ELLSWORTH FUND LTD. 2014 ANNUAL REPORT TO SHAREHOLDERS

To Our Shareholders

November 17, 2014

We are delighted to share with you some very positive news about Ellsworth Fund Ltd. Year to date through September 30, 2014, the common stock portion of our portfolio had a total return that outperformed the portfolio as a whole. Furthermore, the volatility of our common stock holdings was actually lower than that of the portfolio as a whole as measured by standard deviation. So we were able to reduce Fund volatility while improving performance as a result of our increase in the share of common stock holdings in the portfolio. Our investment approach allowed us to beat all of our closed-end convertible fund peers as well as the Lipper Open-End Convertible Fund average over the nine months ended September 30, 2014.

Performance for Ellsworth's fourth fiscal quarter ended September 30, 2014 was enhanced by exposure to the Health Care and Information Technology sectors. Performance was held back, however, by the Fund's exposure to the Energy and Industrial sectors. The Fund's largest sector exposures as of September 30, 2014 were in Information Technology (23.5%), Financials (18.8%), and Health Care (18.4%).

The Fund places equal importance on income and capital gains and seeks returns with a lower volatility than that of the market as a whole. Traditionally, we have found balanced convertible securities to be the instruments of choice to satisfy these requirements. Nonetheless, during the past year or more, we have continued expanding our allocation of investments to dividend paying common stocks. We believe there are many undervalued stocks with a history of dividend growth that will have a positive impact on the Fund's yield without sacrificing capital gains potential or significantly increasing volatility. Our expectation is that this continuing strategy will give us a greater opportunity to achieve our investment objectives than would a lower allocation to dividend paying common stocks. We believe this conclusion to be true regardless of whether volatility increases or the equity market continues on an upward trajectory. We believe the performance for the nine months ended September 30, 2014 corroborates our investment thesis. It also affords us the opportunity to construct a portfolio with risk and return characteristics that are similar to those of traditional convertible securities, even if those characteristics become less common in the convertible market.

The portfolio of Ellsworth Fund Ltd. at September 30, 2014 consisted of 52.1% cash-pay convertible bonds and notes, 9.7% mandatory convertible issues, 9.5% convertible preferred stock, and 27.5% common stock. At that date, the bonds had an average current annual yield of 2.20%; the mandatory convertible securities, 5.53%; the preferred shares, 6.05%; and the common shares, 3.71%. The Fund's convertible securities holdings at September 30, 2014 had a median premium-to-conversion value of 22.3%. We calculate that equities and equity-sensitive convertible issues at that date made up 52% of the Fund's portfolio, with credit-sensitive issues accounting for 11% of the Fund's portfolio, and total-return convertible issues at 37%.

Moving from Fund specific information to the markets more generally, the September quarter saw an increase in volatility in the U.S. markets for a plethora of reasons ranging from geopolitical and health concerns to the end of the quantitative easing program by the Federal Reserve Board. In this type of environment we believe that proper securities selection can be the key to good performance, as certain companies are much less likely to be adversely affected by various externalities than others. We believe the Fund's investment approach as described above positions us to do so effectively.

To Our Shareholders (continued)

At its October meeting, the Board of Trustees of the Fund declared a distribution of \$0.35 per share. The distribution consists of \$0.038 undistributed net investment income, and net realized gains on investments of \$0.312. The distribution is payable on November 26, 2014 to shareholders of record on October 31, 2014. This is the largest single distribution by the Fund since calendar year 2007; furthermore, this year's total annual distribution is also the largest since 2007. The Board has adopted a 5% minimum dividend distribution policy and also authorized a share repurchase program of up to 3% of the outstanding shares as a way to address what the Trustees believe to be an undervaluation of the Fund's shares.

The 2015 annual meeting of shareholders will be held on February 9, 2015. Information about the location of the meeting will be included in the proxy statement, scheduled to be mailed to shareholders on December 29, 2014. All shareholders are welcome to attend and we hope to see you there.

