(1) Includes shares of our common stock, par value \$0.001 per share, which may be offered pursuant to this registration statement, which shares are issuable upon conversion of convertible debentures and the exercise of warrants held by the selling stockholders. In addition to the shares set forth in the table, the amount to be registered includes an indeterminate number of shares issuable upon conversion of the debentures as such number may be adjusted as a result of stock splits, stock dividends and similar transactions in accordance with Rule 416. The number of shares of common stock registered hereunder represents a good faith estimate by us of the number of shares of common stock issuable upon conversion of the debentures. For purposes of estimating the number of shares of common stock to be included in this registration statement, we calculated a good faith estimate of the number of shares of our common stock that we believe will be issuable upon conversion of the debentures to account for market fluctuations. Should the conversion ratio result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary. In addition, should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price, result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

(2) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(c) under the Securities Act of 1933, using the average of the high and low price as reported on the Over-The-Counter Bulletin Board on January 14, 2005, which was \$.15 per share.

(3) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(g) under the Securities Act of 1933, using the higher of the exercise price of such warrants or the average of the high and low price as reported on the Over-The-Counter Bulletin Board on January 14, 2005, which was \$.15 per share.

(4) Previously paid.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of

iii

the Securities Act of 1933 or until the registration statement shall become effective on such date as the commission, acting pursuant to said Section 8(a), may determine.

BRAVO! FOODS INTERNATIONAL CORP.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

We are involved in the development and marketing of our Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters, and the granting of production and marketing rights to processor dairies to produce branded flavored milk and generating revenue through the sale of "kits" to these dairies outside of the United States and through wholesale sales within the United States. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairies for the production, promotion and sales rights for the branded flavored milk. In the United States, we also generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

Our new product introduction and growth expansion continue to be expensive and we reported a net loss of \$3,016,987 for the year ended December 31, 2003 and a net loss of \$3,799,926 for the year ended December 31, 2004. We have suffered operating losses and negative cash flows from operations since inception and, at December 31, 2004, we had an accumulated deficit, a capital deficit, are delinquent on certain debts and have negative working capital. These conditions give rise to substantial doubt about our ability to continue as a going concern.

Our principal offices are located at 11300 US Highway 1, North Palm Beach, Florida 33408, and our telephone number is (561) 625-1411. We are a Delaware corporation.

To obtain funding for our ongoing operations, we entered into the following two financing transactions.

June 2004

In June 2004, we entered into a Subscription Agreement with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited, Stonestreet Limited Partnership and Mid-Am Capital L.L.C for the issuance of convertible 10% notes in the aggregate amount of \$1,300,000 and five-year "A" warrants for the purchase of, in the aggregate, 5,200,000 shares of common stock, at \$0.25 per share, and five-year "B" warrants for the purchase of, in the aggregate, 13,000,000 shares of common stock, at \$2.00 per share. In connection with the October 2004 financing, we subsequently amended the exercise price to \$.15 for the "A" warrants issued to Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership. The notes are convertible into shares of common stock of the Company at \$0.15 per common share. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

payment until the note's maturity date on December 1, 2005, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment. In connection with this transaction, we issued additional notes in the aggregate amount of \$40,000 to Gem Funding, LLC, Bi-Coastal Consulting Corp., Stonestreet Limited Partnership and Libra Finance, S.A upon identical terms as the principal notes, as a finder's fee, and paid \$12,500 in legal fees. The common stock underlying all notes and warrants carry registration rights.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. See the "Selling Stockholders" and "Risk Factors" sections for a complete description of the convertible debentures.

This prospectus relates to the resale of the shares of common stock and the common stock underlying these convertible debentures and warrants.

October 2004

On October 29, 2004, we entered into Subscription Agreements with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership for the issuance of convertible 10% notes in the aggregate amount of \$550,000 and five-year "C" warrants for the purchase of, in

4

the aggregate, 2,200,000 shares of common stock, at \$0.15 per share, and the repricing of five-year "A" warrants, issued June 30, 2004 for the purchase of, in the aggregate, 3,200,000 shares of common stock, from \$0.25 to \$0.15 per share. The notes are convertible into shares of common stock at \$0.10 per common share. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.15 for the five trading days prior to the due date of an installment payment and the underlying common stock is registered. In connection with this transaction, we issued additional notes, without attached warrants, in the aggregate amount of \$27,500 to Gem Funding, LLC, Bi-Coastal Consulting Corp., Stonestreet Limited Partnership and Libra Finance, S.A upon identical terms as the principal notes, as a finder's fee, and paid \$12,500 in legal fees. The common stock underlying all notes and warrants carry registration rights.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. See the "Selling Stockholders" and "Risk Factors" sections for a complete description of the convertible debentures.

December 2004

In December 2004, we entered into Subscription Agreements with Momona Capital Corp. and Ellis International Ltd. for the issuance of convertible 10% notes in the aggregate amount of \$400,000 and five-year "C" warrants for the purchase of, in the aggregate, 800,000 shares of common stock, at \$0.15 per share. The notes are convertible into shares of common stock at \$0.10 per common

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

share. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.15 for the five trading days prior to the due date of an installment payment and the underlying common stock is registered. In connection with this transaction, we issued additional notes, without attached warrants, in the aggregate amount of \$10,000 to Momona Capital Corp. and Ellis International Ltd. upon identical terms as the principal notes, as a finder's fee. The common stock underlying all notes and warrants carry registration rights.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. See the "Selling Stockholders" and "Risk Factors" sections for a complete description of the convertible debentures.

This prospectus relates to the resale of the shares of common stock and the common stock underlying these convertible debentures and warrants.

RISK FACTORS

This investment has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other information in this prospectus. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment.

Risks Relating to Our Business:

We Have a History Of Losses Which May Continue, Requiring Us To Seek Additional Sources of Capital Which May Not Be Available, Requiring Us To Curtail Or Cease Operations.

We incurred net losses of \$3,799,926 for the year ended December 31, 2004 and \$3,016,987 for the year ended December 31, 2003. We cannot assure you that we can achieve or sustain profitability on a quarterly or annual basis in the future. If revenues grow more slowly than we anticipate, or if operating expenses exceed our expectations or cannot be adjusted accordingly, we will continue to incur losses. We will continue to incur losses until we are able to establish significant sales. Our possible success is dependent upon the successful development and marketing of our services and products, as to which there is no assurance. Any future success that we might enjoy will depend upon many factors, including factors out of our control or which cannot be predicted at this time. These factors may include changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors, changes in general economic conditions, increases in operating costs, including costs of supplies, personnel, marketing and promotions, reduced margins caused by competitive pressures and other factors. These conditions may have a materially adverse effect upon us or may force us to reduce or curtail operations. In addition, we will require additional funds to sustain and expand our sales and marketing activities, particularly if a well-financed competitor emerges. We anticipate that we will require up to approximately \$1,500,000 to fund our continued operations for the next twelve

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

months, depending on revenue from operations. There can be no assurance that financing will be available in amounts or on terms acceptable to us, if at all. The inability to obtain sufficient funds from operations or external sources would require us to curtail or cease operations.

If We Are Unable to Obtain Additional Funding Our Business Operations Will be Harmed and If We Do Obtain Additional Financing Our Then Existing Shareholders May Suffer Substantial Dilution.

Additional capital will be required to effectively support the operations and to otherwise implement our overall business strategy. However, there can be no assurance that financing will be available when needed on terms that are acceptable to us. The inability to obtain additional capital will restrict our ability to grow and may reduce our ability to continue to conduct business operations. If we are unable to obtain additional financing, we will likely be required to curtail our marketing and development plans and possibly cease our operations. Any additional equity financing may involve substantial dilution to our then existing shareholders.

Our Independent Auditors Have Expressed Substantial Doubt About Our Ability to Continue As a Going Concern, Which May Hinder Our Ability to Obtain Future Financing.

In their report dated March 4, 2005, our independent auditors stated that our financial statements for the year ended December 31, 2004 were prepared assuming that we would continue as a going concern. Our ability to continue as a going concern is an issue raised as a result of a net loss for the year ended December 31, 2004 in the amount of \$3,799,926. We continue to experience net operating losses. Our ability to continue as a going concern is subject to our ability to generate a profit and/or obtain necessary funding from outside sources, including obtaining additional funding from the sale of our securities, increasing sales or obtaining loans and grants from various financial institutions where possible. Our continued net operating losses increases the difficulty in meeting such goals and there can be no assurances that such methods will prove successful.

Since we depend upon key personnel having significant business contacts in the US and internationally, the loss of one or more of our management team may have a negative effect on our business.

6

The unexpected loss of the services of any member of the management team could have a material adverse effect on our ability to conduct and grow both our US and international business. We are and will be dependent on our current management teams for the foreseeable future

- o to obtain needed additional financing
- o to develop and maintain critical business contacts for the production of our branded milk products
- o to develop and maintain third party licensor and brand development contacts for the formulation of new brand development and branded food products

We face intense competition in our US market that could negatively impact our

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

results of operations

Since we are smaller than our competitors in the US market and since we have limited resources and sell our branded products at premium prices, we have had difficulty in developing and maintaining our market share in the consumer milk market. This difficulty could adversely affect our ability to achieve our business goals to develop and increase the awareness of our branded products in an effort to increase sales, while maintaining a premium price structure.

The ability of our competition to sell dairy and other food products at prices below prices charged by us for our products may represent an obstacle to our ability to secure a market share at revenue levels sufficient to achieve profitability.

In our foreign business, we grant the rights to produce and sell branded milk products to processor dairies under production agreements. Our role in these agreements, in addition to granting the rights to produce the branded milks as part of the sale of flavor ingredient packages to dairies, is limited to marketing and promotion assistance and control over packaging and advertising design issues. Such processors dairies have significant control over sales and distribution of the branded milk products.. A reduction in sales effort or discontinuance of sales of our products by our co-producers could lead to reduced sales.

Risks Relating to Our Current Financing Arrangement:

There Are a Large Number of Shares Underlying Our Convertible Debentures and Warrants That May be Available for Future Sale and the Sale of These Shares May Depress the Market Price of Our Common Stock.

