NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements for the interim periods have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the financial information and footnotes required by GAAP for complete financial statements, although we believe the disclosures are adequate to make the information presented not misleading. These statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2006. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year or for any other interim period. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, since actual results could differ from those estimates.

Summary of Significant Accounting Policies

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States, we must make decisions, which impact the reported amounts and related disclosures. Such decisions include the selection of the appropriate principles to be applied and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances.

The accounting principles followed in the preparation of the consolidated financial information contained on Form 10-Q are the same as those described in our Annual Report on Form 10-K for the year ended December 31, 2006, some of which have been included herein.

Cash and Cash Equivalents

For purposes of reporting cash flows, we consider cash equivalents to be short-term, highly liquid interest-bearing accounts readily convertible to cash. Their carrying amount approximates fair value.

Restricted Cash

As of both September 30, 2007 and December 31, 2006, cash of \$427,500 is restricted for the purchase of equipment and facility upgrades at our Blue Earth, Minnesota facility as required by the Industrial Revenue Bond agreement into which we entered on June 28, 2006 to purchase the Blue Earth, Minnesota facility, see Note 4.

Stock Based Compensation

We have two types of stock-based compensation awards consisting of restricted stock and stock options. Following is a summary of the key terms and methods of valuation for our stock-based compensation awards.

Restricted Stock

On March 7, 2006, 28,500 shares of restricted common stock were granted to our management and directors. This benefit was valued at the market price of the stock on the date of grant. These awards vest over a three-year term and are expensed ratably over the same period. We recorded compensation expense of \$17,475 and \$22,073 for the three months ended September 30, 2007 and 2006, respectively. Total compensation expense related to restricted stock included in the statements of income for the three months and nine months ended September 30, 2007 and 2006 was \$52,425 and \$47,827, respectively. The following is the status of our restricted shares as of September 30, 2007, including changes during the nine months then ended:

		Restricted Shares		Weighted- Average Grant Date Fair Value
Outstanding	January 1, 2007	28,500	\$	7.44
Granted				
Outstanding	September 30, 2007	28,500	\$	7.44
Exercisable	September 30, 2007	9,500	\$	7.44

As of September 30, 2007 and 2006, there was approximately \$87,000 and \$164,000 of unrecognized compensation expense related to unvested restricted stock awards being recognized over a weighted average period of 1.25 years and 2.25 years, respectively.

Stock Options

On May 3, 2005, the shareholders approved the 2005 Incentive Compensation Plan (the "2005 Plan"). The total number of shares of common stock that may be granted under the 2005 Plan is 200,000, of which 39,500 remain available for grant at September 30, 2007. The 2005 Plan provides that option shares granted come from our authorized but unissued common stock. The price of the option shares granted under the plan will not be less than 100% of the fair market value of the common shares on the date of grant. These awards generally vest over a three-year term, are expensed ratably over the same period, and expire no later than 10 years from the date of grant.

On July 11, 2007, the Board of Directors approved the adoption of the Focus Incentive Plan (the "2007 Plan"). The total number of shares of common stock that may be granted to our management under the 2007 Plan is 490,000, of which 27,000 remain available for grant at September 30, 2007 and vesting of options is conditional upon meeting established performance measurements. The 2007 Plan provides that option shares granted come from our authorized but unissued common stock. The price of the option shares granted under the plan will not be less than 100% of the fair market value of the common shares on the date of grant.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Following is the status of our stock option plans as of September 30, 2007, including changes during the nine-month period then ended:

		Options	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding	January 1, 2007	391,500	\$ 6.84		
Granted		463,000	\$ 7.50		
Exercised		(40,000)	\$ 5.00		
Forfeited		(2,000)	\$ 8.00		
Outstanding	September 30, 2007	812,500	\$ 7.30	8.56	\$ 170,910
Exercisable	September 30, 2007	233,500	\$ 6.75	6.00	\$ 170,910

For the nine months ended September 30, 2007, there were no options that became vested.

To calculate the option-based compensation under SFAS 123R, we used the Black-Scholes option-pricing model, which we had previously used for the valuation of option-based awards for our pro forma information required under SFAS 123 for periods prior to fiscal 2006. Our determination of fair value of option-based awards on the date of grant using the Black-Scholes model is affected by our stock price as well as assumptions regarding a number of subjective variables. These variables include, but are not limited to, our expected stock price volatility over the term of the awards, risk-free interest rate, and the expected life of the options. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected life of our stock options. The expected volatility and holding period is based on our historical experience. For all grants, the amount of compensation expense to be recognized is adjusted for an estimated forfeiture rate, which is based on historical data.

Stock Options with Time-Based Vesting

Total compensation expense related to stock options with time-based vesting included in our statements of income for the three months ended September 30, 2007 and 2006 was \$46,278 and \$32,278, respectively. Total compensation expense related to stock options with time-based vesting included in our statements of income for the nine months ended September 30, 2007 and 2006 was \$138,834 and \$72,731, respectively.

