BARCLAYS PLC

The information in this announcement, which was approved by the Board of Directors on 4th August 2005, does not comprise statutory accounts within the meaning of Section 240 of the Companies Act 1985 (the 'Act'). Statutory accounts for the year-ended 31st December 2004 were prepared under UK GAAP and included certain information required for the joint Annual Report on Form 20-F of Barclays PLC and Barclays Bank PLC to the US Securities and Exchange Commission (SEC) and which contained an unqualified audit report under Section 235 of the Act and which did not make any statements under Section 237 of the Act, have been delivered to the Registrar of Companies in accordance with Section 242 of the Act.

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to certain of the Group's plans and its current goals and expectations relating to its future financial condition and performance. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as "aim", "anticipate", "target", "expect", "estimate", "intend", "plan", "goal", "believe", or other words of similar meaning. Examples of forward-looking statements include, among others, statements regarding the Group's future financial position, income growth, impairment charges, business strategy, projected levels of growth in the banking and financial markets, projected costs, estimates of capital expenditures, and plans and objectives for future operation.

By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances, including, but not limited to, the further development of standards and interpretations under IFRS applicable to past, current and future periods, evolving practices with regard to the interpretation and application of standards under IFRS and pending tax elections with regards to certain subsidiaries, as well as UK domestic and global economic and business conditions, market related risks such as changes in interest rates and exchange rates, the policies and actions of governmental and regulatory authorities, changes in legislation, the outcome of pending and future litigation, the impact of competition, and the Group's ability to increase earnings per share from acquisitions such as Absa (which may be affected by, among other things, the ability to realise expected synergies, integrate businesses, and costs associated with the acquisition and integration) - a number of which factors are beyond the Group's control. As a result, the Group's actual future results may differ materially from the plans, goals, and expectations set forth in the Group's forward-looking statements. Any forward-looking statements made by or on behalf of Barclays speak only as of the date they are made. Barclays does not undertake to update forward-looking statements to reflect any changes in Barclays expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that Barclays has made or may make in documents it has filed or may file with the SEC including its most recent Annual Report on Form 20-F.

The Group has applied IFRS from 1st January 2004, with the exception of the standards relating to financial instruments and insurance contracts which are

Edgar Filing: BARCLAYS PLC - Form 6-K

applied only with effect from 1st January 2005. Therefore the impacts of adopting IAS 32, IAS 39 and IFRS 4 are not included in the 2004 comparatives in accordance with IFRS 1 and financial instruments and insurance contracts are accounted for under UK GAAP in 2004.

The results for 2005 are therefore not entirely comparable to those for 2004 in affected areas. For a fuller discussion of the transitional impacts of IFRS, please refer to the IFRS Transition Report 2004/2005, released 11th May 2005.

5th August 2005

BARCLAYS PLC

"We made good progress in all the main elements of the Group's strategy, particularly our international growth plans. The profit growth in the first half demonstrates that our strategy is delivering strongly and that we are benefiting from a mix of business that is well diversified by sector, income type and geography."

John Varley, Group Chief Executive

In this document the income statement analysis compares, unless stated otherwise, the half-year ended 30th June 2005 to the corresponding period of 2004. Balance sheet comparisons, unless stated otherwise, relate to the corresponding position at 31st December 2004. 2004 comparatives do not include additional impacts arising from the first time application of IAS 32 (Financial instruments: Disclosure and Presentation), IAS 39 (Financial instruments: Recognition and Measurement) and IFRS 4 (Insurance Contracts), which were applied from 1st January 2005.

BARCLAYS PLC

PERFORMANCE SUMMARY

- We made progress on each of our four strategic priorities:
 - Building the best bank in the UK
 - Accelerating growth of global product businesses
 - Developing retail and commercial banking activities in selected markets outside the UK
 - Enhancing operational excellence
- The financial results reflect this progress:
 - Total income¹ up 14% to GBP7,922m
 - Profit before tax up 9% to GBP2,690m
 - Earnings per share up 4% to 29.1p
 - Dividend per share up 12% to 9.2p
 - Return on average shareholders' equity of 23.4%
- Income growth was well diversified by business, income type and geography. Non-interest income¹ rose 16% and was over half of total income¹.
- In addition to strong organic growth, we continue to capture the benefits expected from recent acquisitions.
- The increase in operating expenses¹ was driven by significant investment directed at future growth in investment banking, asset management, international retail and commercial banking, international credit cards and by higher performance related costs. This was complemented by a strong focus on cost control in other areas.
- Impairment charges and other credit provisions rose 20%, driven principally by an increase in delinquencies and a reduction in recoveries in UK credit cards. Impairment charges rose at a slower rate in unsecured loans, were steady in UK mortgages and decreased in the wholesale and corporate businesses. Asset quality remains strong.

Edgar Filing: BARCLAYS PLC - Form 6-K

- UK Banking showed good growth with profit² up 10% to GBP1,275m and made progress on its productivity commitment with the cost:income¹ ratio improving by three percentage points.
 - Barclays Capital delivered another excellent performance with profit² up 20% to GBP703m. Growth, both by product and geography, reflected the continued development through organic investment.
 - Barclays Global Investors outstanding results continued with profit² up 60% to GBP242m, attracting US\$61bn of net new assets under management and delivering strong investment performance.
 - Wealth Management profit² grew significantly, up 39% to GBP89m, reflecting growth across the businesses, driven by good trends in transaction volumes and growth in the balance sheet.
 - Barclaycard profit² fell 17% to GBP379m. Strong income growth was more than offset by a significant rise in impairment losses, principally in the UK card portfolio. Barclaycard profits were also adversely impacted by continued investment in international development.
 - International Retail and Commercial Banking achieved very strong growth with profit² up 30% to GBP188m. There was progress in all geographies, and excellent performance in Spain.
 - The acquisition of a majority stake in Absa completed at the end of July.
- 1 Trends in income and expenses are expressed after the deduction of 'net insurance claims and benefits paid'.
2 Profit before tax.

BARCLAYS PLC

HALF-YEAR REVIEW

Barclays had a strong half-year, delivering good profit growth, investing heavily for the future and making progress in each of our four strategic

Edgar Filing: BARCLAYS PLC - Form 6-K

priorities:

- Building the best bank in the UK
- Accelerating growth of global product businesses
- Developing retail and commercial banking activities in selected markets outside the UK
- Enhancing operational excellence

Our overall profit performance demonstrated the benefits of our universal bank model and the diversification and growth characteristics of our mix of businesses. Our investment in the first half was directed particularly at the global product businesses and International Retail and Commercial Banking.

Profit before tax increased 9% to GBP2,690m (2004: GBP2,463m). Earnings per share rose 4% to 29.1p (2004: 28.0p). We have increased the proposed interim dividend by 12% to 9.2p (2004: 8.25p).

Total income¹ grew 14% to GBP7,922m (2004: GBP6,967m). Income growth was broadly based - by business and by income type - and reflected both underlying momentum and return on the investments made in prior years. Margins held up well across the portfolio as a whole.

Operating expenses¹ in the first half rose 14% to GBP4,542m (2004: GBP3,974m) in line with growth in income. The substantial majority of the expense growth was attributable to three factors: the very strong performance in the wholesale and institutional businesses driving higher variable costs; investment spend in the global product and international businesses; and the one-off expense of head office relocation. Costs in all other areas were tightly controlled, and were lower than the prior year in UK Banking.

Impairment charges and other credit provisions increased 20% to GBP706m (2004: GBP589m). This growth was driven by an increase in the size of the book, higher delinquency and lower recoveries in the Barclaycard UK card business. Impairment was stable in UK mortgages, and fell in corporate and wholesale reflecting the benign credit environment.

In UK Banking, we set a target in 2004 to deliver a 2 percentage point improvement per annum in the cost:income ratio in each of 2005, 2006 and 2007. The first half showed a 3 percentage point improvement relative to 2004 and this resulted in an increase of 10% in profit before tax. UK Business Banking continued to perform well with strong growth on both sides of the balance sheet resulting in strong income growth at stable margins. Tight cost discipline and a good risk performance also contributed to excellent profit growth of 20%. In UK Retail Banking, income was broadly flat, but we benefited from a strong focus on costs, delivering a 4% reduction in operating expenses despite continuing heavy investment. We continued to build on the customer initiatives taken last year, delivering significant improvement in key customer service metrics. We have also launched new products in general insurance, mortgages and current accounts. Good growth in current accounts and overdrafts was largely offset by margin pressure in savings and a weak performance in mortgages. Excluding the effect of the sale of our interest in Edotech in 2004, underlying profit before tax was up 6%.

¹ Trends in income and expenses are expressed after the deduction of 'net insurance claims and benefits paid'.

BARCLAYS PLC

HALF-YEAR REVIEW

Barclays Capital delivered record results in the first half, increasing profit before tax by 20% to GBP703m (2004: GBP588m). Performance was broadly based

Edgar Filing: BARCLAYS PLC - Form 6-K

across products and geographies, reflecting delivery from past investments and continued strengthening of the client franchise. The risk management performance was excellent in volatile and sometimes difficult market conditions. Average DVaR, at GBP30.4m, was lower than the average for 2004. We continue to invest heavily in Barclays Capital, building on the breadth and depth of its capabilities.

Barclays Global Investors (BGI) had another outstanding first half performance, increasing profit before tax by 60% to GBP242m (2004: GBP151m). BGI now has US\$1.4 trillion of assets under management, and continued to generate strong flows of net new assets and growth in higher margin products, reflecting ongoing investment in the business. BGI delivered strong investment performance in active products, with most funds outperforming their benchmarks. BGI also delivered further significant improvement in operating margin and improved the cost:income¹ ratio to 59% (2004: 64%).

Wealth Management performed strongly. Profits², which rose 39%, totalled GBP89m (2004: GBP64m). Growth in this business was underpinned by higher asset and liability volumes and higher levels of client activity across most of the wealth businesses. We continued to invest in new products, to improve customer service and to make progress with the integration of Gerrard. The cost:income¹ ratio improved by 4 percentage points.

Barclaycard profits² fell 17% to GBP379m (2004: GBP459m) as a result of higher impairment charges and international investment. Income growth of 11% reflected good balance growth in the consumer loan businesses, stability in card margins, the momentum in international cards and a first-time contribution from Juniper. Operating expenses grew from the continued investment in the international businesses, principally the acquisition of Juniper. The integration and development of Juniper is in line with plan, with good growth in new partnerships signed. Barclaycard International continued to make good progress in Spain and Germany. Barclaycard announced new business extensions, including a joint venture with ForeningsSparbanken in Scandinavia, and a partnership with Sky TV in the UK.

International Retail and Commercial Banking, where profit² rose 30% to GBP188m (2004: GBP145m), performed strongly, driven by expansion in continental Europe, particularly in mortgages. There was continued good progress with the integration of Banco Zaragozano, where synergies are running ahead of plan. The growth of International Retail and Commercial Banking will be accelerated in the second half by the completion of the acquisition of a majority stake in Absa in South Africa and by the acquisition of the ING Ferri business in France.

Good capital management enhances shareholder returns and continues to be a core focus. In the first half of 2005, we raised GBP2.3bn of preference share capital to fund organic growth and the acquisition of a majority stake in Absa. The Tier 1 capital ratio reported at 30th June 2005 has reduced by 90 basis points following completion of the Absa transaction. We intend to run a tighter capital structure and we have optimised the use of preference share capital in our funding mix over the past 18 months. This has enabled us to buy back GBP700m of shares in 2004 and fund GBP3.1 billion of acquisitions and joint ventures without issuing ordinary shares. We continue to target the maintenance of our Aa1/AA/AA+ credit ratings and have factored this into our capital management plans. Whilst we would continue to adjust our capital levels to reflect the environment and our business mix, our current focus is to rebuild capital ratios to approximately 7.25% for the Tier 1 ratio. This is expected to be achieved in 2006 through the natural evolution of retained earnings.

1 Trends in income and expenses are expressed after the deduction of 'net insurance claims and benefits paid'.

2 Profit before tax.

Edgar Filing: BARCLAYS PLC - Form 6-K

BARCLAYS PLC

HALF-YEAR REVIEW

We continue our progressive approach to dividends. With our annual dividend approximately twice covered by earnings, the balance between income distribution to shareholders and earnings retention to fund growth is appropriate. We expect to grow dividends per share approximately in line with earnings per share over the longer term. We would look to smooth this, with dividend growth lower than earnings growth in years where earnings growth is exceptionally high, and the converse when earnings growth in a particular year is below trend. We expect to continue the practice of weighting the annual dividend towards the final dividend to maintain flexibility, consistent with the practice and balance of prior years.

