(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended **December 31, 2014**

or

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number **001-33997**

KANDI TECHNOLOGIES GROUP, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation
or organization)

90-0363723

(I.R.S. Employer Identification No.)

Jinhua City Industrial Zone

Jinhua, Zhejiang Province

People's Republic of China

Post Code 321016

(Address of principal executive offices) (Zip Code)

(86-579) 82239856

(Registrant's telephone number, including area code)

Securities Registered Pursuant to Section 12(b) of the Act:

Common Stock, Par Value \$0.001 Per Share

(Title of each class)

NASDAQ Global Select Market

(Name of exchange on which registered)

Securities Registered Pursuant to Section 12(g) of the Act: **None.**

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

The aggregate market value of voting common stock held by non-affiliates of the registrant as of June 30, 2014, the last business day of the registrant's second fiscal quarter, was approximately \$400,034,259.

The number of shares of common stock outstanding as of March 9, 2015 was 46,284,855.

DOCUMENTS INCORPORATED BY REFERENCE:

None.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K (this Annual Report) contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These include statements about our expectations, beliefs, intentions or strategies for the future, which we indicate by words or phrases such as anticipate, expect, intend, plan, will, we believe, ou believes, management believes and similar language. These forward-looking statements are based on our current expectations and are subject to certain risks, uncertainties and assumptions, including those set forth in the discussion under Item 1, Business , Item 1A, Risk Factors and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations. Our actual results may differ materially from results anticipated in these forward-looking statements. We base our forward-looking statements on information currently available to us, and we assume no obligation to update them. In addition, our historical financial performance is not necessarily indicative of the results that may be expected in the future and we believe such comparisons cannot be relied upon as indicators of future performance.

Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

PART I

Except as otherwise indicated by the context, references in this Annual Report to we, us, our, Kandi, or the Company are to the combined businesses of Kandi Technologies Group, Inc. and its subsidiaries.

Item 1. Business Introduction

Our Core Business

Before the year 2013, the Company had been mainly engaged in the design, production and distribution of the off-road vehicle products. Due to various market factors and the environment with positive government supports, starting from the year 2013, the Company gradually shifted its main focus towards the development on pure electric vehicles (which we refer to as “EVs” in this report). For the year ended December 31, 2014, the majority of the Company’s revenue and profit were generated from EV parts and EV products.

The Market for Electric Vehicles

Business Environment and Policy

Research and development of major EV technology projects in China began in 2001. Driven by two central government five-year plans for scientific and technological research as well as by the Olympics, World Expo and the 1000 cars in 10 cities demonstration platform, the Chinese electric automobile sector was officially born, which brings a positive basis for EV business.

With the growing consumer demand for motor vehicles in China many cities are experiencing severe problems from environmental pollution. At the same time, with the lack of the efficient traffic planning, major Chinese cities are crippled by traffic congestion. Thus, major cities, such as Beijing, Shanghai, Guangzhou, Hangzhou, have begun to implement various policies restricting the purchase and usage of traditional cars. We expect that more cities will have no choices but to adopt similar policies in the future.

To improve the environment of the urban areas, the China Central Government, along with many municipalities, has been introducing numerous supporting policies that encouraged the usage and adoption of EVs, including subsidies, tax exemptions, special treatment of tag and license. Among these policies, the most significant development involved the availability of subsidies from central and local government for the sale of EVs. The process of receiving government subsidies is as follows: manufacturers receive central government subsidies through application and sell the EVs to local dealers at a discounted price, reflecting the deduction of the central government subsidy from the normal sale price. Local dealers then establish their retail price based upon the prevailing purchase price from the manufacturers, then deduct the local government subsidy from the retail price before selling the EVs to consumers. Through these steps, consumers receive both subsidies from the central and local governments when they purchase EVs.

Because the central and local government subsidies are disclosed to the public and all the subsidies are reviewed and verified by the respective governments, consumers know what subsidies they will receive along with the price they expect to pay for EVs. Therefore, even though dealers can sell vehicles at prices established at their discretion, programs are designed to assure that consumers receive the entire benefit from both subsidies. This allows for full disclosure for consumers in the costs associated with purchasing EVs, along with the added benefits of the respective subsidies.

Issues confronting the market

Although the basis for the EV industry in China has already been established, the development of Chinese EV industry is still ongoing due to five major obstacles towards extensive commercialization of EVs and the full development of the EV market in China. These obstacles include the comparatively higher cost of EVs, compared with traditional automobiles, the shorter driving range between battery charges, long charging times for standard EV batteries, the limited infrastructure of EV charging facilities, and EV battery attenuation and maintenance.

Our Solutions and Growth Strategy

To resolve these key market issues, given the economic and population growth in China, we believe there is an opportunity for a new business model. Kandi has been advocating, and through the Service Company, as defined below, implemented the “Micro Public Transportation” model, or MPT (the “EV-Share Program”), which provides a shared pure EV transportation platform that has not been previously afforded to urban residents. While it is less expensive than standard taxis. MPT is designed as a new business model for public transportation that maximizes the advantages of our existing EV products and technologies, and further stimulates the expansion of the EVs markets to urban communities. Since its inception, the “Micro Public Transportation” model has made impressive progress, and received great recognition and support from government officials, the end users, and our business partners throughout of China. In order to smoothly move the MPT concept forward, Kandi Electric Vehicles Group Co., Ltd., our 50/50 joint venture with Geely Automobile Holdings Ltd. (the “JV Company”) participated in the establishing of Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the “Service Company”), of which the JV Company has a 19% of ownership interest. As of the end of 2014, the EV-Share Program had been launched, through the Service Company, in nine cities including Hangzhou, Shanghai, Chengdu, Nanjing, Guangzhou, Wuhan, Changsha, Changzhou and Rugao.

Today, cities in China face four critical challenges in the traffic environment, including pollution, traffic congestion, insufficient parking space and growing scarcity of energy supplies, which are mainly the result of ever growing volume of gas-powered automobiles. One solution to solve these problems is to create cleaner and more affordable public transportation to urban residents. Currently, subway and bus transport are the most abundant public transportation options available. In this regard, the Company advocates the EV-Share Program to reduce the total number of private cars in use, which will improve environmental conditions, ease traffic congestion, alleviate parking availability, and reduce the reliance and use of fossil fuels.

Besides the zero-emission benefit, the EV-Share Program combines the advantages of city taxis, resident vehicular transport, rental cars and traditional mass transportation, along with the benefits of the availability of the vertical automatic charging/parking garage and the street-level service stations. It is a seamless transportation tool in all dimensions for urban public transportation, designed to greatly improve the efficiency of urban EV usage, while easing traffic congestion, allowing for greater parking resources. Additionally, it will likely to promote the fast adoption of the pure EVs among Chinese consumers as MPT enables consumers to rent pure EVs on a short-term hourly base or lease them on the long-term base, without concerns on the costs and issues associated with owning and maintaining EVs individually.

The EV-Share Program is supported by a network of charging/parking stations, which provides charging, maintenance and battery recycling facilities. The stations locate at airports, train stations, hotels, business centers, selected residential areas and other strategic locations close to city public transportation network . A centralized tracking system allows the service provider of EV-Share Program to keep a close watch at the status and precise location of each vehicle. In addition to the short-term rental and long term leasing options to consumers described above, the Service Company also offers long-term leasing options to large enterprises, government entities and residential communities so they can use pure EVs for extended periods of time (the “Long-term Leasing Program”). In 2014, we have greatly benefited from the success of various MPT initiatives in China, especially the short-term hourly rental and the Long-term Leasing Program.

Our Organizational Structure

The Company was incorporated under the laws of the State of Delaware on March 31, 2004. The Company changed its name from Stone Mountain Resources, Inc. to Kandi Technologies, Corp. on August 13, 2007. On December 21, 2012, the Company changed its name to Kandi Technologies Group, Inc.

Headquartered in the Jinhua city, Zhejiang Province, China, the Company's primary business operations are the design, development, manufacturing and commercialization of electric vehicles, electric vehicle parts and off-road vehicles, which are distributed in China and global markets. The Company conducts its primary business operations through its wholly-owned subsidiary, Zhejiang Kandi Vehicles Co., Ltd. ("Kandi Vehicles") and the partial and wholly-owned subsidiaries of Kandi Vehicles. As part of its strategic objective to become a leader in EV market in China, the Company focuses on fuel efficient, pure EV parts manufacturing with a particular emphasis on expanding its market share in China.

The Company's organizational chart is as follows:

* The box with dotted-line border represents the entity that has ceased operation and was dissolved in July 2014.

Operating Subsidiaries:

Pursuant to relevant agreements executed in January 2011, Kandi Vehicles is entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and loss absorption rate) of Jinhua Kandi New Energy Vehicles Co., Ltd. (Kandi New Energy). Kandi New Energy currently holds vehicle production rights (license) on manufacturing Kandi brand electric utility vehicles (Special-purpose Vehicles) and the production rights (license) on manufacturing battery packs used in Kandi brand EVs.

Jinhua Three Parties New Energy Vehicles Service Co., Ltd. (Jinhua Service) was formed as a joint venture, by and among our wholly-owned subsidiary, Kandi Vehicles, the State Grid Power Corporation and Tianneng Power International. The Company, indirectly through Kandi Vehicles, had a 30% ownership interest in Jinhua Service. As of September 30, 2014, Jinhua Service ceased its operations and was dissolved.

In April 2012, pursuant to a share exchange agreement, the Company acquired 100% of Yongkang Scrou Electric Co, Ltd. (Yongkang Scrou), a manufacturer of parts for automobile and electric vehicle, including EV drive motors, EV controllers, air conditioners and other electrical products.

As a part of our EV business strategy, we believe we need more production resources to timely and efficiently satisfy the market demands. In March 2013, pursuant to a joint venture agreement (the JV Agreement) entered into between Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely), the parties established Zhejiang Kandi Electric Vehicles Co., Ltd. (the JV Company) to develop, manufacture and sell EVs and related auto parts, and to invest in other companies with related or similar business. Each of Kandi Vehicles and Shanghai Guorun has a 50% ownership interest in the JV Company. In March 2014, the JV Company changed its name to Kandi Electric Vehicles Group Co., Ltd. At present, the JV Company is a holding company with products that are manufactured by its subsidiaries.

In March 2013, Kandi Vehicles formed Kandi Electric Vehicles (Changxing) Co., Ltd. (Kandi Changxing) in the Changxing (National) Economic and Technological Development Zone. Kandi Changxing is engaged in the production of EVs. In the fourth quarter of 2013, Kandi Vehicles entered into an ownership transfer agreement with JV Company pursuant to which Kandi Vehicles transferred 100% of its ownership in Kandi Changxing to the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Changxing.

In April 2013, Kandi Electric Vehicles (Wanning) Co., Ltd. (Kandi Wanning) was formed in Wanning City of Hainan Province by Kandi Vehicles and Kandi New Energy. Kandi Vehicles has a 90% ownership in Kandi Wanning, and Kandi New Energy has the remaining 10% interest. However, by contract, Kandi Vehicles is, effectively, entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and losses) of Kandi Wanning. Hainan Province is planned as an international tourism island by the Chinese government and there is a high possibility that all non-EV vehicles will be banned from use within the province. Therefore, the Company believes EV business has a great potential growth rate in Hainan province. To capture this opportunity, the Company signed an agreement with Wanning city government and invested a total of RMB 1 billion to develop a factory in Wanning with an annual production of 100,000 EVs. Currently, this project is expected to launch its trial production by 2015.

In July 2013, Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the “Service Company”) was formed. The Service Company is engaged in various pure EV leasing businesses including the EV-Share Program. The JV Company has a 19% ownership interest in the Service Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 9.5% economic interest in the Service Company.

In November 2013, Zhejiang Kandi Electric Vehicles Jinhua Co., Ltd. (Kandi Jinhua) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jinhua, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jinhua. According to the terms of the JV Agreement, except the JV Company and its subsidiaries, Kandi Vehicle and its subsidiaries are not allowed to manufacture pure EVs. However, Kandi New Energy holds the production rights (license) on manufacturing of Special-purpose Vehicles. Therefore, it is necessary to establish Kandi Jinhua, which is in charge of the Special-purpose Vehicle business and entitles to use Kandi New Energy’s Special-purpose Vehicle production rights (license).

In November 2013, Zhejiang JiHeKang Electric Vehicle Sales Co., Ltd. (JiHeKang) was formed by the JV Company and is engaged in car sales business. The JV Company has 100% ownership interest in JiHeKang, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in JiHeKang.

In December 2013, the JV Company entered into an ownership transfer agreement with Shanghai Guorun pursuant to which the JV Company acquired 100% ownership of Kandi Electric Vehicles (Shanghai) Co., Ltd. (Kandi Shanghai). As a result, Kandi Shanghai is a wholly-owned subsidiary of the JV Company, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Shanghai.

In January 2014, Zhejiang Kandi Electric Vehicles Jiangsu Co., Ltd. (Kandi Jiangsu) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jiangsu, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jiangsu.

Our Products

General

For the years ended December 31, 2014, 2013 and 2012, our products include EV parts, EV products, and off-road vehicles including ATVs, utility vehicles (UTVs), go-karts, and others. According to our market research on consumer demand trends, we have adjusted our production line strategically and continued to develop and manufacture new EV products in an effort to meet market demands and better serve our customers.

	Year Ended December 31,					
	2014		2013		2012	
	Unit	Sales	Unit	Sales	Unit	Sales
EV parts	102,236	\$ 116,431,310	51,588	\$ 1,724,031	93,881	\$ 3,517,237
EV products	3,758	33,978,619	4,694	46,619,203	3,915	19,034,936
Off-Road Vehicles	25,746	19,819,078	55,516	46,192,811	50,252	41,961,497
Total	131,740	\$ 170,229,006	111,798	\$ 94,536,045	148,048	\$ 64,513,670
EV Parts						

During the year ended December 31, 2014, our revenues from the sale of EV parts were \$116,431,310. We sold our EV parts mostly to the JV Company for manufacturing of the EV products. We started the EV parts business to the JV Company in the first quarter of 2014 and achieved significant growth during the year. Among the total EV parts sales to the JV Company for the year ended December 31, 2014, approximately 83% or the majority of the sales were related to the sales of battery packs. Due to various Chinese auto industry regulations, we hold the necessary production license to manufacture battery packs to be exclusively used in the EVs manufactured by the JV Company under the Kandi brand. Approximately 6% of the sales were related to the sales of EV controllers. Approximately 5% of the sales were related to the sales of air conditioning units. Approximately 4% of the sales were related to the sales of EV drive motors, and the remaining 2% were related to the sales of body parts and other auto parts.

EV Products

We continued to sell EV products during the year of 2014. Our revenues from the sale of EV products for the fiscal year of 2014 were \$33,978,619, a decrease of \$12,640,584 or 27.1% from \$46,619,203 for the year ended December 31, 2013, representing a 19.9% of reduction in unit sales. The decrease in the sales volume was due to a JV Agreement signed in 2013 which required us to gradually transfer our EVs production and distribution business to the JV Company.

Off-Road Vehicles

During the year ended December 31, 2014, our revenues from the sale of the off-road vehicles declined by \$26,373,733, or 57.1%, to \$19,819,078 from \$46,192,811 for the year ended December 31, 2013. The decrease was primarily due to the rearrangement of our product portfolio for more efficient use of resources to capture more sales opportunities in the fast-growing EV market in China.

The following table shows the breakdown of Kandi's revenues from its customers by geographic markets:

	Year Ended December 31					
	2014		2013		2012	
	Sales Revenue	Percentage	Sales Revenue	Percentage	Sales Revenue	Percentage
North America	\$ 2,900,789	2%	\$ 6,906,807	7%	\$ 7,243,257	11%
Europe and other regions	5,729,035	3%	2,394,948	3%	1,639,990	3%
China	161,599,182	95%	85,234,290	90%	55,630,423	86%
Total	170,229,006	100%	94,536,045	100%	64,513,670	100%

Recent Development Activities

In November 2014, SMA7002BEV05, the first Mid-tier Luxury Pure Electric Vehicle developed by JV Company was approved by the Ministry of Industry and Information Technology of the People's Republic of China ("MIIT") according to No. 69 public announcement of MIIT. The SMA7002BEV05 model is among the latest vehicles on the lists of the approved vehicle products (MIIT No. 266) and the recommended models for energy saving & new energy vehicle demonstration and promotion in China (MIIT No. 63). As a result, purchasers of such EV will now be the ultimate beneficiaries to receive all levels of national and local subsidies and incentives. The approval of SMA7002BEV05 is an indication of our beginning to enter the field of the middle and high level pure vehicle products. We believe that our diversified products will meet the market's growing demands and secure our leading position in manufacturing pure electric vehicle products in China.

In December 2014, Kandi Vehicles signed a purchase contract with Zhejiang Tianneng Energy Technology Co, Ltd ("Tianneng Energy Technology") for a one-year supply of TNL-ITR18650-2200P lithium batteries starting in January 2015. Kandi Vehicle's purchase amount is committed to be no less than RMB 260 million or approximately \$42.6 million in 2015. Management believes Tianneng Energy Technology's lithium battery is a great addition and will help Kandi to achieve a better performance for EVs.

As of the end of 2014, our EV-Share Program has been expanded to 9 cities including Hangzhou, Shanghai, Chengdu, Nanjing, Guangzhou, Wuhan, Changsha, Changzhou, and Rugao. This program is an innovative business model aimed at promoting and popularizing the use of EVs in China. Since its inception, the program has generated significant public interest, and received key recognitions and endorsements from consumers as well as the government agencies. It also includes a variety of the Long-term Leasing Program, ideal for those companies, government entities and residential communities. As of the end of 2014, there had been a total of 14,398 Kandi EVs delivered to our customers. Leveraging the success of the EV-Share Program, Kandi has built a solid foundation to be recognized as the one of the leaders in the pure EV market in China.

On January 14, 2015, we announced that the first 60 Kandi Brand EVs were delivered to launch an innovative EV business model, which we called "Mini Police Car" Program. The EVs are the first time used by Hangzhou Uptown Public Security Bureau to facilitate performance of community safety patrols, population permit patrols, fire safety inspections, as well as other police duties. The Mini Police Car offers the advantage for police to quick access into these congested areas and small alleyways to carry out its duties. Kandi equips these EVs with the necessary police equipment, firefighting apparatuses, emergency kits, and other related equipment. In addition to our successful EV sharing program catering to average Chinese consumers, we hope to explore more EV growth opportunities in the area of fleet sales and leasing to large business and government entities in China in the future.

From January 23 to 25, 2015, the 2014 Global New Energy Auto Conference was held in Tianjin China. More than 700 people attended this conference, including government officers, scholars, auto industry experts, ecommerce companies, electric vehicles users, industry investors, technical development personnel, media and others. During the conference, Mr. Hu Xiaoming, our Chairman and CEO, was granted the sole award for "Innovator of Annual Green Auto".

On January 31 2015, Mr. Hu Xiaoming, our Chairman and CEO, visited Shenzhen Chuangming Battery Technology Co., LTD. (“Chuangming”), which engages in research and development, production and distribution in the field of Lithium ion battery. Both parties had a friendly detailed discussion on how to apply the high performance battery No. 18650 from Chuangming on Kandi’s EVs and align with the intention of cooperation. The visit for Mr. Hu is to seek the partner for high performance battery for Kandi’s EV products, and secure the supply of EV’s battery for future mass EVs production.

On February 15, 2015, the management of the JV Company made a decision to add the direct-selling operation to its business for the sale of pure EVs, in addition to the current fleet sale model. The JV Company has made good progress in selling EV products to the Service Company, which operates various leasing options including short-term rental and the Long-term Leasing Program. We believe the EV-Share Program will continue to be the main business growth driver for the JV Company. Meanwhile, in line with the growing direct market demand from end users, the JV Company will begin to explore direct selling option. A new pure EV product, JL7001BEV03, or *Cyclone*, developed by the JV Company will be mainly directly sold to the end users. Up to date, Cyclone has passed the required technical inspection and tests from various regulated agencies in China, including National Passenger Car Quality Supervision and Inspection Centre. The Company also filed the final application of the product public announcement with China’s MIIT and expect the application to be approved within the next two months. “Cyclone” is a five-door, four-seat vehicle equipped with a newly developed triple element lithium ion battery, with a comfortable seating area and reliable safety conditions. Cyclone utilizes a central control system that features both touch screen and conventional buttons, and it has also achieved multiple domestic automobile leading standards. The participated launch of Cyclone will further strengthen the leading position of the JV Company in the new energy automobile industry. As the JV Company gears up to sell EVs direct to end users this year, we believe that the JV Company will have great advantages in both fleet sales and direct sales markets.

Sales and Distribution

The Company has three main products: electric vehicle products, electric vehicle parts and off-road vehicles in year 2014. According to the JV Agreement with Geely, we will be gradually transferring the production of the EV products to the JV Company, and continue to share the 50% economic benefits share from the JV Company. Besides EVs, Kandi focuses on the design, production and distribution of EVs parts, which has demonstrated significant growth in 2014. Additionally, Kandi still continued to produce and sell the off-road vehicles, which is our traditional products.

Customers

As of December 31, 2014, our major customers, in the aggregate, accounted for 71% of our sales. Currently, the Company is developing new business partners and clients for our products to reduce our dependence on existing customers and focusing the new business development efforts on our pure EV business.

The Company's major customers, each of whom accounted for more than 10% of our consolidated revenue, were as follows:

Major Customers	Sales			Accounts Receivable and Amount Due from JV Company, Net ⁽¹⁾		
	Year Ended	Year Ended	Year Ended	December	December	December
	December, 31, 2014	December, 31, 2013	December, 31, 2012	31, 2014	31, 2013	31, 2012
Kandi Electric Vehicles (Changxing) Co., Ltd.	38%	-	-	17%	-	-
Kandi Electric Vehicles (Shanghai) Co., Ltd.	23%	-	-	16%	-	-
Shanghai Maple Auto Co., Ltd.	10%	23%	-	3%	47%	-

(1) The balance at December 31, 2014 didn't include the one-year entrusted loan of \$24,376,371 that Kandi Vehicle lent to the JV Company.

Sources of Supply

All the raw materials are purchased from the suppliers. The major parts of our products are mainly manufactured by Kandi. Other components and parts that are needed are purchased from third-party suppliers. Kandi does not have, and does not anticipate having, any difficulty in obtaining required materials from its suppliers. In reaching this determination, we considered our current contracts and our current business relationships with our suppliers.

The Company's material suppliers, each of whom accounted for more than 10% of our total purchases, were as follows:

Major Suppliers	Purchases			Accounts Payable		
	Year Ended	Year Ended	Year Ended	December	December	December
	December, 31, 2014	December, 31, 2013	December, 31, 2012	31, 2014	31, 2013	31, 2012
Zhejiang New Energy Auto System Co., Ltd.	31%	33%	26%	12%	12%	-
Shandong Henyuan New Energy Tech Co., Ltd.	25%	-	-	32%	-	-
Zhongju (Tianjin) New Energy Investment Co., Ltd.	11%	-	-	29%	-	-

Competitors

Our EV business faces the competition from two parts, one is the competition with traditional vehicles and the other is the competition from other EVs manufacturers.

In terms of the competition with the traditional vehicle manufacturers, many competitors are larger and have greater financial resources. But the traditional automobile companies face many urban traffic challenges, including urban pollution, traffic congestion, insufficient parking space and energy crisis., which gives us great opportunities for EVs' development. The government grants great support and issues favorable policies to promote EVs development, which is a clear evidence for EVs growth. We believe electric vehicle industry in China has many years of great potential growth ahead.

Within electric vehicle market itself, the competitions are fierce as we have to compete with many domestic and global EV manufactures with greater brand recognition and financial resources. However, being one of the earliest companies to engage in the research, production and distribution of electric vehicles, we believe we have the advantage on the technology, innovation on the vehicle business operation and distribution channel. In particular, the innovative EV-Share Program, or MPT model we have been advocating, is different from our competitors' offering, and has been well received by the government and the end users. This business model, along with our continuous efforts on research and development as well as strategic alliance, shall help us to build competitive advantages over other EV manufacturers.

Intellectual Property and Licenses

Our success depends, at least in part, on our ability to protect our core technology and intellectual property. We rely on a combination of patents, patent applications, trademarks, copyright and trade secret protection laws in China and other jurisdictions, as well as confidentiality procedures and contractual provisions to protect our intellectual property and our brand. As of December 31, 2014, we had 26 issued patents, 2 issued software copyrights and 6 pending patent applications with Chinese patent authority related to electrical vehicle products, electrical vehicle parts and off-road vehicle products. Under the PRC Patent Law, an invention patent is valid for a term of 20 years and a utility or design patent is valid for a term of 10 years. Our patents are valid for 10 years. In addition, we are authorized to use the trademark of Kandi and we are the owner of the trademark of JASSCOL. We intend to continue to file additional patent applications with respect to our technology.

Employees

As of December 31, 2014, excluding the contractors, Kandi had a total of 516 full-time employees as compared to 430 full-time employees on December 31, 2013, of which 328 employees are production personnel, 14 employees are sales personnel, 44 employees are research and development personnel, and 130 employees are administrative personnel. None of our employees are covered by collective bargaining agreements. We consider our relationships with our employees to be good. We also employ consultants on an as needed basis.