As of September 30, 2007 and 2006, there was approximately \$338,000 and \$242,000, respectively, of unrecognized compensation expense related to unvested option awards that we expect to recognize over a weighted-average period of 1.73 years and 2.25 years, respectively.

Stock Options with Performance-Based Vesting

We have estimated that the probability of achieving any of the performance goals required under the outstanding performance-based awards is less than 50%, thus in accordance with provisions of SFAS 123R, no compensation expense has been recorded for the three and nine months ended September 30, 2007, respectively.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

As of September 30, 2007, there was approximately \$1,990,000 of unrecognized compensation expense relating to the performance-based stock options.

Segment Reporting Information

Our results of operations for the three months and nine months ended September 30, 2007 and 2006 represent a single segment referred to as Contract Manufacturing. Export sales represented 4% and 3% of consolidated net sales for the three-month and nine-month periods ended September 30, 2007, respectively. Export sales represented 4% and 5% of consolidated net sales for the three-month and nine-month periods ended September 30, 2006, respectively.

Long-lived assets by country are as follows:

	United States		Mexico		Total
September 30, 2007					
Net Property and Equipment	\$	8,350,788	\$	488,231	\$ 8,839,019
Other Assets		1,514,828		7,726	1,522,554
December 31, 2006					
Net Property and Equipment	\$	7,700,481	\$	554,687	\$ 8,255,168
Other Assets		862,396		7,726	870,122

Finite Life Intangible Assets

Finite life intangible assets at September 30, 2007 and December 31, 2006 are as follows:

	Estimated Lives (Years)	September 30, 2007			
		Gross Carrying Amount	Accumulated Amortization	Net Book Value	
Deferred Bond Issue Costs	15	\$ 79,373	\$ 6,614	\$	72,759
Preliminary Estimated Intangible Value from Acquisition (Note 9)	5	733,845	125,282		608,563
Other Intangibles	3	37,059	37,059		
Totals		\$ 850,277	\$ 168,955	\$	681,322

	Estimated Lives (Years)	December 31, 2006			
		Gross Carrying Amount	Accumulated Amortization	Net Book Value	
Deferred Bond Issue Costs	15	\$ 79,373	\$ 2,649	\$	76,724
Non-Compete	4	1,526,384	1,526,384		
Other Intangibles	3	37,059	30,893		6,166
Totals		\$ 1,642,816	\$ 1,559,926	\$	82,890

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Amortization expense related to these assets is as follows:

Quarter ended September 30, 2007	\$	44,258
Quarter ended September 30, 2006	\$	4,413
Nine months ended September 30, 2007	\$	135,417
Nine months ended September 30, 2006	\$	201,377

Estimated future amortization expense related to these assets is as follows:

Remainder of 2007	\$	38,000
2008		150,000
2009		150,000
2010		141,000
2011		141,000
Thereafter		61,000
Total	\$	681,000

As discussed in Note 9, the estimated future amortization expense presented above may change once the final purchase price allocation of the acquisition is completed.

NOTE 2. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Nortech Systems Incorporated ("Nortech") and its wholly owned subsidiary, Manufacturing Assembly Solutions of Monterrey, Inc. All significant intercompany accounts and transactions have been eliminated.

NOTE 3. MAJOR CUSTOMERS AND CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and trade accounts receivable. With regard to cash, we maintain our excess cash balances in checking accounts at three financial institutions. We do not require collateral on our receivables. Historically, we have not suffered significant losses with respect to trade accounts receivable.

Two customers accounted for 10% or more of our net sales for the three-month and nine-month periods ended September 30, 2007 and 2006. For the three-month periods ended September 30, 2007 and 2006, G.E. s Medical and Transportation Divisions together accounted for 15% and 16% of net sales, respectively. For the nine-month periods ended September 30, 2007 and 2006, G.E. Medical and Transportation Divisions accounted for 17% and 15% of net sales, respectively. Accounts receivable from G.E. s Medical and Transportation Divisions at September 30, 2007 and 2006, represented 10% and 16% of total accounts receivable, respectively. Additionally, Northrop Grumman Corp. accounted for 16% and 8% of net sales for the three-month periods ended September 30, 2007 and 2006, respectively. For the nine-month periods ended September 30, 2007 and 2006, Northrop Grumman Corp. accounted for 15% and 11% of net sales, respectively. Accounts receivable from Northrop

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Grumman Corp. at September 30, 2007 and 2006 represented 21% and 12% of total accounts receivable, respectively.