In terms of progress towards Group goals, Barclays ranked in the second quartile of its Total Shareholder Return (TSR) peer group² for the goal period starting 1st January 2004. Cumulative economic profit growth for this period has exceeded our stated compound annual target range of 10-13%.

We have completed the transition to International Financial Reporting Standards (IFRS). Our first half results included the implementation of IAS 32, IAS 39 and IFRS 4. This will introduce more volatility to reported earnings. In the first half of 2005, this volatility had a positive effect on earnings in some areas, particularly in the Group Treasury. The other key impacts on the income statement in 2005 have been a change in the reporting of insurance income and a reclassification between interest income and fee and commission income. The net effect of the incremental IFRS changes in 2005 has been a modest reduction in reported earnings per share.

The economic outlook for the remainder of the year continues to be fairly positive. We expect the strong economic performances in the US and China to continue to benefit the global economy. Although the rate of growth in the UK is expected to be below the level of the past few years, it is still expected to be in line with the longer term trend. We continue to see some softness in the UK consumer sector, but the wholesale and corporate sector is in very good health. The outlook for interest rates and unemployment is reassuring from a credit risk perspective.

For the full year, excluding significant acquisitions and disposals, we continue to target double digit income¹ growth, with expense¹ growth broadly in line with this. Impairment charges are expected to be approximately in line with Risk Tendency. In the second half of this year, we will also account for five months of earnings from Absa (net of the associated funding and hedging costs), which we expect to be modestly accretive to earnings per share.

We can now welcome to the Group our new colleagues from Absa. Absa's Chairman, Dr Danie Cronje, joins the Barclays Board as a non-executive Director on 1st September 2005. We are excited about the prospects for the enlarged business both in South Africa and across the continent of Africa. We are also delighted to have strengthened the Barclays Board during the first half through the appointment of Robert E. Diamond Jnr. as an executive Director and President of the Group, and through the appointment of Robert Steel and John Sunderland as non-executive Directors.

John Varley
Group Chief Executive

BARCLAYS PLC

FINANCIAL REVIEW

Results by business

The following section analyses the Group's performance by business. For management and reporting purposes, Barclays is organised into the following business groupings:

- UK Banking, comprising
 - UK Retail Banking
 - UK Business Banking
- Barclays Capital
- Barclays Global Investors
- Wealth Management
- Wealth Management - closed life assurance activities
- Barclaycard
- International Retail and Commercial Banking
- Head office functions and other operations

UK Banking

UK Banking delivers banking solutions to Barclays UK retail and business banking customers. It offers a range of integrated products and services and access to the expertise of other Group businesses. Customers are served through a variety of channels comprising the branch network, automated teller machines, telephone banking, online banking and relationship managers. UK Banking is managed through two business areas, UK Retail Banking and UK Business Banking.

UK Retail Banking

UK Retail Banking comprises Personal Customers, Mortgages, Small Business and UK Premier. This cluster of businesses enables the building of broader and deeper relationships with both existing and new customers. Personal Customers and Mortgages provide a wide range of products and services to 14 million retail customers, including current accounts, savings, mortgages, and general insurance. Small Business provides banking services to 580,000 small businesses. UK Premier provides banking, investment products and advice to some 280,000 affluent customers.

UK Business Banking

Edgar Filing: BARCLAYS PLC - Form 6-K

UK Business Banking provides relationship banking to the Group's larger and medium business customers in the United Kingdom. Customers are served by a network of relationship and industry sector specialist managers who provide local access to an extensive range of products and services, as well as offering business information and support. Customers are also offered access to the products and expertise of other businesses in the Group, particularly Barclays Capital. UK Business Banking provides asset financing and leasing solutions through a specialist business to customers in the United Kingdom and continental Europe.

BARCLAYS PLC

Barclays Capital

Barclays Capital is a leading global investment bank which provides large corporate, institutional and government clients with solutions to their financing and risk management needs.

Barclays Capital services a wide variety of client needs, from capital raising and managing foreign exchange, interest rate and commodity risks, through to providing technical advice and expertise. Activities are organised into three principal areas: Rates, which includes fixed income, foreign exchange, commodities, emerging markets, money markets sales, trading and research, prime brokerage and equity related activities; Credit, which includes primary and secondary activities for loans and bonds for investment grade, high yield and emerging market credits, as well as hybrid capital products, asset based finance, commercial mortgage backed securities, credit derivatives, structured capital markets and large asset leasing; and Private Equity.

Barclays Global Investors

Barclays Global Investors (BGI) is one of the world's largest asset managers and a leading global provider of investment management products and services.

BGI offers structured investment strategies such as indexing, tactical asset allocation and risk-controlled active products. BGI also provides related investment services such as securities lending, cash management and portfolio transition services. In addition, BGI is the global leader in Exchange Traded Funds, with over 130 funds for institutions and individuals trading in eleven global markets. BGI's investment philosophy is founded on managing all dimensions of performance: a consistent focus on controlling risk, return and cost.

Wealth Management

Wealth Management (formerly Private Clients) serves affluent, high net worth and corporate clients, primarily in the UK and continental Europe, providing private banking, offshore banking, stockbroking, asset management and financial planning services.

Wealth Management - closed life assurance activities

Wealth Management - closed life assurance activities comprise the closed life assurance businesses of Barclays and Woolwich in the UK.

BARCLAYS PLC

Edgar Filing: BARCLAYS PLC - Form 6-K

Barclaycard

Barclaycard is a multi-brand credit card and consumer lending business with an increasing international presence and is one of the leading credit card businesses in Europe.

In the UK, Barclaycard manages the Barclaycard branded credit cards and other non-Barclaycard branded card portfolios including Monument, SkyCard and Solution Personal Finance. In consumer lending, Barclaycard manages both secured and unsecured loan portfolios, through Barclays branded loans, being mostly Barclayloan, and also through the FirstPlus and Clydesdale Financial Services businesses.

Outside the UK, Barclaycard operates in the United States, through Juniper Financial Corporation, in Germany, Spain, Greece, Italy, Portugal, Republic of Ireland and across Africa. In the Nordic region, Barclaycard operates through Entercard, the joint venture with ForeningsSparbanken (Swedbank).

Barclaycard Business processes card payments for retailers and issues purchasing and credit cards to business customers and to the UK Government.

Barclaycard works closely with other parts of the Group, including UK Retail Banking, UK Business Banking and International Retail and Commercial Banking, to leverage their distribution capability.

International Retail and Commercial Banking

International Retail and Commercial Banking provides a range of banking services, including current accounts, savings, investments, mortgages and loans to personal and corporate customers across Spain, Portugal, France, Italy, the Caribbean, Africa and the Middle East.

International Retail and Commercial Banking works closely with other parts of the Group, including Barclaycard, UK Banking, Barclays Capital and Barclays Global Investors, to leverage synergies from product and service propositions.

Head office functions and other operations

Head office functions and other operations comprise:

- head office and central support functions
- discontinued businesses in transition
- consolidation adjustments

Head office and central support functions comprise the following areas: Executive Management, Finance, Treasury, Communications, Human Resources, Strategy and Planning, Internal Audit, Legal, Corporate Secretariat, Property, Tax, Compliance and Risk. Costs incurred wholly on behalf of the businesses are recharged to them.

Discontinued businesses in transition principally relate to South American and Middle Eastern corporate banking businesses. These businesses are centrally managed with the objective of maximising recovery from the assets.

Consolidation adjustments largely reflect the elimination of inter segment transactions.

UK Banking profit before tax increased 10% (GBP113m) to GBP1,275m (2004: GBP1,162m), driven by good income growth, well controlled risk and strong cost management as operating expenses were held below 2004 levels.

UK Banking has continued to make good progress towards achieving its strategic aims of delivering integrated banking solutions to customers, enhancing the customer service experience, capturing revenue growth opportunities and improving productivity. UK Banking is targeting cost: income ratio improvements of 2 percentage points per annum in 2005, 2006 and 2007. During the first half of 2005 UK Banking made good progress towards achieving this target with the cost:income ratio improving by 3 percentage points to 51% (2004: 54%).

BARCLAYS PLC

UK Retail Banking profit before tax decreased 2% (GBP9m) to GBP549m (2004: GBP558m). Profit before tax increased 6% excluding the impact of a GBP42m profit on the disposal of a stake in Edotech in the first half of 2004.

Total income net of insurance claims increased 1% (GBP11m) to GBP1,720m (2004: GBP1,709m). There was a good performance in current accounts, whilst income from mortgages and retail savings was weaker. Net income was flat at GBP1,648m (2004: GBP1,647m).

Net interest income increased 3% (GBP28m) to GBP1,041m (2004: GBP1,013m). Growth was driven by a higher contribution from current accounts (both deposits and overdrafts), which was offset by margin pressure in retail savings. Excluding the impact of the application of IAS 32 and IAS 39 from 1st January 2005, net interest income increased 1%.

UK average residential mortgage balances increased 1% to GBP61.4bn (2004: GBP60.6bn). The mortgage business focused on higher margin new business rather than volume during the period, which resulted in an improved margin on new business. Gross advances were GBP5.2bn (2004: GBP9.2bn), an estimated market share of 4%. UK residential mortgage balances ended the period at GBP61.0bn (31st December 2004: GBP61.7bn). The estimated loan to value ratio within the residential mortgage book on a current valuation basis was 34% (31st December 2004: 35%). Average overdraft balances within Personal Customers increased 11% and average Small Business loan balances rose 10%.

Total average customer deposit balances increased 5% to GBP71.0bn (2004: GBP67.5bn). There was strong growth in UK Premier with average deposits up 12% and good growth in Small Business where average deposit balances were 5% higher. Personal Customer average current account balances increased 4% and average retail savings balances by 3%.

Edgar Filing: BARCLAYS PLC - Form 6-K

Net fee and commission income decreased 3% (GBP19m) to GBP550m (2004: GBP569m), as lending related fees were impacted by the application of IAS 32 and IAS 39 from 1st January 2005. Excluding this impact, net fee and commission income was 1% higher. Higher fee income was generated by value-added fee-based current accounts, reflecting higher account numbers and a broader product range.

Income from principal transactions was GBP9m (2004: GBPnil) representing the gain on the sale of the investment in Gresham, an insurance underwriting business, ahead of the launch of the new general insurance offering.

Net premiums from insurance underwriting activities decreased 5% (GBP8m) to GBP141m (2004: GBP149m), due to a lower insurance take up on consumer lending activity.

Impairment charges increased 16% (GBP10m) to GBP72m (2004: GBP62m), in line with expectations. The increase has principally arisen in Personal Customer overdrafts and Small Business loans reflecting balance growth. The quality of the mortgage portfolio remains high. Mortgage arrears balances remained at a low level, despite some modest deterioration in the period.

Operating expenses decreased 4% (GBP41m) to GBP1,092m (2004: GBP1,133m) as cost saving initiatives focused on the back and middle office more than offset cost pressures arising from investment in frontline customer service, inflation and volume growth. Investment in the infrastructure of the business continued during the first half of 2005. The cost:income ratio improved by 3 percentage points to 63% (2004: 66%).

BARCLAYS PLC

UK Business Banking profit before tax increased 20% (GBP122m) to GBP726m (2004: GBP604m), as a result of strong income growth and lower impairment losses. Both Larger Business and Medium Business performed well. The asset and sales finance business performed very strongly and future growth will be enhanced by the acquisition of a 51% stake in Iveco Finance, which completed during June 2005.

Total income increased 12% (GBP127m) to GBP1,207m (2004: GBP1,080m). Net income increased 14% (GBP142m) to GBP1,131m (2004: GBP989m).

Net interest income increased 28% (GBP194m) to GBP878m (2004: GBP684m). Excluding the impact of the application of IAS 32 and IAS 39 from 1st January 2005, net interest income increased by 12%.

Balance sheet growth was very strong. The application of IAS 32 and IAS 39 from 1st January 2005 has resulted in the grossing up of previously netted positions (assets and liabilities subject to master netting agreements). These amounted to GBP8.7bn as at 30th June 2005. Average lending balances (excluding previously netted balances) increased 21% to GBP51.7bn (2004: GBP42.7bn), with particularly strong growth in the large corporate segment. UK Business Banking's market share of lending balances increased over the period. Average deposit balances (excluding previously netted balances) increased 10% to GBP44.4bn (2004: GBP40.4bn). Adjusting for the income reclassification, there has been a modest decline in both the lending and deposit margins.

