**PAID, INC.**

**NOTES TO CONDENSED FINANCIAL STATEMENTS (Unaudited)**

**September 30, 2014 and 2013**

**Note 1. Organization and Significant Accounting Policies**

PAID, Inc. (“PAID” the “Company”, “we”, “us”, “our”) has developed AuctionInc, which is a software suite of online shipping and sales tax management tools assisting e-commerce businesses with shipping solutions, sales tax calculation, inventory management, and auction processing. In addition, this software suite also has additional functionality to assist e-commerce businesses with other aspects of the fulfillment process, but the main purpose of this product is to provide accurate shipping and sales tax calculations and packaging algorithms that provide customers with the best possible shipping and tax solutions.

The Company has five United States patents issued by the United States Patent and Trademark Office (USPTO) and one pending patent application. The Company intends to license its intellectual property on commercially reasonable terms to licensees in order to generate revenue for the Company. As part of this revenue generation effort, the Company commenced on December 20, 2013 patent infringement litigation against eBay, Inc. (Paid, Inc. v. eBay, Inc.; CV No. 4:13-cv-40151-TSH) in the United States District Court for the District of Massachusetts Central Division. The Company’s goal is to develop a robust licensing program utilizing its intellectual property assets.

Previously, the Company's primary focus was to provide brand-related services to businesses, celebrity clients in the entertainment industry as well as charitable organizations. PAID's brand management, brand marketing, social media marketing, product design and merchandising, website design, development and hosting services were designed to grow each client's customer base in size, loyalty and revenue generation. We offered entertainers and business entities comprehensive web-presence and related services supporting and managing clients' official websites and fan-community services including e-commerce, VIP ticketing, live event fan experiences, user-generated content, client content publishing and distribution, fan forums, social network management, social media marketing, customer data capture, management and analysis.

*General Presentation and Basis of Financial Statements*

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), and to the rules and regulations of the Securities and Exchange Commission (“SEC”) regarding interim financial reporting. Accordingly, they do not include

all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the Company's audited financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2013 that was filed on March 31, 2014.

In the opinion of Management, the Company has prepared the accompanying unaudited condensed financial statements on the same basis as its audited financial statements, and these unaudited condensed financial statements include all adjustments, consisting of normal recurring adjustments necessary for a fair presentation of the results of the interim periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year 2014.

*Going Concern and Management's Plan*

The accompanying unaudited condensed financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has continued to incur losses, although it has taken significant steps to reduce them. For the nine months ended September 30, 2014, the Company reported a net loss of \$1,130,308 and for the year ended December 31, 2013, the Company reported a net loss of \$1,127,920. The Company has an accumulated deficit of \$53,214,286 at September 30, 2014 and used \$315,206 of cash and cash equivalents in operations for the nine months ended September 30, 2014. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Management has reduced the Company's losses in the music and entertainment area and focused the Company on its growing patent portfolio and its shipping and tax calculation products. The Company is currently concluding its relationships within the music industry and is focusing all of its attention towards growing the AuctionInc business. We believe these changes to our business model will lead to improved efficiency, increased margins and a reduction of our operating costs. Going forward the primary focus of PAID is to expand upon and license its intellectual property as well as the sale of our AuctionInc line of shipping and tax calculation products. AuctionInc has recently added a new integration with a third party vendor in order to broaden its line of shipping calculator products and increase revenues.

These changes have reduced revenues and gross profits thus far in 2014 and management believes that this trend will continue for the remainder of 2014. However, the costs of doing business have been significantly reduced in hopes of lowering the net loss. In addition, the Company continues to increase its efforts to generate income from its patents.

Although there can be no assurances, the Company believes that the above management plan will be sufficient to meet the Company's working capital requirements through the end of 2014.

#### *Use of Estimates*

The preparation of the condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates made by the Company's management include, but are not limited to the fair value of investments in marketable securities, the collectability of receivables, the realizability of inventories, the recoverability of long-lived assets, valuation of deferred tax assets and liabilities and the estimated fair value of the royalty and advance guarantees and share-based transactions. Actual results could materially differ from those estimates.

#### *Fair Value Measurements*

The Company measures the fair value of certain of its financial assets on a recurring basis. A fair value hierarchy is used to rank the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as unadjusted quoted prices for similar assets and liabilities, unadjusted quoted prices in the markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

At September 30, 2014 and December 31, 2013, the Company's financial instruments include cash and cash equivalents, investments in marketable securities, accounts receivable, other receivables, accounts payable, capital leases, and accrued expenses. The carrying amount of cash and cash equivalents, accounts receivable, other receivables, accounts payable, capital leases, and accrued expenses approximates fair value due to the short-term maturities of these instruments. The fair value of the investments in marketable securities is determined based on quoted prices in active markets for identical assets or Level 1 inputs.

