SUMMARY OF OUR OFFERING

Prospectus Summary

The following summary highlights selected information contained in this prospectus. This summary does not contain all the information you should consider before investing in our securities. Before making an investment decision, you should read the entire prospectus carefully, including the "risk factors" section, the financial statements and the notes to the financial statements.

Ardent Mines Limited is a Nevada Corporation involved in the Exploration and Development of Gold Mining resources. In May of 2011, we acquired Gold Hills Mining Ltda., a Brazilian corporation which possesses rights for mineral extraction on properties located in Northeastern Brazil. We are presently exploring other opportunities as well, as described in further detail herein.

On September 7, 2011 (the "Closing Date"), pursuant to a securities purchase agreement, dated September 1, 2011, we completed the closing of an offering of our securities (the "Offering") for a total subscription proceeds of \$1,000,003.50 through the issuance of 259,741 shares of the Company's Common Stock at a purchase price of \$3.85 per share (the "Shares") to certain accredited investors (the "Investors"). In connection with the issuance of the Shares, the Investors received common stock purchase warrants to purchase up to 259,741 additional shares of our common stock (the "Warrants"). The initial exercise price of the Warrants is \$4.15 per share, subject to adjustment therein, with a term of exercise equal to 5 years.

In connection with the Offering, we granted the Investors registration rights pursuant to a registration rights agreement, dated September 1, 2011 (the "Registration Rights Agreement"). We are required to file a registration statement in order to register the Shares and the Warrant Shares. Pursuant to the terms of the Registration Rights Agreement, we are required to file a registration statement within 30 days following the date of the Securities Purchase Agreement and will cause the registration statement to be declared effective within 90 days of the date of the Securities Purchase Agreement (120 days in the event the SEC reviews the registration statement).

Net proceeds from the private placement will be used primarily to support our current exploration and development plans in Brazil together with our ongoing general corporate and working capital requirements.

The shares to be registered pursuant to this prospectus include the Shares and the Warrant Shares described above.

RISK FACTORS

An investment in our Company involves a risk of loss. You should carefully consider the risks described below, before you make any investment decision regarding our Company. Additional risks and uncertainties may also impair our business. If any such risks actually materialize, our business, financial condition and operating results could be adversely affected. In such case, the trading price of our common stock could decline.

Risks Related to Our Company

We have not yet commenced revenue generating operations under our business model and we have no past performance which can serve as an indicator of our future potential.

We are presently at the early stages of the implementation of our business plan. Our most recent financial statements will therefore not provide sufficient information to assess our future prospects. Our likelihood of success must be considered in light of all of the risks, expenses and delays inherent in establishing a new business, including, but not limited to unforeseen expenses, complications and delays, established competitors and other factors.

Our Auditors have issued an opinion expressing uncertainty regarding our ability to continue as a going concern. If we are not able to continue operations, investors could lose their entire investment in our Company.

We have a history of operating losses, and may continue to incur operating losses for the foreseeable future. This raises substantial doubts about our ability to continue as a going concern. Our auditors issued an opinion in their audit report dated August 19, 2011 expressing uncertainty about our ability to continue as a going concern. This means that there is substantial doubt whether we can continue as an ongoing business without additional financing and/or generating profits from our operations. If we are unable to continue as a going concern and our Company fails, investors in our Company could lose their entire investment.

We need to raise additional capital which may not be available to us or might not be available on favorable terms.

We will need additional funds to implement our business plan as our business model requires significant capital expenditures. We will need substantially more capital to execute our business plan. Our future capital requirements will depend on a number of factors, including our ability to grow our revenues and manage our business. Our growth will depend upon our ability to raise additional capital, possibly through the issuance of long-term or short-term indebtedness or the issuance of our equity securities in private or public transactions. If we are successful in raising equity capital, because of the number and variability of factors that will determine our use of the capital, our ultimate use of the proceeds may vary substantially from our current plans.

We were incorporated in July 2000 and have yet to generate any revenues. We have losses which we expect to continue into the future. As a result, we may have to suspend or cease operations.

We were incorporated on July 27, 2000, and have not generated any revenues. Our net loss since inception is significant. To achieve and maintain profitability and positive cash flow we are dependent upon our ability to generate revenues and control exploration costs.

Based upon current plans, we expect to incur operating losses in future periods. This will happen because there are expenses associated with the exploration of our mineral properties. As a result, we may not generate revenues in the future. Failure to generate revenues will cause us to suspend or cease operations.

We will have to hire additional qualified personnel. If we cannot locate qualified personnel, we may have to suspend or cease operations.

We will have to hire additional qualified persons to perform surveying, exploration, and excavation of the Gold Hills property and properties we may acquire in the future. If we are unable to hire additional skilled employees, our operations will not succeed.

Indebtedness may burden us with high interest payments and highly restrictive terms which could adversely affect our business.

As a matter of Company policy, our financial plans will limit our debt exposure to a reasonable level. However, a significant amount of indebtedness could increase the possibility that we may be unable to generate sufficient revenues to service the payments on indebtedness, when due, including principal, interest and other amounts.

We may be exposed to tax audits.

Our U.S. federal and state tax returns may be audited by the U.S. Internal Revenue Service (the "IRS"). An audit may result in the challenge and disallowance of deductions claimed by us. We are unable to guarantee the deductibility of any item that we acquire. We will claim all deductions for federal and state income tax purposes which we reasonably believe that we are entitled to claim. In the event the IRS should disallow any of our deductions, the directors, in their sole discretion, will decide whether to contest such disallowance. No assurance can be given that in the event of such a contest the deductions would be sustained by the courts.

Because we intend to conduct our mineral exploration and development activities outside of the United States, we will be required to obtain approvals from foreign national and local governments.

We intend to pursue projects outside of the United States, which may require us to seek the approval of various foreign governments. Seeking such approvals may be expensive, complex, time consuming and uncertain.

Risks related to our Stock

We do not anticipate paying cash dividends.

We do not anticipate paying cash dividends in the foreseeable future. We intend to retain any cash flow we generate for investment in our business. Accordingly, our common stock may not be suitable for investors who are seeking current income from dividends. Any determination to pay dividends on our common stock in the future will be at the discretion of our board of directors.

Because the market for our common shares is limited, investors may not be able to resell their common shares.

Our common shares trade on the Over-the-Counter-Bulletin-Board quotation system. Trading in our shares has historically been subject to very low volumes and wide disparity in pricing. Investors may not be able to sell or trade their common shares because of thin volume and volatile pricing with the consequence that they may have to hold your shares for an indefinite period of time.