NOTE 4. LONG TERM DEBT

On June 28, 2006, we received \$1,440,000 million in exchange for an industrial revenue bond with our trustee, Wells Fargo Bank (WFB), where the City of Blue Earth, Minnesota is issuer of the bond. The bond, which matures on June 1, 2021, bears a variable interest rate. In connection with the bond, we have a standby letter of credit of \$1,458,000, none of which has been drawn upon. The bond agreement contains certain covenants, which, among other things, require us to furnish reports, records, etc. upon request of the trustee and/or issuer as described in the agreement. With WFB, we

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

entered into an interest rate swap agreement with a notional amount of \$1,440,000 million to effectively convert our industrial revenue bond debt from a variable rate to a fixed rate of 4.07% for five years, maturing on June 28, 2011. The fair value of the swap at September 30, 2007 was recorded as a long-term liability of \$29,449. The bond is payable in annual installments per the agreement with WFB. Our first bond principal payment on June 1, 2007 was \$130,000. The proceeds of the bond were used to purchase the facility in Blue Earth, Minnesota as well as facility upgrades and equipment to support the Blue Earth operations.

On February 2, 2007, in connection with the acquisition of Suntron's Midwest Operations located in Garner, Iowa, we entered into a 7th amendment to our credit agreement with WFB, increasing our line of credit arrangement from \$10 million to \$15 million and extending the maturity date of the line of credit to April 30, 2009. Additionally, the 7th amendment increased our real estate term note balance of \$1,680,555 to \$3,348,750 and extended the maturity date to May 31, 2012. Per the 7th amendment, both the line of credit and real estate term note are subject to variations in LIBOR rates. The line of credit and other installment debt with WFB contain certain covenants, which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. On September 30, 2007, we had an outstanding balance of \$11.6 million under the line of credit and unused availability of \$3.4 million supported by our borrowing base. The line of credit is secured by substantially all of our assets.

NOTE 5. NET INCOME PER COMMON SHARE

The following is a reconciliation of the numerators and the denominators of the basic and diluted per common share computations.

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2007	2006		2007	2006	
Basic Earnings Per Common Share						
Net income, as reported	\$ 420,506	\$ 304,587	\$	\$ 1,074,900	\$ 877,200	\$
Weighted average common shares outstanding	2,695,815	2,630,403		2,688,955	2,622,672	
Basic earnings per common share	\$ 0.16	\$ 0.12	\$	\$ 0.40	\$ 0.33	\$
Diluted Earnings Per Common Share						
Net income, as reported	\$ 420,506	\$ 304,587	\$	\$ 1,074,900	\$ 877,200	\$
Weighted average common shares outstanding	2,695,815	2,630,403		2,688,955	2,622,672	
Effect of Stock options	26,837	36,423		31,458	46,984	
Effect of Restricted stock	7,327	5,265		6,147	10,142	
Weighted average common shares for diluted earnings per common share	2,729,979	2,672,091		2,726,560	2,679,797	
Diluted earnings per common share	\$ 0.15	\$ 0.12	\$	\$ 0.39	\$ 0.33	\$

On February 2, 2007, in connection with the acquisition of Suntron's Midwest Operations located in Garner, Iowa, we

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

For the three-month periods ended September 30, 2007 and 2006, 18,383 and 10,012 shares, respectively, were excluded from the computation of diluted earnings per share because to include them would be antidilutive. For the nine-month periods ended September 30, 2007 and 2006, 69,756 and 36,171 shares, respectively, were excluded from the computation of diluted earnings per share because to include them would be antidilutive.

NOTE 6. FOREIGN CURRENCY TRANSLATION

Local currency is considered the functional currency for operations outside the United States. Assets and liabilities are translated at period-end exchange rates. Income and expense items are translated at average rates of exchange prevailing during the period. Translation adjustments are recorded as a component of accumulated other comprehensive loss in shareholders' equity. Foreign currency exchange transaction gains and losses attributable to exchange rate movements on intercompany receivables and payables not deemed to be of a long-term investment nature are recorded in miscellaneous income (expense). The Mexican peso is the only foreign currency being translated.

NOTE 7. COMPREHENSIVE INCOME

Comprehensive income is comprised of net income and other comprehensive income (loss). Other comprehensive income (loss) includes gains and losses resulting from foreign currency translations. The details of comprehensive income are as follows:

	Three Months Ended		Nine Months Ended	
	Sept 30, 2007	Sept 30, 2006	Sept 30, 2007	Sept 30, 2006
Net Income, as reported	\$ 420,506	\$ 304,587	\$ 1,074,900	\$ 877,200
Other Comprehensive Income (Loss):				
Currency Translation Adjustment	(6,207)	20,001	(5,223)	
Comprehensive Income	\$ 414,299	\$ 324,588	\$ 1,069,677	\$ 877,200

NOTE 8. RECENTLY ISSUED ACCOUNTING STANDARDS

We adopted the provisions of FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement 109*, on January 1, 2007. As required by FIN 48, we recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, we applied FIN 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of FIN 48, we recognized a \$32,000 liability for unrecognized income tax benefits, which is included in income taxes payable, as a cumulative change to opening retained earnings as prescribed. We have also recorded an additional \$8,000 of income taxes payable and expense for unrecognized 2007 income tax benefits.

