

KRONOS ADVANCED TECHNOLOGIES INC
Form 424B3
October 03, 2005

FILED PURSUANT TO RULE NO. 424(b)(3)
REGISTRATION NO. 333-124167

SUPPLEMENT TO PROSPECTUS
DATED SEPTEMBER 30, 2005

KRONOS ADVANCED TECHNOLOGIES, INC.

UP TO 164,848,371 SHARES OF COMMON STOCK

Attached hereto and hereby made part of the prospectus is the company's Annual Report on Form 10-KSB for the year ended June 30, 2005, as filed with the U.S. Securities and Exchange Commission on September 28, 2005. Prospective investors in our common stock should carefully read each of these documents and the related financial information prior to making any investment decision.

You should only rely on the information provided in the prospectus, this prospectus supplement or any additional supplement. We have not authorized anyone else to provide you with different information. The common stock is not being offered in any state where the offer is not permitted. You should not assume that the information in the prospectus or this prospectus supplement or any additional supplement is accurate as of any date other than the date on the front of those documents.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of the prospectus or this prospectus supplement. Any representation to the contrary is a criminal offense.

THE DATE OF THIS PROSPECTUS SUPPLEMENT IS SEPTEMBER 30, 2005

SECURITIES AND EXCHANGE COMMISSION

COMMISSION FILE NO. 000-30191

KRONOS ADVANCED TECHNOLOGIES, INC.

(EXACT NAME OF REGISTRANT AS SPECIFIED IN ITS CHARTER)

NEVADA	87-0440410
-----	-----
(State or Other Jurisdiction of Incorporation or Organization)	(I.R.S. Employer Identification Number)

464 COMMON STREET, SUITE 301, BELMONT, MASSACHUSETTS 02478
(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code (617) 993-9965

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, PAR VALUE \$0.001 PER SHARE
(Title of Class)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days.

Yes X No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-KSB or any amendment to this Form 10-KSB. ____

The aggregate market value of the voting common stock held by non-affiliates of the Registrant on September 26, 2005, was \$5,852,000 based on the average bid and asked prices on such date of \$0.075.

The Registrant had 78,030,202 shares of Common Stock, par value \$0.001 per share, outstanding on September 26, 2005.

PART I

ITEM 1. BUSINESS

GENERAL DESCRIPTION OF BUSINESS

FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS. THIS FILING CONTAINS FORWARD-LOOKING STATEMENTS, INCLUDING STATEMENTS REGARDING, AMONG OTHER THINGS: (A) OUR PROJECTED SALES AND PROFITABILITY, (B) OUR GROWTH STRATEGIES, (C) ANTICIPATED TRENDS IN OUR INDUSTRY, (D) OUR FUTURE FINANCING PLANS, (E) OUR ANTICIPATED NEEDS FOR WORKING CAPITAL, AND (F) THE BENEFITS RELATED TO OUR OWNERSHIP OF KRONOS AIR TECHNOLOGIES, INC. IN ADDITION, WHEN USED IN THIS FILING, THE WORDS "BELIEVES," "ANTICIPATES," "INTENDS," "IN ANTICIPATION OF,"

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

"EXPECTS," AND SIMILAR WORDS ARE INTENDED TO IDENTIFY CERTAIN FORWARD-LOOKING STATEMENTS. THESE FORWARD-LOOKING STATEMENTS ARE BASED LARGELY ON OUR EXPECTATIONS AND ARE SUBJECT TO A NUMBER OF RISKS AND UNCERTAINTIES, MANY OF WHICH ARE BEYOND OUR CONTROL. ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF VARIOUS FACTORS, INCLUDING, WITHOUT LIMITATION, THE RISKS OUTLINED UNDER "FACTORS AFFECTING KRONOS' BUSINESS AND PROSPECTS" AND MATTERS DESCRIBED IN THIS FILING GENERALLY. IN LIGHT OF THESE RISKS AND UNCERTAINTIES, THERE CAN BE NO ASSURANCE THAT THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS FILING WILL IN FACT OCCUR. WE DO NOT UNDERTAKE ANY OBLIGATION TO PUBLICLY RELEASE THE RESULTS OF ANY REVISIONS TO THESE FORWARD-LOOKING STATEMENTS THAT MAY BE MADE TO REFLECT ANY FUTURE EVENTS OR CIRCUMSTANCES.

OUR COMPANY

We are a Nevada corporation. Our principal executive offices are located at 464 Common Street, Suite 301, Belmont, Massachusetts 02478. Our telephone number is (617) 993-9965. The address of our website is www.kronosati.com. Information on our website is not part of this filing.

CORPORATE HISTORY

Kronos Advanced Technologies, Inc. was originally incorporated under the laws of the State of Utah on September 17, 1980 as Penguin Petroleum, Inc. Penguin Petroleum Inc.'s stockholders approved a name change on October 6, 1982 to Petroleum Corporation of America, Inc. On December 29, 1996, stockholders approved a reorganization whereby they exchanged their stock on a one-for-one basis with Technology Selection, Inc., a Nevada corporation. Technology Selection, Inc.'s shares began trading on the Over-the-Counter Bulletin Board on August 28, 1996 under the symbol "TSET." On November 19, 1998, Technology Selection, Inc. changed its name to TSET, Inc. Effective January 12, 2001, we began doing business as Kronos Advanced Technologies; and, as of January 18, 2002, we changed our ticker symbol to "KNOS." Our recent activities have been focused on capitalizing on our investment in Kronos Air Technologies, Inc., a wholly owned subsidiary of Kronos, and we have not, to date, generated significant operating revenues. We have never been party to any bankruptcy, receivership, or similar proceedings and, other than noted above, have not been party to any material reclassification, merger, or consolidation not in the ordinary course of our business.

BUSINESS STRATEGY

Kronos Advanced Technologies, Inc. is an application development and licensing company that has developed and patented technology that fundamentally changes the way air is moved, filtered and sterilized. Kronos is pursuing commercialization of its proprietary technology in a limited number of markets; and if we are successful, we intend to enter additional markets in the future. To date, our ability to execute our strategy has been restricted by our limited amount of capital.

Technology Description and Benefits

The proprietary Kronos technology involves the application of high voltage management across paired electrical grids to create an ion exchange that moves and purifies air. Kronos technology has numerous valuable characteristics. It moves air and gases at high velocities while removing odors, smoke and particulates and killing pathogens, including bacteria, mold and spores. The technology is cost-effective and is more energy efficient than current alternative fan and filter (including HEPA filter and ultraviolet light based) technologies. Although no commercial products using the Kronos technology have been sold to date, in March 2005, the Company and its strategic consumer products partner, HoMedics, expanded production beyond the initial prototypes

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

and increased product testing to complete the product claims platform. In August 2005, Kronos received initial shipment of products from its low cost, contract manufacturer in Mexico and China and, in September 2005, initiated testing of these products under a testing protocol co-developed by Kronos and HoMedics. In May 2005, Kronos initiated a strategic relationship with IKEA of Sweden and, in September 2005, Kronos shipped its initial prototype device to IKEA for testing and evaluation.

A number of the scientific claims of the Kronos technology have been tested by the U. S. government, multi-national companies and independent testing facilities. To date, independent laboratory testing has verified the filtration and sterilization capability of the Kronos technology.

Filtration Testing Results:

- o LMS Industries - removal of over 99.97% of 0.1 micron (100 nanometers) and above size particles using HVAC industry's ASHRAE 52.2 testing standard for filtration;
- o MicroTest Laboratories - HEPA Clean Room Class 1000 quality particulate reduction;
- o Intertek - tobacco smoke elimination tests in accordance with ANSI/AHAM AC-1-1988 standard entitled "American National Standard Method for Measuring Performance of Portable Household Electric Cord-Connected Room Air Cleaners," which demonstrated a Clean Air Delivery Rate (CADR) for the Kronos air purifier of over 300 for the larger size Kronos air purifier and 80 for the smaller size using consumer filtration testing standards for the Association of Home Appliance Manufacturers (AHAM).

Sterilization Testing Results:

- o New Hampshire Materials Laboratory - up to 95% reduction of hazardous gases, including numerous contaminants found in cigarette smoke;
- o Battelle PNNL - 95% destruction of Bg (anthrax simulant);
- o Dr. Sergey Stoylar, a bacteriologist from the American Bacteriological Society - 100% destruction of Bacillus subtilis 168 (bacteria simulant).

Market Segmentation

Kronos' business development strategy is to sell and license the Kronos technology to six distinct market segments: (1) air movement and purification (residential, health care, hospitality, and commercial facilities); (2) air purification for unique spaces (clean rooms, airplanes, automotive, and cruise ships); (3) specialized military (naval vessels, closed vehicles and mobile facilities); (4) embedded cooling and cleaning (electronic devices and medical equipment); (5) industrial scrubbing (produce storage and diesel and other emissions); and (6) hazardous gas destruction (incineration and chemical facilities).

Kronos' focus is on the first four of these market segments which are described in more detail below. Kronos is currently developing products for the air movement and purification, air purification for unique spaces, and specialized military markets through specific customer contracts. Kronos is currently undertaking research and development in the embedded micro cooling market using Company funds and a third party grant. These contracts and grant are described in more detail in the Technology Application and Product Development section of this filing.

- o Air Movement and Purification. Indoor air pollution, including "sick building syndrome" and "building related illness," is primarily caused by inadequate ventilation, chemical contaminants from indoor and outdoor sources and biological contaminants. There is also a demand for smaller devices that move, heat and deodorize the indoor air stream. The addressable air movement and purification segment is made up of four principal target markets: (1) residential, (2) health care, (3) hospitality and (4) commercial.
- o Air Purification for Unique Spaces. Electronics, semiconductor, pharmaceutical, aerospace, medical and many other producers depend on clean room technology. As products such as electronic devices become smaller, the chance of contamination in manufacturing becomes higher. For pharmaceutical companies, clean, safe and contaminant-free products are imperative to manufacturing and distributing a viable product. Other potential applications for the Kronos technology include closed environments such as automobiles, aircraft, cruise ships and other transportation modes that require people to breathe contaminated, re-circulated air for extended periods.
- o Specialized Military. Military personnel face the worst of all possible worlds: indoor air pollution, often in very confined spaces for extended periods, combined with the threat of biological warfare, nuclear fallout, and other foreign elements. We believe that the military market segment offers Kronos a unique opportunity to leverage the technical and funding resources of the U. S. military to expand Kronos' ability to develop and produce Kronos-based air movers and purifiers for applications that require these products to be embedded into ventilation systems to address the needs of military personnel.
- o Embedded Cooling. Heat generation is becoming a major bottleneck in high density electronics. We believe that the embedded cooling market segment offers Kronos a near term opportunity to develop an alternative to fans for air movement and cooling inside of personal computers, servers and medical diagnostic equipment and a long term opportunity to develop micro channel cooling solutions for a future generation microchips.

3

Technology Application and Product Development

To best serve Kronos' targeted market segments, our Company is developing specific product applications across two distinct product application platforms. A Kronos device can be either used as a standalone product or can be embedded. Standalone products are self-contained and only require the user to plug the Kronos device into a wall outlet to obtain air movement and filtration for their home, office or hotel room. Embedded applications of the Kronos technology require the technology be added into another system such as a building ventilation system for more efficient air movement and filtration or into an electrical device such as computer or medical equipment to replace the cooling fan.

Standalone Platform

Residential Products. In October 2002, Kronos and HoMedics executed a Licensing Agreement granting HoMedics certain rights with respect to the distribution of the Kronos proprietary technology to the consumer. The agreement provides for exclusive North American, Australian and New Zealand retail distribution rights

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

for next generation consumer air movement and purification products based on the patented Kronos technology. The initial term of the agreement is three and one half years from the initial sale of consumer air purification products by HoMedics, which shall be no later than December 31, 2006, with the option to extend the Licensing Agreement for six additional years. Kronos was compensated through an initial royalty payment and will receive ongoing quarterly royalty payments based on a percentage of sales. HoMedics will pay minimum royalty payments of at least \$2 million during the initial three and a half year term and on-going royalty payments to extend the agreement. Kronos will retain the rights to all of its intellectual property. HoMedics commitment includes funding a marketing and advertising campaign to promote the Kronos-based product line. The products will be distributed by HoMedics. HoMedics currently distributes their products through major domestic retailers, including Wal-Mart, Home Depot, Sears, Bed Bath & Beyond, and Linens 'N Things.

We believe the Company has successfully completed the development of a Kronos-based consumer standalone air purifier that is an efficient, high quality product which is cost effective and easy to operate. In March 2005, Kronos and HoMedics began expanding production development beyond the initial prototypes and initiated increased product testing to complete the product claims platform. In March and April 2005, Kronos modified the HoMedics design and ordered prototype production devices from Kronos' preferred vendor along with select components from HoMedics preferred vendors. In August 2005, Kronos received initial shipment of products from its low cost, contract manufacturer in Mexico and China and, in September 2005, initiated testing of these products under a testing protocol co-developed by Kronos and HoMedics.

Other Standalone Products. Utilizing our recently expanded product development resources, Kronos completed the initial design, development and production of a series of small multifunctional devices that can be used as space heaters, vaporizers, disinfectors, deodorizers and/or fans. Based on the proprietary Kronos technology, these devices are currently undergoing testing and evaluation. Kronos has been meeting with potential strategic partners for manufacturing, marketing, selling and distributing these Kronos-based products.

