(Unaudited)

## NOTE 1 –BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of CMG Holdings, Inc. (“we”, “our” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes contained in its 2010 annual report on Form 10-K. In the opinion of management, these interim financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Our future results of operations may change materially from the historical results of operations reflected in our historical financial statements. The unaudited consolidated financial statements should be read in conjunction with the historical audited consolidated financial statements and footnotes of the Company and management’s discussion and analysis of financial condition and results of operations included in the Company’s Annual Report for the year ended December 31, 2010 as filed with the Securities and Exchange Commission on Form 10-K. Notes to the financial statements that would substantially duplicate the disclosure contained in the audited financial statements for fiscal year 2010, as reported in the Form 10-K, have been omitted.

## Principles of Consolidation

The consolidated financial statements include the accounts of CMG Holdings, Inc., CMG Acquisition, Inc., CMGO Capital, Inc., The Experiential Agency, Inc, Audio Eye, Inc., CMGO Logistics, Inc., Empire Technologies, LLC and Creative Management Group, Inc. after elimination of all significant inter-company accounts and transactions.

## Earnings per share

Basic earnings per share (“EPS”) is calculated by dividing net income available to common stockholders by the weighted average number of shares of the Company’s common stock outstanding during the period. Diluted EPS reflect the potential dilution that could occur if the Company’s share-based awards were exercised into common stock. The dilutive effect of our share-based awards is computed using the treasury stock method, which assumes all share-based awards are exercised and the hypothetical proceeds from exercise are used to purchase common stock at the average market price during the period. The incremental shares (difference between shares assumed to be issued versus purchased), to the extent they would have been dilutive, are included in the denominator of the diluted EPS calculation. The following represents a reconciliation of the numerators and denominators of the basic and diluted EPS computations:

	Three Months Ended June 30, 2011			Three Months Ended June 30, 2010

## Fair Value Measurements

As defined in ASC 820 “Fair Value Measurements”, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. The Company classifies fair value balances based on the observability of those inputs. ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy defined by ASC 820 are as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, marketable securities and listed equities.

Level 2 – Pricing inputs are other than quoted prices in active markets included in level 1, which are either directly or indirectly observable as of the reported date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Instruments in this category generally include non-exchange-traded derivatives such as commodity swaps, interest rate swaps, options and collars.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management’s best estimate of fair value.

The following table sets forth by level within the fair value hierarchy the Company’s financial assets and liabilities that were accounted for at fair value as of March 31, 2011. As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company’s assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

NOTE 2: EQUITY

Preferred Stock

Series B Preferred Stock and Inventory Purchase

On March 31, 2011 the Company acquired 20,000 cartoon animated cels (the “Cel Art”) from Continental Investments Group, Inc. (the “Agreement”). The Company issued 50,000 shares of its Series B Convertible Preferred Stock to Continental Investments Group, Inc. as consideration for the Cel Art, such shares of Series B Convertible Preferred Stock having a stated value per share of \$100. The Cel Art consists of collectible, hand-painted cartoon animation cels. The shares of Series B Preferred Stock are convertible into common shares of the Company at the stated value of \$100 per share divided by the volume weighted average trading price for the 30 days prior to conversion. The preferred shares are non-voting and do not receive dividends. The Company determined the fair value of the preferred stock to be \$3,240,502 on the acquisition date based on the number of shares of common stock the preferred shares could be converted into and the market price of the common stock on the agreement date. This amount was recorded as inventory in the consolidated balance sheet as of June 30, 2011.

The cartoon animated cels are valued at the lower of cost or market. Management will writes down the inventories to market value if it is below cost. The Company also analyzed the embedded conversion option for derivative accounting consideration under ASC 815-15 “Derivatives and Hedging” and determined that the conversion option should be classified as equity.

Series A Preferred Stock Issuance and Rescission

On March 31, 2011 the Company approved the issuance of 51 shares of preferred stock designated as Series A Convertible Preferred Stock (the “Series A Preferred Stock”) to three officers of the Company in consideration for the officers forgiving \$300,000 of accrued salaries. Each share of Series A Preferred Stock is convertible into 1% of the Company’s common stock. The number of votes for the Series A Preferred Stock shall be the same number as the amount of shares of Common Stock that would be issued upon conversion. The Series A Preferred Stock is not entitled to dividends or preference upon liquidation.

On May 16, 2011 the Company rescinded the above agreement with an effective date of March 31, 2011. There are no shares of Series A Preferred Stock issued or outstanding as June 30, 2011. There was no impact to the consolidated financial statements as a result of the above issuance and rescission.

Common Stock:

Garlette LLC

On January 6, 2011 the Company assigned \$50,000 of debt owed to Morgan Stanley Smith Barney to Garlette, LLC. On the same date, the Company amended the assigned debt to add a conversion feature. The new note was convertible at 25% of the average of the five lowest closing prices for the Company's stock during the previous 30 trading days. The Company analyzed the conversion option for derivative accounting consideration under ASC 815-15 “Derivatives and Hedging” and determined that the embedded conversion feature should be classified as a liability due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The embedded conversion feature was measured at fair value at inception and on the date of conversion (see below) with the change in fair value recorded to earnings. The addition of the embedded conversion option resulted in a full

discount to the note of \$50,000 on January 6, 2011. See Note 4 for additional information on the derivative liability.

