THE MALAYSIA FUND, INC.

Letter to Stockholders

Overview

For the year ended December 31, 2002, The Malaysia Fund, Inc. (the "Fund") had a total return, based on net asset value per share of -3.89% compared to -7.15% for the Kuala Lumpur Stock Exchange Composite Index (the "Index") expressed in U.S. dollars. On December 31, 2002, the closing price of the Fund's shares on the New York Stock Exchange was \$3.85, representing a 16.8% discount to the Fund's net asset value per share.

MARKET REVIEW

The Malaysian market started the year on a positive note with the Index reaching a high of 816.94 in April 2002, on the back of strong private consumption growth amidst a low interest rate environment. However, the rally fizzled out as the slowdown in the external environment dampened domestic sentiment. The launch of two relatively large primary offerings added to the weakness and Prime Minister Mahathiar's shocking retirement announcement led to further selling. The Index ended the year weaker by 7.2%.

The Malaysian economy performed well in 2002 with preliminary estimates showing the GDP increasing 4-5% in real terms. As mentioned earlier, Malaysia failed to escape from the slowdown in the external economy. The latest available industrial production data up to November 2002, showed a growth of only 3.9% over the same period last year. Sales of cars also slowed down, partly reflecting a reversal in domestic sentiment and also in anticipation of cheaper prices in 2005, when the Asian Free Trade Agreement takes place.

The negative consumer sentiment took its toll on corporate earnings as the year progressed. As a result, corporates in sectors such as real estate and banking reported disappointing earnings, leading to several rounds of earnings downgrade by analysts. The plantation sector was one of the few sectors that performed within expectations as palm oil prices rose amidst stronger external demand and higher global prices. The construction companies also did well as their order books remained intact.

MARKET OUTLOOK

Edgar Filing: MALAYSIA FUND INC - Form N-30D

The outlook for this year remains positive despite an expected decline in palm oil prices. The government has room for further pump-priming measures as the deficit over the last two years came in lower than expected. The monetary policy will also be accommodative with the Central Bank announcing that it will not hesitate to kick start growth in the economy. We continue to be overweight in the construction sector and the interest rate sensitive sectors such as banking and real estate.

OTHER DEVELOPMENTS

In our ongoing efforts to reduce Fund expenses, the Fund will discontinue the distribution of first and third quarter stockholder reports. The Fund will continue to produce and distribute semi-annual and annual stockholder reports. Additionally, the Fund's portfolio holdings information that was contained in the first and third quarter reports will be available on our web site, which is www.morganstanley.com/im, beginning in May of 2003. If you have difficulty accessing or navigating the site, or if you would like us to send you a copy of the portfolio holdings, please call us at 1-800-221-6726 and we will be happy to assist you.

On February 13, 2003, Barton M. Biggs resigned as Director and Chairman of the Board of Directors of the Fund. On that same day, Mitch Merin, President and Chief Operating Officer of the Adviser, was elected by the Fund's Board of Directors to serve as a Director and Chairman of the Board of Directors of the Fund.

Sincerely,

/s/ Ronald E. Robison

(1) Assumes dividends and distributions, if any, were reinvested.

(2) Total investment return based on net asset value per share reflects the effects of changes in net asset value on the performance of the Fund during each period, and assumes dividends and distributions, if any, were reinvested. Total returns do not reflect the deduction of taxes that a stockholder would pay on Fund distributions or the redemption of fund shares. These percentages are not an indication of the performance of a stockholder's investment in the Fund based on market value due to differences between the market price of the stock and the net asset value per share of the Fund.

(3) The Kuala Lumpur Stock Exchange (KLSE) Composite Index (the "Index") is a broad based capitalization weighted index of 100 stocks listed on the exchange. The Fund's return based on net asset value per share and the Index's return, expressed in U.S. dollars, for 1998 were adjusted in reaction to the imposition of capital controls by the Malaysian government during September 1998. During February 1999, the adjustment was removed to reflect the relaxation of these capital controls.

