Company Overview

We are a leading global printer and media channel integrator founded in Pewaukee, Wisconsin, in 1971 by the late Harry V. Quadracci. As of December 31, 2013, we had approximately 25,600 employees in North America, Latin America, and Europe. We have a diverse base of clients in a wide range of industries and serve both businesses and consumers, including retailers, publishers and direct marketers from 147 facilities located in 20 countries. With consultative ideas, worldwide capabilities, leading-edge technology and single-source simplicity, we believe that we have the resources and knowledge to help our clients maximize the revenue they derive from their marketing spend and minimize their total cost of print production and distribution.

Our print and related products and services primarily include:

- *Print solutions.* Includes consumer magazines, catalogs, retail inserts, special interest publications, journals, direct mail, books, directories, in-store marketing, packaging, and other commercial and specialty printed products.
- *Media solutions.* Includes marketing strategy, media planning and placement, data insights, response analytics services, creative services, videography, photography, workflow solutions, digital imaging, facilities management services, digital publishing, and interactive print solutions including image recognition and near field communication technology.
- *Logistics services.* Includes mailing, distribution, logistics, and data optimization and hygiene services.

We enjoy long-standing relationships with a diverse base of approximately 8,000 clients, which includes both national and regional corporations in North America, Latin America and Europe. Our relationships with our largest 20 clients average more than 16 years in duration and we typically sign multi-year print agreements with these clients.

Edgar Filing: QG Printing II Corp. - Form 424B3

We operate primarily in the commercial print portion of the printing industry, with related product and service offerings designed to offer clients complete solutions for communicating their message to target audiences. Our reporting segments and our product and service offerings are summarized below.

United States Print and Related Services

The United States Print and Related Services segment is predominantly comprised of our United States printing operations and is managed as one integrated platform. This includes consumer magazines, catalogs, retail inserts, special interest publications, journals, direct mail, books, directories, in-store marketing, packaging, and other commercial and specialty printed products, together with the related service offerings, including marketing strategy, media planning and placement, data insights, response analytics services, creative services, videography, photography, workflow solutions, digital imaging, facilities management services, digital publishing, interactive print solutions including image recognition and near field communication technology, mailing, distribution, logistics, and data optimization and hygiene services. This segment also includes the design, development, manufacture and service of printing-related auxiliary equipment, as well as the manufacture of ink.

The United States Print and Related Services segment accounted for approximately 90% of our consolidated net sales in 2013.

International

The International segment consists of our printing operations in Europe and Latin America, including operations in Poland, Argentina, Brazil, Chile, Colombia, Mexico and Peru. This segment provides printed products and related services consistent with the United States Print and Related Services segment, with the exception of printing-related auxiliary

Table of Contents

equipment, which is included in the United States Print and Related Services segment. The International segment accounted for approximately 10% of our consolidated net sales in 2013.

Corporate

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal and finance. In addition, in 2014 certain costs and earnings of employee retirement plans, such as pension and other postretirement benefit plans, are included in Corporate and not allocated to the operating segments.

Industry Overview

The global printing industry encompasses a wide range of sectors, including general commercial printing, newspapers and retail inserts, directories, books, direct mail, packaging, financial printing, business forms, greeting cards, and label and wrapper printing. Printing is one of the largest industries in the United States, with more than 965,000 employees and approximately 47,000 companies generating an estimated \$161 billion in annual sales, according to the Printing Industries of America/Graphic Arts Technical Foundation (PIA/GATF) 2012 Print Market Atlas (Print Market Atlas).

We operate primarily in the commercial print portion of the printing industry which includes advertising printing such as direct mail, circulars, brochures, displays, inserts / pamphlets, business cards, stationery, catalogs, directories, newspapers, magazines and books. According to the Print Market Atlas, the United States commercial printing sector, excluding newspapers, is estimated to generate approximately \$82 billion in sales annually. The industry, excluding newspapers, is highly fragmented and competitive, with the largest 400 printers representing approximately 55% of the overall United States and Canadian market, based on the 2013 Printing Impressions PI400 and the Print Market Atlas.

The industry has excess manufacturing capacity created by declines in industry volumes during the past recession, which in turn has created continued downward pricing pressures. In addition, digital delivery of documents and data, including the online distribution and hosting of media content and mobile technologies, offer alternatives to traditional delivery of printed documents. Increasing consumer acceptance of digital delivery of content has resulted in marketers and publishers allocating their marketing and advertising spend across the expanding selection of digital delivery options.

Competitive Advantages

We believe the following competitive advantages differentiate us from our competitors and contribute to our continued success in the industry:

Efficient, flexible and modern manufacturing platform. We have continuously invested in our manufacturing platform through modern equipment and automation that allow for more pages to be printed for each revolution of the press, reducing the amount of time that each individual printing job takes to complete. In addition, our long-standing commitment to investing in manufacturing process improvements has led to increases in productivity, reductions in waste and smaller crew sizes. Our investment in our manufacturing platform has consistently been based on evaluating investment opportunities on the useful economic life of the underlying equipment rather than focusing on the potential mechanical life of the equipment. We have invested in vertically- integrated, non-print capabilities to assist us in delivering lower costs for our clients, enhancing customer service levels, increasing flexibility and providing more aggregated services to our clients. This discipline is critical in an industry in which technological change can create obsolescence well before the end of the mechanical life of equipment.

Leading mailing and distribution capabilities. We create targeted and personalized printed materials for our clients, which help our clients increase consumer response rates, maximize their return on print spending and reduce overall costs. We use our in-house list services bureau to analyze mail list data, demographics data, consumer transaction data and other consumer-specific data to help our clients target consumers through personalized printed materials. We have also invested significantly in our mail preparation and distribution capabilities to offset increasing postage costs, and to help clients successfully navigate the ever-changing postal environment. We are also able to leverage the volume of products running through our plants for further client distribution savings.

Commitment to ongoing innovation, rapid adoption of technology and integration of new media. We have had a continued commitment to research and development, manufacturing process improvements, and the rapid adoption of technological innovations and integration of new media. From a client-facing technology perspective, we believe we are at

Table of Contents

the forefront of the printing industry with creating and/or rapidly adopting solutions that help marketers and publishers integrate print with new media to drive business results. Our services are seamlessly integrated to help clients optimize content, promote brand awareness and loyalty, and create experiences that connect with consumers and readers across multiple channels such as print, mobile, email, the Web, tablets and e-readers, video and social media. The value of our innovations to print manufacturing is supported by the fact that we generate revenue by supplying some of these technology solutions and consulting services to other printers. We also integrate our imaging, manufacturing and distribution networks into a singular platform using a networked IT infrastructure.

Client-centric approach. Throughout our 40-plus-year history, we have put our clients at the center of our operations, creating solutions clients need to meet their business objectives. We use a client-centric consultative approach to help marketers and publishers take maximum advantage of our full range of integrated multichannel solutions to help them better engage end users and drive improved response from print and print-related solutions. Our high tech/high touch approach has led to what we believe is an excellent client service reputation. Our own brand of Smarttools® not only link our people and equipment across our entire network of plants, but extend to our clients as well, creating true, real-time communications integration. We pay particularly close attention to listening to what our clients say about us, proactively seeking their input through an annual Client Satisfaction Survey. Key concerns are addressed by an Executive Steering Committee led by our Chairman, President and CEO, demonstrating our top-down commitment to client satisfaction.

Disciplined and consistent financial approach. We believe that our disciplined financial approach of focusing on maximizing earnings and maintaining a strong balance sheet provides a competitive advantage. We have a culture of continuous cost reduction, which includes minimizing waste, increasing efficiencies and throughput, and simplifying and streamlining processes. Continuous Improvement and Lean Manufacturing methodologies are among the tools that we use to improve manufacturing productivity and to ultimately maximize operating margins. We apply these same methodologies to our selling, general and administrative functions to create a truly Lean Enterprise. We also take a very disciplined approach to our capital allocation decisions. A key part of this discipline is a goal of having returns on investment exceed the cost of capital, whether the investments are related to purchasing the right equipment or investing in the right organic and inorganic strategic growth initiatives.

Distinct corporate culture. We believe that our distinct corporate culture, which evolved from a core set of values conceived by the late founder Harry V. Quadracci, drives thoughtful decision-making, especially with regard to how we manage operations and create solutions that redefine print in a multichannel media landscape, and better positions us to prevail in the dynamic and competitive printing industry. We are led by an experienced management team with a proven track record in the printing industry that is committed to preserving our values-based culture. We invest in our employees in a variety of ways by providing technical, safety and continuous improvement training, personal improvement classes, financial and retirement planning and comprehensive health and wellness benefits. We believe that the empowerment, engagement and development of our employee owners foster a strong partnership approach within the business that delivers results.

Strategy

We remain focused on four primary strategic goals, which we believe will allow us to be successful despite ongoing economic and industry challenges. These four goals are as follows:

Transform the industry. We believe that we are well positioned to transform the industry in the following three ways:

- Maximize the revenue clients derive from their marketing spend through media channel integration. As a printer and media channel integrator, we use a client-centric approach to help marketers and publishers connect strategy and content with multiple media channels to create measurable client value. Through our full range of integrated solutions, our clients benefit from better end user engagement, improved response and increased revenue derived from multichannel marketing campaigns.
- Minimize clients' total cost of production and distribution by utilizing an efficient, innovative and fully-integrated U.S. national distribution network to provide enhanced value to clients through increased efficiency and postal cost-savings.
- Create opportunity through disciplined, value-driven industry consolidation that adds complementary capabilities, allowing us to provide an enhanced range of products and services and create significant efficiencies in the overall print production and distribution processes.

Table of Contents

Maximize operational and technological excellence. We utilize a disciplined return on capital framework to make significant investments in our print manufacturing platform and data management capabilities, resulting in what we believe is one of the most integrated, automated, efficient and modern manufacturing platforms in the industry. We have built a platform that encompasses a combination of mega plants (facilities greater than 1.0 million square feet) that produce a number of different product lines under one roof; mega zones where multiple facilities in close geographic proximity are managed as one large facility; and smaller strategically located facilities. In addition, a commitment to Lean Enterprise and a culture of continuous process improvement is a high priority throughout our organization and support our goal of being the low-cost producer in its industry.

Empower, engage and develop employees. We believe that our distinct corporate culture encourages an organization-wide entrepreneurial spirit and an opportunistic mentality, where employees embrace responsibility, take ownership of projects and are encouraged to create solutions that advance our strategic goals. We reinforce with employees the eight core values that drive all of our business decisions: Trust in Trust, Do the Right Thing, Innovate, Grow, Believe in People, Make Money, Have Fun, and Do Things for the Rose (i.e., do things for the sake of excellence). We help employees keep current on skills through education and training programs offered on the job and in the classroom and demonstrate our care for employees through innovative benefits.

Enhance financial strength and create value. Given current economic and industry challenges, we believe that our strategy to enhance financial strength and create shareholder value will contribute to our long-term success. Key components of this strategy are centered on our disciplined financial approach to maximize earnings and free cash flow; use of consistent financial policies to ensure we maintain a strong balance sheet and liquidity levels; and ability to retain the financial flexibility needed to strategically allocate and deploy capital.

Recent Business Acquisitions

On May 30, 2014, we completed the \$100 million acquisition of Brown Printing Company (Brown Printing). Brown Printing provides magazine and catalog printing, distribution services and integrated media solutions to magazine publishers and catalog marketers in the United States.

On February 5, 2014, we completed the \$12 million acquisition of Boston metro area based UniGraphic, Inc. (UniGraphic). The acquisition of UniGraphic enhances our commercial and specialty printing, in-store marketing, and digital and fulfillment solutions for businesses on the East Coast. The acquisition also strengthens our ability to service national retailers large-format and in- store marketing needs, adding an East Coast presence to our existing Midwest and West Coast locations.

On December 18, 2013, we completed the \$49 million acquisition of Wisconsin based Proteus Packaging Corporation (Proteus) as well as its sister company Transpak Corporation (Transpak). Proteus is a designer and manufacturer of high-end paperboard packaging, offering packaging solutions for a wide variety of industries, including automotive, biotechnology, food, personal care, pharmaceuticals, software and electronics. Transpak is a full-service industrial packaging company, offering crating, packaging, warehousing, distribution and logistics services to

destinations worldwide.

On November 7, 2013, we completed the \$13 million acquisition of Novia CareClinics, LLC (Novia), an Indianapolis, Indiana healthcare solutions company. Novia develops and manages onsite and shared primary care clinics for small to medium sized companies and the public sector, such as school districts and city and county governments. Novia operates 50 clinics located throughout Indiana and four other states focusing on delivering advanced health and wellness solutions to employees and dependents.

On January 16, 2013, we completed the \$265 million acquisition of substantially all of the assets of Vertis Holdings, Inc. (Vertis), which included an approximate \$95 million payment for current assets that were in excess of normalized working capital requirements for a net purchase price of \$170 million. Vertis was a leading provider of retail advertising inserts, direct marketing and in-store marketing solutions. The acquisition of Vertis enhanced our position as a leader in the production of retail advertising inserts, direct marketing and in-store marketing solutions that we can provide to our clients and enhanced our integrated offerings.

2014 Financing Transactions

In connection with the issuance of the Original Notes on April 28, 2014, we entered into a \$1.6 billion amended and restated senior secured credit agreement. The \$1.6 billion amended and restated senior secured credit agreement consists of: (i) an \$850.0 million, five- year, revolving credit facility (the Revolving Credit Facility), (ii) a \$450.0 million, five-year Term Loan A facility (the Term Loan A Facility) and (iii) a \$300.0 million, seven-year Term Loan B facility (the Term Loan B Facility and, together with the Term Loan A Facility, the Term Loan Facilities); and together with the Revolving Credit Facility, the Senior Secured Credit Facilities). For additional information regarding the terms of the Senior Secured Credit Facilities, please see Description of Other Indebtedness . The proceeds from the Senior Secured Credit Facility and the issuance of the Original Notes were used to (1) repay our previously existing revolving credit facility, Term Loan A, Term Loan B and the international term loan, (2) fund the acquisition of Brown Printing and (3) for general corporate purposes. We received \$294.8 million in net proceeds from the sale of the Original Notes, after deducting the initial purchasers discounts and commissions. The Senior Secured Credit Facilities and the Original Notes were entered into to extend and stagger our debt maturity profile, further diversify our capital structure and provide more borrowing capacity to better position us to execute on our strategic goals.

On October 10, 2014, we redeemed \$108.8 million of our senior secured notes issued under a senior secured note agreement of September 1, 1995, and as last amended on November 24, 2014 (the Existing Notes), for \$109.6 million, resulting in a loss on debt extinguishment to be recorded in the fourth quarter of 2014 of \$0.8 million plus applicable transaction fees. We used our Revolving Credit Facility to effect the redemption. This redemption was primarily completed to reduce interest expense based on current London Interbank Offered Rates.

On November 24, 2014, we entered into an amendment to the senior secured note agreement governing our Existing Notes. The amendment, among other things, amended the financial covenants, including the deletion of the minimum fixed charge coverage ratio and the minimum consolidated net worth requirements and the addition of a minimum interest coverage ratio, a maximum total leverage ratio and a maximum senior secured leverage ratio, which had the effect of aligning the financial covenants in the senior secured note agreement more closely with the financial covenants in our Senior Secured Credit Facilities.

On December 18, 2014, we entered into an amendment to the Senior Secured Credit Facilities. The amendment eliminates the net debt concept from the calculation of the maximum total leverage ratio and maximum senior secured leverage ratio in the Senior Secured Credit Facilities, and provides for elimination of the covenant which requires maintenance of a minimum consolidated net worth.

	Nine Months Ended September 30,		Year ended December 31,		
	2014	2013	2013	2012	2011
	In millions

Restructuring, impairment and transaction-related charges from continuing operations	\$ 45.9	\$ 82.9	\$ 95.3	\$ 118.3	\$ 114.0

(a) Employee termination charges were related to workforce reductions through facility consolidations and involuntary separation programs.

(b) Impairment charges were for certain buildings and equipment no longer being utilized in production as a result of facility consolidations.

(c) Transaction-related charges consisted of professional service fees related to business acquisition and divestiture activities.

(d) Integration costs were primarily related to preparing existing facilities to meet new production requirements resulting from work transferring from closed plants, as well as other costs related to the integration of the acquired companies.

(e) Gain on the collection of a note receivable for the year ended December 31, 2012, was related to a settlement of a disputed pre-acquisition World Color Press Inc. (World Color Press) note receivable. Gain on the collection of a note receivable for the year ended December 31, 2011, was related to the June 2008 sale of World Color Press's European operations.

(f) Other restructuring charges, net, were primarily from costs to maintain and exit closed facilities, as well as lease exit charges. Other restructuring charges, net, in the year ended December 31, 2013, are presented net of a \$2.1 million pension plan settlement gain. Other restructuring charges, net, are presented net of pension and postretirement curtailment gains of \$12.8 million and \$7.0 million for the years ended December 31, 2012 and 2011, respectively.

The Company expects to incur additional restructuring and integration costs in future reporting periods in connection with the restructuring program that began in 2010 related to eliminating excess manufacturing capacity and properly aligning its cost structure as part of the integration of the July 2, 2010 World Color Press acquisition, the September 8, 2011 Transcontinental Mexico acquisition, the January 16, 2013 Vertis acquisition, the May 30, 2014 Brown Printing acquisition and other cost reduction programs.

(2) A \$34.0 million loss on debt extinguishment was recognized in the year ended December 31, 2011 as part of entering into our former credit facility on July 26, 2011. A \$6.0 million loss of debt extinguishment was recognized in the nine months ended September 30, 2014 as part of entering into our Original Notes and Senior Secured Credit Facilities on April 28, 2014. The losses represent certain debt issuance costs that were expensed.

(3) The results of operations of the Company's Canadian operations have been reported as discontinued operations for all periods presented. Loss from discontinued operations, net of tax, decreased \$35.4 million during the year ended December 31, 2012, to a \$3.2 million loss, which primarily reflects the sale of the Company's Canadian operations

Table of Contents

on March 1, 2012, and the effect of reporting two months of activity as opposed to twelve months for the year ended December 31, 2011. This \$3.2 million loss was offset by a gain on disposal of discontinued operations, net of tax, of \$34.0 million, resulting in \$30.8 million of earnings from discontinued operations for the year ended December 31, 2012.

(4) Working capital represents current assets (excluding short-term restricted cash) less current liabilities.

(5) For purposes of calculating the ratios of earnings to fixed charges, earnings consist of earnings (loss) from continuing operations before income taxes and equity in earnings (loss) of unconsolidated entities, plus fixed charges and amortization of capitalized interest and distributed income of equity investees, less capitalized interest and noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges. Fixed charges consist of interest expensed, interest capitalized, amortized premiums, discounts and capitalized expenses related to indebtedness and an estimate of interest within rental expense. The ratio of earnings to fixed charges for the years ended December 31, 2010 and 2009 were 0.8 x and 1.8 x, respectively. Earnings were insufficient to cover fixed charges for the nine months ended September 30, 2014 and 2013 by \$9.6 million and \$20.2 million, respectively, and for the year ended December 31, 2010 by \$25.1 million. Accordingly, the ratio of earnings to fixed charges was less than 1:1.

RISK FACTORS

You should carefully consider the risks described below, in addition to the other information contained or incorporated by reference in this prospectus, before deciding whether to exchange your Original Notes for New Notes. The risks and uncertainties described below are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. The risks discussed below also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements. See Cautionary Statement Regarding Forward-Looking Statements.

Risks Related to Our Business

Quad/Graphics operates in a highly competitive industry.

The industry in which the Company operates is highly competitive. The printing industry, with approximately 47,000 companies in the United States, is highly fragmented. Although there has been industry consolidation, particularly in the past decade, the largest 400 printers in the printing industry (excluding newspaper printing) still only represent approximately 55% of the United States and Canadian markets, according to the 2013 Printing Impressions PI400 and the PIA/GATF 2012 Print Market Atlas. The Company competes for commercial business not only with large and mid-sized printers, but also with smaller regional printers. In certain circumstances, due primarily to factors such as freight rates and client preference for local services, printers with better access to certain regions of a given country may be preferred by clients in such regions.

