Conversion

The following table presents additional information about valuation techniques and inputs used for investments that are measured at fair value and categorized within Level 3 at January 31, 2016:

Edgar Filing: TRANSALTA CORP - Form 6-K

Investments in Securities	Assets	Ending Balance at 1/31/16	Valuation Technique Used	Unobservable Inputs	Input Values
Convertible Preferred Stock		\$18,079,099	Third Party Pricing Vendor	Single Broker Quote	\$18.12 \$104.95

The net change in unrealized appreciation/depreciation of Level 3 investments held at January 31, 2016, was \$(4,656,485). Net realized gain (loss) and change in unrealized appreciation/depreciation is reflected on the Statements of Operations.

Schedule of Investments

AllianzGI Equity & Convertible Income Fund

January 31, 2016 (continued)

(l) The following is a summary of the fair valuation of the Fund's derivative instruments categorized by risk exposure:

The effect of derivatives on the Fund's Statements of Assets and Liabilities at January 31, 2016:

Location	Market Price
Liability derivatives:	
Call options written, at value	\$(294,215)

The effect of derivatives on the Fund's Statements of Operations for the year ended January 31, 2016:

Location	Market Price
Net realized loss on:	
Call options written	\$(1,915,885)
Net change in unrealized appreciation/depreciation of:	
Call options written	\$74,905

The average volume (based on the open positions at each fiscal quarter-end) of derivative activity during year ended January 31, 2016 was 9,525 call options written contracts.

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies

AllianzGI Diversified Income & Convertible Fund (Diversified Income & Convertible), AllianzGI Equity & Convertible Income Fund (Equity & Convertible Income) and AllianzGI NFJ Dividend, Interest & Premium Strategy Fund (Dividend, Interest & Premium Strategy) (each, a Fund and, collectively, the Funds) were organized as Massachusetts business trusts on March 10, 2015, December 12, 2006 and August 20, 2003, respectively. The Funds follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standards Codification topic 946 Financial Services Investment Companies. Prior to commencing operations on May 27, 2015, February 27, 2007, and February 28, 2005, respectively, the Funds had no operations other than matters relating to their organization and registration as diversified, closed-end management investment companies registered under the Investment Company Act of 1940, as amended (the 1940 Act), and the rules and regulations thereunder and the sale and issuance of 4,189 shares at an aggregate price of \$100,012 for Diversified Income & Convertible to Allianz Asset Management of America L.P. (AAM). Allianz Global Investors Fund Management LLC (the Investment Manager) serves as the Funds investment manager and Allianz Global Investors U.S. LLC (AllianzGI U.S.) and NFJ Investment Group LLC (NFJ), each an affiliate of the Investment Manager (each a Sub-Adviser and collectively the Sub-Advisers), serve as the Funds sub-advisers. The Investment Manager, AllianzGI U.S. and NFJ are indirect, wholly-owned subsidiaries of AAM. AAM is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has authorized an unlimited amount of common shares with \$0.00001 par value.

Diversified Income & Convertible s investment objective is to provide total return through a combination of current income and capital appreciation, while seeking to provide downside protection against capital loss. Under normal market conditions, the Fund will seek to achieve its investment objective by investing in a combination of convertible securities, debt and other income-producing instruments and common stocks and other equity securities. The Fund expects to employ a strategy of writing (selling) covered call options on the stocks held in the equity portion of the portfolio.

Equity & Convertible Income s investment objective is to seek total return comprised of capital appreciation, current income and gains. Under normal market conditions the Fund pursues its objective by investing in a diversified portfolio of equity securities and income-producing convertible securities. The Fund will also employ a strategy of writing (selling) call options on the equity securities held by the Fund as well as on equity indexes.

Dividend, Interest & Premium Strategy s primary investment objective is to seek current income and gains, with a secondary objective of long-term capital appreciation. Under normal market conditions the Fund pursues its investment objectives by investing in a diversified portfolio of dividend-paying

Notes to Financial Statements

common stocks and income-producing convertible securities. The Fund will also employ a strategy of writing (selling) call options on equity indexes in an attempt to generate gains from option premiums.

Diversified Income & Convertible issued 11,200,000 shares of common stock in its initial public offering. An additional 90,000 shares were issued in connection with the exercise of the underwriters' over-allotment option. These shares were all issued at \$25.00 per share. A sales load of \$1.125 per share was deducted from gross offering proceeds. Offering costs of \$564,500 (representing \$0.05 per share) were also deducted from gross proceeds of the offering and have been charged to paid-in capital in excess of par. The Investment Manager paid all offering costs associated with the initial public offering (other than the sales load) exceeding \$0.05 per share, which came to approximately \$890,000. In addition, the underwriters' commission and offering costs have been charged to paid-in-capital in excess of par.

There can be no assurance that the Funds will meet their stated objectives.

The preparation of the Funds' financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Funds' management to make estimates and assumptions that affect the reported amounts and disclosures in each Fund's financial statements. Actual results could differ from those estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations that provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) Valuation of Investments

Edgar Filing: TRANSALTA CORP - Form 6-K

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of official closing prices, last reported sales prices, or if no sales or closing prices are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services. The Funds' investments are valued daily using prices supplied by an independent pricing service or broker/dealer quotations, or by using the last sale or settlement price on the exchange that is the primary market for such securities, or the mean between the last bid and ask quotations. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics.

The Board of Trustees (the Board) has adopted procedures for valuing portfolio securities and other financial instruments in circumstances where market quotations are not readily available (including in cases where

January 31, 2016 | Annual Report 51

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies (continued)

available market quotations are deemed to be unreliable), and has delegated primary responsibility for applying the valuation methods to the Investment Manager and the Sub-Advisers. The Funds' Valuation Committee was established by the Board to oversee the implementation of the Funds' valuation methods and to make fair value determinations on behalf of the Board, as instructed by the Board. Each Sub-Adviser monitors the continued appropriateness of methods applied and identifies to the Investment Manager circumstances and events that may require fair valuation. The Investment Manager, in turn, determines if adjustments should be made in light of market changes, events affecting the issuer, or other factors. If the Investment Manager (in consultation with the Sub-Advisers) determines that a valuation method may no longer be appropriate, another valuation method may be selected or the Valuation Committee will be convened to consider the matter and take any appropriate action in accordance with procedures set forth by the Board. The Board shall review and ratify the appropriateness of the valuation methods and these methods may be amended or supplemented from time to time by the Valuation Committee.

Synthetic convertible securities are valued based on quotations obtained from unaffiliated brokers who are the principal market-makers in such securities. Such valuations are derived by the brokers from proprietary models which are generally based on readily available market information including valuation of the common stock underlying the synthetic security.

Short-term debt instruments maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing premiums or discounts based on their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Funds to value investments may differ from the value that would be realized if the investments were sold, and these differences could be material to the Funds' financial statements. Each Fund's net asset value (NAV) is normally determined at the close of regular trading (normally, 4:00 p.m. Eastern Time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

(b) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.*, the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

Edgar Filing: TRANSALTA CORP - Form 6-K

- n Level 1 quoted prices in active markets for identical investments that the Funds have the ability to access
- n Level 2 valuations based on other significant observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities, interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates or other market corroborated inputs

52 Annual Report | January 31, 2016

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies (continued)

ⁿ Level 3 valuations based on significant unobservable inputs (including the Sub-Advisers' or Valuation Committee's own assumptions and securities whose price was determined by using a single broker's quote)

The valuation techniques used by the Funds to measure fair value during the period or year ended January 31, 2016 were intended to maximize the use of observable inputs and to minimize the use of unobservable inputs.

The Funds' policy is to recognize transfers between levels at the end of the reporting period. An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation techniques used. Assets categorized as Level 1 or 2 as of period end may have been transferred between Levels 1 and 2 since the prior period due to changes in the valuation method utilized in valuing the investments.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following are certain inputs and techniques that the Funds generally use to evaluate how to classify each major category of assets and liabilities for Level 2 and Level 3, in accordance with U.S. GAAP.

Equity Securities (Common and Preferred Stock) Equity securities traded in inactive markets are valued using inputs which include broker-dealer quotes, recently executed transactions adjusted for changes in the benchmark index, or evaluated price quotes received from independent pricing services that take into account the integrity of the market sector and issuer, the individual characteristics of the security, and information received from broker-dealers and other market sources pertaining to the issuer or security. To the extent that these inputs are observable, the values of equity securities are categorized as Level 2. To the extent that these inputs are unobservable the values are categorized as Level 3.

Convertible Bonds & Notes Convertible bonds & notes are valued by independent pricing services using various inputs and techniques, which include broker-dealer quotations from relevant market makers and recently executed transactions in securities of the issuer or comparable issuers. The broker-dealer quotations received are supported by credit analysis of the issuer that takes into consideration credit quality assessments, daily trading activity, and the activity of the underlying equities, listed bonds and sector-specific trends. To the extent that these inputs are observable, the values of convertible bonds & notes are categorized as Level 2. To the extent that these inputs are unobservable the

values are categorized as Level 3.

Corporate Bonds & Notes Corporate bonds & notes are generally comprised of two main categories: investment grade bonds and

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies (continued)

high yield bonds. Investment grade bonds are valued by independent pricing services using various inputs and techniques, which include broker-dealer quotations, live trading levels, recently executed transactions in securities of the issuer or comparable issuers, and option adjusted spread models that include base curve and spread curve inputs. Adjustments to individual bonds can be applied to recognize trading differences compared to other bonds issued by the same issuer. High yield bonds are valued by independent pricing services based primarily on broker-dealer from relevant market makers and recently executed transactions in securities of the issuer or comparable issuers. The broker-dealer quotations received are supported by credit analysis of the issuer that takes into consideration credit quality assessments, daily trading activity, and the activity of the underlying equities, listed bonds and sector-specific trends. To the extent that these inputs are observable, the values of corporate bonds & notes are categorized as Level 2. To the extent that these inputs are unobservable the values are categorized as Level 3.

Option Contracts Option contracts traded over-the-counter (OTC) and FLExible EXchange (FLEX) options are valued by independent pricing services based on pricing models that incorporate various inputs such as interest rates, credit spreads, currency exchange rates and volatility measurements for in-the-money, at-the-money, and out-of-the-money contracts based on a given strike price. To the extent that these inputs are observable, the values of OTC and FLEX option contracts are categorized as Level 2. To the extent that these inputs are unobservable the values are categorized as Level 3.

(c) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income adjusted for the accretion of discount and amortization of premium is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized, respectively, to interest income. Conversion premium is not amortized. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities where the ex-dividend date may have passed, and then are recorded as soon after the ex-dividend date as the Fund, using reasonable diligence, becomes aware of such dividends. Payments received on synthetic convertible securities are generally included in dividends. Payments received from certain investments may be comprised of dividends, realized gains and return of capital. These payments may initially be recorded as dividend income and may subsequently be reclassified as realized gains and/or return of capital upon receipt of information from the issuer.

(d) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies.

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies (continued)

Accordingly, no provision for U.S. federal income taxes is required. The Funds may be subject to excise tax based on distributions to shareholders.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. In accordance with provisions set forth under U.S. GAAP, the Investment Manager has reviewed the Funds' tax positions for all open tax years. As of January 31, 2016, the Funds have recorded no liability for net unrecognized tax benefits relating to uncertain income tax positions they have taken. The Funds' federal tax returns for the prior three years, as applicable, remain subject to examination by the Internal Revenue Service.

(e) Dividends and Distributions to Shareholders

Diversified Income & Convertible declares dividends and distributions on a monthly basis. Equity & Convertible Income and Dividend, Interest & Premium Strategy declare dividends and distributions on a quarterly basis. These dividends and distributions may be comprised in varying proportions of net investment income, gains from option premiums and the sale of portfolio securities and return of capital. The Funds record dividends and distributions on the ex-dividend date. The amount of dividends from net investment income and distributions from net realized capital gains or return of capital is determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions to shareholders from return of capital.

(f) Convertible Securities

It is the Funds' policy to invest a portion of their assets in convertible securities. Although convertible securities derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, certain of the Funds' investments in convertible securities include features which render them sensitive to price changes in their underlying securities. The value of structured/synthetic convertible securities can be affected by interest rate changes and credit risks of the issuer. Such securities may be structured

Edgar Filing: TRANSALTA CORP - Form 6-K

in ways that limit their potential for capital appreciation and the entire value of the security may be at risk of loss depending on the performance of the underlying equity security. Consequently, the Funds are exposed to greater downside risk than traditional convertible securities, but typically still less than that of the underlying stock.