Embedded Platform

Residential Products. In May 2005, Kronos initiated a strategic relationship with IKEA of Sweden. A world leading retailer, IKEA distributes its products to more than 400 million customers through its 200 stores. Kronos and IKEA plan to co-develop new consumer products that embed Kronos' silent, air movement, purification and sterilization technology into other products and devices for residential use. In September 2005, Kronos shipped its initial prototype device to IKEA for testing and evaluation.

Military Products. The U. S. Department of Defense and Department of Energy have provided Kronos with various grants and contracts to develop, test and evaluate the Kronos technology for embedded applications.

U.S. Navy SBIR Contracts. In November 2002, the U. S. Navy awarded Kronos a Small Business Innovation Research Phase II contract worth \$580,000. The Phase II contract (commercialization phase) is an extension of the Phase I and the Phase I Option work that began in 2001. It is intended that the Kronos devices developed under this contract will be embedded in existing HVAC systems in order to move air more efficiently than traditional, fan-based technology. During Phase II, Kronos developed and produced a fully controlled device that represents a "cell" of an advanced distributive air management system with medium capacity airflow in a U. S. Navy unique environment. The "cell" has been designed to be easily adjustable to a variety of parameters such as duct size, airflow requirements, and air quality. The goal of this development work is to significantly reduce or replace altogether the current HVAC air handling systems on naval ships. In May 2005, Kronos shipped the device to Northrop Grumman for

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

testing and evaluation. Based on the success of these initial tests, Northrop Grumman requested additional modifications and improvements to the device. Northrop Grumman is scheduling further testing. As of June 30, 2005, the U. S. Navy had provided Kronos with \$580,000 in funding for this effort.

4

As part of its air management system, Kronos has developed and intends to test the air filtration mechanism capable of performing to HEPA quality standards. We believe that Kronos devices could replace current HEPA filters with a permanent, easily cleaned, low-cost solution. Among the technical advantages of the Kronos technology over HEPA filters is the ability of the Kronos-based devices to eliminate the energy burden on air handling systems, which must generate high levels of backpressure necessary to move air through HEPA-based systems. Kronos-based devices enhance the air flow while providing better than HEPA level filtration.

Kronos is pursuing Phase III (production phase) support for the Kronos-based advanced distributive air management system being developed under Phase II. Kronos is working with Northrop Grumman and others in this regard.

U.S. Army SBIR Contracts. In August 2003, Kronos was awarded the option on its U. S. Army Small Business Innovation Research Phase I contract bringing the value of the Phase I contract award to \$120,000. In October 2003, the U.S. Army awarded Kronos the Small Business Innovation Research Phase II contract to develop Kronos' proprietary Electrostatic Dehumidification Technology ("EDT"). In February 2005, because the Army's focus was on researching a specific aspect of using an electrostatic process for dehumidification and did not share Kronos' vision for a broader application for using the unique aspects of EDT for dehumidification, the Army decided not to pursue their Phase II option. Kronos believes EDT is a viable solution for commercial dehumidification and will seek one or more commercial partners to work with us to exploit the benefits of EDT. As of June 30, 2005, the U. S. Army had provided Kronos with \$324,000 in funding for this effort under the Phase II contract.

Kronos is seeking to leverage its military application development work with the U. S. Navy to develop and produce air handlers and purifiers for commercial and industrial facilities. A future potential commercial line of Kronos-based air handlers and purifiers would attempt to address the specific air quality issues, including bacteria and other germs, found in large enclosed spaces such as office buildings and multi-dwelling residential complexes, while providing more efficient air movement.

Transportation Products. In January 2003, Kronos executed a Development and Acquisition Agreement with a premier business jet manufacturer. The Agreement was the direct result of initial prototype development work performed by the Kronos Research Team with input from the customer in 2002. The Kronos devices being designed and manufactured under this contract will need to meet all FAA safety standards, including environmental, flammability and electromagnetic interference (EMI). The Company has completed product design and development based on the customer's specific product application requirements. We are currently testing and evaluating the prototype product.

In August 2005, Kronos extended its work into the transportation industry by signing a Prototype Development and Evaluation Agreement with a leading luxury automotive manufacturer. The Kronos devices will be designed and manufactured to meet exacting customer standards for placement inside of automobile passenger cabins. According to various industry reports, the amount of time Americans have spent in their cars has risen 236 percent since 1982 (with one report from Time Magazine noting an average motorist will spend more than 5 years stuck in

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

traffic alone), providing optimum air circulation in automobiles is not only a comfort factor, but can also be a critical means of improving air quality and helping to prevent viruses and allergens that may otherwise accumulate in filtration systems.

Microelectronics Cooling Products. In December 2004, Kronos and the University of Washington were awarded funding for a research and technology development project entitled "Heat Transfer Technology for Microelectronics and MEMS" by the Washington Technology Center ("WTC"). The objective of the project is to develop a novel energy-efficient heat transfer technology for cooling microelectronics. Thermal management for microelectronics and MEMS systems is a challenge. Existing cooling devices aren't meeting increasing needs for energy consumption and heat dissipation. Kronos air handling technology is an emerging technology that uses an electric field to exert force on ionized gas. Kronos is attempting to develop an improved microchip air handling system that is smaller in size, has high speed airflow, allows more targeted delivery of cooling to areas of highest heat and is compatible with current processes. WTC will contribute \$40,000 to the project, with Kronos contributing \$8,000, plus \$32,000 in in-kind services, including use of the Kronos Research and Product Development Facility. During the quarter ended June 30, 2005, Kronos and the University of Washington initiated research into development of an energy-efficient heat transfer technology for cooling microelectronics.

5

Patents and Intellectual Property

Multiple U.S. Patents Allowed for Issuance. Kronos has received notification that multiple patents have been allowed for issuance by the United States Patent and Trademark Office. These patents are considered utility patents which describe fundamental innovations in the generation, management and control of Electrostatic Fluids, including air movement, filtration and purification. Each of the patents contain multiple part claims for both general principles as well as specific designs for incorporating the Kronos technology into air movement, filtration and purification products. The patents provide protection for both specific product implementations of the Kronos technology, as well as more general processes for applying the unique attributes and performance characteristics of the technology.

Date -----	Patent Title -----	Description -----	Protection -----
April 2005	Electrostatic Fluid Accelerator Design Geometries	placement, utilization and geometries of the electrodes - impacts air flow	2022
December 2004	Spark Management Method and Device	analysis, detection and prevention of sparks in a high voltage field - creates safe, effective electrostatic technology products	2021
November 2004	Electrostatic Fluid Accelerator - Electrode Design Geometries	electrode design geometries and attributes - achieves	2021

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

		unique air movement and purification performance	
October 2004	Electrostatic Fluid Accelerator - Power Supply Management and Control	management and control to produce air flow rates, high efficiency particulate removal and biological destruction	2021
April 2004	Electrostatic Fluid Accelerator for and a Method of Controlling Fluid	using an electrostatic fluid accelerator to produce commercially useful air flow rates	2021
December 2003	Method of and Apparatus for Electrostatic Fluid Acceleration Control of a Fluid Flow	enhancements to core technology for producing ion discharge to create air movement and base level filtration	2020
January 2003	Electrostatic Fluid Accelerator	core technology for producing ion discharge to create air movement and base level filtration	2019

International Patent Allowed for Issuance. In November 2004, Kronos received formal notification from the Commonwealth of Australian Patent Office indicating that its application entitled "Electrostatic Fluid Accelerator" has been examined and allowed for issuance as an Australian patent. There are a number of other patent applications corresponding to Kronos' U.S. Patents that have been filed and are pending outside of the United States.

Additional Patent Applications. A number of additional patent applications have been filed for, among other things, the control and management of electrostatic fluid acceleration. These additional patent applications are either being examined or are awaiting examination by the Patent Office.

6

MILESTONES

Our primary business objectives over the next 12 months are the launch of Kronos-based standalone consumer products and to establish strategic partners for developing and commercializing embedded product applications. The primary milestones necessary to achieve these objectives are as follows:

- o mass production and marketing of the Kronos-based standalone and embedded residential products;
- o expansion of external partnerships and resources to facilitate the production, marketing and sales of Kronos products;
- o expansion of technical resources and product engineering to better position Kronos' ability to address specific customer issues and needs; and
- o continuation of implementation of Kronos' intellectual property strategies, including continuation of its U.S. and international

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

patent filing process to enable a full development and effective management of its intellectual property rights and assets.

We estimate that achievement of our business plan will require substantial additional funding. We anticipate that the source of funding will be obtained pursuant to the senior debt funding from the HoMedics Secured Promissory Note; equity funding from the Cornell Capital Standby Equity Distribution Agreement; and/or the sale of additional equity in our Company, and cash flows generated from government grants and contracts and from customer revenue. Pursuant to discussions with the companies that we will be licensing our technology, we anticipate generating cash flow in our 2006 fiscal year from advance funding from these companies for product development work.

HOMEDICS SENIOR DEBT TRANSACTION

In May 2003, Kronos entered into an agreement with a strategic customer, HoMedics, Inc., for \$2.5 million in financing, including \$2.4 million in secured debt financing and \$100,000 for the purchase of warrants. \$2.5 million was paid to Kronos upon execution of the agreement. In October 2004, HoMedics agreed to extend repayment of Kronos debt and to provide an additional \$1 million in funding. HoMedics has agreed to provide Kronos with an additional \$1 million in financing - \$925,000 in secured debt financing and \$75,000 for the purchase of additional warrants. The \$925,000 will be paid to Kronos upon Kronos achieving three milestones: (i) \$175,000 shall be funded upon delivery and successful testing of electronic boards and power supplies from Kronos' contract manufacturing partner, (ii) \$250,000 shall be funded upon obtaining tooling of the current prototype configuration and device testing and performing to HoMedics' specifications, and (iii) \$500,000 shall be funded upon the initial sale of Kronos-based air purifiers by HoMedics. Kronos and HoMedics have been in discussions regarding the achievement of the first milestone. In addition, quarterly debt payments and the maturity date for existing debt have been extended. Quarterly payments due on the outstanding \$2.4 million in secured debt financing, which had been scheduled to begin in August 2004, will be due the earlier of Kronos receipt of royalty payments from HoMedics sale of Kronos-based air purification products or two years. The maturity date of the \$2.4 million in debt has been extended from May 2008 to October of 2009; the maturity date on the \$925,000 will also be October 2009. The interest rate will remain at 6% for the \$2.4 million in debt; the rate will also be 6% on the additional debt. HoMedics increased their potential equity position in Kronos to 30% of Kronos common stock on a fully diluted basis.

In addition, in connection with the First Amendment to Master Loan and Investment Agreement, Kronos issued to HoMedics a warrant to purchase 26.5 million shares of Kronos' common stock. The warrant is exercisable for a period of ten (10) years from the date of issuance. The exercise price is \$0.10 per share. In consideration for the warrant, HoMedics delivered to Kronos \$75,000 by funding the closing fees owed by Kronos and HoMedics agreed to amend two (2) warrants to purchase 13.4 million shares of Kronos' common stock previously issued by Kronos by removing the anti-dilution protection previously granted to HoMedics. Kronos agreed to include new anti-dilution protection in the new warrant. HoMedics is entitled, under certain circumstances, to anti-dilution protection in order to maintain beneficial ownership of Kronos equal to 30%. HoMedics may not be diluted below 30% for any funds raised at less than \$0.20 per share, excluding options or shares issued to management, directors, and consultants in the normal course of business or shares issued to Cornell Capital in repayment of the two Promissory Notes. There are no anti-dilution measures for funds raised at greater than \$0.20 per share. In addition, Kronos agreed to grant HoMedics piggy-back registration rights and one (1) demand registration right with respect to any shares of common stock of Kronos that HoMedics may acquire pursuant to the two (2) previously issued warrants and the warrant issued in October 2004 in connection with the First Amendment to Master Loan and Investment Agreement. HoMedics also agreed not to exercise any warrants until

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

one year after the effective date of the registration statement to be filed pursuant to the Investor Registration Rights Agreement with Cornell Capital.

7

CORNELL CAPITAL TRANSACTION

In October 2004, Kronos entered into agreements for up to \$20.5 million in equity and equity backed debt financing from Cornell Capital Partners. Kronos executed an Equity Investment Agreement and received \$500,000 in gross proceeds through the sale of 5 million unregistered shares of Kronos common stock. Cornell Capital Partners provided \$4 million pursuant to two Promissory Notes, which were funded as follows: \$2 million upon filing a Registration Statement and \$2 million upon the SEC declaring the Registration Statement effective. Kronos executed a Standby Equity Distribution Agreement for \$20 million of funding which Kronos has the option to drawdown against in increments as large as \$1.5 million over the next twenty one months. Kronos intends to use the proceeds under the Standby Equity Distribution Agreement to repay the Promissory Notes. As of June 30, 2005, Kronos had received \$4.5 million under these agreements.

EMPLOYEES

On June 30, 2005, Kronos and its subsidiaries had eleven full-time employees. Of the total number of full-time employees, one works in general management, nine in research and product development, one in marketing and sales and operations, and none are employed in administrative and other support positions. None of the employees are represented by unions. There has been no disruption of operations due to a labor dispute. We consider our relations with our employees to be good.