* The Fund commenced operations on May 4, 1987.

+ This return does not include the effect of the rights issued in connection with the rights offering.

FOREIGN INVESTING INVOLVES CERTAIN RISKS, INCLUDING CURRENCY FLUCTUATIONS AND CONTROLS, RESTRICTIONS ON FOREIGN INVESTMENTS, LESS GOVERNMENTAL SUPERVISION AND REGULATION, LESS LIQUIDITY AND THE POTENTIAL FOR MARKET VOLATILITY AND POLITICAL INSTABILITY. IN ADDITION, INVESTING IN EMERGING MARKETS MAY INVOLVE A RELATIVELY HIGHER DEGREE OF VOLATILITY.

(1) Total investment return based on net asset value per share reflects the

Edgar Filing: MALAYSIA FUND INC - Form N-30D

effects of changes in net asset value on the performance of the Fund during each period, and assumes dividends and distributions, if any, were reinvested. This percentage is not an indication of the performance of a stockholder's investment in the Fund based on market value due to differences between the market price of the stock and the net asset value per share of the Fund.

- + During the period from September 1998 to February 1999, the Fund adjusted its net asset value in reaction to the imposition of capital controls by the Malaysian government. During February 1999, the Fund's net asset value was again modified to reflect the relaxation of these capital controls. The result of such adjustments was a decrease to the total return in 1998 and an increase to the total return in 1999.
- ++ Per share amounts for the year ended December 31, 2002 are based on average shares outstanding.
- # Amount is less than \$0.005.

The accompanying notes are an integral part of the financial statements.

8

THE MALAYSIA FUND, INC.

NOTES TO FINANCIAL STATEMENTS

December 31, 2002

The Malaysia Fund, Inc. (the "Fund") was incorporated on March 12, 1987 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is long-term capital appreciation through investment primarily in equity securities.

- A. ACCOUNTING POLICIES: The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America. Such policies are consistently followed by the Fund in the preparation of its financial statements. Accounting principles generally accepted in the United States of America may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.
1. SECURITY VALUATION: In valuing the Fund's assets, all listed securities for which market quotations are readily available are valued at the last sales price on the valuation date, or if there was no sale on such date, at the mean between the current bid and asked prices. Securities which are traded over-the-counter are valued at the mean of current bid and asked prices obtained from reputable brokers. Short-term securities which mature in 60 days or less are valued at amortized cost. For all other securities and investments for which market values are not readily available, including restricted securities, and where prices determined in accordance with the aforementioned procedures are not reflective of fair market value, values are determined in good faith, under fair valuation procedures adopted by the Board of Directors, although actual calculations may be done by others.
 2. REPURCHASE AGREEMENTS: The Fund may enter into repurchase agreements under which the Fund lends excess cash and takes possession of securities with an agreement that the counterparty will repurchase such securities. In connection with transactions in repurchase agreements, a bank as custodian for the Fund takes possession of the underlying securities (collateral), with a market value at least equal to the amount of the repurchase transaction, including principal and accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to determine the adequacy of the collateral. In the event of default on the obligation to repurchase,

Edgar Filing: MALAYSIA FUND INC - Form N-30D

the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

The Fund, along with other affiliated investment companies, may utilize a joint trading account for the purpose of entering into one or more repurchase agreements.

3. FOREIGN CURRENCY TRANSLATION: The books and records of the Fund are maintained in U.S. dollars. Amounts denominated in foreign currency are translated into U.S. dollars at the mean of the bid and asked prices of such currencies against U.S. dollars last quoted by a major bank as follows:

- investments, other assets and liabilities at the prevailing rates of exchange on the valuation date;
- investment transactions and investment income at the prevailing rate of exchange on the dates of such transactions.

Although the net assets of the Fund are presented at the foreign exchange rates and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at period end. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of securities sold during the period. Accordingly, realized and unrealized foreign currency gains (losses) due to securities transactions are included in the reported net realized and unrealized gains (losses) on investment transactions and balances.

