EXPLANATORY NOTE

On October 1, 2014, Seacoast Banking Corporation of Florida, or Seacoast, furnished a Current Report on Form 8-K to report the completion of its previously announced transaction as described in the Agreement and Plan of Merger dated April 24, 2014, as amended (the "Agreement") with The BANKshares, Inc., or BANKshares, whereby BANKshares merged with and into Seacoast. Simultaneously with the merger of BANKshares with and into Seacoast, BANKshares's subsidiary bank, BankFIRST, merged with and into Seacoast's wholly owned subsidiary bank, Seacoast National Bank, or SNB.

This Amendment No. 1 on Form 8-K/A amends and supplements the disclosures provided in Items 2.01 and 9.01 of the Current Report on Form 8-K filed with the Securities and Exchange Commission on October 1, 2014 by providing additional financial statements for BANKshares and its subsidiaries. Included in this report are unaudited financial statements for the three and six month periods ended June 30, 2013 and June 30, 2014, and the audited consolidated financial statements for the fiscal years ended December 31, 2010 and 2011. The unaudited financial statements for BANKshares for the periods ended March 31, 2014 and March 31, 2013, and the audited financial statements for the periods ended December 31, 2012 and 2013 are included in Seacoast's Registration Statement on Form S-4, filed on June 6, 2014, as amended (File No. 333-196575). Seacoast's financial statements for the applicable periods have been previously filed with the Securities and Exchange Commission, as noted herein in Item 9.01(a) "Discussion." Except as otherwise provided herein, the other disclosures made in the Current Report filed on October 1, 2014 remain unchanged. The Company does not anticipate that it will further amend this Current Report.

Statements made in this amendment, other than those concerning historical financial information, may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are subject to risks and uncertainties. These forward-looking statements include, without limitation, statements regarding Seacoast's expectations concerning its financial condition, operating results, cash flows, liquidity and capital resources, including the effects of the BANKshares acquisition and the final determination of the assets and liabilities acquired and their respective valuations. A discussion of risks, uncertainties and other factors that could cause actual results to differ materially from management's expectations is set forth under the captions "Special cautionary notice regarding Forward-Looking Statements," "Business," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Seacoast's Annual Report on Form 10-K for the year ended December 31, 2013 or in its Form 10-Q for the quarter ended September 30, 2014.

Item 2.01. Completion of Acquisition of Assets

On October 1, 2014 Seacoast completed its previously announced merger transaction with Bankshares as set forth in the Agreement, whereby BANKshares merged with and into Seacoast. Simultaneously with the merger of BANKshares with and into Seacoast, BANKshares's subsidiary bank, BankFIRST merged with and into SNB.

Pursuant to the terms of the Agreement, Seacoast purchased approximately \$378.8 million of loans. The estimated fair market value of the loans was approximately \$365 million or 96% of their outstanding unpaid principal balance.

Of the total loans acquired, management identified approximately \$12 million of loans with credit deficiencies. All loans that were on non-accrual status and all other loan relationships identified as impaired as of the acquisition date were considered by management to be credit impaired and will be accounted for pursuant to ASC Topic 310-30. The table below summarizes the total contractually required principal and interest cash payments, management's estimate of expected total cash payments and fair value of the loans as of October 1, 2014 for purchased credit impaired loans. Contractually required principal and interest payments have been adjusted for estimated prepayments. Amounts are in thousands of dollars.

| Total purchased credit-impaired loans acquired | \$ 8,481 |

The table below presents information with respect to the fair value of acquired loans and other interest earning assets, as well as their unpaid principal balance (“Book Balance”) at acquisition date, contractual term and average contractual yield as of the October 1, 2014 acquisition date. Amounts are in thousands of dollars.

Seacoast acquired 12 branches from BANKshares of which 11 are owned and 1 branch is leased. The estimated fair value of the branches acquired total approximately \$12.5 million. Of the 12 branches acquired, Seacoast intends to operate all 12 branches and consolidate two of its existing branches with one of the acquired offices.

