UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2009

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM __ TO __

COMMISSION FILE NO: 0-22810

MACE SECURITY INTERNATIONAL, INC.
(Exact name of Registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of
incorporation or organization)

03-0311630
(I.R.S. Employer
Identification No.)

240 Gibraltar Road, Suite 220, Horsham, Pennsylvania 19044
(Address of Principal Executive Offices) (Zip code)

Registrant's Telephone Number, including area code: (267) 317-4009

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 the (" Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Edgar Filing: MACE SECURITY INTERNATIONAL INC - Form 10-Q

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of August 10, 2009, there were 16,285,377 Shares of the registrant's Common Stock, par value \$.01 per share, outstanding.

Mace Security International, Inc.
Notes to Consolidated Financial Statements
(Unaudited)

1. Description of Business and Basis of Presentation

The accompanying consolidated financial statements include the accounts of Mace Security International, Inc. and its wholly owned subsidiaries (collectively, the “Company” or “Mace”). All significant intercompany transactions have been eliminated in consolidation. The Company currently operates in three business segments: the Security Segment, selling consumer safety and personal defense products, as well as electronic surveillance and monitoring products; the Digital Media Marketing Segment, selling consumer products on the internet; and the Car Wash Segment, supplying complete car care services (including wash, detailing, lube, and minor repairs). The Company entered the digital media marketing business with its acquisition of Linkstar Interactive, Inc. (“Linkstar”) on July 20, 2007 and the wholesale security monitoring business with its acquisition of Central Station Security Systems, Inc. (“CSSS”) on April 30, 2009. See Note 4. Business Acquisitions and Divestitures. The Company’s remaining car wash operations as of June 30, 2009 were located in Texas. As of June 30, 2009, the results for the Florida, Austin, Texas, San Antonio, Texas and the Lubbock, Texas car wash regions have been classified as discontinued operations in the statement of operations and the statement of cash flows. The statements of operations and the statements of cash flows for the prior years have been restated to reflect the discontinued operations in accordance with Statement of Financial Accounting Standards (“SFAS”) 144, Accounting for the Impairment or Disposal of Long-Lived Assets. See Note 5. Discontinued Operations and Assets Held for Sale.

2. New Accounting Standards

In April 2009, the Financial Accounting Standards Board (“FASB”) issued FSP FAS 141R-1, Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies, (“FSP FAS 141R-1”), which amends and clarifies SFAS No. 141R. FSP FAS 141R-1 requires that assets acquired and liabilities assumed in a business combination that arise from contingencies be recognized at fair value if fair value can be reasonably estimated. If fair value cannot be reasonably estimated, the asset or liability would generally be recognized in accordance with FASB Statement No. 5, Accounting for Contingencies, and FASB Interpretation No. 14, Reasonable Estimation of the Amount of a Loss. Further, the FASB decided to remove the subsequent accounting guidance for assets and liabilities arising from contingencies from SFAS 141R, and carry forward without significant revision the guidance in SFAS No. 141, Business Combinations. FSP FAS 141R-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments. This FSP amends SFAS No. 107, Disclosures about Fair Value of Financial Instruments, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This FSP also amends APB Opinion No. 28, Interim Financial Reporting, to require those disclosures in summarized financial information at interim reporting periods. This FSP will be effective for interim reporting periods ending after June 15, 2009. The adoption of FSP FAS 107-1 did not have a significant impact on our Consolidated Financial Statements.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events, (“SFAS 165”). SFAS 165 provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 also requires entities to disclose the date through which subsequent events were evaluated as well as the rationale for why that date was selected. SFAS 165 is effective for interim and annual periods ending after June 15, 2009, and accordingly, we adopted this Standard

effective with this interim report for the period ending June 30, 2009. The Company has performed an evaluation of subsequent events through August 12, 2009, which is the date the financial statements were issued. During this period we did not have any material recognizable subsequent events. We did, however, have non-recognizable subsequent events by selling a cell tower easement located at one of the Company's Arlington, Texas car wash properties on July 31, 2009 and by entering into an extension agreement with respect to the Company's Austin, Texas car washes. See Note 4, Business Acquisitions and Divestitures, regarding the cell tower easement sale and the car wash sale agreement extension.

7

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162, ("SFAS 168"), which is effective for the Company July 1, 2009. SFAS 168 does not change current U.S. GAAP, but rather integrates existing accounting standards with other authoritative guidance. Under SFAS 168, there will be a single source of authoritative U.S. GAAP for nongovernmental entities and will supersede all other previously issued non-SEC accounting and reporting guidance. The adoption of SFAS 168 will not have any impact on our Consolidated Financial Statements.

3. Other Intangible Assets

The following table reflects the components of intangible assets, excluding goodwill and other intangibles classified as assets held for sale (in thousands):

	June 30, 2009		December 31, 2008	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:				
Non-compete agreement	\$ 515	\$ 201	\$ 465	\$ 164
Customer lists	1,824	574	1,184	654
Product lists	590	295	590	266
Software	883	282	883	208
Patent costs	23	-	16	-
Tradenname	70	4	-	-
Deferred financing costs	137	132	231	180
Total amortized intangible assets	4,042	1,488	3,369	1,472
Non-amortized intangible assets:				
Trademarks-Security Segment	1,007	-	1,074	-
Trademarks-Digital Media Marketing Segment	478	-	478	-
Total non-amortized intangible assets	1,485	-	1,552	-
Total intangible assets	\$ 5,527	\$ 1,488	\$ 4,921	\$ 1,472

The following sets forth the estimated amortization expense on intangible assets for the fiscal years ending December 31 (in thousands):

2009	\$ 451
2010	\$ 493
2011	\$ 452
2012	\$ 387
2013	\$ 277

Amortization expense of other intangible assets, net of discontinued operations, was approximately \$120,000 and \$147,000 for the three months ended June 30, 2009 and 2008 and \$224,000 and \$295,000 for the six months ended June 30, 2009 and 2008, respectively. The weighted average useful life of amortizing intangible assets was 5.0 years at June 30, 2009.

4. Business Acquisitions and Divestitures

Acquisitions

On April 30, 2009, the Company completed the purchase of all the outstanding common stock of Central Station Security Systems, Inc. ("CSSS") from CSSS's shareholders. The Company paid approximately \$3.7 million consisting of \$1.7 million in cash at closing, potential additional payments up to \$1.4 million upon the settlement of certain contingencies as set forth in the Stock Purchase Agreement, \$888,000 of which is recorded in accrued expenses and other current liabilities and \$481,000 which is recorded as other non-current liabilities at June 30, 2009, and the assumption of approximately \$590,000 of liabilities. CSSS, which is reported within the Company's Security Segment, is a national wholesale monitoring company located in Anaheim, California, with approximately 300 security dealer clients. CSSS owns and operates a UL-listed monitoring center that services over 30,000 end-user accounts. CSSS's primary assets are accounts receivable, equipment, customer contracts, and its business methods. The acquisition of CSSS enables the Company to expand the marketing of its security products through cross-marketing of the Company's surveillance equipment products to CSSS's dealer base as well as offering the Company's current customers monitoring services. The purchase price was allocated as follows: approximately (i) \$19,000 for cash; (ii) \$112,000 for accounts receivable; (iii) \$63,000 for prepaid expenses and other assets; (iv) \$443,000 for fixed assets and capital leased assets; (v) the assumption of \$590,000 of liabilities, and (vi) the remainder, or \$3.04 million, allocated to goodwill and other intangible assets. Within the \$3.04 million of acquired intangible assets, \$1.98 million was assigned to goodwill, which is not subject to amortization expense. The amount assigned to goodwill was deemed appropriate based on several factors, including: (i) multiples paid by market participants for businesses in the security monitoring business; (ii) levels of CSSS's current and future projected cash flows; (iii) the Company's strategic business plan, which included cross-marketing the Company's surveillance equipment products to CSSS's dealer base as well as offering the Company's current customers monitoring services, thus potentially increasing the value of its existing business segment; and (iv) the Company's plan to substitute the cash flows of the Car Wash Segment, which the Company is exiting. The remaining intangible assets were assigned to customer contracts and relationships for \$940,000, tradename for \$70,000, and a non-compete agreement for \$50,000. Customer relationships, tradename and the non-compete agreement, were assigned a life of fifteen, three, and five years, respectively. The acquisition was accounted for as a business combination in accordance with SFAS 141(R), Business Combinations.

Divestitures

In the first quarter ending March 31, 2008, the Company sold its six full service car washes in Florida in three separate transactions from January 4, 2008 to March 3, 2008 for total cash consideration of approximately \$12.5 million at a gain of approximately \$6.9 million. Simultaneously with the sale, \$4.2 million of cash was used to pay down related mortgage debt.

On July 18, 2008, the Company entered into an agreement to sell one of its full service car washes in Dallas, Texas for a total cash consideration of \$1.8 million. The Company completed the sale of the Dallas, Texas car wash on October 14, 2008. Simultaneously with the sale, \$1.24 million of cash was used to pay down related mortgage debt.

On January 14, 2009, the Company sold its two remaining San Antonio, Texas car washes. The sale price of the car washes was \$1.0 million, resulting in a loss of approximately \$7,000. The sale price was paid by the buyer issuing the Company a secured promissory note in the amount of \$750,000 bearing interest at 6% per annum plus cash of \$250,000, less closing costs.

