PRELIMINARY PROSPECTUS

SUBJECT TO COMPLETION, DATED DECEMBER 19, 2011

2,814,935 Common Shares

AIVTECH INTERNATIONAL GROUP CO.

This prospectus relates to the resale by the selling stockholders named in this prospectus of up to 2,814,935 shares (the “Shares”) of our common stock, par value \$0.001 per share, including (i) 2,513,334 shares of our common stock issued in the private placement, (ii) 251,334 shares of common stock issuable upon exercise of the investor warrants, at an exercise price of \$4.00 per share (the “Investor Warrants”), and (iii) 50,267 shares of our common stock issuable upon exercise of the placement agent warrants (the “Placement Agent Warrants,” and collectively, the “Warrants”). The Shares were issued to the selling stockholders in a private placement transaction which was exempt from the registration and prospectus delivery requirements of the Securities Act of 1933, as amended.

We completed a \$7,540,000 private placement of our securities to accredited investors at \$3.00 per unit, with each unit consisting of (i) one share of our common stock, \$0.001 par value per share, and (ii) one warrant to purchase one-tenth share of our common stock at an exercise price of \$4.00 per share. The placement agent received compensation of: (i) a cash fee equal to two percent (2%) of the gross proceeds received by us in connection with the Private Placement, (ii) five-year warrants to purchase shares of our common stock equal to two percent (2%) of the shares of common stock issued in the Private Placement (the “Placement Agent Warrants”), and (iii) reasonable expenses relating to the Private Placement. Our net proceeds, after payment of the placement agent fees and expenses, were approximately \$7.4 million.

The selling stockholders may offer all or part of their Shares for resale from time to time through public or private transactions, at either prevailing market prices or at privately negotiated prices. The common stock trades on the Over-the-Counter Bulletin Board under the symbol “AIVI”. The stock has very limited trading activity; however, the last trade occurred on December 2, 2011 where 100 shares were sold at \$0.38 per share. We will not receive any of the proceeds from the Shares by the selling stockholders, but we will receive funds from the exercise of the Warrants if and when those Warrants are exercised on a cash exercise basis. We are paying all of the registration expenses incurred in connection with the registration of the Shares, but we will not pay any of the selling commissions, brokerage fees and related expenses. No liquid public market currently exists for our Common Stock and there can be no assurance that an active trading market will develop, or if an active market does develop, that it will continue.

Investing in our common stock involves a high degree of risk. See “Risk Factors” beginning on page 3 to read about factors you should consider before investing in shares of our common stock.

Business Overview

AIVtech International Group Co. (“we,” “us,” “our,” “AIVtech,” or the “Company”) was incorporated pursuant to the laws of Nevada on December 18, 2007 under the name of Ecochild Inc. On May 12, 2010, pursuant to a share exchange agreement (the “Exchange Agreement”), we completed the acquisition of AIVtech Holding (Hong Kong) Limited (“AIVtech-HK”).

AIVtech-HK is a holding company incorporated under the laws of Hong Kong on November 4, 2005 with subsidiaries engaged in manufacturing casual furniture audio series, multimedia speakers, and LED. Shenzhen AIV Electronics Company Limited (“AIVtech-Shenzhen”) was incorporated on October 26, 2004 under the laws of the People’s Republic of China, which we refer to as China or the PRC. Dongguan AIV Electronics Company Limited (“AIVtech-Dongguan”) was incorporated on December 25, 2009 under the laws of the PRC. AIVtech, through AIVtech-Shenzhen and AIVtech-Dongguan, engages in the business of designing, manufacturing and selling electronic furniture, digital/multimedia speakers, and LCD/LED television under its own products brand – AIV, which stands for Audio and Interactive Video. Besides its own AIV brand, AIVtech also specializes in both Original Equipment Manufacturing (“OEM”) and Original Design Manufacturing (“ODM”) services. We integrate two traditional industries, which are electronics industry and furniture industry, into a new industry – electronic furniture industry.

We generate revenues mainly from the sales of electronic furniture and digital/multimedia speakers. The production of LCD/LED television started in late April 2010. Our net sales revenues for the year ended December 31, 2010 was approximately \$68.3 million, representing a 77.6% growth from the year ended December 31, 2009 with net sales revenues of approximately \$38.5 million. Our net income for the year ended December 31, 2010 was approximately \$11.3 million, an increase of 52%, comparing to our net income of approximately \$7.5 million for the year ended December 31, 2009.

On December 29, 2010, we entered into a subscription agreement with certain accredited investors for the issuance and sale in a private placement of investment units, each unit consisting of one share of the Company’s common stock, \$.001 par value per share and a warrant to purchase one-tenth of a share of common stock, for aggregate gross proceeds of \$7,540,000. The purchase price per unit was \$3.00. In the aggregate, we issued to the investors a total of 2,513,334 shares of common stock and five-year Investor Warrants to purchase up to an additional 251,334 shares of common stock at an exercise price of \$4.00. We also paid to the placement agent a fee of \$150,800 and issued to the Placement Agent a five-year Placement Agent Warrant to purchase a total of 50,267 shares of common stock at an exercise price of \$4.00 per share.

On March 30, 2011, our subsidiary AIVtech-Shenzhen incorporated Henan AIVtech Technology Company, Ltd., or AIVtech-Henan, as a limited liability company in China, with a registered capital of RMB 50 million, or approximately \$7.6 million. As of March 31, 2011, a total capital contribution of RMB 10 million, or approximately \$1.5 million, was contributed to AIVtech-Henan, of which RMB 6 million was contributed by AIVtech-Shenzhen and RMB 4 million was contributed by Mr. Jinlin Guo, our chief executive officer and chairman of the board of directors. As of September 30, 2010, we paid RMB 30 million to local government as land use right deposit. AIVtech-Henan currently has no operations but will start to construct a manufacturing plant in Henan province once local government approves the land use right, which is expected by the end of December 2011.

On May 10, 2011, we entered into an agreement with the former shareholders of our wholly-owned subsidiary AIVtech-HK, pursuant to which extends the due date of an aggregate cash payment of \$3,948,125 from May 12, 2011 to May 12, 2012. The amount was owed to these former shareholders in the form of a promissory note dated May 12, 2010.

Effective May 16, 2011, our ticker symbol as quoted on the OTC Bulletin Board was changed from “ECOH” to “AIVI.”

Risk Factors

Our ability to successfully operate our business and achieve our goals and strategies is subject to numerous risks as discussed more fully in the section titled “Risk Factors,” beginning on page 3, including for example:

- The effects of the recent global economic slowdown may continue to have a negative impact on our business, results of operations or financial condition;
- Our results of operations are cyclical and could be adversely affected by fluctuations in the raw material;

- Our management has limited experience in managing and operating a public company. Any failure to comply or adequately comply with federal securities laws, rules or regulations could subject us to fines or regulatory actions, which may materially adversely affect our business, results of operations and financial condition;
- Our business could be materially adversely affected if we are unable to respond to rapid technological change and improve our products and services;
 - Exchange rate volatility could adversely affect our financial condition;
- If we need additional capital to fund our growing operations, we may not be able to obtain sufficient capital and may be forced to limit the scope of our operations;
- Our ability to compete could be jeopardized if we are unable to protect our intellectual property rights or if we are sued for intellectual property infringement; and
- Our failure to comply with increasingly stringent environmental regulations and related litigation could result in significant penalties, damages and adverse publicity for our business.

Any of the above risks could materially and adversely affect our business, financial position and results of operations. An investment in our securities involves risks. You should read and consider the information set forth in “Risk Factors” and all other information set forth in this prospectus before investing in our securities.

However, we will receive funds from the exercise of the Warrants if and when those Warrants are exercised on a cash basis. The proceeds from the cash exercise of such Warrants, if any, will be used by us for working capital and other general corporate purposes.

Risk Factors

The common stock offered hereby involves a high degree of risk and should not be purchased by investors who cannot afford the loss of their entire investment. See "Risk Factors" below.

RISK FACTORS

You should carefully consider the risks described below together with all of the other information included in this report before making an investment decision with regard to our securities. The statements contained in or incorporated herein that are not historic facts are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. If any of the following risks actually occurs, our business, financial condition or results of operations could be harmed. In that case, you may lose all or part of your investment.

Risks Relating to Our Business

The effects of the recent global economic slowdown may continue to have a negative impact on our business, results of operations or financial condition.

The recent global economic slowdown has caused disruptions and extreme volatility in global financial markets, increased rates of default and bankruptcy, and declining consumer and business confidence, which has led to decreased levels of consumer spending. These macroeconomic developments have and could continue to negatively impact our business, which depends on the general economic environment and levels of consumer spending in the PRC and other parts of the world that affect not only the ultimate consumer, but also retailers, who are our primary direct customers. As a result, we may not be able to maintain or increase our sales to existing customers, make sales to new customers, or maintain or improve our earnings from operations as a percentage of net sales. If the global economic slowdown continues for a significant period or continues to worsen, our results of operations, financial condition, and cash flows could be materially adversely affected.

Our results of operations are cyclical and could be adversely affected by fluctuations in the raw material.

We are largely dependent on the cost and supply of raw materials such as electronic accessories and the selling price of our products, which are determined by constantly changing and volatile market forces of supply and demand as well as other factors over which we have little or no control. These other factors include:

- competing demand for the raw materials,
- environmental and conservation regulations, and
- economic conditions,

We cannot assure you that all or part of any increased costs experienced by us from time to time can be passed along to consumers of our products, in a timely manner or at all.

Substantially all of our business, assets and operations are located in the PRC.

Substantially all of our business, assets and operations are located in PRC. The economy of PRC differs from the economies of most developed countries in many respects. The economy of PRC has been transitioning from a planned economy to a market-oriented economy. Although in recent years the PRC government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance in business enterprises, a substantial portion of productive assets in PRC is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry by imposing industrial policies. It also exercises significant control over PRC's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting

monetary policy and providing preferential treatment to particular industries or companies. Some of these measures benefit the overall economy of PRC, but may have a negative effect on us.

Our management has limited experience in managing and operating a public company. Any failure to comply or adequately comply with federal securities laws, rules or regulations could subject us to fines or regulatory actions, which may materially adversely affect our business, results of operations and financial condition.

Our current management has limited experience managing and operating a public company and relies in many instances on the professional experience and advice of third parties including its attorneys and accountants. Failure to comply or adequately comply with any laws, rules, or regulations applicable to our business may result in fines or regulatory actions, which may materially adversely affect our business, results of operation, or financial condition and could result in delays in achieving the development of an active and liquid trading market for our stock.

Additionally, we rely upon an outside consultant to prepare our financial statements in accordance with US GAAP. We currently do not have any internal financial staff that is familiar with US GAAP and neither does our financial expert on the audit committee has any US GAAP experience. Our management believes that our current internal controls and procedures contain material weakness such as: insufficient monitoring controls to determine the adequacy of our internal control over financial reporting and related policies and procedures; lack of competent financial management personnel with appropriate accounting knowledge and training; insufficient controls over our period-end financial close and reporting processes; and ineffective controls over the accounting for acquisitions. There is no assurance that we will be able to improve our internal staff so that the staff will become familiar with US GAAP and we will be able to establish effective internal controls. Our inability to cure the above material weakness could have a material negative impact to our internal control and our ability to file our report with the Securities and Exchange Commission on a timely basis.

Our business and the success of our products could be harmed if we are unable to maintain our brand image.

Our success to date has been due in large part to the strength of the AIV brand, and to a lesser degree, the reputation of our brand. If we are unable to timely and appropriately respond to changing consumer demand, our brand name and brand image may be impaired. Even if we react appropriately to changes in consumer preferences, consumers may consider our brand image to be outdated and affect our business.

We need to manage growth in operations to maximize our potential growth and achieve our expected revenues and our failure to manage growth will cause a disruption of our operations resulting in the failure to generate revenue at levels we expect.

In order to maximize potential growth in our current and potential markets, we believe that we must expand our producing operations. This expansion will place a significant strain on our management and our operational, accounting, and information systems. We expect that we will need to continue to improve our financial controls, operating procedures, and management information systems. We will also need to effectively train, motivate, and manage our employees. Our failure to manage our growth could disrupt our operations and ultimately prevent us from generating the revenues we expect.

We cannot assure you that our growth strategy will be successful which may result in a negative impact on our growth, financial condition, results of operations and cash flow.

One of our strategies is to establish our own flagship stores in main cities. However, many obstacles to entering such new markets exist including, but not limited to, established companies in such existing markets in the PRC. We cannot, therefore, assure you that we will be able to successfully overcome such obstacles and establish our products in any additional markets. Our inability to implement this organic growth strategy successfully may have a negative impact on our growth, future financial condition, results of operations or cash flows.

If we need additional capital to fund our growing operations, we may not be able to obtain sufficient capital and may be forced to limit the scope of our operations.

If adequate additional financing is not available on reasonable terms, we may not be able to expand our production lines and we would have to modify our business plans accordingly. There is no assurance that additional financing will be available to us.

In connection with our growth strategies, we may experience increased capital needs and accordingly, we may not have sufficient capital to fund our future operations without additional capital investments. Our capital needs will depend on numerous factors, including (i) our profitability; (ii) the release of competitive products by our competition; (iii) the level of our investment in research and development; and (iv) the amount of our capital expenditures, including acquisitions. We cannot assure you that we will be able to obtain capital in the future to meet our needs.

In recent years, the securities markets in the United States have experienced a high level of price and volume volatility, and the market price of securities of many companies have experienced wide fluctuations that have not necessarily been related to the operations, performances, underlying asset values or prospects of such companies. For these reasons, our securities can also be expected to be subject to volatility resulting from purely market forces over which we will have no control. If we need additional funding we will, most likely, seek such funding in the United States (although we may be able to obtain funding in the PRC) and the market fluctuations affect on our stock price could limit our ability to obtain equity financing.

If we cannot obtain additional funding, we may be required to: (i) limit our expansion; (ii) limit our marketing efforts; and (iii) decrease or eliminate capital expenditures. Such reductions could materially adversely affect our business and our ability to compete.

Even if we do find a source of additional capital, we may not be able to negotiate terms and conditions for receiving the additional capital that are favorable to us. Any future capital investments could dilute or otherwise materially and adversely affect the holdings or rights of our existing shareholders. In addition, new equity or convertible debt securities issued by us to obtain financing could have rights, preferences and privileges senior to the units. We cannot give you any assurance that any additional financing will be available to us, or if available, will be on terms favorable to us.

Need for additional employees.

Our future success also depends upon our continuing ability to attract and retain highly qualified personnel. Expansion of our business and the management and operation will require additional managers and employees with industry experience, and our success will be highly dependent on our ability to attract and retain skilled management personnel and other employees. There can be no assurance that we will be able to attract or retain highly qualified personnel. Competition for skilled personnel in our industries is significant. This competition may make it more difficult and expensive to attract, hire and retain qualified managers and employees.

Our ability to compete could be jeopardized if we are unable to protect our intellectual property rights or if we are sued for intellectual property infringement.

We believe that our product brand and trademark, AIV, and other proprietary rights are important to our success and our competitive position. We use trademarks on some of our products and believe that having distinctive marks that are readily identifiable is an important factor in creating a market for our goods, in identifying us and in distinguishing our goods from the goods of others. We consider our trademarks to be among our most valuable assets. We believe that our trademarks are generally sufficient to permit us to carry on our business as presently conducted. While we vigorously protect our trademarks against infringement, we cannot assure you that we will be able to secure patents or trademark protection for our intellectual property in the future or that protection will be adequate for future products.

In addition, the laws of foreign countries where we source and distribute our products may not protect intellectual property rights to the same extent as do the laws of the PRC. We cannot assure you that the actions we have taken to establish and protect our trademarks and other intellectual property rights outside the PRC will be adequate to prevent imitation of our products by others or, if necessary, successfully challenge another party's counterfeit products or products that otherwise infringe on our intellectual property rights on the basis of trademark infringement. Continued sales of these products could adversely affect our sales and our brand and result in the shift of consumer preference away from our products. We may face significant expenses and liability in connection with the protection of our intellectual property rights outside the PRC, and if we are unable to successfully protect our rights or resolve intellectual property conflicts with others, our business or financial condition could be adversely affected.

Our failure to comply with increasingly stringent environmental regulations and related litigation could result in significant penalties, damages and adverse publicity for our business.

In recent years, the government of China has become increasingly concerned with the degradation of China's environment that has accompanied the country's rapid economic growth. In the future, we expect that our operations and properties will be subject to extensive and increasingly stringent laws and regulations pertaining to, among other things, the discharge of materials into the environment and the handling and disposition of wastes (including solid and hazardous wastes) or otherwise relating to protection of the environment. Failure to comply with any laws and regulations and future changes to them may result in significant consequences to us, including civil and criminal penalties, liability for damages and negative publicity. We cannot assure you that additional environmental issues will not require currently unanticipated investigations, assessments or expenditures, or that requirements applicable to us will not be altered in ways that will require us to incur significant additional costs.

We will incur significant costs to ensure compliance with United States corporate governance and accounting requirements.

We anticipate there will be additional costs associated with being a public company. Among other costs, we expect to incur approximately \$171,600 in consultation/implementation costs to improve our overall internal control process in

order to meet the requirements under the Sarbanes-Oxley Act of 2002 for a public company. We also estimate to incur approximately \$206,000 in other legal and professional costs annually related to our periodic regulatory filings.

We may not be able to meet the internal control reporting requirements imposed by the SEC resulting in a possible decline in the price of our common stock and our inability to obtain future financing.

As directed by Section 404 of the Sarbanes-Oxley Act, the SEC adopted rules requiring each public company to include a report of management on the company's internal controls over financial reporting in its annual reports. Although the Dodd-Frank Wall Street Reform and Consumer Protection Act exempts companies with a public float of less than \$75 million from the requirement that our independent registered public accounting firm attest to our financial controls, this exemption does not affect the requirement that we include a report of management on our internal control over financial reporting and does not affect the requirement to include the independent registered public accounting firm's attestation if our public float exceeds \$75 million.

While we expect to expend significant resources in developing the necessary documentation and testing procedures required by Section 404 of the Sarbanes-Oxley Act, there is a risk that we may not be able to comply timely with all of the requirements imposed by this rule. Regardless of whether we are required to receive a positive attestation from our independent registered public accounting firm with respect to our internal controls, if we are unable to do so, investors and others may lose confidence in the reliability of our financial statements and our stock price and ability to obtain equity or debt financing as needed could suffer.

In addition, in the event that our independent registered public accounting firm is unable to rely on our internal controls in connection with its audit of our financial statements, and in the further event that it is unable to devise alternative procedures in order to satisfy itself as to the material accuracy of our financial statements and related disclosures, it is possible that we would be unable to file our Annual Report on Form 10-K with the SEC, which could also adversely affect the market for and the market price of our common stock and our ability to secure additional financing as needed.

The loss of the services of our key employees, particularly the services rendered by Jinlin Guo, our CEO and Chairman and Yilin Shi, our CFO and director, could harm our business.

Our success depends to a significant degree on the services rendered to us by our key employees. If we fail to attract, train and retain sufficient numbers of these qualified people, our prospects, business, financial condition and results of operations will be materially and adversely affected. In particular, we are heavily dependent on the continued services of Jinlin Guo, our CEO and Chairman and Yilin Shi, our CFO and director. The loss of any key employees, including members of our senior management team, and our inability to attract highly skilled personnel with sufficient experience in our industry could harm our business.

Risks Relating to Our Industry

The lack of core technologies is constraining the development of the PRC digital appliances industry which would adversely affect the competitiveness of our products in the market.

The manufacture of a significant number of digital products in the PRC still relies on core technologies held by other countries through patent licenses or other categories of contractual arrangements. The lack of independent core technologies will impose extra license fees and other costs and expenses for the PRC manufacturers, and therefore will adversely affect the competitiveness, profitability and the upgrade of the whole digital appliance industry in the PRC. If the PRC manufacturers fail to invest significantly on the research and development, their market share of digital products in the PRC might be reduced and our sales and business operations will be adversely affected as well.

If we are unable to respond to rapid technological change and improve our products and services, our business could be materially adversely affected.