Pure Electric Vehicles Subsidies

Currently, there are two subsidies from central and local governments for the pure EVs in China – one from each of the central and local governments. The ultimate beneficiary for these subsidies is the consumer and the actual prices that consumers pay reflect the deduction of both subsidies.

a) The central government provides a subsidy to manufacturers paid in advance quarterly upon application and approval and settled annually. After selling product to dealers, manufacturers can submit subsidy payment applications with invoices and other supporting documents at the end of each quarter to the requisite central government agencies through their regional offices. After the review and approval by the agencies, the central

government makes advance subsidy payments to the manufacturers. At the end of the year, the final subsidy amounts are verified, reconciled according to the number of vehicles actually sold to consumers and settled on an annual basis.

b) Pursuant to the requirement of the central government, the local governments provide a subsidy to consumers who purchase EVs by a price reduction from the dealer. After the consumer purchases an EV at a reduced selling price from the dealer, the dealer submits a subsidy application to the local government, including a consumer authorization letter for subsidy application, consumer personal I.D., EV Vehicle License, EV purchase invoice and other required documents and requests reimbursement (to the dealer) for the local government subsidy.

Environmental and Safety Regulation

Emissions

Our products are all subject to international laws and emissions related regulations, including regulations and related standards established by China Environmental Protection Agency, the United States Environmental Protection Agency (EPA), the California Air Resources Board (CARB), Europe and Canada.

All Kandi's products comply with all applicable emissions standards and regulations in China Environmental Protection Agency, the United States and internationally, the California Air Resources Board (CARB), Europe and Canada. However, we are unable to predict the ultimate impact of standards and regulations adopted in the future or proposed regulations on Kandi and its business.

Use regulation

The sale and use of products must be subject to the "Traffic Law" and relevant laws & regulations in China. National, State, and federal laws and regulations have been promulgated, or are under consideration, that impact the use or manner of use of Kandi's products. Certain states and local authorities have adopted, or are considering the adoption of, legislation and local ordinances which restrict the use of ATVs and off-road vehicles to specified hours and locations. The federal government also has restricted the use of ATVs and off-road vehicles in some national parks and federal lands. In several instances, the restriction has been a complete ban on the recreational use of these vehicles. Kandi is unable to predict the outcome of such actions or the possible effect on its business. Kandi believes that its off-road vehicle business would be no more adversely affected than those of its competitors by the adoption of any such pending laws or regulations.

Product Safety and Regulation

Safety Regulation

The U.S. federal government and individual states have adopted, or are considering the adoption of, laws and regulations relating to the use and safety of Kandi's products. The federal government is the primary regulator of product safety. The Consumer Product Safety Commission (CPSC) has federal oversight over product safety issues related to ATVs and off-road vehicles. The National Highway Transportation Safety Administration (NHTSA) has federal oversight over product safety issues related to on-road motorcycles.

In August 2008, the Consumer Product Safety Improvement Act (the Act) was passed. The Act requires all manufacturers and distributors who import into or distribute ATVs within the United States to comply with the ANSI/SVIA safety standards, which were previously voluntary. The Act also requires the same manufacturers and distributors to have ATV action plans filed with the CPSC that are substantially similar to the voluntary action plans that were previously in effect. Kandi currently complies with the ANSI/SVIA standards.

Kandi's motorcycles are subject to federal vehicle safety standards administered by NHTSA. Kandi's motorcycles are also subject to various state vehicle safety standards. Kandi believes that its motorcycles comply with safety standards applicable to motorcycles.

Kandi's products are also subject to international safety standards in places where it sells its products outside the United States. Kandi believes that its motorcycles and EVs comply with applicable safety standards in the United States and internationally.

Principal Executive Offices

Our principal executive office is located in the Jinhua City Industrial Zone in Jinhua, Zhejiang Province, PRC, 321016 and our telephone number is (86-579) 82239856.

Item 1A. Risk Factors.

You should carefully consider the risks described below together with all of the other information included in this report before making an investment decision with regard to our securities. The statements contained in or incorporated into this Annual Report that are not historic facts are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. If any of the following risks actually occurs, our business, financial condition or results of operations could be harmed. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Relating to Our Business

Our future growth is dependent upon consumers' willingness to adopt EVs.

Our growth is highly dependent upon the adoption by consumers of, and we are subject to a risk of any reduced demand for, alternative fuel vehicles in general and EVs in particular. The market for alternative fuel vehicles (including EVs) is relatively new, rapidly evolving, characterized by rapidly changing technologies, price competition, additional competitors, evolving government regulation and industry standards, frequent new vehicle announcements and changing consumer demands and behaviors. If the market for EVs in China does not develop as we expect or develops more slowly than we expect, our business, prospects, financial condition and operating results will be harmed.

The unavailability, reduction or elimination of government and economic incentives could have a material adverse effect on our business, financial condition, operating results and prospects.

Chinese government has made significant efforts in actively advocating the development of new energy vehicles to reach production and sales targets of 0.5 million New Energy Vehicles (NEVs) by 2015 and 5 million NEVs by 2020. We received support from the local and central government of the PRC from time to time. Any reduction, elimination or discriminatory application of government subsidies and economic incentives because of policy changes, the reduced need for such subsidies and incentives due to the customer base of our EVs, fiscal tightening or other reasons may result in the diminished competitiveness of the alternative fuel vehicle industry generally or our EVs in particular. This could materially and adversely affect the growth of the alternative fuel automobile markets and our business, prospects, financial condition and operating results.

Our growth depends in part on the availability and amounts of government subsidies and economic incentives for alternative fuel vehicles generally and performance EVs specifically. For example, purchasers of three models of Kandi brand EVs are eligible to receive purchase tax exemption at the amount of 10% of the vehicle's total purchase price during the three-year period from September 1, 2014. Purchasers of Kandi's SMA7000BEV and SMA7001BEV models are the ultimate beneficiaries, on a per car basis, the national government subsidy of RMB 47,500.00 (Approximately \$7,738.00) and the local government subsidy of RMB 47,500.00 (Approximately \$7,738.00) from provincial government and municipal government combined at both Chengdu (Sichuan province) and Nanjing (Jiangsu province). Additionally, these two vehicle models also qualify for free license plates in Shanghai. The license plates in Shanghai are auctioned to the public at an average price between RMB70,000.00 to RMB80,000.00 (\$11,410.00 to \$13,040.00) per license plate. While we believe the latest tax exemption, along with a series of government incentives and subsidies, may have a very positive impact on the sales of Kandi Brand EVs in China going forward, we cannot assure you it is always the case. In the event such favored policy and treatment discontinue,

our business outlook and financial conditions could be negatively impacted.

Developments in alternative technologies or improvements in the internal combustion engine may materially adversely affect the demand for our EVs.

Significant developments in alternative technologies, such as advanced diesel, ethanol, fuel cells or compressed natural gas, or improvements in the fuel economy of the internal combustion engine, may materially and adversely affect our business and prospects in ways we do not currently anticipate. Any failure by us to develop new or enhanced technologies or processes, or to react to changes in existing technologies, could materially delay our development and introduction of new and enhanced EVs, which could result in the loss of competitiveness of our vehicles, decreased revenue and a loss of market share to competitors.

If we are unable to keep up with advances in electric vehicle technology, we may suffer a decline in our competitive position.

We may be unable to keep up with changes in EV technology and, as a result, may suffer a decline in our competitive position. Any failure to keep up with advances in EV technology would result in a decline in our competitive position which would materially and adversely affect our business, prospects, operating results and financial condition. Our research and development efforts may not be sufficient to adapt to changes in EV technology. As technologies change, we plan to upgrade or adapt our vehicles and introduce new models in order to continue to provide vehicles with the latest technology, in particular battery cell technology. However, our vehicles may not compete effectively with alternative vehicles if we are not able to source and integrate the latest technology into our vehicles. For example, we do not manufacture battery cells, which makes us dependent upon other suppliers of battery cell technology for our battery packs.

Our business depends substantially on the continuing efforts of our executive officers, and our business may be severely disrupted if we lose their services.

Our future success depends substantially on the continued services of our executive officers, especially our CEO and Chairman of the Board of Directors, Mr. Hu Xiaoming. We do not maintain key man life insurance on any of our executive officers. If any of our executive officers are unable or unwilling to continue in their present positions, we may not be able to replace them readily, if at all. Therefore, our business may be severely disrupted, and we may incur additional expenses to recruit and retain new officers. In addition, if any of our executive officers joins a competitor or forms a competing company, we may lose some of our customers.

We may be subject to product liability claims, or recalls which could be expensive, damage our reputation and result in a diversion of management resources.

We may be subject to lawsuits resulting from injuries associated with the use of the vehicles that we sell or produce. We may incur losses relating to these claims or the defense of these claims. There is a risk that claims or liabilities will exceed our insurance coverage. In addition, we may be unable to retain adequate liability insurance in the future.

We may also be required to participate in recalls involving our vehicles, if any prove to be defective, or we may voluntarily initiate a recall or make payments related to such claims as a result of various industry or business practices or the need to maintain good customer relationships. Such a recall would result in a diversion of resources. While we do maintain product liability insurance, we cannot assure you that it will be sufficient to cover all product liability claims, that such claims will not exceed our insurance coverage limits or that such insurance will continue to be available on commercially reasonable terms, if at all. Any product liability claim brought against us could have a material adverse effect on our results of operations.

We retain certain personal information about our customers and may be subject to various privacy and consumer protection laws.

We and our operating companies use our vehicles' electronic systems to log information about each vehicle's condition, performance and use in order to aid us in providing customer service, including vehicle diagnostics, repair and maintenance, as well as to help us collect data regarding our customers' charge time, battery usage, mileage and efficiency habits and to improve our vehicles. We also collect information about our customers through our website, at our stores and facilities, and via telephone.

Our customers may object to the processing of this data, which may negatively impact our ability to provide effective customer service and develop new vehicles and products. Collection and use of our customers' personal information in conducting our business may be subject to national and local laws and regulations in the PRC, and such laws and regulations may restrict our processing of such personal information and hinder our ability to attract new customers or market to existing customers. We may incur significant expenses to comply with privacy, consumer protection and security standards and protocols imposed by law, regulation, industry standards or contractual obligations. Although we take steps to protect the security of our customers' personal information, we may be required to expend significant resources to comply with data breach requirements if third parties improperly obtain and use the personal information of our customers or we otherwise experience a data loss with respect to customers' personal information. A major breach of our network security and systems could have serious negative consequences for our businesses and future prospects, including possible fines, penalties and damages, reduced customer demand for our vehicles, and harm to our reputation and brand.

Our business will be adversely affected if we are unable to protect our intellectual property rights from unauthorized use or infringement by third parties.

Any failure to adequately protect our proprietary rights could result in weakening or loss of such rights, which may allow our competitors to offer similar or identical products or use identical or confusingly similar branding, potentially resulting in the loss of some of our competitive advantage, a decrease in our revenue and an attribution of potentially lower quality products to us, which would adversely affect our business, prospects, financial condition and operating results. Our success depends, at least in part, on our ability to protect our core technology and intellectual property. To accomplish this, we rely on a combination of patents, patent applications, trade secrets, including know-how, employee and third party nondisclosure agreements, copyright protection, trademarks, intellectual property licenses and other contractual rights to establish and protect our proprietary rights in our technology. We have also received from third parties patent licenses related to manufacturing our vehicles.

The protection provided by the patent laws is and will be important to our future opportunities. However, such patents and agreements and various other measures we take to protect our intellectual property from use by others may not be effective for various reasons, including the following:

- our pending patent applications may not result in the issuance of patents;
- our patents, if issued, may not be broad enough to protect our commercial endeavors;
- the patents we have been granted may be challenged, invalidated or circumvented because of the pre-existence of similar patented or unpatented technology or for other reasons;
- the costs associated with obtaining and enforcing patents, confidentiality and invention agreements or other intellectual property rights may make aggressive enforcement impracticable; and
- current and future competitors may independently develop similar technology, duplicate our vehicles or design new vehicles in a way that circumvents our intellectual property.

Existing trademark and trade secret laws and confidentiality agreements afford only limited protection. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as do the laws of the United States, and policing the unauthorized use of our intellectual property is difficult.

We may need to defend ourselves against patent or trademark infringement claims, which may be time-consuming and would cause us to incur substantial costs.

Companies, organizations or individuals, including our competitors, may hold or obtain patents, trademarks or other proprietary rights that would prevent, limit or interfere with our ability to make, use, develop, sell or market our vehicles or components, which could make it more difficult for us to operate our business. From time to time, we may receive inquiries from holders of patents or trademarks regarding their proprietary rights. Companies holding patents or other intellectual property rights may bring suits alleging infringement of such rights or otherwise assert their rights

and seek licenses. In addition, if we are determined to have infringed upon a third party's intellectual property rights, we may be required to do one or more of the following:

- cease selling, incorporating or using vehicles or offering goods or services that incorporate or use the challenged intellectual property;
- pay substantial damages;
- obtain a license from the holder of the infringed intellectual property right, which license may not be available on reasonable terms or at all; or
- redesign our vehicles or other goods or services.

In the event of a successful claim of infringement against us and our failure or inability to obtain a license to the infringed technology or other intellectual property right, our business, prospects, operating results and financial condition could be materially adversely affected. In addition, any litigation or claims, whether or not valid, could result in substantial costs and diversion of resources and management attention.

We may also face claims that our use of technology licensed or otherwise obtained from a third party infringes the rights of others. In such cases, we may seek indemnification from our licensors/suppliers under our contracts with them. However, indemnification may be unavailable or insufficient to cover our costs and losses, depending on our use of the technology, whether we choose to retain control over conduct of the litigation, and other factors.

Our vehicles make use of lithium-ion battery cells, which could catch fire or vent smoke and flame. This may lead to additional concerns, about the batteries used in automotive applications.

The battery pack in our EV products makes use of lithium-ion cells. We also currently intend to make use of lithium-ion cells in battery packs on any future vehicles we may produce. On rare occasions, lithium-ion cells can rapidly release the energy they contain by venting smoke and flames in a manner that can ignite nearby materials as well as other lithium-ion cells. Extremely rare incidents of laptop computers, cell phones and EV battery packs catching fire have focused consumer attention on the safety of these cells.

These events have raised concerns about the batteries used in automotive applications. To address these questions and concerns, a number of cell manufacturers are pursuing alternative lithium-ion battery cell chemistries to improve safety. We may have to recall our vehicles or participate in a recall of a vehicle that contains our battery packs, and redesign our battery packs, which would be time consuming and expensive. Also, negative public perceptions regarding the suitability of lithium-ion cells for automotive applications or any future incident involving lithium-ion cells such as a vehicle or other fire, even if such incident does not involve us, could seriously harm our business.

In addition, we store a significant number of lithium-ion cells at our manufacturing facility. Any mishandling of battery cells may cause disruption to the operation of our facilities. While we have implemented safety procedures related to the handling of the cells, there can be no assurance that a safety issue or fire related to the cells would not disrupt our operations. Such damage or injury would likely lead to adverse publicity and potentially a safety recall. Moreover, any failure of a competitor's EV, may cause indirect adverse publicity for us and our EVs. Such adverse publicity would negatively affect our brand and harm our business, prospects, financial condition and operating results.

Compliance with environmental regulations can be expensive, and noncompliance with these regulations may result in adverse publicity and potentially significant monetary damages and fines.

Our business operations generate noise, waste water, gaseous byproduct and other industrial waste. We are required to comply with all national and local regulations regarding protection of the environment. We are in compliance with current environmental protection requirements and have all necessary environmental permits to conduct our business. However, if more stringent regulations are adopted in the future, the costs of compliance with these new regulations could be substantial. Additionally, if we fail to comply with present or future environmental regulations, we may be required to pay substantial fines, suspend production or cease operations. Any failure by us to control the use of, or to adequately restrict the unauthorized discharge of, hazardous substances could subject us to potentially significant monetary damages and fines or suspensions to our business operations. Certain laws, ordinances and regulations could limit our ability to develop, use, or sell our products.

The electric vehicle industry is highly competitive, and we are subject to risks relating to competition that may adversely affect our performance.

The electric vehicle industry is highly competitive, and our continued success depends upon our ability to compete effectively in markets that contain many competitors, some of which have significantly greater financial, marketing and other resources than we have. Competition may affect our pricing structures, potentially causing us to lower our prices, which may adversely impact our profits. New or existing competition that uses a business model that is different from our business model may put pressure on us to change our model so that we can remain competitive.

Our high concentration of sales to relatively few customers may result in significant impact our liquidity, business, results of operations and financial condition.

As of December 31, 2014 and 2013, our top five customers, in the aggregate, accounted for 84% and 67%, respectively, of our sales and accounts receivable. Due to the concentration of sales to relatively few customers, loss of one or more of these customers will have relatively high impact on our operational results.

Our business is subject to the risk of supplier concentrations.

We depend on a limited number of suppliers for the sourcing of major components and parts and principal raw materials. For the years ended December 31, 2014 and 2013, the top two suppliers accounted for 57% and 65% of our purchases, respectively. As a result of this concentration in our supply chain, our business and operations would be negatively affected if any of our key suppliers were to experience significant disruption affecting the price, quality, availability or timely delivery of their products. The partial or complete loss of these suppliers, or a significant adverse change in our relationship with any of these suppliers, could result in lost revenue, added costs and distribution delays that could harm our business and customer relationships. In addition, concentration in our supply chain can exacerbate our exposure to risks associated with the termination by key suppliers of our distribution agreements or any adverse change in the terms of such agreements, which could have a negative impact on our revenues and profitability.

Our facilities or operations could be damaged or adversely affected as a result of disasters or unpredictable events.

Our headquarters and facilities are located in several cities in China such as Jinhua, Yongkang and Wanning. If major disasters such as earthquakes, fires, floods, hurricanes, wars, terrorist attacks, computer viruses, pandemics or other events occur, or our information system or communications network breaks down or operates improperly, our headquarters and production facilities may be seriously damaged, or we may have to stop or delay production and shipment of our products. We may incur expenses relating to such damages, which could have a material adverse impact on our business, operating results and financial condition.

If we fail to maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent fraud. As a result, current and potential shareholders could lose confidence in our financial reporting, which would harm our business and the trading price of our stock.

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent fraud. As directed by Section 404 of the Sarbanes-Oxley Act of 2002, or SOX 404, the SEC adopted rules requiring public companies to include a report of management on our internal controls over financial reporting in their annual reports.

Despite of our recent efforts in improving our internal control procedures and remediating the material weakness, we cannot provide assurance that we will not fail to achieve and maintain an effective internal control environment on an ongoing basis, which may cause investors to lose confidence in our reported financial information and have a material adverse effect on the price of our common stock.

The audit report included in this Annual Report was prepared by auditors who are not inspected by the Public Company Accounting Oversight Board and, as a result, you are deprived of the benefits of such inspection

The independent registered public accounting firm that issues the audit reports included in our annual reports filed with the SEC, as auditors of companies that are traded publicly in the United States and a firm registered with the Public Company Accounting Oversight Board (United States), or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards. Because our auditors are located in the PRC, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the PRC authorities, our auditors are not currently inspected by the PCAOB.

Inspections of other firms that the PCAOB has conducted outside China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The inability of the PCAOB to conduct inspections in China prevents the PCAOB from regularly evaluating our auditor's statements, audits and quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditor's quality control and audit procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Risks Related to Doing Business in China

The economy of China had experienced unprecedented growth. This growth has slowed in the recent years, and if the growth of the economy continues to slow or if the economy contracts, our financial condition may be materially and adversely affected.

The rapid growth of the PRC economy had historically resulted in widespread growth opportunities in industries across China. This growth has slowed in the recent years. As a result of the global financial crisis and the inability of enterprises to gain comparable access to the same amounts of capital available in past years, there may be an adverse effect on the business climate and growth of private enterprise in the PRC. An economic slowdown could have an adverse effect on our sales and may increase our costs. Further, if economic growth continues to slow, and if, in conjunction, inflation is allowed to proceed unchecked, our costs would likely increase, and there can be no assurance that we would be able to increase our prices to an extent that would offset the increase in our expenses.

In addition, a tightening of the labor markets in our geographic region may result in fewer qualified applicants for job openings in our facilities. Further, higher wages, related labor costs and other increasing cost trends may negatively

impact our results.

Changes in political and economic conditions may affect our business operations and profitability.

Since our business operations are primarily located in China, our business operations and financial position are subject, to a significant degree, to the economic, political and legal developments in China.

While the Chinese government has not halted its economic reform policy since 1978, any significant adverse changes in the social, political and economic conditions of China may fundamentally impact China's economic reform policies, and thus the Company's operations and profits may be adversely affected.

Uncertainties with respect to the Chinese legal system could have a material adverse effect on us and may restrict the level of legal protections to foreign investors.

China's legal system is based on statutory law. Unlike the common law system, statutory law is based primarily on written statutes. Previous court decisions may be cited as persuasive authority but do not have a binding effect. Since 1979, the PRC government has been promulgating and amending the laws and regulations regarding economic matters, such as corporate organization and governance, foreign investment, commerce, taxation and trade. However, since these laws and regulations are relatively new, and the PRC legal system continues to rapidly evolve, the interpretation of many laws, regulations and rules is not always uniform and enforcement of these laws, regulations and rules involves uncertainties, which may limit legal protections available to us.

In addition, any litigation in China may be protracted and may result in substantial costs and diversion of resources and management's attention. The legal system in China cannot provide investors with the same level of protection as in the U.S. The Company is governed by laws and regulations generally applicable to local enterprises in China. Many of these laws and regulations were recently introduced and remain experimental in nature and subject to changes and refinements. Interpretation, implementation and enforcement of the existing laws and regulations can be uncertain and unpredictable and therefore may restrict the legal protections available to foreign investors.

Changes in Currency Conversion Policies in China may have a material adverse effect on us.

Renminbi (RMB) is still not a freely exchangeable currency. Since 1998, the State Administration of Foreign Exchange of China has promulgated a series of circulars and rules in order to enhance verification of foreign exchange payments under a Chinese entity's current account items, and has imposed strict requirements on borrowing and repayments of foreign exchange debts from and to foreign creditors under the capital account items and on the creation of foreign security in favor of foreign creditors.

This may complicate foreign exchange payments to foreign creditors under the current account items and thus may affect the ability to borrow under international commercial loans, the creation of foreign security, and the borrowing of RMB under guarantees in foreign currencies. Moreover, the value of RMB may become subject to supply and demand, which could be largely impacted by international economic and political environments. Any fluctuations in the exchange rate of RMB could have an adverse effect on the operational and financial condition of the Company and its subsidiaries in China.

You may experience difficulties in effecting service of legal process, enforcing foreign judgments or bringing original actions based on United States or foreign laws against us, our management or the experts named in the prospectus.

We conduct substantially all of our operations in China and almost all of our assets are located in China. In addition, almost all of our senior executive officers reside in China. As a result, it may not be possible to effect service of process on our senior executive officers within the United States or elsewhere outside China, including with respect to matters arising under U.S. federal securities laws or applicable state securities laws. Moreover, our PRC counsel has advised us that the PRC does not have treaties with the United States or many other countries providing for the reciprocal recognition and enforcement of court orders and final judgments.

Risks Relating to Ownership of Our Securities

Our stock price may be volatile, which may result in losses to our shareholders.

The stock markets have experienced significant price and trading volume fluctuations, and the market prices and trading volumes of companies listed on the NASDAQ Global Market and the NASDAQ Global Select Market have been volatile. Although our stock was listed on the NASDAQ Global Market and upgraded to the NASDAQ Global Select Market on January 2, 2014, the trading price of our common stock is likely to be volatile and could fluctuate significantly in response to many factors, including the following, some of which are beyond our control:

- variations in our operating results;
- changes in expectations of our future financial performance, including financial estimates by securities analysts and investors;
- changes in operating and stock price performance of other companies in our industry;
- additions or departures of key personnel; and
- future sales of our common stock.

Domestic and international stock markets often experience significant price and volume fluctuations. These fluctuations, as well as general economic and political conditions unrelated to our performance, may adversely affect the price of our common stock.

Mr. Hu, our CEO, President and Chairman of our Board of Directors is the beneficial owner of a substantial portion of our outstanding common stock, which may enable Mr. Hu to exert significant influence on corporate actions.

Excelvantage Group Limited controls approximately 25.9% of our outstanding shares of common stock as of March 9, 2015. Hu Xiaoming, the Company's Chief Executive Officer, President and Chairman of the Board of Directors, is the sole stockholder of Excelvantage Group Limited. Together with the shares held through Excelvantage Group Limited, Mr. Hu has 28.0% of our outstanding shares of common stock which could have a substantial impact on matters requiring the vote of our shareholders, including the election of our directors and most corporate actions. This control could delay, defer or prevent others from initiating a potential merger, takeover or other change in our control, even if these actions would benefit our other shareholders and the Company. This control could adversely affect the voting and other rights of our other shareholders and could depress the market price of our common stock.

We do not anticipate paying any cash dividends to our common shareholders.

We presently do not anticipate that we will pay dividends on any of our common stock in the foreseeable future. If payment of dividends does occur at some point in the future, it would be contingent upon our revenues and earnings, if any, capital requirements, and general financial condition. The payment of any common stock dividends will be within the discretion of our Board of Directors. We presently intend to retain all earnings to implement our business plan; accordingly, we do not anticipate the declaration of any dividends for common stock in the foreseeable future.

