Item 8.01 **Other Events**

The lenders under the Company's Amended and Restated Credit Agreement have extended until November 29, 2005 the waiver of any default or event of default under the credit agreement which may arise by virtue of the Company's failure to deliver to the lenders the Company's June 30, 2005 Form 10-Q financial statements.

Because the Company did not file its June 30, 2005 Form 10-Q by the SEC's filing deadline, the Company was not in compliance with its indentures governing the Company's senior and senior subordinate notes, but that non-compliance will not result in an automatic event of default or the acceleration of the notes. However, either the trustee under any of the indentures or the holders of at least 25% of the outstanding principal amount of any such series of notes would have the right to accelerate the maturity of that series of notes if the Company failed to file and deliver its June 30, 2005 Form 10-Q and other periodic reports within 60 days after written notice of such default, unless holders of a majority of each series of the notes waive compliance with the filing and delivery requirement.

Under the indentures and the Amended and Restated Credit Agreement, the Company must file periodic reports with the SEC and furnish copies to the trustees and the noteholders under its indentures and each lender under the credit facility. All of the indentures, provide that an event of default occurs thereunder when an event of default occurs under any other indebtedness of AES in excess of \$50 million and either (a) such default arises from the failure to pay the principal at final maturity or (b) as a result of such default, the maturity of such debt has been accelerated and such acceleration has not been annulled within 60 days. The Amended and Restated Credit Agreement contains a cross-default provision that provides that the Company's default on indebtedness in amounts in excess of \$50 million would constitute an event of default under the Amended and Restated Credit Agreement.