### *Cash and Cash Equivalents*

The Company considers all highly liquid temporary cash investments with an initial maturity of three months or less to be cash equivalents. Management believes that the carrying amounts of cash equivalents approximate their fair value because of the short maturity period.

### *Concentration of Credit Risk*

The Company maintains cash balances at financial institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. At September 30, 2014, the Company had amounts in these accounts in excess of the FDIC limit. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk related to these deposits.

The Company extends credit based on an evaluation of the customer's financial condition, generally without requiring collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses. Although the Company expects to collect amounts due, actual collections may differ from the estimated amounts. At September 30, 2014 and December 31, 2013, the Company has recorded an allowance for doubtful accounts of \$53,300.

For the three months ended September 30, 2014 and 2013, revenues from two and three clients accounted for approximately 96% and 81%, respectively, of total revenues. For the nine months ended September 30, 2014 and 2013, revenues from two and three clients accounted for approximately 85% and 63%, respectively, of total revenues. These revenues were generated from the sales of our line of AuctionInc products, tour merchandise, VIP services, and merchandising and fulfillment services. As of September 30, 2014 and December 31, 2013, accounts receivable from one client accounted for 31% and 63%, respectively.

### *Investments In Marketable Securities*

The Company accounts for its investments in marketable securities in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 320. The Company determines the appropriate classification of its investments at the time of purchase and reevaluates such designation at each balance sheet date.

As of July 1, 2013, the Company reclassified its investments from trading securities to available-for-sale securities. Marketable debt and equity securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities and are reported at fair value, with unrealized gains and losses recognized in earnings. Available-for-sale securities are stated at fair value, generally based on market quotes, to the extent they are available. Unrealized gains and losses, net of applicable deferred taxes, are recorded as a component of accumulated other comprehensive income (loss) and reported in shareholders' equity (deficit). Realized gains and losses and declines in value judged to be other than temporary are determined based on the specific identification method and are reported in earnings in the statements of comprehensive income (loss). As of June 30, 2014 the Company liquidated its available-for-sale securities (see Note 2).

#### *Other Receivables*

Other receivables consist of shares of our common stock held by the Company's landlord, Carruth Capital, that are classified as available-for-sale. As of September 30, 2014 and December 31, 2013, 2,528,091 and 3,528,091 shares were held by Carruth Capital and were valued at \$176,967 and \$635,056, respectively, based on the market price of our common stock on those respective dates. The Company records an impairment of these shares when the market price decreases in the accompanying condensed consolidated statements of comprehensive income (loss). For three and nine months ended September 30, 2014, the write down of other receivables was \$50,561 and \$278,089 respectively.

### *Inventories*

Inventories consist of merchandise for sale and are stated at the lower of average cost or market determined on a first-in, first-out (FIFO) method. When a purchase contains multiple copies of the same item, they are stated at average cost.

At each balance sheet date, the Company evaluates its ending inventory quantities on hand and on order and records a provision for excess quantities and obsolescence. Among other factors, the Company considers historical demand and forecasted demand in relation to the inventory on hand, competitiveness of product offerings, market conditions and product life cycles when determining obsolescence and net realizable value. In addition, the Company considers changes in the market value of components in determining the net realizable value of its inventory. Provisions are made to reduce excess or obsolete inventories to their estimated net realizable values. Once established, write-downs are considered permanent adjustments to the cost basis of the excess or obsolete inventories.

### *Advanced Royalties*

Advanced royalties represent amounts the Company has advanced to certain clients and are recoupable against future royalties earned by the clients. Advances are issued in either cash or shares of the Company's common stock and advanced amounts are calculated based on the clients' projected earning potential over a fixed period of time. Advances made by issuing shares of common stock or common stock options are recorded at their fair value on the date of issue. If the shares do not reach the required price per share, the Company has the option of issuing additional shares or making cash payment of the difference between the required price per share and the fair value of the stock. The Company records a liability for the difference between the fair value of the stock and the guaranteed per share price amount. The change in fair value of the stock price guarantee is recorded in the accompanying condensed statements of comprehensive income (loss).