There are legal restrictions on the resale of the common shares offered, including penny stock regulations under the U.S. Federal Securities Laws.

Our common stock may continue to be subject to the penny stock rules under the Securities Exchange Act of 1934, as amended. These rules regulate broker/dealer practices for transactions in “penny stocks.” Penny stocks are generally equity securities with a price of less than \$5.00. The penny stock rules require broker/dealers to deliver a standardized risk disclosure document that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker/dealer must also provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker/dealer and its salesperson and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations and the broker/dealer and salesperson compensation information must be given to the customer orally or in writing prior to completing the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction, the broker and/or dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. The transaction costs associated with penny stocks are high, reducing the number of broker-dealers who may be willing to engage in the trading of our shares. These additional penny stock disclosure requirements are burdensome and may reduce all of the trading activity in the market for our common stock. As long as the common stock is subject to the penny stock rules, our shareholders may find it more difficult to sell their shares.

If we raise additional funds through the issuance of equity or convertible debt securities, your ownership will be diluted.

If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership held by existing shareholders will be reduced. New securities may contain certain rights, preferences or privileges that are senior to those of our common shares. Furthermore, any additional equity financing may be dilutive to shareholders, and debt financing, if available, may involve restrictive covenants, which may limit our operating flexibility with respect to certain business matters.

Grants of stock options and other rights to our directors, officers and employees may dilute your stock ownership.

We plan to attract and retain our directors, officers and employees in part by offering stock options and other purchase rights for a significant number of common shares. The issuance of common shares pursuant to such options, and additional options which may be issued in the future, will have the effect of reducing the percentage of ownership of our shareholders.

Our stock price may be volatile and market movements may adversely affect your investment.

The market price of our stock may fluctuate substantially due to a variety of factors, many of which are beyond our control. The stock markets in general have experienced substantial volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the market price of our stock. Future sales of our common shares by our shareholders could depress the price of our stock.

Risks Related to the Exploration of Minerals

Mining involves financial risk and uncertainty related to hazardous operations.

The operations we will carry out will be subject to all the hazards and risks normally encountered in the exploration and development of gold mineral reserves and mining operations generally, including unusual and unexpected geologic formations, seismic activity, cave-ins, flooding and other conditions involved in the drilling and removal of

material, any of which could result in damage to, or destruction of, producing facilities, damage to life or property and environmental damage, all of which may result in possible legal liability. The exploration for and development of mineral deposits involves significant risks, which even a combination of careful evaluation, experience and knowledge may not eliminate.

We may not be able to adequately insure against risk.

Although we intend to maintain insurance to protect against certain risks in such amounts as we consider being reasonable, our insurance will not cover all the potential risks associated with our development, exploration and mining activities. We may also be unable to maintain insurance to cover these risks at economically feasible premiums. Insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. We may also become subject to liability for pollution or other hazards that may not be insured against or that we may elect not to insure against because of premium costs or other reasons. Losses from these events may cause us to incur significant costs that could have a material adverse effect upon our financial performance and results of operations.

The financial success of a mining operation is difficult to predict.

Major expenses may be required to locate and establish mineral reserves. The same is true for the development of mining facilities at a particular site once such mineral reserves have been established. It is impossible to ensure that the exploration or development of the gold mineral reserves by us will result in a profitable commercial mining operation. Whether a mineral deposit will be commercially viable depends on a number of factors, some of which are: the particular attributes of the deposit, such as size, grade and proximity to infrastructure; metal prices; and government regulations, including regulations relating to prices, taxes, royalties, land tenure, land use, importing and exporting of minerals and environmental protection. The exact effect of these factors cannot be accurately predicted, but the combination of these factors may result in us not receiving an adequate return on invested capital.

The success of the exploration and development of gold mineral reserves by us will also be subject to a number of factors including the availability and performance of engineering and construction contractors, suppliers and consultants, the receipt of required governmental approvals and permits (including environmental permits). There can be no assurance that personnel and equipment will be available in a timely manner or on reasonable terms to successfully complete our activities as planned; that we will be able to obtain all necessary governmental approvals and permits if necessary; and that the ongoing operating costs associated with the exploration or development of the gold mineral reserves will not be significantly higher than anticipated by us. Any of the foregoing factors could adversely affect our operations and financial condition.

There is no certainty that the expenditures which will be made by us towards the search and evaluation of mineral deposits will result in discoveries or development of commercial quantities of gold ore.

Environmental risks and hazards may adversely impact the profitability of our Company.

All phases of our Gold Hills operations will be subject to environmental regulation in Brazil. Other mines that we may develop will also be subject to regulation in any other jurisdiction where we operate. These regulations may mandate, among other things, water quality standards and land reclamation. These standards may also regulate the generation, transportation, storage and disposal of hazardous waste. This will require a high degree of responsibility for us and our officers, directors and employees. There is no assurance that existing or future environmental regulation will not materially adversely affect our business, financial condition and results of operations.

Inadequate infrastructure could adversely impact our profitability.

Development and exploration activities depend, to one degree or another, on adequate infrastructure. Reliable roads, bridges, power sources and water supply are important determinants, which affect capital and operating costs. Unusual weather phenomena, sabotage, government or other interference in the maintenance or provision of such infrastructure could adversely affect our operations, financial condition and results of operations.

Adverse weather conditions could temporarily slow or stop our operations and impact our profitability.

Development and exploration activities may be adversely impacted by storms, flooding and other weather events.

We will require certain permits to commence operations.

Our development and exploration activities are subject to receiving and maintaining permits from appropriate governmental authorities. There is no assurance that delays will not occur in connection with obtaining all necessary renewals of permits, additional permits for any possible future changes to operations, or additional permits associated with new legislation. Prior to any development on any of our properties, we must receive permits from appropriate

governmental authorities. There can be no assurance that we will continue to hold all permits necessary to develop or continue operating at any particular property.

There are risks of economic and political instability in Brazil.

The Gold Hills property where we have rights for mineral extraction is located in Brazil. There are risks relating to an uncertain or unpredictable political and economic environment in Brazil.

Certain political and economic events, such as acts or failures to act by a government authority in Brazil and political and economic instability in Brazil could have a material adverse effect on our ability to start or continue our development and exploration activities in Brazil.