As of March 4, 2005, we had 59,917,797 shares of common stock issued and outstanding and convertible debentures outstanding that may be converted into an estimated 41,700,000 shares of common stock at current market prices, outstanding warrants to purchase 43,900,227 shares of common stock and options to purchase 3,571,086 shares of common stock. Furthermore, there are currently outstanding shares of Preferred Stock that are convertible into approximately 41,500,000 shares of common stock. In addition, the number of shares of common stock issuable upon conversion of the outstanding convertible debentures may increase if the market price of our stock declines. All of the shares, including all of the shares issuable upon conversion of the debentures and upon exercise of our warrants, may be sold without restriction. The sale of these shares may adversely affect the market price of our common stock.

The Issuance of Shares Upon Conversion of the Convertible Debentures and Exercise of Outstanding Warrants May Cause Immediate and Substantial Dilution to Our Existing Stockholders.

The issuance of shares upon conversion of the convertible debentures and exercise of warrants may result in substantial dilution to the interests of other stockholders since the selling stockholders may ultimately convert and sell the full amount issuable on conversion. Although the selling stockholders may not convert their convertible debentures and/or exercise their warrants if such conversion or exercise would cause them to own more than 9.99% of our outstanding common stock, this restriction does not prevent the selling stockholders from converting and/or exercising some of their holdings, selling these shares and then converting the rest of their holdings. In this way, the selling stockholders could sell more than this limit while never holding more than this limit. There is no upper limit on the number of shares that may be

issued which will have the effect of further diluting the proportionate equity interest and voting power of holders of our common stock, including investors in this offering.

If We Are Required for any Reason to Repay Our Outstanding Convertible Debentures, We Would Be Required to Deplete Our Working Capital, If Available, Or Raise Additional Funds. Our Failure to Repay the Convertible Debentures, If Required, Could Result in Legal Action Against Us, Which Could Require the Sale of Substantial Assets.

In November 2003, April 2004, June 2004, October 2004 and December 2004, we entered into financing arrangements for the sale of \$3,150,000 principal amount of convertible debentures. The convertible debentures issued in November 2003 are due and payable, with 8% interest, two years from the date of issuance, unless sooner converted into shares of our common stock. In April 2004, we entered into a Subscription Agreement with two accredited investors for the sale of \$500,000 in convertible debentures. The debentures issued in connection with the April 2004 financing bear interest at 10%. The principal on the notes is due in equal monthly installments commencing on November 1, 2004 until October 1, 2005. On October 1, 2005, all principal and interest shall become due. In June 2004, we issued convertible 10% notes in the aggregate amount of \$1,300,000. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on December 1, 2005, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment. In October 2004, we issued convertible 10% notes in the aggregate amount of \$500,000. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment. In December 2004, we issued convertible 10% notes in the aggregate amount of \$400,000. The notes are payable in twelve equal monthly installments, commencing May 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on April 30, 2006, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment.

Any event of default could require the early repayment of the convertible debentures, including a default interest rate if the default is not cured with the specified grace period. We anticipate that the full amount of the convertible debentures, together with accrued interest, will be converted into shares of our common stock, in accordance with the terms of the convertible debentures. If we are required to repay the convertible debentures, we would be required to use our limited working capital and raise additional funds. If we were unable to repay the debentures when required, the debenture holders could commence legal action against us to recover the amounts due. Any such action would require us to obtain additional financing or curtail or cease operations.

Risks Relating to Our Common Stock:

If We Fail to Remain Current on Our Reporting Requirements, We Could be Removed From the OTC Bulletin Board Which Would Limit the Ability of Broker-Dealers to

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

Sell Our Securities and the Ability of Stockholders to Sell Their Securities in the Secondary Market.

Companies trading on the OTC Bulletin Board, such as us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended, and must be current in their reports under Section 13, in order to maintain price quotation privileges on the OTC Bulletin Board. If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

Our Common Stock is Subject to the "Penny Stock" Rules of the SEC and the Trading Market in Our Securities is Limited, Which Makes Transactions in Our Stock Cumbersome and May Reduce the Value of an Investment in Our Stock.

The Securities and Exchange Commission has adopted Rule 15c-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or

8

with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

Compensation Plans

Directors

On March 27, 2001, we issued options to our directors to purchase an aggregate of 925,000 shares of our common stock. The options have an exercise price of \$0.75 and expire March 26, 2006. Directors received options for 35,000 shares for each full year of service and an additional 40,000 shares for service on a board committee. On August 14, 2001, we issued 250,000 options to the Board of Directors for services rendered as directors. Each director received options for 25,000 shares of common stock at an exercise price of \$0.60. The options can be exercised for five years.

On January 13, 2004, the Board of Directors adopted a plan to convert on a one for one basis the options granted to our present employees and the directors currently serving on the Board into a like number of our restricted shares of common stock at the then market value of \$0.08 per share. The conversion of the options to common stock for any individual director or employee was conditioned upon a "lockup" agreement by such director or employee, pursuant to which the recipients of such common stock could not sell, transfer, pledge or hypothecate such common stock for a six-month period.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Some of the information in this Form SB-2 contains forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue," or similar words. You should read statements that contain these words carefully because they:

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

- o discuss our future expectations;
- o contain projections of our future results of operations or of our financial condition; and
- o state other "forward-looking" information.

We believe it is important to communicate our expectations. However, there may be events in the future that we are not able to accurately predict or over which we have no control. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors," "Business" and elsewhere in this prospectus. See "Risk Factors."

OVERVIEW

Our business model includes the development and marketing of our company owned Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor dairies to produce branded flavored milk. We generate revenue in our international (non-US) business through the sale of "kits" to these dairies. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairy processors for the production, promotion and sales rights for the branded flavored milk. In the United States, we generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

Our new product introduction and growth expansion continues to be expensive, and we reported a net loss of \$3,799,926 for the year ended December 31, 2004. As shown in the accompanying financial statements, we have suffered operating losses and negative cash flows from operations since inception and at December 31, 2004 have an accumulated deficit, a capital deficit, are delinquent on certain debts and have negative working capital. These conditions give rise to substantial doubt about our ability to continue as a going concern. As discussed herein, we plan to work toward profitability in our U.S. and international business and obtain additional financing. While there is no assurance that funding will be available or that we will be able to improve our operating results, we are continuing to seek equity and/or debt financing. We cannot give any assurances, however, that management will be successful in carrying out our plans.

CORPORATE GOVERNANCE

The Board of Directors

Our board has positions for nine directors that are elected as Class A or Class B directors at alternate annual meetings of our shareholders. We presently have two mid-term vacancies on the board. Six of the seven current directors of our board are independent. Our chairman and chief executive officer are separate. The board meets regularly either in person or by telephonic conference at least four times a year, and all directors have access to the information necessary to enable them to discharge their duties. The board, as a whole, and the audit committee in particular, review our financial condition and performance on an estimated vs. actual basis and financial projections as a regular agenda item at scheduled periodic board meetings, based upon separate reports submitted by our chief executive officer and chief financial officer. Our shareholders elect directors after nomination by the board or the board appoints directors when a vacancy arises prior to an election. This year we have adopted a nomination procedure based upon a rotating nomination committee made up of those members of the director Class not up for election. The board

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

presently is examining whether this procedure, as well as the make up of the audit and compensation committees, should be the subject of an amendment to the by-laws.

12

Audit Committee

Our audit committee is composed of three independent directors and functions to assist the board in overseeing our accounting and reporting practices. Our financial information is booked in house by our CFO's office, from which we prepare financial reports. Lazar Levine & Felix LLP, independent registered public accountants and auditors, audit or review these financial reports. Our chief financial officer reviews the preliminary financial and non-financial information prepared in house with our securities counsel and the reports of the auditors. The committee reviews the preparation of our audited and unaudited periodic financial reporting and internal control reports prepared by our chief financial officer. The committee reviews significant changes in accounting policies and addresses issues and recommendations presented by our internal and external certified accountants as well as our auditors. Currently, there is one vacancy on the audit committee.

Compensation Committee

Our compensation committee is composed of three independent directors and reviews the compensation structure and policies concerning executive compensation. The committee develops proposals and recommendations for executive compensation and presents those recommendations to the full board for consideration. The committee periodically reviews the performance of our other members of management and the recommendations of the chief executive officer with respect to the compensation of those individuals. Given the size of our company, the board periodically reviews all such employment contracts. The board must approve all compensation packages that involve the issuance of our stock or stock options. Currently, there is one vacancy on the compensation committee.

Nominating Committee

The nominating committee was established in the second quarter 2002 and consists of those members of the director Class not up for election. The committee is charged with determining those individuals who will be presented to the shareholders for election at the next scheduled annual meeting. The full board fills any mid term vacancies by appointment.

CRITICAL ACCOUNTING POLICIES

Estimates

This discussion and analysis of our consolidated financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our company's estimates, including those related to reserves for bad debts and valuation allowance for deferred tax assets. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

from these estimates under different assumptions or conditions. Our use of estimates, however, is quite limited as we have adequate time to process and record actual results from operations.

Revenue recognition

United States

We recognize revenue in the United States at the gross amount of our invoices for the sale of finished product to wholesale buyers. We take title to our branded flavored milks when they are shipped by our third party processors and recognize as revenue the gross wholesale price charged to our wholesale customers. Our gross margin is determined by the reported wholesale price less the cost charged by Jasper Products, our third party processor, to produce the branded milk products.

13

Prior to 2004, we reported revenue in the United States from our sale of "kits" to third party processors and from the differential between the cost of producing our finished product and the wholesale price of our finished product. Commencing in the first quarter 2004, we report revenue from our sale of finished product on the wholesale level. We report the cost of producing the product charged by a third party processor as the cost of goods sold. This change in revenue recognition has resulted in materially higher reported revenue for our company, with a corresponding material increase in reported costs of goods sold.

In certain circumstances in our U.S. business, we are required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce our reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 101.

