IMPORTANT NOTICE
REGARDING DELIVERY OF
SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

EATON VANCE, OR YOUR FINANCIAL ADVISER, MAY HOUSEHOLD THE MAILING OF YOUR DOCUMENTS INDEFINITELY UNLESS YOU INSTRUCT EATON VANCE, OR YOUR FINANCIAL ADVISER, OTHERWISE.

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

The Fund will file a schedule of its portfolio holdings on Form N-Q with the Securities and Exchange Commission (the "SEC") for the first and third quarters of each fiscal year. The Fund's Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures without charge, upon request, by calling 1-800-262-1122. MANAGEMENT DISCUSSION

- We are pleased to welcome shareholders of Eaton Vance Tax-Advantaged Global Dividend Opportunities Fund (the "Fund"), a closed-end fund traded on the New York Stock Exchange under the symbol ETO. The Fund is designed to take advantage of favorable tax rates on dividend income. The Fund's investment objective is to provide a high level of after-tax total return. The Fund invests primarily in a diversified portfolio of common and preferred stocks of U.S. and foreign issuers that management believes may pay dividends that qualify for lower federal income tax rates.
- The Fund posted positive returns in its first five months of existence, benefiting from a recovery during that time in the broad equity markets. Factors helping to drive stocks higher included a strengthening U.S. and world economy, an improved outlook for corporate earnings, low interest rates and low inflation.
- The Fund was primarily invested in securities that generated a relatively high level of qualifying dividend income (QDI). The Fund emphasized investments in common stocks of issuers whose businesses were related to "hard assets," such as energy and natural resources. Growing demand and increasing commodity prices generally benefited the Fund's holdings in the energy and material sectors. The Fund also had significant holdings of utility and telecommunication stocks, which provided attractive levels of QDI and also appreciated in price.
- On September 15, 2004 the Fund increased its monthly dividend from \$0.1000 to \$0.1050 per share. This increase reflected both the effective implementation of the Fund's dividend capture strategy and the significant number of dividend increases announced by companies held in the Fund's common stock portfolio.
- Preferred stocks owned by the Fund returned 4.4% for the period vs. 4.93% for the Merrill Lynch Fixed Rate Preferred Stock Index.(1) During the period, the preferred portion of the Fund performed well in providing a high rate of qualified dividend income, while minimizing the interest rate risk of the Portfolio.
- The Fund also uses financial leverage through the issuance of Auction Rate Preferred Shares (APS). Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).

THE FUND

- Based on net asset value (NAV) per share for the period from inception on April 30, 2004, through September 30, 2004, the Fund had a total return of 10.77%. This return resulted from an increase in NAV per share from \$19.10 (offering price, less all commissions and fees) on April 30, 2004, to \$20.70 on September 30, 2004, and the distribution of \$0.405 per share in dividend income.(2)
- Based on share price trading on the New York Stock Exchange for the period from inception on April 30, 2004, through September 30, 2004, the Fund had a total return of 3.22%. This return resulted from an increase in share price from \$19.10 (offering price, less all commissions and fees) on April 30, 2004, to \$19.29 on September 30, 2004, and the distribution of \$0.405 per share in dividend income.(2) Based on the most recent dividend of \$0.105 and a share price of \$19.29, the Fund had a market yield of 6.53% as of September 30, 2004.(3)

THE VIEWS EXPRESSED THROUGHOUT THIS REPORT ARE THOSE OF THE PORTFOLIO MANAGERS AND ARE CURRENT ONLY THROUGH THE END OF THE PERIOD OF THE REPORT AS STATED ON THE COVER. THESE VIEWS ARE SUBJECT TO CHANGE AT ANY TIME BASED UPON MARKET OR OTHER CONDITIONS, AND THE INVESTMENT ADVISOR DISCLAIMS ANY RESPONSIBILITY TO UPDATE SUCH VIEWS. THESE VIEWS MAY NOT BE RELIED ON AS INVESTMENT ADVICE AND, BECAUSE INVESTMENT DECISIONS FOR A FUND ARE BASED ON MANY FACTORS, MAY NOT BE RELIED ON AS AN INDICATION OF TRADING INTENT ON BEHALF OF ANY EATON VANCE FUND.

- (1) IT IS NOT POSSIBLE TO INVEST DIRECTLY IN AN INDEX. THE INDEX'S TOTAL RETURN DOES NOT REFLECT COMMISSIONS OR EXPENSES THAT WOULD HAVE BEEN INCURRED IF AN INVESTOR INDIVIDUALLY PURCHASED OR SOLD THE SECURITIES REPRESENTED IN THE INDEX. (2) SHARE PRICE AND NET ASSET VALUE ON 9/30/04 ARE CALCULATED ASSUMING AN OFFERING PRICE OF \$20.00, LESS THE SALES LOAD OF \$0.90 PER SHARE PAID BY THE SHAREHOLDER. PERFORMANCE RESULTS REFLECT THE EFFECTS OF LEVERAGE RESULTING FROM THE FUND'S ISSUANCE OF AUCTION PREFERRED SHARES IN JULY 2004. (3) THE FUND'S MARKET YIELD IS CALCULATED BY DIVIDING THE MOST RECENT DIVIDEND PER SHARE BY THE SHARE PRICE AT THE END OF THE RIOD AND ANNUALIZING THE RESULT.