The household digital appliance industry is characterized by technological advances, changes in customer requirements, frequent new product introductions and enhancements and evolving industry standards in computer hardware and software technology. As a result, we must continually change and improve our products in response to changes in operating systems, application software, sound control systems and programming tools. The introduction of products embodying new technologies and the emergence of new industry standards may render existing products obsolete or unmarketable. Our future operating results will depend upon our ability to enhance our current product and to develop and introduce new products on a timely basis that address the increasingly sophisticated needs of our customers and that keep pace with technological developments, new competitive product offerings and emerging industry standards. If we do not respond adequately to the need to develop and introduce new products or enhancements of our existing product in a timely manner in response to changing market conditions or customer

requirements, our operating results may be materially diminished.

If the household digital appliances market in the PRC does not grow as we expect, our results of operations and financial condition will be adversely affected.

We believe household digital appliances have strong growth potential in the PRC and, accordingly, we have continuously increased our production and sales of such digital products. However, the market for household digital appliances in the PRC has grown in recent years due to the increased wealth of the average resident of China, which has been the result of double-digit annual growth in the Chinese economy. Due to the worldwide recession, the growth of the Chinese economy has slowed. If the digital appliances market in the PRC does not grow as we expect, our business will be harmed, we will need to adjust our growth strategy, and our results of operation will be adversely affected.

We require various licenses and permits to operate our business, and the loss of or failure to renew any or all of these licenses and permits could require us to suspend some or all of our production or distribution operations.

In accordance with PRC laws and regulations, we are required to maintain various licenses and permits in order to operate our business. Such licenses and permits include the business license, organization code certificate, approval certificate for establishment of enterprises with investment of Taiwan, Hong Kong, Macao and overseas Chinese in the People's Republic of China, various product certificates and various tax registration certificates. We are in compliance with applicable PRC standards in relation to our production processes. None of the above licenses or permit has ever been revoked or declared ineffective by any regulatory authority. However, we are subject to regular inspections by the regulatory authorities for compliance with applicable regulations. We passed all the inspections so far, such as environmental protection, security and fire safety check, and we did not receive any negative feedback from the government agencies. However, there is no assurance that we will be able to pass the inspections in the future. Failure to pass these inspections, or the loss of or failure to renew our licenses and permits, could require us to temporarily or permanently suspend some or all of our production or distribution operations, which could disrupt our operations and adversely affect our revenues and profitability.

Risks Relating to the People's Republic of China

Certain political and economic considerations relating to the PRC could adversely affect our company.

The PRC is transitioning from a planned economy to a market economy. While the PRC government has pursued economic reforms since its adoption of the open-door policy in 1978, a large portion of the PRC economy is still operating under five-year plans and annual state plans. Through these plans and other economic measures, such as control on foreign exchange, taxation and restrictions on foreign participation in the domestic market of various industries, the PRC government exerts considerable direct and indirect influence on the economy. Many of the economic reforms carried out by the PRC government are unprecedented or experimental, and are expected to be refined and improved. Other political, economic and social factors can also lead to further readjustment of such reforms. This refining and readjustment process may not necessarily have a positive effect on our operations or future business development. Our operating results may be adversely affected by changes in the PRC's economic and social conditions as well as by changes in the policies of the PRC government, such as changes in laws and regulations (or the official interpretation thereof), measures which may be introduced to control inflation, changes in the interest rate or method of taxation, and the imposition of restrictions on currency conversion in addition to those described below.

The recent nature and uncertain application of many PRC laws applicable to us create an uncertain environment for business operations and they could have a negative effect on us.

The PRC legal system is a civil law system. Unlike the common law system, the civil law system is based on written statutes in which decided legal cases have little value as precedents. In 1979, the PRC began to promulgate a comprehensive system of laws and has since introduced many laws and regulations to provide general guidance on economic and business practices in the PRC and to regulate foreign investment. Progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. The promulgation of new laws, changes of existing laws and the abrogation of local regulations by national laws could have a negative impact on our business and business prospects.

Currency conversion could adversely affect our financial condition.

The PRC government imposes control over the conversion of Renminbi into foreign currencies. Under the current unified floating exchange rate system, the People's Bank of China publishes an exchange rate, which we refer to as the PBOC exchange rate, based on the previous day's dealings in the inter-bank foreign exchange market. Financial

institutions authorized to deal in foreign currency may enter into foreign exchange transactions at exchange rates within an authorized range above or below the PBOC exchange rate according to market conditions.

Pursuant to the Foreign Exchange Control Regulations of the PRC issued by the State Council which came into effect on April 1, 1996, and the Regulations on the Administration of Foreign Exchange Settlement, Sale and Payment of the PRC which came into effect on July 1, 1996, regarding foreign exchange control, conversion of Renminbi into foreign exchange by Foreign Investment Enterprises, or FIEs, for use on current account items, including the distribution of dividends and profits to foreign investors, is permissible. FIEs are permitted to convert their after-tax dividends and profits to foreign exchange and remit such foreign exchange to their foreign exchange bank accounts in the PRC. Conversion of Renminbi into foreign currencies for capital account items, including direct investment, loans, and security investment, is still under certain restrictions. On January 14, 1997, the State Council amended the Foreign Exchange Control Regulations and added, among other things, an important provision, which provides that the PRC government shall not impose restrictions on recurring international payments and transfers under current account items.

Enterprises in the PRC (including FIEs) which require foreign exchange for transactions relating to current account items, may, without approval of the State Administration of Foreign Exchange, or SAFE, effect payment from their foreign exchange account or convert and pay at the designated foreign exchange banks by providing valid receipts and proofs.

Convertibility of foreign exchange in respect of capital account items, such as direct investment and capital contribution, is still subject to certain restrictions, and prior approval from the SAFE or its relevant branches must be sought.

Furthermore, the Renminbi is not freely convertible into foreign currencies nor can it be freely remitted abroad. Under the PRC's Foreign Exchange Control Regulations and the Administration of Settlement, Sales and Payment of Foreign Exchange Regulations, Foreign Invested Enterprises are permitted either to repatriate or distribute its profits or dividends in foreign currencies out of its foreign exchange accounts, or exchange Renminbi for foreign currencies through banks authorized to conduct foreign exchange business. The conversion of Renminbi into foreign exchange by Foreign Invested Enterprises for recurring items, including the distribution of dividends to foreign investors, is permissible. The conversion of Renminbi into foreign currencies for capital items, such as direct investment, loans and security investment, is subject, however, to more stringent controls.

Exchange rate volatility could adversely affect our financial condition.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions as well as economic policies of the PRC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the new policy, the RMB has been permitted to fluctuate within a narrow and managed band against a basket of foreign currencies. This change in policy has resulted in an approximately 16.4% appreciation of the RMB against the U.S. dollar between July 21, 2005 and July 15, 2010, and as of November 23, 2010, the exchange rate was RMB 6.63 to \$1.00. There remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of the RMB against the U.S. dollar. In June 2010, the PRC government indicated that it would make the foreign exchange rate of the RMB more flexible, which increases the possibility of sharp fluctuations in RMB value in the near future and thus unpredictability associated with RMB exchange rates.

Substantially all of our revenues and costs are denominated in the RMB, and a significant portion of our financial assets is also denominated in the RMB. Further, we rely principally on dividends and other distributions paid by our operating subsidiaries in China. Any significant revaluation of the RMB could materially and adversely affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable with respect to, our shares in U.S. dollars. Any fluctuations of the exchange rate between the RMB and the U.S. dollar could also result in foreign currency translation losses for financial reporting purposes.

Since our assets are located in the PRC, any dividends of proceeds from liquidation are subject to the approval of the relevant Chinese government agencies.

Our operating assets are located inside the PRC. Under the laws governing Foreign Invested Enterprises in the PRC, dividend distribution and liquidation are allowed but subject to special procedures under the relevant laws and rules. The principal laws, rules and regulations governing dividends paid by our PRC subsidiaries include the Company Law of the PRC (1993), as amended in 2006, the Wholly Foreign Owned Enterprise Law (1986), as amended in 2000, and the Wholly Foreign Owned Enterprise Law Implementing Rules (1990), as amended in 2001. Pursuant to these laws and rules, each of our PRC subsidiaries is required to allocate at least 10% of its after-tax profit each year to its statutory capital reserve fund until the accumulative amount of such reserve reaches 50% of its respective registered capital. Furthermore, each of our PRC subsidiaries may allocate its after-tax profits, the portion of which shall be determined by such subsidiary's shareholders meeting, to its discretionary funds. Neither statutory nor discretionary reserves are distributable as cash dividends. Since any dividend payment will be subject to the decision of the board of directors and subject to the abovementioned foreign exchange rules governing such repatriation, there will be additional risk for our investors in case of dividend payment and liquidation.

It may be difficult to affect service of process and enforcement of legal judgments upon our company and our officers and directors because they reside outside the United States.

As our operations are presently based in the PRC and our director and officer resides in the PRC, service of process on our company and such director and officer may be difficult to effect within the United States. Also, our main assets are located in the PRC and any judgment obtained in the United States against us may not be enforceable outside the United States.

Under the PRC laws on the distribution of dividends by our PRC Operating Companies, we may not be able to pay dividends to our stockholders.

The Wholly-Foreign Owned Enterprise Law (1986), as amended and The Wholly-Foreign Owned Enterprise Law Implementing Rules (1990), as amended and the Company Law of the PRC (2006) contain the principal regulations governing dividend distributions by wholly foreign owned enterprises. Under these regulations, wholly foreign owned enterprises may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. Additionally, such companies are required to allocate at least 10% of its after-tax profit each year to its statutory capital reserve fund until the accumulative amount of such reserve reaches 50% of its respective registered capital. Furthermore, each of the wholly foreign owned enterprises may allocate its after-tax profits, the portion of which shall be determined by such enterprise's shareholders meeting, to its discretionary funds. Neither statutory nor discretionary reserves are distributable as cash dividends. The PRC government also imposes controls on the conversion of RMB into foreign currencies and the remittance of currencies out of the PRC. We may experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from the Company's profits.

AIVtech-Shenzhen is a wholly-owned subsidiary of AIVtech-HK and a wholly foreign owned enterprise in the PRC. Its permitted business purpose includes technology developments, import and export of digital/multimedia speakers, internet devices and electronic products.

Furthermore, if our subsidiaries in China incur debt on their own in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments. If we or our subsidiaries are unable to receive all of the revenues from our operations, we may be unable to pay dividends on our common stock.

PRC regulation of direct investment by offshore holding companies to PRC entities may delay or prevent us from using the proceeds from the financing to make additional capital contributions to our PRC subsidiaries.

On August 29, 2008, State Administration of Foreign Exchange, or SAFE, promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign Invested Enterprises, or SAFE Circular 142, regulating the conversion by a foreign-invested enterprise of foreign currency registered capital into Renminbi by restricting how the converted Renminbi may be used. SAFE Circular 142 provides that the Renminbi capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC, unless it is provided for otherwise. In addition, SAFE strengthened its oversight of the flow and use of the Renminbi capital converted from foreign currency registered capital of a foreign-invested company. The use of such Renminbi capital may not be altered without SAFE approval, and such Renminbi capital may not in any case be used to repay Renminbi loans if the proceeds of such loans have not been used. If we raise any funds in the United States in the further, we expect that if we convert the net proceeds into Renminbi pursuant to SAFE Circular 142, our use of Renminbi funds will be for purposes within the approved business scope of our PRC subsidiaries. Such business scope permits our PRC subsidiaries to provide technical and operational support to our consolidated entities. However, we may not be able to use such Renminbi funds to make equity investments in the PRC through our PRC subsidiaries.

The Chinese government exerts substantial influence over the manner in which we must conduct our business activities.

We are dependent on our relationship with the local government in the province in which we operate our business. Chinese government has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate in China may be harmed by changes in its laws and regulations, including those relating to taxation, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of these jurisdictions may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations. Accordingly, government actions in the future,

including any decision not to continue to support recent economic reforms and to return to a more centrally planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in China or particular regions thereof, and could require us to divest ourselves of any interest we then hold in Chinese properties.

Future inflation in China may inhibit our ability to conduct business in China. In recent years, the Chinese economy has experienced periods of rapid expansion and high rates of inflation. Rapid economic growth can lead to growth in the money supply and rising inflation. If prices for our products rise at a rate that is insufficient to compensate for the rise in the costs of supplies, it may have an adverse effect on profitability. These factors have led to the adoption by Chinese government, from time to time, of various corrective measures designed to restrict the availability of credit or regulate growth and contain inflation. High inflation may in the future cause Chinese government to impose controls on credit and/or prices, or to take other action, which could inhibit economic activity in China, and thereby harm the market for our products.

Risks Relating to Our Securities

In order to raise sufficient funds to expand our operations, we may have to issue additional securities at prices which may result in substantial dilution to our shareholders.

If we raise additional funds through the sale of equity or convertible debt, our current stockholders' percentage ownership will be reduced. In addition, these transactions may dilute the value of our securities outstanding. We may have to issue securities that may have rights, preferences and privileges senior to our common stock. We cannot provide assurance that we will be able to raise additional funds on terms acceptable to us, if at all. If future financing is not available or is not available on acceptable terms, we may not be able to fund our future needs, which would have a material adverse effect on our business plans, prospects, results of operations and financial condition.

Our securities have not been registered under the Securities Act, and cannot be sold without registration under the Securities Act or any exemption from registration.

Our securities should be considered a long-term, illiquid investment. Our securities have not been registered under the Securities Act, and cannot be sold without registration under the Securities Act or any exemption from registration. In addition, our securities are not registered under any state securities laws that would permit their transfer. Because of these restrictions and the absence of an active trading market for the securities, a shareholder will likely be unable to liquidate an investment even though other personal financial circumstances would dictate such liquidation.

We are not likely to pay cash dividends in the foreseeable future.

We currently intend to retain any future earnings for use in the operation and expansion of our business. Accordingly, we do not expect to pay any cash dividends in the foreseeable future, but will review this policy as circumstances dictate. Should we determine to pay dividends in the future, our ability to do so will depend upon the receipt of dividends or other payments from our PRC operating subsidiary may, from time to time, be subject to restrictions on its ability to make distributions to us, including restrictions on the conversion of RMB into U.S. dollars or other hard currency and other regulatory restrictions.

We may be subject to the penny stock rules which will make our securities more difficult to sell.

If we are able to obtain a listing of our securities on a national securities exchange, we may be subject in the future to the SEC's "penny stock" rules if our securities sell below \$5.00 per share. Penny stocks generally are equity securities with a price of less than \$5.00. The penny stock rules require broker-dealers to deliver a standardized risk disclosure document prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer must also provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson, and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information must be given to the customer orally or in writing prior to completing the

transaction and must be given to the customer in writing before or with the customer's confirmation.

In addition, the penny stock rules require that prior to a transaction, the broker dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. The penny stock rules are burdensome and may reduce purchases of any offerings and reduce the trading activity for our securities. As long as our securities are subject to the penny stock rules, the holders of such securities may find it more difficult to sell their securities.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements. When used in this Prospectus or in any other presentation, statements which are not historical in nature, including the words “anticipate,” “estimate,” “should,” “expect,” “believe,” “intend,” “may,” “project,” “plan” or “continue,” and similar expressions are intended to identify forward-looking statements. They also include statements containing a projection of revenues, earnings or losses, capital expenditures, dividends, capital structure or other financial terms.

The forward-looking statements in this Prospectus are based upon our management’s beliefs, assumptions and expectations of our future operations and economic performance, taking into account the information currently available to them. These statements are not statements of historical fact. Forward-looking statements involve risks and uncertainties, some of which are not currently known to us that may cause our actual results, performance or financial condition to be materially different from the expectations of future results, performance or financial condition we express or imply in any forward-looking statements. These forward-looking statements are based on our current plans and expectations and are subject to a number of uncertainties and risks that could significantly affect current plans and expectations and our future financial condition and results.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this Prospectus might not occur. We qualify any and all of our forward-looking statements entirely by these cautionary factors. As a consequence, current plans, anticipated actions and future financial conditions and results may differ from those expressed in any forward-looking statements made by or on our behalf. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented herein.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of our common stock by the selling shareholders. The selling shareholders will receive all of the net proceeds from the sales of common stock offered by them under this prospectus. To the extent that the selling shareholders exercise, for cash, all of the warrants covering the 301,601 shares of common stock registered for resale under this prospectus, we would receive approximately \$1,206,404 in the aggregate from such exercises. We intend to use such proceeds for working capital, and other general corporate purposes. We will have complete discretion over how we may use the proceeds, if any, from any exercise of the warrants.

DETERMINATION OF OFFERING PRICE

Our common stock is quoted on the OTCBB under the symbol “AIVI.” There is very limited and sporadic trading of our common stock and the last trade was completed on December 2, 2011 where 100 shares were sold at \$0.38 per share. The existence of these limited and sporadic quotations is not deemed to constitute an “established public trading market.”

There are 22,515,334 shares of common stock issued and outstanding as of the date hereof, among which 2,513,334 shares were issued in the private placement. The 2,513,334 shares of common stock are being registered in this prospectus. There are also Investor Warrants to purchase 251,334 shares of common stock and Placement Agent Warrants to purchase 50,267 shares of common stock at an exercise price of \$4.00 per share that were issued in the private placement. The 301,601 shares underlying the Warrants are also being registered in this Registration Statement. There are no other options or warrants to purchase, or securities convertible into, common equity.

The selling stockholders may offer all or part of their Shares for resale from time to time through public or private transactions, at either prevailing market prices or at privately negotiated prices. The price of \$3.00 per unit that the selling stockholders paid for the Shares in the private placement does not reflect market forces, and it should not be regarded as an indicator of any future market price of our securities.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock is thinly traded on the OTCBB under the symbol AIVI. There can be no assurance that a liquid market for our securities will ever develop. Transfer of our common stock may also be restricted under the securities or blue sky laws of various states and foreign jurisdictions. Consequently, investors may not be able to liquidate their investments and should be prepared to hold the common stock for an indefinite period of time.

The following table sets forth, for the periods indicated, the high and low bid prices for our common stock on the OTC Bulletin Board as reported by various OTCBB market makers. The quotations do not reflect adjustments for retail mark-ups, mark-downs, or commissions and may not necessarily reflect actual transactions.

Quarter Ended	High Bid (\$)	Low Bid (\$)
Fourth Quarter ended December 31, 2010	\$ 5.25	\$ 4.00
First Quarter ended March 31, 2011	4.07	2.00
Second Quarter ended June 30, 2011	3.00	0.55
Third Quarter ended September 30, 2011	0.47	0.36
Fourth Quarter until December 15, 2011	0.90	0.22

Holders of Our Common Stock

As of the date of this registration statement, we had approximately 463 shareholders of our common stock.

Dividends

We have paid dividends in the amount of \$4,400,634 for the nine months ended September 30, 2010. We currently do not anticipate paying any cash dividends in the foreseeable future on our common stock, when issued pursuant to this offering. Although we intend to retain our earnings, if any, to finance the exploration and growth of our business, our Board of Directors will have the discretion to declare and pay dividends in the future. Payment of dividends in the future will depend upon our earnings, capital requirements, and other factors, which our Board of Directors may deem relevant.

Transfer Agent and Registrar

Island Stock Transfer Company is currently the transfer agent and registrar for our common stock. Its address is 100 Second Avenue South, Suite 705S, St. Petersburg, FL 33701. Its phone number is (727) 289-0010.

Securities Authorized for Issuance Under Equity Compensation Plans

We presently do not have any equity based or other long-term incentive programs. In the future, we may adopt and establish an equity-based or other long-term incentive plan if it is in the best interest of the Company and our stockholders to do so.

**MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS
AND RESULTS OF OPERATIONS**

Our discussion includes forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those set forth under the Risk Factors, Cautionary Notice Regarding Forward-Looking Statements and Business sections in this Prospectus. We use words such as “anticipate,” “estimate,” “plan,” “project,” “continuing,” “ongoing,” “expect,” “believe,” “intend,” “may,” “will,” “should,” “could,” and similar expressions to identify forward-looking statements.