Fluctuation in the value of the RMB may have a material adverse effect on your investment.

The change in value of the RMB against the U.S. dollar, the Euro and other currencies is affected by changes in China's political and economic conditions, among other things. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the new policy, the RMB is permitted to fluctuate within a narrow and managed band against certain foreign currencies. While the international reaction to the RMB revaluation has generally been positive, there remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of the RMB against the U.S. dollar. As a portion of our costs and expenses is denominated in RMB, the revaluation in July 2005 and potential future revaluation has and could further increase our costs. In addition, any significant revaluation of the RMB may have a material adverse effect on our financial condition. For example, to the extent that we need to convert U.S. dollars we receive from financings into RMB for our operations, appreciation of the RMB against the U.S. dollar would have an adverse effect on the RMB amount we receive from the conversion. Conversely, if we decide to convert our RMB into U.S. dollars for the purpose of making payments for business purposes, appreciation of the U.S. dollar against the RMB would have a negative effect on the U.S. dollar amount available to us.

The limitation of monetary liability against our directors, officers and employees under Delaware law and the existence of statutory indemnification rights of our directors, officers and employees may result in substantial expenditures by our Company and may discourage lawsuits against our directors, officers and employees.

Our articles of incorporation do not contain any specific provisions that limit the liability of our directors for monetary damages to our Company and shareholders; however, we are prepared to indemnify our directors and officers to the extent provided for by Delaware law. We may also have include contractual indemnification obligations in our employment agreements with our officers. The foregoing indemnification obligations could result in the Company incurring substantial expenditures to cover the cost of settlement or damage awards against its directors and officers, which we may be unable to recoup. These provisions and resultant costs may also discourage our Company from bringing a lawsuit against directors and officers for breaches of their fiduciary duties, and may similarly discourage the filing of derivative litigation by our shareholders against our directors and officers even though such actions, if successful, might otherwise benefit our Company and shareholders.

We may need additional capital, and the sale of additional shares or other equity securities could result in additional dilution to our shareholders.

In the future, we may require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If our resources are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity securities could result in dilution to our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations. We cannot assure you that financing will be available, if at all, in amounts or on terms acceptable to us.

Our business is subject to changing regulations related to corporate governance and public disclosure that have increased both our costs and the risk of noncompliance.

Because our common stock is publicly traded, we are subject to certain rules and regulations of federal, state and financial market exchange entities charged with the protection of investors and the oversight of companies whose securities are publicly traded. These entities, including the Public Company Accounting Oversight Board, the SEC and NASDAQ, have issued requirements and regulations and continue to develop additional regulations and requirements in response to corporate scandals and laws enacted by Congress. Our efforts to comply with these regulations have resulted in, and are likely to continue resulting in, increased general and administrative expenses and diversion of management time and attention from revenue-generating activities to compliance activities. Because new and modified laws, regulations and standards are subject to varying interpretations in many cases due to their lack of specificity, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices.

Techniques employed by manipulative short sellers in Chinese small cap stocks may drive down the market price of our common stock.

Short selling is the practice of selling securities that the seller does not own but rather has, supposedly, borrowed from a third party with the intention of buying identical securities back at a later date to return to the lender. The short seller hopes to profit from a decline in the value of the securities between the sale of the borrowed securities and the purchase of the replacement shares, as the short seller expects to pay less in that purchase than it received in the sale. As it is therefore in the short seller's best interests for the price of the stock to decline, many short sellers (sometimes known as "disclosed shorts") publish, or arrange for the publication of, negative opinions or reports regarding the relevant issuer and its business prospects in order to create negative market momentum and generate profits for themselves after selling a stock short. These short attacks have, in the past, led to selling of shares in the market, on

occasion in large scale and broad base.

These short seller publications are not regulated by any governmental, self-regulatory organization or other official authority in the U.S., are not subject to the certification requirements imposed by the Securities and Exchange Commission in Regulation AC (Regulation Analyst Certification) and, accordingly, the opinions they express may be based on distortions of actual facts or, in some cases, fabrications of facts. In light of the limited risks involved in publishing such information, and the enormous profit that can be made from running just one successful short attack, unless the short sellers become subject to significant penalties, it is more likely than not that disclosed short sellers will continue to issue such reports.

While we intend to strongly defend our public filings against any such short seller attack, often times we are constrained, either by principles of freedom of speech, applicable state law (often called "Anti-SLAPP statutes"), or issues of commercial confidentiality, in the manner in which we can proceed against the relevant short seller. You should be aware that in light of the relative freedom to operate that such persons enjoy—oftentimes blogging from outside the U.S. with little or no assets or identity requirements—should we be targeted for such an attack, our stock will likely suffer from a temporary, or possibly long term, decline in market price should the rumors created not be dismissed by market participants.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

Kandi has the following granted land use rights:

Location	Area (square meters)	Term and Expiration	Certificate No.
Zhejiang Jinhua Industrial Park	72,901	Nov 13, 2002 - Nov 13, 2052	10-15-0-203-1
Zhejiang Jinhua Industrial Park	39,491	Nov 13, 2002 - Nov 13, 2052	10-15-0-203-2
Zhejiang Jinhua Industrial Park	46,651	Dec 30, 2003 - Dec 30, 2053	10-15-0-16
Zhejiang Jinhua Industrial Park	37,515	Dec 30, 2003 - Dec 30, 2053	10-15-0-17

Zhejiang Jinhua Industrial Park	19,309	Dec 07, 2009 - Dec 07, 2059	10-15-0-33
Zhejiang Qiaoxia Industrial Park	9,405	Apr 03, 2001 - Apr 03, 2051	574-26-36

All land in the PRC is owned by the government and cannot be sold or transferred by or to any individual or private entity. Instead, the government grants or allocates landholders a land use right. There are four methods to acquire land use rights:

- grant of the right to use land;
- assignment of the right to use land;
- lease of the right to use land; and
- allocated land use rights.

In comparison with Western common law concepts, granted land use rights are similar to life estates and allocated land use rights are in some ways similar to leaseholds.

Granted land use rights are provided by the government in exchange for a grant fee and carry the rights to pledge, mortgage, lease, and transfer during the term of the grant. Land is granted for a fixed term, which is generally 70 years for residential use, 50 years for industrial use, and 40 years for commercial or other use. The term is renewable in theory. Granted land must be used for the specific purpose for which it was granted.

Allocated land use rights cannot be pledged, mortgaged, leased, or transferred. They are generally provided by the government for an indefinite period (usually to state-owned entities) and can be reclaimed by the government at any time. Allocated land use rights may be converted into granted land use rights upon the payment of a grant fee to the government.

Kandi has the following real estate properties:

Jinhua City, Zhejiang

The Company owns the following facilities located in Jinhua Industrial Park, Jinhua City, Zhejiang Province, China. The table below lists the primary facilities and the status of each facility:

Description	Area (square meters)	Status
Factories	93,979	Fully operational
Sales Center	3,130	Fully operational
Test Center	2,220	Fully operational
Staff quarters	8,090	Fully operational
Canteen	2,602	Fully operational

Yongkang City, Zhejiang

The Company owns the following facilities located in Yongkang City, Zhejiang Province, China. The table below lists the primary facilities and the status of each facility:

Description	Area (square meters)	Status
Office	1,301	Fully operational
Factories	4,457	Fully operational
Warehouse	341	Fully operational
Multi-purpose room	480	Fully operational

Wanning City, Hainan

The Company acquired the land use rights and began the construction to build EV production factories in Wanning City, Hainan Province, China in 2014. As of the date of this report, the construction is still in progress; thus this facility is not operational at this point. We expect the construction will be completed and the trial production will be launched by the end of 2015.

Description	Area (square meters)	Status
Factories	Approximately 60,000	In progress

Item 3. Legal Proceedings.

In July 2013, Judge Michael M. Pritchett of the Circuit Court of Ripley County of the State of Missouri (the Circuit Court) entered final orders and judgments in favor of the Company and Kandi Vehicles and against plaintiffs Griffin and Elder, respectively, pursuant to the jury verdicts rendered in the following two cases: Griffin v. SunL Group, et al., and Elder v. SunL Group, et al. On October 31, 2013, the plaintiffs appealed these decisions. On January 16, 2015, the Southern District of Missouri Court of Appeals affirmed the judgment from the Circuit Court and it is the final judgment.

The Company received a letter dated February 9, 2015 from the staff of the Enforcement Division (the "Division") of the U. S. Securities and Exchange Commission (the "Commission") advising that the Division has concluded its investigation of the Company and, based on information received to date, does not intend to recommend to the Commission that any enforcement action be brought against the Company. This formally concludes the Commission's investigation that commenced in 2013. As previously disclosed, The Company received notice of a formal investigation and a subpoena dated November 21, 2013 in connection with the Commission's investigation.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

On January 2, 2014, our common stock began trading on the NASDAQ Global Select Market under the symbol **KNDI**. The following sets forth the high and low prices for our common stock for each quarter from January 1, 2013 to December 31, 2014 as reported by NASDAQ.

	HIGH	LOW
FISCAL 2014		
Fourth Quarter (through December 31, 2014)	\$ 18.17	\$ 10.3
Third Quarter (through September 30, 2014)	\$ 22.49	\$ 12.98
Second Quarter (through June 30, 2014)	\$ 17.69	\$ 10.68
First Quarter (through March 31, 2014)	\$ 22.4	\$ 10.9
FISCAL 2013		
Fourth Quarter (through December 31, 2013)	\$ 12.79	\$ 6.15
Third Quarter (through September 30, 2013)	\$ 9.20	\$ 4.12
Second Quarter (through June 30, 2013)	\$ 8.50	\$ 3.55
First Quarter (through March 31, 2013)	\$ 4.19	\$ 3.37

Holder of Common Stock

As of March 9, 2015, there were 11 shareholders of record of our common stock. This does not include all the beneficial holders who hold shares through their brokerage accounts.

Dividends

We have never paid cash dividends on our common stock. Our policy is to retain all earnings, if any, to provide funds for operation and expansion of our business. We do not anticipate paying cash dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our board of directors, subject to applicable laws, and will depend on our financial condition, results of operations, capital requirements, general business conditions and other factors that our board of directors may deem relevant.

Sales of Unregistered Securities

None

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None

Securities Authorized for Issuance under Equity Compensation Plans

Please see the discussion in Item 12 titled "Equity Compensation Plan Information" below.

Stock Performance Graph

This performance graph shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference into any filing of Kandi Technologies Group, Inc. under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

The following graph shows a comparison from December 31, 2009 through December 31, 2014, of the cumulative total return for our common stock, the NASDAQ Composite Index, and the S&P Automobile Manufacturers Index. Such returns are based on historical results and are not intended to suggest future performance. Data for the NASDAQ Composite Index and the S&P Automobile Manufacturers Index assumes an investment of \$100 on December 31, 2009 and reinvestment of dividends. We have never paid cash dividends on our capital stock nor do we anticipate paying any such cash dividends in the foreseeable future.

Item 6. Selected Financial Data.

The following selected consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the related notes included elsewhere in this Annual Report on Form 10-K.

As of December 31,

CONSOLIDATED BALANCE

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Overview

Prior to 2013, we were primarily engaged in the design, manufacturing and sales of traditional off-road vehicle products. Due to fast-growing market demand for electric vehicles in China and Chinese government's ambitious plan to lower pollution by adopting five million alternative-energy vehicles by 2020, we gradually and successfully transformed our core business to the development of electric vehicle products (EV products) and electric vehicle parts (EV parts). During the year ended December 31, 2014, we had total net revenues of \$170,229,006, an increase of \$75,692,961, or 80.1%, over our net revenues for the year ended December 31, 2013. The majority of our revenues were generated by the sales of EV parts and EV products, which accounted for 88.4% of our total revenue in 2014. The significant revenue growth was mainly driven by the increased sales of EV parts during the year.

During the year 2014, we focused our efforts on the design, manufacturing and sales of EV parts and experienced significant sales growth from this business line. For the year ended December 31, 2014, we achieved net revenue of \$116,431,310 from selling EV parts, mostly to our JV Company, an increase of \$114,707,279, or 6653.4%, as compared to \$1,724,031 for the year ended December 31, 2013. We were in the early stage of EV parts manufacturing in 2014, we haven't reached a scale production and the unit prices of related parts were relatively high, which resulted in less profitable gross margin for our EV parts manufacturing. We believe, as our production volumes pick up and raw materials and unit prices of parts continue to fall, our EV parts unit production cost will gradually decrease and our gross margin will gradually improve.

Pursuant to our Joint Venture agreement, we gradually transferred our EV production to the JV Company in 2014, which caused our sales volume of EV products to decrease in the year compared with year 2013. However, as we have a 50% ownership interest in the JV Company and accounted for our investments in the JV Company under the equity method of accounting, we received 50% of the JV Company's net profit for the year or \$3,763,082 in the year ended December 31, 2014, compared to a loss of \$1,510,378 in the year ended December 31, 2013. As the JV Company was established not too long ago and the business was still in the start-up phase, its earnings were not high but have great potential for growth. We believe our economic benefits from the JV Company will greatly increase in the future as its business continues to steadily grow.

We continued to produce off-road vehicles in 2014 and our revenues from this business line decreased by \$26,373,733 from year-ago period, or 57.1%, to \$19,819,078 for the year ended December 31, 2014. This decrease was mainly because we shifted our business strategy to put more resources and efforts on Chinese EV industry to meet the increasing market demand for alternative energy vehicles. We believe this realignment of business focus is in the best interest of the Company's long-term strategy for business growth.

In 2014, we recorded \$23,403,933 of gross profit, an increase of 7.6% from 2013, primarily due to the increase of revenue. We recorded a net profit of \$12,271,338 in 2014 compared to a net loss of \$21,140,723 in 2013. Excluding the effects of stock award expenses, which were \$8,455,422 and \$9,658,320 for the years ended December 31, 2014 and 2013, respectively, and the change of the fair value of financial derivatives, which were a gain of \$6,531,308 and a loss of \$16,647,283 for the years ended December 31, 2014 and 2013, respectively, our net income (non-GAAP) was \$14,195,452 for the year ended December 31, 2014 as compared to net income (non-GAAP) of \$5,164,880 for the year ended December 31, 2013, an increase of \$9,030,572 or 174.8%. The increase in such net income was primarily attributable to the increase of revenue and gross profits during the year of 2014.

The vehicle manufacturing industry is highly competitive in China. Current and future factors impacting our industry include: (i) the exponential growth of electrical vehicle sales and dedicated platforms in the global market place, (ii) the consolidation of supply chains and costs of components, (iii) rapid technology developments (including 3D printing technology) and (iv) emerging strategic partnerships and joint ventures in the automotive industry generally.

Our business strategy includes our efforts to provide our customers with high-quality products, to expand our footprint in new and existing markets, and to advance our profile and demand for our EV products through the EV Sharing Project. To further this initiative, we are working with our business partners to build a network of public EV sharing stations to provide energy-efficient, convenient travel options for local citizens and tourists. We anticipate that our pure EV business in China, through the operations of the JV Company and with the support of new Chinese subsidy policies, will continue to develop and grow in the future.

Results of Operations

Comparison of Years Ended December 31, 2014, 2013 and 2012

The following table sets forth the amounts and the percentage relationship to revenues of certain items in our consolidated statements of income for the years ended December 31, 2014, 2013 and 2012:

	Year Ended December 31, 2014	% Of Revenue	Year Ended December 31, 2013	% Of Revenue	Year Ended December 31, 2012	% Of Revenue
REVENUES, NET	\$ 170,229,006	100.0%	\$ 94,536,045	100.0%	\$ 64,513,670	100.0%

Revenues

For the year ended December 31, 2014, we had net revenues of \$170,229,006 compared to net revenues of \$94,536,045 for the year ended December 31, 2013 and \$64,513,670 for the year ended December 31, 2012, representing an increase of \$75,692,961, or 80.1%, from 2013 and an increase of \$105,715,336, or 163.9%, from

2012, respectively. Our products include EV parts, EV products, and off-road vehicles, including ATVs, utility vehicles (UTVs), go-karts, and others. For the year ended December 31, 2014, 2013 and 2012, 95%, 90% and 86%, respectively, of our revenues were derived from the sales of our products in the People s Republic of China (the PRC).

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

The following table summarizes our revenues as well as the number of units sold by product types for the years ended December 31, 2014, 2013 and 2012:

	Year Ended December 31,					
	2014		2013		2012	
	Unit	Sales	Unit	Sales	Unit	Sales
EV parts	102,236	\$ 116,431,310	51,588	\$ 1,724,031	93,881	\$ 3,517,237
EV products	3,758	33,978,619	4,694	46,619,203	3,915	19,034,936
Off-Road Vehicles	25,746	19,819,078	55,516	46,192,811	50,252	41,961,497
Total	131,740	\$ 170,229,006	111,798	\$ 94,536,045	148,048	\$ 64,513,670

EV Parts

During the year ended December 31, 2014, our revenues from the sale of EV parts were \$116,431,310, representing an increase of \$114,707,279 or 6,653.4% from \$1,724,031 for the year ended December 31, 2013 and an increase of \$112,914,073 or 3,210.3% from \$3,517,237 for the year ended December 31, 2012, respectively

Our revenue for the year ended December 31, 2014 primarily consisted of the sales of battery packs, body parts, EV drive motors, EV controllers, air conditioning units and other auto parts to the JV Company for manufacturing of EV products. Of the total EV parts sold for the year ended December 31, 2014, approximately 83%, or the majority of the sales, were related to the sale of battery packs. Due to the Chinese auto industry regulation, we hold the necessary production license to manufacture the battery packs exclusively used in Kandi brand name's EVs manufactured by the JV Company. Besides the sale of battery packs, approximately 6% of the sales were related to the sales of EV controllers, approximately 5% of the sales were related to the sales of air conditioning units, approximately 4% of the sales were related to the sales of EV drive motors and approximately 2% of the sales were related to the sales of body parts and other auto parts.

We started the EV parts business to the JV Company in the first quarter of 2014. During the year ended December 31, 2014, our revenues from the sale of EV parts to the JV Company accounted the majority or approximately 68% of our total net revenue for the year. For the year ended December 31, 2014, the majority of EV parts sold to the JV Companies, or approximately 56% of the sales were to Kandi Changxing, approximately 34% of the sales were to Kandi Shanghai, and approximately 10% of the sales were to Kandi Jinhua. These EV parts were used in manufacturing pure EV products by the JV Company's subsidiaries, all of which were sold to Shanghai Maple Auto Co., Ltd. ("Shanghai Maple"). Shanghai Maple is an unaffiliated company that was granted by the Chinese government vehicle production rights for EV sedans, which is equivalent to a license that qualifies it to sell the EV products to the end customers. Our increased sales of EV parts during the year were largely driven by the manufacturing of EV products by the JV Company to meet the EV demand of EV-Share Program. According to the JV Agreement, we are primarily responsible for supplying the JV Company with EV parts and the JV Company is primarily responsible for producing EV products and finished automobiles through sales channels to its end customers.

During the year ended December 31, 2014, of the total EV parts sales, our revenues from the sale of auto generators to other customers were \$57,632, a decrease of \$1,666,399, or 96.7% from \$1,724,031 for the year ended December 31, 2013 and a decrease of \$3,459,605 or 98.4% from \$3,517,237 for the year ended December 31, 2012. This decrease in revenue was primarily due to the realignment of Yongkang Scrou s product offering to shift focus to the manufacturing of automobile motors, air-conditioning systems, controllers, and accelerator pedals for EVs.

EV Products

Our revenues from the sale of EV products for the fiscal year of 2014 were \$33,978,619 including \$33,421,638 from selling EV products and \$556,981 from OEM-EV business line, representing a decrease of \$12,640,584 or 27.1% from \$46,619,203 for the year ended December 31, 2013 but an increase of \$14,943,683 or 78.5% from \$19,034,936 for the year ended December 31, 2012, respectively

We continued to sell certain EV products (completed automobiles) during the year of 2014. Our revenues from the sale of EV products for the year ended December 31, 2014 decreased by \$13,197,565, or 28.3%, from \$46,619,203 for the year ended December 31, 2013 to \$33,421,638 for the year ended December 31, 2014, representing a 44.4% of reduction in unit sales but a 29.0% of increase in the average unit price. As compared to our sale of EV products for the year ended December 31, 2012, we increased our sales by \$14,386,702, or 75.6%, representing a 33.4% of reduction in unit sales but a 163.6% of increase in the average unit price. The increase of the average unit price was largely due to the inclusion of the cost for battery packs in the unit selling price in 2014. In addition, during the year ended December 31, 2014, our revenues from OEM business were \$556,981 or 0.3% of total revenue. We started our OEM business in the second quarter of 2014, and our sales for the year ended December 31, 2014 were primarily derived from assembling EV products for Kandi Jinhua, a wholly-owned subsidiary of the JV Company. Indirectly through our 50% ownership interest in the JV Company, we have a 50% economic interest in Kandi Jinhua.

Our EV products business accounted approximately 20.0% of our total revenue for the year ended December 31, 2014, reduced from 49.3% and 29.5% in the years ended December 31, 2013 and 2012, respectively. Of the total sales of EV products for the year ended December 31, 2014, approximately \$25,593,023, or 75.3%, was sold to Shanghai Maple. The sales of EV products were mainly driven by the demand by EV-Share Program. In March 2013, Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely) formed a joint venture (the JV Company) to develop, manufacture and sell EVs and related auto parts. Under the JV Agreement, our EV product manufacturing business will be gradually transferred to the JV Company. The decreased sales of EV products in 2014 as compared to that in 2013 was a result of this JV Agreement. In the future, under the JV Agreement, we will be mainly responsible for supplying the JV Company with EV parts and the JV Company will be responsible for manufacturing EV products and selling finished goods through channel to its end customers.

Off-Road Vehicles

During the year ended December 31, 2014, our revenues from the sale of off-road vehicles including selling go karts, all-terrain vehicles (ATVs), and others were \$19,819,078, representing a decrease of \$26,373,733 or 57.1% from \$46,192,811 for the year ended December 31, 2013 and a decrease of \$22,142,419 or 52.8% from \$41,961,497 for the year ended December 31, 2012, respectively.

Our off road vehicles business line accounted for approximately 11.6% of our total net revenue for the fiscal year 2014, compared to 48.9% for the fiscal year 2013 and 65.0% for the fiscal year 2012, respectively. Of which go-kart business accounted for approximately 7.5% of our total net revenue for the year ended December 31, 2014, reduced from 35.1% and 47.7% for the years ended December 31, 2013 and 2012, respectively, and ATV business accounted for approximately 4.2% of our total net revenue for the year ended December 31, 2014, reduced from 11.0% and 9.9% for the years ended December 31, 2013 and 2012, respectively. The sales of three wheeled motorcycles, utility vehicles (UTVs) and refitted cars were insignificant in the fiscal year of 2014 as compared to the sales in the fiscal years 2013 and 2012. The decreased sales of these products were primarily due to the rearrangement of our product portfolio for more efficient use of our resources to capture more sales opportunities in the fast-growing EV market in China.

The following table shows the breakdown of our net revenues from customers by geographic markets:

	Year Ended December 31					
	2014		2013		2012	
	Sales Revenue	Percentage	Sales Revenue	Percentage	Sales Revenue	Percentage
North America	\$ 2,900,789	2.0%	\$ 6,906,807	7.0%	\$ 7,243,257	11.0%
Europe and other regions	5,729,035	3.0%	2,394,948	3.0%	1,639,990	3.0%
China	161,599,182	95.0%	85,234,290	90.0%	55,630,423	86.0%
Total	\$ 170,229,006	100.0%	\$ 94,536,045	100.0%	\$ 64,513,670	100.0%

Cost of Goods Sold

Cost of goods sold for the year ended December 31, 2014 was \$146,825,073, representing an increase of \$74,031,556, or 101.7%, from \$72,793,517 for the year ended December 31, 2013 and an increase of \$95,204,793, or 184.4%, from \$51,620,280 for the year ended December 31, 2012. This increase was primarily due to the corresponding increased sales for the year ended December 31, 2014. However, the increase in cost of goods sold outpaced the growth of our revenues, which was largely due to relatively less profitable raw material purchases in our newly-added EV parts product line, and the sale of EV parts accounted for 68.4% of total revenue for the year ended December 31, 2014. As a result, cost of goods sold for our EV parts product line comprised the majority, or 72.5%, of the total cost of goods sold for the year ended December 31, 2014. The battery sales accounted for the majority of our EV parts sales and their corresponding cost of goods sold accounted for 61.6% of total cost of goods sold.

For the year ended December 31, 2014, excluding the battery business mentioned above, our cost of raw materials declined by 2.2% compared to the sales increase in the same period of time year over year.

Excluding the battery business mentioned above, total wages and salaries for the year ended December 31, 2014, increased by 1.8% compared to the sale increase in the same period of time year over year.

Excluding the battery business mentioned above, our other overhead costs for the year ended December 31, 2014 increased by 0.3% compared to the sales increase in the same period of time year over year.