In recent years, the printing industry has experienced a reduction in demand for printed materials and overcapacity due to various factors including adverse economic conditions and competition from alternative sources of communication, including email, the internet, electronic readers, interactive television and electronic retailing. The impacts of overcapacity and intense competition have led to continued downward pricing pressures. Printing industry revenues may continue to decrease in the future. Some of the industries that the Company services have been subject to consolidation efforts, leading to a smaller number of potential clients. Furthermore, if the smaller clients of Quad/Graphics are consolidated with larger companies using other printing companies, the Company could lose its clients to competing printing companies.

The printing industry is highly competitive and expected to remain so. Any failure on the part of the Company to compete effectively in the markets it serves could have a material adverse effect on its results of operations, financial condition or cash flows and could require changes to the way it conducts its business or require it to reassess strategic alternatives involving its operations.

Significant downward pricing pressure and fluctuating demand for printing services caused by factors outside of the Company's control may adversely affect the Company.

The Company has experienced significant downward pricing pressures for printing services in the past, and pricing for printing services has declined significantly in recent years. Such pricing may continue to decline from current levels. In addition, demand for printing services has

Edgar Filing: QG Printing II Corp. - Form 424B3

fluctuated in recent years and may continue to fluctuate. Any increases in the supply of printing services or decreases in demand could cause prices to continue to decline, and prolonged periods of low prices, weak demand and/or excess supply could have a material adverse effect on the Company's business growth, results of operations and liquidity.

Quad/Graphics may not be able to reduce costs and improve its operating efficiency rapidly enough to meet market conditions.

Because the markets in which the Company competes are highly competitive, Quad/Graphics will need to continue to improve its operating efficiency in order to maintain or improve its profitability. There is no assurance that the Company will be able to do so in the future. In addition, the need to reduce ongoing operating costs have and, in the future, may continue to result in significant up-front costs to reduce workforce, close or consolidate facilities, or upgrade equipment and technology.

Table of Contents

The impact of electronic media and similar technological changes including the substitution of printed products for digital content may continue to adversely affect the results of the Company's operations.

The media landscape is experiencing rapid change due to the impact of electronic media and digital content on printed products. Improvements in the accessibility and quality of digital media through the online distribution and hosting of media content, mobile technologies, e-reader technologies, electronic retailing and the digital distribution of documents and data has resulted and may continue to result in increased consumer substitution. Continued consumer acceptance of such digital media, as an alternative to print materials, is uncertain and difficult to predict and may decrease the demand for the Company's printed products, result in reduced pricing for its printing services and additional excess capacity in the printing industry and adversely affect the results of the Company's operations.

Changes in postal rates, postal regulations and postal services may adversely impact demand for Quad/Graphics' products and services.

Postal costs are a significant component of the cost structures of many of the Company's clients, and potential clients, and postal rate changes can influence the number of pieces that these clients will be willing to mail. Any resulting decline in print volumes mailed could have an adverse effect on the Company's business. In addition, integrated distribution with the postal service is an important component of the Company's business. Any material change in the current service levels provided by the postal service could impact the demand that clients have for print services. The United States Postal Service (USPS) has reported net losses in the last five fiscal years and has estimated a net loss for its current fiscal year and, as a result, has come under increased pressure to adjust its postal rates and service levels. Late in 2013, the USPS went before the Postal Regulatory Commission (PRC) and requested to increase postage due to exigent circumstances. The PRC granted the USPS with the authority to increase rates through a temporary two-year surcharge. This action by the USPS resulted in postage rates being increased by 6.0% on January 26, 2014. The increase includes the normal and expected annual Consumer Price Index (CPI) increase of 1.7% and an additional 4.3% temporary exigency-based increase. This unexpected increase may cause some of the Company's clients to reduce mail volumes and explore the use of alternative sources of communication.

Future declines in economic conditions may adversely affect the Company's results of operations.

In general, demand for the Company's products and services is highly related to general economic conditions in the markets our clients serve. Declines in economic conditions in the United States or in other countries in which the Company operates may adversely impact the Company's financial results and these impacts may be material. Because such declines in demand are difficult to predict, the Company or the industry may have increased excess capacity as a result. An increase in excess capacity has resulted and may continue to result in declines in prices for the Company's products and services. In addition, a prolonged decline in the global economy and an uncertain economic outlook has and could further reduce the demand in the printing industry. Economic weakness and constrained advertising spending have resulted, and may in the future result, in decreased revenue, operating margin, earnings and growth rates and difficulty in managing inventory levels and collecting accounts receivable. The Company has experienced, and expects to experience in the future, excess capacity and lower demand due to economic factors affecting consumers' and businesses' spending behavior. Uncertainty about future economic conditions makes it difficult for the Company to predict results of operations, financial position and cash flows and to make strategic decisions regarding the allocation and deployment of capital.

A significant portion of Quad/Graphics' revenues are derived from long-term contracts with clients, which may not be renewed on similar terms and conditions, or may not be renewed at all. In addition, clients may not perform under such contracts for their duration due to financial or other reasons or due to client consolidation. The failure to renew such contracts on similar terms or at all or the failure of clients to perform under such contracts could materially adversely affect Quad/Graphics' results of operations, financial condition and cash

flows.

The Company has historically derived a significant portion of its revenue from long-term contracts with significant clients. If the Company loses significant clients, is unable to renew such contracts on similar terms and conditions, or at all, or is not awarded new long-term contracts with important clients in the future, its results of operations, financial condition and cash flows may be adversely affected.

The Company is exposed to risks of loss in the event of nonperformance by its clients. Some of the Company's clients are highly leveraged or otherwise subject to their own operating and regulatory risks. Even if the Company's credit review and analysis mechanisms work properly, the Company may experience financial losses and loss of future business if

Table of Contents

its clients become bankrupt, insolvent or otherwise are unable to pay the Company for its work performed. Any increase in the nonpayment or nonperformance by clients could adversely affect the Company's results of operations and financial condition.

Certain of the industries in which the Company's clients operate are seeing consolidation. When client consolidation occurs, it is possible that the volume of work performed by the Company for a client after the consolidation will be less than it was before the consolidation or that the client's work will be completely moved to competitors. Any such reduction or loss of work could adversely affect the Company's results of operations and financial condition.

If Quad/Graphics fails to identify, manage, complete and integrate acquisitions, investment opportunities or other significant transactions, it may adversely affect the Company's future results.

As part of Quad/Graphics growth strategy, the Company may pursue acquisitions of, investment opportunities in or other significant transactions with companies that are complementary to the Company's business. In order to pursue this strategy successfully, the Company must identify attractive acquisition or investment opportunities, successfully complete the transaction, some of which may be large and complex, and manage post-closing issues such as integration of the acquired company or employees. Quad/Graphics may not be able to identify or complete appealing acquisition or investment opportunities given the intense competition for these transactions. Even if the Company identifies and completes suitable corporate transactions, the Company may not be able to successfully address inherent risks in a timely manner, or at all. These inherent risks include, among other things: (1) failure to successfully integrate the purchased operations, technologies, products or services and maintain uniform standard controls, policies and procedures; (2) substantial unanticipated integration costs; (3) loss of key employees including those of the acquired business; (4) diversion of management's attention from other operations; (5) failure to retain the clients of the acquired business; (6) failure to achieve any projected synergies and performance targets; (7) additional debt and/or assumption of known or unknown liabilities; (8) potential dilutive issuances of equity securities; and (9) a write-off of goodwill, client lists, other intangibles and amortization of expenses. If the Company fails to successfully integrate an acquisition, the Company may not realize all or any of the anticipated benefits of the acquisition, and our future results of operations could be adversely affected. In addition, the diversion of management's attention from the Company's other operations due to these acquisitions and integration effort could adversely affect its business and have a negative financial impact.

Quad/Graphics' entry into additional markets increases the complexity of the Company's business, and if the Company is unable to successfully adapt its business processes as required by these new markets, the Company will be at a competitive disadvantage and its ability to grow will be adversely affected.

As the Company expands its product line to provide additional marketing and publishing channels, the overall complexity of the Company's business increases at an accelerated rate and the Company becomes subject to different market dynamics. The new markets into which Quad/Graphics is expanding, or may expand, may have different characteristics from the markets in which the Company currently competes. These different characteristics may include, among other things, demand volume requirements, demand seasonality, product generation development rates, client concentrations and performance and compatibility requirements. The Company's failure to make the necessary adaptations to its business model to address these different characteristics, complexities and new market dynamics could adversely affect the Company's operating results.

Quad/Graphics may be adversely affected by increases in its operating costs, including the cost and availability of raw materials, labor-related costs, fuel and other energy costs and freight rates.

Edgar Filing: QG Printing II Corp. - Form 424B3

Paper, ink and energy are the primary raw materials used by the Company in the operation of its business. The price of such raw materials has fluctuated over time and has caused fluctuations in the Company's net sales and cost of sales. This volatility may continue and Quad/Graphics may experience increases in the costs of its raw materials in the future as prices in the overall paper, ink and energy markets are expected to remain beyond its control.

In general, the Company has been able to pass along increases in the cost of paper to many of its clients. If the Company is unable to continue to pass along increases in the cost of paper to its clients, future increases in paper costs would adversely affect its margins and profits. If Quad/Graphics passes along increases in the cost of paper and the price of the Company's products and services increases as a result, client demand could be adversely affected and thereby negatively impact Quad/Graphics' financial performance.

Table of Contents

Quad/Graphics is dependent upon the vendors within the Company's supply chain to maintain a steady supply of inventory, parts and materials. Many of the Company's products are dependent upon a limited number of suppliers, and significant disruptions could adversely affect operations. Under recent market conditions, including the tightening credit market, it is possible that one or more of the Company's suppliers will be unable to fulfill their operating obligations due to financial hardships, liquidity issues or other reasons related to the prolonged market recovery.

Due to the significance of paper in the Company's business, it is dependent on the availability of paper. In periods of high demand, certain paper grades have been in short supply, including grades used in the Company's business. In addition, during periods of tight supply, many paper producers allocate shipments of paper based upon historical purchase levels of customers. Although Quad/Graphics generally has not experienced significant difficulty in obtaining adequate quantities of paper, unforeseen developments in the overall paper markets could result in a decrease in the supply of paper and could adversely affect the Company's revenues or profits.

In addition, the Company may not be able to resell waste paper and other by-products or the prices received for their sale may decline substantially.

The Company has less frequently been able to pass along increases in the cost of ink and energy to its clients. If the Company is unable to pass along increases in the cost of ink and energy, future increases in these items would adversely affect its margins and profits. If Quad/Graphics is able to pass along increases in the costs of ink and energy and the price of the Company's products and services increases as a result, client demand could be adversely affected and thereby negatively impact Quad/Graphics' financial performance.

Labor represents a significant component of the cost structure of Quad/Graphics. Increases in wages, salaries and benefits, such as medical, dental, pension and other post-retirement benefits, may impact the Company's financial performance. Changes in interest rates, investment returns or the regulatory environment may impact the amounts the Company will be required to contribute to the pension plans that it sponsors and may affect the solvency of these pension plans.

Freight rates and fuel costs also represent a significant component of the Company's cost structure. In general, the Company has been able to pass along increases in the cost of freight and fuel to many of its clients. If the Company is not able to pass along a substantial portion of increases in freight rates or in the price of fuel, future increases in these items would adversely impact the Company's margin and profits. If Quad/Graphics passes along increases in the cost of freight and fuel and the price of the Company's products and services increases as a result, client demand could be adversely affected and thereby negatively impact Quad/Graphics' financial performance.

Quad/Graphics and its facilities are subject to various consumer protection and privacy laws and regulations, and will become subject to additional laws and regulations in the future, which may subject the Company to material liability, require it to incur material costs or otherwise adversely affect its results of operations.

Quad/Graphics and its clients may be subject to various United States and foreign consumer protection, information security, data privacy and do not mail requirements at the federal, states, provincial and local levels. Regulatory authorities around the world are considering a number of legislative and regulatory proposals concerning data protection and privacy. In addition, the interpretation and application of consumer and data protection laws in the United States and elsewhere are often fluid and uncertain. To the extent that the Company or its clients become subject to additional or more stringent requirements, demand for the Company's services may decrease, which could adversely affect the Company's results

of operations. In addition, such laws may be interpreted and applied in a manner inconsistent with our internal policies. If so, in addition to the possibility of fines, this could result in an order requiring that we change our data practices, which could have an adverse effect on our business and results of operations. Complying with these various laws could cause us to incur substantial costs or require us to change our business practices in a manner adverse to our business.

If Quad/Graphics is not able to take advantage of technological developments in the printing industry on a timely basis, the Company may experience a decline in the demand for its services, be unable to implement its business strategy and experience reduced profits.

The printing industry is experiencing rapid change as new technologies are developed that offer clients an array of choices for their marketing and publication needs. In order to grow and remain competitive, the Company will need to adapt to future changes in technology, enhance the Company's existing offerings and introduce new offerings to address the

Table of Contents

changing demands of clients. If Quad/Graphics is unable to meet future challenges from competing technologies on a timely basis or at an acceptable cost, the Company could lose clients to competitors. In general, the development of new communication channels inside and outside the printing and media solutions industry requires the Company to anticipate and respond to the varied and continually changing demands of clients. The Company may not be able to accurately predict technological trends or the success of new services in the market.

Changes in the legal and regulatory environment could limit the Company's business activities, increase its operating costs, reduce demand for its products or result in litigation.

The conduct of the Company's businesses is subject to various laws and regulations administered by federal, state and local government agencies in the United States, as well as to foreign laws and regulations administered by government entities and agencies in markets in which the Company operates. These laws and regulations and interpretations thereof may change, sometimes dramatically, as a result of political, economic or social events. Such regulatory environment changes may include changes in environmental laws, requirements of United States and foreign occupational health and safety laws, accounting standards and taxation requirements. Changes in laws, regulations or governmental policy and the related interpretations may alter the environment in which Quad/Graphics does business and, therefore, may impact its results or increase its costs or liabilities.

In addition, the Company and its subsidiaries are party to a variety of legal and environmental remediation obligations arising in the normal course of business, as well as environmental remediation and related indemnification proceedings in connection with certain historical activities, former facilities and contractual obligations of acquired businesses. Permits are required for the operation of certain parts of the Company's business, and these permits are subject to renewal, modification and, in some circumstances, revocation. Due to regulatory complexities, uncertainties inherent in litigation and the risk of unidentified contaminants on current and former properties, the potential exists for remediation, liability and indemnification costs to differ materially from the costs the Company has estimated. Quad/Graphics cannot assure you that the Company's costs in relation to these matters will not exceed its established liabilities or otherwise have an adverse effect on its results of operations.

Various laws and regulations addressing climate change are being considered at the federal and state levels. Proposals under consideration include limitations on the amount of greenhouse gas that can be emitted (so-called "caps") together with systems of trading allowed emissions capacities. The impacts of such proposals could have a material adverse impact on the Company's financial condition and results of operations.

An other than temporary decline in operating results and enterprise value could lead to non-cash impairment charges due to the impairment of goodwill, other intangible assets and property, plant and equipment.

The Company has a material amount of goodwill, other intangible assets and property, plant and equipment on its balance sheet, due in part to acquisitions. As of September 30, 2014, the Company had the following long-lived assets on its consolidated balance sheet included elsewhere in this prospectus:

- Goodwill, representing the excess of the total purchase price for its acquisitions over the fair value of the net assets acquired, of \$772.1 million;

- Other intangible assets, primarily representing the fair value of customer relationships acquired, of \$177.6 million; and
- Property, plant and equipment of \$1,921.4 million.

As of September 30, 2014, these assets represented approximately 67% of the Company's total assets. The Company evaluates goodwill for impairment on an annual basis or more frequently if impairment indicators are present based on the estimated fair value of each reporting unit. The Company assesses impairment of other intangible assets and property, plant and equipment based upon the expected future cash flows of the respective assets. These valuations include management's estimates of sales, profitability, cash flow generation, capital structure, cost of debt, interest rates, capital expenditures and other assumptions. A decline in expected profitability, significant negative industry or economic trends, inability to effectively integrate acquired businesses, unexpected significant changes or planned changes in use of the assets or in entity structure, and divestitures may adversely impact the assumptions used in the valuations. As a result, the recoverability of

Table of Contents

these assets could be called into question and the Company could be required to write down or write off these assets. Such an occurrence could have a material adverse effect on the Company's results of operations and financial position.

There are risks associated with the Company's operations outside of the United States.

Although the substantial majority of the Company's business activity takes place in the United States, a portion of Quad/Graphics net sales are derived from operations in foreign countries. The Company has wholly-owned subsidiaries, majority-owned controlled subsidiaries and other ownership investments in Argentina, Brazil, Chile, Colombia, India, Mexico, Peru and Poland. Net sales from the Company's wholly-owned and majority-owned controlled subsidiaries outside of the United States accounted for approximately 10%, 12% and 12% of its consolidated net sales for the years ended December 31, 2013, 2012 and 2011, respectively.

As a result, the Company is subject to the risks inherent in conducting business outside of the United States, including, but not limited to: the impact of economic and political instability; fluctuations in currency values, foreign-currency exchange rates, devaluation and conversion restrictions; exchange control regulations and other limits on our ability to import raw materials or finished product; tariffs and other trade barriers; political and economic instability; trade restrictions and economic embargoes by the United States or other countries; social unrest, acts of terrorism, force majeure, war or other armed conflicts; inflation and fluctuations in interest rates; language barriers; difficulties in staffing, training, employee retention and managing international operations; logistical and communications challenges; differing local business practices and cultural consideration; restrictions on the ability to repatriate funds; foreign ownership restrictions and the potential for nationalization or expropriation of property or other resources; longer accounts receivable payment cycles; potential adverse tax consequences and being subject to different legal and regulatory regimes that may preclude or make more costly certain initiatives or the implementation of certain elements of its business strategy. Any international expansion or acquisition that the Company undertakes could amplify these risks related to operating outside of the United States.

Quad/Graphics is exposed to the economic and political conditions in Argentina. The Argentine economy has experienced significant volatility in recent decades, characterized by periods of low or negative growth, high and variable levels of inflation and currency devaluation. As a consequence, the Company's business and operations have been, and could be in the future, affected from time to time to varying degrees by economic and political developments and other material events affecting the Argentine economy.

The Company could be adversely affected by engaging in business practices that are in violation of United States and foreign anti-corruption regulations such as the United States Foreign Corrupt Practices Act. The Company operates in parts of the world with developing economies that have experienced governmental corruption to some degree, and in certain circumstances, strict compliance with anti-corruption laws may conflict with local customs and practices. There can be no assurance that all of our employees, contractors or agents, including those representing us in countries where practices which violate anti-corruption laws may be customary, will not take actions in violation of our policies and procedures. The failure to comply with the laws governing international business practices may result in substantial penalties and fines.

Quad/Graphics may be required to make capital expenditures to maintain its platform and processes and to remain technologically and economically competitive, which may increase its costs or disrupt its operations.

Edgar Filing: QG Printing II Corp. - Form 424B3

The Company may need to make significant capital expenditures as it develops and continues to maintain its platform and processes. The Company also may be required to make capital expenditures to develop and integrate new technologies to remain technologically and economically competitive. In order to accomplish this effectively, the Company will need to deploy its resources efficiently, maintain effective cost controls and bear potentially significant market and raw material risks. If the Company's revenues decline, it may impact the Company's ability to expend the capital necessary to develop and implement new technology and be economically competitive. Debt or equity financing, or cash generated from operations, may not be available or sufficient for these requirements or for other corporate purposes or, if debt or equity financing is available, it may not be on terms favorable to the Company.

Quad/Graphics' revenue is subject to cyclical and seasonal variations.

The Company's business is seasonal, with Quad/Graphics recognizing the majority of its operating income in the third and fourth quarters of the financial year, primarily as a result of the increased magazine advertising page counts and retail inserts, catalogs and books from back-to-school and holiday related advertising and promotions. Within any year, this seasonality could adversely affect the Company's cash flows and results of operations.

Table of Contents

The Company has significant liabilities with respect to defined benefit pension plans and other postretirement benefits that could grow in the future and cause the Company to incur additional costs.

As a result of the 2010 acquisition of World Color Press, the Company sponsors defined benefit pension plans for certain of its employees in the United States. The majority of the plans' assets are held in North American and global equities and fixed income or debt securities. The asset allocation as of December 31, 2013, was approximately 67% equity securities and 33% debt securities.