\$25,000 of the note was converted on January 7, 2011 into 357,143 shares of common stock. The remaining \$25,000 was converted on January 18, 2011 into 357,143 shares of common stock. As a result of the conversion, the entire discount of \$50,000 was amortized to interest expense during the six months ended June 30, 2011.

American Settlement LLC

On February 17, 2011 the Company assigned \$25,000 of debt owed to Morgan Stanley Smith Barney to American Settlements, LLC. On the same date, the Company issued 548,246 shares of common stock with a fair value of \$98,684 to settle the note. The difference between the fair value of the common stock and the debt was recorded as a loss on settlement of debt during the three months ended March 31, 2011. On March 21, 2011 the company assigned 25,000 of debt owed to Morgan Stanley Smith Barney to American Settlements, LLC. On the same date, the Company issued 735,835 shares of common stock with a fair value of \$99,338 to settle the note. The difference between the fair value of the common stock and the debt was recorded as a loss on settlement of debt during the six months ended June 30, 2011.

Aware Capital Consultants, Inc.

On April 18, 2011, the Company assigned \$41,398 of its accounts payable from a third party to Aware Capital Consultants, Inc. On May 6, 2011 the Company modified \$20,000 of the payables into a convertible debenture. On the same date, the Company issued 655,737 shares of common stock with a fair value of \$49,180 to settle the note. On May 24, 2011 the Company modified the remaining payables of \$21,398 into a convertible debenture. On the same date, the Company issued 1,426,553 shares of common stock with a fair value of \$85,592 to settle the note. The difference between the fair value of the common stock and the debt was recorded as a loss on settlement of debt during the six months ended June 30, 2011.

Connied, Inc.

On April 11, 2011 the Company assigned \$135,000 of its account payable from a third party to Connied, Inc. On May 3, 2011, the Company amended the assigned account payable to add a conversion feature. The new note was convertible at 50% of the average of the five lowest closing prices for the Company's stock during the previous 30 trading days. On the same date, the Company issued 1,388,889 shares of common stock with a fair value of \$97,222 to settle \$50,000 of the note. The difference between the fair value of the common stock and the debt was recorded as a loss on settlement of debt during the six months ended June 30, 2011. The remaining balance of \$85,000 was recorded as short term debt in the consolidated balance sheet as of June 30, 2011. The note bears interest at 20% and is due on May 2, 2013.

The Company analyzed the conversion option for derivative accounting consideration under ASC 815-15 "Derivatives and Hedging" and determined that the embedded conversion feature should be classified as a liability due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The embedded conversion feature was measured at fair value at inception and on the date of conversion (see below) with the change in fair value recorded to earnings. The addition of the embedded conversion option resulted in a full discount to the note of \$85,000 on May 3, 2011. The discount will be amortized over the term of the note to interest expense. As of June 30, 2011, \$11,712 of the discount had been amortized to interest expense. See Note 4 for additional information on the derivative liability.

Shares Issued for Services

During the six months ended June 30, 2011, a total of 658,333 shares were issued to six individuals for services provided by third parties over a period of one year and were valued at \$41,137.

### Shares and Warrants Issued for Cash

During the six months ended June 30, 2011, eight individuals purchased 1,870,000 shares of common stock, 374,000 A Warrants and 374,000 B Warrants for \$157,000. The A Warrants are exercisable at a strike price of \$0.25 for three years, and the B Warrants are exercisable at a strike price of \$0.50 for three years. The Company can call each of the Warrants after twelve months if the price of the Common Shares of the Company in the Market is 150% of the Warrant strike price for 10 consecutive days.

A summary of warrant activity for the six months ended June 30, 2011 is as follows:

### NOTE 3: Notes Payable

#### Asher Enterprises, Inc.

On March 15, 2011 the company issued a convertible promissory note for \$75,000 to Asher Enterprises, Inc. The note bears interest at 8% and is due on December 17, 2011. The convertible promissory note calls 4,510,826 shares to be reserved for issuance upon conversion of the note and any amount not paid by December 17, 2011 will incur a 22% interest rate. The note is convertible at 58% of the average of the lowest three trading prices for the Company's common stock during the ten trading day period prior to the conversion date.

The Company analyzed the conversion option for derivative accounting consideration under ASC 815-15 "Derivatives and Hedging" and determined that the instrument should be classified as liabilities due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The instrument is measured at fair value at the end of each reporting period or termination of the instrument with the change in fair value recorded to earnings. The fair value of the embedded conversion option resulted in a full discount to the note on March 15, 2011 of \$75,000. The discount will be amortized over the term of the note to interest expense. As of June 30, 2011, \$29,167 of the discount had been amortized to interest expense. See Note 4 for additional information on the derivative liability.

#### CMGO Investors, LC

During year ended December 31, 2010, the Company borrowed \$1,075,000 under five 13% convertible notes from third parties that will mature on July 1, 2011. The notes are convertible into common shares at any time after the

maturity date at \$0.10 per share. The Company has exercised the option to extend the maturity date of the notes for three months by paying an extension fee of 5% of the principal amount. During the six months ended June 30, 2011, the Company amortized \$67,063 of the original discount recorded on these notes and \$68,292 of the original deferred financing costs to interest expense.