The impact of the Iveco transaction was to increase both period end total

Edgar Filing: BARCLAYS PLC - Form 6-K

assets and weighted risk assets by GBP1.8bn.

Net fee and commission income decreased 19% (GBP75m) to GBP318m (2004: GBP393m). Excluding the impact of the IAS 32 and IAS 39, net fee and commission income increased 8%, as a result of higher underlying lending fees and higher fees from the asset and sales finance business.

Income from principal transactions was GBP8m (2004: GBP1m). The majority of the increase represented gains on the sale of venture capital investments.

Impairment charges decreased 16% (GBP15m) to GBP76m (2004: GBP91m). The overall credit profile of the portfolio was maintained and the average credit quality of new lending was above that of the average for the overall book.

Operating expenses increased 5% (GBP20m) to GBP406m (2004: GBP386m), reflecting volume growth and higher expenditure on front line staff. The cost:income ratio improved by 2 percentage points to 34% (2004: 36%).

BARCLAYS PLC

Barclays Capital continued to perform strongly delivering record first half profit before tax and net income despite difficult market conditions, particularly during the second quarter. Profit before tax increased 20% (GBP115m) to GBP703m (2004: GBP588m) reflecting very strong income growth driven by higher business volumes and client activity levels. Net income increased 25% (GBP420m) to GBP2,069m (2004: GBP1,649m).

Total income increased 25% (GBP419m) to GBP2,117m (2004: GBP1,698m) as a result of strong growth across the Rates and Credit businesses. Income by asset category was broadly based with particularly strong income growth from credit products and commodities. Areas of investment in 2004, such as commercial mortgage backed securities, equity derivatives and commodities, performed well. Average DVaR decreased 20% to GBP30.4m (2004: GBP38.1m) primarily due to better diversification and was broadly in line with DVaR for the second half of 2004 (GBP30.7m).

Secondary income, comprising principal transactions (net trading income and net investment income) and net interest income, is mainly generated from providing financing and client risk management solutions. This increased 24% (GBP340m) to GBP1,756m (2004: GBP1,416m).

Trading income increased 42% (GBP331m) to GBP1,115m (2004: GBP784m) due to strong performances across the Rates and Credit businesses, in particular from commodities, foreign exchange, structured capital markets and credit derivatives. This was driven by higher volumes of client led activity across a broad range of products and geographic regions and the continued return on prior year investments. Net investment income decreased 10% (GBP18m) to GBP158m (2004: GBP176m), due to lower contributions from structured capital markets and private equity realisations. Net interest income increased 6% (GBP27m) to GBP483m (2004: GBP456m).

Edgar Filing: BARCLAYS PLC - Form 6-K

Primary income, comprising net fee and commission income from advisory and origination activities, grew 29% (GBP78m) to GBP350m (2004: GBP272m). This reflected increased volumes and market share gains in a number of key markets with particularly strong performances from primary bonds and loans.

Other income of GBP11m (2004: GBP10m) reflected income from operating leases.

Impairment charges of GBP48m (2004: GBP49m) were broadly in line with prior year as the wholesale credit environment remained stable.

Operating expenses increased 29% (GBP305m) to GBP1,366m (2004: GBP1,061m), reflecting the ongoing costs associated with staff hired during 2004 and the first half of 2005 and higher business volumes. Performance related costs increased due to the strong profit performance. Investment expenditure, primarily in the front office continued to be significant, but decreased, relative to 2004, reflecting the reduced pace of hiring in the first half of 2005. The cost:net income ratio increased to 66% (2004: 64%). Total staff costs to net income was in line with the prior year at 53%. Approximately half of the total operating expenses comprised performance related pay, discretionary investment spend and short-term contractor resource, consistent with the experience in the first half of 2004.

Total headcount increased by 500 during the first half of 2005 to 8,300 (31st December 2004: 7,800). Almost 60% of the increase was in the front office, spread across product, client coverage and distribution across all geographies. The remainder was directed at the continued strengthening of the back office and control environment, mostly in lower cost jurisdictions.

BARCLAYS PLC

Barclays Global Investors (BGI) delivered another excellent performance. Profit before tax increased 60% (GBP91m) to GBP242m (2004: GBP151m) reflecting substantial income growth coupled with tight cost control and focused investment spend.

Net fee and commission income increased 36% (GBP152m) to GBP570m (2004: GBP418m). This was driven by a sharp rise in management and incentive fees across all areas, particularly in the active and iShares businesses. Higher margin assets under management and strong investment performance contributed to the significant income growth along with higher market levels. In addition, securities lending income growth was strong, reflecting increased volumes in this area.

Very strong income and profit performance continued across a diverse range of products, distribution channels and geographies. The trend of net new revenue generation from an increasingly higher margin product mix continued. Active product investment performance remained very good and most funds outperformed their benchmarks. The growth in global iShares

Edgar Filing: BARCLAYS PLC - Form 6-K

continued at pace with assets under management up 24% (GBP16bn) to GBP84bn from 2004 year-end and up 62% (GBP32bn) from June 2004.

Operating expenses increased 26% (GBP70m) to GBP342m (2004: GBP272m) primarily as a result of higher performance based expenses and investment in growth initiatives including Fixed Income and Alternative Assets. The cost:income ratio of 59% showed continued improvement over the prior year (2004: 64%).

Total headcount rose by 200 in the period to 2,100 (31st December 2004: 1,900) driven by the targeted ongoing investment for future growth of the business. Headcount increased in all regions, across both product groups and the support functions.

Total assets under management increased 10% (GBP72bn) to GBP781bn (31st December 2004: GBP709bn). The growth included GBP33bn of net new assets, GBP32bn attributable to favourable exchange rate movements and GBP7bn as a result of market movements. The increase in the US\$ assets under management from US\$1,362bn (31st December 2004) to US\$1,401bn includes US\$61bn of net new assets and US\$11bn of market movements, partially offset by adverse exchange rate movements of US\$33bn. BGI manages assets denominated in numerous currencies with the majority being in US dollars.

BARCLAYS PLC

Wealth Management profit before tax increased 39% (GBP25m) to GBP89m (2004: GBP64m), reflecting broad based income growth and tight control of costs.

Total income increased 10% (GBP40m) to GBP452m (2004: GBP412m).

Net interest income increased 11% (GBP17m) to GBP165m (2004: GBP148m) reflecting good balance sheet growth. Total average customer deposits increased 9% to GBP22.2bn (2004: GBP20.4bn) driven by strong growth from offshore and private banking clients. Total average loans increased 27% to GBP4.2bn (2004: GBP3.3bn), largely as a result of an increase in lending to corporate clients in the offshore business. The deposit margin remained stable whilst the lending margin declined modestly.

Net fee and commission income increased 8% (GBP22m) to GBP283m (2004: GBP261m). The increase was driven principally by sales of investment products to private banking and financial planning clients together with the growth in equity markets.

Operating expenses increased 4% (GBP14m) to GBP362m (2004: GBP348m). Growth was driven by investment in new customer propositions, Gerrard integration costs and the continued investment in customer service and geographic expansion. Core operating costs remained in line with 2004 levels. The cost:income ratio improved to 80% (2004: 84%).

The integration of the Gerrard business continued to progress well with profits ahead of 2004 and expectations.

Total customer funds, comprising customer deposits and assets under management, increased to GBP74.2bn (31st December 2004: GBP70.8bn). Multi-Manager assets increased to GBP4.1bn (31st December 2004: GBP1.6bn), including existing customer assets.

BARCLAYS PLC

From 1st January 2005, following the application of IAS 39 and IFRS 4, life assurance products are divided into investment contracts and insurance contracts. Investment income from assets backing investment contracts, and the corresponding movement in investment contract liabilities, has been presented on a net basis in other income. Therefore the line by line results for 2005 are not directly comparable to those reported for 2004.

Wealth Management - closed life assurance activities loss before tax was stable at GBP2m (2004: loss of GBP1m). Profit before tax excluding endowment redress costs was GBP38m (2004: GBP32m).

Edgar Filing: BARCLAYS PLC - Form 6-K

Total income decreased GBP10m to GBP219m (2004: GBP229m). The decrease was offset by a broadly similar reduction in net claims and benefits of GBP12m.

Costs relating to redress for customers in respect of sales of endowment policies increased 21% (GBP7m) to GBP40m (2004: GBP33m). Other operating expenses decreased by 22% to GBP14m (2004: GBP18m).

BARCLAYS PLC

Barclaycard profit before tax decreased 17% (GBP80m) to GBP379m (2004: GBP459m) as good income growth was more than offset by higher impairment charges together with increased costs arising from continued investment in the business. Excluding Juniper, profit before tax fell 15% to GBP391m.

Total income, net of insurance claims, increased 11% (GBP132m) to GBP1,325m (2004: GBP1,193m) driven by good performances across the diversified UK cards and loans businesses, strong momentum in the international cards business and continued growth in Barclaycard Business. Excluding Juniper, income increased by 7% (GBP84m).

Net income fell 2% (GBP19m) to GBP817m (2004: GBP836m) as a result of the rise in impairment charges.

Net interest income increased 7% (GBP53m) to GBP863m (2004: GBP810m) reflecting growth in balances. UK average extended credit balances rose 11% to GBP8.8bn (2004: GBP7.9bn) and international average extended credit balances more than doubled to GBP1.7bn (2004: GBP0.8bn). Excluding Juniper, international average extended credit balances increased 28%. UK average consumer loan balances increased 8% to GBP9.9bn (2004: GBP9.2bn). Margins in the cards business declined from the levels in the first half of 2004, falling to 7.56% (2004: 7.83%), but increased from those in the second half of 2004 (6.88%), due to the flow through of the UK rate rises and a reduced impact from promotional offers. Margins in consumer lending fell from 2004 levels to 5.15% (2004: 6.31%), due to competitive pressure, change in the product mix and the impact of IAS 39 moving fee and commission expenses to net interest income. Excluding the impact of the application of IAS 32 and IAS 39 from 1st January 2005, net interest income increased by 5%.

Net fee and commission income increased 21% (GBP80m) to GBP454m (2004: GBP374m) reflecting the inclusion of Juniper for the full period and increased contributions from FirstPlus and Barclaycard Business. Excluding the impact of IAS 32 and IAS 39, net fee and commission income increased 16%.

Edgar Filing: BARCLAYS PLC - Form 6-K

Impairment charges increased to GBP508m, an increase of 26% relative to the second half of 2004 and 42% relative to the first half of 2004. The increase was driven largely by an increase in the size of the book and a rise in delinquent balances and severity rates. The increases arose primarily in the UK cards business and reflected the UK industry wide credit experience in the first part of 2005. In UK consumer loans and internationally (excluding Juniper), the rate of increase in impairment charges was lower. Non-performing card and loan balances increased significantly, driven by the growth in delinquent balances.

Operating expenses rose 16% (GBP60m) to GBP439m (2004: GBP379m) as a result of the inclusion of Juniper. Excluding Juniper, operating expenses rose 3%, mainly reflecting investment in international growth and the development of multi-brand businesses with partners in the UK. Costs in the UK cards and loans business were flat.

In the UK, the FirstPlus business and Barclaycard Business performed well. The SkyCard program was launched in April and customer recruitment was ahead of expectations at the end of the period.

Barclaycard International continued to make good progress with its growth strategy. The businesses in Germany and Spain performed particularly strongly. In June Barclaycard formed a new joint venture with Swedbank to develop a card business in the Nordic region. Barclaycard International profit before tax was GBP1m (2004: GBP1m). Excluding Juniper, profit before tax increased to GBP13m and total income rose 28%. Juniper performance and integration proceeded in line with expectations, with strong growth in balances and customer account numbers and a steady stream of new partnerships being established.

BARCLAYS PLC

International Retail and Commercial Banking performed very strongly with profit before tax increasing 30% (GBP43m) to GBP188m (2004: GBP145m). There

Edgar Filing: BARCLAYS PLC - Form 6-K

was progress in all geographies, with very good growth in Spain, where profit before integration costs rose 30%, driven by the successful realisation of synergies from the integration of Banco Zaragozano.

From 1st January 2005, following the application of IAS 39 and IFRS 4, life assurance products are divided into investment contracts and insurance contracts. Investment income from assets backing insurance contracts, and the corresponding movement in investment contract liabilities, has been presented on a net basis in other income. Therefore the line by line results for 2005 are not directly comparable to those reported for 2004.