As of December 31, 2013, the Company had underfunded pension and other postretirement benefit liabilities of approximately \$111 million for defined benefit plans and other postretirement benefits plans in the United States. Under current United States pension law, pension funding deficits are generally required to be funded over a seven-year period. In 2014, under current pension law, the contributions required to such plans are expected to total approximately \$40 million. These pension deficits may increase or decrease depending on changes in the levels of interest rates, pension plan investment performance, pension legislation and other factors. Declines in global, and in particular North American, equity markets would increase the Company's potential pension funding obligations. Any significant increase in the Company's required contributions could have a material adverse impact on its business, financial condition, results of operations and cash flows.

In addition to the single employer defined benefit plans described above, the Company participates in multiemployer pension plans (MEPPs) in the United States. Prior to the acquisition of World Color Press by Quad/Graphics, World Color Press received notice that certain plans in which it participated were in critical status, as defined in Section 432 of the U.S. Internal Revenue Code of 1986, as amended (the Internal Revenue Code). As a result, the Company could have been subject to increased contribution rates associated with these plans or other MEPP's suffering from declines in their funding levels. Due to the significantly underfunded status of the United States multiemployer plans and the potential increased contribution rates, the Company withdrew from participation in these multiemployer plans and has replaced these pension benefits with a Company-sponsored pay as you go defined contribution plan, which is historically the form of retirement benefit provided to the Company's employees.

As of December 31, 2013, the Company estimates and has recorded in its financial statements a pre-tax withdrawal liability for all United States multiemployer plans of approximately \$73.0 million in the aggregate. The Company currently is in arbitration with the multiemployer plans trustees and arbitrators have been selected. Until discussions with the multiemployer plans' trustees are concluded, the exact amount of the withdrawal liability will not be known, and, as such, a difference from the recorded estimate could have an adverse effect on the Company's results of operations, financial position and cash flows.

The Company is heavily dependent on its Chief Executive Officer, its management team and key personnel.

The Company's continued success depends, in part, on the retention, recruitment and continued contributions of key management, finance, sales and marketing personnel, some of whom could be difficult to replace. The Company's success is largely dependent upon its senior management team, led by its Chief Executive Officer and other key managers. The loss of any one or more of such persons could have an adverse effect on the Company's business and financial condition.

The Company may not be able to utilize deferred tax assets to offset future taxable income.

As of December 31, 2013, the Company had deferred tax assets, net of valuation allowances, of \$344.4 million on the consolidated balance sheet included elsewhere in this prospectus. The Company expects to utilize the deferred tax assets to reduce consolidated income tax liabilities over a period of time not to exceed 20 years. However, the Company may not be able to fully utilize the deferred tax assets if its future taxable income and related income tax liability is insufficient to permit their use. In addition, in the future, the Company may be required to record a valuation allowance against the deferred tax assets if the Company believes it is unable to utilize them, which would have an adverse effect on the Company's results of operations and financial position.

Quad/Graphics may be adversely affected by interest rates and foreign exchange rates.

As of September 30, 2014, approximately 53% of the Company's borrowings were subject to variable interest rates (primarily under the Company's Senior Secured Credit Facilities). As a result, the Company is exposed to market risks associated with fluctuations in interest rates, and increases in interest rates could adversely affect the Company.

Table of Contents

Because a portion of the Company's operations are outside of the United States, significant revenues and expenses are denominated in local currencies. Although operating in local currencies may limit the impact of currency rate fluctuations on the results of operations of the Company's non-U.S. subsidiaries and business units, fluctuations in such rates may affect the translation of these results into the Company's consolidated financial statements. To the extent revenues and expenses are not in the applicable local currency, the Company may enter into foreign exchange forward contracts to hedge the currency risk. There can be no assurance, however, that the Company's efforts at hedging will be successful. There is always a possibility that attempts to hedge currency risks will lead to greater losses than predicted.

Quad/Graphics may be adversely affected by strikes and other labor protests.

As of December 31, 2013, Quad/Graphics had a total of approximately 25,600 employees, of which approximately 3,200 were covered by a collective bargaining agreement. As of December 31, 2013, the Company had eleven collective bargaining agreements in the United States and ten agreements outside of the United States that are either industry-wide individual collective bargaining agreements or works councils or similar arrangements.

While the Company believes its employee relations are good and that the Company maintains an employee-centric culture, and there has not been any material disruption in operations resulting from labor disputes, the Company cannot be certain that it will be able to maintain a productive and efficient labor environment. The Company cannot predict the outcome of any future negotiations relating to the renewal of the collective bargaining agreements, nor can there be any assurance that work stoppages, strikes or other forms of labor protests pending the outcome of any future negotiations will not occur. A strike or other forms of labor protest affecting a series of major plants in the future could materially disrupt the Company's operations and result in a material adverse impact on its financial condition, results of operations and cash flows, which could force the Company to reassess its strategic alternatives involving certain of its operations.

Risks Related to the Exchange Offer and the Notes

You may have difficulty selling the Original Notes that you do not exchange.

If you do not exchange your Original Notes for the New Notes offered in the exchange offer, then you will continue to be subject to the restrictions on transfer of your Original Notes. Those transfer restrictions are described in the indenture governing the Notes and in the legend contained on the Original Notes, and arose because we originally issued the Original Notes under exemptions from, and in transactions not subject to, the registration requirements of the Securities Act.

In general, you may offer or sell your Original Notes only if they are registered under the Securities Act and applicable state securities laws, or if they are offered and sold under an exemption from those requirements. We do not intend to register the Original Notes under the Securities Act.

If a large number of Original Notes are exchanged for New Notes issued in the exchange offer, then it may be more difficult for you to sell your unexchanged Original Notes. In addition, if you do not exchange your Original Notes in the exchange offer, then, generally, you will no longer be entitled to have those Original Notes registered under the Securities Act.

See "The Exchange Offer," "Consequences of Failure to Exchange Original Notes," and "Exchange of Original Notes" for a discussion of the possible consequences of failing to exchange your Original Notes.

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the New Notes and our other debt instruments.

We have a substantial amount of indebtedness. As of September 30, 2014, our total debt was \$1,622.3 million, and we had unused commitments of \$686.0 million under our Revolving Credit Facility (after giving effect to \$57.8 million of outstanding letters of credit).

Subject to the limits contained in the credit agreements that govern our Senior Secured Credit Facilities, the indenture that governs the Notes and our other debt instruments, we may be able to incur substantial additional debt from time to time to finance working capital, capital expenditures, investments or acquisitions, or for other purposes. If we do so, the risks related to our high level of debt could intensify. Specifically, our high level of debt could have important consequences to the holders of the Notes, including the following:

Table of Contents

- making it more difficult for us to satisfy our obligations with respect to the New Notes and our other debt;
- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions or other general corporate requirements;
- requiring a substantial portion of our cash flows to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, acquisitions and other general corporate purposes;
- increasing our vulnerability to general adverse economic and industry conditions;
- exposing us to the risk of increased interest rates as certain of our borrowings, including borrowings under our Senior Secured Credit Facilities, are at variable rates of interest;
- limiting our flexibility in planning for and reacting to changes in the industry in which we compete;
- placing us at a disadvantage compared to other, less leveraged competitors; and
- increasing our cost of borrowing.

In addition, the indenture that governs the Notes and the credit agreements that govern our Senior Secured Credit Facilities contain restrictive covenants that will limit our ability to engage in activities that may be in our long-term best interest. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all our debt.

We may not be able to generate sufficient cash to service all of our indebtedness, including the New Notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Edgar Filing: QG Printing II Corp. - Form 424B3

Our ability to make scheduled payments on or refinance our debt obligations, including the New Notes, depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business, legislative, regulatory and other factors beyond our control. We may be unable to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the New Notes.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness, including the New Notes. We may not be able to effect any such alternative measures, if necessary, on commercially reasonable terms or at all and, even if successful, those alternative actions may not allow us to meet our scheduled debt service obligations. The credit agreements that govern our Senior Secured Credit Facilities and the indenture that governs the Notes restrict our ability to dispose of assets and use the proceeds from those dispositions and may also restrict our ability to raise debt or equity capital to be used to repay other indebtedness when it becomes due. We may not be able to consummate those dispositions or to obtain proceeds in an amount sufficient to meet any debt service obligations then due. See [Description of Other Indebtedness](#) and [Description of New Notes](#).

In addition, we conduct a substantial portion of our operations through our subsidiaries, certain of which will not be guarantors of the New Notes or our other indebtedness. Accordingly, repayment of our indebtedness, including the New Notes, is dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Unless they are guarantors of the Notes or our other indebtedness, our subsidiaries do not have any obligation to pay amounts due on the Notes or our other indebtedness or to make funds available for that purpose. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the New Notes. Each subsidiary is a distinct legal entity, and under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While the indenture that governs the Original Notes and the New Notes and the credit agreements that govern our Senior Secured Credit Facilities will limit the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to qualifications and exceptions. In the event that we

Table of Contents

do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the New Notes.

Our inability to generate sufficient cash flows to satisfy our debt obligations, or to refinance our indebtedness on commercially reasonable terms or at all, would materially and adversely affect our financial position and results of operations and our ability to satisfy our obligations under the New Notes.

If we cannot make scheduled payments on our debt, we will be in default and holders of the New Notes could declare all outstanding principal and interest to be due and payable, the lenders under the Senior Secured Credit Facilities could terminate their commitments to loan money, the lenders could foreclose against the assets securing their borrowings and we could be forced into bankruptcy or liquidation. All of these events could result in your losing your investment in the New Notes.

Despite our current level of indebtedness, we and our subsidiaries may still be able to incur substantially more debt. This could further exacerbate the risks to our financial condition described above.

We and our subsidiaries may be able to incur significant additional indebtedness in the future. Although the indenture that governs the Original Notes and the New Notes and the credit agreements that govern our Senior Secured Credit Facilities contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. These restrictions also will not prevent us from incurring obligations that do not constitute indebtedness. In addition, as of September 30, 2014, our Revolving Credit Facility provided for unused commitments of \$686.0 million (after giving effect to \$57.8 million of outstanding letters of credit). All of those borrowings would be secured by first-priority liens on our accounts receivable, inventory, cash and related assets. In addition, if we incur any additional secured indebtedness, the holders of that indebtedness will be entitled to any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of our company before such proceeds are distributed to you. If we incur any additional indebtedness that ranks equally with the New Notes, subject to collateral arrangements, the holders of that debt will be entitled to share ratably with you in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of our company. This may have the effect of reducing the amount of proceeds paid to you. If new debt is added to our currently anticipated debt levels, the related risks that we and the subsidiary guarantors now face could intensify. See Description of Other Indebtedness and Description of New Notes.

The terms of the credit agreements governing our Senior Secured Credit Facilities and the indenture that governs the Original Notes and the New Notes restrict our current and future operations, particularly our ability to respond to changes or to take certain actions.

The indenture that governs the Original Notes and the New Notes, the credit agreements that govern our Senior Secured Credit Facilities and the agreement that governs our Existing Notes contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interest, including restrictions on our ability to:

- incur additional indebtedness and guarantee indebtedness;

- pay dividends on our capital stock or repurchase our capital stock and make certain other restricted payments;
- enter into agreements limiting dividends and certain other restricted payments;
- prepay, redeem or repurchase certain debt;
- grant liens on our assets;
- enter into sale and leaseback transactions;
- merge, consolidate or transfer or dispose of substantially all of our assets;

Table of Contents

- sell, transfer or otherwise dispose of property and assets; and
- engage in transactions with affiliates.

You should read the discussions under the headings "Description of Other Indebtedness" and "Description of New Notes" and "Certain Covenants" for further information about these covenants. The inability to borrow under our Revolving Credit Facility would adversely affect our liquidity, financial position and results of operations.

The agreement governing our multicurrency revolving credit facility contains certain financial covenants, including, maintaining a tangible net worth to total assets and debt to tangible net worth ratios.

A breach of the covenants or restrictions under the indenture that governs the Notes, under the credit agreements that govern our Senior Secured Credit Facilities, the agreement governing the Existing Notes or the agreement governing our multicurrency revolving credit facility could result in an event of default under the applicable indebtedness. Such a default may allow the creditors to accelerate the related debt and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. In addition, an event of default under the credit agreements that govern our Senior Secured Credit Facilities would permit the lenders under our Senior Secured Credit Facilities to terminate all commitments to extend further credit under those facilities. Furthermore, if we were unable to repay the amounts due and payable under our Senior Secured Credit Facilities, those lenders under each facility could proceed against the collateral granted to them to secure that indebtedness. In the event our lenders or noteholders accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay that indebtedness. As a result of these restrictions, we may be:

- limited in how we conduct our business;
- unable to raise additional debt or equity financing to operate during general economic or business downturns; or
- unable to compete effectively or to take advantage of new business opportunities.

These restrictions may affect our ability to grow in accordance with our strategy. In addition, our financial results, our substantial indebtedness and our credit ratings could adversely affect the availability and terms of our financing.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Borrowings under our Senior Secured Credit Facilities are at variable rates of interest and expose us to interest rate risk. If interest rates were to increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. Assuming all loans under our Senior Secured Credit Facilities were fully drawn, each quarter point change in interest rates would result in a \$3.3 million change in annual interest expense on our indebtedness under our Senior Secured Credit Facilities. In the future, we may enter into interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk.

The New Notes will be effectively subordinated to our and our subsidiary guarantors' indebtedness under our Senior Secured Credit Facilities and our Existing Notes and any of our other existing and future secured indebtedness, to the extent of the value of the collateral securing such indebtedness.

The New Notes will not be secured by any of our or our subsidiary guarantors' assets. As a result, the New Notes and the Note guarantees will be effectively subordinated to our and our subsidiary guarantors' indebtedness under our Senior Secured Credit Facilities, the Existing Notes and any of our other existing and future secured indebtedness to the extent of the value of the collateral. As of September 30, 2014, we had (i) \$847.0 million of secured indebtedness under our Senior Secured Credit Facilities (excluding an additional \$57.8 million represented by outstanding letters of credit under our Revolving Credit Facility) and (ii) commitments available to be borrowed under our Revolving Credit Facility of up to

Table of Contents

\$686.0 million (after giving effect to \$57.8 million of outstanding letters of credit). In addition, as of September 30, 2014, we had \$436.5 million of secured indebtedness under the Existing Notes.

The effect of this subordination is that upon a default in payment on, or the acceleration of, any of our secured indebtedness, or in the event of bankruptcy, insolvency, liquidation, dissolution or reorganization of our company or the subsidiary guarantors, the proceeds from the sale of assets securing our secured indebtedness will be available to pay obligations on the New Notes only after all indebtedness under the Senior Secured Credit Facilities and any other secured indebtedness have been paid in full. As a result, the holders of the New Notes and the Original Notes may receive less, ratably, than the holders of secured debt in the event of our or our subsidiary guarantors' bankruptcy, insolvency, liquidation, dissolution or reorganization.

The New Notes will be structurally subordinated to all obligations of our existing and future subsidiaries that are not and do not become guarantors of the New Notes.

The New Notes will be guaranteed on a senior basis by each of our existing and future domestic subsidiaries that is a borrower or guarantees indebtedness under our Senior Secured Credit Facilities or that guarantees certain of our other indebtedness or indebtedness of our domestic restricted subsidiaries (other than intercompany debt). Except for such subsidiary guarantors of the New Notes, our subsidiaries, including all of our non-domestic subsidiaries, will have no obligation, contingent or otherwise, to pay amounts due under the New Notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. The New Notes and Note guarantees will be structurally subordinated to all indebtedness and other obligations of any non-guarantor subsidiary such that, in the event of insolvency, liquidation, reorganization, dissolution or other winding up of any subsidiary that is not a guarantor, all of that subsidiary's creditors (including trade creditors) would be entitled to payment in full out of that subsidiary's assets before we would be entitled to any payment.

In addition, the indenture that governs the Notes, subject to some limitations, permits these subsidiaries to incur additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries.

For the nine months ended September 30, 2014, our non-guarantor subsidiaries represented approximately 13% of our total net sales and approximately (10)% of our operating income from continuing operations. As of September 30, 2014, our non-guarantor subsidiaries represented approximately 15% of our total assets and had \$265 million of total liabilities, including debt and trade payables but excluding intercompany liabilities.

In addition, our subsidiaries that provide, or will provide, Note guarantees will be automatically released from those Note guarantees upon the occurrence of certain events, including the following:

- the designation of that subsidiary guarantor as an unrestricted subsidiary;

- the release or discharge of any guarantee or indebtedness that resulted in the creation of the Note guarantee of the Notes by such subsidiary guarantor; or
- the sale or other disposition, including the sale of substantially all the assets, of that subsidiary guarantor.

If any Note guarantee is released, no holder of the New Notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities, including trade payables and preferred stock, if any, whether secured or unsecured, of that subsidiary will be effectively senior to the claim of any holders of the New Notes. See Description of New Notes Note Guarantees.

We may not be able to repurchase the New Notes upon a Change of Control Triggering Event.

Upon the occurrence of specific kinds of change of control events and a rating decline, we will be required to offer to repurchase all outstanding New Notes at 101% of their principal amount, plus accrued and unpaid interest, to, but excluding, the repurchase date. Additionally, under the Senior Secured Credit Facilities, a change of control (as defined therein) constitutes an event of default that permits the lenders to accelerate the maturity of borrowings under the Senior Secured Credit Facilities and the commitments to lend would terminate. The source of funds for any purchase of the New Notes and repayment of borrowings under the Senior Secured Credit Facilities will be our available cash or cash generated

Table of Contents

from our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the New Notes upon a Change of Control Triggering Event because we may not have sufficient financial resources to purchase all of the debt securities that are tendered upon a Change of Control Triggering Event and repay our other indebtedness that will become due. If we fail to repurchase the New Notes in that circumstance, we will be in default under the indenture that governs the New Notes. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain financing on satisfactory terms or at all. Further, our ability to repurchase the New Notes may be limited by law. In order to avoid the obligations to repurchase the New Notes and events of default and potential breaches of the credit agreements governing the Senior Secured Credit Facilities, we may have to avoid certain change of control transactions that would otherwise be beneficial to us.

In addition, certain important corporate events, such as leveraged recapitalizations, will not, under the indenture that governs the New Notes, constitute a change of control that would require us to repurchase the New Notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings or the value of the Notes. See Description of New Notes Change of Control Triggering Event.

The exercise by the holders of New Notes of their right to require us to repurchase the New Notes pursuant to a change of control offer could cause a default under the agreements governing our other indebtedness, including future agreements, even if the change of control itself does not, due to the financial effect of such repurchases on us. In the event a change of control offer is required to be made at a time when we are prohibited from purchasing New Notes, we could attempt to refinance the borrowings that contain such prohibitions. If we do not obtain a consent or repay those borrowings, we will remain prohibited from purchasing New Notes. In that case, our failure to purchase the tendered New Notes would constitute an event of default under the indenture which could, in turn, constitute a default under our other indebtedness. Finally, our ability to pay cash to the holders of New Notes upon a repurchase may be limited by our then existing financial resources.

Holders of the New Notes may not be able to determine when a change of control giving rise to their right to have the New Notes repurchased has occurred following a sale of substantially all of our assets.

One of the circumstances under which a change of control may occur is upon the sale or disposition of all or substantially all of our assets. There is no precise established definition of the phrase substantially all under applicable law, and the interpretation of that phrase will likely depend upon particular facts and circumstances. Accordingly, the ability of a holder of the New Notes to require us to repurchase its New Notes as a result of a sale of less than all our assets to another person may be uncertain.

Federal and state fraudulent transfer laws may permit a court to void the New Notes and/or the Note guarantees, and, if that occurs, you may not receive any payments on the New Notes.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the New Notes and the incurrence of the Note guarantees of the New Notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the New Notes or the Note guarantees thereof could be voided as a fraudulent transfer or conveyance if we or any of the subsidiary guarantors, as applicable, (a) issued the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or incurred the Note guarantees with the intent of hindering, delaying or defrauding creditors or (b) received less than reasonably equivalent value or fair consideration in return for either issuing the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or incurring the Note guarantees and, in the case of (b) only, one of the following is also true at the time thereof:

- we or any of the subsidiary guarantors, as applicable, were insolvent or rendered insolvent by reason of the issuance of the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or the incurrence of the Note guarantees;
- the issuance of the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or the incurrence of the Note guarantees left us or any of the subsidiary guarantors, as applicable, with an unreasonably small amount of capital or assets to carry on the business;
- we or any of the subsidiary guarantors intended to, or believed that we or such subsidiary guarantor would, incur debts beyond our or such subsidiary guarantor's ability to pay as they mature; or

Table of Contents

- we or any of the subsidiary guarantors were a defendant in an action for money damages, or had a judgment for money damages docketed against us or the subsidiary guarantor if, in either case, the judgment is unsatisfied after final judgment.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that a subsidiary guarantor did not receive reasonably equivalent value or fair consideration for its Note guarantee to the extent the subsidiary guarantor did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the New Notes (or the Original Notes for which the New Notes were exchanged hereunder).

