CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report, as well as our other public filings or public statements, include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by terms and phrases such as "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," "will" and similar expressions and include references to assumptions and relate to our future prospects, developments and business strategies.

Factors that could cause actual results to differ materially from those expressed or implied in such forward-looking statements include, but are not limited to:

our high level of indebtedness;

our ability to make interest and principal payments on our debt and satisfy the other covenants contained in our senior secured credit facility, second priority secured term loan facilities and other debt agreements;

general economic conditions (including the impact of continued high unemployment and changing consumer behavior), inflation and interest rate movements;

our ability to improve the operating performance of our stores in accordance with our long term strategy;

our ability to maintain or grow prescription count and realize front-end sales growth;

our ability to retain the business we gained as a result of the Walgreens / Express Scripts dispute which settled in September 2012;

our ability to hire and retain qualified personnel;

the continued efforts of private and public third party payors to reduce prescription drug reimbursement and encourage mail order and limit access to payor networks;

competitive pricing pressures, including aggressive promotional activity from our competitors;

decisions to close additional stores and distribution centers or undertake additional refinancing activities, which could result in further charges to our operating statement;

our ability to manage expenses and our investment in working capital;

continued consolidation of the drugstore and the pharmacy benefit management industries;

changes in state or federal legislation or regulations, and the continued impact from the ongoing implementation of the Patient Protection and Affordable Care Act as well as other healthcare reform;

Edgar Filing: RITE AID CORP - Form 10-Q

the outcome of lawsuits and governmental investigations;

our ability to maintain the listing of our common stock on the New York Stock Exchange (the "NYSE"), and the resulting impact on our indebtedness, results of operations and financial condition; and

other risks and uncertainties described from time to time in our filings with the Securities and Exchange Commission (the "SEC").

We undertake no obligation to update or revise the forward-looking statements included in this report, whether as a result of new information, future events or otherwise, after the date of this report. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors that could cause or contribute to such differences are discussed in the section entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included herein and included in our Annual Report on Form 10-K for the fiscal year ended March 2, 2013 (the "Fiscal 2013 10-K"), which we filed with the SEC on April 23, 2013 and in Exhibit 99.2 to our Current Report on Form 8-K which we filed with the SEC on June 18, 2013, under the heading "Risk Factors". This document is available on the SEC's website at www.sec.gov.

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012

(Dollars and share information in thousands, except per share amounts)

(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X and therefore do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete annual financial statements. The accompanying financial information reflects all adjustments which are of a recurring nature and, in the opinion of management, are necessary for a fair presentation of the results for the interim periods. The results of operations for the thirteen week period ended June 1, 2013 are not necessarily indicative of the results to be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Rite Aid Corporation and Subsidiaries (the "Company") Fiscal 2013 10-K.

New Accounting Pronouncements

In February 2013, the FASB issued ASU No. 2013-02, *Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. The guidance was issued in response to ASU No. 2011-05 and required disclosure of the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items of net income, if the amounts reclassified are required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period. For other amounts not required to be reclassified to net income in their entirety in the same reporting period, or when a portion of the amount is reclassified to a balance sheet account instead of directly to income or expense, a cross reference to the related footnote disclosures for additional information should be provided. The new requirements were effective prospectively for fiscal years beginning on or after December 15, 2012, and for interim periods within those fiscal years. The adoption did not have a material effect on the Company's financial statements.

2. Income (Loss) Per Share

Basic income (loss) per share is computed by dividing income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted income (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012****(Dollars and share information in thousands, except per share amounts)****(unaudited)****2. Income (Loss) Per Share (Continued)**

issuance of common stock that then shared in the income of the Company subject to anti-dilution limitations.

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
Numerator for income (loss) per share:		
Net income (loss)	\$ 89,662	\$ (28,088)
Accretion of redeemable preferred stock	(25)	(25)
Cumulative preferred stock dividends	(2,732)	(2,574)
Income (loss) attributable to common stockholders basic	\$ 86,905	\$ (30,687)
Add back interest on convertible notes	1,364	
Add back cumulative preferred stock dividends	2,732	
Income (loss) attributable to common stockholders diluted	\$ 91,001	\$ (30,687)
Denominator:		
Basic weighted average shares	893,871	887,516
Outstanding options and restricted shares, net	38,812	
Convertible notes	24,800	
Convertible preferred stock	33,605	
Diluted weighted average shares	991,088	887,516
Basic income (loss) per share	\$ 0.10	\$ (0.03)
Diluted income (loss) per share	\$ 0.09	\$ (0.03)

Due to their antidilutive effect, the following potential common shares have been excluded from the computation of diluted income (loss) per share as of June 1, 2013 and June 2, 2012:

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
Stock options	49,324	72,907
Convertible preferred stock		31,662
Convertible notes		24,800
	49,324	129,369

Edgar Filing: RITE AID CORP - Form 10-Q

Also excluded from the computation of diluted income (loss) per share as of June 1, 2013 and June 2, 2012 are restricted shares and restricted stock units of 0 and 11,366, respectively, which are included in shares outstanding.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012****(Dollars and share information in thousands, except per share amounts)****(unaudited)****3. Lease Termination and Impairment Charges**

Lease termination and impairment charges consist of amounts as follows:

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
Impairment charges	\$ 4,601	\$ 495
Lease termination charges	6,371	11,648
	\$ 10,972	\$ 12,143

Impairment Charges

These amounts include the write-down of long-lived assets at locations that were assessed for impairment because of management's intention to relocate or close the location or because of changes in circumstances that indicated the carrying value of an asset may not be recoverable.

Lease Termination Charges

As part of the Company's ongoing business activities, the Company assesses stores and distribution centers for potential closure or relocation. Decisions to close or relocate stores or distribution centers in future periods would result in lease termination charges, lease exit costs and inventory liquidation charges, as well as impairment of assets at these locations. The following table reflects the closed store and distribution center charges that relate to new closures, changes in assumptions and interest accretion:

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
Balance beginning of period	\$ 323,758	\$ 367,864
Provision for present value of noncancellable lease payments of closed stores	393	3,574
Changes in assumptions about future sublease income, terminations and changes in interest rates	520	2,057
Interest accretion	5,458	6,056
Cash payments, net of sublease income	(18,118)	(20,968)
Balance end of period	\$ 312,011	\$ 358,583

4. Fair Value Measurements

The Company utilizes the three-level valuation hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the

Table of Contents

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012

(Dollars and share information in thousands, except per share amounts)

(unaudited)

4. Fair Value Measurements (Continued)

lowest level of input that is significant to the measurement of fair value. The three levels of the hierarchy consist of the following:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

Non-Financial Assets Measured on a Non-Recurring Basis

Long-lived non-financial assets are measured at fair value on a nonrecurring basis for purposes of calculating impairment using Level 2 and Level 3 inputs as defined in the fair value hierarchy. The fair value of long-lived assets using Level 2 inputs is determined by evaluating the current economic conditions in the geographic area for similar use assets. The fair value of long-lived assets using Level 3 inputs is determined by estimating the amount and timing of net future cash flows (which are unobservable inputs) and discounting them using a risk-adjusted rate of interest (which is Level 1). The Company estimates future cash flows based on its experience and knowledge of the market in which the store is located. Significant increases or decreases in actual cash flows may result in valuation changes. During the first quarter of fiscal 2014, long-lived assets from continuing operations with a carrying value of \$17,508, primarily store assets, were written down to their fair value of \$12,907, resulting in an impairment charge of \$4,601. During the first quarter of fiscal 2013, long-lived assets with a carrying value of \$1,096, primarily store assets, were written down to their fair value of \$601, resulting in an impairment charge of \$495. If our actual future cash flows differ from our projections materially, certain stores that are either not impaired or partially impaired in the current period may be further impaired in future periods.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012****(Dollars and share information in thousands, except per share amounts)****(unaudited)****4. Fair Value Measurements (Continued)**

The following table presents fair values for those assets measured at fair value on a non-recurring basis at June 1, 2013 and June 2, 2012:

Fair Value Measurement Using				Total as of June 1, 2013
	Level 1	Level 2	Level 3	
Long-lived assets held for use	\$	\$	\$ 592	\$ 592
Long-lived assets held for sale	\$	\$ 12,315	\$	\$ 12,315
Total	\$	\$ 12,315	\$ 592	\$ 12,907

	Level 1	Level 2	Level 3	Total as of June 2, 2012
Long-lived assets held for use	\$	\$	\$ 601	\$ 601
Long-lived assets held for sale	\$	\$	\$	\$
Total	\$	\$	\$ 601	\$ 601

As of June 1, 2013 and June 2, 2012, the Company did not have any financial assets measured on a recurring basis.

Other Financial Instruments

Financial instruments other than long-term indebtedness include cash and cash equivalents, accounts receivable and accounts payable. These instruments are recorded at book value, which we believe approximate their fair values due to their short term nature.

The fair value for LIBOR-based borrowings under the Company's senior secured credit facility and first and second lien term loans are estimated based on the quoted market price of the financial instrument which is considered Level 1 of the fair value hierarchy. The fair values of substantially all of the Company's other long-term indebtedness are estimated based on quoted market prices of the financial instruments which are considered Level 1 of the fair value hierarchy. The carrying amount and estimated fair value of the Company's total long-term indebtedness was \$5,795,530 and \$6,117,849, respectively, as of June 1, 2013. There were no outstanding derivative financial instruments as of June 1, 2013 and March 2, 2013.

5. Income Taxes

The Company recorded an income tax expense of \$3,212 and an income tax benefit of \$61,729 for the thirteen week periods ended June 1, 2013 and June 2, 2012, respectively. The income tax expense or benefit is recorded net of adjustments to maintain a full valuation allowance against the Company's net deferred tax assets.

Table of Contents

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012

(Dollars and share information in thousands, except per share amounts)

(unaudited)

5. Income Taxes (Continued)

The income tax expense for the thirteen week period ended June 1, 2013 is primarily attributable to the accrual of federal, state and local taxes and adjustments to unrecognized tax benefits offset by adjustments to the valuation allowance of \$36,889.

The income tax benefit for the thirteen week period ended June 2, 2012 is primarily attributable to the recognition of previously unrecognized tax benefits resulting from the appellate settlement of the Brooks Eckerd Internal Revenue Service (IRS) Audit for the periods leading up to the acquisition which include fiscal years 2004 - 2007. This amount was offset by a reversal of the related tax indemnification asset which was recorded in selling, general and administrative expenses as this audit was related to pre-acquisition periods. The accrual of federal, state and local taxes for the thirteen week period ended June 2, 2012 included adjustments to the valuation allowance of \$27,787.

The Company is indemnified by Jean Coutu Group for certain tax liabilities incurred for all years ended up to and including June 4, 2007, related to the June 2007 Brooks Eckerd acquisition. Although the Company is indemnified by Jean Coutu Group, the Company remains the primary obligor to the tax authorities with respect to any tax liability arising for the years prior to the acquisition. Accordingly, as of June 1, 2013 and March 2, 2013 the Company had corresponding recoverable indemnification assets of \$31,323 and \$30,710 from Jean Coutu Group, respectively, included in the 'Other Assets' line of the Consolidated Balance Sheets, to reflect the indemnification for such liabilities.

The Company recognizes tax liabilities in accordance with the guidance for uncertain tax positions and management adjusts these liabilities with changes in judgment as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the tax liabilities.

Over the next 12 months, the Company believes that it is reasonably possible that the amount of unrecognized tax positions including interest and penalties could decrease tax liabilities by approximately \$31,414, which would impact the effective tax rate if the company's tax positions are sustained upon audit or the controlling statute of limitations expires. The primary driver of the decrease is contingent upon the statute of limitations expiring. The corresponding indemnification asset will reverse concurrently in selling, general and administrative expenses.

The valuation allowances as of June 1, 2013 and March 2, 2013 apply to the net deferred tax assets of the Company. The Company continues to maintain a full valuation allowance of \$2,186,785 and \$2,223,675 against net deferred tax assets at June 1, 2013 and March 2, 2013, respectively.

Table of Contents**RITE AID CORPORATION AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012****(Dollars and share information in thousands, except per share amounts)****(unaudited)****6. Intangible Assets**

The Company's intangible assets are finite-lived and amortized over their useful lives. Following is a summary of the Company's amortizable intangible assets as of June 1, 2013 and March 2, 2013.

	June 1, 2013			March 2, 2013		
	Gross Carrying Amount	Accumulated Amortization	Remaining Weighted Average Amortization Period	Gross Carrying Amount	Accumulated Amortization	Remaining Weighted Average Amortization Period
Favorable leases and other	\$ 626,019	\$ (423,564)	9 years	\$ 623,541	\$ (413,556)	10 years
Prescription files	1,294,145	(1,052,366)	4 years	1,286,087	(1,031,668)	4 years
Total	\$ 1,920,164	\$ (1,475,930)		\$ 1,909,628	\$ (1,445,224)	

Also included in other non-current liabilities, as of June 1, 2013 and March 2, 2013, are unfavorable lease intangibles with a net carrying amount of \$67,935 and \$70,195 respectively. These intangible liabilities are amortized over their remaining lease terms.