Total income, net of insurance claims, increased 18% (GBP81m) to GBP521m (2004: GBP440m). Net income increased 22% (GBP92m) to GBP513m (2004: GBP421m).

Net interest income increased 12% (GBP31m) to GBP288m (2004: GBP257m) as a result of good balance growth in Spain, Italy, Africa and the Middle East. Total average customer loans increased 28% to GBP20.8bn (2004: GBP16.3bn), reflecting growth across the portfolio. Mortgage balance growth in Europe was strong with average Euro balances up 24% including the benefit of recent mortgage campaigns in France. Average lending balances in Africa and the Middle East increased 38%. Competitive pressures in key European markets and a change in the overall product mix, with a higher weighting to mortgages, have contributed to slightly lower lending margins. Average customer deposits increased 10% to GBP9.1bn (2004: GBP8.3bn), mainly in Africa and the Middle East. Excluding the impact of the application of IAS 32 and IAS 39 from 1st January 2005, net interest income increased by 5%.

Net fee and commission income increased 20% (GBP28m) to GBP171m (2004: GBP143m). This reflected a strong performance in Spain from increased fund management related fees, together with good growth in France. Spain's assets under management increased by 18%. Sales of mortgage related insurance products in Italy have also contributed. Fee income showed solid growth in Africa and the Middle East. Excluding the impact of IAS 32 and IAS 39, net fee and commission income increased 25%.

Principal transactions increased 14% (GBP9m) to GBP73m (2004: GBP64m). This reflected gains from investment realisations, including the sale of a preference share holding in FirstCaribbean, partly offset by the change in accounting for insurance businesses.

Impairment charges decreased 58% (GBP11m) to GBP8m (2004: GBP19m) with the reduction mainly in Africa and the Middle East.

Operating expenses increased 20% (GBP58m) to GBP345m (2004: GBP287m). The majority of the increase was attributable to integration costs in Spain and the continued expansion of the business in Africa and the Middle East. The cost: income ratio was 66% (2004: 65%).

Barclays Spain performed very strongly with profit before tax, pre integration costs, up 30% to GBP82m (2004: GBP63m). This was driven by benefits from the accelerated integration of Banco Zaragozano, together with growth in mortgages and assets under management. The integration of Banco Zaragozano is well ahead of plan.

BARCLAYS PLC

In Spain, Openplan continued to grow strongly reflecting the successful targeting of new customer segments. Total customer numbers increased in the period to 52,000 (31st December 2004: 47,000). The recent re-launch of Openplan in Portugal has contributed to a strong performance, supported by

Edgar Filing: BARCLAYS PLC - Form 6-K

further expansion in the branch network, and customer numbers reached 10,600 by 30th June (31st December 2004: 8,900).

Africa and the Middle East profit before tax increased 12% to GBP65m (2004: GBP58m) reflecting balance sheet growth across the businesses, particularly in Egypt, UAE and South Africa.

The post-tax profit from associates increased GBP9m to GBP20m (2004: GBP11m) reflecting an increased contribution from FirstCaribbean.

| | ----- | ----- | ----- |
| Loss before tax | (184) | (130) | (105) |
| | ----- | ----- | ----- |

Loss before tax increased GBP79m to GBP184m (2004: loss GBP105m), reflecting increased costs and the impact of the elimination of inter-segment transactions.

Group segmental reporting is prepared in accordance with Group accounting policies as if each business segment were a stand alone company. This means that inter-segment transactions are recorded in each segment as if undertaken on an arms length basis. Consolidation adjustments necessary to fully eliminate the inter-segment transactions, including adjustments to eliminate timing differences on the recognition of inter-segment cost and income, are included in Head office functions and other operations.

The consolidation adjustments amount to a loss to Head office functions and other operations of GBP132m. The most significant adjustments include: internal fees for structured capital market activities arranged by Barclays Capital of GBP63m (2004: GBP45m); the timing of the recognition of insurance commissions between UK Retail Banking and Barclaycard included as a net fee and commission expense of GBP49m (2004: GBPnil) and net fees paid to Barclays Capital for capital raising and currency management of GBP32m

Edgar Filing: BARCLAYS PLC - Form 6-K

(2004: GBPnil).

Net trading income of GBP55m (2004: GBP19m) arose as a result of hedging-related transactions in Treasury. The hedge ineffectiveness from 1st January 2005, together with other related Treasury adjustments, amounted to a gain of GBP12m (2004: GBPnil) and was reported in net interest income. Other income comprises mainly property rental income.

Impairment gains reflect recoveries made on loans previously written off in the transition businesses.

Operating expenses rose GBP79m to GBP136m (2004: GBP57m). Of this increase, GBP47m reflected non-recurring costs relating to the head office relocation to Canary Wharf.

BARCLAYS PLC

FINANCIAL REVIEW

Results by nature of income and expense

Net interest income

| | 30.06.05 GBPm | Half-year ended 31.12.04 GBPm | 30.06.04 GBPm |
|------------------|------------------|-------------------------------------|------------------|
| Interest income | 7,648 | 7,315 | 6,565 |
| Interest expense | (3,948) | (3,815) | (3,232) |
| | ----- | ----- | ----- |
| | 3,700 | 3,500 | 3,333 |
| | ----- | ----- | ----- |

Group net interest income increased 11% (GBP367m) to GBP3,700m (2004: GBP3,333m), reflecting growth in average balances across all businesses. Growth in net interest income was most notable in UK Banking, partly due to the growth in average lending balances and deposit balances and the reclassification of certain lending related fees from net fee and commission income to net income with the application of IAS 32 and IAS 39 from 1st January 2005. Net interest income also improved in Barclaycard and International Retail and Commercial Banking, as a result of strong growth in balances.

The increase in net interest income also reflects the application of IAS 32 and IAS 39 with effect from 1st January 2005, under which Reserve Capital Instruments and other capital instruments were classified from debt under UK GAAP to minority interests under IFRS. The associated funding cost has moved from interest expense to profit attributable to minority interests.

A component of the benefit of free funds included in Group net interest income is the structural hedge which functions to reduce the impact of the volatility of short-term interest rate movements. The contribution of the structural hedge has decreased to GBP58m (2004: GBP206m), largely due to the impact of higher short-term interest rates.

Reconciliation of divisional interest income to Group net interest income

| | 30.06.05 GBPm | Half-year-ended 31.12.04 GBPm | 30.06.04 GBPm |
|-----------------------------|------------------|-------------------------------------|------------------|
| Divisional interest income | 2,900 | 2,764 | 2,664 |
| Other: | | | |
| - Barclays Capital | 483 | 535 | 456 |
| - Barclays Global Investors | 7 | 1 | 4 |
| - Other | 310 | 200 | 209 |
| | ----- | ----- | ----- |
| Group net interest income | 3,700 | 3,500 | 3,333 |
| | ----- | ----- | ----- |

UK Retail Banking assets margin increased 5 basis points to 0.77% (2004: 0.72%). The application of IAS 32 and IAS 39 increased the assets margin for 2005 by 1 basis point. Excluding the impact of IAS 32 and IAS 39 the higher assets margin reflected stable mortgage margins and improved contributions from Personal Customer overdrafts and Small Business loans.

UK Business Banking assets margin increased 32 basis points to 1.88% (2004: 1.56%). The application of IAS 32 and IAS 39 had a significant effect on the UK Business Banking assets margin for 2005, increasing it by 34 basis points. UK Business Banking liabilities margin also experienced some modest downward pressure, decreasing 4 basis points to 1.44% (2004: 1.48%).

Wealth Management assets margin decreased 5 basis points to 0.98% (2004: 1.03%) due to some modest pressure in the business. The application of IAS 32 and IAS 39 did not impact the assets margin. Relative to the second half of 2004, asset margins improved by 6 basis points. Wealth Management liabilities margin was stable at 1.06% (2004: 1.06%).

Barclaycard cards margin decreased 27 basis points to 7.56% (2004: 7.83%). The application of IAS 32 and IAS 39 increased the cards margin in the first half of 2005 by 12 basis points. Margins in the cards business declined from the level of the first half of 2004 but increased on those of the second half of 2004 (6.88%). Barclaycard loans margin decreased 116 basis points to 5.15% (2004: 6.31%). The application of IAS 32 and IAS 39 reduced the loans margin in the first half of 2005 by 47 basis points. Margins in the loans business reduced due to competitive pressure and change in the product mix.

Edgar Filing: BARCLAYS PLC - Form 6-K

International Retail and Commercial Banking assets margin decreased 27 basis points to 1.42% (2004: 1.69%). The application of IAS 32 and IAS 39 increased the assets margin for 2005 by 8 basis points. Excluding the impact of IAS 32 and IAS 39 the assets margin reflected margin erosion from strong growth in continental European mortgage balances and competitive pressures. International Retail and Commercial Banking liabilities margin rose 12 basis points to 1.54% (2004: 1.42%).

1 Divisional interest income is the difference between the interest rate earned on average assets or paid on average liabilities relative to the average Bank of England base rate or local equivalents for international businesses. The margin is expressed as annualised divisional interest over average balance. Asset and liability margins cannot be added together as they are relative to the average Bank of England base rate or local equivalent for international businesses.

Average balances are calculated on daily averages for most UK banking operations and monthly averages elsewhere.

2005 figures are not strictly comparable to those in 2004 with the application of IAS 32 and IAS 39 from 1st January 2005 affecting the asset margin.

Within the reconciliation of Group net interest income, there is an amount captured as Other. This relates to: benefit of capital, including the restatement of Reserve Capital Instruments and other capital instruments; Head office functions and other operations; net funding on non customer assets and liabilities; and Wealth Management - closed life assurance activities.

BARCLAYS PLC

FINANCIAL REVIEW

Net fee and commission income

| | Half-year ended | | |
|----------------------------|-----------------|----------|----------|
| | 30.06.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm |
| Fee and commission income | 2,872 | 2,861 | 2,648 |
| Fee and commission expense | (332) | (329) | (333) |
| | ----- | ----- | ----- |
| | 2,540 | 2,532 | 2,315 |
| | ----- | ----- | ----- |

Net fee and commission income increased 10% (GBP225m) to GBP2,540m (2004: GBP2,315m), reflecting increases across the business. The application of IAS 32 and 39 caused the reclassification of GBP109m from net fee and commission income to net interest income in the first half of 2005. Excluding IAS 32 and 39 growth was 14% reflecting increases across all businesses.

Fee and commission income receivable rose 8% (GBP224m) to GBP2,872m (2004: GBP2,648m). The increase was driven by Barclays Global Investors, reflecting strong investment performance and higher market levels and Barclays Capital, due to increased business volumes and improved market share; and Barclaycard fee and commission income increased as a result of

Edgar Filing: BARCLAYS PLC - Form 6-K

including Juniper for the full period, and higher contributions from FirstPlus and Barclaycard Business.

Total foreign exchange income was GBP298m (half-year ended 31st December 2004: GBP260m; half-year ended 30th June 2004: GBP260m) and consisted of revenues earned from both retail and wholesale activities. The foreign exchange income earned on customer transactions by UK Retail Banking, UK Business Banking, International Retail and Commercial Banking, Barclaycard, Barclays Global Investors and Wealth Management, both externally and with Barclays Capital, is reported in those business units, within fee and commission income. The foreign exchange income earned in Barclays Capital is reported within trading income.

| | ----- | ----- | ----- |

Most of the Group's trading income is generated in Barclays Capital.

Trading income increased 46% (GBP373m) to GBP1,176m (2004: GBP803m) due to strong performances across the Rates and Credit businesses, in particular from commodities, foreign exchange, structured capital markets and credit derivatives. This was driven by higher volumes of client led activity across a broad range of products and geographic regions and the return on prior year headcount investment.

Net investment income rose by 19% (GBP60m) to GBP373m (2004: GBP313m) reflecting gains on the disposals of short term investments and fair value movements.

Following the application of IAS 39 at 1st January 2005, certain assets and

Edgar Filing: BARCLAYS PLC - Form 6-K

liabilities have been designated at fair value. Fair value movements on these items of GBP175m are taken to net investment income. Fair value movements on insurance assets included within this category contributed GBP149m.

From 1st January 2005, investment and insurance contracts are separately accounted for in accordance with IAS 39 and IFRS 4. This has resulted in investment income and the corresponding movement in investment contract liabilities being presented on a net basis within other income. In 2004, all contracts were accounted for as insurance contracts and the gross income relating to these contracts was reported as income from assets backing insurance policies.

| provided | (7) | (16) | 5 |
| | ----- | ----- | ----- |
| Total impairment charges and other credit provisions | 706 | 504 | 589 |
| | ----- | ----- | ----- |

Period-on-period comparison is affected by the adoption of IAS 39 on 1st January 2005, which has changed the absolute value and calculation basis of the impairment charges and Potential Credit Risk Loans (PCRLs).