For the year ended December 31, 2014, raw material costs comprised approximately 95.2% of total cost of goods sold, labor costs comprised approximately 1.5% of total cost of goods sold, and manufacturing overhead comprised approximately 3.3% of the total cost of goods sold. For the year ended December 31, 2013, raw material costs comprised approximately 90.1% of total cost of goods sold, labor costs comprised approximately 1.7% of total cost of goods sold, and manufacturing overhead comprised approximately 8.2% of the total cost of goods sold. For the year ended December 31, 2012, raw material costs comprised approximately 91.5% of total cost of goods sold, labor costs comprised approximately 2.5% of total cost of goods sold, and manufacturing overhead comprised approximately 6.0% of the total cost of goods sold.

Gross Profit

Gross profit for the year ended December 31, 2014 was \$23,403,933 as compared to \$21,742,528 for year ended December 31, 2013 and \$12,893,390 for year ended December 31, 2012, representing an increase of \$1,661,405 or 7.6% from 2013 and an increase of \$10,510,543 or 81.5% from 2012, respectively. This increase was primarily attributable to the increase in our revenue driven by the sales of our newly-added business line of EV parts. However, our gross margin for the year ended December 31, 2014 decreased to 13.7% from 23.0% for the year ended December 31, 2013 and 20.0% for the year ended December 31, 2012. The decreased gross margin was mainly because the majority of our revenue growth during the year ended December 31, 2014 came from the relatively less profitable EV parts product lines, which accounted for 68.4% of total sales for the year and had a gross margin of 8.5% compared to

the average gross margin of 13.7% for our company as a whole.

Research and Development

Research and development expenses, including materials, labor, equipment depreciation, design, testing, inspection, and other related expense, totaled \$2,755,637 for the year ended December 31, 2014, compared to \$3,728,730 for the year ended December 31, 2013 and \$2,877,283 for the year ended December 31, 2012, representing a decrease of \$973,093, or 26.1%, from 2013 and a decrease of \$121,646, or 4.2%, from 2012, respectively. These decreases were primarily due to the shift of our business strategy to focus more of our efforts on the China EV auto market and our primary responsibility under the JV agreement, which is to supply the JV Company with EV parts rather than EV products.

For the year ended December 31, 2014, approximately 40% of our research and development expenses was spent on the research and development of five new EV product models and the projects to develop new auto air conditioning system, vehicle control system and EV intelligent control platform (centralized control platform) used in our EV products, while the remaining or 60% of our research and development expenses was spent on the projects to develop EV related and off road vehicle products that we initiated in the previous year. For the year ended December 31, 2013, the majority of our research and development expense was spent to develop off road vehicle products. We initiated research and development efforts to develop new EV products to meet market demands in the fourth quarter of 2013.

Sales and Marketing

Selling and distribution expenses were \$1,345,588 for the year ended December 31, 2014, compared to \$399,504 for the year ended December 31, 2013 and \$455,983 for the year ended December 31, 2012, representing an increase of \$946,084, or 236.8%, from 2013 and an increase of \$889,605, or 195.1%, from 2012, respectively. These increases were primarily attributable to the warranty expenses of \$832,439 for repair and maintenance charged during the year of 2014. In 2014, we contracted a qualified third party to provide repair and maintenance services for the 1,620 Kandi 7001 series EV sedans we have sold. Excluding this charge, our selling and distribution expenses increased \$113,645, or 28.4%, as compared to last year. The increase was largely due to the increased expenses in the shipping and handling costs and other sales and marketing related costs, while decreased product liability insurance partially offset this increase.

General and Administrative

General and administrative expenses were \$14,058,548 for the year ended December 31, 2014, compared to \$16,056,107 for the year ended December 31, 2013 and \$4,250,832 for the year ended December 31, 2012, representing a decrease of \$1,997,559, or 12.4%, from 2013 and an increase of \$9,807,716, or 230.7%, from 2012, respectively. For the year ended December 31, 2014, general and administrative expenses included \$8,455,422 in expenses for common stock awards to employees and consultants for their services, compared to \$9,658,320 and \$85,558 for the years ended December 31, 2013 and 2012, respectively. Excluding stock award costs, our net general and administrative expenses for the year ended December 31, 2014 were \$5,603,126, a decrease of \$794,661, or 12.4%, compared to \$6,397,787 for the year ended December 31, 2013. This decrease was primarily attributable to more costs related to the capital raise were expensed in 2013 than 2014. The costs related to issuance of the derivative instruments in the capital raises during 2014, or \$578,757, were expensed upon issuance in 2014. Additionally, the general and administrative expenses in 2012 also included \$19,053 of stock-based compensation costs for the options issued to our executives and managerial level employees, while for the years ended December 31, 2014 and 2013, we didn't have such expenses.

Interest Income (Expense), Net

Net interest expense was \$1,779,525 for the year ended December 31, 2014, compared to \$2,878,876 for the year ended December 31, 2013 and \$117,787 for the year ended December 31, 2012, representing a decrease of \$1,099,351, or 38.2%, from 2013 but an increase of \$1,661,738, or 1,410.8%, from 2012. The decrease in net interest

expense compared to last year was primarily attributable to an increase in interest income earned on loans made to third parties for the year ended December 31, 2014. We recorded interest income of \$1,701,121 for the year ended December 31, 2014, which included \$1,573,421 earned on loans made to third parties, \$39,849 earned on an entrusted loan lent to the JV Company through Bank of Communications Hangzhou Zhongan Branch as the agent bank, and \$87,851 earned on bank deposits. We recorded interest expense of \$3,480,646 for the year ended December 31, 2014, which included bank loan interest of \$2,217,955 and bond interest of \$1,262,691.

Change in Fair Value of Financial Instruments

For the year ended December 31, 2014, the gain related to changes in the fair value of the derivative liability relating to the warrants issued to investors and placement agents was \$6,531,308, compared to a loss of \$16,647,283 for the year ended December 31, 2013 and a gain of \$1,986,063 for the year ended December 31, 2012, an increase of \$23,178,591 from 2013 and an increase of \$4,545,245 from 2012, respectively. The gain on the changes in the fair value of derivative liability was due to the decrease in the fair value price of the derivative which was primarily attributable to two factors. First, it was caused by the decrease in our stock price of the common stock underlying the warrants issued on September 4, 2014, which decreased from \$17.13 on the issuance date to \$14.01 on December 31, 2014. Secondly, it was due to the passage of remaining life of outstanding warrants (excluding the warrants issued in September 2014), a significant portion of which warrants expired in January 2015.

Government Grants

Government grants totaled \$288,498 for the year ended December 31, 2014, representing an increase of \$60,102, or 26.3%, from \$228,396 in 2013 and an increase of \$156,359, or 118.3%, from \$132,139 in 2012. The increases were largely due to the subsidies we received from the Chinese government for promoting local business and innovation.

Share of Profit (Loss) of Associated Company

Investment losses were \$54,308 for the year ended December 31, 2014, compared to a loss of \$69,056 for the year ended December 31, 2013 and a loss of \$69,429 for the year ended December 31, 2012, a decrease of \$14,748, or 21.4%, from 2013 and a decrease of \$15,121, or 21.8%, from 2012, respectively. For the years ended December 31, 2014 and 2013, these losses were attributable to our 30% equity ownership of Jinhua Service. In July 2014, Jinhua Service ceased its operations and was dissolved. As a result, we wrote off the remaining investment in this entity and associated liabilities due to this entity.

Share of Profit (Loss) after Tax of the JV Company

For the year ended December 31, 2014, the JV Company's net sales were \$215,537,203, gross income was \$41,889,144, and net income was \$7,526,164. We accounted for our investments in the JV Company under the equity method of accounting as we have a 50% ownership interest in the JV Company. As a result, we recorded 50% of the JV Company's profit, or \$3,763,082 for the year ended December 31, 2014. After eliminating intra-entity profits and losses, our share of the after tax profit of the JV Company was \$4,490,266 for the year ended December 31, 2014, compared to a loss of \$2,414,354 for the year ended December 31, 2013, representing an increase in income of \$6,904,620.

During the year of 2014, the JV Company's revenues were primarily derived from the sales of EV products in the PRC with a total of 10,935 units sold during the year.

Other Income (Expense), Net

Net other expense was (\$34,649) for the year ended December 31, 2014, compared to net other income of \$676,257 for the year ended December 31, 2013 and net other income of \$332,936 for the year ended December 31, 2012, a decrease in net other income of \$710,906, or 105.1%, from 2013 and a decrease in net other income of \$367,585, or 110.4% from 2012, respectively. This difference was primarily attributable to a write-off of \$841,251 payable to Ever Lotts Investment Limited incurred in 2013. In addition, we received less rental income received during the year of 2014.

Income Taxes

In accordance with the relevant tax laws and regulations of the PRC, our applicable corporate income tax rate is 25%. However, Kandi Vehicle is a qualified as high technology company in China and is therefore entitled to pay a reduced income tax rate of 15%.

Each of our wholly-owned subsidiaries, Kandi New Energy, Yongkang Scrou and Kandi Wanning, has an applicable corporate income tax rate of 25%.

We have a 50% ownership interest in the JV Company, which has an applicable corporate income tax of 25%. Each of the JV Company's subsidiaries has an applicable corporate income tax rate of 25% as well.

We qualified as a high technology company in China, and were entitled to pay a reduced income tax rate of 15%. After combining with the research and development tax credit of 25% on certain qualified research and development expenses, our effective reduced income tax rate was 18.40% as compared to 16.68% in 2013. The combined tax benefit was 60.38% as compared to 50.1% in 2013. The actual effective income tax rate was reduced from 25% to 9.91% of the 2014 taxable corporate income as compared to 12.48% of the 2013 taxable corporate income.

Net Income (Loss)

We recorded net income of \$12,271,338 for the year ended December 31, 2014, compared to net loss of (\$21,140,723) for the year ended December 31, 2013 and a net income of \$6,049,479 for the year ended December 31, 2012, an increase of \$33,412,061, or 158.0%, from the year ended December 31, 2013 and an increase of \$6,221,859, or 102.8%, from the year ended December 31, 2012, respectively. The net income was primarily attributable to increased revenue and gross profits, and the gain from the change in the fair value of warrant derivatives.

Excluding (i) the effects of stock award expenses, which were \$8,455,422 and \$9,658,320 for the years ended December 31, 2014 and 2013, respectively, and (ii) the change of the fair value of financial derivatives, which were a gain of \$6,531,308 and a loss of (\$16,647,283) for the years ended December 31, 2014 and 2013, respectively, our net income (non-GAAP) was \$14,195,452 for the year ended December 31, 2014 as compared to net income (non-GAAP) of \$5,164,880 for the year ended December 31, 2013, an increase of \$9,030,572 or 174.8%. The increase in such net income was primarily attributable to the increase of revenue and gross profits during the year of 2014.

We make reference to certain non-GAAP financial measures, i.e., the adjusted net income. Management believes that such adjusted financial result is useful for investors in evaluating our operating performance because it presents a meaningful measure of corporate performance. See the non-GAAP reconciliation table below. Any non-GAAP measures should not be considered as a substitute for, and should only be read in conjunction with, measures of financial performance prepared in accordance with GAAP.

The following table summarizes our non-GAAP net income from continuing operations for the years ended December 31, 2014, 2013 and 2012:

	Year Ended December 31		
	2014	2013	2012
GAAP net income (loss)	\$ 12,271,338	\$ (21,140,723)	\$ 6,049,479
Stock award expenses	8,455,422	9,658,320	85,558
Options expenses	-	-	19,053
Convertible note's interest expense	-	-	2
Amortization of discount on convertible notes	-	-	43
Change of the fair value of financial derivatives	(6,531,308)	16,647,283	(1,986,063)
Non-GAAP net income	\$ 14,195,452	\$ 5,164,880	\$ 4,168,072

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow

For the year ended December 31, 2014, cash used in operating activities was \$7,453,756, as compared to cash provided by operating activities of \$14,687,446 for the year ended December 31, 2013 and cash used in operating activities of \$10,721,895 for the year ended December 31, 2012. The major operating activities that provided cash for the year ended December 31, 2014 were net income of \$12,271,338, an increase in accounts payable of \$23,095,825 and a decrease in accounts receivable of \$15,445,962. The major operating activity that used cash for the year ended December 31, 2014 was an increase in receivables from the JV Company of \$48,593,522.

Cash used in investing activities for the year ended December 31, 2014 was \$50,108,255, as compared to cash used in investing activities of \$59,844,162 and \$4,751,858 for the years ended December 31, 2013 and 2012, respectively. Cash provided by investing activities for the year ended December 31, 2014 was primarily the result of the repayment of notes receivable of \$29,354,592. Cash used in investing activities for the year ended December 31, 2014 was primarily the result of the purchases of construction in progress of \$50,891,170 and the issuance of notes receivable of \$24,705,489.

Cash provided by financing activities for the year ended December 31, 2014 was \$72,775,040, as compared to cash provided by financing activities of \$46,317,978 and \$25,622,819 for the years ended December 31, 2013 and 2012, respectively. Cash provided by financing activities for the year ended December 31, 2014 was primarily the result of proceeds from short-term loans of \$48,306,743, proceeds from notes payable of \$18,718,944, proceeds from common stock and warrants issued of \$78,358,991, and proceeds from warrant exercises of \$21,101,039. Cash used in financing activities for the year ended December 31, 2014 was primarily the result of repayments of short-term loans of \$46,517,604, repayments of notes payable of \$29,602,112, repayment of bond payable of \$13,011,917 and placement of restricted cash of \$13,010,291.

As of December 31, 2014, we had unrestricted cash of \$26,379,460. Our total current assets were \$138,327,197, and our total current liabilities were \$99,124,513, which resulted in a net working capital of \$39,202,684.

Working Capital

We had a working capital surplus of \$39,202,684 at December 31, 2014, which reflected an increase from a working capital deficit of (\$6,631,680) as of December 31, 2013.

As of December 31, 2014, we had credit lines from commercial banks of \$42,739,904, of which \$35,589,502 was used as of December 31, 2014. We believe that our cash flows generated internally may not be sufficient to support the growth in operations and to repay short-term bank loans for the next twelve (12) months. However, we believe our access to existing financing sources, including the remaining net proceeds from our \$71 million registered direct offering financing completed on September 4, 2014, and established relationships with PRC banks will enable us to meet our obligations and fund its ongoing operations.

We have historically financed our operations through short-term commercial bank loans from PRC banks. The term of these loans is typically for one year, and upon the payment of all outstanding principal and interest in a particular loan, the banks have typically rolled over the loan for an additional one-year term, with adjustments made to the interest rate to reflect prevailing market rates. We believe that this situation has not changed and that short-term bank loans will be available on normal trade terms if needed.

On March 24, 2014, we raised approximately \$11.05 million from the sale to two institutional investors of an aggregate of 606,000 shares of our common stock at a price of \$18.24 per share. As part of the transaction, we also issued to the investors warrants for the purchase of up to 90,900 shares of common stock at an exercise price of

\$22.80 per share, which warrants expire in September 2015.

On September 4, 2014, we raised approximately \$71.00 million before deducting fees to the placement agent and other offering expenses incurred us from the sale to six institutional investors of an aggregate of 4,127,908 shares of our common stock at a price of \$17.20 per share. As part of the transaction terms, we also issued to the investors warrants for the purchase of up to 743,024 shares of common stock at an exercise price of \$21.50 per share, which warrants expire in February 2016.

Capital Requirements and Capital Provided

Capital requirements and capital provided for the year ended December 31, 2014 were as follows:

	Year Ended 12/31/2014
Capital requirements	(In thousands)
Purchase of plant and equipment	\$ 2,101
Purchases of land use rights	1,669
Purchase of construction in progress	50,891
Issuance of notes receivable	24,706
Disposal of associated company	96
Repayments of short-term bank loans	46,518
Repayments of notes payable	29,602
Repayments of bond	13,012
Increase in restricted cash	13,010
Internal cash used in operations	7,454
Increase in cash	13,617
Total capital requirements	\$ 202,676
Capital provided	
Repayments of notes receivable	\$ 29,355
Proceeds from short-term bank loan	48,307
Proceeds from notes payable	18,719
Common stock and warrants issued	78,359
Warrant exercise	21,101
Other financing activities	8,431
Total capital provided	\$ 204,272

The difference between capital provided and capital required is caused by the exchange rate changes over the past twelve months.

Contractual Obligations and Off-balance Sheet Arrangements

Contractual Obligations

The following table summarizes our contractual obligations:

Payments Due by Period

Contractual Obligations	Total	Payments Due by Period				More than 5 years
		Less than 1 year	1 - 3 years	3 - 5 years		
Construction-in-progress						
Obligations	\$ 103,999,090	\$ 103,999,090	\$ -	\$ -	\$ -	\$ -
Total	\$ 103,999,090	\$ 103,999,090	\$ -	\$ -	\$ -	\$ -

Short-term Loans:

Short-term loans are summarized as follows:

	December 31, 2014	December 31, 2013
Loans from Jinhua Bank		
Monthly interest only payments at 6.30% per annum, due October 10, 2014, guaranteed by Mr. Hu Xiaoming and Ms. Ling Yueping, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14.	\$ -	\$ 1,635,590
Monthly interest only payments at 6.30% per annum, due December 2, 2014, guaranteed by Mr. Hu Xiaoming and Ms. Ling Yueping, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14.	-	817,795
Monthly interest only payments at 6.30% per annum, due December 2, 2014, guaranteed by Zhejiang Kangli Metal Manufacturing Company, Mr. Hu Xiaoming, Ms. Ling Yueping, Mr. Lv Qingbo and Mr. Lv Qingjiang, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14.	-	3,271,181
Loans from Yongkang Rural Cooperative Bank		
Monthly interest only payments at 1.026% per month, due March 31, 2014, guaranteed by Yongkang Sanli Metal Co., Ltd. The loan was fully repaid.	-	817,795
Loans from China Ever-bright Bank		
Monthly interest only payments at 6.94% per annum, due May 14, 2014, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming, Mr. Hu Wangyuan, Nanlong Group Co., Ltd. and Zhejiang Mengdeli Electric Co., Ltd. The loan was fully repaid. Also see Note 13 and Note 14.	-	12,757,606
Monthly interest only payments at 7.08% per annum, due May 11, 2015, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming, Mr. Hu Wangyuan, Nanlong Group Co., Ltd. and Zhejiang Mengdeli Electric Co., Ltd. Also see Note 13 and Note 14.	12,675,713	-
Loans from Shanghai Pudong Development Bank		
Monthly interest only payments at 6.60% per annum, due September 4, 2014, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming. The loan was fully repaid. Also see Note 13 and Note 14.	-	6,542,362

Loans from Bank of Shanghai

Monthly interest only payments at 6.60% per annum, due December 27, 2014, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, Zhejiang Kangli Metal Manufacturing Company and Nanlong Group Co., Ltd. The loan was fully repaid.	-	4,906,771
---	---	-----------

Loans from China Ever-growing Bank

Monthly interest only payments at 7.20% per annum, due April 22, 2014, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, Zhejiang Shuguang industrial Co., Ltd. and Zhejiang Mengdeli Electric Company. The loan was fully repaid.	-	3,271,181
---	---	-----------

Monthly interest only payments at 7.20% per annum, due April 22, 2015, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, and Zhejiang Shuguang industrial Co., Ltd.	3,250,183	-
--	-----------	---

Loans from Hangzhou Bank

Monthly interest only payments at 6.00% per annum, due October 20, 2015, secured by the assets of the Company. Also see Note 13 and Note 14.	7,930,446	-
--	-----------	---

Monthly interest only payments at 6.00% per annum, due November 17, 2015, secured by the assets of the Company. Also see Note 13 and Note 14.	11,733,160	-

	\$ 35,589,502	\$ 34,020,281
--	---------------	---------------

Guarantees and pledged collateral for third party bank loans

As of December 31, 2014 and 2013, we provided guarantees for the following third parties:

(1) Guarantees for bank loans

Guarantee provided to:	December 31, 2014	December 31, 2013
Yongkang Angtai Trade Co., Ltd.	\$ -	\$ 817,795
Nanlong Group Co., Ltd.	9,750,548	9,813,543
Zhejiang Shuguang industrial Co., Ltd.	4,875,274	4,906,771
Zhejiang Kangli Metal Manufacturing Company.	4,875,274	4,906,771
Total	\$ 19,501,096	\$ 20,444,880

On January 6, 2013, we entered into a guarantee contract to serve as the guarantor for the bank loans borrowed from China Communication Bank Jinhua Branch in the amount of \$817,795 by Yongkang Angtai Trade Co., Ltd. (YATCL) for the period from January 6, 2013 to January 6, 2014. YATCL is not related to our company. Under this guarantee contract, we agreed to perform all obligations of YATCL under the loan contracts if YATCL fails to perform its obligations as set forth therein.

On February 26, 2013, we entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from PingAn Bank in the amount of \$4,906,771 by Zhejiang Shuguang Industrial Co., Ltd. (ZSICL) for the period from February 26, 2013 to February 26, 2014. On March 4, 2014, we entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from PingAn Bank in the amount of \$4,875,274 by Zhejiang Shuguang industrial Co., Ltd. (ZSICL) for the period from March 4, 2014 to March 4, 2015. ZSICL is not related to our company. Under these guarantee contracts, we agreed to perform all obligations of ZSICL under the loan contracts if ZSICL fails to perform its obligations as set forth therein.

On March 15, 2013 and December 27, 2013, we entered into two guarantee contracts to serve as the guarantor for the bank loans borrowed from Shanghai Pudong Development Bank Jinhua Branch and Shanghai Bank Hangzhou branch in the amount of \$3,250,183 and \$6,500,366, respectively, by Nanlong Group Co., Ltd. (NGCL) for the period from March 15, 2013 to March 15, 2016, and December 27, 2013 to December 27, 2014, respectively. The guarantee contract to serve as the guarantor for the bank loan borrowed from Shanghai Bank Hangzhou branch was extended for four months to April 27, 2015 with the same terms after its original contract ended on December 27, 2014. NGCL is not related to our company. Under these guarantee contracts, we agreed to perform all obligations of NGCL under the loan contract if NGCL fails to perform its obligations as set forth therein.

On December 27, 2013, we entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from Shanghai Bank Hangzhou branch in the amount of \$ 4,875,274 by Zhejiang Kangli Metal Manufacturing Company (ZKMMC) for the period from December 27, 2013 to December 27, 2014. The guarantee contract was extended for six months to June 27, 2015 with the same terms after its original contract ended on December 27, 2014. ZKMMC is not related to our company. Under this guarantee contract, we agreed to perform all obligations of ZKMMC under the loan contract if ZKMMC fails to perform its obligations as set forth therein.

(2) Pledged collateral for a third party bank loans

As of December 31, 2014 and 2013, none of our land use rights or plant and equipment were pledged as collateral securing bank loans to third parties.

Critical Accounting Policies and Related Estimates That Could Have a Material Effect on Our Consolidated Financial Statements

This section should be read together with the Summary of Significant Accounting Policies in the attached consolidated financial statements included in this Annual Report.

Estimates affecting accounts receivable and inventories

The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect our reporting of assets and liabilities (and contingent assets and liabilities). These estimates are particularly significant where they affect the reported net realizable value of our accounts receivable and inventories.

Accounts receivable are recognized and carried at net realizable value. An allowance for doubtful accounts is recorded in the period when a loss is probable based on an assessment of specific factors, such as troubled collection, historical experience, accounts aging, ongoing business relations and other factors. Accounts are written off after exhaustive efforts at collection. If accounts receivable are to be provided for, or written off, they would be recognized in the consolidated statement of operations within operating expenses. We had an allowance for doubtful accounts of \$0 for the years ended December 31, 2014 and 2013, in accordance with our management's judgment based on their best knowledge.

Inventory is stated at the lower of cost, determined on a weighted average basis, or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale. Adjustments to reduce the cost of inventory to its net realizable value are made, if required, for estimated excess, obsolescence, or impaired balances. When inventories are sold, their carrying amount is charged to expense in the year in which the revenue is recognized. Write-downs for declines in net realizable value or for losses of inventories are recognized as an expense in the year the impairment or loss occurs. There was a \$315,584 and \$352,734 of decline in net realizable value of inventory for the year ended of December 31, 2014 and 2013 due to our provision for slow moving inventory.

Although we believe that there is little likelihood that actual results will differ materially from current estimates, if customer demand for our products decreases significantly in the near future, or if the financial condition of our customers deteriorates in the near future, we could realize significant write downs for slow-moving inventories or uncollectible accounts receivable.

Policy affecting recognition of revenue

Our revenue recognition policy plays a key role in our consolidated financial statements. Revenues represent the invoiced value of goods sold, recognized upon the shipment of goods to customers, and revenues are recognized when all of the following criteria are met:

1. Persuasive evidence of an arrangement exists;
2. Delivery has occurred or services have been rendered;
3. The seller's price to the buyer is fixed or determinable; and
4. Collectability is reasonably assured.

The revenue recognition policies for our EV products and legacy products including ATVs, go-karts and other products are the same: When the products are delivered, the associated risk of loss is deemed transferred, and at that time we recognize revenue.

