FORWARD-LOOKING STATEMENTS

The information included in this annual report on Form 10-K contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to the financial condition, results of operations, plans, objectives, future performance and business of OFG Bancorp (“we,” “our,” “us” or the “Company”), including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, delinquency trends, market risk and the impact of interest rate changes, capital markets conditions, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on the Company’s financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words “anticipate,” “believe,” “continues,” “expect,” “estimate,” “intend,” “project” and similar expressions and future or conditional verbs such as “will,” “would,” “should,” “could,” “might,” “can,” “may,” or similar expressions are generally intended to identify forward-looking statements.

These statements are not guarantees of future performance and involve certain risks, uncertainties, estimates and assumptions by management that are difficult to predict. Various factors, some of which by their nature are beyond the Company’s control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

- the rate of growth in the economy and employment levels, as well as general business and economic conditions;
- changes in interest rates, as well as the magnitude of such changes;
- the fiscal and monetary policies of the federal government and its agencies;
- a credit default or potential restructuring by the Commonwealth of Puerto Rico or any of its agencies, municipalities or instrumentalities;
- changes in federal bank regulatory and supervisory policies, including required levels of capital;
- the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) on the Company’s businesses, business practices and cost of operations;
- the relative strength or weakness of the consumer and commercial credit sectors and of the real estate market in Puerto Rico;
- the performance of the securities markets;
- competition in the financial services industry;
- additional Federal Deposit Insurance Corporation (“FDIC”) assessments; and
- possible legislative, tax or regulatory changes.

Other possible events or factors that could cause results or performance to differ materially from those expressed in these forward-looking statements include the following: negative economic conditions that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits which may affect, among other things, the level of non-performing assets, charge-offs and provision expense; changes in interest rates and market liquidity which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets; adverse movements and volatility in debt and equity capital markets; changes in market rates and prices which may adversely impact the value of financial assets and liabilities; liabilities resulting from litigation and regulatory investigations; changes in accounting standards, rules and interpretations; increased competition; the Company's ability to grow its core businesses; decisions to downsize, sell or close units or otherwise change the Company's business mix; and management's ability to identify and manage these and other risks.

All forward-looking statements included in this annual report on Form 10-K are based upon information available to the Company as of the date of this report, and other than as required by law, including the requirements of applicable securities laws, the Company assumes no obligation to update or revise any such forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

ITEM 1. *BUSINESS*

General

The Company is a publicly-owned financial holding company incorporated on June 14, 1996 under the laws of the Commonwealth of Puerto Rico, providing a full range of banking and financial services through its subsidiaries. The Company is subject to the provisions of the U.S. Bank Holding Company Act of 1956, as amended, (the “BHC Act”) and accordingly, subject to the supervision and regulation of the Board of Governors of the Federal Reserve System (the “Federal Reserve Board”).

The Company provides comprehensive banking and financial services to its clients through a complete range of banking and financial solutions, including commercial, consumer, auto, and mortgage lending; checking and savings accounts; financial planning, insurance, financial service, and investment brokerage; and corporate and individual trust and retirement services. The Company operates through three major business segments: Banking, Wealth Management, and Treasury, and distinguishes itself based on quality service and marketing efforts focused on mid and high net worth individuals and families, including professionals and owners of small and mid-sized businesses, primarily in Puerto Rico. The Company provides these services through various subsidiaries including, a commercial bank, Oriental Bank, a securities broker-dealer, Oriental Financial Services Corp. (“Oriental Financial Services”), an insurance agency, Oriental Insurance, Inc. (“Oriental Insurance”) and a retirement plan administrator, Caribbean Pension Consultants, Inc. (“CPC”). All of our subsidiaries are based in San Juan, Puerto Rico, except for CPC which is based in Boca Raton, Florida. The Company has 53 branches in Puerto Rico. The Company’s long-term goal is to strengthen its banking and financial services franchise by expanding its lending businesses, increasing the level of integration in the marketing and delivery of banking and financial services, maintaining effective asset-liability management, growing non-interest revenue from banking and financial services, and improving operating efficiencies.

