FEMSA Retains Revenue Momentum with

Double Digit Growth in 2Q12

Monterrey, Mexico, July 27, 2012 — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) announced today its operational and financial results for the second quarter of 2012 under International Financial Reporting Standards (“IFRS”).

Second Quarter 2012 Highlights:

FEMSA consolidated total revenues and income from operations grew 22.9% and 13.0%, respectively, compared to the second quarter of 2011, reflecting growth at FEMSA Comercio and Coca-Cola FEMSA. On an organic basis total revenues and income from operations grew 16.3% and 6.9%, respectively.

Coca-Cola FEMSA total revenues and income from operations increased 27.9% and 7.8%, respectively, compared to the second quarter of 2011. On an organic basis total revenues grew 16.5% and income from operations decreased 0.5%.

FEMSA Comercio achieved total revenues growth of 17.1% and income from operations growth of 27.2%, compared to the second quarter of 2011, driven by new store openings and 7.8% growth in same-store sales.

José Antonio Fernández Carbajal, Chairman and CEO of FEMSA, commented: “Our performance in the second quarter was mixed. On the one hand, FEMSA Comercio delivered strong revenue growth, driven by dynamic same-store sales and new store openings, while margins continued to expand. On the other hand, Coca-Cola FEMSA faced a challenging environment and made the most of it. Top-line growth was achieved through pricing, but we continued to see short-term pressure on margins, particularly in Mexico, reflecting among other things raw material and FX pressures, difficult weather comparisons, and the expenses related with the integration of our new territories in Mexico.

On the strategic front, we are excited about Jugos del Valle's recently announced acquisition of Santa Clara, a well-known, premium Mexican dairy company, building on the positive learnings from our Estrella Azul dairy operation in Panama, and Coca-Cola FEMSA continues to advance on the due diligence process in the Philippines. So all in all, we have reason to be optimistic about the second half of this year, and beyond.”

FEMSA Consolidated

Total revenues increased 22.9% compared to 2Q11 to Ps. 59.586 billion in 2Q12. Coca-Cola FEMSA and FEMSA Comercio drove the incremental consolidated revenues. On an organic basis total revenues increased 16.3% compared to 2Q11. For the first half of 2012, consolidated total revenues increased 24.4% compared to the same period in 2011 to Ps. 113.854 billion. On an organic basis, total revenues for the first half of 2012 increased 18.5% compared to the same period in 2011.

Gross profit increased 24.7% compared to 2Q11 to Ps. 24.993 billion in 2Q12. Gross margin increased 50 basis points compared to the same period in 2011 to 41.9% of total revenues, driven by FEMSA Comercio and by the acquisition-driven growth of Coca-Cola FEMSA which has higher margins than FEMSA Comercio.

For the first half of 2012, gross profit increased 25.8% compared to the same period in 2011 to Ps. 47.189 billion. Gross margin increased 40 basis points compared to the same period in 2011 to 41.4% of total revenues, again driven by FEMSA Comercio and by the acquisition-driven growth of Coca-Cola FEMSA which has higher margins than FEMSA Comercio.

Income from operations increased 13.0% as compared to 2Q11 to Ps. 6.686 billion in 2Q12. On an organic basis income from operations increased 6.9% compared to the same period in 2011. Consolidated operating margin decreased 100 basis points compared to 2Q11 to 11.2% of total revenues in 2Q12, reflecting additional expenses at Coca-Cola FEMSA including among others: (i) Acquisition-related expenses in Mexico, (ii) higher labor costs in Venezuela and Argentina, (iii) higher freight costs in Argentina and Brazil and (iv) development of information systems.

For the first half of 2012, income from operations increased 14.1% compared to the same period in 2011 to Ps. 11.965 billion. Our consolidated operating margin year-to-date was 10.5% as a percentage of total revenues, a decrease of 100 basis points as compared to the same period of 2011.

The effective income tax rate was 23.5% in 2Q12 compared to 32.4% in 2Q11 resulting from a tax shield related to interests on capital, included in a dividend declared in the South America Division of Coca-Cola FEMSA.