Policy affecting options, warrants and convertible notes

Our stock option cost is recorded in accordance with ASC 718 and ASC 505. The fair value of stock options is estimated using the Black-Scholes-Merton model. Our expected volatility assumption is based on the historical volatility of our stock. The expected life assumption is primarily based on the expiration date of the option. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Stock option expense recognition is based on awards expected to vest. There were no estimated forfeitures. ASC standards require forfeitures to be estimated at the time of grant and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

Our warrant costs are recorded in liabilities and equities, respectively, in accordance with ASC 480, ASC 505 and ASC 815. The fair value of a warrant, which is classified as a liability, is estimated using the Black-Scholes-Merton model and the lattice valuation model. Our expected volatility assumption is based on the historical volatility of our common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the warrant is based on the U.S. Treasury yield curve in effect at the time of measurement. The warrants, which are freestanding derivatives classified as liabilities on the balance sheet, are measured at fair value on each reporting date, with decreases in fair value recognized in earnings and increases in fair values recognized in expenses.

The fair value of equity-based warrants, which are not considered derivatives under ASC 815, is estimated using the Black-Scholes-Merton model. Our expected volatility assumption is based on the historical volatility of our common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

In accordance with ASC 815, the conversion feature of the convertible notes is separated from the debt instrument and accounted for separately as a derivative instrument. On the date the convertible notes are issued, the conversion feature is recorded as a liability at its fair value, and future decreases in fair value are recognized in earnings while increases in fair values are recognized in expenses. We used the Black-Scholes-Merton option-pricing model to obtain the fair value of the conversion feature. We expected volatility assumption is based on the historical volatility of our common stock. The expected life assumption is primarily based on the expiration date of the conversion features. The risk-free interest rate for the expected term of the conversion features is based on the U.S. Treasury yield curve in effect at the time of measurement.

Warranty Liability

Most of our non-EV products (the Legacy Products) are exported out of China to foreign countries that have legal and regulatory requirements with which we are not familiar. Development of warranty policies for our Legacy Products in

each of these countries would be virtually impossible and prohibitively expensive. Therefore, we provide price incentives and free parts to our customers and in exchange, our customers establish appropriate warranty policies and assume warranty responsibilities.

Consequently, warranty issues are taken into consideration during the price negotiation for our products. The free parts are delivered along with the products, and when products are sold, the related parts are recorded as cost of goods sold. Due to the reliable quality of our products, we have been able to maintain this warranty policy and we have not had any product liability attributed to the quality of our products.

For the EV products that we sell in China, there is a 3 year or 50,000 kilometer manufacturer warranty. This warranty affects the Company through our participation and investment in the JV Company, which manufactures the EVs.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Foreign Currency Exchange Rate Risk

While our reporting currency is the U.S. dollar, to date the majority of our revenues and costs are denominated in RMB and a significant portion of our assets and liabilities are denominated in RMB. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between the U.S. dollar and the RMB. If the RMB depreciates against the U.S. dollar, the value of our RMB revenues and assets as expressed in our U.S. dollar financial statements will decline. Since 2005, China reformed its exchange rate regime and the RMB is no longer pegged to the U.S. dollar. In 2010, the People's Bank of China decided to move further to reform the RMB exchange rate regime to enhance the flexibility of the RMB exchange rate. At the end of 2014, the RMB has already appreciated more than 10% since 2010. In the long term, the RMB may appreciate or depreciate more significantly in value against the U.S. dollar or other foreign currencies, depending on the market supply and demand with reference to a basket of currencies. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the effectiveness of these hedges may be limited and we may not be able to successfully hedge our exposure. Accordingly, we may incur economic losses in the future due to foreign exchange rate fluctuations, which could have a negative impact on our financial condition and results of operations.

Interest Rate Risk

We had cash and cash equivalents and restricted cash totaling \$39.4 million and notes receivable of \$9.1 million as of December 31, 2014. Cash and cash equivalents are held for working capital purposes. We do not enter into investments for trading or speculative purposes. As of December 31, 2014, we had \$35.6 million of short-term bank loans outstanding, which are fixed rate instruments. Our exposure to interest rate risk primarily relates to the interest income generated from cash held in bank deposits and notes receivable, and interest expense generated from short-term bank loans. We believe that we do not have any material exposure to changes in the fair value as a result of changes in interest rates due to the short term nature of our cash equivalents. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates.

Inflation Rate Risk

According to the National Bureau of Statistics of China, the change in the consumer price index in China was 2.0%, 2.6% and 2.6% in 2014, 2013, and 2012, respectively. China's inflation rate in 2014 was near a five-year low and was well below the government's target of 3.5%. China's National Statistics Bureau said the fall was largely due to falling oil prices. While this rate declined in 2014 compared to the past two years, there may be further increased inflation in the future, which could have an adverse effect on our business.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To: The Board of Directors and Stockholders of Kandi Technologies Group, Inc

We have audited the accompanying consolidated balance sheet of Kandi Technologies Group, Inc. and subsidiaries ("the Company") as of December 31, 2014 and 2013 and the related consolidated statements of income and comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2014. We have also audited the internal control over financial reporting of the Company as of December 31, 2014, based on criteria established in the Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework). The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Kandi Technologies Group, Inc. as of December 31, 2014 and 2013 and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2014, in conformity with US generally accepted accounting principles.

Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control Integrated Framework issued by

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework).

KANDI TECHNOLOGIES GROUP, INC.
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND PRINCIPAL ACTIVITIES

Kandi Technologies Group, Inc. (Kandi Technologies) was incorporated under the laws of the State of Delaware on March 31, 2004. Kandi Technologies changed its name from Stone Mountain Resources, Inc. to Kandi Technologies, Corp. on August 13, 2007. On December 21, 2012, Kandi Technologies changed its name to Kandi Technologies Group, Inc. As used herein, the term the Company means Kandi Technologies and its operating subsidiaries, as described below.

Headquartered in the Jinhua city, Zhejiang Province, China, the Company is one of China's leading producers and manufacturers of electrical vehicle products, electrical vehicle parts and off-road vehicles for sale in the People's Republic of China (the PRC) and global markets. The Company conducts its primary business operations through its wholly-owned subsidiary, Zhejiang Kandi Vehicles Co., Ltd. (Kandi Vehicles), and the partial and wholly-owned subsidiaries of Kandi Vehicles.

The Company's organizational chart is as follows:

* The box with dotted-line border represents the entity that has ceased operation and was dissolved in July 2014.

Operating Subsidiaries:

Pursuant to relevant agreements executed in January 2011, Kandi Vehicles is entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and loss absorption rate) of Jinhua Kandi New Energy Vehicles Co., Ltd. (Kandi New Energy), a company in which Kandi Vehicles has a 50% interest. Mr. Hu Xiaoming owns the other 50% which he entrusted Kandi Vehicles to manage Kandi New Energy. Kandi New Energy was established in accordance with relevant Chinese government regulations on automobile manufacturing enterprises, which prohibit foreign ownership of greater than 50%. Kandi New Energy currently holds vehicle production rights (license) on manufacturing Kandi brand electric utility vehicles (Special-purpose Vehicles) and production rights (license) on manufacturing battery packs used in Kandi brand electric vehicles (EVs). Kandi New Energy supplies battery packs for Kandi brand EVs.

F-8

Jinhua Three Parties New Energy Vehicles Service Co., Ltd. (Jinhua Service) was formed as a joint venture, by and among our wholly-owned subsidiary, Kandi Vehicles, the State Grid Power Corporation and Tianneng Power International. The Company, indirectly through Kandi Vehicles, had a 30% ownership interest in Jinhua Service. Jinhua Service was established in order to provide public charging stations for lead-acid batteries for EVs in Jinhua city. Currently, most of EV customers in Jinhua have the ability to charge their EVs by themselves. Since self-charging is more cost-efficient and most of the customers have switched from public-charging to self-charging, Jinhua Service ceased its operations and was dissolved accordingly in July 2014.

In April 2012, pursuant to a share exchange agreement, the Company acquired 100% of Yongkang Scrou Electric Co, Ltd. (Yongkang Scrou), a manufacturer of automobile and EV parts. Yongkang Scrou currently manufactures and sells EV drive motors, EV controllers, air conditioners and other electrical products to the JV Company (defined below).

In March 2013, pursuant to a joint venture agreement (the JV Agreement) entered into by Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely), the parties established Zhejiang Kandi Electric Vehicles Co., Ltd. (the JV Company) to develop, manufacture and sell EVs and related auto parts. Each of Kandi Vehicles and Shanghai Guorun has a 50% ownership interest in the JV Company. In March 2014, the JV Company changed its name to Kandi Electric Vehicles Group Co., Ltd. At present, the JV Company is a holding company with products that are manufactured by its subsidiaries.

In March 2013, Kandi Vehicles formed Kandi Electric Vehicles (Changxing) Co., Ltd. (Kandi Changxing) in the Changxing (National) Economic and Technological Development Zone. Kandi Changxing is engaged in the production of EVs. In the fourth quarter of 2013, Kandi Vehicles entered into an ownership transfer agreement with the JV Company pursuant to which Kandi Vehicles transferred 100% of its ownership in Kandi Changxing to the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Changxing.

In April 2013, Kandi Electric Vehicles (Wanning) Co., Ltd. (Kandi Wanning) was formed in Wanning City of Hainan Province by Kandi Vehicles and Kandi New Energy. Kandi Vehicles has a 90% ownership in Kandi Wanning, and Kandi New Energy holds the remaining 10% interest. However, by contract, Kandi Vehicles is, effectively, entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and losses) of Kandi Wanning. According to the JV Agreement, once Kandi Wanning becomes fully operational, its entire equity interests will be transferred to the JV Company.

In July 2013, Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the Service Company) was formed. The Service Company is engaged in various pure EV leasing businesses. The JV Company has a 19% ownership interest in the Service Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 9.5% economic interest in the Service Company.

In November 2013, Zhejiang Kandi Electric Vehicles Jinhua Co., Ltd. (Kandi Jinhua) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jinhua, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jinhua. Kandi Jinhua is engaged in EV manufacturing business.

In November 2013, Zhejiang JiHeKang Electric Vehicle Sales Co., Ltd. (JiHeKang) was formed by the JV Company and is engaged in the car sales business. The JV Company has 100% ownership interest in JiHeKang, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in JiHeKang.

In December 2013, the JV Company entered into an ownership transfer agreement with Shanghai Guorun pursuant to which the JV Company acquired 100% ownership of Kandi Electric Vehicles (Shanghai) Co., Ltd. (Kandi Shanghai). As a result, Kandi Shanghai is a wholly-owned subsidiary of the JV Company, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Shanghai. The company is mainly engaged in EV research and development, manufacturing and sales.

F-9

In January 2014, Zhejiang Kandi Electric Vehicles Jiangsu Co., Ltd. (Kandi Jiangsu) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jiangsu, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jiangsu. The company is mainly engaged in EV research and development, manufacturing and sales.

The Company's primary business operations are the design, development, manufacturing and commercialization of EV products, EV parts and off road vehicles. As part of its strategic objective to become a leading manufacturer of EV products and related services, the Company has increased its focus on fuel efficient, pure EV products with a particular emphasis on expanding its market share in China.

NOTE 2 - LIQUIDITY

The Company had a working capital surplus of \$39,202,684 as of December 31, 2014, an increase of \$45,834,364 from a working capital deficit of (\$6,631,680) as of December 31, 2013.

As of December 31, 2014, the Company had credit lines from commercial banks of \$42,739,904, of which \$35,589,502 was used as of December 31, 2014. The Company believes that its cash flows generated internally may not be sufficient to support the growth of future operations and to repay short-term bank loans for the next twelve (12) months. However, the Company believes its cash reserves, including the proceeds of its \$71 million registered direct offering financing completed on September 4, 2014 and its access to existing financing sources, including established relationships with PRC banks, will enable it to fund its ongoing operations.

The Company has historically financed its operations through short-term commercial bank loans from PRC banks. The term of these loans is typically for one year, and upon the payment of all outstanding principal and interest in a particular loan, the banks have typically rolled over the loan for additional one-year terms, with adjustments made to the interest rate to reflect prevailing market rates. The Company believes this situation has not changed and that short-term bank loans remain available on normal trade terms if needed.

On March 24, 2014, the Company raised approximately \$11.05 million from the sale to two institutional investors of an aggregate of 606,000 shares of its common stock at a price of \$18.24 per share. As part of the transaction, the Company also issued to the investors warrants for the purchase of up to 90,900 shares of common stock at an exercise price of \$22.80 per share, with a term of 18 months from the date of issuance.

On September 4, 2014, the Company raised approximately \$71.00 million before deducting fees to the placement agent and other offering expenses incurred from the sale to six institutional investors of an aggregate of 4,127,908 shares of its common stock at a price of \$17.20 per share. As part of the transaction terms, the Company also issued to the investors warrants for the purchase of up to 743,024 shares of common stock at an exercise price of \$21.50 per share, with a term of 17 months from the date of issuance.

NOTE 3 - BASIS OF PRESENTATION

The Company maintains its general ledger and journals with the accrual method accounting for financial reporting purposes. The financial statements and notes are representations of management. Accounting policies adopted by the Company conform to generally accepted accounting principles in the United States and have been consistently applied in the presentation of financial statements.

NOTE 4 - PRINCIPLES OF CONSOLIDATION

The consolidated financial statements reflect the accounts of the Company and its ownership interest in the following subsidiaries:

- (i) Continental, a wholly-owned subsidiary of the Company
F-10
-

- (ii) Kandi Vehicles, a wholly-owned subsidiary of Continental
- (iii) Kandi New Energy, a 50% owned subsidiary of Kandi Vehicles. Pursuant to relevant agreements executed in January 2011, Kandi Vehicles is entitled to 100% of the economic benefits, voting rights and residual interests of Kandi New Energy)
- (iv) Yongkang Scrou, a wholly-owned subsidiary of Kandi Vehicles
- (v) Kandi Wanning, a subsidiary 10% owned by Kandi New Energy and 90% owned by Kandi Vehicles)

All inter-company accounts and transactions have been eliminated in consolidation.

Equity Method Investees

The consolidated net income also includes the Company's proportionate share of the net income or loss of its equity method investees as following:

- (vi) The JV Company, a 50% owned subsidiary of Kandi Vehicles;
- (vii) Kandi Changxing, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest;
- (viii) Kandi Jinhua, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest;
- (ix) JiHeKang, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest;
- (x) Kandi Shanghai, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest;
- (xi) Kandi Jiangsu, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest;
- (xii) The Service Company, a 19%-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 9.5% economic interest;
- (xiii) Jinhua Service, a 30% owned subsidiary of Kandi Vehicles, which was dissolved in July 2014.

All intra-entity profits and losses with the Company's equity method investees have been eliminated.

NOTE 5 USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Management makes these estimates using the best information available at the time the estimates are made; however actual results when ultimately realized could differ from those estimates.

NOTE 6 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Economic and Political Risks

The Company's operations are conducted in the PRC. As a result, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environments in the PRC, and by the general state of the PRC economy. In addition, the Company's earnings are subject to movements in foreign currency exchange rates when transactions are denominated in Renminbi (RMB), which is the Company's functional currency. Accordingly, the Company's operating results are affected by changes in the exchange rate between the U.S. dollar and the RMB.

F-11

The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's performance may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other things.

(b) Fair Value of Financial Instruments

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1 defined as observable inputs such as quoted prices in active markets;

Level 2 defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3 defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of December 31, 2014, the Company's assets, measured at fair value, on a recurring basis, subject to the disclosure requirements of ASC 820, were as follows:

	Fair Value Measurements at Reporting Date Using Quoted Prices in Carrying Value as of December 31, 2014	Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and cash equivalents	\$ 26,379,460	\$ 26,379,460	-	-
Restricted cash	13,000,731	13,000,731	-	-
Warrants	12,342,885	-	-	12,342,885

Cash and cash equivalents consist primarily of highly-rated money market funds at a variety of well-known institutions with original maturities of three months or less. Restricted cash represents time deposits on account, some of which are used to secure short-term bank loans and notes payable. The original cost of these assets approximates fair value due to their short term maturity.

Warrants, which are accounted as liabilities, are treated as derivative instruments and are measured at each reporting date for their fair value using Level 3 inputs. Also see Note 6 (t).

(c) Cash and Cash Equivalents

The Company considers highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

Restricted cash, as of December 31, 2014 and 2013, represented time deposits on account for earning interest income. As of December 31, 2014 and 2013, the Company's restricted cash were \$13,000,731, which reflects a one-year Certificate of Time Deposit (CD) with Hangzhou Bank Jinhua Branch, and \$1,636, respectively.

(d) Inventories

Inventories are stated at the lower of cost or net realizable value (market value). The cost of raw materials is determined on the basis of weighted average. The cost of finished goods is determined on the weighted average basis and comprises direct materials, direct labor and an appropriate proportion of overhead.

Net realizable value is based on estimated selling prices less selling expenses and any further costs expected to be incurred for completion. Adjustments to reduce the cost of inventory to its net realizable value are made, if required, for estimated excess, obsolescence, or impaired balances.

(e) Accounts Receivable

Accounts receivable are recognized and carried at net realizable value. An allowance for doubtful accounts is recorded in periods in which the Company determines a loss is probable, based on its assessment of specific factors, such as troubled collections, historical experience, accounts aging, ongoing business relations and other factors. Accounts are written off after an exhaustive collection effort. If accounts receivable are to be provided for, or written off, they are recognized in the consolidated statement of operations within the operating expenses line item. As of December 31, 2014 and 2013, the Company had no allowance for doubtful accounts, as per the management's judgment based on their best knowledge.

As of December 31, 2014 and 2013, the credit terms with the Company's customers were typically 90 to 120 days after delivery.

(f) Notes receivable

Notes receivable represent short-term loans to third parties with the maximum term of one year. Interest income will be recognized according to each agreement between a borrower and the Company on an accrual basis. If notes receivable are paid back, or written off, that transaction will be recognized in the relevant year. If the loan default is probable, reasonably assured and the loss can be reasonably estimated, the Company will recognize income if the written-off loan is recovered at a future date. In case of any foreclosure proceedings or legal actions being taken, the Company provides an accrual for the related foreclosure expenses and related litigation expenses.

(g) Prepayments

Prepayments represent cash paid in advance to suppliers. As of December 31, 2014, prepayments included advances to raw material suppliers, mold manufacturers, and suppliers of equipment.

As of December 31, 2013, the Company recorded a significant prepayment made by the Company to a supplier as an advance of RMB 47 million (\$7,687,275) and deposited by Kandi Wanning to Nanjing Shangtong. As of December 31, 2014, the advance to Nanjing Shangtong was transferred to construction-in-progress as described in Note 15.

Advances for raw materials purchases typically are settled within two months by the Company's receipt of raw materials. Prepayment is offset against purchase amount after equipment or materials are delivered.

(h) Plant and Equipment

Plant and equipment are carried at cost less accumulated depreciation. Depreciation is provided over the estimated useful lives of the assets, using the straight-line method. Leasehold improvements are amortized over the life of the asset or the term of the lease, whichever is shorter. Estimated useful lives are as follows:

Buildings	30 years
-----------	----------

Machinery and equipment	10 years
Office equipment	5 years
Motor vehicles	5 years
Molds	5 years

F-13

The cost and related accumulated depreciation of assets sold or otherwise retired are eliminated from the accounts and any gain or loss is included in the statement of income. The cost of maintenance and repairs is charged to expense as incurred, whereas significant renewals and betterments are capitalized.

(i) Construction in Progress

Construction in progress represents the direct costs of construction, the acquisition cost of buildings or machinery and design fees. Capitalization of these costs ceases, and the construction in progress is transferred to plant and equipment, when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided until the assets are completed and ready for their intended use.

(j) Land Use Rights

According to the Chinese laws, land in the PRC is owned by the government and land ownership rights cannot be sold to an individual or to a private company. However, the government grants the user a land use right to use the land. The land use rights granted to the Company are being amortized using the straight-line method over the term of fifty years.

(k) Accounting for the Impairment of Long-Lived Assets

The Company periodically evaluates the carrying value of long-lived assets to be held and used, including intangible assets subject to amortization, when events and circumstances warrant such a review, pursuant to the guidelines established in Statement of Financial Accounting Standards (SFAS) No. 144 (now known as ASC 360). The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

During the reporting period, no impairment loss was recognized.

(l) Revenue Recognition

Revenue represents the invoiced value of goods sold. Revenue is recognized when the Company ships the goods to its customers and all of the following criteria are met:

- Persuasive evidence of an arrangement exists;
- Delivery has occurred or services have been rendered;
- The seller's price to the buyer is fixed or determinable; and
- Collectability is reasonably assured.

The Company recognized revenue when the products and the risk they carry are transferred to the other party.

(m) Research and Development

Expenditures relating to the development of new products and processes, including significant improvements to existing products, are expensed as incurred. Research and development expenses were \$2,755,637, \$3,728,730 and \$2,877,283 for the years ended December 31, 2014, 2013 and 2012, respectively.

(n) Government Grants

Grants and subsidies received from the PRC Government are recognized when the proceeds are received or collectible.

For the years ended December 31, 2014, 2013 and 2012, \$288,498, \$228,396 and \$132,139, respectively, were received by Kandi Vehicle from the PRC government.

(o) Income Taxes

The Company accounts for income tax using an asset and liability approach, which allows for the recognition of deferred tax benefits in future years. Under the asset and liability approach, deferred taxes are provided for the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The accounting for deferred tax calculation represents the management's best estimate on the most likely future tax consequences of events that have been recognized in our financial statements or tax returns and related future anticipation. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future realization is uncertain.

(p) Foreign Currency Translation

The accompanying consolidated financial statements are presented in U. S. dollars. The functional currency of the Company is the RMB. Capital accounts of the consolidated financial statements are translated into United States dollars from RMB at their historical exchange rates when the capital transactions occurred.

Assets and liabilities are translated at the exchange rates as of balance sheet date. Income and expenditures are translated at the average exchange rate of the reporting period, which rates are obtained from the website: <http://www.oanda.com>

	December 31, 2014	December 31, 2013
Period end RMB : USD exchange rate	6.15350	6.11400
Average RMB : USD exchange rate	6.14821	6.19817

(q) Comprehensive Income

Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, all items that are required to be recognized under current accounting standards as components of comprehensive income are required to be reported in a financial statement that is presented with the same prominence as other financial statements. Comprehensive income includes net income and the foreign currency translation changes.

(r) Segments

In accordance with ASC 280-10, Segment Reporting (ASC 280-10), the Company's chief operating decision makers rely upon the consolidated results of operations when making decisions about allocating resources and assessing performance of the Company. As a result of the assessment made by the chief operating decision makers, the Company has only one single operating segment. The Company does not distinguish between markets or segments for the purpose of internal reporting.

(s) Stock Option Expenses

The Company's stock option expenses are recorded in accordance with ASC 718 and ASC 505.

The fair value of stock options is estimated using the Black-Scholes-Merton model. The Company's expected volatility assumption is based on the historical volatility of the Company's common stock. The expected life assumption is primarily based on the expiration date of the option. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

F-15

The recognition of the stock option expenses is based on awards expected to vest, and there were no estimated forfeitures. ASC standards require forfeitures to be estimated at the time of grants and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

The stock-based option expenses for the years ended December 31, 2014, 2013 and 2012 were \$0, \$0 and \$19,053, respectively. See Note 20.

(t) Warrant Cost

The Company's warrant costs are recorded in liabilities and equities, respectively, in accordance with ASC 480, ASC 505 and ASC 815.

The fair value of a warrant, which is classified as a liability, is estimated using the Black-Scholes-Merton model and the lattice valuation model. The Company's expected volatility assumption is based on the historical volatility of the Company's common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the warrant is based on the U.S. Treasury yield curve in effect at the time of measurement. The warrants, which are freestanding derivatives and are classified as liabilities on the balance sheet, will be measured at fair value on each reporting date, with decreases in fair value recognized in earnings and increases in fair values were recognized in expenses.

The fair value of equity-based warrants, which are not considered derivatives under ASC 815, is estimated using the Black-Scholes-Merton model. The Company's expected volatility assumption is based on the historical volatility of the Company's common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

(u) Goodwill

The Company allocates goodwill from business combinations to reporting units based on the expectation that the reporting unit is to benefit from the business combination. The Company evaluates its reporting units on an annual basis and, if necessary, reassigns goodwill using a relative fair value allocation approach. Goodwill is tested for impairment at the reporting unit level on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition, or sale or disposition of a significant portion of a reporting unit.

Application of the goodwill impairment test requires judgments, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and the determination of the fair value of each reporting unit. The Company first assesses qualitative factors to determine whether it is more likely than not that goodwill is impaired. If the more likely than not threshold is met, the Company performs a quantitative impairment test. As of December 31, 2014 and 2013, the Company determined that its goodwill was not impaired.

(v) Intangible assets

Intangible assets consist of tradenames and customer relations associated with the purchase price from the allocation of Yongkang Scrou. Such assets are being amortized over their estimated useful lives of 9.7 years. Intangible assets are amortized as of December 31, 2014 and 2013.

(w) Accounting for Sale of Common Stock and Warrants

Gross proceeds are firstly allocated according to the initial fair value of the freestanding derivative instruments (i.e. the warrants issued to the Company's investors in its previous offerings, or the Investor Warrants). The remaining proceeds are allocated to common stock. The related issuance expenses, including the placement agent cash fees, legal fees, the initial fair value of the warrants issued to the placement agent, etc, were allocated between the common stock and the Investor Warrants based on how the proceeds allocated to these instruments. Expenses related to the issuance of common stock were charged to paid-in capital.