For the three-month periods ended September 30, 2007 and 2006, 18,383 and 10,012 shares, respectively, were e

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

The \$32,000 of unrecognized tax benefits as of January 1, 2007 and the additional \$8,000 as of September 30, 2007, includes unrecognized tax benefits, which, if ultimately recognized, will reduce our annual effective tax rate.

We are subject to income taxes in the U.S. federal jurisdiction and various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, we are no longer subject to U.S. federal, state or local income tax examinations by tax authorities for the years before 2003. We are not currently under examination by any taxing jurisdiction.

In September 2006, the FASB issued SFAS No. 157 (SFAS 157), *Fair Value Measurements*. SFAS 157 establishes a common definition for fair value to be applied to U.S. GAAP guidance requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. We are currently assessing the impact of SFAS 157 on its consolidated financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159 (SFAS 159), *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*. SFAS 159 allows organizations to measure and report the fair market value of many financial instruments and certain other items. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of adopting SFAS 159 on our consolidated financial statements.

NOTE 9. BUSINESS ACQUISITION

On February 4, 2007, we purchased substantially all of the assets and assumed certain liabilities of Suntron's Midwest Operations located in Garner, Iowa. This operation is an Electronics Manufacturer Service (EMS) provider of printed circuit board assemblies, box build assemblies and repair services. This acquisition will strengthen our capabilities in printed circuit board assemblies and high level complete box build assemblies while opening new market opportunities in the agriculture and oil and gas industries.

We accounted for the acquisition under the purchase method of accounting in accordance with SFAS 141, *Business Combinations*. Accordingly, the estimated purchase price has been allocated to the tangible and intangible assets acquired and liabilities assumed based on our estimates of fair value at the acquisition date.

The purchase agreement calls for a contingent earn-out of up to \$600,000 if certain revenue levels are achieved. Based on our review of both actual and projected revenue levels of the acquired business, we believe it is probable that \$200,000 of the possible earn-out payment will be earned. Accordingly, at September 30, 2007, such amount has been recorded in other accrued liabilities and accounted for as additional consideration. At the conclusion of the earn-out period on December 31, 2007, we will reassess this contingency and adjust the accrued earn-out, if necessary.

The following table presents further information on the aforementioned business acquisition and the preliminary allocation of the purchase price:

Accounts receivable	\$	1,981,000
Inventories		2,283,000
Other current assets		88,000
Property, plant and equipment		822,000
Finite Lived Intangibles		534,000
Accounts payable assumed		(819,000)
Accrued compensation and other liabilities assumed		(81,000)
Cash consideration paid		4,808,000
Accrual for estimated earnout payment		200,000
Net assets acquired and liabilities assumed	\$	5,008,000

The finite life intangibles of \$734,000 include a customer base, which makes up most of the intangibles balance at approximately \$705,000, being amortized over an estimated life of 5 years and a non-competition agreement of approximately \$29,000 being amortized over three years. For tax purposes, these assets are deductible over a 15-year period. This difference gives rise to deferred income taxes.

The table below reflects our unaudited pro forma combined results of operations as if the acquisition had taken place as of January 1, 2006:

	Pro Forma Three Months Ended Sept 30, 2007 (unaudited)		Pro Forma Nine Months Ended Sept 30, 2007 (unaudited)	
	Sept 30, 2007 (unaudited)	Sept 30, 2006	Sept 30, 2007 (unaudited)	Sept 30, 2006
Net Sales	\$ 29,637,000	\$ 28,326,000	\$ 89,926,000	\$ 87,187,000
Net Income	\$ 421,000	\$ 324,000	\$ 1,051,000	\$ 1,056,000
Basic earnings per common share	\$ 0.16	\$ 0.12	\$ 0.39	\$ 0.40
Diluted earnings per common share	\$ 0.15	\$ 0.12	\$ 0.39	\$ 0.40

The pro forma unaudited results do not purport to be indicative of the results which would have been obtained had the acquisition been completed as of the beginning of the earliest period presented. Once the final purchase price allocation is determined, the unaudited pro forma combined results of operations presented above may change.

(The remainder of this page was intentionally left blank.)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Overview:**

We are a Wayzata, Minnesota based full-service Electronics Manufacturing Services (EMS) contract manufacturer of wire and cable assemblies, printed circuit board assemblies, higher-level assemblies and box builds for a wide range of industries. Major markets served include industrial equipment and transportation, medical and military/defense. We have operating facilities in Baxter, Bemidji, Blue Earth, Fairmont and Merrifield, Minnesota, Garner, Iowa, Augusta, Wisconsin, and Monterrey, Mexico.