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

1. Organization and Significant Accounting Policies (continued)

(g) Warrants

The Funds may receive warrants. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy a proportionate amount of common stock at a specified price. Warrants are freely transferable and are often traded on major exchanges. Warrants normally have a life that is measured in years and entitle the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Warrants may entail greater risks than certain other types of investments. Generally, warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. If the market price of the underlying stock does not exceed the exercise price during the life of the warrant, the warrant will expire worthless. Warrants may increase the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities. Similarly, the percentage increase or decrease in the value of an equity security warrant may be greater than the percentage increase or decrease in the value of the underlying common stock. Warrants may relate to the purchase of equity or debt securities. Debt obligations with warrants attached to purchase equity securities have many characteristics of convertible securities and their prices may, to some degree, reflect the performance of the underlying stock. Debt obligations also may be issued with warrants attached to purchase additional debt securities at the same coupon rate. A decline in interest rates would permit the Funds to sell such warrants at a profit. If interest rates rise, these warrants would generally expire with no value.

(h) Short Sales

Short sale transactions involve the Funds selling securities they do not own in anticipation of a decline in the market price of the securities. The Funds are obligated to deliver securities at the market price at the time the short position is closed. Possible losses from short sales may be unlimited, whereas losses from purchases cannot exceed the total amount invested. There were no open short sales at January 31, 2016.

(i) Statement of Cash Flows

U.S. GAAP requires entities providing financial statements that report both financial position and results of operations to also provide a statement of cash flows for each period for which results of operations are provided, but exempts investment companies meeting certain conditions. One of the conditions is that the fund had little or no debt, based on the average debt outstanding during the period, in relation to average total assets. Diversified Income & Convertible's indebtedness has been determined to be at a level requiring a statement of cash flows. The Statement of Cash Flows has been prepared using the indirect method which requires net change in net assets resulting from

1. Organization and Significant Accounting Policies (continued)

operations to be adjusted to reconcile to net cash flows from operating activities.

(j) Loan Interest Expense

Loan Interest expense relates to the Diversified Income & Convertible's participation in debt financing transactions (See Notes 7 and 8). Interest expense is recorded as it is incurred.

2. Principal Risks

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or failure of the other party to a transaction to perform (counterparty risk). The Funds also are exposed to other risks such as, but not limited to, interest rate, credit and leverage risks.

Interest rate risk is the risk that fixed income securities' valuations will change because of changes in interest rates. During periods of rising nominal interest rates, the values of fixed income instruments are generally expected to decline. Conversely, during periods of declining nominal interest rates, the values of fixed income instruments are generally expected to rise. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income security's market price to interest rate (*i.e.*, yield) movements. Interest rate changes can be sudden and unpredictable, and a Fund may lose money as a result of movements in interest rates. A Fund may not be able to hedge against changes in interest rates or may choose not to do so for cost or other reasons. In addition, any hedges may not work as intended.

The Funds are exposed to credit risk, which is the risk of losing money if the issuer or guarantor of a fixed income security is unable or unwilling, or is perceived (whether by market participants, rating agencies, pricing services or otherwise) as unable or unwilling, to make timely principal and/or interest payments, or to otherwise honor its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Edgar Filing: TRANSALTA CORP - Form 6-K

The market values of securities may decline due to general market conditions (market risk) which are not specifically related to a particular company, such as real or perceived adverse economic conditions, adverse changes in the general outlook for corporate earnings, changes in interest or currency rates, adverse changes to credit markets or adverse investor sentiment. They may also decline due to factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities and equity-related investments generally have greater market price volatility than fixed income securities, although under certain market conditions fixed income securities may have comparable or greater price volatility. Credit ratings downgrades may also negatively

January 31, 2016

2. Principal Risks (continued)

affect securities held by a Fund. Even when markets perform well, there is no assurance that the investments held by a Fund will increase in value along with the broader market. In addition, market risk includes the risk that geopolitical events will disrupt the economy on a national or global level.

The Funds are exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss to the Funds could exceed the value of the financial assets recorded in the Funds' financial statements. Financial assets, which potentially expose the Funds to counterparty risk, consist principally of cash due from counterparties and investments. The Sub-Advisers seek to minimize the Funds' counterparty risk by performing reviews of each counterparty and by minimizing concentration of counterparty risk by undertaking transactions with multiple customers and counterparties on recognized and reputable exchanges. Delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

The Funds are exposed to risks associated with leverage. Leverage may cause the value of the Funds' shares to be more volatile than if the Funds did not use leverage. This is because leverage tends to exaggerate the effect of any increase or decrease in the value of the Funds' portfolio securities. The Funds may engage in transactions or purchase instruments that give rise to forms of leverage. In addition, to the extent the Funds employ leverage, dividend and interest costs may not be recovered by any appreciation of the securities purchased with the leverage proceeds and could exceed the Funds' investment returns, resulting in greater losses. As discussed further in Note 7 and Note 8, Diversified Income & Convertible has mandatory redeemable preferred shares and senior secured notes outstanding and entered into margin loan financing.

The Funds may hold defaulted securities that may involve special considerations including bankruptcy proceedings, other regulatory and legal restrictions affecting the Funds' ability to trade, and the availability of prices from independent pricing services or dealer quotations. Defaulted securities may also be illiquid and may not be actively traded. Sale of securities in bankrupt companies at an acceptable price may be difficult and differences compared to the value of securities used by the Funds could be material. A Fund may incur additional expenses to the extent it is required to seek recovery upon a portfolio security's default in the payment of principal or interest. In any bankruptcy proceeding relating to a defaulted investment, a Fund may lose its entire investment or may be required to accept cash or securities with a value substantially less than its original investment.

Diversified Income & Convertible will terminate on the first business day following the fifteenth anniversary of the effective date of its registration statement, May 22, 2030, unless such term is extended by the Trustees and absent Trustee and shareholder approval.

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

2. Principal Risks (continued)

to amend the limited term. Leading up to the Fund's dissolution date, the Fund may begin liquidating all or a portion of the Fund's portfolio, and the Fund may deviate from its investment strategy. As a result, during the wind-down period, the Fund's distributions may decrease, and such distributions may include a return of capital. The Fund does not seek to return \$25.00 per common share (its initial offering price) upon termination. As the assets of the Fund will be liquidated in connection with its termination, the Fund may be required to sell portfolio securities when it otherwise would not, including at times when market conditions are not favorable, which may cause the Fund to lose money.

There can be no assurance that repurchases of common shares by Diversified Income & Convertible pursuant to its Repurchase Plan (as defined in Note 9) will cause the common shares to trade at a price equal to or in excess of NAV or prevent or reduce any decline in the market price of the common shares. Any acquisition of common shares by the Fund would decrease the managed assets of the Fund and therefore tend to have the effect of increasing the Fund's gross expense ratio and decreasing the asset coverage with respect to any leverage outstanding. Because of the nature of the Fund's investment objective, policies and portfolio, the Investment Manager and the Sub-Adviser do not anticipate that repurchases of common shares should interfere with the ability of the Fund to manage its investments in order to seek its investment objective, and do not anticipate any material difficulty in borrowing money or disposing of portfolio securities to consummate repurchases, although no assurance can be given that this will be the case. The Fund's repurchase of shares under the Repurchase Plan will be subject to certain conditions under Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), and other applicable laws, including Regulation M, which may prohibit such repurchases under certain circumstances.

3. Financial Derivative Instruments

Disclosure about derivatives and hedging activities requires qualitative disclosure regarding objectives and strategies for using derivatives, quantitative disclosure about fair value amounts of gains and losses on derivatives, and disclosure about credit-risk related contingent features in derivative agreements. The disclosure requirements distinguish between derivatives which are accounted for as hedges, and those that do not qualify for such accounting. Although the Funds at times use derivatives for hedging purposes, the Funds reflect derivatives at fair value and recognize changes in fair value through the Funds' Statements of Operations, and such derivatives do not qualify for hedge accounting treatment.

Option Transactions

The Funds may write (sell) put and call options on securities and indices to earn premiums, for hedging purposes, risk management purposes or otherwise as part of their investment strategies. When an option is written, the premium received is recorded as an asset with an equal liability that is subsequently marked to market to reflect the market value of the

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

3. Financial Derivative Instruments (continued)

option written. These liabilities are reflected as call options written in the Funds' Statements of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions as a realized loss. If a call option written is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a put option written is exercised, the premium reduces the cost basis of the security. In writing an option, the Funds bear the market risk of an unfavorable change in the price of the security underlying the written option. Exercise of a written option could result in the Funds purchasing a security at a price different from its current market value.

There are several risks associated with transactions in options on securities. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objective. The Funds' ability to use options successfully will depend on the Sub-Advisers' ability to predict pertinent market movements, which cannot be assured. As the writer of a covered call option, a Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline.

4. Investment Manager/Sub-Advisers & Deferred Compensation

Investment Manager/Sub-Advisers. Each Fund has an Investment Management Agreement (for the purposes of this section, each an "Agreement") with the Investment Manager. Subject to the supervision of the Funds' Board, the Investment Manager is responsible for managing, either directly or through others selected by it, the Funds' investment activities, business affairs and administrative matters. Pursuant to their Agreements, Diversified Income & Convertible and Equity & Convertible Income pay the Investment Manager an annual fee, payable monthly, at an annual rate of 1.00% of their average daily total managed assets. Pursuant to its Agreement, Dividend, Interest & Premium Strategy pays the Investment Manager an annual fee, payable monthly, at an annual rate of 0.90% of its average daily total managed assets. Diversified Income & Convertible's Agreement defines total managed assets as the total assets of the Fund (including assets attributable to any Preferred Shares, borrowings, issued debt securities or other forms of leverage that may be outstanding) minus accrued liabilities (other than liabilities representing leverage). The Agreements of each of Equity & Convertible

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

4. Investment Manager/Sub-Advisers & Deferred Compensation (continued)

Income and Dividend, Interest & Premium Strategy define total managed assets as the total assets of each Fund (including assets attributable to any borrowings that may be outstanding) minus accrued liabilities (other than liabilities representing borrowings).

The Investment Manager has retained the Sub-Advisers to manage Dividend, Interest & Premium Strategy. NFJ manages the equity component of the Fund and AllianzGI U.S. manages the convertible and index option strategy components of the Fund. AllianzGI U.S. serves as the sole sub-adviser to Diversified Income & Convertible and Equity & Convertible Income. The Investment Manager, not the Funds, pays a portion of the fees it receives as Investment Manager to the Sub-Advisers in return for their services.

Deferred Compensation. Trustees do not currently receive any pension or retirement benefits from the Funds. The Funds have adopted a deferred compensation plan for the Trustees that permits the Trustees to defer their receipt of compensation from the Funds, at their election, in accordance with the terms of the plan. Under the plan, each Trustee may elect not to receive all or a portion of his or her fees from the Funds on a current basis but to receive in a subsequent period chosen by the Trustee an amount equal to the value of such compensation if such compensation had been invested in one or more series of Allianz Funds Multi- Strategy Trust or Allianz Funds, selected by the Trustees from and after the normal payment dates for such compensation. The deferred compensation program is structured such that the Funds remain in substantially the same financial position whether Trustee fees are paid when earned or deferred.

5. Investments in Securities

For the period and year ended January 31, 2016, purchases and sales of investments, other than short-term securities were:

	Diversified Income & Convertible	Equity & Convertible Income	Dividend, Interest & Premium Strategy
Purchases	\$827,448,297	\$649,928,322	\$786,259,018
Sales	481,897,638	679,765,481	911,194,806

6. Income Tax Information

The tax character of dividends and distributions paid were:

	Year ended January 31, 2016			Year ended January 31, 2015			
	Ordinary Income (1)	15% Long-Term Capital Gain	25% Long-Term Capital Gain	Return of Capital	Ordinary Income (1)	15% Long-Term Capital Gain	Return of Capital
Diversified Income & Convertible Equity & Convertible Income	\$12,968,421	\$	\$	\$	\$	\$	\$
Dividend, Interest & Premium Strategy	32,371,472	9,713,546	32,609		36,575,834		
	37,129,377			119,293,232	61,282,650		109,047,821

(1) Includes short-term capital gains, if any.