We cannot be certain as to the standards a court would use to determine whether or not we or the subsidiary guarantors were insolvent at the relevant time or, regardless of the standard that a court uses, whether the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or the Note guarantees would be subordinated to our or any of our subsidiary guarantors' other debt. In general, however, a court would deem an entity insolvent if:

- the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;
- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they became due.

If a court were to find that the issuance of the New Notes (or the Original Notes for which the New Notes were exchanged hereunder) or the incurrence of a Note guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under the New Notes or that Note guarantee, subordinate the New Notes or that Note guarantee to presently existing and future indebtedness of ours or of the related subsidiary guarantor, or require the holders of the New Notes to repay any amounts received with respect to that Note guarantee. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the New Notes. Further, the avoidance of the New Notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of that debt.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the New Notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of New Notes (or the Original Notes for which the New Notes were exchanged hereunder) engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holders of the New Notes and (3) equitable subordination is not inconsistent with the provisions of the bankruptcy code.

Your ability to transfer the New Notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the New Notes.

The New Notes are a new issue of securities for which there is no established public market. We do not intend to have the New Notes listed on a national securities exchange. Certain of the initial purchasers of the Original Notes have advised us that they currently intend to make a market in the New Notes as permitted by applicable laws and regulations. However, the initial purchasers are not obligated to make a market in the New Notes and, if commenced, may discontinue their market-making activities at any time without notice.

Therefore, an active market for the New Notes may not develop or be maintained, which would adversely affect the market price and liquidity of the New Notes. In such case, the holders of the New Notes may not be able to sell their New Notes at a particular time or at a favorable price.

Even if an active trading market for the New Notes does develop, there is no guarantee that it will continue. Historically, the market for non-investment grade debt has been subject to severe disruptions that have caused substantial volatility in the prices of securities similar to the New Notes. The market, if any, for the New Notes may experience similar disruptions and any such disruptions may adversely affect the liquidity in that market or the prices at which you may sell your New Notes. In addition, the New Notes may trade at a discount from the initial offering price of the Original Notes, depending upon prevailing interest rates, the market for similar notes, our performance and other factors.

Table of Contents

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital.

Our debt currently has a non-investment grade rating, and any rating assigned could be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the New Notes. Credit ratings are not recommendations to purchase, hold or sell the New Notes. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketing of the New Notes.

Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the New Notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your New Notes without a substantial discount.

The Company is controlled by holders of the Company's class B common stock, all of which is owned by certain members of the Quadracci family, trusts for their benefit or other affiliates of the Company, whose interests may be different from the holders of the Notes.

The Company's outstanding stock is divided into two classes of common stock: class A common stock (the "class A stock") and class B common stock (the "class B stock"). The class B stock has ten votes per share on all matters and the class A stock is entitled to one vote per share. As of February 24, 2014, the class B stock constituted approximately 81% of the Company's total voting power. As a result, holders of class B stock are able to exercise a controlling influence over the Company's business, have the power to elect its directors and indirectly control decisions such as whether to issue additional shares, declare and pay dividends or enter into certain corporate transactions. All of the class B stock is owned by certain members of the Quadracci family or trusts for their benefit, whose interests may differ from the interests of the holders of the New Notes offered hereby.

Such holders' rights over these and other significant corporate actions could delay, defer or prevent certain significant corporate actions that you, as a creditor, may otherwise view favorably. Such holders may also delay, defer or prevent an acquisition of the Company by a third party or other change of control (whether by merger, takeover or other business combination), even if such event would be in the best interests of you, as creditor. Further, such holders may realize substantial benefits from the sale of their shares in any future equity offerings.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the information incorporated by reference in this prospectus contain statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results, and therefore are, or may be deemed to be, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms believes, estimates, anticipates, expects, estimates, projects, intends, plans, may, will or should or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this prospectus and the information incorporated by reference in this prospectus and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the Risk Factors section of this prospectus and the following: the impact of significant overcapacity in the highly competitive commercial printing industry, which creates downward pricing pressure and fluctuating demand for printing services; the inability of the Company to reduce costs and improve operating efficiency rapidly enough to meet market conditions; the impact of electronic media and similar technological changes, including digital substitution by consumers; the impact of changes in postal rates, service levels or regulations; the impact of changing future economic conditions; the failure to renew long-term contracts with clients on favorable terms or at all; the failure of clients to perform under long-term contracts due to financial or other reasons or due to client consolidation; the failure to successfully identify, manage, complete and integrate acquisitions and investments, including the integration of the operations of Vertis and Brown Printing; the impact of increased business complexity as a result of the Company's entry into additional markets; the impact of fluctuations in costs (including labor-related costs, energy costs, freight rates and raw materials) and the impact of fluctuations in the availability of raw materials; the impact of regulatory matters and legislative developments or changes in laws, including changes in privacy and environmental laws; the impact of risks associated with the operations outside of the United States; and significant capital expenditures may be needed to maintain the Company's platform and processes and to remain technologically and economically competitive. These factors and the factors described in the Risk Factors section of this prospectus should not be construed as exhaustive and should be read with the other cautionary statements in this prospectus.

Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this prospectus. In addition, even if our results of operations, financial condition and liquidity, and the development of the industry in which we operate are consistent with the forward-looking statements contained in this prospectus, those results or developments may not be indicative of results or developments in subsequent periods.

Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements that we make in this prospectus speak only as of the date of those statements, and we undertake no obligation to update those statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

THE EXCHANGE OFFER

Purpose and Effect; Registration Rights

We issued and sold the Original Notes on April 28, 2014 in transactions exempt from the registration requirements of the Securities Act. Therefore, the Original Notes are subject to significant restrictions on resale. In connection with the issuance of the Original Notes, we entered into a registration rights agreement, which required that we and the subsidiary guarantors:

- file with the SEC a registration statement under the Securities Act relating to the exchange offer and the issuance and delivery of the New Notes in exchange for the Original Notes;
- use our commercially reasonable efforts to cause the SEC to declare the exchange offer registration statement effective under the Securities Act within 366 days following the date that the Original Notes were issued; and
- use our commercially reasonable efforts to consummate the exchange offer within 366 days following the date that the Original Notes were issued.

If you participate in the exchange offer, then you will, with limited exceptions, receive New Notes that are freely tradable and not subject to restrictions on transfer. You should read this prospectus under the heading **Resales of New Notes** for more information relating to your ability to transfer New Notes.

If you are eligible to participate in the exchange offer and do not tender your Original Notes, then you will continue to hold the untendered Original Notes, which will continue to be subject to restrictions on transfer under the Securities Act.

The exchange offer is intended to satisfy our exchange offer obligations under the registration rights agreement. The above summary of the registration rights agreement is not complete. You are encouraged to read the full text of the registration rights agreement, which has been filed as an exhibit to the registration statement that includes this prospectus.

Terms of the Exchange Offer

Edgar Filing: QG Printing II Corp. - Form 424B3

We are offering to exchange \$300,000,000 aggregate principal amount of our 7.0% Senior Notes due 2022, which have been registered under the Securities Act, for a like principal amount of our unregistered 7.0% Senior Notes due 2022.

Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will accept all Original Notes validly tendered and not withdrawn before 5:00 p.m., New York City time, on the expiration date of the exchange offer. We will issue \$1,000 principal amount of New Notes in exchange for each \$1,000 principal amount of outstanding Original Notes we accept in the exchange offer. You may tender some or all of your Original Notes under the exchange offer. However, the Original Notes are issuable in authorized denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Accordingly, Original Notes may be tendered only in denominations of \$2,000 or any integral multiple of \$1,000 in excess thereof. The exchange offer is not conditioned upon any minimum amount of Original Notes being tendered.

The form and terms of the New Notes will be the same as the form and terms of the Original Notes, except that:

- the New Notes will be registered under the Securities Act and thus will not be subject to the restrictions on transfer or bear legends restricting their transfer;
- all of the New Notes will be represented by global notes in book-entry form unless exchanged for notes in definitive certificated form under the limited circumstances described under Book-Entry, Delivery and Form; and
- the New Notes will not provide for the payment of additional interest under circumstances relating to the timing of the exchange offer.

Table of Contents

The New Notes will evidence the same debt as the Original Notes and will be issued under, and be entitled to the benefits of, the indenture governing the Original Notes.

The New Notes will accrue interest from the most recent date to which interest has been paid on the Original Notes or, if no interest has been paid, from the date of issuance of the Original Notes. Accordingly, registered holders of New Notes on the record date for the first interest payment date following the completion of the exchange offer will receive interest accrued from the most recent date to which interest has been paid on the Original Notes or, if no interest has been paid, from the date of issuance of the Original Notes. However, if that record date occurs prior to completion of the exchange offer, then the interest payable on the first interest payment date following the completion of the exchange offer will be paid to the registered holders of the Original Notes on that record date.

In connection with the exchange offer, you do not have any appraisal or dissenters' rights under the Wisconsin Business Corporation Law or the indenture. We intend to conduct the exchange offer in accordance with the registration rights agreement and the applicable requirements of the Securities Act, the Securities Exchange Act of 1934, as amended (the Securities Exchange Act), and the rules and regulations of the SEC. The exchange offer is not being made to, nor will we accept tenders for exchange from, holder of the Original Notes in any jurisdiction in which the exchange offer or the acceptance of it would not be in compliance with the securities or blue sky laws of the jurisdiction.

We will be deemed to have accepted validly tendered Original Notes when we have given oral or written notice of our acceptance to the exchange agent. The exchange agent will act as agent for the tendering holders for the purpose of receiving the New Notes from us.

If we do not accept any tendered Original Notes because of an invalid tender or for any other reason, then we will return certificates for any unaccepted Original Notes without expense to the tendering holder as promptly as practicable after the expiration date.

Expiration Date; Amendments

The exchange offer will expire at 5:00 p.m., New York City time, on Monday, April 6, 2015, unless we, in our sole discretion, extend the exchange offer.

If we determine to extend the exchange offer, then we will notify the exchange agent of any extension by oral or written notice and give each registered holder notice of the extension by means of a press release or other public announcement before 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

We reserve the right, in our sole discretion, to delay accepting any Original Notes, to extend the exchange offer or to amend or terminate the exchange offer if any of the conditions described below under "Conditions" have not been satisfied or waived by giving written notice to the exchange agent of the delay, extension, amendment or termination. Further, we reserve the right, in our sole discretion, to amend the terms of the exchange offer in any manner. We will notify you as promptly as practicable of any extension, amendment or termination. We will also file a post-effective amendment to the registration statement of which this prospectus is a part with respect to any fundamental change in the exchange offer.

Procedures for Tendering Original Notes

Any tender of Original Notes that is not withdrawn prior to the expiration date will constitute a binding agreement between the tendering holder and us upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal. A holder who wishes to tender Original Notes in the exchange offer must do either of the following:

- properly complete, sign and date the letter of transmittal, including all other documents required by the letter of transmittal; have the signature on the letter of transmittal guaranteed if the letter of transmittal so requires; and deliver that letter of transmittal and other required documents to the exchange agent at the address listed below under Exchange Agent on or before the expiration date; or
- if the Original Notes are tendered under the book-entry transfer procedures described below, transmit to the exchange agent, on or before the expiration date, an agent's message.

Table of Contents

In addition, one of the following must occur:

- the exchange agent must receive certificates representing your Original Notes along with the letter of transmittal on or before the expiration date, or
- the exchange agent must receive a timely confirmation of book-entry transfer of the Original Notes into the exchange agent's account at The Depository Trust Company (DTC) of New York City, under the procedure for book-entry transfers described below along with the letter of transmittal or a properly transmitted agent's message, on or before the expiration date; or
- the holder must comply with the guaranteed delivery procedures described below.

The term "agent's message" means a message, transmitted by a book-entry transfer facility to and received by the exchange agent and forming a part of the book-entry confirmation, which states that the book-entry transfer facility has received an express acknowledgement from the tendering DTC participant stating that the participant has received and agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against the participant.

The method of delivery of Original Notes, the letter of transmittal and all other required documents to the exchange agent is at your election and risk. Rather than mail these items, we recommend that you use an overnight or hand delivery service. In all cases, you should allow sufficient time to assure timely delivery to the exchange agent before the expiration date. Do not send letters of transmittal or Original Notes to us.

Generally, an eligible institution must guarantee signatures on a letter of transmittal or a notice of withdrawal unless the Original Notes are tendered:

- by a registered holder of the Original Notes who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal; or
- for the account of an eligible institution.

If signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, the guarantee must be by a firm which is:

- a member of a registered national securities exchange;
- a member of the National Association of Securities Dealers, Inc.;
- a commercial bank or trust company having an office or correspondent in the United States; or
- another eligible institution within the meaning of Rule 17Ad-15 under the Securities Exchange Act.

If the letter of transmittal is signed by a person other than the registered holder of any outstanding Original Notes, the Original Notes must be endorsed or accompanied by appropriate powers of attorney. The power of attorney must be signed by the registered holder exactly as the registered holder(s) name(s) appear(s) on the Original Notes and an eligible institution must guarantee the signature on the power of attorney.

If the letter of transmittal, or any Original Notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, these persons should so indicate when signing. Unless waived by us, they should also submit evidence satisfactory to us of their authority to so act.

If you wish to tender Original Notes that are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, you should promptly instruct the registered holder to tender on your behalf. If you wish to tender on your behalf, you must, before completing the procedures for tendering Original Notes, either register ownership of the Original Notes in your name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time.

Table of Contents

We will determine in our sole discretion all questions as to the validity, form, eligibility, including time of receipt, and acceptance of Original Notes tendered for exchange. Our determination will be final and binding on all parties. We reserve the absolute right to reject any and all tenders of Original Notes not properly tendered or Original Notes our acceptance of which might, in the judgment of our counsel, be unlawful. We also reserve the absolute right to waive any defects, irregularities or conditions of tender as to any particular Original Notes. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Original Notes must be cured within the time period we determine. Neither we, the exchange agent nor any other person will incur any liability for failure to give you notification of defects or irregularities with respect to tenders of your Original Notes.

By tendering, you will represent to us that:

- any New Notes that the holder receives will be acquired in the ordinary course of its business;
- at the time of the commencement of the exchange offer, the holder has no arrangement or understanding with any person or entity to participate in the distribution (within the meaning of the Securities Act) of the New Notes in violation of the Securities Act;
- the holder is not an affiliate, as defined in Rule 405 of the Securities Act, of the Company or any guarantor; and
- if the holder is a broker dealer, that the holder's Original Notes were acquired as a result of market making activities or other trading activities.

If any holder or any such other person is an affiliate of the Company or any guarantor, or is engaged in or intends to engage in or has an arrangement or understanding with any person to participate in a distribution of the New Notes to be acquired in the exchange offer, then that holder or any such other person:

- may not rely on the applicable interpretations of the staff of the SEC;
- is not entitled and will not be permitted to tender Original Notes in the exchange offer; and

- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker dealer who acquired its Original Notes as a result of market making activities or other trading activities and thereafter receives New Notes issued for its own account in the exchange offer, must acknowledge that it will deliver a prospectus in connection with any resale of such New Notes issued in the exchange offer. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. See Plan of Distribution for a discussion of the exchange and resale obligations of broker dealers in connection with the exchange offer.

Any broker-dealer that acquired Original Notes directly from us may not rely on the applicable interpretations of the staff of the SEC and must comply with the registration and delivery requirements of the Securities Act (including being named as a selling security holder) in connection with any resales of the Original Notes or the New Notes.

Acceptance of Original Notes for Exchange; Delivery of New Notes

Upon satisfaction of all conditions to the exchange offer, we will accept, promptly after the expiration date, all Original Notes properly tendered and will issue the New Notes promptly after acceptance of the Original Notes.

For purposes of the exchange offer, we will be deemed to have accepted properly tendered Original Notes for exchange when we have given written notice of that acceptance to the exchange agent. For each Original Note accepted for exchange, you will receive a New Note having a principal amount equal to that of the surrendered Original Note.

Table of Contents

In all cases, we will issue New Notes for Original Notes that we have accepted for exchange under the exchange offer only after the exchange agent timely receives:

- certificates for your Original Notes or a timely confirmation of book-entry transfer of your Original Notes into the exchange agent's account at DTC; and
- a properly completed and duly executed letter of transmittal and all other required documents or a properly transmitted agent's message.

If we do not accept any tendered Original Notes for any reason set forth in the terms of the exchange offer or if you submit Original Notes for a greater principal amount than you desire to exchange, we will return the unaccepted or non-exchanged Original Notes without expense to you. In the case of Original Notes tendered by book-entry transfer into the exchange agent's account at DTC under the book-entry procedures described below, we will credit the non-exchanged Original Notes to your account maintained with DTC.

Book-Entry Transfer

We understand that the exchange agent will make a request within two business days after the date of this prospectus to establish accounts for the Original Notes at DTC for the purpose of facilitating the exchange offer, and any financial institution that is a participant in DTC's system may make book-entry delivery of Original Notes by causing DTC to transfer the Original Notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. Although delivery of Original Notes may be effected through book-entry transfer at DTC, the exchange agent must receive a properly completed and duly executed letter of transmittal with any required signature guarantees, or an agent's message instead of a letter of transmittal, and all other required documents at its address listed below under "Exchange Agent" on or before the expiration date, or if you comply with the guaranteed delivery procedures described below, within the time period provided under those procedures.

Guaranteed Delivery Procedures

If you wish to tender your Original Notes and your Original Notes are not immediately available, or you cannot deliver your Original Notes, the letter of transmittal or any other required documents or comply with DTC's procedures for transfer before the expiration date, then you may participate in the exchange offer if:

- the tender is made through an eligible institution;

Edgar Filing: QG Printing II Corp. - Form 424B3

- before the expiration date, the exchange agent receives from the eligible institution a properly completed and duly executed notice of guaranteed delivery, substantially in the form provided by us, by facsimile transmission, mail or hand delivery, containing:
- the name and address of the holder and the principal amount of Original Notes tendered,
- a statement that the tender is being made thereby, and
- a guarantee that within three New York Stock Exchange trading days after the expiration date, the certificates representing the Original Notes in proper form for transfer or a book-entry confirmation and any other documents required by the letter of transmittal will be deposited by the eligible institution with the exchange agent; and
- the exchange agent receives the properly completed and executed letter of transmittal as well as certificates representing all tendered Original Notes in proper form for transfer, or a book-entry confirmation, and all other documents required by the letter of transmittal within three New York Stock Exchange trading days after the expiration date.

Withdrawal Rights

You may withdraw your tender of Original Notes at any time before the exchange offer expires.

Table of Contents

For a withdrawal to be effective, the exchange agent must receive a written notice of withdrawal at its address listed below under Exchange Agent. The notice of withdrawal must:

- specify the name of the person who tendered the Original Notes to be withdrawn;
- identify the Original Notes to be withdrawn, including the principal amount, or, in the case of Original Notes tendered by book-entry transfer, the name and number of the DTC account to be credited, and otherwise comply with the procedures of DTC; and
- if certificates for Original Notes have been transmitted, specify the name in which those Original Notes are registered if different from that of the withdrawing holder.

If you have delivered or otherwise identified to the exchange agent the certificates for Original Notes, then, before the release of these certificates, you must also submit the serial numbers of the particular certificates to be withdrawn and a signed notice of withdrawal with the signatures guaranteed by an eligible institution, unless the holder is an eligible institution.