The following is a schedule of estimated fair value of minimum future lease payments pursuant to the operating lease assumed by Seacoast that will continue to be operated as of the October 1, 2014 acquisition date. Amounts are in thousands of dollars.

| | |

| 3 months ending December 31, 2014 | \$74 |
| Year 2015 | 295 |
| Year 2016 | 295 |
| Year 2017 | 295 |
| Year 2018 | 295 |
| Thereafter | 467 |
| Total | \$1,721 |

In the acquisition, Seacoast acquired \$516.3 million in deposits at book value. In its assumption of the deposit liabilities, it is believed that these deposits have an intangible value. Management applied ASC Topic 805, which prescribes the accounting for goodwill and other intangible assets such as core deposit intangibles, in a business combination. Seacoast preliminarily determined the estimated fair value of the core deposit intangible asset totaled \$7.5 million, which will be amortized utilizing the straight line amortization method over an estimated economic life not to exceed ten years. In determining the valuation amount, deposits were analyzed based on factors such as type of deposit, deposit retention, interest rates and age of deposit relationships.

Future amortization of this core deposit intangible asset over the estimated life will decrease results of operations, net of any potential tax effect. Since amortization is a non-cash item, it will have no effect upon future liquidity and cash flows. For the calculation of regulatory capital, core deposit intangible asset is disallowed and is a reduction to equity capital. Seacoast expects that disallowing this intangible asset should not materially adversely affect Seacoast's regulatory capital ratios.

The core deposit intangible asset is subject to significant estimates by management related to the value and the life of the asset. These estimates could change over time. Seacoast will review the valuation of this asset periodically to ensure that no impairment has occurred. If any impairment is subsequently determined, Seacoast will record the impairment as an expense in its consolidated statement of operations.

Other Real Estate Owned

As part of the acquisition, Seacoast acquired OREO with a fair value less estimated selling expenses of \$2.8 million that BankFIRST obtained through foreclosure and repossession. Fair value estimates were based on current appraisals (appraisals less than one year old).

Management has from time to time become aware of acquisition opportunities and has performed various levels of review related to potential acquisitions in the past. The BankFIRST acquisition was attractive to Seacoast for a variety of reasons including the following:

- attractiveness in the pricing of the acquired loans;
- ability to increase Seacoast's market share in central Florida;

- 4 -

- attractiveness of core deposit customer relationships;
- opportunities to enhance income and efficiency as Seacoast expects to enhance income by centralizing certain duties and processes and removing duplications of effort thereby taking advantage of economies of scale.

Based on these and other factors, Seacoast believes that the BankFIRST acquisition will have an immediate positive impact on its earnings.

The total assets acquired, excluding goodwill, represents approximately 23% of pro forma total assets, excluding goodwill, as of June 30, 2014, and total deposits assumed, approximately \$516 million, represents approximately 22% of pro forma total deposits reported as of June 30, 2014. Seacoast believes that the transaction will improve net interest income, as Seacoast earns more from interest earned on its loans and investments than it pays in interest on deposits.

Liquidity and Capital Resources

The BANKshares acquisition enhanced the liquidity position of Seacoast. Seacoast acquired \$53.3 million of cash and cash equivalents. This addition to Seacoast's balance sheet represents additional support for Seacoast's liquidity needs.

Deposits with an estimated fair value of \$516 million were also assumed. Of this amount approximately 39% is in noninterest bearing deposits, 42% is in money market and savings accounts and the remainder is in certificates of deposit accounts.

In the BANKshares acquisition, Seacoast also assumed Trust Preferred Securities totaling \$14.4 million issued by BANKshares that qualify for Tier 1 capital. Interest payments are due quarterly at a weighted average rate of LIBOR plus 2.45% on the trust preferred securities. Seacoast estimated the fair value of these to be approximately \$10.9 million at the October 1, 2014 acquisition date.