The high level of household indebtedness in the UK and lower discretionary incomes have led to strains on household budgets and resulted in a deterioration in consumer credit risk. Wholesale and corporate credit conditions remained satisfactory though loan markets were very competitive.

Overall, an increase in retail impairment charges was partly offset by lower wholesale impairment charges, resulting in impairment charges for the half-year of GBP706m (2004: GBP589m). As a percentage of period-end total non-trading loans and advances, impairment charges on an annualised basis were 0.51% (2004: 0.53%).

Retail impairment charges increased to GBP582m (2004: GBP417m), accounting for over 80% of the Group's impairment charges and amounting to 1.06% (2004: 0.83%) of the period-end total non-trading loans and advances. The increase was predominantly in the UK cards portfolio. The mortgage impairment charge was low. There was some deterioration in mortgage arrears though they remain low and below the level of mid-2003.

In the wholesale and corporate businesses, impairment charges declined to GBP131m (2004: GBP161m). The decrease occurred largely in UK Business Banking which included a number of recoveries. Wholesale and corporate impairment charges were 0.16% (2004: 0.26%) of period-end total non-trading loans and advances.

In the second half of 2004, the credit loss was reduced by a number of one-off items, including an exceptional recovery of GBP57m in UK Business Banking and a release of mortgage provisions of GBP40m. The absence of such items means that the increase in the impairment charge in the first half of 2005 relative to the second half of 2004 appears greater than the increase in the underlying trends.

| Operating lease rentals | 137 | 115 | 100 |
| | ----- | ----- | ----- |
| | 4,542 | 4,562 | 3,974 |

Edgar Filing: BARCLAYS PLC - Form 6-K

Operating expenses increased 14% (GBP568m) to GBP4,542m (2004: GBP3,974m).

Administrative expenses increased 14% (GBP169m) to GBP1,382m (2004: GBP1,213m) principally as a result of higher business activity in Barclays Capital and Barclays Global Investors and the inclusion of Juniper in Barclaycard. There was a strong focus on cost control, particularly in UK Retail Banking.

Amortisation of intangible assets increased GBP8m to GBP17m (2004: GBP9m), primarily due to the acquisition of Juniper in December 2004.

Operating lease rentals increased by GBP37m to GBP137m (2004: GBP100m) as a consequence of the double occupancy costs associated with the head office relocation to Canary Wharf.

The Group cost:income ratio remained steady at 57%. This reflected improved productivity in UK Banking, Barclays Global Investors and Wealth Management, offset by increases in Barclays Capital, Barclaycard and International Retail and Commercial Banking, reflecting increased investment.

The Group cost:net income ratio was 63% (2004: 62%).

| | ----- | ----- | ----- |
| | 2,854 | 2,720 | 2,507 |
| | ----- | ----- | ----- |

Included in salaries and accrued incentive payments is GBP130m (half-year ended 31st December 2004: GBP115m; half-year ended 30th June 2004: GBP89m) arising from equity settled share based payments.

Staff costs increased by 14% (GBP347m) to GBP2,854m (2004:GBP2,507m).

Salaries and accrued incentive payments rose by 14% (GBP282m) to GBP2,256m (2004: GBP1,974m), primarily due to increased headcount in Barclays Capital and performance related payments primarily in Barclays Capital and Barclays Global Investors.

Edgar Filing: BARCLAYS PLC - Form 6-K

Pension costs comprise all UK and international pension schemes. Included in pension costs is a charge of GBP155m (2004: GBP140m) in respect of the Group's main UK pension schemes.

| | ----- | ----- | ----- |
| Total including temporary and agency staff | 83,100 | 82,700 | 81,800 |
| | ----- | ----- | ----- |

Staff numbers are shown on a full-time equivalent basis. Total Group permanent and contract staff comprise 59,200 (31st December 2004: 60,000) in the UK and 19,600 (31st December 2004: 18,400) internationally.

Since 31st December 2004, permanent and contract staff numbers increased by 400. The implementation of restructuring programmes resulted in a decrease of 800 staff, which was offset by the recruitment of additional staff throughout the Group.

UK Banking staff numbers fell by 1,100 to 40,700 (31st December 2004: 41,800), reflecting the cost management programme in UK Retail Banking offset by an increase in UK Business Banking frontline staff and the inclusion of 200 Iveco Finance staff.

Barclays Capital staff numbers rose by 500 to 8,300 (31st December 2004: 7,800), reflecting the continued expansion of the business. Barclays Global Investors increased staff numbers in line with business growth plans to 2,100 (31st December 2004: 1,900).

Barclaycard staff numbers rose by 500 to 7,200 (31st December 2004: 6,700), reflecting growth in Juniper and an increase in customer facing staff, particularly in partnership activities.

Edgar Filing: BARCLAYS PLC - Form 6-K

International Retail and Commercial Banking increased staff numbers by 300 to 12,400 (31st December 2004: 12,100), mainly due to growth in continental Europe.

Head office functions and other operations staff numbers remained stable at 900 (31st December 2004: 900).

The number of staff who were under notice at 30th June 2005, was 1,700.

FINANCIAL REVIEW

Share of results of associates and joint ventures (after tax)

| | 30.06.05 GBPm | Half-year ended 31.12.04 GBPm | 30.06.04 GBPm |
|----------------------------|------------------|-------------------------------------|------------------|
| Profit from joint ventures | 1 | - | - |
| Profit from associates | 15 | 42 | 14 |
| | ----- | ----- | ----- |
| | 16 | 42 | 14 |
| | ----- | ----- | ----- |

Profit from associates in the first half of 2005 primarily relates to the investment in FirstCaribbean.

Tax

The charge for the period is based upon a UK corporation tax rate of 30% for the calendar year 2005 (full-year 2004: 30%). The effective rate of tax for the first half of 2005 was 26.7% (2004: 26.3%). This excludes tax on associates and joint ventures whose results are stated on an after tax basis. This is lower than the standard rate due to the beneficial effects of lower tax on overseas income and certain non-taxable gains.

Profit attributable to minority interests

Dividends on ordinary shares

The Board has decided to pay, on 3rd October 2005, an interim dividend for the year ending 31st December 2005 of 9.2p per ordinary share, for shares registered in the books of the Company at the close of business on 19th August 2005. Shareholders who have their dividends paid direct to their bank or building society account will receive a consolidated tax voucher detailing the dividends paid in the 2004/2005 tax year in mid-October 2005.

The amount payable for the 2005 interim dividend is GBP582m (half-year ended 31st December 2004: GBP1,010m; half-year ended 30th June 2004: GBP528m). This amount excludes GBP12m payable on shares held by employee benefit trusts (half-year ended 31st December 2004: GBP7m; half-year ended 30th June 2004: GBP3m). Dividends payable are no longer accrued but rather are recognised when they are paid.

For qualifying US and Canadian resident ADR holders, the interim dividend of 9.2p per ordinary share becomes 36.8p per ADS (representing four shares). The ADR depository will mail the dividend on 3rd October 2005 to ADR holders on the record on 19th August 2005.

For qualifying Japanese shareholders, the interim dividend of 9.2p per ordinary share will be distributed in mid-October to shareholders on the record on 19th August 2005.

Shareholders may have their dividends reinvested in Barclays PLC shares by participating in the Barclays Dividend Reinvestment Plan. The plan is available to all shareholders, including members of Barclays Sharestore, provided that they do not live in or are subject to the jurisdiction of any country where their participation in the plan would require Barclays or The

Edgar Filing: BARCLAYS PLC - Form 6-K

Plan Administrator to take action to comply with local government or regulatory procedures or any similar formalities. Any shareholder wishing to obtain details and a form to join the plan should contact The Plan Administrator by writing to: The Plan Administrator to Barclays, Share Dividend Team, The Causeway, Worthing, West Sussex, BN99 6DA; or, by telephoning 0870 609 4535. The completed form should be returned to The Plan Administrator on or before 12th September 2005 for it to be effective in time for the payment of the interim dividend on 3rd October 2005. Shareholders who are already in the plan need take no action unless they wish to change their instructions in which case they should write to The Plan Administrator.

1 Potential ordinary shares reflect the dilutive effect of share options outstanding.

| Total shareholders' equity | 21,785 | 18,617 | 16,764 | 15,156 |
| Loan capital | 11,309 | 10,606 | 12,277 | 12,468 |
| | 33,094 | 29,223 | 29,041 | 27,624 |

The authorised share capital of Barclays PLC is GBP2,500m (2004: GBP2,500m) comprising 9,996 million (2004: 9,996million) ordinary shares of 25p shares and 1 million (2004: 1 million) staff shares of GBP1 each. Called up share capital comprises 6,461million (December 2004: 6,454 million; June 2004: 6,447 million) ordinary shares of 25p each and 1 million (2004: 1 million) staff shares of GBP1 each.

Total capital resources increased since 1st January 2005 by GBP3,871m to GBP33,094m.

Shareholders' equity excluding minority interests increased by GBP812m since 1st January 2005. The increase included profits attributable to shareholders of GBP1,841m, available for sale movements of GBP60m, GBP32m of proceeds from shares issued, cashflow hedge movements of GBP26m, tax

Edgar Filing: BARCLAYS PLC - Form 6-K

credits of GBP26m and foreign exchange movements of GBP23m and other movements of GBP31m. These were offset by dividends of GBP1,017m, increases in ESOP shares of GBP120m and tax adjustments of GBP90m.

Loan capital rose by GBP703m reflecting raisings of GBP1,011m, fair value uplift of GBP156m and exchange rate movements of GBP41m offset by redemptions of GBP458m, accrued interest of GBP44m and amortisation of issue expenses of GBP3m.

Minority interests increased by GBP2,356m since 1st January 2005 primarily reflecting the issue of preference shares during the first six months of 2005:

- 140,000 preference shares of Euro 100 each (EUR1.4bn; GBP978m) with a 4.75% dividend
- 100,000 preference shares of US\$100 each (US\$1.0bn; GBP551m) with a 6.278% dividend
- 75,000 preference shares of GBP100 each (GBP750m) with a 6% dividend

The impact of IAS 32 resulted in the reclassification of certain capital instruments from debt to minority interests. This accounts for substantially all of the increase in minority interests between 31st December 2004 and 1st January 2005.

1 This amount includes GBP7m dividend on shares held by employee benefit trusts.

BARCLAYS PLC

Capital ratios (continued)

Capital ratios strengthened from 1st January 2005 with the addition of GBP3.6bn in net total capital resources. This more than offset the growth

Edgar Filing: BARCLAYS PLC - Form 6-K

in weighted risk assets. The risk asset ratio increased 30 basis points and the Tier 1 capital ratio increased 50 basis points.

Tier 1 capital rose GBP2.9bn, including retained profit of GBP0.8bn. In accordance with IFRS, no amount has been provided for the 2005 interim dividend which will impact the capital ratios when paid. Minority interests increased GBP2.4bn primarily due to the issuance of GBP2.3bn of preference shares by Barclays Bank PLC. This increase included funding for balance sheet growth and for the acquisition of a majority stake in Absa which closed subsequent to the half-year end. Tier 2 capital increased GBP1.1bn largely due to the issue of loan stock. The Tier 3 debt matured in April 2005.

The increase in weighted risk assets since 1st January 2005 comprised a rise of GBP13.8bn in the Banking book and a rise of GBP8.9bn in the Trading book.

A reconciliation of accounting capital to regulatory capital is as follows:

| | 30.06.05 GBPm | 01.01.05 GBPm |
|---|------------------|------------------|
| Shareholders' equity excluding minority interests | 16,099 | 15,287 |
| Available for sale reserve | (374) | (314) |
| Cashflow hedging reserve | (328) | (302) |
| Defined benefit pension scheme | 1,401 | 1,252 |
| Additional companies in regulatory consolidation and non-consolidated companies | 5 | 266 |
| Foreign exchange on Reserve Capital Instruments and | | |
| Upper Tier 2 loan stock | 390 | 459 |
| Other adjustments | (33) | (101) |
| | ----- | ----- |
| Called up share capital and eligible reserves for regulatory purposes | 17,160 | 16,547 |
| | ----- | ----- |

The difference between shareholders' equity excluding minority interests and called up share capital and eligible reserves for regulatory purposes, arises from the treatment of regulatory capital versus the treatment of accounting capital.