FUND SHARES ARE NOT INSURED BY THE FDIC AND ARE NOT DEPOSITS OR OTHER OBLIGATIONS OF, OR GUARANTEED BY, ANY DEPOSITORY INSTITUTION. SHARES ARE SUBJECT TO INVESTMENT RISKS, INCLUDING POSSIBLE LOSS OF PRINCIPAL INVESTED. YIELDS WILL VARY.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than the quoted return.

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND OPPORTUNITIES FUND as of
September 30, 2004
NOTES TO FINANCIAL STATEMENTS (Unaudited)

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Tax-Advantaged Global Dividend Opportunities Fund (the Fund) is registered under the Investment Company Act of 1940 (the 1940 Act), as amended, as a diversified, closed-end management investment company. The Fund was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated February 27, 2004. The Fund's investment objective is to provide a high level of after-tax total return consisting primarily of tax-advantaged dividend income and capital appreciation. The Fund seeks to achieve its objective by investing primarily in dividend-paying common and preferred stocks. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Securities listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices therefore on the exchange where such securities are principally traded. Equity securities listed on the NASDAQ National Market System generally are valued at the official NASDAQ closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices or, in the case of preferred equity securities that are not listed or traded in the over-the-counter market, by an independent pricing service. The value of preferred equity securities that are valued by a pricing service on a bond basis will be adjusted by an income factor, to be determined by the investment adviser, to reflect the next anticipated regular dividend. Exchange-traded options are valued at the last sale price for the day of valuation as quoted on the principal exchange or board of trade on which the options are traded or, in the absence of sales on such date, at the mean between the latest bid and asked prices therefore. Futures positions on securities and currencies generally are valued at closing settlement prices. Short-term debt securities with a remaining maturity of 60 days or less are valued at amortized cost. If short-term debt securities were acquired with a remaining maturity of more than 60 days, their amortized cost value will be based on their value on the sixty-first day prior to maturity. Other fixed income and debt securities, including listed securities and securities for which price quotations are available, will normally be valued on the basis of valuations furnished by a pricing service. The daily valuation of foreign securities generally is determined as of the close of trading on the principal exchange on which

such securities trade. Events occurring after the close of trading on foreign exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by an independent quotation service. Investments held by the Fund for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund considering relevant factors, data and information including the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded.

B INCOME -- Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. However, if the ex-dividend date has passed, certain dividends from foreign securities are recorded as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis.

C FEDERAL TAXES -- The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary.

D OFFERING COSTS -- Costs incurred by the Fund in connection with the offering of the common shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

E WRITTEN OPTIONS -- Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the

12

securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

F PURCHASED OPTIONS -- Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds

from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

G SWAP AGREEMENTS -- The Fund may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions, to change the duration of the overall portfolio, to mitigate non-payment or default risk, or to gain exposure to particular securities, baskets of securities, indices or currencies. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) to be exchanged or swapped between the parties, which returns are calculated with respect to a notional amount (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or in a "basket" of securities representing a particular index). The Fund will enter into swaps on a net basis. If the other party to a swap defaults, the Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive. The Fund will not enter into any swap unless the claims-paying ability of the other party thereto is considered to be investment grade by the Adviser. These instruments are traded in the over-the-counter market. If the Adviser is incorrect in its forecasts of market values, interest rates and other applicable factors, the investment performance of the Fund would be unfavorably affected.

H USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

I OTHER -- Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed on the specific identification of the securities sold.

J FOREIGN CURRENCY TRANSLATION -- Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investment securities and income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

K INTERIM FINANCIAL STATEMENTS -- The interim financial statements relating to September 30, 2004 and for the period then ended have not been audited by independent certified public accountants, but in the opinion of the Fund's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

L INDEMNIFICATIONS -- Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund and shareholders are indemnified against personal liability for obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as

this would involve future claims that may be made against the Fund that have not yet occurred.

2 AUCTION PREFERRED SHARES

The Fund issued 2,000 shares of Auction Preferred Shares (APS) Series A, 2,000 shares of APS Series B and 1,800 shares of APS Series C on July 19, 2004 in a public offering. The underwriting discount and other offering costs were

13

recorded as a reduction of the capital of the common shares. Dividends of the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset by an auction based on the dividend period of each Series. Rates are reset weekly for Series A and Series B and, approximately, monthly for Series C. Dividends are generally paid on the day following the end of the dividend period for Series A, Series B and Series C.

