Sales in US dollars in the Dairy Segment decreased 31.6% to US\$1,115.4 million in the first nine months of 2009 from US\$1,630.0 million in the first nine months of 2008. This was driven primarily by the negative exchange rate. Beverages

Sales in US dollars decreased 18.5% to US\$303.4 million in the first nine months of 2009 compared to US\$372.5 million in the first nine months of 2008. This was driven by the negative exchange rate and partially offset by good volume growth. Baby Food

Sales in US dollars in the Baby Food Segment decreased 7.8% to US\$176.8 million in the first nine months of 2009 from US\$191.6 million in the same period last year due to the unfavorable exchange rate, offset by strong volume growth. Sales and distribution expenses as a percentage of sales increased to 17.1% in the first nine months of 2009, compared to 16.7% in the same period of 2008, driven by advertising and marketing expenses, which increased, as a percentage of sales, to 6.0% from 4.4%. In the first nine months of 2009, financial expenses declined 12.9% to US\$31.8 million compared to US\$36.5 million in the same period of 2008. In the first nine months of 2009, currency remeasurement loss was US\$10.2 million compared to loss of US\$3.9 million in the same period last year.

Attachment A**Reconciliation of EBITDA and EBITDA margin to US GAAP Net Income**

EBITDA is a non-U.S. GAAP financial measure. The following table presents reconciliation of EBITDA to net income (and EBITDA margin to net income as a percentage of sales), the most directly comparable U.S. GAAP financial measure.

| | 9 months ended September 30, 2009 | | 9 months ended September 30, 2008 | |
|---|--------------------------------------|--------------|--------------------------------------|--------------|
| | US\$ mln | % of sales | US\$ mln | % of sales |
| Net income | 109.4 | 6.9% | 109.6 | 5.0% |
| Add: Depreciation and amortization | 69.4 | 4.4% | 89.1 | 4.1% |
| Add: Income tax expense | 35.0 | 2.2% | 44.8 | 2.0% |
| Add: Interest expense | 22.8 | 1.4% | 35.2 | 1.6% |
| Less: Interest income | (3.7) | (0.2)% | (4.3) | (0.2)% |
| Add: Currency remeasurement (gains)/losses, net | 10.2 | 0.6% | 3.9 | 0.2% |
| Add: Bank charges | 2.1 | 0.1% | 2.0 | 0.1% |
| Add: Noncontrolling interests | 0.9 | 0.1% | 2.7 | 0.1% |
| Add: Other | 0.5 | 0.03% | (0.3) | (0.01)% |
| EBITDA | 246.6 | 15.5% | 282.7 | 12.9% |

EBITDA represents net income before interest, income taxes and depreciation and amortization, adjusted for interest income, currency remeasurement gains, bank charges and other financial expenses and minority interest. EBITDA margin is EBITDA expressed as a percentage of sales.

We present EBITDA because we consider it an important supplemental measure of our operating performance. In particular, we believe EBITDA provides useful information to securities analysts, investors and other interested parties because it is used in the debt to EBITDA debt incurrence financial measurement in certain of our financing arrangements.

EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as substitute for analysis of our operating results as reported under U.S. GAAP. Moreover, other companies in our industry may calculate EBITDA differently or may use it for different purposes

than we do, limiting its usefulness as a comparative measure.

EBITDA also should not be considered as an alternative to cash flow from operating activities or as a measure of our liquidity. In particular, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.