The Company’s strategy involves:

- Strengthening its banking and financial services franchise by expanding its ability to attract deposits and build relationships with individual customers and professionals and mid-market commercial businesses through aggressive marketing and expansion of its sales force;
- Focusing on greater growth in commercial, consumer and mortgage lending, trust and financial services and insurance products; and increasing the level of integration in the marketing and delivery of banking and financial services;
- Matching its portfolio of investment securities with the related funding to achieve favorable spreads, and primarily investing in U.S. government sponsored agency obligations.
- Improving operating efficiencies, and continuing to maintain effective asset-liability management; and
- Implementing a broad ranging effort to instill in employees and make customers aware of the Company’s determination to effectively serve and advise its customer base in a responsive and professional manner.

Together with a highly experienced group of senior and mid-level executives and the benefits from the acquisitions of Eurobank Puerto Rico and the Puerto Rico operations of Banco Bilbao Vizcaya Argentaria, S.A. (“BBVA”), this strategy has resulted in sustained growth in the Company’s deposit-taking activities, commercial, consumer and

mortgage lending and financial service activities, allowing the Company to distinguish itself in a highly competitive industry. The Company is not immune from general and local financial and economic conditions. Past experience is not necessarily indicative of future performance, especially given market uncertainties, but based on a reasonable time horizon of three to five years, the strategy is expected to maintain its steady progress towards the Company's long-term goal.

On December 18, 2012, the Company purchased from Banco Bilbao Vizcaya Argentaria, S. A. ("BBVA"), all of the outstanding common stock of each of (i) BBVAPR Holding Corporation ("BBVAPR Holding"), the sole shareholder of Banco Bilbao Vizcaya Argentaria Puerto Rico ("BBVAPR Bank"), a Puerto Rico chartered commercial bank, and BBVA Seguros, Inc. ("BBVA Seguros"), a subsidiary offering insurance services, and (ii) BBVA Securities of Puerto Rico, Inc. ("BBVA Securities"), a registered broker-dealer. This transaction is referred to as the "BBVAPR Acquisition" and BBVAPR Holding, BBVAPR Bank, BBVA Seguros and BBVA Securities are collectively referred to as the "BBVAPR Companies" or "BBVAPR."

The Company's principal funding sources are branch deposits, securities sold under agreements to repurchase, Federal Home Loan Bank ("FHLB") advances, Federal Reserve Bank ("FRB") advances, wholesale deposits, and subordinated capital notes. Through its branch network, Oriental Bank offers personal non-interest and interest-bearing checking accounts, savings accounts, certificates of deposit, individual retirement accounts ("IRAs") and commercial non-interest bearing checking accounts. The FDIC insures Oriental Bank's deposit accounts up to applicable limits. Management makes retail deposit pricing decisions periodically, adjusting the rates paid on retail deposits in response to general market conditions and local competition. Pricing decisions take into account the rates being offered by other local banks, the London Interbank Offered Rate ("LIBOR"), and mainland U.S. market interest rates.

Segment Disclosure

The Company has three reportable segments: Banking, Wealth Management, and Treasury. Management established the reportable segments based on the internal reporting used to evaluate performance and to assess where to allocate resources. Other factors such as the Company's organizational structure, nature of products, distribution channels and economic characteristics of the products were also considered in the determination of the reportable segments. The Company measures the performance of these reportable segments based on pre-established goals involving different financial parameters such as net income, interest rate spread, loan production, and fees generated.

For detailed information regarding the performance of the Company's operating segments, please refer to Note 26 in the Company's accompanying consolidated financial statements.

Banking Activities

Oriental Bank (the "Bank"), the Company's main subsidiary, is a full-service Puerto Rico commercial bank with its main office located in San Juan, Puerto Rico. The Bank has 53 branches throughout Puerto Rico and was incorporated in October 1964 as a federal mutual savings and loan association. It became a federal mutual savings bank in July 1983 and converted to a federal stock savings bank in April 1987. Its conversion from a federally-chartered savings bank to a commercial bank chartered under the banking law of the Commonwealth of Puerto Rico, on June 30, 1994, allowed the Bank to more effectively pursue opportunities in its market and obtain more flexibility in its businesses. As a Puerto Rico-chartered commercial bank, it is subject to examination by the FDIC and the Office of the Commissioner of Financial Institutions of Puerto Rico (the "OCFI"). The Bank offers banking services such as commercial, consumer, and mortgage lending, savings and time deposit products, financial planning, and corporate and individual trust services, and capitalizes on its commercial banking network to provide mortgage lending products to its clients. The Bank operates two international banking entities ("IBE") pursuant to the International Banking Center Regulatory Act of Puerto Rico, as amended (the "IBE Act"), one is a unit operating within the Bank, named Oriental Overseas (the "IBE Unit"), and the other is a wholly-owned subsidiary of the Bank, named Oriental International Bank, Inc. (the "IBE Subsidiary"). The IBE Unit and IBE Subsidiary offer the Bank certain Puerto Rico tax advantages, and their services are limited under Puerto Rico law to persons and assets/liabilities located outside of Puerto Rico.