The available for sale reserve in respect of debt instruments is reversed for regulatory capital purposes. Equity net losses are written back but net gains are included in Tier 2 capital. The effect of cashflow hedging is eliminated from the calculation of regulatory capital.

For regulatory capital purposes the defined benefit pension scheme post tax deficit is replaced with a liability calculated for regulatory purposes.

For regulatory capital purposes the Reserve Capital Instruments and Upper Tier 2 loan stock are converted to sterling at the exchange rates ruling at the reporting date rather than the exchange rates at issue date which are used for financial reporting.

BARCLAYS PLC

Total assets and weighted risk assets

Edgar Filing: BARCLAYS PLC - Form 6-K

Total assets increased 19% to GBP850.1bn (1st January 2005: GBP715.6bn). Weighted risk assets increased 10% to GBP242.4bn (1st January 2005: GBP219.8bn). Securitised assets are excluded from weighted risk assets but included in total assets.

UK Banking total assets increased 4% to GBP134.3bn (1st January 2005: GBP128.6bn). Weighted risk assets increased 8% to GBP100.4bn (1st January 2005: GBP92.6bn).

UK Retail Banking total assets decreased 2% to GBP67.5bn (1st January 2005: GBP69.1bn). This was mainly attributable to lower period end UK residential mortgage balances. Weighted risk assets decreased 2% to GBP37.0bn (1st January 2005: GBP37.8bn).

UK Business Banking total assets increased 12% to GBP66.8bn (1st January 2005: GBP59.5bn). Weighted risk assets increased 16% to GBP63.3bn (1st January 2005: GBP54.8bn), reflecting strong growth in lending balances. The acquisition of a 51% stake in Iveco Finance, completed in June, increased total assets and weighted risk assets by GBP1.8bn. Excluding the impact of Iveco Finance, assets and weighted risk assets increased by 9% and 12% respectively.

Barclays Capital total assets increased 25% to GBP566.7bn (1st January 2005: GBP454.4bn), due to the impact of market movements on derivatives financial instruments and growth in settlement balances and debt securities, as the expansion of the business continued. Weighted risk assets increased 14% to GBP90.8bn (1st January 2005: GBP79.5bn), reflecting increased business volumes and expansion of the credit derivatives business to meet client demand.

Barclays Global Investors total assets increased 12% to GBP68.6bn (1st January 2005: GBP61.2bn) due to growth in asset management products held on the balance sheet. Equal and offsetting balances are reflected within liabilities to customers. Weighted risk assets rose 25% to GBP1.5bn (1st January 2005: GBP1.2bn), primarily driven by growth in the securities lending business.

Wealth Management total assets increased 2% to GBP5.2bn (1st January 2005: GBP5.1bn). Weighted risk assets increased 10% to GBP4.6bn (1st January 2005: GBP4.2bn) reflecting the growth in lending balances.

Barclaycard total assets increased 4% to GBP23.8bn (1st January 2005: GBP22.9bn). Weighted risk assets were in line at GBP21.7bn (1st January 2005: GBP21.6bn).

International Retail and Commercial Banking total assets increased 3% to GBP29.5bn (1st January 2005: GBP28.7bn) and weighted risk assets increased 4% to GBP19.4bn (1st January 2005: GBP18.7bn).

Head office and other operations total assets increased 192% to GBP10.8bn (1st January 2005: GBP3.7bn), excluding goodwill. The increase includes assets acquired for hedging purposes and cash raised from preference share issues during the period relating to the funding for the acquisition of Absa which closed in July. Weighted risk assets increased 116% to GBP4.1bn (1st January 2005: GBP1.9bn) reflecting assets held for hedging purposes.

BARCLAYS PLC

Economic capital

Edgar Filing: BARCLAYS PLC - Form 6-K

Barclays assesses capital requirements by measuring the Group risk profile using both internally and externally developed models. The Group assigns economic capital primarily within seven risk categories: Credit Risk, Market Risk, Business Risk, Operational Risk, Insurance Risk, Fixed Assets and Private Equity.

The Group regularly enhances its economic capital methodology and benchmarks outputs to external reference points. During 2004, the framework was enhanced to reflect default probabilities during average credit conditions, rather than those prevailing at the balance sheet date, thus seeking to remove cyclicity from the capital calculation. The framework also adjusts capital to reflect time horizon, correlation of risks and risk concentrations.

Economic capital is allocated on a consistent basis across all of Barclays businesses and risk activities. A single cost of equity is applied to calculate the cost of risk. Capital allocations are adjusted to reflect varying levels of risk.

The total average economic capital required by the Group, as determined by risk assessment models and after considering the Group's estimated diversification benefits, is compared with the supply of capital to evaluate capital utilisation. Supply of economic capital is calculated as the average available shareholders' equity after adjustment and including preference shares.

The economic capital methodology will form the basis of the Group's submission for the Basel II Internal Capital Adequacy Assessment Process (ICAAP).

Capital demand

The average demand for capital from the Group's businesses via the economic capital framework is set out below:

| | Half-year ended | | |
|---|-----------------|----------|----------|
| | 30.06.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm |

| | ----- | ----- | ----- |
| Economic capital requirement (excluding goodwill) | 13,700 | 12,700 | 12,000 |

Edgar Filing: BARCLAYS PLC - Form 6-K

| | | | |
|---|--------|--------|--------|
| Average historic goodwill ¹³ | 5,800 | 5,650 | 5,550 |
| | ----- | ----- | ----- |
| Total economic capital requirement | 19,500 | 18,350 | 17,550 |
| | ----- | ----- | ----- |

- 1 Includes Transition Businesses and capital for central functional risks.
- 2 The Group's practice is to maintain an appropriate level of excess capital, held at Group centre, which is not allocated to business units. This variance arises as a result of capital management timing and includes capital held to cover pension contribution risk.
- 3 Average goodwill relates to purchased goodwill and intangibles from business acquisitions.

BARCLAYS PLC

UK Retail Banking economic capital allocation increased GBP50m to GBP2.25bn. The impact of growth was offset by a risk transfer transaction within UK mortgages. UK Business Banking economic capital allocation increased GBP300m to GBP2.9bn as a consequence of asset growth and the addition of the Iveco Finance business.

Barclays Capital economic capital increased by GBP300m to GBP2.4bn reflecting underlying growth in loan and derivative portfolios and the Group-wide annual recalibration of business and operational risk economic capital.

Wealth Management ongoing business economic capital allocation increased GBP50m to GBP400m as a consequence of general growth across all businesses and the recalibration of business and operational risk economic capital.

Wealth Management - closed life assurance activities economic capital allocation reduced GBP50m to GBP50m reflecting the impact of IFRS removing the volatility associated with embedded value accounting.

Barclaycard economic capital allocation increased by GBP150m to GBP2.65bn, due to growth in outstandings and the acquisition of Juniper.

International Retail and Commercial Banking economic capital allocation increased by GBP100m to GBP1.1bn due to the Group-wide annual recalibration of business and operational risk economic capital together with growth exposure in Africa and Spain.

Capital held at the Group centre rose GBP100m to GBP1.6bn, as a result of the increase in available funds to support economic capital (see Capital supply).

Capital supply

The Group has determined that the impacts of IFRS should be modified in calculating available funds for economic capital. This applies specifically to:

- Cashflow hedge reserve - to the extent that the Group undertakes the hedging of future cash flows, shareholders' equity will include gains and losses which will be offset at the conclusion of the future hedged transaction. Given the future offset of such gains and losses, they are excluded from shareholders' equity upon which the capital charge is based.
- Available for sale reserve - unrealised gains and losses on such securities are included in shareholders' equity until disposal or

Edgar Filing: BARCLAYS PLC - Form 6-K

impairment. Such gains and losses will be excluded from shareholders' equity for the purposes of calculating the capital charge. Realised gains and losses and any impairment charges recorded in the income statement will impact economic profit.

- Pension liability - the Group has recorded a deficit with a consequent reduction in shareholders' equity. This represents a non-cash reduction in shareholders' equity. For the purposes of deriving the capital charge, the Group will not deduct the pension deficit from shareholders' equity upon which the capital charge is based, a policy that is also followed for regulatory purposes.

The capital resources to support economic capital comprise adjusted shareholders' equity including preference shares but excluding other minority interests. Preference shares have been issued to optimise the long-term capital base of the Group.

BARCLAYS PLC

The average supply of capital to support the economic capital framework is set out below:

| | Half-year ended | | |
|---|-----------------|----------|----------|
| | 30.06.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm |
| Shareholders' equity excluding minority interests, | | | |
| less goodwill ¹ | 11,000 | 10,600 | 10,300 |
| Pension liability | 1,500 | 1,750 | 1,700 |
| Cashflow hedge reserve | (250) | | |
| Available for sale reserve | (300) | | |
| Preference shares | 1,750 | 350 | - |
| | ----- | ----- | ----- |
| Available funds for economic capital excluding goodwill | 13,700 | 12,700 | 12,000 |
| Average historic goodwill ² | 5,800 | 5,650 | 5,550 |
| | ----- | ----- | ----- |
| Available funds for economic capital | 19,500 | 18,350 | 17,550 |
| | ----- | ----- | ----- |

1 Averages for the period will not correspond to period-end balances disclosed in the balance sheet. Numbers are independently rounded to the nearest GBP50m for presentational purposes only.

2 Average goodwill relates to purchased goodwill and intangibles from business acquisitions.

BARCLAYS PLC

Economic profit

Economic profit comprises:

- Profit after tax and minority interests; less
- Capital charge (average shareholders' equity excluding minority interests multiplied by the Group cost of capital).

Edgar Filing: BARCLAYS PLC - Form 6-K

The Group cost of capital has been applied at a uniform rate of 9.5%. Prior periods have been restated on a comparable basis.

The economic profit for the Group is set out below:

| | Half-year ended | | |
|--|-----------------|----------|----------|
| | 30.06.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm |
| Profit after tax and minority interests | 1,841 | 1,456 | 1,798 |
| Addback of amortisation charged on acquired intangible assets | 7 | 6 | - |
| | ----- | ----- | ----- |
| Profit for economic profit purposes | 1,848 | 1,462 | 1,798 |
| | ----- | ----- | ----- |
| Average shareholders' equity for economic profit purposes ¹ | 17,750 | 18,000 | 17,550 |
| | ----- | ----- | ----- |
| Capital charge at 9.5% | (844) | (858) | (834) |
| | ----- | ----- | ----- |
| Economic profit | 1,004 | 604 | 964 |
| | ----- | ----- | ----- |

¹ Average ordinary shareholders' equity for Group economic profit calculation is the sum of adjusted equity and reserves plus goodwill, but excludes preference shares.

BARCLAYS PLC

Economic profit generated by business

| | Half-year ended | | |
|--|-----------------|----------|----------|
| | 30.06.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm |
| UK Banking | 592 | 565 | 593 |
| | ----- | ----- | ----- |
| UK Retail Banking | 256 | 183 | 290 |
| UK Business Banking | 336 | 382 | 303 |
| | ----- | ----- | ----- |
| Barclays Capital | 346 | 230 | 291 |
| Barclays Global Investors | 129 | 108 | 87 |
| Wealth Management | 49 | 23 | 47 |
| Wealth Management - closed life assurance activities | (8) | (79) | 2 |
| Barclaycard | 115 | 148 | 202 |
| International Retail and Commercial Banking | 70 | 54 | 57 |
| Head office functions and other operations | (19) | (138) | (8) |
| | ----- | ----- | ----- |
| Historic goodwill | 1,274 | 911 | 1,271 |
| | (275) | (268) | (265) |

Edgar Filing: BARCLAYS PLC - Form 6-K

| | | | |
|--|-------|-------|-------|
| Variance to average shareholders' funds (excluding minority interest) | 5 | (39) | (42) |
| | ----- | ----- | ----- |
| Economic profit | 1,004 | 604 | 964 |
| | ----- | ----- | ----- |

Economic profit for the Group increased 4% (GBP40m) to GBP1,004m (2004: GBP964m). The rise in economic profit was less than the increase in profit before tax due to the increased share of minority interests and the growth in average shareholders' funds.

BARCLAYS PLC

Risk Tendency

As part of its credit risk management system, the Group uses a model-based methodology to assess the point-in-time expected loss of credit portfolios across different customer categories. The approach is termed Risk Tendency and applies to credit exposures in both wholesale and retail sectors. Risk Tendency provides statistical estimates of losses expected to arise within the next year based on averages in the ranges of possible losses expected from each of the current portfolios. This can be contrasted with impairment allowances required under accounting standards, which are based on losses known to have been incurred at the balance sheet date.

