SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-QSB contains forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements, which are other statements of historical facts. These statements are subject to uncertainties and risks including, but not limited to, product and service demand and acceptance, changes in technology, economic conditions, the impact of competition and pricing, government regulation, and other risks defined in this document and in statements filed from time to time with the Securities and Exchange Commission. All such forward-looking statements are expressly qualified by these cautionary statements and any other cautionary statements that may accompany the forward-looking statements. In addition, BankEngine Technologies, Inc. disclaims any obligations to update any forward-looking statements to reflect events of circumstances after the date hereof.

BANKENGINE TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MAY 31, 2003 AND 2002

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION

Bankengine Technologies, Inc. (the "Company" or "BankEngine") is a long distance telecommunications service provider through its 70% owned subsidiary, Platinum Telecommunications, Inc. The Company also is in the business of software development for its new software product, Critical Commerce Suite, to provide video streaming analysis tools and computer consulting, through its wholly owned subsidiaries, Critical Commerce Inc., a Delaware corporation, and Cyberstation Computers and Support, Inc. ("Cyberstation"), a company operating in Canada. The operations of the Company are predominately in Canada, however, the financial statements are expressed in U.S. dollars.

BASIS OF PRESENTATION

The consolidated balance sheet as of May 31, 2003, and the consolidated statements of operations, stockholders' deficiency and cash flows for the periods presented herein have been prepared by the Company and are unaudited. In the opinion of management, all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position, results of operations, stockholders' deficiency and cash flows for all periods presented have been made. The information for the consolidated balance sheet as of August 31, 2002 was derived from audited financial statements.

On January 5, 2001, Callmate Telecom International, Inc. ("Callmate") acquired all of the issued and outstanding shares of common stock of WebEngine Technologies, Inc. (WebEngine) in exchange for 12,000,000 common shares of Callmate in a reverse acquisition. 9,200,000 common shares of Callmate held by previous shareholders of Callmate were cancelled in exchange for all of the shares of its subsidiaries which carry on the UK operations of Callmate. The acquisition by the shareholders of WebEngine of a majority of the shares of Callmate has been accounted for as a reverse acquisition. As Callmate became substantially a shell after the removal of the UK operations, no goodwill has been reflected on this acquisition. Although Callmate is the legal acquirer, WebEngine is treated as having acquired Callmate for accounting purposes. Callmate has been accounted for as the successor to WebEngine. Callmate changed its name to BankEngine Technologies Inc. on March 5, 2001.

WebEngine was incorporated in November 2000 in order to hold the shares of Cyberstation. The shareholders of Cyberstation became the shareholders of WebEngine and therefore WebEngine has been considered to be a successor to Cyberstation. WebEngine has changed its name to Critical Commerce Inc.

The historical financial statements of BankEngine are those of Cyberstation as the company has been accounted for as the successor to Cyberstation.

Edgar Filing: BANKENGINE TECHNOLOGIES INC - Form 10QSB

The estimated income tax costs of the divestiture of the UK operations, in the amount of \$50,000, has been treated as a reduction of the assets acquired on the acquisition of the shell company and has been included in income taxes payable.

The acquisition of Callmate, as a reverse acquisition, was reflected as follows:

Cash escrow	\$	601,457
Accounts payable		(316,000)
Income taxes payable		(50,000)
Capital stock issued	\$	235,457

The accounts payable assumed on the acquisition of Callmate includes \$146,000 for short falls which may arise on settlement with a credit card company. Callmate operated a retail and wholesale telecommunications operations and permitted payment by its retail customers through credit card facility. The credit card company is holding funds on deposit to be applied against refused credit card charges and has agreed that the limit of the Company's liability is the amount of the security held on hand. As detailed in Note 11, final settlement of the liability for chargebacks and the receipt of the balance of the funds on deposit is expected during 2003.

As discussed in Note 2, on April 5, 2002, the Company through its wholly-owned subsidiary, Cyberstation, acquired 70% of the issued and outstanding common stock of Platinum Telecommunications Inc. for the issuance of 1,800,000 common shares of BankEngine Technologies, Inc.