(a) Market value total return is calculated assuming a purchase of Fund shares on the opening of the first business day and a sale on the closing of the last business day of each period reported. Dividends and distributions are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's Automatic Dividend Investment and Cash Payment Plan. Net asset value total return is calculated on the same basis, except that the Fund's net asset value is used on the purchase and sale dates instead of market value.

(b) Amount less than \$0.01.

Notes to Financial Statements

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Organization Ellsworth Fund Ltd. (the Fund), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

(b) Indemnification Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

(c) Security Valuation Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Quoted unadjusted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The net change in unrealized depreciation from Level 3 investments held as of September 30, 2014 was (\$2,970) and is included in net unrealized appreciation of investments on the Statement of Operations. Transfers into, or out of, Level 3 are valued utilizing values as of the end of the period. Transfers into Level 3 were due to a decline in market activity (e.g., frequency of trades), which resulted in a lack of available market inputs to determine price.

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of September 30, 2014:

	Fair Value September 30, 2014	Valuation Methodologies	Unobservable Input ⁽¹⁾	Impact to Valuation from an Increase in Input ⁽²⁾
[REDACTED]				

(1) In determining certain of these inputs, management evaluates a variety of factors including economic conditions, industry and market developments, market valuations of comparable companies and company specific developments.

(2) This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

(d) Federal Income Taxes The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2011-2013), or expected to be taken in the Fund's 2014 tax returns. The major tax authority for the Fund is the Internal Revenue Service. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Securities Transactions and Related Investment Income Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately \$0.003 per share for the twelve months ended September 30, 2014.

(f) Distributions to Shareholders Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended September 30, 2014 and 2013 were as follows:

	2014	2013
[REDACTED]		
Net realized gain on investments	[REDACTED]	[REDACTED]

At September 30, 2014, the components of distributable earnings and federal tax cost were as follows:

Unrealized depreciation	(3,527,633)
Undistributed ordinary income	490,531
Total distributable net earnings	2,894,948
Cost for federal income tax purposes	\$ 116,426,984

ELLSWORTH FUND LTD. 2014 ANNUAL REPORT TO SHAREHOLDERS

Notes to Financial Statements (continued)

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

The differences between book-basis and tax-basis unrealized appreciation/depreciation is attributable to differing methods of recognizing interest and ordinary income on bonds for tax purposes.

To the extent the Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. As determined at September 30, 2014, the Fund utilized \$9,203,598 of its capital loss carryforwards and had no Post October losses.

(g) Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(h) Regulated Investment Company Modernization Act On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Modernization Act) was signed into law. The Modernization Act modernizes several of the federal income and excise tax provisions related to regulated investment companies (RICs).

New capital losses may now be carried forward indefinitely and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

(i) Market Risk It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$13,129,287 at September 30, 2014, representing approximately 9.7% of net assets.

(j) Reclassification of Capital Accounts Accounting principles generally accepted in the United States require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. At September 30, 2014 the Fund increased undistributed net investment loss by \$10,103 and increased accumulated net realized gain on investments by \$10,103.

NOTE 2 MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Edgar Filing: ELLSWORTH FUND LTD - Form N-CSR

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. (Dinsmore Capital). Pursuant to the investment advisory agreement, Dinsmore Capital provides the Fund with investment advice, office space and facilities. Under the terms of the investment advisory agreement, the Fund pays Dinsmore Capital on the last day of each month an advisory fee for such month computed at an annual rate of 0.75% of the first \$100,000,000 and 0.50% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

NOTE 3 PORTFOLIO ACTIVITY

At September 30, 2014, there were 13,140,692 shares of beneficial interest outstanding, with a par value of \$0.01 per share. During the twelve months ended September 30, 2014, 38,046 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$305,503.

During the twelve months ended September 30, 2014 the Fund repurchased 405,236 capital shares in the open market at a cost of \$3,343,583. The weighted average discount of these purchases comparing the average purchase price to net asset value was 16.65%.

Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$64,052,395 and \$64,778,078, respectively, for the twelve months ended September 30, 2014.

