Page 5 of 11

On February 17, 2005, the TDS Board of Directors (the "TDS Board"), including directors who are not trustees or beneficiaries of the Voting Trust, and directors who are not officers of TDS, unanimously approved a proposal (the "Special Common Share Proposal"), to be submitted to TDS shareholders at a Special Meeting of shareholders, to approve an amendment (the "Amendment") to the Restated Certificate of Incorporation of TDS to increase the authorized number of Special Common Shares of TDS from 20,000,000 to 165,000,000. The Voting Trust had the voting power to cause the Special Common Share Proposal and certain related proposals to be approved, and the trustees of the Voting Trust advised TDS that they intended to vote for the Special Common Share Proposal and for such related proposals at the Special Meeting of shareholders. The Special Common Share Proposal was approved at the Special Meeting of shareholders and the Amendment became effective on April 11, 2005.

Following such approval, the TDS Board approved a distribution of one Special Common Share in the form of a stock dividend with respect to each outstanding Common Share and Series A Common Share of TDS (the "Distribution"), subject to the approval of the Special Common Share Proposal by shareholders, the effectiveness of the Amendment, and certain other conditions. Each of these conditions was satisfied and the Distribution became effective on May 13, 2005 to shareholders of record on April 29, 2005.

TDS currently owns approximately 80.7% of the equity and 95.6% of the voting power of U.S. Cellular. Such ownership is in the form of approximately 69.1% of the outstanding Common Shares and 100% of the Series A Common Shares of U.S. Cellular.

The Special Common Share Proposal was implemented by TDS for, among other reasons, to permit TDS to offer and issue TDS Special Common Shares in exchange for all of the Common Shares of U.S. Cellular which are not owned by TDS and to subsequently effect a short-form merger (a "Possible U.S. Cellular Transaction"). The purpose of a Possible U.S. Cellular Transaction would be to cause U.S. Cellular to become a wholly-owned subsidiary of TDS. Citigroup Global Markets Inc. ("Citigroup") was engaged as TDS's financial advisor in connection with a Possible U.S. Cellular Transaction.

Implementation of the Special Common Share Proposal and the Distribution would allow TDS to issue such Special Common Shares for a Possible U.S. Cellular Transaction and other corporate purposes without diluting the voting power of the Series A Common Shares and the voting control of the Voting Trust. The trustees advised TDS that they would not support or approve various actions, including a sale of control of U.S. Cellular or a spin-off of U.S. Cellular.

The foregoing transactions were developed by TDS following discussions with trustees of the Voting Trust. TDS management communicated with the trustees of the Voting Trust to determine if they would support certain actions. Following consideration of certain possible transactions, the trustees of the Voting Trust advised TDS management that they were not actively seeking any change to the TDS capital structure and did not consider it to be necessary, but that they might consider a transaction that did not impair the voting control of the Voting Trust and that was in the best interest of TDS and all of its shareholders.

At the same time, the trustees of the Voting Trust further advised that they did not believe that certain alternatives would be in the best interest of TDS and all of its shareholders and, accordingly, would not approve or support action in furtherance of such alternatives. The trustees of the Voting Trust advised TDS that they intend to maintain the ability to keep or dispose of the voting control of TDS and intend that TDS maintain the ability to keep or dispose of the voting control of U.S. Cellular.

Following the TDS Distribution, TDS management continued to consider and discuss the possibility of acquiring the USM Common Shares not owned by TDS in a Possible U.S. Cellular Transaction. Over the next several months members of TDS's management took various actions in preparation for and to analyze the feasibility of such a possible transaction, and consulted with outside counsel and engaged financial advisors in connection with a possible transaction.

During the course of its consultations with TDS's advisors, TDS considered the exchange ratio implied from time to time by the market prices of TDS Special Common Shares and Common Shares of U.S.

Schedule 13D

Issuer: United States Cellular Corporation

Page 6 of 11

Cellular. Although a Possible U.S. Cellular Transaction could have certain potential benefits, TDS does not believe that such a transaction is critical strategically, operationally or financially to the continued success of TDS or U.S. Cellular. TDS does not intend to commence or complete a Possible U.S. Cellular Transaction on uneconomic terms. TDS believes that an acceptable exchange ratio would need to be based on financial metrics which appropriately reflect the relative value of TDS and U.S. Cellular, recognizing the fact that a substantial portion of the value of TDS is comprised of its ownership in U.S. Cellular. TDS does not believe that the exchange ratio implied by the historical and current TDS and U.S. Cellular trading prices since some time after the announcement of a Possible U.S. Cellular Transaction has properly reflected this relative value. TDS also noted that it had been approximately two years since the initial announcement of a Possible U.S. Cellular transaction.