Summary:

For the quarter ended September 30, 2007, we reported net sales of \$29.6 million, up 17% over the \$25.3 million we reported in the same quarter of 2006. For the nine months ended September 30, 2007, we reported net sales of \$88.8 million, up 15% over the \$77.5 million we reported for the nine months ended September 30, 2006. Our sales increases are primarily due to our Garner, Iowa acquisition in February 2007. The gross profit percentage improved 2 percentage points over last years third quarter. The gross margin was 14% and 12% for the third quarters of 2007 and 2006, respectively. For the nine months ended September 30, 2007 and 2006, the gross profit percentage was 13% and 12%, respectively. Income from operations for the third quarter of 2007 totaled \$1,031,570, an increase of 58% above the \$654,185 reported in the third quarter of 2006. Income from operations for the nine months ended September 30, 2007 totaled \$2,523,103, an increase of 34% above the \$1,882,655 reported for the nine months ended September 30, 2006. Net income for the third quarter of 2007 totaled \$420,506, or \$0.15 per diluted common share, up 38% compared to \$304,587, or \$0.12 per diluted common share, reported in the third quarter of 2006. Net income for the nine months ended September 30, 2007 totaled \$1,074,900, or \$0.39 per diluted common share, and was above the \$877,200, or \$0.33 per diluted common share, reported for the nine months ended September 30, 2006.

(1.) Results of Operations:

The following table presents statement of operations data as percentages of total revenues for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Net Sales	100%	100%	100%	100%
Cost of Good Sold	86%	88%	87%	88%
Gross Profit	14%	12%	13%	12%
Selling Expenses	4%	5%	4%	5%
General and Administrative Expenses	7%	4%	6%	5%
Income from Operations	3%	3%	3%	2%
Other Expenses, Net	1%	1%	1%	1%
Income Tax Expense	1%	1%	1%	0%
Net Income	1%	1%	1%	1%

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Net Sales:

We reported net sales of \$29.6 million and \$25.3 million for the third quarters ended September 30, 2007 and 2006, respectively, a 17% increase year over year. The increase in net sales of \$4.3 million for the third quarter is mainly attributable to the acquisition of the Garner, Iowa Electronic Circuit Board Assemblies facility accounting for \$4.1 million of the increase. Our Aerospace Systems sales increased \$1.9 million when compared to the third quarter of last year, while our Merrifield, Minnesota Electronic Circuit Board Assemblies facility and Cable and Wire sales were down \$0.9 million and \$0.8 million, respectively. We reported net sales of \$88.8 million and \$77.5 million for the nine months ended September 30, 2007 and 2006, respectively. The newly acquired Garner, Iowa Electronic Circuit Board Assemblies facility accounting for \$10.2 million of the increase, our Aerospace Systems sales increased by \$1.9 million and our Merrifield, Minnesota Electronic Circuit Board Assemblies facility by \$0.2 million, while our Cable and Wire sales were down \$1.0 million. Our 90-day order backlog as of September 30, 2007 was approximately \$23.6 million, compared to approximately \$22.6 million at the beginning of the quarter.

Gross Profit:

Our gross profit for the third quarter of 2007 was \$4.1 million or 14% of net sales compared to gross profit of \$3.0 million or 12% of net sales for the third quarter of 2006. A favorable mix of product and manufacturing cost improvements account for the gross profit percentage improvement. Our gross profit for the nine months ended September 30, 2007 was \$11.9 million compared to gross profit of \$9.5 million for the nine months ended September 30, 2006, representing 13% and 12% of net sales, respectively.

Selling Expense:

We had selling expenses of \$1.1 million or 4% of net sales for the third quarter of 2007 compared to \$1.2 million or 5% of net sales for the third quarter of 2006. For the nine months ended September 30, 2007 and 2006, we had selling expenses of \$3.7 million and \$3.4 million, respectively, representing 4% and 5% of net sales, respectively. We continue to monitor our selling expense and commission programs in order to maintain the right sales infrastructure to continue our high level of customer service and support.

General and Administrative Expense:

Our general and administrative expenses were \$1.9 million or 7% of net sales for the third quarter of 2007 and \$1.1 million or 4% of net sales reported for the third quarter of 2006. The increase in general and administrative expenses for the quarter of \$0.8 million was a result of \$0.2 million for our new Garner, Iowa facility and \$0.6 million in personnel and related costs to support the business. For the nine months ended September 30, 2007 general and administrative expenses were \$5.7 million or 6% of net sales and \$4.2 million or 5% of net sales for the nine months ended September 30, 2006. The increase in general and administrative expenses for the nine months ended September 30, 2007, of \$1.5 million was a result of \$0.5 million for the support of our new Garner, Iowa facility, \$0.2 million due to increased compliance costs and higher share based compensation expenses over the prior year and \$0.8 million in personnel and other related costs needed to support the business.