### *Property and Equipment*

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of 3 to 5 years. Any leasehold improvements are depreciated at the lesser of the useful life of the asset or the lease term. Equipment purchased under capital leases is amortized on a straight-line basis over the estimated useful life of the asset or the term of the lease, whichever is shorter.

### *Intangible Assets*

Intangible assets consist of patents which are being amortized on a straight-line basis over their estimated useful life of 17 years.

#### *Long-Lived Assets*

The Company reviews the carrying values of its long-lived assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the expected future cash flows from the use of the asset and its eventual disposition is less than the carrying amount of the asset, an impairment loss is recognized and measured using the fair value of the related asset. No impairment charges were incurred during the nine months ended September 30, 2014 and 2013. There can be no assurance, however, that market conditions will not change or demand for the Company's services will continue, which could result in impairment of long-lived assets in the future.

#### *Revenue Recognition*

The Company generates revenue principally from sales of fan experiences, fan club membership fees, shipping calculator subscriptions, and from client services.

The Company recognizes revenues in accordance with the FASB ASC Topic 605. Accordingly, the Company recognizes revenues when there is persuasive evidence that an arrangement exists, product delivery and acceptance have occurred, the sales price is fixed or determinable, and collectability of the resulting receivable is reasonably assured.

For shipping calculator revenues the Company recognizes a subscription revenue on a monthly basis. Customers' renewal dates are based on their date of installation and registration of the shipping calculator line of products. Payments are made via credit card for the month following the service.

Fan experience sales generally include tickets and related experiences at concerts and other events conducted by performing artists. Revenues associated with these fan experiences are generally reported gross, rather than net, and are deferred until the related event has been concluded, at which time the revenues and related direct costs are recognized.

Fan club membership fees are recognized ratably over the term of the related membership, generally one year.

For sales of merchandise owned and warehoused by the Company, the Company is responsible for conducting the sale, billing the customer, shipping the merchandise to the customer, processing customer returns and collecting accounts receivable. The Company recognizes revenue upon verification of the credit card transaction and shipment of the merchandise, discharging all obligations of the Company with respect to the transaction. During 2013 the Company moved its merchandising operations to Music City Networks (“MCN”) in Nashville, TN. Under our agreement with MCN revenues are recognized by means of a profit split calculation, payable as a commission due to the Company.

Client services revenues include web development and design, creative services, marketing services and general business consulting services. For contracts that are of a short duration and fixed price, revenue is recognized when there are no significant obligations and upon acceptance by the customer of the completed project. Revenues on longer-term fixed price contracts are recognized using the percentage-of-completion method. Services that are performed on a time and material basis are recognized as the related services are performed.

#### *Cost of Revenues*

Cost of revenues include event tickets, ticketing and venue fees, shipping and handling fees associated with e-commerce sales, merchandise and royalties paid to clients.

#### *Operating Expenses*

Operating expenses include indirect client related expenses, including credit card processing fees, payroll, travel, facility costs, and other general and administrative expenses.

#### *Advertising*

Advertising costs are charged to expense as incurred. For the three months ended September 30, 2014 and 2013, advertising expense totaled \$14 and \$570, respectively. For the nine months ended September 30, 2014 and 2013, advertising expense totaled \$2,649 and \$2,265, respectively. These expenses are included in operating expenses in the accompanying condensed statements of comprehensive income (loss).

#### *Share-Based Compensation*

The Company grants options to purchase the Company's common stock to employees, directors and consultants under stock option plans. The benefits provided under these plans are share-based payments that the Company accounts for using the fair value method.

The fair value of each option award is estimated on the date of grant using a Black-Scholes-Merton option pricing model ("Black-Scholes model") that uses assumptions regarding a number of complex and subjective variables. These variables include, but are not limited to, expected stock price volatility, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends. Expected volatilities are based on the historical volatility of the Company's common stock and other factors. The expected terms of options granted are based on analyses of historical employee termination rates and option exercises. The risk-free interest rate is based on the U.S. Treasury yield in effect at the time of the grant. Since the Company does not expect to pay dividends on common stock in the foreseeable future, it estimated the dividend yield to be 0%.

Share-based compensation expense recognized during a period is based on the value of the portion of share-based payment awards that is ultimately expected to vest and is amortized under the straight-line attribution method. As share-based compensation expense recognized in the accompanying condensed statements of comprehensive income (loss) for the nine months ended September 30, 2014 and 2013 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. The fair value method requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The Company estimates forfeitures based on historical experience. Changes to the estimated forfeiture rate are accounted for as a cumulative effect of change in the period the change occurred.