We will determine in our sole discretion all questions as to the validity, form and eligibility, including time of receipt, of notices of withdrawal. Our determination will be final and binding on all parties. Any Original Notes so withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer. We will return any Original Notes that have been tendered but that are not exchanged for any reason to the holder, without cost, as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer. In the case of Original Notes tendered by book-entry transfer into the exchange agent's account at DTC, the Original Notes will be credited to an account maintained with DTC for the Original Notes. You may retender properly withdrawn Original Notes by following one of the procedures described under Procedures for Tendering Original Notes at any time on or before the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or to exchange New Notes for, any Original Notes if:

- the exchange offer, or the making of any exchange by a holder of Original Notes, would violate any applicable law or applicable interpretation by the staff of the SEC; or

- any action or proceeding is instituted or threatened in any court or by or before any governmental agency with respect to the exchange offer which, in our judgment, would reasonably be expected to impair our ability to proceed with the exchange offer.

The conditions listed above are for our sole benefit and we may assert them regardless of the circumstances giving rise to any condition. Subject to applicable law, we may waive these conditions in our discretion in whole or in part at any time and from time to time.

We expressly reserve the right, at any time or at various times, to extend the period of time during which the exchange offer is open. Consequently, we may delay acceptance of any Original Notes by giving oral or written notice of an extension to their holders. During an extension, all Original Notes previously tendered will remain subject to the exchange offer, and we may accept them for exchange.

Accounting Treatment

We will record the New Notes at the same carrying values as the Original Notes, as reflected in our accounting records on the date of exchange. Accordingly, we will not recognize any gain or loss on the exchange of Notes. We will amortize the expenses of the offer over the term of the New Notes.

Consequences of Failure to Exchange Original Notes

If you are eligible to participate in the exchange offer but do not tender your Original Notes, you will not have any further registration rights, except in limited circumstances with respect to specific types of holders of Original Notes. Original Notes that are not tendered or are tendered but not accepted will, following the consummation of the exchange offer, continue to be subject to the provisions in the indenture regarding the transfer and exchange of the Original Notes and the existing restrictions on transfer set forth in the legend on the Original Notes and in the offering memorandum dated April 11, 2014, relating to the Original Notes. Accordingly, you may resell the Original Notes that are not exchanged only:

- to us;
- so long as the Original Notes are eligible for resale under Rule 144A under the Securities Act, to a person whom you reasonably believe is a qualified institutional buyer within the meaning of Rule 144A purchasing for its own account or for the account of a qualified institutional buyer in a transaction meeting the requirements of Rule 144A;
- in accordance with another exemption from the registration requirements of the Securities Act; or
- under an effective registration statement under the Securities Act;

in each case in accordance with all other applicable securities laws. We do not intend to register the Original Notes under the Securities Act.

Original Notes that are not exchanged in the exchange offer will remain outstanding and continue to accrue interest and will be entitled to the rights and benefits their holders have under the indenture relating to the Original Notes and the New Notes. Holders of the New Notes and any Original Notes that remain outstanding after consummation of the exchange offer will vote together as a single class for purposes of determining whether holders of the requisite percentage of the class have taken certain actions or exercised certain rights under the indenture.

Resales of New Notes

Based on interpretations of the staff of the SEC, as set forth in no action letters to third parties, we believe that New Notes issued under the exchange offer in exchange for Original Notes may be offered for resale, resold and otherwise transferred by any Original Note holder without further registration under the Securities Act and without delivery of a prospectus that satisfies the requirements of Section 10 of the Securities Act if:

- the holder is not our affiliate within the meaning of Rule 405 under the Securities Act;
- the New Notes are acquired in the ordinary course of the holder's business; and
- the holder does not intend to participate in a distribution (within the meaning of the Securities Act) of the New Notes.

Any holder who exchanges Original Notes in the exchange offer with the intention of participating in any manner in a distribution of the New Notes must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction.

This prospectus may be used for an offer to resell, resale or other retransfer of New Notes. From that point forward, these entities are subject to federal and state income taxes. The impact from the conversion to C corporation status resulted in the recognition of net short-term deferred tax assets of \$23.6 million, net long-term deferred tax liabilities of \$223.3 million, an increase in accumulated other comprehensive loss due to the impact of foreign currency translation of \$0.8 million, and recognition of income tax expense for the year ended December 31, 2010 of \$200.5 million.

(4) The results of operations of the Company's Canadian operations have been reported as discontinued operations for all periods presented. Loss from discontinued operations, net of tax, decreased \$35.4 million during the year ended December 31, 2012, to a \$3.2 million loss, which primarily reflects the sale of the Company's Canadian operations on March 1, 2012, and the effect of reporting two months of activity as opposed to 12 months for the year ended December 31, 2011. This \$3.2 million loss was offset by a gain on disposal of discontinued operations, net of tax, of \$34.0 million, resulting in \$30.8 million of earnings from discontinued operations for the year ended December 31, 2012.

Senior Secured Credit Facilities

Overview

On April 28, 2014, the Company entered into the \$1.6 billion Senior Secured Credit Facilities, which provide for the Revolving Credit Facility and the Term Loan Facilities (comprised of the Term Loan A Facility and the Term Loan B Facility). Subject to certain conditions, the Company may request incremental term loans to be extended under the Revolving Credit Facility so long as the pro forma senior secured net leverage ratio does not exceed 2.50 to 1.00 or the aggregate of such increases does not exceed \$350.0 million.

The Revolving Credit Facility is in the amount of \$850.0 million, with a term of five-years. A portion of the Revolving Credit Facility, not in excess of \$100.0 million, is available to the Company for the issuance of letters of credit, and a portion of the Revolving Credit Facility, not in excess of \$50.0 million, is available to the Company for swing line loans.

The Term Loan A Facility is in the aggregate amount of \$450.0 million, with a term of five-years, subject to certain required amortization. The Term Loan B Facility is in the amount of \$300.0 million, with a term of seven-years, subject to certain required amortization. The Senior Secured Credit Facilities also include a \$350.0 million expansion option pursuant to which the Company may elect to increase the revolving commitments or enter into incremental term loans under certain circumstances. At any time when the Company's total leverage is 3.00 to 1.00 or greater, the Company is obligated to prepay the two term loan facilities from the net proceeds of asset sales, casualty losses, and certain secured indebtedness for borrowed money, or from a portion of its excess cash flow, subject to certain exceptions.

Interest Rate and Fees

Borrowings under the Revolving Credit Facility and loans under the Term Loan A Facility currently bear interest at 2.00% in excess of reserve adjusted London Interbank Offered Rate (LIBOR), or 1.00% in excess of an alternate base rate, and loans under the Term Loan B Facility currently bear interest at 3.25% in excess of reserve adjusted LIBOR, with a LIBOR floor of 1.00%, or 2.25% in excess of an alternative base rate at the Company's option. The Company also pays a commitment fee at the rate of 0.35% per annum on the unused portion of the Revolving Credit Facility.

Guarantees and Security

Borrowings and loans made under the Senior Secured Credit Facilities are secured by substantially all of the assets of the Company and the guarantors, excluding certain collateral described below securing the Existing Notes. This agreement also requires the Company to provide additional collateral to the lenders in certain limited circumstances.

Restrictive Covenants and Other Matters

The Senior Secured Credit Facilities contain affirmative and negative covenants which are customary for financings of this type, including, among other things, certain limitations on acquisitions, indebtedness, liens, dividends and repurchases of capital stock. The Senior Secured Credit Facilities include the following financial covenants:

- On a rolling twelve-month basis, the total leverage ratio, defined as total consolidated debt (less certain unrestricted domestic cash) to consolidated EBITDA (as defined in the Senior Secured Credit Facilities), shall not exceed 3.75 to 1.00.

Table of Contents

- On a rolling twelve-month basis, the senior secured leverage ratio, defined as senior secured debt (less certain unrestricted domestic cash) to consolidated EBITDA, shall not exceed 3.50 to 1.00.
- On a rolling twelve-month basis, the minimum interest coverage ratio, defined as consolidated EBITDA to consolidated cash interest expense, shall not be less than 3.50 to 1.00.
- At all times, consolidated net worth will be not less than \$793.76 million plus 40% of positive consolidated net income cumulatively for each year. This covenant ceases to apply if the similar covenant in the Existing Notes is eliminated.

In addition to the foregoing covenants, the Senior Secured Credit Facilities provide as follows:

- If the Company's total leverage ratio is equal to or greater than 3.00 to 1.00 (as defined in the Senior Secured Credit Facilities), the Company is prohibited from making greater than \$120 million of annual dividend payments, capital stock repurchases and certain other payments. If the total leverage ratio is less than 3.00 to 1.00, there are no such restrictions.
- If the Company's senior secured leverage ratio is greater than 3.00 to 1.00 or the Company's total leverage ratio is greater than 3.50 to 1.00 (these ratios as defined in the Senior Secured Credit Facilities), the Company is prohibited from voluntarily prepaying any of the Notes and from voluntarily prepaying any other unsecured or subordinated indebtedness, with certain exceptions (including any mandatory prepayments on the Notes or on any other unsecured or subordinated debt). If the senior secured leverage ratio is less than 3.00 to 1.00 and the total leverage ratio is less than 3.50 to 1.00, there are no such restrictions.

Existing Notes

On September 1, 1995, and as last amended on November 24, 2014, the Company entered into a senior secured note agreement pursuant to which the Company has issued over time the Existing Notes in an aggregate principal amount of \$1.1 billion in various tranches. These Existing Notes have a weighted-average interest rate of 7.45% at September 30, 2014, which is fixed to maturity, and interest is payable semiannually. Principal payments commenced September 1997 and extend through April 2036. The Existing Notes are collateralized by certain United States land, buildings and press and finishing equipment under the terms of the Master Note and Security Agreement. At September 30, 2014, the borrowings outstanding were \$436.5 million.

The agreement governing our Existing Notes contains a number of restrictive covenants that impose certain operating and financial restrictions on us, including, among others, financial covenants that line up with the financial covenants in our Senior Secured Credit Facilities noted above, limitations on engaging in transactions with affiliates and certain restrictions on entering agreements restricting subsidiaries from declaring or paying any dividends to us. In addition, if the security securing the Existing Notes is released in the future making such notes unsecured, we will be subject to additional restrictions pursuant to the agreement governing the Existing Notes, including, among others, incurring additional indebtedness and guaranteeing indebtedness, granting liens on our assets and merging, consolidating or transferring or disposing of substantially all of our assets.

Facilities Agreement

On December 16, 2008, Quad/Winkowski Sp. z o.o. (Quad/Winkowski), a Polish subsidiary of the Company, entered into a secured facilities agreement (the Facilities Agreement). The Facilities Agreement provides for a multicurrency revolving credit facility for \$15.2 million that was renewed in 2013 and will expire on December 16, 2014 (which is used for Quad/Winkowski s working capital and general business needs). The existing term loan portion of the Facilities Agreement was paid off in connection with our entering into the Senior Secured Credit Facilities and our issuance of the Original Notes. At September 30, 2014, the borrowings outstanding under the multicurrency revolving credit facility were \$2.1 million, leaving \$13.1 million available for future borrowings. The terms of the Facilities Agreement include a guarantee by Quad/Graphics and a security agreement that includes collateralizing substantially all of the Quad/Winkowski assets. The facilities bear interest at the aggregate of the Euro Interbank Offered Rate or the Warsaw Interbank Offered Rate and margin. The weighted-average interest rate of the multicurrency revolving credit facility was 4.98% at September 30, 2014.

Table of Contents

In addition, the agreement governing our multicurrency revolving credit facility contains certain financial covenants, including, maintaining a tangible net worth to total assets and debt to tangible net worth ratios.

Covenants and Compliance

Collectively, the foregoing lending arrangements include certain financial covenants (all financial terms, numbers and ratios in this Covenants and Compliance section are as defined in the respective agreements). Among these covenants, the Company is required to maintain the following (for each covenant, the most restrictive measurement has been included below):

- On a rolling twelve-month basis, the total leverage ratio, defined as total consolidated debt (less certain unrestricted domestic cash) to consolidated EBITDA (as defined in the applicable debt financing agreement), shall not exceed 3.75 to 1.00 (for the twelve months ended September 30, 2014, the Company's leverage ratio was 2.76 to 1.00).
- On a rolling twelve-month basis, the senior secured leverage ratio, defined as senior secured debt to consolidated EBITDA, shall not exceed 3.50 to 1.00 (for the twelve months ended September 30, 2014, the Company's senior secured leverage ratio was 2.26 to 1.00).
- On a rolling twelve-month basis, the minimum interest coverage ratio, defined as consolidated EBITDA to consolidated cash interest expense, shall not be less than 3.50 to 1.00 (for the twelve months ended September 30, 2014, the Company's interest coverage ratio was 6.45 to 1.00).
- Consolidated net worth of at least \$793.8 million plus 40% of positive consolidated net income cumulatively for each year. As of September 30, 2014, consolidated net worth must be at least \$793.8 million (as of September 30, 2014, the Company's consolidated net worth under the most restrictive covenant per the various debt agreements was \$1.15 billion).

Guarantees

Edgar Filing: QG Printing II Corp. - Form 424B3

As of April 28, 2014, each of our Subsidiaries that either is a borrower under or that guarantees Obligations under the Senior Credit Facilities or other Debt for borrowed money of the Company or any of its Restricted Subsidiaries of at least \$50.0 million in principal amount, will initially Guarantee the Notes. The Guarantors will, jointly and severally, irrevocably and unconditionally Guarantee, on a senior unsecured basis, the Company's Obligations under the Notes and all Obligations under the Indenture. Such Guarantors will, jointly and severally, agree to pay, in addition to the amount stated above, any and all costs and expenses (including reasonable attorneys' fees and expenses) incurred by the Trustee or any Holder in enforcing any rights under the Note Guarantees.

Each of the Notes Guarantees:

- is a general unsecured, senior obligation of each Guarantor;
- rank equally in right of payment with any existing and future senior Debt of each such entity, without giving effect to any collateral arrangements;
- is effectively subordinated to all Secured Debt of a Guarantor (including the Guarantee of the Senior Credit Facilities and the Existing Notes) to the extent of the value of the pledged assets;
- is senior in right of payment to any future Subordinated Obligations of the Guarantors; and
- is structurally subordinated to all liabilities of any Non-Guarantor Subsidiary.

Table of Contents

After giving effect to the issuance of the Original Notes and the entering into of the Senior Secured Credit Facilities and the use of proceeds therefrom, as of December 31, 2013:

- outstanding Debt of the Guarantors would have been \$12.0 million (excluding intercompany liabilities and guarantees under the Senior Credit Facilities, the Existing Notes and the Indenture), all of which would have been secured; and
- the Guarantors would have had no Subordinated Obligations.

Although the Indenture limits the amount of Debt that Restricted Subsidiaries may Incur, such Debt may be substantial.

For the year ended December 31, 2013, our non-guarantor subsidiaries represented approximately 10% of our total net sales and approximately (4)% of our operating income from continuing operations on a consolidated basis. As of December 31, 2013, our non-guarantor subsidiaries represented approximately 14% of our total assets and had approximately \$200 million of total liabilities on a consolidated basis, including trade payables but excluding intercompany liabilities, all of which would be structurally senior to the Notes.

Any entity that makes a payment under its Note Guarantee will be entitled upon payment in full of all Obligations that are Guaranteed under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's *pro rata* portion of such payment based on the respective net assets of all the Guarantors at the time of such payment, determined in accordance with GAAP.

The obligations of each Guarantor under its Note Guarantee will be limited as necessary to prevent that Note Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. If a Note Guarantee were rendered voidable, it could be subordinated by a court to all other Debt (including Guarantees and other contingent liabilities) of the Guarantor, and, depending on the amount of such Debt, a Guarantor's liability on its Note Guarantee could be reduced to zero. See Risk Factors Risks Related to the Exchange Offer and the New Notes Federal and state fraudulent transfer laws may permit a court to void the New Notes and/or the Note guarantees, and if that occurs, you may not receive any payments on the New Notes.

The Indenture provides that each Note Guarantee by a Guarantor will be automatically and unconditionally released and discharged upon:

- (1) (a) any sale, assignment, transfer, conveyance, exchange or other disposition (by merger, consolidation or otherwise) of the Capital Stock of such Guarantor after which the applicable Guarantor is no longer a Restricted Subsidiary, which sale, assignment, transfer, conveyance, exchange or other disposition is made in compliance with the provisions of the Indenture, including Certain Covenants Limitation on Asset Sales (it being understood that only such portion of the Net Cash Proceeds as is required to be applied on or before the date of such release in accordance with the terms of the Indenture needs to be applied in accordance therewith at such time) and the

first paragraph under Certain Covenants Consolidation, Merger, Conveyance, Transfer or Lease; *provided* that (i) all Guarantees and other obligations of such Guarantor in respect of all other Debt of the Company and its Restricted Subsidiaries terminate upon consummation of such transaction and (ii) any Investment of the Company or any other Subsidiary of the Company (other than any Subsidiary of such Guarantor) in such Guarantor or any Subsidiary of such Guarantor in the form of an Obligation or Preferred Interests is repaid, satisfied, released and discharged in full upon such release;

(b) the release or discharge of such Guarantor from its Guarantee of Debt of the Company and Restricted Subsidiaries under the Senior Credit Facilities (including, by reason of the termination of the Senior Credit Facilities) and all other Debt of the Company and the Guarantors (other than Debt of less than \$50.0 million in principal amount), including the Guarantee that resulted in the obligation of such Guarantor to Guarantee the Notes, if such Guarantor would not then otherwise be required to Guarantee the Notes pursuant to the Indenture, except a release or discharge by or as a result of payment under such Guarantee; *provided* that if such Guarantor has Incurred any Debt in reliance on its status as a Guarantor under the covenant Certain covenants Limitation on Incurrence of Debt, such Guarantor's obligations under such Debt, as the case may be, so Incurred are satisfied in full and discharged or are otherwise permitted to be Incurred by a Restricted Subsidiary (other than a Guarantor) under Certain Covenants Limitation on Incurrence of Debt;

Table of Contents

(c) the proper designation of any Guarantor as an Unrestricted Subsidiary; or

(d) the Company's exercise of its legal defeasance option or covenant defeasance option as described under Satisfaction and Discharge of the Indenture; Defeasance or the discharge of the Company's obligations under the Indenture in accordance with the terms of the Indenture; and

(2) each Guarantor delivering to the Trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction or release have been complied with.

In the event that any released Guarantor thereafter borrows money or guarantees Debt under the Senior Credit Facilities or guarantees any other Debt for borrowed money of the Company or any of its Restricted Subsidiaries in an amount of at least \$50.0 million in principal amount, such former Guarantor will again provide a Note Guarantee. See Certain covenants Additional Note Guarantees.

Optional Redemption

Prior to maturity, the Notes may be redeemed in whole or in part, at the Company's option, at the Redemption Price equal to the greater of (1) 100% of the principal amount thereof and (2) the sum of the present values of the remaining scheduled payments of principal and interest in respect of the Notes to be redeemed through May 1, 2022 (without regard to accrued and unpaid interest) computed using a discount rate equal to the Treasury Rate as of such redemption date plus 50 basis points, plus, in each case, accrued and unpaid interest thereon, if any, to the date of redemption.

In addition, prior to May 1, 2017, the Company may from time to time, with the net cash proceeds of one or more Qualified Equity Offerings, redeem up to 35% of the aggregate principal amount of the then outstanding Notes (calculated after giving effect to any issuance of Additional Notes) at a Redemption Price equal to 107.0% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the date of redemption; *provided* that (1) at least 65% of the original aggregate principal amount of the Notes then outstanding (calculated after giving effect to any issuance of Additional Notes) remains outstanding (unless all of such Notes are redeemed) immediately after the occurrence of any such redemption (excluding Notes held by the Company or its Subsidiaries) and (2) any such redemption occurs within 90 days following the closing of any such Qualified Equity Offering.

If the optional redemption date is on or after an interest record date but on or prior to the related interest payment date, then any accrued and unpaid interest in respect of Notes subject to redemption will be paid on the redemption date to the Person in whose name the Note is registered at the close of business, on such record date, and no additional interest will be payable to Holders whose Notes will be subject to redemption by the Company.

If less than all of the Notes are to be redeemed, the Trustee will select the Notes or portions thereof to be redeemed by lot, pro rata or by any other method the Trustee shall deem fair and appropriate (subject to DTC procedures as applicable).