These risks and uncertainties include, but are not limited to: terrorism; hostage taking; extreme fluctuations in currency exchange rates; high rates of inflation; labor unrest; the risks of war or civil unrest; expropriation and nationalization; renegotiation or nullification of existing concessions, licenses, permits and contracts; changes in taxation policies; restrictions on foreign exchange and repatriation; and changing political conditions, currency controls and governmental regulations that favor or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.

The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on our operations or profitability.

Strikes by our employees or the employees of our suppliers could temporarily halt operations.

The Company's results of operations could be detrimentally impacted by strikes and similar disruptions to our business.

Changes in policy by the Brazilian Government could adversely impact the Company.

Changes, if any, in mining or investment policies or shifts in political attitude in Brazil where Gold Hills operates may adversely affect its operations or profitability. Operations may be affected in varying degrees by government regulations with respect to, but not limited to, price controls, export controls, currency remittance, income and other taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people and water use. Failure to comply strictly with applicable laws, regulations and local practices relating to mineral right applications and tenure, could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interests.

We could experience problems with title to its current property or to future properties.

Although we believe that we have taken reasonable measures to ensure proper title in all the issued and outstanding equity interests of Gold Hills and have carried out a reasonable due diligence as to the proper title of Gold Hills in the rights for mineral extraction on the property, there is no guarantee that any such title or interest will not be challenged or impaired. Third parties may have valid claims underlying portions of our Gold Hills interests, including prior unregistered liens, agreements, transfers or claims, and title may be affected by, among other things, undetected defects. In addition, we may be unable to exercise or to enforce our respective rights. As we acquire additional properties, similar issues could arise in connection with those properties as well.

We face intense competition.

The mining industry is intensely competitive in all of its phases and we will compete with companies possessing greater financial and technical resources than we do. Competition in the precious metals mining industry is primarily for: mineral rich properties that can be developed and produced economically; the technical expertise to find, develop,

and operate such properties; the labor to operate the properties; and the capital for the purpose of funding such properties. Existing or future competition in the mining industry could materially adversely affect our prospects for mineral exploration and success in the future.

7

We will face extensive governmental regulation of the mining industry.

Our mineral exploration activities will be subject to various laws governing exploration, development, production, taxes, labor standards, mine safety, toxic substances and other matters. Mining and exploration activities are also subject to various laws and regulations relating to the protection of the environment. Amendments to current laws and regulations governing the operations and activities of our Company or more stringent implementation thereof could have a material adverse effect on our business, financial condition and results of operations.

Our right to engage in mineral extraction may be terminated in certain circumstances. Under the laws of certain jurisdictions in which we may operate, mineral resources belong to the state and governmental concessions are required to explore for, and exploit, mineral reserves. Termination of any one or more of our exploration or other rights could have a material adverse effect on our financial condition or results of operations.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

There are important factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors, include, without limitation, the following: our ability to develop our technology platform and our products; our ability to protect our intellectual property; the risk that we will not be able to develop our technology platform and products in the current projected timeframe; the risk that our products will not achieve performance standards in clinical trials; the risk that the clinical trial process will take longer than projected; the risk that our products will not receive regulatory approval; the risk that the regulatory review process will take longer than projected; the risk that we will not be unsuccessful in implementing our strategic, operating and personnel initiatives; the risk that we will not be able to commercialize our products; any of which could impact sales, costs and expenses and/or planned strategies. Additional information regarding factors that could cause results to differ can be found in this prospectus and in our other filings with the Securities and Exchange Commission.

PLAN OF DISTRIBUTION

The selling stockholders and any of their pledgees, donees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock being offered under this prospectus on any stock exchange, market or trading facility on which shares of our common stock are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when disposing of shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
 - purchases by a broker-dealer as principal and resale's by the broker-dealer for its account;
 - an exchange distribution in accordance with the rules of the applicable exchange;
 - privately negotiated transactions;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
 - a combination of any of these methods of sale; and
 - any other method permitted pursuant to applicable law.

The shares may also be sold under Rule 144 under the Securities Act of 1933, as amended ("Securities Act"), if available, rather than under this prospectus. The selling stockholders have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling security holder defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares at any price.

Broker-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, which commissions as to a particular broker or dealer may be in excess of customary commissions to the extent permitted by applicable law.

If sales of shares offered under this prospectus are made to broker-dealers as principals, we would be required to file a post-effective amendment to the registration statement of which this prospectus is a part. In the post-effective amendment, we would be required to disclose the names of any participating broker-dealers and the compensation arrangements relating to such sales.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares offered under this prospectus may be deemed to be "underwriters" within the meaning of the Securities Act in connection with these sales. Commissions received by these broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Any broker-dealers or agents that are deemed to be underwriters may not sell shares offered under this prospectus unless and until we set forth the names of the underwriters and the material details of their underwriting arrangements in a supplement to this prospectus or, if required, in a replacement prospectus included in a post-effective amendment to the registration statement of which this prospectus is a part.

The selling stockholders and any other persons participating in the sale or distribution of the shares offered under this prospectus will be subject to applicable provisions of the Exchange Act, and the rules and regulations under that act,

including Regulation M. These provisions may restrict activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other person. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and other activities with respect to those securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. All of these limitations may affect the marketability of the shares.

If any of the shares of common stock offered for sale pursuant to this prospectus are transferred other than pursuant to a sale under this prospectus, then subsequent holders could not use this prospectus until a post-effective amendment or prospectus supplement is filed, naming such holders. We offer no assurance as to whether any of the selling stockholders will sell all or any portion of the shares offered under this prospectus.

We have agreed to pay all fees and expenses we incur incident to the registration of the shares being offered under this prospectus. However, each selling security holder and purchaser is responsible for paying any discounts, commissions and similar selling expenses they incur.

We and the selling stockholders have agreed to indemnify one another against certain losses, damages and liabilities arising in connection with this prospectus, including liabilities under the Securities Act.

Penny Stock

We anticipate that we will initially be a "penny stock." The Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- that a broker or dealer approve a person's account for transactions in penny stocks; and
- the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must

- obtain financial information and investment experience objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Disclosure also must be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

Dividend Policy

As of the date of this Prospectus, we have not paid any cash dividends to stockholders. The declaration of any future cash dividend will be at the discretion of our board of directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions. It is our present intention not to pay any cash dividends in the foreseeable future, but rather to reinvest earnings, if any, in our business operations.

