**Index to Exhibits**

The information contained in this Report on Form 6-K, including the information contained in Exhibit No. 1, but excluding the information set forth in Exhibit No. 2, shall be incorporated by reference in the prospectus relating to the Registrant's debt securities contained in the Registrant's Registration Statement on Form F-3 (File No. 333-185478), as such prospectus may be amended or supplemented from time to time.

Westpac Group today released its December 2014 Pillar 3 Report, incorporating the requirements of APS 330.

In addition to these regular disclosures, the Group is also advising that it will adopt a new accounting treatment (consistent with emerging market practice) for the fair value of derivatives in its 1H15 results.

This change introduces a Funding Valuation Adjustment (FVA) to the fair valuation of derivatives which seeks to capture their funding cost or benefit. The initial application of FVA is estimated to have a one-off negative impact of \$125 million (pre-tax) on 1H15 revenues. This item will reduce trading income and be reflected in the results of Westpac Institutional Bank.

The final impact of this change will depend upon market movements up until balance date of 31 March 2015. This initial FVA charge, and all subsequent positive or negative FVA movements, will be included in cash earnings.