Net realized gains (losses) on foreign currency transactions represent net foreign exchange gains (losses) from sales and maturities of foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amount of investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains (losses) from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of unrealized

9

THE MALAYSIA FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONT'D)

December 31, 2002

appreciation (depreciation) on investments and foreign currency translations in the Statement of Net Assets. The change in net unrealized currency gains (losses) on foreign currency translations for the period is reflected in the Statement of Operations.

A significant portion of the Fund's net assets consist of Malaysian equity securities and foreign currency. Future economic and political developments in Malaysia could adversely affect the liquidity or value, or both, of securities in which the Fund is invested. Changes in currency exchange rates will affect the value of and investment income from such investments. Foreign securities may be subject to greater price volatility, lower

Edgar Filing: MALAYSIA FUND INC - Form N-30D

liquidity and less diversity than equity securities of companies based in the United States. In addition, foreign securities may be subject to substantial governmental involvement in the economy and greater social, economic and political uncertainty.

The Fund may use derivatives to achieve its investment objectives. The Fund may engage in transactions in futures contracts on foreign currencies, stock indices, as well as in options, swaps and structured notes. Consistent with the Fund's investment objectives and policies, the Fund may use derivatives for non-hedging as well as hedging purposes.

Following is a description of derivative instruments that the Fund has utilized and their associated risks:

4. FOREIGN CURRENCY EXCHANGE CONTRACTS: The Fund may enter into foreign currency exchange contracts generally to attempt to protect securities and related receivables and payables against changes in future foreign exchange rates and, in certain situations, to gain exposure to a foreign currency. A foreign currency exchange contract is an agreement between two parties to buy or sell currency at a set price on a future date. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized gain or loss. The Fund records realized gains or losses when the contract is closed equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Risk may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and is generally limited to the amount of unrealized gain on the contracts, if any, at the date of default. Risks may also arise from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.
5. OTHER: Security transactions are accounted for on the date the securities are purchased or sold. Realized gains and losses on the sale of investment securities are determined on the specific identified cost basis. Interest income is recognized on the accrual basis. Dividend income is recorded on the ex-dividend date (except certain dividends which may be recorded as soon as the Fund is informed of such dividends) net of applicable withholding taxes. Distributions to shareholders are recorded on the ex-dividend date.

B. ADVISERS: Morgan Stanley Investment Management Inc. (the "U.S. Adviser") provides investment advisory services to the Fund under the terms of an Investment Advisory Agreement (the "Agreement"). Under the Agreement, the U.S. Adviser is paid a fee computed weekly and payable monthly at an annual rate of 0.90% of the Fund's first \$50 million of average weekly net assets, 0.70% of the Fund's next \$50 million of average weekly net assets and 0.50% of the Fund's average weekly net assets in excess of \$100 million.

Arab-Malaysian Consultant Sdn Bhd (the "Malaysian Adviser") provides investment advice, research and assistance on behalf of the Fund to Morgan Stanley Investment Management Inc. under terms of a contract. Under the contract, the Malaysian Adviser is paid a fee computed weekly and payable monthly at an annual rate of 0.25% of the Fund's first \$50 million of average weekly net assets, 0.15% of the Fund's next \$50 million of average weekly net assets and 0.10% of the Fund's average weekly net assets in excess of \$100 million.

C. ADMINISTRATOR: JPMorgan Chase Bank, through its corporate affiliate J.P. Morgan Investor Services Company (the "Administrator"), provides administrative services to the Fund under an Administration Agreement. Under the old Administration Agreement, effective through September 30, 2002, the Administrator was paid a fee computed weekly and payable monthly at an annual

Edgar Filing: MALAYSIA FUND INC - Form N-30D

rate of 0.20% of the Fund's first \$50 million of average weekly net assets, 0.15% of the Fund's next \$50 million of average weekly net assets and 0.10% of the Fund's average weekly net assets in excess of \$100 million. Effective October 1, 2002, under the new Administration Agreement, the Administrator is paid a fee computed weekly and payable monthly at an annual rate of 0.02435% of the Fund's average weekly net assets, plus \$24,000 per annum. In

10

THE MALAYSIA FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONT'D)

December 31, 2002

addition, the Fund is charged certain out of pocket expenses incurred by the Administrator on its behalf.