NOTE 4 NEW ACCOUNTING PRONOUNCEMENT

In June 2013, the Financial Accounting Standards Board issued guidance that creates a two-tiered approach to assess whether an entity is an investment company. The guidance will also require an investment company to measure non-controlling ownership interest in other investment companies at fair value and will require additional disclosures relating to investment company status, any changes thereto and information about financial support provided or contractually required to be provided to any of the investment company's investees. The guidance is effective for financial statements with fiscal years beginning on or after December 15, 2013 and interim periods within those fiscal years. Management is evaluating the impact of this guidance on the Funds' financial statement disclosures.

In June 2014, FASB issued ASU No. 2014-11, Transfers and Servicing (Topic 860), Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures. The ASU changes the accounting for certain repurchase agreements and expands disclosure requirements related to repurchase agreements, securities lending, repurchase-to-maturity and similar transactions. The ASU is effective for interim and annual reporting periods beginning after December 15, 2014. Management is currently evaluating the impact, if any, of applying this provision.

NOTE 5 SUBSEQUENT EVENTS

In preparing the financial statements as of September 30, 2014, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements. GT Advanced Technologies Inc. (GT) announced on October 6, 2014 that the company had filed for bankruptcy court protection under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the District of New Hampshire. GT expects the court will authorize the company to continue to conduct business as usual while it devotes renewed efforts to resolve its current issues and develops a reorganization plan. GT and Apple have reached a settlement agreement under which GT will wind down its sapphire materials production in the company's Mesa, AZ and Salem, MA locations. The company indicated that it will exit from the market as a producer of sapphire materials and will refocus its business as an equipment supplier, manufacturing and developing sapphire growth systems and processes. In addition to these sapphire businesses, GT also has photo voltaic and poly silicon solar segments. The effect on the Fund's net asset value on October 6, 2014 was \$0.055 per share.

On November 17, 2014 the Board of Trustees of the Fund adopted a new minimum distribution policy. Pursuant to the new minimum distribution policy, the Fund anticipates making a cumulative annual distribution at a rate equal to at least 5% of the Fund's trailing 12-month average month-end market price. This amount may be adjusted from time to time depending on current market conditions and the projected performance of the Fund. The distribution policy will be subject to regular review by the Board of Trustees. There can be no assurance that the amount of the quarterly distributions will be maintained at levels implemented under the policy or that the new distribution policy will not be discontinued or substantially modified in the future. Implementation of the new minimum distribution policy is subject to completion of any regulatory requirements.

Distributions may consist of net investment income, net realized capital gains (although capital gains distributions, if any, will only be made once per year) and/or a return of capital for federal income tax purposes. The Form 1099-DIV that your broker or agent will make available to you by the IRS mailing deadline will specify the taxability of our distributions, and will tell you how to report these distributions for federal income tax purposes.

On November 17, 2014 the Trustees authorized a plan to repurchase up to 3% of the Fund's outstanding shares (up to approximately 394,000 shares). This repurchase program follows a prior 3% buyback authorization, adopted in 2013 and completed in 2014.

The Fund is not required to have, nor were we engaged to perform an audit of the Fund's internal control over financial reporting. Miscellaneous Notes (unaudited)

Automatic Dividend Investment and Cash Payment Plan

The Fund has an Automatic Dividend Investment and Cash Payment Plan (the Plan). Any shareholder may elect to join the Plan by sending an application to American Stock Transfer & Trust Company, P.O. Box 922, Wall Street Station, New York, NY 10269-0560 (the Plan Agent). You may also obtain information about the Plan, as well as the Plan application, by calling the Plan Agent toll free at (888) 888-0314. If your shares are held by a broker or other nominee, you should instruct the nominee to join the Plan on your behalf. Some brokers may require that your shares be taken out of the broker's street name and re-registered in your own name. Shareholders should also contact their broker to determine whether shares acquired through participation in the Plan can be transferred to another broker and thereafter, whether the shareholder can continue to participate in the Plan.