Since the Company has a net operating loss carry-forward as of September 30, 2014 and 2013, no excess tax benefits for tax deductions related to share-based awards were recognized from stock options exercised in the nine months ended September 30, 2014 and 2013 that would have resulted in a reclassification from cash flows from operating activities to cash flows from financing activities.

#### *Income Taxes*

The Company accounts for income taxes and the related accounts under the liability method. Deferred tax assets and liabilities are determined based on the differences between the financial statement carrying amounts and the income tax bases of assets and liabilities. A valuation allowance is applied against any net deferred tax asset if, based on available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Therefore, the Company has recorded a full valuation allowance against the net deferred tax assets. The Company's income tax provision consists of state minimum taxes.

The Company recognizes any uncertain income tax positions on income tax returns at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained.

The Company's policy is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company had \$0 accrued for interest and penalties on the Company's accompanying condensed balance sheets at September 30, 2014 and December 31, 2013.

#### *Earnings (Loss) Per Common Share*

Basic earnings (loss) per share represents income (loss) available to common shareholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income (loss) that would result from the assumed issuance. The potential common shares that may be issued by the Company relate to outstanding stock options and have been excluded from the computation of diluted earnings (loss) per share because they would reduce the reported loss per share and therefore have an anti-dilutive effect.

For the three and nine months ended September 30, 2014, there were approximately 4,272,000 and 8,425,000, respectively, potentially dilutive shares using the treasury stock method that were excluded from the diluted earnings

(loss) per share as their effect would have been antidilutive for the period then ended.

### *Segment Reporting*

The Company has determined that it has only one discrete operating segment consisting of activities and services surrounding the sale of fan experiences, fan club memberships, and merchandise associated with its relationships with performing artists and organizations. The Company's chief operating decision maker is the President, Chief Executive Officer and Chief Financial Officer, who evaluates the Company as a single operating segment.

### *Recent Accounting Pronouncements*

In August 2014, the FASB issued ASU 2014-15, "Presentation of Financial Statements-Going Concern". Currently, there is no guidance in U.S. GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related footnote disclosures. The amendments require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The amendments in this ASU are effective for the reporting periods beginning after December 15, 2016 and early application is permitted. Management is currently assessing the impact the adoption of ASU 2014-15 will have on our condensed financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers". ASU 2014-09 supersedes the revenue recognition requirements in FASB Topic 605, "Revenue Recognition". The ASU implements a five-step process for customer contract revenue recognition that focuses on transfer of control, as opposed to transfer of risk and rewards. The amendment also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. Other major provisions include the capitalization and amortization of certain contract costs, ensuring the time value of money is considered in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. The amendments in this ASU are effective for reporting periods beginning after December 15, 2016, and early adoption is prohibited. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. Management is currently assessing the impact the adoption of ASU 2014-09 will have on our condensed financial statements.

**Note 2. Fair Value Disclosures**

The following table presents fair values for those assets and liabilities measured at fair value on a recurring basis and the level within the fair value hierarchy in which the measurements fall. No transfer among the levels within the fair value hierarchy occurred during the nine months ended September 30, 2014.

|                                      | Fair Value    |              |
|--------------------------------------|---------------|--------------|
|                                      | September 30, | December 31, |
|                                      | 2014          | 2013         |
|                                      | (unaudited)   | (audited)    |
| Investments in marketable securities | \$ -          | \$ 106,097   |

For the nine months ended September 30, 2014, the Company recorded a realized loss of \$79,983, which comprises of a realized gain of \$48,753 and an unrealized loss of \$128,736 transferred from accumulated other comprehensive loss to earnings, on the sale of investments in available-for-sale securities.

**Note 3. Accrued Expenses**

Accrued expenses are comprised of the following:

|                           | September<br>30,<br>2014<br>(unaudited) | December 31,<br>2013<br>(audited) |
|---------------------------|---|-----------------------------------|
| Payroll and related costs | \$ 1,230                                | \$ 2,446                          |
| Royalties                 | 386,810                                 | 421,963                           |
| Stock price guarantee     | 375,147                                 | -                                 |
| Other                     | 39,715                                  | 14,539                            |
| Total                     | \$ 802,902                              | \$ 438,948                        |

**Note 4. Commitments and Contingencies**

### *Stock Price Guarantee*

In connection with the Company's advance royalties with a client, the Company guaranteed that shares of common stock would sell for at least \$0.12 per share. If the shares are not at the required \$0.12 per share when they are sold, the Company has the option of issuing additional shares at their fair value or making a cash payment for the difference between the guaranteed price per share and the fair value of the stock. As of September 30, 2014 and December 31, 2013, the stock price guarantee was \$375,147 and \$0, respectively, as the Company's stock price was below \$0.12 per share at September 30, 2014, although any required payment would be disputed by the Company.