At January 31, 2016, the components of distributable earnings were as follows.

	Ordinary Income	15% Long-Term Capital Gain	Capital Loss Carryforwards (2)	Post-October Capital Loss (3)	
				Short-Term	Long-Term
Diversified Income & Convertible Equity & Convertible Income	\$1,730,471	\$22,979	\$	\$716,582	\$(26,399)
Dividend, Interest & Premium Strategy	27,534,519		20,167,519*	8,372,563	7,292,883
			190,265,426		

* Subject to limitations under IRC Sections 381-384 due to the merger with AllianzGI Global Equity & Convertible Income Fund (NGZ).

(2) Capital loss carryforwards available as a reduction, to the extent provided in the regulations, of any future net realized gains. To the extent that these losses are used to offset future realized capital gains, such gains will not be disbursed.

(3) Capital losses realized during the period November 1, 2015 through January 31, 2016 which the Funds elected to defer to the following taxable year pursuant to income tax regulations.

Under the Regulated Investment Company Modernization Act of 2010, the Funds will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010, for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result, preenactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term capital losses.

Notes to Financial Statements

AllianzGI Diversified Income & Convertible Fund

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

6. Income Tax Information (continued)

At January 31, 2016, capital loss carryforward amounts were:

	2018	No Expiration (4)	
		Short-Term	Long-Term
Equity & Convertible Income			\$20,167,519
Dividend, Interest & Premium Strategy	\$157,410,348	\$9,802,937	23,052,141

(4) Carryforward amounts are subject to the provision of the Regulated Investment Company Modernization Act of 2010.

For the year ended January 31, 2016, Equity & Convertible Income had a capital loss carryforward which was utilized:

	Post-Enactment Utilized	
	Short-Term	Long-Term
Equity & Convertible Income		\$334,886

For the year ended January 31, 2016, permanent book tax adjustments were:

	Undistributed (dividends in excess of) net investment income	Accumulated net realized gain (loss)	Paid-in Capital In Excess of Par
Diversified Income & Convertible (a)(d)(e)(g)	\$2,385,109	\$(1,950,108)	\$(435,001)
Equity & Convertible Income (a)(b)(d)(e)(f)	62,687	71,181	(133,868)
Dividend, Interest & Premium Strategy (a)(c)(d)(f)	267,358	(267,358)	

Edgar Filing: TRANSALTA CORP - Form 6-K

These permanent book-tax differences were primarily attributable to:

- (a) Reclassification of contingent debt
- (b) Treatment of convertible securities
- (c) Reclassification of dividend expense
- (d) Section 305 sales adjustment
- (e) Reclassification of non-deductible expenses
- (f) Reclassifications related to investments in Real Estate Investment Trusts (REITs)
- (g) Treatment of bond premium amortization

Net investment income, net realized gains or losses and net assets were not affected by these adjustments.

At January 31, 2016, the aggregate cost basis and the net unrealized appreciation/depreciation of investments for federal income tax purposes were as follows:

	Federal Tax Cost Basis (5)	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Diversified Income & Convertible	\$361,912,979	\$407,927	\$55,254,813	\$(54,846,886)
Equity & Convertible Income	680,573,105	6,751,580	134,656,193	(127,904,613)
Dividend, Interest & Premium Strategy	1,428,487,337	78,883,498	227,717,441	(148,833,943)

- (5) Differences between book and tax cost basis are primarily attributable to the differing treatment of convertible securities, wash sale loss deferrals, Reclassifications in Real Estate Investment Trusts (REITs) and differing treatment of bond premium amortization.

Notes to Financial Statements**AllianzGI Diversified Income & Convertible Fund****AllianzGI Equity & Convertible Income Fund****AllianzGI NFJ Dividend, Interest & Premium Strategy Fund**

January 31, 2016

7. Long-Term Financing Arrangements

On October 2, 2015, Diversified Income & Convertible completed a private placement with a single institutional investor, consisting of \$30,000,000 in Series A Mandatory Redeemable Preferred Shares (MRPS) with a mandatory redemption date of October 2, 2025, and \$50,000,000 in Senior Secured Notes (Notes and together with MRPS, Long-Term Financing Arrangements) due November 22, 2029. Fitch Ratings (Fitch) assigned a rating of AA to the MRPS and AAA to the Notes. The Long-Term Financing Arrangements refinanced a portion of the Diversified Income & Convertible s short-term borrowings under the Margin Loan Financing described in Note 8. Diversified Income & Convertible continues to maintain a short-term credit facility at variable interest rates for a portion of its borrowings.

Mandatory Redeemable Preferred Shares

At January 31, 2016, Diversified Income & Convertible had 1,200,000 shares of MRPS outstanding with an aggregate liquidation preference of \$30,000,000 (\$25.00 per share). The following table summarizes the key terms of the MRPS at January 31, 2016:

Mandatory Redemption Date	Annual Dividend Rate	Aggregate Liquidation Preference	Estimated Fair Value
October 2, 2025	4.34%	\$30,000,000	\$30,000,000

Holders of MRPS are entitled to receive a quarterly dividend at an annual fixed dividend rate of 4.34%, subject to upward adjustment (by as much as 4.00%) during any period when the MRPS have a rating of below A from Fitch, or the equivalent from another rating agency (with the rate increasing at lower rating levels). The MRPS will have a default interest rate of 5.00% whenever a past due amount is outstanding with respect to the MRPS. Dividends are accrued daily and paid quarterly and are presented in Diversified Income & Convertible s Statement of Assets & Liabilities as dividends payable to mandatory redeemable preferred shareholders. For the period ended January 31, 2016, Diversified Income & Convertible paid \$325,500 in distributions to mandatory redeemable preferred shareholders.

The MRPS are senior, with priority in all respects, to Diversified Income & Convertible s outstanding common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. The MRPS rank pari passu with any and all other preferred shares of the Fund, and rank junior to the Fund s indebtedness, including the Notes, the Margin Loan Financing and any other senior secured indebtedness. Diversified Income & Convertible may redeem all or any part of the MRPS at any time, subject to certain redemption premiums. Diversified Income & Convertible is subject to periodic asset coverage testing and must redeem some or all of the MRPS when its asset coverage declines below certain levels.

Notes to Financial Statements**AllianzGI Diversified Income & Convertible Fund****AllianzGI Equity & Convertible Income Fund****AllianzGI NFJ Dividend, Interest & Premium Strategy Fund**

January 31, 2016

7. Long-Term Financing Arrangements (continued)**Senior Secured Notes**

At January 31, 2016, Diversified Income & Convertible had \$50,000,000 in aggregate principal amount of Notes outstanding. The Notes rank pari passu with all other senior debt of Diversified Income & Convertible, including the Margin Loan Financing, and are secured by a lien on all assets of the Fund of every kind, including all securities and all other investment property, equal and ratable with the liens securing the Margin Loan Financing. The Notes are senior, with priority in all respects, to the MRPS and the outstanding common shares as to payments of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. Holders of the Notes are entitled to receive cash interest payments semi-annually until maturity. The Notes accrue interest at an annual fixed rate of 3.94%. The Notes will be subject to a penalty interest rate of an additional 2.00% while overdue payments are outstanding, and an additional 1.00% during any interest rate period when the Notes, at any time, have a rating of less than A- from Fitch or the equivalent from another agency. The Notes are prepayable in whole or in part at any time, subject to a prepayment premium, which may be adjusted under some circumstances based on asset coverage levels. Interest expense of \$651,194 is included in the Diversified Income & Convertible's Statement of Operations.

The following table shows the maturity date, interest rate, notional/carrying amount and estimated fair value of the Notes outstanding at January 31, 2016:

Maturity Date	Interest Rate	Notional/Carrying Amount	Estimated Fair Value
November 22, 2029	3.94%	\$50,000,000	\$50,000,000

The agreements governing the MRPS and Notes impose certain additional customary covenants and restrictions on the Fund, including, among others, asset coverage requirements, restrictions on distributions and a requirement that the Fund adhere to its stated investment policies.

8. Margin Loan Financing

Diversified Income & Convertible has entered into a margin loan financing agreement with BNP Paribas Prime Brokerage International, Ltd. (BNP). The margin loan is offered at a daily rate equal to the U.S. 3-month LIBOR rate. At January 31, 2016, the Fund had a borrowing outstanding under the margin agreement totaling \$25,000,000. The interest rate charged at January 31, 2016 was 1.51%. During the period ended January 31, 2016, the weighted average daily balance was \$25,000,000 at the weighted average interest rate of 1.23%. With respect to the margin loan agreement, interest expense of \$510,836 is included in the Fund's Statement of Operations.

The Fund is required to fully collateralize its outstanding loan balance as determined by BNP. Pledged assets are held in a segregated account and are denoted in the Schedule of Investments.

Notes to Financial Statements

AllianzGI Equity & Convertible Income Fund

AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

January 31, 2016

9. Common Share Repurchase Plan

The common share repurchase plan (the "Repurchase Plan") of Diversified Income & Convertible (for purposes of this paragraph, the "Fund") became effective on September 4, 2015. The Board of Trustees initially authorized the Repurchase Plan at the Fund's organizational meeting on April 20, 2015. The Repurchase Plan is intended in part to provide additional liquidity in the marketplace for the Fund's common shares. The Repurchase Plan will remain in effect until 230 days after the commencement of the Repurchase Plan (i.e., April 21, 2016) (the "Repurchase Period"), during which the Fund will repurchase its common shares in the open market on any trading day when the Fund's common shares are trading at a discount of 2% or more from the common shares' closing NAV on the prior trading day and only so long as shares of the SPDR Barclays Convertible Securities ETF have not, at any time during such trading day, traded down 2% or more from their closing market price on the prior trading day. Any repurchases are and will be made through a single broker-dealer who was not an underwriter in this initial public offering of the Fund's common shares acting as the Fund's agent. On any day that shares are repurchased under the Repurchase Plan, the Fund, subject to certain conditions under Rule 10b-18 under the Exchange Act and other applicable laws, including Regulation M, repurchases its shares in an amount equal to the lesser of (i) \$125,000 based on the aggregate purchase price of the common shares or (ii) the maximum number of common shares the Fund may purchase under Rule 10b-18, which, generally, is currently 25% of the average daily trading volume of the common shares over the trailing four week period. In addition to providing potential additional liquidity in the marketplace, any repurchases under the Repurchase Plan are made by the Fund at a discount to then current NAV of the common shares and therefore would be accretive to the NAV of the remaining common shares following the repurchases, and the Repurchase Plan may also have the effect of preventing or reducing a significant decline in the market price of the common shares in comparison to their NAV.

For the period ended January 31, 2016, the Fund repurchased 633,150 shares of its common stock on the open market, which represented approximately 6% of shares outstanding as of January 31, 2016 at a total cost, inclusive of commissions (\$0.03 per share), of \$11,346,426 at a per-share weighted average discount to NAV of 14.10%.

10. Related Party Transactions

The Investment Manager is a related party. Fees payable to this party are disclosed in Note 4 and the accrued related party fee amounts are disclosed on the Statements of Assets & Liabilities.

Certain Funds are permitted to purchase or sell securities from or to certain related affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by the Funds from or to another fund or portfolio that are, or could be, considered an affiliate by virtue of having a common investment adviser (or

affiliated investment advisers), common Trustees and/or common officers complies with Rule 17a-7 of the Act. Further, as defined under the procedures, each transaction is effected at the current market price.

During the year ended January 31, 2016, Equity & Convertible Income and Dividend, Interest & Premium Strategy engaged in purchases of securities pursuant to Rule 17a-7 of the Act in the amounts of \$1,500,065 and \$9,477,504, respectively.

11. Subsequent Events

In preparing these financial statements, the Funds management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

On February 1, 2016, a monthly distribution of \$0.167 per share was declared to Diversified Income & Convertible common shareholders, payable March 1, 2016 to common shareholders of record on February 12, 2016.

On March 1, 2016, a monthly distribution of \$0.167 per share was declared to Diversified Income & Convertible common shareholders, payable April 1, 2016 to common shareholders of record on March 11, 2016.

On March 4, 2016, the following quarterly distributions were declared to shareholders, payable March 24, 2016 to shareholders of record on March 14, 2016.

