FIRST UNITED CORPORATION

NoteS to Consolidated Financial Statements (UNAUDITED)

Note 1 – Basis of Presentation

The accompanying unaudited consolidated financial statements of First United Corporation and its consolidated subsidiaries, including First United Bank & Trust (the “Bank”), have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information, as required by the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 270, *Interim Reporting*, and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all the information and footnotes required for annual financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting of normal recurring items, have been included. Operating results for the six- and three-month periods ended June 30, 2015 are not necessarily indicative of the results that may be expected for the full year or for any future interim period. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in First United Corporation’s Annual Report on Form 10-K for the year ended December 31, 2014. For purposes of comparability, certain prior period amounts have been reclassified to conform to the 2015 presentation. Such reclassifications had no impact on net income or equity.

First United Corporation has evaluated events and transactions occurring subsequent to the statement of financial condition date of June 30, 2015 for items that should potentially be recognized or disclosed in these financial statements as prescribed by ASC Topic 855, *Subsequent Events*.

As used in these notes to consolidated financial statements, First United Corporation and its consolidated subsidiaries are sometimes collectively referred to as the “Corporation”.

Note 2 – Earnings Per Common Share

Basic earnings per common share is derived by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period and does not include the effect of any potentially dilutive common stock equivalents. Diluted earnings per share is derived by dividing net income available to common shareholders by the weighted-average number of shares outstanding, adjusted for the dilutive effect of outstanding common stock equivalents. There is no dilutive effect on earnings per share during loss periods.

The following tables set forth the calculation of basic and diluted earnings per common share for the six- and three-month periods ended June 30, 2015 and 2014:

	Six months ended June 30,					
	2015			2014

Note 4 – Cash and Cash Equivalents

Cash and due from banks, which represents vault cash in the retail offices and invested cash balances at the Federal Reserve and other correspondent banks, is carried at cost which approximates fair value.

(in thousands)	June 30, 2015	December 31, 2014
Cash and due from banks, weighted average interest rate of 0.09% (at June 30, 2015)	$54,913	$ 27,554

Interest bearing deposits in banks, which represent funds invested at a correspondent bank, are carried at cost which approximates fair value and, as of June 30, 2015 and December 31, 2014, consisted of daily funds invested at the Federal Home Loan Bank ("FHLB") of Atlanta, First Tennessee Bank ("FTN"), and Merchants and Traders ("M&T").

(in thousands)	June 30, 2015	December 31, 2014

M&T daily investments, interest rate of 0.15% (at June 30, 2015)	1,011	6,064
	$ 2,991	$ 7,897

Note 5 – Investments

The investment portfolio is classified and accounted for based on the guidance of ASC Topic 320, *Investments – Debt and Equity Securities*.

The amortized cost of debt securities classified as available-for-sale is adjusted for the amortization of premiums to the first call date, if applicable, or to maturity, and for the accretion of discounts to maturity, or, in the case of mortgage-backed securities, over the estimated life of the security. Such amortization and accretion is included in interest income from investments. Interest and dividends are included in interest income from investments. Gains and losses on the sale of securities are recorded using the specific identification method.

The following table shows a comparison of amortized cost and fair values of investment securities at June 30, 2015 and December 31, 2014:

Management systematically evaluates securities for impairment on a quarterly basis. Management assesses whether (a) the Corporation has the intent to sell a security being evaluated and (b) it is more likely than not that the Corporation will be required to sell the security prior to its anticipated recovery. If neither applies, then declines in the fair values of securities below their cost that are considered other-than-temporary declines are split into two components. The first is the loss attributable to declining credit quality. Credit losses are recognized in earnings as realized losses in the period in which the impairment determination is made. The second component consists of all other losses, which are recognized in other comprehensive loss. In estimating other-than-temporary impairment ("OTTI") losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) adverse conditions specifically related to the security, an industry, or a geographic area, (3) the historic and implied volatility of the fair value of the security, (4) changes in the rating of the security by a rating agency, (5) recoveries or additional declines in fair value subsequent to the balance sheet date, (6) failure of the issuer of the security to make scheduled interest or principal payments, and (7) the payment structure of the debt security and the likelihood of the issuer being able to make payments that increase in the future. Management also monitors cash flow projections for securities that are considered beneficial interests under the guidance of ASC Subtopic 325-40, *Investments – Other – Beneficial Interests in Securitized Financial Assets*, (ASC Section 325-40-35). Further discussion about the evaluation of securities for impairment can be found in Item 2 of Part I of this report under the heading "*Investment Securities*".