### *Legal Matters*

In the normal course of business, the Company periodically becomes involved in litigation. As of September 30, 2014, in the opinion of management, the Company had no pending litigation that would have a material adverse effect on the Company's financial position, results of operations, or cash flows.

The Company commenced on December 20, 2013 patent infringement litigation against eBay, Inc. (Paid, Inc. v. eBay, Inc.; CV No. 4:13-cv-40151-TSH) in the United States District Court for the District of Massachusetts Central Division. On June 30, 2014, PAID and eBay filed a joint motion to stay the district court litigation pending completion of eBay's petitions for covered business review that were filed with the Patent and Trial and Appeal Board ("PTAB"). On September 30, 2014 the PTAB announced that it had granted petitions filed by eBay for covered business method review of PAID's United States Patent Nos. 8,635,150, 8,521,642, 8,352,357, and 7,930,237, entitled "Method and System for Improved Online Auction."

### *Indemnities and Guarantees*

The Company has made certain indemnities and guarantees, under which it may be required to make payments to a guaranteed or indemnified party, in relation to certain actions or transactions. The Company indemnifies its directors, officers, employees and agents, as permitted under the laws of the State of Delaware. In connection with its facility leases, the Company has agreed to indemnify its lessors for certain claims arising from the use of the facilities. The duration of the guarantees and indemnities varies, and is generally tied to the life of the agreement. These guarantees and indemnities do not provide for any limitation of the maximum potential future payments the Company could be obligated to make. Historically, the Company has not been obligated nor incurred any payments for these obligations and, therefore, no liabilities have been recorded for these indemnities and guarantees in the accompanying condensed balance sheets.

## **Note 5. Common Stock**

### **Share-based Incentive Plans**

During the period ended September 30, 2014, the Company had three stock option plans that include both incentive and non-qualified options to be granted to certain eligible employees, non-employee directors, or consultants of the Company. There were no stock options granted, exercised, canceled or expired during the three and nine months ended September 30, 2014.

#### **Active Plans:**

##### ***2012 Plan***

On October 15, 2012, the Company adopted the 2012 Non-Qualified Stock Option Plan (the "2012 Plan"). The purpose of the 2012 Plan is to provide long-term incentives and rewards to those employees of the Company, and any other individuals, whether directors, consultants or advisors who are in a position to contribute to the long-term success and growth of the Company. The options granted have a 10 year contractual term and vest one hundred percent on the date of grant. At September 30, 2014, there are 1,000,000 shares reserved for issuance under this plan.

##### ***2011 Plan***

On February 1, 2011, the Company adopted the 2011 Non-Qualified Stock Option Plan (the "2011 Plan"), and has filed Registration Statements on Form S-8 to register 30,000,000 shares of its common stock. Under the 2011 Plan, employees and consultants may elect to receive their gross compensation in the form of options, exercisable at \$.001 per share, to acquire the number of shares of the Company's common stock equal to their gross compensation divided by the fair value of the stock on the date of grant. The options granted have a 10 year contractual term and vest one hundred percent on the date of grant. At September 30, 2014, there are 750,000 shares reserved for issuance under this plan.

##### ***2002 Plan***

The 2002 Stock Option Plan (“2002 Plan”) provides for the award of qualified and non-qualified options for up to 30,000,000 shares. The options granted have a ten-year contractual term and have a vesting schedule of either immediately, two years, or four years from the date of grant. There are currently no shares reserved for issuance under this plan.

**Note 6.**

***Subsequent Events***

In October 2014, the shareholders approved an amendments to the Company’s Certificate of Incorporation to increase the Company’s authorized shares of common stock from 350,000,000 to 550,000,000 and to make effective a reverse stock split at a range of 1 for 10 through 1 for 50 to reduce the number of authorized shares of the Company’s common stock, subject to the Board of Director’s discretion.

**ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS**  
**2. OF OPERATIONS.**

**Forward Looking Statements**

This Quarterly Report on Form 10-Q contains certain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934) regarding the Company and its business, financial condition, results of operations and prospects. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates", "could", "may", "should", "will", "would", and similar expressions or variations of such words are intended to identify forward-looking statements in this report. Additionally, statements concerning future matters such as the development of new services, technology enhancements, purchase of equipment, credit arrangements, possible changes in legislation and other statements regarding matters that are not historical are forward-looking statements.