Other Expense:

Overview:

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Other expenses, net were \$339,064 for the quarter ended September 30, 2007 compared to \$184,599 for the third quarter of 2006. Other expenses, net were \$852,203 for the nine months ended September 30, 2007 compared to \$535,455 for the nine months ended September 30, 2006. The increase in interest expense for the quarter and nine-month period of \$80,583 and \$202,066, respectively, resulted from increased debt levels related to the acquisition of Garner, Iowa in February 2007, the Blue Earth, Minnesota expansion that occurred in June 2006 and the increased working capital needs as a result of increases in Accounts Receivable and Inventory. Higher interest rates have also impacted overall interest charges. For the nine months ended September 30, 2007, interest income was positively impacted by \$12,713 as the result of carrying the \$427,500 of restricted cash related to the Blue Earth, Minnesota expansion. The remaining miscellaneous expense increase from 2006 resulted from experiencing less favorable currency exchange rates.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Income Tax:

Income tax expense for the three months ended September 30, 2007 was \$272,000, compared to an income tax expense of \$165,000 for the three months ended September 30, 2006. Income tax expense for the nine months ended September 30, 2007 was \$596,000 compared to an income tax expense of \$470,000 for the nine months ended September 30, 2006. The effective tax rate for 2007 is expected to approximate 36%, and the effective rate for 2006 was 30% due to the recognition of tax credits and other tax adjustments that occurred during 2006.

(2.) Liquidity and Capital Resources:

We have satisfied our liquidity needs over the past several years through revenue generated from operations and an operating line of credit through Wells Fargo Bank, N.A. (WFB). On February 2, 2007, we entered into a 7th amendment to our credit agreement with WFB increasing our line of credit arrangement from \$10 million to \$15 million and extending the maturity date of the line of credit to April 30, 2009. Additionally, the 7th amendment increased our real estate term note balance of \$1,680,555 at February 2, 2007 to \$3,348,750 and extended the maturity date to May 31, 2012. Per the 7th amendment, both the line of credit and real estate term note are subject to variations in the LIBOR rates. The 7th amendment funded the Iowa acquisition on February 4, 2007.

The line of credit and other installment debt with WFB contain certain covenants, which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. The availability under the line is subject to borrowing base requirements, and advances are at the discretion of the lender. The line is secured by substantially all of our assets. On September 30, 2007, we had an outstanding balance of \$11.6 million under the line of credit and unused availability of \$3.4 million supported by our borrowing base.

The following unaudited ratios are not required under the SEC guidelines or accounting principles generally accepted in the United States of America. However, we believe they are meaningful measures and are useful to readers of our financial statements.

	September 30, 2007	December 31, 2006	December 31, 2005	December 31, 2004
Current Ratio (Current Assets / Current Liabilities)	1.52	1.63	1.60	1.65
Working Capital (Current Assets - Current Liabilities)	\$ 13,789,638	\$ 12,711,278	\$ 12,214,328	\$ 11,749,991
Quick Ratio (Cash + Accounts Receivable / Current Liabilities)	0.74	0.76	0.75	0.77
Accounts Receivable to Working Capital (Average Accounts Receivable/ Working Capital)	1.22	1.14	1.14	1.03
Inventory to Working Capital (Average Inventory/ Working Capital)	1.28	1.25	1.23	1.10

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Our working capital of \$13.8 million as of September 30, 2007 increased from \$12.7 million at December 31, 2006. The majority of our working capital changes were a direct result of \$5.0 million of working capital generated from our new the Garner, Iowa operation. This increase was offset primarily due to \$3.4 million in current financing activities to help fund the transaction, along with \$0.5 million in other changes to working capital. We continue to focus our efforts on lowering inventory levels and collecting accounts receivable within terms in order to improve our working capital position.

Net cash used in operating activities for the nine months ended September 30, 2007 was \$1.8 million, which is up from the \$0.7 million of net cash used in operating activities for the nine months ended September 30, 2006. The cash flow from operations for the nine months ended September 30, 2007 is the result of net income of \$1.1 million, adjusted for noncash depreciation, amortization, loss on the disposal of assets, stock-based compensation expense, foreign currency transaction loss, and the change in deferred taxes, which combined totaled \$1.4 million in net positive adjustments, less the net change in operating assets and liabilities of \$4.3 million. Increases in Accounts Receivable of \$2.6 million, Inventories of \$0.9 million and decreases in Accounts Payable of \$0.8 million account for the majority of net use of working capital cash for the nine months ended September 30, 2007.

Net cash used in investing activities of \$5.8 million for the nine months ended September 30, 2007 is primarily due to the acquisition of Garner, Iowa of \$4.8 million (See Note 9) as well as \$1.0 million in property and equipment and is up from \$3.2 million net cash used in investing activities for the nine months ended September 30, 2006, where the majority of the use was for purchase of the Blue Earth, Minnesota facility. (See Note 9)

Net cash provided by financing activities for the nine months ended September 30, 2007 was \$7.4 million, consisting primarily of drawing on the line of credit by \$6.9 million and proceeds from the \$1.7 million equipment note, offset by principal payments on notes payable.

We believe that our future financing requirements can be met with funds generated from our operating activities and our operating line of credit. Set forth below is information about our long-term contractual obligations outstanding as of September 30, 2007, excluding interest. Refer to the Annual Report on Form 10-K for detailed information on our long-term contractual obligations and commitments.

