Item 1.01. Entry into a Material Definitive Agreement.

On June 30, 2016, BioCryst Pharmaceuticals, Inc. (the “Company”) and the National Institute of Allergy and Infectious Diseases (“NIAID”) amended the Agreement dated September 12, 2013 between the Company and NIAID (the “Agreement”) for the development of BCX4430. NIAID has provided additional funding for efficacy studies of BCX4430 in non-human primates to further assess effective dose regimens.

The contract increase represents an additional \$5.5 million to the Company for the development of BCX4430 as a treatment for hemorrhagic fever viruses. All other terms and conditions of the Agreement remain unchanged. The new total NIAID contract amount to advance the program through the completion of the Phase 1 clinical program could be up to \$39.5 million if all contract options are exercised. To date, approximately \$35.4 million of funding has been awarded under the contract.

Item 8.01. Other Events.

On July 5, 2016, the Company issued a news release announcing the events described in Item 1.01. A copy of the news release is filed as Exhibit 99.1 hereto and is incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits.

Forward-Looking Statements

This Current Report on Form 8-K contains forward-looking statements, including statements regarding future results, performance or achievements. These statements involve known and unknown risks, uncertainties and other factors which may cause BioCryst’s actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. These statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Some of the factors that could affect the forward-looking statements contained herein include: that BioCryst or its licensees may not be able to enroll the required number of subjects in planned clinical trials of BCX4430 and that such clinical trials may not be successfully completed; that the Company or its licensees may not commence as expected additional pre-clinical studies or human clinical trials may not be commenced as expected or such studies may not be successfully completed; that the FDA may require additional studies beyond those planned for BCX4430, or may not provide regulatory clearances which may result in delay of planned clinical trials, or may impose a clinical hold on BCX4430, or withhold market approval for product candidates; that the Company may not be able to obtain additional funding for BCX4430; that government funding or other contracts for BCX4430 may have certain terms and conditions, including termination provisions, that subject the Company to additional risks; that the Company may lose current funding for the program; that its actual financial results may not be consistent with its expectations, including that 2016 operating expenses and cash usage may not be within management’s expected ranges. Please refer to the documents BioCryst files periodically with the Securities and Exchange Commission, specifically BioCryst’s most recent Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, all of which identify important factors that could cause the actual results to differ materially from those contained in BioCryst’s projections and forward-looking statements.