FACTORS AFFECTING KRONOS' BUSINESS AND PROSPECTS

We are subject to various risks which may have a material adverse effect on our business, financial condition and results of operations, and may result in a decline in our stock price. Certain risks are discussed below:

We have a limited operating history with significant losses and expect losses to continue for the foreseeable future.

We have only recently begun implementing our plan to prioritize and concentrate our management and financial resources to fully capitalize on our investment in Kronos Air Technologies and have yet to establish any history of profitable operations. We incurred a net loss of \$7.1 million for the fiscal year ended June 30, 2005. We incurred a net loss of \$2.5 million for the fiscal year ended June 30, 2004. As a result, at June 30, 2005 and June 30, 2004, we had an accumulated deficit of \$27.1 million and \$20.0 million, respectively. Our revenues and cash flows from operations have not been sufficient to sustain our operations. We have sustained our operations through the issuance of our common stock and the incurrence of debt. We expect that our revenues and cash flows from operations may not be sufficient to sustain our operations for the foreseeable future. Our profitability will require the successful commercialization of our Kronos technologies. No assurances can be given that we will be able to successfully commercialize our Kronos technologies or that we will ever be profitable.

We will require significant additional financing to sustain our operations and without it we will not be able to continue operations.

At June 30, 2005 and June 30, 2004, we had a working capital deficit of \$3.6 million and \$1.2 million, respectively. The Report of Independent Registered

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Public Accounting Firm for the year ended June 30, 2005, includes an explanatory paragraph to their audit opinion stating that our recurring losses from operations and working capital deficiency raise substantial doubt about our ability to continue as a going concern. For the fiscal year ended June 30, 2005 and June 30, 2004, we had an operating cash flow deficit of \$1.8 million and \$2.8 million, respectively. We currently do not have sufficient financial resources to fund our operations or pay certain existing obligations or those of our subsidiary. Therefore, we need substantial additional funds to continue these operations and pay certain existing obligations.

If obtaining sufficient financing from HoMedics and /or Cornell Capital Partners were to be unavailable and if we are unable to commercialize and sell our products or technologies, we will need to secure another source of funding in order to satisfy our working capital needs. Even if we are able to access the funds available under the HoMedics senior debt agreement and / or the Cornell Capital Standby Equity Distribution Agreement, we may still need additional capital to fully implement our business, operating and development plans. At June 30, 2005 and June 30, 2004, we had a cash balance of \$1,555,000 and \$69,000, respectively. Should the financing we require to sustain our working capital needs be unavailable, or prohibitively expensive when we require it, we would be forced to curtail our business operations.

Existing stockholders will experience significant dilution from our sale of shares under the Cornell Capital Standby Equity Distribution Agreement and any other equity financing.

8

The sale of shares pursuant to our agreement with Cornell Capital Partners, the exercise of HoMedics stock warrants or any other future equity financing transaction will have a dilutive impact on our stockholders. As a result, our net income per share could decrease in future periods, and the market price of our common stock could decline. In addition, the lower our stock price is, the more shares of common stock we will have to issue under the Standby Equity Distribution Agreement. If our stock price is lower, then our existing stockholders would experience greater dilution. We cannot predict the actual number of shares of common stock that will be issued pursuant to the Standby Equity Distribution Agreement or any other future equity financing transaction, in part, because the purchase price of the shares will fluctuate based on prevailing market conditions and we do not know the exact amount of funds we will need.

Competition in the market for air movement and purification devices may result in the failure of the Kronos products to achieve market acceptance.

Kronos presently faces competition from other companies that are developing or that currently sell air movement and purification devices. Many of these competitors have substantially greater financial, research and development, manufacturing, and sales and marketing resources than we do. Many of the products sold by Kronos' competitors already have brand recognition and established positions in the markets that we have targeted for penetration. In the event that the Kronos products do not favorably compete with the products sold by our competitors, we would be forced to curtail our business operations.

Our failure to enforce protection of our intellectual property would have a material adverse effect on our business.

A significant part of our success depends in part on our ability to obtain and defend our intellectual property, including patent protection for our products and processes, preserve our trade secrets, defend and enforce our rights against

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

infringement and operate without infringing the proprietary rights of third parties, both in the United States and in other countries. Our limited amount of capital impedes our current ability to protect and defend our intellectual property.

The validity and breadth of our intellectual property claims in ion wind generation and electrostatic fluid acceleration and control technology involve complex legal and factual questions and, therefore, may be highly uncertain. Despite our efforts to protect our intellectual proprietary rights, existing copyright, trademark and trade secret laws afford only limited protection.

Our industry is characterized by frequent intellectual property litigation based on allegations of infringement of intellectual property rights. Although we are not aware of any intellectual property claims against us, we may be a party to litigation in the future.

Possible future impairment of intangible assets would have a material adverse effect on our financial condition.

Our net intangible assets of approximately \$2.1 million as of June 30, 2005 consist principally of purchased patent technology and marketing intangibles, which relate to the acquisition of Kronos Air Technologies, Inc. in March 2000 and to the acquisition of license rights to fuel cell, computer and microprocessor applications of the Kronos technology not included in the original acquisition of Kronos Air Technologies, Inc. in May 2003. Intangible assets comprise 54% of our total assets as of June 30, 2005. Intangible assets are subject to periodic review and consideration for potential impairment of value. Among the factors that could give rise to impairment include a significant adverse change in legal factors or in the business climate, an adverse action or assessment by a regulator, unanticipated competition, a loss of key personnel, and projections or forecasts that demonstrate continuing losses associated with these assets. In the case of our intangible assets, specific factors that could give rise to impairment would be, but are not limited to, an inability to obtain patents, the untimely death or other loss of Dr. Igor Krichtafovitch, the lead inventor of the Kronos technology and Kronos Air Technologies Chief Technology Officer, or the ability to create a customer base for the sale or licensing of the Kronos technology. Should an impairment occur, we would be required to recognize it in our financial statements. A write-down of these intangible assets could have a material adverse impact on our total assets, net worth and results of operations.

Our common stock is deemed to be "Penny Stock," subject to special requirements and conditions and may not be a suitable investment.

9

Our common stock is deemed to be "penny stock" as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934. Penny stocks are stocks:

- With a price of less than \$5.00 per share;
- That are not traded on a "recognized" national exchange;
- Whose prices are not quoted on the Nasdaq automated quotation system (Nasdaq listed stock must still have a price of not less than \$5.00 per share); or
- In issuers with net tangible assets less than \$2.0 million (if the issuer has been in continuous operation for at least three years) or \$5.0 million (if in continuous operation for less than three years), or with average revenues of less than \$6.0 million for the last three years.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Broker/dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stocks. Moreover, broker/dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor. These requirements may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common stock to resell shares to third parties or to otherwise dispose of them. This could cause our stock price to decline.

We rely on management and research personnel, the loss of whose services could have a material adverse effect upon our business.

We rely principally upon the services of our senior executive management, and certain key employees, including the Kronos research team, the loss of whose services could have a material adverse effect upon our business and prospects. Competition for appropriately qualified personnel is intense. Our ability to attract and retain highly qualified senior management and technical research and development personnel are believed to be an important element of our future success. Our failure to attract and retain such personnel may, among other things, limit the rate at which we can expand operations and achieve profitability. There can be no assurance that we will be able to attract and retain senior management and key employees having competency in those substantive areas deemed important to the successful implementation of our plans to fully capitalize on our investment in the Kronos technology, and the inability to do so or any difficulties encountered by management in establishing effective working relationships among them may adversely affect our business and prospects. Currently, we do not carry key person life insurance for any of our executive management, or key employees.

ITEM 2. PROPERTIES

Our principal executive office is located at 464 Common Street, Suite 301, Belmont, Massachusetts. At June 30, 2005, the offices of the Kronos Research and Product Development facility were located at 8549/8551 154th Avenue NE, Redmond, Washington. Effective October 1, 2005, Kronos Research and Product Development facility will be located at 15241 90th Street, NE, Redmond, Washington. Kronos is committed through September 30, 2009 to annual lease payments on operating leases for 6,000 square feet of office/research and product development premises. We consider our new Research and Product Development facility to be adequate for our foreseeable needs.

ITEM 3. LEGAL PROCEEDINGS

None

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock trades on the Over-the-Counter Bulletin Board under the trading symbol "KNOS." Our high and low bid prices by quarter during fiscal 2005 and 2004 are presented as follows:

FISCAL YEAR 2005	
HIGH	LOW

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

First Quarter (July 2004 to September 2004)	\$0.175	\$0.125
Second Quarter (October 2004 to December 2004)	\$0.200	\$0.125
Third Quarter (January 2005 to March 2005)	\$0.150	\$0.080
Fourth Quarter (April 2005 to June 2005)	\$0.150	\$0.063

	FISCAL YEAR 2004	
	HIGH	LOW
First Quarter (July 2003 to September 2003)	\$0.450	\$0.220
Second Quarter (October 2003 to December 2003)	\$0.370	\$0.230
Third Quarter (January 2004 to March 2004)	\$0.330	\$0.180
Fourth Quarter (April 2004 to June 2004)	\$0.255	\$0.155

10

On September 26, 2005, the closing price of our common stock as reported on the Over-the-Counter Bulletin Board was \$0.075 per share. On September 26, 2005, we had approximately 2,000 beneficial stockholders of our common stock and 78,030,202 shares of our common stock were issued and outstanding.

DIVIDENDS

We have not declared or paid dividends on our common stock during fiscal 2004 or 2005 and do not plan to declare or pay dividends on our common stock during fiscal 2006. Our dividend practices are determined by our Board of Directors and may be changed from time to time. We will base any issuance of dividends upon our earnings (if any), financial condition, capital requirements, acquisition strategies, and other factors considered important by our Board of Directors. Nevada law and our Articles of Incorporation do not require our Board of Directors to declare dividends on our common stock. We expect to retain any earnings generated by our operations for the development and expansion of our business and do not anticipate paying any dividends to our stockholders for the foreseeable future.

RECENT SALES OF UNREGISTERED SECURITIES

Except as otherwise noted, all of the following shares were issued and options and warrants granted pursuant to the exemption provided for under Section 4(2) of the Securities Act of 1933, as amended, as a "transaction not involving a public offering." No commissions were paid, and no underwriter participated, in connection with any of these transactions. Each such issuance was made pursuant to individual contracts which are discrete from one another and are made only with persons who were sophisticated in such transactions and who had knowledge of and access to sufficient information about Kronos to make an informed investment decision. Among this information was the fact that the securities were restricted securities.

All investors participating in private placements for cash were "accredited investors" within the meaning of Regulation D. In addition, we note that there are several categories of recipients of these shares. These include investors for cash, officers, directors, consultants, litigants and former stockholders of private companies acquired by Kronos. Kronos does not believe that these categories of recipients should be integrated with each other under the concept of integration. Under Securities Act Release Nos. 4552 and 4434, these categories would not involve a single plan of financing and would not be considered to be made for the same general purpose. As a result, each category should be reviewed on its own. Given the small number of purchasers in these categories, Kronos believes that these transactions complied in all respects with Section 4(2). Kronos believes that this conclusion is true even if the transactions occurring within each category are integrated with other transactions occurring within six months or one year of a given transaction.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

On October 31, 2003, we authorized the issuance of 360,000 shares of our common stock pursuant to a consulting agreement, valued at \$0.22 per share (the fair-market value of our shares as of such date), at an aggregate value of \$79,200, to Fusion Capital, LLC, in exchange for consulting services.

In February 2004, we authorized the issuance of 438,493 shares of our common stock, valued at \$0.16 per share, at an aggregate value of \$69,230, to Daniel Dwight, Richard Papworth and Richard Tusing in exchange for Board of Director services.

In March 2004, we granted options to acquire 2,126,522 options of our common stock at an exercise price of \$0.18 to Alexander Chriss, Daniel Dwight, Igor Krichtafovitch, and Richard Tusing in exchange for the conversion of \$1,063,261 in past due accounts payable into Promissory Notes due on December 31, 2006.

On July 1, 2004, we granted options to acquire 725,000 shares of our common stock at an exercise price of \$0.15 to Spencer Browne, James McDermott, William Poster, Milton Segal and Charles Strang in exchange for services as directors or advisory board members to the Company.

In October 2004, we issued five million shares of our common stock, valued at \$0.10 per share at an aggregate value of \$500,000 to Cornell Capital Partners, LLC.

In October 2004, we issued 62,500 shares of our common stock, valued at \$0.10 per share at an aggregate value of \$6,250 to Newbridge Securities Corporation as a placement agent fee in connection with the Standby Equity Distribution Agreement with Cornell Capital.

In October 2004, we issued to HoMedics a warrant to purchase 26,507,658 shares of Kronos common stock. The warrant is exercisable for a period of ten (10) years from the date of issuance. The exercise price is \$0.10 per share.

In November 2004, we issued 2,000,000 shares of our common stock valued at \$0.10 per share at an aggregate value of \$200,000 to Fusion Capital Partners, LLC. The proceeds were used to eliminate Kronos' non-interest bearing demand obligation to Fusion Capital.

In November 2004, we issued 2,800,000 shares of our common stock valued at \$0.10 per share at an aggregate value of \$280,000 to a group of accredited investors.