Amortization expense for these intangible assets and liabilities was \$31,685 and \$34,076 for the thirteen week periods ended June 1, 2013 and June 2, 2012, respectively. The anticipated annual amortization expense for these intangible assets and liabilities is 2014 \$106,305; 2015 \$89,363; 2016 \$78,178; 2017 \$65,147 and 2018 \$27,348.

7.7% notes due February 2027	295,000	295,000
6.875% fixed-rate senior notes due December 2028	128,000	128,000
	487,188	487,188
Lease financing obligations	116,135	115,179
Total debt	5,911,665	6,033,531
Current maturities of long-term debt and lease financing obligations	(43,401)	(37,311)
Long-term debt and lease financing obligations, less current maturities	\$ 5,868,264	\$ 5,996,220

Credit Facility

The Company has a senior secured credit facility that consists of a \$1,795,000 revolving credit facility and a \$1,161,000 senior secured term loan (the "Tranche 6 Term Loan"). Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 2.25% and LIBOR plus 2.75%, if the Company chooses to make LIBOR borrowings, or between Citibank's base rate plus 1.25% and Citibank's base rate plus 1.75% in each case based upon the amount of revolver availability as defined in the senior secured credit facility. The Company is required to pay fees between 0.375%

7. Indebtedness and Credit Agreements (Continued)

and 0.50% per annum on the daily unused amount of the revolver, depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on February 21, 2018. The Tranche 6 Term Loan matures on February 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 3.00%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 2.00%. The Tranche 6 Term Loan is subject to a 1.00% LIBOR floor per annum.

The Company's ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At June 1, 2013, the Company had \$542,000 of borrowings outstanding under the revolver and had letters of credit outstanding against the revolver of \$112,523, which resulted in additional borrowing capacity of \$1,140,477.

The senior secured credit facility contains certain restrictions on the ability of the Company and the subsidiary guarantors to accumulate cash on hand, and under certain circumstances, requires the funds in the Company's deposit accounts to be applied first to the repayment of outstanding revolving loans under the senior secured credit facility and then to be held as Collateral for the senior obligations.

The senior credit facility restricts the amount of secured and unsecured debt the Company may have outstanding in addition to borrowings under the senior secured credit facility and existing indebtedness, subject to limitations on the amount of such debt that shall mature or require scheduled payments of principal prior to May 21, 2020. The senior secured credit facility allows the Company to incur an unlimited amount of unsecured debt with a maturity beyond May 21, 2020. However, the Company's second priority secured term loan facilities and the indentures that govern the Company's secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by the Company. The Company could not incur any additional secured debt assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under the second priority secured term loan facilities and the indentures is generally governed by an interest coverage ratio test. As of June 1, 2013, we had the ability to issue additional unsecured debt under the second lien credit facility and other indentures.

The senior secured credit facility contains additional covenants which place restrictions on the incurrence of debt, the payments of dividends, sale of assets, mergers and acquisitions and the granting of liens. The credit facility has a financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150,000, the Company must maintain a minimum fixed charge coverage ratio of 1.00 to 1.00. As of June 1, 2013, the Company was in compliance with this financial covenant. The senior secured credit facility also provides for customary events of default.

The Company also has a second priority secured term loan facility, which includes a \$470,000 second priority secured term loan (the "Tranche 1 Term Loan"). The Tranche 1 Term Loan matures on August 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 4.75%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 3.75%. The Tranche 1 Term Loan is subject to a 1.00% LIBOR floor per annum.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Thirteen Week Periods Ended June 1, 2013 and June 2, 2012

(Dollars and share information in thousands, except per share amounts)

(unaudited)

7. Indebtedness and Credit Agreements (Continued)

On June 21, 2013, the Company entered into a new second priority secured term loan facility, which includes a \$500,000 second priority secured term loan (the "Tranche 2 Term Loan"). The Company used net proceeds from the Tranche 2 Term Loan, borrowings under its revolving credit facility and available cash to repurchase and repay all of the Company's outstanding \$500,000 aggregate principal of 7.5% senior secured notes due 2017. See Note 12.

Substantially all of Rite Aid Corporation's 100 percent owned subsidiaries guarantee the obligations under the senior secured credit facility, second priority secured term loan facilities, secured guaranteed notes and unsecured guaranteed notes. The senior secured credit facility, second priority secured term loan facilities and secured guaranteed notes are secured, on a senior or second priority basis, as applicable, by a lien on, among other things, accounts receivable, inventory and prescription files of the subsidiary guarantors. The subsidiary guarantees related to the Company's senior secured credit facility, second priority secured term loan facilities and secured guaranteed notes and, on an unsecured basis, the unsecured guaranteed notes are full and unconditional and joint and several, and there are no restrictions on the ability of the Company to obtain funds from its subsidiaries. Also, the Company has no independent assets or operations, and subsidiaries not guaranteeing the credit facility, second priority secured term loan facilities and applicable notes are minor. Accordingly, condensed consolidating financial information for the Company and subsidiaries is not presented.

Other Transactions

On July 2, 2013, the Company issued \$810,000 of its 6.75% senior notes due 2021. The Company intends to use the net proceeds from the 6.75% notes, borrowings under its revolving credit facility and available cash to repurchase and repay all of the Company's outstanding \$810,000 aggregate principal of 9.5% senior notes due 2017. See Note 12.

Maturities

The aggregate annual principal payments of long-term debt for the remainder of fiscal 2014 and thereafter are as follows: 2014 \$13,975; 2015 \$11,610; 2016 \$75,798; 2017 \$511,610; 2018 \$1,363,610 and \$3,820,852 thereafter.

10. Commitments and Contingencies

Legal Matters

The Company is a party to legal proceedings, investigations and claims in the ordinary course of its business, including the matters described below. The Company records accruals for outstanding legal matters when it believes it is probable that a loss will be incurred and the amount can be reasonably estimated. The Company evaluates, on a quarterly basis, developments in legal matters that could affect the amount of any accrual and developments that would make a loss contingency both probable and reasonably estimable. If a loss contingency is not both probable and estimable, the Company does not establish an accrued liability.

The Company's contingencies are subject to significant uncertainties, including, among other factors: (i) proceedings are in early stages; (ii) whether class or collective action status is sought and the likelihood of a class being certified; (iii) the outcome of pending appeals or motions; (iv) the extent of potential damages, fines or penalties, which are often unspecified or indeterminate; (v) the impact of discovery on the matter; (vi) whether novel or unsettled legal theories are at issue; (vii) there are significant factual issues to be resolved; and/or (viii) in the case of certain government agency investigations, whether a sealed qui tam lawsuit ("whistleblower" action) has been filed and whether the government agency makes a decision to intervene in the lawsuit following investigation.