Nevada Anti-Takeover Laws

Nevada Revised Statutes sections 78.378 to 78.379 provide state regulation over the acquisition of a controlling interest in certain Nevada corporations unless the articles of incorporation or bylaws of the corporation provide that the provisions of these sections do not apply. Our articles of incorporation and bylaws do not state that these provisions do not apply. The statute creates a number of restrictions on the ability of a person or entity to acquire control of a Nevada company by setting down certain rules of conduct and voting restrictions in any acquisition attempt, among other things. The statute is limited to corporations that are organized in the state of Nevada and that have 200 or more stockholders, at least 100 of whom are stockholders of record and residents of the State of Nevada; and does business in the State of Nevada directly or through an affiliated corporation. Because of these conditions, the statute currently does not apply to our Company.

Limitation on the liabilities of Directors

Our bylaws provide that we shall indemnify any and all of our present or former directors and officers for expenses incurred in connection with the defense of any action relating to their services. Costs, charges and expenses (including attorneys' fees) incurred by such person in defending a civil or criminal proceeding shall be paid by the Company in advance upon receipt of an undertaking to repay all amounts advanced if it is ultimately determined that the person is not entitled to be indemnified by the Company as authorized by the bylaws, and upon satisfaction of other conditions required by current or future legislation. To the extent that a director has been successful in defense of any proceeding, the Nevada Revised Statutes provide that he shall be indemnified against reasonable expenses incurred in connection therewith. These provisions may limit the ability of our stockholders to recover damages against our directors through legal proceeding or otherwise.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and is, therefore, unenforceable.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a summary of the material United States federal income tax consequences to non-U.S. holders (defined below) of the ownership and disposition of the shares of common stock purchased in the Offering.

As used herein, "non-U.S. holders" are beneficial owners of the shares of our common stock purchased in the Offering, other than entities or arrangements treated as partnerships for U.S. federal income tax purposes ("Partnerships"), that are not U.S. holders. "U.S. holders" are beneficial owners of the shares of our common stock that are, for United States federal income tax purposes, (1) citizens or individual residents of the United States, (2) corporations created or organized in, or under the laws of, the United States, any state thereof or the District of

Columbia, (3) estates, the income of which is subject to United States federal income taxation regardless of its source, or (4) trusts if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (B) an election is in effect under applicable United States Treasury regulations to be treated as a U.S. person.

If a Partnership is a beneficial owner of the shares of our common stock purchased in the Offering, the treatment of a partner in the Partnership will generally depend upon the status of the partner and upon the activities of the Partnership. Partnerships and partners in such Partnerships should consult their own tax advisors about the United States federal income tax consequences of owning and disposing of shares of our common stock.

This summary does not describe all of the tax consequences that may be relevant to a non-U.S. holder in light of its particular circumstances. For example, it does not deal with special classes of non-U.S. holders, such as banks, thrifts, real estate investment trusts, regulated investment companies, passive foreign investment companies, insurance companies, dealers in securities or currencies, or tax-exempt investors. This summary is limited to holders that hold our shares of common stock as a capital asset within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code") (generally, property held for investment purposes). It does not discuss the tax consequences of the ownership and disposition of shares of our common stock purchased in the Offering and held as part of a hedge, straddle, conversion, "synthetic security" or other integrated transaction. This summary also does not address the tax consequences to (i) persons that have a functional currency other than the U.S. dollar, (ii) certain U.S. expatriates or (iii) stockholders or beneficiaries of a holder of such shares of common stock. Further, it does not include any description of any alternative minimum tax consequences, estate tax consequences, or the tax laws of any state or local government or of any foreign government that may be applicable to such shares of common stock. This summary is based on the Code and the United States Treasury regulations promulgated thereunder, and administrative and judicial decisions, all as in effect on the date hereof, all of which are subject to change or differing interpretations, possibly on a retroactive basis. There can be no assurance that the Internal Revenue Service will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the Internal Revenue Service with respect to the United States federal income tax consequences of the ownership and disposition of such shares of common stock.

YOU SHOULD CONSULT WITH YOUR OWN TAX ADVISOR REGARDING THE FEDERAL, STATE, LOCAL AND FOREIGN INCOME, FRANCHISE, PERSONAL PROPERTY, ESTATE, GIFT, TRANSFER AND ANY OTHER TAX CONSEQUENCES (INCLUDING ANY ASSOCIATED REPORTING REQUIREMENTS) OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF SHARES OF OUR COMMON STOCK, INCLUDING THE EFFECT OF ANY TREATIES ON THE FOREGOING OR OTHERWISE.

INTERESTS OF NAMED EXPERTS AND COUNSEL

No expert or counsel acting for the Company or its wholly-owned subsidiary Gold Hills Mining Ltda. or any of the selling security holders named herein was employed for such purpose on a contingent basis, or at the time of such preparation, certification or opinion or at any time thereafter, through the date of effectiveness of the registration statement had, or is to receive in connection with the offering, a substantial interest, direct or indirect, in the Company or any of its parents, subsidiaries or affiliates, or was connected with the Company or any of its parents, subsidiaries or affiliates as a promoter, underwriter, voting trustee, director, officer, or employee. We previously granted our legal counsel, Wuersch & Gering LLP, options to purchase 200,000 shares of the Company's common stock at an exercise price of \$4.75 per share, however, such options were not granted in connection with the share to be registered hereby. Neither the Company nor Gold Hills Mining Ltda. has engaged any experts, other than the independent accounting firm who audited the consolidated financial statements, to prepare or certify any part of this prospectus or any other report or valuation for use in connection with the registration statement of which this prospectus is a part.

BUSINESS

Corporate Information

We were incorporated in the State of Nevada on July 27, 2000. We are presently engaged in the acquisition and exploration of mining properties. Our address is 100 Wall Street, 21st Floor, New York, NY 10005. Our telephone number is (855) 273-3686.

Background

In August 2000, we acquired the right to prospect one mineral property containing eight mining claims located on Copperkettle Creek in British Columbia, Canada. We have allowed these claims to lapse. From August 26, 2006 to December 11, 2006, we did not conduct any operations. During that period, we intended to identify an acquisition or merger candidate with ongoing operations in any field. However in December 2006 we decided to acquire the right to explore a new property in British Columbia and returned to the business of mineral exploration. On April 30, 2009, we decided not to renew certain claims, and later determined not to pursue its remaining claim in Canada. We subsequently determined to pursue other mining development opportunities.

The Company's Current Business Operations

During fiscal year ended June 30, 2011, we appointed new officers and directors, opened a new office, and negotiated and conducted due diligence regarding several potential acquisitions. Our most significant achievement to date has been its acquisition of Gold Hills Mining Ltda., as described below.