Management believes that the valuation of certain securities is a critical accounting policy that requires significant estimates in preparation of the Corporation's consolidated financial statements. Management utilizes an independent third party to prepare both the impairment valuations and fair value determinations for the Corporation's collateralized debt obligation ("CDO") portfolio consisting of pooled trust preferred securities. Based on management's review of the assumptions and results of the third-party review, it does not believe that there were any material differences in the valuations between December 31, 2014 and June 30, 2015.

U.S. Treasuries – Available for Sale – As of June 30, 2015, there were no securities issued by the U.S. Treasury that were in a loss position.

U.S. Government Agencies – Available for Sale – There were three U.S. government agencies in an unrealized loss position for less than 12 months as of June 30, 2015. There was one U.S. government agency in an unrealized loss position for 12 months or more. The security is of the highest investment grade and the Corporation does not intend to sell it, and it is not more likely than not that the Corporation will be required to sell it before recovery of its amortized cost basis, which may be at maturity. Accordingly, management does not consider this investment to be other-than-temporarily impaired at June 30, 2015.

Residential Mortgage-Backed Agencies – Available for Sale - There were no residential mortgage-backed agencies in an unrealized loss position for less than 12 months as of June 30, 2015. There was one residential mortgage-backed agency security in an unrealized loss position for 12 months or more. The security is of the highest investment grade and the Corporation does not intend to sell it, and it is not more likely than not that the Corporation will be required to sell the security before recovery of its amortized cost basis, which may be at maturity. Accordingly, management does not consider this investment to be other-than-temporarily impaired at June 30, 2015.

Commercial Mortgage-Backed Agencies – Available for Sale – There were five commercial mortgage-backed agencies in an unrealized loss position for less than 12 months as of June 30, 2015. The securities are of the highest investment grade and the Corporation does not intend to sell them, and it is not more likely than not that the Corporation will be required to sell them before recovery of their amortized cost basis, which may be at maturity. Accordingly, management does not consider these investments to be other-than-temporarily impaired at June 30, 2015. There were no commercial mortgage-backed agency securities in an unrealized loss position for 12 months or more.

Collateralized Mortgage Obligations – Available for Sale – There was one collateralized mortgage obligations in an unrealized loss position for less than 12 months as of June 30, 2015. The security is of the highest investment grade and the Corporation does not intend to sell it, and it is not more likely than not that the Corporation will be required to sell it before recovery of their amortized cost basis, which may be at maturity. Accordingly, management does not consider these investments to be other-than-temporarily impaired at June 30, 2015. There were no collateralized mortgage obligations in an unrealized loss position for 12 months or more.

Obligations of State and Political Subdivisions – Available for Sale – There were ten obligations of state and political subdivisions that have been in an unrealized loss position for less than 12 months at June 30, 2015. There was one security that had been in an unrealized loss position for 12 months or more. These investments are of investment grade as determined by the major rating agencies and management reviews the ratings of the underlying issuers and performs an in-depth credit analysis on the securities. Management believes that this portfolio is well-diversified throughout the United States, and all bonds continue to perform according to their contractual terms. The Corporation does not intend to sell these investments and it is not more likely than not that the Corporation will be required to sell the investments before recovery of their amortized cost basis, which may be at maturity. Accordingly, management does not consider these investments to be other-than-temporarily impaired at June 30, 2015.

Collateralized Debt Obligations – Available for Sale - The $8.8 million in unrealized losses greater than 12 months at June 30, 2015 relates to 13 pooled trust preferred securities that are included in the CDO portfolio. See Note 9 for a discussion of the methodology used by management to determine the fair values of these securities. Based upon a review of credit quality and the cash flow tests performed by the independent third party, management determined that there were no securities that had credit-related non-cash OTTI charges during the first six months of 2015. The unrealized losses on the remaining securities in the portfolio are primarily attributable to continued depression in market interest rates, marketability, liquidity and the current economic environment.