On January 15, 2009, the Company entered into an agreement of sale for two of the three car washes it owns in Austin, Texas for a sale price of \$6.0 million. The net book value of these two car washes is approximately \$5.3 million. Additionally, on April 6, 2009, the Company entered into an agreement of sale for the third of the three car washes we own in Austin, Texas for a sale price of \$3.2 million. The net book value of this car wash is approximately \$2.6 million. The closing date for these car washes has been extended to August 31, 2009 at the buyer's request in exchange for the release of deposit monies to the Company totaling \$240,000. No assurance can be given that these transactions will be consummated.

On May 5, 2009, the Company entered into an agreement of sale for an Arlington, Texas car wash for a sale price of \$2.95 million. The net book value of this car wash is approximately \$2.8 million. The agreement to sell the Arlington, Texas car wash was terminated by the buyer through exercise of a contingency clause.

On May 11, 2009, the Company entered into an agreement of sale for a Lubbock, Texas car wash for a sale price of \$800,000. The net book value of this car wash is approximately \$750,000. Additionally, on May 18, 2009, the Company entered into an agreement of sale for an Arlington, Texas car wash for a sale price of \$979,000. The net book value of this car wash is approximately \$925,000. These transactions are subject to customary closing conditions, including a general due diligence period. No assurance can be given that these transactions will be consummated.

On July 31, 2009, the Company sold a cell tower easement located at one of the Company's Arlington, Texas car wash properties for a sales price of \$292,000.

5. Discontinued Operations and Assets Held for Sale

The Company follows the guidance within SFAS 144, Accounting for the Impairment or Disposal of Long Lived Assets, in reviewing the carrying value of our long-lived assets held and used, and our assets to be disposed of, for possible impairment when events and circumstances warrant such a review. We also follow the criteria within the guidance of SFAS 144 in determining when to reclass assets to be disposed of to assets and related liabilities held for sale as well as when an operation disposed of or to be disposed of is classified as a discontinued operation in the statements of operations and the statements of cash flows.

The Company entered into two separate agreements on November 8, 2007 and November 19, 2007 to sell five of its six full service car washes and a third agreement in January 2008 to sell its final car wash in the Sarasota, Florida area. All six Florida car washes were sold from January 4, 2008 to March 3, 2008.

Additionally, on May 17, 2008 and June 30, 2008, the Company entered into two separate agreements to sell two of its three full service car washes in Lubbock, Texas for total cash consideration of \$3.66 million. Additionally, on August 7, 2008, the Company entered into an agreement to sell a full service car wash in Arlington, Texas for total cash consideration of \$3.6 million. The agreements to sell the two Lubbock, Texas car washes and the Arlington, Texas car wash were terminated by the buyers through the exercise of contingency clauses. The Company received \$10,700 in cancellation payments from the buyers' exercise of the contingency clauses. Also, as noted above, the Company entered into agreements of sale for the three car washes it owns in Austin, Texas.

Accordingly, for financial statement purposes, the assets, liabilities, results of operations and cash flows of the operations of our Florida, San Antonio, Texas, Lubbock, Texas and our Austin, Texas car washes have been segregated from those of continuing operations and are presented in the Company's consolidated financial statements as discontinued operations.

Revenues from discontinued operations were \$1.6 million and \$3.0 million for the three months ended June 30, 2009 and 2008 and \$3.3 million and \$5.3 million for the six months ended June 30, 2009 and 2008, respectively. Operating income (loss) from discontinued operations was \$166,000 and \$132,000 for the three months ended June 30, 2009 and 2008 and \$236,000 and \$(593,000) for the six months ended June 30, 2009 and 2008, respectively.

Assets and liabilities held for sale were comprised of the following (in thousands):

As of June 30, 2009

	Fort Worth, Texas	Lubbock, Texas	Austin, Texas	Total
Assets held for sale:				
Inventory	\$ 52	\$ 128	\$ 43	\$ 223
Property, plant and equipment, net	933	2,605	7,856	11,394
Intangible Assets	-	-	40	40
Total assets	\$ 985	\$ 2,733	\$ 7,939	\$ 11,657

Total liabilities	\$	589	\$	1,055	\$	-	\$	1,644

6.

Stock-Based Compensation

The Company has two stock-based employee compensation plans. The Company follows SFAS 123(R), Share-Based Payment, which requires that the compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is recognized as compensation expense on a straight-line basis over the life of the instruments, based upon the grant date fair value of the equity or liability instruments issued. Total stock compensation expense is approximately \$2,700 and \$52,800 for the three and six months ended June 30, 2009, (\$2,700 in SG&A expense in the three month period and \$52,800 in the six month period) and \$37,100 and \$293,500 for the three and six months ended June 30, 2008, (\$36,900 in SG&A expense and \$200 in discontinued operations in the three month period and \$290,900 in SG&A expense and \$2,600 in the discontinued operations in the six month period).

The fair values of the Company's options were estimated at the dates of grant using a Black-Scholes option pricing model with the following weighted average assumptions:

	Three Months Ended June 30,		Six Months ended June 30,	
	2009	2008	2009	2008
Expected term years	10	10	10	10
Risk-free interest rate	2.75%	3.51% to 3.91%	2.75% to 3.21%	3.51% to 3.91%
Volatility	48.6%	46%	48.6%	46%
Dividend yield	0%	0%	0%	0%
Forfeiture Rate	30%	11% to 31%	30%	11% to 31%

Expected term: The Company's expected life is based on the period the options are expected to remain outstanding. The Company estimated this amount based on historical experience of similar awards, giving consideration to the contractual terms of the awards, vesting requirements and expectations of future behavior.

Risk-free interest rate: The Company uses the risk-free interest rate of a U.S. Treasury Note with a similar term on the date of the grant.

Volatility: The Company calculates the volatility of the stock price based on historical value and corresponding volatility of the Company's stock price over the prior five years, to correspond with the Company's focus on the Security Segment.

Dividend yield: The Company uses a 0% expected dividend yield as the Company has not paid and does not anticipate declaring dividends in the near future.

Forfeitures: The Company estimates forfeitures based on historical experience and factors of known historical or future projected work force reduction actions to anticipate the projected forfeiture rates.

During the six months ended June 30, 2009 and 2008, the Company granted 103,000 and 497,500 stock options, respectively. The weighted-average of the fair value of stock option grants are \$0.47 and \$0.95 per share for the six months ended June 30, 2009 and 2008, respectively. As of June 30, 2009, total unrecognized stock-based compensation expense is \$155,300, which has a weighted average period to be recognized of approximately 1.1 years.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

7. Commitments and Contingencies

The Company is obligated under various operating leases, primarily for certain equipment, vehicles, and real estate. Certain of these leases contain purchase options, renewal provisions, and contingent rentals for the proportionate share of taxes, utilities, insurance, and annual cost of living increases. Future minimum lease payments under operating leases with initial or remaining non-cancellable lease terms in excess of one year as of June 30, 2009, for continuing operations are as follows: 2010 - \$1.0 million; 2011 - \$873,000; 2012 - \$843,000; 2013 - \$619,000; 2014- \$308,000 and thereafter - \$509,000. Rental expense under these leases was \$305,000 and \$291,000 for the three months ended June 30, 2009 and 2008 and \$537,000 and \$534,000 for the six months ended June 30, 2009 and 2008, respectively.

The Company subleases a portion of the building space at several of its car wash facilities and its California leased office space related to its Digital Media Marketing Segment either on a month-to-month basis or under cancelable leases. During the three months ending June 30, 2009 and 2008, revenues under these leases were approximately \$20,000 and \$27,000, respectively and \$52,000 and \$40,000 for the six months ended June 30, 2009 and 2008, respectively. These amounts are recorded in SG&A expense as a reduction of rental expense in the accompanying consolidated statements of operations.

As a result of its continued cost saving efforts, the Company decided to terminate a leased office in Fort Lauderdale, Florida during the second quarter 2008. Effective December 31, 2008, the lease's termination date, the executives in the terminated office were moved to other offices of the Company. The lease termination resulted in a one time fee of \$38,580, which was paid and included in SG&A expense in the second quarter of 2008.

The Company is subject to federal and state environmental regulations, including rules relating to air and water pollution and the storage and disposal of oil, other chemicals, and waste. The Company believes that it complies, in all material respects, with all applicable laws relating to its business. See also the discussion below concerning the environmental remediation which occurred at the Bennington, Vermont location in 2008.

Certain of the Company's executive officers have entered into employee stock option agreements pursuant to which options issued to them shall immediately vest upon a change in control of the Company.

The Board of Directors of the Company terminated Mr. Paolino as the Chief Executive Officer of the Company on May 20, 2008. On June 9, 2008, the Company received a Demand for Arbitration from Mr. Paolino ("Arbitration Demand"). The Arbitration Demand has been filed with the American Arbitration Association in Philadelphia, Pennsylvania ("Arbitration Proceeding"). The primary allegations of the Arbitration Demand are: (i) Mr. Paolino alleges that he was terminated by the Company wrongfully and is owed a severance payment of \$3,918,120 due to the termination; (ii) Mr. Paolino is claiming that the Company owes him \$322,606 because the Company did not issue him a sufficient number of stock options in August 2007, under provisions of the Employment Contract between Mr. Paolino and the Company dated August 21, 2006; (iii) Mr. Paolino is claiming damages against the Company in excess of \$6,000,000, allegedly caused by the Company having defamed Mr. Paolino's professional reputation and character in the Current Report on Form 8-K dated May 20, 2008 filed by the Company and in the press release the Company issued on May 21, 2008, relating to Mr. Paolino's termination; and (iv) Mr. Paolino is also seeking punitive damages, attorney's fees and costs in an unspecified amount. The Company has disputed the allegations made by Mr. Paolino and is defending itself in the Arbitration Proceeding. The Company has also filed a counterclaim in the Arbitration Proceeding demanding damages from Mr. Paolino of \$1,000,000. The arbitrators, who will decide claims of the parties, have scheduled hearing dates in the fall of 2009. Discovery in the Arbitration Proceeding has not been concluded. It is not possible to predict the outcome of the Arbitration Proceeding. No accruals have been made with respect to Mr. Paolino's claims.