The Company presently does not have sufficient liquid assets to finance its anticipated funding needs and obligations. The Company's continued existence is dependent upon its ability to obtain needed working capital through additional equity and/or debt financing and achieve a level of sales adequate to support its cost structure. Management is actively seeking additional capital to ensure the continuation of its activities and is also actively pursuing other investment opportunities. However, there is no assurance that additional capital will be obtained or that other investment opportunities will be achieved. These uncertainties raise substantial doubt about the ability of the Company to continue as a going concern.

The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties should the Company be unable to continue as a going concern.

MANAGEMENT INTENTIONS

The Company has sustained recurring operating losses and negative cash flows from operations. The Company also has a working capital deficit of approximately \$337,000 and a stockholders' deficiency of approximately \$480,000 at May 31, 2003. Management plans to mitigate these adverse conditions through the following activities:

The Company is actively pursuing the sale of the telecommunications subsidiary Platinum Telecommunications Ltd. While the Company had earlier decided to re-enter the telecom arena with the acquisition of Platinum, the subsidiary has nonetheless continued to experience losses.

In addition, the Company is in negotiation with creditors in order to decrease the burden of its indebtedness.

Also, the Company is presently in discussion with its principle shareholder with regard to possibly turning the existing loan to equity which would substantially impact the Company's debt situation in a positive manner.

At present, the Company is involved in negotiations with several parties with regard to potential mergers which may bring an infusion of additional funding and a diversification in the Company's business and its overall viability.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. The earnings of the subsidiaries are included from the date of acquisition for acquisitions accounted for using the purchase method. All intercompany balances and transactions have been eliminated.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. These estimates are reviewed periodically and as adjustments become necessary, they are reported in earnings in the period in which they become known.

REVENUE RECOGNITION

The Company's revenues from its telecommunications business is recognized when the earnings process is complete. This occurs when the services have been utilized, collection is probable and pricing is fixed or determinable.

The Company provides computer consulting services in a number of areas including database management, on-line transaction processing and e-mail capabilities. Revenue is recognized as pre-determined milestones are accomplished and consulting services delivered.

FOREIGN CURRENCY

The Company's functional currency is primarily the Canadian dollar. All assets and liabilities recorded in foreign currencies are translated at the current exchange rate. Translation adjustments resulting from this process are charged or credited to other comprehensive income. Revenue and expenses are translated at average rates of exchange prevailing during the year. Gains and losses on foreign currency transactions are included in financial expenses.

COMPUTER SOFTWARE DEVELOPMENT

The Company accounts for the cost of developing computer software for sale as research and development expenses until the technological feasibility of the product has been established. To date all costs have been expensed. In the future, after the technological feasibility of the product has been established at the end of each year the Company will compare any unamortized capital costs to the net realizable value of the product to determine if a reduction in carrying value will be warranted.

GOODWILL AND OTHER INTANGIBLES

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets". Under SFAS No. 142, goodwill and intangible assets deemed to have indefinite lives and are no longer amortized, but are subject to, at a minimum, an annual impairment test. If the carrying value of goodwill or intangible assets exceeds its fair market value, an impairment loss would be recorded. The Company uses a discounted cash flow model to determine fair market value of the Company's reporting units.

Other intangibles primarily include customer lists in connection with the Company's telecommunications activity. Amounts assigned to these intangibles are based on independent appraisals. Other intangibles are being amortized over 24 months. The intangible asset was written down to \$-0- during the second quarter of fiscal 2003.

	<u>Three months ended May 31,</u>		<u>Nine months ended May 31,</u>

	Gross		Gross	
	Carrying	Accumulated	Carrying	Accumulated
	Amount	Amotization	Amount	Amortization
Customer lists	\$ 25,262	\$ 25,262	\$ 25,262	\$ 5,514

STOCK BASED COMPENSATION

The Company accounts for equity-based compensation issued to employees in accordance with Accounting Principles Board ("ABP") Opinion No. 25 "Accounting for Stock Issued to Employees". ABP No. 25 requires the use of the intrinsic value method, which measures compensation cost as the excess, if any, of the quoted market price of the stock at the measurement date over the amount an employee must pay to acquire the stock. The Company makes

disclosures of pro forma net earnings and earnings per share as if the fair-value-based method of accounting had been applied as required by SFAS No. 123 "Accounting for Stock-Based Compensation-Transition and Disclosure" and SFAS 148 Accounting for Stock Based Compensation Transition and disclosures. To date no options have been granted.

