Acceleration of Stock Options

On September 27, 2005, the Compensation Committee (the Committee) of the Board of Directors (the Board) of Mothers Work, Inc. (the Company) approved, and the Board ratified, the acceleration of the vesting of all outstanding stock options having exercise prices of \$23.50 or more. Options to purchase 133,500 shares, having exercise prices ranging from \$23.62 to \$37.05 per share, were affected by the vesting acceleration. The closing price of the Company s common stock on September 26, 2005 (the trading day prior to the vesting acceleration) as reported by The Nasdaq Stock Market, Inc. was \$11.31 per share.

The Company s named executive officers who held options that were affected by the vesting acceleration are as follows: (1) Edward M. Krell, Executive Vice President, Chief Financial Officer options for 24,000 shares at a per share exercise price of \$23.62; and (2) David Mangini, Executive Vice President, General Merchandise Manager options for 3,000 shares at a per share exercise price of \$37.05 and options for 2,400 shares at a per share exercise price of \$23.62. None of the stock options that were affected by the vesting acceleration are held by members of the Board.

The primary purpose of this accelerated vesting program was to eliminate the compensation expense associated with these stock options that the Company would otherwise have been required to recognize in future financial statements pursuant to Statement of Financial Accounting Standards No. 123R, which is effective for the Company beginning in the first quarter of fiscal 2006, which commenced on October 1, 2005. The amount of future compensation expense that will be avoided in connection with this acceleration is approximately \$2.0 million, on a pre-tax basis.