Mr. Paolino has demanded that the Company pay Mr. Paolino's costs of defending the Company's \$1,000,000 counterclaim that was filed in the Arbitration Proceeding. The Company has refused Mr. Paolino's letter demand for indemnification. Mr. Paolino on March 30, 2009, filed a Complaint ("Indemnity Complaint") in the Court of Chancery for the State of Delaware seeking to compel the Company to indemnify Mr. Paolino's defense costs. The Indemnity Complaint alleges that the Company is obligated to pay for Mr. Paolino's defense of the Company's counterclaim under Article 6, Section 6.01 of the Company's Bylaws. The Company has filed a motion with the Chancery Court for dismissal of Mr. Paolino's Indemnity Complaint.

On June 25, 2008, Mr. Paolino filed a claim with the United States Department of Labor claiming that his termination as Chief Executive Officer of the Company was an “unlawful discharge” in violation of 18 U.S.C. Sec. 1514A, a provision of the Sarbanes-Oxley Act of 2002 (the “DOL Complaint”). Mr. Paolino has alleged that he was terminated in retaliation for demanding that certain risk factors be set forth in the Company’s Form 10-Q for the quarter ended March 31, 2008, filed by the Company on May 15, 2008. Even though the risk factors demanded by Mr. Paolino were set forth in the Company’s Form 10-Q for the quarter ended March 31, 2008, Mr. Paolino in the DOL Complaint asserts that the demand was a “protected activity” under 18 U.S.C. Sec. 1514A, which protects Mr. Paolino against a “retaliatory termination”. In the DOL Complaint, Mr. Paolino demands the same damages he requested in the Arbitration Demand and additionally requests reinstatement as Chief Executive Officer with back pay from the date of termination. On September 23, 2008 the Secretary of Labor, acting through the Regional Administrator for the Occupational Safety and Health Administration, Region III dismissed the DOL Complaint and issued findings (the “Findings”) that there was no reasonable cause to believe that the Company violated 18 U.S.C. Sec. 1514A of the Sarbanes-Oxley Act of 2002. The Findings further stated that: (i) the investigation revealed that Mr. Paolino was discharged for non-retaliatory reasons that were unrelated to his alleged protected activity; (ii) Mr. Paolino was discharged because of his failure to comply with a Board directive to reduce costs; (iii) the Board terminated Mr. Paolino’s employment because of his failure to follow its directions and for his failure to reduce corporate overhead and expenses; and (iv) a preponderance of the evidence indicates that the alleged protected activity was not a contributing factor in the adverse action taken against Mr. Paolino. Mr. Paolino has filed objections to the Findings. As a result of the objections, an Administrative Law Judge set a date for a “de novo” hearing on Mr. Paolino’s claims. A “de novo hearing” is a proceeding where evidence is presented to the Administrative Law Judge and the Administrative Law Judge rules on the claims based on the evidence presented at the hearing. Upon the motion of Mr. Paolino, the de novo hearing and the claims made in the DOL Complaint have been stayed pending the conclusion of the Arbitration Proceeding. The Company will defend itself against the allegations made in the DOL Complaint, which the Company believes are without merit. Although the Company is confident that it will prevail, it is not possible to predict the outcome of the DOL Complaint or when the matter will reach a conclusion.

As previously disclosed, on May 8, 2008, Car Care, Inc. (“Car Care”), a defunct subsidiary of the Company that owned four of the Company’s Northeast region car washes, the Company’s former Northeast region car wash manager and four former general managers of four Northeast region car washes, were each indicted with and pled guilty to one felony count of conspiracy to defraud the government, harboring illegal aliens and identity theft. To resolve the indictment, Car Care entered into a written Guilty Plea Agreement on June 23, 2008 with the government, to plead guilty to the one count of conspiracy charged in the indictment. Under this agreement, on June 27, 2008, Car Care paid a criminal fine of \$100,000 and forfeited \$500,000 in proceeds from the sale of the four car washes. A charge of \$600,000 was recorded as a component of income from discontinued operations as of March 31, 2008, as prescribed by SFAS No.5, Accounting for Contingencies. The Company was not named in the indictment and, according to the plea agreement, will not be charged. The Company fully cooperated with the government in its investigation of this matter.

During January 2008, the Environmental Protection Agency (“EPA”) conducted a site investigation at the Company’s Bennington, Vermont location and the building within which the facility is located. The Company leases 44,000 square feet of the building from Vermont Mill Properties, Inc. (“Vermont Mill”). The site investigation was focused on whether hazardous substances were being improperly stored. After the site investigation, the EPA notified the Company and the building owner that remediation of certain hazardous wastes were required. The EPA, the Company and the building owner entered into an Administrative Consent Order under which the hazardous materials and waste were remediated. All remediation required by the Administrative Consent Order was completed within the time allowed by the EPA and a final report regarding the remediation was submitted to the EPA in October 2008, as required by the Administrative Consent Order. The Company has not received any comments from the EPA regarding the final report. A total estimated cost of approximately \$710,000 relating to the remediation, which includes disposal of the waste materials, as well as expenses incurred to engage environmental engineers and legal counsel and reimbursement of the EPA’s costs, has been recorded through December 31, 2008. This amount represents

management's best estimate of probable loss, as defined by SFAS No. 5, Accounting for Contingencies. Approximately \$594,000 has been paid to date, leaving an accrual balance of \$116,000 at June 30, 2009 for estimated EPA costs.

In addition to the EPA site investigation, the United States Attorney for the District of Vermont ("U.S. Attorney") conducted a search of the Company's Bennington, Vermont location and the building in which the facility is located, during February 2008, under a search warrant issued by the U.S. District Court for the District of Vermont. On May 2, 2008, the U.S. Attorney issued a grand jury subpoena to the Company. The subpoena required the Company to provide the U.S. Attorney documents related to the storage, disposal and transportation of materials at the Bennington, Vermont location. The Company has supplied the documents and fully cooperated with the U.S. Attorney's investigation and will continue to do so. The Company does not expect that any further action will be taken by the U.S. Attorney. The Company has made no provision for any future costs associated with the investigation.

On September 19, 2008, the Company received a proposed assessment from a sales tax audit in the State of Florida for the audit period of August 2004 through July 2007. In the proposed assessment, audit deficiency, including interest, totaled \$600,307. Based on documentation provided to the State, the Company settled this matter with a payment of \$45,000 in March 2009.

The Company is a party to various other legal proceedings related to its normal business activities. In the opinion of the Company's management, none of these proceedings are material in relation to the Company's results of operations, liquidity, cash flows, or financial condition.

8. Business Segments Information

The Company currently operates in three segments: the Security Segment, the Digital Media Marketing Segment, and the Car Wash Segment.

The Company evaluates performance and allocates resources based on operating income of each reportable segment rather than at the operating unit level. The Company defines operating income as revenues less cost of revenues, selling, general and administrative expense, and depreciation and amortization expense. The accounting policies of the reportable segments are the same as those described in the Summary of Critical Accounting Policies (see below in Management's Discussion and Analysis of Financial Condition and Results of Operations). There is no intercompany profit or loss recognized on intersegment sales.

The Company's reportable segments are business units that offer different services and products. The reportable segments are each managed separately because they provide distinct services or produce and distribute distinct products through different processes.

Selected financial information for each reportable segment from continuing operations is as follows:

	Security	Digital Media Marketing	Car Wash	Corporate Functions(1)	Total
Three months ended June 30, 2009					
Revenues from external customers	4,458	2,758	1,298	-	8,514
Segment operating (loss) income	(842)	175	(149)	(1,386)	(2,202)
Segment assets (2)	16,486	8,578	14,318	-	39,382
Goodwill	1,982	5,887	-	-	7,869
Capital expenditures	147	-	12	2	161
Six months ended June 30, 2009					
Revenues from external customers	8,636	5,804	2,666	-	17,106
Segment operating (loss) income	(1,229)	316	(263)	(2,648)	(3,824)
Capital expenditures	159	-	19	7	185
Three months ended June 30, 2008					
Revenues from external customers	5,555	5,472	1,843	-	12,870
Segment operating (loss) income	(578)	317	(13)	(1,263)	(1,537)
Segment assets (2)	17,630	11,134	35,989	-	64,753
Goodwill	1,344	6,887	-	-	8,231
Capital expenditures	117	6	32	-	155
Six months ended June 30, 2008					
Revenues from external customers	10,841	10,917	3,402	-	25,160
Segment operating (loss) income	(1,303)	351	(151)	(2,735)	(3,838)
Capital expenditures	160	23	65	3	251

A reconciliation of operating income for reportable segments to total reported operating loss is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Total operating loss for reportable segments	\$ (2,202)	\$ (1,537)	\$ (3,824)	\$ (3,838)
Asset impairment charges	(1,282)	(2,608)	(1,282)	(2,608)
Total reported operating loss	\$ (3,484)	\$ (4,145)	\$ (5,106)	\$ (6,446)

(1) Corporate functions include the corporate treasury, legal, financial reporting, information technology, corporate tax, corporate insurance, human resources, investor relations, and other typical centralized administrative functions.