Gold Hills Mining Ltda.

In January of 2011, we entered into a term sheet to acquire Gold Hills Mining Ltda. ("Gold Hills"), a Brazilian corporation which possesses rights for mineral extraction on properties located in Northeastern Brazil. After the completion of due diligence, on May 4, 2011, we acquired Gold Hills pursuant to a Purchase Agreement (the "Purchase Agreement") by and between the Company, Gold Hills and the two shareholders of Gold Hills (such shareholders are referred to herein as the "Sellers"). Pursuant to the Purchase Agreement, the Sellers have sold us One Hundred Percent (100%) of all the issued and outstanding equity interests (the "Shares") of Gold Hills in accordance with the following terms:

- (a) Payment of two hundred and fifty thousand U.S. dollars (\$250,000), which has been paid.
- (b) We shall conduct an exploration campaign at the properties (the "Exploration"). Upon the completion of the Exploration, the following amounts shall be paid by Gold Hills to the Sellers:
 - (i) If the Exploration confirms the existence of gold mineral reserves of less than Three Hundred Thousand (300,000) ounces, no additional payment shall be made by the Company to the Sellers.
 - (ii) If the Exploration confirms the existence of gold mineral reserves of between Three Hundred Thousand (300,000) and Four Hundred Ninety-Nine Thousand Nine Hundred and Ninety-Nine (499,999) ounces, the additional payment to be made to the Sellers shall be Four Hundred Thousand U.S. Dollars (\$400,000).
 - (iii) If the Exploration confirms the existence of gold mineral reserves of greater than Four Hundred Ninety-Nine Thousand Nine Hundred and Ninety-Nine (499,999) ounces, the additional payment to be made to the Sellers shall be (a) One Million U.S. Dollars (\$1,000,000); plus (b) Two U.S. Dollars (\$2) per additional ounce in excess

of the first Five Hundred Thousand (500,000) ounces, to be paid in four biannual installments starting in twelve (12) months.

(c) Upon Gold Hills obtaining certain enumerated environmental licenses which are necessary to commence Gold Hills planned mining operations, we will make an additional cash payment to the Sellers in the amount of Seven Hundred Thousand U.S. Dollars (\$700,000).

(d) Upon the commencement of the successful mining and processing of gold by Gold Hills, the Sellers shall be entitled to receive a royalty equal to Two Percent (2%) of Gold Hills' gross income, as calculated in accordance with generally accepted accounting principles.

Subject to our determination of the existence of such gold reserves as set forth above, we have agreed to invest Three Million Five Hundred Thousand U.S. Dollars (\$3,500,000) in Gold Hills.

Pursuant to the Purchase Agreement, one of the Sellers shall be appointed to Gold Hills' Board. The Purchase Agreement also contains standard representations and warranties, and provides for arbitration in the event of any dispute.

Option to Acquire Mineral Rights in the State of Para, Brazil

Gold Hills Mining Ltda., our wholly owned Brazilian subsidiary, has executed an agreement (the "Option Agreement") granting us an exclusive option to acquire mineral rights in the Carajas Mineral Province in the State of Para, Brazil. On September 22, 2011, our Brazilian subsidiary Gold Hills Mining Ltda. gave an official notification to the Cooperative of Miners of Curianopolis ("COOPEMIC") of our intent to exercise the mineral rights option in accordance with the procedures set forth in the exclusive agreement previously signed by the parties. The closing of the exercise of the mineral rights option agreement is expected to occur during the month of October, 2011. Pursuant to the exercise of this Option Agreement, we expect to commence due diligence regarding this property as soon as reasonably possible.

At the inception of the Option Agreement, the Company paid COOPEMIC \$150,000, and has now determined to exercise the option with a payment of an additional \$350,000 within thirty days. The Company has agreed, under the Option Agreement, to expend a minimum of \$5,000,000 in the exploration of the applicable mining rights area. If the Company determines it is advisable to continue exploration, the Company shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration.

If the Company's exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, certified under the standard NI-43101, as established by the Canadian Securities Administration as "measured resources," the Company shall pay to COOPEMIC, at the end of such initial exploration, 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

Other Prospective Acquisitions

On September 25, 2010, we entered into a letter of intent (the "Letter of Intent") with Rio Sao Pedro Mineracao LTDA ("Rio Sao Pedro"), a Brazilian mining company. Rio Sao Pedro owns a prospective gold mine, the "Fazenda Lavras," which is near the Morro do Ouro mine of Kinross Gold Corporation in the city of Paracatu, located in the State of Minas Gerais, Brazil. The Rio Sao Pedro Fazenda Lavras property covers approximately 211 hectares (approximately 521 acres), with gold mining rights and other mineral rights on a total of 828 hectares (approximately 2,046

acres). We continued negotiations with Rio Sao Pedro and the Sellers for the acquisition of Rio Sao Pedro amicably for some time, however, the Company has decided not to pursue this transaction.

On December 12, 2010, we entered into an Exploration and Acquisition Agreement (the “Capri Agreement”) with Afrocan Resources Ltd. (“Afrocan”). Afrocan owns 100% of all issued and outstanding shares of Capri General Trading Co. Ltd. (“Capri”), which is the legal and beneficial owner of 100% of all mineral rights on a property in Tanzania (the “Shenda Property”). We agreed that subject to certain conditions, including final due diligence satisfactory to the Company and the completion and execution of detailed long form agreements supplementing the terms and conditions of the Capri Agreement, we would conduct exploration activities at the Shenda Property. In the event that we could ascertain certain levels of commercially available and commercially exploitable reserves, we would acquire all of the issued and outstanding equity interests in Capri from Afrocan in exchange for shares of the Company’s common stock. As of the date of this Prospectus, we are no longer actively pursuing the Capri transaction.

During 2011, we agreed to general terms for the purchase of 100% of the shares of Sociedad Minera Las Cumbres SAC (“Las Cumbres”), the operator of a silver mine located in the Churín region of Peru, approximately 150 miles Northeast of the capital city of Lima. We also entered into an option agreement with Alfredo de Lima SMRL to purchase the mineral rights for the Condorsenga mine, where the Las Cumbres operation is located. These agreements were subject to certain conditions which were not fulfilled by the counterparties, and we are no longer pursuing these transactions.