Banking activities include the Bank's branches and mortgage banking activities with traditional retail banking products such as deposits, commercial, consumer and mortgage loans. The Bank's significant lending activities are with consumers located in Puerto Rico. The Bank's lending transactions include a diversified number of industries and activities, all of which are encompassed within four main categories: commercial, consumer, mortgage and auto.

The Company's mortgage banking activities are conducted through a division of the Bank. The mortgage banking activities include the origination of mortgage loans for the Bank's own portfolio, and the sale of loans directly into the secondary market or the securitization of conforming loans into mortgage-backed securities. The Bank originates Federal Housing Administration ("FHA")-insured mortgages, Veterans Administration ("VA")-guaranteed mortgages, and Rural Housing Service ("RHS")-guaranteed loans that are primarily securitized for issuance of Government National Mortgage Association ("GNMA") mortgage-backed securities which can be resold to individual or institutional investors in the secondary market. Conventional loans that meet the underwriting requirements for sale or exchange under standard Federal National Mortgage Association (the "FNMA") or the Federal Home Loan Mortgage Corporation (the "FHLMC") programs are referred to as conforming mortgage loans and are also securitized for issuance of FNMA or FHLMC mortgage-backed securities. The Bank is an approved seller of FNMA, as well as FHLMC, mortgage loans for issuance of FNMA and FHLMC mortgage-backed securities. The Bank is also an approved issuer of GNMA mortgage-backed securities. The Company outsources the servicing of the GNMA, FNMA and FHLMC pools that it issues, and its residential mortgage loan portfolio.

Loan Underwriting

Residential mortgage loans: All loan originations, regardless of whether originated through the Company's retail banking network or purchased from third parties, must be underwritten in accordance with the Company's underwriting criteria, including loan-to-value ratios, borrower income qualifications, debt ratios and credit history, investor requirements, and title insurance and property appraisal requirements. The Company's mortgage underwriting standards comply with the relevant guidelines set forth by the Department of Housing and Urban Development ("HUD"), VA, FNMA, FHLMC, federal and Puerto Rico banking regulatory authorities, as applicable. The Company's underwriting personnel, while operating within the Company's loan offices; make underwriting decisions independent of the Company's mortgage loan origination personnel.

Auto loans: The Company provides financing for the purchase of new or used motor vehicles. These loans are granted mainly through dealers authorized and approved by the auto credit department committee of the Company. The auto credit department has the specialized structure and resources to provide the service required for this product according to market demands. The auto loan credit policy establishes specific guidance and parameters for the underwriting and origination process. Underwriting procedures, lending limits, interest rate approval, insurance coverage, and automobile brand restrictions are some parameters and internal controls implemented to ensure the quality and profitability of the auto loan portfolio. The credit scoring system is a fundamental part of the decision process.

Consumer loans: Consumer loans include personal loans, credit cards, lines of credit and other loans made by banks to individual borrowers. All loan originations must be underwritten in accordance with the Company's underwriting criteria, and include an assessment of each borrower's personal financial condition, including verification of income, assets, FICO score, and credit reports.

Commercial loans: Commercial loans include lines of credit and term facilities to finance business operations and to provide working capital for specific purposes, such as to finance the purchase of assets, equipment or inventory. Since a borrower's cash flow from operations is generally the primary source of repayment, the Company's analysis of the credit risk focuses heavily on the borrower's debt repayment capacity. Commercial term loans generally have terms from one to five years, may be collateralized by the asset being acquired, real estate, or other available assets, and bear interest rates that float with the prime rate, LIBOR or another established index, or are fixed for the term of the loan. Lines of credit are extended to businesses based on an analysis of the financial strength and integrity of the borrowers and are generally secured primarily by real estate, accounts receivable or inventory, and have a maturity of one year or less. Such lines of credit bear an interest rate that floats with a base rate, the prime rate, LIBOR, or another established index.