The Company has been named in a collective and class action lawsuit, *Indergit v. Rite Aid Corporation et al* pending in the United States District Court for the Southern District of New York, filed purportedly on behalf of current and former store managers working in the Company's stores at various locations around the country. The lawsuit alleges that the Company failed to pay overtime to store managers as required under the FLSA and under certain New York state statutes. The lawsuit also seeks other relief, including liquidated damages, punitive damages, attorneys' fees, costs and injunctive relief arising out of state and federal claims for overtime pay. On April 2, 2010, the Court conditionally certified a nationwide collective group of individuals who worked for the Company as store managers since March 31, 2007. The Court ordered that Notice of the *Indergit* action be sent to the purported members of the collective group (approximately 7,000 current and former store managers) and approximately 1,550 joined the *Indergit* action. Discovery as to certification issues has been completed. The parties have fully briefed the issues of Rule 23 class certification of the New York store manager claims and decertification of the nationwide collective action claims and are awaiting a ruling from the Court. At this time, the Company is not able to either predict the outcome of this lawsuit or estimate a potential range of loss with respect to the lawsuit. The Company's management believes, however, that this lawsuit is without merit and not appropriate for collective or class action treatment and is vigorously defending this lawsuit.

The Company is currently a defendant in several putative class action lawsuits filed in state courts in California alleging violations of California wage and hour laws, rules and regulations pertaining primarily to failure to pay overtime, pay for missed meals and rest periods and failure to provide employee seating. These suits purport to be class actions and seek substantial damages. At this time, the Company is not able to either predict the outcome of these lawsuits or estimate a potential range of loss with respect to the lawsuits. The Company's management believes, however, that the plaintiffs'

(unaudited)

10. Commitments and Contingencies (Continued)

allegations are without merit and that their claims are not appropriate for class action treatment. The Company is vigorously defending all of these claims.

The Company was served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG and the United States Attorney's Office for the Central District of California. The subpoena requests records related to any gift card inducement programs for customers who transferred prescriptions for drugs or medicines to the Company's pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. The Company has substantially completed its production of records in response to the subpoena. In June 2013, the government contacted the Company, and the Company is involved in ongoing discussions with the government regarding the matter.

The Company received a subpoena dated May 9, 2011 from certain California counties seeking information regarding compliance with environmental regulations governing the management of hazardous waste. The Company has responded to the subpoena, is cooperating with California regulators, and continues to review its operations pertaining to the management of hazardous materials. The Company is in discussions with the California regulators and has recorded an estimated amount to settle these matters.

The Company was served with a Civil Investigative Demand Subpoena Duces Tecum dated August 26, 2011 by the United States Attorney's Office for the Eastern District of Michigan. The subpoena requests records regarding Rite Aid's Rx Savings Program and the reporting of usual and customary charges to publicly funded health programs. In connection with the same investigation, the Company was served with a Civil Subpoena Duces Tecum dated February 22, 2013 by the State of Indiana Office of the Attorney General. The Company is completing its response to both of the subpoenas and is unable to predict the timing or outcome of any review by the government of such information.

In April 2012, the Company received an administrative subpoena from the Drug Enforcement Administration ("DEA"), Albany, New York District Office, requesting information regarding the Company's sale of products containing pseudoephedrine ("PSE"). In April 2012, it also received a communication from the United States Attorneys Office for the Northern District of New York ("USAO") concerning an investigation of possible civil violations of the Combat Methamphetamine Epidemic Act of 2005 ("CMEA"). In April 2013, the Company received additional administrative subpoenas from DEA concerning certain retail PSE transactions at New York stores and the USAO commenced discussions with the Company regarding whether, from 2009 (upon implementation of an electronic PSE transaction logbook system) through the present, the Company sold products containing PSE in violation of the CMEA. Violations of the CMEA could result in the imposition of administrative, civil and/or criminal penalties against the Company. The Company is cooperating with the government and has provided information responsive to the subpoenas. The Company cannot predict the timing or outcome of any review by the DEA or USAO of such information.

(Dollars and share information in thousands, except per share amounts)

(unaudited)

10. Commitments and Contingencies (Continued)

In addition to the above described matters, the Company is subject from time to time to various claims and lawsuits and governmental investigations arising in the ordinary course of our business. While the Company's management cannot predict the outcome of any of the claims, the Company's management does not believe that the outcome of any of these legal matters will be material to the Company's consolidated financial position. It is possible, however, that the Company's results of operations or cash flows in a particular fiscal period could be materially affected by an unfavorable resolution of pending litigation or contingencies.

Contingencies

The California Department of Health Care Services ("DHCS"), the agency responsible for administering the State of California Medicaid program, implemented retroactive reimbursement rate reductions effective June 1, 2011, impacting the medical provider community in California, including pharmacies. Numerous medical providers, including representatives of both chain and independent pharmacies, filed suits against DHCS in federal district court in California and obtained preliminary injunctions against the rate cuts, subject to a trial on the merits. DHCS appealed the preliminary injunctions to the Ninth Circuit Court of Appeals, which Court vacated the injunctions. The numerous medical providers are considering their options. Based upon the actions of DHCS and the decision of the appeals court, the Company has recorded an appropriate accrual. As pertinent facts and circumstances develop, this accrual may be adjusted.

11. Related Party Transactions

As of June 1, 2013, the Jean Coutu Group owned 105,901,162 shares (11.3% of the voting power of the Company) of common stock. On June 26, 2013, the Jean Coutu Group announced that it had sold 40,500,000 of its 105,901,162 shares of Rite Aid's common stock and now owns approximately 6.9% of the voting power of the Company. At this level of ownership, the Jean Coutu Group (and, subject to certain conditions, certain members of the Coutu family) has the right to designate one of the eight members of the Company's board of directors, subject to adjustment for future reductions in its ownership position in the Company.

12. Subsequent Events

On June 21, 2013, the Company entered into a new second priority secured term loan facility, which includes the Tranche 2 Term Loan. The Tranche 2 Term Loan matures on June 21, 2021 and currently bears interest at a rate per annum equal to LIBOR plus 3.875% with a LIBOR floor of 1.00%, if the Company chooses to make LIBOR borrowings, or at Citibank's base rate plus 2.875%. The Company used the net proceeds from the Tranche 2 Term Loan, borrowings under its revolving credit facility and available cash to repurchase and repay all of the Company's outstanding \$500,000 aggregate principal of 7.5% senior secured notes due 2017.