Net consolidated income increased 28.8% compared to 2Q11 to Ps. 5.437 billion in 2Q12, as a result of (i) growth in FEMSA's income from operations, (ii) the effect of the devaluation of the Mexican Peso on the US Dollar-denominated component of our cash position, and (iii) a lower effective income tax rate.

For the first half of 2012, net consolidated income increased 22.3% to Ps. 9.229 billion compared to the same period of 2011, primarily as a result of growth in income from operations.

Net majority income for 2Q12 was Ps. 1.09 per FEMSA Unit¹. Net majority income per FEMSA ADS was US\$ 0.81 for the second quarter of 2012. For the first half of 2012, net majority income per FEMSA Unit¹ was Ps. 1.75 (US\$ 1.30 per ADS).

Capital expenditures amounted to Ps. 3.164 billion in 2Q12, reflecting incremental investments at Coca-Cola FEMSA and FEMSA Comercio.

Our **consolidated balance sheet** as of June 30, 2012 recorded a cash balance of Ps. 27.494 billion (US\$ 2.050 billion), an increase of Ps. 324 million (US\$ 24.2 million) compared to December 31, 2011. Short-term debt was Ps. 1.910 billion (US\$ 142.4 million), while long-term debt was Ps. 25.574 billion (US\$ 1.907 billion). Our consolidated net cash balance was Ps. 10 million (US\$ 0.7 million).

FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B¹ Shares. The number of FEMSA Units outstanding as of June 30, 2012 was 3,578,226,270, equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

FEMSA Comercio

Total revenues increased 17.1% compared to 2Q11 to Ps. 22.209 billion in 2Q12, mainly driven by the opening of 290 net new stores in the quarter reaching 1,026 total net new store openings for the last twelve months. As of June 30, 2012, FEMSA Comercio had a total of 9,989 convenience stores. Same-store sales increased an average of 7.8% for the second quarter of 2012 over 2Q11, reflecting a 3.7% increase in store traffic and a 3.9% increase in average customer ticket.

For the first half of 2012, total revenues increased 17.6% compared to the same period in 2011 to Ps. 41.242 billion. FEMSA Comercio's same-store sales increased an average of 7.9% compared to the same period in 2011, driven by a 4.8% increase in store traffic and a 3.0% increase in average customer ticket.

Gross profit increased by 18.9% in 2Q12 compared to 2Q11, resulting in a 60 basis point gross margin expansion to 34.5% of total revenues. This increase reflects (i) a positive mix shift due to the growth of higher margin categories, (ii) a more effective collaboration and execution with our key supplier partners combined with a more efficient use of promotion-related marketing resources, and (iii) a better execution of segmented pricing strategies across markets. For the first half of 2012, gross margin expanded by 70 basis points compared to the same period in 2011 to 33.5% of total revenues.

Income from operations increased 27.2% over 2Q11 to Ps. 1.830 billion in 2Q12. Operating expenses increased 16.5% to Ps. 5.822 billion, reflecting the growing number of stores as well as incremental expenses relating to, among other things, the continued strengthening of FEMSA Comercio's organizational structure and a rise in electricity tariffs. Operating margin expanded 60 basis points compared to 2Q11, to 8.2% of total revenues in 2Q12. For the first half of 2012, income from operations increased 27.2% compared to the same period in 2011 to Ps. 2.630 billion,

resulting in an operating margin of 6.4%, which represents a 50 basis point expansion from the same period in the prior year.

- Reported consolidated operating income grew 7.8% to Ps. 4,714 million for the second quarter of 2012, driven by double-digit growth in our South America division and the integration of the new territories in Mexico. Our reported operating margin was 13.0% in the second quarter of 2012.
- Reported consolidated net controlling interest income reached Ps. 2,713 million in the second quarter of 2012.

Mexico City (July 24, 2012), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest franchise bottler in the world, announces results for the second quarter of 2012.