Employees and Directors

As of the date of this Prospectus, we have five full-time employees. Mr. Leonardo Alberto Riera was appointed as a member of our Board of Directors and as the President of the Company on August 25, 2010. Effective as of September 2, 2010, Mr. Luis Feliu was appointed as our Chief Financial Officer. Mr. Riera and Mr. Feliu both devote the majority of their time to the Company’s operations. In addition, during our most recent fiscal year, our Board of Directors expanded to include Luciano de Freitas Borges, James Ladner and Gabriel Margent. On August 25, 2010 Mr. Urmas Turu resigned as the President of the Company. He remained a member of our Board of Directors until March 22, 2011.

Corporate Development Services Agreement

On September 27, 2010, we entered into a Corporate Development Services Agreement (the “Services Agreement”) with CRG Finance AG (“CRG”). Pursuant to the Services Agreement, CRG has agreed to render to the Company consulting and other strategic advisory services (collectively, the “Advisory Services”). We will pay to CRG the following amounts for the Advisory Services: (i) an inception fee of US\$100,000.00 (one hundred thousand U.S. dollars) and (ii) a monthly services fee of US\$25,000.00 (twenty five thousand U.S. dollars) per month, payable each month for the period commencing as of September 1, 2010. CRG shall be paid \$10,000 per month of the Advisory Services Fee beginning September 1, 2010, with the balance of \$15,000 per month of the Advisory Services Fees together with the Inception Payment accruing until completion of the first Company financing when such accruals shall be fully due and payable. In consideration of any and all Investment Banking Services provided to the Company, CRG shall receive in cash ten percent (10%) of the total value of each such transaction, payable at the closing of each such transaction. The Services Agreement also contains provisions for the reimbursement of reasonable expenses incurred by CRG, and for indemnification of CRG and its affiliates from claims related to the services provided under the Services Agreement. The term of the Services Agreement shall be three years, and may be terminated at any time for any reason by CRG upon not less than thirty (30) days’ advance written notice. During May and June 2011, the inception fee and the accrued monthly service fees through June 2011 were paid in full. In July 2011, Ardent Mines and CRG entered into a suspension agreement whereby the investment banking services were terminated. During the year ended June 30, 2011, we borrowed a total of \$750,000 from CRG Finance AG at a rate of 7.5% per annum, calculated based on a year of 365 days and actual days elapsed. The loan, plus any interest accumulated, is due upon demand after the first anniversary of the agreement date within thirty calendar days upon delivery to the Borrower a written demand by the Lender. On October 18, 2011, the loan becomes convertible into common stock at the holder’s option at \$3.68 per share.

NI 43-101 Compliant Technical Report on Exploration of the Gold Hills Project

On July 5, 2011, we announced that we have received a 43-101 Technical Report on Exploration prepared by SRK Consulting (U.S.) Inc. for the Company's "Serra du Ouro" Project in Brazil. Ardent Mines acquired all mineral rights in the Serra du Ouro project area, containing a highly mineralized vein of approximately 13 Kilometers in length, by purchasing 100% of the shares of Gold Hills Mining Ltda. in May of 2011. The SRK report is filed as an Exhibit hereto and is also available on Ardent Mines' website www.ardentmines.com. The report was prepared upon SRK's completion of a site visit and the analysis of geological and geophysical evidence. SRK confirmed the existence of a highly mineralized vein containing gold of high grade (4 to 7 g/t), originally prospected by the CPRM, an agency of the Brazilian government.

DESCRIPTION OF PROPERTY

We do not own any real estate or other property. Our business office is located at 100 Wall Street, 21st Floor, New York, New York 10005. There is no rent charged for this space, which is being temporarily provided to the Company by its counsel. We have also established offices in Florida and Brazil.

LEGAL PROCEEDINGS

On May 10, 2011, we filed a Complaint with the Supreme Court of the State of New York. The action was removed to the United States District Court for the Southern District of New York on May 17, 2011. The defendants include Tydus Richards; Lotus Fund, Inc.; Dave Hibbard, as trustee of the Irrevocable Trust For the Benefit of Sloane Ricky Richards dated January 14, 2008; Christopher Wilson, individually and as trustee of the Irrevocable Trust For the Benefit of Chloe Belle Richards dated January 14, 2008; Scott Richards, as trustee of the Irrevocable Trust For the Benefit of Major Tydus Richards, dated January 14, 2008; Blackwater Industries LLC; Shelly Sean Singhal; and Pacific Stock Transfer Company. Tydus Richards has demanded the replacement of certain certificates of shares which he contends are his and which were lost or misplaced. We contend that Mr. Richards is not entitled to the certificates since he did not perform under a purported consulting agreement with the Company. As of the date of this Prospectus the defendants have not made any counterclaims against the Company and no hearings have taken place.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Ardent Mines Limited
(An exploration stage company)
New York, New York

We have audited the accompanying balance sheets of Ardent Mines Limited (an exploration stage company) (“Ardent Mines”) as of June 30, 2011 and 2010, and the related statements of expenses, changes in stockholders’ equity (deficit), and cash flows for the years then ended and for the period from July 27, 2000 (inception) through June 30, 2011. These financial statements are the responsibility of Ardent Mines’ management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Ardent Mines is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Ardent Mines’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ardent Mines as of June 30, 2011 and 2010, and the results of its operations and its cash flows for the years then ended and for the period from July 27, 2000 (inception) through June 30, 2011, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Ardent Mines will continue as a going concern. As discussed in Note 2 to the financial statements, Ardent Mines has suffered recurring losses from operations and has negative working capital, which raises substantial doubt about its ability to continue as a going concern. Management’s plans regarding those matters are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ARDENT MINES LIMITED
(AN EXPLORATION STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business. Ardent Mines Limited was incorporated in Nevada on July 27, 2000. Ardent Mines' principal business plan is to acquire, explore and develop mineral properties and to ultimately seek earnings by exploiting the mineral claims.

Ardent Mines has been in the exploration stage since its formation and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition, exploration and development of mining properties. On May 4, 2011, Ardent Mines acquired Gold Hills Mining Ltda. which owns certain mining rights in Brazil.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents. Investments with an original maturity date of three months or less when purchased are considered to be cash equivalents and are stated at cost.

Income Taxes. Ardent Mines recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. Ardent Mines provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

Exploration and Development Costs. Ardent Mines has been in the exploration stage since its formation and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition, exploration and development of mining properties. Mineral exploration costs are expensed as incurred. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs incurred to develop such property, are capitalized. Such costs will be amortized using the units-of-production method over the estimated life of the probable reserve.