International Sales

We recognize revenue in our international (non US) business at the gross amount of our invoices for the sale of kits at the time of shipment of flavor ingredients to processor dairies with whom we have production contracts for extended shelf life and aseptic long life milk. We base this recognition on our role as the principal in these transactions, our discretion in establishing kit prices (including the price of flavor ingredients and production right fees), our development and refinement of flavors and flavor modifications, our discretion in supplier selection and our credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model consists of the cost of the processors' purchase of flavor ingredients and fees charged by us to the processors for production rights. We formulate the price of production rights to cover our intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. We recognize revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously record as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients supplier. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

Pursuant to EITF 99-19, international sales of kits made directly to customers by us are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

RESULTS OF OPERATIONS

Financial Condition at December 31, 2004

As of December 31, 2004, we had an accumulated deficit of \$33,737,029, cash on hand of \$113,888 and reported total capital deficit of \$3,029,694.

For this same period of time, we had revenue of \$3,344,699 and general and administrative expense of \$2,639,085.

After interest expenses of \$240,447, cost of goods sold of \$2,374,805, product development costs of \$85,671 and selling expenses of \$1,804,617 incurred in operations, we had a net loss of \$3,799,926.

Year Ended December 31, 2004 Compared to Year Ended December 31, 2003

Consolidated Revenue

We had revenue for the year ended December 31, 2004 of \$3,344,699, with cost of sales of \$2,374,805, resulting in a gross margin of \$969,894. This revenue and resultant gross margin are net of slotting fees, promotional discounts and marketing allowances for this period in the amount of \$204,755. Of the reported \$3,344,699, U.S. sales accounted for \$2,771,081 with an additional \$573,618 from international sales in Mexico and the Middle East. Our reported revenue for the year ended December 31, 2004 increased by \$2,144,557, a 178.69% increase compared to revenue of \$1,200,142 for the same period in 2003. This

14

increase is the result of a change in our method of revenue recognition in the United States, commencing January 1, 2004, when we began to act as the principal in these transactions, rather than as an agent. In addition, in the first quarter of 2004, we began to phase out our Looney Tunes(TM) flavored milk products and to develop four new branded product lines in the United States, including the launch of our Slammers(R) line of Marvel Comics Super Heroes(R) branded flavored milks during the second quarter 2004. We also began to ship kits to our third-party Middle East dairy processor during the second quarter 2004.

Consolidated Cost of Sales

We incurred cost of goods sold of \$2,374,805 for the year ended December 31, 2004, \$2,262,055 of which was incurred in our U.S. business, and \$112,750 in connection with our international sales. Cost of goods sold in 2004 increased by \$2,182,307, a 1133.68% increase compared to \$192,498 for the same period in 2003. The increase in cost of goods sold reflects an increase in sales, the change in our role from agent to principal during this period and the concomitant increase in reported cost of goods sold associated with that change.

In countries except the United States, our revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for flavored milks and production rights to manufacture and sell the milks. In line with our revenue recognition policies, we recognize the full invoiced kit price as revenue, less the cost of production charged by the processor, which we record as cost of goods sold.

In the United States, we are responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, we recognize as revenue the invoiced wholesale prices that we

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

charge to the retail outlets that purchase the Slammers(R) flavored milks. We report, as cost of goods sold, the price charged to us by Jasper Products, a third party processor under contract with our company, for producing the finished Slammers(R) products.

Segmented revenues and costs of sales

The following table presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. In countries other than the United States, revenues for the period ended December 31, 2004 were generated by kit sales to third party processors. Our revenue from the sale of finished product to retail outlets is recorded as "unit sales" on the following table.

United States

Revenues for the period ended December 31, 2004 in the United States increased from \$989,721 for the same period in 2003 to \$2,771,081 in 2004, a 179.99% increase. The increase is the result of a change in revenue recognition and the introduction of our new product lines during this period.

In the period ended December 31, 2004, our gross margin for U.S. sales of \$509,026 decreased by \$353,048, or by 40.95%, from \$862,074 for the same period in 2003. The decrease in gross margin was the result of our role change from

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

agent to principal in our U.S. sales transactions, which required us to recognize the entire cost of production of our milk products against revenues from the wholesale sales for those products.

Foreign Sales

Revenues for the period ended December 31, 2004 from kit sales in foreign countries increased from \$210,421 for the same period in 2003 to \$573,618, a 172.6 % increase. The increase is the result of sales growth in Mexico and the Middle East during this period.

We recorded \$112,750 in costs of kit sales in foreign countries for the period ended December 31, 2004, an increase of \$47,899 or 73.86% from \$64,851 for the same period in 2003. As a percentage of sales, the costs of goods sold decreased 19.7% for the period ended December 31, 2004, from 30.8% for the same period in 2003. The decrease in cost of goods sold as a percentage of sales was the result of the commencement of sales in the Middle East, which had significantly lower costs of goods sold as a percentage of sales than occurred China, Mexico and Canada.

For the period ended December 31, 2004, the gross profit of \$460,868 for kit sales in foreign countries increased by \$315,298 or 216.6%, from \$145,570 for the same period in 2003. The increase in gross profit was consistent with the increase in sales volume and the decrease in cost of goods sold for this period.

Consolidated Operating Expenses

We incurred selling expenses of \$1,804,617 for the period ended December 31, 2004, of which we incurred \$1,664,520 in our United States operations. Our selling expense for this period increased by \$64,767, a 3.72% increase compared to selling expense of \$1,739,850 for the same period in 2003. The increase in selling expenses in the current period was due to increased freight and promotional charges associated with our transition away from our Looney Tunes(TM) product line and the development of four new product lines, utilizing newly licensed and directly owned branded trademarks.

Our incurred general and administrative expenses for the period ended December 31, 2004 were \$2,639,085, most of which we incurred in our United States business operations. Our general and administrative expenses for this period increased by \$389,407, a 17.31% increase compared to \$2,249,678 for the same period in 2003. The increase in general and administrative expenses for the current period in 2004 is the result of the accrual of the compensation value of the conversion of management's and directors' options to common stock, in the amount of \$269,750 plus the recording of an additional payroll period in 2004. This expense is a one-time charge.

As a percentage of total revenue, our general and administrative expenses decreased from 187.5% in the period ended December 31, 2003, to 78.9% for the current period in 2004. We anticipate a continued effort to reduce these expenses as a percentage of sales through revenue growth, cost cutting efforts and the refinement of business operations.

Interest Expense

We incurred interest expense for the period ended December 31, 2004 of \$240,447. Our interest expense increased by \$210,914, a 714.16% increase compared to \$29,533 for the same period in 2003. The increase was due to

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

additional loans in 2004 and utilizing debt to finance our operations during this period's transition in licensors of intellectual property utilized by our company and the development and launch of new product lines.

Loss Per Share

We accrued dividends payable of \$388,632 to various series of preferred stock during the period ended December 31, 2004. Our accrued dividends increased for this period by \$48,728, or 14.33%, from \$339,904 for the same period in 2003. The net loss before accrued dividends increased by \$782,939, from \$3,016,987 for the period ended December 31, 2003 to \$3,799,926 for the current period, and the increase in accrued dividends was offset by the increase in the weighted average number of common shares outstanding, resulting in a decrease in our current period loss per share from \$0.15 for the same period in 2003, to a loss per share of \$0.10 for the current period.

Liquidity and Capital Resources

Operations

As of December 31, 2004, we reported that net cash used in operating activities was \$4,122,830, net cash provided by financing activities was \$4,257,500 and net cash used in investing activities was \$78,952. We had a negative working capital of \$2,365,969 as of December 31, 2004.

Compared to \$1,562,389 of net cash used in operating activities in the period ended December 31, 2003, our current year net cash used in operating activities increased by \$2,560,441 to \$4,122,830. This increase was the result of our utilization of cash rather than equity to pay service providers in this current period and changes in deferred product development costs, prepaid expenses, accounts payable and accrued expenses. Included in the net loss in this current period were depreciation and amortization and stock compensation for a finder's fee aggregating \$974,847, compared to \$194,635 for the same period in 2003.

Changes in accounts receivable in this current period in 2004 resulted in a cash decrease of \$26,047, compared to a cash increase in receivables of \$210,228 for the same period in 2003, having a net result of a decrease of \$236,275. The changes in accounts payable and accrued liabilities in the period ended December 31, 2003 contributed to a cash increase of \$1,285,443, whereas the changes in accounts payable and accrued liabilities for the current period in 2004 amounted to a decrease of \$593,475. We have adopted and will keep implementing cost-cutting measures to lower our costs and expenses and to pay our company's accounts payable and accrued liabilities by using cash and equity instruments. Our cash flow generated through operating activities was inadequate to cover all of our cash disbursement needs in the period ended December 31, 2004, and we had to rely on equity and debt financing to cover expenses.

Cash used in 2004 in investing activities for equipment was \$78,952 for software, computer equipment and leasehold improvements in the U.S., compared to \$31,323 for the same period in 2003.

Net cash provided by financing activities for the period ended December 31, 2004 was \$4,257,500. Net cash provided by financing activities for the same period in 2003 was \$1,427,062, for a net increase of \$2,830,438. The increase was due primarily to issuing Series K preferred stock with gross proceeds of \$950,000 and debt in the aggregate amount of \$3,427,500 in this current period.

We used the proceeds of the current period financing for working capital purposes and to repay approximately \$1,128,386 for a note to Jasper Products.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

Going forward, our primary requirements for cash consist of the following:

- o the continued development of our business model in the United States and on an international basis;
- o general overhead expenses for personnel to support the new business activities;
- o development, launch and marketing costs for our line of new branded flavored milk products, and
- o the payment of guaranteed license royalties.

17

We estimate that our need for financing to meet cash needs for operations will continue through the fourth quarter of 2005, when we expect that cash supplied by operating activities will approach the anticipated cash requirements for operation expenses. We anticipate the need for additional financing in 2005 to reduce our liabilities, assist in marketing and to improve shareholders' equity status. No assurances can be given that we will be able to obtain additional financing, or that operating cash flows will be sufficient to fund our operations.

We currently have monthly working capital needs of approximately \$220,000. We will continue to incur significant selling and other expenses in 2005 in order to derive more revenue in retail markets, through the introduction and ongoing support of our new products. Certain of these expenses, such as slotting fees and freight charges, will be reduced as a function of unit sales costs as we expand our sales markets and increase our sales within established markets. Freight charges will be reduced as we are able to ship more full truckloads of product given the reduced per unit cost associated with full truckloads versus less than full truckloads. Similarly, slotting fees, which are paid to warehouses or chain stores as initial set up or shelf space fees, are essentially one-time charges per new customer. We believe that along with the increase in our unit sales volume, the average unit selling expense and associated costs will decrease, resulting in gross margins sufficient to mitigate cash needs. In addition, we are actively seeking additional financing to support our operational needs and to develop an expanded promotional program for our products.

