The loans under each Facility Agreement will be used exclusively for the financing of the Bond Issuance, the Strategic Alliances and Chinalco's and its subsidiaries' related financing requirements. Without the Lenders' prior written consent, a Borrower may not change the purpose of the loans made under its Facility Agreement. The loans made under each Facility Agreement will mature 15 years after the date of the first drawdown under the Facility Agreement. Principal repayments will be made in equal installments each year, beginning on the 8th anniversary of the date of the first drawdown and ending at maturity. Except upon the occurrence of a market disruption event, each loan will bear interest at a rate *per annum* based on the 6-month London Inter-Bank Offered Rate determined as set forth in each Facility Agreement plus 90 basis points.

The loans will be made subject to certain conditions, including, among other things, receipt of approval by the PRC and the Foreign Investment Review Board of Australia, in each case, as contemplated by the CIA. Subject to the satisfaction or waiver of the conditions precedent specified in each Facility Agreement, during the period for which the loan facility is made available no Lender will be entitled to (i) decline or refuse or fail to make any loan under a Facility Agreement, (ii) cancel any unutilized loans, (iii) exercise any right of rescission, repudiation, termination or similar right or remedy, (iv) accelerate, make demand or cause or require repayment of any loan or take any action it would otherwise be entitled to take upon the occurrence of an event of default under a Facility Agreement or (v) exercise any right of set off or counterclaim in respect of any loan or the proceeds thereof.

Under each Facility Agreement, the Borrower will, unless the Lenders agree otherwise, prepay the loan in an amount equal to any net proceeds received by the Borrower from a sale, lease, transfer, recapitalization or other disposal in respect of any of its interests in Rio acquired in connection with the Bond Issuance or the Strategic Alliances (other than disposals made pursuant to, or in connection with, the reorganization steps contemplated by the CIA) (the Net Disposal Proceeds). Such prepayments need not be made to the extent the Borrower or its subsidiaries uses any Net Disposal Proceeds in the ordinary course of business.

Following the completion of all transactions contemplated by the CIA and the related transaction documents (other than transactions waived and not completed pursuant to the CIA), upon the Lenders' request the Borrower will create security for the benefit of the Lenders relating to any interest in Rio obtained by the Borrower as a result of its investment pursuant to the CIA and the related transaction documents.

Guarantee Contracts

In connection with the Facility Agreements, on March 27, 2009, Chinalco entered into Guarantee Contracts with the Lenders substantially in the form attached hereto as Exhibit 99.25 (each, a Guarantee Contract). Under each Guarantee Contract, Chinalco agreed to provide an unconditional, joint and several liability guarantee with respect to the obligations of each Borrower under the applicable Facility Agreement. The principal claim under each Guarantee Contract is equal to the aggregate principal amount of loans made available under the corresponding Facility Agreement. Each Guarantee Contract will become effective upon approval of the Guarantee Contract by the State Administration of Foreign Exchange of the PRC and will continue and be in full force and effect until the guaranteed debt has been repaid in full. The foregoing is a summary of the English translation of the form of Guarantee Contract, which summary does not purport to be complete and is qualified in its entirety by reference to the full text of the English translation of the form of Guarantee Contract, a copy of which is filed as Exhibit 99.25 hereto and is incorporated herein by reference.