(2) Segment assets exclude assets held for sale.

9. Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities at the date of its consolidated financial statements. The Company bases its estimates on historical experience, actuarial valuations and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Some of those judgments can be subjective and complex, and consequently, actual results may differ from these estimates under different assumptions or conditions. The Company must make these estimates and assumptions because certain information is dependent on future events and cannot be calculated with a high degree of precision from the data currently available. Such estimates include the Company's estimates of reserves such as the allowance for doubtful accounts, sales returns, warranty allowances, inventory valuation allowances, insurance losses and loss reserves, valuation of long-lived assets, estimates of realization of income tax net operating loss carryforwards, computation of stock-based compensation, as well as valuation calculations such as the Company's goodwill impairment calculations under the provisions of SFAS 142, Goodwill and Other Intangible Assets.

10. Income Taxes

The Company recorded income tax expense of \$40,000 and \$25,000 from continuing operations in the three months ended June 30, 2009 and 2008 and \$80,000 and \$50,000 for continuing operations in the six months ended June 2009 and 2008, respectively. Income tax expense reflects the recording of income taxes on income from continuing operations at an effective rate of approximately (1.6)% in 2009 and (0.8)% in 2008. The effective rate differs from the federal statutory rate for each year primarily due to state and local income taxes, non-deductible costs related to intangibles, fixed asset adjustments and changes to the valuation allowance. It is management's belief that it is unlikely that the net deferred tax asset will be realized and as a result it has been fully reserved. Additionally, the Company recorded no income tax expense related to discontinued operations for either of the three or six month periods ended June 30, 2009 and 2008.

The Company follows the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"), an interpretation of FASB Statement No. 109 ("SFAS 109"). FIN 48 prescribes a model for the recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on recognition,

classification, interest and penalties, disclosure and transition. At June 30, 2009, the Company did not have any significant unrecognized tax benefits. The total amount of interest and penalties recognized in the statements of operations for the six months ended June 30, 2009 and 2008 is insignificant and when incurred is reported as interest expense.

11. Asset Impairment Charges

In accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we periodically review the carrying value of our long-lived assets held and used, and assets to be disposed of, for possible impairment when events and circumstances warrant such a review. Assets classified as held for sale are measured at the lower of carrying value or fair value, net of costs to sell.

Continuing Operations

In June 2008, management made a decision to discontinue marketing efforts by its subsidiary, Promopath, the online marketing division of Linkstar, to third-party customers on a non-exclusive CPA basis, both brokered and through promotional sites. Management's decision was the result of business environment changes in which the ability to maintain non-exclusive third-party relationships at an adequate profit margin became increasingly difficult. Promopath will continue to market and acquire customers for the Company's e-commerce operation, Linkstar. As a result of this decision, the value assigned to customer relationships at the time of the acquisition of Promopath in accordance with SFAS 141, Business Combinations, was determined to be impaired as of June 30, 2008 in that future undiscounted cash flows relating to this asset were insufficient to recover its carrying value. Accordingly, in the second quarter of 2008, in accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we recorded an impairment charge of approximately \$1.4 million representing the net book value of the Promopath customer relationship intangible asset at June 30, 2008.

During the quarter ended June 30, 2008, we wrote down assets related to two full-service car washes in Arlington, Texas by approximately \$1.2 million. Additionally, during the quarter ended December 31, 2008, we wrote down the assets of two of our Arlington, Texas area car wash sites by approximately \$1.0 million. We determined that based on current data utilized to estimate the fair value of these car wash facilities, the future expected cash flows would not be sufficient to recover their carrying values.

In the fourth quarter of 2008, we consolidated the inventory in our Ft. Lauderdale, Florida warehouse into our Farmers Branch, Texas facility. Certain of our administrative and sales staff of our Security Segment's electronic surveillance products division remain in the Ft. Lauderdale, Florida building which we listed for sale with a real estate broker. We performed an updated market valuation of this property, with a current listing of this facility for sale at a price of \$1,750,000. We recorded an impairment charge of \$275,000 related to this property at December 31, 2008 and an additional impairment charge of \$60,000 at June 30, 2009 to write-down the property to our estimate of net realizable value.

In the second quarter of 2009, we conducted our annual assessment of goodwill for impairment for our Digital Media Marketing Segment as of June 30, 2009. We updated our forecasted cash flows of this reporting unit during the second quarter. This update considered current economic conditions and trends, estimated future operating results for the launch of new products as well as non-product revenue growth, and anticipated future economic and regulatory conditions. Based on the results of our assessment of goodwill impairment, the net book value of our Digital Media Marketing Segment reporting unit exceeded its fair value. With the noted potential impairment, we performed the second step of the impairment test to determine the implied fair value of goodwill. The resulting implied goodwill was \$5.9 million which exceeded the recorded value of goodwill of \$6.9 million; accordingly, we recorded an impairment to write down goodwill of this reporting unit by \$1.0 million. Additionally, due to continuing deterioration in our Mace Security Products, Inc. reporting unit, we performed certain impairment testing of our remaining intangible assets, specifically, the value assigned to customer lists, product lists, and trademarks as of June 30, 2009. We recorded an additional impairment charge to trademarks of approximately \$80,000 and an impairment charge of \$142,000 to customer lists, both principally related to our consumer direct electronic surveillance operations at June 30, 2009.

Discontinued Operations

We closed the two remaining car wash locations in San Antonio, Texas in the quarter ended September 30, 2008. In connection with the closing of these two facilities, we wrote down the assets of these sites by approximately \$310,000 to our estimate of net realizable value based on our plan to sell the two facilities for real estate value. Additionally, during the quarter ending December 31, 2008, we closed a full-service car wash location in Lubbock, Texas and wrote down the assets of this site by approximately \$670,000 to an updated appraisal value based on our plan to sell this

facility for real estate value. We also wrote down an additional Lubbock, Texas location by approximately \$250,000 during the quarter ending December 31, 2008. We have determined that due to further reductions in car wash volumes at these sites resulting from increased competition and a deterioration in demographics in the immediate geographic areas of these sites, current economic pressures, along with current data utilized to estimate the fair value of these car wash facilities, future expected cash flows would not be sufficient to recover their carrying values.

12. Related Party Transactions

The Company's Security Segment leases manufacturing and office space under a five-year lease with Vermont Mill. Vermont Mill is controlled by Jon E. Goodrich, a former director and current employee of the Company. In November 2004, the Company exercised an option to continue the lease through November 2009 at a rate of \$10,576 per month. The Company amended the lease in 2008 to occupy additional space for an additional \$200 per month. We also began leasing in November 2008, on a month-to-month basis through May 2009, approximately 3,000 square feet of temporary inventory storage space at a monthly cost of \$1,200. Rent expense under this lease was \$34,728 and \$31,728 for the three months ending June 30, 2009 and 2008 and \$70,656 and \$63,456 for the six months ended June 30, 2009 and 2008, respectively. Mace has the option to cancel the lease with proper notice and a payment equal to six months of the then current rent.

13. Long-Term Debt, Notes Payable and Capital Lease Obligations

At June 30, 2009, we had borrowings, including capital lease obligations and borrowings related to discontinued operations, of approximately \$6.1 million, substantially all of which is secured by mortgages against certain of our real property. Of such borrowings, approximately \$4.2 million, including \$3.8 million of long-term debt included in liabilities related to assets held for sale, is reported as current as it is due or expected to be repaid in less than twelve months from June 30, 2009. On May 8, 2009, the Company entered into Amendments to its Business Loan Agreements with JP Morgan Chase Bank, N.A. ("Chase") to renew four car wash mortgages which were up for periodic renewal from June 2009 through October 2009, and a mortgage on the Company's Farmers Branch, Texas warehouse facility up for periodic renewal in September 2009. These loans, classified as current at December 31, 2008, were renewed by Chase for a two- year period for the four car washes and a three- year period for the Farmers Branch, Texas warehouse facility. Accordingly, certain of these loans were classified to long-term debt at June 30, 2009, with certain loans classified as Liabilities related to assets held for sale.

We have two letters of credit outstanding at June 30, 2009 totaling \$570,364 as collateral relating to workers' compensation insurance policies. We maintain a \$500,000 revolving credit facility to provide financing for additional electronic surveillance product inventory purchases. There were no borrowings outstanding under the revolving credit facility at June 30, 2009. The Company also maintains a \$300,000 line of credit for commercial letters of credit for the importation of inventory. There were no outstanding commercial letters of credit under this commitment at June 30, 2009.

Our most significant borrowings, including borrowings related to discontinued operations are secured notes payable to Chase, in the amount of \$4.9 million, \$1.7 million of which was classified as non-current debt at June 30, 2009. The Chase agreements contain affirmative and negative covenants, including covenants relating to the maintenance of certain levels of tangible net worth, the maintenance of certain levels of unencumbered cash and marketable securities, limitations on capital spending and certain financial reporting requirements. The Chase agreements are our only debt agreements that contain an express prohibition on incurring additional debt for borrowed money without the approval of the lender. As of June 30, 2009, our warehouse and office facility in Farmers Branch, Texas and eight car washes were encumbered by mortgages.