Sale of Loans and Securitization Activities

The Company may engage in the sale or securitization of a portion of the residential mortgage loans that it originates and purchases and utilizes various channels to sell its mortgage products. The Company is an approved issuer of GNMA-guaranteed mortgage-backed securities which involves the packaging of FHA loans, RHS loans or VA loans into pools of mortgage-backed securities for sale primarily to securities broker-dealers and other institutional

investors. The Company can also act as issuer in the case of conforming conventional loans in order to group them into pools of FNMA or FHLMC-issued mortgage-backed securities which the Company then sells to securities broker-dealers. The issuance of mortgage-backed securities provides the Company with flexibility in selling the mortgage loans that it originates or purchases and also provides income by increasing the value and marketability of such loans. In the case of conforming conventional loans, the Company also has the option to sell such loans through the FNMA and FHLMC cash window programs.

Wealth Management Activities

Wealth management activities are generated by such businesses as securities brokerage, trust services, retirement planning, insurance, pension administration, and other financial services.

Oriental Financial Services is a Puerto Rico corporation and the Company's subsidiary engaged in securities brokerage and investment banking activities in accordance with the Company's strategy of providing fully integrated financial solutions to the Company's clients. Oriental Financial Services, member of FINRA and the Securities Investor Protection Corporation, is a registered securities broker-dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934. The broker-dealer does not carry customer accounts and is, accordingly, exempt from the Customer Protection Rule (SEC Rule 15c3-3) pursuant to subsection (k)(2)(ii) of such rule. It clears securities transactions through Pershing LLC, a clearing agent that carries the accounts of their customers on a "fully disclosed" basis.

Oriental Financial Services offers securities brokerage services covering various investment alternatives such as tax-advantaged fixed income securities, mutual funds, stocks, and bonds to retail and institutional clients. It also offers separately-managed accounts and mutual fund asset allocation programs sponsored by unaffiliated professional asset managers. These services are designed to meet each client's specific needs and preferences, including transaction-based pricing and asset-based fee pricing.

Oriental Financial Services also manages and participates in public offerings and private placements of debt and equity securities in Puerto Rico and engages in municipal securities business with the Commonwealth of Puerto Rico and its instrumentalities, municipalities, and public corporations. Investment banking revenue from such activities includes gains, losses, and fees, net of syndicate expenses, arising from securities offerings in which it acts as an underwriter or agent. Investment banking revenue also includes fees earned from providing merger-and-acquisition and financial restructuring advisory services.

Oriental Insurance is a Puerto Rico corporation and the Company's subsidiary engaged in insurance agency services. It was established by the Company to take advantage of the cross-marketing opportunities provided by financial modernization legislation. Oriental Insurance currently earns commissions by acting as a licensed insurance agent in connection with the issuance of insurance policies by unaffiliated insurance companies and anticipates continued growth as it expands the products and services it provides and continues to cross market its services to the Company's existing customer base.

CPC, a Florida corporation, is the Company's subsidiary engaged in the administration of retirement plans in the U.S., Puerto Rico, and the Caribbean.

Treasury Activities

Treasury activities encompass all of the Company's treasury-related functions. The Company's investment portfolio consists of mortgage-backed securities, obligations of U.S. government-sponsored agencies, Puerto Rico government and agency obligations and money market instruments. Agency mortgage-backed securities, the largest component, consist principally of pools of residential mortgage loans that are made to consumers and then resold in the form of pass-through certificates in the secondary market, the payment of interest and principal of which is guaranteed by GNMA, FNMA or FHLMC.

Market Area and Competition

The main geographic business and service area of the Company is in Puerto Rico, where the banking market is highly competitive. Puerto Rico banks are subject to the same federal laws, regulations and supervision that apply to similar institutions in the United States of America. The Company also competes with brokerage firms with retail operations, credit unions, savings and loan cooperatives, small loan companies, insurance agencies, and mortgage banks in Puerto Rico. The Company encounters intense competition in attracting and retaining deposits and in its consumer and commercial lending activities. Management believes that the Company has been able to compete effectively for deposits and loans by offering a variety of transaction account products and loans with competitive terms, by emphasizing the quality of its service, by pricing its products at competitive interest rates, by offering convenient branch locations, and by offering financial planning and financial services at most of its branch locations. The phase-out consolidation of three failed Puerto Rico banks in 2010 has created an environment for more rational loan and deposit pricing. The Company's ability to originate loans depends primarily on the services that it provides to its borrowers, in making prompt credit decisions, and on the rates and fees that it charges.