COMPANY OVERVIEW

AIVtech, through its PRC subsidiaries, engages in the business of designing, manufacturing and selling electronic furniture, digital/ multimedia speakers, and LCD/LED television under its own products brand – AIV, which stands for Audio & Interactive Video. Besides its own AIV brand, AIVtech also specializes in both Original Equipment Manufacturing (“OEM”) and Original Design Manufacturing (“ODM”) services. We integrate two traditional industries, which are electronics industry and furniture industry, into a new industry – electronic furniture industry.

On March 30, 2011, our subsidiary AIVtech-Shenzhen incorporated AIVtech-Henan as a limited liability company in China, with a registered capital of RMB 50 million, or approximately \$7.6 million. As of September 30, 2011, a total capital contribution of RMB 10 million, or approximately \$1.5 million, was contributed to AIVtech-Henan, of which RMB 6 million was contributed by AIVtech-Shenzhen and RMB 4 million was contributed by Mr. Jinlin Guo, our chief executive officer and chairman of the board of directors. As of September 30, 2011, we have paid RMB 30 million, or approximately \$4.6 million, to local government as land use right deposit. AIVtech-Henan currently has no operations but will start to construct a manufacturing plant in Henan province once the local government approves the land use right, which is expected by the end of December 2011. Accordingly, there were no operating activities reported for AIVtech-Henan for the quarter ended September 30, 2011.

Restatement of previous issued financial statements

We have reclassified and restated certain line items on the 2009 consolidated financial statements. The restatement has no impact on the 2009 consolidated statement of income and comprehensive income. However, as a result of the restatements, the corresponding line items on the consolidated statements of cash flows have been restated.

The following table sets forth the breakdown of our revenue, cost of sales, and gross profit by product category for the three months ended September 30, 2011 and 2010, respectively:

Product categories	For the three months ended							
	September 30, 2011				September 30, 2010			
	Revenue	%	Cost of sales	Gross profit	Gross profit %	Revenue	Cost of sales	Gross profit

The Company's products can be divided into three categories: casual furniture audio, multi-media speakers and LED TV. Furniture audio is the leading selling product of the Company, which accounted for about 46.9% of total sales for the three months ended September 30, 2011. In addition, sales of TV product decreased during the quarter as compared to three months ended September 30, 2010. As a result, total sales for the three months ended September 30, 2011 was \$20,667,885 compared to \$27,419,290 for the same period in 2010, representing a decrease of \$6,751,405 or approximately 25%. The decrease in sales revenue was driven by fewer sales orders received from our customers than in the same quarter last year. The Company also obtained several large sales orders in September 2011, but these sales orders were still under manufacturing as of September 30, 2011 and will be delivered to customers by October 2011.

Sales revenue from furniture audio product decreased from \$13.49 million for the quarter ended September 30, 2010 to \$9.68 million for the same quarter ended September 30, 2011, representing \$3.80 million, or approximately 28% decrease in the third quarter this year as compared to the same quarter last year. In terms of quantity sold, quantity sold of furniture audio products decreased from 1,221,879 units during the quarter ended September 30, 2010 to only 763,278 units sold for the quarter ended September 30, 2011, representing 37.53% decrease. The decrease in furniture audio products during the period was due to decreased sales order received from distributors affected by competitive market environment. The Company's furniture audio product is primarily exported to U.S and European market through distributors and the quantity sold is affected by the overall economy conditions of these major markets. As the economy conditions in the U.S. and Europe went down, export demand for this product declined, accordingly, sales revenue went down for the quarter ended September 30, 2011 as compared to prior comparative period.

Sales revenue from multi-media speaker product increased from \$3.36 million for the quarter ended September 30, 2010 to \$5.83 million for the quarter ended September 30, 2011, representing \$2.46 million, or approximately 73% increase. The increase is contributed by increased orders of multi-media speaker product from one of the major distributors during the third quarter this year. In terms of quantity sold for multi-media speakers, 502,895 multi-media speakers were sold during the quarter as compared to only 342,320 items sold during the prior comparative period. Quantity sold increased 46.91% for this product.

Sales revenue from TV product also decreased from \$10.57 million for the quarter ended September 30, 2010 to only \$5.15 million for the quarter ended September 30, 2011. In terms of quantity sold, 71,443 units were sold in 2010 and only 32,907 items were sold during current quarter, representing 20.58% decrease. The Company just started to produce TV product in May 2010 and as a result, sales revenue for the quarter ended September 30, 2010 climbed as of September 30, 2010 because major distributor Guangdong Guanghong Import and Export Company ordered

significant amount of TV products to be distributed to overseas market for the quarter ended September 30, 2010. However, during the quarter ended September 30, 2011, Guanghong reduced its orders on TV products because orders from 2011 first two quarters have not been fully distributed and accordingly Guanghong reduced orders on TV product in order to avoid inventory stockpile.

Cost of Sales

Cost of sales for the quarter ended September 30, 2011 was \$16,139,318 as compared to \$21,417,974 for the same quarter last year, a decrease \$5,278,656, or approximately 25%, especially the decrease in sales revenue of both TV product and furniture audio product, which led to decrease in cost of revenue related to these product categories. Cost of sales on multi-media product increased \$2.22 million because 160,575 more items were sold for this product during the quarter ended September 30, 2011, which led to more cost of sales were allocated on this product. However, as quantity sold for furniture audio and TV products decreased, cost of sales related to these two product sales decreased accordingly. Cost of sales on furniture audio product was \$7.11 million for the quarter ended September 30, 2011 as compared to \$10.22 million for prior comparative period, representing \$3.11 million decrease; cost of sales on TV product decreased \$4.40 million when comparing the same quarter in 2010.

Gross Profit

Total gross profit for the three months ended September 30, 2011 was \$4,528,567 (or 21.9% of revenue) as compared to \$6,001,316 (or 21.9% of revenue) for the same quarter in 2010, a decrease of \$1,472,749, or approximately 25%. The decrease of our gross profit was driven by the overall decrease in our sales revenue. In terms of product category sales, gross profit margin on furniture audio product, multi-media speaker and TV product was 26.6%, 21.4% and 13.7%, respectively.

The following table summarizes the gross profit by product categories:

	For the three months ended September 30,			
	2011	2010	Increase (Decrease)	% change
Gross profit				
Multi-media speaker	1,248,475	1,003,284	245,191	24.4 %

Selling, General and Administrative Expense

The Company's selling and distribution expenses include: Advertising and promotion expenses, such as billboard and other physical advertising cost, and costs associated with showroom or exhibits; salary and commission paid to sales representatives; and shipping fees incurred to deliver the sales orders to customers

Selling expense for the quarter ended September 30, 2011 was \$205,717 as compared to \$212,779 for the same quarter in 2010, a decrease of \$7,062, or approximately 3.32%. The decrease is associated with lower amount of advertising expense incurred to promote the sales of our TV products than in prior comparative period.

General and administrative expense for the quarter ended September 30, 2011 was \$468,643 compared to \$507,006 for the same period in 2010, representing a decrease of \$38,363, or approximately 7.57%. Most of the general and administrative expense incurred during the quarter ended September 30, 2011 was consulting and professional fees paid to U.S. attorney, auditor and other service providers in connection with the Form S-1 filing and amendment and settle the litigation between the Company and CCG Investor Group, the Company also incurred certain expenses in newly formed subsidiary Henan AIVtech with regard the registration and application for the land use right.

Change in Fair Value of Warrants

The Company issued warrants to investors and placement agents in connection with the private placement offering on December 29, 2010. These warrants are marked to market at each reporting period. The Company determined the fair value of the warrants at December 29, 2010, the date of the issuance was \$1.40 per share. The Company determined the fair value of the warrants at September 30, 2011 was \$0.43 per share. Since the fair value of the warrants liability decreased, we recorded a gain of \$178,748 to reflect the change in the fair value of the warrants for the three months ended September 30, 2011. There were no warrants issued or outstanding for the same period in 2010.

Income Taxes

Income tax expense for the three months ended September 30, 2011 was \$590,686 as compared to \$720,648 for the same quarter last year, representing a decrease of \$129,962 or 18%. The decrease was mainly due to the decreased sales revenue and taxable income for the period indicated.

Net Income

Net income for the three months ended September 30, 2011 was \$3,465,617 as compared to \$4,561,572 for the same quarter last year, a decrease of \$1.1 million, or 24.0%. The decrease in net income was primarily due to decreased sales revenue in the third quarter of 2011.

The Company's products can be divided into three categories: casual furniture audio, multi-media speakers and LEDTV. Furniture audio is the leading selling product of the Company, which accounted for about 47% of total sales for the nine months ended September 30, 2011. For the nine months ended September 30, 2011, the Company received fewer sales orders than in prior comparative period. As a result, total sales for the nine months ended September 30, 2011 was \$54,426,551, as compared to \$56,101,695 for the same period in 2010, a decrease of \$1,675,144 or approximately 3%.

Sales revenue from furniture audio product for the nine months ended September 30, 2011 was \$25.70 million as compared to \$36.52 million for the same period last year, a decrease \$10.82 million, or approximately 30%. The decrease in furniture audio products during the period was due to decreased sales order received from major distributors, also affected by competitive market environment. The Company's furniture audio product is primarily exported to U.S and European market through distributors and the quantity sold is affected by the overall economy conditions and customer demands of these major markets. As the economy conditions in the U.S. and Europe went down, export demand for this product declined accordingly. As a result, the Company's sales revenue from this product category declined.

Sales revenue from multi-media speaker product for the nine months ended September 30, 2011 was \$14.15 million as compared to \$7.77 million for the same period last year, an increase \$6.38 million, or approximately 82%. The increase is contributed by increased quantity sold from 822,938 unit sold for the nine months ended September 30, 2010 to 1,263,873 units sold during the nine months ended September 30, 2011.

Sales revenue from TV product for the nine months ended September 30, 2011 was \$14.58 million as compared to \$11.81 million for the same period of last year, an increase of \$2.77 million, or approximately 23%. The Company just started TV production in May 2010 and began to sell TV product in June 2010. As a result, total 79,443 sets of TV product have been sold during the nine months ended September 30, 2010 as compared to 94,195 sets of TV product have been sold for the nine months ended September 30, 2011, corresponding quantity sold increased 18.57%.

For the upcoming fourth quarter ended December 31, 2011, we anticipate a positive sales trend which will lead to an increase in our sales revenue due to due to our high product quality, more variety of product choice to target different customers, relatively stable unit sales price and more sales orders from customers.

Cost of Sales

Total costs of sales for the nine months ended September 30, 2011 was \$42,419,946 as compared to \$42,644,943 for the same period in 2010, a decrease of \$224,997, or approximately 1%. The Company's cost of goods sold primarily consisted of raw materials costs, direct labor costs and overhead costs. These costs are accumulated in a cost pool allocating to finished goods, and only transferred out as Cost of sales when finished goods are sold to customers. The decrease in cost of revenue was primarily affected by decreased sales of furniture audio product which led to less cost to be allocated, offset by increased sales of TV product which normally has higher cost and lower profit margin than the Company's other product category. Normally, cost of sales for TV product is higher than our other two categories of product due to higher production cost, especially higher raw material cost per unit. And the production costs and cost of sales per unit for our multimedia speaker and audio furniture products are within a relative stable range.

Gross Profit

Gross profit for the nine months ended September 30, 2011 was \$12.01 million (or 22.1% of revenue) as compared to \$13.46 million (or 24% of revenue) for the same period in 2010, a decrease of \$1.45 million, or approximately 10.8%. The decrease is driven by the overall decrease in sales revenue for the nine months ended September 30, 2011. In terms of product category sales, for the nine months ended September 30, 2011, total of 94,195 units of TV product have been sold as compared to only 79,443 units sold in the same period of 2010. The company began to produce TV from June 2010, the production cost for TV product are higher than other product categories and gross profit margin for this new product is lower than other mature products, which resulted an offset to the overall gross profit margin. For the nine months ended September 30, 2011, our gross profit margin on furniture audio product, multi-media speaker and TV product was 24.7%, 24.9% and 14.6%, respectively.

The following table summarizes the gross profit by product categories:

	For the nine months ended September 30,			
	2011	2010	Increase (Decrease)	% change
Gross profit				
Multi-media speaker	3,521,602	2,049,831	1,471,771	71.8 %
Furniture audio	6,351,422	9,549,697	(3,198,275)	(33.5)%
TV product	2,133,582	1,857,223	276,359	14.9 %
Total	12,006,606	13,456,751	(1,450,145)	(10.8)%

Selling, General and Administrative Expense

Our selling and distribution expenses included advertising and promotion expenses, such as billboard and other physical advertising cost, and costs associated with our showroom or exhibits; salary and commission paid to sales representatives, and shipping fees incurred to deliver the sales orders to customers

Selling expense for the nine months ended September 30, 2011 was \$634,199 as compared to \$505,973 for the same period in 2010, an increase of \$128,126, or approximately 25.3%. The increase is associated with higher advertising expense to promote the sales of our TV products than in prior comparative period. Total advertising and promotion expense amounted to \$17,246 for the nine months ended September 30, 2011. In addition, the Company incurred more product testing and sampling expenses than in prior comparative period. Total product testing and sampling expense increased \$73,309 for the nine months ended September 30, 2011 as compared to prior comparative period.

General and administrative expense for the nine months ended September 30, 2011 was \$1,571,605 as compared to \$1,366,649 for the same period in 2010, an increase of \$204,956, or approximately 15%. The increase is associated with the general and administrative expenses incurred on our newly formed subsidiary Henan AIVtech, plus increased legal and accounting fees in connection with Form S-1 filing and amendment. The increase in our general and administrative expense was also affected by \$76,865 settlement payment paid to CCG Investor Group for service provided during prior year. After the Company made the payment to CCG, CCG withdrew the lawsuit filed with U.S. Court in September 2011.

Interest Income and Interest Expense

The interest income and interest expenses for the nine months ended September 30, 2011 were \$49,570 and \$22,123, as compared to \$12,933 and \$11,362 for the same period of last year, an increase of \$36,637 and \$10,761, or approximately 283% and 95%, respectively. The increased interest expenses is mainly due to our short term borrowing of RMB 6 million (approximate to \$913,385) from Shenzhen Top Finance Guaranty Investment Inc in order to pay the registered capital of newly formed subsidiary AIVtech-Henan. The loan was repaid in full with interest expenses amounted \$16,838 on June 27, 2011.

Change in Fair Value of Warrants

The Company issued warrants to investors and placement agents in connection with the private placement offering on December 29, 2010. These warrants are marked to market at each reporting period. The Company determined the fair value of the warrants at December 29, 2010, the date of the issuance was \$1.40 per share. The Company determined the fair value of the warrants at September 30, 2011 was \$0.43 per share. Since the fair value of the warrants liability decreased, we recorded a gain of \$170,201 to reflect the change in the fair value of the warrants in earnings for the nine months ended September 30, 2011. There were no warrants issued or outstanding for the same period in 2010.

Income Taxes

Income tax expense for the nine months ended September 30, 2011 was \$1,530,232 as compared to \$1,471,624 for the same period last year, an increase of \$58,608 or approximately 4.0%. The slightly increase was primarily affected by the exchange rate fluctuation used to convert the Company's functional currency Chinese Renminbi into our reporting currency US dollar.

Net Income

Net income was \$8,467,533 for the nine months ended September 30, 2011 as compared to \$10,114,077 for the same period of 2010, a decrease of \$1,646,544, or approximately 16.28%. The decrease in net income was primarily due to decreased sales revenue, increased cost of sales and increased operating expenses for the period indicated.

Sales

The following table sets forth the breakdown of our revenue, cost of sales, and gross profit by product category for the years ended December 31, 2010 and 2009, respectively:

Product categories	For the year ended								Revenue Amount	%
	December 31,2010		December 31,2009		December 31,2010		December 31,2009

The Company's products can be divided into three categories: casual furniture audio, multi-media speakers and LEDTV. And furniture audio is the leading selling product of the Company, which accounted for about 61% of total sales for the year ended December 31, 2010. Sales for the year ended December 31, 2010 totaled \$68,334,543 compared to \$38,469,185 for the year ended December 31, 2009, an increase of \$29,865,358 or approximately 78%. The increase in sales revenue was attributable to the following reasons:

- 1) The Company strengthened its advertising and sales promotions activities during the year of 2010. Through participating various exhibits and trade shows in Europe and North America, the Company's products have been accepted by more customers steadily, which helped the sales increase. During 2010, the Company has developed five new customers or distributors, who helped to distribute the Company's products to previously unaddressed markets, such as Southeast Asia and Eastern Europe. Among total sales, approximately \$7,350,590 or 10.7% are generated by these five new customers.
- 2) The Company has newly developed LED/LED TV and entered the market in June 2010. This new product has broadened the Company's product lines and the TV has been sold to various end users through one exclusive distributor Guangdong Guanghong Import and Export Co. Ltd. during the year. TV sales accounted for \$17.8 million or 26% of the total sales for the year ended December 31, 2010. In addition, the Company has constantly improved its video gaming furniture and audio products which exposed the Company to more sales opportunities;
- 3) The establishment of AIVtech-Dongguan manufacturing plant in December 2009 has also ensured the sales orders can be produced and fulfilled on a timely basis. As the production capacity increased in Dongguan AIV plant, the company became able to get some larger sales orders than in prior year.

Cost of Sales

Total costs of sales was \$52,459,912 for the year ended December 31, 2010 as compared to \$28,064,339 for the year ended December 31, 2009, an increase of \$24.4 million or 87%. The overall increase in cost of sales primarily attributable to the increase in material costs and labor costs in connection with establishing the production line as well as sales of our newly developed TV product. As indicated in the table above, the significant increase in cost of sales in current year attributable to the production costs associated with the LED TV. The increase in cost of sales for furniture

audio and multi-media was comparable to the similar increase in sales for these products.

Gross Profit

Total gross profit for the year ended December 31, 2010 was \$15,874,631 (or 23% of revenue) as compared to \$10,404,846 (or 27% of revenue) for the year ended December 31, 2009, an increase of \$5,469,785 or 53%. The increase in our gross profit was in line with the increased sales revenue. However, gross profit as a percentage of revenue decreased 4% compared with prior year. The decrease is primarily due to the higher production cost of TV with lower gross margin. Our furniture audio and multi-media speaker has an average gross profit of 26% to 27%, but the TV product only has gross profit of 15% due to higher costs incurred. As a result, total gross profit percentage decreased from 27% in 2009 to 23% in 2010. Due to the low profit margin on LED TV, we are currently in the process of assessing the alternative business plan for this product.

Selling, General and Administrative Expense

Our selling and distribution expenses include: (1) Advertising and promotion expenses, such as billboard and other physical advertising cost, and costs associated with our showroom or exhibits; (2) salary and commission paid to sales representatives (3) shipping fees incurred to deliver the sales orders to customers

Selling expense was \$741,738 for the year ended December 31, 2010 as compared to \$644,757 for the year ended December 31, 2009, an increase of \$96,982, or approximately 15%. During 2010, the Company incurred advertising and promotion expense of \$234,354 in order to promote the sales of the newly developed TV products. In addition, salary paid to sales representatives increased \$200,853 in line with the revenue growing.

General and administrative expense was \$2,146,465 for the year ended December 31, 2010 as compared to \$1,433,254 for the year ended December 31, 2009, representing an increase of \$713,211, or approximately 50%. The increase is primarily due to the expenses incurred in connection with the company's going public. The Company became a public company in May 2010 and incurred approximately \$453,460 related to consulting, legal, and other professional fees. In addition, the increase in general and administrative expense in 2010 was also affected by increased payroll expense of approximately \$190,836 paid to administrative staff in connection with the expansion of our business.

Interest expense

Interest expense was \$19,607 for the year ended December 31, 2010 as compared to \$-0- for the year ended December 31, 2009, an increase of 100%. On January 5, 2010, we entered into a loan agreement with a third-party Dongguan Shilong Industrial Company and borrowed RMB 5 million (approximately to \$757,311) for three years with annual interest rate of 2.7%. The loan was borrowed to be used as our working capital fund. No loans were outstanding in the prior comparable period.

Change in Fair Value of Warrants

The Company issued warrants to investors and placement agents in connection with the private placement offering on December 29, 2010. These warrants are considered a liability and measured at fair value at each reporting period. The Company determined the fair value of the warrants liability at December 29, 2010, the date of the issuance was \$1.40 per share, totaling \$422,287. The Company determined the fair value of the warrants at December 31, 2010 was \$0.99 per share, totaling \$299,492. As a result, we recorded a gain of \$122,795 in changes in the fair value of the warrants liability in profit or loss for the year ended December 31, 2010. There were no warrants issued or outstanding in 2009.