Edgar Filing: QG Printing II Corp. - Form 424B3

No Notes of \$2,000 or less shall be redeemed in part. Notices of redemption shall be mailed by first class mail (and, to the extent permitted by applicable procedures or regulations, electronically) at least 30 days but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days before the redemption date if the notice is issued in connection with a defeasance or covenant defeasance of the Notes or a satisfaction and discharge of the Indenture. Notice of any redemption to the Holders of Notes may, in the Company's discretion, be subject to one or more conditions precedent, including completion of a Qualified Equity Offering or other corporate transaction. If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. If in definitive form, a new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the Holder thereof upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

Mandatory Redemption; Open Market Purchases

The Company is not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Company may be required to offer to purchase the Notes as described under the captions **Change of Control Triggering Event** and **Certain Covenants Limitation on Asset Sales**.

Table of Contents

The Company may at any time, and from time to time, acquire the Notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws so long as such acquisition does not otherwise violate the terms of the Indenture.

Change of Control Triggering Event

Within 30 days following the occurrence of a Change of Control Triggering Event, unless the Company has given a notice of redemption with respect to all of the Notes as described under Optional redemption, the Company will make an Offer to Purchase all of the outstanding Notes at a Purchase Price in cash equal to 101% of the principal amount of the Notes tendered, together with accrued and unpaid interest, if any, to but not including the Purchase Date.

On the Purchase Date, the Company will, to the extent lawful:

- (1) accept for payment all Notes or portions of Notes (in integral multiples of \$1,000) properly tendered pursuant to the Offer to Purchase; *provided* that if, following repurchase of a portion of a Note, the remaining principal amount of such Note outstanding immediately after such repurchase would be less than \$2,000, then the portion of such Note so repurchased shall be reduced so that the remaining principal amount of such Note outstanding immediately after such repurchase is \$2,000;
- (2) deposit with the Paying Agent an amount equal to the Purchase Price in respect of all Notes or portions of Notes so tendered; and
- (3) deliver or cause to be delivered to the Trustee for cancellation the Notes so accepted together with an Officers Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by the Company in accordance with the terms of this covenant.

The Paying Agent will promptly mail (or otherwise deliver in accordance with the applicable procedures of DTC) to each Holder of Notes so tendered the Purchase Price for such Notes, and the Trustee will promptly authenticate and mail (or otherwise deliver in accordance with the applicable procedures of DTC) (or cause to be transferred by book entry) to each Holder a new Note (it being understood that, notwithstanding anything in the Indenture to the contrary, no Opinion of Counsel or Officers Certificate will be required for the Trustee to authenticate and mail or deliver such new Note) equal in principal amount to any unpurchased portion of the Notes surrendered, if any provided that each such new Note will be in a principal amount of \$2,000 or integral multiples of \$1,000 in excess thereof.

If a Purchase Date is on or after an interest record date and on or before the related interest payment date, any accrued and unpaid interest to the Purchase Date will be paid on the Purchase Date to the Person in whose name a Note is registered at the close of business on such record date.

If Holders of not less than 90% in aggregate principal amount of the then outstanding Notes validly tender and do not withdraw such Notes in an Offer to Purchase the Notes upon a Change of Control Triggering Event and the Company, or any third party making an offer to purchase the Notes upon a Change of Control Triggering Event in lieu of the Company purchases all of the Notes validly tendered and not withdrawn by such Holders, the Company shall have the right, upon not less than 30 nor more than 60 days prior written notice, given not more than 30 days following the Purchase Date, to redeem all Notes that remain outstanding following such purchase at a Redemption Price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of redemption.

The Change of Control Triggering Event provisions described above will be applicable whether or not any other provisions of the Indenture are applicable. The provisions of the Indenture will not afford Holders protection in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction affecting the Company that may adversely affect Holders, if such transaction is not the type of transaction included within the definition of Change of Control. A transaction involving the recapitalization of the Company will result in a Change of Control only if it is the type of transaction specified in such definition. The Company's obligations to make an Offer to Purchase the Notes as a result of a Change of Control Triggering Event may, in certain circumstances, be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes. See Amendment, Supplement and Waiver.

The Company will be required to comply with the requirements of Rule 14e-1 under the Exchange Act and any other applicable securities laws or regulations in connection with any repurchase of the Notes as described above. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Company will

Table of Contents

comply with the applicable securities laws and regulations and will be deemed to have complied with its obligations under the provisions of the Indenture by virtue of such compliance.

The Company will not be required to make an Offer to Purchase upon a Change of Control Triggering Event if (i) a third party makes such Offer to Purchase contemporaneously with or upon a Change of Control Triggering Event in the manner, at the times and otherwise in compliance with the requirements of the Indenture and purchases all Notes validly tendered and not withdrawn under such Offer to Purchase or (ii) a notice of redemption for all then outstanding Notes has been given pursuant to the Indenture as described above under the caption **Optional Redemption**, unless and until there is a default in payment of the applicable Redemption Price.

The Company's ability to pay cash to the Holders of Notes upon a Change of Control Triggering Event may be limited by the Company's then existing financial resources. Further, the agreements governing the Company's other Debt contain, and future agreements of the Company may contain, prohibitions of certain events, including events that would constitute a Change of Control Triggering Event. If the exercise by the Holders of Notes of their right to require the Company to repurchase the Notes upon a Change of Control Triggering Event occurred at the same time as a change of control event under one or more of the Company's other debt agreements, the Company's ability to pay cash to the Holders of Notes upon a repurchase may be further limited by the Company's then existing financial resources.

Even if sufficient funds were otherwise available, the terms of the Senior Credit Facilities (and other Debt) may prohibit the Company's prepayment of Notes before their scheduled maturity. Consequently, if the Company is not able to prepay the Senior Credit Facilities or other Debt containing such restrictions or obtain requisite consents, the Company will be unable to fulfill its repurchase obligations, resulting in a default under the Indenture.

In addition, an Offer to Purchase may be made in advance of a Change of Control Triggering Event, conditional upon such Change of Control Triggering Event, if a definitive agreement is in place for the Change of Control at the time the Offer to Purchase is made.

Certain Covenants

Set forth below are certain covenants be contained in the Indenture.

Following the first day (a *Suspension Date*): (i) the Notes have Investment Grade Ratings from both Rating Agencies and (ii) no Default or Event of Default has occurred and is continuing under the Indenture (the occurrence of the events described in the foregoing clauses (i) and (ii) being collectively referred to as a *Covenant Suspension Event*), the Company and its Restricted Subsidiaries will not be subject to the following provisions of the Indenture (collectively, the *Suspended Covenants*):

- (a) Limitation on Incurrence of Debt;

- (b) Limitation on Restricted Payments;
- (c) Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries;
- (d) Limitation on Asset Sales;
- (e) Limitation on Transactions with Affiliates;
- (f) Limitation on Creation of Unrestricted Subsidiaries;
- (g) Additional Notes Guarantees (but only with respect to any Person that is required to become a Guarantor after the date of the commencement of the applicable Suspension Date); and
- (h) clause (iii) of the first paragraph of Consolidation, Merger, Conveyance, Transfer or Lease.

In the event that the Company and its Restricted Subsidiaries are not subject to the Suspended Covenants with respect to the Notes following any Suspension Date and, subsequently, (x) either one or both Rating Agencies withdraws its rating or downgrades the rating assigned to the Notes below the required Investment Grade Rating, (y) the Company or any of its affiliates enters into an agreement to effect a transaction that would result in a Change of Control and either one or both Rating Agencies indicate that if consummated, such transaction (alone or together with any related recapitalization or refinancing transactions) would cause such Rating Agency to withdraw its Investment Grade Rating or downgrade the ratings

Table of Contents

assigned to the Notes below an Investment Grade Rating or (z) a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated as if such covenants had never been suspended (the *Reinstatement Date*) and be applicable pursuant to the terms of the Indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the Indenture), unless and until the Notes subsequently attain an Investment Grade Rating from both of the Rating Agencies and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that none of the events described in clauses (x), (y) and (z) occurs); *provided, however*, that no Default, Event of Default or breach of any kind shall be deemed to exist under the Indenture, the Notes or the Note Guarantees with respect to the Suspended Covenants based on, and none of the Company or any of its Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the Suspension Date and the Reinstatement Date is referred to as the *Suspension Period*.

On the Reinstatement Date, all Debt Incurred during a Suspension Period will be classified as having been Incurred or issued pursuant to the first paragraph of *Limitation on Incurrence of Debt* below or, at the Company's option, one of the clauses set forth in the definition of *Permitted Debt* (in each case, to the extent such Debt would be permitted to be Incurred thereunder as of the Reinstatement Date and after giving effect to Debt Incurred prior to the Suspension Period and outstanding on the Reinstatement Date) and subject to the covenant described below under *Limitation on Incurrence of Debt*. To the extent such Debt would not be so permitted to be Incurred pursuant to the covenant described below under *Limitation on Incurrence of Debt*, such Debt will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (iv) of the definition of *Permitted Debt*.

Calculations made after the Reinstatement Date of the amount available to be made as Restricted Payments under the covenant described below under *Limitation on Restricted Payments* will be made as though such covenant had been in effect from the Issue Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under the first paragraph of the covenant described below under *Limitation on Restricted Payments*.

During any period when the Suspended Covenants are suspended, the Board of Directors of the Company may not designate any of the Company's Subsidiaries as Unrestricted Subsidiaries pursuant to the Indenture.

Promptly following the occurrence of any Suspension Date or Reinstatement Date, the Company will provide an Officers' Certificate to the Trustee regarding such occurrence. The Trustee shall have no obligation to independently determine or verify if a Suspension Date or Reinstatement Date has occurred or notify the Holders of any Suspension Date or Reinstatement Date. The Trustee may provide a copy of such Officers' Certificate to any Holder of the Notes upon request.

There can be no assurance that the Notes will ever achieve or maintain an Investment Grade Rating.

Limitation on Incurrence of Debt

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, Incur any Debt (including Acquired Debt); *provided*, that the Company and any of the Guarantors may Incur any Acquired Debt or any other Debt if, (a) immediately after giving effect to the Incurrence of such Debt and the receipt and application of the proceeds therefrom, the Consolidated Fixed Charge Coverage Ratio of the

Edgar Filing: QG Printing II Corp. - Form 424B3

Company and its Restricted Subsidiaries, determined on a pro forma basis as if any such Debt (including any other Debt being Incurred contemporaneously), and any other Debt Incurred since the beginning of the Four Quarter Period, had been Incurred and the proceeds thereof had been applied at the beginning of the Four Quarter Period, and any other Debt repaid (other than Debt Incurred under the revolving portion of a Debt Facility) since the beginning of the Four Quarter Period had been repaid at the beginning of the Four Quarter Period, would be at least 2.00 to 1.00 and (b) no Default or Event shall have occurred and be continuing at the time or as a consequence of the Incurrence of such Debt.

Notwithstanding the first paragraph above, the Company and its Restricted Subsidiaries may Incur Permitted Debt.

For purposes of determining compliance with this Limitation on Incurrence of Debt covenant, in the event that an item of Debt meets the criteria of more than one of the categories of Permitted Debt or is permitted to be Incurred under the first paragraph of this Limitation of Incurrence of Debt covenant, the Company, in its sole discretion, shall classify or divide, and from time to time may reclassify or redive, all or any portion of such item of Debt in any manner that complies

Table of Contents

with this covenant, including the definition of Permitted Debt ; *provided* that all Debt outstanding on the Issue Date under the Senior Credit Facilities, and all Debt (or the portion thereof) Incurred under clause (i) of Permitted Debt, shall be deemed Incurred under clause (i) of Permitted Debt and not the first paragraph of this covenant or clause (iv) of Permitted Debt and may not later be reclassified. If obligations in respect of letters of credit are Incurred pursuant to a Debt Facility and relate to other Debt, then such letters of credit shall be treated as Incurred pursuant to clause (i) of Permitted Debt and such other Debt shall not be included. In addition, except as provided in the preceding sentence, Guarantees of, or obligations in respect of letters of credit relating to, Debt that is otherwise included in the determination of a particular amount of Debt shall not be included.

For purposes of determining compliance of any non-U.S. dollar-denominated Debt with this covenant, the U.S. dollar-equivalent principal amount of Debt denominated in a foreign currency shall at all times be calculated based on the relevant currency exchange rate in effect on the date such Debt was Incurred, in the case of term Debt, or first committed, in the case of revolving credit Debt; *provided, however*, that if such Debt is Incurred to refinance other Debt denominated in the same or different currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Debt does not exceed the principal amount of such indebtedness being refinanced. Notwithstanding any other provision of this covenant, the maximum amount of Debt that the Company may Incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies. The principal amount of any Debt Incurred to refinance other Debt, if Incurred in a different currency from the Debt being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such Refinancing Debt is denominated that is in effect on the date of such refinancing.

The accrual of interest, accrual of dividends, the accretion of accreted value, the amortization of debt discount and the payment of interest on Debt in the form of additional Debt and the payment of dividends on Capital Interests in the form of additional shares of Capital Interests with the same terms will not be deemed to be an Incurrence of Debt for purposes of this covenant.

In addition, the following shall not be deemed a separate Incurrence of Debt: (1) the obligation to pay a premium in respect of Debt arising in connection with the issuance of a notice of redemption or making a mandatory offer to purchase such Debt and (2) unrealized losses or charges in respect of Hedging Obligations.

The Company and any Guarantor will not Incur any Debt under this covenant if the proceeds thereof are used, directly or indirectly, to refinance any Subordinated Obligations of the Company or such Guarantor, as applicable, unless such Debt will be subordinated to the Notes and the Note Guarantees to at least the same extent as such Subordinated Obligations.

In addition, the Company will not permit any of its Unrestricted Subsidiaries to Incur any Debt (other than any Non-Recourse Debt), except as permitted by the covenant described under Limitation on Creation of Unrestricted Subsidiaries , or issue any Redeemable Capital Interests. If at any time an Unrestricted Subsidiary becomes a Restricted Subsidiary, any Debt of such Subsidiary shall be deemed to be Incurred by a Restricted Subsidiary as of such date (and, if such Debt is not permitted to be Incurred as of such date under this covenant, the Company shall be in Default under this covenant).

The Company will not, and will not permit any Guarantor to, directly or indirectly, Incur any Debt (including Acquired Debt) that is or purports to be by its terms (or by the terms of any agreement governing such Debt) subordinated or junior in right of payment to any other Debt (including Acquired Debt) of the Company or such Guarantor, as the case may be, unless such Debt is expressly subordinated in right of payment to the Notes or such Guarantor's Guarantee, as the case may be, to the same extent and in the same manner as such Debt is subordinated

Edgar Filing: QG Printing II Corp. - Form 424B3

to such other Debt of the Company or such Guarantor, as the case may be. For purposes of the foregoing, no Debt will be deemed to be contractually subordinate or junior in right of payment to any other Debt solely by virtue of (1) being unsecured or (2) its having a junior priority with respect to the same collateral.

Limitation on Restricted Payments

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, make any Restricted Payment unless, at the time of and after giving effect to the proposed Restricted Payment:

Table of Contents

(a) no Default or Event of Default shall have occurred and be continuing or will result as a consequence thereof;

(b) after giving effect to such Restricted Payment on a pro forma basis, the Company would be permitted to Incur at least \$1.00 of additional Debt pursuant to the provisions described in the first paragraph under the Limitation on Incurrence of Debt covenant; and

(c) after giving effect to such Restricted Payment on a pro forma basis, the aggregate amount expended or declared for all Restricted Payments made on or after the Issue Date (excluding Restricted Payments permitted by any one or more of clauses (ii) and (iii) and clauses (v) through (vii) of the next succeeding paragraph) shall not exceed the sum (without duplication) of:

(1) 50% of the Consolidated Net Income (or, if Consolidated Net Income shall be a deficit, minus 100% of such deficit) of the Company accrued on a cumulative basis during the period (taken as one accounting period) from the beginning of the first fiscal quarter commencing after the Issue Date and ending on the last day of the fiscal quarter immediately preceding the date of such proposed Restricted Payment; plus

(2) 100% of the aggregate net proceeds (including the Fair Market Value of property other than cash) received by the Company subsequent to the Issue Date either (i) as a contribution to its common equity capital or (ii) from the issuance and sale (other than to a Subsidiary) of its Qualified Capital Interests, including Qualified Capital Interests issued upon the conversion of Debt or Redeemable Capital Interests of the Company, and from the exercise of options, warrants or other rights to purchase such Qualified Capital Interests (other than, in each case, net proceeds received from an issuance or sale of Capital Interests or Debt sold to a Subsidiary of the Company or to an employee stock ownership plan or similar trust); plus

(3) to the extent that any Unrestricted Subsidiary of the Company designated as such on and after the Issue Date is redesignated as a Restricted Subsidiary pursuant to the terms of the Indenture, an amount not to exceed the amount of Investments previously made by the Company or any of its Restricted Subsidiaries in such Unrestricted Subsidiary that were previously included in the calculation of the amount of Restricted Payments pursuant to this clause (c); plus

(4) 100% of any dividends or interest payments received by the Company or a Restricted Subsidiary on and after the Issue Date from an Unrestricted Subsidiary, to the extent such dividends or interest payments were not otherwise included in the calculation of Consolidated Net Income of the Company for such period.

Notwithstanding whether the foregoing provisions would prohibit the Company and its Restricted Subsidiaries from making a Restricted Payment, the Company and its Restricted Subsidiaries may make the following Restricted Payments:

(i) the payment of any dividend or distribution on Capital Interests in the Company or a Restricted Subsidiary or the consummation of any irrevocable redemption of Debt that is subordinate to the Notes, within 60 days after declaration thereof or the delivery of any irrevocable notice of redemption, as the case may be, if at the declaration date or date of the notice of redemption, as the case may be, such payment or redemption was permitted by this covenant;

(ii) the purchase, repurchase, redemption, defeasance or other acquisition or retirement of any Capital Interests or Subordinated Obligations of the Company or any Guarantor by conversion into, or by or in exchange for, Qualified Capital Interests, or out of net cash proceeds of the substantially concurrent sale (other than to a Subsidiary of the Company) of other Qualified Capital Interests of the Company; *provided* that the amount of any such net cash proceeds that are utilized for any such Restricted Payment will not be considered to be net proceeds of Qualified Capital Interests for purposes of clause (c)(2) of the preceding paragraph and will not be considered to be net cash proceeds from a Qualified Equity Offering for purposes of the Optional Redemption provisions of the Indenture;

(iii) the redemption, defeasance, repurchase or acquisition or retirement for value of any Subordinated Obligations of the Company or any Guarantor made by conversion into, or in exchange for, or out of the net cash proceeds of a substantially concurrent issue and sale of, Subordinated Obligations of the Company or any redemption, defeasance, repurchase or acquisition or retirement for value of Subordinated Obligations of any Guarantor made by conversion into or in exchange for, or out of the net cash proceeds of a substantially concurrent issue and sale of Subordinated Obligations of a

Guarantor, so long as such refinancing Subordinated Obligations are permitted to be Incurred pursuant to the covenant described under Limitation on Incurrence of Debt and constitute Refinancing Debt;

(iv) the purchase, redemption, retirement or other acquisition for value of Capital Interests in the Company held by any current or former director, officer or employee of the Company or any Restricted Subsidiary (or their estates or beneficiaries under their estates) upon death, disability, retirement or termination of employment or alteration of employment status or pursuant to the terms of any agreement or plan under which such Capital Interests were issued; *provided* that the aggregate cash consideration paid for such purchase, redemption, retirement or other acquisition of such Capital Interests does not exceed \$30.0 million in any calendar year; *provided, further*, that any unused amounts in any calendar year may be carried forward to one or more future periods subject to a maximum aggregate amount of repurchases made pursuant to this clause (iv) in any calendar year not to exceed \$60.0 million in the aggregate, although such amount in any calendar year may be increased by an amount not to exceed (A) the cash proceeds received by the Company or any of its Restricted Subsidiaries from the sale of Qualified Capital Interests of the Company or any direct or indirect parent company of the Company (to the extent contributed to the Company) to existing or former directors, officers or employees of the Company and its Restricted Subsidiaries that occurs after the Issue Date; plus (B) the cash proceeds of key man life insurance policies received by the Company and its Restricted Subsidiaries after the Issue Date; less the amount of any Restricted Payments made since the Issue Date with the cash proceeds described in clauses (A) and (B) of this clause (iv);

(v) repurchase of Capital Interests deemed to occur upon the exercise of stock options, stock appreciation rights, restricted stock units, warrants or other convertible or exchangeable securities;

(vi) cash payment, in lieu of issuance of fractional shares, in connection with the exercise of warrants, options or other securities convertible into or exchangeable for the Capital Interests of the Company or a Restricted Subsidiary;

(vii) the declaration and payment of dividends to holders of any class or series of Redeemable Capital Interests of the Company issued or Incurred in compliance with the covenant described above under Limitation on Incurrence of Debt to the extent such dividends are included in the definition of Consolidated Fixed Charges ;

(viii) the defeasance, redemption, repurchase or other acquisition of any Subordinated Obligations (a) at a Purchase Price not greater than 101% of the principal amount of such Subordinated Obligation in the event of a Change of Control Triggering Event pursuant to provisions substantially similar to those described under Change of Control Triggering Event or (b) at a Purchase Price not greater than 100% of the principal amount thereof pursuant to provisions substantially similar to those described under Limitation on Asset Sales ; *provided* that prior to or contemporaneously with such defeasance, redemption, repurchase or other acquisition, the Company has made an Offer to Purchase with respect to the Notes and has repurchased all Notes validly tendered for payment and not withdrawn in connection therewith;

(f) customary provisions restricting subletting or assignment of any lease, sublease, contract, or license of the Company or any Restricted Subsidiary or provisions in agreements that restrict the assignment of such agreement or any rights thereunder;

(m) in the case of clause (iii) of the first paragraph of this covenant, Liens securing Debt or other obligations otherwise permitted to be Incurred under the Indenture, including pursuant to the provisions of the covenant described above under Limitation on Liens that limit the right of the

(q) encumbrances or restrictions arising under deferred compensation arrangements or any rabbi trust formed in connection with any such arrangement.