Regulation and Supervision

General

The Company is a financial holding company subject to supervision and regulation by the Federal Reserve Board under the BHC Act, as amended by the Gramm-Leach-Bliley Act and the Dodd-Frank Act. The qualification requirements and the process for a bank holding company that elects to be treated as a financial holding company requires that a bank holding company and all of the subsidiary banks controlled by it at the time of election must be and remain at all times “well capitalized” and “well managed.”

The Company elected to be treated as a financial holding company as permitted by the Gramm-Leach-Bliley Act. Under the Gramm-Leach-Bliley Act, if the Company fails to meet the requirements for being a financial holding company and is unable to correct such deficiencies within certain prescribed time periods, the Federal Reserve Board could require the Company to divest control of its depository institution subsidiary or alternatively cease conducting activities that are not permissible for bank holding companies that are not financial holding companies.

Financial holding companies may engage, directly or indirectly, in any activity that is determined to be (i) financial in nature or incidental to such financial activity, or (ii) complementary to a financial activity provided it does not pose a substantial risk to the safety and soundness of depository institutions or the financial system generally. The Gramm-Leach-Bliley Act specifically provides that the following activities have been determined to be “financial in nature”: (a) lending, trust and other banking activities; (b) insurance activities; (c) financial, investment or economic advisory services; (d) securitization of assets; (e) securities underwriting and dealing; (f) existing bank holding company domestic activities; (g) existing bank holding company foreign activities; and (h) merchant banking activities. A financial holding company may generally commence any activity, or acquire any company, that is financial in nature without prior approval of the Federal Reserve Board. As provided by the Dodd-Frank Act, a financial holding company may not acquire a company, without prior Federal Reserve Board approval, in a transaction in which the total consolidated assets to be acquired by the financial holding company exceed \$10 billion.

In addition, the Gramm-Leach-Bliley Act specifically gives the Federal Reserve Board the authority, by regulation or order, to expand the list of financial or incidental activities, but requires consultation with the U.S. Treasury Department and gives the Federal Reserve Board authority to allow a financial holding company to engage in any activity that is complementary to a financial activity and does not pose a substantial risk to the safety and soundness of depository institutions or the financial system.

The Company is required to file with the Federal Reserve Board and the SEC periodic reports and other information concerning its own business operations and those of its subsidiaries. In addition, Federal Reserve Board approval must also be obtained before a bank holding company acquires all or substantially all of the assets of another bank or merges or consolidates with another bank holding company. The Federal Reserve Board also has the authority to issue cease and desist orders against bank holding companies and their non-bank subsidiaries.

The Bank is regulated by various agencies in the United States and the Commonwealth of Puerto Rico. Its main regulators are the OCFI and the FDIC. The Bank is subject to extensive regulation and examination by the OCFI and the FDIC, and is subject to the Federal Reserve Board’s regulation of transactions between the Bank and its affiliates. The federal and Puerto Rico laws and regulations which are applicable to the Bank regulate, among other things, the scope of its business, its investments, its reserves against deposits, the timing of the availability of deposited funds, and the nature and amount of and collateral for certain loans. In addition to the impact of such regulations, commercial banks are affected significantly by the actions of the Federal Reserve Board as it attempts to control the money supply and credit availability in order to control inflation in the economy.

The Company’s mortgage banking business is subject to the rules and regulations of FHA, VA, RHS, FNMA, FHLMC, HUD and GNMA with respect to the origination, processing and selling of mortgage loans and the sale of mortgage-backed securities. Those rules and regulations, among other things, prohibit discrimination and establish underwriting guidelines which include provisions for inspections and appraisal reports, require credit reports on prospective borrowers and fix maximum loan amounts, and, with respect to VA loans, fix maximum interest rates. Mortgage origination activities are subject to, among others, the Equal Credit Opportunity Act, the Truth-in-Lending Act, the Real Estate Settlement Procedures Act and the regulations promulgated thereunder which, among other things, prohibit discrimination and require the disclosure of certain basic information to mortgagors concerning credit terms and settlement costs. The Company is also subject to regulation by the OCFI with respect to, among other things, licensing requirements and maximum origination fees on certain types of mortgage loan products.

