using the following inputs at October 31, 2016 and 2015 (amounts in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Total			
Fiscal Year Ended October 31, 2016			
Liabilities:			

Edgar Filing: URSTADT BIDDLE PROPERTIES INC - Form 10-K

Interest Rate Swap Agreements	\$ 1,304	\$ -	\$ 1,304	\$ -
Redeemable noncontrolling interests	\$ 18,253	\$ 14,407	\$ -	\$ 3,846

Fiscal Year Ended October 31, 2015

Liabilities:

Interest Rate Swap Agreements	\$ 1,230	\$ -	\$ 1,230	\$ -
Redeemable noncontrolling interests	\$ 15,955	\$ 13,104	\$ -	\$ 2,851

Fair market value measurements based upon Level 3 inputs changed from \$9,062 at November 1, 2014 to \$2,851 at October 31, 2015 as a result of a \$77 decrease in the redemption value of the Company's noncontrolling interest in Ironbound in accordance with the application of ASC Topic 810 and the transfer in the amount of \$6,134 of the noncontrolling interest in McLean to Level 1. During the quarter ended January 31, 2015, McLean was converted to a limited liability company from a general partnership. One of the results of this conversion is that the noncontrolling equity interests in McLean can only be redeemed for shares of the Company's Class A Common stock or for cash based on the value of the Company's Class A Common stock. In accordance with ASC 810, the noncontrolling interest will now be valued as a Level 1 measurement. Fair market value measurements based upon Level 3 inputs changed from \$2,851 at November 1, 2015 to \$3,846 at October 31, 2016 as a result of a \$995 increase in the redemption value of the Company's noncontrolling interest in Ironbound in accordance with the application of ASC Topic 810.

Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, restricted cash, mortgage note receivable, tenant receivables, prepaid expenses, other assets, accounts payable and accrued expenses, are reasonable estimates of their fair values because of the short-term nature of these instruments. The carrying value of the Facility is deemed to be at fair value since the outstanding debt is directly tied to monthly LIBOR contracts. Mortgage notes payable that were assumed in property acquisitions were recorded at their fair value at the time they were assumed.

The estimated fair value of mortgage notes payable and other loans was approximately \$287 million and \$266 million at October 31, 2016 and October 31, 2015, respectively. The estimated fair value of mortgage notes payable is based on discounting the future cash flows at year-end risk adjusted borrowing rates currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within Level 2 of the fair value hierarchy. When the Company acquires a property it is required to fair value all of the assets and liabilities, including intangible assets and liabilities, relating to the property's in-place leases (see Note 1). Those fair value measurements fall within Level 3 of the fair value hierarchy.

Although management is not aware of any factors that would significantly affect the estimated fair value amounts from October 31, 2015, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

Table of Contents

(11) COMMITMENTS AND CONTINGENCIES

In the normal course of business, from time to time, the Company is involved in legal actions relating to the ownership and operations of its properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Company.

At October 31, 2016, the Company had commitments of approximately \$5.3 million for tenant-related obligations.

Table of Contents

(12) QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

The unaudited quarterly results of operations for the years ended October 31, 2016 and 2015 are as follows (in thousands, except per share data):

	Year Ended October 31, 2016				Year Ended October 31, 2015			
	Quarter Ended				Quarter Ended			
	Jan 31	Apr 30	Jul 31	Oct 31	Jan 31	Apr 30	Jul 31	Oct 31
Revenues	\$27,451	\$29,166	\$28,276	\$31,899	\$28,506	\$30,050	\$28,819	\$27,937
Income from Continuing Operations	\$6,672	\$8,556	\$8,827	\$10,550	\$6,164	\$7,478	\$8,785	\$27,785

(13) SUBSEQUENT EVENTS

On December 15, 2016, the Board of Directors of the Company declared cash dividends of \$0.235 for each share of Common Stock and \$0.265 for each share of Class A Common Stock. The dividends are payable on January 20, 2017 to stockholders of record on January 6, 2017. The Board of Directors also ratified the actions of the Company's compensation committee authorizing awards of 96,225 shares of Common Stock and 152,100 shares of Class A Common Stock to certain officers, directors and employees of the Company effective January 2, 2017, pursuant to the Company's restricted stock plan. The fair value of the shares awarded totaling \$5.2 million will be charged to expense over the respective vesting periods.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of Urstadt Biddle Properties Inc.

We have audited the accompanying consolidated balance sheets of Urstadt Biddle Properties Inc. (the "Company") as of October 31, 2016 and 2015 and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended October 31, 2016. Our audits also included the financial statement schedules listed in the Index at Item 15(a). These consolidated financial statements and schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Urstadt Biddle Properties Inc. at October 31, 2016 and 2015, and the consolidated results of its operations and its cash flows for each of the three years in the period ended October 31, 2016, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of October 31, 2016 based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated January 12, 2017 expressed an unqualified opinion thereon.
