Company Press Release

NOVA ANNOUNCES RECORD NET INCOME IN THE THIRD QUARTER OF 2009

*64% sequential revenue increase to \$11.4 million and record quarterly net income of \$1.7 million;
Company expects trend to continue*

Rehovot, Israel November 3, 2009 Nova Measuring Instruments Ltd. (Nasdaq: NVMI), provider of leading edge stand alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, today reported its 2009 third quarter financial results.

Highlights for the Third Quarter of 2009

Total revenues of \$11.4 million, up 64% sequentially and 29% from the third quarter of 2008

Gross margins of 48%, up from 41% in the second quarter of 2009 and 24% in the third quarter of 2008

Record high quarterly GAAP net income of \$1.7 million, or \$0.08 per diluted share

Continued market share gains

2009 Third Quarter Results

Total revenues for the third quarter of 2009 were \$11.4 million, an increase of 29% relative to the third quarter of 2008, and an increase of 64% relative to the second quarter of 2009.

Edgar Filing: NOVA MEASURING INSTRUMENTS LTD - Form 6-K

Gross margin for the third quarter of 2009 was 48%, compared with 24% in the third quarter of 2008 and 41% in the second quarter of 2009.

Operating expenses in the third quarter of 2009 were \$4.0 million, compared with \$4.7 million in the third quarter of 2008, and \$3.0 million in the second quarter of 2009.

On a GAAP basis, the company reported record net income of \$1.7 million in the third quarter of 2009, or \$0.08 per diluted share. This compares to a GAAP net loss of \$2.6 million, or \$0.14 per share, for the third quarter of 2008, and a net loss of \$0.1 million for the second quarter of 2009.

On a non-GAAP basis, which excludes stock-based compensation and inventory write-off charges, the company reported record net income of \$1.8 million in the third quarter of 2009, or \$0.09 per diluted share. This compares with a non-GAAP net loss of \$1.7 million, or \$0.09 per share, in the third quarter of 2008, and breakeven results in the second quarter of 2009.

The company generated \$1.9 million in cash from operating activities during the third quarter of 2009. Total cash reserves increased to \$16.1 million at the end of the third quarter of 2009.

Management Comments

As anticipated, third quarter results showed excellent sequential improvement and a real turnaround compared to the third quarter of last year, commented Gabi Seligsohn, President and CEO of Nova. We doubled our gross margins and reported a swing of over \$4 million from a net loss of \$2.6 million in the third quarter of 2008 to a net profit of \$1.7 million in the third quarter of 2009, on improved revenues which grew 29%. In addition, our order patterns remain strong and we expect this trend to continue.

Looking forward, sales of both our Integrated and Stand Alone solutions are well-positioned for further growth, because they enable cost-effective migration to lower technology nodes, while still using existing process equipment. Another positive sign is that we have begun to receive orders related to capacity expansions, driven by consumer demand for mobile computing devices such as netbooks and high end cellular devices. Given the significant increase we are continuing to see in our bookings, we expect to continue and show strong financial performance in the coming quarters.

The Company will host a conference call today, November 3, 2009, at 8:30am ET. To participate, please dial in the US: 1-888-668-9141; or internationally: +972-3-918-0609. A recording of the call will be available on Nova's website, within 24 hours following the end of the call.

In addition, the conference call will also be webcast live from a link on Nova's website at www.nova.co.il.

This press release provides financial measures that exclude non-cash charges for stock-based compensation, inventory write-off and impairment charges and are therefore not calculated in accordance with generally accepted accounting principles (GAAP). Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Nova's performance because they reflect our operational results and enhances management's and investors' ability to evaluate Nova's performance before charges considered by management to be outside Nova's ongoing operating results.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management believes that it is in the best interest of its investors to provide financial information that will facilitate comparison of both historical and future results and allows greater transparency to supplemental information used by management in its financial and operational decision making. A reconciliation of each GAAP to non-GAAP financial measure discussed in this press release is contained in the accompanying financial tables.

About Nova

Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company's website is www.nova.co.il.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be

Edgar Filing: NOVA MEASURING INSTRUMENTS LTD - Form 6-K

materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward looking statements. These risks and other factors include but are not limited to: unanticipated consequences of the global economic crisis, our dependency on a single integrated process control product line; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; risks associated with our dependence on a single manufacturing facility; our ability to expand our manufacturing capacity or marketing efforts to support our future growth; our dependency on a small number of large customers and small number of suppliers; risks related to our intellectual property; changes in customer demands for our products; new product offerings from our competitors; changes in or an inability to execute our business strategy; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations; and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading *Risk Factors* in Nova's Annual Report on Form 20-F for the year ended December 31, 2008 filed with the Securities and Exchange Commission on March 30, 2009. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