The Company and its subsidiaries are subject to the rules and regulations of certain other regulatory agencies. Oriental Financial Services, as a registered broker-dealer, is subject to the supervision, examination and regulation of FINRA,

the SEC, and the OCFI in matters relating to the conduct of its securities business, including record keeping and reporting requirements, supervision and licensing of employees, and obligations to customers.

Oriental Insurance is subject to the supervision, examination and regulation of the Office of the Commissioner of Insurance of Puerto Rico in matters relating to insurance sales, including but not limited to, licensing of employees, sales practices, charging of commissions and reporting requirements.

Dodd-Frank Wall Street Reform and Consumer Protection Act

The Dodd-Frank Act implements a variety of far-reaching changes and has been described as the most sweeping reform of the financial services industry since the 1930's. It has a broad impact on the financial services industry, including significant regulatory and compliance changes, such as: (i) enhanced resolution authority of troubled and failing banks and their holding companies; (ii) enhanced lending limits strengthening the existing limits on a depository institution's credit exposure to one borrower; (iii) increased capital and liquidity requirements; (iv) increased regulatory examination fees; (v) changes to assessments to be paid to the FDIC for federal deposit insurance; (vi) prohibiting bank holding companies, such as the Company, from including in regulatory Tier 1 capital future issuances of trust preferred securities or other hybrid debt and equity securities; and (vii) numerous other

provisions designed to improve supervision and oversight of, and strengthening safety and soundness for, the financial services sector. Additionally, the Dodd-Frank Act establishes a new framework for systemic risk oversight within the financial system to be distributed among new and existing federal regulatory agencies, including the Financial Stability Oversight Council, the Federal Reserve Board, the Office of the Comptroller of the Currency and the FDIC. Further, the Dodd-Frank Act addresses many corporate governance and executive compensation matters that affect most U.S. publicly traded companies, including the Company. A few provisions of the Dodd-Frank Act became effective immediately, while various provisions are becoming effective in stages. Many of the requirements called for in the Dodd-Frank Act are being implemented over time and most are subject to implementing regulations.

The Dodd-Frank Act also created a new consumer financial services regulator, the Bureau of Consumer Financial Protection (the “CFPB”), which assumed most of the consumer financial services regulatory responsibilities previously exercised by federal banking regulators and other agencies. The CFPB’s primary functions include the supervision of “covered persons” (broadly defined to include any person offering or providing a consumer financial product or service and any affiliated service provider) for compliance with federal consumer financial laws. It has primary authority to enforce the federal consumer financial laws, as well as exclusive authority to require reports and conduct examinations for compliance with such laws, in the case of any insured depository institution with total assets of more than \$10 billion and any affiliate thereof. The CFPB also has broad powers to prescribe rules applicable to a covered person or service provider identifying as unlawful, unfair, deceptive, or abusive acts or practices in connection with any transaction with a consumer for a consumer financial product or service, or the offering of a consumer financial product or service.

Holding Company Structure

The Bank is subject to restrictions under federal laws that limit the transfer of funds to its affiliates (including the Company), whether in the form of loans, other extensions of credit, investments or asset purchases, among others. Such transfers are limited to 10% of the transferring institution’s capital stock and surplus with respect to any affiliate (including the Company), and, with respect to all affiliates, to an aggregate of 20% of the transferring institution’s capital stock and surplus. Furthermore, such loans and extensions of credit are required to be secured in specified amounts, carried out on an arm’s length basis, and consistent with safe and sound banking practices.

Under the Dodd-Frank Act, a bank holding company, such as the Company, must serve as a source of financial strength for any subsidiary depository institution. The term “source of financial strength” is defined as the ability of a company to provide financial assistance to its insured depository institution subsidiaries in the event of financial distress at such subsidiaries. This support may be required at times when, absent such requirement, the bank holding company might not otherwise provide such support. In the event of a bank holding company’s bankruptcy, any commitment by the bank holding company to a federal bank regulatory agency to maintain capital of a subsidiary bank will be assumed by the bankruptcy trustee and be entitled to a priority of payment. In addition, any capital loans by a bank holding company to any of its subsidiary banks are subordinate in right of payment to deposits and to certain other indebtedness of such subsidiary bank. The Bank is currently the only depository institution subsidiary of the Company.