We are continuing to explore new points of sale for our branded flavored milk. Presently, we are aggressively pursuing the school and vending market through trade/industry shows and individual direct contacts. The implementation of such a school base program, if viable, could have an impact on the level of our revenue during 2004. Similarly, we expect that the greater control over sales resulting from our refined business model and the anticipated expansion into bodega stores as well as national chains, such as 7-Eleven, will have a positive impact on revenues.

New Product Lines

In the third quarter 2003, we commenced an analysis of the Looney Tunes(TM) brand performance within the context of the possible renewal of our Warner Bros. licenses for United States, Mexico, China and Canada. In the fourth quarter 2003, we concluded that, as a function of the sales of flavored milks, the Looney Tunes(TM) brand has not supported the guaranteed royalty structure required by Warner Bros. for its licenses. In the fourth quarter 2003, we decided not to renew our license agreements with Warner Bros., and began to develop new products in anticipation of the consummation of other license relationships with Marvel Comics and MoonPie for co-branded flavored milk, as well as a new single Slammers(R) brand. We have developed new aseptic products in anticipation of these licenses and our own singular brand. We launched four

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

brands in 2004, beginning with Ultimate Slammers in April and achieved national distribution of Ultimate Slammers through both retail grocers and convenience stores by mid- summer. Roughly 10,000 retail supermarket stores carried this brand nationwide in 2004. This was followed by the June launch of Slim Slammers(R) and Moon Pie Slammers(R) and the July release of the Pro-Slammers(TM).

Coincident with the Marvel license, we executed a production agreement with Saudia Dairy & Foodstuff Company (SADAFCO), one of the largest Middle East dairy processors, headquartered in Jeddah, Saudi Arabia. SADAFCO processes our Slammers (R) branded flavored milks, including the Marvel line, for distribution in nine Middle East countries. SADAFCO has the capacity to process our branded milk products for distribution throughout the European Community. AsheTrade, our international agent, facilitated our international business in 2004 with offices in Miami, Florida and Jeddah, Saudi Arabia.

On September 21, 2004, we entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's Milky Way(R) Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serve flavored milk drinks in the United States, our possessions and Territories, and US Military installations worldwide. The license limits the relationship of the parties to separate independent entities. The initial term of the license agreement expires December 31, 2007. We have agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon guaranteed royalties. Ownership of the licensed marks and the specific milk flavors to be utilized with the marks remains with Masterfoods. We have been granted a right of first refusal for other milk beverage products utilizing the Masterfoods marks within the license territory.

External Sources of Liquidity

Individual Loans

On November 6 and 7, 2001, respectively, we received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable February 1, 2002 and bear interest at the annual rate of 8%. These loans are secured by a general security interest in all our assets. On February 1, 2002, the parties agreed to extend the maturity dates until the completion of the anticipated Series H financing. On September 18, 2002, the respective promissory note maturity dates were extended by agreement of the parties to December 31, 2002. On September 18, 2002, we agreed to extend the expiration dates of warrants issued in connection with our Series D and F preferred until September 17, 2005 and to reduce the exercise price of certain of those warrants to \$1.00, in partial consideration for the maturity date extension. The holders of these notes have agreed to extend the maturity dates, and the notes are now payable on a demand basis.

On August 27, 2003, we received the proceeds of a loan from Mid-Am Capital, L.L.C., in the amount of \$150,000. The note was payable November 25, 2003 and bears interest at the annual rate of 10%. This loan was secured by a general security interest in all our assets. On April 2, 2004, this note was paid and cancelled.

On January 28, 2004, we converted accounts payable in the amount of \$1,128,386 by the issuance of a 10% short term promissory note to Jasper Products, LLC, dated January 1, 2004, in the principal amount of \$1,128,386 for amounts owed to Jasper in connection with Jasper's processing and sale of our

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

products. As of March 31, 2004, we paid \$200,000 in principal and was credited an additional \$11,350. On April 20, 2004, we paid an additional \$200,000. On May 7, 2004, we paid \$717,036 in full payment of the note's principal and accrued interest.

On May 6, 2004, we issued a secured promissory note to Mid- Am Capital LLC in the principal amount of \$750,000. The note provides for 8% interest. The note's original maturity date of September 4, 2004 has been extended to January 31, 2005. We issued warrants to purchase 3,000,000 shares of our common stock to Mid-Am in connection with this promissory note. The warrants are exercisable for one year from issue at an exercise price of \$0.25 per share. We used the proceeds of this promissory note to pay the promissory note issued to Jasper Products in January 2004.

Convertible Debentures

To obtain funding for our ongoing operations, we entered into the following financing transactions in 2004.

April 2004

In April 2004, we entered into a Subscription Agreement with two accredited investors for the sale of (i) \$500,000 in convertible debentures and (ii) warrants to buy 3,000,000 shares of our common stock at \$0.15 per share. In connection with this financing, we paid a fee, which included an aggregate of convertible debentures in the amount of \$50,000.

The debentures issued in connection with the April 2004 financing bear interest at 10%. The principal on the notes is due in equal monthly installments commencing on November 1, 2004 until October 1, 2005. On October 1, 2005, all principal and interest shall become due. In the event that our common stock has a closing price in excess of \$.20 for the five days preceding the monthly payment, then, within our discretion, the monthly payment may be deferred. The notes are convertible into our common stock at \$0.10 per share. Based on this conversion price, the \$550,000 convertible debentures, excluding interest, were convertible into 5,500,000 shares of our common stock.

The note holders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock.

In connection with the October 2004 financing, we subsequently amended the exercise price to \$.15 for the "A" warrants issued to Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership. The notes are convertible into shares of our common stock at \$0.15 per common share. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. EFFECTS OF INFLATION

We believe that inflation has not had any material effect on our net sales and results of operations.

BUSINESS

Our company

Our company is a Delaware corporation, which was formed on April 27, 1996. We formerly owned the majority interest in two Sino-American joint ventures in China, known as Green Food Peregrine Children's Food Co. Ltd. and Hangzhou Meilijian Dairy Products Co., Ltd. These two joint ventures processed milk products for local consumption in the areas of Shanghai and Hangzhou, China, respectively. We closed Green Food Peregrine in December 1999 and sold our interest in Hangzhou Meilijian Dairy in December 2000.

In December 1999, we obtained Chinese government approval for the registration of a new wholly owned subsidiary in the Wai Gao Qiao "free trade zone" in Shanghai, China. We formed this import-export company to import, export and distribute food products on a wholesale level in China. In addition, China Premium (Shanghai) was our legal presence in China with respect to contractual arrangements for the development, marketing and distribution of branded food products. We ceased all activities of this Chinese subsidiary in April 2004, owing to low sales volume and insufficient financial or logistic resources to market our products profitably in mainland China.

In December 1999, we formed Bravo! Foods, Inc., a wholly owned Delaware subsidiary, which we utilized to advance the promotion and distribution of branded Looney Tunes(TM) products in the United States, through production agreements with local dairy processors. At the end of 2001, we assumed this business, and our U.S. subsidiary ceased functioning as an operating company at that time.

On February 1, 2000, we changed our name from China Peregrine Food Corporation to China Premium Food Corporation, and on March 16, 2001 we changed our name to Bravo! Foods International Corp.

In January 2005, we formed Bravo! Brands (UK) Ltd., a United Kingdom registered company that is wholly owned by Bravo! Brands International Ltd. We will utilize Bravo! Brands (UK) Ltd. to advance the production, promotion and distribution of licensed branded products in the United Kingdom through production and sales agent agreements with local entities.

In March 2005, we formed Bravo! Brands International Ltd., a Delaware subsidiary that will hold license rights for our branded products on an

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

international basis. We will utilize Bravo! Brands International Ltd. to hold and exploit certain license rights for branded products developed by us in international markets through local second-tier subsidiaries such as Bravo! Brands (UK) Ltd.

The Business

Our business involves the development and marketing of our own Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor dairies to produce branded flavored milk utilizing our intellectual property. In the United States, we generate revenue from the unit sales of finished branded flavored milks to retail consumer outlets. Internationally, we generate revenue primarily through the sale of "kits" to these processors.

"Kits" sold to processors consist of flavor ingredients that are developed and refined by us and the grant of production rights to processors to produce the flavored milks. The consideration paid to us under these production contracts consists of fees charged for our grant of production rights for the branded flavored milks plus a charge for flavor ingredients. The fees charged by us for the production rights are set to match royalty fees for our intellectual property licenses.

All of our licensing agreements recognize that we will use third party production agreements for the processing of flavored milk products, and that the milk products will be produced and may be sold directly by those processors. Our responsibilities under our third party production agreements are to design and provide approved packaging artwork, to help determine the best tasting flavors for the particular market and to assist in the administration, promotion and expansion of the respective branded milk programs. Ingredients for the flavored

22

milks are formulated to our specifications and supplied on an exclusive basis by either Givaudan Roure or Mastertaste, both of which are flavor development and production companies. In the United States, we assume the responsibility for sales and marketing of our flavored milks produced by Jasper Products LLC.

Third Party Intellectual Property Licenses

Warner Bros. (Looney Tunes(TM))

In January 1999, we commenced a licensing agreement with Warner Bros. Consumer Products, permitting us to produce and distribute a line of high quality, flavored milks branded with the Warner Bros. Looney Tunes(TM) logos, characters and names in the Shanghai and Hangzhou greater metropolitan areas. On July 27, 2000, we executed a licensing agreement with Warner Bros. to use Looney Tunes(TM) characters and names on milk products in the United States. The term of these licenses expired December 31, 2003.

On November 7, 2001, we executed a licensing agreement with Warner Bros. to use Looney Tunes(TM) characters and names on milk products in Mexico. This licensing agreement granted us the right to use the Warner Bros. cartoon characters on milk products for sale in specified retail outlets throughout Mexico. The initial term of the agreement was for 3 years and expired May 31, 2004.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

On May 28, 2002, we executed a licensing agreement with Warner Bros. to use Looney Tunes(TM) characters and names on milk products in Canada. The initial term of the agreement was for 25 months and expired March 31, 2004.