	Remainder of 2007	Payments Due by Period		
		2 - 3 Yrs	4 - 5 Yrs	Thereafter
Bank Note Payable	\$ 11,589,873	\$	\$	\$
Notes and Bonds Payable	202,061	1,378,746	2,947,604	800,000
Operating Leases	87,596	574,205	150,368	
Equipment Purchase Commitments	550,000	225,000		
Total Contractual Obligations and Commitments	\$ 12,429,530	\$ 2,177,951	\$ 3,097,972	\$ 800,000

Included in the equipment purchase commitments is \$427,500 that will be used for the purchase of equipment for the Blue Earth facility as specified in the Industrial Revenue Bond Agreement.

From time to time we enter into purchase commitments with our suppliers under customer purchase order forms. Any significant losses implicit in these contracts would be recognized in accordance with generally accepted accounting principles. At September 30, 2007, no such losses existed.

(3.) Critical Accounting Policies:

Our significant accounting policies and estimates are summarized in the footnotes to the annual consolidated financial statements. Some of the most critical accounting policies and estimates that require us to exercise significant judgment are listed below.

Revenue Recognition:

We recognize revenue upon shipment of products to customers, when title has passed, all contractual obligations have been satisfied and collection of the resulting receivables are reasonably assured. In the normal course of business, we enter into a number of contracts with customers under which we provide engineering services on a per project basis. Revenue for these services is recognized upon completion of the engineering process, usually upon initial shipment of the product. Revenues from repair services are recognized upon shipment of related equipment to customers.

Allowance for Uncollectible Accounts:

We evaluate our allowance for uncollectible accounts on a quarterly basis and review any significant customers with delinquent balances to determine future collectibility. We base our determinations on legal issues (such as bankruptcy status), past history, current financial and credit agency reports, and experience. We reserve accounts deemed to be uncollectible in the quarter in which we make the determination. We maintain additional reserves based on our historical bad debt experience. We believe these estimates may differ from actual results. We believe that, based on past history and credit policies, the net accounts receivable are of good quality.

Inventory Valuation and Reserves:

Inventories are stated at the lower of cost (first-in, first out method) or market (based on the lower of replacement cost or net realizable value). Costs include material, labor, and overhead required in the warehousing and production of our products. Inventory reserves are maintained for the estimated value of the inventory that may have a lower value than stated or in excess of production needs. These estimates may differ from actual results. We have an evaluation process that is used to assess the value of the inventory by part and customer that is slow moving, excess or obsolete. This process is reviewed and evaluated quarterly.

Deferred Income Tax Valuation:

At September 30, 2007 and December 31, 2006, we have recorded U.S. and state deferred tax assets pertaining to the recognition of future deductible temporary differences. We have not provided any valuation allowance with respect to these assets, as we believe their realization is more likely than not. This determination is primarily based upon our expectation that future U.S. operations will be sufficiently profitable, as well as various tax, business and other planning strategies available to us. We cannot assure you that we will be able to realize this asset or that future valuation allowances will not be required. The failure to utilize this asset would adversely affect our results of operations and financial position.

Overview:

Valuation of Long-Lived Assets Including Intangible Assets with Finite Lives:

We evaluate long-lived assets and intangible assets with finite lives for impairment, as well as the related amortization periods, to determine whether adjustments to these amounts or useful lives are required based on current events and circumstances. The evaluation is based on our projection of the undiscounted future operating cash flows of the underlying assets. To the extent such projections indicate that future undiscounted cash flows are not sufficient to recover the carrying amounts of related assets, a charge is recorded to reduce the carrying amount to its estimated fair value.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

The test for impairment requires us to make several estimates about fair value, most of which are based on projected future cash flows. The estimates associated with the asset impairment tests are considered critical due to the judgments required in determining fair value amounts, including projected future cash flows. Changes in these estimates may result in the recognition of an impairment loss.

Allocation of Purchase Price Paid for the Garner, Iowa Business Acquisition:

As a result of our Garner, Iowa business acquisition, as described in Note 9 in the condensed notes to the consolidated financial statements, we were required to allocate the consideration paid between tangible assets, identifiable intangible assets, and goodwill. We engaged an independent valuation firm to assist in the determination of the fair values of the intangible assets. The amount of the purchase price allocated to intangible assets is being determined by estimating the future cash flows of each asset and discounting the net cash flows back to their present values. The discount rate being used in calculating the present value of the various intangibles is in accordance with accepted valuation methods. Preliminary estimates indicate that there is no residual goodwill. However, because the estimated purchase price is subject to change, the allocation of the fair values may also change.

Stock-Based Compensation:

We adopted the provisions of SFAS 123R, Share-Based Payment on January 1, 2006. SFAS 123R requires us to measure and recognize in our consolidated statements of operations the expense associated with all share-based payment awards made to employees and directors based on estimated fair values. We have two types of stock-based compensation awards consisting of restricted stock and stock options.