Basic and Diluted Net Loss Per Share. Basic and diluted net loss per share calculations are presented in accordance with ASC 260, and are calculated on the basis of the weighted average number of common shares outstanding during the year. They include the dilutive effect of common stock equivalents in years with net income. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

Share-Based Payments. The Company accounts for share-based payments in accordance with the authoritative guidance issued by the FASB on stock compensation, which establishes the accounting for transactions in which an entity exchanges its equity instruments for goods or services. Under the provisions of the authoritative guidance, share-based compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period). The Company estimates the fair value of share-based payments using the Black-Scholes Option Pricing Model. Additionally, share-based awards to non-employees are expensed over the period in which the related services are rendered at their fair value.

Recent Accounting Pronouncements. Ardent Mines does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on their results of operations, financial position or cash flows.

F-8

NOTE 2 – GOING CONCERN

Ardent Mines has incurred net losses since inception and has a negative working capital at June 30, 2011. The ability of Ardent Mines to emerge from the exploration stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and/or attain profitable mining operations. Management has plans to seek additional capital through a private placement and public offering of its common stock. There is no guarantee that Ardent Mines will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Ardent Mines' ability to continue as a going concern.

NOTE 3 – ACQUISITION OF MINING RIGHTS

On May 4, 2011, Ardent Mines acquired Gold Hills Mining Ltda. which owns certain mining rights in Brazil. The aggregate purchase price paid was \$250,000 which was recorded as capitalized mining rights in the balance sheet as of June 30, 2011.

Under the terms of the acquisition, additional amounts will be paid pursuant to the results of reserves testing performed on the mining properties. Should the reserves testing confirm the existence of gold, silver and byproduct reserves of less than 300,000 equivalent gold ounces; Ardent Mines will not be required to make an additional payment. Should the reserves testing confirm the existence of gold, silver and byproduct reserves between 300,000 and 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$400,000 payable within 30 days after completion of a pre-feasibility study. Should the reserves testing confirm the existence of gold, silver and byproduct reserves in excess of 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$1,000,000, payable within 30 days after completion of a pre-feasibility study, and \$2.00 per additional ounce in excess of 500,000 equivalent gold ounces.

In addition to the amounts to be paid based upon the reserves testing, Ardent Mines will also be required to pay an additional \$700,000 within 30 days from the date that Ardent Mines obtains an environmental installation license. Once Ardent Mines begins extracting gold, silver or byproduct from the properties, Ardent Mines will be required to pay a monthly royalty equal to 2% of the net income from the sale of the mineral product. Ardent Mines will also be required to invest at least \$3,500,000 in Gold Hills Mining Ltda. upon the development of an extensive extraction program.

NOTE 4 – ADVANCES FROM RELATED PARTY

As of June 30, 2010, Ardent Mines owed Urmas Turu, the Company's former president and board member, \$38,490 for advances which funds were used for payment of Company expenses. The amount had no terms of repayment, was unsecured, and bore no interest. During the year ended June 30, 2011, the Company repaid the balance in full.

NOTE 5 – CONVERTIBLE NOTES PAYABLE

During the year ended June 30, 2011, the Company borrowed a total of \$750,000 from CRG Finance AG at a rate of 7.5% per annum. This unsecured loan, plus any interest accumulated, is due upon demand beginning October 18, 2011. On October 18, 2011, the loan becomes convertible into common stock at the holder's option at \$3.68 per share. Ardent Mines evaluated the conversion option under FASB ASC 815-15 and determined the conversion option does not qualify as a derivative. Ardent Mines then evaluated the conversion option under FASB ASC 470-20 for a beneficial conversion feature and determined that the conversion option does not contain a beneficial conversion feature.

Common Stock Options

On February 4, 2011, the Company granted Leonardo Riera options to purchase 50,000 common shares at \$ 0.01 per share which options vest immediately and have a term of 5 years. The options were granted in lieu of the 50,000 shares he was entitled to receive pursuant to his employment agreement dated September 27, 2010. The 50,000 common shares he was originally granted were fair valued and expensed at \$84,500 during September 2010. On the date of the modification of the award, the fair value of the options granted was determined to be \$229,066 and the fair value of the shares originally granted was determined to be \$229,500. The fair value of the modified award on February 4, 2011 decreased; accordingly, there was no additional expense recorded. The fair value of the options was determined using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 1.25%, (2) expected life of 2.5 years (3) expected volatility of 169.52% and (4) zero expected dividends.

On May 12, 2011, the Company granted its Board members and advisers an aggregate of 1,300,000 stock options exercisable at \$ 4.75 per share. The options vest 25% upon grant and an additional 25% vests each six months from the date of the grant. The fair value of the options was determined to be \$5,368,121 using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 0.98%, (2) expected terms between 2.5 and 3.25 years (3) expected volatilities between 165.66% and 198.46% and (4) zero expected dividends. The fair value is being expensed over the vesting period of the options. During the year ended June 30, 2011, \$1,913,230 was expensed. The remaining \$3,454,891 will be expensed over the remaining vesting period.

During the year ended June 30, 2010, there were no options granted or outstanding and as of the date covered by this report, no options have been exercised.

Corporate Development Services Agreement

On September 27, 2010, the Company entered into a Corporate Development Services Agreement with CRG Finance AG. The Company has agreed to pay to CRG the following amounts for the Advisory Services: (i) an inception fee of \$100,000; and (ii) a monthly services fee of \$25,000 commencing September 1, 2010. CRG shall be paid \$10,000 per month of the Advisory Services Fee, with the balance of \$15,000 per month together with the Inception Payment accruing until completion of the first Company financing following the date of the Services Agreement when such accruals shall be fully due and payable. During May and June 2011, the inception fee and the accrued monthly service fees through June 2011 were paid in full. In July 2011, Ardent Mines and CRG entered into a suspension agreement whereby the investment banking services were terminated.

NOTE 8 - INCOME TAXES

The Company is subject to United States federal and state income taxes at an approximate rate of 35%.

The significant components of deferred income tax assets at June 30, 2011 are as follows:

	June 30, 2011	June 30, 2010
Net operating loss carry forward	\$ 820,000	\$ 190,000
Valuation allowance	(820,000)	(190,000)
Net deferred income tax asset	\$ -	\$ -

The Company has recognized a valuation allowance for the deferred income tax asset since the Company cannot be assured that it is more likely than not that such benefit will be utilized in future years. The valuation allowance is reviewed annually. When circumstances change and which cause a change in management's judgment about the realizability of deferred income tax assets, the impact of the change on the valuation allowance is generally reflected in current income.