The history of all of our Warner Bros. licenses, as a function of sales of the flavored milks, did not support the guaranteed royalty structure required by Warner Bros. for its licenses. As a result, we developed our own Slammers(R) brand in 2003 and, in the fourth quarter of that year, we decided not to seek the renewal for the China license and not accept the offer of Warner Bros. to renew the U.S. license. In addition, we decided not to renew our licenses with Warner Bros. for Canada and Mexico. In 2004, we executed third party licenses with Marvel Comics, Masterfoods and Moon Pie.

Marvel Enterprises, Inc. (Super Heroes(R) and Marvel Heroes(R))

In January 2004, we commenced a license agreement with Marvel Enterprises, Inc. Under the terms of the license agreement, we have the right to use certain Marvel Super Heroes for the packaging and promotion of our flavored milk products in the United States (including its territories) and nine Middle East countries for a one-year (renewable) term. We agreed to a royalty rate of 11% on the amount invoiced to dairy processors for "kits" and 4% of net wholesale sales in the United States.

On February 4, 2005, we entered into a two-year license agreement for the utilization of Marvel Heroes characters on our flavored milks in the United Kingdom and Ireland. We agreed to a royalty rate of 4% of net wholesale sales in the territory against the prepayment of a guaranteed minimum royalty amount. We have adopted the unit sales model currently used in the United States. We have outsourced the infrastructure required for the production, promotion, marketing, distribution and sale of our products through a production agreement with Waterfront Corporation in the UK and through an exclusive sales agency agreement with Drinks Brokers, Ltd. a UK registered company responsible for the launch and growth of several major beverage brands in the licensed territory.

We currently are negotiating with Marvel to conclude a new one year license for the United States, Mexico and Canada and a two year license for the Middle East.

Chattanooga Bakery, Inc.(Moon Pie(R))

In October 2003, we commenced a two-year license agreement with MD Enterprises, Inc. on behalf of Chattanooga Bakery. Under the terms of the license agreement, we have the exclusive right to manufacture, distribute, market and sell Moon

23

Pie(R) flavored milk products in the United States. We agreed to a variable royalty rate of 3% to 2% of net wholesale sales, depending upon volume.

Masterfoods USA (Starburst(R), Milky Way(R), 3 Musketeers(R))

On September 21, 2004, we entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's Milky Way(R), Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serve flavored milk drinks in the United States, its Possessions and Territories, and US Military installations worldwide. The license limits the relationship of the parties to separate independent entities. The initial term of the license agreement expires December 31, 2007. We have agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

guaranteed royalties. Ownership of the licensed marks and the specific milk flavors to be utilized with the marks remains with Masterfoods. We have a right of first refusal for other milk beverage products utilizing the Masterfoods marks within the licensed territory.

In House Intellectual Property

In addition to our third-party licenses, we have developed and sell flavored milks bearing trademarks developed by us, including "Slammers(R)" "Pro Slammers(TM)" and "Slim Slammers(R)".

Production Contracts/Administration

Prior to 2000, our business primarily involved the production and distribution of milk in China. In the third quarter of 2000, we began to refocus our business away from the production - distribution aspect of the value chain by implementing a business model that involved the branding, marketing, packaging design and promotion of branded flavored fresh milk in the United States. During the middle of 2001, this refocused business was implemented in China, in December 2001 in Mexico and in the third quarter of 2002 in Canada. Currently, operations in the United States, Mexico and Canada are run directly by Bravo! Foods International Corp. Our international business, which had been facilitated by AsheTrade, our international agent, will now be handled by the company's subsidiary formed in 2005, Bravo! Brands International Ltd. Mr. Ibrahim Ashemimry, the principal of AsheTrade, has joined Bravo! Brands International Ltd. as an employee and officer.

United States

The initial dairy processors with which we had production contracts were members of Quality Chekd Dairies, Inc., a national cooperative with over 40 member dairies that process fresh milk on a regional basis. This business, while viable, proved to have limited sales expansion capabilities in the US owing to the inherent regional distribution limitations of a "fresh" milk product with a short shelf life.

The advent of extended shelf life (ESL) and aseptic long life milk presented us with the opportunity to increase dramatically sales on a national basis. In the third quarter of 2001 and the first quarter of 2002, we entered into production contracts with Shamrock Farms, located in Phoenix, Arizona and Jasper Products, of Joplin, Missouri, and began to market branded ESL and aseptic flavored milks to large national chain accounts. Since 2003, we have our ESL and aseptic milks produced by Jasper Products

Middle East

In December 2003, we entered into a third party production agreement with Saudia Dairy & Foodstuff Company, (SADAFCO) one of the largest Middle East dairy processors, headquartered in Jeddah, Saudi Arabia. SADAFCO processes our Slammers (R) branded flavored milks, including the Marvel line, for distribution in nine Middle East countries. Our international business is facilitated by AsheTrade, our international agent, with offices in Miami, Florida and Jeddah, Saudi Arabia.

Mexico

In December 2001, we commenced a contractual relationship with Neolac S.A, a national dairy processor located in central Mexico. We sell kits to Neolac,

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

including production rights for our branded flavored milk for all of Mexico. Our responsibilities are to design and provide approved packaging artwork, to help determine the best tasting flavors for the particular market and to assist in the administration, promotion and expansion of the branded flavored milk program. Ingredients for the flavored milks are formulated to our specifications and supplied on an exclusive basis by Mastertaste. We do not have any responsibility for or participation in sales or distribution in Mexico.

Canada

In April 2002, we commenced a contractual relationship with Farmers Dairy, a dairy processor located in Halifax, Nova Scotia, Canada. We sold kits to Farmers Dairy, including production rights for our branded flavored milk products. In early 2004, the relationship with this processor terminated. Currently, we are negotiating with a large dairy processor for a third party production contract, that will be administered by a newly formed subsidiary to be known as Bravo! Brands (Canada) Ltd.

Products

Commencing in September of 2000, we implemented the "kit" sales program with third party dairy processors in the United States, for the production and sale of fresh branded flavored milk in single serve plastic bottles. This product, as with all of our U.S. products up to September 2000, had a limited shelf life of, generally, 21 days.

In early 2002, we developed branded extended shelf life and aseptic, bacteria free, long life flavored milk products. The extended shelf life product was sold in 11.5oz single serve plastic bottles and had to be refrigerated. The shelf life of this product is 90 days. Our aseptic product does not require refrigeration and has a shelf life of 8 months. This product was packaged in an 11.2oz Tetra Pak Prisma(TM) sterile paper container. Both of these products were introduced to the public in the second and third quarters of 2002.

Commencing in May 2002, we developed a new branded fortified flavored milk product under the "Slammers(R) Fortified Reduced Fat Milk" brand name. We use our Slammers(R) brand in conjunction with our licensed third party trademarks. Slammers(R) is made from 2 percent fat milk and is fortified with 11 essential vitamins. The introduction of this new product and the phase out of our "regular" branded milks occurred in the fourth quarter of 2002. Our Slammers(R) flavored milks are sold in the United States in single serve extended shelf life plastic bottles, as well as the long life aseptic Tetra Pak Prisma(TM) package. Our Slammers(R) flavored milks are sold in Mexico and have been sold in Canada in single serve extended shelf life plastic bottles.

In October 2002, Parmalat introduced Looney Tunes(TM) brand fortified aseptic milk, packaged in an 8oz Tetra-Brik(TM) format under our Slammers Fortified Reduced Fat Milk(R) logo pursuant to a production agreement that we executed in June 2002. The 8oz Tetra Brik Slammers(R) does not require refrigeration and has a shelf life of 6 months. Currently, this product is no longer available.

In November 2002, we introduced Slim Slammers(R) Fortified Milk, a low calorie version of our Slammers (R)Fortified Reduced Fat Milk. Slim Slammers(R) Fortified Milk has no added sugar and is sweetened with sucralose, a natural sweetener made from sugar. Slim Slammers(R) Fortified Milk is made from 1 percent fat milk, is fortified with 11 essential vitamins and is available in the same flavors as our Slammers(R) brand. We reintroduced this product in the United States with a new package and formulation during 2004.

In 2004, we announced our product development and brand strategy for seven new, separate and distinct single serve product lines. Ultimate Slammers(TM),

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

Slim Slammers(R), Moon Pie Slammers(R), Pro-Slammers(TM), Starburst(R) Slammers(R), 3 Musketeers(R) Slammers(R), and Milky Way(R) Slammers(R) are all fortified and positioned to appeal directly to profiled demographic segments, including teens and pre teens for Ultimate Slammers(TM), Starburst(R) Slammers(R) and , Milky Way(R) Slammers(R), teens and sports enthusiasts for Pro-Slammers(TM), young to old for Moon Pie(R) Slammers(R) and health conscious adults for Slim Slammers(R) and 3 Musketeers(R) Slammers(R).

We launched four brands in 2004, beginning with Ultimate Slammers(R) in April and achieved national distribution of Ultimate Slammers(R) through both retail grocers and convenience stores by mid- summer. Roughly 10,000 retail

25

supermarket stores carried this brand nationwide in 2004. This was followed by our June launch of Slim Slammers(R) and Moon Pie (R) Slammers(R) and the July release of our Pro-Slammers(TM) line.

Industry Trends

The flavored milk industry has grown from approximately \$750 million in 1995 to \$2.5 billion in 2004. The single serve portion of this category is difficult to measure, since approximately 2/3 of the sales in the single serve milk industry are sold in immediate consumption channels or other channels that do not report scan-data. For example, Wal-Mart, has become the largest retailer in the USA for milk, selling an estimated 15% of total milk sales. Wal-Mart does not report sales for the industry data resources embodied in A.C. Neilson or IRI analyses. Similarly, most convenience stores and "up-and-down-the-street" retailers in the immediate consumption sales channels do not report either, and neither do vending and schools.