The note agreements have various covenants. The agreements require the purchaser provide the Company with notice and a cure period of 10 days prior to an event qualifying as an event of default under the agreement. The agreements require a) the Company within 90 days after the close of each fiscal year of the Company, deliver to the note holders the balance sheet of the Company as of the end of such fiscal year and the related statements of income and retained earnings and statement of cash flows for such fiscal year certified by an independent registered accounting firm of recognized national standing, accompanied by an opinion of such accounting firm (which opinion shall be without any qualification or exception as to scope of audit) stating that in the course of its regular audit of the financial statements of the Company, which audit was conducted in accordance with GAAP, such accounting firm obtained no knowledge of any Default or an Event of Default relating to financial or accounting matters which has occurred and is continuing or, if in the opinion of such accounting firm such a Default or an Event of Default has occurred and is continuing, a statement as to the nature thereof, and management's discussion and analysis of the important operational and financial developments during such fiscal year. The timely public filing of the items described on EDGAR shall satisfy the delivery requirement under this provision but only with respect to the financial statements but not the opinion of the independent registered public accounting firm; and b) the Company deliver written Notice to the Purchaser within three Business Days after any Officer of the Company has knowledge of the occurrence of any event that, with the giving of notice or the lapse of time or both, would become an Event of Default under the agreement. As of August 22, 2011, the Company has not delivered to the purchaser the aforementioned information under a) or notice under b). As of August 22, 2011, the Company has not received notice of default from the purchaser.

NOTE 4: Derivative Liabilities

Garlette LLC

As discussed in Note 2, the Company determined that the instruments embedded in the convertible note should be classified as liabilities and recorded at fair value due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The fair value of the instruments was determined to be \$246,314 using the Black-Scholes option pricing model. Because the number of shares to be issued upon settlement cannot be determined under this instrument, the Company cannot determine whether it will have sufficient authorized shares at a given date to settle any other of its share-settleable instruments. As a result of this, under ASC 815-15 “Derivatives and Hedging”, all other share-settleable instruments must be reclassified from equity to liabilities. The company had conversion options embedded in related parties notes payable agreements and accrued expenses and 398,000 warrants to purchase the Company’s common stock that were classified in equity as of the date that the Company entered in to the convertible note. The fair value of these instruments on January 7, 2011 was \$7,969,599 of which \$7,723,285 was reclassified to liabilities, \$50,000 recorded as debt discount and \$196,314 was recognized as loss on derivatives.

As a result of the note conversion in January 2011, under ASC 815-15 “Derivatives and Hedging”, the instrument is measured at fair value at the date of termination with the change in fair value recorded to earnings. The fair value of these instruments on January 18, 2011 was \$7,923,055 and this value was reclassified out of liabilities to equity and \$46,544 was recognized as a gain on derivatives during the six months ended June 30, 2011.

Asher Enterprises, Inc.

As discussed in Note 3, the Company determined that the instruments embedded in the convertible note should be classified as liabilities and recorded at fair value due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The fair value of the instruments was determined to be \$85,106 using the Black-Scholes option pricing model. Because the number of shares to be issued upon settlement cannot be determined under this instrument, the Company cannot determine whether it will have sufficient authorized shares at a given date to settle any other of its share-settleable instruments. As a result of this, under ASC 815-15 “Derivatives and Hedging”, all other share-settleable instruments must be reclassified from equity to liabilities. The company had conversion options embedded in related parties notes payable agreements and accrued expenses and 948,000 warrants to purchase the Company common stock that were classified in equity as of the date that the Company entered in to the convertible note. The fair value of these instruments on March 15, 2011 was \$3,245,833 of which \$3,160,727 was reclassified to liabilities, \$75,000 recorded as debt discount and \$10,106 was recognized as loss on derivatives.

Under ASC 815-15 “Derivatives and Hedging” the liabilities were subsequently measured at fair value at the end of each reporting period with the change in fair value recorded to earnings. The fair value of these instruments on June 30, 2011 was \$599,224 and \$2,646,609 was recognized as gain on derivative.

Under ASC 815-15 “Derivatives and Hedging”, due to the convertible note – Asher Enterprises, Inc. remain outstanding as of June 30, 2011, all other share-settleable instruments that are issued subsequently should be classified as a liability due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The Company performed an analysis and determined all the following instruments should be classified as liabilities:

(1) Warrants

On May 20, 2011, 25,000 A Warrants and 25,000 B Warrants were issued to an individual in addition to shares purchase for cash as described in Note 2. The A Warrants are exercisable at a strike price of \$0.25 for three years, and the B Warrants are exercisable at a strike price of \$0.50 for three years. The fair value of the instruments was determined to be \$2,451 using the Black-Scholes option pricing model.

Under ASC 815-15 "Derivatives and Hedging" the liabilities were subsequently measured at fair value at the end of each reporting period with the change in fair value recorded to earnings. The change in fair value of these instruments on June 30, 2011 was \$1,364 and \$1,087 was recognized as gain on derivative.

NOTE 5: Legal Proceedings

We are subject to certain claims and litigation in the ordinary course of business. It is the opinion of management that the outcome of such matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

In February, 2011, the Company was served with a lawsuit filed by a former employee in the United States District Court for the Southern District of Florida. The complaint alleges breach of employee contract and entitlement to additional equity in the Company. The Company disagrees with the allegations contained in the Complaint and intends to vigorously defend the matter and otherwise enforce its rights with respect to the matter. The Company has retained counsel and is prepared to defend this lawsuit. A motion to dismiss the complaint has been filed and said motion is presently pending a ruling by the Court. The Company believes that all of the employee's claims are frivolous or are barred pursuant to the terms of the contract or various releases executed in favor of the Company by the employee. The Company intends to seek damages against the former employee regarding breach of his employment agreement, his non-compete agreements and other causes of action. The case is still ongoing and the matter remains unresolved.

