In accordance with the Plan, as of the Effective Date, all of the equity incentive plans of Apex Silver and awards granted under them were terminated and the parties to those equity incentive plans received no consideration or recovery under the Plan in respect of such cancelled awards. At the Effective Date, Golden Minerals adopted the 2009 Equity Incentive Plan (the *2009 Plan*).

The purposes of the 2009 Plan are to provide long-term incentives to Golden Minerals' officers, directors, employees and consultants to exert maximum efforts for the success of Golden Minerals and to attract and retain the services of key individuals. The 2009 Plan provides that the number of shares of Common Stock that may be issued pursuant to awards under the 2009 Plan shall not exceed in the aggregate 10% of the Company's outstanding shares of Common Stock, as of the grant date, including without limitation, Common Stock issuable upon exercise of conversion of outstanding warrants, rights, or other exercisable or convertible securities (other than awards under the 2009 Plan). Initially, 298,773 shares of Common Stock will be available for issuance pursuant to Stock Awards (as defined below) under the 2009 Plan. Stock Awards, (with the exception of incentive stock options, which may only be granted to employees), may be granted to employees, directors and consultants, but no participant may be granted Stock Awards of more than 150,000 shares of Common Stock during any calendar year.

The foregoing description of the 2009 Plan is qualified in its entirety by reference to the full text of the 2009 Plan, a copy of which is filed as Exhibit 10.3 hereto and incorporated by reference herein.

Change of Control Agreements

On the Effective Date, Golden Minerals entered into a Change of Control Agreement with each of its officers (other than the Assistant Secretary) (collectively, the *Change of Control Agreements*). The Change of Control Agreements are double trigger agreements which provide that payments will be made only if employment is terminated by the Company other than for cause, disability or death or by the executive with good reason within two years following a change of control (as defined in the Change of Control Agreements). Payments under each Change of Control Agreement are based on a multiple of the executive's salary and target bonus. The Company's Chief Executive Officer is entitled to receive three times his salary and target bonus and each of the remaining officers is entitled to receive two times his or her salary and target bonus.

The foregoing description of the Change of Control Agreements is qualified in its entirety by reference to the full text of the agreements, the form of which is filed as Exhibit 10.4 hereto and incorporated by reference herein. In connection with the execution of the Change of Control Agreements, each Apex Silver named executive officer has agreed to waive any potential payments that could otherwise be due and payable under the similar change of control agreements each had previously entered into with Apex Silver, which are no longer in effect.

Item 5.03 Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

Golden Minerals adopted its Amended and Restated Certificate of Incorporation (the *Certificate of Incorporation*) and Bylaws (the *Bylaws*), and together with the Certificate of Incorporation, the *Organizational Documents*) on the Effective Date in accordance with the Plan.

Common Stock

The Certificate of Incorporation authorizes the issuance of an aggregate of 50,000,000 shares of Common Stock. Each holder of Common Stock will be entitled to one vote per share. Subject to the rights of the holders of any outstanding Preferred Stock (as defined below), all voting rights will be vested in the holders of shares of Common Stock. Holders of shares of Common Stock will have noncumulative voting rights, which means that the holders of more than 50% of the shares of Common Stock voting for the election of directors will be able to elect 100% of the directors, and the holders of the remaining shares voting for the election of directors will not be able to elect any directors.

Holders of Common Stock will be entitled to receive dividends when, as and if declared by the Company's board of directors, out of funds legally available for their payment, subject to the rights of holders of any Preferred Stock outstanding. The Bylaws provide that, for a one-year period following the Effective Date, Golden Minerals will not be permitted to declare or pay any dividend in respect of its Common Stock. Additionally, during the one-year period beginning on March 24, 2010, Golden Minerals will not be permitted to declare or pay any dividend in respect of its Common Stock if, after giving effect to such dividend, the aggregate amount of dividends so declared and paid would exceed

Edgar Filing: Golden Minerals Co - Form 8-K

\$1,500,000.

In the event of Golden Minerals' voluntary or involuntary liquidation, dissolution or winding up, the holders of Common Stock will be entitled to share equally in any of Golden Minerals' assets available for distribution after the payment in full of all debts and distributions and after the holders of any series of outstanding Preferred Stock have received their liquidation preferences in full.