Equity & Convertible Income	\$0.38 per share
Dividend, Interest & Premium Strategy	\$0.30 per share

On March 22, 2016, the Board of Trustees of Diversified Income & Convertible approved the discontinuance of the Common Share Repurchase Plan effective April 22, 2016.

There were no other subsequent events identified that require recognition or disclosure.

Financial Highlights**AllianzGI Diversified Income & Convertible Fund**

For a common share outstanding throughout the period:

	For the period May 27, 2015* through January 31, 2016
Net asset value, beginning of period	\$23.88
Investment Operations:	
Net investment income (1)	0.18
Net realized and unrealized loss	(4.09)
Total from investment operations	(3.91)
Dividends and Distributions to Common Shareholders from:	
Net investment income	(0.62)
Net realized gains	(0.55)
Total dividends and distributions to common shareholders	(1.17)
Common Share Transactions:	
Offering costs charged to paid-in-capital in excess of par	(0.05)
Accretion to net asset value resulting from share repurchases	0.16
Net asset value, end of period	\$18.91
Market price, end of period	\$16.40
Total Investment Return (2)	(30.12)%
RATIOS/SUPPLEMENTAL DATA:	
Net assets, end of period (000 \$)	\$201,644
Ratio of expenses to average net assets, including interest expense (4)(5)	3.26%(3)
Ratio of expenses to average net assets, excluding interest expense (4)(5)	2.56%(3)
Ratio of net investment income to average net assets (5)	1.24%(3)
Mandatory redeemable preferred shares asset coverage per share	\$193
Portfolio turnover rate	149%

* Commencement of operations.

(1) Calculated on average common shares outstanding.

(2) Total investment return is calculated assuming a purchase of a common share at the market price on the first day and a sale of a common share at the market price on the last day of each period reported. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges in connection with the purchase or sale of Fund shares. Total return for a period of less than one year is not annualized.

(3) Annualized.

(4) Interest expense relates to participation in debt financing (See Note 7 and Note 8).

(5) Calculated on the basis of income and expenses applicable to both common and mandatory redeemable preferred shares relative to average net assets of common shareholders.

Report of Independent Registered Public Accounting Firm

AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

To the Shareholders and Board of Trustees of
AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

In our opinion, the accompanying statements of assets and liabilities, including the schedules of investments, and the related statements of operations, of changes in net assets, and of cash flows (AllianzGI Diversified Income & Convertible Fund only) and the financial highlights present fairly, in all material respects, the financial position of the AllianzGI Diversified Income & Convertible Fund, AllianzGI Equity & Convertible Income Fund and AllianzGI NFJ Dividend, Interest & Premium Strategy Fund (the Funds) at January 31, 2016, and the results of each of their operations and cash flows, the changes in each of their net assets and their financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at January 31, 2016 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP
New York, New York

Tax Information (unaudited)

AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

As required by the Internal Revenue Code, shareholders must be notified regarding certain tax attributes of distributions made by each Fund.

Under the Jobs and Growth Tax Relief Reconciliation Act of 2003, the following percentages of ordinary dividends paid during the fiscal year ended January 31, 2016, are designated as qualified dividend income (or the maximum amount allowable):

Diversified Income & Convertible	16.40%
Equity & Convertible Income	51.08%
Dividend, Interest & Premium Strategy	100.00%

Corporate shareholders are generally entitled to take the dividend received deduction on the portion of a Fund's dividend distribution that qualifies under tax law. The percentage of the following Funds' ordinary income dividends paid during the fiscal year ended January 31, 2016, that qualify for the corporate deduction is set below (or the maximum amount allowable):

Diversified Income & Convertible	15.73%
Equity & Convertible Income	50.84%
Dividend, Interest & Premium Strategy	100.00%

Since the Funds' tax year is not the calendar year, another notification will be sent with respect to calendar year 2016. In January 2017, shareholders will be advised on IRS Form 1099 DIV as to the federal tax status of dividends and distributions received during calendar 2016. The amount that will be reported will be the amount to use on the shareholders' 2016 federal income tax return and may differ from the amount which must be reported in connection with the Funds' tax year ended January 31, 2016. Shareholders are advised to consult their tax advisers as to the federal, state and local tax status of the dividend income received from the Funds.

Annual Shareholder Meeting Results/Changes to the Board of Trustees (unaudited)

AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

Privacy Policy:

Please read this Policy carefully. It gives you important information about how Allianz Global Investors U.S. and its U.S. affiliates (AllianzGI US, we or us) handle non-public personal information (Personal Information) that we may receive about you. It applies to all of our past, present and future clients and shareholders of AllianzGI US and the funds and accounts it manages, advises, sub-advises, administers or distributes, and will continue to apply when you are no longer a client or shareholder. As used throughout this Policy, AllianzGI US means Allianz Global Investors U.S. LLC, Allianz Global Investors Fund Management LLC, Allianz Global Investors Distributors LLC, NFJ Investment Group LLC and the family of registered and unregistered funds managed by one or more of these firms. AllianzGI US is part of a global investment management group, and the privacy policies of other Allianz Global Investors entities outside of the United States may have provisions in their policies that differ from this Privacy Policy. Please refer to the website of the specific non-US Allianz Global Investors entity for its policy on privacy.

We Care about Your Privacy

We consider your privacy to be a fundamental aspect of our relationship with you, and we strive to maintain the confidentiality, integrity and security of your Personal Information. To ensure your privacy, we have developed policies that are designed to protect your Personal Information while allowing your needs to be served.

Information We May Collect

In the course of providing you with products and services, we may obtain Personal Information about you, which may come from sources such as account application and other forms, from other written, electronic, or verbal communications, from account transactions, from a brokerage or financial advisory firm, financial advisor or consultant, and/or from information you provide on our website.

You are not required to supply any of the Personal Information that we may request. However, failure to do so may result in us being unable to open and maintain your account, or to provide services to you.

How Your Information Is Shared

We do not disclose your Personal Information to anyone for marketing purposes. We disclose your Personal Information only to those service providers, affiliated and non-affiliated, who need the information for everyday business purposes, such as to respond to your inquiries, to perform services, and/or to service and maintain your account. This applies to all of the categories of Personal Information we collect about you. The affiliated and non-affiliated service providers who receive your Personal Information also may use it to process your transactions, provide you with materials (including preparing and mailing prospectuses and shareholder reports and gathering shareholder proxies), and provide you with account statements and other materials relating to your account. These service providers provide services at our direction, and under their agreements with us, are required to keep your Personal Information confidential

and to use it only for providing the contractually required services. Our service providers may not use your Personal Information to market products and services to you except in conformance with applicable laws and regulations. We also may provide your Personal Information to your respective brokerage or financial advisory firm, custodian, and/or to your financial advisor or consultant.

In addition, we reserve the right to disclose or report Personal Information to non-affiliated third parties, in limited circumstances, where we believe in good faith that disclosure is required under law, to cooperate with regulators or law enforcement authorities or pursuant to other legal process, or to protect our rights or property, including to enforce our Privacy Policy or other agreements with you. Personal Information collected by us may also be transferred as part of a corporate sale, restructuring, bankruptcy, or other transfer of assets.

Security of Your Information

We maintain your Personal Information for as long as necessary for legitimate business purposes or otherwise as required by law. In maintaining this information, we have implemented appropriate procedures that are designed to restrict access to your Personal Information only to those who need to know that information in order to provide products and/or services to you. In addition, we have implemented physical, electronic and procedural safeguards to help protect your Personal Information.

Privacy and the Internet

The Personal Information that you provide through our website, as applicable, is handled in the same way as the Personal Information that you provide by any other means, as described above. This section of the Policy gives you additional information about the way in which Personal Information that is obtained online is handled.

• **Online Enrollment, Account Access and Transactions:** When you visit our website, you can visit pages that are open to the general public, or, where available, log into protected pages to enroll online, access information about your account, or conduct certain transactions. Access to the secure pages of our website is permitted only after you have created a User ID and Password. Obtaining Additional Information

If you have any questions about this Privacy Policy or our privacy related practices in the United States, you may contact us via our dedicated email at PrivacyUS@allianzgi.com.

Proxy Voting Policies & Procedures:

A description of the policies and procedures that the Funds have adopted to determine how to vote proxies relating to portfolio securities and information about how the Funds voted proxies relating to portfolio securities held during the most recent twelve month period ended June 30 is available (i) without charge, upon request, by calling the Funds' shareholder servicing agent at (800) 254-5197; (ii) on the Funds' website at us.allianzgi.com/closedendfunds; and (iii) on the Securities and Exchange Commission's website at www.sec.gov.

Changes in Investment Policy:

Effective September 21, 2015, Diversified Income & Convertible and Equity & Convertible Income each rescinded its non-fundamental policy to normally write call options on the stocks held in its portfolio with respect to approximately 70% of the value of each position, and adopted a revised non-fundamental policy to normally write call options on the stocks held in its portfolio with respect to up to approximately 70% of the value of each equity position (emphasis added). The exact policy of each Fund with respect to writing call options that was in effect prior to September 21, 2015 is set forth below:

Diversified Income & Convertible

Diversified Income & Convertible expects to normally employ a strategy of writing (selling) covered call options on the stocks held in its portfolio (the Option Strategy). It is expected that Diversified Income & Convertible will ordinarily write call options on the individual stocks held in its portfolio, and with respect to approximately 70% of the value of each position. Diversified

**Privacy Policy/Proxy Voting Policies & Procedures/
Changes in Investment Policy (unaudited) (continued)**

**AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund**

Income & Convertible initially intends to write covered call options on approximately 50% of Diversified Income & Convertible's common stocks, but may write covered call options on approximately 30% to 80% of Diversified Income & Convertible's common stocks from time to time, depending on market conditions. Diversified Income & Convertible's use of the Option Strategy may vary from time to time, depending on market conditions and other factors.

Equity & Convertible Income

Equity & Convertible Income employs a strategy of writing (selling) call options on the stocks held in the equity component of its portfolio (the Equity Component) as well as on equity indexes, generally with respect to approximately 70% of the value of the securities in the Equity Component (the Option Strategy). The extent of Equity & Convertible Income's use of the Option Strategy will vary depending on market conditions and other factors, and Equity & Convertible Income may determine from time to time to write call options on only a portion, or none, of the stocks in the Equity Component.

The newly adopted non-fundamental policy of each Fund with respect to writing call options is set forth below:

Diversified Income & Convertible

Diversified Income & Convertible expects to normally employ a strategy of writing (selling) covered call options on the stocks held in its portfolio (the Option Strategy). It is expected that Diversified Income & Convertible will ordinarily write call options on the individual stocks held in its portfolio, and with respect to up to approximately 70% of the value of each position. Diversified Income & Convertible initially intends to write covered call options on approximately 50% of Diversified Income & Convertible's common stocks, but may write covered call options on approximately 30% to 80% of Diversified Income & Convertible's common stocks from time to time, depending on market conditions. Diversified Income & Convertible's use of the Option Strategy may vary from time to time, depending on market conditions and other factors.

Equity & Convertible Income

Equity & Convertible Income employs a strategy of writing (selling) call options on the stocks held in the equity component of its portfolio (the Equity Component) as well as on equity indexes, generally with respect to up to approximately 70% of the value of the securities in the Equity

Changes in Investment Policy (unaudited) (continued)**

**AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund**

indexes are approximately 100% of the net asset value of the Fund's equity component, and adopted a revised non-fundamental policy to normally write call options on equity indexes such that the underlying value of the indexes is within a range of approximately 75% to 100% of the net asset value of the Fund's equity component. The exact policy of the Dividend, Interest & Premium Strategy with respect to writing call options that was in effect prior to October 28, 2015 is set forth below:

In implementing the Dividend, Interest & Premium Strategy's Index Option Strategy, the Fund will sell or write call options on equity indexes such that the underlying value of the indexes is approximately equal to (and does not exceed) the net asset value of the Fund's Equity Component i.e., approximately 75% of the Fund's net assets, subject to future fluctuations in the assets attributable to the Equity Component and annual rebalancings. For these purposes, the Fund treats options on indexes as being written on securities having an aggregate value equal to the face or notional amount of the index subject to the option.

