EXPLANATORY STATEMENT

Elimination of Holding Company Structure; Assumption of Registration Statement

This Post-Effective Amendment is being filed pursuant to Rule 414 under the Securities Act of 1933, as amended (the *Securities Act*), and constitutes Post-Effective Amendment No. 1 to the Registration Statement on Form S-3 (File No. 333-97531) (the *Registration Statement*) by GP Strategies Corporation, a Delaware corporation (the *Predecessor Company*), the predecessor of General Physics Corporation, a Delaware corporation (the *Company*). The Company succeeded to the interests of the Predecessor Company following a recapitalization effected pursuant to an Agreement and Plan of Merger, dated as of October 31, 2011 (the *Merger Agreement*), between the Predecessor Company and the Company. The Merger Agreement provided for, among other things, the merger of the Predecessor Company with and into the Company, a wholly owned subsidiary of the Predecessor Company (the *Merger*). The Merger Agreement was approved by the shareholders of the Predecessor Company at the annual meeting of shareholders held on December 14, 2011, for which proxies were solicited pursuant to Section 14(a) of the Securities Exchange Act of 1934, as amended (the *Exchange Act*).

As a result of the Merger and upon the effective date of the Merger, each outstanding share of common stock, \$0.01 par value, of the Predecessor Company was automatically converted into one share of common stock, \$0.01 par value, of the Company. Following the Merger, the Company's financial position and capitalization will be identical in all material respects to that of the Predecessor Company and the operations of the surviving company will be the same as the operations of the Company before the Merger. In connection with the Merger, the Company changed its name to GP Strategies Corporation.

In accordance with paragraph (d) of Rule 414 of the Securities Act, except as modified by this Post-Effective Amendment No. 1, the Company, as successor issuer to the Predecessor Company, hereby expressly adopts the Registration Statement as its own registration statement for all purposes of the Securities Act and the Exchange Act. The applicable registration fees were paid at the time of the original filing of this Registration Statement.

Removal of Shares from Registration

The Registration Statement as originally filed registered common stock held by the selling stockholders, including 600,000 shares of common stock that were issuable upon conversion of 600,000 shares of Class B stock that were beneficially owned by certain of the selling stockholders. The Company repurchased the Class B stock held by such selling stockholders for cash. As a result, this Post-Effective Amendment is deregistering 600,000 shares of common stock that were issuable upon conversion of the Class B stock.

Table of Contents

RISK FACTORS

Investment in our common stock involves risks. Prior to making a decision about investing in our common stock, you should consider carefully the risk factors, together with all of the other information contained or incorporated by reference in this prospectus and any prospectus supplement, including any additional specific risks described in the section entitled "Risk Factors" contained in any supplements to this prospectus and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as well as any amendments or additions thereto reflected in subsequent filings with the SEC, which are incorporated herein by reference in their entirety. Each of these risk factors could materially and adversely affect our business, financial condition, results of operations liquidity, ability to pay dividends or stock price.

Risks Related to our Common Stock

The price of our common stock is highly volatile and could decline regardless of our operating performance.

The market price of our common stock could fluctuate in response to, among other things:

- changes in economic and general market conditions;

- changes in the outlook and financial condition of certain of our significant customers and industries in which we have a concentration of business;

- changes in financial estimates, treatment of our tax assets or liabilities or investment recommendations by securities analysts following our business;

- changes in accounting standards, policies, guidance or interpretations or principles;

- sales of common stock by our directors, officers and significant stockholders;

- factors affecting securities of companies included in the Russell 3000® Index, in which our common stock is included;

Edgar Filing: GP STRATEGIES CORP - Form POS AM

- our failure to achieve operating results consistent with securities analysts' projections; and
- the operating and stock price performance of competitors.

These factors might adversely affect the trading price of our common stock and prevent you from selling your common stock at or above the price at which you purchased it. In addition, in recent periods, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies, including ours and others in our industry. These changes can occur without regard to the operating performance of the affected companies. As a result, the price of our common stock could fluctuate based upon factors that have little or nothing to do with our company, and these fluctuations could materially reduce our share price.

Our financial results are subject to quarterly fluctuations, which may result in volatility or declines in our stock price.