Dividend rate ranges for the period from the commencement of the offering, July 19, 2004, to September 30, 2004 are as indicated below:

SERIES	DIVIDEND RATE RANGES
Series A	1.36% - 1.95%
Series B	1.55% - 2.45%
Series C	1.65% - 1.87%

The APS are redeemable at the option of the Fund, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the Investment Company Act of 1940. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTION TO SHAREHOLDERS

The Fund intends to make monthly distributions of net investment income. In addition, at least annually, the Fund intends to distribute net capital gain, if any.

Distributions are recorded on the ex-dividend date. The applicable dividend rates for APS on September 30, 2004 are listed below. For the period from the commencement of the offering, the amount of dividends each Series paid to Auction Preferred shareholders and average APS dividend rates for such

period were as follows:

SERIES	APS	DIVIDENDS PAID TO		AVERAGE APS
	DIVIDEND RATES	PREFERRED		DIVIDEND RATES
	AS OF	SHAREHOLDERS		FOR THE PERIOD ENDED
	SEPTEMBER 30, 2004	FOR THE PERIOD ENDED		FOR THE PERIOD ENDED
		SEPTEMBER 30, 2004 (1)		SEPTEMBER 30, 2004 (1)
Series A	1.90%	\$	164,957	1.620%
Series B	2.45%	\$	179,840	1.734%
Series C	1.87%	\$	157,022	1.723%

(1) For the period from the commencement of offering, July 19, 2004, to September 30, 2004.

4 INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The investment adviser fee is earned by Eaton Vance Management (EVM), as compensation for management and investment advisory services rendered to the Fund. Under the advisory agreement, EVM receives a monthly advisory fee in the amount equal to 0.85% annually of average daily gross assets of the Fund. For the period from the start of business, April 30, 2004 to September 30, 2004, the advisory fee amounted to \$1,247,921. EVM serves as the administrator of the Fund, but currently receives no compensation for providing administrative services to the Fund.

In addition, the Adviser has contractually agreed to reimburse the Fund for fees and other expenses in the amount of 0.20% of the average daily gross assets for the first five years of the Fund's operations, 0.15% of average daily gross assets in year six, 0.10% in year seven and 0.05% in year eight. For the period from the start of business, April 30, 2004 to September 30, 2004 the Investment Adviser waived \$293,628 of its advisory fee. In addition, the Adviser has agreed to reimburse the Fund for all organizational costs, estimated at \$7,500, which is payable by the Adviser at September 30, 2004.

The Adviser has also agreed to reduce the investment adviser fee by an amount equal to that portion of commissions paid to broker dealers in execution of Fund portfolio transactions that is consideration for third-party research services. For the period from May 1, 2004, to September 30, 2004, the Investment Adviser waived \$16,593 of its advisory fee.

Trustees of the Fund who are not affiliated with EVM may elect to defer receipt of all or a percentage of their annual

fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the period from the start of business, April 30, 2004, to September 30, 2004, no significant amounts have been deferred.

Certain officers and Trustees of the Fund are officers of the above organization.

5 PURCHASES AND SALES OF INVESTMENTS

Purchases and sales of investments, other than short-term obligations, aggregated \$627,239,121 and \$219,471,678 respectively, for the period from the start of business, April 30, 2004, to September 30, 2004.

6 FEDERAL INCOME TAX BASIS OF UNREALIZED APPRECIATION (DEPRECIATION)

The cost and unrealized appreciation (depreciation) in value of investments owned by the Fund at September 30, 2004, as computed on a federal income tax basis, were as follows:

AGGREGATE COST	\$	418,624,201

Gross unrealized appreciation	\$	28,012,801
Gross unrealized depreciation		(2,332,621)

NET UNREALIZED APPRECIATION	\$	25,680,180

7 COMMON SHARES OF BENEFICIAL INTEREST

The Declaration of Trust permits the Fund to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

	PERIOD ENDED
	SEPTEMBER 30, 2004
	(UNAUDITED) (1)

Sales	14,505,000

NET INCREASE	14,505,000

(1) For the period from the start of business, April 30, 2004 to September 30, 2004.

8 FINANCIAL INSTRUMENTS

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options, forward foreign currency exchange contracts, and financial futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. The Fund did not have any open obligations under these financial instruments at September 30, 2004.

9 RISKS ASSOCIATED WITH FOREIGN INVESTMENTS

Investing in securities issued by companies whose principal business

activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Portfolio, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers, and issuers than in the United States.

15

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND OPPORTUNITIES FUND
DIVIDEND REINVESTMENT PLAN

The Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have dividends and capital gains distributions automatically reinvested in common shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Fund's transfer agent, PFPC, Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Fund. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC, Inc.,

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients.

The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.
