ITEM 1. REPORT TO STOCKHOLDERS.

Attached hereto is the annual shareholder report transmitted to shareholders pursuant to Rule 30e-1 of the Investment Company Act of 1940, as amended.		

BARINGS PARTICIPATION INVESTORS

Barings Participation Investors is a closed-end investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange.

INVESTMENT OBJECTIVE & POLICY

Barings Participation Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol "MPV". The Trust's share price can be found in the financial section of newspapers under either the New York Stock Exchange listings or Closed-End Fund listings.

The Trust's investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. The Trust will also invest in publicly traded debt securities (including high yield securities) again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal. The Trust is prohibited from purchasing below-investment grade securities if, after giving effect to the purchase, more than 75% of the Trust's total assets would be invested in below-investment grade securities, which are securities that are rated, at the time of purchase, BB or B by S&P or Ba or B by Moody's, or, if unrated, are believed by Barings LLC ("Barings") to be of an equivalent quality. In addition, the Trust will not invest in any debt security that is rated, at the time of acquisition, below B by S&P or Moody's, or if unrated, is believed by Barings to be of an equivalent quality. In addition, the Trust may invest in high quality, readily marketable securities.

Barings manages the Trust on a total return basis. The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders four times a year in January, May, August, and November. All registered shareholders are automatically enrolled in the Dividend Reinvestment and Cash Purchase Plan unless cash distributions are requested.

In this report, you will find a complete listing of the Trust's holdings. We encourage you to read this section carefully for a better understanding of the Trust. We cordially invite all shareholders to attend the Trust's Annual Meeting of Shareholders, which will be held on April 21, 2017 at 1:00 P.M. in Springfield, Massachusetts.

TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2016.

PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2016 was 8.8%, as measured by the change in net asset value assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$136,606,731 or \$13.15 per share, as of December 31, 2016. This compares to \$135,349,634 or \$13.10 per share, as of December 31, 2015. The Trust paid a quarterly dividend of \$0.27 per share for each of the four quarters of 2016, for a total annual dividend of \$1.08 per share. In 2015, the Trust also paid four quarterly dividends of \$0.27 per share, for a total annual dividend of \$1.08 per share. Net taxable investment income for 2016 was \$1.08 per share, including approximately \$0.15 per share of non-recurring income, compared to 2015 net taxable investment income of \$1.11 per share, which included approximately \$0.25 per share of non-recurring income.

The Trust's stock price increased 3.3% during 2016, from \$13.75 as of December 31, 2015 to \$14.20 as of December 31, 2016. The Trust's stock price of \$14.20 as of December 31, 2016 equates to an 8.0% premium over the December 31, 2016 net asset value per share of \$13.15. The Trust's average quarter-end premium for the 3-, 5-, and 10-year periods ended December 31, 2016 was 0.7%, 7.0% and 7.1%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions. Average annual returns of the Barclays Capital U.S. Corporate High Yield Index and the Russell 2000 Index for the 1-, 3-, 5-, 10- and 25-year periods ended December 31, 2016 are provided for comparison purposes only.

PORTFOLIO ACTIVITY

In 2016, the Trust closed 15 new private placement investments, as well as 10 "add-on" investments in existing portfolio companies. The 15 new investments were in AM Conservation Holding Corp; API Technologies Corp.; CORA Health Services, Inc.; Del Real LLC; Dunn Paper; Elite Sportswear Holding, LLC; Glynlyon Holding Companies, Inc.; Happy Floors Acquisition, Inc.; Midwest Industrial Rubber, Inc.; Money Mailer Equity LLC; NSi Industries Holdings, Inc.; PANOS Brands LLC; Software Paradigms International Group, LLC; Veritext Corporation and Wolf-Gordon, Inc. In addition, the Trust added to existing private placement investments in Church Services Holding Company; Clarion Brands Holding Corp.; CTM Holding, Inc.; ERG Holding Company LLC; Hollandia Produce LLC; HVAC Holdings, Inc.; JMH Investors LLC; Merex Holding Corporation; Petroplex Inv Holdings LLC and PPC Event Services. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$27,190,494, which was only slightly less than the \$27,511,179 of new private placement investments made by the Trust in 2015, and the fourth highest dollar volume over the past ten years. We are pleased to have generated strong new investment volume for the Trust three years in a row.

The Trust's level of new investment activity in 2016 benefited from larger average transaction sizes as compared to 2015, a steady flow of investment opportunities from an established network of private equity sponsors, and several follow-on investments in companies which the Trust had an existing investment. After spending most of 2016 at levels below prior year, middle market buyout volume ended the year flat compared to 2015, due to strong fourth quarter activity, particularly at the upper end of the middle market. Competition for new investment opportunities remains intense, as there continues to be an ever increasing abundance of private debt and equity capital looking to be invested. As a result, attractive companies are being aggressively pursued by both buyers and lenders alike. As a result, high purchase multiples and leverage levels continue to be prevalent in the market. In 2016, average purchase price multiples for middle market companies decreased modestly (approximately 3%) but remain higher than any year since 2000 (other than 2015). Average leverage multiples also remained elevated in 2016, albeit modestly lower than 2015. However, the average leverage multiple steadily increased each quarter during 2016 resulting in the fourth quarter average being the fourth highest since 2003.

