Option Grants

As of December 31, 2001, there were no stock options granted pursuant to the Company's stock option plan.

Compensation of Directors

The directors of the Company are not compensated for serving as members of the Company's Board of Directors.

Stock Option Plan

The Company adopted its stock option plan (the "2001 Plan") on July 31, 2001.

The stock incentive plan provides for the granting of incentive stock related awards to officers, employees and other individuals so that the Company will be able to attract and retain the services of highly qualified individuals. The essential features of the 2001 Plan are set forth below.

Shares Authorized for Grant. Subject to the anti-dilution provisions discussed below, there are 8,000,000 shares of common stock reserved for issuance upon the exercise of options. Such shares may be authorized, but unissued shares of common stock, or reacquired shares. Shares subject to options granted under the 2001 Plan which have lapsed or terminated may again be subject to options under the 2001 Plan. No options to purchase shares of common stock have been granted under the 2001 Plan as of December 31, 2001.

Administration of the 2001 Plan. The 2001 Plan is administered by the Board of Directors or by a committee consisting of two (2) or more outside directors

Edgar Filing: FLOOR DECOR INC - Form 10-K/A

who are appointed by the Board (the "Committee"). Subject to the express provisions of the 2001 Plan, the Board or such Committee has the authority to interpret the 2001 Plan, to prescribe, amend and rescind rules and regulations relating to the 2001 Plan, to determine the terms and provisions of option agreements and to make all other determinations necessary or advisable for the administration of the 2001 Plan. Any controversy or claim arising out of or related to the 2001 Plan, or the options granted thereunder, is determined unilaterally by, and at the sole discretion of, the Committee.

Option Grants to Eligible Individuals. All employees and other individuals who provide services to the Company are eligible to receive options under the 2001 Plan. Employees are eligible to receive either "incentive" stock options, subject to the limitations of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") or "non-statutory" stock options. The 2001 Plan confers discretion on the Committee to select employees or other individuals that the Committee determines to receive options, to determine the number of shares subject to each option, the term of each option and the exercise price of the options granted, except that the exercise price may not be less than 100% of the fair market value of the underlying common stock for an incentive stock option as of the date of grant. In addition, the exercise price may not be less than 110% of the fair market value of the common stock for an incentive stock option granted to a person who owns more than 10% of the total combined voting power or value of all classes of stock of the Company. No option may have a term in excess of ten (10) years from the date of grant.

The Committee has the authority to determine the vesting requirements and the permissible methods of payment of the exercise price. The Committee may also make such other provisions in the options, consistent with the terms of the 2001 Plan, as it may deem desirable. Options granted under the 2001 Plan are not exercisable until six (6) months after grant.

To the extent that such an option is an incentive stock option, upon termination of an optionee's employment with the Company for any reason, such optionee's options shall immediately terminate, except that upon termination, the Committee in its discretion may allow the optionee to exercise any vested options owned by the optionee within ninety (90) days after termination. In no event are options exercisable beyond their stated term.

Change in Control. All options granted under the 2001 Plan become fully vested and immediately exercisable upon the occurrence of a "Change of Control." The 2001 Plan defines Change of Control to mean the occurrence of any of the following: (i) the acquisition (other than from the Company directly) by any "person" group or entity within the meaning of Sections 13(d) and 14(d) of the Securities Exchange Act of 1934) of beneficial ownership of thirty-five (35%) percent or more of the outstanding common stock of the Company; (ii) if the individuals who serve on the Board as of the date of stockholder approval of the 2001 Plan, no longer constitute a majority of the members of the Board of Directors; provided, however, any person who becomes a director subsequent to such date, who was elected to fill a vacancy by a majority of the directors then serving on the Board of directors shall be considered a member prior to such date; (iii) the stockholders of the Company approve a merger reorganization or consolidation of the Company whereby the stockholders of the Company immediately prior to such approval do not, immediately after consummation of such reorganization, merger or consolidation, own more than 50% of the voting stock of the surviving entity; or (iv) a liquidation or dissolution of the Company, or the sale of all or substantially all of the Company's assets.

Nontransferability of Options. Options granted under the 2001 Plan are not transferable other than by will or the laws of descent and distribution, and may

Edgar Filing: FLOOR DECOR INC - Form 10-K/A

be exercised during the optionee's lifetime only by the optionee. Upon such optionee's death, the beneficiary of the optionee's estate shall have the lesser of (a) the remaining term of such option or (b) one year for the optionee's death within which to exercise such options.