D. CUSTODIAN: JPMorgan Chase Bank serves as custodian for the Fund. Custody fees are payable monthly based on assets held in custody, investment purchase and sales activity and account maintenance fees, plus reimbursement for certain out-of-pocket expenses.

E. FEDERAL INCOME TAXES: It is the Fund's intention to continue to qualify as a regulated investment company and distribute all of its taxable income. Accordingly, no provision for Federal income taxes is required in the financial statements. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

The tax character of distributions paid may differ from the character of distributions shown on the Statements of Changes in Net Assets due to short-term capital gains being treated as ordinary income for tax purposes. The tax character of distributions paid during 2002 and 2001 was as follows:

2002 DISTRIBUTIONS PAID FROM: (000)		2001 DISTRIBUTIONS PAID FROM: (000)	
ORDINARY INCOME	LONG-TERM CAPITAL GAIN	ORDINARY INCOME	LONG-TERM CAPITAL GAIN
\$ 1,492	\$ --	\$ 432	\$ --

The amount and character of income and capital gain distributions to be paid by the Fund are determined in accordance with Federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America. The book/tax differences are considered either temporary or permanent in nature.

Temporary differences are attributable to differing book and tax treatments for the timing of the recognition of gains and losses on certain investment transactions and the timing of the deductibility of certain expenses.

Permanent differences may result in reclassifications among undistributed net investment income (loss), accumulated net realized gain (loss) and paid-in capital. Adjustments for permanent book-tax differences, if any, are not reflected in ending undistributed net investment income (loss) for the purpose of calculating net investment income (loss) per share in the financial

Edgar Filing: MALAYSIA FUND INC - Form N-30D

highlights.

At December 31, 2002, the components of distributable earnings on a tax basis were as follows:

UNDISTRIBUTED ORDINARY INCOME (000)	UNDISTRIBUTED LONG-TERM CAPITAL GAIN (000)
\$ 438	\$ --

At December 31, 2002, the U.S. Federal income tax cost basis of investments (excluding foreign currency if applicable) was \$45,437,000 and, accordingly, net unrealized appreciation for U.S. Federal income tax purposes was \$298,000, of which \$5,697,000 related to appreciated securities and \$5,399,000 related to depreciated securities.

At December 31, 2002, the Fund had a capital loss carryforward for U.S. Federal income tax purposes of approximately \$75,824,000 available to offset future capital gains of which \$5,416,000 will expire on December 31, 2005, \$65,683,000 will expire on December 31, 2006, \$2,720,000 will expire on December 31, 2007, and \$2,005,000 will expire on December 31, 2009. To the extent that capital gains are offset, such gains will not be distributed to the stockholders. During the year ended December 31, 2002, the Fund utilized capital loss carryforwards for U.S. Federal income tax purposes of approximately \$2,720,000.

Net capital and currency losses incurred after October 31, and within the taxable year are deemed to arise on the first business day of the Fund's next taxable year. For the year ended December 31, 2002, the Fund deferred to January 1, 2003, for U.S. Federal income tax purposes, post-October currency losses of \$11,000 and post-October capital losses of \$640,000.

F. OTHER: During the year ended December 31, 2002, the Fund made purchases and sales totaling approximately \$17,061,000 and \$17,237,000, respectively, of investment securities other than long-term U.S. Government securities and short-term investments. There were no purchases or sales of long-term U.S. Government securities.