We have analyzed the industry using reports available from milk and beverage industry sources. These include the total, segmented and rate of growth sales that are reported, the immediate consumption sales rates for all consumables compared to retail grocery buying patterns and opinions of experts in the milk industry as to the relative size of reported versus non-reported sales. Based upon these reports and analysis, we believe the current size of the single serve flavored milk industry (packaging 16 oz. or smaller) is approximately \$1.5 billion domestically. The industry grew at annual rates of between 5 and 15 percent during the last five years but was virtually flat in the last two years while it digested the remarkable 10-year growth rates. We believe that this space is positioned for growth now and will continue to be in the immediate consumption channels such as vending, convenience stores and food service market segments.

Market Analysis

The flavored milk business is a relatively new category in the dairy field. The flavored "refreshment" segment is both the fastest growing and most profitable category in the industry and is receiving the most attention in the industry today. Pioneered by Nestle with the NesQuik line and Dean Foods with its Chug brand, this "good for you" segment is in demand both in the U.S. and internationally.

The International Dairy Foods Association reports that, although flavored milk currently amounts to only 5 to 6 percent of milk sales, it represents over 59% of the growth in milk sales. With the total milk category exceeding \$9.3 billion in 2004, the flavored milk segment was approximately \$2.5 billion in 2004, with single serve flavored milk growing to approximately \$1.5 billion for the same period. Statistically, as the flavored segment grows, the entire

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

category grows as well. In the past ten years, selling more flavored milks has resulted in more sales of white milk as well.

In addition, the International Dairy Foods Association and Dairy Management Inc. have reported on studies suggesting that dairy products may help in weight loss efforts when coupled with a reduced calorie diet, based on data associating adequate calcium intake with lower body weight and reduced body fat. We continue to develop a niche in the single serve flavored milk business by utilizing strong, national branding as part of the promotion of our Slammers(R), Pro Slammers(TM) and Slim Slammers(R) products. This niche has as its focus the increased demand for single serve, healthy and refreshing drinks.

Market Segment Strategy

The Bravo! product model addresses a very clear and concise target market. We know from experience that the largest retailers of milk products are demanding new and more diverse refreshment drinks, specifically in the dairy area, in response to consumer interest and demand. To that end, we have and will continue to differentiate our products from those of our competitors through innovative product formulations and packaging designs, such as those implemented in our Slammers(R) and Pro Slammers(TM) fortified milk product lines and our Slim Slammers(R) low calorie, no sugar added products.

Our Slammers(R) milk products have had promising results penetrating this arena as consumers continue to look for healthy alternatives to carbonated beverages. The positioning of our products as a healthy, fun and great tasting alternative refreshment drink at competitive prices to more traditional beverages creates value for the producer and the retailer alike. This "profit

26

orientation" for the trade puts old-fashioned milk products in a whole new light. The consumer is happy, the retailer is happy and the producer is able to take advantage of the value added by the brand and the resulting overall increase in milk sales.

We currently are implementing a very important "first-to-market" strategy that we feel will dramatically reposition our brands and company. Until now, all single served flavored milk in plastic bottles required refrigeration for storage, distribution, and shelf placement. Our strategic partner, Jasper Products, became America's first processor with FDA approval to offer a "shelf stable" re-sealable plastic bottle for ambient milk products that do not require refrigeration.

The tactical advantage of distributing our milk products at ambient temperatures enables us to side-step a major entry barrier in our immediate consumption strategy. Most beverages are distributed ambient either through beverage distribution channels or warehouse "candy and tobacco" distributors. Refrigerated milk was relegated to dairy direct-store-delivery systems that are controlled by either regional dairy processors or larger national dairy holding companies such as Dean Foods or H.B. Hood. We avoid the roadblock of being reliant upon our competition for chilled distribution since we are now in the unique position to use the more traditional distribution network that accommodates non-refrigerated beverages. We currently are converting all of our products into ambient "shelf stable" re-sealable plastic bottles.

We have been and continue to pursue a strategic goal of placing Slammers(R) milks in elementary, middle and high schools through ala carte lunch programs and vending facilities in school cafeterias and we are promoting our Slim Slammers(R) milks as low calorie, non-sugar added alternatives to

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

traditional soft drinks. Penetration of this market segment has been limited by logistic and economic concerns of school administrators in the push to remove traditional carbonated soft drinks from schools in favor of milk and milk based products.

Competition

Nestle pioneered the single serve plastic re-sealable bottle which has become the standard for this industry, and they currently enjoy a dominant market share. Dean Foods owns a number of regional single serve brands that are sold in this format, and they also have an exclusive license to produce Hershey brand flavored milk nationwide. Our analysis indicates that the Nestle's Nesquik brand accounts for approximately 30-35 percent of the U.S. single serve milk category, while Hershey's market share is approximately half that, at around 15%. The other competition comes from private label and regional dairy brands. Our Slammers(R) milks are the only other single serve brand distributed nationally in America in plastic re-sealable containers.

Our resources for promotions have been limited, and we run significantly less promotional activities in comparison to our competitors. Where we are in direct competition with Nestle and Hershey, however, we have been able to maintain competitive sales levels.

Employees

We have twelve full time employees located at our North Palm Beach corporate offices. China Premium Food Corp (Shanghai) Co. Ltd., ceased operations and does not maintain any employees in China.

Description of Property

Neither our company nor our subsidiaries currently own any real property. As of February 1, 1999, we moved our corporate offices from West Palm Beach to 11300 US Highway 1, Suite 202, North Palm Beach, Florida, pursuant to a lease with HCF Realty, Inc., having an initial term of five years. The current aggregate monthly rent amounts to approximately \$7,468, which includes an expansion of our office space from 2,485 square feet to 3,490 square feet. The term of this lease has been extended for six years to October 30, 2010.

We do not have a policy to acquire property for possible capital gains or income generation. In addition, we do not invest in securities of real estate entities or developed or underdeveloped properties.

INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Articles of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended, is to eliminate our rights and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in our Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act" or "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

PLAN OF DISTRIBUTION

The selling stockholders and any of their respective pledgees, donees, assignees and other successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- o ordinary brokerage transactions and transactions in which the broker-dealer solicits the purchaser;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block

38

- o as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately-negotiated transactions;
- o short sales that are not violations of the laws and regulations of any state or the United States;
- o broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- o through the writing of options on the shares
- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus. The selling stockholders shall have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may also engage in short sales against the box, puts and calls and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades.

The selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may also sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

block purchasers purchasing the shares will do so for their own account and at their own risk. It is possible that a selling stockholder will attempt to sell shares of common stock in block transactions to market makers or other purchasers at a price per share which may be below the then market price. The selling stockholders cannot assure that all or any of the shares offered in this prospectus will be issued to, or sold by, the selling stockholders. The selling stockholders and any brokers, dealers or agents, upon effecting the sale of any of the shares offered in this prospectus, may be deemed to be "underwriters" as that term is defined under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, or the rules and regulations under such acts. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

We are required to pay all fees and expenses incident to the registration of the shares, including fees and disbursements of counsel to the selling stockholders, but excluding brokerage commissions or underwriter discounts.

The selling stockholders, alternatively, may sell all or any part of the shares offered in this prospectus through an underwriter. No selling stockholder has entered into any agreement with a prospective underwriter and there is no assurance that any such agreement will be entered into.

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling stockholders defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares. The selling stockholders and any other persons participating in the sale or distribution of the shares will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such act, including, without limitation, Regulation M. These provisions may restrict certain activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other such person. In the event that the selling stockholders are deemed affiliated purchasers or distribution participants within the meaning of Regulation M, then the selling stockholders will not be permitted to engage in short sales of common stock. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. In regards to short sells, the selling stockholder can only cover its short position with the securities they receive from us upon conversion. In addition, if such short sale is deemed to be a stabilizing activity, then the selling stockholder will not be permitted to engage in a short sale of our common stock. All of these limitations may affect the marketability of the shares.

39

We have agreed to indemnify the selling stockholders, or their transferees or assignees, against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may be required to make in respect of such liabilities.

If the selling stockholders notify us that they have a material arrangement with a broker-dealer for the resale of the common stock, then we would be required to amend the registration statement of which this prospectus is a part, and file a prospectus supplement to describe the agreements between the selling stockholders and the broker-dealer.

PENNY STOCK

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

*** Less than one percent.

The number and percentage of shares beneficially owned is determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rule, beneficial ownership includes any shares as to which the selling stockholders has sole or shared voting power or investment power and also any shares, which the selling stockholders has the right to acquire within 60 days. The actual number of shares of common stock issuable upon the conversion of the convertible debentures is subject to adjustment depending on, among other factors, the future market price of the common stock, and could be materially less or more than the number estimated in the table.

(1) The actual number of shares of common stock offered in this prospectus, and included in the registration statement of which this prospectus is a part, includes such additional number of shares of common stock as may be issued or issuable upon conversion of the convertible debentures and exercise of the related warrants by reason of any stock split, stock dividend or similar transaction involving the common stock, in accordance with Rule 416 under the Securities Act of 1933. However the selling stockholders have contractually agreed to restrict their ability to convert their convertible debentures or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 9.9% of the then issued and outstanding shares of common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for the selling stockholders exceeds the number of shares of common stock that the selling stockholders could own beneficially at any given time through their ownership of the convertible debentures and the warrants. In that regard, the beneficial ownership of the common stock by the selling stockholder set forth in the table is not determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended.

Terms of Convertible Debentures

November 2003

To obtain funding for our ongoing operations, we entered into a Subscription Agreement with an accredited investor on November 21, 2003 for the sale of (i) \$400,000 in convertible debentures, (ii) class A warrants to buy 2,000,000 shares of our common stock and (iii) class B warrants to buy 10,000,000 shares of common stock. In connection with this financing, we paid a fee, which included (i) 400,000 shares of common stock, (ii) class A warrant to purchase 2,000,000 shares of common stock and (iii) 10% of the proceeds received by us in connection with the exercise of the class B warrants, which is payable in shares of common stock at the rate of one share of common stock for every ten shares of common stock actually issued upon exercise of the class B warrants.

This prospectus relates to the resale of the shares of common stock and the common stock underlying these convertible debentures and warrants.

