Form 20-F Form 40-F

Enclosures:

1. Nokia Press Release dated April 20, 2005 and titled:

New IFRS standards and their impact on Nokia 2004 and future accounts

press release

20.4.2005

New IFRS standards and their impact on Nokia 2004 and future accounts

International Financial Reporting Standards (IFRS) were subject to changes as of January 1, 2005. The following covers those rules applicable to Nokia. The total impact of the changes resulting from the retrospective implementation of the new rules to Nokia's 2004 financial accounts were an increase of EUR 104 million on net sales, and a net decrease of EUR 4 million on operating profit. These result from the changes in IFRS 2 and IAS 39 Revised.

IFRS 2: Share-based payments

IFRS 2 requires companies to recognize the cost of share-based awards to employees over the grant date to vesting date. The standard applies to awards granted since November 7, 2002 and not yet vested by January 1, 2005. The cost is assessed on a fair value basis using an option pricing model.

For the Nokia 2004 accounts, this applies only to the 2003 stock option, and 2004 stock option, performance share and restricted share plans. The retrospective implementation of this change reduced the year 2004 operating profit by EUR 62 million.

The impact of this new rule will be seen in all relevant operating expenses lines.

IAS 39 Revised: Hedge accounting

IAS 39R no longer permits hedge accounting for treasury center foreign exchange netting, the method that Nokia has historically used to hedge foreign exchange risk. This change in the hedge accounting rules is retrospective for Nokia as an existing IFRS user.

The retrospective implementation of this change increased 2004 net sales by EUR 104 million and increased 2004 operating profit by EUR 58 million.

With effect from the beginning of this year, Nokia has revised its method of hedging foreign exchange risks to ensure hedge accounting treatment under the new rules.

IFRS 3: Business combinations, IAS 36 Revised: Impairment of assets, and IAS 38 Revised: Intangible assets

IFRS 3 calls for the discontinuation of goodwill amortization. IFRS 3 had no retrospective impact on Nokia's 2004 financial accounts. At December 31, 2004 Nokia had EUR 90 million of goodwill on its balance sheet, which in the future will not be amortized, but will be subject to an annual impairment test in accordance with IAS 36R.

The impact of the retrospective implementation of IFRS 2 and IAS 39R on Nokia's 2004 financial accounts can be found in the following tables.