On July 2, 2013, the Company issued \$810,000 of its 6.75% senior notes due 2021. The Company's obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an

unsubordinated basis, by all of its subsidiaries that guarantee the Company's obligations under the senior secured credit facility, the second priority secured term loan facilities and the outstanding 8.00% senior secured notes due 2020, 10.25% senior secured notes due 2019, 9.5% senior notes due 2017 and 9.25% senior notes due 2020. The Company intends to use the net proceeds of the 6.75% notes, borrowings under its revolving credit facility and/or available cash to repurchase and repay all of the Company's outstanding \$810,000 aggregate principal of 9.5% senior notes due 2017.

In connection with these refinancing transactions, the Company will record a loss on debt retirement, including tender and call premium and interest, unamortized debt issue costs and unamortized discount of approximately \$63,000 during the second quarter of fiscal 2014.

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Overview**

Net income for the thirteen week period ended June 1, 2013 was \$89.7 million compared to the net loss of \$28.1 million for the thirteen week period ended June 2, 2012. The improvement in our operating results is driven primarily by higher gross profit from generic drug introductions, lower selling, general and administrative expenses ("SG&A"), as well as lower interest expense and loss on debt retirements, partially offset by higher income tax expense.

Remodeled stores	108	143

Revenues

Revenue decreased 2.7% for the thirteen week period ended June 1, 2013 compared to the thirteen week period ended June 2, 2012, primarily driven by a decrease in same store sales and by operating 37 fewer stores than in the same period last year. The decrease in same store sales was driven by a decrease in pharmacy sales, which was primarily driven by generic drug introductions, which have a substantially lower selling price than their brand counterparts, and continued reimbursement rate pressures.

Pharmacy same store sales decreased by 3.8% in the thirteen week period ended June 1, 2013 compared to the thirteen week period ended June 2, 2012. The decrease was primarily driven by an approximate 4.6% negative impact from generic drug introductions and continued lower reimbursement rates from pharmacy benefit managers and government payors. Same store prescription count for the thirteen week period ended June 1, 2013 was flat compared to the thirteen week period ended June 2, 2012. We expect recent and future generic drug introductions and lower reimbursement rates to continue to have additional negative impact on our revenues.

Front-end same store sales increased by 0.4% in the thirteen week period ended June 1, 2013 compared to the thirteen week period ended June 2, 2012 reflecting the continued positive impact from

Edgar Filing: RITE AID CORP - Form 10-Q

Table of Contents

our wellness+ loyalty program, incremental sales from our Wellness format stores and other initiatives to increase sales in the front end. We have completed 905 Wellness store remodels as of June 1, 2013.

We include in same store sales all stores that have been open at least one year. Stores in liquidation are considered closed. Relocation stores are not included in the same store sales until one year has lapsed.

Costs and Expenses

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
	(dollars in thousands)	
Cost of goods sold	\$ 4,472,066	\$ 4,719,516
Gross profit	1,820,991	1,748,771
Gross margin	28.9%	27.0%
Selling, general and administrative expenses	1,609,261	1,688,066
Selling, general and administrative expenses as a percentage of revenues	25.6%	26.1%
Lease termination and impairment charges	10,972	12,143
Interest expense	113,064	130,588

Cost of Goods Sold

Gross profit increased \$72.2 million due to increases in both pharmacy and front-end gross profit. Pharmacy gross profit was higher due to the continued benefit of generic drug introductions and increases in generic penetration, partially offset by continued pressure on pharmacy benefit manager and governmental reimbursement rates. Front-end gross profit was higher due to higher same store sales reflecting the continued positive impact of our wellness+ loyalty program and Wellness Store remodels. Front-end gross profit was also positively impacted by higher vendor promotional funding and a lower LIFO estimate.

Gross margin was 28.9% of sales for the thirteen week period ended June 1, 2013 compared to 27.0% of sales for the thirteen week period ended June 2, 2012. The improvement in gross margin was primarily due to cost reductions on existing generic drugs and generic drug introductions, higher vendor promotional funding and a lower LIFO estimate, partially offset by increased tier discounts from our wellness+ customer loyalty program and continued pressure on pharmacy benefit manager and governmental reimbursement rates.

We use the last-in, first-out (LIFO) method of inventory valuation, which is estimated on a quarterly basis and is finalized at year end when inflation rates and inventory levels are final. Therefore, LIFO costs for interim period financial statements are estimated. The LIFO charges were \$12.0 million for the thirteen week period ended June 1, 2013 compared to LIFO charges of \$18.8 million for the thirteen week period ended June 2, 2012.

Selling, General and Administrative Expenses

SG&A as a percentage of revenues was 25.6% in the thirteen week period ended June 1, 2013 compared to 26.1% in the thirteen week period ended June 2, 2012. The decrease in SG&A as a percentage of revenues was due primarily to the prior year reversal of \$60.2 million of tax indemnification asset resulting from our settlement with the Internal Revenue Service associated with a pre-acquisition Brooks Eckerd tax audit, which is completely offset by an income tax benefit as noted below, and higher prior year litigation charges relating to the \$20.9 million settlement of certain wage and hour class actions. These favorable variances are partially offset by increased salaries and benefit costs for wage increases and investments to support our sales initiatives. These amounts are partially

Table of Contents

offset by lower depreciation and amortization. SG&A improved this quarter compared to the prior year due to the tax indemnification asset reversal discussed above, however, we expect to see continued SG&A increases as a percentage of revenues relative to the prior year due to the continued impact of generic drug introductions and reimbursement rate pressures on our pharmacy sales.

Lease termination and Impairment Charges

Lease termination and impairment charges consist of amounts as follows:

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
Impairment charges	\$ 4,601	\$ 495
Lease termination charges	6,371	11,648
	\$ 10,972	\$ 12,143

Impairment Charges: These amounts include the write-down of long-lived assets at locations that were assessed for impairment because of management's intention to relocate or close the location, or because of changes in circumstances that indicated the carrying value of an asset may not be recoverable.

Please refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations Impairment Charges" included in our fiscal 2013 10-K for a detailed description of our impairment methodology.

Lease Termination Charges: Charges to close a store, which principally consist of continuing lease obligations, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in ASC 420, "Exit or Disposal Cost Obligations." We calculate our liability for closed stores on a store-by-store basis. The calculation includes the discounted effect of future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting properties or through favorable lease terminations. We evaluate these assumptions each quarter and adjust the liability accordingly. As part of our ongoing business activities, we assess stores and distribution centers for potential closure and relocation. Decisions to close or relocate stores or distribution centers in future periods would result in charges for lease exit costs and liquidation of inventory, as well as impairment of assets at these locations.

Interest Expense

Interest expense was \$113.1 million for the thirteen week period ended June 1, 2013, compared to \$130.6 million for the thirteen week period ended June 2, 2012. The weighted average interest rates on our indebtedness for the thirteen week periods ended June 1, 2013 and June 2, 2012 were 7.1% and 7.4% respectively.