11

On June 30, 2005, we issued 1,500,000 shares of our common stock valued at \$0.09 per share at an aggregate value of \$135,000 to Daniel R. Dwight, Igor Krichtafovitch, and Richard F. Tusing for 2005 bonuses.

On June 30, 2005, we granted options to acquire 1,725,000 shares of our common stock at an exercise price of \$0.125. Of the 1,725,000 options, 1,200,000 options were granted to Daniel R. Dwight and Richard F. Tusing who are directors and officers of Kronos.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following information should be read in conjunction with our consolidated financial statements and the notes thereto appearing elsewhere in this filing. Certain statements within this Item and throughout this Annual Report on Form 10-KSB and the documents incorporated herein are "forward-looking statements."

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

GENERAL

Kronos Advanced Technologies, Inc. is an application development and licensing company that has developed and patented technology that fundamentally changes the way air is moved, filtered and sterilized. Kronos is pursuing commercialization of its proprietary technology in a limited number of markets; and if we are successful, we intend to enter additional markets in the future. Among the achievements of the Company over the past twelve months included the following:

| | Technology and Intellectual Property:

- secured additional U.S. and international patents for our proprietary technology and made additional patent filings;
- expanded our product claims platform to include independent verification of Kronos' technology's ability to filter submicron size particles (30 - 100 nanometers), which includes bacteria and virus size particles.

| | Business Development, Marketing and Sales:

- earned \$0.4 million in revenue from military, consumer and commercial customer contracts;
- developed new strategic relationships with IKEA of Sweden, leading automotive manufacturer and Northrop Grumman in the residential, transportation and military markets, respectively.

| | Operations:

- reduced the cost and size of the Kronos electronics through our strategic relationship with TechEn;
- completed development and initiated testing of a viable consumer standalone air purification product;
- shipped U.S. Navy product developed under an SBIR Phase II contract to Northrop Grumman for testing and evaluation;
- shipped initial prototype device to IKEA for testing and evaluation;
- expanded our technical, research and product development team;
- initiated expansion into a larger facility to accommodate our growing customer driven research and product development needs.

| | Financial and Other:

- secured funding from Cornell Capital partners, including \$4 million in debt financing, \$0.5 million in equity financing and \$20 million in commitment through a Standby Equity Distribution Agreement;
- obtained agreement from HoMedics to extend repayment of Kronos debt and to provide an additional \$1 million in funding.

Recent Developments

HoMedics. In March and April 2005, Kronos modified the HoMedics design and ordered prototype production devices from Kronos' preferred vendors along with select components from HoMedics preferred vendor. In August 2005, Kronos received initial shipment of products from its low cost, contract manufacturer in Mexico and China. In September 2005, Kronos initiated testing of these products under a testing protocol co-developed by Kronos and HoMedics.

IKEA of Sweden. In May 2005, Kronos initiated a strategic relationship with IKEA

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

of Sweden. In September 2005, Kronos shipped its initial prototype device to IKEA for testing and evaluation.

12

Leading Automotive Manufacturer. In August 2005, Kronos extended its work into the transportation industry by signing a Prototype Development and Evaluation Agreement with leading automotive manufacturer.

U.S. Military and Northrop Grumman. In May 2005, Kronos shipped the Kronos US Navy SBIR Phase II device to Northrop Grumman for testing and evaluation. Based on the success of these initial tests, Northrop Grumman requested additional modifications and improvements to the device. Northrop Grumman is scheduling further testing.

In February 2005, because the Army's focus was on researching a specific aspect of using an electrostatic process for dehumidification and did not share Kronos' vision for a broader application for using the unique aspects of Kronos' Electrostatic Dehumidification Technology ("EDT"), the Army decided not to pursue their Phase II option.

As of June 30, 2005, the U. S. Military had provided Kronos with \$904,000 in funding for these efforts under SBIR Phase II contracts.

Leading Business Jet Manufacturer. The Company has completed product design and development based on the customer's specific product application requirements. We are currently testing and evaluating the prototype product.

Washington Technology Center. In December 2004, Kronos and the University of Washington were awarded funding for a research and technology development project entitled "Heat Transfer Technology for Microelectronics and MEMS" by the Washington Technology Center. During the quarter ended June 30, 2005, Kronos and the University of Washington initiated research into development of an energy-efficient heat transfer technology for cooling microelectronics.

Senior Debt Financing. In October 2004, HoMedics agreed to extend repayment of Kronos debt and to provide an additional \$1 million in funding. HoMedics has agreed to provide Kronos with an additional \$1 million in financing - \$925,000 in secured debt financing and \$75,000 for the purchase of additional warrants.

In October 2004, Kronos entered into agreements for up to \$20.5 million in equity and equity backed debt financing from Cornell Capital Partners. Kronos executed an Equity Investment Agreement and received \$500,000 in gross proceeds through the sale of 5 million unregistered shares of Kronos common stock. Cornell Capital Partners provided \$4 million pursuant to two Promissory Notes, which were funded as follows: \$2 million upon filing a Registration Statement and \$2 million upon the SEC declaring the Registration Statement effective. Kronos executed a Standby Equity Distribution Agreement for \$20 million of funding which Kronos has the option to drawdown against in increments as large as \$1.5 million over the next twenty one months. Kronos intends to use the proceeds under the Standby Equity Distribution Agreement to repay the Promissory Notes. As of June 30, 2005, Kronos has received \$4.5 million under these agreements.

In July 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated June 21, 2005 and suspended for one month weekly repayments of the Kronos Promissory Note dated March 7, 2005. In September 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated March 7, 2005.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

CRITICAL ACCOUNTING POLICIES

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allowance for Doubtful Accounts. We provide a reserve against our receivables for estimated losses that may result from our customers' inability to pay. These reserves are based on potential uncollectible accounts, aged receivables, historical losses and our customers' credit-worthiness. Should a customer's account become past due, we generally will place a hold on the account and discontinue further shipments and/or services provided to that customer, minimizing further risk of loss.

Valuation of Goodwill, Intangible and Other Long Lived Assets. We use assumptions in establishing the carrying value, fair value and estimated lives of our long-lived assets and goodwill. The criteria used for these evaluations include management's estimate of the asset's ability to generate positive income from operations and positive cash flow in future periods compared to the carrying value of the asset, the strategic significance of any identifiable intangible asset in our business objectives, as well as the market capitalization of Kronos. We have used certain key assumptions in building the cash flow projections required for evaluating the recoverability of our intangible assets. We have assumed revenues from the following applications of

13

the Kronos technology: consumer stand-alone devices, assisted care/skilled nursing stand-alone devices, embedded devices in the hospitality industry and in specialized military applications. Expenses/cash out flows in our projections include sales and marketing, production, distribution, general and administrative expenses, research and development expenses and capital expenditures. These expenses are based on management estimates and have been compared with industry norms (relative to sales) to determine their reasonableness. We use the same key assumptions for our cash flow evaluation as we do for internal budgeting, lenders and other third parties; therefore, they are internally and externally consistent with financial statement and other public and private disclosures. We are not aware of any negative implications resulting from the projections used for purposes of evaluating the appropriateness of the carrying value of these assets. If assets are considered to be impaired, the impairment recognized is the amount by which the carrying value of the assets exceeds the fair value of the assets. Useful lives and related amortization or depreciation expense are based on our estimate of the period that the assets will generate revenues or otherwise be used by Kronos. Factors that would influence the likelihood of a material change in our reported results include significant changes in the asset's ability to generate positive cash flow, loss of legal ownership or title to the asset, a significant decline in the economic and competitive environment on which the asset depends, significant changes in our strategic business objectives, and utilization of the asset.

Valuation of Deferred Income Taxes. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The likelihood of a material change in our expected realization of these assets is dependent on our ability to generate future taxable income, our ability to deduct tax loss carryforwards against future taxable income, the effectiveness

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

of our tax planning and strategies among the various tax jurisdictions that we operate in, and any significant changes in the tax treatment received on our business combinations.

Revenue Recognition. We recognize revenue in accordance with Securities and Exchange Commission Staff Bulletin 104 ("SAB 104"). Further, Kronos Air Technologies recognizes revenue on the sale of custom-designed contract sales under the percentage-of-completion method of accounting in the ratio that costs incurred to date bear to estimated total costs. For uncompleted contracts where costs and estimated profits exceed billings, the net amount is included as an asset in the consolidated balance sheet. For uncompleted contracts where billings exceed costs and estimated profits, the net amount is included as a liability in the consolidated balance sheet. Sales are reported net of applicable cash discounts and allowances for returns.

RESULTS OF OPERATIONS

Consolidated Statement of Operations For the Year Ended June 30, 2005.

Our net losses for each of the current years ended June 30, 2005 and June 30, 2004 were \$7,094,000 and \$2,495,000, respectively. The increase in the net loss for the year ended June 30, 2005, as compared to the prior year, was principally the result of a \$3,857,000 increase in other income associated with the restructuring of the HoMedics debt, a \$683,000 or 33% increase in operating costs to \$2,772,000 and a \$99,000 or 64% decrease in gross profit, partially offset by a \$95,000 or 15% decrease in interest expense to \$0.5 million.

Revenue. Revenues are generated through sales of services for design and development of Kronos devices at Kronos Air Technologies, Inc. Revenues for the year ended June 30, 2005 were \$430,000 compared with \$533,000 in the prior year. Current year revenues were primarily from our HoMedics development agreement, U.S. Navy Small Business Innovative Research Phase II contract, and U.S. Army Small Business Innovative Research Phase II contracts.

Cost of Sales. Cost of sales for the year ended June 30, 2005 was \$375,000 compared with \$379,000 for the prior year. Cost of sales is primarily research and development costs and material and labor associated with our HoMedics development agreement, U.S. Navy Small Business Innovative Research Phase II contract and U.S. Army Small Business Innovative Research Phase II contracts.

Selling, General and Administrative Expenses. Selling, General and Administrative expenses for the year ended June 30, 2005 increased \$683,000 from the prior year to \$2,772,000. The increase was principally the result of a \$274,000 increase on non-cash compensation as the Company elected to recognize Statement of Financial Accounting Standards No. 123R, Share-Based Payment, during the fiscal year ended June 30, 2005; and \$270,000 increase in compensation and benefits and a \$107,000 increase in research and development as the Company expanded its product application capability; partially offset by a \$111,000 reduction in professional services.

Loss on Debt Restructuring. Loss on debt restructuring for the year ended June 30, 2005 was \$3,857,000 and represented the non-cash charge to operations for the cost to restructure the HoMedics debt, including the cost to issue 26 million warrants (refer to Note 14 - Commitments and Contingencies).

Interest expense. Interest expenses for the year ended June 30, 2005 was \$521,000 compared to \$616,000 for the corresponding period of the prior year.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Consolidated Balance Sheet as of June 30, 2005

Our total assets at June 30, 2005 were \$3,960,000 compared with \$2,497,000 at June 30, 2004. Total assets at June 30, 2005 and June 30, 2004 were comprised primarily of \$2,139,000 and \$2,253,000, respectively, of patents/intellectual property and \$1,555,000 and \$69,000, respectively, of cash. Total current assets at June 30, 2005 and 2004 were \$1,818,000 and \$238,000, respectively, while total current liabilities for those same periods were \$5,420,000 and \$1,423,000, respectively, creating a working capital deficit of \$3,602,000 and \$1,186,000 at each respective period end. This working capital deficit is primarily due to short term borrowings from Cornell Capital Partners.

Stockholders' deficit as of June 30, 2005 was (\$3,860,000). The \$7,094,000 net loss for the twelve months ended June 30, 2005 was offset by the value of the warrants issued to HoMedics (\$3,361,000), the sale and issuance of common stock for cash (\$968,000) and the issuance of common stock and options for services (\$288,000).

Consolidated Statement of Operations For the Year Ended June 30, 2004.

Our net losses for each of the current years ended June 30, 2004 and June 30, 2003 were \$2.5 million and \$2.8 million, respectively. The decrease in the net loss for the year ended June 30, 2004, as compared to the prior year, was principally the result of a \$0.8 million or 28% reduction in operating costs to \$2.1 million, partially offset by a \$0.4 million or 233% increase in interest expense to \$0.6 million.

Revenue. Revenues are generated through sales of services for design and development of Kronos devices at Kronos Air Technologies, Inc. Revenues for the year ended June 30, 2004 were \$533,000 compared with \$559,000 in the prior year. Current year revenues were primarily from our HoMedics development agreement, U.S. Navy Small Business Innovative Research Phase II contract, U.S. Army Small Business Innovative Research Phase I and Phase II contracts and our contract with a business jet manufacturer.

Cost of Sales. Cost of sales for the year ended June 30, 2004 was \$379,000 compared with \$314,000 for the prior year. Cost of sales is primarily research and development costs and material and labor associated with our HoMedics development agreement, U.S. Navy Small Business Innovative Research Phase II contract, U.S. Army Small Business Innovative Research Phase I and Phase II contracts and contract with a business jet manufacturer.