The newly adopted non-fundamental policy of the Fund with respect to writing call options is set forth below:

Dividend, Interest & Premium Strategy will employ its strategy of writing (selling) call options on equity indexes such that the underlying value of the indexes is within a range of approximately 75% to 100% of the net asset value of the Fund's Equity Component under normal market conditions, subject to future fluctuations in the assets attributable to the Equity Component and annual rebalancings. However, the underlying value of the indexes may be below 75% of the net asset value of the Equity Component in unusual market conditions. For these purposes, the Fund treats options on indexes as being written on securities held by the Fund having an aggregate value equal to the face or notional amount of the index subject to the options.

Dividend Reinvestment Plan (unaudited)

AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

Each Fund has adopted a Dividend Reinvestment Plan (the Plan) which allows common shareholders to reinvest Fund distributions in additional common shares of the Fund. American Stock Transfer & Trust Company, LLC (the Plan Agent) serves as agent for common shareholders in administering the Plan. It is important to note that participation in the Plan and automatic reinvestment of Fund distributions does not ensure a profit, nor does it protect against losses in a declining market.

Automatic enrollment / voluntary participation. Under the Plan, common shareholders whose shares are registered with the Plan Agent (registered shareholders) are automatically enrolled as participants in the Plan and will have all Fund distributions of income, capital gains and returns of capital (together, distributions) reinvested by the Plan Agent in additional common shares of the Funds, unless the shareholder elects to receive cash. Registered shareholders who elect not to participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, to the nominee) by the Plan Agent. Participation in the Plan is voluntary. Participants may terminate or resume their enrollment in the Plan at any time without penalty by notifying the Plan Agent online at www.amstock.com, by calling (800) 254-5197, by writing to the Plan Agent, American Stock Transfer & Trust Company, LLC, at P.O. Box 922, Wall Street Station, New York, NY 10269-0560, or, as applicable, by completing and returning the transaction form attached to a Plan statement. A proper notification will be effective immediately and apply to the Funds' next distribution if received by the Plan Agent at least three (3) days prior to the record date for the distribution; otherwise, a notification will be effective shortly following the Funds' next distribution and will apply to the Funds' next succeeding distribution thereafter. If you withdraw from the Plan and so request, the Plan Agent will arrange for the sale of your shares and send you the proceeds, minus a transaction fee and brokerage commissions.

How shares are purchased under the Plan. For each Fund distribution, the Plan Agent will acquire common shares for participants either (i) through receipt of newly issued common shares from the Funds (newly issued shares) or (ii) by purchasing common shares of the Funds on the open market (open market purchases). If, on a distribution payment date, the net asset value per common share of the Funds (NAV) is equal to or less than the market price per common share plus estimated brokerage commissions (often referred to as a market premium), the Plan Agent will invest the distribution amount on behalf of participants in newly issued shares at a price equal to the greater of (i) NAV or (ii) 95% of the market price per common share on the payment date. If the NAV is greater than the market price per common share plus estimated brokerage commissions (often referred to as a market discount) on a distribution payment date, the Plan agent will instead attempt to invest the distribution amount through open market purchases. If the Plan Agent is unable to invest the full distribution amount in open market

Dividend Reinvestment Plan (unaudited) (continued)

AllianzGI Diversified Income & Convertible Fund
AllianzGI Equity & Convertible Income Fund
AllianzGI NFJ Dividend, Interest & Premium Strategy Fund

purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Agent will invest any un-invested portion of the distribution in newly issued shares at a price equal to the greater of (i) NAV or (ii) 95% of the market price per share as of the last business day immediately prior to the purchase date (which, in either case, may be a price greater or lesser than the NAV per common share on the distribution payment date). No interest will be paid on distributions awaiting reinvestment. Under the Plan, the market price of common shares on a particular date is the last sales price on the exchange where the shares are listed on that date or, if there is no sale on the exchange on that date, the mean between the closing bid and asked quotations for the shares on the exchange on that date. The NAV per common share on a particular date is the amount calculated on that date (normally at the close of regular trading on the New York Stock Exchange) in accordance with the Funds' then current policies.

Fees and expenses. No brokerage charges are imposed on reinvestments in newly issued shares under the Plan. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases. There are currently no direct service charges imposed on participants in the Plan, although the Funds reserve the right to amend the Plan to include such charges. The Plan Agent imposes a transaction fee (in addition to brokerage commissions that are incurred) if it arranges for the sale of your common shares held under the Plan.

Shares held through nominees. In the case of a registered shareholder such as a broker, bank or other nominee (together, a nominee) that holds common shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of common shares certified by the nominee/record shareholder as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who participate in the Plan. If your common shares are held through a broker, bank or other nominee and are not registered with the Plan Agent, neither you nor the nominee will be participants in or have distributions reinvested under the Plan. If you are a beneficial owner of common shares and wish to participate in the Plan, and your nominee is unable or unwilling to become a registered shareholder and a Plan participant on your behalf, you may request that your nominee arrange to have all or a portion of your shares re-registered with the Plan Agent in your name so that you may be enrolled as a participant in the Plan. Please contact your nominee for details or for other possible alternatives. Participants whose shares are registered with the Plan Agent in the name of one nominee firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

Tax consequences. Automatically reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions *i.e.*, automatic reinvestment in additional shares does not relieve shareholders of, or defer the need to pay, any income tax that may be payable (or that is required to be

ITEM 2. CODE OF ETHICS

(a) As of the end of the period covered by this report, the registrant has adopted a code of ethics (the Section 406 Standards for Investment Companies Ethical Standards for Principal Executive and Financial Officers) that applies to the registrant's Principal Executive Officer and Principal Financial Officer; the registrant's Principal Financial Officer also serves as the Principal Accounting Officer. The registrant undertakes to provide a copy of such code of ethics to any person upon request, without charge, by calling 1-800-254-5197. The code of ethics is included as an Exhibit 99.CODEETH hereto.

(b) During the period covered by this report, there were not any amendments to a provision of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, there were not any waivers or implicit waivers to a provision of the code of ethics adopted in 2(a) above.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The registrant's Board has determined that Mr. James A. Jacobson, a member of the Board's Audit Oversight Committee is an audit committee financial expert, and that he is independent, for purposes of this Item.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

a) Audit fees. The aggregate fees billed for each of the last two fiscal years (the Reporting Periods) for professional services rendered by the Registrant's principal accountant (the Auditor) for the audit of the Registrant's annual financial statements, or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$76,220 in 2015 and \$76,220 in 2016.

b) Audit-Related Fees. There were no audit related fees billed for each of the last two fiscal years.

c) Tax Fees. The aggregate fees billed in the Reporting Periods for professional services rendered by the Auditor for tax compliance,

tax service and tax planning (Tax Services) were \$16,470 in 2015 and \$16,960 in 2016. These services consisted of review or preparation of U.S. federal, state, local and excise tax returns and calculation of excise tax distributions.

d) All Other Fees. There were no other fees billed in the Reporting Periods for products and services provided by the Auditor to the Registrant.

e) 1. Audit Committee Pre-Approval Policies and Procedures. The Registrant's Audit Committee has established policies and procedures for pre-approval of all audit and permissible non-audit services by the Auditor for the Registrant, as well as the Auditor's engagements related directly to the operations and financial reporting of the Registrant. The Registrant's policy is stated below.

AUDIT OVERSIGHT COMMITTEE POLICY FOR PRE-APPROVAL OF SERVICES PROVIDED BY THE INDEPENDENT ACCOUNTANTS

The Fund's Audit Oversight Committee (Committee) is charged with the oversight of the Fund's financial reporting policies and practices and their internal controls. As part of this responsibility, the Committee must pre-approve any independent accounting firm's engagement to render audit and/or permissible non-audit services, as required by law. In evaluating a proposed engagement by the independent accountants, the Committee will assess the effect that the engagement might reasonably be expected to have on the accountant's independence. The Committee's evaluation will be based on:

a review of the nature of the professional services expected to be provided, the fees to be charged in connection with the services expected to be provided,

a review of the safeguards put into place by the accounting firm to safeguard independence, and periodic meetings with the accounting firm.

POLICY FOR AUDIT AND NON-AUDIT SERVICES TO BE PROVIDED TO THE FUND

On an annual basis, the Fund's Committee will review and pre-approve the scope of the audits of the Fund and proposed audit fees and permitted non-audit (including audit-related) services that may be performed by the Fund's independent accountants. At least annually, the Committee will receive a report of all audit and non-audit services that were rendered in the previous calendar year pursuant to this Policy. In addition to the Committee's

pre-approval of services pursuant to this Policy, the engagement of the independent accounting firm for any permitted non-audit service provided to the Fund will also require the separate written pre-approval of the President of the Fund, who will confirm, independently, that the accounting firm's engagement will not adversely affect the firm's independence. All non-audit services performed by the independent accounting firm will be disclosed, as required, in filings with the Securities and Exchange Commission.

AUDIT SERVICES

The categories of audit services and related fees to be reviewed and pre-approved annually by the Committee are:

Annual Fund financial statement audits

Seed audits (related to new product filings, as required)

SEC and regulatory filings and consents

AUDIT-RELATED SERVICES

The following categories of audit-related services are considered to be consistent with the role of the Fund's independent accountants and services falling under one of these categories will be pre-approved by the Committee on an annual basis if the Committee deems those services to be consistent with the accounting firm's independence:

Accounting consultations

Fund merger support services

Agreed upon procedure reports

Other attestation reports

Comfort letters

Other internal control reports

Individual audit-related services that fall within one of these categories and are not presented to the Committee as part of the annual pre-approval process described above, may be pre-approved, if deemed consistent with the accounting firm's independence, by the Committee Chair (or any other Committee member who is a disinterested trustee under the Investment Company Act to whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$250,000. Any such pre-approval shall be reported to the full Committee at its next regularly scheduled meeting.

TAX SERVICES

The following categories of tax services are considered to be consistent with the role of the Fund's independent accountants and services falling under one of these categories will be pre-approved by the Committee on an annual basis if the Committee deems those services to be consistent with the accounting firm's independence:

Tax compliance services related to the filing or amendment of the following:

Federal, state and local income tax compliance; and, sales and use tax compliance

Timely RIC qualification reviews

Tax distribution analysis and planning

Tax authority examination services

Tax appeals support services

Accounting methods studies

Fund merger support service

Other tax consulting services and related projects

Individual tax services that fall within one of these categories and are not presented to the Committee as part of the annual pre-approval process described above, may be pre-approved, if deemed consistent with the accounting firm's independence, by the Committee Chairman (or any other Committee member who is a disinterested trustee under the Investment Company Act to whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$250,000. Any such pre-approval shall be reported to the full Committee at its next regularly scheduled meeting.

PROSCRIBED SERVICES

The Fund's independent accountants will not render services in the following categories of non-audit services:

Bookkeeping or other services related to the accounting records or financial statements of the Fund

Financial information systems design and implementation

Appraisal or valuation services, fairness opinions, or contribution-in-kind reports

Actuarial services

Internal audit outsourcing services

Management functions or human resources

Broker or dealer, investment adviser or investment banking services

Legal services and expert services unrelated to the audit

Edgar Filing: TRANSALTA CORP - Form 6-K

Any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible

PRE-APPROVAL OF NON-AUDIT SERVICES PROVIDED TO OTHER ENTITIES WITHIN THE FUND COMPLEX

The Committee will pre-approve annually any permitted non-audit services to be provided to Allianz Global Investors Fund Management LLC or any other investment manager to the Fund (but not including any sub-adviser whose role is primarily portfolio management and is sub-contracted by the investment manager) (the Investment Manager) and any entity

controlling, controlled by, or under common control with the Investment Manager that provides ongoing services to the Fund (including affiliated sub-advisers to the Fund), provided, in each case, that the engagement relates directly to the operations and financial reporting of the Fund (such entities, including the Investment Manager, shall be referred to herein as the Accounting Affiliates). Individual projects that are not presented to the Committee as part of the annual pre-approval process, may be pre-approved, if deemed consistent with the accounting firm's independence, by the Committee Chairman (or any other Committee member who is a disinterested trustee under the Investment Company Act to whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$250,000. Any such pre-approval shall be reported to the full Committee at its next regularly scheduled meeting.

Although the Committee will not pre-approve all services provided to the Investment Manager and its affiliates, the Committee will receive an annual report from the Fund's independent accounting firm showing the aggregate fees for all services provided to the Investment Manager and its affiliates.