On April 21, 2011, the Company was served with a lawsuit that was filed in Clark County, Nevada against the Company by A to Z Holdings, LLC and seven other individuals or entities. The complaint alleges, among other things, that the Company's Board of Directors did not have the power to designate series A and B preferred stock without amending the articles of incorporation. The complaint also alleges any such amendment would require shareholder approval and filing of a proxy statement. The company has retained counsel in Nevada to represent it in this matter and intends to vigorously defend same. The Company believes that most, if not all, of the allegations contained in the lawsuit are moot and/or not actionable and further believes that the Plaintiffs lack standing to pursue their claim against the company. The Company, through counsel, is in the process of conducting discovery to ascertain the validity of the Plaintiffs' claims and their standing to bring this lawsuit and, upon completion of discovery, will file appropriate pleadings with the Nevada court to attempt to have the complaint, as filed, dismissed.

On July 6, 2011, the Company was served with a lawsuit filed in the Circuit Court for the County of Multnomah, Oregon. The complaint alleges breach of contract and entitlement to consulting fees from the Company. The Company disagrees with the allegations contained in the Complaint and intends to vigorously defend the matter and otherwise enforce its rights with respect to the matter. The Company has retained counsel and is prepared to defend this lawsuit. The Company believes that the claims are frivolous pursuant to the terms of the contract. The case is still ongoing and the matter remains unresolved.

Management believes the likelihood of a loss in any of the pending litigations is remote.

Cash used in investing activities for the six months ended June 30, 2010 was \$38,070 as compared cash used in investing activities of \$441 for the six months ended June 30, 2011. For the six months ended June 30, 2011, the cash invested of \$441 resulted from acquisition of fixed assets.

Cash provided by financing activities for the for the six months ended June 30, 2010 was \$917,793, as compared to \$1,005,429 provided for the six months ended June 30, 2011. The increase during the six months ended June 30, 2011, was primarily due to the company's borrowings from related parties of \$804,249, borrowings from third parties of \$75,000 and increased cash from sale of restricted common stock to third parties by \$157,000 which were only offset by \$50,000 in repayments.

## SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth as of August 22, 2011, information with respect to the beneficial ownership of the Company's Common Stock by (i) each person known by the Company to own beneficially 5% or more of such stock, (ii) each Director of the Company who owns any Common Stock, and (iii) all Directors and Officers as a group, together with their percentage of beneficial holdings of the outstanding shares. The information presented below regarding beneficial ownership of our voting securities has been presented in accordance with the rules of the Securities and Exchange Commission and is not necessarily indicative of ownership for any other purpose. Under these rules, a person is deemed to be a "beneficial owner" of a security if that person has or shares the power to vote or direct the voting of the security or the power to dispose or direct the disposition of the security. A person is deemed to own beneficially any security as to which such person has the right to acquire sole or shared voting or investment power within 60 days through the conversion or exercise of any convertible security, warrant, option or other right. More than one person may be deemed to be a beneficial owner of the same securities. The percentage of beneficial ownership by any person as of a particular date is calculated by dividing the number of shares beneficially owned by such person, which includes the number of shares as to which such person has the right to acquire voting or investment power within 60 days, by the sum of the number of shares outstanding as of such date plus the number of shares as to which such person has the right to acquire voting or investment power within 60 days. Consequently, the denominator used for calculating such percentage may be different for each beneficial owner. Except as otherwise indicated below and under applicable community property laws, we believe that the beneficial owners of our common stock listed below have sole voting and investment power with respect to the shares shown.

## SECURITY OWNERSHIP OF MANAGEMENT:

Title of Class	Name	Shares	Percent
Common Stock	Alan Morell	10,107,000	13.2%
Common Stock	James J. Ennis	3,500,000	4.6%
Common Stock	Michael Vandetty	1,000,000	1.3%
All Directors and Executive Officers		14,607,000	19.1%

These tables are based upon 66,201,021 shares outstanding as of August 22, 2011 and information derived from our stock records. Unless otherwise indicated in the footnotes to these tables and subject to community property laws where applicable, we believe unless otherwise noted that each of the shareholders named in this table has sole or shared voting and investment power with respect to the shares indicated as beneficially owned.

- (1) Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and includes voting and investment power with respect to shares. Unless otherwise indicated, the persons named in the table have sole voting and sole investment control with respect to all shares beneficially owned, subject to community property laws where applicable. The number and percentage of shares beneficially owned are based on 76,284,347 shares of common stock outstanding. The address for those individuals for which an address is not otherwise indicated is: c/o CMG Holdings, Inc., 5601 Biscayne Boulevard, Miami, Florida 33137, USA.
- (2) Mr. Morell owns 3,500,000 shares of The Company directly, and is the beneficial owner of additional 6,607,000 shares owned by Commercial Rights Intl Corp. for a total of 10,107,000 shares.

(3) Mr. Ennis owns 1,500,000 shares of The Company directly, and is the beneficial owner of an additional 2,000,000 shares owned by Hastings Creek Group, Inc. for a total of 3,500,000 shares.

### ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK FACTORS

#### CURRENT ECONOMIC CONDITIONS AND THE GLOBAL FINANCIAL CRISIS MAY HAVE AN IMPACT ON OUR BUSINESS AND FINANCIAL CONDITION IN WAYS THAT WE CURRENTLY CANNOT PREDICT

The global economy has experienced a significant contraction, with an unprecedented lack of consumer credit within the credit markets and the shift away from discretionary spending within the marketing, communications. The decrease in the economic activity in the United States and in the commercial sectors in which we conduct business could adversely affect our financial condition and results of operations. Continued tightness within the credit markets, volatility, instability and economic weakness of our clients marketing budgets and decrease in discretionary consumer spending associated with our clients business spending may result in a reduction in our revenues.

#### BUSINESS COULD BE ADVERSELY AFFECTED IF IT LOSES KEY CLIENTS AND KEY MANAGEMENT

The Company's loss of one or more significant clients could materially affect results of the Company on a consolidated basis. Our Management is critically important to ongoing results of the Company because, as in any service business, success of the Company is mainly dependent upon the leadership of key executives and management. If key executives were to leave any of our operating divisions, the relationships that the Company has with its clients could be adversely affected.

#### COMPETITION FOR CLIENTS IN HIGHLY COMPETITIVE INDUSTRIES

The Company operates in a very competitive industry characterized by numerous firms of varying sizes, with no group of firms having dominant positions in the marketplace. Competitive factors include creative expertise, executive management's, personal relationships, quality and reliability of service and expertise in particular niche areas of the marketplace. In addition, our company's principal asset is its people, barriers to entry are minimal, and relatively small firms may be on occasion able to take some portion of a client's business from a larger competitor. While many of the Company's client relationships are long-standing, clients may at times place their marketing services businesses up for competitive review from time to time, including at times when clients enter into strategic transactions. To the extent that the Company fails to maintain existing clients or attract new clients, the Company's business, financial condition and operating results may be affected in a materially adverse manner.

#### ABILITY TO GENERATE NEW BUSINESS FROM NEW AND EXISTING CLIENTS MAY BE LIMITED

To increase revenues, the Company needs to obtain additional clients, generate demand for additional services from existing clients and partner with external marketing firms to mutually service as single or multiple of clients. The company's ability to generate demand for its services from new clients, additional demand from existing clients partner with external marketing firms to mutually service as single or multiple of clients is subject to clients' requirements, pre-existing vendor relationships, financial condition, strategic plans and internal resources, as well as the quality of the Company's employees, services and reputation and the breadth of its services. To the extent the Company cannot generate new business from new and existing clients due to these limitations; it will limit the Company's ability to grow its business and to increase its revenues.

#### REVENUES ARE SUSCEPTIBLE TO DECLINES AS A RESULT OF GENERAL ADVERSE ECONOMIC DEVELOPMENTS

The marketing communications services industry is cyclical and is subject to the negative effects of economic downturns. The Company's marketing services operations are also exposed to the risk of clients changing their

business plans and/or reducing their marketing budgets. As a result, if the U.S. markets and economies continue to weaken, our businesses, financial condition and gross revenues are likely to be negatively affected may be suspect to declines from quarter to quarter or from year to year.

#### **BENEFITS EXPECTED FROM CURRENT ACQUISITION OR PRIOR ACQUISITIONS MADE IN THE FUTURE MAY NOT BE REALIZED**

The Company's business strategy includes ongoing efforts to engage in material acquisitions of ownership interests in entities in the marketing communications services industry. The Company intends to finance these acquisitions by using any available cash from operations, through incurrence of debt or bridge financing or by issuing equity, which may have a dilutive impact on its existing shareholders. At any given time the Company may be engaged in a number of discussions that may result in one or more material acquisitions. These opportunities require confidentiality and may involve negotiations that require quick responses by the Company. Although there is uncertainty that any of these discussions will result in definitive agreements or the completion of any transactions, the announcement of any such transaction may lead to increased volatility in the trading price of its securities.

The success of acquisitions or strategic investments depends on the effective integration of newly acquired businesses into the Company's current operations. Such integration is subject to risks and uncertainties, including realization of anticipated synergies and cost savings, the ability to retain and attract personnel and clients, the diversion of management's attention from other business concerns, and undisclosed or potential legal liabilities of the acquired company. The Company may not realize the strategic and financial benefits that it expects from any of its past acquisitions, or any future acquisitions.

#### **BUSINESS COULD BE ADVERSELY AFFECTED IF IT LOSES OR FAILS TO ATTRACT KEY EMPLOYEES**

Our executive management and our employees, including creative, research, media, account and their skills and relationships with clients, are among the Company's most critically important assets. An important aspect of the Company's competitiveness is its ability to retain key employee and executive management. The compensation for these key employees is an essential factor in attracting and retaining them and the Company may not offer a level of compensation sufficient to attract and retain these key employees. If the Company fails to hire and retain a sufficient number of these key employees, it may not be able to compete effectively.

#### **BUSINESS EXPOSED TO THE RISK OF CLIENT MEDIA ACCOUNT DEFAULTS**

The Company often incurs expenses on behalf of its clients in order to secure a variety of opportunities in exchange for which it receives a fee. While the Company acts to prevent against default on payment for these services and have historically had a very low incidence of default, the Company is still exposed to the risk of significant uncollectible receivables from our clients.

#### **SUBJECT TO REGULATIONS THAT COULD RESTRICT ITS ACTIVITIES OR NEGATIVELY IMPACT ITS REVENUES**

Marketing communications businesses are subject to government regulation, both domestic and foreign. There has been an increasing tendency in the United States on the part of advertisers to resort to litigation and self-regulatory bodies to challenge comparative advertising on the grounds that the advertising is false and deceptive. Moreover, there has recently been an expansion of specific rules, prohibitions, media restrictions, labeling disclosures and warning requirements with respect to advertising for certain products. Representatives within government bodies, both domestic and foreign, continue to initiate proposals to ban the advertising of specific products and to impose taxes on or deny deductions for advertising which, if successful, may have an adverse effect on advertising expenditures and consequently the Company's revenues.