Restricted stock is valued at the market price of the stock on the date of grant. These awards vest over a three-year term and are expensed ratably over the same period.

We utilize the Black-Scholes option valuation model to measure the amount of compensation expense to be recognized for each stock option award. There are several assumptions that must be made when using the Black-Scholes model such as the expected term of each option, the expected volatility of the stock price during the expected term of the option, the expected dividends to be paid and the risk free interest rate expected during the option term. We have reviewed each of these assumptions carefully and we determined our best estimate for these variables. Of these assumptions, the expected term of the option and expected volatility of our common stock are the most difficult to estimate since they are based on the exercise behavior of employees and the expected performance of our stock. An increase in the volatility of our stock will increase the amount of compensation expense on new awards. An increase in the holding period of options will also cause an increase in compensation expense. Dividend yields and risk-free interest rates are less difficult to estimate, but an increase in the dividend yield will cause a decrease in expense and an increase in the risk-free interest rate will increase compensation expense.

Based on a critical assessment of our accounting policies and the underlying judgments and uncertainties affecting the application of those policies, we believe that our consolidated financial statements provide a meaningful and fair perspective of our financial position as of September 30, 2007 and results of operations for the three-month and nine-month periods ended September 30, 2007 and 2006. This is not to suggest that other general risk factors, such as changes in worldwide economic conditions, fluctuations in foreign currency exchange rates, changes in materials costs, performance of acquired businesses and others, could not adversely impact our consolidated financial position, results of operations and cash flows in future periods.

(4.) Forward-Looking Statements:

Those statements in the foregoing report that are not historical facts are forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements generally will be accompanied by words such as anticipate, believe, estimate, expect, forecast, intend, possible, potential, predict, project, or other similar words that convey the uncertainty of future events and outcomes. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements include, without limitation:

Volatility in the marketplace which may affect market supply and demand for our products;

Increased competition;

Changes in the reliability and efficiency of operating facilities or those of third parties;

Risks related to availability of labor;

Increase in certain raw material costs such as copper;

Commodity and energy cost instability;

General economic, financial and business conditions that could affect our financial condition and results of operations.

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Unpredictable or unknown factors not discussed herein could also have material adverse effects on forward-looking statements. All forward-looking statements included in this Form 10-Q are expressly qualified in their entirety by the foregoing cautionary statements. We undertake no obligations to update publicly any forward-looking statement (or its associated cautionary language) whether as a result of new information or future events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to changes in interest rates primarily as a result of our borrowing activities used to maintain liquidity. Our earnings have been affected by recent changes in interest rates on our floating interest rate debt because interest rates have risen over the past year while our utilization on our line of credit has remained stable. Based on our current borrowings, an increase of 100 basis points in prevailing interest rates would increase our annual interest expense by less than \$100,000, which may be offset in part by the interest rate swap agreement entered into in connection with the issuance of bonds.

We are exposed to currency exchange fluctuations related to our Mexico subsidiary; however, the Mexican peso continues to remain fairly stable.

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that

ITEM 4. CONTROLS AND PROCEDURES

We evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of September 30, 2007. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and are operating in an effective manner.

We are currently in the process of reviewing and formalizing our internal controls and procedures for financial reporting in accordance with the Securities and Exchange Commission's rules implementing the internal control reporting requirements included in Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404"). Changes have been and will be made to our internal controls over financial reporting as a result of these efforts. We are dedicating significant resources, including senior management time and effort, and incurring substantial costs in connection with its ongoing Section 404 assessment. We are currently documenting and testing internal controls and considering whether any improvements are necessary for maintaining an effective control environment. The evaluation of internal controls is being conducted under the direction of senior management in consultation with an independent third party consulting firm. In addition, senior management is regularly discussing proposed improvements to the control environment with the Audit Committee. We expect to assess controls and procedures on a regular basis and will continue to work to improve controls and procedures and educate and train employees on the existing controls and procedures in connection with the efforts to maintain an effective controls infrastructure.

PART II

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings and claims that arise in the ordinary course of business.

ITEM 1A. RISK FACTORS

We are affected by risks specific to us as well as factors that affect all businesses operating in a global market. The significant factors known to us that could materially adversely affect our business, financial condition, or operating results are described in our most recently filed Annual Report on Form 10-K (Item 1A). There has been no material change in those risk factors.

ITEM 6. EXHIBITS

(a) Exhibits

- | | |
|------|--|
| 31.1 | Certification of the Chief Executive Officer pursuant to Rule 13a-14(a) and Rule 15d-14(a), promulgated under the Securities Exchange Act of 1934, as amended. |
| 31.2 | Certification of the Chief Financial Officer pursuant to Rule 13a-14(a) and Rule 15d-14(a), promulgated under the Securities Exchange Act of 1934, as amended. |
| 32.1 | Certification of the Chief Executive Officer and Chief Financial Officer, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. |

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