DE MINIMUS EXCEPTION TO REQUIREMENT OF PRE-APPROVAL OF NON-AUDIT SERVICES

With respect to the provision of permitted non-audit services to a Fund or Accounting Affiliates, the pre-approval requirement is waived if:

(1) The aggregate amount of all such permitted non-audit services provided constitutes no more than (i) with respect to such services provided to the Fund, five percent (5%) of the total amount of revenues paid by the Fund to its independent accountant during the fiscal year in which the services are provided, and (ii) with respect to such services provided to Accounting Affiliates, five percent (5%) of the total amount of revenues paid to the Fund's independent accountant by the Fund and the Accounting Affiliates during the fiscal year in which the services are provided;

(2) Such services were not recognized by the Fund at the time of the engagement for such services to be non-audit services; and

(3) Such services are promptly brought to the attention of the Committee and approved prior to the completion of the audit by the Committee or by the Committee Chairman (or any other Committee member who is a disinterested trustee under the Investment Company Act to whom this Committee Chairman or other delegate shall be reported to the full Committee at its next regularly scheduled meeting.

e) 2. No services were approved pursuant to the procedures contained in paragraph (C) (7) (i) (C) of Rule 2-01 of Registration S-X.

f) Not applicable

g) Non-audit fees. The aggregate non-audit fees billed by the Auditor for services rendered to the Registrant, and rendered to the Adviser, for the 2015 Reporting Period was \$4,142,306 and the 2016 Reporting Period was \$5,097,596.

h) Auditor Independence. The Registrant's Audit Oversight Committee has considered whether the provision of non-audit services that were rendered to the Adviser which were not pre-approved is compatible with maintaining the Auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANT

The Fund has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee of the Fund is comprised of Deborah A. DeCotis, F. Ford Drummond, Bradford K. Gallagher, James A. Jacobson, Hans W. Kertess, James S. MacLeod, William B. Ogden, IV, David S. Scoon and Alan Rappaport.

ITEM 6. SCHEDULE OF INVESTMENTS

(a) The registrant's Schedule of Investments is included as part of the report to shareholders filed under Item 1 of this form.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

ALLIANZGI NFJ DIVIDEND, INTEREST & PREMIUM STRATEGY FUND

(the Trust)

PROXY VOTING POLICY

1. It is the policy of the Trust that proxies should be voted in the interest of its shareholders, as determined by those who are in the best position to make this determination. The Trust believes that the firms and/or persons purchasing and selling securities for the Trust and analyzing the performance of the Trust's securities are in the best position and have the information necessary to vote proxies in the best interests of the Trust and its shareholders, including in situations where conflicts of interest may arise between the interests of shareholders, on one hand, and the interests of the investment adviser, sub-advisers and/or any other affiliated person of the Trust, on the other. Accordingly, the Trust's policy shall be to delegate proxy voting responsibility to those entities with portfolio management responsibility for the Trust.
2. The Trust delegates the responsibility for voting proxies to Allianz Global Investors Fund Management LLC (AGIFM), which will in turn delegate such responsibility to the sub-adviser of the particular Trust. AGIFM's Proxy Voting Policy Summary is attached as Appendix A hereto. Summaries of the detailed proxy voting policies of the Trust's current sub-advisers are set forth in Appendix B attached hereto. Such summaries may be revised from time to time to reflect changes to the sub-advisers' detailed proxy voting policies.
3. The party voting the proxies (i.e., the sub-advisers) shall vote such proxies in accordance with such party's proxy voting policies and, to the extent consistent with such policies, may rely on information and/or recommendations supplied by others.
4. AGIFM and the sub-advisers of the Trust with proxy voting authority shall deliver a copy of its respective proxy voting policies and any material amendments thereto to the applicable Board of the Trust promptly after the adoption or amendment of any such policies.
5. The party voting the proxy shall: (i) maintain such records and provide such voting information as is required for the Trust's regulatory filings including, without limitation, Form N-PX and the required disclosure of

policy called for by Item 18 of Form N-2 and Item 7 of Form N-CSR; and (ii) shall provide such additional information as may be requested, from time to time, by the Board or the Trust's Chief Compliance Officer.

6. This Proxy Voting Policy Statement, the Proxy Voting Policy Summary of AGIFM and summaries of the detailed proxy voting policies of each sub-adviser of a Trust with proxy voting authority and how the Trust voted proxies relating to portfolio securities held during the most recent twelve month period ending June 30, shall be made available (i) without charge, upon request, by calling 1-800-254-5197; (ii) on the Trust's website at us.allianzgi.com; and (iii) on the US Securities and Exchange Commission's (SEC's) website at www.sec.gov. In addition, to the extent required by applicable law or determined by the Trust's Chief Compliance Officer or Board of Trustees, the Proxy Voting Policy Summary of AGIFM and summaries of the detailed proxy voting policies of the sub-advisers with proxy voting authority shall also be included in the Trust's Registration Statement or Form N-CSR filings.

ALLIANZ GLOBAL INVESTORS FUND MANAGEMENT LLC (AGIFM)

PROXY VOTING POLICY SUMMARY

1. It is the policy of AGIFM that proxies should be voted in the interest of the shareholders of the applicable fund, as determined by those who are in the best position to make this determination. AGIFM believes that the firms and/or persons purchasing and selling securities for the funds and analyzing the performance of the funds securities are in the best position and have the information necessary to vote proxies in the best interests of the funds and their shareholders, including in situations where conflicts of interest may arise between the interests of shareholders, on one hand, and the interests of the investment adviser, a sub-adviser and/or any other affiliated person of the fund, on the other. Accordingly, AGIFM's policy shall be to delegate proxy voting responsibility to those entities with portfolio management responsibility for the funds.
2. AGIFM, for each fund for which it acts as investment adviser, delegates the responsibility for voting proxies to the sub-adviser for the respective fund.
3. The party voting the proxies (e.g., the sub-adviser) will vote the proxies in accordance with their proxy voting policies and, to the extent consistent with their policies, may rely on information and/or recommendations supplied by others.
4. AGIFM and each sub-adviser of a fund will deliver a copy of their respective proxy voting policies and any material amendments thereto to the board of the relevant fund promptly after the adoption or amendment of any such policies.
5. The party voting the proxy will: (i) maintain such records and provide such voting information as is required for such funds' regulatory filings including, without limitation, Form N-PX and the required disclosure of policy called for by Item 18 of Form N-2 and Item 7 of Form N-CSR; and (ii) will provide additional information as may be requested, from time to time, by the funds' respective boards or chief compliance officers.
6. Summaries of the proxy voting policies for AGIFM and each sub-adviser of a fund advised by AGIFM and how each fund voted proxies relating to portfolio securities held during the most recent twelve month period ended June 30 will be available (i) without charge, upon request, by calling 1-800-254-5197; (ii) on the Allianz

Edgar Filing: TRANSALTA CORP - Form 6-K

Global Investors Distributors Web site at us.allianzgi.com; and (iii) on the US Securities and Exchange Commission's (SEC's) website at www.sec.gov. In addition, to the extent required by applicable law or determined by the relevant fund's board of directors/trustees or chief compliance officer, summaries of the detailed proxy voting policies of AGIFM, each sub-adviser and each other entity with proxy voting authority for a fund advised by AGIFM shall also be included in the Registration Statement or Form N-CSR filings for the relevant fund.

NFJ Investment Group LLC (NFJ)

Description of Proxy Voting Policy and Procedures

NFJ typically votes proxies as part of its discretionary authority to manage accounts, unless the client has explicitly reserved the authority for itself. When voting proxies, NFJ's primary objective is to make voting decisions solely in the best economic interests of its clients. NFJ will act in a manner that it deems prudent and diligent and which is intended to enhance the economic value of the underlying portfolio securities held in its clients' accounts.

NFJ has adopted written Proxy Voting Policies and Procedures (the "Proxy Guidelines") that are reasonably designed to ensure that it is voting in the best interest of its clients. The Proxy Guidelines reflect NFJ's general voting positions on specific corporate actions, including but not limited to those relating to social and corporate responsibility issues, stock option plans and other management compensation issues, changes to a portfolio company's capital structure and corporate governance. For example, NFJ generally votes for proposals to declassify boards and generally opposes proposals to institute supermajority voting requirements relating to business combinations. In addition, because Proxy Guidelines cannot anticipate all situations and the surrounding facts of each proxy issue, some proxy issues may require a case-by-case analysis (whether or not required by the Proxy Guidelines) and may result in a vote being cast that will deviate from the Proxy Guidelines.

In accordance with the Proxy Guidelines, NFJ may review additional criteria associated with voting proxies and evaluate the expected benefit to its clients when making an overall determination on how or whether to vote the proxy. NFJ may vote proxies individually for an account or aggregate and record votes across a group of accounts, strategy or product. In addition, NFJ may refrain from voting a proxy on behalf of its clients' accounts in certain circumstances, for example, due to de-minimis holdings, impact on the portfolio, items relating to foreign issuers (including ADRs), timing issues related to the opening/closing of accounts and contractual arrangements with clients and/or their authorized delegate. For example, NFJ may refrain from voting a proxy of a foreign issuer due to logistical considerations that may have a detrimental effect on NFJ's ability to vote the proxy. These issues may include, but are not limited to: (i) proxy statements and ballots being written in a foreign language, (ii) untimely notice of a shareholder meeting, (iii) requirements to vote proxies in person, (iv) restrictions on a foreigner's ability to exercise votes, (v) restrictions on the sale of securities for a period of time in proximity to the shareholder meeting, or (vi) requirements to provide local agents with power of attorney to facilitate the voting instructions. Such proxies are voted on a best-efforts basis.

To assist in the proxy voting process, NFJ may retain an independent third party service provider to assist in providing research, analysis and voting recommendations on corporate governance issues and corporate actions as well as assist in the administrative

process. The services provided offer a variety of proxy-related services to assist in NFJ's handling of proxy voting responsibilities.

Conflicts of Interest. NFJ may have conflicts of interest that can affect how it votes its clients' proxies. For example, NFJ or an affiliate may manage a pension plan whose management is sponsoring a proxy proposal. The Proxy Guidelines are designed to prevent material conflicts of interest from affecting the manner in which NFJ votes its clients' proxies. In order to ensure that all material conflicts of interest are handled appropriately while carrying out its obligation to vote proxies, NFJ's Proxy Committee has established procedures addressing how NFJ identifies and resolves any material conflicts of interest with its clients.

Allianz Global Investors US LLC (AllianzGI US)

Description of Proxy Voting Policy and Procedures

AllianzGI US typically votes proxies as part of its discretionary authority to manage accounts, unless the client has explicitly reserved the authority for itself. To ensure that the proxies are voted in the best interests of its clients, AllianzGI US has adopted proxy voting procedures and guidelines for voting proxies on specific types of issues. When voting proxies, AllianzGI US seeks to make voting decisions solely in the best interests of its clients and to enhance the economic value of the underlying portfolio securities held in its clients' accounts. AllianzGI US will not be responsible for voting of proxies that AllianzGI US has not been notified of on a timely basis by the client's custodian.

AllianzGI US has adopted written Proxy Policy Guidelines and Procedures (the Proxy Guidelines) that are reasonably designed to ensure that the firm is voting in the best interest of its clients. The Proxy Guidelines reflect AllianzGI US's general voting positions on specific corporate governance issues and corporate actions. AllianzGI US has retained an independent third party service provider (the Proxy Provider) to assist in the proxy voting process by implementing the votes in accordance with the Proxy Guidelines as well as assisting in the administrative process. The services provided offer a variety of proxy-related services to assist in AllianzGI US's handling of proxy voting responsibilities.

In certain circumstances, a client may request in writing that AllianzGI US vote proxies for its account in accordance with a set of guidelines which differs from the Proxy Guidelines. For example, a client may wish to have proxies voted for its account in accordance with the Taft-Hartley proxy voting guidelines. In that case, AllianzGI US will vote the shares held by such client accounts in accordance with their direction, which may be different from the vote cast for shares held on behalf of other client accounts that vote in accordance with the Proxy Guidelines.

AllianzGI US will generally refrain from voting proxies on non-US securities that are subject to share blocking restrictions. Certain countries require the freezing of shares for trading purposes at the custodian/sub-custodian bank level in order to vote proxies to ensure that shareholders voting at meetings continue to hold the shares through the actual shareholder meeting. However, because AllianzGI US cannot anticipate every proxy

proposal that may arise (including a proxy proposal that an analyst and/or portfolio manager believes has the potential to significantly affect the economic value of the underlying security, such as proxies relating to mergers and acquisitions), AllianzGI US may, from time to time, instruct the Proxy Providers to cast a vote for a proxy proposal in a share blocked country.