Income Taxes

We recorded an income tax expense of \$3.2 million and an income tax benefit of \$61.7 million for the thirteen week periods ended June 1, 2013 and June 2, 2012, respectively. The income tax expense or benefit is recorded net of adjustments to maintain a full valuation allowance against our net deferred tax assets.

Table of Contents

The income tax expense for the thirteen week period ended June 1, 2013 is primarily attributable to the accrual of federal, state and local taxes and adjustments to unrecognized tax benefits offset by adjustments to the valuation allowance of \$36.9 million.

The income tax benefit for the thirteen week period ended June 2, 2012 is primarily attributable to the recognition of previously unrecognized tax benefits resulting from reaching an agreement with the IRS Appellate Division settling the examination of the Brooks Eckerd fiscal years 2004-2007. The settlement with the IRS did not impact our net financial position, results of operations or cash flows. Furthermore, the settlement resulted in the resolution of tax contingencies associated with these tax years which had impacted the effective rate by decreasing tax expense in the first quarter by \$61.5 million. This amount is offset by a reversal of the related tax indemnification asset which was recorded in selling, general and administrative expenses. The accrual of federal, state and local taxes for the thirteen week period ended June 2, 2012 included adjustments to the valuation allowance of \$27.8 million.

We recognize tax liabilities in accordance with the guidance for uncertain tax positions and management adjusts these liabilities with changes in judgment as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the tax liabilities.

Over the next 12 months, we believe that it is reasonably possible that the amount of unrecognized tax positions including interest and penalties could decrease tax liabilities by approximately \$31.4 million which would impact the effective tax rate if our tax positions are sustained upon audit or the controlling statute of limitations expires. The primary driver of the decrease is contingent upon the statute of limitations expiring. The corresponding indemnification asset will reverse concurrently in selling, general and administrative expenses.

We evaluate our deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, we are precluded from relying on projections of future taxable income to support the recognition of deferred tax assets. The ultimate realization of deferred tax assets is dependent upon the existence of sufficient taxable income generated in the carryforward periods.

Liquidity and Capital Resources

General

We have two primary sources of liquidity: (i) cash provided by operating activities and (ii) borrowings under the revolving credit facility of our senior secured credit facility. Our principal uses of cash are to provide working capital for operations, to service our obligations to pay interest and principal on debt and to fund capital expenditures. Total liquidity as of June 1, 2013 was \$1,141.8 million, which consisted of revolver borrowing capacity of \$1,140.5 million and invested cash of \$1.3 million.

Credit Facility

Our senior secured credit facility consists of a \$1.795 billion revolving credit facility and a \$1.161 billion Tranche 6 Term Loan. Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 2.25% and LIBOR plus 2.75%, if we choose to make LIBOR borrowings, or between Citibank's base rate plus 1.25% and Citibank's base rate plus 1.75% in each case based upon the amount of revolver availability as defined in the senior secured credit facility. We are required to pay fees between 0.375% and 0.50% per annum on the daily unused amount of the

Table of Contents

revolver, depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on February 21, 2018.

Our ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At June 1, 2013, we had \$542.0 million of borrowings outstanding under the revolver and had letters of credit outstanding against the revolver of \$112.5 million, which resulted in additional borrowing capacity of \$1,140.5 million.

The credit facility also includes our \$1.161 billion senior secured term loan (the "Tranche 6 Term Loan"). The Tranche 6 Term Loan matures on February 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 3.00% with a LIBOR floor of 1.00%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 2.00%. We must make mandatory prepayments of the Tranche 6 Term Loan with the proceeds of certain asset dispositions and casualty events (subject to certain limitations), and with the proceeds of certain issuances of debt (subject to certain exceptions). If at any time there is a shortfall in our borrowing base under our senior secured credit facility, prepayment of the Tranche 6 Term Loan may also be required.

The senior secured credit facility restricts us and the subsidiary guarantors from accumulating cash on hand in excess of \$200.0 million at any time when revolving loans are outstanding (not including cash located in our store deposit accounts, cash necessary to cover our current liabilities and certain other exceptions) and from accumulating cash on hand with revolver borrowings in excess of \$100.0 million over three consecutive business days. The senior secured credit facility also states that if at any time (other than following the exercise of remedies or acceleration of any senior obligations or second priority debt and receipt of a triggering notice by the senior collateral agent from a representative of the senior obligations or the second priority debt) either (a) an event of default exists under our senior secured credit facility or (b) the sum of revolver availability under our senior secured credit facility and certain amounts held on deposit with the senior collateral agent in a concentration account is less than \$100.0 million for three consecutive business days (a "cash sweep period"), the funds in our deposit accounts will be swept to a concentration account with the senior collateral agent and will be applied first to repay outstanding revolving loans under the senior secured credit facility, and then held as collateral for the senior obligations until such cash sweep period is rescinded pursuant to the terms of our senior secured credit facility.

The senior secured credit facility allows us to have outstanding, at any time, up to \$1.5 billion in secured second priority debt and unsecured debt in addition to borrowings under the senior secured credit facility and existing indebtedness, provided that not in excess of \$750.0 million of such secured second priority debt and unsecured debt shall mature or require scheduled payments of principal prior to May 21, 2020. The senior secured credit facility allows us to incur an unlimited amount of unsecured debt with a maturity beyond May 21, 2020; however, other outstanding indebtedness limits the amount of unsecured debt that can be incurred if certain interest coverage levels are not met at the time of incurrence of said debt or other exemptions are not available. The senior secured credit facility also contains certain restrictions on the amount of secured first priority debt we are able to incur. The senior secured facility also allows, so long as the senior secured credit facility is not in default and we maintain availability on the revolving credit facility of more than \$100.0 million, for the voluntary repurchase of any debt and the mandatory repurchase of our 8.5% convertible notes due 2015.

Our senior secured credit facility contains covenants which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, sale of assets, mergers and acquisitions and the granting of liens. Our credit facility also has one financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, we maintain a minimum fixed charge coverage ratio of 1.00 to 1.00. As of June 1, 2013, we were in compliance with this financial covenant.

Edgar Filing: RITE AID CORP - Form 10-Q

Table of Contents

The senior secured credit facility provides for customary events of default including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if we fail to make any required payment on debt having a principal amount in excess of \$50.0 million or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity or require the repurchase of such debt. The mandatory repurchase of the 8.5% convertible notes due 2015 is excluded from this event of default.

On February 21, 2013, we entered into a second priority secured term loan facility, which includes a \$470.0 million second priority secured term loan (the "Tranche 1 Term Loan"). The Tranche 1 Term Loan matures on August 21, 2020 and currently bears interest at a rate per annum equal to LIBOR plus 4.75% with a LIBOR floor of 1.00%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 3.75%.