The Company accounts for equity-based compensation to non-employees based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable.

SEGMENT REPORTING

The Company applies Financial Accounting Standards Boards ("FASB") statement No. 131, "Disclosure about Segments of an Enterprise and Related Information". The Company has considered its operations and has determined that it operates in two operating segments, software development and telecom, for purposes of presenting financial information and evaluating performance. As such, the accompanying financial statements present information in a format that is consistent with the financial information used by management for internal use.

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2001, the FASB issued SFAS No. 143 Accounting for Asset Retirement Obligations . SFAS No. 143 addresses financial accounting and reporting for obligations and costs associated with the retirement of tangible long-lived assets. The Company adopted SFAS No. 143 on September 1, 2001. The adoption of SFAS 143 did not have a material impact on the Company's results of operations or financial position.

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets , effective for fiscal years beginning after December 15, 2001. Under SFAS No. 144 assets held for sale will be included in discontinued operations if the operations and cash flows will be or have been eliminated from the ongoing operations of the entity and the entity will not have any significant continuing involvement in the operations of the component. The Company adopted SFAS No. 144 on September 1, 2002. The adoption of SFAS No. 144 did not have a material impact on the Company's results of operations or financial position.

In April 2002, the FASB issued SFAS No. 145 "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections". This statement eliminates the automatic classification of gain or loss on extinguishment of debt as an extraordinary item of income and requires that such gain or loss be evaluated for extraordinary classification under the criteria of Accounting Principles Board No. 30 "Reporting Results of Operations". This statement also requires sales-leaseback accounting for certain lease modifications that have economic effects that are similar to sales-leaseback transactions, and makes various other technical corrections to existing pronouncements. This statement will be effective for the Company for the year ending August 31, 2003.

Management believes that adopting this statement will not have a material effect on the Company's results of operations or financial position.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." This Statement requires recording costs associated with exit or disposal activities at their fair values when a liability has been incurred. Under previous guidance, certain exit costs were accrued upon management's commitment to an exit plan. Adoption of this Statement is required with the beginning of fiscal year 2003. The Company has not yet completed the evaluation of the impact of adopting this Statement.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement No. 133 on Derivative Instruments and Hedging Activities." This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities." This Statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (Interpretation). This Interpretation elaborates on the existing disclosure requirement for most guarantees including loan guarantees, and clarifies that at the time a company issues a guarantee, the company must recognize an initial liability for the fair market value of the obligations it assumes under that guarantee and must disclose that information in its interim and annual financial statements. The initial recognition and measurement provisions of the Interpretation apply on a prospective basis to guarantees issued or modified after December 31, 2002.

In January 2003, the Financial Accounting Standards Board issued Interpretation No. 46, "Consolidation of Variable Interest Entities," which addresses consolidation by business enterprises of variable interest entities. In general, a variable interest entity is a corporation, partnership, trust, or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. A variable interest entity often holds financial assets, including loans or receivables, real estate or other property. A variable interest entity may be essentially passive or it may engage in research and development or other activities on behalf of another company. The objective of Interpretation No. 46 is not to restrict the use of variable interest entities but to improve financial reporting by companies involved with variable interest entities. Until now, a company generally has included another entity in its consolidated financial statements only if it controlled the entity through voting interests. Interpretation No. 46 changes that by requiring a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. The consolidation requirements of Interpretation No. 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company does not have any variable interest entities, and, accordingly, adoption is not expected to have a material effect on the Company.

2. INVESTMENT IN PLATINUM TELECOMMUNICATIONS INC.

On April 5, 2002, the Company through its subsidiary Cyberstation, acquired 70% of the issued and outstanding stock of Platinum Telecommunications Inc. ("Platinum") for the issuance of 1,800,000 common shares of BankEngine Technologies Inc. The Company acquired Platinum, a long distance telecommunications service provider, in order to reenter the telecommunications industry. The results of operations of Platinum are included in the operations of the Company from April 5, 2002.

Unaudited pro forma results of operations after giving effect to certain adjustments resulting from this acquisition for the period ended November 30, 2001 as if the business combination had occurred at the beginning of each period presented are not material to the financial statements and, accordingly, are not presented herein.