Since the Company is a financial holding company, its right to participate in the assets of any subsidiary upon the latter’s liquidation or reorganization will be subject to the prior claims of the subsidiary’s creditors (including depositors in the case of the Bank) except to the extent that the Company is a creditor with recognized claims against the subsidiary.

Dividend Restrictions

The principal source of funds for the Company is the dividends from the Bank. The ability of the Bank to pay dividends on its common stock is restricted by the Puerto Rico Banking Act of 1933, as amended (the “Banking Act”), the Federal Deposit Insurance Act, as amended (the “FDIA”) and FDIC regulations. In general terms, the Banking Act provides that when the expenditures of a bank are greater than receipts, the excess of expenditures over receipts shall be charged against the undistributed profits of the bank and the balance, if any, shall be charged against the required reserve fund of the bank. If there is no sufficient reserve fund to cover such balance in whole or in part, the outstanding amount shall be charged against the bank’s capital account. The Banking Act provides that until said capital has been restored to its original amount and the reserve fund to 20% of the original capital, the bank may not declare any dividends. In general terms, the FDIA and the FDIC regulations restrict the payment of dividends when a bank is undercapitalized, when a bank has failed to pay insurance assessments, or when there are safety and soundness concerns regarding a bank.

The payment of dividends by the Bank may also be affected by other regulatory requirements and policies, such as maintenance of adequate capital. If, in the opinion of the regulatory authority, a depository institution under its jurisdiction is engaged in, or is about to engage in, an unsafe or unsound practice (that, depending on the financial condition of the depository institution, could include the payment of dividends), such authority may require, after notice and hearing, that such depository institution cease and desist from such practice. The Federal Reserve Board has a policy statement that provides that an insured bank or bank holding company should not maintain its existing rate of cash dividends on common stock unless (i) the organization's net income available to common shareholders over the past year has been sufficient to fully fund the dividends and (ii) the prospective rate of earnings retention appears consistent with the organization's capital needs, asset quality, and overall financial condition. In addition, all insured depository institutions are subject to the capital-based limitations required by the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA").

Federal Home Loan Bank System

The FHLB system, of which the Bank is a member, consists of 12 regional FHLBs governed and regulated by the Federal Housing Finance Agency. The FHLB serves as a credit facility for member institutions within their assigned regions. They are funded primarily from proceeds derived from the sale of consolidated obligations of the FHLB system. They make loans (i.e., advances) to members in accordance with policies and procedures established by the FHLB and the boards of directors of each regional FHLB.

As a system member, the Bank is entitled to borrow from the FHLB of New York (the "FHLB-NY") and is required to invest in FHLB membership and activity-based stock. The Bank must purchase membership stock equal to the greater of \$1,000 or 0.15% of certain mortgage-related assets held by the Bank. The Bank is also required to purchase activity-based stock equal to 4.50% of outstanding advances to the Bank by the FHLB. The Bank is in compliance with the membership and activity-based stock ownership requirements described above. All loans, advances and other extensions of credit made by the FHLB to the Bank are secured by a portion of the Bank's mortgage loan portfolio, certain other investments, and the capital stock of the FHLB held by the Bank. The Bank is required to maintain a minimum amount of qualifying collateral with a fair value of at least 110% of the outstanding advances.

Prompt Corrective Action Regulations

Pursuant to the Dodd-Frank Act, federal banking agencies have adopted capital rules that became effective January 1, 2014 for advanced approaches banking organizations (i.e., those with consolidated assets greater than \$250 billion or consolidated on-balance sheet foreign exposures of at least \$10 billion) and January 1, 2015 for all other covered organizations (subject to certain phase-in periods through January 1, 2019) and that will replace their general risk-based capital rules, advanced approaches rule, market risk rule, and leverage rules.

The new capital rules provide certain changes to the prompt corrective action regulations adopted by the agencies under Section 38 of the FDIA, as amended by FDICIA. These regulations are designed to place restrictions on U.S. insured depository institutions if their capital levels begin to show signs of weakness. The five capital categories established by the agencies under their prompt corrective action framework are: "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized" and "critically undercapitalized".