Since Risk Tendency and impairment allowances are calculated for different purposes and on different bases, Risk Tendency does not predict loan impairment. Risk Tendency is provided to present a view of the evolution of the quality and scale of the credit portfolios.

| | 30.06.05 | As at 31.12.04 | 30.06.04 |
|--|----------|-------------------|----------|
| | GBPm | GBPm | GBPm |
| UK Banking | 420 | 375 | 360 |
| | ----- | ----- | ----- |
| UK Retail Banking | 160 | 150 | 150 |
| UK Business Banking | 260 | 225 | 210 |
| | ----- | ----- | ----- |
| Barclays Capital | 75 | 70 | 80 |
| Wealth Management | 5 | 5 | 5 |
| Barclaycard | 980 | 860 | 810 |
| International Retail and Commercial Banking | 75 | 65 | 75 |
| Transition Businesses | 20 | 20 | 10 |
| | ----- | ----- | ----- |
| | 1,575 | 1,395 | 1,340 |
| | ----- | ----- | ----- |

Risk Tendency increased from GBP1,395m at 31st December 2004 to GBP1,575m, an increase of GBP180m (13%). The largest increase occurred in Barclaycard, which rose GBP120m to GBP980m. The increase reflects the deteriorating credit conditions in the UK credit card market. Risk Tendency increased in UK Business Banking due to the acquisition of the Iveco business and the growth in the loan book.

Edgar Filing: BARCLAYS PLC - Form 6-K

BARCLAYS PLC

ADDITIONAL INFORMATION

Basis of preparation

The Group will adopt the requirements of International Financial Reporting Standards and International Accounting Standards (collectively IFRS) for the first time for the purpose of preparing financial statements for the year ending 31st December 2005.

The Group issued an IFRS Transition Report on 11th May 2005 ('the Transition Report') that set out the restated 2004 comparatives and 2005 opening balance sheet and also provided the reconciliations required by IFRS and the provisional accounting policies expected to be applied in the preparation of the 2005 financial statements.

As explained in the Transition Report, the next annual financial statements of the Group will be prepared in accordance with accounting standards issued by the International Accounting Standards Board and adopted by the European Union. The financial information in this Interim Results Announcement has been prepared in accordance with the basis of preparation and provisional accounting policies included in the Transition Report ('Basis of Preparation') except for the use of the fair value option as explained below.

The accounting policies are consistent with those the Group intends to use in the next annual financial statements. As explained in the Basis of Preparation contained within the Transition Report there is, however, a possibility that some changes may be necessary when preparing the full annual financial statements for the first time in accordance with accounting standards issued by the International Accounting Standards Board and adopted by the European Union. The accounting standards and International Financial Reporting Interpretations Committee (IFRIC) interpretations that will be applicable, and adopted for use in the European Union at 31st December 2005, are not known with certainty at the time of preparing this financial information.

The fair value option

At present, the EU endorsed version of IAS 39 'Financial Instruments: Recognition and Measurement' does not permit non-trading financial liabilities to be designated at fair value through profit or loss. However, it is expected that the recent amendments to IAS 39 will result in the EU endorsing a revised version of the standard that will permit designations for both financial assets and liabilities in certain circumstances ('the fair value option'). The relevant transitional arrangements are expected to permit designations in accordance with the fair value option to be made as at 1st January 2005 for companies adopting IFRS from that date. The 2005 interim financial information has been prepared on the basis that the fair value option has been used in the following circumstances:

a) Financial assets backing insurance contracts and financial assets backing investment contracts are designated at fair value through profit or loss because the related liabilities have cash flows that are contractually based on the performance of the assets or the related liabilities are insurance contracts whose measurement incorporates current information. Fair valuing the assets significantly reduces the recognition inconsistencies that would arise if the financial assets were classified as available for sale.

Edgar Filing: BARCLAYS PLC - Form 6-K

b) Financial assets, loans to customers, financial liabilities and structured notes are designated at fair value through profit or loss where they contain substantive embedded derivatives or where doing so significantly reduces measurement inconsistencies that would arise if the related economic hedging derivatives were treated as held for trading and the underlying financial instruments were carried at amortised cost.

BARCLAYS PLC

ADDITIONAL INFORMATION

Restatement of 1st January 2005 reconciliation as at 01.01.05 as previously published for use of the fair value option

The reconciliations for 1st January 2005 and the 2005 opening balance sheet information provided in the Transition Report have been restated as follows:

BARCLAYS PLC

ADDITIONAL INFORMATION

Group structure changes from 2004

The presentation of results by business differs from that provided in 2004 in the following respects:

- International Retail and Commercial Banking and Wealth Management (formerly called Private Clients) are reported as completely separate business divisions and not aggregated, reflecting changes in management accountability.
- The results for the Wealth Management - closed life assurance activities are provided separately from those for the rest of Wealth Management. The introduction of IFRS requires that the results of the closed life assurance activities are recorded on a line by line basis rather than the previous single line presentation. In order that the presentation of the underlying financial performance of Wealth Management is not distorted, it is considered appropriate to report the closed life assurance activity separately.
- The 2004 results of Barclaycard and UK Retail Banking have been restated to reflect the 2005 change in allocation of branch network costs and insurance sales between the two divisions. This had the impact of increasing Barclaycard profit before tax by GBP59m and reducing UK Banking profit before tax by the same amount.
- In order to comply with segmental reporting under IFRS, a new Income Statement has been prepared for 'Head office functions and other operations'. This information was previously reported in an abbreviated format.

Acquisitions and disposals

On 1st June 2005, Barclays Asset and Sales Finance ('BASF') acquired a 51% share and controlling stake in Fiat's Iveco Vehicle Finance Business. The transaction will expand BASF's commercial vehicle expertise across Europe.

On 30th June 2005, EnterCard, the joint venture between Barclays Bank PLC and ForeningsSparbanken (also know as Swedbank), which was announced on 4th February 2005, began operations. Barclays Bank PLC has a 50% economic

Edgar Filing: BARCLAYS PLC - Form 6-K

interest in the joint venture. EnterCard will provide credit cards in the Nordic market, initially in Sweden and Norway.

BARCLAYS PLC

ADDITIONAL INFORMATION

Change in accounting estimate

The Group has undertaken a review of the actual useful economic lives of property, plant and equipment. As a result of this review, the assumed useful economic lives of the costs of adaptation of freehold and leasehold property and equipment installed in freehold and leasehold property have increased from 10 to a range of 10-15 years. The useful economic lives of fixtures and fittings and other equipment have increased from 5 to a range of 5-10 years. This change in accounting estimate better reflects historical experience and has been applied prospectively from 1st January 2005. This has reduced the depreciation charge for the period to 30th June 2005 by GBP15m.

Hedge accounting

The element of ineffectiveness arising on hedges that qualify for hedge accounting is included in net interest income.

Share capital

The Group manages both its debt and equity capital actively. The Group's authority to buy back ordinary shares was renewed at the 2005 Annual General Meeting.

Group share schemes

The independent trustees of the Group's share schemes may make purchases of Barclays PLC ordinary shares in the market at any time or times following this announcement of the Group's results for the purposes of those schemes' current and future requirements. The total number of ordinary shares purchased would not be material in relation to the issued share capital of Barclays PLC.

Filings with the SEC

The results will be furnished as a Form 6-K to the US Securities and Exchange Commission as soon as practicable following the publication of these results.

Other information

The interim report for the six months to 30th June 2005, including extracts from this announcement and the independent review report by the auditors, will be advertised in The Daily Telegraph and the Daily Mail on 6th August 2005. Copies will be available to the public at Barclays registered office and at its website www.investorrelations.barclays.co.uk.

ADDITIONAL INFORMATION

Edgar Filing: BARCLAYS PLC - Form 6-K

Recent developments

On 9th May, 2005, Barclays announced the terms of an intended recommended acquisition of a majority stake of up to 60% in Absa Group Limited ('Absa'). The acquisition comprised a scheme of arrangement and a partial offer to shareholders, which were interconditional. The Board of Directors of Absa voted unanimously to recommend the acquisition to shareholders. The South African Minister of Finance approved Barclays application to acquire a majority stake in Absa, and the acquisition has been endorsed by Absa's black economic empowerment partner.

The Absa transaction closed on 27th July 2005. At closing, Barclays owned 53.96% of Absa. On 1st August 2005, Barclays acquired a further 14.5 million shares in Absa taking its ordinary shareholding to 56.1%, which affords Barclays voting control. The aggregate consideration for the investment in Absa was R31,087m (approximately GBP2.6 billion at an exchange rate of 11.96 as at 30th June 2005).

Naguib Kheraj and David Roberts joined the Boards of Absa and Absa Bank Ltd as non-executive Directors on 27th July 2005. Dominic Bruynseels, Chief Executive Officer of Barclays Africa and Middle East, joined the Absa Boards on 27th July 2005, as an executive Director. Dr Danie Cronje, the Chairman of Absa, will join the Boards of Barclays PLC and Barclays Bank PLC as a non-executive Director on 1st September 2005.

The Absa transaction was financed from a combination of available resources and preference share finance. For Absa's financial year-ended 31st March 2005, Absa reported an increase of 23% in profit before tax to R7,633m (year-ended 31st March 2004: R6,223m) and net assets as at the year-end of R23,737m.

On 11th July 2005 Barclays announced that it had acquired the wealth business of ING Securities Bank (France), consisting of ING Ferri and ING Private Banking on 1st July 2005. At 31st December 2004, the combined business of ING Ferri and ING Private Banking had net assets of approximately EUR10million and assets under management of approximately EUR2.7 billion.

The Office of Fair Trading (OFT) has been investigating the level of default charges applied by the credit card industry since October 2003. These are fees charged when a customer pays late or goes over their credit limit. Barclaycard, along with other credit card issuers, has been cooperating with the investigation. The OFT issued a press release on 26th July 2005 stating that their provisional conclusion was that these fees are excessive and need to be reduced to be fair. The OFT have given Barclaycard, and seven other credit card companies, three months to provide suitable undertakings regarding the basis of future default charges or otherwise to address the concerns of the OFT. Barclays is considering the impact of the provisional finding on the credit card industry and Barclaycard, including steps to mitigate any financial impact for shareholders. Barclays will continue to work with the OFT to address its concerns over the next three months.

BARCLAYS PLC

NOTES (UNAUDITED)

1. Assets held in respect of linked liabilities to customers under investment contracts/liabilities arising from investment contracts

Edgar Filing: BARCLAYS PLC - Form 6-K

| | 30.06.05 | 01.01.05 | 31.12.04 | 30.06.04 |
|---|----------|----------|----------|----------|
| | GBPm | GBPm | GBPm | GBPm |
| Non-trading financial instruments fair valued through profit and loss | | | | |
| - held in respect of linked liabilities | 69,792 | 63,124 | | |
| Cash and bank balances within the funds | 1,816 | 1,485 | | |
| | ----- | ----- | | |
| | 71,608 | 64,609 | | |
| | ----- | ----- | | |
| Liabilities to customers under investment contracts | 71,608 | 64,609 | | |
| | ----- | ----- | | |

This comprises assets under management held on behalf of clients, required to be recognised on the balance sheet under IAS 39.

2. Derivative financial instruments

The tables set out below analyse the contract or underlying principal and the fair value of derivative financial instruments held for trading purposes and for the purposes of managing the Group's structural exposures. Derivatives are measured at fair value and the resultant profits and losses from derivatives held for trading purposes are included in net trading income. Where derivatives are held for risk management purposes and when transactions meet the criteria specified in IAS 39, the Group applies hedge accounting as appropriate to the risks being hedged.

| | As at 30.06.05 | | |
|--|-----------------|-------------------|--------------------------|
| | Contract amount | Fair value Assets | Fair value (Liabilities) |
| | GBPm | GBPm | GBPm |
| Derivatives designated as held for trading | | | |

The geographic presentation of loans and advances is based on the location of the customer. In previous publications, it was based on the location of the office recording the transaction.

1 Reverse repurchase agreements are now disclosed separately on the face of the balance sheet.

2 Excludes commercial property mortgages.

3 Overseas customers are now classified as part of other industry segments.

BARCLAYS PLC

4. Loans and advances to customers (continued)

In 2005, total loans and advances have decreased primarily due to the reclassification of reverse repurchase agreements, in accordance with IAS 39.