The investment has been accounted for by the purchase method as follows;

Consideration	\$	18,000
Costs of acquisition		10,000
Total investment		28,000
Share of net assets acquired		2,738
Intangible asset acquired	\$	25,262

The intangible assets acquired representing contracts and client lists are being amortized over a 24 month period from the date of acquisition. As the re-organization of the telecommunications activities has not been completed to date, the balance of the intangible asset has been written off during the three months ended May 31, 2003. See Note 1 of Notes to Consolidated Financial Statements.

3. ACCOUNTS RECEIVABLE

	May 31, 2003	August 31, 2002
Accounts receivable	\$ 340	\$ 55,031
Allowance for doubtful accounts	-	-
	\$ 340	\$ 55,031

4. CAPITAL STOCK

a) Authorized

50,000,000 common stock with a \$.001 par value

b) Common stock

The Company had issued and outstanding 14,315,893 common stock at the time of the reverse acquisition in January 2001. As detailed in Note 1, the Company issued 12,000,000 common shares to the shareholders of WebEngine. A total of 9,200,000 shares were cancelled in exchange for the removal of the UK operations in January 2001.

As indicated in Note 2, the Company issued on April 5, 2002, 1,800,000 common stock for a 70% interest in Platinum Telecommunications Inc.

Shares outstanding prior to the reverse acquisition	14,315,893
Issued to shareholders of WebEngine	12,000,000
Cancelled for UK operations	(9,200,000)
Shares outstanding, August 31, 2001	17,115,893
Shares issued in consideration of services	100,000

Shares issued in settlement of accounts payable	100,000
Acquisition of 70% interest in Platinum Telecommunications Inc.	1,800,000
Shares outstanding, May 31, 2003	19,115,893

During the second quarter of 2003, the company issued 100,000 shares in settlement of an accounts payable.

During the second quarter of 2002, the Company agreed to issue 100,000 shares in consideration of services to be provided to the Company. In the third quarter, the Company reacquired the shares as the services were not rendered and the shares are reflected as treasury stock.

5. CONTINGENCIES AND COMMITMENTS

a)

The Company is liable for shortfalls which may arise upon the settlement with a credit card company. The credit card company has agreed that the limit of the Company's liability is the amount of security held on hand. The settlement will be based on the transactions to December 31, 2001 and have been settled in the current quarter.

7. MINORITY INTERESTS

On April 5, 2002, the Company through its wholly-owned subsidiary, Cyberstation, acquired 70% of the issued and outstanding common stock of Platinum. At the time of acquisition, the Company recorded the 30% minority interest of \$1,514, which existed as of that date. From the date of acquisition through August 31, 2002 Platinum sustained losses. Minority interests are limited to the extent of their equity capital and losses in excess of minority interest are charged against the majority interests. Subsequently, when the losses reverse, the majority interests should be credited with the amount of minority losses previously absorbed before credit is made to the majority interests. The Company recorded losses of \$1,514 to the minority in the year ended August 31, 2002 and the balance of minority interest at May 31, 2003 was \$-0-.

8. TRANSACTIONS WITH MAJOR CUSTOMERS AND SUPPLIERS

The Company had sales to four individual customers in excess of 10% of consolidated net sales for the nine months ended May 31, 2003 as follows: The amount and percentages of the Company's consolidated sales were \$105,800 (27%), \$81,900 (21%), \$75,000 (19%), and \$ 38,800 (10%).

Cost of sales includes purchases from four suppliers in excess of 10% of consolidated cost of sales for the nine months ended May 31, 2003 as follows: The amounts and percentages of the Company's consolidated cost of sales were \$131,800 (42%), \$52,000 (17%), \$35,300 (11%), and \$31,400 (10%).

The loss of any of these customers or suppliers could have a material adverse effect on the Company's results of operations, financial position and cash flows.

Item 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Company's consolidated financial statements and related notes included elsewhere in this Form 10-QSB.

This filing contains forward-looking statements. The words "anticipated," "believe," "expect," "plan," "intend," "seek," "estimate," "project," "will," "could," "may," and similar expressions are intended to identify forward-looking statements. These statements include, among others, information regarding future operations, future capital expenditures, and future net cash flow. Such statements reflect the Company's current views with respect to future events and financial performance and involve risks and uncertainties, including, without limitation, general economic and business conditions, changes in foreign, political, social, and economic conditions, regulatory initiatives and compliance with governmental regulations, the ability to achieve further market penetration and additional customers, and various other matters, many of which are beyond the Company's control. Should one or more of these risks or uncertainties occur, or should underlying assumptions prove to be incorrect, actual results may vary materially and adversely from those anticipated, believed, estimated, or otherwise indicated. Consequently, all of the forward-looking statements made in this filing are qualified by these cautionary statements and there can be no assurance of the actual results or developments.