U.S. Government Agencies – Held to Maturity – There was one security issued by government agencies in an unrealized loss position for less than 12 months as of June 30, 2015. The Corporation has the intent and ability to hold the investment to maturity. Accordingly, management does not consider this investment to be other-than-temporarily impaired at June 30, 2015. There were no securities issued by government agencies in an unrealized loss position for 12 months or more.

Residential Mortgage-Backed Agencies – Held to Maturity - Twelve residential mortgage-backed agencies have been in an unrealized loss position for less than 12 months as of June 30, 2015. The Corporation has the intent and ability to hold the investments to maturity. Accordingly, management does not consider these investments to be other-than-temporarily impaired at June 30, 2015. There were no residential mortgage-backed agencies in an unrealized loss position for 12 months or more.

Commercial Mortgage-Backed Agencies – Held to Maturity - There were no commercial mortgage-backed agencies in the Held to Maturity portfolio as of June 30, 2015 in a loss position.

Collateralized Mortgage Obligations – Held to Maturity – There was one collateralized mortgage obligations in an unrealized loss position for less than 12 months as of June 30, 2015. The Corporation has the intent and ability to hold the investment to maturity. Accordingly, management does not consider this investment to be other-than-temporarily impaired at June 30, 2015. There were no collateralized mortgage obligations in an unrealized loss position for 12 months or more.

Obligations of State and Political Subdivisions – Held to Maturity – There were no obligations of state and political subdivisions in the Held to Maturity portfolio as of June 30, 2015 in a loss position.

The following tables present a cumulative roll-forward of the amount of non-cash OTTI charges related to credit losses which have been recognized in earnings for the trust preferred securities in the CDO portfolio held and not intended to be sold for the six- and three-month periods ended June 30, 2015 and 2014:

	Six months ended June 30,	
(in thousands)	2015	2014
Balance of credit-related OTTI at January 1	$ 12,583	$ 13,422
Reduction for increases in cash flows expected to be collected	(340)	(331)
Balance of credit-related OTTI at June 30	$ 12,243	$ 13,091

	Three months ended June 30,	
(in thousands)	2015	2014
Balance of credit-related OTTI at April 1	$ 12,416	$ 13,262

Note 6 - Restricted Investment in Bank Stock

Restricted stock, which represents required investments in the common stock of the FHLB of Atlanta, Atlantic Community Bankers Bank (“ACBB”) and Community Bankers Bank (“CBB”), is carried at cost and is considered a long-term investment.

Management evaluates the restricted stock for impairment in accordance with ASC Industry Topic 942, *Financial Services – Depository and Lending*, (ASC Section 942-325-35). Management's evaluation of potential impairment is based on management's assessment of the ultimate recoverability of the cost of the restricted stock rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability is influenced by criteria such as (a) the significance of the decline in net assets of the issuing bank as compared to the capital stock amount for that bank and the length of time this situation has persisted, (b) commitments by the issuing bank to make payments required by law or regulation and the level of such payments in relation to the operating performance of that bank, and (c) the impact of legislative and regulatory changes on institutions and, accordingly, on the customer base of the issuing bank. Management has evaluated the restricted stock for impairment and believes that no impairment charge is necessary as of June 30, 2015.

The Corporation recognizes dividends received on its restricted stock investments on a cash basis. For the six months ended June 30, 2015, dividends of $155,668 were recognized in earnings. For the comparable period of 2014, dividends of $144,336 were recognized in earnings. For the three months ended June 30, 2015 and 2014, dividends of $76,511 and $71,338, respectively, were recognized in earnings.

Note 7 – Loans and Related Allowance for Loan Losses

The following table summarizes the primary segments of the loan portfolio as of June 30, 2015 and December 31, 2014:

(in thousands)	Commercial Real Estate	Acquisition and Development	Commercial and Industrial	Residential Mortgage	Consumer	Total
June 30, 2015						
Individually evaluated for impairment	$ 12,598	$ 5,892	$ 1,474	$ 4,620	$ 0	$ 24,584