The debentures bear interest at 8%, mature on two years from the date of issuance, and are convertible into our common stock, at the selling stockholders' option, at the lower of (i) \$0.05 or (ii) 75% of the average of the three lowest intraday trading prices for the common stock on a principal market for the 30 trading days before but not including the conversion date. However, during the six months after the issuance of the convertible debenture, the conversion price shall not be less than \$.03 per share unless an event of default exists. The conversion floor price of \$.03 per share shall be extended indefinitely, if during the six months after the issuance of the convertible debenture (i) the closing trading price of our common stock for any consecutive 15 day trading period is \$.20 or higher, (ii) the daily trading volume for each such 15 trading days is 300,000 or more shares of common stock and (iii) the

registration statement registering the shares issuable under the convertible debenture is effective for each such 15 trading days, unless an event of default exists. Accordingly, the above factors are not satisfied, there is in fact no limit on the number of shares into which the debentures may be converted. As of April 27, 2004, the trading prices for our common stock during the preceding 30 trading days as reported on the Over-The-Counter Bulletin Board was \$.14 and, therefore, the conversion price for the convertible debentures was \$.05. Based

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

on this conversion price, the \$400,000 convertible debentures, excluding interest, were convertible into 8,000,000 shares of our common stock. The full principal amount of the convertible debentures are due upon default under the terms of convertible debentures.

In connection with a Securities Purchase Agreement dated November 2003, we have issued 4,000,000 class A and 10,000,000 class B warrants to purchase shares of common stock. The A warrants are exercisable until three years from the date of issuance at a purchase price of \$0.05 per share. The B warrants are exercisable until three years from the date of issuance at a purchase price of \$1.00 per share. In 2004, we entered into an agreement with holders of the B warrants whereby we amended 5,000,000 of the B Warrants to have an exercise price of \$.10 per share.

The conversion price of the debentures and the exercise price of the warrants may be adjusted in certain circumstances such as if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the selling stockholder's position.

The selling stockholders have contractually agreed to restrict their ability to convert their convertible debentures or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 9.9% of the then issued and outstanding shares of common stock.

April 2004

In April 2004, we entered into a Subscription Agreement with two accredited investors for the sale of (i) \$500,000 in convertible debentures and (ii) warrants to buy 3,000,000 shares of our common stock. In connection with this financing, we paid a fee in the amount of a convertible debentures in the amount of \$50,000.

The debentures issued in connection with the April 2004 financing bear interest at 10%. The principal on the notes is due in equal monthly installments commencing on November 1, 2004 until October 1, 2005. On October 1, 2005, all principal and interest shall become due. In the event that our common stock has a closing price in excess of \$.20 for the five days preceding the monthly payment, then, within our discretion, the monthly payment may be deferred. and the notes are convertible into our common stock at \$0.10 per share. Based on this conversion price, the \$500,000 convertible debentures, excluding interest, were convertible into 5,000,000 shares of our common stock.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. See the "Selling Stockholders" and "Risk Factors" sections for a complete description of the convertible debentures.

June 2004

In June 2004, we entered into a Subscription Agreement with Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited, Stonestreet Limited Partnership and Mid-Am Capital L.L.C for the issuance of convertible 10% notes in the aggregate amount of \$1,300,000 and five-year "A" warrants for the purchase of, in the aggregate, 5,200,000 shares of common stock, at \$0.25 per share, and five-year "B" warrants for the purchase of, in the aggregate, 13,000,000 shares of common stock, at \$2.00 per share. October 2004 financing, we subsequently amended the exercise price to \$.15 for the "A" warrants issued to Longview Fund, LP, Alpha Capital Aktiengesellschaft, Whalehaven Funds Limited and Stonestreet Limited Partnership. The notes are convertible into shares of common stock of the Company at \$0.15 per common

44

share. The notes are payable in twelve equal monthly installments, commencing January 1, 2005. The installment payments consist of principal and a "premium" of 20% of the principal paid per installment. We have the option to defer such payment until the note's maturity date on December 1, 2005, if our common stock trades above \$0.20 for the five trading days prior to the due date of an installment payment. In connection with this transaction, we issued additional notes in the aggregate amount of \$40,000 to Gem Funding, LLC, Bi-Coastal Consulting Corp., Stonestreet Limited Partnership and Libra Finance, S.A upon identical terms as the principal notes, as a finder's fee, and paid \$12,500 in legal fees. The common stock underlying all notes and warrants carry registration rights.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. Sample Conversion Calculation

The number of shares of common stock issuable upon conversion of the debentures is determined by dividing that portion of the principal of the debenture to be converted and interest, if any, by the conversion price. For example, assuming conversion of \$400,000 of debentures issued in November 2003 on March 4, 2005, a conversion price of \$0.05 per share, the number of shares issuable upon conversion would be:

$\$400,000 / \$0.05 = 8,000,000$ shares

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
Bravo! Foods International Corp.
North Palm Beach, Florida

We have audited the accompanying consolidated balance sheets of Bravo! Foods International Corp. as of December 31, 2003 and 2004 and the related statements of operations and comprehensive loss, shareholders' deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (U.S.). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bravo! Foods International Corp. as of December 31, 2003 and 2004 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has incurred a net loss of \$3,799,926 for the year ended December 31, 2004 and as of that date had a working capital deficiency of \$2,365,969 and a shareholders' deficit of \$3,029,694. The Company is also delinquent in payment of certain debts. These conditions raise substantial doubt about their ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence. Management's actions in regard to these matters are more fully described in Note 1.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Organization, Businesses and Going Concern Uncertainty

Bravo! Foods International Corp., formerly known as China Premium Food Corporation, was incorporated under the laws of the State of Delaware on April 26, 1996. We are engaged in the sale of branded flavored milk products and flavor ingredients in the United States, the Middle East, Canada and Mexico.

In December 1999, we obtained Chinese government approval for the registration of China Premium Food Corp (Shanghai) Co. Ltd., a wholly owned subsidiary, in the Wai Gao Qiao free trade zone in Shanghai, China. This subsidiary was formed to import, export and distribute food products and flavored milk ingredients on a wholesale level in China. We ceased all business activities of this Chinese subsidiary in the second quarter 2004 and did not generate revenue in 2004 from our China operation.

In January 2005, we formed Bravo! Brands (UK) Ltd., a registered United Kingdom subsidiary. The company formed this subsidiary to operate our branded flavored milk business in the United Kingdom. On February 4, 2005, we executed a license agreement with Marvel Enterprises, Inc., for the use of Marvel Heroes(R) comic book characters on our products.

Going Concern Uncertainty

As shown in the accompanying consolidated financial statements, we have suffered operating losses and negative cash flow from operations since inception and have an accumulated deficit of \$33,737,029, a capital deficit of \$3,029,694, negative working capital of \$2,365,969 and are delinquent on certain of our debts at December 31, 2004. Further, our auditors stated in their report on our Consolidated Financial Statements for the year ended December 31, 2004, that these conditions raise substantial doubt about our ability to continue as a going concern. Management plans to increase gross profit margins in our U.S. business and obtain additional financing and is continuing to reposition our products with the launch of three new product lines in the first and second quarters of 2005. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, management is continuing to actively seek equity and/or debt financing, and the Company received \$1,150,000 in the first quarter 2005 as part of a \$2,300,000

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

convertible debt financing. No assurances can be given that the Company will be successful in carrying out our plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these financial statements are the estimated allowance for doubtful accounts receivable and the deferred income tax asset valuation allowance. Actual results could differ materially from those estimates.

Fair Value of Financial Instruments

The carrying amount of cash, receivables, accrued liabilities and notes payable are reasonable estimates of their fair value because of the short maturity of these items.

F-9

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Cash and Cash Equivalents

We consider all highly liquid investments purchased with a remaining maturity of three months or less to be cash equivalents.

Accounts Receivable and Concentration of Credit Risk

Our financial instruments that are exposed to concentrations of credit risk primarily consist of cash and accounts receivable.

During the normal course of business, we extend unsecured credit to our customers who are located in various geographical areas. Typically credit terms require payments to be made by the thirtieth day following the sale. We regularly evaluate and monitor the creditworthiness of each customer on a case-by-case basis. We provide an allowance for doubtful accounts based on our continuing evaluation of our customers' credit risk. As of December 31, 2004, the allowance of doubtful accounts aggregated \$90,396. We maintain cash accounts with high credit quality financial institutions. The FDIC insures total cash balances up to \$100,000 per bank. Cash balances in any one financial institution were not in excess of this limit at December 31, 2004.

Inventory

Inventory, which consists primarily of packing materials and flavor ingredients, is stated at the lower of cost on the first in, first-out method or market.

Furniture and Equipment

Furniture and equipment are stated at cost. Depreciation is computed primarily utilizing the straight-line method over a period of seven years for furniture and five years for equipment.

Maintenance, repairs and minor renewals are charged directly to expenses as incurred. Additions and betterments to property and equipment are capitalized.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

When assets are disposed of, the related cost and accumulated depreciation thereon are removed from the accounts, and any resulting gain or loss is included in the statement of operations.

Impairment of Long-Lived Assets

Effective January 1, 2002, we began applying the provisions of Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"). SFAS No. 144 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value.

F-10

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Revenue Recognition

We sell flavor ingredients and production rights (collectively referred to as "kits") to processor dairies in Mexico and nine Middle East countries and also sell flavored milk products in the U.S. We recognize revenue when goods are shipped, and title and the risk and reward of ownership have been passed to the customer and possible return of goods can be reasonably estimated. The criteria to meet this guideline are: 1) persuasive evidence of an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

We follow the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". Pursuant to EITF 99-19, our sales of kits made directly to customers are reflected in the statement of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue. Sales of kits made through intermediaries, in whom our role is similar to that of an agent, are reflected on a net basis, which represents the amount earned by us in the transaction.

We have production agreements with processors of dairy products pursuant to which we sell flavored milk products to retail stores (referred to as "unit sales"). We benefit from the difference between the prices charged by the dairy processor to produce the product for us and the price paid by retail stores to purchase the product. We bear the responsibility for paying food brokers fees, transportation and delivery expenses and sample expense, etc. We recognize revenue on the gross basis and recognize the aforementioned expenses as selling expenses.

Shipping and Handling Costs

Shipping and handling costs incurred by us are included in selling expenses and aggregated \$504,971 and \$ 498,313 for 2003 and 2004, respectively.