"In the face of bad weather conditions in several markets and ongoing currency and commodity volatility, we produced positive results for the second quarter. Consistent with our strategic framework, we continue to pursue growth through accretive mergers and acquisitions. As of May 2012, we started the integration of Grupo Fomento Queretano into our Mexican operations. In fact, we are fully on track to meet our previously announced net synergy targets for our series of mergers announced in 2011. Moreover, during the quarter, we initiated the on-the-ground evaluation process of The Coca-Cola Company's bottling franchise in the Philippines. Furthermore, through Jugos del Valle, our joint venture for non-carbonated products with our partner, The Coca-Cola Company, we took an additional step to reinforce our portfolio with the announcement of the acquisition of Santa Clara, a significant player in the milk and dairy category in Mexico. In summary, our operators' proven capabilities provide us with the flexibility to continue delivering positive results, while building for the future of our business—positioning our company to capture the opportunities that we see ahead in the industry and to generate incremental value for our shareholders," said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

CONSOLIDATED RESULTS

Our reported total revenues increased 27.9% to Ps. 36,295 million in the second quarter of 2012, compared to the second quarter of 2011 as a result of double-digit total revenue growth in both divisions, including the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in our Mexican operations⁽¹⁾. Excluding the recently integrated territories in Mexico, total revenues grew 16.5%. On a currency neutral basis and excluding the recently merged territories in Mexico, total revenues grew 12.3%, driven by average price per unit case growth in every territory and volume growth mainly in Venezuela, Argentina and Brazil.

Total sales volume increased 15.7% to reach 770.0 million unit cases in the second quarter of 2012 as compared to the same period in 2011. Excluding the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in Mexico, volumes remained flat at 664.0 million unit cases. On the same basis, the still beverage category grew 12%, mainly driven by the introduction of the Jugos del Valle line of business in Venezuela, the performance of the Jugos del Valle line in Mexico and Brazil and the launch of Fuze Tea in most of our territories. Our sparkling beverage category remained flat while our bottled water portfolio, including bulk water, declined 6%.

Our reported gross profit increased 28.1% to Ps. 16,702 million in the second quarter of 2012, as compared to the second quarter of 2011. Reported cost of goods sold increased 27.7%, mainly as a result of increased cost of high fructose corn syrup (*HFCS*) in Mexico and Argentina in combination with the depreciation of the average exchange rate of the Brazilian real⁽²⁾ and the Mexican peso⁽²⁾ and certain other operating currencies⁽²⁾ as applied to our U.S. dollar-denominated raw material costs; which were offset by lower PET prices in most of our territories and lower sugar prices in our South America division. Reported gross margin reached 46.0%, an expansion of 10 basis points as compared to the second quarter of 2011.

Our reported operating income increased 7.8% to Ps. 4,714 million in the second quarter of 2012, driven by double-digit operating income growth in the South America division, and including the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in Mexico. Our reported operating margin reached 13.0% in the second quarter of 2012, as compared with 15.4% in the same period of 2011. Excluding the integration of the recently merged territories in Mexico, operating income remained flat. On the same basis, operating expenses increased in the second quarter of 2012, mainly as a result of (i) higher labor costs in Venezuela in combination with higher labor and freight costs in Argentina and higher freight costs in Brazil, (ii) increased marketing investment to reinforce our execution in the marketplace, widen our cooler coverage and broaden our returnable base availability across our territories and the depreciation associated with these investments, (iii) additional expenses related to the development of information systems and commercial capabilities in connection with our commercial models and (iv) certain investments related, among others, to the development of new lines of business.

During the second quarter of 2012, we recorded an expense of Ps. 469 million in the other non-operative expenses, net line. This expense mainly reflects a one-time provision related to a change in labor law in Venezuela.

Our comprehensive financing result in the second quarter of 2012 recorded an expense of Ps. 478 million as compared to an expense of Ps. 318 million in the same period of 2011. This difference was mainly driven by a higher interest expense, net.

During the second quarter of 2012, income tax, as a percentage of income before taxes, was 24.2% as compared to 28.7% in the same period of 2011. The lower effective tax rate registered during the quarter, resulted from a tax shield related to interests on capital, included in a dividend declared by our Brazilian subsidiary.

Our reported consolidated net controlling interest income reached Ps. 2,713 million in the second quarter of 2012. Earnings per share (EPS) in the second quarter of 2012 were Ps. 1.35 (Ps. 13.47 per ADS) computed on the basis of 2,014.2 million shares⁽³⁾ (each ADS represents 10 local shares).