Expenses related to issuance of the derivative instruments were expensed upon issuance.

NOTE 7 NEW ACCOUNTING PRONOUNCEMENTS

The FASB has issued Accounting Standards Update (ASU) No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in U.S. GAAP. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. This disclosure will provide users with information about the ongoing trends in a reporting organization's results from continuing operations. The amendments in this ASU enhance convergence between U.S. GAAP and International Financial Reporting Standards (IFRS). Part of the new definition of discontinued operation is based on elements of the definition of discontinued operations in IFRS 5, Non-Current Assets Held for Sale and Discontinued Operations. The amendments in the ASU are effective in the first quarter of 2015 for public organizations with calendar year ends. For most nonpublic organizations, it is effective for annual financial statements with fiscal years beginning on or after December 15, 2014. Early adoption is permitted. The Company does not expect ASU 2014-08 to have a significant impact on its consolidated results of operations and financial condition.

The FASB has issued Accounting Standards Update (ASU) No. 2014-11, Transfers and Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures, which changes the accounting for repurchase-to-maturity transactions and repurchase financing arrangements. It also requires additional disclosures about repurchase agreements and other similar transactions. According to the FASB, the new guidance aligns the accounting for repurchase-to-maturity transactions and repurchase agreements executed as a repurchase financing with the accounting for other typical repurchase agreements. Going forward, these transactions would all be accounted for as secured borrowings. The guidance eliminates sale accounting for repurchase-to-maturity transactions and supersedes the guidance under which a transfer of a financial asset and a contemporaneous repurchase financing could be accounted for on a combined basis as a forward agreement, which has resulted in outcomes referred to as off-balance-sheet accounting. ASU 2014-11 also brings U.S. GAAP into greater alignment with IFRS for repurchase-to-maturity transactions. The amendments in the ASU require a new disclosure for transactions economically similar to repurchase agreements in which the transferor retains substantially all of the exposure to the economic return on the transferred financial assets throughout the term of the transaction. The amendments in the ASU also require expanded disclosures about the nature of collateral pledged in repurchase agreements and similar transactions accounted for as secured borrowings. The amendments in this ASU are effective for public companies for the first interim or annual period beginning after December 15, 2014. In addition, for public companies, the disclosure for certain transactions accounted for as a sale is effective for the first interim or annual period beginning on or after December 15, 2014, and the disclosure for transactions accounted for as secured borrowings is required to be presented for annual periods beginning after December 15, 2014, and interim periods beginning after March 15, 2015. For all other entities, all changes are effective for annual periods beginning after December 15, 2014, and interim periods beginning after December 15, 2015. Earlier application for a public company is prohibited, but all other companies and organizations may elect to apply the requirements for interim periods beginning after December 15, 2014. The Company does not expect ASU 2014-11 to have a significant impact on its consolidated results of operations and financial condition.

The FASB has issued Accounting Standards Update (ASU) No. 2014-17, Business Combinations (Topic 805): Pushdown Accounting (a consensus of the FASB Emerging Issues Task Force). The amendments in this ASU apply to the separate financial statements of an acquired entity and its subsidiaries that are a business or nonprofit activity (either public or nonpublic) upon the occurrence of an event in which an acquirer (an individual or an entity) obtains control of the acquired entity. The amendments in this ASU provide an acquired entity with an option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. An acquired entity may elect the option to apply pushdown accounting in the reporting period in which the change-in-control event occurs. An acquired entity should determine whether to elect to apply pushdown accounting for each individual change-in-control event in which an acquirer obtains control of the acquired entity. If pushdown accounting is not applied in the reporting period in which the change-in-control event occurs, an acquired entity will have the option to elect to apply pushdown accounting in a subsequent reporting period to the acquired entity's most recent change-in-control event. An election to apply pushdown accounting in a reporting period after the reporting period in which the change-in-control event occurred should be considered a change in accounting principle. If pushdown accounting is applied to an individual change-in-control event, that election is irrevocable. If an acquired entity elects the option to apply pushdown accounting in its separate financial statements, it should disclose information in the current reporting period that enables users of financial statements to evaluate the effect of pushdown accounting. The amendments in this ASU are effective on November 18, 2014. After the effective date, an acquired entity can make an election to apply the guidance to future change-in-control events or to its most recent change-in-control event. However, if the financial statements for the period in which the most recent change-in-control event occurred already have been issued or made available to be issued, the application of this guidance would be a change in accounting principle. The Company does not expect ASU 2014-17 to have a significant impact on its consolidated results of operations and financial condition.

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's consolidated financial statements upon adoption.

NOTE 8 CONCENTRATIONS

(a) Customers

The Company's major customers, each of whom accounted for more than 10% of the Company's consolidated revenue, were as follows:

	Sales			Accounts Receivable and Amount Due from JV Company, Net (1)		
	Year Ended December, 31, 2014	Year Ended December, 31, 2013	Year Ended December, 31, 2012	December 31, 2014	December 31, 2013	December 31, 2012
Major Customers						
Kandi Electric Vehicles (Changxing) Co., Ltd.	38%	-	-	17%	-	-
Kandi Electric Vehicles (Shanghai) Co., Ltd.	23%	-	-	16%	-	-
Shanghai Maple Auto Co., Ltd.	10%	23%	-	3%	47%	-

(1) The balance at December 31, 2014 didn't include the one-year entrusted loan of \$24,376,371 that Kandi Vehicle lent to the JV Company.

(b) Suppliers

The Company's material suppliers, each of whom accounted for more than 10% of the Company's total purchases, were as follows:

	Purchases			Accounts Payable		
	Year Ended December, 31, 2014	Year Ended December, 31, 2013	Year Ended December, 31, 2012	December, 31, 2014	December, 31, 2013	December, 31, 2012
Major Suppliers						
Zhejiang New Energy Auto System Co., Ltd.	31%	33%	26%	12%	12%	-

Zhongju (Tianjin) New Energy Investment Co.,	11%	-	-	29%	-	-

Ltd.

F-18

NOTE 9 INCOME PER SHARE

The Company calculates earnings per share in accordance with ASC 260, Earnings Per Share, which requires a dual presentation of basic and diluted earnings per share. Basic earnings per share are computed using the weighted average number of shares outstanding during the reporting period. Diluted earnings per share represents basic earnings per share adjusted to include the potentially dilutive effect of outstanding stock options, warrants and convertible notes (using the if-converted method). For the year ended December 31, 2014, 2013 and 2012, the number of potentially dilutive common shares were 132,323, 0 and 237,997, respectively. The following table sets forth the computation of basic and diluted net income per common share:

Twelve months Ended December 31,	2014	2013	2012
Net (loss) income	\$ 12,271,338	\$ (21,140,723)	\$ 6,049,479
Weighted average shares of common stock outstanding			
Basic	42,583,495	34,707,973	29,439,328
Dilutive shares	132,323	0	237,997
Diluted	42,715,818	34,707,973	29,677,325
Basic earnings per share	\$ 0.29	\$ (0.61)	\$ 0.21
Diluted earnings per share	\$ 0.29	\$ (0.61)	\$ 0.20

Also see Note 19.

NOTE 10 - ACCOUNTS RECEIVABLE

Accounts receivable are summarized as follows:

	December 31, 2014	December 31, 2013
Accounts receivable	\$ 15,736,805	\$ 31,370,862
Less: Provision for doubtful debts	-	-
Accounts receivable, net	\$ 15,736,805	\$ 31,370,862

During the fiscal years ended December 31, 2014, 2013 and 2012, the Company sold products to Kandi USA Inc., a company that operates under the trade name of Eliteway Motorsports (Eliteway), amounting to \$2,981,944, \$6,906,807 and \$5,297,548, respectively. As of December 31, 2014 and 2013, the outstanding receivable due from Eliteway were \$620,410 and \$2,800,958, respectively.

Mr. Hu Wangyuan was the sole shareholder and officer of Eliteway which served as a US importer of the Company's products. Mr. Hu Wangyuan is the adult son of the Company's chairman and Chief Executive Officer, Mr. Hu Xiaoming. For the years ended December 31, 2014, 2013 and 2012, Eliteway and Mr. Hu Wangyuan were financially independent from the Company. The transactions between the Company and Eliteway were carried out at arm's-length without any preferential terms when compared with other customers at the comparative order size or volume.

NOTE 11 - INVENTORIES

Inventories are summarized as follows:

	December 31, 2014	December 31, 2013
Raw material	\$ 3,621,428	\$ 2,646,041
Work-in-progress	3,104,678	5,065,126
Finished goods	8,993,318	1,829,281
Total inventories	15,719,424	9,540,448
Less: provision for slowing moving inventories	(315,584)	(352,734)
Inventories, net	\$ 15,403,840	\$ 9,187,714

NOTE 12 - NOTES RECEIVABLE

Notes receivable are summarized as follows:

	December 31, 2014	December 31, 2013
Notes receivable from unrelated companies:		
Due September 30, 2015, interest at 9.6% per annum 1	\$ 8,117,888	\$ 13,794,094
Bank acceptance notes:		
Bank acceptance notes	942,553	-
Notes receivable	\$ 9,060,441	\$ 13,794,094

Notes receivable are unsecured.

Details of Notes receivable from unrelated parties as of December 31, 2014

Amount(\$)	Counter party	Relationship	Purpose of Loan	Manner of settlement
1) 8,117,888	Yongkang HuiFeng Guarantee Co., Ltd	No relationship beyond loan	Receive interest income	Not Due.

Details of Notes receivable from unrelated parties as of December 31, 2013

Amount(\$)	Counter party	Relationship	Purpose of Loan	Manner of settlement
1) 13,794,094	Yongkang HuiFeng Guarantee Co., Ltd	No relationship beyond loan	Receive interest income	Not Due

NOTE 13 PLANT AND EQUIPMENT

Plant and equipment consisted of the following:

	December 31, 2014	December 31, 2013
At cost:		
Buildings	\$ 14,492,949	\$ 14,514,873
Machinery and equipment	7,916,281	10,771,899
Office equipment	283,494	251,690
Motor vehicles	355,547	288,004
Moulds	34,523,167	34,230,014
	57,571,438	60,056,480
Less : Accumulated depreciation		
Buildings	\$ (3,480,417)	\$ (3,010,451)
Machinery and equipment	(7,371,047)	(10,278,409)
Office equipment	(220,944)	(196,303)
Motor vehicles	(254,331)	(228,442)
Moulds	(19,972,647)	(16,648,583)
	(31,299,386)	(30,362,188)
Less: provision for impairment for fixed assets	(56,696)	(360,776)
Plant and equipment, net	\$ 26,215,356	\$ 29,333,516)

As of December 31, 2014 and 2013, the net book value of plant and equipment pledged as collateral for the Company's bank loans were \$10,816,480 and \$11,292,649, respectively.

Depreciation expenses for the years ended December 31, 2014, 2013 and 2012 were \$5,110,681, \$7,273,260 and \$4,577,092, respectively.

NOTE 14 LAND USE RIGHTS

The Company's land use rights consist of the following:

	December 31, 2014	December 31, 2013
Cost of land use rights	\$ 17,786,170	\$ 16,223,208
Less: Accumulated amortization	(2,137,018)	(1,770,017)
Land use rights, net	\$ 15,649,152	\$ 14,453,191

As of December 31, 2014 and 2013, the net book value of the land use rights pledged as collateral for the Company's bank loans were \$9,665,834 and \$9,983,647 respectively. Also see Note 16.

It is a common business practice among companies in the region of China where Kandi is located to exchange guarantees for bank debt with no consideration given. It is considered a favor for favor business practice and is commonly required by the lending banks as in these cases. Zhejiang Mengdeli Electric Co., Ltd (ZMEC) has provided a guarantee for certain of the Company's bank loans. As of December 31, 2014 and 2013, ZMEC had guaranteed bank loans of the Company for a total of \$12,675,713 and \$16,028,786, respectively.

The amortization expense for the years ended December 31, 2014, 2013 and 2012 were \$378,689, \$353,568 and \$346,761, respectively.

Amortization expense for the next five years and thereafter is as follows:

2015	\$	378,689
2016		378,689
2017		378,689
2018		378,689
2019		378,689
Thereafter		13,755,707
Total	\$	15,649,152

NOTE 15 - CONSTRUCTION-IN-PROGRESS

Construction-in-progress (CIP) relates to facility being built in Wanning City of Hainan Province.

Kandi Wanning facility

In April 2013, Kandi Electric Vehicles (Wanning) Co., Ltd. (Kandi Wanning) was formed in Wanning City of Hainan Province. The Company signed an agreement with Wanning city government and planned to invest a total of RMB 1 billion, or \$162,509,141, to develop a factory in Wanning with an annual production of 100,000 EVs. In 2013, the Company contracted with an unrelated third party equipment supplier, Nanjing Shangtong Auto Technologies Co., Ltd. (Nanjing Shangtong), to purchase equipment. The equipment was purchased and delivered according to the construction schedule and development of Kandi Wanning. As of December 31, 2014, a total amount of advances to suppliers of RMB 360,041,600, or \$58,510,051, made by Kandi Wanning to Nanjing Shangtong for equipment purchases was transferred to CIP. None of construction-in-progress was transferred to property, plant and equipment during the years ended December 31, 2014 and 2013, respectively. The Company expects the purchase and installation of the equipment will be completed and the trial production will be launched by the end of 2015.

No depreciation is provided for construction-in-progress until such time when the assets are completed and placed into operation.

The construction project the Company was in the progress of completing is as follow:

Project	Total in CIP as of December 31, 2014	Estimated Cost to Complete	Estimated Total Cost	Estimated Completion Date
Kandi Wanning facility	\$ 58,510,051	\$ 103,999,090	\$ 162,509,141	December 2015
Total	\$ 58,510,051	\$ 103,999,090	\$ 162,509,141	

As of December 31, 2014 and 2013, the Company had construction in progress amounting to \$58,510,051 and \$16,356, respectively.

No interest expense has been capitalized for construction-in-progress for the years ended December 31, 2014, 2013 and 2012, respectively.

NOTE 16 SHORT-TERM BANK LOANS

Short-term loans are summarized as follows:

	Decem 20
Loans from Jinhua Bank	
Monthly interest only payments at 6.30% per annum, due October 10, 2014, guaranteed by Mr. Hu Xiaoming and Ms. Ling Yueping, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14. \$	
Monthly interest only payments at 6.30% per annum, due December 2, 2014, guaranteed by Mr. Hu Xiaoming and Ms. Ling Yueping, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14.	
Monthly interest only payments at 6.30% per annum, due December 2, 2014, guaranteed by Zhejiang Kangli Metal Manufacturing Company, Mr. Hu Xiaoming, Ms. Ling Yueping, Mr. Lv Qingbo and Mr. Lv Qingjiang, and secured by the assets of the Company. The loan was fully repaid. Also see Note 13 and Note 14.	
Loans from Yongkang Rural Cooperative Bank	
Monthly interest only payments at 1.026% per month, due March 31, 2014, guaranteed by Yongkang Sanli Metal Co., Ltd. The loan was fully repaid.	
Loans from China Ever-bright Bank	
Monthly interest only payments at 6.94% per annum, due May 14, 2014, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming, Mr. Hu Wangyuan, Nanlong Group Co., Ltd. and Zhejiang Mengdeli Electric Co., Ltd. The loan was fully repaid. Also see Note 13 and Note 14.	
Monthly interest only payments at 7.08% per annum, due May 11, 2015, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming, Mr. Hu Wangyuan, Nanlong Group Co., Ltd. and Zhejiang Mengdeli Electric Co., Ltd. Also see Note 13 and Note 14.	12,6
Loans from Shanghai Pudong Development Bank	
Monthly interest only payments at 6.60% per annum, due September 4, 2014, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming. The loan was fully repaid. Also see Note 13 and Note 14.	
Loans from Bank of Shanghai	
Monthly interest only payments at 6.60% per annum, due December 27, 2014, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, Zhejiang Kangli Metal Manufacturing Company and Nanlong Group Co., Ltd. The loan was fully repaid.	
Loans from China Ever-growing Bank	
Monthly interest only payments at 7.20% per annum, due April 22, 2014, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, Zhejiang Shuguang industrial Co., Ltd. and Zhejiang Mengdeli Electric Company. The loan was fully repaid.	
Monthly interest only payments at 7.20% per annum, due April 22, 2015, guaranteed by Mr. Hu Xiaoming, Ms. Ling Yueping, and Zhejiang Shuguang industrial Co., Ltd.	3,2
Loans from Hangzhou Bank	

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

Monthly interest only payments at 6.00% per annum, due October 20, 2015, secured by the assets of the Company.

11,7

\$ 35,5

The interest expense of the short-term bank loans for the years ended December 31, 2014, 2013 and 2012 were \$3,480,646, \$2,302,389 and \$2,556,967, respectively.

F-23

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

As of December 31, 2014, the aggregate amount of short-term loans that was guaranteed by various third parties was \$15,925,896

- \$12,675,713 was guaranteed by Zhejiang Mengdeli Electric Co Ltd (ZMEC).

- \$3,250,183 was guaranteed by Zhejiang Shuguang industrial Co., Ltd., whose bank loan of \$4,875,274 was guaranteed by the Company. Also see Note 24.

- \$12,675,713 was guaranteed by Nanlong Group Co., Ltd., whose bank loans of \$9,750,548 was also guaranteed by the Company. Also see Note 24.

As of December 31, 2013, the aggregate amount of short-term loans that were guaranteed or secured by various third parties was \$27,477,919. The breakdown is as follows:

- \$16,028,786 was guaranteed by Zhejiang Mengdeli Electric Co Ltd (ZMEC).

- \$8,177,952 was guaranteed by Zhejiang Kangli Metal Manufacturing Company, whose bank loan of \$4,906,771 is guaranteed by the Company. \$3,271,181 of the \$8,177,952 is guaranteed by Lv Qingjiang and Lv Qingbo, two major shareholders of Zhejiang Kangli Metal Manufacturing Company. Also see Note 24.

- \$3,271,181 was guaranteed by Zhejiang Shuguang industrial Co., Ltd., whose bank loan of \$4,906,771 is guaranteed by the Company. Also see Note 24.

- \$17,664,376 was guaranteed by Nanlong Group Co., Ltd. whose bank loans of \$9,813,543 is also guaranteed by the Company. Also see Note 24.

- \$817,795 was guaranteed by Yonnkang Sanli Metal Co., Ltd.

It is a common business practice among companies in the region of the PRC in which the Company is located to exchange guarantees for bank debt with no additional consideration given. It is considered a favor for favor business practice and is commonly required by Chinese lending banks, as in these cases.

NOTE 17 NOTES PAYABLE

By issuing bank notes payables rather than paying cash to suppliers, the Company can defer the payments until the date the bank notes payable is due. Simultaneously, depending on the requirements of the banks, the Company may need to deposit restricted cash in banks to back up the bank notes payable, while the restricted cash deposited in the banks will generate interest income.

Notes payable are summarized as follows:

	December 31, 2014	December 31, 2013
Bank acceptance notes:		
Due March 18, 2014	\$ -	\$ 1,962,709
Due May 19, 2014	-	8,177,952
Due May 21, 2014	-	6,542,362
Due April 30, 2015	4,062,729	-
Due May 4, 2015	826,846	-
Due June 2, 2015	812,546	-
Total	\$ 5,702,121	\$ 16,683,023

A bank acceptance note, is a promised future payment, or time draft, which is accepted and guaranteed by a bank and drawn on a deposit at the bank. The banker's acceptance specifies the amount of money, the date, and the person to which the payment is due.

F-24

After acceptance, the draft becomes an unconditional liability of the bank. But the holder of the draft can sell (exchange) it for cash at a discount to a buyer who is willing to wait until the maturity date for the funds in the deposit.

All the bank acceptance notes do not bear interest, but are subject to bank's charges of 0.05% of the principal as commission on each transaction. Bank charges for notes payable were \$9,359, \$21,136 and \$20,246 in 2014, 2013 and 2012, respectively.

No restricted cash is held as collateral for the notes payable at December 31, 2014 and 2013.

NOTE 18 BOND PAYABLE

On December 27, 2013, the Company issued the bond of RMB 80,000,000, or \$13,000,731, to China Ever-bright Securities Co. Ltd. and CITIC Securities Company Limited. The maturity of this bond was 3 years, and the material terms of this bond were similar to the terms of the bond issued in 2012 and repaid in August 2013, except that the interest rate was reduced to 11.5%. Bond interest was payable on December 27 in each of 2014, 2015 and 2016. In October, 2014, the Company repaid, without a prepayment penalty, all principal and interest to China Ever-bright Securities Co. Ltd. and CITIC Securities Company Limited. For the year ended December 31, 2014, \$1,262,691 of interest expense was paid.

The Company did not issue any bond during the year ended December 31, 2014.

NOTE 19 TAXES

(a) Corporation Income Tax

In accordance with the relevant tax laws and regulations of the PRC, applicable corporate income tax (CIT) rate is 25%. However, the Kandi Vehicle, qualified as a high technology company in China, was entitled to pay a reduced income tax rate of 15%. The applicable corporate income tax rate of each of the Company's three subsidiaries, Kandi New Energy, Yongkang Scrou and Kandi Wanning, the JV Company and its subsidiaries and the Service Company was 25%.

The Company, qualified as a high technology company in China, was entitled to pay a reduced CIT rate of 15%. After combining with the research and development tax credit of 25% on certain qualified research and development expenses, the final effective reduced income tax rate was 18.40%. The combined tax benefits were 60.38%. The actual effective income tax rate was reduced from 25% to 9.91% of the 2014 taxable corporate income.

According to the PRC CIT reporting system, the CIT sales cut-off base is concurrent with the value-added tax (VAT), which should reported to the State Administration of Taxation (SAT) on a quarterly basis. Since the VAT and CIT are accounted for on a VAT tax basis that recorded all sales on a State provided official invoices reporting system, the Company is reporting the CIT according to the SAT prescribed tax reporting rules. Under the VAT tax reporting system, sales cut-off is not done on an accrual basis but rather on a VAT taxable reporting basis. Therefore, when the Company adopted U.S. GAAP using an accrual basis, the sales cut-off CIT timing (due to the VAT reporting system) creates a temporary sales cut-off timing difference. This difference is reflected in the deferred tax assets or liabilities calculations on the income tax estimate reported elsewhere on the this report.

Effective January 1, 2007, the Company adopted ASC 740, Income Taxes. The interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements.

Under ASC 740, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. ASC 740 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. As of December 31, 2014, the Company does not have a liability for unrecognized tax benefits. The Company files income tax returns to the U.S. Internal Revenue Services (IRS) and states where the Company has operations. The Company is subject to U.S. federal or state income tax examinations by the IRS and relevant state tax authorities for years after 2006. During the periods open to examination, the Company has net operating loss carry forwards (NOLs) for U.S. federal and state tax purposes that have attributes from closed periods. Since these NOLs may be utilized in future periods, they remain subject to examination. The Company also files certain tax returns in China. As of December 31, 2014, the Company was not aware of any pending income tax examinations by U.S. and China tax authorities. The Company's policy is to record interest and penalties on uncertain tax provisions as income tax expense. As of December 31, 2014, the Company has no accrued interest or penalties related to uncertain tax positions. The Company has not recorded a provision for U.S. federal income tax for the year ended December 31, 2014 due to the net operating loss in 2014 and an accumulated net operating loss carry forward from prior years in the United States.

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

Income tax expenses for the years ended December 31, 2014, 2013 and 2012 is summarized as follows:

For the Year Ended

	2014	December 31, 2013	2012
Current:			
Provision for CIT	\$ 2,414,412	\$ 1,593,994	\$ 1,523,735
Provision for Federal Income Tax			
Deferred:			
Provision for CIT			
Income tax expense	\$ 2,414,412	\$ 1,593,994	\$ 1,523,735

The Company's income tax expense differs from the expected tax expense for the years ended December 31, 2014, 2013 and 2012 (computed by applying the U.S. Federal Income Tax rate of 34% and PRC Corporation Income Tax rate of 25%, respectively to income before income taxes) as follows:

	For the Year Ended December 31,		
	2014	2013	2012
Computed expected income (expense)	\$ 929,405	\$ (1,381,713)	\$ 651,245
Favorable tax rate	(611,672)	(1,378,429)	(1,232,306)
Permanent differences	(929,318)	361,230	932,699
Valuation Allowance	3,025,997	3,992,906	1,172,097
Income tax expense	\$ 2,414,412	\$ 1,593,994	\$ 1,523,735

The tax effects of temporary differences that give rise to the Company's net deferred tax assets and liabilities as of December 31, 2014, 2013 and 2012 are summarized as follows:

	December 31, 2014	December 31, 2013	December 31, 2012
Current portion:			
Deferred tax assets (liabilities):			
Expense	\$ (80,016)	\$ 47,224	\$ (193,777)
Subtotal	(80,016)	47,224	(193,777)
Deferred tax assets (liabilities):			
Sales cut-off difference derived from Value Added Tax reporting system to calculate PRC Corporation Income Tax in accordance with the PRC State Administration of Taxation	(26,226)	(33,518)	138,611
Other	(124,622)		
Subtotal	(150,848)	(33,518)	138,611
Total deferred tax assets (liabilities) current portion	(230,864)	13,706	(55,166)
Non-current portion:			
Deferred tax assets:			
Depreciation	(551,697)	81,076	223,409
Loss carried forward	3,025,997	3,992,906	1,172,097
Valuation allowance	(3,025,997)	(3,992,906)	(1,172,097)
Subtotal	(551,697)	81,076	223,409

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

Deferred tax liabilities:

Accumulated other comprehensive gain	(1,715,028)	(1,009,477)	(222,714)
Subtotal	(1,715,028)	(1,009,477)	(222,714)

Net deferred tax (liabilities) assets	(2,497,589)	\$ (914,695)	\$ (54,471)

F-26

(b) Tax Holiday Effect

For the years ended December 31, 2014, 2013 and 2012, the PRC corporate income tax rate was 25%. Certain subsidiaries of the Company are entitled to tax exemptions (tax holidays) for the years ended December 31, 2014, 2013 and 2012.