We experience, and expect to continue to experience, fluctuations in quarterly operating results. Consequently, you should not deem our results for any particular quarter to be necessarily indicative of future results. Factors that may affect quarterly operating results in the future include:

- the overall level of services and products sold;
- the volume of publications shipped by our Sandy segment each quarter, because revenue and cost of publications contracts are recognized in the quarter during which the publications ship;

Table of Contents

- fluctuations in project profitability;
- the gain or loss of material clients;
- the timing, structure and magnitude of acquisitions;
- participant training volume and general levels of outsourcing demand from clients in the industries that we serve;
- the budget and purchasing cycles of our clients, especially of the governments and government agencies that we serve;
- the commencement or completion of client engagements or services and products in a particular quarter;
- currency fluctuations; and
- the general level of economic activity.

In addition, we provide domestic preparedness and emergency management services, including disaster recovery services, which can result in revenue volatility associated with the unpredictability of certain events occurring and the need for these types of services. Accordingly, it is difficult for us to forecast our growth and results of operations on a quarterly basis. If we fail to meet expectations of investors or analysts, our stock price may fall rapidly and without notice. Furthermore, the fluctuation of quarterly operating results may render less meaningful period-to-period comparisons of our operating results.

Sagard Capital Partners, L.P. (Sagard) may exert influence over us and could delay or deter a change of control or other business combination or otherwise cause us to take actions with which other stockholders may disagree.

As of December 1, 2011, Sagard beneficially owned 2,937,403 shares or approximately 15.6% of our outstanding common stock. In addition, until Sagard owns less than certain specified amounts of common stock or certain other conditions have been met, Sagard is entitled to designate an individual to serve on our board of directors. As a result, Sagard may exert influence over our decision to enter into any corporate transaction or with respect to any transaction that requires the approval of stockholders, regardless of whether other stockholders believe that the transaction is in their own best interests. This could have the effect of delaying, deterring or preventing a change of control or other business combination

that might otherwise be beneficial to our stockholders.

The market price of our common stock could be affected by additional sales of common stock in the public market by us or the selling stockholders.

In the future, we may sell additional shares of our common stock to raise capital. In addition, a substantial number of shares of our common stock are reserved for issuance upon the exercise of outstanding equity compensation awards. As of September 30, 2011, we had 18,738,764 shares of common stock outstanding, excluding 1,355,764 shares available for future grant under our equity compensation plans, 1,469,550 shares issuable upon the exercise of outstanding stock options, at a weighted average exercise price of \$9.95 per share, and 178,799 shares issuable upon settlement of outstanding restricted stock units. We cannot predict the effect, if any, that future sales of shares of common stock, including common stock issuable upon the exercise of options and settlement of restricted stock units, or the availability of shares of common stock for future sale, will have on the market price of our common stock prevailing from time to time. The issuance and sale of substantial amounts of common stock, or the perception that such issuances and sales may occur, could adversely affect the market price of our common stock and impair our ability to raise capital through the sale of equity securities.

Table of Contents

In addition, the registration statement of which this prospectus is a part registers 3,334,661 shares of common stock for resale. The availability of our shares for resale by the selling stockholders, as well as any actual sales of these shares, could materially adversely affect the market price of our common stock.

Our authorized preferred stock and certain provisions in our amended and restated by-laws could make a third party acquisition of us difficult.

Our restated certificate of incorporation, as amended, (restated certificate), allows us to issue up to 10,000,000 shares of preferred stock, the rights, preferences, qualifications, limitations and restrictions of which may be fixed by the Board of Directors without any further vote or action by the stockholders. In addition, our amended and restated bylaws provide, among other things, that stockholders seeking to bring business before or to nominate candidates for election as directors at an annual meeting of stockholders must provide us with timely advance written notice of their proposal in a prescribed form. Our amended and restated bylaws also provide that stockholders desiring to call a special meeting for any purpose, must submit to us a request in writing of stockholders representing at least 50% of the combined voting power of all issued and outstanding classes of capital stock and stating the purpose of such meeting. The ability to issue preferred stock and such provisions in our bylaws might have the effect of delaying, discouraging or preventing a change in control that might otherwise be beneficial to stockholders and might materially and adversely affect the market price of our common stock.

In addition, some provisions of Delaware law, particularly the business combination statute in Section 203 of Delaware General Corporation Law, might also discourage, delay or prevent someone from acquiring us or merging with us. As a result of these provisions in our charter documents and Delaware law, the price investors might be willing to pay in the future for shares of our common stock might be limited.

Our restated certificate allows us to redeem or otherwise dispose shares of our common stock owned by a foreign stockholder if certain U.S. Government agencies threaten termination of any of our contracts as a result of such an ownership interest.