In addition, since the announcement of a Possible U.S. Cellular transaction, neither TDS nor U.S. Cellular has made any purchases of U.S. Cellular Common Shares due to limitations or restrictions imposed by tax, securities, corporate and other laws or regulations as a result of the announcement of a Possible U.S. Cellular Transaction. However, Common Shares have continued to be issued by U.S. Cellular pursuant to its employee benefit and director compensation plans. As a result, TDS's ownership of U.S. Cellular common stock has declined from approximately 82% at the time of announcement of a Possible U.S. Cellular Transaction in 2005 to approximately 80.7%. TDS does not believe that it would be desirable for TDS or U.S. Cellular to allow this percentage to decline below 80%, because this would require TDS and U.S. Cellular to cease filing consolidated federal income tax returns. In such event, TDS and U.S. Cellular would be required to pay additional current taxes that could be significant. In addition, TDS believes that the ability to file consolidated income tax returns may provide TDS and U.S. Cellular with future tax benefits that would be desirable to retain.

On March 2, 2007, the TDS board of directors met, with members of TDS's management and TDS's outside counsel and financial advisors present, and discussed the Possible U.S. Cellular Transaction, the historical and present TDS and U.S. Cellular trading prices, the length of time since the initial announcement, the potential benefits of a Possible U.S. Cellular Transaction, the engagement letter between TDS and Citigroup, the desire to avoid a tax deconsolidation and other matters. Following discussion, the TDS board of directors determined unanimously to terminate the engagement letter with Citigroup and to terminate all other activity relating to a Possible U.S. Cellular Transaction at this time.

Although TDS is terminating activity with respect to a Possible U.S. Cellular Transaction at this time, TDS reserves the right to recommence activity with respect to a Possible U.S. Cellular Transaction at any time in the future. TDS may also at any time acquire the Common Shares of U.S. Cellular through open market purchases, block transactions, private purchases or otherwise, or take other action to acquire some or all of the shares of U.S. Cellular not owned by TDS, although it has no present plans to do so. However, TDS intends to support repurchases of Common Shares by U.S. Cellular, to offset the effect of dilution from the issuance of shares pursuant to employee benefit and director compensation plans and avoid a tax deconsolidation, as discussed above.

At this time, TDS intends to support action by the U.S. Cellular board of directors to approve a share repurchase program of up to 500,000 Common Shares of U.S. Cellular. This would be in addition to U.S. Cellular's existing de minimis share repurchase authorization that permits the repurchase of approximately 170,000 shares in each three month period.

Except as disclosed or incorporated by reference herein, neither TDS nor the Voting Trust has any current intention, plan or proposal with respect to: (a) the acquisition by any person of additional securities of the Issuer, or the disposition of securities of the Issuer; (b) an extraordinary corporate transaction, such as a merger, reorganization or liquidation, involving the Issuer or any of its subsidiaries; (c) a sale or transfer of a material amount of assets of the Issuer or any of its subsidiaries; (d) any change in the present board of directors or management of the Issuer, including any plans or proposals to change the number or term of directors or to fill any existing vacancies on the board; (e) any material change in the present capitalization or dividend policy of the Issuer; (f) any other material change in the Issuer's business or corporate structure; (g) changes in the Issuer's charter, bylaws or instruments corresponding thereto or other actions which may impede the acquisition of control of the Issuer by any person; (h) causing a class of securities of the Issuer to be delisted from a national securities exchange, if any, or cease to be authorized to be quoted in an inter-dealer quotation system of a registered national

securities association; (i) a class of equity securities of the Issuer becoming eligible for termination of a registration pursuant to Section 12(g)(4) of the Act; or (j) any action similar to any of those enumerated above.

The trustees of the Voting Trust advised TDS that they intend to maintain the ability to keep or dispose of the voting control of TDS and intend that TDS maintain the ability to keep or dispose of the voting control of U.S. Cellular.

Notwithstanding the foregoing, TDS and the trustees of the Voting Trust retain the right to change their intent, to acquire additional securities from time to time or to dispose of all or part of the securities beneficially owned by TDS or the Voting Trust in any manner permitted by the terms of the Voting Trust and/or applicable law.