Income Taxes

Income tax expense was \$1,715,218 for the year ended December 31, 2010 as compared to \$830,659 for the year ended December 31, 2009, an increase of \$884,558 or 106%. The increase in income tax expenses was primarily due to increased in taxable income. As a percentage of net income, income tax expenses was 13.1% for the year ended December 31, 2010 as compared to 10% for the year ended December 31, 2009. The increase was attributable to income tax paid on net income generated from AIVtech-Dongguan, which is at the statutory tax rate of 25%. AIVtech-Dongguan was formed in December 2009 and generated no income in prior year. AIVtech-Shenzhen enjoys a favorable income tax rate of 10% as granted by the local tax authorities for the years ended December 31, 2010 and 2009.

Net Income

Net income was \$11,395,153 for the year ended December 31, 2010 as compared to \$7,475,931 for the year ended December 31, 2009, an increase of \$3.9 million, or 52.4%. This improvement reflects the increased revenue in current year.

LIQUIDITY AND CAPITAL RESOURCES

Our U.S. based parent company is a holding company and does not have any operations of its own. The Company's liquidity and capital resources are primarily obtained through our operating subsidiaries located in PRC. The operating subsidiaries conduct all business transactions in PRC. From time to time funds are transferred among operating subsidiaries in PRC for operational needs without the requirement of obtaining third party approval. Although management does not expect to repatriate any of its earnings generated from the PRC operating subsidiaries to United States in the foreseeable future, there is no restriction as to transferring assets from our subsidiaries in PRC to our U.S. parent company. Since our operation is conducted primarily through our subsidiaries and they hold a majority of our operating assets, any significant transfer of net assets from the operating subsidiaries to the parent company would have a potential impact on the scope and the nature of our operation taken as whole.

At September 30, 2011 and December 31, 2010, our cash and cash equivalents was \$18,060,314 and \$7,079,221, respectively. Our principal sources of liquidity were cash generated from our operating activities, short-term borrowings, and cash received from the equity financing under private placement. Our working capital as of September 30, 2011 was approximately \$20,514,687, current assets totaled \$29,761,665 and current liabilities were \$15,042,070. The components of the \$10,981,093 increase in our cash and cash equivalents are reflected below.

	For the nine months ended September 30,	
	2011	2010
Net cash provided by operating activities	\$ 8,441,002	\$ 3,142,676
Net cash used in investing activities	(4,263,066)	(180,421)
Net cash provided by (used in) financing activities	7,036,231	(3,566,457)
Effects of exchange rates on cash	126,926	98,593
Net change in cash	\$ 10,981,093	\$ (505,609)

Net Cash provided by Operating Activities

For the nine months ended September 30, 2011, our net cash provided by operating activities was \$8,441,002, including the following:

- 1) The increase in accounts payable of \$3.4 million primarily due to increased purchasing of materials on account for the period indicated. The Company purchased RMB 38.5 million of raw materials and components on account during the second quarter ended June 30, 2011 and put such purchases into production, in order to fulfill the sales orders to be delivered to customers in August, 2011. These outstanding accounts payables have not been fully paid to the suppliers because vendor's invoices have not been received or processed as of September 30, 2011 based on the terms of the purchase contract. The increase in accounts payables was in line with the increase in WIP inventory.
- 2) The increase in accounts receivable of \$3.05 million primarily due to our increased credit sales of our products to customers during the June to September period. We grant credit to customers with good credit standings with a maximum term of 90 days. There were no events or other factors that led us to believe the outstanding account receivables were uncollectible.
- 3) The increase in inventory of \$474,884 because we purchased certain materials and components and used them in our production in order to fulfill several sales orders to be delivered to our customer in October 2011.

Net Cash used in Investing Activities

Cash used in investing activities for the nine months ended September 30, 2011 amounted to \$4,623,066, primarily included \$4,617,700 deposit for land use right. As of September 30, 2010, our subsidiary Henan AIVtech paid RMB 30 million (approximately \$4,617,700) to local government as land use right deposit. Henan AIVtech currently has no operations but will start to construct a manufacturing plant in Henan province once local government approves the land use right, which is expected by the end of December 2011.

Net Cash provided by Financing Activities

Our net cash provided by financing activities for the nine months ended September 30, 2011 amounted to \$7,036,231. We received \$7.4 million net proceeds in January 2011 from a private placement offering filed on December 29, 2010. In addition, we borrowed RMB 6 million (approximately \$0.9 million) from a related party Shenzhen Top financing Company and used the amount to invest in Henan AIVtech as 60% paid-in capital on March 25, 2011 and repaid all amounts on June 27, 2011. We also repaid RMB 2 million short-term borrowings from the related party Shenzhen Top financing Company when the loan expired on February 25, 2011. Also, on June 30, 2011, we repaid RMB 5 million (approximately \$769,617) to a third party Dongguan Shilong Industrial Company. As a result, as of September 30, 2011, we did not have any long-term loan outstanding.

During the nine months ended September 30, 2011, we received RMB 4 million cash (approximately \$608,923) contributed by a minority shareholder and invested this amount to pay the registered capital for our new subsidiary AIVtech-Henan, located in Henan province of China. Our new subsidiary AIVtech-Henan was formed by AIVtech-Shenzhen and minority shareholder Mr. Guo Jinlin, with total paid-in capital of RMB 10 million, of which 60% was contributed by AIVtech-Shenzhen.

We anticipate that our available funds and cash flows generated from operations will be sufficient to meet our anticipated on-going operating needs for the next twelve months.

Our operating subsidiaries are primarily operated in PRC.

As of September 30, 2011 and December 31, 2010, our loan arrangements are indicated as follows:

	June 30, 2011	December 31, 2010
Long-term loan	-	757,311
Due to related parties	266,242	529,166
Total	\$ 266,242	\$ 1,286,477

On January 5, 2010, we obtained a loan from a third-party Dongguan Shilong Industrial Company for RMB 5 million (approximately to \$757,311) for the purpose of working capital needs. The loan has been repaid on March 31, 2011.

During the normal course of the business, from time to time, we temporarily borrow money from principal shareholders or officers to finance our working capital as needed. The amounts are usually unsecured, non-interest bearing and due on demand.

On March 25, 2011, Dongguan AIVtech entered into an loan agreement with Shenzhen Top Finance Guaranty Investment Inc., to borrow RMB 6 million (approximate to \$913,385) to pay the registered capital of newly formed subsidiary Henan AIVtech. The loan was repaid in full on June 27, 2011.

Shenzhen Top Finance Guaranty Investment Inc. is one of the major shareholders of the Company, and owns 10.38% of the total issued and outstanding common shares of the Company. As of September 30, 2011, total related party borrowings from Shenzhen Top Finance Guaranty Investment Inc. amounted to \$220,907.

The Company has been able to maintain a virtuous cycle of capital chain by ensuring the continuation of capital, i.e. the average accounts receivable collection period is less than the average accounts payable period, during the materials purchase process. Set forth below is a chart with descriptions of this process:

CRITICAL ACCOUNTING POLICY

Principals of Consolidation

Our consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”). The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries, AIVtech Holding (H.K.) Limited, Shenzhen AIV Electronics Co., Ltd., and Dongguan AIV Electronics Co., Ltd. All significant inter-company balances and transactions are eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the consolidated financial statements. Estimates are used for, but not limited to, the selection of the useful lives and residual values of property and equipment, provision for doubtful accounts, provision necessary for contingent liabilities, fair values, revenue recognition, and other similar charges. Management believes that the estimates utilized in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

Fair Value of Financial Instruments

The Company adopted the provisions of Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures. ASC 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2 – Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3 – Inputs are unobservable inputs which reflect the reporting entity’s own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts of certain financial instruments, including cash and cash equivalents, accounts receivable, other receivables, accounts payable, long-term loan, taxes payable, other payables and accrued liabilities, approximate their fair value due the short-term nature of these items. The carrying amount of long-term loan approximates the fair value based on the Company’s expected borrowing rate with similar remaining maturities and comparable risk in market. The warrant liability is measured at fair value on a recurring basis as discussed below.

Revenue Recognition

The Company recognizes revenue when the following fundamental criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered, (iii) the price to the customer is fixed or determinable and (iv) collection of the resulting receivable is reasonably assured. Revenue is not recognized until title and risk of loss is transferred to the customer, which occurs upon delivery of goods, and objective evidence exists that customer acceptance provisions have been met.

The Company sells its products to customers who have passed the Company's credit check. Sales agreements are signed with each customer. The purchase price of products is fixed in the agreement. The Company makes custom products based on sales agreements, so no sales returns are allowed. The Company accepts returns one year from the date of shipment only in the event of defects. Historically, the Company has not experienced significant defects, and replacements for defects have been minimal. For the years ended December 31, 2010 and 2009, no sales returns and allowances have been recorded. Should returns increase in the future it would be necessary to adjust estimates, in which case recognition of revenues could be delayed.

In the PRC, value added tax (VAT) of 17% of the invoice amount is collected in respect of the sales of goods on behalf of tax authorities. The VAT collected is not revenue of the Company; instead, the amount is recorded as a liability on the balance sheet until such VAT is paid to the authorities.

Accounts Receivable

Accounts receivable are recorded at net realizable value consisting of the carrying amount less an allowance for uncollectible amounts.

We grant credit to customers with good credit standings with a maximum term of 90 days. We determine the adequacy of reserves for doubtful accounts based on individual account analysis and historical collection trends. Provisions for doubtful accounts are assessed based upon a detailed review of all significant outstanding receivables on an individual customer account basis. In the event the accounts become overdue, we would continue our best effort to collect from customers until events or circumstances indicate that the amounts might not be collectible, then we would record a full reserve against specific uncollectible amounts. Historically we have not experienced significant bad debt write-offs. Normally we collect over 90% of the outstanding account receivables within three months after invoicing with the remaining balances collected within 6 months. As of September 30, 2011, 51% of the account receivable balances were within the 1 – 30 days aging category and remaining 49% of the accounts receivable were within 31-60 days aging category. As of December 31, 2010, 100% of the account receivable balance was within the 1-90 days aging category. There were no events or other factors that led us to believe the outstanding account receivables were uncollectible. Accordingly we determined the reserve for doubtful accounts for the respective periods were not necessary.

Inventories

Inventories are stated at the lower of cost or market value, using the FIFO method. The cost of inventories comprises all costs of purchases, costs of labors, direct fixed and variable production overheads and other costs incurred in bringing the inventories to their present location and condition. The Company provides inventory reserves based on excess and obsolete inventories determined principally by customer demand.

Warrant Liability

Our warrants are measured at fair value at each reporting period. We use the Black-Scholes valuation model to determine the fair value of warrants. The inputs for the Black-Scholes model require the use of significant assumptions, including 1) the expected term the warrants will be held before exercise, 2) discount rates, 3) volatility calculated based on the closing prices of our common stock traded in the open market. Changes in the daily closing prices of our common stock could have a material impact on the volatility calculations which could result in significant changes in the fair value of warrant liability. The following are the assumptions used in the Black-Scholes model to calculate the fair value of warrants:

	September 30, 2011	December 31, 2010		
Stock Price	\$ 0.47	\$ 4.02		
Exercise Price	\$ 4.00	\$ 4.00		
Term	4.25	5.00		
Volatility	205.97	23.06	%	%
Annual Rate of quarterly dividend	0.00	0.00	%	%
Discount rate - bond equivalent rate	0.96	2.010	%	%
Fair value per warrant	\$ 0.4287	\$ 0.9930		

Changes in one or more of the above assumptions can materially affect fair value of the warrants on the consolidated balance sheets, the changes in fair value of warrants would result in income or expenses on the consolidated

statements of income and comprehensive income. We consider the inputs used to determine the fair value to be level 2 inputs within the fair value hierarchy established by GAAP.

Income Taxes

The Company is governed by the Income Tax Law of the PRC and the U.S. tax laws governing privately run enterprises are generally subject to a statutory tax rate of 25% after appropriate tax adjustments. AIVtech-Shenzhen was formed on May 18, 2006 in a special economic zone in Shenzhen and has been granted a favorable tax treatment by local tax authority which stipulated a 100% income tax exemption for the first two years and 50% income tax exemption for the following consecutive three years. Consequently, AIVtech-Shenzhen enjoyed a favorable tax exemption policy and the effective income tax rate for AIVtech-Shenzhen assessed by local tax authority was 11% and 10% for the nine months ended September 30, 2011 and 2010, respectively. AIVtech-Dongguan is now subject to 25% statutory income tax rate. The favorable income tax rate is assessed and reviewed by the local tax authority on a periodic basis and there is no guarantee that the Company will grant the same assessment after the current assessment expires on December 31, 2011.

The parent Company AIVtech International Group Inc was incorporated in the United States. It had no taxable income as of September 30, 2011. Net operating loss carry forwards for United States income tax purposes amounted to \$112,776 as of September 30, 2011, which are available to reduce future years' taxable income. These carry forwards will expire in 2031. However, due to the change in control resulting from the reverse acquisition in 2010 which limits the amount of loss to be utilized each year, management doesn't expect to remit any of its net income back to the United States in the foreseeable future. Accordingly, the Company recorded a full valuation allowance as of September 30, 2011.

Recent Accounting Pronouncements

On June 16, 2011, FASB issued Accounting Standards Update 2011-05 (“ASU 2011-05”), Comprehensive Income (Topic 220)-Presentation of Comprehensive Income. ASU 2011-05 eliminates the current option to report other comprehensive income and its components in the statement of changes in equity, and requires that all nonowner changes in stockholders’ equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in ASU 2011-05 should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this accounting standard is not expected to have a material effect on the Company’s condensed consolidated financial statements.

On May 12, 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2011-04 (“ASU 2011-04”), Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. ASU 2011-04 completes a major project of the boards’ joint work to improve IFRS and US GAAP and to bring about their convergence. For US GAAP, ASU 2011-04 will supersede most of the guidance in Topic 820, although many of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. It also reflects the FASB’s consideration of the different characteristics of public and non-public entities and the needs of users of their financial statements. ASU 2011-04 will be effective for public entities for interim and annual periods beginning after December 15, 2011, and should be applied prospectively. The adoption of this accounting standard is not expected to have a material effect on the Company’s condensed consolidated financial statements.

In December 2010, the Financial Accounting Standards Board (“FASB”) issued changes to the disclosure of pro forma information for business combinations. These changes clarify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. Also, the existing supplemental pro forma disclosures were expanded to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. These changes become effective for the Company beginning January 1, 2011. Management has determined these changes will not have an impact on the Consolidated Financial Statements.

In April 2010, the FASB issued changes to the classification of certain employee share-based payment awards. These changes clarify that there is not an indication of a condition that is other than market, performance, or service if an employee share-based payment award’s exercise price is denominated in the currency of a market in which a substantial portion of the entity’s equity securities trade and differs from the functional currency of the employer entity or payroll currency of the employee. An employee share-based payment award is required to be classified as a liability if the award does not contain a market, performance, or service condition. These changes become effective for the Company on January 1, 2011. Management has determined these changes will not have an impact on the Consolidated Financial Statements.

OFF-BALANCE SHEET ARRANGEMENTS

We have never entered into any off-balance sheet financing arrangements and have never established any special purpose entities.

CORPORATE STRUCTURE AND HISTORY

Corporate History

We were incorporated pursuant to the laws of Nevada on December 18, 2007 under the name Ecochild Inc. Our original plan was to build a diverse portfolio of organic, health and wellness grocery products manufactured by small and mid size North American manufacturers and sell them to the European market through a network of local and national distributors.

On July 31, 2009, we completed a private placement whereby we issued 3,625,000 shares of common stock to 29 non-U.S. investors at \$0.008 per share raising an aggregate amount of \$29,000 under Regulation S of the Securities Act of 1933. On September 16, 2009, we filed an S-1 registration statement to register all of the 3,625,000 shares of common stock issued in the private placement. The S-1 registration statement was declared effective on December 10, 2009.

On April 16, 2010, our majority shareholders entered into certain stock purchase agreements with Jie Zhang, pursuant to which Jie Zhang purchased a total of 5,900,000 shares, which represented 61.3% of our outstanding common stock at the time of the transaction from the majority shareholders, for a total of \$29,500. In connection with the change of control and pursuant to the stock purchase agreements, Galina Birca resigned as our president, chief executive officer and director, and Vladimir Enachi resigned as our chief financial officer and director effective immediately. Mr. Jie Zhang was appointed as our sole director and officer effective immediately.

Acquisition of AIVtech-HK

On May 12, 2010, we entered into a share exchange agreement with AIVtech Holding (Hong Kong) Limited, or AIVtech-HK, a company that is in the business of designing, manufacturing and selling electronic furniture, digital/multimedia speakers, and LCD/LED television. Pursuant to the terms of the share exchange agreement, we acquired all of the outstanding shares of AIVtech-HK from its shareholders. In exchange, we issued to the shareholders of AIVtech-HK, their designees or assigns, an aggregate of 10,375,000 shares or 51.88% of the shares of our common stock at the time of the transaction, at \$0.005 per share; and paid cash of \$3,948,125 to the AIVtech shareholders in the form of promissory note payable within twelve months of the close of the transaction. Pursuant to the share exchange agreement, AIVtech-HK became our wholly-owned subsidiary.

AIVtech-HK is a holding company incorporated under the laws of Hong Kong on November 4, 2005 with subsidiaries engaged in manufacturing casual furniture audio series, multimedia speakers, and LED. AIVtech-HK owns 100% of AIVtech-Shenzhen, a company incorporated on October 26, 2004 under the laws of the PRC. AIVtech-Shenzhen owns 70% of AIVtech-Dongguan, a company incorporated on December 25, 2009 under the laws of the PRC. AIVtech-Shenzhen was owned by Jinlin Guo and Lanbin Ding holding 87.5% and 12.5% of the shares, respectively. On March 30, 2010, Jinlin Guo transferred all the 87.5% interest to AIVtech-HK in exchange for RMB 4,375,000 (or \$0.64 million), and Lanbin Ding transferred all the 12.5% interest to AIVtech-HK in exchange for RMB 625,000 (\$0.9 million). AIVtech-Shenzhen became a wholly-owned subsidiary of AIVtech-HK and a wholly foreign owned enterprise in the PRC after the transaction.

As a further condition of the acquisition, Jie Zhang resigned as our sole officer and director, and Jinlin Guo and Yilin Shi were appointed as our directors and Jinlin Guo, Yilin Shi and Teli Liao were appointed as our officers effective immediately.

Simultaneously with the acquisition, we also changed our name from "Ecochild Inc." to "AIVtech International Group Co." and changed our fiscal year end from October 31 to December 31.

Subsequent Events and Recent Financing

On September 10, 2010, we amended Section 6(b) of our Bylaws from “Except as otherwise provided in these Bylaws, a quorum is two persons present and being, or representing by proxy, shareholders of the Corporation” to “Except as otherwise provided in these Bylaws, the holders of a majority of the shares of the Corporation issued and outstanding and entitled to vote at any meeting of the shareholders shall constitute a quorum at such meeting for the transaction of any business, provided that when a specified item of business is required to be voted on by a class or series, voting as a class, the holders of a majority of the shares of such class or series shall constitute a quorum for the transaction of such specified item of business.”

On December 29, 2010, we entered into a subscription agreement with certain accredited investors for the issuance and sale in a private placement of investment units, each unit consisting of one share of our common stock, \$.001 par value per share and a warrant to purchase one-tenth of one share of common stock, for aggregate gross proceeds of \$7,540,000. The purchase price per unit was \$3.00. In the aggregate, we issued to the investors a total of 2,513,334 shares of common stock and five-year Investor Warrants to purchase up to an additional 251,334 shares of common stock at an exercise price of \$4.00. We also paid to the placement agent a fee of \$150,800 and issued to the Placement Agent a five-year Placement Agent Warrants to purchase a total of 50,267 shares of common stock at an exercise price of \$4.00 per share.