Under the Plan, all dividends and distributions are automatically invested in additional Fund shares. Depending on the circumstances, shares may either be issued by the Fund or acquired through open market purchases at the current market price or net asset value, whichever is lower (but not less than 95% of market price). For shareholder distributions made with respect to income earned during each of the first three fiscal quarters, when the market price of a share of Fund beneficial shares is lower than such share's net asset value, the Plan Agent will combine the distributions of all Plan participants and purchase shares in the open market, thereby taking advantage of the lower commissions on larger purchases. There is no other charge for this service. For shareholder distributions made with respect to capital gains realized during the fiscal year and income earned during the fourth fiscal quarter, when the market price of a share of Fund shares is lower than such share's net asset value, the Fund will issue shares at the market price.

All dividends and distributions made by the Fund (including capital gain dividends and dividends designated as qualified dividend income, which are eligible for taxation at lower rates) remain taxable to Plan participants, regardless of whether such dividends and distributions are reinvested in additional shares of the Fund through open market purchases or through the issuance of new shares. Plan participants will be treated as receiving the cash used to purchase shares on the open market and, in the case of any dividend or distribution made in the form of newly issued shares, will be treated as receiving an amount equal to the fair market value of such shares as of the reinvestment date. Accordingly, a shareholder may incur a tax liability even though such shareholder has not received a cash distribution with which to pay the tax.

Plan participants may also voluntarily send cash payments of \$100 to \$10,000 per month to the Plan Agent, to be combined with other Plan monies, for purchase of additional Fund shares in the open market. You pay only a bank service charge of \$1.25 per transaction, plus your proportionate share of the brokerage commission. All shares and fractional shares purchased will be held by the Plan Agent in your dividend reinvestment account. You may deposit with the Plan Agent any Fund share certificates you hold, for a one-time fee of \$7.50.

At any time, a Plan participant may instruct the Plan Agent to liquidate all or any portion of such Plan participant's account. To do so, a Plan participant must deliver written notice to the Plan Agent prior to the record date of any dividend or distribution requesting either liquidation or a share certificate. The Plan Agent will combine all liquidation requests it receives from Plan participants on a particular day and will then sell shares of the Fund that are subject to liquidation requests in the open market. The amount of proceeds a Plan participant will receive shall be determined by the average sales price per share, after deducting brokerage commissions, of all shares sold by the Plan Agent for all Plan participants who have given the Plan Agent liquidation requests.

The Plan Agent or the Fund may terminate the Plan for any reason at any time by sending written notice addressed to the Plan participant's address as shown on the Plan Agent's records. Following the date of termination, the Plan Agent shall send the Plan participant either the proceeds of liquidation, or a share certificate or certificates for the full shares held by the Plan Agent in the Plan participant's account. Additionally, a check will be sent for the value of any fractional interest in the Plan participant's account based on the market price of the Fund's shares on that date.

Tait Weller did not provide any non-audit services to the Fund's investment adviser, Dinsmore Capital Management Co. (Dinsmore Capital) or its affiliates or otherwise bill the Fund or Dinsmore Capital or its affiliates for any such non-audit services.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services that are proposed to be provided to the Fund by its independent registered public accountant before they are provided to the Fund. Such pre-approval also includes the proposed fees to be charged by the independent registered public accountant for such services. The Audit Committee may delegate the pre-approval of audit and permissible non-audit services and related fees to one or more members of the Audit Committee who are independent, as such term is used in Form N-CSR. Any such member's decision to pre-approve audit and/or non-audit services and related fees is presented to the full Audit Committee, solely for informational purposes, at its next scheduled meeting.

The Audit Committee also pre-approves non-audit services to be provided by the Fund's independent registered public accountant to the Fund's investment adviser if the engagement relates directly to the operations and financial reporting of the Fund and if the Fund's independent registered public accountant is the same as, or affiliated with, the investment

adviser's independent registered public accountant.

Proxy Voting Guidelines

(Amended July 19, 2012)

These proxy voting guidelines have been adopted by the Boards of Trustees of Bancroft Fund Ltd. and Ellsworth Fund Ltd. (collectively, the Funds), as well as by the Board of Directors of Dinsmore Capital Management Co. (Dinsmore).

The Boards of Trustees of the Funds have delegated to Dinsmore responsibility for voting proxies received by the Funds in their capacities as shareholders of various companies. The Boards recognize that, due to the nature of the Funds investments, the Funds do not receive proxies on many of their holdings.