Although forward-looking statements in this quarterly report reflect the good faith judgment of the Company's management, such statements can only be based on facts and factors currently known by the Company. Consequently, forward-looking statements are inherently subject to risks, contingencies and uncertainties, and actual results and outcomes may differ materially from results and outcomes discussed in this report. Although the Company believes that its plans, intentions and expectations reflected in these forward-looking statements are reasonable, the Company can give no assurance that its plans, intentions or expectations will be achieved. For a more complete discussion of these risk factors, see Item 1A, "Risk Factors", in the Company's Form 10-K for the fiscal year ended December 31, 2013 that was filed on March 31, 2014.

For example, the Company's ability to achieve positive cash flow and to become profitable may be adversely affected as a result of a number of factors that could thwart its efforts. These factors include the Company's inability to successfully implement the Company's business and revenue model, tour or event cancellations, higher costs than anticipated, the Company's inability to sell its products and services to a sufficient number of customers, the introduction of competing products or services by others, the Company's failure to attract sufficient interest in, and traffic to, its sites, the Company's inability to complete development of its sites, the failure of the Company's operating systems, and the Company's inability to increase its revenues as rapidly as anticipated. If the Company is not profitable in the future, it will not be able to continue its business operations.

**Overview**

The Company originally developed AuctionInc. to assist and improve the Company's on-line auction sales, but management realized that there was a need for an order management system for individuals and businesses that engage in e-commerce on the Internet, including on-line auction sites as well as other websites with multiple sellers.

In 2000, the Company's technology team focused its attention on the core fundamental piece of the system called the Shipping Calculator. The Company recognized the potential importance of the Shipping Calculator and filed for a patent on that technology before launching it to the public in April 2002. The Company obtained its first patent on the Shipping Calculator in January 2008, the second patent in April 2011, the third patent in January 2013, the fourth patent in August 2013 and a fifth patent in January 2014. Additional patent applications are pending. The Shipping Calculator product is modular and customizable, and the Company continues to develop new tools and products for our customers. In addition the Company identifies new channels and partnerships to continue marketing the Shipping Calculator.

The Company believes that its patents are very valuable and it hopes to license them at a fair price to generate revenue for the Company. In addition to this strategy we also have ongoing litigation (Paid v. eBay) in the U.S. District Court of Massachusetts. Our goal is to develop a robust licensing program to generate revenues for the Company. As part of this revenue generation effort, the Company commenced on December 20, 2013 patent infringement litigation against eBay, Inc. (Paid, Inc. v. e-Bay, Inc.; CV No. 4:13-cv-40151-TSH) in the United States District Court for the District of Massachusetts Central Division. The Company's goal is to develop a robust licensing program utilizing its intellectual property assets.

The secondary focus of the Company has been providing brand-related services to businesses and celebrity clients in the entertainment, sports and collectible industries. However these services have been phased out of our operations.

In January 2013, the Company entered into a partnership agreement with Music City Networks ("MCN"). In accordance with the agreement, as of the effective date, MCN will be providing the above mentioned brand related client services directly to the Company's clients in exchange for a profit participation as defined in the agreement. However, the declining client base and departure from the celebrity services industry has eliminated our need to partner with MCN.

*Significant Accounting Policies*

Our significant accounting policies are more fully described in Note 3 to our financial statements included in our Form 10-K filed on March 31, 2014, as updated and amended in Note 1 of the Notes to Condensed Financial Statements included herein. However, certain of our accounting policies, most notably with respect to revenue recognition, are particularly important to the portrayal of our financial position and results of operations and require the application of significant judgment by our management; as a result, they are subject to an inherent degree of uncertainty. In applying these policies, our management makes estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures. Those estimates and judgments are based upon our historical experience, the terms of existing contracts, our observance of trends in the industry, information that we obtain from our customers and outside sources, and on various other assumptions that we believe to be reasonable and appropriate under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

*Results of Operations****Comparison of the three and nine months ended September 30, 2014 and 2013.***

The following discussion compares the Company's results of operations for the three and nine months ended September 30, 2014 with those for the three and nine months ended September 30, 2013. The Company's condensed financial statements and notes thereto included elsewhere in this quarterly report contain detailed information that should be referred to in conjunction with the following discussion.