The second priority secured term loan facilities and the indentures that govern our secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by us. As of June 1, 2013, the amount of additional secured debt that could be incurred under the second priority secured term loan facilities and these indentures was approximately \$1.227 billion (which amount does not include the ability to enter into certain sale and leaseback transactions). However, we currently cannot incur any additional secured debt assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under these indentures is generally governed by an interest coverage ratio test. As of June 1, 2013, we had the ability to issue additional unsecured debt under the second lien credit facility and other indentures.

Other Transactions

On June 21, 2013, we entered into a new second priority secured term loan facility, which includes a \$500.0 million second priority secured term loan (the "Tranche 2 Term Loan"). The Tranche 2 Term Loan matures on June 21, 2021 and currently bears interest at a rate per annum equal to LIBOR plus 3.875% with a LIBOR floor of 1.00%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 2.875%. In June 2013, we used the net proceeds from the Tranche 2 Term Loan, borrowings under our revolving credit facility and available cash to repurchase and repay all of our outstanding \$500.0 million aggregate principal of 7.5% senior secured notes due 2017.

On July 2, 2013, we issued \$810.0 million of our 6.75% senior notes due 2021. Our obligations under the notes are fully and unconditionally guaranteed, jointly and severally, on an unsubordinated basis, by all of our subsidiaries that guarantee our obligations under our senior secured credit facility, our second priority secured term loan facilities and our outstanding 8.00% senior secured notes due 2020, 10.25% senior secured notes due 2019, 9.5% senior notes due 2017 and 9.25% senior notes due 2020. We intend to use the net proceeds of the 6.75% notes, borrowings under our revolving credit facility and/or available cash to repurchase and repay all of our outstanding \$810.0 million aggregate principal of 9.5% senior notes due 2017 pursuant to a tender offer and redemption of any remaining 9.5% notes.

In connection with these refinancing transactions, we will record a loss on debt retirement, including tender and call premium and interest, unamortized debt issue costs and unamortized discount of \$63.0 million during the second quarter of fiscal 2014.

Table of Contents

Net Cash Provided by/Used in Operating, Investing and Financing Activities

Cash provided by operating activities was \$184.4 million in the thirteen week period ended June 1, 2013. Operating cash flow was positively impacted by net income and a reduction in accounts receivable relating to the timing of payments from third party payors, partially offset by a use of cash in other assets and liabilities, net, primarily due to reductions of payroll related accruals and vendor revenue deferrals.

Cash used in investing activities in the thirteen week period ended June 1, 2013 was \$82.1 million. Cash used for the purchase of property, plant, equipment and prescription files as well as proceeds from the sale of assets were higher compared to the prior year.

Cash used in financing activities was \$122.9 million for the thirteen week period ended June 1, 2013 due to the reduction of borrowings on our revolving credit facility.

Capital Expenditures

During the thirteen week period ended June 1, 2013, we spent \$92.7 million on capital expenditures, consisting of \$50.6 million related to new store construction, store relocation and store remodel projects, \$30.3 million related to technology enhancements, improvements to distribution centers and other corporate requirements, and \$11.8 million related to the purchase of prescription files from other retail pharmacies. We plan on making total capital expenditures of approximately \$400.0 million during fiscal 2014, consisting of approximately 55% related to store relocations and remodels and new store construction, 29% related to infrastructure and maintenance requirements and 16% related to prescription file purchases. Management expects that these capital expenditures will be financed primarily with cash flow from operating activities.

Future Liquidity

We are highly leveraged. Our high level of indebtedness could: (i) limit our ability to obtain additional financing; (ii) limit our flexibility in planning for, or reacting to, changes in our business and the industry; (iii) place us at a competitive disadvantage relative to our competitors with less debt; (iv) render us more vulnerable to general adverse economic and industry conditions; and (v) require us to dedicate a substantial portion of our cash flow to service our debt. Based upon our current levels of operations, we believe that cash flow from operations together with available borrowings under the senior secured credit facility and other sources of liquidity will be adequate to meet our requirements for working capital, debt service and capital expenditures at least for the next twelve months. Based on our liquidity position, which we expect to remain strong throughout the year, we do not expect the restriction on our credit facility, that could result if we fail to meet the fixed charge covenant in our senior secured credit facility, to impact our business in the next twelve months. We will continue to assess our liquidity position and potential sources of supplemental liquidity in light of our operating performance, and other relevant circumstances. Although it is not likely, should we determine, at any time, that it is necessary to obtain additional short-term liquidity, we will evaluate our alternatives and take appropriate steps to obtain sufficient additional funds. There can be no assurance that any such supplemental funding, if sought, could be obtained or if obtained, would be on terms acceptable to us. From time to time, we may seek deleveraging transactions, including entering into transactions to exchange debt for shares of common stock, issuance of equity (including preferred stock and convertible securities), repurchase outstanding indebtedness, or seek to refinance our outstanding debt or may otherwise seek transactions to reduce interest expense and extend debt maturities. Any of these transactions could impact our financial results.

Critical Accounting Policies and Estimates

For a description of the critical accounting policies that require the use of significant judgments and estimates by management, refer to "Management's Discussion and Analysis of Financial Condition

Edgar Filing: RITE AID CORP - Form 10-Q

Table of Contents

and Results of Operations Critical Accounting Policies and Estimates" included in our Fiscal 2013 10-K.

Factors Affecting Our Future Prospects

For a discussion of risks related to our financial condition, operations and industry, refer to "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Fiscal 2013 10-K.

Adjusted EBITDA and Other Non-GAAP Measures

In addition to net income determined in accordance with GAAP, we use certain non-GAAP measures, such as "Adjusted EBITDA", in assessing our operating performance. We believe the non-GAAP metrics serve as an appropriate measure to be used in evaluating the performance of our business. We define Adjusted EBITDA as net income (loss) excluding the impact of income taxes (and any corresponding adjustments to tax indemnification asset), interest expense, depreciation and amortization, LIFO adjustments, charges or credits for facility closing and impairment, inventory write-downs related to store closings, stock- based compensation expense, debt retirements, sale of assets and investments, revenue deferrals related to customer loyalty program and other items. We reference this particular non-GAAP financial measure frequently in our decision-making because it provides supplemental information that facilitates internal comparisons to the historical operating performance of prior periods and external comparisons to competitors' historical operating performance. In addition, incentive compensation is based on Adjusted EBITDA and we base certain of our forward- looking estimates on Adjusted EBITDA to facilitate quantification of planned business activities and enhance subsequent follow-up with comparisons of actual to planned Adjusted EBITDA.

