## **UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION**

### **Introduction**

The following unaudited pro forma combined condensed balance sheet as at, and unaudited pro forma combined condensed income statement for the year ended, December 31, 2006 and the notes thereto (together, the pro forma financial information ) are based on the historical financial statements of ABN AMRO and Barclays after giving effect to the proposed combination using the purchase method of accounting by applying the estimates, assumptions and adjustments described in the accompanying notes to the pro forma financial information.

The historical financial statements of both ABN AMRO and Barclays for the year ended December 31, 2006 have been prepared in accordance with IFRS and reconciled to US GAAP.

For the purposes of the preparation of the pro forma financial information:

The consolidated balance sheet of Barclays at December 31, 2006 has been combined with the consolidated balance sheet of ABN AMRO at December 31, 2006, both of which are prepared in accordance with IFRS and reconciled to US GAAP, as if the proposed combination giving effect to the sale of LaSalle had occurred on December 31, 2006;

The consolidated income statement of Barclays for the year ended December 31, 2006 has been combined with the consolidated income statement of ABN AMRO for the year ended December 31, 2006, both of which are prepared in accordance with IFRS and reconciled to US GAAP, as if the proposed combination giving effect to the sale of LaSalle had occurred on January 1, 2006; and

The presentation currency of the combined group is pound sterling as this is consistent with the presentation currency of the Barclays 2006 Form 20-F. The presentation currency of the combined group will be euro should the proposed combination occur.

The pro forma financial information includes appropriate adjustments to account for the events directly associated with the proposed combination. Any potential synergy benefits are not included within the pro forma financial information. Only costs which are expected to be directly incurred as part of the proposed combination have been included within the pro forma financial information.

The pro forma adjustments directly relating to the proposed combination are based on effecting the pre-acquisition disposal of LaSalle, an estimate of the fair value of the consideration to be provided, and preliminary assessments of the fair values of assets acquired and liabilities assumed and available information and assumptions. If the proposed combination did occur, a final determination of these fair values will be based on Barclays management's estimates of the fair values of the remaining assets and liabilities and an assessment of the fair values of the intangible assets as at the actual date of the combination. The final determination of these fair values will result in potentially material changes to the pro forma adjustments and the pro forma financial information included herein.

The actual purchase price allocation will also be subject to change as a result of finalisation of asset and liability valuations. These final valuations will be based on the actual net tangible and intangible assets that existed as of the closing dates of the proposed combination. The effect of the final fair valuation of assets and liabilities and the determination of the final consideration may cause material differences to the following pro forma financial information.

The final consideration will be determined based on the exchange ratio of ABN AMRO ordinary shares to Barclays ordinary shares and the fair value of Barclays ordinary shares at the date at which the offer is declared unconditional. As such, any changes in the fair value of the shares prior to that date may also cause material differences to the pro forma financial information. In addition, any changes in the foreign exchange rate prior to the date at which the offer is declared unconditional, may cause material differences.

---

The pro forma financial information and accompanying notes should be read in conjunction with the historical financial statements and the related notes thereto of Barclays for the year ended December 31, 2006. This data should also be read in conjunction with;

ABN AMRO financial statements and related notes thereto for the year ended December 31, 2006 which are incorporated herein by reference to the ABN AMRO 2006 Form 20-F; and

The pro forma financial information is presented for information purposes only and does not represent what the results of operations would actually have been if the combination had occurred on the dates indicated nor does it project the results of operations for any future period.

## Notes to Pro forma Combined Condensed Financial Information

### 1. Description of proposed combination and estimated pro forma purchase price

The pro forma financial information has been prepared on the basis of preliminary estimates and assumptions. The key assumptions used to prepare the pro forma financial information (excluding those in relation to LaSalle which are disclosed in note 2) are:

Potential cost synergy, revenue benefits and associated restructuring costs are not included within the pro forma financial information;

Only costs which are expected to be directly incurred as part of the proposed combination have been included within the pro forma financial information;

The presentation currency of the combined group is pound sterling as this is consistent with the presentation currency of Barclays 2006 Form 20-F and the Barclays Bank PLC 2006 combined Annual Report on Form 20-F filed with the SEC. The presentation currency of the combined group will be euro should the proposed combination occur;

On April 22, 2007, the Barclays Board unanimously resolved to make an exchange offer for 100% of ABN AMRO ordinary shares. Payment would be in Barclays ordinary shares with 3.225 of Barclays ordinary shares to be exchanged for each ordinary share in ABN AMRO. Therefore, the estimated purchase price of the proposed combination for pro forma purposes will be based on the issue of 6,115 million Barclays ordinary shares;

The pro forma financial information reflects the purchase price of the proposed combination to be £45,995m consisting of Barclays ordinary shares and direct transaction costs;

The ABN AMRO income statement has been translated at a 2006 average exchange rate of 1.47 ( /£) and the ABN AMRO balance sheet has been translated at the December 31, 2006 closing exchange rate of 1.49 ( /£) in line with the exchange rates used in the published financial statements of Barclays for the year ended December 31, 2006;

Fair value adjustments of financial assets and liabilities have been made in line with publicly available information and are amortised on a straight line basis over the appropriate maturity;

Remaining ABN AMRO employee share options will be exercised as part of the combination at a weighted average strike price of 19.35 per share;

The fair value of property, plant & equipment and other non-financial instruments are not materially different to the balance sheet carrying values disclosed in the ABN AMRO 2006 Form 20-F;

Calculation of goodwill is based on the closing price of Barclays ordinary shares of £7.50 as listed on the LSE Daily Official List on April 20, 2007;

The split of goodwill and intangible assets arising from the proposed combination has been based on a ratio of 70 : 30 in line with historical combinations within the financial services industry;

Intangible assets have been amortised on a straight line basis over the estimated useful economic life of 5 years; and

Different tax rates have been applied to individual adjustments by reference to the nature of the adjustment.

---

**Estimated pro forma allocation of purchase price of the proposed combination**

For the purposes of this pro forma, the proposed combination has been accounted for using the purchase method of accounting in accordance with IFRS. Based on the initial estimates, and subject to changes which may be material upon completion of a final valuation, the preliminary allocation of the estimated pro forma purchase price is as follows:

## 2. Pre-acquisition disposal

The potential transaction is subject to an offer condition that prior to completion of the exchange offer, the LaSalle Agreement has been completed in accordance with its terms, or a purchase and sale agreement with another party with respect to the sale of LaSalle has been completed in accordance with its terms.

The adjustment represents the effect of the disposal of LaSalle and is based upon the consolidated IFRS balance sheet of LaSalle as at December 31, 2006 published by ABN AMRO within the ABN AMRO Unaudited Pro Forma Condensed Financial Statements, filed by ABN AMRO with the SEC on a Current Report on Form 6-K on April 25, 2007.

A closing exchange rate of 1.49 ( /£) has been used to convert the LaSalle balance sheet and an average exchange rate of 1.47 ( /£) has been used to convert the LaSalle income statement for presentational purposes within the pro forma financial statements in line with the exchange rates used in the published financial statements of Barclays for the year ended December 31, 2006.

## 3. Other adjustments