*Revenues*

The following table compares total revenue for the periods indicated.

|                               | Three months Ended September 30, |              |          |
|-------------------------------|----------------------------------|--------------|----------|
|                               | 2014                             | 2013         | % Change |
| Merchandising and fulfillment | \$ 47,853                        | \$ 111,998   | (57)%    |
| Client services               | 487                              | 12,596       | (96)%    |
| Touring revenues              | -                                | 986,190      | (100)%   |
| Total revenues                | \$ 48,340                        | \$ 1,110,784 | (96)%    |

Revenues decreased 96% in the third quarter primarily from the decreased client base and the withdrawal from the celebrity service industry.

Merchandising and fulfillment revenues decreased \$64,145 or 57% to \$47,853 in the third quarter of 2014 compared to \$111,998 in 2013. This is a direct result of our reduced client base.

Client services revenues decreased \$12,109 or 96% to \$487 in the third quarter of 2014 compared to \$12,596 in 2013. The decrease was attributable to the change in our business plan as it relates to the services we have provided within the music industry.

Touring revenues decreased \$986,190 or 100% to \$0 in the third quarter of 2014 compared to \$986,190 in 2013. Due to our exit from the celebrity services industry there are no revenues recognized during the third quarter of 2014 when compared to the third quarter of 2013.

#### *Gross Profit*

Gross profit decreased \$378,673 or 89% in the third quarter of 2014 to \$45,969 compared to \$424,642 in 2013. Gross margin increased 57 percentage points to 95% from 38% in the third quarter of 2013. The increase in gross margin was mainly due to the increase in the ratio of revenues with regard to merchandise and fulfillment, specifically, AuctionInc, which has a higher gross profit calculation. Going forward, the Company will continue to focus on expanding and licensing its intellectual property. It is to be expected that this service line will be less costly to pursue.

*Operating Expenses*

Total operating expenses in the third quarter 2014 were \$221,776 compared to \$457,718 in the third quarter 2013, a decrease of \$235,942 or 52%. The decrease is largely due the withdrawal from the celebrity service relationships and decreases in payroll, accounting fees, consulting and related costs.

*Net Income (Loss)*

The Company realized a net loss in the third quarter of 2014 of (\$387,147) compared to a net income of \$126,515 for the same period in 2013. The loss and income for the third quarter of 2014 and 2013 each represent \$0.00 per share.

*Revenues*

The following table compares total revenue for the periods indicated.

|                               | Nine months Ended September 30, |              |          |
|-------------------------------|---------------------------------|--------------|----------|
|                               | 2014                            | 2013         | % Change |
| Merchandising and fulfillment | \$ 221,520                      | \$ 956,625   | (77 )%   |
| Client services               | 6,191                           | 47,330       | (87 )%   |
| Touring revenues              | 522,205                         | 2,107,800    | (75 )%   |
| Total revenues                | \$ 749,916                      | \$ 3,111,755 | (76 )%   |

Revenues decreased 76% in 2014 primarily from a 77% decrease in merchandising revenues, an 87% decrease in client services revenue and a 75% decrease in touring revenues.

Merchandising and fulfillment revenues decreased \$735,105 or 77% to \$221,520 in 2014 compared to \$956,625 in 2013. This is a direct result of our reduced client base and our focus on AuctionInc.

Client services revenues decreased \$41,139 or 87% to \$6,191 in 2014 compared to \$47,330 in 2013. The decrease was attributable to the change in our business plan as it relates to the services we have provided within the music industry.

Touring revenues decreased \$1,585,595 or 75% to \$522,205 in 2014 compared to \$2,107,800 in 2013. The Company has generated a consistent touring base and revenues are directly impacted by our clients' touring schedules and frequency. During 2014 there was a decrease in our client base with no touring revenue recognized in the third quarter of 2014 when compared to 2013.

#### *Gross Profit*

Gross profit decreased \$793,141 or 73% in 2014 to \$289,292 compared to \$1,082,433 in 2013. Gross margin increased to 39% from 35% in 2013. The increase in gross margin was mainly due to the ratio of revenues with regard to merchandise and fulfillment specifically, AuctionInc, which has a higher gross profit calculation. Going forward the Company will be focusing on expanding and licensing its intellectual property. It is to be expected that this service line will be less costly to pursue.

#### *Operating Expenses*

Total operating expenses in 2014 were \$805,554 compared to \$1,639,552 in 2013, a decrease of \$833,998 or 51%. The decrease is largely due to the withdrawal from the celebrity service relationships and decreases in payroll, accounting fees, consulting and related costs.