Pursuant to the subscription agreement, we agreed to file a registration statement on Form S-1 (or any other applicable form) (the "Registration Statement") with the Securities and Exchange Commission (the "SEC") to register for resale (i) 100% of the shares of common stock sold in the private placement and (ii) 100% of the shares of our common stock underlying the Investor Warrants (collectively, "Registrable Shares"), within 30 calendar days following the closing of the private placement ("Required Filing Date"), and use the Company's best efforts to have the registration statement declared effective within 180 calendar days after the closing of the private placement ("Required Effective Date"). If a Registration Statement covering the registration of the Registrable Shares is not filed with the SEC by the Required Filing Date or is not declared effective by the Required Effective Date, the Company shall pay to each investor as liquidated damages, a cash payment equal to 2% of the aggregate amount invested by such Investor in the offering on the first business day of each thirty (30) day period (pro rata for any period less than thirty days) until the Registration Statement has been filed or declared effective, or a portion thereof. Such liquidated damages shall not exceed 10% per annum.

In addition, we agreed to issue to the investors an aggregate of 2,513,334 shares of our common stock (the "Make Good Shares"), on a pro rata basis, if the make good targets set forth in the subscription agreement are not met. With respect to the fiscal year ending December 31, 2010, if we do not achieve \$0.44 in earnings per share, then one-half of the Make Good Shares will be distributed to the investors on a pro rata basis. With respect to the fiscal year ending December 31, 2011, if we do not achieve \$0.60 in earnings per share, then the other one-half of the Make Good Shares will be distributed to the investors on a pro rata basis.

On June 29, 2011, we entered into agreements with the investors pursuant to which extended the Form S-1 Required Effective Date from June 30, 2010 to September 30, 2011. On September 28, 2011, we entered into agreements with the investors to further extend the Required Effective Date to December 31, 2011.

Subsequent to June 30, 2011, we entered into agreements with the investors to amend the make good provision in the subscription agreement whereby all parties agreed that the basic earnings per share as make good target for the year ending December 31, 2011 is reduced from \$.60 per share to \$.40 per share.

Global Hunter Securities, LLC acted as our placement agent in connection with the offering. As compensation for its services provided in this transaction, we (i) paid a cash fee of \$150,800 which is equal to two (2%) percent of the aggregate gross proceeds raised in the private placement, (ii) issued five-year warrants to purchase shares of our common stock equal to two (2%) percent of the number of shares of common stock issued in the private placement, exercisable at any time at a price equal to \$4.00 per share and (iii) paid expenses relating to the private placement. We also agreed to indemnify the placement agent against certain liabilities, including liabilities under the Securities Act. The Placement Agent Warrants have the same registration rights as the registration rights afforded to the investors in the private placement.

On March 30, 2011, our subsidiary AIVtech-Shenzhen incorporated AIVtech-Henan, as a limited liability company in China, with a registered capital of RMB 50 million, or approximately \$7.6 million. As of June 30, 2011, a total capital contribution of RMB 10 million, or approximately \$1.5 million, was contributed to AIVtech-Henan, of which RMB 6 million was contributed by AIVtech-Shenzhen and RMB 4 million was contributed by Mr. Jinlin Guo, our chief executive officer and chairman of the board of directors. As of September 30, 2010, the Company has paid RMB 30 million to local government as land use right deposit. AIVtech-Henan currently has no operations but will start to construct a manufacturing plant in Henan province once local government approves the land use right, which is expected by the end of December 2011.

On May 10, 2011, we entered into an agreement with the former shareholders of our wholly-owned subsidiary AIVtech-HK, pursuant to which extends the due date of an aggregate cash payment of \$3,948,125 from May 12, 2011 to May 12, 2012. The amount was owed to these former shareholders in the form of a promissory note dated May 12,

2010.

Effective May 16, 2011, our ticker symbol as quoted on the OTC Bulletin Board was changed from “ECOH” to “AIVI.”

DESCRIPTION OF BUSINESS

Business Overview

We engage in the business of designing, manufacturing and selling electronic furniture, digital/multimedia speakers, and LCD/LED television under our own product brand – AIV, which stands for Audio & Interactive Video. Besides our own AIV brand, AIVtech also specializes in both Original Equipment Manufacturing (“OEM”) and Original Design Manufacturing (“ODM”) services. We integrate two traditional industries, which are electronics industry and furniture industry, into a new industry – electronic furniture industry.

We generate revenues mainly from the sales of electronic furniture and digital/multimedia speakers. The production of LCD/LED television started in late April 2010. Our net sales revenues for the year ended December 31, 2010 was approximately \$68.3 million, representing a 77.6 % growth from the year ended December 31, 2009 with net sales revenues of approximately \$38.5 million. Our net income for the year ended December 31, 2010 was approximately \$11.3 million, an increase of 52.42%, comparing to our net income of approximately \$7.47 million for the year ended December 31, 2009.

Market Summary

International Market

Electronic Furniture: Audio gaming chair is a popular product in the electronic furniture industry. It targets the audio-visual entertainment, especially the video game markets. In conformity with the need for innovation which is the trend in this industry, the new furniture audios launched by AIV in 2005 incorporate the Video Gaming Chair with Built-in Speakers and Vibration, as well as the Leisure Furniture with Built-in Audio/ Video System. The new product became popular after its debut in the European and the U.S. markets in 2006. The product has also developed a market in China, Australia and Southeast Asia countries. There are still many potential markets waiting to be explored.

Multimedia/Digital Speakers: At present, the global speakers market is dominated by a certain number of manufacturers with large production capacity and leading technologies. These manufacturers mainly based in the United States, Japan and European countries. Many of those companies outsource their manufacturing to China.

LED/LCD Television: According to a conservative estimate by Displaybank, a global authority in market research and consulting for the display and solar industries, the number of LEDs sold in 2008 was around 200,000 units, while the number is expected to increase to more than 32 million units in 2010. The compound annual growth rate (“CAGR”) of a 5-year period from 2008 to 2013 is 272%. The number of global sales of LEDs in 2013 is estimated to be 156 million units. Chinese Domestic Market

Furniture audios: The video game especially the online video game industry started late in China but is growing rapidly. Since 2000, its annual growth rate has exceeded 50%. Nowadays, more and more video game companies are entering into the Chinese market with many large companies also establishing branch offices or studios in China.

Multimedia/Digital Speakers: China is the country with the largest production and distribution of multimedia/ digital speakers in the world. The Pearl River Delta region of China is the location of speaker manufacturers which produce 70% of the world's speakers. Many big multimedia speakers companies outsource their manufacturing to companies in China (Source: Canton and Hong Kong Information Daily.

<http://finance.sina.com.cn/g/20030801/1501390264.shtml>). Most of these manufacturers are original equipment manufacturers with no brands of their own, and they depend solely on exports. The co-existence of genuine and counterfeit products reflects the current real situation of the Chinese speakers industry. However, the speakers market is relatively stable. The innovation of both the products and business model are the key factors to success for the domestic speaker manufacturers.

LED/LCD Television: According to a survey by the Consumption Electronic Products Investigation Office of the China Electronic Chamber of Commerce, 75% of the domestic television consumers pay attention to LED products and 34% of them have plans to purchase LED products in 2010 (Source: 2010-2015 China LCD Television Market Investment Analysis and Forecast Report).

Products

Currently, we classify our products into three main categories: Electronic Furniture, Multimedia/Digital Speaker and LCD/LED Television.

A) Electronic Furniture

Our casual furniture audio has made a creative combination of two traditional industries: electronic audio-visual entertainment industry and furniture industry. Our electronic furniture not only supplies customers with a super-sensory audio-visual enjoyment, but also brings convenience for home-living. Among the furniture audio field, the product that develops the most rapidly is the exclusive audios for video game chair. This product is mainly for the video game and audio-visual entertainment markets. The video game chair can be easily connected to video game consoles and digital music players etc. The video industry, especially the network video game industry, had a late start in China, but it is an industry that has experienced rapid growth. The annual growth rate has exceeded 50% since the year 2000 (Source: China Securities Journal. <http://stock.stockstar.com/GA2006082200299559.shtml>). Publishers and developers for video game all over the world are now entering the Chinese market at a fast pace. Many big game publishing companies are establishing branches or studios in China. Because of the huge potential of the video game industry, the company's exclusive audio for video game chair has a broad market and development space. Moreover, this will also promote the development of furniture audio industry.

a) Video Gaming Chairs with Built-in Speakers and Vibration

Video game lovers are the target customers for this product series. It can be applied to different video game consoles such as XBOX360 and PS3. It has 3D games' sound and vibration function. This stylish electronic furniture is taking the video game lovers to another level of enjoyment and giving the video game accessories a new fashion.

b) Leisure Furniture with Built-in Audio/Video System

This is a product series for home entertainment and leisure. The existing products include Rocker Chair and Cabinet with Built-in Speakers and Audio System, TV Stands with Built-in Audio/ Video System, etc. Our products are designed for consumers with a preference for modern stylish electronic products.

B) Multimedia/ Digital Speakers

With the popularization of PC and the digitization of the audio-visual entertainment, we believe that the multimedia speaker will become the main media for musical works in the future. Whether the audio track is X.1 or 2.0, the design philosophy of the multimedia speaker is based on the concept that the music should be expressed with high fidelity and transmitting the soul of music to people. As a manufacturer of multimedia speaker, our goal is to produce speaker systems that have comprehensive and balanced sound that maintain the integrity of the music. Under the trend that the global audio-visual entertainment is becoming digital, computerized and miniaturized, we have introduced five main product series, namely “nocturne”, “concerto”, “solo”, “chord” and “symphony”, and are devoted to bringing the music’s true sound to our customers. In the future development of multimedia speaker, we hope that our products’ stylish appearance, excellent performance and ingenious function will be our advantages in the market.

C) LCD/LED Televisions

As an upgraded TV product, we believe that LED TVs will occupy the mainstream market by virtue of its environmental friendly and energy efficient features, as well as its outstanding image quality. In the upcoming future, we believe that the competition in the flatscreen TV industry will focus on the LED TV. Conforming to this trend, we established the LED international business department. Our products consist mainly of LED TVs and PC TVs, both with a small size and thin appearance.

TV Specification

Our TV products support DVB-T, PAL, SECAM, DVB-T standard and MPEG2 decode MP@ML. Our digital TV products support MHEG5 (UK), EPG, SUBTITLE, and the AUDIO Language, and accept analogue and up to 1080P digital HD signals. Our TFT-LCD modules support resolution of up to 1920*1200, HDMI1.2, HDCP1.1, 2D motion video adaptive progressive compartment exchange of up to 1080i. The 2D motion video noise reduction function supports analogue and digital 10 pages teletext. The auto sound detect function supports NICAM/A2, Auto detect and recover between 3:2 and 2:2 format, and auto switch between 4:3 and 16:9 format. With a single common interface, it can decrypt all kinds of encrypted programs. With its software settings, it can choose the TS current either with or without descrambling. With the picture engine function, it can dynamically adjust the picture color, contrast ratio, complexion and definition, etc.

Raw Materials and Suppliers

Electronics components, Wooden Boxes, Modules, Frames, AC converters and other basic components are our main raw materials to produce electronic furniture, multimedia/ digital speakers, and LED/LCD televisions. We purchase all of our other raw materials and component parts from a variety of sources, none of which we believe to be a dominant supplier. Alternative sources of supply are believed to be available to the Company. Our top five raw material suppliers are listed below:

Top Five Suppliers

Marketing, Sales and Customers

Sales breakdown: The sales of our furniture audio products accounted for approximately 61% and 80% of the total sales in our fiscal years ended December 31, 2010 and 2009, respectively. The sales of our multimedia/digital speakers accounted for approximately 13% and 20% of the total sales in our fiscal years ended December 31, 2010 and 2009, respectively. We started the production of LED products in late April 2010, which accounted for approximately 26% of total sales in fiscal year ended December 31, 2010. The sales of our furniture audio products accounted for approximately 48% and 81.28% of the total sales for the six months ended June 30, 2011 and 2010, respectively. The sales of our multimedia/digital speakers accounted for approximately 25% and 14.59% of the total sales for the six months ended June 30, 2011 and 2010, respectively. The sales of LED products accounted for approximately 27% and 4.13% of total sales for the six months ended June 30, 2011 and 2010.

Marketing Strategies

Our marketing strategy focuses on the products' innovation and integration of multi-elements. In addition, we have been continuing to improve our products and raise the brand's market recognition, as we attempt to make the AIV brand a symbol of innovation, value and quality. We are also establishing flagship stores in certain targeted cities.

Sales Strategies

We are making full use of global resources such as Alibaba.com to promote our products. We also take part in various international exhibitions. In addition, we provide multipoint-to-point services to our major customers to ensure the after-sale services of our products.

We are integrating and completing the distribution network, completing the marketing strategy, supporting the main distributors and expanding the domestic market shares gradually.

Moreover, we maintain close cooperation with furniture manufacturers and related enterprises to integrate the advantages of furniture with that of the electronic devices.

Sales Channels and Partners

(A) Sales network of the general agency system. We have built a stable domestic sales network through the previous sales of its traditional products. The sales network includes the general distributors in each province. The general distributors have the rights to choose their own sub-distributors. Due to the high performance-price ratio and good quality of the products, we believe that we have accumulated a group of quality distributors, enhancing our domestic

sales network.

(B) Big order ODM customization system. Our main customers are well-known enterprises both domestic and overseas. At present, we have established a group of stable ODM customization customers, which helps us maintain more stable sales.

(C) Project orders. We customize office and entertainment electronic furniture for places such as internet bars, banks, security companies, airport VIP rooms and high-standard clubs.

(D) Global E-commerce platform. We have built a fixed platform for product promotion in E-commerce websites such as Alibaba and Global Resource. In the future, as the development of the wholesale model, we will establish broader E-commerce sales channels.

Sales Cycle

At present, our accounts receivables term for our main customers are 60 to 120 days, for our key customers 30 to 60 days, and the average term about 90 days.

Pricing strategy

We use the product portfolio pricing strategy which means different prices are applied to different products in the same product series. Some products' prices are low because the purpose is for cultivating the market and attracting customers. While some median and high-end products and technology innovation products' prices are high, and these products bring a higher profit margin to the Company.

Market Shares and Competitors

Our products compete with some branded products within their product category as well as privately labeled products sold by retailers, including some of our OEM/ ODM customers.

Our electronic furniture competes with Pyramat, Actona and other smaller manufacturers. Our products have held significant international market shares since 2006. In varying degrees, depending on the product category involved, we compete on the basis of style, price, quality, comfort and brand name prestige and recognition, among other considerations.

Our multimedia/digital speakers and LED/ LCD television products compete with numerous international branded products like Sony, Panasonic, Samsung, Phillips and LG, etc. Due to the lower costs and labor expenses in Asia Pacific regions, many international speaker manufacturers are establishing plants in Asia. This allows large manufacturers to compete with local manufacturers in pricing. Right now, we have a global market share of only about 0.3% on multimedia/digital speaker products. We did not start the production of LED/LCD television until late April 2010, and the general availability of contract manufacturers also allows the ease of access by new comers. Many of our competitors are larger in scale, have been in existence for a longer period of time, have achieved greater recognition for their brand names, have captured greater market shares and/or have substantially greater financial, distribution, marketing and other resources than we do. We are not sure whether we can compete against them right now or in the future, or that competitive pressures will have a material adverse effect on our business, financial condition and results of operations.

Business Model

We conduct our quality management in strict compliance with ISO9001 international quality management standard. We believe that quality, cost control and efficiency are the three components to the Company's competitiveness; that integrity, innovation and values are the three components to the Company's management philosophy; and that people, environment and technology are the three components to the Company's design philosophy. Our goals are to:

- 1) Achieve the new integration of electronic and furniture industries, and persist in innovation as the strategy of industry development;
- 2) Ensure a steady and healthy expansion or growth of the Company, and build a long lasting well known national brand by setting up flagship stores on main cities;

3) Create a beneficial-to-all situation among the Company, staff, shareholders, customers, partners and the society by providing quality products with competitive prices.

Growth Strategy

We intend to grow our business by improving our marketing, financial, production and human resource management:

Marketing Management

Management department. We established two decision-making departments, namely the General Manager Office and the Cost Control Committee. The General Manager Office makes decisions regarding the strategic issues such as the Company's development strategy and operation plan, etc, and also supervises the implementation status. The Cost Control Committee manages the control over all the costs on the premise so that the Company meets its targets.

Incentive and restriction mechanism. We have entered into several employment contracts, confidentiality agreements and restrictive covenants with the management and other employees, the business department and the product R&D department. The employees' salary and bonus are based on their performance. Also, we have a periodical salary-raise program. We raise staffs' salary after the testing in April of each year. And every year, we issue special recognition awards and grants special bonus and certificates to outstanding employees.

Promotion and publicity. We believe that the domestic furniture audio market will have a big influence on the domestic IT industry and furniture industry. Electronic furniture products have been widely introduced in the media such as “Brands Shenzhen”, “Times Entrepreneur”, “ZOL” and “IT168”. We also conduct the promotion via E-commerce platforms such as Alibaba and Global Resource.

Financial Management

Establish a cost control system. We intend to establish a standard cost control system, execute the cost budget management policy and complete the ERP (Enterprise Resource Planning) management system for cost control purposes.

Complete the financing capital chain. With multiple financing channels, we attempt to stabilize our capital chain and to efficiently use our proceeds which improve our business transactions.

Production Management

PMC (Product Material Control) Management. We believe that the improvement of the material and plan management capacities is the key to a successful management.

- Production Plan Management: all the elements involved in this management should be precise and detailed, from the origin of the plan information (such as sales and prediction), organization of the plan outline, the relationship between production plan and the amount of time spent, the production cycle to the arrangement of the production period.
- Plan and Material Control Management: all the elements involved in this management should be managed strictly, from the origin of the MRP (Material Requirement Planning) data, product sheet and material list, the execution and control of the material requirement plan, product material cost management to the material management of production field, to ensure the Company’s material cycle, cost and consumption be always under the ideal condition.

Field Management. We attempt to limit any waste of resources such as material, labor, time, space, energy and transportation. We also adopted effective management systems to control and manage the key processes such as flow-chart, instruction tracing, shipment, field 7S (Seiri, Seiton, Seiso, Shitsuke, Safety, Speed and Saving) and lean production, to ensure the production field is running at full load.

Human Resources Management

We promote the SOP (Standard Operation Procedure) and establish the KPI (Key Performance Indication) check system to make our human capital more valuable. It persists in the principle of benefit sharing and has established scientific incentive mechanisms to attract talents. Through this mechanism, we have put together a team of elites on technology development, market exploration, operation management and quality management.

Intellectual Property

We own and utilize the trademarks, patents and domain name listed below. We continuously look to increase the number of our trademarks and potential design and utility model patents where necessary to protect valuable intellectual property. We regard our trademarks and other intellectual property as valuable assets and believe that they have significant value in the marketing of our products. We vigorously protect our trademarks against infringement, including through the use of cease and desist letters, administrative proceedings and lawsuits.

We rely on trademark, patent, copyright and trade secret protection, non-disclosure agreements and licensing arrangements to establish, protect and enforce intellectual property rights in our logos, trade names and in the design of our products. In particular, we believe that our future success will largely depend on our ability to maintain and protect the “AIVTECH” trademark. Despite our efforts to safeguard and maintain our intellectual property rights, we cannot be certain that we will be successful in this regard. Furthermore, we cannot be certain that our trademarks, products and promotional materials or other intellectual property rights do not or will not violate the intellectual property rights of others, that our intellectual property would be upheld if challenged, or that we would, in such an event, not be prevented from using our trademarks or other intellectual property rights. Such claims, if proven, could materially and adversely affect our business, financial condition and results of operations. In addition, although any such claims may ultimately prove to be without merit, the necessary management attention to and legal costs associated with litigation or other resolution of future claims concerning trademarks and other intellectual property rights could materially and adversely affect our business, financial condition and results of operations.