Callmate Telecom International, Inc. ("Callmate") acquired WebEngine Technologies International, Inc. ("WebEngine") pursuant to a Share Purchase Agreement effective as of January 5, 2001. Callmate acquired all 12,000,000 shares of common stock of WebEngine in a share exchange, which exchange was effected on a one-for-one basis. The transaction was reported on a Form 8-K filed with the Securities and Exchange Commission (the "SEC") on January 16, 2001. Subsequent thereto, Callmate changed its name to BankEngine Technologies, Inc. (the "Company") as reported on Schedule 14C. The Company filed the Definitive 14C on March 5, 2001.

On April 2, 2002, Cyberstation Computers and Support Inc., an Ontario corporation ("Cyberstation") and wholly owned subsidiary of the Company, entered into a Common Stock Purchase Agreement (the "Agreement") by and

among Platinum Telecommunications, Inc. ("Platinum") and Mr. Zeeshan Saeed (the "Seller"). Pursuant to the Agreement, Cyberstation acquired seventy percent (70%) of the issued and outstanding shares of common stock of Platinum (the "Platinum Shares") in consideration for 1,800,000 shares of common stock of the Company, par value \$0.001 per share. The Platinum Shares were acquired from the Seller, by whom Platinum was immediately before closing of the Agreement wholly owned. The Agreement was effective as of April 5, 2002. The transaction was negotiated on an arms-length basis. Neither the Company nor Cyberstation had any affiliation with Platinum or any of its officers or directors.

The Company is considering whether, and if so how, to reorganize its telecommunications and software development businesses, while remaining open to entering into a business combination. Presently, the Company has ceased operations at Platinum Telecommunications which was its only source of revenue. Management anticipates that the Company will be able to convert certain outstanding debt into equity and be able to raise additional working capital through the issuance of stock and through additional loans from investors.

The ability of the Company to continue as a going concern is dependent upon the Company's ability to obtain suitable and adequate financing. There can be no assurance that Management's plan will be successful.

The Company is currently in discussions with several different parties with regard to possible mergers and/or synergistic relations. Presently, the Company is contemplating the sale of Platinum Telecommunications which was previously the only source of revenue for the Company. The prospective sale of Platinum appears likely and terms are currently being discussed.

After discussions with the Company's principal shareholder, management anticipates that it will be able to convert the outstanding shareholder's debt into equity and that it will be able to raise additional working capital through the issuance of stock and through additional loans from investors.

The ability of the Company to continue as a going concern is dependent upon the Company's ability to obtain suitable and adequate financing. There can be no assurance that management's plan will be successful.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are outlined within Note 1 to the consolidated financial statements. Some of those accounting policies require the Company to make estimates and assumptions that affect the amounts it reports. The following items require the most significant judgment and often involve complex estimation:

Revenue recognition: The Company generally recognizes a sale when the service has been provided and risk of loss has passed to the customer, collection of the resulting receivable is reasonably assured, persuasive evidence of an arrangement exists, and the fee is fixed or determinable. The assessment of whether the fee is fixed or determinable considers whether a significant portion of the fee is due after its normal payment terms. If the Company determines

that the fee is not fixed or determinable, the Company recognizes revenue at the time the fee becomes due, provided that all other revenue recognition criteria have been met.

The Company assesses collectibility based on a number of factors, including general economic and market conditions, past transaction history with the customer, and the credit-worthiness of the customer. If the Company determines that collection of the fee is not probable, then we will defer the fee and recognize revenue upon receipt of payment.

Allowance for doubtful accounts: The Company continuously monitors payments from its customers and maintains allowances for doubtful accounts, if required, for estimated losses resulting from the inability of its customers to make required payments. When the Company evaluates the adequacy of its allowances for doubtful accounts, it takes into account various factors including its accounts receivable aging, customer credit-worthiness, historical bad debts, and geographic and political risk. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. As of May 31, 2003, the Company's net accounts receivable balance was \$340.