Limitation on Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value (measured as of the date of the definitive agreement with respect to such Asset Sale) of the assets or Capital Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration received in the Asset Sale by the Company or such Restricted Subsidiary, as the case may be, is in the form of cash or Eligible Cash Equivalents. For purposes of this provision, each of the following will be deemed to be cash:

(a) any liabilities, as shown on the most recent consolidated balance sheet of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Note Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assignment and assumption or novation agreement that releases the Company or such Restricted Subsidiary from further liability with respect thereto;

(b) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash within 180 days of their receipt to the extent of the cash received in that conversion; and

(c) any Designated Non-cash Consideration received by the Company or any such Restricted Subsidiary in such Asset Sale having an aggregate Fair Market Value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of (x) \$75.0 million and (y) 2.5% of the Consolidated Net Tangible Assets of the Company and its Restricted Subsidiaries at the time of the receipt of such Designated Non-cash Consideration, with the Fair Market Value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, or, if with respect to clauses (iii), (iv) and (v) below, within 360 days after the receipt of any Net Cash Proceeds from any Asset Sale the Company or any Restricted Subsidiary entered into a contractual commitment, pursuant to a binding agreement, to apply any such Net Cash Proceeds, then, within 540 days after the receipt of such Net Cash

Proceeds, the Company (or the applicable Restricted Subsidiary, as the case may be) may apply such Net Cash Proceeds at its option to any combination of the following:

(i) to permanently reduce (and permanently reduce commitments with respect thereto): (A) Secured Debt under the Senior Credit Facilities, (B) Secured Debt of the Company (other than any Redeemable Capital Interests or Subordinated Obligations) or Secured Debt of a Guarantor (other than any Redeemable Capital Interests or Subordinated Obligations) or (C) Debt of a Non-Guarantor Subsidiary, in each case, other than Debt owed to the Company or an Affiliate of the Company;

(ii) to permanently repay or reduce other Debt that ranks pari passu in right of payment with the Notes (*Pari Passu Debt*), other than Redeemable Capital Interests and Debt owed to the Company or an Affiliate of the Company; *provided* that if the Company shall so reduce any such Pari Passu Debt, the Company shall equally and ratably reduce Obligations under the Notes as provided either, at the Company's option, under Optional Redemption, through open-market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Offer to Purchase) to all Holders of Notes to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the amount of Notes that would otherwise be paid;

Table of Contents

(iii) to acquire all or substantially all of the assets of, or any Capital Interests of, another Person engaged in a Permitted Business, if, after giving effect to any such acquisition of Capital Interests, such Person is or becomes a Restricted Subsidiary of the Company;

(iv) to make capital expenditures in or that are used or useful in a Permitted Business or to make expenditures for maintenance, repair or improvement of existing properties and assets in accordance with the provisions of the Indenture;

(v) to acquire other assets that are not classified as current assets under GAAP that are used or useful in a Permitted Business; or

(vi) any combination of the foregoing.

Pending the final application of any Net Cash Proceeds, the Company or any Restricted Subsidiary may temporarily reduce revolving credit borrowings under any Debt Facility or otherwise invest the Net Cash Proceeds in any manner that is not prohibited by the Indenture. Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in the preceding paragraph of this covenant will constitute Excess Proceeds. When the aggregate amount of Excess Proceeds exceeds \$100.0 million, the Company will, within five days thereof (the *Asset Sale Purchase Date*), make an Offer to Purchase to all Holders of Notes (on a pro rata basis among the Notes), and to all holders of other Pari Passu Debt containing provisions similar to those set forth in the Indenture with respect to offers to purchase the maximum principal amount of Notes and such other Pari Passu Debt that may be purchased out of the Excess Proceeds. The offer price in any Offer to Purchase will be equal to 100% of the principal amount, plus accrued and unpaid interest, if any, to the date of purchase and will be payable in cash. If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use those funds for any purpose not otherwise prohibited by the Indenture and they will no longer constitute Excess Proceeds. If the aggregate principal amount of Notes and other Pari Passu Debt tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Trustee will select the Notes and such other Pari Passu Debt to be purchased on a pro rata basis (with such adjustments as may be deemed appropriate by the Company so that only Notes in denominations of \$2,000 or any integral multiple of \$1,000 in excess thereof will be purchased). Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

If the Asset Sale Purchase Date is on or after an applicable interest record date and on or before the related interest payment date, any accrued and unpaid interest to the Asset Sale Purchase Date will be paid on the Asset Sale Purchase Date to the Person in whose name a Note is registered at the close of business on such record date.

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other applicable securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with each repurchase of Notes pursuant to an Offer to Purchase. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and will be deemed to have complied with its obligations under the Asset Sale provisions of the Indenture by virtue of such compliance.

in each case, in a manner that complies in all material respects with the requirements specified in such form.

Notwithstanding the foregoing, the Company will not be obligated to file such reports with the Commission if the Commission does not permit such filing, so long as the Company provides such information to the Trustee and the Holders and makes available such information to prospective purchasers of the Notes in each case, at the Company's expense and by the applicable date the Company would be required to file such information pursuant to the preceding paragraph. In addition, to the extent not satisfied by the foregoing, for so long as any Notes are outstanding, the Company will furnish to Holders and to prospective purchasers of the Notes, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act. Each Note Guarantee shall be released in accordance with the provisions of the Indenture described under Guarantees.

Limitation on Creation of Unrestricted Subsidiaries

The Company may designate any Subsidiary of the Company (including any newly-acquired or newly-formed Subsidiary) as an Unrestricted Subsidiary under the Indenture (a *Designation*) only if:

(1) no Default or Event of Default has occurred and is continuing after giving effect to such Designation;

(2) the Subsidiary to be so designated and its Subsidiaries do not at the time of Designation own any Capital Interests or Debt of, or own or hold any Lien with respect to, the Company or any Restricted Subsidiary of the Company;

The Company may revoke any Designation of a Subsidiary as an Unrestricted Subsidiary (a *Revocation*) only if, immediately after giving effect to such Revocation: (i) all the Debt of such Unrestricted Subsidiary could be Incurred under the Limitation on Incurrence of Debt covenant and (ii) all the Liens on the property and assets of such Unrestricted Subsidiary could be incurred pursuant to the Limitation on Liens covenant.

Any such Designation or Revocation shall be evidenced to the Trustee by filing with the Trustee a certified copy of the resolution of the Board of Directors of the Company giving effect to such Designation or Revocation, as the case may be, and an Officers Certificate certifying that such Designation or Revocation complied with the foregoing conditions.

A Revocation will be deemed to be an Incurrence of Debt by a Restricted Subsidiary of any outstanding Debt of such Unrestricted Subsidiary. If, at any time, any Unrestricted Subsidiary would fail to meet the foregoing requirements as an Unrestricted Subsidiary, it shall thereafter cease to be an Unrestricted Subsidiary for purposes of the Indenture, and any Debt of such Subsidiary shall be deemed to be Incurred as of such date.

Consolidation, Merger, Conveyance, Transfer or Lease

The Company will not in any transaction or series of related transactions, consolidate or merge with or into or wind up into any other Person (whether or not the Company is the surviving corporation), or directly or indirectly sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of the properties or assets of the Company, taken as a whole, to any other Person, unless:

(iii) immediately after giving effect to any such transaction or series of transactions on a pro forma basis (including, without limitation, any Debt Incurred or anticipated to be Incurred in connection with or in respect of such transaction or series of transactions) as if such transaction or

Subject to certain limitations, the Successor Company will succeed to, and be substituted for, the Company under the Indenture the Notes, the Note guarantees and the Registration Rights Agreement. Notwithstanding the foregoing, failure to satisfy the requirements of the preceding clauses (ii) and (iii) will not prohibit:

(a) a merger between the Company and a Restricted Subsidiary that is a wholly owned Subsidiary of the Company or the sale, assignment, conveyance, transfer, lease or other disposition of all or substantially all of the assets of the Company to a Restricted Subsidiary that is a wholly owned Subsidiary of the Company; or

(b) a merger between the Company and an Affiliate incorporated solely for the purpose of converting the Company into a corporation organized under the laws of the United States or any political subdivision or state thereof; so long as, in each case, the amount of Debt of the Company and its Restricted Subsidiaries is not increased thereby.

In addition, the Company will not permit any Guarantor in any transaction or series of related transactions, to consolidate or merge with or into or wind up into any other Person (whether or not such Guarantor is the surviving corporation), or directly or indirectly sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of its properties or assets to any Person (other than, in the case of a Guarantor, to the Company or another Guarantor) unless:

(i) (a) if such entity remains a Guarantor, the resulting, surviving or transferee Person (the *Successor Guarantor*) is a Person (other than an individual) organized and existing under the laws of the United States, any political subdivision thereof or any state thereof or the District of Columbia;

(b) the Successor Guarantor, if other than such Guarantor, expressly assumes all the obligations of such Guarantor under the Indenture, the Notes and its Note Guarantee pursuant to a supplemental indenture or other documents or instruments in form reasonably satisfactory to the Trustee and assumes by written agreement all the obligations of such Guarantor under the Registration Rights Agreement;

(c) immediately after giving effect to such transaction or series of transactions on a pro forma basis (including, without limitation, any Debt Incurred or anticipated to be Incurred in connection with or in respect of such transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;

(d) the Company delivers, or causes to be delivered, to the Trustee, in form satisfactory to the Trustee, an Officers' Certificate and an Opinion of Counsel, each stating that such consolidation, merger, sale, conveyance, assignment, transfer, lease or other disposition complies with the requirements of the Indenture; or

(ii) in the event the transaction results in the release of the Subsidiary's Note Guarantee under clause (1)(a) under Guarantees, the transaction is made in compliance with the covenant described under Limitation on Asset Sales (it being understood that only such portion of the Net Cash Proceeds as is required to be applied on the date of such transaction in accordance with the terms of the Indenture needs to be applied in

accordance therewith at such time).

Subject to certain limitations described in the Indenture, the Successor Guarantor will succeed to, and be substituted for, such Guarantor under the Indenture and the Note Guarantee of such Guarantor.

Notwithstanding the foregoing, any Guarantor may merge with or into or transfer all or part of its properties and assets to a Guarantor or merge with a Restricted Subsidiary of the Company, so long as the resulting entity remains or becomes a Guarantor.

For purposes of this covenant, the sale, assignment, conveyance, transfer, lease or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Company or a Guarantor, as the case may be, which properties and assets, if held by the Company or such Guarantor instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Company or such Guarantor on a consolidated basis, will be deemed to be the disposition of all or substantially all of the properties and assets of the Company or such Guarantor, as applicable.

Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve all or substantially all of the property or assets of a Person.

Table of Contents

Upon any consolidation, merger, winding up, sale, assignment, conveyance, transfer, lease or other disposition of all or substantially all of the assets of the Company or a Guarantor in accordance with this covenant, the Company and a Guarantor, as the case may be, will be released from its obligations under the Indenture and the Notes or its Note Guarantee, as the case may be, and the Successor Company and the Successor Guarantor, as the case may be, will succeed to, and be substituted for, and may exercise every right and power of, the Company or a Guarantor, as the case may be, under the Indenture, the Notes, the Registration Rights Agreement and such Note Guarantee; *provided* that, in the case of a lease of all or substantially all of its assets, the Company will not be released from the obligation to pay the principal of and interest on the Notes, and a Guarantor will not be released from its obligations under its Note Guarantee.

Payments for Consent

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder of Notes for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid to all Holders of the Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or amendment; *provided* that if such consents, waivers or amendments are sought in connection with an exchange offer where participation in such exchange offer is limited to Holders who are qualified institutional buyers, within the meaning of Rule 144A, or non-U.S. persons, within the meaning of Regulation S, then such consideration need only be offered to all Holders to whom the exchange offer is made and to be paid to all such Holders that consent, waive or agree to amend in such time frame.

Events of Default

Each of the following is an Event of Default under the Indenture:

- (1) default in the payment in respect of the principal of (or premium, if any, on) any Note when due and payable (whether at Stated Maturity or upon repurchase, acceleration, optional redemption or otherwise);
- (2) default in the payment of any interest or Additional Interest (as required by the Registration Rights Agreement) upon any Note when it becomes due and payable, and continuance of such default for a period of 30 days;
- (3) failure to perform or comply with the Indenture provisions described under Provision of Financial Information and continuance of such failure to perform or comply for a period of 90 days after written notice thereof has been given to the Company by the Trustee or to the Company and the Trustee by the Holders of at least 25% in aggregate principal amount of the outstanding Notes;
- (4) except as permitted by or in accordance with the terms of the Indenture, any Note Guarantee shall for any reason cease to be, or it shall be asserted by any Guarantor or the Company not to be, in full force and effect and enforceable in accordance with its terms;

Edgar Filing: QG Printing II Corp. - Form 424B3

(5) default in the performance, or breach, of any covenant or agreement of the Company or any Guarantor in the Indenture (other than a covenant or agreement, a default in whose performance or whose breach is specifically dealt with in clauses (1), (2), (3) or (4) above), and continuance of such default or breach for a period of 60 days after written notice thereof has been given to the Company by the Trustee or to the Company and the Trustee by the Holders of at least 25% in aggregate principal amount of the outstanding Notes;

(6) a default or defaults under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Debt for money borrowed by the Company or any Restricted Subsidiary (or the payment of which is Guaranteed by the Company or any Restricted Subsidiary) having, individually or in the aggregate, a principal or similar amount outstanding of at least \$75.0 million, whether such Debt now exists or shall hereafter be created, which default or defaults shall have resulted in the acceleration of the maturity of such Debt prior to its express maturity or (except in the case of any Debt owing to the Company by any Restricted Subsidiary or any Debt of any Restricted Subsidiary owing to the Company or another Restricted Subsidiary) shall constitute a failure to pay an amount of such Debt equal to at least \$75.0 million when due and payable after the expiration of any applicable grace period with respect thereto;

(7) the entry against the Company or any Restricted Subsidiary of a final judgment or final judgments for the payment of money in an aggregate amount in excess of \$75.0 million (net of amounts covered by insurance by a reputable

Table of Contents

and creditworthy insurer for which the issuer thereof has been notified of such claim and has not challenged such coverage), by a court or courts of competent jurisdiction, which judgments remain undischarged, unwaived, unstayed, unbonded or unsatisfied for a period of 60 consecutive days; or

(8) certain events in bankruptcy, insolvency or reorganization with respect to the Company or any of its Restricted Subsidiaries that is a Significant Subsidiary (or any group of its Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary).

If an Event of Default (other than an Event of Default specified in clause (8) above with respect to the Company) occurs and is continuing, then and in every such case the Trustee or the Holders of not less than 25% in aggregate principal amount of the outstanding Notes may declare the principal of the Notes and any accrued interest on the Notes to be due and payable immediately by a notice in writing to the Company (and to the Trustee if given by Holders); *provided, however*, that after such acceleration, but before a judgment or decree based on acceleration, the Holders of a majority in aggregate principal amount of the outstanding Notes may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal of or interest on the Notes, have been cured or waived as provided in the Indenture, if (i) the rescission would not conflict with any judgment or decrees and (ii) all existing Events of Default, other than the non-payment of principal of, premium on, of any, or interest, if any, on the Notes that have become due solely by such declaration of acceleration, have been cured or waived.

In the event of a declaration of acceleration of the Notes solely because an Event of Default described in clause (6) above has occurred and is continuing, the declaration of acceleration of the Notes shall be automatically rescinded and annulled if the event of default or payment default triggering such Event of Default pursuant to clause (6) shall be remedied or cured by the Company or a Restricted Subsidiary of the Company or waived by the holders of the relevant Debt within 20 business days after the declaration of acceleration with respect thereto and if the rescission and annulment of the acceleration of the Notes would not conflict with any judgment or decree of a court of competent jurisdiction obtained by the Trustee for the payment of amounts due on the Notes.

If an Event of Default specified in clause (8) above occurs with respect to the Company, the principal of and any accrued interest on the Notes then outstanding shall ipso facto become immediately due and payable without any declaration or other act on the part of the Trustee or any Holder. For further information as to waiver of defaults, see Amendment, supplement and waiver. The Trustee may withhold from Holders notice of any Default (except Default in payment of principal of, premium, if any, and interest) if the Trustee determines that withholding notice is in the interests of the Holders to do so.

No Holder of any Note will have any right to institute any proceeding with respect to the Indenture or for any remedy thereunder, unless such Holder shall have previously given to the Trustee written notice of a continuing Event of Default and unless also the Holders of at least 25% in aggregate principal amount of the outstanding Notes shall have made written request to the Trustee, and provided indemnity and security satisfactory to the Trustee, to institute such proceeding as Trustee, and the Trustee shall not have received from the Holders of a majority in aggregate principal amount of the outstanding Notes a direction inconsistent with such request and shall have failed to institute such proceeding within 60 days. Such limitations do not apply, however, to a suit instituted by a Holder of a Note directly (as opposed to through the Trustee) for enforcement of payment of the principal of (and premium, if any) or interest on such Note on or after the respective due dates expressed in such Note.

The Company will be required to furnish to the Trustee annually a statement as to the performance of certain obligations under the Indenture and as to any default in such performance. The Company also is required to promptly notify the Trustee in writing if it becomes aware of the occurrence of any Default or Event of Default.

Amendment, Supplement and Waiver

The Company, the Guarantors and the Trustee, at any time and from time to time, may without the consent of any Holders enter into one or more indentures supplemental to the Indenture and the Guarantees for any of the following purposes:

(1) to evidence the succession of another Person to the Company or a Guarantor and the assumption by any such successor of the covenants of the Company or a Guarantor in the Indenture, the Note Guarantees and the Notes in accordance with Certain Covenants Consolidation, Merger, Conveyance, Transfer or Lease ;

(2) to add to the covenants of the Company and its Restricted Subsidiaries for the benefit of the Holders, or to surrender any right or power herein conferred upon the Company or any Guarantor;

(3) to add additional Events of Default for the benefit of the Holders;

(4) to provide for or facilitate the issuance of global Notes in addition to or in place of the definitive Notes;

(5) to evidence and provide for the acceptance of appointment under the Indenture by a successor Trustee; *provided* that the successor trustee is otherwise qualified and eligible to act as such under the terms of the Indenture;

(6) to provide for or confirm the issuance of Additional Notes in accordance with the terms of the Indenture;

(7) to add a Guarantor or to release a Guarantor in accordance with the Indenture;

(8) to cure any ambiguity, defect, omission, mistake or inconsistency;

(9) to make any other provisions with respect to matters or questions arising under the Indenture; *provided* that such actions pursuant to this clause (9) shall not adversely affect the interests of the Holders in any material respect, as determined in good faith by the Board of Directors of the Company;

(10) to conform the text of the Indenture, the Notes or the Note Guarantees to any provision of this Description of New Notes to the extent that the Trustee has received an Officers Certificate stating that such text constitutes an unintended conflict with the description of the corresponding provision in this Description of New Notes;

(11) to effect or maintain the qualification of the Indenture under the Trust Indenture Act;

(12) to provide for the issuance of Exchange Notes or private exchange notes (which shall be identical to Exchange Notes except that they will not be freely transferable) and which shall be treated, together with any outstanding Notes, as a single class of securities; or

(13) to secure the Notes and the Note Guarantees.