The laws of certain foreign countries do not protect intellectual property rights to the same extent or in the same manner as do the laws of the PRC. Although we continue to implement protective measures and intend to defend our intellectual property rights vigorously, these efforts may not be successful or the costs associated with protecting our rights in certain jurisdictions may be prohibitive. From time to time we may discover products in the marketplace that are counterfeit reproductions of our products or that otherwise infringe upon intellectual property rights held by us. Actions taken by us to establish and protect our trademarks and other intellectual property rights may not be adequate to prevent imitation of our products by others or to prevent others from seeking to block sales of our products as violating trademarks and intellectual property rights. If we are unsuccessful in challenging a third party's products on the basis of infringement of our intellectual property rights, continued sales of such products by that or any other third party could adversely impact the "AIVTECH" brand, result in the shift of consumer preferences away from our products and generally have a material adverse effect on our business, financial condition and results of operations.

In order to produce electronic furniture, digital/multimedia speakers, and LCD/LED televisions, we must obtain China Compulsory Product Certification, or CCC authentication, for all our products. CCC authentication is a product conformity assessment system that is executed by the Chinese government based on the WTO agreement and the international prevailing rules, with the purpose to protect consumers, personal and animal life safety, protect the environment and the national security. The CCC products must be tested by the authorized organizations. And the products can be exported, imported and sold only after they pass the tests. All of our products are with the CCC authentication.

Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign Invested Enterprises

On August 29, 2008, State Administration of Foreign Exchange, or SAFE, promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign Invested Enterprises, or SAFE Circular 142, regulating the conversion by a foreign-invested enterprise of foreign currency registered capital into Renminbi by restricting how the converted Renminbi may be used. SAFE Circular 142 provides that the Renminbi capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC, unless it is provided for otherwise. In addition, SAFE strengthened its oversight of the flow and use of the Renminbi capital converted from foreign currency registered capital of a foreign-invested company. The use of such Renminbi capital may not be altered without SAFE approval, and such Renminbi capital may not in any case be used to repay Renminbi loans if the proceeds of such loans have not been used. If we raise any funds in the United States in the further, we expect that if we convert the net proceeds into Renminbi pursuant to SAFE Circular 142, our use of Renminbi funds will be for purposes within the approved business scope of our PRC subsidiaries. Such business scope permits our PRC subsidiaries to provide technical and operational support to our consolidated entities. However, we may not be able to use such Renminbi funds to make equity investments in the PRC through our PRC subsidiaries.

Export Laws and Regulations

We are subject to various governmental regulations related to exportation. The major export regulations applicable to us include:

- the Customs Law of the PRC;
- the Regulation of the PRC on the Administration of The Import And Export of Goods.

These laws and regulations set out standards and requirements for various aspects of export and import of goods, custom registration, sanitary registration and inspection. Failure to comply with these laws and regulations may result in confiscation of our products and proceeds from the sales of non-compliant products, warn, order for correction, fines, revocation of licenses, and, in extreme cases, criminal liability. We have obtained all permits and licenses required for export of our products and believe we are in material compliance with all applicable laws and regulations.

Laws and Regulations of Intellectual Property Rights

China has adopted legislation governing intellectual property rights, including patents, copyrights and trademarks. China is a signatory to the main international conventions on intellectual property rights and became a member of the Agreement on Trade Related Aspects of Intellectual Property Rights upon its accession to the WTO in December 2001.

Patents

The “Patent Law of the People’s Republic of China” promulgated by the Standing Committee of the National People’s Congress in 1984 and revised in 1992, 2000 and 2008, protects registered patents. The State Intellectual Property Office of PRC, or SIPO, handles granting patent right.

When a patent infringement dispute arises, the patent holder or an interested party who believes the patent is being infringed may either file a civil lawsuit or file an administrative complaint with a provincial or municipal office of SIPO. A PRC court may grant the patent holder’s or the interested party’s request for a preliminary injunction before or during the legal proceeding. Damages for infringement are calculated as the actual loss suffered by the patent holder or the interested party due to the infringement, or if such actual loss is difficult to ascertain, the benefit gained by the infringer from the infringement. If it is difficult to ascertain damages in this manner, damages may be determined by using a reasonable multiple of the license fee under a contractual license in addition to reasonable expenses of the patent holder’s or the interested party’s efforts in stopping the infringement.

The PRC is also a signatory to all major intellectual property conventions, including the Paris Convention for the Protection of Industrial Property, Madrid Agreement on the International Registration of Marks and Madrid Protocol, Patent Cooperation Treaty, Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure and the Agreement on Trade-Related Aspects of Intellectual Property Rights, or TRIPs.

Although patent rights are national rights, there is a large amount of international co-operation under the Patent Cooperation Treaty, or the PCT, to which China is a signatory. Under the PCT, applicants in one country can seek patent protection for an invention simultaneously in a number of other member countries by filing a single international patent application.

Trademarks

The “Trademark Law of the People’s Republic of China” promulgated by the Standing Committee of the National People’s Congress of PRC, adopted in 1982 and revised in 1993 and 2001, protects registered trademarks. The Trademark Office under the Chinese State Administration for Industry and Commerce handles trademark registrations and grants a term of ten years each time to registered trademarks which are renewable for another ten years after the application to the Trademark Office by the owners of the trademarks. Trademark license agreements must be filed with the Trademark Office for record. China has a “first-to-register” system that requires no evidence of prior use or ownership. We have registered trademarks as described under Business/Intellectual Property of our prospectus. Accordingly, such trademarks are entitled to the protection under the Trademark Law.

Regulation of Work Safety

On June 29, 2002, the Work Safety Law of the PRC was adopted by the Standing Committee of the 9th National People’s Congress and came into effect on November 1, 2002, as amended on August 27, 2009. The Work Safety Law

provides general work safety requirements for entities engaging in manufacturing and business activities within the PRC. Additionally, Regulation on Work Safety Licenses, as adopted by the State Council on January 7, 2004 effective on January 13, 2004, requires enterprises engaging in the manufacture of dangerous chemicals to obtain a work safety license with a term of three years. If a work safety license needs to be extended, the enterprise must go through extension procedures with authorities three months prior to its expiration. In addition, on May 17, 2004, the Measures for Implementation of Work Safety Licenses of Dangerous Chemicals Production was promulgated as implementing measures to the Regulation on Work Safety Licenses which provides that entities producing dangerous chemicals are required to obtain work safety licenses pursuant to specific requirements. Without work safety licenses, no entity may engage in the formal manufacture of dangerous chemicals.

The Regulations on the Safety Administration of Dangerous Chemicals was promulgated by the State Council on January 26, 2002, effective as of March 15, 2002. It sets forth general requirements for manufacturing and the storage of dangerous chemicals in China. The Regulations on the Safety Administration of Dangerous Chemicals requires that companies manufacturing dangerous chemicals establish and strengthen their internal regulations and rules on safety control and fulfill the national standards and other relevant provisions of the State. In addition, according to the Regulations on the Safety Administration of Dangerous Chemicals, companies that manufacture, store, transport or use dangerous chemicals shall be required to obtain corresponding approvals or licenses with the State Administration of Work Safety and its local branches and other proper authorities. Companies that manufacture or store dangerous chemicals without approval or registration with the proper authorities can be shut down, ordered to stop manufacturing or ordered to destroy the dangerous chemicals. Such companies can also be subject to fines. If criminal law is violated, the persons chiefly liable, along with other personnel directly responsible for such impropriety, shall be subject to relevant criminal liability.

Regulations on Environmental Protection

According to the Prevention and Control of Water Pollution Law, as adopted by the Standing Committee of the 10th National People's Congress on February 28, 2008 and effective on June 1, 2008, China adopted a licensing system for pollutant discharge. Companies directly or indirectly responsible for discharge of industrial waste water or medical sewage to waters shall be required to obtain a pollutant discharge license. All companies are prohibited from discharging wastewater and sewage to waters without or in violation of the terms of the pollutant discharge license.

Family Relationships

There are no family relationships exist between the directors and executive officers of the Company.

The Board of Directors and Committees

Currently, our board of directors has determined that each of the non-management directors, Jian Wang and Wenbin Wu, is an "independent" director as defined by the listing standards of NASDAQ Global Market currently in effect and approved by the U.S. Securities and Exchange Commission ("SEC") and all applicable rules and regulations of the SEC. All members of the Audit, Compensation and Nominating Committees satisfy the "independence" standards applicable to members of each such committee. The board of directors made this affirmative determination regarding these directors' independence based on discussions with the directors and on its review of the directors' responses to a standard questionnaire regarding employment and compensation history; affiliations, family and other relationships; and transactions with the Company. The board of directors considered relationships and transactions between each

director or any member of his immediate family and the Company and its subsidiaries and affiliates. The purpose of the board of director's review with respect to each director was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent under the NASDAQ Global Market rules.

Audit Committee

We established our Audit Committee in September 2010. The Audit Committee consists of Jian Wang and Wenbin Wu, each of whom is an independent director. Wenbin Wu, Chairman of the Audit Committee, is an "audit committee financial expert" as defined under Item 407(d) of Regulation S-K. The purpose of the Audit Committee is to represent and assist our board of directors in its general oversight of our accounting and financial reporting processes, audits of the financial statements and internal control and audit functions. The Audit Committee's responsibilities include:

- Assisting the Board of Directors in fulfilling its responsibilities by reviewing: (i) the financial reports provided by the Corporation to the Securities and Exchange Commission (“SEC”), the Corporation’s stockholders or to the general public, and (ii) the Corporation’s internal financial and accounting controls.
- Overseeing the appointment, compensation, retention and oversight of the work performed by any independent public accountants engaged by the Company.
- Recommending, establishing and monitoring procedures designed to improve the quality and reliability of the disclosure of the Company’s financial condition and results of operations

The board of directors has adopted a written charter for the Audit Committee. A copy of the Audit Committee Charter is posted on our corporate website at: www.aivtechgroup.com.

Compensation Committee

We established our Compensation Committee in September 2010. The Compensation Committee consists of Jian Wang and Wenbin Wu, each of whom is an independent director. Mr. Wenbin Wu is the Chairman of the Compensation Committee. The Compensation Committee is responsible for reviewing and approving corporate goals and objectives relevant to chief executive officer and senior management compensation, evaluating chief executive officer and senior management performance in light of those goals and objectives and, either as a committee or together with other independent directors (as directed by the Board of Directors), determining and approving chief executive officer and senior management compensation based on this evaluation. The Compensation Committee also considers and makes recommendations to the Board of Directors with respect to the Company’s employee benefit plans as well as on matters relating to organization and succession of senior management.

The Board of Directors has adopted a written charter for the Compensation Committee. A copy of the Compensation Committee Charter is posted on our corporate website at: www.aivtechgroup.com.

Nominating Committee

We established our Nominating Committee in September 2010. The Nominating Committee consists of Jian Wang and Wenbin Wu, each of whom is an independent director. Mr. Jian Wang is the Chairman of the Nominating Committee. The Nominating Committee makes recommendations to the Board with respect to the size and composition of the Board, the minimum qualifications and standards for director nominees and the selection criteria for the Board members, reviews the qualifications of potential candidates for the Board, and seeks and identifies a qualified director nominee, in the event that a director vacancy occurs, to be recommended to the Board for either appointment by the Board to serve the remainder of the term of a director position that is vacant or election at the annual meeting of the shareholders.

The Board of Directors has adopted a written charter for the Nominating Committee. A copy of the Nominating Committee Charter is posted on our corporate website at: www.aivtechgroup.com.

Involvement in Certain Legal Proceedings

Our directors and officers have not been convicted in a criminal proceeding, excluding traffic violations or similar misdemeanors, nor have been a party to any judicial or administrative proceeding during the past ten years that resulted in a judgment, decree or final order enjoining the person from future violations of, or prohibiting activities subject to, federal or state securities laws, or a finding of any violation of federal or state securities laws, except for matters that were dismissed without sanction or settlement. Except as set forth in our discussion below in “Certain

Relationships and Related Transactions,” our directors and officers have not been involved in any transactions with us or any of our affiliates or associates which are required to be disclosed pursuant to the rules and regulations of the SEC.

Code of Ethics and Business Conduct

In September 2010, our board of directors adopted a Code of Ethics and Business Conduct, which applies to all directors, officers and employees. The purpose of the Code is to promote professional and ethical conduct with respect to our business practices worldwide. A copy of the Code is posted on our corporate website located at www.aivtechgroup.com. The Code is available in print, without charge, upon written request to us at AIVtech International Group Co., Attention: Secretary, 1305 East, Hightech Plaza, Phase 2, Tian’an Cyber Park, Futian District, Shenzhen City, Guangdong Province, China. We intend to post promptly any amendments to or waivers of the Code on our corporate website.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On April 16, 2010, our then majority shareholders entered into certain stock purchase agreements with certain purchaser, pursuant to which Jie Zhang purchased 3,000,000 shares of the Company's issued and outstanding common stock from Galina Birca, our then President and CEO; and 2,900,000 shares of the Company's issued and outstanding common stock from Vladimir Enachi, our then CFO and Director. The total of 5,900,000 shares represents 61.3% of the Company's then outstanding common stock. Jie Zhang paid a total of \$29,500 to Galina Birca and Vladimir Enachi for their shares.

On May 12, 2010, we entered into a share exchange agreement by and among AIVtech, AIVtech-HK, and the shareholders of AIVtech-HK. The closing of the transaction took place on May 12, 2010. Pursuant to the terms of the share exchange agreement, we acquired all of the outstanding shares of AIVtech-HK from its shareholders; in exchange, we (1) issued to the shareholders of AIVtech-HK, their designees or assigns, an aggregate of 10,375,000 shares or 51.88% of the shares of our common stock at the time of the transaction, at \$0.005 per share; and (2) pay cash of \$3,948,125 to the AIVtech shareholders in the form of promissory note payable within twelve months of the transaction. Pursuant to the share exchange agreement, AIVtech-HK became our wholly-owned subsidiary, and we own 100% of AIVtech-Shenzhen through AIVtech-HK, and 70% of AIVtech-Dongguan through AIVtech-Shenzhen. Jinlin Guo, our chief executive officer and chairman, owns the other 30% of AIVtech-Dongguan.

AIVtech-HK is a holding company incorporated under the laws of Hong Kong on November 4, 2005 with subsidiaries engaged in manufacturing casual furniture audio series, multimedia speakers, and LED. AIVtech-HK owns 100% of AIVtech-Shenzhen, a company incorporated on October 26, 2004 under the laws of the PRC. AIVtech-Shenzhen owns 70% of AIVtech-Dongguan, a company incorporated on December 25, 2009 under the laws of the PRC. AIVtech-Shenzhen was owned by JinLin Guo and Lanbin Ding of 87.5% and 12.5%, respectively. On March 30, 2010, Jinlin Guo transferred all the 87.5% interest to AIVtech-HK in exchange for RMB 4,375,000 (or \$0.64 million), and Lanbin Ding transferred all the 12.5% interest to AIVtech-HK in exchange for RMB 625,000 (\$0.9 million). AIVtech-Shenzhen became a wholly-owned subsidiary of AIVtech-HK and a wholly foreign owned enterprise in the PRC after the transaction.

As of September 30, 2011 and December 31, 2010, related party transactions consisted of the following:

- (a) During the normal course of the business, the Company, from time to time, temporarily borrows money from its principal shareholders or officers to finance working capital needs. The amounts are usually unsecured, non-interest bearing and due on demand.
- (b) In May 2010, AIVtech-Shenzhen entered into an agreement with Shenzhen Top Finance Guaranty Investment Inc., in which Shenzhen Top Finance Guaranty Investment Inc. agreed to pay, on behalf of AIVtech-Shenzhen, all legal, audit, consulting and other expense in connection with AIVtech-Shenzhen's efforts of going public in the United States. Other than the above, none of the following persons has any direct or indirect material interest in any transaction to which we are a party since our incorporation or in any proposed transaction to which we are proposed to be a party:

- (A) Any of our directors or officers;
- (B) Any proposed nominee for election as our director;
- (C) Any person who beneficially owns, directly or indirectly, shares carrying more than 10% of the voting rights attached to our common stock; or
- (D) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same house as such person or who is a director or officer of any parent or subsidiary of our company.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On January 6, 2011, our board of directors dismissed Acquavella, Chiarelli, Shuster, Berkower & Co., LLP ("ACSB") as our independent registered public accounting firm, and we engaged a new independent registered public accounting firm, Friedman LLP ("Friedman"), to serve as our independent auditor. Pursuant to Item 304(a) of Regulation S-K under the Securities Act of 1933, as amended, and under the Securities Exchange Act of 1934, as amended, we reports as follows:

- (a) Dismissal of Current Independent Registered Public Accounting Firm.
 - (i) ACSB was dismissed as our independent registered public accounting firm effective on January 6, 2011;

- (ii) Our Board of Directors participated in and approved the decision to dismiss our previous independent registered public accounting firm on January 6, 2011;
- (iii) ACSB's audit reports on the financial statements of AIVtech-HK, for the years ended December 31, 2009 and 2008, did not contain an adverse opinion or a disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles;
- (iv) we did not have any disagreements with ACSB relating to any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure for the audited financials of AIVtech-HK for the two fiscal years ended December 31, 2009 and 2008, and the review on our financial statements from its engagement on May 12, 2010 through the date of dismissal on January 6, 2011, which disagreements, if not resolved to the satisfaction of ACSB, would have caused us to make reference to the subject matter of the disagreements in connection with our reports; and
- (v) In connection with the audited financial statements of AIVtech-HK for the years ended December 31, 2009 and 2008 and quarterly interim unaudited financial information of the Company from May 12, 2010 and for any subsequent interim period through the date of dismissal on January 6, 2011, there have been no reportable events with the Company as set forth in Item 304(a)(1)(v) of Regulation S-K.

(b) Engagement of New Independent Registered Public Accounting Firm.

- (i) On January 6, 2011, we engaged Friedman to serve as our independent registered public accounting firm. The decision to engage Friedman was approved by the Board of Directors on January 6, 2011; and
- (ii) prior to engaging Friedman, we had not consulted Friedman regarding (1) the application of accounting principles to a specified transactions, (2) the type of audit opinion that might be rendered on the Company's financial statements, (3) written or oral advice was provided that would be an important factor considered by the Company in reaching a decision as to an accounting, auditing or financial reporting issues, or (4) any matter that was the subject of a disagreement between the Company and its predecessor auditor as described in Item 304(a)(1)(iv) or a reportable event as described in Item 304(a)(1)(v) of Regulation S-K.

In addition, Ronald R. Chadwick, P.C. was our independent auditor before we engaged ACSB in connection with the acquisition closed in May 2010. On May 12, 2010, we dismissed Ronald R. Chadwick, P.C. ("Ronald") as our independent registered public accounting firm. The Board of Directors of the Company approved such resignation on May 12, 2010.

During the fiscal years ended September 30, 2009 and 2008 and through May 12, 2010, neither us nor anyone acting on our behalf consulted ACSB with respect to (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither a written report was provided to us or oral advice was provided that ACSB concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement or reportable events set forth in Item 304(a)(1)(v) of Regulation S-K.

SELLING STOCKHOLDERS

We are registering for resale shares of our common stock that are issued and outstanding held by the selling stockholders named below. We are registering the shares to permit the selling stockholders and their pledgees, donees, transferees and other successors-in-interest that receive their shares from a selling stockholder as a gift, partnership distribution or other non-sale related transfer after the date of this prospectus to resell the shares when and as they deem appropriate in the manner described in the “Plan of Distribution.” As of the date of this prospectus we have 22,816,935 shares of common stock issued and outstanding (on a fully diluted basis, including the shares issuable upon the exercise of the Warrants)

The following table sets forth:

- the name of the selling stockholders,
- the number of shares of our common stock that the selling stockholders beneficially owned prior to the offering for resale of the shares under this prospectus,
- the maximum number of shares of our common stock that may be offered for resale for the account of the selling stockholders under this prospectus, and
- the number and percentage of shares of our common stock to be beneficially owned by the selling stockholders after the offering of the shares (assuming all of the offered shares are sold by the selling stockholders).

None of the selling stockholders has served as our officer or director or any of its predecessors or affiliates within the last three years, nor has any selling stockholders had a material relationship with us.

We entered into a placement agent agreement with Global Hunter Securities, LLC on December 29, 2010 whereby we agreed to (i) pay a cash fee equal to two percent (2%) of the gross proceeds received by us in connection with the private placement, (ii) issue five-year warrants to purchase shares of our common stock equal to two percent (2%) of the shares of common stock issued in the private placement, and (iii) reasonable expenses relating to the Private Placement.