Each Director of the Fund who is not an officer of the Fund or an affiliated person as defined under the Investment Company Act of 1940, as amended, may elect to participate in the Directors' Deferred Compensation Plan (the "Plan"). Under the Plan, such Directors may elect to defer payment of a percentage of their total fees earned as a Director of the Fund. These deferred portions are treated, based on an election by the Director, as if they were either invested in the Fund's shares or invested in U.S. Treasury Bills, as defined under the Plan. At December 31, 2002, the deferred fees payable, under the Plan,

11

THE MALAYSIA FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONT'D)

December 31, 2002

totalled \$26,000 and are included in Payable for Directors' Fees and Expenses on the Statement of Net Assets. The deferred portion of Directors' Fees and Expenses shown on the Statement of Operations is impacted by fluctuations in the

Edgar Filing: MALAYSIA FUND INC - Form N-30D

market value of the investments selected by each Director. For the fiscal year ended December 31, 2002, Directors' Fees and Expenses were decreased by \$198 due to these fluctuations.

On July 15, 2002, the Fund commenced a share repurchase program for purposes of enhancing stockholder value and reducing the discount at which the Fund's shares traded from their net asset value. During the year ended December 31, 2002, the Fund repurchased 24,167 of its shares at an average discount of 16.72% from net asset value per share. The Fund expects to continue to repurchase its outstanding shares at such time and in such amounts as it believes will further the accomplishment of the foregoing objectives, subject to review by the Board of Directors.

On December 13, 2002 the Officers of the Fund, pursuant to authority granted by the Board of Directors declared a distribution of \$0.1034 per share, derived from net investment income, payable on January 10, 2003 to stockholders of record on December 24, 2002.

INDEPENDENT AUDITORS' REPORT

December 31, 2002

TO THE STOCKHOLDERS AND BOARD OF DIRECTORS OF
THE MALAYSIA FUND, INC.

We have audited the accompanying statement of net assets of The Malaysia Fund, Inc. (the "Fund") as of December 31, 2002, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the two years in the period ended December 31, 1999 were audited by other auditors whose report, dated February 18, 2000, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2002 by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The Malaysia Fund, Inc. at December 31, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

16

THE MALAYSIA FUND, INC.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), each stockholder will be deemed to have elected, unless American Stock Transfer & Trust Company (the "Plan Agent") is otherwise instructed by the stockholder in writing, to have all distributions automatically reinvested in Fund shares. Participants in the Plan have the option of making additional voluntary cash payments to the Plan Agent, annually, in any amount from \$100 to \$3,000, for investment in Fund shares.

Dividend and capital gain distributions will be reinvested on the reinvestment date in full and fractional shares. If the market price per share equals or exceeds net asset value per share on the reinvestment date, the Fund will issue shares to participants at net asset value. If net asset value is less than 95% of the market price on the reinvestment date, shares will be issued at 95% of the market price. If net asset value exceeds the market price on the reinvestment date, participants will receive shares valued at market price. The Fund may purchase shares of its Common Stock in the open market in connection

Edgar Filing: MALAYSIA FUND INC - Form N-30D

with dividend reinvestment requirements at the discretion of the Board of Directors. Should the Fund declare a dividend or capital gain distribution payable only in cash, the Plan Agent will purchase Fund shares for participants in the open market as agent for the participants.

The Plan Agent's fees for the reinvestment of dividends and distributions will be paid by the Fund. However, each participant's account will be charged a pro rata share of brokerage commissions incurred on any open market purchases effected on such participant's behalf. A participant will also pay brokerage commissions incurred on purchases made by voluntary cash payments. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax which may be payable on such dividends or distributions.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the stockholder's name and held for the account of beneficial owners who are participating in the Plan.

Stockholders who do not wish to have distributions automatically reinvested should notify the Plan Agent in writing. There is no penalty for non-participation or withdrawal from the Plan, and stockholders who have previously withdrawn from the Plan may rejoin at any time. Requests for additional information or any correspondence concerning the Plan should be directed to the Plan Agent at:
