Item 8.01. Other Events

On January 20, 2005, BioDelivery Sciences International, Inc. (the Company) announced that it signed a definitive licensing agreement with Sigma-Tau Industrie Farmaceutiche Riunite S.p.A. (Sigma-Tau Pharma) for the application of the Company's Biotranocochleate delivery technology to formulate up to four proprietary pharmaceutical compounds currently under development by Sigma-Tau Pharma. Sigma-Tau Pharma is an affiliate of The Sigma-Tau Group, one of Italy's leading pharmaceutical companies. Simultaneously with this licensing agreement, the Company announced that it entered into a stock purchase agreement with, and received a non-refundable upfront payment of US\$250,000 from, Sigma-Tau Finanziaria S.p.A. (Sigma-Tau), a holding company of The Sigma-Tau Group. This upfront payment was made in consideration of unregistered shares of the Company's common stock priced at \$4.25 a share.

The stock purchase agreement with Sigma-Tau provides for the acquisition by Sigma-Tau, upon the occurrence of specified developmental milestones associated with the license, of additional unregistered shares of Company common stock, up to an aggregate potential of \$1,500,000 worth of such shares. These milestones lead up to and include the filing of product INDs by Sigma-Tau Pharma for one or more of the four subject encochleated compounds. Such additional unregistered shares will be issued at the lesser of: (i) \$4.25 and (ii) the average of the closing trade price of the Company's common stock for the ten (10) trading days through and including the applicable payment date, with an absolute floor \$3.38 per share. Sigma-Tau, through other holding entities, is currently a stockholder of the Company. In addition to the milestone payments, the Company will receive a royalty on future sales of each of the four products which may arise from the encochleated compounds. Additional information about these transactions can be found in the agreements and press release attached as exhibits to this Form 8-K.