Except for Global Hunter Securities, LLC, none of the selling stockholders is a broker dealer or an affiliate of a broker dealer. None of the selling stockholders had any agreement or understanding, directly or indirectly, to distribute any of the shares being registered at the time of purchase.

Each selling stockholder may offer for sale all or part of the shares from time to time. The table below assumes that the selling stockholders will sell all of the shares offered for sale. A selling stockholder is under no obligation, however, to sell any shares pursuant to this Prospectus.

Name and Address of Selling Stockholders	Shares of Common Stock Beneficially Owned prior to Offering (1)	Maximum Number of Shares of Common Stock to be Offered (2)	Number of Shares of Common Stock Beneficially Owned after Offering	Percentage of Common Stock Owned after Offering (3)

Global Hunter Securities, LLC (6)	50,267	50,267	0	0	%
Total	2,814,935	2,814,935	0	0	%

- (1) Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, securities that are currently exercisable into shares of our common stock, or exercisable into shares of our common stock within 60 days of the date hereof are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Each stockholder named in the table has sole voting and investment power with respect to the shares set forth opposite such stockholder's name.
- (2) Includes the number of shares of common stock set forth opposite each Selling Stockholders' name, and the number of shares of common stock that may be issued pursuant to the Investor Warrants and Placement Agent Warrants.
- (3) Based on 2,816,935 shares of common stock issued and outstanding after the Offering on a fully diluted basis, assuming the sale of all of the common shares offered.

- (4) Consists of (i) 1,513,334 shares of common stock issued in the Private Placement, and (ii) 151,334 shares of common stock underlying the Investor Warrants to purchase 151,334 shares of common stock at an exercise price of \$4.00 per share. Its current business address is Rooms 1318-19, Hollywood Plaza, 610 Nathan Road, Mongkok KI, Hong Kong. Rong Chen has the voting and control power over CRL International Company Limited.
- (5) Consists of (i) 1,000,000 shares of common stock issued in the Private Placement, and (ii) 100,000 shares of common stock underlying the Investor Warrants to purchase 100,000 shares of common stock at an exercise price of \$4.00 per share. Its current business address is #2101, 2 Men, 13 Lou, Zhongxin, Jiayuan, Ma Lian Dao, Xuan Wu Qu, Beijing, China 100053. Zhang Huan has the voting and control power over United Equity Partners Limited.
- (6) Consists of 50,267 shares of common stock underlying the Placement Agent Warrants to purchase 50,267 shares of common stock at an exercise price of \$4.00 per share. Its current business address is 400 Poydras St., Suite 3100, New Orleans, LA. 70130. Daniel O. Conwill, IV has the voting and control power over Global Hunter Securities, LLC.

PLAN OF DISTRIBUTION

This Prospectus relates to the resale of 2,814,935 shares of our common stock issued or to be issued upon the exercise of certain outstanding warrants, including our Investor Warrants and Placement Agent Warrants. We will not receive any of the proceeds from the sale by the selling stockholders of the registered securities. Upon any exercise of the warrants by payment of cash, however, we will receive the exercise price of the warrants.

The selling shareholders may use any one or more of the following methods when disposing of shares or interests therein:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;

short sales effected after the date the registration statement of which this Prospectus is a part is declared effective by the SEC;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

broker-dealers may agree with the selling shareholders to sell a specified number of such shares at a stipulated price per share; and

- a combination of any such methods of sale.

The selling shareholders may, from time to time, pledge or grant a security interest in some or all of the common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the common stock, from time to time, under this prospectus, or under an amendment to this

prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus. The selling shareholders also may transfer the securities in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of our common stock or interests therein, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling shareholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The aggregate proceeds to the selling shareholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts or commissions, if any. Each of the selling shareholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

Broker-dealers engaged by the selling shareholders may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchase of shares, from the purchaser) in amounts to be negotiated. The selling shareholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved, and in no case will the maximum compensation received by any broker-dealer exceed eight percent (8%).

The selling shareholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided that they meet the criteria and conform to the requirements of that rule.

Any underwriters, agents, or broker-dealers, and any selling shareholders who are affiliates of broker dealers that participate in the sale of the common stock or interests therein may be “underwriters” within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling shareholders who are “underwriters” within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act. We know of no existing arrangements between any of the selling shareholders and any other stockholder, broker, dealer, underwriter, or agent relating to the sale or distribution of the shares, nor can we presently estimate the amount, if any, of such compensation. See “Selling shareholders” for description of any material relationship that a stockholder has with us and the description of such relationship.

To the extent required, the shares of our common stock to be sold, the names of the selling shareholders, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling shareholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling shareholders and their affiliates. In addition, we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling shareholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling shareholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

We have agreed to pay certain fees and expenses incurred by us incident to the registration of the shares. Such fees and expenses are estimated to be \$60,000. We have agreed to indemnify the selling shareholders against liabilities, including liabilities under the Securities Act and state securities laws, relating to the registration of the shares offered by this prospectus.

We have agreed with the selling shareholders to keep the registration statement of which this prospectus constitutes a part effective until the earlier of (1) such time as all of the shares covered by this prospectus have been disposed of pursuant to and in accordance with the registration statement or (2) the date on which the shares may be sold pursuant to Rule 144 of the Securities Act.

DESCRIPTION OF SECURITIES TO BE REGISTERED

We are authorized to issue 75,000,000 shares of common stock, \$0.001 par value per share, and no preferred stock is authorized.

Common Stock

As of the date hereof, 22,515,334 shares of common stock are issued and outstanding.

The holders of our common stock have equal ratable rights to dividends from funds legally available if and when declared by our board of directors and are entitled to share ratably in all of our assets available for distribution to holders of common stock upon liquidation, dissolution or winding up of our affairs. Our common stock does not provide the right to a preemptive, subscription or conversion rights and there is no redemption or sinking fund provisions or rights. Our common stock holders are entitled to one non-cumulative vote per share on all matters on which shareholders may vote.

Holders of shares of our common stock do not have cumulative voting rights, which means that the holders of more than 50% of the outstanding shares, voting for the election of directors, can elect all of the directors to be elected, if they so choose, and, in that event, the holders of the remaining shares will not be able to elect any of our directors.

Warrants

The outstanding warrants to purchase our common stock were issued in conjunction with a purchase of units consisting of one (1) share of our common stock and a four-year warrant to purchase one-tenth share of our common stock. Investor Warrants to purchase 251,334 shares of our common stock have been issued to investors and Placement Agent Warrants to purchase 50,267 shares of our common stock have been issued to the placement agent. The Warrants may be exercisable in whole or in part, at an exercise price equal to \$4.00 per share. The Warrants may be exercised at any time upon the election of the holder, beginning on the date of issuance and ending on December 28, 2015. The Warrants may be exercised (i) by certified or official bank check or by wire transfer to an account designated by us, (ii) on a cashless basis, or (iii) by a combination of the foregoing methods of payment selected by the holder of the Warrants.

The Warrants are detachable and separately transferable only during the warrant exercise period. Upon the expiration of the Warrant exercise period, the Warrants will expire and become void.

In order to exercise the Warrants, the Warrants must be surrendered at the office of the warrant agent prior to the expiration of the warrant exercise period, with the form of exercise appearing with the Warrants completed and executed as indicated, accompanied by payment of the full exercise price for the number of Warrants being exercised. In the case of partial exercise, the warrant agent will issue a new warrant to the exercising Warrant holder, or assigns, evidencing the Warrants which remain unexercised. In our discretion, the warrant agent may designate a location other than our office for surrender of warrants in the case of transfer or exercise.

The exercise price and number of the shares of common stock to be received upon the exercise of warrants are subject to adjustment upon the occurrence of certain events, such as stock splits, stock dividends or our recapitalization. In the event of our liquidation, dissolution or winding up, the holders of warrants will not be entitled to participate in the distribution of our assets.

Holders of warrants have no voting, pre-emptive, subscription or other rights of stockholders in respect of the warrants or the shares issuable upon exercise of the warrants, nor are the holders entitled to receive dividends.

Dividend Policy

We have paid dividends in the amount of \$4,400,634 for the nine months ended September 30, 2010. It is unlikely that we will declare or pay cash dividends in the foreseeable future. We intend to retain earnings, if any, to expand our operations. To date, we have paid no dividends on our shares of common stock and have no present intention of paying any dividends on our shares of common stock in the foreseeable future. The payment by us of dividends on the shares of common stock in the future, if any, rests solely within the discretion of our board of directors and will depend upon, among other things, our earnings, capital requirements and financial condition, as well as other factors deemed relevant by our board of directors.

In addition, under the PRC laws on the distribution of dividends by our PRC operating companies, we may not be able to pay dividends to our stockholders. The Wholly Foreign Owned Enterprise Law (1986), as amended, and The Wholly-Foreign Owned Enterprise Law Implementing Rules (1990), as amended and the Company Law of the PRC (2006), contain the principal regulations governing dividend distributions by wholly foreign owned enterprises. Under these regulations, wholly foreign owned enterprises may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. Additionally, such companies are required to set aside a certain amount of their accumulated profits each year, if any, to fund certain reserve funds. These reserves are not distributable as cash dividends except in the event of liquidation and cannot be used for working

capital purposes. The PRC government also imposes controls on the conversion of RMB into foreign currencies and the remittance of currencies out of the PRC. Therefore, we may experience difficulties in completing the administrative procedures necessary to obtain and remit foreign currency for the payment of dividends from our profits. Furthermore, if our subsidiaries and affiliates in China incur debt on their own in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments.

Nevada Anti-Takeover Laws and our Corporate Policy

Nevada Revised Statutes sections 78.378 to 78.379 provide state regulation over the acquisition of a controlling interest in certain Nevada corporations unless the articles of incorporation or bylaws of the corporation provide that the provisions of these sections do not apply. Our articles of incorporation and bylaws do not state that these provisions do not apply. The statute creates a number of restrictions on the ability of a person or entity to acquire control of a Nevada Corporation by setting down certain rules of conduct and voting restrictions in any acquisition attempt, among other things. The statute is limited to corporations that are organized in the state of Nevada and that have 200 or more stockholders, at least 100 of whom are stockholders of record and residents of the State of Nevada; and does business in the State of Nevada directly or through an affiliated corporation. Because of these conditions, the statute currently does not apply to us.

The anti-takeover provisions of Sections 78.411 through 78.445 of the Nevada Corporation Law apply to our company. Section 78.438 of the Nevada law prohibits companies from merging with or selling more than 5% of its assets or stock to any shareholder who owns or owned more than 10% of any stock or any entity related to a 10% shareholder for three years after the date on which the shareholder acquired the shares, unless the transaction is approved by the our Board of Directors. The provisions also prohibit companies from completing any of the transactions described in the preceding sentence with a 10% shareholder who has held the shares more than three years and its related entities unless the transaction is approved by our Board of Directors or a majority of our shares, other than shares owned by that 10% shareholder or any related entity. These provisions could delay, defer or prevent a change in control of our company.

Indemnification and limitation of liability. Under the terms of our Articles and Bylaws, we will indemnify our officers, directors, employees, and agents against all liabilities and expenses actually and reasonably incurred in connection with service for or on behalf of the corporation to the fullest extent allowed by Chapter 78 of the Nevada Revised Statutes, unless it is ultimately determined by a court of competent jurisdiction that (i) they failed to act in a manner they believed in good faith to be in, or not opposed to, the best interests of the corporation, and (ii) with respect to any criminal proceeding, had reasonable cause to believe their conduct was lawful. In addition, the applicable provisions mandate that we indemnify our officers and directors who have been successful on the merits or otherwise in the defense of any such action, suit, or proceeding against expenses (including attorneys' fees) actually and reasonably incurred by them in connection with such defense. The Articles also eliminate, to the fullest extent permitted by Nevada law, the liability of directors and officers to the corporation or our stockholders for monetary or other damages for breach of fiduciary duties as a director or officer.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - ORGANIZATION

AIVtech International Group Co., (the “Company” or “AIVI”), formerly known as Ecochild, Inc., is a corporation organized under the laws of the State of Nevada. Through its operating subsidiaries in People’s Republic of China (“China”, or the “PRC”), the Company engaged in the design and manufacturing casual furniture audio series, multimedia speakers, and LED business in China.

AIVtech Holding Limited (“AIVtech”) is a corporation organized under the laws of Hong Kong on November 4, 2005, and owns 100% equity interest of Shenzhen AIVtech, a limited liability company organized under the laws of the People’s Republic of China on October 16, 2004. Shenzhen AIVtech owns 70% equity interest of Dongguan AIVtech, a limited liability company organized under the laws of the PRC in December 2009.

In March 2011, the Company’s new subsidiary Henan AIVtech Technology Company, Ltd. (“Henan AIVtech”) was formed by Shenzhen AIVtech, with a registered capital of RMB 50 million (approximate to \$7.6 million). As of September 30, 2011, a total capital contribution of RMB 10 million (approximate to \$1.5 million) was contributed to Henan AIVtech, of which RMB 6 million was contributed by Shenzhen AIVtech and RMB 4 million was contributed by Mr. Jinlin Guo, the Chief Executive Officer of the Company. As a result, the Company now directly controls Henan AIVtech, a limited liability company organized under the laws of the PRC in March 2011. As of September 30, 2011, the Company has paid RMB 30 million to local government as land use right deposit. Henan AIVtech currently has no operations but will start to construct a manufacturing plant in Henan province once local government approves the land use right, which is expected by the end of December 2011. Accordingly, there were no operating activities reported for Henan AIVtech for the nine months ended September 30, 2011.

On May 12, 2010, the Company executed a Share Exchange Agreement (“Exchange Agreement”) with AIVtech and the shareholders of AIVtech (the “AIVtech Shareholders”), and acquired all of the outstanding shares of AIVtech from the AIVtech Shareholders.

In connection with the acquisition, the Company issued to the AIVtech Shareholders, their designees or assigns, an aggregate of 10,375,000 shares (the “Shares Component”) of the common stock of the Company, at par value of \$0.005 per share, so that upon completion of the Exchange Agreement, the shareholders of AIVtech own approximately 51.88% of the common stock of the Company. In addition, the Company declared dividend and agreed to pay cash (the “Cash Component”) of \$3,948,125 to the AIVtech Shareholders. The Cash Component was originally payable within 12 months after the closing of acquisition transaction and has been subsequently extended to May 12, 2012. The parties understand and acknowledge that such exchange is based upon an acquisition value of AIVtech at \$4,000,000. In addition to the above Shares and Cash component, Jie Zhang, the major shareholder of the Company transferred 3,009,000 shares to two shareholders of AIVtech. The two shareholders, the directors and officers of AIVtech, are (1) Guo Jinlin, to receive 1,770,000 shares, and (2) Ding Lanbing, through Guo Jin Tong Investment (Hong Kong) Limited, to receive 1,239,000 shares.

Before the closing of the transaction, there were 9,625,000 shares of the Company’s common stock issued and outstanding. Upon completion of the Share Exchange Transaction, there were 20,000,000 shares of the Company’s common stock issued and outstanding.

As a result of the above mentioned Share Exchange Transaction, AIVtech became the Company’s wholly-owned subsidiary and the Company, through AIVtech, acquired direct control of Shenzhen AIV Electronics Company Limited (“Shenzhen AIVtech”), and DongGuan AIV Electronics Company Limited (“Dongguan AIVtech”). Shenzhen AIVtech and Dongguan AIVtech are each engaged in the design and manufacturing casual furniture audio series,

multimedia speakers, and LED business in China.

Subsequently, the Company's name was changed from "Ecochild, Inc." to "AIVtech International Group Co." in order to more effectively reflect the Company's business and communicate the Company's brand identity to customers.

Note 2 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Rules of the Securities and Exchange Commission relating to interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (“US GAAP”) for complete financial statements. In the opinion of the management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. These condensed consolidated financial statements and notes should be read in conjunction with the audited consolidated December 31, 2010 financial statements and footnotes included in the Form 10-K filed with the Securities and Exchange Commission (“SEC”) on March 31, 2011. Operating results for the three and nine months ended September 30, 2011 and 2010 may not be necessarily indicative of the results that may be expected for the full years.

The accompanying condensed consolidated financial statements of the Company include the accounts of all directly and indirectly owned subsidiaries listed below. All intercompany transactions have been eliminated upon consolidation.

Name of the entity	Place of Incorporation	Ownership Percentage	
AIVtech International Group Co.	Nevada	100	%
AIVtech Holding Co., Ltd	Hongkong, China	100	%
Shenzhen AIVtech Electronics Co., Ltd. (Shenzhen AIVtech)	Shenzhen, China	100	%
Dongguan AIVtech Electronics Co., Ltd. (Dongguan AIVtech)	Dongguan, China	70	%
Henan AIVtech Electronics Co., Ltd. (Henan AIVtech)	Henan, China	60	%

Note 3. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

The Company has reclassified and restated certain line items on the 2009 consolidated financial statements, which has no impact on its interim condensed consolidated statements of income and comprehensive income, but impact the corresponding line items on its condensed consolidated statements of cash flows for the nine months ended September 30, 2010, as disclosed in the Form 10-K filed with SEC on March 31, 2011.

Note 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Non-controlling interest

Non-controlling interest represents one minority shareholder’s 30% ownership interest in Dongguan AIVtech Electronics Co., Ltd and 40% ownership interest in Henan AIVtech Electronics Co., Ltd.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the condensed consolidated financial statements. Estimates are used for, but not limited to, the selection of the useful lives of property and equipment, provision necessary for contingent liabilities and doubtful accounts, realization of deferred tax assets and the fair value of warrants liability. Management believes that the estimates utilized in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

Note 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

ASC 820, Fair Value Measurements and Disclosures clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts reported in the balance sheets for cash, accounts receivable, inventory, accounts payable and other accrued expenses, tax payable, dividend payable, and due to related parties approximate their fair value based on the short-term maturity of these instruments.

The financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

Assets and liabilities measured at fair value on a recurring basis as of September 30, 2011 are summarized as follows:

	Fair value measurement using inputs			Carrying value Total
	Level 1	Level 2	Level 3	
Liabilities:				
Derivative instruments – Warrants	\$ -	\$ 129,291	\$ -	\$ 129,291
Total	\$ -	\$ 129,291	\$ -	\$ 129,291

Foreign Currency Translation

The Company's condensed consolidated financial statements are presented in US dollars. In accordance with ASC 830, "Foreign Currency Matters", an entity's functional currency is the currency of the primary economic environment in which the entity operates; normally, that is the currency of the environment in which an entity primarily generates and expends cash. Since substantially all operations of the Company are conducted in the PRC, the functional currency of the Company is Renminbi ("RMB"), the currency of the PRC.

The condensed consolidated financial statements of the Company have been translated into U.S. dollars. The condensed consolidated financial statements are first prepared in RMB and then are translated into U.S. dollars at year-end exchange rates as to assets and liabilities and average exchange rates as to revenue and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. The effects of foreign currency translation adjustments are included as a component of accumulated other comprehensive income in

shareholders' equity.

Note 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

	September 30, 2011	December 31, 2010	September 30, 2010
Period end RMB: US\$ exchange rate	6.3843	6.6023	6.6981
Average RMB: US\$ exchange rate	6.4967	6.7148	6.8164

The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into US dollars at the rates used in translation.

Impairment of long-lived assets

ASC 360, "Property, Plant and Equipment", requires long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value. The Company tests long-lived assets, including property and equipment and other assets, for recoverability at least annually or more frequently upon the occurrence of an event or when circumstances indicate that the net carrying amount is greater than its fair value. Assets are grouped and evaluated at the lowest level for their identifiable cash flows that are largely independent of the cash flows of other groups of assets.

The Company considers historical performance and future estimated results in its evaluation of potential impairment and then compares the carrying amount of the asset to the future estimated cash flows expected to result from the use of the asset. If the carrying amount of the asset exceeds estimated expected undiscounted future cash flows, the Company measures the amount of impairment by comparing the carrying amount of the asset to its fair value. The estimation of fair value is generally measured by discounting expected future cash flows as the rate the Company utilizes to evaluate potential investments. The Company estimates fair value based on the information available in making whatever estimates, judgments and projections are considered necessary. There was no impairment of long-lived assets as of September 30, 2011 and December 31, 2010, respectively.

