1. Push-Down Accounting and In Process Research and Development

Intellectual property of \$2,500,000 recorded as a consequence of SYNORB's acquisition of the Company's shares comprises intangible assets related to research and development activities. Under US GAAP, this would not be capitalized on acquisition.

As a result of removing the \$2,500,000 from intellectual property in 1999 for US GAAP purposes, the amortization of the intellectual property, the future income tax recovery, future income tax liability and contributed surplus amounts recorded for Canadian GAAP purposes have been reversed.

Adoption of New Accounting Standard

The Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) No. 48 Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement 109 . FIN 48 establishes a single model to address accounting for uncertain tax positions and clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on de-recognition, measurement classification, interest and penalties, accounting in interim periods, disclosure and transition.

On January 1, 2007, the Company adopted the provisions of FIN 48. The Company made no adjustments to retained earnings related to adoption, there have been no material changes in the amount of unrecognized tax benefits since adoption, and the company anticipates no significant changes in the next 12 months.

The tax years 2001 - 2006 remain open for audit examination by the Canadian taxing jurisdictions to which the Company is subject.