Results of Operations

THREE MONTHS ENDED MAY 31, 2003 COMPARED TO THREE MONTHS ENDED MAY 31, 2002

Revenues

Revenue for the three-month period ended May 31, 2003 was insignificant as the company is re-organizing its telecommunications operations. This is a reduction of approximately \$64,000 from May 31, 2002.

Cost of Sales

The cost of sales for the three-month period ended May 31, 2003 was negligible. This is a reduction of approximately \$61,000 from May 31, 2002. The decrease is due to the reduction in telecommunication services revenue.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended May 31, 2003 were \$24,746 as compared to \$163,275 for the similar period in 2002. The decrease of \$138,529 in selling, general and administrative expenses is principally attributable to the reduction in provisions for chargebacks, professional fees, and wages.

Net Loss

Net loss from operations for the three months ended May 31, 2003 amounted to \$25,074 as compared to a net loss of \$160,631 for the three months ended May 31, 2002. This decrease in the net loss is principally attributable to the reduction of selling general and administrative expenses from 2002 to 2003.

NINE MONTHS ENDED MAY 31, 2003 COMPARED TO NINE MONTHS ENDED MAY 31, 2002

Revenues

Revenue for the nine-month period ended May 31, 2003 totaled \$387,854 an increase of \$316,810 over the comparable period in 2002. This increase is attributable to the acquisition of Platinum as all of the revenue is currently from telecommunication services.

Cost of Sales

The cost of sales for the nine-month period ended May 31, 2003 totaled \$316,346, an increase of \$246,081 from the comparable period in 2002. The increase is due to the change in the Company's revenue model and consists of long distance and related telecommunication services costs incurred.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the nine months ended May 31, 2003 were \$285,217 as compared to \$282,549 for the similar period in 2002. The increase in selling, general and administrative expenses is principally attributable to the impairment and loss on disposition of fixed assets, impairment of intangibles, and bad debts in connection with the Company's telecommunications services. Cost savings were realized through the reduction of professional fees, travel expenses and adjustment of provision for chargebacks.

Net Loss

Net loss for the nine months ended May 31, 2003 amounted to \$221,877 as compared to a net loss of \$277,803 for the nine months ended May 31, 2002. This decrease in the net loss is principally attributable to the reductions in professional fees, travel costs and adjustment of provision for chargebacks offset by the current period impairment and loss on disposition of fixed assets, impairment of intangibles, and bad debts in connection with the Company's telecommunications services.

LIQUIDITY AND CAPITAL RESOURCES

Operating Activities

For the nine-months ended May 31, 2003, net cash used in operating activities amounted to \$31,444 as compared to net cash used in operating activities of \$182,413 for the comparable period in 2002. The decrease in the net loss sustained in the nine months ended May 31, 2003 from the comparable period in the prior year, and the non-cash expenses of amortization and fixed asset impairment included in the loss for 2003 resulted in a reduction of approximately \$140,000 in cash required for operations. The balance of the improvement was the realization of accounts receivable in the current year.

Financing Activities

The Company presently does not have sufficient liquid assets to finance its anticipated funding needs and obligations. The Company's continued existence is dependent upon its ability to obtain needed working capital through additional equity and/or debt financing and achieve a level of sales adequate to support its cost structure. Management is actively seeking additional capital to ensure the continuation of its activities and is also actively pursuing other investment opportunities. However, there is no assurance that additional capital will be obtained or that other investment opportunities will be achieved. These uncertainties raise substantial doubt about the ability of the Company to continue as a going concern.

At May 31, 2003, the Company does not have any material commitments for capital expenditures other than for those expenditures incurred in the ordinary course of business.

ACCOUNTING PRONOUNCEMENTS TO BE ADOPTED IN 2003

In August 2001, the FASB issued SFAS No. 143 Accounting for Asset Retirement Obligations . SFAS No. 143 addresses financial accounting and reporting for obligations and costs associated with the retirement of tangible long-lived assets. The Company adopted SFAS No. 143 on September 1, 2001. The adoption of SFAS 143 did not have a material impact on the Company's results of operations or financial position.

