The Trustees

AmerisourceBergen Employee Investment Plan

We have audited the accompanying statements of assets available for benefits of the AmerisourceBergen Employee Investment Plan (formerly AmeriSource Corporation Employee Investment Plan) as of December 31, 2002 and 2001, and the related statement of changes in assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in its assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2002 is presented for purposes of additional analysis, and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements

December 31, 2002

1. Description of Plan

The following description of the AmerisourceBergen Employee Investment Plan (formerly the AmeriSource Corporation Employee Investment Plan) (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Amendment and Restatement

The Plan was amended and restated effective July 1, 2002 to reflect: (1) specific design changes intended to implement the integration of the benefits programs of AmeriSource Health Corporation and Bergen Brunswick Corporation as a result of the merger of these companies with and into AmerisourceBergen Corporation which was consummated August 29, 2001; (2) the name change of the Plan from the AmeriSource Corporation Employee Investment Plan to the AmerisourceBergen Employee Investment Plan as a result of the merger of the Bergen Brunswick Pre-Tax Investment Retirement Account Plus Employer Contribution Plan with and into the AmerisourceBergen Employee Investment Plan and its related trust to form a single Plan within the meaning of Section 414(l) of the Internal Revenue Code; and (3) the amendment and restatement of the Plan to comply with provisions of GUST and The Economic Growth and Tax Relief Reconciliation Act of 2001.

General

The Plan is a defined contribution plan that covers eligible employees of AmerisourceBergen Corporation and affiliated companies (the Company), who have at least 30 days of continuous employment (six months of continuous employment prior to July 1, 2002) or 1,000 hours of service during 12 consecutive months, beginning with the first hour of service, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute between 2% and 18% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Through June 30, 2002, the

Edgar Filing: AMERISOURCEBERGEN CORP - Form 11-K

Company contributed to the Plan for each participating employee who was employed by the Company on the last day of each calendar month,

Contributions (continued)

an amount equal to 50% of the participant's contributions up to 6% of eligible pretax compensation. Effective July 1, 2002, the Company contributes to the Plan for each participating employee an amount equal to 100% of the participant's contributions up to the first 3% of eligible pretax compensation and 50% of the participant's contributions for the next 2% of eligible pretax compensation.

Additional amounts may be contributed, to each participating employee who is employed by the Company on the last day of the Plan year, at the discretion of the Company's Board of Directors.

Upon enrollment, a participant may direct the investment of employee and employer contributions to any of the Plan's fund options. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) plan earnings, and is charged with benefits paid directly to the participant and allocations of (a) administrative expenses and (b) plan losses. Allocations are based on participant earnings, losses, or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The balance of forfeited nonvested accounts was not material as of December 31, 2002. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Prior to July 1, 2002, vesting in the Company contribution plus actual earnings or losses thereon was based on years of continuous service. Effective July 1, 2002, participants are immediately vested in their Company matching contribution plus actual earnings or losses thereon. Vesting in the Company discretionary contribution portion of their accounts plus actual earnings or losses thereon is based on years of continuous service as follows: 25% per year after two years of credited service until they are 100% vested after five years of credited service.

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance during the preceding year, or 50% of their vested account balance. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% as determined by the Plan Administrator on the date the loan is processed. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments in certain situations as defined in the Plan document. Participants with a vested account value of less than \$5,000 will be paid in a lump-sum as soon as practicable after retirement, termination, disability or death of the participant. In certain situations, such as in cases of financial hardship, a participant who is an active employee may elect to withdraw a portion of his or her vested account balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices that represent the net asset values of shares held by the Plan at year-end. Common stock is valued at the closing value on the last day of the Plan year. The participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

During 2002, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated in fair value as determined by quoted market prices as follows:
