On December 5, 2002, our subsidiary, Comverge Technologies, Inc., closed a three-year \$2 million secured revolving line of credit from Laurus Master Fund, Ltd. The available line of credit will be based on Comverge's accounts receivables and inventory, and will be secured by all of the assets of Comverge and by the accounts receivables of our subsidiary, Databit, Inc. We have guaranteed the repayment of any advances and payment of fees under the line of credit.

In addition, Laurus may convert up to an aggregate of \$600,000 of the line of credit into shares of our common stock at a fixed conversion price of \$1.50. We also issued a five-year warrant, exercisable in three tranches at exercise prices ranging from \$2.00 to \$3.34 per share. Under the terms of the agreements, Laurus cannot to sell any DSSI shares issuable upon conversion of the line of credit or upon exercise of the warrants before June 5, 2003.