The Proxy Guidelines also provide for oversight of the proxy voting process by a Proxy Committee. The Proxy Guidelines summarize AllianzGI US's position on various issues, including issues of corporate governance and corporate actions, and give general indication as to how AllianzGI US will vote shares on such issues. Occasionally, there may be instances when AllianzGI US may not vote proxies in strict adherence to the Proxy Guidelines. To the extent that the Proxy Guidelines do not cover potential voting issues or a case arises of a potential material conflict between AllianzGI US's interest and those of a client with respect to proxy voting, the Proxy Committee will convene to discuss the issues. In evaluating issues, the Proxy Committee may consider information from many sources, including the portfolio management team, the analyst responsible for monitoring the stock of the company at issue, management of a company presenting a proposal, shareholder groups and independent proxy research services. In situations in which the Proxy Guidelines do not give clear guidance on an issue, an analyst or portfolio manager and/or the Proxy Committee will review the issue. In the event that either the analyst or portfolio manager wishes to override the Proxy Guidelines, the proposal will be presented to the Proxy Committee for a final decision. Any deviations from the Proxy Guidelines will be documented and maintained in accordance with Rule 204-2 under the Advisers Act.

In accordance with the Proxy Guidelines, AllianzGI US may review additional criteria associated with voting proxies and evaluate the expected benefit to its clients when making an overall determination on how or whether to vote a proxy. Upon receipt of a client's written request, AllianzGI US may also vote proxies for that client's account in a particular manner that may differ from the Proxy Guidelines. In addition, AllianzGI US may refrain from voting a proxy on behalf of its clients' accounts due to de-minimis holdings, immaterial impact on the portfolio, items relating to non-US issuers (such as those described below), non-discretionary holdings not covered by AllianzGI US, timing issues related to the opening/closing of accounts, securities lending issues (see below), contractual arrangements with clients and/or their authorized delegate, the timing of receipt of information, or where circumstances beyond its control prevent it from voting. For example, AllianzGI US may refrain from voting a proxy of a non-US issuer due to logistical considerations that may impair AllianzGI US's ability to vote the proxy. These issues may include, but are not limited to: (i) proxy statements and ballots being written in a language other than English, (ii) untimely notice of a shareholder meeting, (iii) requirements to vote proxies in person, (iv) restrictions on non-US person's ability to exercise votes, (v) restrictions on the sale of securities for a period of time in proximity to the shareholder meeting, or (vi) requirements to provide local agents with power of attorney to facilitate the voting instructions. Such proxies are voted on a best-efforts basis.

AllianzGI US may vote in accordance with the proxy guidelines of its affiliate advisers when voting in connection with Wrap Programs. The affiliated adviser's guidelines may differ and in fact be in conflict with AllianzGI US's voting guidelines.

If a client has decided to participate in a securities lending program, AllianzGI US will defer to the client's determination and not attempt to recall securities on loan solely for the purpose of voting routine proxies as this could impact the returns received from securities lending and make the client a less desirable lender in the marketplace. If the participating client requests, AllianzGI US will use reasonable efforts to notify the client of proxy measures that AllianzGI US deems material.

The ability to timely identify material events and recommend recall of shares for proxy voting purposes is not within the control of AllianzGI US and requires the cooperation of the client and its other service providers. Efforts to recall loaned securities are not always effective and there can be no guarantee that any such securities can be retrieved in a timely manner for purposes of voting the securities.

ITEM 8.
COMPANIES

PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT

(a)(1)

As of April 5, 2016, the following individual has primary responsibility for the day-to-day implementation of the NFJ Dividend, Interest & Premium Strategy Fund (NFJ or the Fund):

Allianz Global Investors US LLC (AllianzGI US)

The following individual has primary responsibility for the day-to-day implementation of the Fund s **Convertible Component**.

Douglas G. Forsyth, CFA
Managing Director, Chief Investment Officer, US Income & Growth Strategies

Mr. Forsyth is a portfolio manager, a managing director and CIO US Income & Growth Strategies with Allianz Global Investors, which he joined in 1994. He is the head of the firm s US Income and Growth Strategies team and a member of the firm s US Executive Committee. Mr. Forsyth has portfolio management, trading and research responsibilities, and oversees all aspects of the Income and Growth platform s business, including product development and implementation. He has been the lead portfolio manager for the firm s High Yield Bond strategy since its inception in 1994 and assumed lead portfolio management responsibility for the firm s Convertible strategy in 1998. In addition to management responsibility for institutional clients worldwide, Mr. Forsyth supervises multiple open-end and closed-end mutual funds. He has 23 years of investment-industry experience. Mr. Forsyth was previously an analyst at AEGON USA. He has a B.B.A. from the University of Iowa and is a CFA charterholder.

The following individual has primary responsibility for the day-to-day implementation of the **Index Option Strategy**.

Stephen G. Bond-Nelson

Director, Portfolio Manager

Mr. Bond-Nelson is a portfolio manager and director with Allianz Global Investors, which he joined in 1999. He has portfolio-management and research responsibilities for the Structured Products team, and has been with the team since its inception in 2005. Mr. Bond-Nelson has 23 years of investment-industry experience. He was previously a research analyst and associate with Prudential Mutual Funds. He has a B.S. from Lehigh University and an M.B.A. from Rutgers University.

NFJ Investment Group LLC (NFJ)

The following individuals constitute the team that has primary responsibility for the day-to-day implementation of the Fund's **Equity Component**, with Mr. Fischer serving as head of the team:

Ben J. Fischer, CFA***Managing Director, Chief Investment Officer, NFJ, Portfolio Manager***

Mr. Fischer is a portfolio manager, an analyst, a managing director and CIO of NFJ, an Allianz Global Investors company. He has 50 years of experience in portfolio management, investment analysis and research. Mr. Fischer is the product team lead for the NFJ Dividend Value and NFJ International Value investment strategies. He is also a member of the firm's US Executive Committee. Before founding NFJ in 1989, Mr. Fischer was chief investment officer for institutional and fixed-income strategies, a senior vice president and a senior portfolio manager at NationsBank, which he joined in 1971. Before that, he was a securities analyst at Chase Manhattan Bank and Clark, Dodge. Mr. Fischer has a B.A. in economics and a J.D. from the University of Oklahoma, and an M.B.A. from New York University, Leonard N. Stern School of Business. Mr. Fischer is a CFA charterholder.

L. Baxter Hines, CFA***Managing Director, Portfolio Manager/Analyst***

Mr. Hines is a portfolio manager, an analyst and a managing director with NFJ, an Allianz Global Investors company. He is the product team lead for the NFJ International Value II and NFJ International Small Cap Value investment strategies, and is co-lead for the NFJ International Value strategy. Mr. Hines has 10 years of investment-industry experience. Before joining the firm in 2008, he was with the Teacher Retirement System of Texas and worked as a market-data specialist for Reuters. Mr. Hines has a B.A. in economics from the University of Virginia and an M.B.A. from the University of Texas, McCombs School of Business. He is a CFA charterholder.

(a) (2) AllianzGI US

AllianzGI US

Potential Conflicts of Interest

Like other investment professionals with multiple clients, a portfolio manager for a Fund may face certain potential conflicts of interest in connection with managing both the Portfolio and other accounts at the same time. The paragraphs below describe some of these potential conflicts, which AllianzGI US believes are faced by investment professionals at most major financial firms.

AllianzGI US has adopted compliance policies and procedures that address certain of these potential conflicts. The management of accounts with different advisory fee rates and/or fee structures, including accounts that pay advisory fees based on account performance (performance fee accounts), may raise potential conflicts of interest by creating an incentive to favor higher- fee accounts. These potential conflicts may include, among others:

- The most attractive investments could be allocated to higher-fee accounts or performance fee accounts.
- The trading of higher-fee accounts could be favored as to timing and/or execution price. For example, higher-fee accounts could be permitted to sell securities earlier than other accounts when a prompt sale is desirable or to buy securities at an earlier and more opportune time.
- The investment management team could focus their time and efforts primarily on higher-fee accounts due to a personal stake in compensation.

When AllianzGI US considers the purchase or sale of a security to be in the best interests of a Fund as well as other accounts, AllianzGI US's trading desk may, to the extent permitted by applicable laws and regulations, aggregate the securities to be sold or purchased. Aggregation of trades may create the potential for unfairness to a Fund or another account if one account is favored over another in allocating the securities purchased or sold—for example, by allocating a disproportionate amount of a security that is likely to increase in value to a favored account. AllianzGI US considers many factors when allocating securities among accounts, including the account's investment style, applicable investment restrictions, availability of securities, available cash and other current holdings. AllianzGI US attempts to allocate investment opportunities among accounts in a fair and equitable manner. However, accounts are not assured of participating equally or at all in particular investment allocations due to such factors as noted above.

Cross trades, in which one AllianzGI US account sells a particular security to another account (potentially saving transaction costs for both accounts), may also pose a potential conflict of interest when cross trades are effected in a manner perceived to favor one client over another. For example, AllianzGI US may cross a trade between performance fee account and a fixed fee account that results in a benefit to the performance fee account and a detriment to the fixed fee account. AllianzGI US has adopted compliance procedures that provide that all cross trades are to be made at an independent current market price, as required by law.

Another potential conflict of interest may arise from the different investment objectives and strategies of a Fund and other accounts. For example, another account may have a shorter-term investment horizon or different investment objectives, policies or restrictions than a Portfolio. Depending on another account's objectives or other factors, a portfolio manager may give advice and make decisions that may differ from advice given, or the timing or nature of decisions made, with respect to a Fund. In addition, investment decisions are subject to suitability for the particular account involved. Thus, a particular security may not be bought or sold for certain accounts even though it was bought or sold for other accounts at the same time. More rarely, a particular security may be bought for one or more accounts managed by a portfolio manager when one or more other accounts are selling the security (including short sales). There may be circumstances when purchases or sales of portfolio securities for one or more accounts may have an adverse effect on other accounts. AllianzGI US maintains trading policies designed to provide portfolio managers an opportunity to minimize the effect that short sales in one portfolio may have on holdings in other portfolios.

A portfolio manager who is responsible for managing multiple funds and/or accounts may devote unequal time and attention to the management of those funds and/or accounts. As a result, the portfolio manager may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as might be the case if he or she were to devote substantially more attention to the management of a single fund. The effects of this potential conflict may be more pronounced where funds and/or accounts overseen by a particular portfolio manager have different investment strategies.

A Portfolio's portfolio manager(s) may be able to select or influence the selection of the broker/dealers that are used to execute securities transactions for the Fund. In addition to executing trades, some brokers and dealers provide AllianzGI US with brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934), which may result in the payment of higher brokerage fees than might have otherwise be available. These services may be more beneficial to certain funds or accounts than to others. In order to be assured of continuing to receive services considered of value to its clients, AllianzGI US has adopted a brokerage allocation policy embodying the concepts of Section 28(e) of the Securities Exchange Act of 1934. Although the payment of brokerage commissions is subject to the requirement that the portfolio manager determine in good faith that the commissions are reasonable in relation to the value of the brokerage and research services provided to the Fund and the Sub-Adviser's other clients, a portfolio manager's decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds and/or accounts that he or she manages.

A Fund's portfolio manager(s) may also face other potential conflicts of interest in managing a Portfolio, and the description above is not a complete description of every conflict that could be deemed to exist in managing both the Portfolios and other accounts. In addition, a Fund's portfolio manager may also manage other accounts (including their personal assets or the assets of family members) in their personal capacity.