At December 31, 2013, Seacoast and SNB were considered "well-capitalized" based on calculations of relevant regulatory ratios. Seacoast, SNB, BANKshares and BankFIRST had the following capital ratios at June 30, 2014.

| | |
|-------------------------|-------------------------|
| regulatory guideline | Actual at June 30, 2014 |
|-------------------------|-------------------------|

| | amounts to be considered well capitalized | SeacoastSNB | BANKshares | BankFIRST |
|-------------------------|---|---------------|------------|-----------|
| Tier 1 leverage ratio | 5.0 | % 11.0% 9.8 % | 11.9 % | 11.2 % |
| Tier 1 risk based ratio | 6.0 | % 17.8% 16.0% | 16.6 % | 15.7 % |
| Total risk based ratio | 10.0 | % 19.1% 17.2% | 17.8 % | 16.9 % |

The acquisition of BANKshares did not have a material adverse effect on Seacoast's regulatory capital ratios. Seacoast and SNB remain "well-capitalized" after taking into consideration the results of the merger.

Seacoast recognized goodwill on this acquisition of approximately \$22 million. Goodwill represents the excess of the fair value of the consideration transferred over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Fair value estimates are based on the information available, and are subject to change for up to one year after the closing date of the acquisition as additional information relative to acquisition date fair values becomes available. Fair values are preliminary estimates due to pending appraisals on loans, other real estate owned, and core deposit intangible valuation.

The foregoing summary is not complete and is qualified in its entirety by reference to the full text of the Agreement, incorporated by reference to Exhibit 2.1 to Seacoast's Registration Statement on Form S-4 (File No. 333-196575) and amendments thereto.

Item 9.01 Financial Statements and Exhibits

(a) Financial Statements of Business Acquired

Discussion

As set forth in Item 2.01 above, on October 1, 2014, Seacoast acquired all of the assets and assumed all of the deposits and other liabilities of BANKshares and BankFIRST pursuant to the Agreement. A narrative description of the anticipated effects of the BANKshares acquisition (the "Acquisition") on Seacoast's financial condition, liquidity, capital resources and operating results is presented below. This discussion should be read in conjunction with the historical financial statements and the related notes of Seacoast, which have been filed with the Securities and Exchange Commission. These are listed below, along with the Report of Independent Registered Public Accounting Firm, the Consolidated Financial Statements of BANKshares which comprise the Consolidated Balance Sheets as of December 30, 2013 and 2012, and the related Consolidated Statements of Operations, Comprehensive Loss, Changes in Stockholders' Equity, and Cash Flows for each of the three years in the period ended December 31, 2013, and the related Notes to the Consolidated Financial Statements which are incorporated by reference to Seacoast's Registration Statement on Form S-4 (File No. 333-196575) and amendments thereto and the audited consolidated financial statements of The BANKshares, Inc. comprised of the consolidated balance sheets at December 31, 2011 and 2010, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for the years then ended, and the notes related thereto are attached hereto as Exhibit 99.1.

Incorporated by reference to Seacoast's Quarterly Report on Form 10-Q for the period ending June 30, 2014 filed on August 11, 2014.

Seacoast's unaudited Condensed Consolidated Balance Sheet as of September 30, 2014, and the related Condensed Consolidated Statements of Income and Comprehensive Income for the nine months and three months ending September 30, 2014 and 2013, Changes in Stockholders' Equity, and Cash Flows for the six month period ending September 30, 2014 and 2013, and the related Notes to the Condensed Consolidated Financial Statements. Incorporated by reference to Seacoast's Quarterly Report on Form 10-Q for the period ending September 30, 2014 filed on November 10, 2014.

Seacoast's primary reasons for the transaction were to further solidify its market share in the central Florida market and expand its customer base to enhance deposit fee income and leverage operating cost through economies of scale. The acquisition increased Seacoast's total assets and total deposits by approximately 29% and 29%, respectively, as compared with the balances at June 30, 2014, and is expected to positively affect Seacoast's operating results to the extent Seacoast earns more from interest earning assets than it pays in interest on its interest bearing liabilities. The ability of Seacoast to successfully collect interest and principal on the loans acquired will also impact cash flows and operating results.