#### **THE RESULTS OF OPERATIONS ARE SUBJECT TO CURRENCY FLUCTUATION RISKS**

Although the Company's financial results are reported in U.S. dollars, a portion of its revenues and operating costs may be denominated in currencies other than the US dollar. As a result, fluctuations in the exchange rate between the U.S. dollar and other currencies, may affect the Company's financial results and competitive position.

**COMPANY DIRECTORS AND EXECUTIVE OFFICERS BENEFICIALLY OWN A SUBSTANTIAL PERCENTAGE OF THE COMPANY'S OUTSTANDING COMMON STOCK, WHICH GIVES THEM CONTROL OVER CERTAIN MAJOR DECISIONS ON WHICH STOCKHOLDERS MAY VOTE, WHICH MAY DISCOURAGE AN ACQUISITION OF THE COMPANY**

In the aggregate, the directors and executive officers as a group collectively own approximately 19% of the Company's outstanding shares. The interests of the Company's management may differ from the interests of other stockholders and as a result, the Company's executive management may have the ability to control virtually all corporate actions requiring stockholder approval, irrespective of how the Company's other stockholders may vote, including electing or defeating the election of directors; amending or preventing amendment of the Company's certificate of incorporation or bylaws; effecting or preventing a merger, sale of assets or other corporate transaction; and controlling the outcome of any other matter submitted to the stockholders for vote. The Company's management's stock ownership may discourage a potential acquirer from seeking to acquire shares of the Company's common stock or otherwise attempting to obtain control of the Company, which in turn could reduce the Company's stock price or prevent the Company's stockholders from realizing a premium over the Company's stock price.

## OUTSTANDING INDEBTEDNESS; SECURITY INTEREST AND UNREGISTERED SALES OF EQUITY SECURITIES

On April 1, 2010, the Company entered into a Note Purchase Agreement with CMGO Investors, LLC, a Delaware limited liability company, providing for the sale and issuance of (i) \$725,000 of its 13% Senior Secured Convertible Extendible Notes due 2011 and (ii) warrants to purchase 3,625,000 shares of the Company's Common Stock. The Note bears interest at a rate of 13% per annum payable quarterly. The entire amount of the Note, together with all accrued but unpaid interest thereon, is due and payable in full on July 1, 2011; provided that, so long as there is no continuing Event of Default, the Company may in its sole discretion extend the Maturity Date for a period of three months by paying an extension fee equal to 5% of the principal amount of the outstanding Notes. In the event of Default on the Note, the Note shall bear interest at the rate per annum equal to 18%. The Notes rank senior in right of payment with all indebtedness of the Company, whether currently existing or issued in the future. The Notes are secured by a security interest in all of the assets of the Company and the Company's subsidiaries pursuant to a Security Agreement and Subsidiary Guarantee. The Notes are convertible into shares of Common Stock of the Company at any time after the Maturity Date at an initial conversion price of \$0.10 per share. The warrants are exercisable for seven years at an exercise price of \$0.10 per share. The conversion price of the Notes and the exercise price of the warrants will be adjusted in connection with stock splits, dividends, mergers, reclassifications and similar transactions. In addition, if at any time the closing market price of the Common Stock is less than the conversion price or exercise price for a period of 90 consecutive trading days, then the conversion price or exercise price in effect shall be reduced to the closing market price of the Common Stock on such 90th trading day; provided that in no event shall the conversion price or exercise price be reduced to less than \$0.07 per share pursuant to this provision. The investors also received certain registration rights pursuant to a Registration Rights Agreement. In connection with this transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 942,500 shares of Common Stock. The sale of securities discussed above was made solely to accredited investors and was exempt from registration under Section 4(2) and/or Rule 506 of Regulation D of the Securities Act of 1933, as amended.

#### SPINOUT OF SUBSIDIARIES

On June 22, 2011 the Company entered into a Master Agreement subject to shareholder approval as may be required under applicable law and subject to closing conditions with AudioEye Acquisition Corp., a Nevada corporation

pursuant to which the shareholders of AudioEye Acquisition Corp. will exchange 100% of the stock in AudioEye Acquisition Corp. for 80% of the capital stock of AudioEye, Inc. The Company will retain 15% of AudioEye Inc. subject to transfer restrictions in accordance with the Master Agreement. The Company will distribute to its shareholders on the closing date, in the form of a dividend, 5% of the capital stock of AudioEye, Inc. in accordance with provisions of the Agreement. AudioEye, Inc. will pay to the Company 10% of cash received from income earned, settlements or judgments directly resulting from the AudioEye, Inc. patent enforcement and licensing strategy whether received by, AudioEye, Inc. or any of its affiliates, net of any direct costs or tax implications incurred in pursuit of such strategy pertaining to the patents as fully described in the Agreement. AudioEye Inc. will enter into a consulting agreement with the Company whereby the Company will receive a commission of not less than 7.5% of all revenues received by AudioEye, Inc. after the closing date from all business, clients or other sources of revenue procured by the Company or its employees, officers or subsidiaries and directed to AudioEye, Inc. and 10% of net revenues obtained from a third party described in the agreement. AudioEye, Inc. will arrange the release of the obligations of the Company under outstanding 13% Senior Secured Convertible Extendable Notes due in 2011 with a current aggregate balance of \$1,075,000 pursuant to a novation or other form of release of such obligation which shall include a termination of any security interest on any post Spin Off assets of the Company. The Company believes that such a distribution, when combined with the other transactions contemplated in the Agreement, will allow AudioEye, Inc to raise capital and grow its business in such manner as it no longer can as a subsidiary of the Company, thus generating increased value for the Company's stockholders.