*Net Loss*

The Company realized a net loss in 2014 of \$1,130,308 compared to a net loss of \$156,113 for the same period in 2013. The loss for 2014 and 2013 each represent \$0.00 per share.

**Operating Cash Flows**

A summarized reconciliation of the Company's net loss to cash and cash equivalents used in operating activities for the nine months ended September 30, 2014 and 2013 is as follows:

|   | 2014          | 2013        |
|---|---------------|-------------|
| Net loss  | \$(1,130,308) | \$(156,113) |
| Depreciation and amortization                                 | 20,620        | 57,874      |
| Loss on disposal of fixed assets                              | -             | 4,282       |
| Realized loss on investments in available-for-sale securities | 79,983        | -           |
| Unrealized gain on investments in trading securities          | -             | (94,856 )   |
| Write down of other receivables                               | 278,089       | -           |
| Gain on settlement of liabilities                             | (34,759 )     | -           |
| Share-based compensation                                      | 38,004        | 242,205     |
| Change in fair value of stock price guarantee                 | 375,147       | (308,569)   |
| Amortization of prepaid facility costs                        | -             | 176,686     |
| Deferred revenue  | (13,614 )     | (139,242)   |
| Changes in current assets and liabilities                     | 71,632        | (526,278)   |
| Net cash used in operating activities                         | \$(315,206 )  | \$(744,011) |

**Working Capital and Liquidity**

The Company had cash and cash equivalents of \$287,625 at September 30, 2014, compared to \$463,285 at December 31, 2013. The Company had a negative working capital of \$141,895 at September 30, 2014, a decrease of \$970,351 compared to \$828,456 at December 31, 2013. The decrease in cash and cash equivalents on hand is attributable to the decrease in revenues generated from the celebrity services.

As discussed in Note 1 of the accompanying condensed financial statements, there exists substantial doubt regarding the Company's ability to continue as a going concern. The Company may need an infusion of additional capital to fund anticipated operating costs over the next 12 months. Management believes that the Company has adequate cash

resources to fund operations during the next 12 months. In addition, Management continues to explore opportunities and has organized additional resources in an effort to license its patents. However, there can be no assurance that anticipated growth in new business will occur, and that the Company will be successful in licensing its patents.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable for smaller reporting companies.

#### **ITEM 4. CONTROLS AND PROCEDURES**

##### **Evaluation of Disclosure Controls and Procedures**

The Company's management, including the President and Chief Executive Officer of the Company, as its principal executive officer, and the Chief Financial Officer of the Company, as its principal financial officer, have evaluated the effectiveness of the Company's "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon this evaluation, the President and Chief Financial Officer concluded that, as of September 30, 2014, the Company's disclosure controls and procedures were not effective, due to material weaknesses in internal control over financial reporting, for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time period specified by the Securities and Exchange Commission's rules and forms, and is accumulated and communicated to the Company's management, including its principal executive and financial officer, as appropriate to allow timely decisions regarding required disclosure.

The Company has identified five material weaknesses in internal control over financial reporting as described in the Company's Form 10-K for the year ended December 31, 2013.

##### **Changes in Internal Control Over Financial Reporting**

There was no change in our internal control over financial reporting during the quarter ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### **PART II - OTHER INFORMATION**

##### **ITEM 1. LEGAL PROCEEDINGS**

In the normal course of business, the Company periodically becomes involved in litigation. As of September 30, 2014, in the opinion of Management, the Company had no material pending litigation other than ordinary litigation incidental to the business.

The Company commenced on December 20, 2013 patent infringement litigation against eBay, Inc. (Paid, Inc. v. eBay, Inc.; CV No. 4:13-cv-40151-TSH) in the United States District Court for the District of Massachusetts Central

Division. On September 30, 2014, PAID and eBay filed a joint motion to stay the district court litigation pending completion of eBay's petitions for covered business review that were filed with the Patent and Trial and Appeal Board ("PTAB"). On September 30, 2014 the PTAB announced that it had granted petitions filed by eBay for covered business method review of PAID's United States Patent Nos. 8,635,150, 8,521,642, 8,352,357, and 7,930,237, entitled "Method and System for Improved Online Auction."

**ITEM 1A. RISK FACTORS**

There are no material changes for the risk factors previously disclosed on Form 10-K for the year ended December 31, 2013.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

None.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4. MINE SAFETY DISCLOSURES**

Not Applicable.

**ITEM 5. OTHER INFORMATION**

None.