MEXICO & CENTRAL AMERICA DIVISION OPERATING RESULTS (Mexico, Guatemala, Nicaragua, Costa Rica and Panama)

Coca-Cola FEMSA is including the results of Grupo Tampico as of October 2011, Grupo CIMSA as of December 2011 and Grupo Fomento Queretano as of May 2012 in the Company's Mexico & Central America divisions' operating results.

Revenues

Reported total revenues from our Mexico and Central America division increased 30.2% to Ps. 17,613 million in the second quarter of 2012, as compared to the same period in 2011, supported by the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in our Mexican operations⁽¹⁾. Excluding the recently integrated territories in Mexico, total revenues grew 6.2%. On the same basis, increased average price per unit case, mainly reflecting selective price increases across our product portfolio, implemented over the past several months, accounted for the majority of incremental total revenues. On a currency neutral basis and excluding the recently merged territories in Mexico, total revenues increased 4.3%.

Reported total sales volume increased 25.4% to 504.3 million unit cases in the second quarter of 2012, as compared to the second quarter of 2011. Excluding the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in Mexico, volumes declined 1.0% to 398.3 million unit cases. On the same basis, still beverages grew 6% mainly driven by the Jugos del Valle line of products, the successful launch of the Fuze Tea brand in Mexico, Costa Rica and Panama and the performance of the Estrella Azul portfolio in Panama. The sparkling beverage category grew close to 1%. Growth in these categories was offset by an 8% decline in our bottled water portfolio, including bulk water.

Operating Income

Our reported gross profit increased 25.4% to Ps. 8,359 million in the second quarter of 2012 as compared to the same period in 2011. Reported cost of goods sold increased 34.8% as a result of higher HFCS costs in Mexico in combination with the depreciation of the average exchange rate of the Mexican peso⁽²⁾ as applied to our U.S. dollar-denominated raw material costs; which were partially offset by lower PET prices in the division. Reported

gross margin reached 47.5% in the second quarter of 2012, as compared with 49.3% in the same period of the previous year.

Reported operating income increased 4.6% to Ps. 2,656 million in the second quarter of 2012, compared to Ps. 2,538 million in the same period of 2011. Our reported operating margin was 15.1% in the second quarter of 2012, as compared with 18.8% in the same period of 2011. Excluding the integration of Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano in Mexico, operating income declined 9.6%. On the same basis, operating expenses increased mainly as a result of (i) additional expenses related to the development of information systems and commercial capabilities in connection with our commercial models, (ii) continued marketing investments across the division and the depreciation expenses resulting from investments in coolers and the reinforcement of our returnable base and (iii) certain investments related to the development of new lines of business.

Revenues

Reported total revenues were Ps. 18,682 million in the second quarter of 2012, an increase of 25.8% as compared to the same period of 2011 mainly as a result of double-digit total revenue growth in Venezuela, Argentina and Colombia. Excluding beer, which accounted for Ps. 961 million during the quarter, revenues increased 26.5% to Ps. 17,721 million. Excluding beer, higher average prices per unit case across our operations accounted for more than 95% of incremental revenues and volume growth in Venezuela, Argentina and Brazil contributed the balance. On a currency neutral basis, total revenues increased 19.5%.

Reported total sales volume in our South America division increased 0.9% to 265.7 million unit cases in the second quarter of 2012 as compared to the same period of 2011, as a result of volume growth in Venezuela, Argentina and Brazil, which compensated for the volume decline in Colombia. The still beverage category grew 21%, mainly driven by the introduction of the Jugos del Valle line of business in Venezuela and its continued success in Brazil, alongside the launch of Fuze Tea in Venezuela and Colombia. Our water portfolio, including bulk water, grew 2% and our sparkling beverage category remained flat.

Operating Income

Reported gross profit reached Ps. 8,343 million, an increase of 30.9% in the second quarter of 2012, as compared to the same period of 2011. Reported cost of goods sold increased 21.9%. Lower cost of PET in most of the territories and lower cost of sugar in the division, was partially offset by the depreciation of the average exchange rate of the Brazilian real⁽¹⁾ and the Argentine peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material costs. Reported gross margin reached 44.7% in the second quarter of 2012, an expansion of 180 basis points as compared to the same period of 2011.