#### **PUBLIC COMPANY COMPLIANCE MAY MAKE IT MORE DIFFICULT TO ATTRACT AND RETAIN OFFICERS AND DIRECTORS**

The Sarbanes-Oxley Act of 2002 and new rules subsequently implemented by the SEC have required changes in corporate governance practices of public companies. As a public entity, the Company expects these new rules and regulations to increase compliance costs in 2011 and beyond and to make certain activities more time consuming and costly. As a public entity, the Company also expects that these new rules and regulations may make it more difficult and expensive for the Company to obtain director and officer liability insurance in the future and it may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for the Company to attract and retain qualified persons to serve as directors or as executive officers.

#### **THERE IS CURRENTLY NO LIQUID TRADING MARKET FOR THE COMPANY'S COMMON STOCK AND THE COMPANY CANNOT ENSURE THAT ONE WILL EVER DEVELOP OR BE SUSTAINED**

The Company's common stock is currently approved for quotation on the OTC Bulletin Board trading under the symbol CMGO.QB. However, there is limited trading activity and not currently a liquid trading market. There is no assurance as to when or whether a liquid trading market will develop, and if such a market does develop, there is no assurance that it will be maintained. Furthermore, for companies whose securities are quoted on the Over-The-Counter Bulletin Board maintained by the National Association of Securities Dealers, Inc. (the "OTCBB"), it is more difficult (1) to obtain accurate quotations, (2) to obtain coverage for significant news events because major wire services generally do not publish press releases about such companies, and (3) to obtain needed capital. As a result, purchasers of the Company's common stock may have difficulty selling their shares in the public market, and the market price may be subject to significant volatility.

#### **THE COMPANY'S STOCK PRICE MAY BE VOLATILE**

The market price of the Company's common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond the Company's control, including the following: technological innovations or new products and services by the Company or its competitors; additions or departures of key personnel; limited "public float" following the Reorganization, in the hands of a small number of persons whose sales or lack of sales could result in positive or negative pricing pressure on the market price for the common stock; the Company's ability to execute its business plan; operating results that fall below expectations; loss of any strategic relationship; industry developments; economic and other external factors; and period-to-period fluctuations in the Company's financial results. In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of the Company's common stock.

#### **OFFERS OR AVAILABILITY FOR SALE OF A SUBSTANTIAL NUMBER OF SHARES OF THE COMPANY'S COMMON STOCK MAY CAUSE THE PRICE OF THE COMPANY'S COMMON STOCK TO DECLINE OR COULD AFFECT THE COMPANY'S ABILITY TO RAISE ADDITIONAL WORKING CAPITAL**

If the Company's current stockholders seek to sell substantial amounts of common stock in the public market either upon expiration of any required holding period under Rule 144 or pursuant to an effective registration statement, it could create a circumstance commonly referred to as "overhang," in anticipation of which the market price of the Company's common stock could fall substantially. The existence of an overhang, whether or not sales have occurred or are occurring, also could make it more difficult for the Company to raise additional financing in the future through sale of securities at a time and price that the Company deems acceptable.

**THE COMPANY'S COMMON STOCK IS CURRENTLY DEEMED TO BE "PENNY STOCK", WHICH MAKES IT MORE DIFFICULT FOR INVESTORS TO SELL THEIR SHARES**

The Company's common stock is currently subject to the "penny stock" rules adopted under section 15(g) of the Exchange Act. The penny stock rules apply to companies whose common stock is not listed on the NASDAQ Stock Market or other national securities exchange and trades at less than \$5.00 per share or that have tangible net worth of less than \$5,000,000 (\$2,000,000 if the company has been operating for three or more years). These rules require, among other things, that brokers who trade penny stock to persons other than "established customers" complete certain documentation, make suitability inquiries of investors and provide investors with certain information concerning trading in the security, including a risk disclosure document and quote information under certain circumstances. Many brokers have decided not to trade penny stocks because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. If the Company remains subject to the penny stock rules for any significant period, it could have an adverse effect on the market, if any, for the Company's securities. If the Company's securities are subject to the penny stock rules, investors will find it more difficult to dispose of the Company's securities.