The new capital rules expand such categories by introducing a common equity tier 1 capital requirement for all depository institutions, revising the minimum risk-based capital ratios and, beginning in 2018, the proposed supplementary leverage requirement for advanced approaches banking organizations. The common equity tier 1 capital ratio is a new minimum requirement designed to ensure that banking organizations hold sufficient high-quality regulatory capital that is available to absorb losses on a going-concern basis. Under the new rules, an insured depository institution is:

(i) “well capitalized,” if it has a total risk-based capital ratio of 10% or more, a tier 1 risk-based capital ratio of 8% or more, a common equity tier 1 capital ratio of 6.5% or more, and a tier 1 leverage capital ratio of 5% or more, and is not subject to any written capital order or directive;

(ii) “adequately capitalized,” if it has a total risk-based capital ratio of 8% or more, a tier 1 risk-based capital ratio of 6% or more, a common equity tier 1 capital ratio of 4.5% or more, and a tier 1 leverage capital ratio of 4% or more;

(iii) “undercapitalized,” if it has a total risk-based capital ratio that is less than 8%, a tier 1 risk-based ratio that is less than 6%, a common equity tier 1 capital ratio that is less than 4.5%, or a tier 1 leverage capital ratio that is less than 4%;

(iv) “significantly undercapitalized,” if it has a total risk-based capital ratio that is less than 6%, a tier 1 risk-based capital ratio that is less than 4%, a common equity tier 1 capital ratio that is less than 3%, or a tier 1 leverage capital ratio that is less than 3%; and

(v) “critically undercapitalized,” if it has a ratio of tangible equity (defined as tier 1 capital plus non-tier 1 perpetual preferred stock) to total assets that is equal to or less than 2%.

The new capital rules also include a policy statement by the agencies that all banking organizations should maintain capital commensurate with their risk profiles, which may entail holding capital significantly above the minimum requirements. They also provide a reservation of authority permitting examiners to require that such organizations hold additional regulatory capital.

FDICIA generally prohibits a depository institution from making any capital distribution (including payment of a dividend) or paying any management fees to its holding company if the depository institution would thereafter be undercapitalized. Undercapitalized depository institutions are subject to restrictions on borrowing from the Federal Reserve System. In addition, undercapitalized depository institutions are subject to growth limitations and are required to submit capital restoration plans. A depository institution’s holding company must guarantee the capital plan, up to an amount equal to the lesser of 5% of the depository institution’s assets at the time it becomes undercapitalized or the amount of the capital deficiency when the institution fails to comply with the plan. The federal banking agencies may not accept a capital plan without determining, among other things, that the plan is based on realistic assumptions and is likely to succeed in restoring the depository institution’s capital. Significantly undercapitalized depository institutions may be subject to a number of requirements and restrictions, including orders to sell sufficient voting stock to become adequately capitalized, requirements to reduce total assets, and cessation of receipt of deposits from corresponding banks. Critically undercapitalized depository institutions are subject to the appointment of a receiver or conservator.

FDIC Insurance Assessments

The Bank is subject to FDIC deposit insurance assessments. The Federal Deposit Insurance Reform Act of 2005 (the “Reform Act”) merged the Bank Insurance Fund (“BIF”) and the Savings Association Insurance Fund (“SAIF”) into a single Deposit Insurance Fund, and increased the maximum amount of the insurance coverage for certain retirement accounts, and possible “inflation adjustments” in the maximum amount of coverage available with respect to other insured accounts. In addition, it granted a one-time initial assessment credit (of approximately \$4.7 billion) to recognize institutions’ past contributions to the fund. As a result of the merger of the BIF and the SAIF, all insured institutions are subject to the same assessment rate schedule.

The Dodd-Frank Act contains several important deposit insurance reforms, including the following: (i) the maximum deposit insurance amount was permanently increased to \$250,000; (ii) the deposit insurance assessment is now based

on the insured depository institution's average consolidated assets minus its average tangible equity, rather than on its deposit base; (iii) the minimum reserve ratio for the Deposit Insurance Fund was raised from 1.15% to 1.35% of estimated insured deposits by September 30, 2020; (iv) the FDIC is required to "offset the effect" of increased assessments on insured depository institutions with total consolidated assets of less than \$10 billion; (v) the FDIC is no longer required to pay dividends if the Deposit Insurance Fund's reserve ratio is greater than the minimum ratio; and (vi) the FDIC temporarily insured the full amount of qualifying "noninterest-bearing transaction accounts" until December 31, 2012. As defined in the Dodd-Frank Act, a "noninterest-bearing transac