Selling, General and Administrative Expenses. Selling, General and Administrative expenses for the year ended June 30, 2004 decreased \$0.8 million from the prior year to \$2.1 million. The decrease was principally the result of a \$801,000 reduction in professional services, and a \$191,000 reduction in compensation and benefits expenses off set by a \$156,000 increase in other selling, general and administrative expense. The reduction in professional services was primarily the result of (i) a reduction in legal costs as a result of the completion of the restructuring of the Company in 2003; (ii) a reduction in accounting and auditing expenses as a result of the change in public accountants in August 2003; and a reduction in consulting expenses as a result of Richard F. Tusing, our Chief Operating Officer, as a result of terminating his consulting agreements and entering into a new employment agreement with Kronos in January 2003 and (iii) the completion of a twelve month consulting agreement with the Eagle Rock Group, LLC in March 2003. The increase in other selling, general and administrative expense was primarily the result of an increase in Directors and Officers, general liability and product liability insurance.

Consolidated Balance Sheet as of June 30, 2004

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Our total assets at June 30, 2004 were \$2.5 million compared with \$3.2 million at June 30, 2003. Total assets at June 30, 2004 and June 30, 2003 were comprised primarily of \$2.3 million and \$2.5 million, respectively, of patents/intellectual property. Total current assets at June 30, 2004 and 2003 were \$238,000 and \$724,000, respectively, while total current liabilities for those same periods were \$1.4 million and \$1.9 million, respectively, creating a working capital deficit of \$1.2 million at each respective period end. This working capital deficit is primarily due to the current portion of notes payable due to HoMedics.

Stockholders' deficit as of June 30, 2004 and 2003 was (\$1.4 million). The \$2.5 million loss from continuing operations for the twelve months ended June 30, 2004 was offset by the sale and issuance, net of offering costs, of \$1.5 million of common stock and by the transfer \$0.8 million of warrants from liabilities to stockholders' deficit.

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have relied principally on the sale of common stock and secured debt and customer contracts for research and product development to finance our operations.

15

In October 2004, Kronos entered into agreements for up to \$20.5 million in equity and equity backed debt financing from Cornell Capital Partners. In October 2004, Kronos sold 5 million unregistered shares of Kronos common stock for gross proceeds of \$500,000 to Cornell Capital Partners. Cornell Capital Partners committed to provide \$4 million pursuant to two Promissory Notes, which have been funded as follows: \$2 million upon the filing an SB-2 Registration Statement and \$2 million upon the SEC declaring the Registration Statement effective. Kronos executed a Standby Equity Distribution Agreement for \$20 million of funding which Kronos has the option to drawdown against in increments as large as \$1.5 million over the next twenty one months. As of June 30, 2005, Kronos has received \$4.5 million in funding under these agreements. In July 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated June 21, 2005 and suspended for one month weekly repayments of the Kronos Promissory Note dated March 7, 2005. In September 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated March 7, 2005.

In October 2004, HoMedics agreed to extend repayment of Kronos debt and to provide an additional \$1 million in funding. HoMedics has agreed to provide Kronos with an additional \$1 million in financing - \$925,000 in secured debt financing and \$75,000 for the purchase of additional warrants. The \$925,000 will be paid to Kronos upon Kronos achieving three milestones: (i) \$175,000 shall be funded upon delivery and successful testing of electronic boards and power supplies from Kronos' contract manufacturing partner, (ii) \$250,000 shall be funded upon obtaining tooling of the current prototype configuration and device testing and performing to HoMedics' specifications, and (iii) \$500,000 shall be funded upon the initial sale of Kronos-based air purifiers by HoMedics. Kronos and HoMedics have been in discussions regarding the achievement of the first milestone. In addition, quarterly debt payments and the maturity date for existing debt have been extended. Quarterly payments due on the outstanding \$2.4 million in secured debt financing, which had been scheduled to begin in August 2004, will be due the earlier of Kronos receipt of royalty payments from HoMedics sale of Kronos-based air purification products or two years. The maturity date of the \$2.4 million in debt has been extended from May 2008 to October of 2009; the maturity date on the \$925,000 will also be October 2009. The interest rate will remain at 6% for the \$2.4 million in debt; the rate will

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

also be 6% on the additional debt. HoMedics increased their potential equity position in Kronos to 30% of Kronos common stock on a fully diluted basis. In connection with the October 2004 agreements, Kronos issued HoMedics a warrant to buy 26.5 million shares of Kronos common stock.

Net cash flow used in operating activities was \$1.8 million for the year ended June 30, 2005. We were able to satisfy most of our cash requirements for this period from the proceeds of the sale of equity to Cornell Capital Partners and a group of accredited investors, the \$4 million Promissory Notes with Cornell Capital Partners and our U.S. Navy and U.S. Army Phase II contracts.

We estimate that achievement of our business plan will require substantial additional funding. We anticipate that the source of funding will be obtained pursuant to senior debt funding from the HoMedics Secured Promissory Note; equity funding from the Cornell Capital Standby Equity Distribution Agreement; and/or the sale of additional equity in our Company; cash flow generated from government grants and contracts; and cash flow generated from customer revenue. There are no assurances that these sources of funding will be adequate to meet our cash flow needs.

GOING CONCERN OPINION

The Report of Independent Registered Public Accounting Firm includes an explanatory paragraph to their audit opinions issued in connection with our 2005 and 2004 financial statements that states that we do not have significant cash or other material assets to cover our operating costs. Our ability to obtain additional funding will largely determine our ability to continue in business. Accordingly, there is substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We can make no assurance that we will be able to successfully develop, manufacturer and sell commercial products on a broad basis. While attempting to make this transition, we will be subject to all the risks inherent in a growing venture, including, but not limited to, the need to develop and manufacture reliable and effective products, develop marketing expertise and expand our sales force.

16

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our consolidated financial statements appear beginning at page F-1.

F - 1

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

To the Stockholders and Board of Directors Kronos Advanced Technologies, Inc.

We have audited the accompanying consolidated balance sheet of Kronos Advanced Technologies, Inc. and Subsidiary as of June 30, 2005 and 2004 and the related consolidated statements of operations, stockholders' deficit and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kronos Advanced Technologies, Inc. and Subsidiary as of June 30, 2005 and 2004 and the results of their operations and their cash flows for the years then ended, in conformity with U. S. generally accepted accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred significant losses and has a working capital deficiency as more fully described in Note 3. These issues among others raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

KRONOS ADVANCED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND NATURE OF OPERATIONS

Kronos Advanced Technologies, Inc. ("Kronos") is a Nevada corporation (the "Company"). The Company's shares began trading on the over-the-counter bulletin board exchange on August 28, 1996 under the symbol "TSET." Effective January 12, 2002, the Company began doing business as Kronos Advanced Technologies, Inc. and, as of January 18, 2002, we changed the Company ticker symbol to "KNOS." We have confined most of our recent activities to develop the Kronos technology.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Method. The Company's consolidated financial statements are prepared using the accrual method of accounting. The Company has elected a June 30 fiscal year end.

Principles of Consolidation. The consolidated financial statements of the Company include those of the Company and its subsidiary for the periods in which the subsidiary was owned/held by the Company. All significant intercompany accounts and transactions have been eliminated in the preparation of the consolidated financial statements. At June 30, 2005, we had only one subsidiary, Kronos Air Technologies, Inc.

Use of Estimates. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the periods. Actual results could differ from those estimates.

Concentrations of Credit Risk. Financial instruments which can potentially subject the Company to concentrations of credit risk consist principally of trade receivables. The Company manages its exposure to risk through ongoing credit evaluations of its customers and generally does not require collateral. The Company maintains an allowance for doubtful accounts for potential losses and does not believe it is exposed to concentrations of credit risk that are likely to have a material adverse impact on the Company's financial position or results of operations.

Cash and Cash Equivalents. The Company considers all highly liquid short-term investments, with a remaining maturity of three months or less when purchased, to be cash equivalents. The Company maintains cash and cash equivalents with high-credit, quality financial institutions. At June 30, 2005 the cash balances held at financial institutions were in excess of federally insured limits.

Accounts Receivable. The Company provides an allowance for potential losses, if necessary, on trade receivables based on a review of the current status of existing receivables and management's evaluation of periodic aging of accounts. Accounts receivable are shown net of allowances for doubtful accounts of \$0 at June 30, 2005 and June 30, 2004. The Company charges off accounts receivable against the allowance for losses when an account is deemed to be uncollectable.

Property and Equipment. Property and equipment are recorded at cost. Depreciation is provided over the estimated useful lives of the assets, which

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

range from three to seven years. Expenditures for major renewals and betterments that extend the original estimated economic useful lives of the applicable assets are capitalized. Expenditures for normal repairs and maintenance are charged to expense as incurred. The cost and related accumulated depreciation of assets sold or otherwise disposed of are removed from the accounts, and any gain or loss is included in operations.

Intangibles. The Company uses assumptions in establishing the carrying value, fair value and estimated lives of our long-lived assets and goodwill. The criteria used for these evaluations include management's estimate of the asset's continuing ability to generate positive income from operations and positive cash flow in future periods compared to the carrying value of the asset, the strategic significance of any identifiable intangible asset in our business objectives, as well as the market capitalization of the Company. Cash flow projections used for recoverability and impairment analysis use the same key assumptions and are consistent with projections used for internal budgeting, and for lenders and other third parties. If assets are considered to be impaired, the impairment recognized is the amount by which the carrying value of the assets exceeds the fair value of the assets. Useful lives and related amortization or depreciation expense are based on our estimate of the period that the assets will generate revenues or otherwise be used by Kronos. Factors that would influence the likelihood of a material change in our reported results include significant changes in the asset's ability to generate positive cash flow, loss of legal ownership or title to the asset, a significant decline in the economic and competitive environment on which the asset depends, significant changes in our strategic business objectives, and utilization of the asset.

F - 7

Income Taxes. Income taxes are accounted for in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 109. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized, but no less than quarterly.

Research and Development Expenses. Costs related to research and development are charged to research and development expense as incurred.

Net Loss Per Share. Basic loss per share is computed using the weighted average number of shares outstanding. Diluted loss per share is computed using the weighted average number of shares outstanding adjusted for the incremental shares attributed to outstanding options and warrants to purchase common stock, when their effect is dilutive.

Revenue Recognition. The Company recognizes revenue in accordance with Staff Accounting Bulletin (SAB) 104, which requires evidence of an agreement, delivery of the product or services at a fixed or determinable price, and assurance of collection within a reasonable period of time. Further, Kronos Air Technologies recognizes revenue on the sale of the custom-designed contract sales under the percentage-of-completion method of accounting in the ratio that costs incurred to date bear to estimated total costs. For uncompleted contracts where costs and estimated profits exceed billings, the net amount is included as an asset in the balance sheet. For uncompleted contracts where billings exceed costs and

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

estimated profits, the net amount is included as a liability in the balance sheet. Sales are reported net of applicable cash discounts and allowances for returns. Revenue from government grants for research and development purposes is recognized as revenue as long as the Company determines that the government will not be the sole or principal expected ultimate customer for the research and development activity or the products resulting from the research and development activity. Otherwise, such revenue is recorded as an offset to research and development expenses in accordance with the Audit and Accounting Guide, Audits of Federal Government Contractors. In either case, the revenue or expense offset is not recognized until the grant funding is invoiced and any customer acceptance provisions are met or lapse.

Stock, Options and Warrants Issued for Services. Issuances of shares of the Company's stock to employees or third-parties for compensation or services is valued using the closing market price on the date of grant for employees and the date services are completed for non-employees. Issuances of options and warrants of the Companies stock are valued using the Black-Scholes option model.

Stock Options. In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123R, Share-Based Payment ("SFAS No. 123R"). This Statement is a revision of SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. SFAS No. 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. The Statement requires entities to recognize stock compensation expense for awards of equity instruments to employees based on the grant-date fair value of those awards (with limited exceptions). Kronos elected to implement the provisions of SFAS No. 123R in the fiscal year ended June 30, 2005.

NOTE 3 - REALIZATION OF ASSETS

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has sustained losses from operations in recent years, and such losses have continued through the current year ended June 30, 2005. In addition, the Company has used, rather than provided cash in its operations. The Company is currently using its resources to attempt to raise capital necessary to commercialize its technology and develop viable commercial products, and to provide for its working capital needs.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to meet its financing requirements on a continuing basis, to maintain present financing and to succeed in its future operations. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

F - 8

Management has taken the following steps with respect to its operating and financial requirements, which it believes are sufficient to provide the Company with the ability to continue in existence:

HoMedics. October 2002, Kronos and HoMedics executed a Licensing Agreement

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

granting HoMedics certain rights with respect to the distribution of the Kronos proprietary technology to the consumer. The agreement provides for exclusive North American, Australian and New Zealand retail distribution rights for next generation consumer air movement and purification products based on the patented Kronos technology. The initial term of the agreement is three and one half years from the initial sale of consumer air purification products by HoMedics, which shall be no later than December 31, 2006, with the option to extend the Licensing Agreement for six additional years. Kronos was compensated through an initial royalty payment and will receive ongoing quarterly royalty payments based on a percentage of sales. HoMedics will pay minimum royalty payments of at least \$2 million during the initial three and a half year term and on-going royalty payments to extend the agreement. Kronos will retain the rights to all of its intellectual property. HoMedics commitment includes funding a marketing and advertising campaign to promote the Kronos-based product line. The products will be distributed by HoMedics. HoMedics currently distributes their products through major domestic retailers, including Wal-Mart, Home Depot, Sears, Bed Bath & Beyond, and Linens 'N Things.