THE ELIMINATION OF MONETARY LIABILITY AGAINST THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES UNDER NEVADA LAW AND THE EXISTENCE OF INDEMNIFICATION RIGHTS TO THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES MAY RESULT IN SUBSTANTIAL EXPENDITURES BY THE COMPANY AND MAY DISCOURAGE LAWSUITS AGAINST THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES

The Company's certificate of incorporation does not contain any specific provisions that eliminate the liability of directors for monetary damages to the Company and the Company's stockholders; however, the Company is prepared to give such indemnification to its directors and officers to the extent provided by Nevada law. The Company may also have contractual indemnification obligations under its employment agreements with its executive officers. The foregoing indemnification obligations could result in the Company incurring substantial expenditures to cover the cost of settlement or damage awards against directors and officers, which the Company may be unable to recoup. These provisions and resultant costs may also discourage the Company from bringing a lawsuit against directors and officers for breaches of their fiduciary duties and may similarly discourage the filing of derivative litigation by the Company's stockholders against the Company's directors and officers even though such actions, if successful, might otherwise benefit the Company and its stockholders

#### ITEM 4: CONTROLS AND PROCEDURES

##### EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) as of the end of the period covered by this report and concluded that our disclosure controls and procedures were not effective to ensure that all material information required to be disclosed in this Quarterly Report on Form 10-Q has been made known to them in a timely fashion. We are in the process of improving our internal control over financial reporting in an effort to remediate these deficiencies through improved supervision and training of our accounting staff. These deficiencies have been disclosed to our Board of Directors. We believe that this effort is sufficient to fully remedy these deficiencies and we are continuing our efforts to improve and strengthen our control processes and procedures. Our Chief Executive Officer, Chief Financial Officer and directors will continue to work with our auditors and other outside advisors to ensure that our controls and procedures are adequate and effective.

##### CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

No change in the Company's internal control over financial reporting occurred during the three months ended June 30, 2011, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II

### ITEM 1 – LEGAL PROCEEDINGS

We are subject to certain claims and litigation in the ordinary course of business. It is the opinion of management that the outcome of such matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

In February, 2011, the Company was served with a lawsuit filed by a former employee in the United States District Court for the Southern District of Florida. The complaint alleges breach of employee contract and entitlement to additional equity in the Company. The Company disagrees with the allegations contained in the Complaint and intends to vigorously defend the matter and otherwise enforce its rights with respect to the matter. The Company has retained counsel and is prepared to defend this lawsuit. A motion to dismiss the complaint has been filed and said motion is presently pending a ruling by the Court. The Company believes that all of the employee's claims are frivolous or are barred pursuant to the terms of the contract or various releases executed in favor of the Company by the employee. The Company intends to seek damages against the former employee regarding breach of his employment agreement, his non-compete agreements and other causes of action. The case is still ongoing and the matter remains unresolved.

On April 21, 2011, the company was served with a lawsuit that was filed in Clark County, Nevada against the company by A to Z Holdings, LLC and seven other individuals or entities. The complaint alleges, among other things, that the company's Board of Directors did not have the power to designate series A and B preferred stock without amending the articles of incorporation. The complaint also alleges any such amendment would require shareholder approval and filing of a proxy statement. The company has retained counsel in Nevada to represent it in this matter and intends to vigorously defend same. The company believes that most, if not all, of the allegations contained in the lawsuit are moot and/or not actionable and further believes that the Plaintiffs lack standing to pursue their claim against the company. The company, through counsel, is in the process of conducting discovery to ascertain the validity of the Plaintiffs' claims and their standing to bring this lawsuit and, upon completion of discovery, will file appropriate pleadings with the Nevada court to attempt to have the complaint, as filed, dismissed.

On July 6, 2011, the Company was served with a lawsuit filed in the Circuit Court for the County of Multnomah, Oregon. The complaint alleges breach of contract and entitlement to consulting fees from the Company. The Company disagrees with the allegations contained in the Complaint and intends to vigorously defend the matter and otherwise enforce its rights with respect to the matter. The Company has retained counsel and is prepared to defend this lawsuit. The Company believes that the claims are frivolous pursuant to the terms of the contract. The case is still ongoing and the matter remains unresolved.

#### CAPITAL INVESTMENT CMGO INVESTORS, LLC.

On April 1, 2010, the Company entered into a Note Purchase Agreement with CMGO Investors, LLC, a Delaware limited liability company, providing for the sale and issuance of (i) \$725,000 of its 13% Senior Secured Convertible Extendible Notes due 2011 and (ii) warrants to purchase 3,625,000 shares of the Company's Common Stock. The Note bears interest at a rate of 13% per annum payable quarterly. The entire amount of the Note, together with all accrued but unpaid interest thereon, is due and payable in full on July 1, 2011; provided that, so long as there is no continuing

Event of Default, the Company may in its sole discretion extend the Maturity Date for a period of three months by paying an extension fee equal to 5% of the principal amount of the outstanding Notes. In the event of Default on the Note, the Note shall bear interest at the rate per annum equal to 18%. The Notes rank senior in right of payment with all indebtedness of the Company, whether currently existing or issued in the future. The Notes are secured by a security interest in all of the assets of the Company and the Company's subsidiaries pursuant to a Security Agreement and Subsidiary Guarantee. The Notes are convertible into shares of Common Stock of the Company at any time after the Maturity Date at an initial conversion price of \$0.10 per share. The warrants are exercisable for seven years at an exercise price of \$0.10 per share. The conversion price of the Notes and the exercise price of the warrants will be adjusted in connection with stock splits, dividends, mergers, reclassifications and similar transactions. In addition, if at any time the closing market price of the Common Stock is less than the conversion price or exercise price for a period of 90 consecutive trading days, then the conversion price or exercise price in effect shall be reduced to the closing market price of the Common Stock on such 90th trading day; provided that in no event shall the conversion price or exercise price be reduced to less than \$0.07 per share pursuant to this provision. The investors also received certain registration rights pursuant to a Registration Rights Agreement. In connection with this transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 942,500 shares of Common Stock. The sale of securities discussed above was made solely to accredited investors and was exempt from registration under Section 4(2) and/or Rule 506 of Regulation D of the Securities Act of 1933, as amended.