The Company, the Guarantors and the Trustee may, with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), enter into an indenture or indentures supplemental to the Indenture for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the Indenture or the Notes or of modifying in any manner the rights of the Holders of the Notes under the Indenture, including the definitions therein; *provided, however*, that no such supplemental indenture shall, without the consent of the Holder of each outstanding Note affected thereby:

(1) change the Stated Maturity of any Note or of any installment of interest on any Note, or reduce the amount payable in respect of the principal thereof or the rate of interest thereon or any premium payable thereon, or reduce the amount that would be due and payable on acceleration of the maturity thereof, or change the place of payment where, or the coin or currency in which, any Note or any premium or interest thereon is payable, or impair the right to institute suit for the enforcement of any such payment on or after the Stated Maturity thereof, or change the date on which any Notes may be subject to redemption or reduce the Redemption Price therefor;

(2) reduce the percentage in aggregate principal amount of the outstanding Notes, the consent of whose Holders is required for any such supplemental indenture, or the consent of whose Holders is required for any waiver (of compliance with certain provisions of the Indenture or certain defaults thereunder and their consequences) provided for in the Indenture;

(3) modify the obligations of the Company to make Offers to Purchase upon a Change of Control Triggering Event or from the Excess Proceeds of Asset Sales if such modification was done after the occurrence of such Change of Control Triggering Event or such Asset Sale;

Table of Contents

(4) modify or change any provision of the Indenture affecting the ranking of the Notes or any Note Guarantee in a manner adverse to the Holders of the Notes;

(5) modify any of the provisions of this paragraph or provisions relating to waiver of defaults or certain covenants, except to increase any such percentage required for such actions or to provide that certain other provisions of the Indenture cannot be modified or waived without the consent of the Holder of each outstanding Note affected thereby; or

(6) release any Guarantees required to be maintained under the Indenture (other than in accordance with the terms of the Indenture).

The Holders of not less than a majority in aggregate principal amount of the outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) may on behalf of the Holders of all the Notes waive any past default under the Indenture and its consequences, except a default:

(1) in any payment in respect of the principal of (or premium, if any) or interest on any Notes (including any Note which is required to have been purchased pursuant to an Offer to Purchase which has been made by the Company); or

(2) in respect of a covenant or provision hereof which under the Indenture cannot be modified or amended without the consent of the Holder of each outstanding Note affected.

The Trustee shall receive an Officers' Certificate and Opinion of Counsel confirming that all conditions precedent are satisfied with respect to any supplemental indenture, that such supplemental indenture is authorized or permitted by the Indenture and that such supplemental indenture is the legal, valid and binding obligation of the Company and each Guarantor, enforceable against each of them in accordance with its terms.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment, supplement or waiver. It is sufficient if such consent approves the substance of the proposed amendment or supplement. A consent to any amendment, supplement or waiver under the Indenture by any Holder given in connection with a tender of such Holder's Notes will not be rendered invalid by such tender. After an amendment, supplement or waiver under the Indenture becomes effective, the Company is required to give to the Holders a notice briefly describing such amendment, supplement or waiver. However, the failure to give such notice to all the Holders, or any defect in the notice will not impair or affect the validity of any such amendment, supplement or waiver.

Satisfaction and Discharge of the Indenture; Defeasance

The Company and the Guarantors may terminate the obligations under the Indenture when:

(1) either: (A) all Notes theretofore authenticated and delivered, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust, have been delivered to the Trustee for cancellation, or (B) all such Notes not theretofore delivered to the Trustee for cancellation (i) have become due and payable by reason of the giving of a notice of redemption or otherwise or (ii) will become due and payable within one year or are to be called for redemption within one year (a *Discharge*) under irrevocable arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company, and the Company has irrevocably deposited or caused to be deposited with the Trustee funds in an amount sufficient to pay and discharge the entire indebtedness on the Notes, not theretofore delivered to the Trustee for cancellation, for principal of, premium, if any, and interest to the Stated Maturity or date of redemption;

(2) the Company or any Guarantor has paid or caused to be paid all other sums then due and payable under the Indenture;

(3) no Default or Event of Default has occurred and is continuing on the date of such deposit or will occur as a result of such deposit (other than a Default or an Event of Default resulting from the borrowing of funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Debt and, in each case, the granting of Liens in connection therewith) and the deposit will not result in a breach or violation of, or constitute a default under, the Senior Credit Facilities or any other material agreement or material instrument (other than the Indenture) to which the Company or any Guarantor is a party or by which the Company or any Guarantor is bound;

Table of Contents

(4) the Company has delivered irrevocable written instructions to the Trustee under the Indenture to apply the deposited money toward the payment of the Notes at maturity or on the redemption date, as the case may be; and

(5) the Company has delivered to the Trustee an Officers' Certificate and an Opinion of Counsel reasonably acceptable to the Trustee, each stating that all conditions precedent under the Indenture relating to the Discharge have been complied with.

The Company may elect, at its option, to have its obligations and the obligations of the Guarantors discharged with respect to the Indenture and the outstanding Notes and the Note Guarantees issued under the Indenture (*defeasance*). Such defeasance means that the Company will be deemed to have paid and discharged the entire indebtedness represented by the outstanding Notes, except for:

(1) the rights of Holders of such Notes to receive payments in respect of the principal of and any premium, if any, and interest on such Notes when payments are due, solely out of the trust referred below;

(2) the Company's obligations with respect to such Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee and the Company's obligations in connection therewith;

(4) the Company's right of optional redemption; and

(5) the defeasance provisions of the Indenture.

In addition, the Company may, pursuant to a resolution of its Board of Directors set forth in an Officers' Certificate, elect, to have its obligations and the obligations of the Guarantors released with respect to certain covenants, including, without limitation, their obligation to make Offers to Purchase in connection with Asset Sales and any Change of Control Triggering Event, in the Indenture (*covenant defeasance*) and thereafter any omission to comply with such obligation shall not constitute a Default or an Event of Default with respect to the Notes. In the event covenant defeasance occurs, an Event of Default described under Events of Default specified in clause (3), (4), (5) (only with respect to covenants that are released as a result of such covenant defeasance), (6), (7) and (8) (solely with respect to Significant Subsidiaries or any group of Restricted Subsidiaries that would constitute a Significant Subsidiary) will no longer constitute an Event of Default with respect to the Notes.

If the Company exercises either its defeasance or covenant defeasance option, each Guarantor will be released and relieved of any obligation under its Note Guarantee.

Edgar Filing: QG Printing II Corp. - Form 424B3

In order to exercise either defeasance or covenant defeasance with respect to outstanding Notes:

(1) the Company must irrevocably have deposited or caused to be deposited with the Trustee as trust funds in trust for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to the benefits of the Holders of such Notes: (A) money in an amount, or (B) U.S. government obligations, which through the scheduled payment of principal and interest in respect thereof in accordance with their terms will provide, not later than the due date of any payment, money in an amount or (C) a combination thereof, in each case sufficient without reinvestment, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, and which shall be applied by the Trustee to pay and discharge, the entire indebtedness in respect of the principal of and premium, if any, and interest on such Notes on the Stated Maturity thereof or (if the Company has made irrevocable arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name and at the expense of the Company) the redemption date thereof, as the case may be, in accordance with the terms of the Indenture and such Notes;

(2) in the case of defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel stating that (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (B) since the Issue Date, there has been a change in the applicable United States federal income tax law, in either case (A) or (B) to the effect that, and based thereon such Opinion of Counsel shall confirm that, the Holders of such Notes will not recognize gain

Table of Contents

or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge to be effected with respect to such Notes and will be subject to United States federal income tax on the same amount, in the same manner and at the same times as would be the case if such deposit, defeasance and discharge were not to occur;

(3) in the case of covenant defeasance, the Company shall have delivered to the Trustee an Opinion of Counsel to the effect that the Holders of such outstanding Notes will not recognize gain or loss for United States federal income tax purposes as a result of the deposit and covenant defeasance to be effected with respect to such Notes and will be subject to federal income tax on the same amount, in the same manner and at the same times as would be the case if such deposit and covenant defeasance were not to occur;

(4) no Default or Event of Default with respect to the outstanding Notes shall have occurred and be continuing at the time of such deposit after giving effect thereto (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien to secure such borrowing);

(5) such defeasance or covenant defeasance shall not cause the Trustee to have a conflicting interest within the meaning of the Trust Indenture Act (assuming all Notes are in default within the meaning of such Act);

(6) such defeasance or covenant defeasance shall not result in a breach or violation of, or constitute a default under, any material agreement or material instrument (other than the Indenture and the agreements governing any other Debt being defeased, discharge or replaced) to which the Company or any of the Guarantors is a party or by which the Company or any of the Guarantors is bound;

(7) the Company shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel, each stating that all conditions precedent with respect to such defeasance or covenant defeasance have been complied with;

(8) the Company shall have delivered to the Trustee an Officers Certificate stating that the deposit was not made by the Company with the intent of preferring the Holders of Notes over the other creditors of the Company, any Guarantors or others, with the intent of defeating, hindering, delaying or defrauding any creditors of the Company, any Guarantor or others; and

(9) the Company has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be (which instructions may be contained in the Officers Certificate referred to in clause (7) above).

In the event of a defeasance or a Discharge, a Holder whose taxable year straddles the deposit of funds and the distribution in redemption to such Holder would be subject to tax on any gain (whether characterized as capital gain or market discount) in the year of deposit rather than in the year of receipt. In connection with a Discharge, in the event the Company becomes insolvent within the applicable preference period after the date of deposit, monies held for the payment of the Notes may be part of the bankruptcy estate of the Company, disbursement of such monies may be subject to the automatic stay of the bankruptcy code and monies disbursed to Holders may be subject to disgorgement in favor of the Company's estate. Similar results may apply upon the insolvency of the Company during the applicable preference period following the deposit of monies in connection with defeasance.

Notwithstanding the foregoing, the Opinion of Counsel required by clause (2) above with respect to a defeasance need not to be delivered if all Notes not therefore delivered to the Trustee for cancellation (x) have become due and payable by reason of the giving of a notice of redemption or otherwise, or (y) will become due and payable at Stated Maturity within one year or are to be called for redemption within one year under irrevocable arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company.

The Trustee

U.S. Bank National Association, the Trustee under the Indenture, will be the initial Paying Agent and Registrar for the Notes. The Trustee from time to time may extend credit to the Company in the normal course of business. Except during the continuance of an Event of Default, the Trustee will perform only such duties as are specifically set forth in the Indenture. During the continuance of an Event of Default that has not been cured or waived, the Trustee will exercise such of the rights and powers vested in it by the Indenture and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

Table of Contents

The Indenture and the Trust Indenture Act contain certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest (as defined in the Trust Indenture Act) it must eliminate such conflict within 90 days, apply to the Commission for permission to continue or resign.

The Holders of a majority in principal amount of the outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default has occurred and is continuing, the Trustee shall exercise such of the rights and powers vested in it by the Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. Subject to such provisions, the Trustee shall be under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request or direction of any of the Holders pursuant to the Indenture, unless such Holders shall have provided to the Trustee security or indemnity satisfactory to the Trustee against the costs, expenses, fees and liabilities which might be incurred by it in compliance with such request or direction.

No recourse may, to the full extent permitted by applicable law, be taken, directly or indirectly, with respect to the obligations of the Company or the Guarantors on the Notes or under the Indenture or any related documents, any certificate or other writing delivered in connection therewith, against (i) the Trustee in its individual capacity, (ii) any partner, owner, beneficiary, agent, officer, director, employee, agent, successor or assign of the Trustee, each in its individual capacity or (iii) any holder of equity in the Trustee.

No Personal Liability of Stockholders, Partners, Officers or Directors

No director, manager, officer, employee, equity owner, general or limited partner, incorporator or other Person acting in any capacity similar to any of the foregoing, past, present or future, of the Company or any of its Subsidiaries, as such or in such capacity, shall have any personal liability for any obligations of the Company under the Notes, any Note Guarantee or the Indenture by reason of such status. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Notices

Notices given by publication will be deemed given on the first date on which publication is made, and notices given by first-class mail, postage prepaid, will be deemed given five calendar days after mailing. Notwithstanding any other provision of the Indenture or any Note, where the Indenture or any Note provides for notice of any event (including any notice of redemption) to any Holder of an interest in a global Note (whether by mail or otherwise), such notice shall be sufficiently given if given to DTC or any other applicable depositary for such Note (or its designee) according to the applicable procedures of DTC or such depositary.

Governing Law

Edgar Filing: QG Printing II Corp. - Form 424B3

The Indenture and the Notes are governed by, and will be construed in accordance with, the laws of the State of New York, without regard to conflicts of laws principles thereof.

Certain Definitions

Set forth below is a summary of certain of the defined terms used in the Indenture. Reference is made to the Indenture for the full definition of all such terms, as well as any capitalized term used herein for which no definition is provided.

Acquired Debt means, with respect to any specified Person; (1) Debt of any other Person or any of its Subsidiaries existing at the time such Person is merged with or into or became a Restricted Subsidiary of such specified Person; (2) Debt assumed in connection with the acquisition of assets from such Person or (3) Debt secured by a Lien encumbering any assets acquired by such specified Person, in each case, whether or not Incurred by such Person in connection with, or in anticipation or contemplation of, such Person becoming a Restricted Subsidiary or such acquisition. Acquired Debt shall be deemed to have been Incurred, with respect to clause (1) of the preceding sentence, on the date such Person becomes a Restricted

Subsidiary and, with respect to clauses (2) and (3) of the preceding sentence, on the date of consummation of such acquisition of assets.

Additional Interest means all additional interest owing on the Notes pursuant to the Registration Rights Agreement.

Affiliate of any Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such Person. For the purposes of this definition, *control* when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms *controlling* and *controlled* have meanings that correspond to the foregoing.

Asset Acquisition means:

(a) an Investment by the Company or any Restricted Subsidiary in any other Person pursuant to which such Person shall become a Restricted Subsidiary, or shall be merged with or into the Company or any Restricted Subsidiary; or

(b) the acquisition by the Company or any Restricted Subsidiary of the assets of any Person which constitute all or substantially all of the assets of such Person, any division or line of business of such Person or any other properties or assets of such Person other than in the ordinary course of business and consistent with past practices.

BOOK-ENTRY SETTLEMENT AND CLEARANCE

The Global Notes

The New Notes will be issued in the form of one or more registered notes in global form, without interest coupons (the "global notes"). Upon issuance, each of the global notes will be deposited with the trustee as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC ("DTC participants") or persons who hold interests through DTC participants. We expect that under procedures established by DTC:

- upon deposit of each global note with DTC's custodian, DTC will credit portions of the principal amount of the global note to the accounts of the DTC participants designated by the initial purchasers; and
- ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other owners of beneficial interests in the global note).

Beneficial interests in the global notes may not be exchanged for notes in physical, certificated form except in the limited circumstances described below.

Book-Entry Procedures for the Global Notes

All interests in the global notes will be subject to the operations and procedures of DTC. We provide the following summary of those operations and procedures solely for the convenience of holders of the New Notes. The operations and procedures of DTC is controlled by DTC and may be changed at any time. None of us, the trustee or any paying agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

DTC has advised us that it is:

- a limited purpose trust company organized under the laws of the State of New York;

- a banking organization within the meaning of the New York State Banking Law;
- a member of the Federal Reserve System;
- a clearing corporation within the meaning of the New York Uniform Commercial Code; and
- a clearing agency registered under Section 17A of the Securities Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers, including the initial purchasers; banks and trust companies; clearing corporations and other organizations. Indirect access to DTC's system is also available to others such as banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the New Notes represented by that global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a global note:

- will not be entitled to have Notes represented by the global note registered in their names;

Table of Contents

- will not receive or be entitled to receive physical, certificated notes; and
- will not be considered the owners or holders of the New Notes under the indenture that governs the New Notes for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee under the indenture.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights of a holder of New Notes under the indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor owns its interest).

Payments of principal, premium (if any) and interest with respect to the New Notes represented by a global note will be made by the trustee to DTC's nominee as the registered holder of the global note. Neither we nor the trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds.

Certificated Notes

Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the related notes only if:

- DTC notifies us at any time that it is unwilling or unable to continue as depositary for the global notes and a successor depositary is not appointed within 90 days;
- DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depositary is not appointed within 90 days;

- we, at our option, notify the trustee that we elect to cause the issuance of certificated notes and any participant requests a certificated note in accordance with DTC procedures; or
- certain other events provided in the indenture that governs the New Notes should occur.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

This summary of U.S. federal income tax considerations was written to support the offer to holders of the Original Notes to exchange for New Notes. This summary is not intended or written to be legal or tax advice to any person, and is not intended or written to be used, and cannot be used, by any person for the purpose of avoiding any tax-related penalties that may be imposed on such person. No representation with respect to the consequences to any particular purchaser of the New Notes is made. Prospective purchasers should consult their own tax advisors with respect to their particular circumstances.

The following is a summary of certain material U.S. federal income tax consequences of the exchange offer to holders of the Original Notes. The discussion does not consider the aspects of the ownership and disposition of the Original Notes or the New Notes. A discussion of the U.S. federal income tax consequences of holding and disposing of the Notes is contained in the offering memorandum dated April 11, 2014 with respect to the Original Notes.

This summary is based upon provisions of the Internal Revenue Code, applicable regulations, published positions of the IRS, administrative rulings and judicial decisions in effect as of the date of this prospectus, any of which may subsequently be changed, possibly retroactively, or interpreted differently by the IRS so as to result in U.S. federal income tax consequences different from those discussed below. The authorities on which this discussion is based are subject to various interpretations, and it is therefore possible that the federal income tax treatment of the purchase, ownership and disposition of the Notes may differ from the treatment described below.

This summary deals only with Notes held as capital assets by purchasers at the issue price who are U.S. holders and not with special classes of holders, such as:

- Dealers in securities or currencies, financial institutions, regulated investment companies, real estate investment trusts, tax-exempt entities, and insurance companies and traders in securities that elect to use a mark-to-market method of accounting for their securities;
- Passive foreign investment companies, controlled foreign corporations, and corporations that accumulate earnings to avoid U.S. federal income tax;
- Persons holding Notes as a part of a hedging, integrated, conversion or constructive sale transaction, a straddle, or other risk reduction strategy;
- Persons whose functional currency is not the U.S. dollar;

- Certain former citizens or residents of the United States; or
- Tax exempt organizations.

Persons considering the exchanging Original Notes for New Notes should consult their own tax advisors concerning these matters and as to the tax treatment under foreign, state and local tax laws and regulations. We cannot provide any assurance that the IRS will not challenge the conclusions stated below. We have not sought and will not seek a ruling from the IRS on any of the matters discussed below.

The exchange of Original Notes for the New Notes under the terms of the exchange offer should not constitute a taxable exchange. As a result:

- A holder should not recognize taxable gain or loss as a result of exchanging Original Notes for the New Notes under the terms of the exchange offer;
- The holder's holding period of the New Notes should include the holding period of the Original Notes exchanged for the New Notes; and
- A holder's adjusted tax basis in the New Notes should be the same as the adjusted tax basis, immediately before the exchange, of the Original Notes exchanged for the New Notes.

New Notes received by broker-dealers in the exchange offer for their own account may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the New Notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such New Notes. Any broker-dealer that resells New Notes that were received by it in the exchange offer for its own account and any broker or dealer that participates in a distribution of such New Notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of such New Notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The accompanying letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus meeting the requirements of the Securities Act, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

For a period of 180 days from the date on which the exchange offer is completed, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the accompanying letter of transmittal. We have agreed to pay all expenses incident to the exchange offer, including the reasonable fees and expenses of counsel to the initial purchaser of the Original Notes, other than commissions or concessions of any brokers or dealers and will indemnify holders of the Notes, including any broker-dealers, against certain liabilities, including liabilities under the Securities Act.