The Chase term loan agreement also limits capital expenditures annually to \$1.0 million, requires the Company to provide Chase with an Annual Report on Form 10-K and audited financial statements within 120 days of the Company's fiscal year end and a Quarterly Report on Form 10-Q within 60 days after the end of each fiscal quarter, and requires the maintenance of a minimum total unencumbered cash and marketable securities balance of \$3 million. The maintenance of a minimum total unencumbered cash and marketable securities balance requirement was reduced to \$3 million from \$5 million on May 8, 2009 as part of the Amendments to the Chase loan agreements noted above. If we are unable to satisfy these covenants and we cannot obtain waivers, the Chase notes may be reflected as current in future balance sheets and as a result our stock price may decline. We were in compliance with these covenants as of

June 30, 2009.

If we default on any of the Chase covenants and are not able to obtain amendments or waivers, Chase debt totaling \$4.9 million at June 30, 2009, including debt recorded as long-term debt at June 30, 2009, could become due and payable on demand, and Chase could foreclose on the assets pledged in support of the relevant indebtedness. If our assets (including up to eight of our car wash facilities as of June 30, 2009) are foreclosed upon, revenues from our Car Wash Segment, which comprised 14.6% of our total revenues for fiscal year 2008 and 15.6% of our total revenues for the six months ended June 30, 2009, would be severely impacted and we may be unable to continue to operate our business.

17

14. Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consist of the following (in thousands):

	June 30, 2009	December 31, 2008
Accrued compensation	\$ 613	\$ 534
Accrued acquisition consideration	888	-
Other	2,331	2,115
	\$ 3,832	\$ 2,649

15. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per share (in thousands, except share and per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Numerator:				
Net (Loss) income	\$ (3,332)	\$ (3,929)	\$ (4,930)	\$ 44
Denominator:				
Denominator for basic earnings per share-weighted-average shares	16,285,377	16,465,253	16,285,377	16,465,253
Dilutive effect of options and warrants	-	-	-	-
Denominator for diluted earnings per share-weighted-average shares	16,285,377	16,465,253	16,285,377	16,465,253
Basic and diluted (loss) income per share	\$ (0.20)	\$ (0.24)	\$ (0.30)	\$ -

The effect of options and warrants for the periods in which we incurred a net loss has been excluded as it would be anti-dilutive. The options and warrants excluded totaled 3,230 and 90,884, for the three months ended June 30, 2009 and 2008 and 2,261 and 175,228 for the six months ended June 30, 2009 and 2008, respectively.

16. Equity

On August 13, 2007, the Company's Board of Directors authorized a share repurchase program to purchase shares of the Company's common stock up to a maximum value of \$2.0 million. Purchases will be made in the open market, if and when management determines to effect purchases. Management may elect not to make purchases or to make purchases totaling less than \$2.0 million in amount. Through June 30, 2009, the Company purchased 370,810 shares on the open market, at a total cost of approximately \$406,000 with 190,934 shares included in treasury stock at June 30, 2009.

17. Florida Security Division

As previously disclosed, in April 2007, we determined that the former divisional controller of the Florida Security division embezzled funds from the Company. In January 2009, we recovered \$41,510 of funds from an investment

account of the former divisional controller where certain of the embezzled funds were deposited. The recovered funds were reported as a component of operating income in the first quarter of 2009.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto included in this report on Form 10-Q.

Forward-Looking Statements

This report includes forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended ("Forward-Looking Statements"). All statements other than statements of historical fact included in this report are Forward-Looking Statements. Forward-Looking Statements are statements related to future, not past, events. In this context, Forward-Looking Statements often address our expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," or "will." Forward-Looking Statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our Forward-Looking Statements include: the severity and duration of current economic and financial conditions; our success in selling our remaining car washes; the level of demand of the customers we serve for our goods and services, and numerous other matters of national, regional and global scale, including those of a political, economic, business and competitive nature. These uncertainties are described in more detail in Part II, Item 1A. Risk Factors of this Quarterly Report on Form 10-Q. The Forward-Looking Statements made herein are only made as of the date of this filing, and we undertake no obligation to publicly update such Forward-Looking Statements to reflect subsequent events or circumstances.

Summary of Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities at the date of the Company's financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. The Company's critical accounting policies are described below.

Revenue Recognition and Deferred Revenue

The Company recognizes revenue in accordance with Staff Accounting Bulletin ("SAB") No. 104, Revenue Recognition in Financial Statements. Under SAB No. 104, the Company recognizes revenue when the following criteria have been met: persuasive evidence of an arrangement exists, the fees are fixed and determinable, no significant obligations remain and collection of the related receivable is reasonably assured. Allowances for sales returns, discounts and allowances, are estimated and recorded concurrent with the recognition of the sale and are primarily based on historical return rates.

Revenue from the Company's Security Segment is recognized when shipments are made or security monitoring services are provided, or for export sales when title has passed. Shipping and handling charges and costs of \$134,000 and \$191,000 for the three months ending June 30, 2009 and 2008 and \$281,000 and \$339,000 for the six months ended June 30, 2009 and 2008, respectively are included in cost of revenues. Prior year amounts, which were originally recorded as SG&A expenses, were reclassified to conform to current year presentation.

The e-commerce division recognizes revenue and the related product costs for trial product shipments after the expiration of the trial period. Marketing costs incurred by the e-commerce division are recognized as incurred. The online marketing division recognizes revenue and cost of sales consistent with the provisions of the Emerging Issues

Task Force (“EITF”) Issue No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent, the Company records revenue based on the gross amount received from advertisers and the amount paid to the publishers placing the advertisements as cost of sales. Shipping and handling charges related to the e-commerce division of the Company’s Digital Media Marketing Segment of \$161,000 and \$366,000 are included in cost of revenues for the three months ended June 30, 2009 and 2008 and \$357,000 and \$821,000 for the six months ended June 30, 2009 and 2008, respectively. Prior year amounts, which were originally recorded as SG&A expenses, were reclassified to conform to current year presentation.

Revenue from the Company’s Car Wash Segment is recognized, net of customer coupon discounts, when services are rendered or fuel or merchandise is sold. Sales tax collected from customers and remitted to the applicable taxing authorities is accounted for on a net basis, with no impact to revenues. The Company records a liability for gift certificates, ticket books, and seasonal and annual passes sold at its car wash locations but not yet redeemed. The Company estimates these unredeemed amounts based on gift certificates and ticket book sales and redemptions throughout the year as well as utilizing historical sales and redemption rates per the car washes’ point-of-sale systems. Seasonal and annual passes are amortized on a straight-line basis over the time during which the passes are valid.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and highly liquid short-term investments with original maturities of three months or less, and credit card deposits which are converted into cash within two to three business days.

Short-Term Investments

At June 30, 2009, the Company had approximately \$973,000 of short-term investments classified as available for sale in one broker account consisting of certificates of deposit. A cumulative unrealized loss, net of tax, of approximately \$1,000 is included as a separate component of equity in Accumulated Other Comprehensive Income at June 30, 2009.

On June 18, 2008, we requested redemption of a short-term investment in a hedge fund, namely the Victory Fund, Ltd. Under the Limited Partnership Agreement with the hedge fund, the redemption request was timely for a return of the investment account balance as of September 30, 2008, payable ten business days after the end of the September 30, 2008 quarter. The hedge fund acknowledged that the redemption amount owed was \$3,206,748. On October 15, 2008 the hedge fund asserted the right to withhold the redemption amount due to extraordinary market circumstances. After negotiations, the hedge fund agreed to pay the redemption amount in two installments, \$1,000,000 on November 3, 2008 and \$2,206,748 on January 15, 2009. The Company received the first installment of \$1,000,000 on November 5, 2008. The Company has not received the second installment. On January 21, 2009, the principal of the Victory Fund, Ltd, Arthur Nadel, was criminally charged with operating a “Ponzi” scheme. Additionally, the SEC has initiated a civil case against Mr. Nadel and others alleging that Arthur Nadel defrauded investors in the Victory Fund, LLC and five other hedge funds by massively overstating the value of investments in these funds and issuing false and misleading account statements to investors. The SEC also alleges that Mr. Nadel transferred large sums of investor funds to secret accounts which only he controlled. A receiver has been appointed in the civil case and has been directed to administer and manage the business affairs, funds, assets, and any other property of Mr. Nadel, the Victory Fund, LLC and the five other hedge funds and conduct and institute such legal proceedings that benefit the hedge fund investors. Accordingly, we recorded a charge of \$2,206,748 as an investment loss at December 31, 2008. If we recover any of the investment loss, such amounts will be recorded as recoveries in future periods when received. The original amount invested in the hedge fund was \$2,000,000.

Fair Value Measurements

The Company adopted the provisions of SFAS No. 157, Fair Value Measurements, (“SFAS 157”) as of January 1, 2008 for financial assets and liabilities and January 1, 2009 for all nonrecurring fair value measurements of nonfinancial assets. In general, the Company’s nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis include goodwill, intangible assets and long-lived tangible assets including property, plant and equipment. The Company did not adjust any nonfinancial assets or liabilities measured at fair value on a nonrecurring basis to fair value during the three months ended June 30, 2009. Although the adoption of SFAS No. 157 did not materially impact our financial condition, results of operations or cash flows, additional disclosures about fair value measurements are required.

The following table shows the assets included in the accompanying balance sheet which are measured at fair value on a recurring basis and the source of the fair value measurement:

(In thousands)	Fair Value Measurement Using			
	Fair Value at June 30, 2009	Quoted Market Prices(1)	Observable Inputs(2)	Unobservable Inputs(3)
Short-term investments	\$ 973	\$ 973	\$ -	\$ -

- (1) This is the highest level of fair value input and represents inputs to fair value from quoted prices in active markets for identical assets and liabilities to those being valued.
- (2) Directly or indirectly observable inputs, other than quoted prices in active markets, for the assets or liabilities being valued including but not limited to, interest rates, yield curves, principal-to principal markets, etc.
- (3) Lowest level of fair value input because it is unobservable and reflects the Company's own assumptions about what market participants would use in pricing assets and liabilities at fair value.