Advertising and Promotion Costs

Advertising and promotion costs, which are included in selling expenses, are expensed as incurred and aggregated \$342,367 and \$656,614 for 2003 and 2004, respectively.

Income Taxes

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

We account for income taxes using the liability method, which requires an entity to recognize deferred tax liabilities and assets. Deferred income taxes are recognized based on the differences between the tax bases of assets and liabilities and their reported amounts in the financial statements that will result in taxable or deductible amounts in future years. Further, the effects of enacted tax laws or rate changes are included as part of deferred tax expense or benefit in the period that covers the enactment date. A valuation allowance is recognized if it is more likely than not that some portion, or all, of a deferred tax asset will not be realized.

Earnings (Loss) Per Share

Basic earnings (loss) per common share is computed by dividing the loss applicable to common stockholders by the weighted average number of common shares outstanding for the period.

For the years ended December 31, 2003 and 2004, potential common shares arising from our stock options, stock warrants and convertible preferred stock of 39,611,363 and 65,089,658, respectively, were not included in the computation of diluted earnings per share because their effect was antidilutive.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Stock-based Compensation

We have adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and disclose the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options, issued to non-employees, the fair value of the equity instruments or the fair value of the consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations. (SFAS 123 was amended further in December 2004; see below - Recent Accounting Pronouncements).

The following table illustrates the effect on net loss and loss per share as if we had applied the fair value recognition provision of SFAS No. 123 to stock-based employee compensation.

Recent Accounting Pronouncements

In December 2004, the FASB issued Statement No. 152, "Accounting for Real Estate Time-Sharing Transactions". This statement amends SFAS No. 66 (Accounting for Sales of Real Estate) and SFAS No. 67 (Accounting for Costs and Initial Rental Operations of Real Estate Projects). This standard, which is effective for financial statements for fiscal years beginning after June 15, 2005, is not applicable to the Company's current operations.

In December 2004, the FASB issued SFAS No. 153 "Exchange of Non-Monetary Assets - an amendment of APB Opinion No. 29". Statement 153 eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance, defined as transactions that are not expected to result in significant changes in the cash flows of the reporting entity. This statement is effective for exchanges of non-monetary assets occurring after June 15, 2005. The application of this statement is not expected to have an impact on the Company's financial statements considering the Company's intermittent participation in exchanges of non-monetary assets.

In December 2004, the FASB issued a revision of SFAS No. 123 "Share-Based Payment" (No. 123R). The statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods and services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. The statement does not change the accounting guidance for share-based payments with parties other than employees. The statement requires a public entity to measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exception). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). A public entity will initially measure the cost of employee services received in exchange for an award of a liability instrument based on its current fair value; the fair value of that award will be remeasured subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation over that period. The grant-date fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of these instruments. According to management, this pronouncement, which becomes effective for the Company for periods beginning after December 15, 2005, is not expected to have a material effect on their financial position.

Note 3 - Licensing Agreements

Warner Brothers Consumer Products Co.

On January 1, 1999, we entered into a licensing agreement (the Original Agreement) with Warner Brothers Consumer Products Co. (Warner) for the right to utilize Looney Tunes(TM) images and names, as defined in the Agreement, on our products in Shanghai and Hangzhou, China. We recorded license rights of \$300,000 and amortized the rights over a period of three years. On November 21, 2000, we entered into an amendment of the Original Agreement with Warner. Per the amendment, the term of the agreement was extended to June 30, 2003 with the guaranteed consideration being increased to \$400,000. The Original Agreement, as amended, was extended to October 29, 2003, at which time it expired. As of December 31, 2003, the outstanding obligation under this agreement was \$147,115.

We decided not to seek another license from Warner Bros. for China beyond the October 2003 expiration based upon the lack of sales in our China markets and what we perceived to be the licensor's continuing overall lack of brand support in China. The Company and Warner Bros. dispute the contractual necessity of the payment of the balance owed on the China license as a result of the above circumstances. As of December 31, 2004, we reserved and continue to reserve \$147,116 for this obligation, representing a total \$183,343 balance of guaranteed royalties, which includes \$36,227 for the legally allowed default penalty.

On July 26, 2000, we entered into a license agreement with Warner Bros. and obtained rights to utilize Looney Tunes(TM) character images and names in the United States in connection with specified categories of products sold by Bravo!. The license agreement was originally effective from January 1, 2000 to December 31, 2002 and was extended to December 31, 2003. We recorded total license rights for this U.S. license of \$750,000.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In September 2001, we entered into a licensing agreement with Warner for the right to utilize Looney Tunes(TM) character images and names, as defined in the agreement, on our products sold in Mexico, with a minimum total guaranteed consideration of \$145,000, which we amortized over a period of three years. This licensing agreement was effective through May 31, 2004.

In May 2002, we entered into a licensing agreement with Warner to utilize Looney Tunes(TM) characters and names on milk products sold in specified retail outlets throughout Canada, for the period March 1, 2002 to March 31, 2004. We recorded a license right of \$32,720 upon execution of the agreement.

Our experience with Warner Bros. licenses, as a function of sales of the flavored milks, has not supported the guaranteed royalty structure required by Warner Bros. for its licenses. As a result, we decided to exploit our own Slammers(R) brand, which was developed in 2003, and commenced negotiations for licenses with Marvel Comics and Moon Pie. For these reasons, we decided not to accept the offer of Warner Bros. to renew the U.S. license.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

Marvel Enterprises, Inc.

In January 2004, we commenced a license agreement with Marvel Enterprises, Inc. for the right to use certain Marvel Super Heroes in the United States (including its territories) and nine Middle East countries for a one-year (renewable) term. We agreed to a royalty rate of 11% on the amount invoiced to dairy processors for "kits" and 4% of net wholesale sales in the United States. We have recorded \$100,000 and \$75,000 for 750,000 shares and options for an additional 750,000 shares as license fees.

On February 4, 2005, we entered into a two-year license agreement for the utilization of Marvel Heroes characters on our flavored milks in the United Kingdom and Ireland. We agreed to a royalty rate of 4% of net wholesale sales in the territory against the prepayment of a guaranteed minimum royalty amount of approximately \$240,000.

We currently are negotiating with Marvel to conclude a new one-year license for the United States, Mexico and Canada and a two-year license for the Middle East.

Chattanooga Bakery, Inc. (Moon Pie(R))

In October 2003, we commenced a two-year license agreement with MD Enterprises, Inc. on behalf of Chattanooga Bakery for the right to manufacture, distribute, market and sell Moon Pie(R) flavored milk products in the United States. We agreed to a variable royalty rate of 3% to 2% of net wholesale sales, depending upon volume.

Masterfoods USA (Starburst(R), Milky Way(R), 3 Musketeers(R))

On September 21, 2004, we entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's Milky Way(R), Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serve flavored milk drinks in the United States, its Possessions and Territories, and US Military installations worldwide. We have agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon guaranteed royalties and recorded license fees of \$50,000 in 2004 and \$25,000 in the first quarter of 2005.

BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 4 - Default of Note Payable to International Paper

In 1999, we issued a promissory note to assume existing debt owed by our then Chinese joint venture subsidiary to a supplier, International Paper. The face value of that unsecured note was \$282,637 at an interest rate of 10.5% per annum. The note originally required 23 monthly payments of \$7,250 and a balloon payment of \$159,862 due on July 15, 2000. During 2000, we negotiated an extension of this note to July 1, 2001. International Paper imposed a charge of \$57,000 to renegotiate the note, which amount represents interest due through the extension date. The current balance due on this note is \$187,743 at December 31, 2004, all of which is delinquent. We have not had any communication with International Paper during the last three years. Although International Paper has not pursued collection of the note, it is possible that they could do so in the future and, if they do, such collection effort may have a significant adverse impact on the liquidity of the Company. We have not accrued interest as of December 31, 2003 and December 31, 2004.

Note 5 - Notes Payable to Individual Lenders

On November 6 and 7, 2001, respectively, we received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable on February 1, 2002 with interest at an annual rate of 8%. These loans are secured by a general security interest in all of our assets. These lenders have agreed to extend the notes without default on a demand basis. Interest accrued and unpaid as December 31, 2004 aggregated \$25,380.

On May 9, 2004 we received the proceeds of a \$750,000 loan from Mid-Am Capital, payable September 3, 2004, with an interest rate of 8%. This loan is secured by a general security interest in all of our assets. Mid-Am has agreed to extend the note to January 31, 2005. BRAVO! FOODS INTERNATIONAL CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 8 - Income Taxes

We are subject to Federal income taxes. As we have experienced operating losses for the years of 2003 and 2004, we have not provided for income tax .

We have gross deferred tax assets of approximately \$6.8 million and \$8.1 million at December 31, 2003 and 2004, respectively, relating principally to tax effects of net operating loss carry forwards. In assessing the recoverability of deferred tax assets, management considers whether it is more likely than not that the assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers projected future taxable income and tax planning strategies in making

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form SB-2/A

this assessment. Based upon the level of historical taxable loss and projections for future taxable income over the periods in which the deferred tax items are recognizable for tax reporting purposes, it is more likely than not that we will not realize the benefits of these deferred tax assets existing at December 31, 2003 and 2004. As such, management has recorded a valuation allowance for the full amount of deferred tax assets at December 31, 2003 and 2004.

At December 31, 2004, we had available net operating losses of approximately \$19 million for federal income tax purposes, to offset future taxable income, if any, which will expire at various dates through the year 2023 for federal income tax purposes. The utilization of net operating losses, however, may be subject to certain limitations as prescribed by Section 382 of the Internal Revenue Code.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Our Articles of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended, is to eliminate our right and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in its Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

ITEM 28. UNDERTAKINGS.

The undersigned registrant hereby undertakes to:

(1) File, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in

the "Calculation of Registration Fee" table in the effective registration statement, and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For purposes of determining any liability under the Securities Act, treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time

it was declared effective.

(5) For determining any liability under the Securities Act, treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

In accordance with the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements of filing on Form SB-2 and authorizes this registration statement to be signed on its behalf by the undersigned, in the City of North Palm Beach, State of Florida, on March 30, 2005.