Table of Contents

Preferred Stock

The Certificate of Incorporation authorizes the issuance of an aggregate of 10,000,000 shares of preferred stock, par value \$0.01 per share (*Preferred Stock*). As of the Effective Date, there are no shares of Preferred Stock outstanding. Pursuant to the Certificate of Incorporation, the Golden Minerals board of directors will be permitted, from time to time, to direct the issue of shares of Preferred Stock in series and may, at the time of issue, determine the voting powers, full or limited, or without voting powers, and such designations, powers, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereof. Satisfaction of any dividend preferences of outstanding Preferred Stock would reduce the amount of funds available for the payment of dividends on shares of Common Stock. Holders of Preferred Stock may be entitled to receive a preference payment in the event of any liquidation, dissolution or winding up of the Company before any payment is made to holders of Common Stock. Under certain circumstances, the issuance of Preferred Stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of Golden Minerals securities or the removal of incumbent management. Notwithstanding the foregoing, the affirmative vote of the holders of a majority in voting power of the outstanding shares of Common Stock present in person or represented by proxy at a special or annual meeting duly called for purposes of such business will be required for the issuance of any shares of Preferred Stock prior to the later of the date (i) that is 14 months following the Effective Date and (ii) on which Golden Minerals holds its first meeting of stockholders at which directors are elected following the Effective Date (such date, the *Restriction Expiration Date*).

Certain Provisions of the Organizational Documents

The Certificate of Incorporation provides that stockholder action can be taken only at an annual or special meeting and cannot be taken by written consent in lieu of a meeting.

The Bylaws provide that an annual meeting of stockholders can only be called pursuant to a resolution of the board of directors and, subject to the rights of holders of Preferred Stock, special meetings of stockholders may be called for any purpose by the board of directors pursuant to a resolution adopted by the affirmative vote of a majority of the total number of directors then in office or by the chairman of the board of directors. In addition, a special meeting of stockholders may be called by stockholders solely for the purpose of removing directors by one or more written requests by the holders of a majority in voting power of the outstanding shares of Common Stock.

The Bylaws establish an advance notice procedure for stockholder proposals to be brought before a special or annual meeting of stockholders, including the proposed removal of directors or nomination of persons for election to the board of directors.

Stockholders at an annual or special meeting will only be able to consider business within the purpose or purposes described in the notice of the meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder who was a stockholder of record on the record date for such meeting, who is entitled to vote at the meeting and who has given Golden Minerals' secretary timely written notice, in proper form, of the stockholder's intention to bring that business before the meeting.

In addition, the Organizational Documents provide that:

- For a two-year period commencing on the Effective Date, the board of directors of Golden Minerals must be comprised of six members (unless otherwise required by the rules of any stock exchange on which Golden Minerals shares are listed), including the Chief Executive Officer and five independent directors, each of whom shall serve an initial term of not less than 14 months. Stockholders of Golden Minerals may vote to remove any director for cause by the affirmative vote of a majority of the voting power of outstanding Common Stock. Additionally,

stockholders may vote to remove a maximum of two directors without cause by the affirmative vote of the holders of 66-2/3% in voting power of outstanding Common Stock at any time prior to the Restriction Expiration Date; and

- For a two-year period commencing on the Effective Date, Golden Minerals will not be able to enter into any Specified Transaction (as defined below) without (i) the unanimous approval of the board of directors and (ii) the affirmative vote of the holders representing at least 75% of the outstanding shares of capital stock of Golden Minerals entitled to vote generally (considered for this purpose as one class). A *Specified Transaction* means (a) the sale, lease or exchange of all or any substantial part of Golden Minerals' property or assets (including, for this purpose, the property or assets of any subsidiary of Golden Minerals) in a single transaction or a series of related transactions or (b) a merger or consolidation to which Golden Minerals is a party, except any merger or consolidation involving Golden Minerals in which the shares of capital stock of Golden Minerals outstanding immediately prior to such merger or consolidation continue to represent, or are converted into or exchanged for shares of capital stock that represent, immediately following such merger or consolidation, at least a majority, by voting power, of the capital stock of (A) the surviving or resulting corporation or (B) if the surviving or resulting corporation is a wholly-owned subsidiary of another corporation immediately following such merger or consolidation, the parent corporation of such surviving or resulting corporation.