The following is a reconciliation of Adjusted EBITDA to our net income (loss) for the thirteen week periods ended June 1, 2013 and June 2, 2012:

	Thirteen Week Period Ended	
	June 1, 2013	June 2, 2012
	(dollars in thousands)	
Net income (loss)	\$ 89,662	\$ (28,088)
Interest expense	113,064	130,588
Income tax (benefit) expense	3,212	(61,729)
Adjustments to tax indemnification asset(1)	(613)	60,237
Depreciation and amortization expense	101,246	106,371
LIFO charges	12,000	18,750
Lease termination and impairment charges	10,972	12,143
Stock-based compensation expense	4,240	3,958
Gain on sale of assets, net	(5,180)	(10,051)
Loss on debt retirements, net		17,842
Closed facility liquidation expense	939	1,456
Customer loyalty card program revenue deferral	14,602	23,180
Other	634	(492)
 Adjusted EBITDA	 \$ 344,778	 \$ 274,165

(1)

Note: The income tax benefit from the IRS settlement described in Note 5 in our condensed consolidated financial statements and the corresponding reduction of the tax indemnification asset had no net effect on Adjusted EBITDA.

Table of Contents

In addition to Adjusted EBITDA, we occasionally refer to several other Non-GAAP measures, on a less frequent basis, in order to describe certain components of our business and how we utilize them to describe our results. These measures include but are not limited to Adjusted EBITDA Gross Margin and Gross Profit (gross margin/gross profit excluding non-Adjusted EBITDA items), Adjusted EBITDA SG&A (SG&A expenses excluding non-Adjusted EBITDA items), FIFO Gross Margin (gross margin before LIFO charges) and Free Cash Flow (Adjusted EBITDA less cash paid for interest, rent on closed stores, capital expenditures and the change in working capital).

We include these non-GAAP financial measures in our earnings announcements and guidance in order to provide transparency to our investors and enable investors to better compare our operating performance with the operating performance of our competitors including with those of our competitors having different capital structures. Adjusted EBITDA or other non-GAAP measures should not be considered in isolation from, and are not intended to represent an alternative measure of, operating results or of cash flows from operating activities, as determined in accordance with GAAP. Our definition of these non-GAAP measures may not be comparable to similarly titled measurements reported by other companies.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our future earnings, cash flow and fair values relevant to financial instruments are dependent upon prevalent market rates. Market risk is the risk of loss from adverse changes in market prices and interest rates. Our major market risk exposure is changing interest rates. Increases in interest rates would increase our interest expense. We enter into debt obligations to support capital expenditures, acquisitions, working capital needs and general corporate purposes. Our policy is to manage interest rates through the use of a combination of variable-rate credit facilities, fixed-rate long-term obligations and derivative transactions. We currently do not have any derivative transactions outstanding.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. The table presents principal payments and the related weighted average interest rates by expected maturity dates as of June 1, 2013.

Fiscal Year	2014	2015	2016	2017	2018	Thereafter	Total	Fair Value at June 1, 2013
(Dollars in thousands)								
Long-term debt, including current portion, excluding capital lease obligations								
Fixed Rate	\$ 5,267	\$	\$ 64,188	\$ 500,000	\$ 810,000	\$ 2,245,000	\$ 3,624,455	\$ 3,937,563
Average Interest Rate	1.20%	0.0%	8.50%	7.50%	9.50%	8.67%	8.68%	
Variable Rate	\$ 8,708	\$ 11,610	\$ 11,610	\$ 11,610	\$ 553,610	\$ 1,575,852	\$ 2,173,000	\$ 2,180,286
Average Interest Rate	4.00%	4.00%	4.00%	4.00%	2.91%	4.52%	4.10%	

Our ability to satisfy interest payment obligations on our outstanding debt will depend largely on our future performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control. If we do not have sufficient cash flow to service our interest payment obligations on our outstanding indebtedness and if we cannot borrow or obtain equity financing to satisfy those obligations, our business and results of operations could be materially adversely affected. We cannot be assured that any replacement borrowing or equity financing could be successfully completed.

The interest rate on our variable rate borrowings, which include our revolving credit facility, our Tranche 6 Term Loan, our Tranche 1 Term Loan and our Tranche 2 Term Loan, are all based on LIBOR. However, the interest rate on our Tranche 6 Term Loan, Tranche 1 Term Loan and Tranche 2 Term Loan have a LIBOR floor of 100 basis points. If the market rates of interest for LIBOR changed by 100 basis points as of June 1, 2013, our annual interest expense would change by approximately \$9.1 million.

Table of Contents

A change in interest rates does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures. Increases in interest rates would also impact our ability to refinance existing maturities on favorable terms.

ITEM 4. Controls and Procedures

(a) Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

(b) Changes in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

Certain legal proceedings in which we are involved are discussed in Part I, Item 3 of our Annual Report on Form 10-K (the "10-K") for the year ended March 2, 2013. The following discussion is limited to certain recent developments concerning our legal proceedings and should be read in conjunction with the 10-K.

We were served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG and the United States Attorney's Office for the Central District of California. The subpoena requests records related to any gift card inducement programs for customers who transferred prescriptions for drugs or medicines to our pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. We have substantially completed our production of records in response to the subpoena. In June 2013, the government contacted us, and we are involved in ongoing discussions with the government regarding the matter.

In April 2012, we received an administrative subpoena from the Drug Enforcement Administration ("DEA"), Albany, New York District Office, requesting information regarding our sale of products containing pseudoephedrine ("PSE"). In April 2012, we also received a communication from the United States Attorneys Office for the Northern District of New York ("USAO") concerning an investigation of possible civil violations of the Combat Methamphetamine Epidemic Act of 2005 ("CMEA"). In April 2013, we received additional administrative subpoenas from DEA concerning certain retail PSE transactions at New York stores and the USAO commenced discussions with us regarding whether, from 2009 (upon implementation of an electronic PSE transaction logbook system) through the present, we sold products containing PSE in violation of the CMEA. Violations of the CMEA could result in the imposition of administrative, civil and/or criminal penalties against us. We are cooperating with the government and have provided information responsive to the subpoenas. We cannot predict the timing or outcome of any review by the DEA or USAO of such information.

ITEM 1A. Risk Factors

In addition to the information set forth in this Quarterly Report, you should carefully consider the factors discussed in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended March 2, 2013, and in Exhibit 99.2 to our Current Report on Form 8-K, filed on June 18, 2013, under the heading "Risk Factors," which could materially affect our business, financial condition or future results.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

ITEM 3. Defaults Upon Senior Securities

Not applicable.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

Not applicable.

Table of Contents**ITEM 6. Exhibits**