Though we remained very active investors on behalf of the Trust in 2016, we did so, and will continue to do so, cautiously and with discipline, consistent with our longstanding investment philosophy of seeking to take prudent levels of risk and getting paid appropriately for the risk taken. In 2016, in the face of these aggressive market conditions, we continued our history of investing in companies at lower than market leverage levels. The average leverage of the Trust's new private placement investments in 2016 was 4.9 times EBITDA, compared to the average market multiple of 5.3 times EBITDA. This approach has served us well over the long term and through all kinds of market cycles.

In addition to strong new investment activity, the condition of the Trust's existing portfolio remained solid throughout the year. Sales and earnings for the Trust's portfolio companies as a whole continued their upward momentum. In addition, the number of companies on our watch list or in default remained at acceptable levels in 2016.

We had 19 companies exit from the Trust's portfolio during 2016. This level of exit activity remains relatively high for the Trust's portfolio, especially after the unprecedented 32 exits experienced in 2014 and 21 exits in 2015, and is another indicator of how active and aggressive the markets continued to be in 2016. In all but four of these exits, the Trust realized a positive return on its investment. Of note, 14 of

Barings Participation Investors (formerly known as Babson Capital Participation Investors)

the 19 exits in 2016 were the realization of stub equity holdings in companies where the interest bearing debt securities had previously been prepaid.

During 2016, the Trust had five portfolio companies fully or partially prepay their debt obligations. The level of refinancing activity in the portfolio in 2016 was notably lower than in each of the prior three years when prepayments numbered 15, 20, and 32 in 2015, 2014, and 2013, respectively. These transactions, in which the debt instruments held by the Trust were fully or partially prepaid, are generally driven by performing companies seeking to take advantage of lower interest rates and the abundant availability of debt capital. Unless replaced by new private debt investments, these prepayments reduce net investment income.

As a result of the level of new investment activity, combined with the composition of the realizations (majority being the sale of non-cash pay equity securities) and lower level of prepayments, the Trust's recurring net investment income, increased over 9% to \$0.94 per share as compared to \$0.86 per share in 2015.

OUTLOOK FOR 2017

As we enter 2017, the pipeline of investment opportunities remains relatively healthy. The market appears optimistic that the new Presidential administration will result in a favorable economic environment, particularly for middle market companies, the very type of companies in which we focus our investment activities. Various surveys of middle market investment banks and capital providers would suggest the same. However, as previously mentioned, the market dynamics have, and are expected to continue to remain aggressive. And while there is much economic optimism, there is also a level of uncertainty that always comes with changes in governmental leadership. Rest assured that despite constantly changing market conditions, we will continue to employ on behalf of the Trust the same investment philosophy that has served it well since its inception: investing in companies which we believe have a strong business proposition, solid cash flow, and experienced, ethical management. We believe this philosophy, along with Barings' seasoned investment management team, positions the Trust well to meet its long-term investment objectives.

The Trust was able to maintain its \$0.27 per share quarterly dividend in 2016 for a total annual dividend of \$1.08 per share. However, it was once again necessary to supplement recurring investment income in each quarter of 2016 with non-recurring income and earnings carry forward in order to maintain the \$1.08 per share annual dividend. As has been discussed in prior reports, recurring investment income alone has not been sufficient, and while improving, is not projected to be sufficient in the near term, to fully fund the current dividend rate. Net investment income has been below the dividend rate since 2013 due principally to the considerable reduction in the number of private debt securities in the portfolio resulting from the high level of exits and prepayment activity that occurred from 2013 through 2015, combined with generally lower investment returns available due to market and competitive dynamics over the past several years. As mentioned above, we made good progress in growing recurring investment income in 2016, but it remains below the dividend rate and will continue to require supplementation from non-recurring income in the near term. The level of expected recurring investment income generated by the Trust in 2017, combined with the availability of earnings carry forwards and other non-recurring income, maintenance of the current dividend rate over the next several quarters is expected. But over time, the Trust's dividend paying ability tends to be correlated with its recurring earnings capacity. As such, until recurring investment income reaches a level equal to the current dividend rate, there is the risk that the dividend may need to be reduced in the future.

Net asset value return represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions which differs from the total investment return based on the Trust's market value due to the difference between the Trust's net asset value and the market value of its shares outstanding; past performance is no guarantee of future results.

As additional information, this ratio is included to reflect the taxes paid on retained long-term gains. These taxes (d) paid are netted against realized capital gains in the Statement of Operations. The taxes paid are treated as deemed distributions and a credit for the taxes paid is passed on to shareholders.
