Therefore, management is sending this notice to you. Proxies are not being solicited as management has received sufficient votes to approve the above proposal. **INFORMATION STATEMENT
REGARDING A CORPORATE ACTION
APPROVED ON MARCH 31, 2006**

Written Resolution of the Shareholders

This Information Statement is furnished in connection with a written resolution of a majority of the shareholders of the Corporation approved on March 31, 2010. This Information Statement is being sent to shareholders of record of March 31, 2010. The cost of distributing this Information Statement will be borne by the Corporation which may enlist the assistance, and reimburse the reasonable expenses, of banks and brokerage houses particularly in connection with their customers whose stock is not registered in the owner's name, but in the name of such banks or brokerage houses. The mailing address of the Corporation's business offices is:

1495 Ridgeview Drive #220

Reno, NV 89519.

Shareholders Entitled To Vote

Only shareholders of record of the Company's Common Stock at the close of business on March 31, 2010 were entitled to vote on the written resolution. On that date, 204,425,600 shares of Common Stock of the Corporation (the "Common Stock") were issued and outstanding. Each shareholder was entitled to one vote for each share held of record on the record date. The holders of a majority of the total shares of common stock outstanding on March 31, 2010, totaling 116,000,000 shares, constituted a quorum for

the transaction of business in the written resolution. As management is not soliciting proxies and has already obtained sufficient votes to obtain a quorum, abstentions and broker non-votes will not be counted toward fulfillment of quorum requirements. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions from the beneficial owner. A list of the shareholders of record as of March 31, 2010, will be filed in the Corporation's minute books as an attachment to the written resolution.

Voting on the Written Resolution

The passing of the proposal required the affirmative vote of a majority (102,112,801 shares) of the shares of Common Stock issued and outstanding on March 31, 2010. There were 204,425,600 common shares issued and outstanding on March 31, 2010. Two (2) Selected Shareholders, holding a total of 116,000,000 shares, approved the above actions in a written resolution.

Meeting Not Required

There will not be a meeting of stockholders and none is required under the Nevada General Corporation Law. Nevada Revised Statutes 78.320(2) provides that any action required or permitted to be taken at a meeting of stockholders may be taken without a meeting if, before or after the action, a written consent thereto is signed by the stockholders holding at least a majority of the voting power.

Interest of Certain Persons in or Opposition to Matters to be Acted Upon

No person who has been a director or officer of the registrant at any time since the beginning of the last fiscal year, nor any associate of the foregoing persons, has any substantial interest, direct or indirect, by security holdings or otherwise, in the written resolution.

No director of the Corporation has informed the Corporation in writing that he intends to oppose any action to be taken by the Corporation at the meeting.

Proposals by Security Holders

There are no proposals by any security holders.

Absence of Dissenters Rights

No dissenters or appraisal rights are available to our stockholders under the Nevada General Corporation Law in connection with the actions.

Matters Approved in the Written Resolution

Name of the Company

The Corporation's Board of Directors proposed changing the name of the Company from **UREX ENERGY CORP.**, to **MUSTANG GEOTHERMAL CORP.**, to reflect a name for the Corporation more descriptive of its current business activities, and allowing for potential diversification in the nature of business activities the Company may pursue.

Change in Capital (Reverse Split of Common Stock)

The Corporation's Board of Directors proposed to effect a change in capital through a reverse split of the Company's total issued and outstanding shares of stock on the basis of 200 for 1, with a corresponding amendment to the Corporation's Articles of Incorporation. The total authorized capital shall remain the same. The Board of Directors believes that the reverse split may have the potential of generating interest from investors in the energy sector looking for investments in small companies in the geothermal field which do not have hundreds of millions of shares of stock issued and outstanding. There is, however, no assurance this will result.

Election of Three (3) Directors

The Board of Directors has decided that it is in the best interests of the Company and the stockholders to elect Richard Bachman, Gerald Aberle and Brian Cole as Directors for the ensuing year. These nominees have extensive experience in the mining business and in the specific areas of interest the Company intends to pursue during the next year. Their resumes follow.

Richard Bachman

Mr. Bachman has been the President and a director of the company since September 28, 2005. Mr. Bachman's work experience includes 22 years working with Homestake Mining Company in various capacities ranging from exploration to mine operations. From 1995 to 1998, he was the Regional Geologist for Brazil where he directed a staff of 46 and was responsible for a \$2.5 million annual exploration budget. He conducted a countrywide assessment that resulted in the acquisition of a one million hectare property in a 20 million ounce gold district in the Amazon.

From 1999 to 2000 Mr. Bachman was the Regional Geologist for Peru where he directed a staff of 10 and refocused Homestake's existing exploration program, which resulted in the evaluation of 83 properties in 24 months and yielded one new discovery. From 2001 to 2002, he was Homestake's Regional Geologist, International Special Projects, where he designed and successfully implemented reconnaissance programs in southern Argentina that resulted in the evaluation of 63 properties with five advancing and the coordination and field review of 22 properties.

From 2002 until present, Mr. Bachman has also acted as President and Consulting Professional Geologist for Minera Teles Pires Inc., a Reno, Nevada company. Mr. Bachman holds a Bachelors of Science degree in Geological Engineering from the South Dakota School of Mines and Technology and is a Certified Professional Geologist with the American Institute of Professional Geologists.

Gerald Aberle

Mr. Aberle graduated in 1980 from South Dakota School of Mines and Technology with a Bachelors of Science Degree in Mining Engineering and has over 30 years of experience in the minerals industry, including 22 years with Homestake Mining Company at the Homestake Gold Mine at Lead, South Dakota. Mr. Aberle's mining background includes extensive engineering, operations management and project management experience.

Over the past 11 years, Mr. Aberle has consulted in the mining, underground construction and minerals exploration business for clients including Homestake Mining Co - Barrick Gold, the State of South Dakota and the University of Washington in connection with the planning and development of the National Science Foundation's National Deep Underground Science and Engineering Laboratory. In addition, Mr. Aberle has more than 15 years of private business experience in the United States, primarily in the land development and construction industries.

Brian Cole

Mr. Cole has been a director of the company since January 16, 2007. Mr. Cole is a Canadian Certified Professional Geologist with over 29 years of diverse mineral exploration experience in gold, uranium, base metals, and diamonds in many places of the world. Mr. Cole was a staff Geologist for Placer Dome Inc. for over 11 years in Canada and East Africa. Following that, Mr. Cole was an Associate Partner in a consulting firm offering project management services and supervised the office in Ghana, West Africa for 3 years. Mr. Cole routinely consults for clients in North and South America and advises in matters of mineral exploration strategy, project management, quality controls, resource estimation, and regularly prepares qualifying reports for securities exchanges on the behalf of his clients. He currently resides in Canada.

Although these three (3) matters have been approved by an affirmative vote of 116,000,000 shares, or 57% of the Corporation's issued and outstanding shares, the Corporation is required under Securities and Exchange Commission rules and regulations to file this Schedule 14C and no corporate action may be taken on this resolution until 20 days from the mailing of this Schedule 14C. Therefore, the Corporation expects to take all necessary corporate actions to effect the name change in late April 2010.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

The anticipated compensation to be paid to officers and directors of the Company has not been determined at this time.

Householding

On December 4, 2000, the Securities and Exchange Commission adopted amendments permitting companies and intermediaries to satisfy the delivery requirements for proxy statements and information statements with respect to two or more shareholders sharing the same address by delivering a single proxy statement or information statement to those shareholders unless the Corporation is otherwise advised by the shareholders. "Householding", as this is commonly known, reduces the amount of duplicate information that shareholders receive and lowers the Corporation's printing and mailing costs.