AllianzGI US's investment personnel, including each Fund's portfolio manager, are subject to restrictions on engaging in personal securities transactions pursuant to AllianzGI US's Code of Business Conduct and Code of Ethics (the Code), which contain provisions and requirements designed to identify and address conflicts of interest between personal investment activities and the interests of the Fund. The Code is designed to ensure that the personal securities transactions, activities and interests of the employees of AllianzGI US will not interfere with (i) making decisions in the best interest of advisory clients (including the Portfolios) or (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Pallas Investment Partners, L.P. (Pallas) and Related Entities. Pallas is an investment adviser registered with the SEC. Pallas is owned by Walter Price and Huachen Chen, portfolio managers of a fund that is part of the same fund complex as the Trust (namely, Allianz Funds). Mr. Price and Mr. Chen are dually employed by Pallas and by AllianzGI US

Pallas serves as investment manager to unregistered investment companies (the Pallas Hedge Funds) Pallas Global Technology Hedge Fund, L.P., Pallas Investments II, L.P., and CP21, L.P., each a Delaware limited partnership. The general partner of Pallas Investments II, L.P., Pallas Global Technology Hedge Fund, L.P. and CP21, L.P. is Pallas Investments, LLC, a Delaware limited liability company (the General Partner). Mr. Price and Mr. Chen own a majority of the interests in the General Partner.

AllianzGI US has the right to a minority percentage of the profits of Pallas that are derived from the Pallas Hedge Funds. AllianzGI US has a minority ownership interest in the General Partner.

Each of the Pallas Hedge Funds pays a management fee and an incentive fee (based on a percentage of profits) to either Pallas or the General Partner. The management fee is 1.25% for Pallas Investments II, L.P. and 1.50% for Pallas Global Technology Hedge Fund, L.P. and CP21, L.P.

Mr. Price and Mr. Chen act as portfolio managers for certain AllianzGI US client accounts including, among others, the AllianzGI Technology Fund.

AllianzGI US and Pallas share common employees, facilities, and systems. Pallas may act as investment adviser to one or more of AllianzGI US's affiliates, and may serve as sub-adviser for accounts or clients for which AllianzGI US or one of its affiliates serves as investment manager or investment adviser. AllianzGI US also may provide other services, including but not limited to investment advisory services or administrative services, to Pallas.

AllianzGI US, certain of its affiliates, and Pallas all engage in proprietary research and all acquire investment information and research services from broker-dealers. AllianzGI US and certain of its affiliates share such research and investment information.

In addition, trades entered into by Pallas on behalf of Pallas clients are executed through AllianzGI US's equity trading desk, and trades by Pallas on behalf of Pallas clients (including the Pallas Hedge Funds) are aggregated with trades by AllianzGI US on behalf of AllianzGI US's clients. All trades on behalf of Pallas clients that are executed through AllianzGI US's equity trading desk will be executed pursuant to procedures designed to ensure that all clients of both AllianzGI US and Pallas (including the Pallas Hedge Funds) are treated fairly and equitably over time.

The General Partner and/or Pallas receive a participation in the profits of the Pallas Hedge Funds. Mr. Price also invested personally in one or more of the Pallas Hedge Funds. As a result, Mr. Price has a conflict of interest with respect to the management of the Pallas Hedge Funds and the other accounts that he manages, including the AllianzGI Technology Fund, and he may have an incentive to favor the Pallas Hedge Funds over other accounts that he manages, including the AllianzGI Technology Fund. and he may have an incentive to favor the Pallas Hedge Funds over other accounts that he manages. AllianzGI US has adopted procedures reasonably designed to ensure that Mr. Price meets his fiduciary obligations to all clients for whom he acts as portfolio manager and treats all such clients fairly and equitably over time.

NFI

Potential Conflict of Interest

Like other investment professionals with multiple clients, a portfolio manager for the Fund may face certain potential conflicts of interest in connection with managing both the Portfolio and other accounts at the same time. The paragraphs below describe some of these potential conflicts, which NFI believes are faced by investment professionals at most major financial firms. NFI, the Adviser and the Trustees have adopted compliance policies and procedures that attempt to address certain of these potential conflicts. The management of accounts with different advisory fee rates and/or fee structures, including accounts that pay advisory fees based on account performance (performance fee accounts), may raise potential conflicts of interest by creating an incentive to favor higher-fee accounts. These potential conflicts may include, among others:

- The most attractive investments could be allocated to higher-fee accounts or performance fee accounts.
- The trading of higher-fee accounts could be favored as to timing and/or execution price. For example, higher fee accounts could be permitted to sell securities earlier than other accounts when a prompt sale is desirable or to buy securities at an earlier and more opportune time.
- The investment management team could focus their time and efforts primarily on higher-fee accounts due to a personal stake in compensation.

A potential conflict of interest may arise when the Fund and other accounts purchase or sell the same securities. On occasions when a portfolio manager considers the purchase or sale of a security to be in the best interest of the Fund as well as other accounts, the NFI's trading desk may, to the extent by applicable laws and regulations, aggregate the securities to be sold or purchased in order to obtain the best execution and lower brokerage commissions, if any. Aggregation of trades may create the potential for unfairness to the Fund or another account if one account is favored over another in allocating securities purchased or sold for example, by allocating a disproportionate amount of a security that is likely to increase in value to a favored account.

Another potential conflict of interest may arise based on the different investment objectives and strategies of the Fund and other accounts. For example, another account may have a shorter term investment horizon or different investment objective, policies or restrictions than the Fund. Depending on another account's objectives or other factors, a portfolio manager may give advice and make decisions that may differ from advice given, or the timing or nature of decision made, with respect to the Fund. In addition, investment decisions are the product of many factors in addition to basic suitability for the particular account involved. Thus, a particular security may be bought or sold for certain accounts even though it could have been bought or sold for other accounts at the

same time. More rarely, a particular security may be bought for one or more accounts managed by a portfolio manager when one or more other accounts are selling the security. There may be circumstances when purchases or sales of portfolio securities for one or more accounts may have an adverse effect on other accounts.

The Fund's portfolio manager who is responsible for managing multiple funds and/or accounts may allocate unequal time and attention to the management of those funds and/or accounts. As a result, the portfolio manager may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as might be the case if he or she were to devote substantially more attention to the management of a single fund. The effects of this potential conflict may be more pronounced where funds and/or accounts overseen by a particular portfolio manager have different investment strategies.

The Fund's portfolio managers may be able to select or influence the selection of the brokers and dealers that are used to execute securities transactions for the Fund. In addition to executing trades, some brokers and dealers provide portfolio managers with brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934), which may result in the payment of higher brokerage fees than might have otherwise been available. These services may be more beneficial to certain funds or accounts than to others. Although the payment of brokerage commissions is subject to the requirement that the portfolio manager determine in good faith and the commissions are reasonable in relation to the value of the brokerage and research services provided to the Portfolio and NFJ's other clients, a portfolio manager's decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds and/or accounts that he or she manages.

The Fund's portfolio managers may also face other potential conflicts of interest in managing the Fund, and the description above is not complete description of every conflict that could be deemed to exist in managing both the Fund and other accounts. In addition, the Fund's portfolio manager may also manage other accounts (including their personal assets or the assets of family members) in their personal capacity. The management of these accounts may also involve certain of the potential conflicts described above. Front-running could also exist if a portfolio manager transacted in his own account prior to placing an order for the Fund or other clients. NFJ's investment personnel, including the Fund's portfolio manager, are subject to restrictions on engaging in personal securities transactions, pursuant to a code of ethics adopted by NFJ, which contain provisions and requirements designed to identify and address certain conflicts of interest between personal investments activities and the interest of the Fund.

Compensation Structure for AllianzGI US (including NEJ)

As of January 31, 2016, the following explains the compensation structure of each individual that shares primary responsibility for day-to-day portfolio management of the Fund:

The compensation system is designed to support the organization's corporate values and culture. While acknowledging the importance of financial incentives and seeking to pay top quartile compensation for top quartile performance, AllianzGI US also believes that compensation is only one of a number of critically important elements that allow the emergence of a strong, winning culture that attracts, retains and motivates talented investors and teams. AllianzGI US's compensation system supports its belief that investment professionals are a key element of the company's success in meeting clients' objectives. To the extent that there are regional experts located in other AllianzGI US-affiliated offices worldwide who are associated persons of AllianzGI US and who serve as portfolio managers for certain of the Funds, this compensation strategy is applied independently by the AllianzGI US-affiliated company that employs such a portfolio manager. In such cases, AllianzGI US compensates the employing company through an affiliated transfer pricing arrangement that takes into account the value placed by AllianzGI US on the shared service of the portfolio manager.

The primary components of compensation are the base salary and an annual variable compensation payment. Base salary typically reflects scope, responsibilities and experience required in a particular role, be it on the investment side or any other function in the company. Base compensation is regularly reviewed against peers with the help of compensation survey data. Base compensation is typically a greater percentage of total compensation for more junior positions, while for the most senior roles it is typically a comparatively small component, often capped and only adjusted every few years.

The variable compensation component typically comprises a cash bonus that pays out immediately after the performance year as well as a deferred component, for members of staff whose variable compensation exceeds a certain threshold. Except for certain specialist investment teams as noted below, variable compensation is determined on a discretionary basis and is primarily designed to reflect the achievements of an individual against set goals, over a certain time period. For an investment professional these goals will typically be 70% quantitative and 30% qualitative. The former will reflect a weighted average of investment performance over a three-year rolling time period (one-year (25%) and three year (75%) results) and the latter reflects contributions to broader team goals, contributions made to client review meetings, product development or product refinement initiatives. Portfolio managers have their performance metric aligned with the benchmarks of the client portfolios they manage.

Variable compensation for certain specialist investment teams including AllianzGI US Income & Growth, Structured Products, and NFJ is determined on a formulaic basis. These teams share a percentage of advisory fee revenue including performance fee revenue, if applicable, generated by the investment strategy. Variable compensation for the NFJ Funds also takes into account the performance of the strategy over a five-year period. The relevant performance benchmark for a Fund is the Fund's primary benchmark index.

After consultation and oversight from the firm's compensation committee, the lead portfolio manager allocates the team's share of the shared revenue to the individual team members. Allocation to individual team members is determined based on individual performance and contribution to the team and client success. All team members have

agreed upon performance objectives to serve as a basis for performance evaluation during the year. These objectives are both quantitative and qualitative in nature. Quantitative objectives typically align to investment performance and client-stated objectives. Qualitative objectives reflect contributions to broader team goals, such as idea sharing, contributions made to client review meetings, product development or product refinement initiatives, and the way behaviors reflect AllianzGI US's core values of excellence, passion, integrity and respect. For all investment professionals, a 360 degree feedback evaluation forms part of the qualitative input. Achievement against these goals as measured by the lead portfolio manager and Chief Investment Officer serve to link performance to compensation. Notwithstanding the basis for determining variable compensation, all compensation principles, including the deferral rules and deferred instruments described below, apply.

As noted above, variable compensation includes a deferral component. The deferred component for most recipients would be a notional award of the Long Term Incentive Program (LTIP); for members of staff whose variable compensation exceeds an additional threshold, the deferred compensation is itself split 50%/50% between the LTIP and a Deferral into Funds program (DIF). Deferral rates increase in line with the overall variable compensation and can reach up to 42%. Overall awards, splits, components and deferral percentages are regularly reviewed to ensure they are competitive and, where applicable, comply with regulatory standards.

The LTIP element of the variable compensation cliff vests three years after each (typically annual) award. Its value is directly tied to the operating profit of Allianz Global Investors.

The DIF element of the variable compensation cliff vests three years after each (typically annual) award and enables qualifying members of staff to invest in a range of Allianz Global Investors' funds. Investment professionals are encouraged to invest into their own funds or funds of a similar nature to those that they manage. The value of the DIF award is determined by the performance of the fund over the three-year period covering each award.

Assuming an annual deferral of 33% over a three year period, a typical member of staff will have roughly one year's variable compensation (3x33%) as a deferred component in the bank. Three years after the first award, and for as long as deferred components were awarded without break, cash payments in each year will consist of the annual cash bonus for that current year's performance as well as a payout from LTIP/DIF commensurate with the prior cumulative three-year performance.

In addition to competitive compensation, the firm's approach to retention includes providing a challenging career path for each professional, a supportive culture to ensure each employee's progress and a full benefits package.

(a)(4)

The following summarizes the dollar range of securities each portfolio manager for the Fund beneficially owned of the Fund that he managed as of January 31, 2016.

AllianzGI NFJ Dividend Interest and Premium Strategy

	PM Ownership
Douglas Forsyth, CFA	None
Stephen Bond-Nelson	None
Ben Fischer, CFA	\$100,001 - \$500,000
L. Baxter Hines, CFA	None

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED COMPANIES

None

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees since the Fund last provided disclosure in response to this item.