Total loans	$ 261,175	$ 94,873	$ 93,531	$ 370,955	$ 24,556	$ 845,090
December 31, 2014						
Individually evaluated for impairment	$ 11,949	$ 6,553	$ 1,861	$ 4,418	$ 0	$ 24,781
Collectively evaluated for impairment	$ 244,115	$ 92,748	$ 91,394	$ 363,223	$ 23,730	$ 815,210
Total loans	$ 256,064	$ 99,301	$ 93,255	$ 367,641	$ 23,730	$ 839,991

The segments of the Bank's loan portfolio are disaggregated to a level that allows management to monitor risk and performance. The commercial real estate ("CRE") loan segment is then segregated into two classes. Non-owner occupied CRE loans, which include loans secured by non-owner occupied, non-farm, and nonresidential properties, generally have a greater risk profile than all other CRE loans, which include loans secured by farmland, multifamily structures and owner-occupied commercial structures. The acquisition and development ("A&D") loan segment is segregated into two classes. One-to-four family residential construction loans are generally made to individuals for the acquisition of and/or construction on a lot or lots on which a residential dwelling is to be built. All other A&D loans are generally made to developers or investors for the purpose of acquiring, developing and constructing residential or commercial structures. A&D loans have a higher risk profile because the ultimate buyer, once development is completed, is generally not known at the time of the loan is made. The commercial and industrial ("C&I") loan segment consists of loans made for the purpose of financing the activities of commercial customers. The residential mortgage loan segment is segregated into two classes. Amortizing term loans are primarily first lien loans. Home equity lines of credit are generally second lien loans. The consumer loan segment consists primarily of installment loans (direct and indirect) and overdraft lines of credit connected with customer deposit accounts.

Management uses a 10-point internal risk rating system to monitor the credit quality of the overall loan portfolio. The first six categories are considered not criticized, and are aggregated as "Pass" rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The Special Mention category includes assets that are currently protected but are potentially weak, resulting in an undue and unwarranted credit risk, but not to the point of justifying a Substandard classification. Loans in the Substandard category have well-defined weaknesses that jeopardize the liquidation of the debt, and have a distinct possibility that some loss will be sustained if the weaknesses are not corrected. All loans greater than 90 days past due are considered Substandard. The portion of a specific allocation of the allowance for loan losses that management believes is associated with a pending event that could trigger loss in the short-term will be classified in the Doubtful category. Any portion of a loan that has been charged off is placed in the Loss category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Bank has a structured loan rating process with several layers of internal and external oversight. Generally, consumer and residential mortgage loans are included in the Pass categories unless a specific action, such as bankruptcy, repossession, or death occurs to raise awareness of a possible credit event. The Bank's Commercial Loan Officers are responsible for the timely and accurate risk rating of the loans in the commercial segments at origination and on an ongoing basis. The Bank's experienced Credit Quality and Loan Review Department performs an annual review of all commercial relationships of $500,000 or greater. Confirmation of the appropriate risk grade is included as part of the review process on an ongoing basis. The Credit Quality and Loan Review Department continually reviews and assesses loans within the portfolio. In addition, the Bank engages an external consultant to conduct loan reviews on at least an annual basis. Generally, the external consultant reviews commercial relationships greater than $1,000,000 and/or criticized non-consumer loans greater than $500,000. Detailed reviews, including plans for resolution, are performed on loans classified as Substandard on a quarterly basis. Loans in the Special Mention and Substandard categories that are collectively evaluated for impairment are given separate consideration in the determination of the allowance.

The following table presents the classes of the loan portfolio summarized by the aggregate Pass and the criticized categories of Special Mention and Substandard within the internal risk rating system as of June 30, 2015 and December 31, 2014:

Management further monitors the performance and credit quality of the loan portfolio by analyzing the age of the portfolio as determined by the length of time a recorded payment is past due. A loan is considered to be past due when a payment remains unpaid 30 days past its contractual due date. For all loan segments, the accrual of interest is discontinued when principal or interest is delinquent for 90 days or more unless the loan is well-secured and in the process of collection. All non-accrual loans are considered to be impaired. Interest payments received on non-accrual loans are applied as a reduction of the loan principal balance. Loans are returned to accrual status when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. The Corporation’s policy for recognizing interest income on impaired loans does not differ from its overall policy for interest recognition.

The following table presents the classes of the loan portfolio summarized by the aging categories of performing loans and non-accrual loans as of June 30, 2015 and December 31, 2014:
