## **Item 1.01**

### **Entry into a Material Definitive Agreement**

The disclosure in Item 3.02 below is incorporated into this Item 1.01 by reference.

## **Item 3.02**

### **Unregistered Sales of Equity Securities**

On March 21, 2007, International Isotopes, Inc. (the "Company") entered into a Securities Purchase Agreement (the "Securities Purchase Agreement") with certain institutional and private purchasers (the "Investors") pursuant to which it sold to the Investors (i) 13,333,331 shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), (ii) Class C Warrants exercisable for 13,333,331 shares of the Company's common stock at an exercise price of \$0.10, and (iii) Class D Warrants exercisable for 13,333,331 shares of the Company's common stock at an exercise price of \$0.11, all for an aggregate sale price of approximately \$1,200,000. The Class C and Class D Warrants are collectively referred to as the "Warrants."

The Securities Purchase Agreement provides the Investors with certain registration rights. The Company is required to register all of the Common Stock issued and underlying the securities sold to the Investors within 45 days from the closing of the transaction. The registration must be effective 120 days after the date of the agreement. The Company must pay the Investors a monthly amount equal to 1% of the greater of the aggregate purchase price paid by the Investors or the market value of the shares then outstanding if the registration is not filed or does not become effective on time, or upon the occurrence of certain events described in the Securities Purchase Agreement. The registration rights provisions contain customary indemnification and contribution provisions.

The Warrants are for a term of 4 years and permit cashless exercise. The exercise price is subject to customary adjustments as set forth in the Warrants. The Warrants contain provisions limiting exercise in the event that the holder's beneficial ownership of the Company's Common Stock would exceed 4.99%.

The Securities Purchase Agreement and a form of the Class C and Class D Warrants are filed herewith as Exhibits 2.1, 4.1, and 4.2, respectively, and all descriptions of such documents included herein are qualified in their entirety by reference to such documents.

The securities were sold in reliance on Section 4(2) of the Securities Act of 1933, as amended (the "Act") and Regulation D thereunder. Each investor represented that it was an accredited investor within the meaning of the Act and

had reviewed all information about the Company necessary to make an informed investment decision.

The transaction documents have been included to provide you with information regarding their terms. The transaction documents contain representations and warranties made by the parties to each other. The assertions embodied in those representations and warranties are qualified by information in confidential disclosure schedules that the parties have exchanged in connection with signing the transaction documents. While the Company does not believe that the disclosure schedules contain information that it is required to disclose pursuant to applicable securities laws, other than information that has already been publicly disclosed, the disclosure schedules do contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached transaction documents. Accordingly, you should not rely on the representations and warranties as characterizations of the actual state of facts, since they are modified in important part by the underlying disclosure schedules. These disclosure schedules contain information that has been included in the Company's general prior public disclosures, as well as potential additional non-public information. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the transaction documents, which subsequent information may or may not be fully reflected in the Company's public disclosures.