Dinsmore exercises its voting responsibility with the overall goal of maximizing the value of the Funds investments. The portfolio managers at Dinsmore oversee the voting policies and decisions for the Funds. In evaluating voting issues, the portfolio managers may consider information from many sources, including management of a company presenting a proposal, shareholder groups, research analysts, and independent proxy research services.

Set forth below are the proxy voting guidelines:

A.

Matters Related to the Board of Directors

1.

The Funds generally will support the election of nominees recommended by management for election as directors. In determining whether to support a particular nominee, Dinsmore will consider whether the election of such nominee will cause the board of directors of such nominee s company to have less than a majority of independent directors.

2.

The Funds generally will support proposals to de-classify boards of directors if fewer than 66 2/3% of the directors are independent, and will generally vote against proposals to classify boards of directors.

3.

The Funds generally will withhold a vote in favor of a director who has served on a committee which has approved excessive compensation arrangements or proposed equity-based compensation plans that unduly dilute the ownership interests of stockholders.

B.

Matters Related to Independent Auditors

1.

The Funds generally will vote in favor of independent accountants approved by an issuer. Prior to such vote, however, Dinsmore will take into consideration whether non-audit fees make up more than 50 to 75% of the total fees paid by such issuer to the independent auditors, and the nature of the non-audit services provided.

C.

Corporate Governance Matters

1.

Except as provided in Section E.1, as a general rule, the Funds will vote against proposals recommended by management of a company that are being made primarily to implement anti-takeover measures, and will vote in favor of proposals to eliminate policies that are primarily intended to act as anti-takeover measures.

2.

Subject to the other provisions of these guidelines, including without limitation provision C.1. above, the Funds generally will vote in accordance with management's recommendations regarding routine matters, including the following:

a.

Fixing number of directors;

b.

Stock splits; and

c.

Change of state of incorporation for specific corporate purposes.

D.

Matters Related to Equity-Based Compensation Plans

1.

The Fund generally will vote in favor of broad-based stock option plans for executives, employees or directors which would not increase the aggregate number of shares of stock available for grant under all currently active plans to over 10% of the total number of shares outstanding.

2.

The Funds generally will vote in favor of employee stock purchase plans and employee stock ownership plans permitting purchase of company stock at 85% or more of fair market value.

E.

Other Matters

1.

Contested situations will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore principally responsible for the particular portfolio security.

2.

The Funds may, in their discretion, abstain from voting shares that have been recently sold.

3.

The Funds generally will abstain from voting on issues relating to social and/or political responsibility.

4.

Proposals that are not covered by the above-stated guidelines will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore principally responsible for the particular portfolio security.

F.

Material Conflicts of Interest

1.

Conflicts of interest may arise from time to time between Dinsmore and the Funds. Examples of conflicts of interests include:

a.

Dinsmore may manage a pension plan, administer employee benefit plans, or provide services to a company whose management is soliciting proxies;

b.

Dinsmore or its officers or directors may have a business or personal relationship with corporate directors, candidates for directorships, or participants in proxy contests;

c.

Dinsmore may hold a position in a security contrary to shareholder interests.

2.

If a conflict of interest arises with respect to a proxy voting matter, the portfolio manager will promptly notify the Funds Audit Committee and counsel for independent trustees and the proxies will be voted in accordance with

direction received from the Audit Committee.

G.

Amendments

1.

Any proposed material amendment to these Guidelines shall be submitted for review and approval to:

a.

the Funds' Board of Trustees, including a majority of the disinterested trustees; and

b.

the Adviser's Board of Directors.

2.

Non-material amendments to these Guidelines may be made by the Chair of the Funds, upon consultation with counsel to the Funds and the Funds' Chief Compliance Officer, and will be reported to the Funds' Board of Trustees at their next scheduled in-person meeting.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) As of December 10, 2014, Mr. Thomas H. Dinsmore, Chairman and Chief Executive Officer, Mr. James A. Dinsmore, President and Ms. Jane D. O'Keefe, Executive Vice President, comprise the three-person portfolio management team of the Fund. Mr. Thomas H. Dinsmore has served as portfolio manager since 1996. Mr. James Dinsmore and Ms. O'Keefe have served as portfolio managers since 2011. Mr. Thomas H. Dinsmore is the lead member of the portfolio management team.