The cumulative net operating loss carry-forward is approximately \$2,300,000 at June 30, 2011, and will expire in the years 2021 to 2030.

Item 13. Other Expenses of Issuance and Distribution

The following table sets forth the estimated costs and expenses to be incurred in connection with the issuance and distribution of the securities registered under this registration statement. All amounts are estimates except the Commission registration fee. The following estimated expenses will be borne solely by us.

Commission registration fee	\$	_____	*
Legal fees and expenses	\$	_____	*
Accounting fees and expenses	\$	_____	*
Miscellaneous expenses	\$	_____	*
Total	\$	_____	*

* To be disclosed by amendment.

We have agreed to bear expenses related to the registration of the shares of common stock covered by this registration statement.

Item 14. Indemnification of Directors and Officers

Our bylaws provide that we shall indemnify any and all of our present or former directors and officers for expenses incurred in connection with the defense of any action relating to their services. Costs, charges and expenses (including attorneys' fees) incurred by such person in defending a civil or criminal proceeding shall be paid by the Company in advance upon receipt of an undertaking to repay all amounts advanced if it is ultimately determined that the person is not entitled to be indemnified by the Company as authorized by the bylaws, and upon satisfaction of other conditions required by current or future legislation. To the extent that a director has been successful in defense of any proceeding, the Nevada Revised Statutes provide that he shall be indemnified against reasonable expenses incurred in connection therewith. These provisions may limit the ability of our stockholders to recover damages against our directors through legal proceeding or otherwise.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and is, therefore, unenforceable.

Item 15. Recent Sales of Unregistered Securities; Use of Proceeds from Registered Securities

Issuances of Shares

During our most recent fiscal year, we have executed five subscription agreements to sell a total of 556,000 shares of the Company's Common Stock (the "Shares") at a purchase price of \$3.85 per share. We have raised a total of \$2,140,600 from the sale of an aggregate of 556,000 shares between April 26, 2011 and June 14, 2011. All of the aforementioned stock issuance transactions were subscribed by non-U.S. persons and were undertaken by the Company in reliance upon the exemption from securities registration under Regulation S of the U.S. Securities Act of 1933, as amended.

In connection with the sales of the Shares, we have also compensated Mobax Securities Limited for its services to the Company in connection with facilitating financing for the Company. We have made grants of Common Stock Purchase Warrants to Mobax Securities Limited to purchase 51,600 shares of the Company's common stock, at an exercise price of \$3.85 per share. Mobax Warrants to purchase 41,600 shares are exercisable until May 30, 2012; Mobax Warrants to purchase 10,000 shares are exercisable until July 13, 2012.

We entered into an Introduction Agreement (the "Introduction Agreement") dated as of December 15, 2010 regarding the identification of potential acquisitions of mining companies and/or mining rights with SV Commercial S.A. (the "Agent"). The Introduction Agreement contemplated that the Agent would notify the Company of potential acquisitions that it believes are suitable for the Company. Pursuant to the Introduction Agreement, the Company agreed to compensate the Agent through the issuance of 500,000 shares of the Company's common stock in the event that certain acquisitions were made by the Company. On May 4, 2011, we completed the acquisition of Gold Hills Mining Ltda., and we have subsequently issued 500,000 shares of the Company's common stock to the Agent. The stock issuance to the Agent was undertaken by the Company in reliance upon the exemption from securities registration under Regulation S of the U.S. Securities Act of 1933, as amended.

On September 7, 2011 (the "Closing Date"), pursuant to a securities purchase agreement, dated September 1, 2011, we completed the closing of an offering of our securities (the "Offering") for a total subscription proceeds of \$1,000,003.50 through the issuance of 259,741 shares of the Company's Common Stock at a purchase price of \$3.85 per share (the "Shares") to certain accredited investors (the "Investors"). In connection with the issuance of the Shares, the Investors received common stock purchase warrants to purchase up to 259,741 additional shares of our common stock (the "Warrants"). The initial exercise price of the Warrants is \$4.15 per share, subject to adjustment therein, with a term of exercise equal to 5 years.

For a period of 6 months after the Closing Date, the purchase price per Share and the exercise price of the Warrants are subject to adjustment pursuant to certain events, including a subsequent financing by the Company on terms more favorable to the Investors than the terms in the Securities Purchase Agreement. Additionally, the number of shares of common stock to be received upon the exercise of the Warrants (the "Warrant Shares") and the exercise price of the Warrants are subject to adjustment for reverse and forward stock splits, stock dividends, stock combinations and other similar transactions of the common stock that occur after the Closing Date.

In connection with the Offering, we granted the Investors registration rights pursuant to a registration rights agreement, dated September 1, 2011 (the "Registration Rights Agreement"). We are required to file a registration statement in order to register the Shares and the Warrant Shares. Pursuant to the terms of the Registration Rights Agreement, we are required to file a registration statement within 30 days following the date of the Securities Purchase Agreement and will cause the registration statement to be declared effective within 90 days of the date of the Securities Purchase Agreement (120 days in the event the SEC reviews the registration statement).

Net proceeds from the private placement will be used primarily to support the Company's current exploration and development plans in Brazil together with the Company's ongoing general corporate and working capital requirements.

On June 15, 2011, we entered into an engagement agreement (the "Engagement Agreement") with Rodman & Renshaw, LLC to act as our exclusive placement agent (the "Placement Agent") in connection with the Offering. Pursuant to the terms of the Engagement Agreement, we have compensated the Placement Agent for its services with (i) a cash compensation equal to 7% of the gross proceeds received by the Company and (ii) common stock purchase warrants to purchase a total of 18,182 shares of the Company's common stock, with an exercise price of \$4.15 per share. We have also agreed to compensate the Placement Agent for all of its reasonable expenses in connection with the Offering.

The Shares and Warrants issued to the Investors and the warrants issued to the Placement Agent and its affiliates were issued in reliance on exemptions from registration under Section 4(2) of the Securities Act of 1933, as amended (the “Act”), and Rule 506 of Regulation D promulgated under the Act. These transactions qualified for exemption from registration because among other things, the transactions did not involve a public offering, each Investor was an accredited investor and/or qualified institutional buyer, each Investor had access to information about the Company and their investment, each Investor took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.

Item 17. Undertakings

The undersigned Company hereby undertakes to:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement, and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes:

That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration

statement or made in any such document immediately prior to such date of first use.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Boca Raton, in the State of Florida, on September 28, 2011.