Anti-dilution Provisions. In the event of a change, such as a stock split or stock dividend, in the Company's capitalization, which results in a change in the number of outstanding shares of common stock, without receipt of consideration, an appropriate adjustment will be made in the exercise price of, and the number of shares subject to, all outstanding options. An appropriate adjustment will also be made in the total number of shares authorized for issuance under the 2001 Plan.

Dissolution or Liquidation. Upon the dissolution or liquidation of the Company, or upon a reorganization, merger or consolidation of the Company with one (1) or more corporations as a result of which the Company is not the surviving corporation, or upon a sale of substantially all the property or more than fifty (50%) percent of the then outstanding shares of common stock of the Company to another corporation, the Company shall either: (a) provide for the assumption by the successor corporation of the options theretofore granted or the substitution by such corporation for such options of new options covering the stock of the successor corporation, or a parent or subsidiary thereof, with appropriate adjustments as to the number and kind of shares and prices; or (b) give to each optionee at the time of adoption of the plan of liquidation, dissolution, merger or sale, notice of the adoption of the plan of liquidation, merger or sale (i) a reasonable time thereafter within which to exercise all such options owned by such individuals prior to the effective date of such liquidation, dissolution, merger or sale; or (ii) the right to exercise the option as to an equivalent number of shares of common stock of the successor corporation by reason of such liquidation, dissolution, merger, consolidation or reorganization.

Tax Consequences to Grantees. Under present tax law, the Federal income tax treatment of options granted under the 2001 Plan is as generally described below.

Incentive Stock Options. With respect to options which qualify as incentive stock options, an optionee will not recognize income for federal income tax purposes at the time options are granted or exercised. If the optionee disposes of shares of common stock acquired upon exercise of the options before the expiration of two years from the date the options are granted, or within one year after the issuance of shares upon exercise of the options, the optionee will recognize, in the year of disposition (a) ordinary income, to the extent that the lesser of either (i) the fair market value of the shares on the date of option exercise or (ii) the amount realized on disposition, exceeds the option price; and (b) capital gain (or loss), to the extent that the amount realized on disposition differs from the fair market value of the shares on the date of option exercise. If the shares are sold after expiration of these holding periods, the optionee will realize capital gain or loss (assuming the shares are held as capital assets) equal to the difference between the amount realized on disposition and the option price.

Non-Qualified Stock Options. Non-qualified stock options are all options which do not qualify for incentive stock option treatment under Section 422 of the Code. If a non-qualified stock option has a readily ascertainable fair market value at the time of grant, the optionee realizes ordinary income either (a) when his rights in the option becomes transferable; or (b) when the right to an option is not subject to a substantial risk of forfeiture. Ordinary income will be equal to the fair market value of the option less any amount paid by the optionee. If the option does not have an ascertainable fair market value at the time of grant, income is realized at the time the option is exercised. Such income would be the positive difference between the fair market value of the

Edgar Filing: FLOOR DECOR INC - Form 10-K/A

common stock received at the time of exercise and the exercise price paid. Upon the sale of the common stock received upon exercise, the difference between the sale price and the fair market value on the date of exercise will be treated as capital gain or loss.

Tax Consequences to the Company. The Company will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as an optionee is required to recognize ordinary income as described above. To the extent an optionee realizes capital gains as described above, the Company will not be entitled to any deduction for Federal income tax purposes.

Accounting Considerations. Currently, there is no charge to the Company's operations in connection with the grant or exercise of an option under the 2001 Plan, unless the fair market value of the shares at the date of grant exceeds the exercise price of the option, in which case there will be a charge to operations in the amount of such excess. Earnings per share may be affected by the 2001 Plan by the effect on the calculation, as prescribed under generally accepted accounting principles, of the number of outstanding shares of common stock of the Company. This calculation reflects the potential dilutive effect, using the treasury stock method, of outstanding stock options anticipated to be exercised even though shares have not yet been issued upon exercise of these options. When shares are actually issued as a result of the exercise of stock options, additional dilution of earnings per share may result.

Reload Options. The 2001 Plan provides for the automatic grant of reload options to an optionee who would pay all, or part of, an option exercise price by the delivery of shares of common stock already owned by such optionee. Reload options would be granted for each share so tendered. The exercise price of such reload option is the fair market value of the common stock on the date the original option is exercised. All other terms of the reload options are identical to the terms of the original option.

Employment Contracts and Termination and Change-In-Control Arrangements

As of December 31, 2001, the Company has not entered into any employment, termination or change-in-control agreement with any of its executive officers.

Compensation Committee Interlocks and Insider Participation

No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Company's Board of Directors or Compensation Committee.