Seacoast estimated the acquisition date fair value of the acquired assets and assumed liabilities in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 805, Business Combinations (ASC Topic 805) and ASC Topic 820, Fair Value Measurements. However, the amount that Seacoast realizes on these assets may differ materially from these carrying values primarily as a result of changes in the timing and amount of collections on the acquired loans in future periods.

Calculation of Acquisition Consideration

Under the terms of the definitive agreement, Seacoast issued 0.4975 Seacoast shares for each share of BANKshares common and preferred stock, or a total of approximately 7.03 million shares of common stock to BANKshares's shareholders. Based on Seacoast's closing stock price of \$10.93 on September 30, 2014, the transaction was valued at approximately \$77 million.

| | |
|---------------------------------|----------|
| Approximate shares to be issued | 7,025 |
| Price per share | \$10.93 |
| Calculated purchase price | \$76,788 |

Estimated Acquisition Consideration Allocation

Under the acquisition method of accounting, the total acquisition consideration is allocated to the acquired tangible and intangible assets and assumed liabilities of BANKshares based on the estimated fair values as of the closing of the merger. The excess of the acquisition consideration over the fair value of assets acquired and liabilities assumed, if any, is allocated to goodwill.

The allocation is based on estimates, assumptions, valuations, and other studies which have not progressed to a stage where there is sufficient information to make a definitive allocation. Accordingly, the acquisition consideration allocation unaudited pro forma adjustments will remain preliminary until Seacoast management determines the final acquisition consideration and the fair values of assets acquired and liabilities assumed. The final determination of the acquisition consideration allocation is anticipated to be completed as soon as practicable after the completion of the merger and will be based on the value of the Seacoast common stock in accordance with the merger agreement. The final amounts allocated to assets acquired and liabilities assumed could differ from the amounts presented in the unaudited pro forma combined consolidated financial statements.

The total acquisition consideration as shown in the table above is allocated to BANKshares' tangible and intangible assets and liabilities as of June 30, 2014 based on their preliminary estimated fair values as follows. Amounts are in thousands of dollars.

| | |
|---|-----------|
| Cash and cash equivalents | \$53,276 |
| Investment securities | 146,844 |
| Loans | 365,454 |
| Loans available for sale | 235 |
| OREO (foreclosed assets) | 2,896 |
| Bank premises and equipment | 12,511 |
| Other assets | 17,740 |
| Core deposit intangible assets | 7,500 |
| Goodwill | 22,256 |
| Deposits | (515,663) |
| Other borrowings | (22,943) |
| Junior sub debt | (10,826) |
| Other liabilities | (2,492) |
| Total Preliminary Estimated Acquisition Consideration | \$76,788 |

Approximately \$7,500 has been preliminarily allocated to amortizable intangible assets acquired. The amortization related to the preliminary fair value of net amortizable intangible assets is reflected as a pro forma adjustment to the unaudited pro forma condensed combined financial statements.

- 8 -

Identifiable intangible assets. The preliminary fair values of intangible assets were determined based on the provisions of ASC 805, which defines fair value in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* (“ASC 820”). ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Intangible assets were identified that met either the separability criterion or the contractual-legal criterion described in ASC 805. The preliminary allocation to intangible assets is allocated to core deposit intangibles.

Goodwill. Goodwill represents the excess of the preliminary estimated acquisition consideration over the preliminary fair value of the underlying net tangible and intangible assets. Among the factors that contributed to a purchase price in excess of the fair value of the net tangible and intangible assets are the skill sets, operations, customer base and organizational cultures that can be leveraged to enable the combined Seacoast to build an enterprise greater than the sum of its parts. In accordance with ASC Topic 350, *Intangibles—Goodwill and Other*, goodwill will not be amortized, but instead will be tested for impairment at least annually and whenever events or circumstances have occurred that may indicate a possible impairment. In the event management determines that the value of goodwill has become impaired, Seacoast will incur an accounting charge for the amount of the impairment during the period in which the determination is made.