The combined effects of the income tax expense exemptions and reductions available to the Company for the years ended December 31, 2014, 2013 and 2012 are as follows:

	For the Year Ended		
	2014	December 31 2013	2012
Tax holiday effect	\$ 611,672	\$ 1,378,429	\$ 1,232,306
Basic net income per share effect	\$ 0.01	\$ 0.04	\$ 0.04

NOTE 20 - STOCK OPTIONS AND WARRANTS

(a) Stock Options

On February 11, 2009, the Compensation Committee of the Board of Directors of the Company approved the grant of stock options to purchase 2,600,000 shares of common stock at an exercise price of \$0.80 per share to ten of the Company's employees and directors. The stock options vested ratably over three years and expire on the tenth anniversary of the grant date. The Company valued the stock options at \$2,062,964 and amortized the stock compensation expense using the straight-line method over the service period from February 11, 2009 through February 11, 2012. The value of the options was estimated using the Black Scholes Model with an expected volatility of 164%, expected life of 10 years, risk-free interest rate of 2.76% and expected dividend yield of 0.00%. On June 30, 2011, one of the Company's directors resigned, and his 6,668 unexercised options were forfeited. As of December 31, 2013, options for 2,366,672 shares have been exercised and 6,668 options had been forfeited. As of December 31, 2014, options for 2,593,332 shares had been exercised and options for 6,668 shares had been forfeited.

On October 6, 2009, the Company executed an agreement with Wang Rui and Li Qiwen, third-party consultants, whereby Mr. Wang and Mr. Li were to provide to the Company business development services in China in exchange for options to purchase 350,000 shares of the Company's common stock at an exercise price of \$1.50 per share. Per the agreement, options to purchase 250,000 shares vested and became exercisable on March 6, 2010, and options to purchase 100,000 shares vested and became exercisable on June 6, 2010. The options are issued under and subject to the terms of the Company's 2008 Omnibus Long-Term Incentive Plan. As of December 31, 2014, options for 250,000 shares had been exercised and 100,000 shares were forfeited due to the non-performance of services.

The following is a summary of the stock option activities of the Company:

	Number of Shares	Weighted Average Exercise Price
Outstanding as of January 1, 2013	326,660	\$ 1.01
Granted	-	-
Exercised	-	-
Cancelled	-	-
Outstanding as of January 1, 2014	326,660	1.01
Granted	-	-
Exercised	(226,660)	0.80
Cancelled	(100,000)	1.50
Outstanding as of December 31, 2014	-	\$ -

The fair value per share of the 2,600,000 options issued to the employees and directors in February 2009 is \$0.7934 per share.

(b) Warrants

On June 26, 2013, the Company entered into a securities purchase agreement with certain institutional investors (the Third Round Investors) that closed on July 1, 2013, pursuant to which, the Company sold to the Third Round Investors, in a registered direct offering, an aggregate of 4,376,036 shares of the Company's common stock at a negotiated purchase price of \$6.03 per share. Under the 2013 Securities Purchase Agreement, the Third Round Investors also received Series A warrants for the purchase of up to 1,750,415 shares of the Company's common stock at an exercise price of \$7.24 per share and an option to make an additional investment in the form of Series B warrants and Series C warrants: Series B warrants to purchase a maximum aggregate of 728,936 shares of the Company's common stock at an exercise price of \$7.24 per share and the Series C warrants to purchase a maximum aggregate of 291,574 shares of the Company's common stock at an exercise price of \$8.69 (the Third Round Warrants). In addition, the placement agent for this transaction also received warrants for the purchase of up to 262,562 shares of the Company's common stock at an exercise price of \$7.24 per share (the Third Round Placement Agent Warrants). As of December 31, 2014 all the Third Round Series A, Series B and Series C warrants had been exercised on a cash basis and the Third Round Placement Agent Warrants, which will expire on July 1, 2016, had a fair value of \$8.36 per share.

On January 15, 2014, the Company sold to certain institutional investors warrants to purchase an aggregate of 1,429,393 shares of the Company's common stock at an exercise price of \$15 per share (the Fourth Round Warrants) for a total purchase price of approximately \$14,294. According to the warrant subscription agreement by and among the Company and the holders, the exercise price shall be reduced by a credit of \$0.01, which reflects the price per warrant share paid in connection with the issuance of the Fourth Round Warrants. Consequently, the effective exercise price per warrant share shall be \$14.99. The Fourth Round Warrants were immediately exercisable and will expire on January 30, 2015. As of December 31, 2014, the fair value of the Fourth Round Warrants was \$1.57 per share.

On March 19, 2014, the Company entered into a securities purchase agreement with certain purchasers (the Fourth Round Investors), pursuant to which the Company sold to the Fourth Round Investors, in a registered direct offering, an aggregate of 606,000 shares of common stock, at a negotiated purchase price of \$18.24 per share, for aggregate gross proceeds to the Company of approximately \$11,053,440, before deducting fees to the placement agent and other estimated offering expenses payable by the Company. As part of the transaction, the Fourth Round Investors also received warrants for the purchase of up to 90,900 shares of the Company's common stock at an exercise price of \$22.80 per share (the Fifth Round Warrants). In addition, the placement agent for this transaction also received warrants for the purchase of up to 36,360 shares of the Company's common stock at an exercise price of \$22.80 per

share. The Fourth Round Warrants have a term of eighteen months and are exercisable by the holders at any time after the date of issuance. As of December 31, 2014, the fair value of the Fourth Round Warrants was \$4.28 per share.

On September 4, 2014, the Company entered in a securities purchase agreement with certain purchasers (the Fifth Round Investors), pursuant to which the Company sold to the Fifth Round Investors, in a registered direct offering, an aggregate of 4,127,908 shares of its common stock at a price of \$17.20 per share, for aggregate gross proceeds to the Company of approximately \$71 million (the Fifth Round Offering), before deducting fees to the placement agent and other estimated offering expenses payable by the Company. As part of the transaction, the Fifth Round Investors also received warrants for the purchase of up to 743,024 shares of the Company s common stock at an exercise price of \$21.50 per share (the Fifth Round Warrants). The Fifth Round Warrants have a term of seventeen months and are exercisable by the holders at any time after the date of issuance. In addition, the placement agent for this transaction also received warrants for the purchase of up to 206,395 shares of the Company s common stock at an exercise price of \$20.64 per share (the Fifth Round Placement Agent Warrants). The placement agent s warrants are exercisable for a term of seventeen months after the six months from the issuance. As of December 31, 2014, the fair value of the Fifth Round Warrants was \$7.37 per share and the Fifth Round Placement Agent Warrants had a fair value of \$9.13 per share.

In addition, any Fifth Round Investor that invests more than \$30 million in the initial offering of shares and warrants in the Fifth Round Offering would have an option to purchase its pro rata share of up to a \$30 million of shares, or 1,744,186 shares of common stock and its pro rata share of warrants to purchase an aggregate of up to 313,954 shares of our common stock at \$17.20 for a period commencing from September 4, 2014 and ending on November 17, 2014. None of the Fifth Round Investors that invests more than \$30 million in the Fifth Round Offering exercised this option.

NOTE 21 STOCK AWARD

In connection with the appointment of Mr. Henry Yu as a member of the Board of Directors (the Board), and as compensation, the Board authorized the Company to provide Mr. Henry Yu with 5,000 shares of Company's restricted common stock every six months, par value \$0.001, beginning in July 2011.

As compensation for having Mr. Jerry Lewin to serve as a member of the Board, the Board authorized the Company to provide Mr. Jerry Lewin with 5,000 shares of Company's restricted common stock every six months, par value \$0.001, beginning in August 2011.

As compensation for having Ms. Kewa Luo to serve as the Company's investor relation officer, the Board authorized the Company to provide Ms. Kewa Luo with 5,000 shares of Company's common stock every six months, par value \$0.001, beginning in September 2013.

As compensation for having Mr. Wei Chen to serve CFO assistant the Board authorized the issuance by the Company to Mr. Wei Chen of 10,000 shares of Company's common stock every year beginning in January 2012 and 2,500 shares of Company's common stock every three months, beginning in January 2014. As of June 1, 2014, Mr. Chen was no longer with the Company.

The fair value of stock awards based on service is determined based on closing price of the common stock on the date the shares are granted. The compensation costs for awards of common stock are recognized over the requisite service period of six months.

On December 30, 2013, the Board approved a proposal (as submitted by the Compensation Committee) of an award for selected executives and other key employees comprising a total of 335,000 shares of common stock for each fiscal year, beginning with the 2013 fiscal year, under the Company's 2008 Omnibus Long-Term Incentive Plan (the Plan), if the Company's determination that the Company's Non-GAAP Net Income for the current fiscal year increased by 10% comparing to that of the prior year. The specific number of shares of common stock to be issued in respect of such award could proportionally increase or decrease if the actual Non-GAAP Net Income increase is more or less than 10%. Non-GAAP Net Income means the Company's net income for a particular year calculated in accordance with GAAP, excluding option-related expenses, stock award expenses, and the effects caused by the change of fair value of financial derivatives. For example, if Non-GAAP Net Income for the 2014 fiscal year increases by 10% compared to the Non-GAAP Net Income for the 2013 fiscal year, the selected executives and other key employees each will be granted his or her target amount of common stock of the Company. If Non-GAAP Net Income in 2014 is less than Non-GAAP Net Income in 2013, then no common stock will be granted. If Non-GAAP Net Income in 2014 increases compared to Non-GAAP Net Income in 2013 but the increase is less than 10%, then the target amount of the common stock grant will be proportionately decreased. If Non-GAAP Net Income in 2014 increases compared to Non-GAAP Net Income in 2013 but the increase is more than 10%, then the target amount of the common stock grant will be proportionately increased up to 200% of the target amount.

The fair value of each award granted under the Plan is determined based on the closing price of the Company's stock on the date of grant of the award. To the extent that the performance goal does not meet and so no shares become due, no compensation cost is recognized and any recognized compensation cost during the applicable year is reversed. The number of shares of common stock granted under the Plan with respect to fiscal 2014 would be 670,000 shares based on the Non-GAAP Net Income of the year of 2014. The compensation expense is recognized in General and Administrative Expenses.

NOTE 22 INTANGIBLE ASSETS

The following table provides the gross carrying value and accumulated amortization for each major class of intangible assets other than goodwill:

	Remaining useful life	December 31, 2014		December 31, 2013	
Gross carrying amount:					
Trade name	7 years	\$	492,235	\$	492,235
Customer relations	7 years		304,086		304,086
			796,321		796,321
Less : Accumulated amortization					
Trade name		\$	(135,323)	\$	(84,576)
Customer relations			(83,597)		(52,249)
			(218,920)		(136,825)
Intangible assets, net		\$	577,401	\$	659,496

The aggregate amortization expenses for those intangible assets that continue to be amortized is reflected in amortization of intangible assets in the Consolidated Statements of Income and comprehensive Income and were \$82,095, \$82,095 and \$54,730 for the years ended December 31, 2014, 2013 and 2012, respectively.

Amortization expenses for the next five years and thereafter is as follows:

2015	\$	82,095
2016		82,095
2017		82,095
2018		82,095
2019		82,095
Thereafter		166,926
Total	\$	577,401

NOTE 23 SUMMARIZED INFORMATION OF INVESTMENT IN THE JV COMPANY

The Company's consolidated net income includes the Company's proportionate share of the net income or loss of the Company's equity method investees. When the Company records its proportionate share of net income, it increases equity income (loss) net in the Company's consolidated statements of income and the Company's carrying value in that investment. Conversely, when the Company records its proportionate share of a net loss, it decreases equity income (loss) net in the Company's consolidated statements of income and the Company's carrying value in that investment. All intra-entity profits and losses with the Company's equity method investees have been eliminated.

Kandi Electric Vehicles Group Co., Ltd. (the JV Company)

In March 2013, pursuant to a joint venture agreement (the JV Agreement) entered into between Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely), the parties established Zhejiang Kandi Electric Vehicles Co., Ltd. (the JV Company) to develop, manufacture and sell electric vehicles (EVs) and related auto parts. Each of Kandi Vehicles and Shanghai Guorun has a 50% ownership interest in the JV Company. In the fourth quarter of 2013, Kandi Vehicles entered into

an ownership transfer agreement with the JV Company pursuant to which Kandi Vehicles transferred 100% of its ownership in Kandi Changxing to the JV Company. As a result, the Company indirectly has a 50% economic interest in Kandi Changxing through its 50% ownership interest in the JV Company after this transfer. In November 2013, Zhejiang Kandi Electric Vehicles Jinhua Co., Ltd. (Kandi Jinhua) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jinhua, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jinhua. In November 2013, Zhejiang JiHeKang Electric Vehicle Sales Co., Ltd. (JiHeKang) was formed by the JV Company. The JV Company has 100% ownership interest in JiHeKang, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in JiHeKang. In December 2013, the JV Company entered into an ownership transfer agreement with Shanghai Guorun pursuant to which the JV Company acquired 100% ownership of Kandi Electric Vehicles (Shanghai) Co., Ltd. (Kandi Shanghai). As a result, Kandi Shanghai is a wholly-owned subsidiary of the JV Company, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Shanghai. In January 2014, Zhejiang Kandi Electric Vehicles Jiangsu Co., Ltd. (Kandi Jiangsu) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jiangsu, and the Company, indirectly through its 50% ownership interest in the JV Company, has a 50% economic interest in Kandi Jiangsu. In addition, In July 2013, Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the Service Company) was formed. The JV Company has a 19% ownership interest in the Service Company. The Company, indirectly through its 50% ownership interest in the JV Company, has a 9.5% of economic interest in the Service Company. In March 2014, the JV Company changed its name to Kandi Electric Vehicles Group Co., Ltd.

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

As of December 31, 2014, the JV Company consolidated the following entities on its financial statements: (1) 100% interest in Kandi Changxing; (2) 100% interest in Kandi Jinhua; (3) 100% interest in JiHeKang; (4) 100% interest in Kandi Shanghai; and (5) 100% interest in Kandi Jiangsu.

The Company accounted for its investments in the JV Company under the equity method of accounting as the Company has a 50% ownership interest in the JV Company. Therefore, the Company's consolidated net income for the year Ended December 31, 2014 and 2013 included equity income from the JV Company during such periods.

The combined results of operations and financial position of the JV Company are summarized below:

	2014	Year ended December 31, 2013	2012
Condensed income statement information:			
Net sales	\$ 215,537,203	\$ 15,212,347	\$ -
Gross income (loss)	41,889,144	(1,279,914)	-
Net income (loss)	7,526,164	(3,020,756)	-
Company's equity in net income of the JV Company \$	3,763,082	\$ (1,510,378)	\$ -

	2014	Three Months ended December 31, 2013	2012
Condensed income statement information:			
Net sales	\$ 88,773,410	\$ 15,212,347	\$ -
Gross income (loss)	27,944,246	(1,279,914)	-
Net income (loss)	743,892	(2,780,723)	-
Company's equity in net income of the JV Company \$	371,946	\$ (1,390,362)	\$ -

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-K

	December 31, 2014	December 31, 2013
Condensed balance sheet information:		
Current assets	\$ 262,543,256	\$ 108,139,053
Noncurrent assets	194,229,114	146,130,466
Total assets	\$ 456,772,370	\$ 254,269,519
Current liabilities	280,779,432	93,772,816
Noncurrent liabilities	9,006,787	-
Equity	166,986,151	160,496,703
Total liabilities and equity	\$ 456,772,370	\$ 254,269,519

For the year ended December 31, 2014, the JV Company's revenues were \$215,537,203, an increase of 1317% from \$15,212,347 for the year ended December 31, 2013. For the three months ended December 31, 2014, the JV Company's revenues were \$88,773,410, an increase of 483% from \$15,212,347 for the three months ended December 31, 2013. The revenue was primarily derived from the sales of EV products in the PRC with a total of 10,935 units sold during the year 2014, among which, a total of 3,656 units of EV products were sold during the three months ended December 31, 2014. The growth of sales of EV products was mainly driven by the demand by the EV-Share Program. For the year ended December 31, 2014, the JV Company recorded a net profit of \$7,526,164 as compared to a net loss of \$3,020,756 for the year ended December 31, 2013. For the three months ended December 31, 2014, the JV Company recorded a net profit of \$743,892 as compared to a net loss of \$2,780,723 for the three months ended December 31, 2013. As the Company only has a 50% ownership interest in the JV Company and accounted for its investments in the JV Company under the equity method of accounting, the Company didn't consolidate the JV Company's financial results but included equity income from the JV Company during such periods, which were a share of profit of \$3,763,082 and a share of loss of \$1,510,378 for the years ended December 31, 2014 and 2013, respectively.

Note: The following table illustrates the captions used in the Company's Income Statements for its equity basis investments in the JV Company.

Changes in the Company's equity method investment in JV Company for the year ended December 31, 2014 and 2013 are as follows:

	Year ended December 31,	
	2014	2013
Investment in the JV Company, beginning of the period,	\$ 79,331,930	\$ -
Investment in the JV Company	-	81,779,522
Share of profit (loss)	3,763,082	(1,510,378)
Intercompany transaction unrealized gain elimination	(184,138)	(903,976)
Year 2013 unrealized profit realized	911,322	-
Exchange difference	(513,101)	(33,238)
Investment in the JV Company, end of the period	\$ 83,309,095	\$ 79,331,930

Sales to the Company's customers, the JV Company, for the year ended December 31, 2014 were \$117,707,152 or 69% of the Company's total revenue for the year, an increase of 948.7% of the sales to the JV Company from the previous year. Sales to the JV Company for the three months ended December 31, 2014 were \$39,166,994 or 74% of total revenue for that three months period. The sales to the JV Company were primarily the sales of battery packs, body parts, EV drive motors, EV controllers, air conditioning units and other auto parts, of which the majority of the sales were to Kandi Changxing amounted to \$14,071,221 and \$65,342,342, respectively, for the three months and the year ended December 31, 2014, Kandi Shanghai amounted to \$15,292,090 and \$39,412,740, respectively, for the three months and the year ended December 31, 2014, and Kandi Jinhua amounted to \$10,394,324 and \$12,952,070, respectively, for the three months and the year ended December 31, 2014. These EV parts were used in manufacturing

of pure EV products by the JV Company's subsidiaries to sell entirely to the JV Company's customer via Shanghai Maple Automobile Company, Limited (Shanghai Maple) and Zhejiang Geely Automobile Company Limited (Zhejiang Geely). Shanghai Maple and Zhejiang Geely hold the country's vehicle production rights of sedan, equivalent to license, that qualifies it to sell the EV products to the end customers. Both Shanghai Maple and Zhejiang Geely are 90% owned by Zhejiang Geely Holding Group Company Limited and 10% owned by Zhejiang Maple Asset Management Co. Ltd. According to the JV agreement, before the JV Company receives vehicle production rights (license), the JV Company and its subsidiaries all may sell their products through the channel of Shanghai Maple's vehicle production rights (license) to the end customers or the Service Company, which purchased and used the cars in EV-Share Program. Under the JV Agreement, the Company's EV product manufacturing business will be gradually transferred to the JV Company. The Company will be mainly responsible for supplying the JV Company with EV parts in the future and the JV Company will be responsible to produce EV products and to sell finished goods through channel to its end customers.

The following tables summarize the effects of transactions including sales and purchases with the JV Company:

	Year ended December 31,	
	2014	2013
Sales to JV Company	\$ 117,707,152	\$ 11,223,823
Purchase from JV Company	\$ 356,609	\$ 487,453

As of December 31, 2014 and 2013, the amount due from the JV Company, net were \$ 51,450,612 and \$2,917,592, respectively, of which the majority were the balances with the JV Company and its subsidiaries Kandi Changxing, Kandi Jinhua and Kandi Shanghai. As of December 31, 2014 and 2013, the amount due from the JV Company, net were \$24,376,371 and \$4,121,688, respectively, the amount due from Kandi Changxing, net were \$7,359,202 and \$1,576,408, respectively, the amount due from (to) Kandi Jinhua, net were \$12,736,420 and (\$2,780,504), respectively, and the amount due from Kandi Shanghai, net were \$6,978,618 and \$0, respectively.

The amount due from the JV Company of \$24,376,371 is a one-year entrusted loan that Kandi Vehicle lent to the JV Company from December 16, 2014 to December 15, 2015 carrying an annual interest rate determined by using the People's Bank of China floating benchmark lending rate over the same period plus 5% of that rate, which was 5.88% on December 31, 2014. The loan was organized by Bank of Communications Hangzhou Zhongnan Branch as the agent bank between Kandi Vehicle and the JV Company. Entrusted loans are commonly found in China, which restricts direct borrowing and lending between commercial enterprises.

NOTE 24 - COMMITMENTS AND CONTINGENCIES

Guarantees and pledged collateral for third party bank loans

As of December 31, 2014 and 2013, the Company provided guarantees for the following third parties:

(1) Guarantees for bank loans

Guarantee provided to:	December 31, 2014	December 31, 2013
Yongkang Angtai Trade Co., Ltd.	\$ -	\$ 817,795
Nanlong Group Co., Ltd.	9,750,548	9,813,543
Zhejiang Shuguang industrial Co., Ltd.	4,875,274	4,906,771
Zhejiang Kangli Metal Manufacturing Company	4,875,274	4,906,771
Total	\$ 19,501,096	\$ 20,444,880

On January 6, 2013, the Company entered into a guarantee contract to serve as the guarantor for the bank loans borrowed from China Communication Bank Jinhua Branch in the amount of \$817,795 by Yongkang Angtai Trade Co., Ltd. (YATCL) for the period from January 6, 2013 to January 6, 2014. YATCL is not related to the Company. Under this guarantee contract, the Company agrees to perform all obligations of YATCL under the loan contracts if YATCL fails to perform its obligations as set forth therein. YATCL repaid the loan on the maturity date and the Company obligations under this guarantee contract extinguished thereafter.

On February 26, 2013, the Company entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from PingAn Bank in the amount of \$4,906,771 by Zhejiang Shuguang industrial Co., Ltd. (ZSICL) for the period from February 26, 2013 to February 26, 2014. On March 4, 2014, the Company entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from PingAn Bank in the amount of \$4,875,274 by Zhejiang Shuguang industrial Co., Ltd. (ZSICL) for the period from March 4, 2014 to March 4, 2015. ZSICL is not related to the Company. Under these guarantee contracts, the Company agrees to perform all obligations of ZSICL under the loan contracts if ZSICL fails to perform its obligations as set forth therein.

On March 15, 2013 and December 27, 2013, the Company entered into two guarantee contracts to serve as the guarantor for the bank loans borrowed from Shanghai Pudong Development Bank Jinhua Branch and Shanghai Bank Hangzhou branch in the amount of \$ 3,250,183 and \$ 6,500,366 respectively by Nanlong Group Co., Ltd. (NGCL) for the period from March 15, 2013 to March 15, 2016, and December 27, 2013 to December 27, 2014 respectively. The guarantee contract to serve as the guarantor for the bank loan borrowed from Shanghai Bank Hangzhou branch was extended for four months to April 27, 2015 with the same terms after its original contract ended on December 27, 2014. NGCL is not related to the Company. Under these guarantee contracts, the Company agrees to perform all obligations of NGCL under the loan contract if NGCL fails to perform its obligations as set forth therein.

On December 27, 2013, the Company entered into a guarantee contract to serve as the guarantor for the bank loan borrowed from Shanghai Bank Hangzhou branch in the amount of \$ 4,875,274 by Zhejiang Kangli Metal Manufacturing Company (ZKMMC) for the period from December 27, 2013 to December 27, 2014. The guarantee contract was extended for six months to June 27, 2015 with the same terms after its original contract ended on December 27, 2014. ZKMMC is not related to the Company. Under this guarantee contract, the Company agrees to perform all obligations of ZKMMC under the loan contract if ZKMMC fails to perform its obligations as set forth therein.

(2) Pledged collateral for a third party's bank loans

As of December 31, 2014 and 2013, none of the Company's land use rights or plant and equipment were pledged as collateral securing bank loans to third parties.

NOTE 25 SEGMENT REPORTING

The Company has only one single operating segment. The Company's revenue and long-lived assets are primarily derived from and located in the PRC. The Company only operates in China.