We believe the Company has successfully completed the development of a Kronos-based consumer standalone air purifier that is an efficient, high quality product which is cost effective and easy to operate. In March 2005, Kronos and HoMedics began expanding production development beyond the initial prototypes and initiated increased product testing to complete the product claims platform. In March and April 2005, Kronos modified the HoMedics design and ordered prototype production devices from Kronos' preferred vendors along with select components from a HoMedics preferred vendor. In August 2005, Kronos received initial shipment of products from its low cost, contract manufacturer in Mexico and China and, in September 2005, initiated testing of these products under a testing protocol co-developed by Kronos and HoMedics.

U.S. Navy. In November 2002, the U. S. Navy awarded Kronos a Small Business Innovation Research Phase II contract worth \$580,000, plus an option of \$145,000. The Phase II contract (commercialization phase) is an extension of the Phase I and the Phase I Option work that began in 2001. It is intended that the Kronos devices developed under this contract will be embedded in existing HVAC systems in order to move air more efficiently than traditional, fan-based technology. In May 2005, Kronos shipped the Kronos device to Northrop Grumman for testing and evaluation. Based on the success of these initial tests, Northrop Grumman requested additional modifications and improvements to the device. Northrop Grumman is scheduling further testing. As of June 30, 2005, the U. S. Navy had provided Kronos with \$580,000 in funding for this effort.

Leading Business Jet Manufacturer. In January 2003, Kronos executed a Development and Acquisition Agreement with a premier business jet manufacturer. The Agreement was the direct result of initial prototype development work performed by the Kronos Research Team with input from the customer in 2002. The Kronos devices being designed and manufactured under this contract will need to meet all FAA safety standards, including environmental, flammability and electromagnetic interference (EMI). The Company has completed product design and development based on the customer's specific product application requirements. We are currently testing and evaluating the prototype product.

Leading Automotive Manufacturer. In August 2005, Kronos extended its work into the transportation industry by signing a Prototype Development and Evaluation Agreement with a leading luxury automotive manufacturer. The Kronos devices will be designed and manufactured to meet exacting customer standards for placement inside of automobile passenger cabins. According to various industry reports, the amount of time Americans have spent in their cars has risen 236 percent since 1982 (with one report from Time Magazine noting an average motorist will spend more than 5 years stuck in traffic alone), providing optimum air circulation in automobiles is not only a comfort factor, but can also be a critical means of improving air quality and helping to prevent viruses and

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

allergens that may otherwise accumulate in filtration systems.

Washington Technology Center. In December 2004, Kronos and the University of Washington were awarded funding for a research and technology development project entitled "Heat Transfer Technology for Microelectronics and MEMS" by the Washington Technology Center ("WTC"). The objective of the project is to develop a novel energy-efficient heat transfer technology for cooling microelectronics. Thermal management for microelectronics and MEMS systems is a challenge. Existing cooling devices aren't meeting increasing needs for energy consumption and heat dissipation. Kronos air handling technology is an emerging technology that uses an electric field to exert force on ionized gas. Kronos is attempting to develop an improved microchip air handling system that is smaller in size, has high speed airflow, allows more targeted delivery of cooling to areas of highest heat and is compatible with current processes. WTC will contribute \$40,000 to the project, with Kronos contributing \$8,000, plus \$32,000 in in-kind services, including use of the Kronos Research and Product Development Facility. During the quarter ended June 30, 2005, Kronos and the University of Washington initiated research into development of an energy-efficient heat transfer technology for cooling microelectronics.

F - 9

NOTE 4 - OTHER CURRENT ASSETS

Other current assets at June 30, consist of the following:

	2005	2004
	-----	-----
Debt acquisition costs	\$ 203,125	\$ -
Payroll deposit	50,000	-
Lease deposits	10,365	10,365
Prepaid professional fees	-	12,587
Prepaid insurance	-	4,104
Work in Progress	-	43,994
	-----	-----
Prepaid and other current assets	\$ 263,490	\$ 71,050
	=====	=====

NOTE 5 - PROPERTY AND EQUIPMENT

Property and equipment at June 30, consists of the following:

	2005	2004
	-----	-----
Office furniture and fixtures	\$ 37,756	\$ 37,756
Machinery and equipment	8,255	8,255
	-----	-----
	46,011	46,011
Less accumulated depreciation	(43,384)	(39,719)
	-----	-----
Net property and equipment	\$ 2,627	\$ 6,292
	=====	=====

Depreciation expense for the years ended June 30, 2005 and 2004 were \$3,655 and \$13,283, respectively.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

NOTE 6 - INTANGIBLES

Intangible assets at June 30, consists of the following:

	2005	2004
	-----	-----
Marketing intangibles	\$ 587,711	\$ 587,711
Purchased patent technology	2,669,355	2,669,355
Developed patent technology	518,960	239,715
	-----	-----
	3,776,026	3,496,781
Less accumulated amortization	(1,637,212)	(1,243,752)
	-----	-----
Net intangible assets	\$ 2,138,814	\$ 2,253,029
	=====	=====

Purchased patent technology includes property that was acquired in the Kronos acquisition.

Intangible assets are being amortized on a straight line basis over 10 years. Amortization expense for the years ended June 30, 2005 and 2004 was \$393,460 and \$271,364, respectively.

Amortization of the Company's Intangible Assets shown above for the fiscal years ended June 30,

	2006	2007	2008	2009	2010
	-----	-----	-----	-----	-----
Marketing intangibles	\$ 587,711	\$ 587,711	\$ 587,711	\$ 587,711	\$ 587,711
Purchased patent technology	2,669,355	2,669,355	2,669,355	2,669,355	2,669,355
Developed patent technology	518,960	518,960	518,960	518,960	518,960
	-----	-----	-----	-----	-----
	3,776,026	3,776,026	3,776,026	3,776,026	3,776,026

	-----	-----	-----	-----	-----
Net intangible assets	\$1,761,211	\$1,383,608	\$1,006,005	\$ 628,402	\$ 341,226
	=====	=====	=====	=====	=====

F - 10

NOTE 7 - ACCRUED EXPENSES

Accrued expenses at June 30, consisted of the following:

	2005	2004
	-----	-----
Accrued compensation	\$ 21,344	\$ 55,913
Accrued interest	428,712	166,276
Accrued professional services	37,014	90,157
	-----	-----
	\$ 487,070	\$ 312,346
	=====	=====

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

NOTE 8 - NOTES PAYABLE

The Company had the following obligations as of June 30, 2005 and 2004,

	2005	2004
Obligations to Cornell Capital (1)	\$ 4,000,000	\$ -
Obligation to HoMedics (2)	2,400,000	2,400,000
Discount on obligation to HoMedics	-	(589,260)
Obligation to current employees (3)	397,004	1,139,903
Obligation for finance leases (4)	28,131	50,327
Obligation to Fusion Capital (5)	-	200,000
Obligations to others (6)	-	55,000
	6,825,135	3,255,970
Less:		
Current portion	4,425,135	798,926
	\$ 2,400,000	\$ 2,457,044

(1) These notes have a one year term and bear interest at 12% with weekly payments.

(2) This note has a 5 year term and bears interest at 6% with no payments required until the earlier of Kronos receipt of royalty payments from HoMedics sale of Kronos-based air purification products or two years. This note was issued along with warrants for the purchase of 13.4 million shares of the Company's common stock.

(3) These notes bear interest at the rate of 12%. They represent obligation to current employees of the Company, which are due by December 31, 2006.

(4) See Note 9 below.

(5) This was a non-interest bearing demand obligation and was outstanding until November 2004 when Fusion Capital purchased enough stock from the Company to eliminate the advance position.

(6) This obligation was originally incurred for the acquisition of license rights of the Kronos technology (see note 7) with a value of \$270,000. This note was non-interest bearing with quarterly payments of \$30,000 until paid it was paid in full on October 5, 2004.

Payout of the Company's Notes Payable obligations listed above for the fiscal years ended June 30,

	2006	2007	2008	2009	2010
Obligations to Cornell Capital	\$4,000,000	\$ -	\$ -	\$ -	\$ -
Obligation to current employees	397,004	-	-	-	-
Obligation for finance leases	28,131				
Obligation to HoMedics	-	553,846	738,846	738,462	369,231

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

-----	-----	-----	-----	-----
\$4,425,135	\$ 553,846	\$ 738,462	\$ 738,462	\$ 369,231
=====	=====	=====	=====	=====

F - 11

NOTE 9 - LEASES

The Company has entered into a non-cancelable operating lease for facilities. Rental expense was approximately \$66,600 and \$66,500 for years ended June 30, 2005 and 2004 respectively. Effective October 1, 2005, Kronos is committed through September 30, 2009 to annual lease payments on operating leases for 6,000 square feet of office/research and product development premises of for rent during fiscal,

	2006	2007	2008	2009
	-----	-----	-----	-----
Lease payments	\$ 58,800	\$60,564	\$ 62,388	\$ 64,260
	=====	=====	=====	=====

The Company has entered into capital leases for equipment. The leases are for 36 months and contain bargain purchase provisions so that the Company can purchase the equipment at the end of each lease. The following sets forth the minimum future lease payments and present values of the net minimum lease payments under these capital leases:

Year ended June 30, 2006	\$ 31,550

Total minimum lease payments	31,550
Less: Imputed interest	(3,419)

Present value of net minimum lease payments	\$ 28,131
	=====

In the year ended June 30, 2005 the Company paid \$22,197 in principal and \$8,493 in interest on capital leases. Of the equipment that was purchased using capital leases, \$10,650 was capitalized and the remaining \$65,781 was expensed through research and development and cost of sales.

NOTE 10 - NET LOSS PER SHARE

As of June 30, 2005, there were outstanding options to purchase 14,989,782 shares of the Company's common stock and outstanding warrants to purchase 42,300,000 shares of the Company's common stock. These options and warrants have been excluded from the loss per share calculation as their effect is anti-dilutive. As of June 30, 2004 there were outstanding options to purchase 12,813,812 shares of Kronos common stock and outstanding warrants to purchase 15,792,342 shares of Kronos common stock. These options and warrants have been excluded from the loss per share calculation as their effect is anti-dilutive.

NOTE 11 - INCOME TAXES

The composition of deferred tax assets and the related tax effects at June 30, 2005 and 2004 are as follows:

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

	2005	2004
Benefit from carryforward of capital and net operating losses	\$ 6,091,927	\$ 4,841,083
Other temporary differences	156,740	156,740
Less:		
Valuation allowance	(6,248,667)	(4,997,823)
Net deferred tax asset	\$ -	\$ -

The other temporary differences shown above relate primarily to impairment reserves for intangible assets, and accrued and deferred compensation. The difference between the income tax benefit in the accompanying statements of operations and the amount that would result if the U.S. Federal statutory rate of 34% were applied to pre-tax loss is as follows:

F - 12

	June 30,		
	2005		2004
	Amount	% of pre-tax Loss	Amount
Benefit for income tax at:			
Federal statutory rate	\$ 2,411,998	34.0%	\$ 848,265
State statutory rate	141,882	2.0%	49,728
Non-deductible expenses	(1,303,036)	(18.4)%	(123,348)
Increase in valuation allowance	(1,250,844)	(17.6)%	(774,645)
	\$ -	0.0%	\$ -

The non-deductible expenses shown above related primarily to the amortization of intangible assets and to the accrual of stock options for compensation using different valuation methods for financial and tax reporting purposes.

At June 30, 2005, for federal income tax and alternative minimum tax reporting purposes, the Company has approximately \$14.5 million of unused Federal net operating losses, \$2.3 million capital losses and \$10.3 million State net operating losses available for carryforward to future years. The benefit from carryforward of such losses will expire in various years between 2006 and 2023 and could be subject to limitations if significant ownership changes occur in the Company.

NOTE 12 - CONSULTING AGREEMENTS

On October 31, 2003, the Company entered into a 10 month consulting agreement with Joshua B. Scheinfeld and Steven G. Martin for consulting services with respect to operations, strategy, capital structure and other matters as specified from time to time. As consideration for their services, the Company

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

issued 360,000 shares of its common stock. In accordance with Emerging Issues Task Force ("EITF") 96-18, the measurement date was established as the contract date of October 31, 2003 as the share grant is non-forfeitable and fully vested on that date. The stock was valued on that date at \$0.22 a share (the closing price for the Company's common stock on the measurement date). The stock issuance, valued at \$79,200 was recorded as a prepaid consulting fee and was amortized to Professional Fee Expense ratably over the 10 month term of the contract. Under this contract, expenses of \$15,840 and \$63,360 were recorded for the years ended June 30, 2005 and 2004, respectively.

NOTE 13 - STOCK OPTIONS AND WARRANTS

On February 12, 2002, the Board of Directors approved the TSET, Inc. Stock Option Plan under which Kronos' key employees, consultants, independent contractors, officers and directors are eligible to receive grants of stock options. Kronos has reserved and issued a total of 6,250,000 shares of common stock under the Stock Option Plan. Prior to that, the Company had no formal stock option plan but offered as special compensation to certain officers, directors and third party consultants the granting of non-qualified options to purchase Company shares at the market price of such shares as of the option grant date. The options generally have terms of three to ten years. The Company granted non-qualified stock options totaling 2,450,000 and 3,239,782 shares in the years ended June 30, 2005 and 2004, respectively.