Accounts Receivable

The Company's accounts receivable are due from trade customers. Credit is extended based on evaluation of customers' financial condition and, generally, collateral is not required. Accounts receivable payment terms vary and amounts due from customers are stated in the financial statements net of an allowance for doubtful accounts. Accounts outstanding longer than the payment terms are considered past due. The Company determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, the Company's previous loss history, the customer's current ability to pay its obligation to the Company, and the condition of the general economy and the industry as a whole. The Company writes off accounts receivable when they are deemed uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts. Risk of losses from international sales within the Security Segment are reduced by requiring substantially all international customers to provide either irrevocable confirmed letters of credit or cash advances.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in first-out ("FIFO") method for security, e-commerce and car care products. Inventories within the Company's Security Segment consist of defense sprays, child safety products, electronic security monitors, cameras and digital recorders, and various other consumer security and safety products. Inventories within the e-commerce division of the Digital Media Marketing segment consist of several health and beauty products. Inventories at the Company's car wash locations consist of various chemicals and cleaning supplies used in operations and merchandise and fuel for resale to consumers. The Company continually and at least on a quarterly basis reviews the book value of slow moving inventory items, as well as discontinued product lines to determine if inventory is properly valued. The Company identifies slow moving or discontinued product lines by a detail review of recent sales volumes of inventory items as well as a review of recent selling prices versus cost and assesses the ability to dispose of inventory items at a price greater than cost. If it is determined that cost is less than market value, then cost is used for inventory valuation. If market value is less than cost, then an adjustment is made to the Company's obsolescence reserve to adjust the inventory to market value. When slow moving items are sold at a price less than cost, the difference between cost and selling price is charged against the established obsolescence reserve.

Property and Equipment

Property and equipment are stated at cost. Depreciation is recorded using the straight-line method over the estimated useful lives of the assets, which are generally as follows: buildings and leasehold improvements - 15 to 40 years; machinery and equipment - 5 to 20 years; and furniture and fixtures - 5 to 10 years. Significant additions or improvements extending assets' useful lives are capitalized; normal maintenance and repair costs are expensed as incurred. Depreciation expense from continuing operations was approximately \$132,000 and \$137,000 for the three months ended June 30, 2009, and 2008 and \$260,000 and \$275,000 for the six months ended June 30, 2009 and 2008, respectively. Maintenance and repairs are charged to expense as incurred and amounted to approximately \$36,000 and \$50,000 in the three months ended June 30, 2009 and 2008 and \$65,000 and \$97,000 in the six months ended June 30, 2009 and 2008, respectively.

Asset Impairment Charges

In accordance with SFAS 144, we periodically review the carrying value of our long-lived assets held and used, and assets to be disposed of, for possible impairment when events and circumstances warrant such a review. Assets classified as held for sale are measured at the lower of carrying value or fair value, net of costs to sell.

In assessing goodwill for impairment, we first compare the fair value of our reporting units with their net book value. We estimate the fair value of the reporting units using discounted expected future cash flows, supported by the results of various market approach valuation models. If the fair value of the reporting units exceeds their net book value, goodwill is not impaired, and no further testing is necessary. If the net book value of our reporting units exceeds their fair value, we perform a second test to measure the amount of impairment loss, if any. To measure the amount of any impairment loss, we determine the implied fair value of goodwill in the same manner as if our reporting units were being acquired in a business combination. Specifically, we allocate the fair value of the reporting units to all of the assets and liabilities of that unit, including any unrecognized intangible assets, in a hypothetical calculation that would yield the implied fair value of goodwill. If the implied fair value of goodwill is less than the goodwill recorded on our balance sheet, we record an impairment charge for the difference.

We performed extensive valuation analyses, utilizing both income and market approaches, in our goodwill assessment process. The following describes the valuation methodologies used to derive the fair value of the reporting units.

- **Income Approach:** To determine fair value, we discounted the expected cash flows of the reporting units. The discount rate used represents the estimated weighted average cost of capital, which reflects the overall level of inherent risk involved in our reporting units and the rate of return an outside investor would expect to earn. To estimate cash flows beyond the final year of our model, we used a terminal value approach. Under this approach, we used estimated operating income before interest, taxes, depreciation and amortization in the final year of our model, adjusted to estimate a normalized cash flow, applied a perpetuity growth assumption and discounted by a perpetuity discount factor to determine the terminal value. We incorporated the present value of the resulting terminal value into our estimate of fair value.

- Market-Based Approach: To corroborate the results of the income approach described above, we estimated the fair value of our reporting units using several market-based approaches, including the value that we derive based on our consolidated stock price as described above. We also used the guideline company method which focuses on comparing our risk profile and growth prospects to select reasonably similar/guideline publicly traded companies.

The determination of the fair value of the reporting units requires us to make significant estimates and assumptions that affect the reporting unit's expected future cash flows. These estimates and assumptions primarily include, but are not limited to, the discount rate, terminal growth rates, operating income before depreciation and amortization and capital expenditures forecasts. Due to the inherent uncertainty involved in making these estimates, actual results could differ from those estimates. In addition, changes in underlying assumptions would have a significant impact on either the fair value of the reporting units or the goodwill impairment charge.

The allocation of the fair value of the reporting units to individual assets and liabilities within reporting units also requires us to make significant estimates and assumptions. The allocation requires several analyses to determine fair value of assets and liabilities including, among others, customer relationships, non-competition agreements and current replacement costs for certain property, plant and equipment.

As of November 30, 2008, we conducted our annual assessment of goodwill for impairment for our Security Segment and as of June 30, 2008, for our Digital Media Marketing Segment. We conduct assessments more frequently if indicators of impairment exist. As of November 30, 2008, we experienced a sustained, significant decline in our stock price. The Company believes the reduced market capitalization reflects the financial market's reduced expectations of the Company's performance, due in large part to overall deteriorating economic conditions that may have a materially negative impact on the Company's future performance. We also updated our forecasted cash flows of the reporting units during the fourth quarter. This update considered current economic conditions and trends; estimated future operating results, our views of growth rates, anticipated future economic and regulatory conditions. Additionally, based upon our procedures, we determined impairment indicators existed at December 31, 2008 relative to our Digital Media Marketing Segment and accordingly, we performed an updated assessment of goodwill for impairment. Based on the results of our assessment of goodwill for impairment, the net book value of our Mace Security Products, Inc. (Florida and Texas security surveillance equipment operations) reporting unit exceeded its fair value. Our Digital Media Marketing Segment reporting unit fair value as determined exceeded its net book value.

With the noted potential impairment in Mace Security Products, Inc., we performed the second step of the impairment test to determine the implied fair value of goodwill. Specifically, we hypothetically allocated the fair value of the impaired reporting units as determined in the first step to our recognized and unrecognized net assets, including allocations to intangible assets such as trademarks, customer relationships and non-competition agreements. The resulting implied goodwill was \$(5.9) million; accordingly, we recorded an impairment charge to write off the goodwill of this reporting unit totaling \$1.34 million. We also performed impairment testing of certain other intangible assets relating to Mace Security Products, Inc., specifically, the value assigned to trademarks. We recorded an additional impairment charge to trademarks of approximately \$223,000 related to our consumer direct electronic surveillance operations and our high end digital and machine vision cameras and professional imaging component operations. Additionally, due to continuing deterioration in our Mace Security Products, Inc. reporting unit, we performed certain impairment testing of our remaining intangible assets, specifically, the value assigned to customer lists, product lists, and trademarks as of June 30, 2009. We recorded an additional impairment charge to trademarks of approximately \$80,000 and an impairment charge of \$142,000 to customer lists, both principally related to our consumer direct electronic surveillance operations at June 30, 2009.

As noted above, we conducted our annual assessment of goodwill for impairment for our Digital Media Marketing Segment as of June 30, 2009. We updated our forecasted cash flows of this reporting unit during the second quarter. This update considered current economic conditions and trends, estimated future operating results for the launch of

new products as well as non-product revenue growth, and anticipated future economic and regulatory conditions. Based on the results of our assessment of goodwill impairment, the net book value of our Digital Media Marketing Segment reporting unit exceeded its fair value. With the noted potential impairment, we performed the second step of the impairment test to determine the implied fair value of goodwill. The resulting implied goodwill was \$5.9 million which exceeded the recorded value of goodwill of \$6.9 million; accordingly, we recorded an impairment to write down goodwill of this reporting unit by \$1.0 million.

In June 2008, management made a decision to discontinue marketing efforts by its subsidiary, Promopath, the online marketing division of Linkstar, to third-party customers on a non-exclusive CPA basis, both brokered and through promotional sites. Management's decision was the result of business environment changes in which the ability to maintain non-exclusive third-party relationships at an adequate profit margin became increasingly difficult. Promopath will continue to market and acquire customers for the Company's e-commerce operation, Linkstar. As a result of this decision, the value assigned to customer relationships at the time of the acquisition of Promopath in accordance with SFAS 141, Business Combinations, was determined to be impaired as of June 30, 2008 in that future undiscounted cash flows relating to this asset were insufficient to recover its carrying value. Accordingly, in the second quarter of 2008, in accordance with SFAS 144, we recorded an impairment charge of approximately \$1.4 million representing the net book value of the Promopath customer relationship intangible asset at June 30, 2008.