The following table sets forth revenues by geographic area:

	2014		Year Ended December 31		2012	
	Sales Revenue	Long Lived Assets	Sales Revenue	Long Lived Assets	Sales Revenue	Long Lived Assets
North America	\$ 2,900,789	\$ -	\$ 6,906,807	\$ -	\$ 7,243,257	\$ -
Europe and other region	5,729,035	-	2,394,948	-	1,639,990	-
China	161,599,182	184,746,155	85,234,290	124,294,994	55,630,423	51,289,815
Total	\$ 170,229,006	\$ 184,746,155	\$ 94,536,045	\$ 124,294,994	\$ 64,513,670	\$ 51,289,815

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

The Company has evaluated, under the supervision of the Company's Chief Executive Officer and the Chief Financial Officer, the effectiveness of disclosure controls and procedures as of December 31, 2014. This is done in order to ensure that information the Company is required to disclose in reports that are filed or submitted under the Securities Exchange Act of 1934, as amended (the Exchange Act) is: (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of December 31, 2014.

(b) Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

All internal control systems, no matter how well designed, have inherent limitations, so that no evaluation of controls can provide absolute assurance that all control issues are detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Therefore, any current evaluation of controls cannot and should not be projected to future periods.

Management conducted an assessment of the effectiveness of our system of internal control over financial reporting as of December 31, 2014, the last day of our fiscal year. This assessment was based on criteria established in the framework Internal Control Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and included an evaluation of elements such as the design and operating effectiveness of key financial reporting controls, process documentation, accounting policies, and our overall control environment. Based on management's evaluation under the 2013 COSO framework, management concluded that the Company's internal controls over financial reporting were effective as of December 31, 2014.

Remediation of Previously Reported Material Weakness

As of December 31, 2014, the management evaluated the material weakness in our internal control that was disclosed in Item 9A of our Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Form 10-K) and related implementation of corrective measures in 2014. In May 2014, the Audit Committee reviewed and approved the Company's policies and procedures related to remediating inadequate internal control environment that was disclosed in Item 9A of the 2013 Form 10-K, of which Audit Committee Charter and Amended Business Ethics and Codes of Conduct have been posted on our website. The internal auditor reports directly to the Company's audit committee. The Chairman of the Audit Committee and management representatives met with the internal auditor and the independent auditor who conducts the audit of internal control over financial reporting. The Audit Committee also reviewed and approved the amended approval procedures and guidelines for related-party transactions (internal audit process). This new rule has been implemented by the management. In addition, the Audit Committee conducted a self-assessment to assess our effectiveness in oversight of management and updated the Audit Committee Charter. The management believes that the progresses made met the remediation requirements and were sufficient to remediate the material weakness in our internal control that was disclosed in Item 9A of our 2013 Form 10-K.

We reviewed the results of management's assessment with the Audit Committee of our Board of Directors.

Our independent registered public accounting firm, AWC (CPA) Limited, has audited the effectiveness of our internal control over financial reporting as of December 31, 2014 as stated in their report which is attached to the auditors report included under item 8 of this report.

(c) Changes in Internal Control Over Financial Reporting

Except for the changes noted above, there had been no other changes in the Company's internal control over financial reporting identified in connection with the above evaluation that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information.

On January 13, 2015, our independent public accounting firm, Albert Wong & Co. was succeeded by AWC (CPA) Limited, in the registration status in Public Company Accounting Oversight Board (PCAOB). AWC (CPA) Limited is not a separately registered entity with the PCAOB and therefore we are not required to file a current report on Form 8-K under item 4.01.

PART III**Item 10. Directors, Executive Officers and Corporate Governance**

The following table sets forth certain information regarding our executive officers and members of the Company's board of directors (the Board of Directors) as of December 31, 2014:

Name	Age	Position	Served From
Hu Xiaoming	58	Chairman of the Board, President and Chief Executive Officer	June 2007
Zhu Xiaoying	44	Chief Financial Officer, Director	June 2007
Chen Liming (1), (2), (3)	78	Director (Independent)	May 2012
Qian Jingsong	54	Director	January 2011
Ni Guangzheng (2), (3)	76	Director (Independent)	November 2010
Jerry Lewin (1)	60	Director (Independent)	November 2010
Henry Yu (1),(2),(3)	61	Director (Independent)	July 2011

- (1) Member of Audit Committee
- (2) Member of Compensation Committee
- (3) Member of Nominating and Corporate Governance Committee

Business Experience of Directors and Executive Officers

Biographical Information

Hu Xiaoming was appointed as our Chief Executive Officer, President and Chairman of the Board in June 2007. Prior to joining the Company, from October 2003 to April 2005, Mr. Hu served as the Project Manager (Chief Scientist) in the WX Pure Electric Vehicle Development Important Project of Electro-vehicle in the State 863 Plan. From October 1984 to March 2003, Mr. Hu served as: (i) Factory Director of the Yongkang Instrument Factory, (ii) Factory Director of the Yongkang Mini Car Factory, (iii) Chairman and General Manager of the Yongkang Vehicle Company, (iv) General Manager of the Wan Xiang Electric Vehicle Developing Center and (v) the General Manager of the Wan Xiang Battery Company. Mr. Hu personally owned 4 invention patents and 7 utility model patents, which he transferred to the Company in fiscal year 2012.

Zhu Xiaoying was appointed as our Chief Financial Officer and a director of the Company in June 2007. In addition, since September 2003, Ms. Zhu has served as Chief Financial Officer of Zhejiang Kandi Vehicles Co., Ltd., our wholly-owned operating subsidiary. From January 2000 to September 2003, Ms. Zhu served as the Accounting Manager for Zhejiang Yonkang Automobile Manufacture Co. Ms. Zhu graduated from Hangzhou Electronic Engineering University. Ms. Zhu acquired CIA certificate in 2010 and EMBA certificate from Hong Kong Polytechnic University in 2011.

Qian Jingsong was appointed as a director of the Company on January 31, 2011. In addition, since October 2009, Mr. Qian has served as Deputy General Manager of Zhejiang Kandi Vehicles Co. Ltd., our wholly-owned operating subsidiary. Prior to joining the Company, from October 2006 to October 2009, Mr. Qian served in multiple capacities for Chery Karry Automobile, including Head of the Engineering Construction Group (2006-2007), Vice Manager of the Q21 Project (2007), Assistant General Manager of the Production Management and Integrated Management Departments (2007-2009). During his tenure at Chery Karry Automobile, Mr. Qian was in charge of quality assurance and participated in strategy, planning and product development work for Chery mini-cars. Currently, Mr. Yu serves as Chair of the Advisory Board of the National Association of Chinese-Americans and serves as an Advisor to China's Federation of Overseas Chinese. Mr. Yu is currently a member of the Foundation Board Trustees of Georgia Perimeter College, board member of Georgia State University's China Task Force, and member of the Asian Studies Board of the Kennesaw State University. From 2003 to 2007, Mr. Yu held Series 7 and 62 Certifications from the Financial Industry Regulatory Authority. Mr. Yu received his Bachelor of Arts degree in Economics from the University of Michigan in 1978 and his MBA in Finance from the University of Detroit in 1980.

Chen Liming was appointed as a director of the Company on May 1, 2012. Mr. Chen serves as an advisor to AA Wind & Solar Energy Development Group, LLC. Prior to his current position, from February 2009 to October 2010, Mr. Chen participated in a joint venture with Mr. Qiu Youmin, the former designer of Geely Automobile Co., Ltd., and assisted in the development of super mini three seat pure electric vehicles. From June 2008 to July 2009, he participated in the development of Lithium Iron Phosphate Battery with Shanghai Yuankai Group. Mr. Chen served as a Professor of Electrical Engineering at Zhejiang University from 1983 to 1997. In addition, Mr. Chen served as a visiting scholar in the Electrical Engineering Department at Columbia University in New York City from 1981 to 1983 and as a professor in Electrical Engineering at Zhejiang University from 1960 to 1981. Mr. Chen received his bachelor degree from Southeast University in Jiangsu, China in 1960.

Family Relationships

No family relationships exist among any of our director nominees or executive officers.

Audit Committee Financial Expert

Our Audit Committee currently consists of Henry Yu (Chairman), Jerry Lewin and Chen Liming, each of whom is independent under NASDAQ listing standards. Our Board of Directors determined that each of Mr. Yu and Mr. Lewin qualifies as an audit committee financial expert, as defined by Item 407 of Regulation S-K and NASDAQ Rule 5605(a)(2). In reaching this determination, the Board of Directors made a qualitative assessment of Mr. Yu's and Mr. Lewin's level of knowledge and experience based on a number of factors, including formal education and business experience.

Code of Ethics

We have adopted a code of ethics as defined by regulations promulgated under the Securities Act of 1933, as amended, and the Exchange Act that applies to all of our directors and employees worldwide, including our principal executive officer, principal financial officer and principal accounting officer. A current copy of our Code of Ethics is included as an exhibit to our Form 8-K filed November 5, 2007. A copy of our Code of Ethics will be provided to you without charge upon written request to Hu Xiaoming, Chief Executive Officer, Kandi Technologies Group, Inc., Jinhua City Industrial Zone, Jinhua, Zhejiang Province, People's Republic of China, 321016. You may also access these filings at our web site under the investor relations link at <http://www.kandivehicle.com/default.aspx>

Section 16(A) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that the Company's directors and executive officers and persons who beneficially own more than ten percent (10%) of a registered class of its equity securities, file with the SEC reports of ownership and changes in ownership of its common stock and other equity securities. Executive officers, directors, and greater than ten percent (10%) beneficial owners are required by SEC regulation to furnish the Company with copies of all Section 16(a) reports that they file. Based solely upon a review of the copies of such reports furnished to us or written representations that no other reports were required, the Company believes that, during fiscal year 2014, all filing requirements applicable to its executive officers, directors, and greater than ten percent (10%) beneficial owners were met, except for the following: (i) Mr. Hu Xiaoming and Ms. Zhu Xiaoying did not file on time the Form 4s after being issued 119,577 and 71,746 shares of common stock, respectively, under the Company's 2008 Omnibus Long-Term Incentive Plan on May 22, 2014; (ii) Henry Yu did not file on time the Form 4s after being issued 5,000 shares on March 24, 2014 and September 8, 2014, respectively; and (iii) Jerry Lewin did not file on time the Form 4s after being issued 5,000 shares on March 24, 2014 and September 8, 2014, respectively. As of the date of this report, all of the filings mentioned above have been made.

Item 11. Executive Compensation**Summary Compensation Table**

The following table summarizes the compensation earned during the years ended December 31, 2014, 2013 and 2012, by those individuals who served as our Chief Executive Officer or Chief Financial Officer during any part of fiscal year 2014 or any other executive officer with total compensation in excess of \$100,000 during fiscal year 2014. The individuals listed in the table below are referred to as the named executive officers.

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)(3)	Option Awards (\$)(4)	Non-Equity Incentive Plan Compensation (\$)	Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
Hu Xiaoming (1)	2014	\$ 29,277		\$ 1,195,000	\$				\$ 1,224,277
CEO, President and Chairman of the Board	2013	\$ 32,268		\$ 1,428,945	\$				\$ 1,461,213
	2012	\$ 31,646			\$ 5,877				\$ 37,523
Zhu Xiaoying (2)	2014	\$ 19,518		\$ 717,000	\$				\$ 736,518
CFO	2013	\$ 24,201		\$ 857,365	\$				\$ 881,566
	2012	\$ 23,735			\$ 3,820				\$ 27,555

(1) Mr. Hu was appointed as CEO and President of the Company on June 29, 2007.

(2) Ms. Zhu was appointed as CFO of the Company on June 29, 2007.

(3) The amounts in this column reflect the aggregate grant date fair value under FASB ASC Topic 718 of awards made during the respective year. As of the date of this report, the stock awards to Mr. Hu and Ms. Zhu had been granted, but not yet issued.

(4) The amounts in this column reflect the aggregate grant date fair value under FASB ASC Topic 718 of awards made during the respective year.

Salary and Incentive Compensation

In fiscal 2014, the primary components of our executive compensation programs were base salary and equity compensation.

Salary

We use base salary to fairly and competitively compensate our executives, including the named executive officers, for the jobs we ask them to perform. We view base salary as the most stable component of our executive compensation program, as this amount is not at risk. We believe that the base salaries of our executives should be targeted at or above the median of base salaries for executives in similar positions with similar responsibilities at comparable companies, consistent with our compensation philosophy. At the end of the year, each executive's performance is evaluated by our Compensation Committee, which takes into account the individual's performance, responsibilities of the position, adherence to our core values, experience, and external market conditions and practices.

Incentive Compensation

We believe it is a customary and competitive practice to include an equity-based element of compensation to the overall compensation package for our named executive officers. We believe that a significant portion of the compensation paid to our named executive officers should be performance-based and therefore at risk. Awards made are granted under the Kandi Technologies Group, Inc. Omnibus Long-Term Incentive Plan (the *Plan*).

At our 2008 annual meeting of shareholders, our stockholders approved the adoption of the Plan. As of December 31, 2014, 2,600,000 options have been granted under the Plan to the Company's employees and directors, of which 2,593,332 have been exercised, and 6,668 have been forfeited.

On December 30, 2013, the Board of Directors approved a proposal (as submitted by the Compensation Committee) of an award for selected executives and other key employees comprising a total of 335,000 for each fiscal year beginning with the 2013 fiscal year under the Plan to be delivered upon the Company's determination that the Company's *Non-GAAP Net Income* for the fiscal year increased by 10%. *Non-GAAP Net Income* means the Company's net income for a particular year calculated in accordance with GAAP, excluding option-related expenses, stock award expenses, and the effects caused by the change of fair value of financial derivatives. For example, if *Non-GAAP Net Income* for the 2013 fiscal year increases by 10% compared to the *Non-GAAP Net Income* for the 2012 fiscal year, the selected executives and other key employees will each be granted his or her target amount of common stock of the Company at the end of March 2014. If *Non-GAAP Net Income* in 2013 is less than *Non-GAAP Net Income* in 2012, then no common stock will be granted. If *Non-GAAP Net Income* in 2013 increases compared to *Non-GAAP Net Income* in 2012 but the increase is less than 10%, then the target amount of the common stock grant will be proportionately decreased. If *Non-GAAP Net Income* in 2013 increases compared to *Non-GAAP Net Income* in 2012 but the increase is more than 10%, then the target amount of the common stock grant will be proportionately increased.

On July 25, 2014, the Board of Directors approved a proposal submitted by the Compensation Committee to modify the languages of stock awards in the Board Resolution of December 30, 2013. The modification was to replace the languages of *in the future years the stock grant amount will be adjusted accordingly based on the Non-GAAP net income in 2013 and the Exhibit A attached hereto*; if the *Non-GAAP net income* in one year is less than the *Non-GAAP net income* in the previous year, then no stock will be granted in that year; if the *Non-GAAP net income* continues increasing, the stock grant amount will increase according to the *Non-GAAP net income increase percentage* with the languages of *in the future years if the Non-GAAP net income in one year increases 10% compared with the previous year, the total amount of stock listed in the Exhibit A attached to the original Resolutions will be granted to certain employees (management of the Company is authorized to determine list of employees and stock amount rewarded based on position adjustment of employees, performance and tenure of each employee in that year)*; if the *Non-GAAP net income* in one year is less than the *Non-GAAP net income* in the previous year, then no stock will be granted in that year; if the *Non-GAAP net income* in one year is 10% less than or 10% more than the *Non-GAAP net income* in the previous year, then the stock grant amount will decrease or increase according to the *Non-GAAP net income decrease or increase percentage*, but the total amount rewarded may not be over 200%.

Outstanding Equity Awards at 2014 Fiscal Year-End

The following table sets forth information regarding all unexercised, outstanding equity awards held, as of December 31, 2014, by those individuals who served as our named executive officers during any part of fiscal year 2014.

Name	Option Awards					Stock Awards			
	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Equity Incentive Plan Awards: Number of Securities Underlying Unexercised Options (#)	Option Exercise Price (\$)	Option Expiration Date	Market Value of Shares or Units of Stock That Have Not Vested (\$)	Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested (#)	Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested (\$)	
Hu Xiaoming (1)(3)				\$					
Zhu Xiaoying (2)(3)				\$					

(1) Mr. Hu was appointed as CEO and President of the Company on June 29, 2007.

(2) Ms. Zhu was appointed as CFO of the Company on June 29, 2007.

(3) According to the award performance targets set up pursuant to the Plan, which was approved on December 30, 2013, the Compensation Committee and the Board approved the grant of common stock for 100,000 shares of common stock to Mr. Hu and 60,000 to Ms. Zhu in 2014. These shares have been granted to Mr. Hu and Ms. Zhu but have not been issued by the Company as of the date herein.

(4) The grant date fair value of each share of common stock awarded is \$11.95, calculated in accordance with FASB Topic 718.

Employment Agreements

We have employment agreements with our named executive officers. The agreements provide an annual salary for Mr. Hu and Ms. Zhu, with bonus to be decided at the discretion of our Board at the year-end. The employment agreements for Mr. Hu and Ms. Zhu each have a three (3) year term, ending on June 9, 2017.

Potential Payments Upon Termination or Change of Control

Under Chinese law, we may only terminate employment agreements without cause and without penalty by providing notice of non-renewal one month prior to the date on which the employment agreement is scheduled to expire. If we fail to provide this notice or if we wish to terminate an employment agreement in the absence of cause, as defined in the agreement, then we are obligated to pay the employee one month's salary for each year we have employed the employee. We are, however, permitted to terminate an employee for cause without penalty pursuant to the employment agreement. If the named executive officer is not terminated for cause, the Company will pay the remaining portion of the executive officer's salary.

Director Compensation (excluding Named Executive Officers)

The following table sets forth certain information regarding the compensation earned by or awarded during the 2014 fiscal year to each of our non-executive directors:

Name	Fees Earned or Paid in Cash (\$)(2)	Stock Awards (\$)(1)(2)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Nonqualified Deferred Compensation Earnings	All Other Compensation (\$)	Total (\$)
Ni Guangzheng	\$ 9,759						\$ 9,759
Qian Jingsong	\$ 65,060	478,000					\$ 543,060
Henry Yu	\$ 24,000	31,700					\$ 55,700
Jerry Lewin	\$ 24,000	37,017					\$ 61,017
Chen Liming	\$ 9,759						\$ 9,759

(1) The amounts in these columns represent the aggregate grant date fair value of stock awards granted to our non-named executive officer directors during fiscal year ended December 31, 2014, in accordance with ASC Topic 718. On December 30, 2013, the Compensation Committee and the Board of Directors approved the grant of common stock to certain executive officers and directors of the Company. The grant date fair value of each share of common stock awarded was \$11.95.

(2) In setting director compensation, we consider the significant amount of time that directors spend fulfilling their duties to the Company, as well as the skill level required to serve as a director and manage the affairs of the Company. Certain directors receive a monthly fee as follows: (i) Ni Guangzheng receives a monthly fee of RMB 5,000 (approximately \$813) starting 2014.; (ii) Jerry Lewin receives a monthly fee of \$2,000; (iii) Henry Yu receives a monthly fee of \$2,000; and (iv) Chen Liming receives a monthly fee of RMB 5,000 (approximately \$813) starting 2014.

In connection with his appointment to the Board of Directors in July 2011, the Board of Directors authorized the Company to issue to Mr. Yu with 5,000 shares of Company's restricted common stock every six months, par value \$0.001. Similarly, in July 2011, the Board of Directors authorized the Company to issue to Mr. Lewin with 5,000 shares of Company's restricted common stock every six months, par value \$0.001. As of December 31, 2014, 30,000

shares of restricted common stock had been issued to Mr. Lewin and Mr. Yu each.

The aggregate number of stock options and restricted outstanding, as of December 31, 2014, for each of the non-named executive officer directors were as follows:

Name	Options	Restricted stock
Qian Jingsong	0	0
Henry Yu	0	30,000
Chen Liming	0	0
Ni Guangzheng	0	0
Jerry Lewin	0	30,000

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth information known to us, as of March 9, 2015, relating to the beneficial ownership of shares of common stock by each person who is known by us to be the beneficial owner of more than five percent (5%) of the outstanding shares of common stock; each director; each executive officer; and all executive officers and directors as a group. We believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock shown as being owned by them. The applicable percentages of ownership are based on an aggregate of 46,284,855 shares of our Common Stock issued and outstanding on March 9, 2015.

<u>Title of Class</u>	<u>Name of Beneficial Owner</u>	<u>Amount and Nature of Beneficial Ownership</u>	<u>Percent of Class</u>
Common Stock	Excelvantage Group Limited(3)	12,000,000(1)	25.9%
Common Stock	Hu Xiaoming	12,938,077(2)	28.0%
Common Stock	Zhu Xiaoying	591,746	1.3%
Common Stock	Qian Jingsong	4,000	*
Common Stock	Henry Yu	35,000	*
Common Stock	Jerry Lewin	35,000	*
Common Stock	Ni Guangzheng	-	-
Common Stock	Chen Liming	-	-
All officers and directors		13,603,823	29.4%

* Less than 1%

- (1) On March 29, 2010, Hu Xiaoming, our Chief Executive Officer, President and Chairman of the Board of Directors, became the sole stockholder of Excelvantage Group Limited. Through his position as the sole stockholder in Excelvantage Group Limited, Mr. Hu has the power to dispose of or direct the disposition of the shares of common stock in Excelvantage Limited Group. As a result, Mr. Hu may, under the rules of the Securities and Exchange Commission, be deemed to be the beneficial owner of the shares of common stock.
- (2) Includes (i) 818,500 shares owned directly by Mr. Hu, (ii) 119,577 shares that were issued according to the plan award , and (iii) 12,000,000 shares owned by Excelvantage Group Limited. As reflected in footnote 1, Mr. Hu may be deemed to be the beneficial owner of these shares.
- (3) Principal offices located at Jinhua City Industrial Zone, Jinhua City, Zhejiang Province, China 321016.

Item 13. Certain Relationships and Related Transactions, and Director Independence.*Transactions with Related Persons*

The Board of Directors must approve all related party transactions. All material related party transactions will be made or entered into on terms that are no less favorable to us than can be obtained from unaffiliated third parties. During fiscal years ended December 31, 2014 and 2013, there were no transactions involving any of our current Directors or executive officers.

Other than as set forth below, for fiscal years ended December 31, 2014 and 2013, the Company was not involved in any related party transactions.

The following table lists the amount due from related parties as of December 31, 2014 and 2013.

	2014	2013
Eliteway	\$ 620,410	\$ 2,800,958
Total due from related party	\$ 620,410	\$ 2,800,958

During fiscal year ended December 31, 2014, 2013 and 2012, the Company sold products to Kandi USA Inc. carrying trade name of Eliteway Motorsports (Eliteway) amounting to \$2,981,944, \$6,906,807 and \$5,297,548, respectively. As of December 31, 2014 and 2013, outstanding receivable due from Eliteway was \$620,410 and \$2,800,958, respectively.

Mr. Hu Wangyuan was the sole shareholder and officer of Eliteway which served as a US importer of the Company's products. Mr. Hu Wangyuan is the adult son of the Company's chairman and Chief Executive Officer, Mr. Hu Xiaoming. For the year ended December 31, 2014, 2013 and 2012, Eliteway and Mr. Hu Wangyuan were financially independent from the Company. The transactions between the Company and Eliteway were carried at arm's-length without preferential terms comparing with other customers at the comparative order size or volume.

Procedures For Approval of Related Party Transactions

In May 2014, we adopted a written Management Policy of Related-Party Transaction (the Policy). According to the Policy, a Related Transaction is any transaction, includes, but not limited to, any financial transaction, arrangement, relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships, since the beginning of the Company's last fiscal year, or any currently proposed transaction, and the amount involved exceeds \$120,000, and in which any related party had or will have a direct or indirect material interest . The Policy's definition of a Related Party is in line with the definition set forth in the instructions to Item 404(a) of Regulation S-K promulgated by the SEC.

Under the Policy, The Company's proposed material related transaction with related person shall be submitted to the Board for consideration and discussion after independent director presents his/her approval opinion beforehand. The Audit Committee shall conduct audit on the related transaction and develop a written opinion, and can engage independent finance advisor to issue a report as a basis of its judgment, then submit it to the Board. The Policy states that the Board meeting can be held as long as non-affiliated directors over half of the Board attend, and any resolution made by the Board must be approved by over half of non-affiliated directors.

Director Independence

Mr. Henry Yu, Chen Liming, Ni Guangzheng and Jerry Lewin are all non-employee directors, all of whom our Board of Directors has determined are independent pursuant to NASDAQ rules. All of the members of our Audit Committee, Nominating/Corporate Governance Committee and Compensation Committee are independent pursuant to NASDAQ rules.

Item 14. Principal Accounting Fees and Services.

The following table represents the aggregate fees from our principal accountant, AWC (CPA) Limited (formerly, Albert Wong & Co.), and other accounting related service providers for the years ended December 31, 2014 and 2013 respectively.

	2014	2013
Audit Fees	\$ 310,000	\$ 261,000
Audit Related Fees	\$ -	\$ -
Tax Fees	\$ -	\$ -
All Other Fees	\$ 13,493	\$ 9,330
TOTAL FEES	\$ 323,493	\$ 270,330

Fees for audit services include fees associated with the annual audit and reviews of our quarterly reports. Audit-related fees mainly include the fees associated with the financial instruments and assets evaluation, while all other fees include fees incurred for services performed in connection with filing of tax returns and overhead costs.