As of July 1, 2004, the Company elected to follow Statement of Financial Accounting Standards No. 123R, Share-Based Payment ("SFAS No. 123R") to recognize stock compensation expense for awards of equity instruments to employees based on the grant-date fair value of those awards (with limited exceptions).

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in the Company's opinion the existing available models do not necessarily provide a reliable single measure of the fair value of the Company's employee stock options. Using the Black-Scholes option valuation model, the weighted average grant date fair value of options granted during the years ended June 30, 2005 and 2004 was \$0.68 and \$0.18 per option share, respectively.

F - 13

A summary of the Company's stock option activity and related information for the years ended June 30, 2005 and 2004 is as follows (in thousands, except per share amounts):

	=====	=====

NOTE 14 - COMMITMENTS AND CONTINGENCIES

In October 2004, Kronos entered into agreements for up to \$20.5 million in equity and equity backed debt financing from Cornell Capital Partners. In October 2004, Kronos sold 5 million unregistered shares of Kronos common stock for gross proceeds of \$500,000 to Cornell Capital Partners. Cornell Capital Partners committed to provide \$4 million pursuant to two Promissory Notes, which had been funded as follows: \$2 million upon the filing an SB-2 Registration Statement and \$2 million upon the SEC declaring the Registration Statement effective. Kronos executed a Standby Equity Distribution Agreement for \$20 million of funding which Kronos has the option to drawdown against in increments as large as \$1.5 million over the next twenty one months. As of June 30, 2005, Kronos has received \$4.5 million in funding under these agreements.

In October 2004, HoMedics agreed to extend repayment of Kronos debt and to provide an additional \$1 million in funding. HoMedics has agreed to provide Kronos with an additional \$1 million in financing - \$925,000 in secured debt financing and \$75,000 for the purchase of additional warrants. The \$925,000 will be paid to Kronos upon Kronos achieving three milestones: (i) \$175,000 shall be funded upon delivery and successful testing of electronic boards and power supplies from Kronos' contract manufacturing partner, (ii) \$250,000 shall be funded upon obtaining tooling of the current prototype configuration and device testing and performing to HoMedics' specifications, and (iii) \$500,000 shall be funded upon the initial sale of Kronos-based air purifiers by HoMedics. Kronos and HoMedics have been in discussions regarding the achievement of the first milestone. In addition, quarterly debt payments and the maturity date for existing debt have been extended. Quarterly payments due on the outstanding \$2.4 million in secured debt financing, which had been scheduled to begin in August 2004, will be due the earlier of Kronos receipt of royalty payments from HoMedics sale of Kronos-based air purification products or two years. The maturity date of the \$2.4 million in debt has been extended from May 2008 to October of 2009; the maturity date on the \$925,000 will also be October 2009. The interest rate will remain at 6% for the \$2.4 million in debt; the rate will also be 6% on the additional debt. HoMedics increased their potential equity position in Kronos to 30% of Kronos common stock on a fully diluted basis. In connection with the October 2004 agreements, Kronos issued HoMedics a warrant to buy 26.5 million shares of Kronos common stock. As a result of this debt restructuring, the Company recognized a loss of \$3,857,467 which represents the reacquisition price less the net carrying value of the debt restructuring. The reacquisition price is made up of \$2,400,000 which is the amount of the new debt and \$3,361,161 which represents the value of the warrants using the Black-Scholes method. The net carrying value is the \$2,400,000 which is the old debt less the unamortized debt discount of \$496,296.

Daniel R. Dwight, President and Chief Executive Officer, and the Company entered into an Employment agreement effective as of November 15, 2001. The initial term of Mr. Dwight's Employment Agreement was for 2 years and will automatically renew for successive 1 year terms unless Kronos or Mr. Dwight provide the other party with written notice within 3 months of the end of the initial term or any subsequent renewal term. The Board of Directors renewed Mr. Dwight's Employment Agreement on August 13, 2003 and again on August 15, 2004 and August 15, 2005. Mr. Dwight's Employment Agreement provides for base cash compensation of \$180,000 per year. Mr. Dwight is eligible for annual incentive bonus compensation in an amount equal to Mr. Dwight's annual salary based on the achievement of certain bonus objectives. In addition, Kronos granted Mr. Dwight 1,000,000 immediately vested and exercisable, ten-year stock options at various exercise prices. Mr. Dwight will be entitled to fully participate in any and all 401(k), stock option, stock bonus, savings, profit-sharing, insurance, and other similar plans and benefits of employment.

Richard F. Tusing, Chief Operating Officer, and the Company entered into an Employment agreement effective as of January 1, 2003. The initial term of Mr. Tusing's Employment Agreement is for 2 years and will automatically renew for successive 1 year terms unless Kronos or Mr. Tusing provide the other party with written notice within 3 months of the end of the initial term or any subsequent renewal term. The Board of Directors renewed Mr. Tusing's Employment Agreement on October 1, 2004. Mr. Tusing's Employment Agreement provides for base cash compensation of \$160,000 per year. Mr. Tusing will be entitled to fully participate in any and all 401(k), stock option, stock bonus, savings, profit-sharing, insurance, and other similar plans and benefits of employment.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

NOTE 15 - MAJOR CUSTOMERS

As of June 30, 2005 the Company had three major customers: HoMedics, the U.S. Navy and the U.S. Army. Of the \$430,379 in revenue recorded in the year ended June 30, 2005, \$430,379 or 100% was derived from these three customers.

As of June 30, 2004, the Company had two major customers: HoMedics and the U.S. Navy. Of the \$533,220 in revenue recorded in the year ended June 30, 2004, \$477,032 or 89% was derived from these two customers.

F - 15

NOTE 16 - SEGMENTS OF BUSINESS

The Company operates principally in one segment of business: The Kronos segment licenses, manufactures and distributes air movement and purification devices utilizing the Kronos technology. In the year ended June 30, 2005, the Company operated only in the United States of America.

NOTE 17 - RELATED PARTIES

As of June 30, 2005, the Company has outstanding obligations for past compensation to management of \$397,004. As of June 30, 2004, the Company has outstanding obligations for past compensation management of \$1,139,903. These unpaid amounts currently accrue interest at the rate of 12% per annum.

NOTE 18 - STOCKHOLDERS' DEFICIT

During the year ended June 30, 2005, the Company issued 9,800,000 shares of its common stock for \$967,500 in cash. The Company issued 1,500,000 shares valued at \$135,000 for services to officers and employees and 62,500 shares valued at \$6,250 for consulting services.

During the year ended June 30, 2004, the Company issued 6,705,576 shares of its common stock for \$1,403,718 in cash. The Company issued 360,000 shares valued at \$79,200 for consulting services and 438,493 shares of its common stock valued at \$69,230 for board service to current members of the Board of Directors.

NOTE 19 - SUBSEQUENT EVENTS

In July 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated June 21, 2005 and suspended for one month weekly repayments of the Kronos Promissory Note dated March 7, 2005. In September 2005, Cornell Capital Partners suspended until further notice weekly repayments of the Kronos Promissory Note dated March 7, 2005. In July, August and September 2005, Kronos issued 6,843,857 shares of common stock for \$460,000 to Cornell under the terms of our Standby Equity Distribution Agreement. The proceeds were used to make payments on the two Promissory Notes.

In August 2005, Kronos extended its work into the transportation industry by signing a Prototype Development and Evaluation Agreement with a leading luxury automotive manufacturer. The Kronos devices will be designed and manufactured to meet exacting customer standards for placement inside of automobile passenger cabins.

F - 16

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Within 90 days prior to the filing date of this report, our Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rules 13a-15(e) and 15d-15(e). This evaluation was done under the supervision and with the participation of our Company's President and Chief Financial Officer. Based upon that evaluation, they concluded that our Company's disclosure controls and procedures are effective in gathering, analyzing and disclosing information needed to satisfy our Company's disclosure obligations under the Exchange Act.

Changes in Internal Controls. There were no significant changes in our Company's internal controls or in other factors that could significantly affect those controls since the most recent evaluation of such controls.

PART III

ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

Our directors and executive officers and their ages as of October 8, 2004, are as follows:

NAME	AGE	POSITION
-----	----	-----
Daniel R. Dwight	45	Director; President and Chief Executive Officer
Richard F. Tusing	48	Director; Chief Operating Officer
James P. McDermott	43	Director
M. J. Segal	60	Director

Daniel R Dwight, 45, has served as a Director of Kronos since November 2000, and as a Director and Chief Executive Officer of Kronos Air Technologies since January 2001. Effective October 16, 2001, Mr. Dwight was appointed President and Chief Executive Officer of Kronos. Effective January 1, 2004, Mr. Dwight was appointed Acting Chief Financial Officer of Kronos. He has extensive experience in private equity and operations in a wide variety of high growth and core industrial businesses. Mr. Dwight spent 17 years with General Electric including 10 years of operations, manufacturing, and business development experience with GE's industrial businesses, and seven years of international investment and private equity experience with GE Capital. He has had responsibility for over a \$1 billion in merger and acquisition and private equity transactions at GE. Mr. Dwight initiated GE Capital's entry in the Asia private equity market. Between 1995 and 1999, the Asian equity portfolio grew to include consolidations, leveraged buyouts, growth capital and minority investments in diverse

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

industries, including information technology, telecommunications services, consumer products, services and distribution, and contract manufacturing. Since 1982, Mr. Dwight has held other leadership positions domestically and internationally with GE Capital, as well as senior positions with GE Corporate Business Development (1989-1992) and GE Corporate Audit Staff (1984-1987). Mr. Dwight holds an MBA in Finance and Marketing with Honors from The University of Chicago Graduate School of Business and a B.S. in Accounting with Honors from the University of Vermont and is a member of the Association of Heating, Ventilation, Air conditioning and Refrigeration Engineers, Inc. (ASHRAE).

16

Richard F. Tusing, 48, has served as a Director of Kronos since October 2000 and as a Director of Kronos Air Technologies since January 2001 and was appointed Chief Operating Officer on January 1, 2002. Mr. Tusing has had extensive experience in developing new enterprises, negotiating the licensing of intellectual property rights, and managing technical and financial organizations, and has more than 20 years of business development, operations, and consulting experience in the technology and telecommunications industries. Prior to his services to Kronos, Mr. Tusing spent four years in executive management with several emerging technology companies, 14 years in various managerial and executive positions with MCI Communications Corporation, and three additional years in managerial consulting. From 1982-1996, Mr. Tusing held multiple managerial and executive positions with MCI Communications Corporation. From 1994-1996, he served as MCI's Director of Strategy and Technology, managing MCI's emerging technologies division (having primary responsibility for evaluating, licensing, investing in, and acquiring third-party technologies deemed of strategic importance to MCI), and also oversaw the development of several early-stage and venture-backed software and hardware companies; in this capacity, Mr. Tusing managed more than 100 scientists and engineers developing state-of-the-art technologies. From 1992-1994, Mr. Tusing founded MCI Metro, MCI's entree into the local telephone services business and, as MCI Metro's Managing Director, managed telecommunications operations, developed financial and ordering systems, and led efforts in designing its marketing campaigns. From 1990-1992, he served as Director of Finance and Business Development for MCI's western region. From 1982-1990, Mr. Tusing held other management and leadership positions within MCI, including service as MCI's Pacific Division's Regional Financial Controller, Manager of MCI's Western Region's Information Technology Division, and led MCI's National Corporate Financial Systems Development Organization. Mr. Tusing received B.S. degrees in business management and psychology from the University of Maryland in 1979.

James P. McDermott, 43, became a Director of Kronos in July 2001. Mr. McDermott has over 20 years of financial and operational problem-solving experience. Mr. McDermott is a co-founder and is currently a Managing Director of Eagle Rock Advisors, LLC, the Manager for The Eagle Rock Group, LLC. From 1992 through 2000, Mr. McDermott held various managerial and executive positions with PennCorp Financial Group, Inc. and its affiliates. From 1998 through 2000, Mr. McDermott was Executive Vice-President and Chief Financial Officer of PennCorp Financial Group. While serving in this position, Mr. McDermott was one-third of the executive management team that was responsible for developing and implementing operational stabilization, debt reduction and recapitalization plans for the company. From 1995 through 1998, Mr. McDermott served as Senior Vice-President of PennCorp Financial Group. Mr. McDermott worked closely with the Audit Committee of the Board of Directors on evaluating the PennCorp's accounting and actuarial practices. In addition, Mr. McDermott was responsible for developing a corporate-wide technology management program resulting in technology convergence and cost savings to the company's technology budget. From 1994 through 1998, Mr. McDermott was a principal in Knightsbridge Capital Fund I, LP, a \$92 million investment fund specializing in leverage-equity

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

acquisitions of insurance and insurance-related businesses. Mr. McDermott was also the founding Chairman of the e-business Internet service provider, Kivex.com, and a senior manager of one of the world's leading public accounting firms, KPMG. Mr. McDermott received a B.S. Degree in Business Administration from the University of Wisconsin, Madison.

