CHINA FINANCE ONLINE REPORTS SECOND QUARTER 2005 RESULTS

(Beijing, China, August 2, 2005) China Finance Online Co. Limited (Nasdaq: JRJC), a leading Chinese online financial information and listed company data provider, today announced its financial results for the quarter ended June 30, 2005:

- * Net revenues grew by 38% compared to the same period in 2004 to US\$1.84 million for the quarter.
- * Net income grew by 7% compared to the same period in 2004 to US\$1.01 million for the quarter. Basic and diluted income per ADS were each US\$0.05 for the quarter. Basic and diluted income per share were each US\$0.01 for the quarter.
- * Gross margin for the quarter was 94%, compared to 93% for the same period in 2004. Net income margin was 55% for the quarter, compared to 71% for the same period in 2004.

FINANCIAL RESULTS

For the second quarter of 2005, China Finance Online reported net revenues of US\$1.84 million, an increase of 38% from US\$1.34 million for the same period in 2004 primarily due to the increase in advertising related business. Net revenues decreased by 4% from US\$1.93 million in the first quarter of 2005, which is mainly attributable to the negative impact of the prolonged weak Chinese stock market. The Shanghai Stock Exchange Index reached the eight-year low on June 6, 2005. Revenue from our advertising related business for the quarter contributed US\$335,000, representing 18% of net revenues for the second quarter of 2005.

Gross profit increased by 39% to US\$1.73 million for the second quarter of 2005 from US\$1.24 million for the same period in 2004 which is in line with the increase of net revenues. Gross margin was 94% in the second quarter of 2005 compared with 93% for the same period in 2004 or 94% for the first quarter of 2005.

Operating expenses for the second quarter of 2005 totalled US\$1.01 million, an increase of 138% from US\$424,000 reported for the same period in 2004. This increase is primarily the result of increases in our general and administrative expenses, sales and marketing expenses, and to a lesser extent, contributed from product development expenses. Total operating expenses were 55% of net revenues for the second quarter of 2005, compared with 32% for the same period in 2004.

- o General and administrative expenses for the quarter were US\$373,000, an increase of 301% from US\$93,000 for the same period in 2004, which is mainly due to reporting and other related costs associated with our becoming a public company in the U.S. The increase of the expense, to a lesser extent is also due to the staff compensation as a result of the increased number of employees.
- o Sales and marketing expenses for the quarter increased by 120% from US\$221,000 for the same period in 2004 to US\$486,000. This increase is largely contributed from an online marketing campaign. We have signed sponsorships and co-branding partnerships with many popular Chinese portals this quarter to promote our brand name and attract more traffic to our website. The marketing effort is part of the plan of the usage of our IPO proceeds. It will help the distribution and sales for our products.
- o Product development expenses for the quarter were US\$54,000, an increase of 27% from US\$43,000 for the same period in 2004, primarily due to increases in the salary and compensation expenses of personnel engaged in the research, development and implementation of our new products.

As a result of the foregoing, income from operations for the second quarter of 2005 was US\$722,000, a decrease of 12% from US\$820,000 for the same period in 2004 and a decrease by 34% from US\$1.09 million in the first quarter of 2005. Net income for the second quarter of 2005 was US\$1.01 million, representing an increase of 7% from US\$942,000 for the same period in 2004 and a decrease of 21% from US\$1.28 million in the previous quarter.

Net income margin for the second quarter of 2005 was 55%, compared to 71% for the same period in 2004 and 66% in the previous quarter. The total income tax expenses for the quarter were US\$101,000 compared to the income tax benefit amounted to US\$93,000 for the same period in 2004. The difference is attributable primarily to the fact that CFO Beijing was exempted from enterprise

Edgar Filing: China Finance Online Co. LTD - Form 6-K

income tax in 2004 and will be subject to 12% enterprise income tax rate in 2005. Basic income per ADS was US\$0.05, and basic income per share was US\$0.01 for the second quarter of 2005. Diluted income per ADS was US\$0.05, and diluted income per share was US\$0.01 for the second quarter of 2005.

The number of new subscribers for the second quarter of 2005 was 2,567, representing a decrease of 63% from 7,032 for the same period in 2004. Repeat subscribers for the second quarter of 2005 were 2,515, representing a decrease of 22% from 3,218 for the same period in 2004. Decreases in number of new subscribers and in number of repeat subscribers were primarily due to further weakening in China's stock markets during the second quarter of 2005.

Average subscription fee per subscriber, or ASF, for new subscribers increased by 6% to US\$165 for the second quarter of 2005 from US\$156 for the same period in 2004 but decreased by 21% from US\$208 in the previous quarter. ASF for repeat subscribers increased by 32% to US\$246 for the second quarter of 2005 from US\$186 for the same period in 2004 and increased by 3% from US\$238 in the previous quarter. We believe that the decrease in our ASF quarter over quarter for new subscribers is primarily attributable to further weakening in China's stock markets during the second quarter of 2005, which has dampened the investors' interests in more expensive and more comprehensive products.

NEW PRODUCTS

Personal Finance is our new proprietary financial service package which combines personal finance tools such as book keeping, financial report and payment alert with comprehensive real time personal wealth management product information and news. Open beta testing of this new service offering has just finished and we are expecting to formally launch it in August 2005.

COMPLETED AND NEW STOCK REPURCHASE PROGRAM

During May and June of 2005, China Finance Online has repurchased a total of 1,659,442 American Depositary Shares, or ADSs, representing 8,297,210 ordinary shares, at an average cost of US\$5.98. The repurchased shares of this program represent approximately 8.4% of the total shares outstanding.

5

On July 26, 2005, the Board of Directors of the Company has authorized a new repurchase program pursuant to which the company expects to purchase from time to time up to US\$10 million worth of its American Depositary Shares, or ADSs, over a period of six months. The timing of these repurchases will depend on market conditions and other requirements.