Revenue Recognition

The Company recognizes revenues in accordance with ASC 605 Revenue Recognition. Revenue is recognized at the date the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Revenue is not recognized until title and risk of loss is transferred to the customer, which occurs upon delivery of goods, and objective evidence exists that customer acceptance provisions have been met.

The Company sells its products to customers who have passed the Company's credit check. Sales agreements are signed with each customer. The purchase price of products is fixed in the agreement. The Company makes custom products based on sales agreements, so no sales returns are allowed. The Company accepts returns one year from the date of shipment only in the event of defects. Historically, the Company has not experienced significant defects, and replacements for defects have been minimal. For the three and nine month ended September 30, 2011 and 2010, no sales returns and allowances have been recorded. Should returns increase in the future it would be necessary to adjust estimates, in which case recognition of revenues could be delayed.

In the PRC, value added tax (VAT) of 17% of the invoice amount is collected in respect of the sales of goods on behalf of tax authorities. The VAT collected is not revenue of the Company; instead, the amount is recorded as a

liability on the balance sheet until such VAT is paid to the authorities.

F-8

Note 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Product warranty

The Company provides product warranties to its customers that all products manufactured by it will be free from defects in materials and workmanship under normal use for a period of one year from the date of shipment. The Company's costs and expenses in connection with such warranties have been minimal and, as of September 30, 2011 and December 31, 2010, no product warranty reserve was considered necessary.

Income Taxes

The Company accounts for income taxes in accordance with ASC 740, "Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740-10-25 prescribes a more-likely-than-not threshold for consolidated financial statement recognition and measurement of a tax position taken (or expected to be taken) in a tax return. It also provides guidance on the recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, years open for tax examination, accounting for income taxes in interim periods and income tax disclosures. There are no material uncertain tax positions as of September 30, 2011 and December 31, 2010, respectively.

As of September 30, 2011, the tax years ended December 31, 2005 through December 31, 2010 for the Company's PRC entities remain open for statutory examination by PRC tax authorities. The parent Company AIVtech International Group Inc's tax years ended December 31, 2006 through December 31, 2010 remain open for statutory examination by U.S. tax authorities

Value Added Taxes

The Company is subject to a value added tax ("VAT") for selling merchandise. The applicable VAT rate is 17% for products sold in the PRC. The amount of VAT liability is determined by applying the applicable tax rate to the invoiced amount of goods sold (output VAT) less VAT paid on purchases made with the relevant supporting invoices (input VAT). Under the commercial practice of the PRC, the Company pays VAT based on tax invoices issued. The tax invoices may be issued subsequent to the date on which revenue is recognized, and there may be a considerable delay between the date on which the revenue is recognized and the date on which the tax invoice is issued. In the event that the PRC tax authorities dispute the date on which revenue is recognized for tax purposes, the PRC tax office has the right to assess a penalty based on the amount of the taxes which are determined to be late or deficient, and will be expensed in the period if and when a determination is made by the tax authorities that a penalty is due.

The Company reports revenues net of PRC's value added tax for all the periods presented in the consolidated statements of operations.

Earnings per share

The Company computes earnings per share (“EPS”) in accordance with ASC 260 “Earnings per Share”. ASC 260 requires companies with complex capital structures to present basic and diluted EPS. Basic EPS is measured as net income divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible securities, options and warrants) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Note 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In May 2010, the Company entered into a share exchange transaction which has been accounted for as a reverse acquisition or recapitalization primarily since there has been a change of control. The Company computes the weighted-average number of common shares outstanding in accordance with ASC 805, Business Combinations, which states that in calculating the weighted average shares when a reverse acquisition takes place in the middle of the year, the number of common shares outstanding from the beginning of that period to the acquisition date shall be computed on the basis of the weighted-average number of common shares of the legal acquiree (the accounting acquirer) outstanding during the period multiplied by the exchange ratio established in the merger agreement. The number of common shares outstanding from the acquisition date to the end of that period shall be the actual number of common shares of the legal acquirer (the accounting acquiree) outstanding during that period.

Recently issued accounting standards

On May 12, 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2011-04 (“ASU 2011-04”), Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. ASU 2011-04 completes a major project of the boards’ joint work to improve IFRS and US GAAP and to bring about their convergence. For US GAAP, ASU 2011-04 will supersede most of the guidance in Topic 820, although many of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. It also reflects the FASB’s consideration of the different characteristics of public and non-public entities and the needs of users of their financial statements. ASU 2011-04 will be effective for public entities for interim and annual periods beginning after December 15, 2011, and should be applied prospectively. The adoption of this accounting standard is not expected to have a material effect on the Company’s condensed consolidated financial statements.

On June 16, 2011, FASB issued Accounting Standards Update 2011-05 (“ASU 2011-05”), Comprehensive Income (Topic 220)-Presentation of Comprehensive Income. ASU 2011-05 eliminates the current option to report other comprehensive income and its components in the statement of changes in equity, and requires that all nonowner changes in stockholders’ equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in ASU 2011-05 should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this accounting standard is not expected to have a material effect on the Company’s condensed consolidated financial statements.

Note 5. – INVENTORIES

As of September 30, 2011 and December 31, 2010, inventories consisted of the following:

	September 30, 2011	December 31, 2010

Note 6 – RELATED PARTY TRANSACTIONS

As of September 30, 2011 and December 31, 2010, related party transactions consisted of the following:

- (a) During the normal course of the business, the Company, from time to time, temporarily borrows money from its principal shareholders or officers to finance working capital needs. The amounts are usually unsecured, non-interest bearing and due on demand.

F-10

(b) In May 2010, Shenzhen AIVtech entered into an agreement with Shenzhen Top Finance Guaranty Investment Inc., in which Shenzhen Top Finance Guaranty Investment Inc. agreed to pay, on behalf of Shenzhen AIVtech, all legal, audit, consulting and other expense in connection with Shenzhen AIVtech's efforts of going public in the United States. Total such expenses incurred and paid by Shenzhen Top Finance Guaranty Investment Inc on behalf of Shenzhen AIVtech within 2010 amounted to \$220,907.

On December 31, 2010, Dongguan AIVtech entered into a loan agreement with Shenzhen Top Finance Guaranty Investment Inc. to borrow RMB 2 million (approximate to \$302,924) as working capital. The loan was repaid in full on February 25, 2011.

On March 25, 2011, Dongguan AIVtech entered into an loan agreement with Shenzhen Top Finance Guaranty Investment Inc., to borrow RMB 6 million (approximate to \$913,385) to pay the registered capital of newly formed subsidiary Henan AIVtech as further discussed in Note 1. The loan was repaid in full on June 27, 2011.

Shenzhen Top Finance Guaranty Investment Inc. is one of the major shareholders of the Company, and owns 10.38% of the total issued and outstanding common shares of the Company. As of September 30, 2011, total related party borrowings from Shenzhen Top Finance Guaranty Investment Inc. amounted to \$220,907.

Note 7 – DEPOSIT FOR LAND USE RIGHT

In connection with the formation of a new subsidiary Henan AIVtech, in March 2011, the Company entered into an agreement with Henan Xinyang local government to obtain a land use right lease for 50 years, on which a new manufacturing plant will be built. The Company is required to pay total of RMB 66.7 million for this parcel of land, payable in two installment payments. The first installment payment of RMB 30 million was required to be paid before May 2011 and the remaining amount will be paid in March 2013 when the construction work of the new manufacturing plant is expected to be fully completed. On May 17, 2011, the Company paid RMB 30 million (equivalent to \$4,699,042) to Henan Xinyang Department of Financing as deposit for land use right. As of September 30, 2011, the land use right application has not been approved by local government due to complicated approval procedure. The Company expects to obtain the Certificate of Land Use Right by the end of December 2011.

Note 8 – LONG-TERM LOAN

On January 5, 2010, the Company's subsidiary Dongguan AIVtech entered into a loan agreement with a third-party Dongguan Shilong Industrial Company to borrow RMB 5 million (approximate to \$757,311 on the date of the loan grant) for working capital needs. The loan amount was repaid on March 31, 2011. Interest expense amounted to \$5,195 and \$5,035 for the nine months ended September 30, 2011 and 2010, respectively.

Note 9 – DIVIDEND PAYABLE

Pursuant to the Share Exchange Agreement in connection with the reverse acquisition on May 12, 2010, the Company acquired all of the outstanding shares of AIVtech from the AIVtech Shareholders. In addition to the 10,375,000 common stock issued to AIVtech shareholders, the Company also agreed to pay cash of \$3,948,125, evidenced by a non-interest bearing promissory note, to AIVtech Shareholders within 12 months after the closing of the transaction. The payment has been accounted for as dividend distribution to shareholders. On May 10, 2011, the Company entered into an agreement with former AIVtech shareholders to extend the dividend payment date to May 12, 2012.

Note 9 – DIVIDEND PAYABLE (continued)

Future payments of dividends will depend on the available earnings, the capital requirements of the Company, the Company's general financial condition and other factors deemed pertinent by the Board of Directors.

Note 10 – TAXES

(a) Corporation income tax ("CIT")

The Company's operating subsidiaries Shenzhen AIVtech and Dongguan AIVtech are governed by the Income Tax Law of the People's Republic of China concerning the privately run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments. Shenzhen AIVtech was formed in a special economic zone in Shenzhen and has been granted a favorable tax treatment by local taxing authority which stipulated a 100% income tax exemption for the first two years and 50% income tax exemption for the following consecutive three years ("tax holiday"). For the years ended December 31, 2010 and 2009, Shenzhen AIVtech enjoyed a favorable tax exemption policy and the effective income tax rate for Shenzhen AIVtech assessed by local tax authority was 11% and 10% for the years ended December 31, 2010 and 2009, respectively. Such favorite tax policy will expire on December 31, 2011.

The estimated tax savings as a result of the Company's tax holiday for the three and nine months ended September 30, 2011 amounted to \$393,733 and \$1,007,312, respectively. The net effect on earnings per share had the full statutory income tax rate been applied would decrease basic earnings per share from \$0.35 to \$0.33 for the nine months ended September 30, 2011. The estimated tax savings as a result of the Company's tax abatement for the three and nine months ended September 30, 2010 amounted to \$813,768 and \$1,529,776 respectively. The net effect on earnings per share had the full statutory income tax rate been applied would decrease basic earnings per share from \$0.64 to \$0.56 for the nine months ended September 30, 2010.

The Company's effective tax rate reflected the combined results for both Shenzhen AIVtech and Dongguan AIVtech. The following table reconciles the Company's PRC statutory tax rate to its effective tax rate for the nine months ended September 30, 2011 and 2010.

	2011		2010	
Statutory PRC income tax rate	25.0	%	25.0	%
China income tax exemption	(9.7)%	(12.3)%
Effective income tax rate	15.3	%	12.7	%

The parent Company AIVtech International Group Inc (formerly Ecochild Inc.) was incorporated in the United States. Net operating loss carry forwards for United States income tax purposes amounted to \$112,776 as of September 30, 2011, which are available to reduce future years' taxable income. These carry forwards will expire in 2031. However, the change in control resulting from the reverse acquisition in 2010 limits the amount of loss to be utilized each year. Management doesn't expect to remit any of its net income back to the United States in the foreseeable future. Accordingly, the Company recorded a full valuation allowance as of September 30, 2011. The components of deferred taxes as of September 30, 2011 and December 31, 2011 consist of the following:

	As of	
	September 30, 2011	December 31, 2010
Net operating loss carry-forwards for parent company	\$ 112,776	\$ 51,818

Valuation allowance	(112,776)	(51,818)
Net deferred tax asset	\$ -	\$ -

Note 10 – TAXES (CONTINUED)

(b) Value Added Taxes

The Company is subject to a value added tax (“VAT”) for selling merchandise. The applicable VAT rate is 17% for products sold in the PRC. The amount of VAT liability is determined by applying the applicable tax rate to the invoiced amount of goods sold (output VAT) less VAT paid on purchases made with the relevant supporting invoices (input VAT).

(c) Taxes payable

As of September 30, 2011 and December 31, 2010, taxes payable consisted of the following:

	September 30, 2011	December 31, 2010
Income tax payable	\$ 594,976	\$ 237,841
VAT tax payable	237,465	536,769
Other tax payable	10,333	11,026
Total taxes payable	\$ 842,774	\$ 785,636

Note 11 – WARRANTS

The Company determined the fair value of the warrants was \$0.43 per share based on the closing price of the Company’s common stock traded on September 30, 2011, which totaling \$129,291. The fair value was determined using the Black Scholes Model based on the following assumptions: dividend yield: 0%; volatility: 205.97%, risk free rate: 0.96%, expected term: 4.25 years. For the three and nine months ended September 30, 2011, the Company recorded a gain of \$178,748 and \$170,201, respectively, in changes in the fair value of the warrants.

There were no stock warrants issued, terminated/forfeited, or exercised during the three and nine months ended September 30, 2011 and 2010.

The following table summarizes the shares of the Company’s common stock issuable upon exercise of warrants outstanding at September 30, 2011:

Range of Exercise Price	Warrants Outstanding		Weighted Average Exercise Price	Warrants Exercisable	
	Number Outstanding September 30, 2011	Weighted Average Remaining Contractual Life (Years)		Number Exercisable at September 30, 2011	Weighted Average Exercise Price
\$ 4.00	301,601	4.25	\$ 4.00	301,601	\$ 4.00
	301,601	4.25	\$ 4.00	301,601	\$ 4.00

See Note 4: “fair value of financial instruments” for more detail.

Note 12. EARNINGS PER SHARE

The following is a reconciliation of the numerators and denominators used in computing basic and diluted net income per share for the nine months ended September 30, 2011 and 2010:

	For the three months ended Sept 30,		For the nine months ended Sept 30,	
	2011	2010	2011	2010
Net income used in computing basic net income per share	\$ 3,265,477	\$ 4,360,409	\$ 7,933,536	\$ 9,778,483
Net income used in computing diluted net income per share	\$ 3,265,477	\$ 4,360,409	\$ 7,933,536	\$ 9,778,483
Denominator:				
Shares used in computation of basic net income per share (weighted average common stock outstanding)	22,515,334	20,000,000	22,514,680	15,364,430
Dilutive potential common stock (under treasury stock method):				
Effect of diluted warrants	-	-	-	-
Shares used in computation of diluted net income per share	22,515,334	20,000,000	22,514,680	15,364,430
Basic net income per share	\$ 0.14	\$ 0.22	\$ 0.35	\$ 0.64
Diluted net income per share	\$ 0.14	\$ 0.22	\$ 0.35	\$ 0.64

The Company has outstanding warrants to acquire 301,601 shares of common stock. These shares are not included in the earnings per share calculation due to the anti-dilutive effect for the three and nine month ended September 30, 2011 using the treasury stock method.

Note 13. REGISTRATION RIGHTS AGREEMENT

Pursuant to the terms of exchange and registration rights agreements entered into in connection with the private placement offering on December 29, 2010, the Company agreed to file a Form S-1 registration statement with the Securities and Exchange Commission to register for resale (i) 100% of the purchased shares and (ii) 100% of the shares of the common stock underlying the warrants, within 30 calendar days following the closing of the offering, and use the Company's best efforts to have the registration statement declared effective within 180 calendar days after closing of the offering. If the registration Statement was not filed with the SEC by the required filing date or is not declared effective by the required effective date, the Company shall pay to each investor as liquidated damages, a cash payment equal to 2% of the aggregate amount invested by such investor in the offering on the first business day of each thirty (30) day period until the registration statement has been filed or declared effective, or a portion thereof. Such liquidated damages shall not exceed 10% per annum. Immediately before the expiration of the original required effective date, on September 30, 2011, the Company entered into agreement with investors and extended the Form S-1 effective date to December 31, 2011. As a result, the Company has not recorded any amounts with respect to this registration rights arrangement as of September 30, 2011.

Note 14. NON-CONTROLLING INTEREST

Non-controlling interest represents one minority shareholder's 30% ownership interest in Dongguan AIVtech Electronics Co., Ltd and 40% ownership interest in Henan AIVtech Electronics Co., Ltd. As of September 30, 2011 and December 31, 2010, non-controlling interest consisted of the following:

	September 30, 2011	December 31, 2010
Original paid-in capital	\$ 1,048,187	\$ 439,264
Retained Earnings	732,769	303,413
Accumulated other comprehensive income	207,392	102,749
	\$ 1,988,347	\$ 845,426

Note 15. COMMON STOCK

On December 29, 2010, the Company entered into a subscription agreement with certain accredited investors in connection with a private placement offering:

(1) The Company agreed to issue to these investors to 2,513,334 shares of common stock, at par value of \$.001 and purchase price of \$3.00 per share, for aggregate gross proceeds of \$7,540,000.

(2) In addition, the Company also issued to these investors five-year Series A warrants to purchase up to an additional 251,334 shares of common stock at an exercise price of \$4.00 per share.

(3) The Company also paid to the placement agent a fee of \$150,800 and issued five-year Agent Warrants to purchase a total of 50,267 shares of common stock at an exercise price of \$4.00 per share.

(4) The Company also agreed to issue to the investors an aggregate of 2,513,334 shares of its common stock (the "Make Good Shares"), on a pro rata basis, for the benefit of the investors if the make good targets set forth in the subscription agreement are not met. With respect to the fiscal year ending December 31, 2010, if the Company did not achieve \$0.44 in earnings per share, then one-half of the Make Good Shares will be distributed to the investors on a pro rata basis. With respect to the fiscal year ending December 31, 2011, if \$0.60 in earnings per share is not achieved, then the other one-half of the Make Good Shares will be distributed to the investors on a pro rata basis.

In August, 2011, the Company entered into an agreement with the investors to amend the "Make Good Shares" provision in the subscription agreement whereby all parties agreed that the basic earnings per share as make good target for the year ending December 31, 2011 is reduced from \$.60 per share to \$.40 per share.

Note 16 – CONCENTRATIONS

Major Customers

Two customers accounted for 32.5% and 25.5% of the total sales for the nine months ended September 30, 2011, respectively. Three customers accounted for 34.3%, 31.5% and 12.4% of the total sales for the nine months ended September 30, 2010.

As of September 30, 2011, two customers accounted for 42.2% and 35.6% of the total outstanding receivables, respectively. As of December 31, 2010, two customers accounted for 79.8% and 9% of the total accounts receivable outstanding.

Major suppliers

For the nine months ended September 30, 2011, three material suppliers accounted for more than 36.4% of total purchases, with each supplier individually accounting for 21.1%, 8.9% and 6.5% of the total purchases. For the nine months ended September 30, 2010, three material suppliers accounted for more than 51% of total purchases, with each supplier individually accounting for 33%, 11%, and 7.4% of the total purchases.

Note 17 – SETTLEMENT AGREEMENT

On June 7, 2011, the Company and its subsidiary Shenzhen AIVtech were served with a Summons and Complaint filed by CCG Investor Relations in the Court of Beverly Hills of the State of California against the Company and Shenzhen AIVtech for breach of contract, seeking total damages of \$116,686, including \$79,866 for services rendered

by CCG, \$12,000 interest and \$25,000 for attorney's fees. On August 1, 2011, the Company entered into a settlement agreement with CCG and agreed to pay \$76,865 to CCG immediately in order for CCG to withdraw the lawsuit filed with the Court. The Company made the payment of \$76,865 on September 5, 2011 and CCG withdrew the lawsuit with the Court on September 7, 2011.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
AIVtech International Group, Co. and Subsidiaries.

We have audited the accompanying consolidated balance sheet of AIVtech International Group, Co. and Subsidiaries (the "Company") as of December 31, 2010 and the related consolidated statements of income and comprehensive income, cash flows and changes in shareholders' equity for the year ended December 31, 2010. The Company's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2010 consolidated financial statements referred to above present fairly, in all material respects the consolidated financial position of AIVtech International Group Co. as of December 31, 2010, and the consolidated results of their operation and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. We have also audited the adjustments described in Noted 2 that were applied to restate the December 31, 2009 consolidated financial statements to correct certain errors. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2009 consolidated financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2009 consolidated financial statements taken as a whole.