Since February 2014, Mr. James A. Dinsmore has served as President of the Fund and of Dinsmore Capital (the Advisor). He served as Executive Vice President of the Fund and of the Advisor from January 2013 until February 2014. Prior to this he served as Vice President of the Fund and the Advisor from 2009 through 2012. He had also been

a research analyst for the Advisor beginning in 2004.

Since February 2014, Ms. O'Keefe has served as Executive Vice President of the Fund and of the Advisor, as well as Managing Director of Research for the Advisor. She served as President of the Fund and of the Advisor from 1996 until February 2014. Messrs. Thomas H. Dinsmore and James A. Dinsmore and Ms. O'Keefe receive investment recommendations from a team of research analysts prior to making investment decisions about transactions in the portfolio. Generally, the co-portfolio managers make decisions jointly about any transactions in the Fund's portfolio, but each co-portfolio manager may do so independently as well.

(2) The portfolio management team comprised of Mr. Thomas H. Dinsmore, Mr. James A. Dinsmore and Ms. Jane D. O'Keefe is also primarily responsible for the day-to-day management of one registered investment company, Bancroft Fund Ltd. (Bancroft), with total assets of \$122,402,165 as of November 30, 2014. The portfolio management team does not manage any accounts or assets with performance-based advisory fees. Mr. Thomas Dinsmore is Chairman and Chief Executive Officer, Ms. O'Keefe is President

and Mr. James Dinsmore is Executive Vice President of Bancroft. This information is as of December 10, 2014. The Fund and Bancroft have similar investment objectives and strategies. As a result, material conflicts of interest may arise between the two funds if a security is not available in a sufficient amount to fill open orders for both funds. To deal with these situations, Trade Allocation Procedures (the Allocation Procedures) have been adopted by the investment adviser for the Fund and Bancroft. The Allocation Procedures set forth a method to allocate a partially filled order among the funds. Pursuant to the method, the amount of shares that each fund purchases is allocated *pro rata* based on the dollar amount of each fund's intended trade or, if the order is subject to a minimum lot size, as closely as possible to such an allocation.

The Allocation Procedures permit Dinsmore Capital to allocate an order in a way that is different from the method set forth above if (i) each fund is treated fairly and equitably and neither fund is given preferential treatment, and (ii) the allocation is reviewed by the chief compliance officer of Dinsmore Capital.

(3) This information is as of December 10, 2014. The Portfolio Management team is compensated by Dinsmore Capital through a three-component plan, consisting of a fixed base salary, annual cash bonus, and benefit retirement plan. Their compensation is reviewed and approved by Dinsmore Capital's Board of Directors annually. Their compensation may be adjusted from year to year based on the perception of Dinsmore Capital's Board of Directors of the team's overall performance and their management responsibilities. Their compensation is not based on (i) a formula specifically tied to the performance of the Fund or Bancroft, including performance against an index or (ii) the value of assets held in the Fund's portfolio.

(4) As of December 10, 2014, Mr. Thomas Dinsmore's beneficial ownership in the Fund's shares was in the range of \$500,001-\$1,000,000. Mr. James Dinsmore's beneficial ownership in the Fund's shares was in the range of \$10,001-\$50,000. Ms. O'Keefe's beneficial ownership in the Fund's shares was in the range of \$100,001-\$500,000.

ITEM 9.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees since those procedures were last disclosed in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or Item 10 of this Form N-CSR.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning the effectiveness of controls and procedures:

(a) As of December 10, 2014, an evaluation was performed under the supervision and with the participation of the officers of the Fund, including the PEO and the PFO, to assess the effectiveness of the Fund's disclosure controls and procedures, as that term is defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940, as amended (the Act). Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)), the Fund's officers, including the PEO and PFO, concluded that, as of December 6, 2013, the Fund's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and (2) that material information relating to the Fund is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a)(1) Not applicable. See the Fund's response to Item 2, above.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), are attached hereto.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the Fund to ten or more persons.