The industry classifications have been prepared at the level of the borrowing entity. This means that a loan to the subsidiary of a major corporation is classified by the industry in which that subsidiary operates even though the parent's predominant business may be a different industry.

BARCLAYS PLC

6. Potential credit risk loans (continued)

Since 1st January 2005, non-performing loans (NPLs) have increased 7% to GBP4,371m (1st January 2005: GBP4,089m). The increase occurred in the retail businesses with wholesale and corporate NPLs remaining flat. Potential problem loans (PPLs) decreased 8% from the beginning of the year to GBP731m (1st January 2005: GBP795m). Retail PPLs increased but this was more than offset by the decline in the level of wholesale and corporate PPLs. The increase in the Potential Credit Risk Loans (PCRLs) occurred mainly in the UK.

The value of PCRLs at 31st December 2004 was restated for the adoption of IFRS on 1st January 2005. This restatement has not been applied to the numbers for 30th June 2004 and, as a consequence, these numbers are not comparable with the current values. In addition, due to improved modelling, PCRLs in the mortgage business have been restated. The restatement has been applied to the prior periods shown, causing increases of GBP226m at 30th June 2004 and GBP172m at 31st December 2004 and at 1st January 2005. This restatement does not reflect changes in credit quality but arises from the extension of Group methodology to the mortgage portfolios which were previously estimated on a different basis.

Coverage of NPLs by the stock of impairment allowances increased to 65.0% (1st January 2005: 64.5%). Coverage of PCRLs rose to 55.7% (1st January 2005: 54.0%).

7. Available for sale financial investments

| | 30.06.05 | As at 01.01.05 | 31.12.04 | 30.06.04 |

| | ----- | ----- | ----- | ----- |
| | 61,143 | 48,097 | - | - |

Edgar Filing: BARCLAYS PLC - Form 6-K

As at 1st January 2005, financial instruments have been classified and measured in accordance with IAS 39. In general, investment securities held under UK GAAP have been classified as available for sale under IFRS.

BARCLAYS PLC

8. Other assets

| | | As at | | |
|---|----------|----------|----------|----------|
| | 30.06.05 | 01.01.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm | GBPm |
| Sundry debtors | 2,789 | 3,042 | 3,711 | 3,629 |
| Prepayments | 530 | 415 | 467 | 410 |
| Balances arising from off-balance sheet instruments | | | 18,174 | 14,000 |
| Accrued income | 172 | 190 | 3,563 | 3,305 |
| | ----- | ----- | ----- | ----- |
| | 3,491 | 3,647 | 25,915 | 21,344 |
| | ----- | ----- | ----- | ----- |

As at 1st January 2005, balances arising from off-balance sheet instruments were reclassified to derivative financial instruments.

Also from 1st January 2005, accrued income no longer includes accrued interest, which is included in the loan balances as part of the effective interest rate calculation.

9. Insurance assets, including unit-linked assets

| | | As at | | |
|---|----------|----------|----------|----------|
| | 30.06.05 | 01.01.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm | GBPm |
| Reinsurer's share of provisions | 107 | 109 | 109 | 105 |
| Assets held to cover linked liabilities | | | 5,870 | 5,836 |
| Assets held to cover non-linked liabilities | | | 2,597 | 2,224 |
| | ----- | ----- | ----- | ----- |
| | 107 | 109 | 8,576 | 8,165 |
| | ----- | ----- | ----- | ----- |

In 2005, investment and insurance contracts are separately accounting for in accordance with IAS 39 and IFRS 4. At 1st January 2005, this has resulted in the majority of the assets within the life assurance businesses being classified as financial assets designated at fair value. These assets are held both in respect of linked liabilities to customers under investment contracts and also held on own account. In 2004, assets held to cover linked liabilities and provision for linked liabilities were aggregated and

Edgar Filing: BARCLAYS PLC - Form 6-K

reported as insurance assets and insurance contract liabilities.

10. Insurance contract liabilities, including unit-linked liabilities

| | As at | | | |
|---|----------|----------|----------|----------|
| | 30.06.05 | 01.01.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm | GBPm |
| Long term business provision: | | | | |
| - Provision for linked liabilities | 1,434 | 1,460 | 5,821 | 5,722 |
| - Provision for non-unit linked liabilities | 2,098 | 2,100 | 2,520 | 2,186 |
| Provision for claims outstanding | 57 | 36 | 36 | 36 |
| | ----- | ----- | ----- | ----- |
| | 3,589 | 3,596 | 8,377 | 7,944 |
| | ----- | ----- | ----- | ----- |

In 2005, investment and insurance contracts are separately accounted for in accordance with IAS 39 and IFRS 4. In 2004, assets held to cover linked liabilities and provision for linked liabilities were aggregated and reported as insurance assets and insurance contract liabilities.

BARCLAYS PLC

11. Other liabilities

| | As at | | | |
|---|----------|----------|----------|----------|
| | 30.06.05 | 01.01.05 | 31.12.04 | 30.06.04 |
| | GBPm | GBPm | GBPm | GBPm |
| Obligations under finance leases payable | 338 | 353 | 353 | 352 |
| Balances arising from off-balance sheet financial instruments | | | 18,009 | 12,829 |
| Sundry creditors | 5,477 | 5,021 | 3,851 | 3,531 |
| Accruals and deferred income | 3,834 | 4,495 | 6,820 | 5,396 |
| Short positions in securities | | | 53,903 | 57,438 |
| | ----- | ----- | ----- | ----- |
| | 9,649 | 9,869 | 82,936 | 79,546 |
| | ----- | ----- | ----- | ----- |

As at 1st January 2005, balances arising from off-balance sheet instruments were reclassified to derivative financial instruments and short positions in securities to trading portfolio liabilities.

Also from 1st January 2005, accruals and deferred income no longer includes accrued interest, which is included in customer balances as part of the amortised cost.

12. Other provisions for liabilities

Edgar Filing: BARCLAYS PLC - Form 6-K

| | 30.06.05 | As at | | 30.06.04 |
|---|----------|----------|----------|----------|
| | GBPm | 01.01.05 | 31.12.04 | GBPm |
| | | GBPm | GBPm | |
| Customer loyalty provisions | | | 12 | 15 |
| Redundancy and restructuring | 70 | 97 | 97 | 34 |
| Undrawn contractually committed facilities and guarantees | 48 | 55 | 55 | 85 |
| Onerous contracts | 42 | 39 | 39 | 13 |
| Sundry provisions | 226 | 212 | 213 | 182 |
| | ----- | ----- | ----- | ----- |
| | 386 | 403 | 416 | 329 |
| | ----- | ----- | ----- | ----- |

As at 1st January 2005, the customer loyalty provision has been reclassified to other liabilities.

BARCLAYS PLC

13. Legal proceedings

Proceedings have been brought in the United States against a number of defendants, including Barclays, following the collapse of Enron. In each case the claims are against groups of defendants. Barclays considers that the claims against it are without merit and is defending them vigorously. A court ordered mediation commenced in September 2003 but no material progress has been made towards a resolution of the litigation. In addition, in respect of investigations relating to Enron, Barclays is continuing to provide information in response to enquiries by regulatory and governmental authorities in the United States and elsewhere. It is not possible to estimate Barclays possible loss in relation to these matters, nor the effect that it might have upon operating results in any particular financial period. Barclays is also currently in negotiations with the staff of the US Securities and Exchange Commission with respect to a settlement of the Commission's investigation of transactions between Barclays and Enron. Barclays does not expect that the amount of any settlement with the Commission would have a significant adverse effect on its financial position or operating results.

Barclays is engaged in various other litigation proceedings both in the United Kingdom and a number of overseas jurisdictions, including the United States, involving claims by and against it, which arise in the ordinary course of business. Barclays does not expect the ultimate resolution of any of the proceedings to which Barclays is party to have a significant adverse effect on the financial position of the Group.

BARCLAYS PLC

14. Contingent liabilities and commitments

| | 30.06.05 | As at | | 30.06.04 |
|------------------------|----------|----------|----------|----------|
| | GBPm | 01.01.05 | 31.12.04 | GBPm |
| | | GBPm | GBPm | |
| Contingent liabilities | | | | |

Edgar Filing: BARCLAYS PLC - Form 6-K

| | | | | |
|--|---------|---------|---------|---------|
| Acceptances and endorsements | 271 | 303 | 303 | 530 |
| Assets pledged as collateral for security | 35,703 | 30,011 | 30,011 | 26,334 |
| Other contingent liabilities | 8,503 | 8,245 | 8,245 | 7,800 |
| | ----- | ----- | ----- | ----- |
| | 44,477 | 38,559 | 38,559 | 34,664 |
| | ----- | ----- | ----- | ----- |
| Commitments | | | | |
| Standby facilities, credit lines and other commitments | 163,037 | 134,051 | 134,051 | 119,887 |
| | ----- | ----- | ----- | ----- |

Contingent liabilities increased by 15% (GBP5.9bn) to GBP44.5bn (1st January 2005: GBP38.6bn) due to the increased indemnifications issued by Barclays Bank PLC to Barclays Global Investors' clients for securities lending activities.

Commitments increased by 22% (GBP28.9bn) to GBP163.0bn (1st January 2005: GBP134.1bn) primarily as a result of the growth in Barclaycard due to Juniper, and new facilities in Barclays Capital and UK Business Banking.

BARCLAYS PLC

15. Market risk

Market risk is the risk that the Group's earnings, capital, or ability to meet its business objectives, will be adversely affected by changes in the level or volatility of market rates or prices such as interest rates, credit spreads, foreign exchange rates, equity prices and commodity prices.

Barclays Capital's market risk exposure, as measured by average total Daily Value at Risk (DVaR), decreased in the first half of 2005 compared to the first half of 2004. This was mainly due to a reduction in interest rate risk and an increase in diversification effect.

Total DVaR as at 30th June 2005 was GBP31.0m (31st December 2004: GBP31.9m; 30th June 2004: GBP26.0m).

Analysis of Barclays Capital's market risk exposures

The daily average, maximum and minimum values of DVaR were calculated as below:

| | Average | Half-year ended | |
|------------------------|---------|-----------------|-------|
| | GBPm | 30th June 2005 | |
| | | High1 | Low1 |
| | | GBPm | GBPm |
| Interest rate risk | 24.1 | 42.4 | 15.4 |
| Credit spread risk | 23.3 | 27.9 | 19.3 |
| Foreign exchange risk | 2.9 | 5.3 | 1.6 |
| Equities risk | 5.2 | 7.3 | 3.9 |
| Commodities risk | 5.8 | 7.6 | 4.5 |
| Diversification effect | (30.9) | n/a | n/a |
| | ----- | ----- | ----- |

Edgar Filing: BARCLAYS PLC - Form 6-K

| | | | |
|------------|-------|-------|-------|
| Total DVaR | 30.4 | 37.4 | 25.4 |
| | ----- | ----- | ----- |

Half-year ended 31st December 2004

| | Average | High1 | Low1 |
|------------------------|---------|-------|-------|
| | GBPm | GBPm | GBPm |
| Interest rate risk | 19.7 | 29.4 | 15.1 |
| Credit spread risk | 20.3 | 24.1 | 16.1 |
| Foreign exchange risk | 3.1 | 7.4 | 1.6 |
| Equities risk | 4.3 | 7.9 | 2.4 |
| Commodities risk | 8.2 | 14.4 | 4.5 |
| Diversification effect | (24.9) | n/a | n/a |
| | ----- | ----- | ----- |
| Total DVaR | 30.7 | 40.7 | 24.0 |
| | ----- | ----- | ----- |

Half-year ended 30th June 2004

| | Average | High1 | Low1 |
|------------------------|---------|-------|-------|
| | GBPm | GBPm | GBPm |
| Interest rate risk | 30.5 | 53.6 | 19.0 |
| Credit spread risk | 25.0 | 32.9 | 16.0 |
| Foreign exchange risk | 1.8 | 3.0 | 0.9 |
| Equities risk | 4.1 | 7.9 | 2.2 |
| Commodities risk | 3.7 | 7.8 | 2.2 |
| Diversification effect | (27.0) | n/a | n/a |
| | ----- | ----- | ----- |
| Total DVaR | 38.1 | 46.8 | 25.7 |
| | ----- | ----- | ----- |

1 The high (and low) DVaR figures reported for each category did not necessarily occur on the same day as the high (and low) DVaR reported as a whole. Consequently a diversification effect number for the high (and low) DVaR figures would not be meaningful and it is therefore omitted from the above table.