The United States Departments of Energy and Defense have policies regarding foreign ownership, control or influence over government contractors who have access to classified information, and might conduct an inquiry as to whether any foreign interest has beneficial ownership of 5% or more of a contractor's or subcontractor's voting securities. If either Department determines that an undue risk to the defense and security of the United States exists as a result of foreign ownership, control or influence over a government contractor (including as a result of a potential acquisition), it might, among other things, terminate the contractor's or subcontractor's existing contracts. Our restated certificate allows us to redeem or require the prompt disposition of all or any portion of the shares of our common stock owned by a foreign stockholder beneficially owning 5% or more of the outstanding shares of our common stock if either Department threatens termination of any of our contracts as a result of such an ownership interest. These provisions may have the additional effect of delaying, discouraging or preventing a change in control and might materially and adversely affect the market price of our common stock. In connection with the sale of shares of common stock to Sagard in December 2009, we agreed to render these provisions, as well as other anti-takeover measures, inapplicable to Sagard.

PLAN OF DISTRIBUTION

The common stock being offered by the selling stockholders, or by their respective pledgees, donees, distributees, transferees, or other successors in interest, will be sold in one or more transactions (which may involve block transactions) on the New York Stock Exchange or on another market on which the common stock may from time to time be trading, in privately-negotiated transactions, through the writing of options on the common stock, short sales or any combination thereof. The sale price to the public may be the market price prevailing at the time of sale, a price related to the prevailing market price or at any other price as the selling stockholders determine from time to time. The selling stockholders shall have the sole and absolute discretion not to accept any purchase offer or make any sale of common stock if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may also sell the common stock directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Brokers acting as agents for the selling stockholders will receive usual and customary commissions for brokerage transactions, and market makers and block purchasers purchasing the common stock will do so for their own account and at their own risk. It is possible that the selling stockholders will attempt to sell shares of common stock in block transactions to market makers or other purchasers at a price per share which may be below the then market price. In addition, the selling stockholders or their successors in interest may enter into hedging transactions with broker-dealers who may engage in short sales of common stock in the course of hedging the positions they assume with a selling stockholder. There can be no assurance that all or any of the common stock offered hereby will be issued to, or sold by, the selling stockholders.

The selling stockholders and any other persons participating in the sale or distribution of the common stock will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder. These rules may limit the timing of purchases and sales of any of the common stock by the selling stockholders or any other person participating in the distribution. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and other market activities with respect to the common stock for a specified period of time before the distribution begins. These restrictions may reduce the marketability of the common stock.

We have agreed to indemnify the selling stockholders, or their respective transferees or assignees, against potentially significant liabilities, including liabilities under the Securities Act.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 14. Other Expenses of Issuance and Distribution

Not applicable

Item 15. Indemnification of Directors and Officers

As permitted by the Delaware General Corporation Law, the Registrant's certificate of incorporation provides that the directors of the Registrant will not be personally liable to the Registrant or the Registrant's stockholders for monetary damages for breach of fiduciary duty as a director, except for liability:

- for any breach of the director's duty of loyalty to the Registrant or the Registrant's stockholders;
- for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- under Section 174 of the Delaware General Corporation Law, relating to unlawful payment of dividends or unlawful stock purchase or redemption of stock; or
- for any transaction from which the director derives an improper personal benefit.

The Registrant's bylaws provide for the indemnification of its directors and officers to the fullest extent authorized by the Delaware General Corporation Law. The indemnification provided under the Registrant's certificate of incorporation and bylaws includes the right to be paid expenses in advance of any proceeding for which indemnification may be had. The Registrant may pay these expenses in advance of the final disposition of a proceeding only if the director or officer agrees to repay these amounts if it is ultimately determined that the director or officer is not entitled to be indemnified. If the Registrant does not pay a claim for indemnification within 60 days, the claimant may bring an action to recover the unpaid amount of the claim and, if successful, the director or officer will be entitled to be paid the expense of prosecuting the action to recover these unpaid amounts.

The indemnification provided by the Registrant's bylaws is not deemed to be exclusive of any other right to which a person seeking indemnification may be entitled under any statute, provision of the certificate of incorporation, bylaw, agreement, vote of stockholders or disinterested directors, or otherwise. In addition, the Registrant has entered into agreements with its directors and executive officers to provide for indemnification and payment of expenses to the extent permitted by applicable law and the Registrant's bylaws.

The Registrant maintains standard policies of insurance under which coverage is provided to its directors, officers, employees and agents to insure them against liability for actions or omissions occurring in their capacity as a director, officer, employee or agent, subject to certain exclusions and limitations.

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Edgar Filing: GP STRATEGIES CORP - Form POS AM

provided, however, that paragraphs (i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof;

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