Goodwill

Goodwill represents the premium paid over the fair value of the net tangible and intangible assets we have acquired in business combinations. SFAS No. 142, Goodwill and Other Intangible Assets ("SFAS 142"), requires the Company to perform a goodwill impairment test on at least an annual basis. Application of the goodwill impairment test requires significant judgments including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth for the businesses, the useful life over which cash flows will occur and determination of our weighted average cost of capital. Changes in these estimates and assumptions could materially affect the determination of fair value and/or conclusions on goodwill impairment for each reporting unit. The Company conducts its annual goodwill impairment test as of November 30 for its Security Segment and as of June 30 for its Digital Media Marketing Segment, or more frequently if indicators of impairment exist. We periodically analyze whether any such indicators of impairment exist. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include a sustained, significant decline in our share price and market capitalization, a decline in our expected future cash flows, a significant adverse change in legal factors or in the business climate, unanticipated competition and/or slower expected growth rates, among others. The Company compares the fair value of each of its reporting units to their respective carrying values, including related goodwill. Future changes in the industry could impact the results of future annual impairment tests. Goodwill was \$7.9 million and \$6.9 million at June 30, 2009 and December 31, 2008, respectively. There can be no assurance that future tests of goodwill impairment will not result in impairment charges. Also see Note 3. Other Intangible Assets and Note 11, Asset Impairment Charges.

Other Intangible Assets

Other intangible assets consist of deferred financing costs, trademarks, customer lists, non-compete agreements, product lists, and patent costs. In accordance with SFAS 142, our trademarks are considered to have indefinite lives and as such, are not subject to amortization. These assets will be tested for impairment annually and whenever there is an impairment indicator. Estimating future cash requires significant judgment and projections may vary from cash flows eventually realized. Several impairment indicators are beyond our control, and determining whether or not they will occur cannot be predicted with any certainty. Customer lists, product lists, software costs, patents and non-compete agreements are amortized on a straight-line or accelerated basis over their respective estimated useful lives. Amortization of other intangible assets from continuing operations was approximately \$120,000 and \$147,000 for the three months ended June 30, 2009 and 2008 and \$224,000 and \$295,000 for the six months ended June 30, 2009 and 2008, respectively. Also see Note 11. Asset Impairment Charges.

Insurance

The Company insures for auto, general liability, and certain workers' compensation claims through participation in a captive insurance program with other unrelated businesses. The Company maintains excess coverage through

occurrence-based policies. With respect to participating in the captive insurance program, the Company set aside an actuarially determined amount of cash in a restricted "loss fund" account for the payment of claims under the policies. The Company funds these accounts annually as required by the captive insurance company. Should funds deposited exceed claims ultimately incurred and paid, unused deposited funds are returned to the Company with interest on or about the fifth anniversary of the policy year-end. The Company's participation in the captive insurance program is secured by a letter of credit in the amount of \$566,684 at June 30, 2009. The Company records a monthly expense for losses up to the reinsurance limit per claim based on the Company's tracking of claims and the insurance company's reporting of amounts paid on claims plus an estimate of reserves for possible future losses on reported claims as well as claims incurred but not reported.

Income Taxes

Deferred income taxes are determined based on the difference between the financial accounting and tax bases of assets and liabilities. Deferred income tax expense (benefit) represents the change during the period in the deferred income tax assets and deferred income tax liabilities. Deferred tax assets include tax loss and credit carryforwards and are reduced by a valuation allowance if, based on available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company follows the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"), an interpretation of FASB Statement No. 109 ("SFAS 109"). FIN 48 prescribes a model for the recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on recognition, classification, interest and penalties, disclosure and transition. At June 30, 2009, the Company did not have any significant unrecognized tax benefits.

Supplementary Cash Flow Information

Interest paid on all indebtedness, including discontinued operations, was approximately \$68,000 and \$126,000 for the three months ended June 30, 2009 and 2008 and \$129,000 and \$307,000 for the six months ended June 30, 2009 and 2008, respectively.

Income taxes paid, including discontinued operations, was approximately \$120,000 and \$80,000 for the three months ended June 30, 2009 and 2008 and \$176,000 and \$111,000 for the six months ended June 30, 2009 and 2008, respectively.

Noncash investing and financing activity of the Company within discontinued operations includes the recording of a \$750,000 note receivable recorded as part of the consideration received from the sale of the Company's San Antonio, Texas car washes during the three months ended March 31, 2009. Additionally, the Company sold its Florida car washes in the three months ended March 31, 2008 and simultaneously paid down related mortgages of approximately \$4.2 million.

Advertising

The Company expenses advertising costs, including advertising production costs, as they are incurred or when the first time advertising takes place. The Company's costs of coupon advertising within its Car Wash Segment are recorded as a prepaid asset and amortized to advertising expense during the period of distribution and customer response, which is typically two to four months. Prepaid advertising costs was \$4,000 and \$30,000 at June 30, 2009 and December 31, 2008, respectively. Advertising expense was approximately \$235,000 and \$313,000 for the three months ended June 30, 2009 and 2008 and \$393,000 and \$583,000 for the six months ended June 30, 2009 and 2008, respectively.

Introduction

Revenues

Security

Our Security Segment designs, manufactures, markets and sells a wide range of security products and provides wholesale security monitoring. The Company's primary focus in the Security Segment is the sourcing and selection of electronic surveillance products and components that it sells, primarily to installing dealers, system integrators, distributors, retailers and end users. Other products in our Security Segment include, but are not limited to, less-than-lethal Mace® defense sprays, personal alarms, high-end digital and machine vision cameras and imaging components, as well as video conferencing equipment and security monitors. The main marketing channels for our products are industry shows and publications, catalogs, internet and sales through telephone orders. Revenues generated for the six months ended June 30, 2009 for the Security Segment were comprised of approximately 27% from our professional electronic surveillance operation in Florida, 17% from our consumer direct electronic surveillance operations, 20% from our machine vision camera and video conferencing equipment operation in Texas, 29% from our personal defense and law enforcement operation in Vermont, and 7% from our wholesale security monitoring operation.

Digital Media Marketing

Prior to June 2008, our Digital Media Marketing Segment consisted of two business divisions: (1) e-commerce and (2) online marketing. After June 2008, we discontinued the online marketing services to outside customers and our Digital Media Marketing Segment is now essentially an online e-commerce business.

Our e-commerce division is a direct-response product business that develops, markets and sells products directly to consumers through the Internet. We reach our customers predominately through online advertising on third party promotional websites. Before discontinuing Promopath, Linkstar also marketed products on promotional websites operated by Promopath. Our products include: Vioderm, an anti-wrinkle skin care product (www.vioderm.com); Purity by Mineral Science, a mineral cosmetic (www.mineralscience.com); TrimDay™, a weight-loss supplement (www.trimday.com); Eternal Minerals, a Dead Sea spa product line (www.eternalminerals.com); ExtremeBriteWhite, a teeth whitening product (www.extremebritewhite.com) and Knockout, an acne product (www.knockoutmyacne.com). We continuously develop and test product offerings to determine customer acquisition costs and revenue potential, as well as to identify the most efficient marketing programs.

Promopath, our online affiliated marketing company, secured customer acquisitions or leads for advertising clients principally using promotional internet sites offering free gifts. Promopath was paid by its clients based on the cost-per-acquisition (“CPA”) model. Promopath’s advertising clients were typically established direct-response advertisers with well recognized brands and broad consumer appeal such as NetFlix®, Discover® credit cards and Bertelsmann Group. Promopath generated CPA revenue, both brokered and through co-partnered sites, as well as list management and lead generation revenues. CPA revenue in the digital media marketplace refers to paying a fee for the acquisition of a new customer, prospect or lead. List management revenue is based on a relationship between a data owner and a list management company. The data owner compiles, collects, owns and maintains a proprietary computerized database composed of consumer information. The data owner grants a list manager a non-exclusive, non-transferable, revocable worldwide license to manage, use and have access to the data pursuant to defined terms and conditions for which the data owner is paid revenue. Lead generation is referred to as cost per lead (“CPL”) in the digital media marketplace. Advertisers purchasing media on a CPL basis are interested in collecting data from consumers expressing interest in a product or service. CPL varies from CPA in that no credit card information needs to be provided to the advertiser for the publishing source to be paid for the lead.

In June of 2008, the Company discontinued marketing Promopath’s online marketing services to third party customers. Promopath’s primary mission is now focused on increasing the distribution of the products of the Company’s e-commerce division, Linkstar.

Revenues within our Digital Media Marketing Segment for the six months ended June 30, 2009, were approximately \$5.8 million, consisting of \$5.79 million from our e-commerce division and \$12,000 from our online marketing division.

Car Wash

At June 30, 2009, we owned full service and self-service car wash locations in Texas. We earn revenues from washing and detailing automobiles; performing oil and lubrication services, minor auto repairs, and state inspections; selling fuel; and selling merchandise within the car wash facilities. Revenues generated for the six months ending June 30, 2009 for the Car and Truck Wash Segment were comprised of approximately 54% from car washing and detailing, 43% from lube and other automotive services, and 3% from fuel and merchandise. Additionally, our Florida, Lubbock, Texas, Austin, Texas and our San Antonio, Texas region car washes are being reported as discontinued operations (see Note 5 of the Notes to Consolidated Financial Statements) and, accordingly, have been segregated from the following revenue and expense discussion. Revenues from discontinued operations were \$1.6 million and \$3.0 million for the three months ended June 30, 2009 and 2008 and \$3.3 million and \$5.3 million for the six months ended June 30, 2009 and 2008, respectively. Operating income (loss) from discontinued operations was \$166,000 and \$132,000 for the three months ended June 30, 2009 and 2008 and \$236,000 and \$(593,000) for the six months ended June 30, 2009 and 2008, respectively.