In April 2002, the FASB issued SFAS No. 145 "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections". This statement eliminates the automatic classification of gain or loss on extinguishment of debt as an extraordinary item of income and requires that such gain or loss be evaluated for extraordinary classification under the criteria of Accounting Principles Board No. 30 "Reporting Results of Operations". This statement also requires sales-leaseback accounting for certain lease modifications that have economic effects that are similar to sales-leaseback transactions, and makes various other technical corrections to existing pronouncements. This statement will be effective for the Company for the year ending December 31, 2003. Management believes that adopting this statement will not have a material effect on the Company's results of operations or financial position.

In June 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." This Statement requires recording costs associated with exit or disposal activities at their fair values when a liability has been incurred. Under previous guidance, certain exit costs were accrued upon management's commitment to an exit plan. Adoption of this Statement is required with the beginning of fiscal year 2003. The Company has not yet completed the evaluation of the impact of adopting this Statement.

In January 2003, the FASB issued SFAS No. 148, Accounting for Stock Based Compensation - Transition and Disclosures. This statement provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement also amends the disclosure requirements of SFAS No. 123 to require more prominent and frequent disclosures in the financial statements about the effects of stock-based compensation. The transitional guidance and annual disclosure provisions of this Statement is effective for the August 31, 2003 financial statements. The interim reporting disclosure requirements will be effective for the company's May 31, 2003 10-QSB.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement No. 133 on Derivative Instruments and Hedging Activities." This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities." This Statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003.

In November 2002, the FASB issued FASB Interpretation No. 45 (FIN 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, and interpretation of FASB Statements No. 5, 57, and 107 and Rescission of FASB Interpretation No. 34. FIN 45 clarifies the requirements of FASB Statement No. 5, Accounting for Contingencies, relating to the guarantor's accounting for, and disclosure of, the issuance of certain types of guarantees. This interpretation clarifies that a guarantor is required to recognize, at the inception of certain types of guarantees, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and initial measurement provisions of this Interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002, irrespective of the guarantor's fiscal year-end. The disclosure requirements in this interpretation are effective for financial statements of interim or annual periods ending after December 15, 2002. The Company will adopt FIN 45 on September 1, 2003. The adoption of FIN 45 is not expected to have a material impact on the Company's disclosure requirements.

In January 2003, the Financial Accounting Standards Board issued Interpretation No. 46, "Consolidation of Variable Interest Entities," which addresses consolidation by business enterprises of variable interest entities. In general, a variable interest entity is a corporation, partnership, trust, or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. A variable interest entity often holds financial assets, including loans or receivables, real estate or other property. A variable interest entity may be essentially passive or it may engage in research and development or other activities on behalf of another company. The objective of Interpretation No. 46 is not to restrict the use of variable interest entities but to improve financial reporting by companies involved with variable interest entities. Until now, a company generally has included another entity in its consolidated financial statements only if it controlled the entity through voting interests. Interpretation No. 46 changes that by requiring a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. The consolidation requirements of Interpretation No. 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company does not have any variable interest entities, and, accordingly, adoption is not expected to have a material effect on the Company.

Item 3.

Controls and Procedures

Immediately following the signature page of this report is the Certification that is required under Section 302 of the Sarbanes-Oxley Act of 2002. This section of the report contains information concerning the controls evaluation referred to in the Section 302 Certifications and the information contained herein should be read in conjunction with the Certification.

Internal controls are designed with the objective of ensuring that assets are safeguarded, transactions are authorized, and financial reports are prepared on a timely basis in accordance with generally accepted accounting principles in the United States. The disclosure procedures are designed to comply with the regulations established by the Securities and Exchange Commission.

Internal controls, no matter how designed, have limitations. It is the Company's intent that the internal controls be conceived to provide adequate, but not absolute, assurance that the objectives of the controls are met on a consistent basis. Management plans to continue its review of internal controls and disclosure procedures on an ongoing basis.

The Company's principal executive officer and principal financial officer, after supervising and participating in an evaluation of the effectiveness of the Company's internal and disclosure controls and procedures as of May 31, 2003 (the Evaluation Date), have concluded that as of the Evaluation Date, the Company's internal and disclosure controls and procedures were effective.

There were no significant changes in the Company's internal and disclosure controls or in other factors that could significantly affect such internal and disclosure controls subsequent to the date of their evaluation.
