Anti-Takeover Effects of Provisions of the Certificate of Incorporation (As Amended), Bylaws and Delaware Law

Authorized and Unissued Stock

The authorized but unissued shares of our common stock and preferred stock are available for future issuance without the approval of the shareholders. These additional shares may be utilized for a variety of corporate purposes including but not limited to future public or direct offerings to raise additional capital, corporate acquisitions and employee incentive plans. The issuance of such shares may also be used to deter a potential takeover of the Company that may otherwise be beneficial to our shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the desires of the Board of Directors. A takeover may be beneficial to shareholders because, among other reasons, a potential suitor may offer shareholders a premium for their shares of stock compared to the then-existing market price.