M. J. Segal, 60, became a Director of Kronos in September 2003. Mr. Mr. Segal has over 35 years of corporate governance, entrepreneurial and investment banking expertise. Mr. Segal founded the investment banking firm of M.J. Segal Associates in 1987. Since 1992, the firm has specialized in researching private equity opportunities in both private and emerging growth public companies. The Segal group caters primarily to institutional clients, private investment partnerships and professional money managers. After starting his career as a stockbroker and financial planner in 1966 with Philadelphia based New York Stock Exchange firm, Robinson & Company, Mr. Segal joined Josephthal & Co. Inc., a leading full-service investment banking and brokerage firm in New York. Mr. Segal has served as senior vice president of the congressionally chartered National Corporation for Housing Partnerships in Washington, D. C. and president of its investment banking subsidiary and has qualified as a NASD broker/dealer financial principal. Originally from Philadelphia, Mr. Segal attended the Wharton School of the University of Pennsylvania and is a graduate of The New York Institute of Finance.

DIRECTORS

Our Board of Directors consists of eight seats. Directors serve for a term of one year and stand for election at our annual meeting of stockholders. Three of our current directors were elected at our annual meeting of stockholders held on December 30, 2002, and two additional directors were appointed in August and September 2003, respectively. In April 2005, Spencer Browne, a Member of the Kronos Board of Directors passed away. Mr. Browne had served as a Board Member since August 2003. Four vacancies currently exist on the Board of Directors as of the date of this filing. Pursuant to our Bylaws, a majority of directors may appoint a successor to fill any vacancy on the Board of Directors.

ADVISORY BOARD

We established an Advisory Board in July 2001 to assist management in the development of long-range business plans for our Company. Currently, William Poster and Charles Strang are the only Advisory Board Members.

Mr. Poster is a seasoned entrepreneur with a successful track record as a founder of several businesses spanning five continents. Mr. Poster has experience in developing business opportunities in the United States, Europe, Asia and the Middle East. Mr. Poster recently stepped down as President of Computer Systems & Communications Corporation, a wholly-owned subsidiary of General Dynamics. Computer Systems & Communications Corporation is a cutting-edge communications and technology company that Mr. Poster founded and later sold to General Dynamics. Mr. Poster is currently a principal with Eagle Rock Advisors, LLC.

Mr. Strang is a former Kronos Director from January 2001 through December 2002. Mr. Strang was named National Commissioner of NASCAR (National Association for Stock Car Auto Racing, Inc.) in 1998 and continues to serve in that capacity. In 1989 Mr. Strang received President Bush's American Vocation Success Award; in 1992 was elected to the Hall of Fame of the National Marine Manufacturers Association; in 1990 was awarded the Medal of Honor of the Union for International Motorboating; and is a life member of the Society of Automotive

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Engineers. He also currently serves as a Director of the American Power Boat Association (the U.S. governing body for powerboat racing) and Senior Vice-President of the Union for International Motorboating (the world governing body for powerboat racing, with approximately 60 member nations).

We will continue to evaluate additional potential candidates for our Advisory Board.

COMMITTEES

On September 11, 2001, the Board of Directors established a Compensation Committee consisting of at least two independent members of the Board of Directors. The Compensation Committee is charged with reviewing and making recommendations concerning Kronos' general compensation strategy, reviewing salaries for officers, reviewing employee benefit plans, and administering Kronos' stock incentive plan, once adopted and implemented. Messrs. McDermott and Segal are the current members of the Compensation Committee. During the year the Compensation Committee held two meetings. Each member attended at least 75% of the meetings.

On September 4, 2003, the Board of Directors established an Executive Committee. The purpose of the Executive Committee is to exercise all the powers and authority of the Board of Directors in the management of the property, affairs and business of the Company. The Committee shall consist of no fewer than three members, including the Chief Executive Officer of the Company. Messrs. Dwight, McDermott, Segal and Tusing are the current members of the Executive Committee.

On September 10, 2003, the Board of Directors established an Audit Committee consisting of at least two independent members of the Board of Directors. The Audit Committee is charged with providing independent and objective oversight of the accounting functions and internal controls of the Company and its subsidiaries to ensure the objectivity of the Company's financial statements. Messrs. McDermott and Segal are the current members of the Audit Committee. During the year the Audit Committee held three meetings. Each member attended at least 75% of the meetings.

COMPENSATION OF DIRECTORS

Cash Compensation. Our Bylaws provide that, by resolution of the Board of Directors, each director may be reimbursed his expenses of attendance at meetings of the Board of Directors; likewise, each director may be paid a fixed sum or receive a stated salary as a director. As of the date of this filing, no director receives any salary or other form of cash compensation for such service.

18

Share Based Compensation. Each non-executive director is entitled to receive annually 70,000 fully-vested stock option grants, 7,000 stock option grants per meeting attended via conference call, 14,000 option grants per meeting attended in person, 3,500 option grants per meeting for participation on a committee or 5,000 stock option grants per meeting for chairing a committee, as compensation for their services as members of our Board of Directors. Effective August 6, 2003, executive directors, including Messrs. Dwight and Tusing are not be compensated separately for their services as members of our Board of Directors.

For the twelve month period ending June 30, 2005, Messrs. McDermott, Brown and Segal have earned 189,000, 154,000, and 189,000 stock options, respectively as compensation for their services as members of our Board of Directors.

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

For the twelve month period ending June 30, 2004, Messrs. McDermott, Brown and Segal have earned 243,000, 213,000, and 199,000 stock options, respectively as compensation for their services as members of our Board of Directors. Messrs. Tusing and Dwight have each been granted 5,068 shares of our common stock as compensation for their services as members of our Board of Directors during fiscal 2004.

COMPLIANCE WITH SECTION 16(A) OF THE SECURITIES ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who own more than 10% of a registered class of our equity securities to file with the Securities and Exchange commission initial reports of ownership and reports of changes in ownership of Common Stock and other of our equity securities. Officers, directors and greater than 10% stockholders are required by SEC regulations to furnish us copies of all Section 16(a) forms they file.

To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required during the fiscal year ended June 30, 2005, all Section 16(a) filing requirements applicable to our officers and directors were complied with.

ITEM 10. EXECUTIVE COMPENSATION

The following table sets forth compensation for the fiscal year ended June 30, 2005 for our executive officers:

SUMMARY COMPENSATION TABLE

STOCK OPTION PLAN

On February 12, 2002, the Board of Directors approved the TSET, Inc. Stock Option Plan under which Kronos' key employees, consultants, independent contractors, officers and directors are eligible to receive grants of stock options. Kronos has reserved and issued a total of 6,250,000 shares of common stock under the Stock Option Plan. It is presently administered by Kronos' Board of Directors. Subject to the provisions of the Stock Option Plan, the Board of Directors has full and final authority to select the individuals to whom options will be granted, to grant the options and to determine the terms and conditions and the number of shares issued pursuant thereto.

EMPLOYMENT AGREEMENTS

Daniel R. Dwight, our President and Chief Executive Officer, and our Company entered into an Employment agreement effective as of November 15, 2001. The initial term of Mr. Dwight's Employment Agreement was for 2 years and will automatically renew for successive 1 year terms unless Kronos or Mr. Dwight provide the other party with written notice within 3 months of the end of the initial term or any subsequent renewal term. The Board of Directors renewed Mr. Dwight's Employment Agreement on August 13, 2003 and again on August 15, 2004 and August 15, 2005. Mr. Dwight's Employment Agreement provides for base cash compensation of \$180,000 per year. Mr. Dwight is eligible for annual incentive bonus compensation in an amount equal to Mr. Dwight's annual salary based on the achievement of certain bonus objectives. In addition, Kronos granted Mr. Dwight 1,000,000 immediately vested and exercisable, ten-year stock options at various exercise prices. Mr. Dwight will be entitled to fully participate in any and all 401(k), stock option, stock bonus, savings, profit-sharing, insurance, and other

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

similar plans and benefits of employment.

Richard F. Tusing, our Chief Operating Officer, and our Company entered into an Employment agreement effective as of January 1, 2003. The initial term of Mr. Tusing's Employment Agreement is for 2 years and will automatically renew for successive 1 year terms unless Kronos or Mr. Tusing provide the other party with written notice within 3 months of the end of the initial term or any subsequent renewal term. The Board of Directors renewed Mr. Tusing's Employment Agreement on October 1, 2004. Mr. Tusing's Employment Agreement provides for base cash compensation of \$160,000 per year. Mr. Tusing will be entitled to fully participate in any and all 401(k), stock option, stock bonus, savings, profit-sharing, insurance, and other similar plans and benefits of employment.

EXECUTIVE SEVERANCE AGREEMENTS

The Employment Agreement of Daniel R. Dwight, our Chief Executive Officer, provides that, upon the occurrence of any transaction as defined as a "change of control" of Kronos, Mr. Dwight shall receive his salary and benefits for a period of time that is the greater of (i) one year or (ii) the remainder of Mr. Dwight's employment term.

The Employment Agreement of Richard F. Tusing, our Chief Operating Officer, provides that, upon the occurrence of any transaction as defined as a "change of control" of Kronos that is not approved by the Board of Directors, Mr. Tusing shall receive his salary, pro-rata bonus and benefits for a period of time that is the greater of (i) one year or (ii) the remainder of Mr. Tusing's employment term.

As of the date of this filing, we have not adopted any separate executive severance agreements.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

PRINCIPAL STOCKHOLDERS

The following table presents certain information regarding the beneficial ownership of all shares of common stock at September 26, 2005 for each executive officer and director of our Company and for each person known to us who owns beneficially more than 5% of the outstanding shares of our common stock. The percentage ownership shown in such table is based upon the 78,030,202 common shares issued and outstanding at September 26, 2005 and ownership by these persons of options or warrants exercisable within 60 days of such date. Also included is beneficial ownership on a fully diluted basis showing all authorized, but unissued, shares of our common stock at September 26, 2005 as issued and outstanding. Unless otherwise indicated, each person has sole voting and investment power over such shares.

NAME AND ADDRESS -----	COMMON STOCK BENEFICIALLY OWNED	
	NUMBER	PERCENT
-----	-----	-----
Cornell Capital Partners, LP 101 Hudson Street - Suite 3700 Jersey City, NJ 07302	7,600,000	9.7%
Daniel R. Dwight 464 Common Street Suite 301 Belmont, MA 02478	5,988,132 (1)	7.7%

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3

Richard F. Tusing 464 Common Street Suite 301 Belmont, MA 02478	3,647,708 (2)	4.7%
James P. McDermott 464 Common Street Suite 301 Belmont, MA 02478	797,077 (3)	1.0%
Milton M. Segal 464 Common Street Suite 301 Belmont, MA 02478	388,000 (4)	0.5%
All Officers and Directors of Kronos	18,420,917 (5)	23.6%

(1) Includes options to purchase 4,786,206 shares of common stock that can be acquired within sixty days of September 26, 2005. (2) Includes options to purchase 2,794,956 shares of common stock that can be acquired within sixty days of September 26, 2005. (3) Includes options to purchase 502,959 shares of common stock that can be acquired within sixty days of September 26, 2005. (4) Includes options to purchase 388,000 shares of common stock that can be acquired within sixty days of September 26, 2005. (5) Includes options to purchase 8,472,121 shares of common stock that can be acquired within sixty days of September 26, 2005.

We are unaware of any arrangement or understanding that may, at a subsequent date, result in a change of control of our Company.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We believe that all prior related party transactions have been entered into upon terms no less favorable to us than those that could be obtained from unaffiliated third parties. Our reasonable belief of fair value is based upon proximate similar transactions with third parties or attempts to obtain the consideration from third parties. All ongoing and future transactions with such persons, including any loans or compensation to such persons, will be approved by a majority of disinterested members of the Board of Directors.

On March 31, 2004, we entered into Promissory Notes with Daniel R. Dwight and Richard F. Tusing in exchange for past due compensation, expenses and interest due and payable for \$363,139 and \$485,883. The Notes bear a simple interest rate 1% per month and call for aggregate monthly principal and interest payments \$6,718 and \$8,989, respectively, for each month in which the Company's beginning cash balance equals or exceeds \$200,000. Subject to certain conditions, including default, these notes become payable in full. In the event of a debt or equity financing, 20% of the proceeds derived from the financing will be used to pay down the outstanding interest and principal obligations. As a result of the Cornell Capital financing, the Notes are due and payable in full. As of June 30, 2005, \$679,000 had been paid under the terms of the Notes.

ITEM 14. PRINCIPAL ACCOUNTANT AND SERVICES

The firm Sherb & Co. LLP, independent registered public accounting firm, has audited our financial statements for the year ended June 30, 2005. The Board of Directors has appointed Sherb & Co. LLP to serve as our independent registered public accounting firm for the 2004 year-end audit and to review our quarterly financial reports for filing with the Securities and Exchange Commission during fiscal year 2005.

The following table shows the fees paid or accrued by us for the audit and other services provided by Sherb & Co. LLP for fiscal year 2005 and 2004.

	June 30, 2005	June 30, 2004
Audit Fees(1)	\$ 62,500	\$ 61,000
Audit-Related Fees	14,165	1,710
Total	\$ 76,665	\$ 62,710

(1) Audit fees represent fees for professional services provided in connection with the audit of our annual financial statements and review of our quarterly financial statements and audit services provided in connection with other statutory or regulatory filings

Edgar Filing: KRONOS ADVANCED TECHNOLOGIES INC - Form 424B3