On December 31, 2007, we completed the sale of the truck washes for \$1.2 million consideration, consisting of \$280,000 cash and a \$920,000 note payable to Mace secured by mortgages on the truck washes. The \$920,000 note, which has a balance of \$881,490 at June 30, 2009, has a five-year term, with principal and interest paid on a 15-year amortization schedule.

The majority of revenues from our Car Wash Segment are collected in the form of cash or credit card receipts, thus minimizing customer accounts receivable.

Cost of Revenues

Security

Cost of revenues within the Security Segment consists primarily of costs to purchase or manufacture the security products including direct labor and related taxes and fringe benefits, raw material costs, and telecommunication costs related to our wholesale monitoring operation. Product warranty costs related to the Security Segment are mitigated in that a portion of customer product warranty claims are covered by the supplier through repair or replacement of the product associated with the warranty claim.

Digital Media Marketing

Cost of revenues within the Digital Media Marketing Segment consist primarily of amounts we pay to website publishers that are directly related to revenue-generating events, including the cost to enroll new members, fulfillment and warehousing costs, including direct labor and related taxes and fringe benefits and e-commerce product costs.

Car Wash

Cost of revenues within the Car Wash Segment consists primarily of direct labor and related taxes and fringe benefits, certain insurance costs, chemicals, wash and detailing supplies, rent, real estate taxes, utilities, car damages, maintenance and repairs of equipment and facilities, as well as the cost of the fuel and merchandise sold.

Selling, General and Administrative Expenses

Selling, general and administrative (“SG&A”) expenses consist primarily of management, clerical and administrative salaries, professional services, insurance premiums, sales commissions, and other costs relating to marketing and sales.

Direct incremental costs associated with business acquisitions as well as indirect acquisition costs, such as executive salaries, corporate overhead, public relations, and other corporate services and overhead are expensed as incurred.

Depreciation and Amortization

Depreciation and amortization consists primarily of depreciation of buildings and equipment, and amortization of leasehold improvements and certain intangible assets. Buildings and equipment are depreciated over the estimated useful lives of the assets using the straight-line method. Leasehold improvements are amortized over the shorter of their useful lives or the lease term with renewal options. Intangible assets, other than goodwill or intangible assets with indefinite useful lives, are amortized over their useful lives ranging from three to fifteen years, using the straight-line or an accelerated method.

Other Income

Other income consists primarily of rental income received on renting out excess space at our car wash facilities and includes gains and losses on short-term investments.

Income Taxes

Income tax expense is derived from tax provisions for interim periods that are based on the Company’s estimated annual effective rate. Currently, the effective rate differs from the federal statutory rate primarily due to state and local income taxes, non-deductible costs related to acquired intangibles, and changes to the valuation allowance.

Liquidity and Capital Resources

Liquidity

Cash, cash equivalents and short-term investments were \$5.8 million at June 30, 2009. The ratio of our total debt to total capitalization, which consists of total debt plus stockholders’ equity, was 13.7% at June 30, 2009 and 13.0% at December 31, 2008.

One of our short-term investments in 2008 was in a hedge fund, namely the Victory Fund, Ltd. We requested redemption of this hedge fund investment on June 18, 2008. Under the Limited Partnership Agreement with the hedge fund, the redemption request was timely for a return of the investment account balance as of September 30, 2008, payable ten business days after the end of the September 30, 2008 quarter. The hedge fund acknowledged that the redemption amount owed was \$3,206,748; however, on October 15, 2008 the hedge fund asserted the right to withhold the redemption amount due to extraordinary market circumstances. After negotiations, the hedge fund agreed to pay the redemption amount in two installments, \$1,000,000 on November 3, 2008 and \$2,206,748 on January 15, 2009. The Company received the first installment of \$1,000,000 on November 5, 2008. The Company has not received the second installment. On January 21, 2009, the principal of the Victory Fund, Ltd, Arthur Nadel, was criminally charged with operating a “Ponzi” scheme. Additionally, the SEC has initiated a civil case against Mr. Nadel and others alleging that Arthur Nadel defrauded investors in the Victory Fund, LLC and five other hedge funds by massively overstating the value of investments in these funds and issuing false and misleading account statements to investors. The SEC also alleges that Mr. Nadel transferred large sums of investor funds to secret accounts which only he controlled. A receiver has been appointed in the civil case and has been directed to administer and manage the business affairs, funds, assets, and any other property of Mr. Nadel, the Victory Fund, LLC and the five other hedge funds and conduct and institute such legal proceedings that benefit of the hedge fund investors. Accordingly, we recorded a charge of \$2,206,748 as an investment loss at December 31, 2008. If we recover any of the investment loss, such amounts will be recorded as recoveries in future periods when received. The original amount invested in the hedge fund was \$2,000,000. One of the actions the Receiver may take on behalf of all investors is to attempt to “claw back” redemptions and distributions made by the hedge funds to their investors and use the returned funds to pay the expenses of the Receiver and for a pro-rata distribution to all investors. No “claw back” action has been filed to date. We have received a letter from the Receiver stating that the Receiver does not intend to claw back the \$1 million we were paid based on the fact that our original investment was \$2 million. If we are required by the Court to pay back the \$1,000,000 redemption we received, our liquidity would be adversely affected.

Our business requires a substantial amount of capital, most notably to pursue our expansion strategies, including our current expansion in the Security and Digital Media Marketing Segment. We plan to meet these capital needs from various financing sources, including borrowings, cash generated from the sale of car washes, and the issuance of common stock if the market price of the Company’s stock is at a desirable level.

As of June 30, 2009, we had working capital of approximately \$16.2 million. Working capital was approximately \$16.0 million at December 31, 2008.

During the six months ended June 30, 2009 and 2008, we made capital expenditures of \$45,000 and \$148,000 (including \$26,000 and \$83,000 related to discontinued operations) respectively, within our Car Wash Segment.

Capital expenditures for our Security Segment were \$159,000 and \$160,000 for the six months ending June 30, 2009 and 2008, respectively. We estimate capital expenditures for the remainder of 2009 for the Security Segment at approximately \$25,000 to \$50,000, principally related to technology and warehouse facility improvements.

We expect to invest resources in additional products within our e-commerce division. Our online marketing division will also require the infusion of additional capital as we grow our new members because our e-commerce customers are charged after a 14 to 21 day trial period while we typically pay our website publishers for new member acquisitions in approximately 15 days. Additionally, as we introduce new e-commerce products, upfront capital spending is required to purchase inventory as well as pay for upfront media costs to enroll new e-commerce members.

We intend to continue to expend cash for the purchasing of inventory as we grow and introduce new video surveillance products in 2009 and in years subsequent to 2009. We anticipate that inventory purchases will be funded from cash collected from sales and working capital. At June 30, 2009, we maintained an unused and fully available

\$500,000 revolving credit facility with Chase to provide financing for additional video surveillance product inventory purchases.

The amount of capital that we will spend in 2009 and in years subsequent to 2009 on all our businesses is largely dependent on the profitability of our businesses. Until our businesses start generating positive cash flow, we have been dependent on car wash sales for liquidity. We believe our cash and short-term investments balance of \$5.8 million at June 30, 2009, the revolving credit facility, and cash generated from the sale of our car wash operations will be sufficient to meet capital expenditure and fund operating needs through at least the next twelve months while continuing to satisfy our debt covenant requirement with Chase. Our debt covenant requires us to maintain a total unencumbered cash and marketable securities balance of \$3 million. Unless our operating cash flow improves, our growth will be limited if we deplete our cash balance. If the cash provided from operating activities does not improve in 2009 and future years and if current cash balances are depleted, we will need to raise additional capital to meet these ongoing capital requirements.

During the six months ended December 31, 2008 and throughout 2009, we implemented Company wide cost savings measures, including a reduction in employees throughout the entire Company, and completed a consolidation of our Security Segment's electronic surveillance equipment operations in Ft. Lauderdale, Florida and Farmers Branch, Texas at December 31, 2008. As part of this reorganization, we consolidated our security division's surveillance equipment warehouse operations into our Farmers Branch, Texas facility. Our professional security sales and administrative team remained in Florida with the security catalog sales team being relocated from Texas to Florida during the third quarter of 2009. Our goals of the reorganization were to better align our electronic surveillance equipment sales teams to achieve sales growth; gain efficiencies by sharing redundant functions within our security operations such as warehousing, customer service, and accounting services; and to streamline our organization structure and management team for improved long-term growth. We estimate that our reorganization within our Security Segment, our Company wide employee reductions, and other cost saving measures result in approximately \$2.3 million in annualized savings. This program continued through the second quarter of 2009. Through June 30, 2009, we incurred approximately \$102,000 in severance costs from employee reductions.

As previously disclosed, on June 27, 2008 Car Care, Inc., a subsidiary of the Company, paid a criminal fine of \$100,000 and forfeited \$500,000 in proceeds from the sale of four car washes to settle a criminal indictment. A charge of \$600,000 was recorded as a component of income from discontinued operations for the three months ended March 31, 2008, as prescribed by SFAS 5, Accounting for Contingencies.

Shortly after the Company's Audit Committee became aware of the now resolved criminal investigation into the hiring of illegal aliens at four of
